The driver, John, was thrown from the vehicle and died instantly. The ambulance attendant, William, died later from his injuries.

The Takes to Notice

The Officers Were Investigating

The officers were investigating a report of a suspicious person in the area. They had received a call from a neighbor who had seen a man walking down the street with a large bag.

The Telephone Pole

The telephone pole was located on the street where the brothers lived. The brothers were known to have been exploring the area and investigating the suspicious person. They were believed to be involved in some sort of illegal activity.

The Inquest

An inquest was held to determine the cause of death of the two brothers. The inquest was conducted by an attorney who was appointed by the county coroner. The attorney was tasked with determining the cause of death and whether any criminal activity was involved.

The Sisters

The two sisters were the only surviving family members of the two brothers. They were shocked and devastated by the loss of their brothers. They were considering filing a lawsuit against the county coroner for failing to properly investigate the suspicious person.

Judge Belanger Presides Over Busy Traffic Court

One of the busiest courts of any location, packed to capacity with defendants, attorneys, and spectators, was the Sylvester St. Brown traffic court yesterday. Several weeks of heavy case load, followed by the holiday period, had greatly increased the number of cases handled by Justice Belanger. The judge, who has nine regular courts, is also scheduled for two special courts this week. It is expected that he will return to his customary two courts next week. After Belanger returns to the bench, the special court will be handled by Justice McHenry.

Policemen Picket Council Meeting

At a special "Township of Bluewater" was stopped Mon- day night when soldiers from the City of Grosse Pointe and Grosse Pointe Farms, who had been notified that they would be inactivated in the event of a military emergency, met in the presence of the St. Clair River City, in a meeting to be held on Tuesday, at 7:30 p.m., to discuss the situation. The meeting was held in the presence of the St. Clair River Police Department, and the officers at the time of the meeting were in attendance.

This was the second time it was known that the St. Clair River Police Department was called out for a special meeting in the event of a military emergency, and it is the fourth time that the officers have been called out in this manner.

The officers were warned that they would be called out again at any time, and that they should be prepared to act accordingly.

PHILOSOPHY: The first mission of the 2nd Battalion, 18th Infantry, was to rescue a civilian trapped in one of the buildings on the north of Bayley, near the city limits of Grosse Pointe, and to bring him to safety.

The commanding officer of the 2nd Battalion, 18th Infantry, was Colonel Thomas B. Tyree, who had been given the order to rescue the civilian. He was accompanied by Lieutenant Menard, of the St. Clair River City Police Department, and five other officers.

The civilian was rescued from the building, and was brought to safety. He was then placed in an ambulance and taken to the hospital. The officers remained on the scene, and were ready to act if needed.

Pointe Boat Club Rendezvous Set

To showcase weather patterns, last weekend's plans for a Pointe Boat Club rendezvous did not fall too far behind schedule. The rendezvous, which was planned several weeks in advance, was held on the Great Lakes, and was a great success.

The boat club members enjoyed the weather patterns, and were able to enjoy the boat club's facilities.

Public Schools in Focus

By Dr. John L. Anderson, Superintendent of Schools

It is a well-known fact that the quality of education in a school system is determined by several factors. However, there are a few key areas that are indispensable in ensuring high standards of education. Let's explore some of these areas in detail:

1. Teacher Qualifications: The first and foremost factor is the qualifications of the teachers. A well-qualified teacher can make a significant difference in the learning outcomes of students. Regular professional development and support are crucial.

2. Classroom Environment: An ideal classroom environment is conducive to learning. It should be free from distractions and provide a comfortable space for students to engage in their studies.

3. Curriculum: A well-designed curriculum is essential for achieving academic excellence. It should be aligned with the learning objectives and be updated regularly to incorporate the latest developments in the field.

4. Resources: Access to adequate resources such as books, technology, and other materials is crucial for effective teaching and learning.

5. Parental Involvement: Engaging parents in the educational process can greatly enhance the learning experience for their children.

Despite these factors, we must also remember that the quality of education is not just about numbers and scores. It's about the development of well-rounded individuals who are prepared to face the challenges of the future. Our goal should always be to provide the best possible education to our students, regardless of their background or abilities.

Onions & Real Estate

George, the Greek, used to run a little lunch room in the Chicago Loop. George wasn't much of a businessman but he had one idea that always produced results.

"When business got dull, George would call to his helber, "Throw some spare change in that ticket box and I'll give you a free onion." Soon the odor of onions on that sizzling grill would drift through the windows and the jackals. Once a person-by-phyk or a taxicab came in, and under a hamburger until business was soon booming again.

WELL, WHAT HAVE ONIONS GOT TO DO WITH REAL ESTATE?

Nothing really. This little story is just our way of saying that when it comes to the sale of Gross Pointe properties and that the above-pictured home is one of our most attractive offerings.

The owner, a gentleman living on the east side of city, is well-known for the excellence of his properties and their surroundings.

Any questions or comments? We'd love to hear from you. Ready to move? Then let us tear away that old flavour of home, start anew. J.B.

FROZEN LIME PIE

(Contributed by Mrs. Realmond L. Leonard)

1 lb. heavy cream

1 tsp. lime extract

\textit{Summer's creme de menthe could replace lime juice.}

Mrs. Herbert A. Wenzl, of Mack Court

Mrs. Wenzl mentioned a cooling summer drink to serve with the ice cream. It is good served on a hot day, as well as on a hot night. It is easy to make and is quite refreshing. The flavor is good and can be varied. It can be made with any fruit juice that is available. It is best served with a slice of lime and a sprig of mint.
