

PRE-ELECTION SENTIMENT STRONG IN FAVOR OF "WATERFRONT PARK"

Alger Home Scene of Dry Law Reform Meeting

MRS. ALGER PRESIDES AT MEETING OF WOMEN'S DRY LAW REFORM UNIT; HUDSON ATTACKED; TO AID PERSON

The home of Mrs. Frederick M. Alger, 17700 East Jefferson, Grosse Pointe Village, was the scene of a meeting early this week of the Detroit branch of the women's organization for Prohibition Reform to endorse the candidacy of State Senator Seymour H. Person of Lansing, for Congressional representative from the sixth district.

"PERSON FOR CONGRESS CLUB" IN BITTER ATTACK ON GRANT HUDSON

The Constitution of the United States provides that representation in Congress shall be based on the census which shall be taken every ten years, writes the "Person for Congress Club."

ELEVENTH ANNUAL FLOWER SHOW TO BE HELD IN SEPTEMBER AT CLUB

The eleventh annual Flower, Fruit and Vegetable Show of the Grosse Pointe and Eastern Michigan Horticultural Society will be held at the Neighborhood Club, Grosse Pointe Village, on Friday, Saturday and Sunday, September 12th, 13th and 14th.

GROSSE POINTE SOCIETY

By DOROTHY DEE

BIRTHS

August 6—To Mr. and Mrs. John Parker (Evelyn Burgess), 1012 Maryland avenue, Grosse Pointe Park, a son, Clyde C. Parker.

Correction

Last week's issue stated that Dr. Higgins would double his office facilities. We should have said the doctor had just opened a nice fully equipped sanitary dental office at 14350 Kercheval, corner Chalmers, where he will give free examinations and estimates to anyone who will visit his dental office.

Council Lets Contracts on Farms Water Plant

At a council meeting in Grosse Pointe Farms, Mich., on August 11, the council called for construction of a water and filtration plant were awarded to the H. G. Christman-Burke company.

Voters Attention

Are you registered? Because of the great interest being taken by Grosse Pointers in the candidacy of Seymour H. Person for Congress, we call your attention to next week's REVIEW when full particulars regarding registration for election in the coming primaries will be announced by Daniel G. Allor, Township clerk.

Villagers Win Double Header; Vapor Stove and Faith Lutheran

ELECTION ON "WATERFRONT PARK" BOND ISSUE, AUGUST 25, AWAITED BY RESIDENTS; VICTORY CERTAIN

Pre-election sentiment in favor of the "Waterfront Park in the Park" is growing stronger day by day according to Alfred Garska, president of the Park council, who last week issued the call for a special election on the proposition. The special election will take place on Monday, August 25, in the Park, for the purpose of voting on a \$490,000 bond issue to finance the purchase and improvement of a site for a "Lake front Park in the Park."

REMEMBER, PARK RESIDENTS!

One week from Monday, August 25, is the date for the special election in the Park to decide on the issuance of a \$490,000 bond issue that funds might be available to purchase a site and defray expenses of developing a "Waterfront Park in the Park."

BULLETIN

Grosse Pointe Park police today were intent on the search for the killer of a man slain late Wednesday evening while driving his automobile at Mack and Lakepointe avenues. The man, Cicero Mangipani alias Carlo Stilliana, described by police as a racketeer, was shot four times by an unidentified man riding in the back seat of his car.

GROSSE POINTE YOUTH DEMANDS AN INQUEST IN KILLING OF BROTHER

In a formal protest against the shooting of his brother, George Ripley, 17, who was killed by Detroit police last week when they said they found him attempting to steal gasoline out of an automobile, Russell Ripley, of 700 Cadieux road, Grosse Pointe Village, demanded that there be an inquest into his brother's death.

Hupp Pioneered "8" Cylinder Car Field in Automobile Trade

The last two years have seen some drastic changes and developments in automobile design. Today there is but one large producer in the four cylinder field. Most manufacturers passed to the six cylinder field two and three years ago.

The last 18 months have brought another decided trend—this time to the eight cylinder field. Not only has this trend been to the field pioneered by Hupmobile, but so concentrated has eight cylinder production become that no room is left for those six cylinder cars priced above the \$1500 field—thus fulfilling a prediction made two years ago by Hupmobile.

Ten years ago Hupmobile began a period of intensive experimentation in the field of the straight eight engine. It was the year following the first straight eight triumph in the gruelling 500 miles race, on the Indianapolis Speedway. Curiously enough, it has been a straight eight engine, especially built for racing, that has each year won first place since 1919.

For more than four years, engineers were building up, tearing down and test driving Hupmobile straight eights—long before this company announced its first car of this type. Few automobiles probably passed through such an intensive period of testing their metal. The first Hupmobile straight eights were shipped to the dealer organization in 1924. Prior to this the company had built only four cylinder cars. Leaders in its price field of four cylinder cars, it was only natural that the next step would be to the eight cylinder group.

Within the past two weeks, two large manufacturers have announced complete lines of eight cylinder cars—both of which are straight eights. It is quite probable that other manufacturers, adopting Hupmobile's pioneer principle of eight cylinder construction, will add still more cars in the eight cylinder field.

"The Cuckoos" at Aloma Theater

Proving that there is, after all, something new in motion pictures, "The Cuckoos," Radio Pictures' riotous extravaganza of nonsense, shows at the Aloma theater Sunday and Monday, August 17 and 18, and will give local audiences the comedy treat of their lives.

Filled with mad waggery and delirious fun, "The Cuckoos" is a new type of screen musical which seems to come about the closest to one hundred percent popular appeal that any picture ever has achieved. "The Cuckoos" is not a revue; and it is not a musical comedy. The film is based on a well-developed plot and has a pleasing little romantic story running throughout.

But the comedy is of prime importance. Those two mad wags, Bert Wheeler and Robert Woolsey of "Rio Rita" fame clown their way through the show carrying everything with them. The picture is completely theirs—a delicious concoction of delightful nonsense, wild fun and side-splitting comedy gags. Never before has any screen production presented comedy throughout and succeeded in making every moment one of unadulterated glee.

Ramon Novarro Stars in Film at Michigan

Ramon Novarro, in the picture which first brings his voice to the talking screen in operatic song is surrounded by one of the most elaborate casts he has headed in a long time, in "The Call of the Flesh" which is showing at the Michigan theater this week.

Dorothy Jordan, who played opposite the star in "Devil May Care" and "The House of Troy," again acts as his heroine in the present story, a vivid drama of the life and love of a Spanish opera singer, the role played by Novarro in the picture. Renee Adoree, who played with him in "The Pagan" and "Forbidden Hours" and won fame as "Melisande" in "The Big Parade," plays the rival sweetheart as a fiery Spanish dancer.

Ernest Torrence is seen as the singer's aged teacher, a former opera star, and Mathilde Comont, French stage actress, appears as another former opera star also aiding in launching the

young singer to success. Nancy O'Neil is seen as the mother superior in the convent scenes, and Russell-Hopton, stage actor, plays a talking screen role as the heroine's brother.

News from WXYZ

Del Delbridge, popular master of ceremonies of the Public Theaters in Detroit, Mich., whose pianologues of request numbers, now a permanent late afternoon feature of the program of station WXYZ, Detroit, is one of the best clients of the United States Post-office Department. Del's daily fan mail at the station requires of the services of a mail carrier, whose burden consists entirely of fan mail, for this popular entertainer. Most of the mail consists of requests for Del to play or sing some particular song hit, and the rest of it contains requests for Del's photograph. During his three years in Detroit, Del's mail has grown from an average of 50 letters a day to an average of 1500.

George Ray, who recently joined the staff of Station WXYZ, Detroit, as male soloist with Carl Rupp and his Michiganers, on their two Columbia Chain programs, Friday and Monday of each week, started his professional career as a wandering minstrel. His tenor voice got him a job with a blackface minstrel troupe and his fund of good humor enabled him to keep the job. He traveled over the entire country singing with minstrel troupes. Later he went into vaudeville and musical comedy.

Arrangements have been made whereby Public stars visiting Detroit to play at the Michigan or the Fisher theaters will be introduced to the public over Station WXYZ, the same radio station through which the Paramount-Public hour is weekly broadcast from New York or California, as the case may be. When such stars are singers or musicians, they will contribute a number or two over the air. Recently Helen Kane sang and Jack Oakie did some wisecracking over WXYZ.

"Good News" at United Artists

"Good News" the merry, rollicking comedy of youthful collegiate life which as a stage show opened and enjoyed a long run in Detroit, returns to this city as the latest talking movie, coming to United Artists Theater with a Thursday opening. Scenes merely mentioned in the stage show production are actually shown in the motion pictures, which might be described as one long, continuous, melodious laugh. A coterie of young comedians in some of the most excruciating situations ever brought before an audience, make this one of the funniest shows in years.

Bessie Love, making her first screen appearance since her recent marriage; Mary Lawlor, the newcomer from the stage, who literally jumped into popularity on the vocal screen; Ukelele Ike, known in private life as Cliff Edwards; Stanley Smith, most popular of the younger comedians; Gus Shy, who looms up like a second Jack Oakie; Lola Lane and many others make the cast of "Good News" one to provoke and hold the attention of discriminating movie fans.

"Queen High" at Fisher Theater

"Queen High," the successful Broadway stage romantic comedy, has been made into a gay talkie and is now on the Fisher theater screen.

Paramount has selected from its best for the featured roles in this production. Ginger Rogers and Charles Ruggles have the leading parts, with Stanley Smith, Frank Morgan, Helen Carrington and Nina Olivette play important bits.

Schwab and Mandel, the Broadway producers who brought "Queen High" to the stage, produced this celluloid version for Paramount. Fred Newmeyer directed.

On the Fisher stage a new modernistic creation, "Impressions" is the feature.

Fenita Gould, the stage's most talented impersonator, heads the cast. She gives impressions of Al Jolson, Ted Lewis, Fanny Brice and noted celebrities.

Del and his syncopators and the Fisher ballet, with a huge cast of

Public stars, comprise the group of entertainers in this production.

Clara Bow, Mitzi Green at Riviera

Clara Bow and a gang of Paramount's most convulsing comedians, including Mitzi Green, Skeets Gallagher and Stewart Erwin, the dumb Axel of "Sweetie," are coming to the Public Riviera theater for one week starting Saturday, in Clara's newest starring picture, "Love Among the Millionaires."

This vehicle is a true Bow story. Clara, unwittingly, falls in love with a brakeman on the railroad, Stanley Smith, who turns out to be the son of the president of the road. Neither Clara's father nor Stanley's approve of the match and a deal of family complication ensues before the matter is finally straightened out to everyone's satisfaction.

Little Mitzi Green, who has won hearts everywhere with her imitations of Charlie Mack of Moran and Mack; of Maurice Chevalier and Helen Kane in "Paramount on Parade" mimics Miss Bow in "Love Among the Millionaires." Skeets Gallagher and Stewart Erwin both have strong comedy roles as the rival candidates for the hand of Clara Bow.

"Devil May Care" on Aloma Screen Saturday

While "Devil May Care," Ramon Novarro's new M-G-M talking picture, was made mainly for romantic purposes, it will carry down to posterity a picture of one of the great moments of history. "Devil May Care" is one of the feature pictures at the Aloma theater Saturday, August 16.

The great scene when the Council of Allies met and read the formal abdication of Napoleon Bonaparte, has been filmed with fidelity to facts by Director Sidney Franklin. Also the action is presented covering the banishment of Bonaparte to the island of Elba.

This banishment, and the subsequent imprisoning of Napoleon's lieutenants, provides the excuse for the plot of "Devil-May-Care," adapted by Richard Schayer, Hans Kraly and Zelta Sears

from the French play by Scribe and Legouve.

Novarro, a Bonapartist lieutenant, escapes from the guns of an execution squad and finds refuge in the chateau of a friend, the Countess. Attired in the disguising livery of a servant, Novarro plays out a novel love story with the leading woman of the piece, the dainty Dorothy Jordan of dozens of musical comedies.

Grosse Pointe Poloists Vanquish Toronto Team

Aided by a three-goal handicap the Grosse Pointe Polo team won its second successive victory over the Toronto Polo Club at Toronto last week, the score being 11-10. Paul Denning and Tod Hammond turned in a brilliant performance in leading the Grosse Pointe team to victory.

Oil the Leather

Plain linseed oil is an excellent revive for morocco leather. It not only cleans it, but feeds it as well, a treatment which all leather needs at intervals. Leather that does not receive attention of this kind becomes starved and quickly deteriorates.

"Prince of Diamonds" on Aloma Theater Bill
The ideal background for a stirring melodrama is an Oriental seaport.

In "Prince of Diamonds," the Columbia all-talking drama of adventure, at the Aloma theater Saturday, there is a bit of action which, although it lasts but a few minutes, makes a tremendous impression on the imagination because of the vivid setting.

Aileen Pringle and Ian Keith interpret the leading roles. Karl Brown and A. H. VanBuren are responsible for the direction. A large star cast play supporting roles.

"Journey's End" at the Punch and Judy
"Journey's End," the war play that had played around the world before it was a year old, and that raised an obscure author to fame, defies the biggest dramatic convention by not having a woman in it or a love story—and yet it is crammed with a vital love interest.

In the Tiffany all-dialogue production of this R. C. Sheriff masterpiece, coming to the Punch and Judy theater Friday, Saturday, Sunday and Monday, August 15, 16, 17 and 18, a key of romance is struck when Lieut. Osborne, gray-haired and three years in war service, tells Lieut. Raleigh, young and just arrived in the front line trench, to "think of it all as romantic—it helps."

The first love interest shows in the hero worship of the schoolboy Raleigh for his idol, Stanhope. He comes into the trenches and finds his idol wearing clay feet, but he understands why and how he came a drunkard and still sees him as his hero.

Second is the love of Stanhope for Raleigh's sister. She is never seen—not even her photo is shown to us, but if she were there before you could not have a more poignant love story than is told you with her absent.

Third is the love for home and the nice things of life to which every man has a right—that all these men had before the hysteria of nations sent them to the war—before they were herded in dark, damp, rat-infested, vile-smelling holes underground—and then sent out to be blown to destruction in the name of love of country—patriotism!

James Whale directed "Journey's End," a story that he knows probably even better than its author, for he has directed many of its stage productions. George Pearson supervised and RCA Photophone recorded. Colin Clive, by special permission of Maurice Browne, Ltd., plays the role of Capt. Stanhope, David Manners plays young Raleigh, Ian Maclaren is Osborne and others are Billy Bevan, Anthony Bushell, Jack Pitcairn, Thomas Whiteley, Charles Gerrard and Warner Klingner.

"SO THIS LONDON" AT THE PUNCH AND JUDY THEATER (Continued from Page Two)
his screen wife, Irene Rich, and his screen son, Frank Albertson, go through the formality of answering all questions required by the office.

Will gets along fairly well until the official demands proof of his birth. "Say," yells Will, "down where I come from when we meet a fella we kinda take it for granted that he's been born."

With that out of the way the official demands witnesses to his birth and Will flares back: "Well, you see my folks were plain sort of people and mother wasn't the kind to make a public ceremony over a birth. There wasn't nobody around at the time but mother and me and the doctor."

"So This Is London" is based on the stage success written by Arthur Goodrich and produced by George M. Cohan.

The dialog of the audible version is by Owen Davis, Sr., Irene Rich heads the supporting cast and John G. Blystone directed the production.

Iceland Althing First of World Parliaments

Iceland in June, 1930, celebrated two great events: the one hundred nineteenth birthday of Jon Sigurdsson, its George Washington, who brings home rule from Denmark in 1874; the thousandth anniversary of the althing, oldest parliament in the world.

A century before the battle of Hastings, 850 years before our own government was founded, the franklins (free landowners) of Ireland were living under a constitution (the constitution of Ulfhog) and a regularly constituted lawmaking body. The althing met in midsummer and was the occasion for great feasts and merry-making, as well as numerous bruises, lacerations and concussions.

What political life and law were like in the old days is recorded in Icelandic sagas and law codes. The althing did not function perfectly, nor did the judicial system which was set up, the real governing being done by the various chieftains; nevertheless, the althing forms a magnificent tradition. It looks down from its hoary eminence with paternal solicitude for such youthful bodies as the English house of commons and the United States congress.

Many Plants That Lure Insects to Their Death

There are a great many varieties of insectivorous plants which grow almost all over the world. The first group of these plants is known as the pitcher plants, which have the blossom in the form of a pitcher which acts as a death trap for flies and other insects. The insects are attracted by a fragrance or some other lure, enter the mouth of the pitcher, and crawl down toward the bottom, being forced onward by small spikes downward pointing from the sides of the pitcher's throat. The poor fly is thus given no chance to escape and when he reaches the bottom he is caught in the sticky mass of fluid there and his body juices absorbed by the plant. Two other types of insectivorous plants are the Venus flytrap genus and the Dionaea which grows only in the low coast regions of North Carolina. This little plant is probably the most famous stem variety of the insect-eating plants. A third type is a Sundew Drosera, which is common to Australia. This is also a large genus containing a great variety of species.

Bit of Greece in France

Antibes, like all the other places along the fascinating French Riviera, has had a romantic history, says a writer in The Detroit News. It was founded more than 2,000 years ago by descendants of the Greek colonists who had built a thriving city on the site of Marseilles. Legend says that among these first settlers were some men and women who had come from Greece and that they chose Antibes as a place to build because the scenery there reminded them so much of Greece. Phenicians and Carthaginians, Romans and Gauls, Germans and Italians and French—they have all met on this coast in the centuries that have passed since, but Antibes has managed more than any other town in France to retain its Greek appearance.

University's Art Treasure

A full-size copy of Murillo's "Immaculate Conception" in mosaics is in the chapel of the Catholic university at Washington, a gift from Pope Plus XI. Three artists labored nearly four years in the Vatican mosaic studio to piece together nearly 800,000 bits of colored glass and of other mineral compounds which form the finished picture, the original of which is preserved in the Prado at Madrid. The mosaic is 9 1/2 feet long and 6 feet wide. Without a frame, it weighs 6,600 pounds. The pieces are of 20,000 different tints and shades.

Beautiful Capetown

The sea voyage to South Africa is the fair weather voyage of the world. Capetown, once a remote outpost of civilization, is today one of the world's finest cities. It is not only beautiful and delightfully situated but the cape is historical as well, for it was here in 1487 that Dias saw the sea-route to India and this intrepid Columbus, who in his search for India found America instead. The discoveries between 1487 and 1497 mark this era as the dawn after the Dark ages and the first rays hit the cape when Dias discovered his way around.

Mythological Birds

Probably the best known of the fabulous birds of prey were the roc, which was a bird so enormous that it obscured the sun where it flew and carried away men in its talons; the phoenix, which was a bird with a beautiful voice and a long tail like a peacock's, which was supposed to rise from the ashes of fire; and the harpy, which was a terrible bird with a woman's face and breast and great claws like an eagle's, which pursued men who had sinned.

Magnification

The magnifying power of a telescope is proportional to its length as well as the shortness of focus of its eyepiece. Thus the use of different eyepieces yields different magnifying powers, but those exceeding 1,000 are seldom used because of the trembling of the earth's atmosphere. Compound microscopes may magnify as much as 4,000 times.

Most Volcanic Country

Japan possesses 51 active volcanoes; more than any other country in the world.

GROSSE POINTE SOCIETY (Continued from Page One)

lane, Grosse Pointe Farms, and her mother, Mrs. Schantz, left recently to be the guests of Mrs. Henry L. Caulkins of Lewiston road, Grosse Pointe Farms, at her summer home at Pointe aux Pines, Mich. Mrs. Bachman plans to remain for three weeks, and Mrs. Schantz will return after a fortnight. Mrs. Bachman's small son, John Reed, is at Camp Chickapee, Ont., for the summer, and just at present, Mrs. Bachman's brother, John Schantz, is visiting at the camp for two weeks.

Mr. and Mrs. C. Edmund Delbos, of Grosse Pointe, are spending the summer at Bass Rocks, where there is a large colony of artists from all parts of the country. With them during the summer are Mr. Frederick W. Fuger, of Ann Arbor, Mr. and Mrs. Theodore H. Fuger and Pierre G. Fuger, of Grosse Pointe, and Miss Marie Fuger, of Noroton, Conn.

Mr. and Mrs. Philip North Wright, of Muskegon road, Grosse Pointe Farms, are at their summer home in Ontario, Canada. Visiting Mrs. Wright at present is Mrs. E. Kay Ford of Lincoln road, Grosse Pointe Village, with her two children, Jean and Nancy. Mr. Ford left Friday to join them and will bring them back tomorrow. Mrs. Wright will return with them, remaining in Detroit for a few days, before going back to Canada for the remainder of the summer.

Mr. and Mrs. Frederick D. Everts of Bishop road, Grosse Pointe Park, left last latter part of last week for their ranch at the Cabin Lake Club, near West Branch, Mich., where they will stay for the remainder of the season. Mr. and Mrs. Everts will entertain as their guests later in the month, Mr. and Mrs. M. L. Morris.

The marriage of Miss Nancy Bird Griffith, daughter of Mr. and Mrs. Harry William Griffith, will take place September 20 at 4 p. m. in the Grosse Pointe Memorial Church. The service will be followed by a reception at the Keena home in Lakeland avenue, which Mr. and Mrs. Griffith have taken for

"This Mad World" at Aloma Theater

"This Mad World" is the William de Mille M-G-M picture which will be at the Aloma theater Tuesday and Wednesday, August 19 and 20, is an interesting demonstration of several distinct advantages held by the talking picture.

The drama of the picture, a romance laid behind the German line, is highly concentrated. In fact, the whole plot of this Clara Beranger adaptation from a French play, is played between the hours of 4 o'clock of one afternoon and 10 of the next morning.

The play as a whole tells a absorbing story of a conflict between love and patriotism in the hearts of a French spy and a German girl of high rank. In between these two as the personified conscience of the man, stalks the mother of the spy, a majestic figure whose final scene, the last of the picture, will remain log in the minds of those who see it. These three excellent parts are beautifully portrayed, respectively, by Basil Rathbone, Kay Johnson and Louise Dressler.

That de Mille was a great stage dramatist before he became a successful motion picture director can be judged by the ease with which he combines perfect dialogue beautifully spoken, to an instinctive command of the photographic possibilities of the camera.

"The Storm" is at State Theater

No pains were spared by Universal in making "The Storm," now at the State, exactly right as to location and atmosphere—and plenty of pains were the result.

The story called for most of the exteriors to be filmed in rugged mountain country with plenty of snow. However, some of the scenes called for rugged country without any snow. The last item furnished the difficulty.

The entire company went to Sonora, California, where, it was reported, there was a lack of snow. Everything was in order for shooting when a blizzard came. The company waited for several days, then struck out for the vicinity of Truckee, in the High Sierras, to shoot snow scenes in the kind of locality called for by the script.

Weeks later, on receipt of a report that Sonora was clear of snow, the company doubled back there. This time clear weather held, and the required scenes were shot.

Roman Equestrians

In the earlier ages the Romans used neither saddles nor stirrups. Saddles were in use in the Third century, and are mentioned as made of leather in 304 A.D. They were known in England about 600 A.D. Anne, queen of Richard II, introduced side-saddles for ladies.

For better printing call the Grosse Pointe Printing Company, 14935 Kercheval Ave., Lenox 1162.

the summer. Mr. and Mrs. Howard P. Ballantyne, of Grosse Pointe, are August guests at the Oceanside, Magnolia.

Society still travels from resort to resort and the only entertainments scheduled for the month of August are the house parties which are given at the various resorts.

Mr. and Mrs. George S. Hendrie of Hilleret road, Grosse Pointe Farms, have taken a house at Gratiot Beach for a time and are entertaining a few guests each week-end there.

Last week-end Mr. and Mrs. Jerome H. Remick, Jr., of Touraine road, Grosse Pointe Farms, and Mr. and Mrs. John F. Reynolds of Kerby road, Grosse Pointe Farms, were their house guests, and during the week Miss Betty Hendrie, daughter of Mrs. Strathearn Hendrie, of Lake Shore road, visited them. This week-end Mr. and Mrs. Hendrie are entertaining Mr. and Mrs. Walter J. Hoch of Moross road, Grosse Pointe Farms, and Mr. and Mrs. Edward H. Murphy of Lakeland avenue, Grosse Pointe Village.

Among the many families who are heading the urge to go East this summer are the Edwin B. Henrys of Beverly road, Grosse Pointe Farms. Mr. and Mrs. Henry, with their two children, Joan and Edwin B. Jr., left Wednesday for East Hampton, L. I., where they will remain during the month of August.

Mr. and Mrs. Henry Stephens, Jr. and two sons, of Grosse Pointe, have arrived to spend the remainder of the summer with Mrs. Henry Stephens, at Pride's Crossing.

Miss Florence Mills, of Lincoln road, Grosse Pointe, has returned from a visit with Miss Hazel Bisset, who is at her summer home in Leamington, Ont.

After a delightful cruise aboard the Schlotman yacht, Stellaris, Dr. and Mrs. Harry N. Torrey, who returned home last week, left today for the summer home of Mr. and Mrs. Harry M. Jewett, Grousehaven, at Lupton, Mich. Also returning from the cruise was Mrs. Elmer D. Speck of Fairholme, Lake Shore road, Grosse Pointe Shores.

Mr. and Mrs. Luther S. Trowbridge of University place, Grosse Pointe Village, returned from their summer home at Pointe aux Barques last Sunday and are leaving this week again for a camping and fishing trip in Canada. Their son, Albert, and daughter, Miss Florence, will accompany them north, where their destination will be the region in which their son, Luther S. Jr., is at camp.

Leon Lake in New York is the destination of several of Detroit's society folk, who have made this resort their headquarters during part of the summer season. Mr. and Mrs. Walter L. Hunham of Balfour road, arrived home

by motor last Sunday after a stay of 10 days there. Mr. and Mrs. Frank W. Hubbard of Jefferson avenue, Grosse Pointe Village, left the middle of the week for Loon Lake, and their son-in-law and daughter, Mr. and Mrs. Bartow L. Hemiway of Watertown, Conn., who have been guests at the Hubbard home, remained in Detroit a few days longer, and will join them shortly at the Adirondack resort.

With the mercury (locally speaking) playing around the hundred mark it is not to be wondered at that so many Detroiters seek cooler climes, especially among the lakes, mountains and even European resorts.

Among the recent sojourners is Mrs. Paul R. Gray, who is sailing for Europe, Thursday, accompanied by her son-in-law and daughter, Mr. and Mrs. Waldo H. Brown, of Boston, and her niece, Miss Mary Frances Fraser, of Grosse Pointe. They will leave the ship in England for a motor trip through England, Scotland and France.

Harold DuCharme and a party of friends, who have been on a 10-days' cruise, aboard his yacht, Natoya, will arrive in port tomorrow morning. With him are Mr. and Mrs. Carsten Tiedeman of Kenwood road, Grosse Pointe Farms; Mr. and Mrs. Herbert V. Joob and Miss Eleanor McVeigh. Mrs. Mary Dusenbury of Atlanta, Ga., is spending the summer with her son-in-law and daughter, Mr. and Mrs. Tiedeman.

The Grosse Pointe Review

Edited, published and distributed each week by THE GROSSE POINTE PRINTING COMPANY L. Enox 1162 14935 Kercheval Ave. Detroit, Michigan

Jefferson Avenue Baptist Church

"The Christ-Touched Lives." That is the sermon topic for next Sunday morning when Rev. William Laughton of Vermont will bring the message. Rev. and Mrs. Laughton, the parents of Mrs. Allen, are visiting our pastor and family. This service is at 11 o'clock. Invite your friends.

Rev. Allen will be in Flint Sunday morning, speaking in the First Baptist Church, but returns for the evening service at 8 o'clock. He will speak Sunday night on the topic, "The Forgiveness of Sin." Our members and friends find this service a happy, helpful hour. Come and share it with us. A brief organ recital at 7:45 precedes the evening service.

Our Bible School, meeting at 9:45 a. m., continues its effective ministry through the summer Sundays and the young folks of the B. Y. P. U. are present in large numbers each Sunday evening for an inspiring devotional hour before the regular worship service. You are welcome at all of our services.

New Books at the G. P. Library

Have you located your nearest branch library? There is a branch in every village in Grosse Pointe Township and your library card may be used at any branch. There are 9,007 books in the library and 4,227 residents of Grosse Pointe have registered for borrower's cards. During the month of July 7,858 books were borrowed for home use. This number was distributed as follows: 4,160 from the Park Headquarters, 2,952 from the Village branch, 284 from the Farms Center, 249 from the Shores Center, 207 from the Lochmoor Station. During the summer a special vacation privilege is given to those going out of town. At the Park branch 92 have availed themselves of this service and 493 books have been borrowed.

"So This Is London" at Punch and Judy

One of the many hilarious scenes in the Movietone comedy, "So This Is London," starring Will Rogers, which will play the Punch and Judy theater Tuesday, Wednesday and Thursday, August 19, 20 and 21, is the scene in the Passport office where Will, with

(Continued on Page Three)

Why Mention of Thrift Grates on Auto Driver

Charlie when he had his other car developed a system that saved him a lot of pennies—perhaps as many as 100 in the month he labored with it. Charlie lives in a street off Main Street, in Montello, where it is possible to coast the length of it because of the grade, and ride right into his garage. Faithfully he always turned off his ignition at the head of his street and saved gasoline the rest of the way.

Recently when fortune smiled on him, he traded for a new car. On his first trip home with it from the club at night he turned off the ignition and coasted down the hill. However, he forgot that the new motor was equipped with a gimmick which automatically locks the steering wheel when the ignition is shut off. Just as Charlie was about to turn into his street the front wheels failed to answer his tug and he rammed a telephone pole with the right fender before he could bring the machine to a stop.

"It'll cost at least a sawbuck to straighten that out," he moaned, "and all to save a little gasoline."—Brockton Enterprise.

Significance in Name Clemens Made Immortal

Probably the best known nom de plume ever adopted by an American writer is that of Samuel Clemens, "Mark Twain." Usually it is regarded as just a proper name, chosen by the humorist from a book or some family record, as most such names are chosen. But the fact is that it wasn't a proper name at all until Clemens made it such, says the Golden Book Magazine, which tells the story:

"From the carefree days of his life on the Mississippi, Clemens passed to setting type on his brother's newspaper, to piloting a steamboat, and to wandering in the West. Shortly after, he began writing articles for a Nevada paper—clever, fun-poking skits. It was in 1863 that he first adopted the name of Mark Twain. 'I want to sign them Mark Twain,' he wrote. 'It is an old river term, a leadman's call, signifying two fathoms or 12 feet. It has a richness about it; it was always pleasant for a pilot to hear on a dark night; it meant safe water.'"

Women Geographers

The Society of Woman Geographers is a society, organized in 1925, by a group who felt that there should be some medium of contact between women distinguished in geographical work and its allied sciences—ethnology, archeology, botany, natural history, sociology, folklore, arts and crafts, etc. For active membership in this society only those women are eligible who have done distinctive work whereby they have added to the world's store of knowledge concerning the countries in which they have traveled. Corresponding members are those who fulfill the requirements for active membership, but who reside outside the United States of America and Canada. The associate membership admits widely traveled women who are interested in furthering all forms of geographical exploration and research.

Ancient Norwegian Town

Voss is situated about sixty miles from Bergen by rail and resembles very much the "Ostlandet," as the eastern part of Norway is called, being broader and having many pine woods. Voss is a very old village; how old is not quite certain. The inhabitants were christened in 1023, according to Snorre's Heimskringla, by Olaf the Saint. The name occurs before that in the old sagas, and is once mentioned as a kingdom. There is a famous old stone church in the town proper and a Pinne, a short distance from the railroad station, there stands the oldest wooden building in Norway, a so-called Pinne-loft. The town itself is usually spoken of as Vangen, and the surrounding uplands as Voss, although the latter name is generally used for either.

Choosing His Own Name

At one time it was the custom in the Shetland islands for a man to select his own surname, and the last man to do this was Gideon Manson. The custom followed was for a son to twist his father's Christian name and make that his surname, a fact which explains why Gideon Manson's grandfather was called Magnus Robertson and his father James Manson (Magnus' son).

According to custom, Gideon should have called himself Gideon Jameson (i. e., the son of James), but he chose to be known by his father's surname. This ancient custom led to considerable confusion and was finally prohibited by parliamentary enactment.

Farthest From Land

The farthest distance a ship can sail from land is 1200 miles. This may seem strange, for the Atlantic ocean is more than 4000 miles wide, and the Pacific even wider than that. But there are islands in these oceans, and never can a ship be more than 1200 miles from some point of land. The spot of greatest distance from land, is in the Pacific ocean, half-way between, New Zealand and South America.

Can Tire of Peace

Many husbands and wives agree because they chronically disagree. Failing to achieve harmony, they also escape monotony.—American Magazine.

Vitamins in Yeast

Yeast is an excellent source of vitamin B. Vitamin A also is contained in yeast.

Person of Unusual Size Classed as Monstrosity

Many persons admire giants, perhaps envy them, and imagine that they are examples of a superior humanity. A complete error; for gigantism is an anomaly, a monstrosity, as much so as dwarfism. It is really a disease. The work of anthropologists has shown that the giant is a man that is still a child, in whose case growth does not stop at the age when normally he ought to have ceased to grow. The giant is rarely well-proportioned; his hands and feet are almost always too large, his face is generally distorted.

Physicians who have studied gigantism say that giants are all diabetic. Professor Landouzy says also that almost all of them are candidates for tuberculosis. They are subject to all sorts of other morbid troubles; they tire sooner than normal persons; they are unfit for all violent labor; their muscles are weak in spite of their size; their nerves lack resistance, and they are often affected with neurasthenia. Handsome giants are rare.—Jean Lecoq in Le Petit Journal, Paris.

St. David's Day Holiday for Grecian Youngsters

The Welsh are not the only folk who keep holiday on St. David's day, says an article in the Montreal Family Herald. In Greece it is called Swallow day, the festival of spring, when the children go from house to house gathering small gifts and carrying wooden swallows, which they spin around to the accompaniment of folk songs. Some of these "swallow songs" have a long history. One of them has been traced back, indeed, more than 2,000 years.

Jesus college, "Little Wales in Oxford," as the facetious have called it, because of the preponderance of Joneses there, has its own method of celebrating St. David's day. For one thing there is the toasting of St. David in "swig," an exclusive and potent Jesus college brew. This is dispensed by a ladle that holds half a pint, from a beautiful silver-bowl presented for the purpose by Sir Watkin Williams-Wynn in 1732.

Derivation of "Tariff"

According to Edwards' "Words, Facts and Phrases," the word "tariff" comes from the Moorish name "Tarifa," a fortress that stands on Cape Tarifa, a Spanish promontory commanding the entrance to the Mediterranean. When the Moors had possession they levied duties at certain fixed rates upon all merchandise passing in or out of the straits. The Century dictionary and other authorities on etymology, however, give the word a different origin. It comes from an Italian word, "tarifa," meaning "casting of accounts" or "list of prices," which was itself derived from the Arabian "tarif," meaning "knowing."

Adjustable Owl

An "adjustable" owl is on view at the zoo in London. It is known as a European Scops owl, and, though insignificant in size, being normally less than six inches high, it is regarded as a great rarity. The color and markings of its plumage are like those of a tree trunk. When at rest the owl elongates its body and sits motionless in such a position that it resembles the stump of a branch. But a remarkable change comes over it when alarmed. It blows out its body, which visibly grows in size like a toy balloon being inflated. The bird is then almost spherical in shape and quite unlike its elongated self.

They Made Real

A few years ago at a meeting a banker opined that the total amount of money in the world ought to be equivalent to the total wealth of the world; else, he suggested, people would never be able to pay their debts. He explained that in the United States there were \$20 of wealth for every dollar of money, and therefore there was but one chance in twenty of a debtor's paying his debts. "I will give \$5," he said, "to anyone who can disprove that statement." When no one accepted the challenge, a wag suggested it was because there was only one chance in twenty of getting the promised \$5.

Talcum Production

North Carolina powders the nose of the United States, having one of the biggest talcum mines in the country near an abandoned gold mine and much more valuable than any gold mine. From the same rock which provides the finest and softest talcum for the faces and arms of women comes the talcum used in roofing and automobile tires. Much of that is sold to the motor industry, while the finer kind that goes into dainty powder boxes measures 80,000 particles to the inch and is guaranteed to shed water, resist fire and weather and protect all underlying surfaces.—Capper's Weekly.

Three Was the Limit

"You must give your husband five teaspoonfuls of this mixture every night before he goes to bed," ordered the doctor. The patient's wife looked a little disconcerted. "Five?" she said. "I can't do that. I'm afraid that's quite impossible." The doctor frowned. "Impossible?" he said. "Oh, nonsense! What on earth do you mean?" "Well, sir," explained the woman, "I don't think we've got more than three in the house."

Latin Derivatives

It has been estimated that 80 per cent of English words is derived from Latin. This includes those received through the French.

Gates of Death Never Opened for These Two

The prophet Elijah and Enoch never saw death, according to the Bible. II Kings 2:11 says: "And it came to pass, as they (Elijah and Elisha) still went on and talked, that, behold, there appeared a chariot of fire, and horses of fire, which parted them both asunder; and Elijah went up by a whirlwind into heaven." This is undoubtedly a figurative way of stating that the prophet passed from earth by miraculous translation instead of through the gates of death. Likewise Enoch, the father of Methuselah, never saw death, according to Hebrews 11:5. "By faith," that passage says, "Enoch was translated that he should not see death; and he was not found, because God translated him: for before his translation he had this testimony, that he pleased God." This is the basis for the popular but misleading statement that Methuselah, the oldest man mentioned in the Bible, died before his father did. As a matter of fact Methuselah's father never died, according to the Biblical account. Genesis 5:25 simply says: "And Enoch walked with God; and he was not; for God took him."—Pathfinder Magazine.

Much Hinged on Speed Made by Stage Drivers

Old-time stage drivers were ambitious, writes Edward Martin, in the United States Daily. A true test of their mettle was the delivery of the President's message. The letting of contracts by the Post Office department hinged on these deliveries, and if a driver failed to make good time it meant the cancellation of the contract with his employers and the transfer to a rival company.

Dave Gordon, a noted driver, once carried the President's message from Washington, Pa., to Wheeling, a distance of 82 miles in 2 hours, 20 minutes. He changed teams three times in this distance.

Bill Noble, who died in the eighties, claimed to have made the best time on record. He professed to have driven from Wheeling to Hagerstown, Md., 185 miles, in 1 1/2 hours.

Princeton's Famous Ivy

The first class ivy at Princeton was planted by the class of 1877 on its class day at its graduation in June, 1877, and the ceremony was accompanied by an oration, called then and since the ivy oration. The orator in 1877 stated that ivy had been chosen as a symbol of the perpetual remembrance the class would have of Princeton, striking deep, clinging close, and always green. The class of 1877 turned out to be one of the most remarkable classes in after years that Princeton has graduated. The first ivy was planted at the new library. Since then it has been planted at Nassau hall with a tablet naming the class. Some of the ivy has been historic, being brought specifically for the planting, one spray having been sent from the castle in Germany of William of Nassau, prince of Orange, after whom Nassau hall was named in 1756.

Origin of Tile

At the siege of Argos in the year 272 B. C., a tile fragment thrown from a housetop slew the battling king of Epirus. Thus tile played an important part in history.

Tile is one of the oldest building materials, having first been made in the remote ages of antiquity; yet, how many of us know just what tile actually is?

Tile is burned clay, or to be more specific, a carefully proportioned mixture of certain clays and other minerals, after being formed into the desired shape, is heated in a special furnace called a kiln until the particles become so hot that they partially melt and stick together. When cooled, tile, as firm and homogeneous as a piece of stone, results.

Charta's Highlights

The Magna Charta's most important articles are those which provide that no freeman shall be taken or imprisoned or proceeded against except by the lawful judgment of his peers or in accordance with the law of the land, and that no scutage or aid shall be imposed in the kingdom (except certain feudal dues from tenants of the crown) unless by the common council of the kingdom. The remaining and greater part of the charter is directed against abuses of the king's power as feudal superior.

Black Hills Traditions

The Black Hills of South Dakota are rich in tradition. It is the land where Sioux, Cheyenne, Crow, Arapahoe, Pawnee and Mandan Indians fought savagely for possession of a great hunting ground which they named Paha-Sapa, or the Mountains that are Black. Here are the medicinal springs, mini-pahuta, which were believed to be the gift of the Great Spirit. These, too, were prized possessions which the Sioux eventually won and held until they relinquished them to the United States government by treaty in 1876.

Legal

A small boy stilled up to his famous lawyer father and asked: "Dad, you don't charge for advice to members of the family, do you?" "No," admitted his father. "Why do you ask?" "Well," said the small son, "I wanted to find out, when you were a little boy like me and needed a dollar, what did you do?"

For printing of the better kind at reasonable prices call the Grosse Pointe Printing Company, 14935 Kercheval avenue, Lenox 1162.

Railroad Grade Crossings

It is estimated that it would cost \$20,000,000 to remove all railroad grade crossings. A constant effort is being made to remove the more dangerous ones.

Clara Bow in Singing Role in Picture Now on Hollywood Screen

Clara Bow is a singing waitress in a railroad restaurant operated by her father in "Love Among the Millionaires," a delightfully romantic talkie, which plays the Hollywood theater screen Sunday to Thursday.

No previous Bow picture has possessed quite the heart interest, comedy and genuine thrills that "Love Among the Millionaires" does. Clara sings several songs, makes love to handsome Stanley Smith, scion of the rich railroad president, and otherwise performs in popular fashion.

It is in its comedy notes that the new Bow picture is strongest, however. Stuart Erwin and Skeets Gallagher are a pair of rather dumb and struggling young railroaders who go shares on an old flivver and attempt between them to cut in on Clara's heart activities. Little Mitzi Green, the nine-year-old singing and impersonating wonder,

plays Clara's little sister and often threatens to steal the whole show.

The rest of the bill is strong and varied from top to bottom. The Hollywood Merry-makers play new dance numbers in their own way and the visiting vaudeville acts are all that the most jaded fan could hope for.

As usual the Hollywood will give away two new Ford Coupes or Tudors this week one Friday, the other Saturday at 8:45 p. m. each evening.

Presbyterian Church of the Covenant

"Thirsting for the water of life" is to be the subject of Dr. Boden's sermon at the Covenant Church Sunday morning, August 17th, at 10:45.

Dr. Reynold B. Boden is pastor of the Burnage Congregational Church of Manchester, England and is spending the summer in the United States as an exchange preacher between this country and Great Britain. Covenant is fortunate in having secured his services for the first four Sundays in August.

We invite you to hear Dr. Boden. Bible School, 9:30 a. m. Mid-week church night service Wednesday, 8 p. m.

TRUE Saving . . .

Is not a matter of quantity, but of REGULARITY. It resides in the often-proved axiom that LITTLE makes BIG. The daily fulfillment of hopes * * * freedom from worry * * * early financial independence * * * and contented old age * * * may be YOURS, by making easy week-to-week deposits at your Bank.

Bringing up the

Advertising ammunition!

WHETHER you're an advertiser who just takes a pot shot occasionally; one who keeps up a constant machine gun fire to keep business active every day; or the advertiser who relies on the heavy artillery of full page drives; the August Edition of the Meyer Both Newspaper Service is now in with business pulling advertisements and illustrations to meet every requirement.
