Fitzpatrick Speaks at Lions Club Meet on U. S. Constitution

The Grosse Pointe Lions club officially observed "Constitution Week," last week in a fitting manner, an interesting address being made on the United States Constitution by William Fitzpatrick, prominent Grosse Pointe attorney at the regular weekly luncheon meeting of the club held at the Hannan Memorial branch of the Y. M. C. A.

The observance found expression in various other forms, John Finch contributing several excellent vocal selections to the celebration accompanied by Orin Igou, band director at the Grosse Pointe High school.

Mr. Fitzpatrick's address follows:

Brother Lions:
In these days of loud talking and loose thinking it is not a bad idea at times for us to get back to first principles—to bed rock in the matter of government and the philosophy thereof. With us in the United States this formula is relatively and comparatively easy of comprehension. We are but children in the family of nations. Fortunately for us we were born nationally under favorable auspices. The twenty-five years preceding the French Revolution were the years when the great principles of equality and fraternity and democracy were kept at white heat. Ideas crystallized with us a bit sooner than they did in Europe and because of this we were able to escape all of the fatal consequences that marked the transition from autocracy to democracy in France and elsewhere. But there can be no doubt that the philosophy (Continued on Page Two)

Car, Hit in Detroit, Lands in G. P. Farms, With Riders Unhurt

An accident that started in Detroit and terminated in Grosse Pointe Farms, recently, resulted in two Grosse Pointe residents, occupants of one of the cars involved in the collision, receiving only minor bruises.

Jules Vandebussche, 861 Loraine avenue, Grosse Pointe Village, was driving on Mack avenue near the intersection of East Warren avenue, in company with his sister, Mary Vandebussche, same address and Gabriel Santorium, 2950 Coplin avenue. A truck driven by Joseph Moore, of Mt. Clemens, collided with his auto causing it to overturn in a nearby ditch.

The three in the passenger car were uninjured except for minor bruises and cuts.

Grosse Pointe Farms police arrived at the scene to discover that they had no jurisdiction, although the Vandebussche car landed in their territory, since the collision occurred on the west side of Mack avenue in Detroit. Detroit police questioned Vandebussche and Moore and released both.

Neighborhood Club Activities

The Neighborhood Club is offering individual lessons in Piano and Violin for \$1.00 per half hour. All those interested are invited to call Niagara 0771.

Monday, September 29th, is the date scheduled for the Ladies Bridge Tournament at the Neighborhood Club. Many new entries have been received and a 100 per cent attendance of last year's group is expected. Playing will be conducted from two to five o'clock and every Monday thereafter. There is no entry fee, the only requirement being a membership in the Neighborhood Club. All those who are interested are invited.

The Blue Birds of the Neighborhood Club have again started their Fall Activities and all girls from the ages of 6 to 12 are cordially invited to attend. The Club meets every Saturday morning from 10:00 to 11:30 a. m. and the program includes gymnasium. (Continued on Page Three)

Facts on the Bond Issue Prepared by the Grosse Pointe Board of Education

To show the need for acquiring the three junior high school sites, the Grosse Pointe Board of Education has published and is distributing to the qualified electors an illustrated pamphlet. The following is a brief summary of some of the outstanding points in the booklet, which has been prepared in question and answer form.

Q. Why are high school facilities, more than provided in the present High School, needed in Grosse Pointe?

A.—Because the High School will have reached and passed its working capacity this year. It was designed for 1375 pupils; there are now 1356 enrolled.

Q. When will it be necessary to build the first junior high school?

A. As soon as work can be begun upon it.

Q. Why does the junior high school best answer the need for additional high school facilities?

A. Because the three junior high schools will be within walking distance of the pupils' homes. The present high school is not within fair walking distance of the pupils' homes. This will save bus transportation which is now paid by the Board of Education, at the rate of approximately \$20 per pupil per year.

Because it has several educational advantages that can not be provided as well as in the combined junior-senior high school. These advantages are explained in the pamphlet.

Q. Why should the three sites be purchased now?

A. Because the junior high school is needed at the earliest possible moment. Because only one site now has buildings upon it. To wait longer will mean that more buildings will be constructed, and the owners will have to be paid for them.

Because while land values have not increased and in some cases have decreased during the last year, the development of the district will tend to cause an increase in land values as lots become more scarce. Purchase at this time will therefore be a wise investment. Because the land must be purchased at some time. One site is urgently needed now. The district will save money by acquiring all three sites now.

Q. Why should the voters authorize bonds for these sites during the present business depression?

A. These sites should be purchased now, because:

1. Bonds can be sold at lower interest rates now.

2. While bonds are sold at "hard times" rates, the payment will be spread over 30 years.

3. A junior high school is needed at the earliest possible moment. The sooner the land is obtained, the sooner construction can be begun. This will provide jobs for a large number of unemployed.

Q. Why should the first junior high school be built in Grosse Pointe Park?

A. Because that is where the greatest number of pupils of junior high school age live.

Q. How does the Grosse Pointe tax rate compare with other towns and cities of the Detroit metropolitan area?

A. It is the lowest. Some of the towns are: GROSSE POINTE, \$6.33 per thousand; Fordson, \$8.60; Royal Oak, \$16.00; Highland Park, \$11.40. Seventeen towns are listed in the pamphlet.

Q. Why vote on the bond issue at a general meeting, rather than by precinct?

A. Because, in the opinion of the Attorney General of the State of Michigan, this is the only legal way.

VILLAGE NINE LOSES CLOSELY FOUGHT GAME TO FEDERATION

The Grosse Pointe Village Baseball Club were defeated last Sunday by Van Sign of the Federation League, because the home boys were unable to solve the masterful slowball curves of Anderson, who permitted only five hits, and struck out 14, being particularly effective with men on the hassocks waiting to score. Up to the seventh inning only two hits were taken from his delivery, incidentally both by Robert Newcom, who was the only batter to give Mr. Anderson any worry.

Walter Louwers gave the crowd a thrill in the fourth with a clean steal of home, while Teddy Hinz smashed a home run over Irvin Smith's head in the eighth, with the bases empty, to excite the fans who were clamoring for victory.

Had not Anderson thrown wildly to get Newcom napping off first in the third inning, whence he tried to take second on the error, Le Marsters at first and Ginsler catching would have established a very unusual record in baseball in that the two men would

Richard Parent-Teacher Assn. Will Meet Friday

The Parent-Teacher Association of the Pere Gabriel Richard elementary school will hold its organization meeting Friday night of this week in the Richard school, McKinley at Kercheval. Among the items of the program are: organization, election of officers and acceptance of the constitution. C. J. Messner, principal, urges all parents to attend the first meeting of the association. The hour of the meeting is 8 o'clock.

Foot Ball Tickets for U. of D. Patrons

Tickets for U. of D. football games for the coming season will be on sale at John F. DeYonkers Drug Store, Jefferson at Alter road.

Honor Principal

John R. Barnes, new principal of the Grosse Pointe High School, and new teachers were guests of honor at a dinner and bridge party in the High School, Thursday night.

A Treat

The Aloma theatre in cooperation with the Grosse Pointe Review has a treat in store for residents in Grosse Pointe and readers of the Review. In next week's issue, the Review will print a coupon which upon presentation at the box office of the theatre will enable bearer and one other person to be admitted to the theatre for 25 cents, the admission price of one person. Think of two adults going to a theatre for the price of one. This opportunity will be available only to adults. There are no obligations attached. The use of the coupon will be limited to week days, it not being good for Saturday's or Sunday's shows. Remember to watch next week's issue for the coupon and clip it.

Mason-Vernier Schools Parent-Teachers Meet

The Parent-Teachers Association of the Stevens T. Mason and Vernier schools will meet at the Mason school, Tuesday night at 8 o'clock.

U. of D. Football Tickets at the All-American Sport Shop, Lenox 1919.

Election News

In view of the oncoming school district election next Tuesday, the following data is offered readers of the Grosse Pointe Review:

WHO MAY VOTE?

The school law of the State of Michigan provides that the following qualifications are necessary:

1. Must be citizen of the United States.
2. Twenty-one years of age, or older.
3. Must own property which is assessed for school purposes.
4. Purchaser of land on a land contract who pays taxes thereon may vote.
5. If husband and wife own property jointly, and the same is assessed for school taxes, in the school district, each may vote, if otherwise qualified.
6. Must be a resident of the school district for at least 90 days preceding the meeting.
7. Must be registered for school elections.

WHEN MAY PERSONS VOTE?

Tuesday, September 30 at meeting from 10 a. m. to 11 a. m. followed by voting at polls which open at 11 a. m. and close at 8 p. m.

WHERE MAY PERSONS VOTE?

Only at the Grosse Pointe High School, 11 Grosse Pointe boulevard, corner of Fisher road, Grosse Pointe Farms, Michigan. Registration books close Saturday, September 27, at the offices of the Board of Education, 389 St. Clair avenue, Grosse Pointe Village.

Vote "No" next Tuesday Grosse Pointe Taxpayers Association Urges School District Electors Meeting in High School Building

The Grosse Pointe Taxpayers association, an organization pledged to better education and adequate schools, is an official statement this week, urges every qualified elector in the School District to go to the polls at the Grosse Pointe High School building, next Tuesday, September 30, and vote NO on the proposition to authorize a \$399,000 bond issue to finance the purchase of three Junior High school sites.

The Taxpayers association points out in its statement, the urgent necessity of every elector being present at the general meeting which precedes the voting. The general meeting will open at 10 o'clock next Tuesday morning in the auditorium of the High School building and the Taxpayers group urges every elector to compel by their vote at this general meeting to have the Board of Education abandon "their extravagant program for three Junior High School sites."

The association also urges the electors by their vote at the general meeting to "compel the School Trustees to cease their dilatory tactics and proceed at once to relieve the crowded condition of our schools by utilizing the Cadieux site, already owned, as the first site for a Junior High school."

The Cadieux site which the Taxpayers association refers to in its statement, is located at Cadieux road and Kercheval avenue in Grosse Pointe Village. It urges the use of this site because "it is in a heavily populated district, contains nearly eight acres and has been owned by the School Board and left lying idle for seven years."

The Taxpayers association answers the question, "Is it necessary to purchase three Junior High school sites?" with an emphatic NO. The answer stated, "that the crowded conditions in the High school can adequately be overcome for the present and future by a 'Two Site' system." The City of Detroit, it is pointed out in the same answer, "with a population of over 1,500,000 people has 13 Junior High schools and why does Grosse Pointe Township with a population of approximately 20,000 people and every allowance made for future growth, need three?" It suggests the use as site number one, the Cadieux and Kercheval site, for the reasons cited in a foregoing paragraph.

To the question, "Is the Junior High school program as presented by the School Board to be accomplished at the lowest cost?" the Taxpayers also reply strongly in the negative. They say "NO" it is not planned to be accomplished at the lowest cost because "the Whittier-St. Paul site desired by the School trustees as their site number one is the most costly property that could have been selected."

"It contains 34 highly restricted residence lots with a market value of \$8,395 per lot or a total of \$285,430. In addition, the acquisition of this costly site would necessitate tearing down four expensive homes worth approximately \$150,000, making a grand total of over \$430,000."

"The proposed bond issue would not cover the cost of the first site, let alone buy two others. Obviously further appeal must be made to the voters for additional bond issues or additional sums must be spread upon the tax rolls to cover the huge cost of the three site plan."

A third and last question propounded by the Taxpayers association, very pertinent to the issue is answered in the affirmative. The question is, "Is there some other way to secure the same result more cheaply?" The answer, which presents a remedy, follows: "Two Junior High schools can be built at less initial cost than three. In fact there would be a saving of nearly a million dollars, because no bond issue would be necessary to purchase the site already owned, and because one less building would save the cost of another auditorium, another gymnasium, another library, another set of shop rooms and expensive shop equipment, another cafeteria, and landscaping.

"It also would save another superintendent, additional janitors and corps of engineers.

"The interest saving on a 'Two Site' system on the lessened initial and administrative costs would easily amount to \$60,000 a year, or four times the present cost of transportation, \$15,000. Two Junior High schools will adequately take care of 3,500 students which is the future maximum number of Junior High school students to be provided for as estimated by experts employed by the School Board."

G. P. HIGH DOWNS SOUTHEASTERN IN FIRST FOOTBALL TILT, 6-0

By ROBERT SNYDER

For the first time in three years, Grosse Pointe High school's football team defeated Southeastern High school, in a game played Saturday on the Grosse Pointe field. Tom Hanneman scored the only touchdown of the game after a beautiful run around right end. Edward Wernet's try for the point after touchdown failed, leaving the score 6 to 0 in favor of Grosse Pointe.

Earlier in the game Grosse Pointe failed to score when Southeastern held them for downs on their own two-yard line. There was a number of penalties for both sides. Foehr's outstanding kicking for Southeastern held the score down considerably. Grosse Pointe's outstanding feature was the excellent broken field running of Knox.

The call for football issued at the beginning of the season was answered by 119 candidates. Of these, a squad of 37 are being drilled for the varsity team, the remaining number for the reserves and Junior High teams. Following are the names of the candidates

Election Tuesday in High School Building Awaited by Electors

The stage is set and necessary preparations have been completed for what is conceded by all to be one of the most important and what is expected by many to be one of the most interesting elections in the Grosse Pointe district. It is the special school District election scheduled to be held next Tuesday, September 30, in the Grosse Pointe High School.

The election has been called by the Grosse Pointe Board of Education for the purpose of authorizing a \$399,000 bond issue to provide funds for the purchase of three Junior High school sites. Three thousand ballots have been ordered printed by the School Board, indicating the number of School District electors expected to take part in the polling.

Tuesday's election will be different than any held previously in the district. It will open at 10 o'clock in the morning with a general meeting of electors and will be followed by the opening of the polls. Voting will continue the entire day until 8 o'clock in the evening.

The opening of the polls, however, is conditioned upon the electors in the general meeting approving the action of the School Board in designating the sites that have been selected and in approving the price placed on each. Changes may be voted by the electors in the general meeting on both the items of location and price or they may vote not to vote on a bond issue at all.

Considerable effort has been made by the School Board to inform the electors of the facts involved in the proposed Junior High school program. This program will be launched with the approval of the bond issue for the purchase of the sites as the Board plans to undertake immediately the construction of a Junior High school building on the site in Grosse Pointe Park, necessitating another bond issue at an early date.

Considerable criticism has been manifested over the Board's selection of the site in Grosse Pointe Park, it being the contention of these objectors, that the property at that point is too costly since it is centrally located in an exclusive residential section and homes are now under construction on part of the site. Particularly is it an uneconomical move, they pointed out, since other sites are available at lower costs even though at a sacrifice of the equidistant principle that has prompted the selection of the three sites now named.

GROSSE POINTE SOCIETY

By DOROTHY DEE

Miss Loretta DesRocher is returning the end of this week with Mr. and Mrs. Lawrence Howard and daughter Kathleen from York Harbor, Maine. Miss DesRocher has been visiting the Howards since the first of the month at their summer home. Mr. and Mrs. N. E. DesRocher are expected back next week after touring the east.

Mr. and Mrs. William Frederick Dorn of St. Clair avenue returned last week from Buffalo, where they were visiting friends.

With their three children Mr. and Mrs. Walter S. Franklin have returned to their home on Cloverly road, Grosse Pointe, after spending the summer at Cold Harbor Springs, Long Island, N. Y.

Miss Elizabeth Vincent, daughter of Mr. and Mrs. Edward H. Vincent, of 1312 Buckingham road, left recently to attend the University of Michigan.

Mrs. William K. Williams, with her six sons, returned last week to her home on Washington road, Grosse Pointe. (Continued on Page Four)

NEW CASCADE DISCOVERED NEAR THE VICTORIA FALLS

Series of Gorgeous Waterfalls Found in South Africa by an Englishman.

London, England.—A series of gorgeous waterfalls never before seen by a European and practically unknown to natives has been discovered in South Africa by Farquhar B. Macrae of the northern Rhodesian civil service...

One of the falls is 200 feet in height, 23 feet higher than the Niagara falls, and rivals in beauty the famous Victoria falls, which are about twenty miles distant.

The main Chiengkwas fall is a fine sight. Numerous green ferns grow in holes and cracks in the stone and the water dashes down over the smooth face of the rock, spouting out in little plumes of spray wherever it meets an obstacle.

A few miles from the Chiengkwas Mr. Macrae found another impressive series of five falls. The largest of these has a drop of 88 feet.

Below this fall the scenery is most imposing. Towering basalt precipices rise on either side of the river, which is never more than 100 feet broad and is generally considerably narrower.

Old Church to House Indoor Golf Course Frederick, Md.—The old Calvary Methodist Episcopal church, one of the landmarks of the city, will be converted into a miniature indoor golf course.

LONDON WOMEN SMOKE AT WILL

Practice Shocks No One but Is Banned Out of Royal Garden Party.

London.—Daughter, mother and grandmother in London smoke cigarettes whenever and wherever they like and no one is shocked.

The city has become accustomed to the fact that the weaker sex desires a few puffs of a strong cigarette, so, as they natively put it over here, there you are then.

A few years ago a woman was not allowed to smoke in the paddock at Ascot. They do now. Billboard and newspaper advertising in America depicting a lovely girl holding a cigarette of a popular brand brought protests from religious bodies.

Similar advertisements in London attract passers-by and readers. The girl brain-child of the artist is far more beautiful probably than the model who posed for it and certainly more so than the average London girl.

Special dentifrice advertisements are directed at the woman smoker. They emphasize the necessity of a girl avoiding discolored teeth brought about by cigarettes, if she would maintain her popularity and not be shunned by those who knew her when—when her teeth were white.

Other advertisements will point out to mildly that the cough which is so irritating isn't caused by London's damp, cool climate but by cigarettes and urge her to change to one immediately that will assure her a cool throat.

Most of London's theaters permit smoking. Therefore it is more unusual to see the mother-in-law there than to see the wife, husband and mother-in-law all enjoying a peaceful smoke. One motion picture house sends an usher up and down aisles spraying perfume into the smoke-filled room.

Unlike most of her American sisters, Miss London carries her own cigarettes. She has, it may be said, a most fastidious taste and dislikes the thought of perhaps ruining an evening or a matinee engagement by using a strange brand her escort for the occasion may be carrying.

Ban at Royal Garden Party. A royal garden party is now perhaps the only social affair at which no woman will venture to light a cigarette, although newspapers recently on inside pages reported the fact that Queen Mary occasionally indulges in her cigarette.

It was observed that recently a good many women were smoking at a garden party in St. James' palace, and most of them were middle-aged.

Kansas Hatchery Has a Big Catfish Incubator Pratt, Kan.—One of the largest fish incubators in the United States has been completed at the state hatchery here, which this year will distribute 500,000 fish.

Seth Way, who has charge of fish culture, has perfected a plan by which spawn of the channel catfish is taken from the hatchery ponds through troughs to the fish house.

London Man Is Granted First "Love Injunction" London.—James H. Hodge has the distinction of being the first male in Britain, if not in all the world, to appeal to the law courts for protection from "the unwanted attentions of a girl."

Justice Acton, sitting in the King's Bench division, has granted the "love injunction."

She must not write love letters to him," the court rules. "She must not inquire for him at his place of business. She must not telephone to him. She must not molest him in other ways." The injunction is perpetual.

Her Folding Bed Folded Up, but She Was Inside Stockton, Calif.—Mrs. L. Turney couldn't sleep and she was all burnt up about it. So she called for the fire department.

Firemen arriving at her apartment found her locked in a folding bed that had folded at the wrong time. Neighbors heard her calling for help, but were prevented from aiding her because of a locked door.

Turkey Seeks Date of the End of Polygamy Istanbul.—In an effort to calculate how soon the last Turkish polygamous family may be expected to die out, the Turkish authorities are shortly to take a census throughout the country.

Many families still are practicing polygamy within the law, inasmuch as they are the overflow from the polygamy regime which was abolished a few years ago. It is believed that the polygamists have been diminishing at a great rate during the last few years, and special statistics will be drawn up regarding them in the forthcoming general count of the Turkish population.

Alaska to Honor Memory of the "Pancake Queen" Seattle, Wash.—Prospectors who trudged over White Pass trail during the gold rush days will honor Mollie Walsh, from whose cook tent no hungry man was ever turned away.

Special Courses in Handcraft Offered by Campfire Girls

A special course in hand craft, symbolism, program planning, singing and first aid, covering twelve weeks of work and starting Monday evening, September 22, 7:30-9:00 p. m. is being offered at Camp Fire Girls local headquarters, 51 Warren avenue west.

Mothers, teachers and girls over eighteen years of age are eligible to the course which is listed as Health Education 102 in the In-Service classes of the Detroit Teachers College. Two hours college credit can be earned if desired as well as the rank of Wood Gatherer.

Included in the course is a week-end at Camp Wathana the Detroit Camp Fire Girls Camp near Holly, where honors will be earned in Nature, out-of-door cooking and camp craft.

Jefferson Avenue Baptist Church

The second sermon in the series on The Apostles' Creed will be given next Sunday morning at 11 o'clock. The topic is "I Believe in Jesus Christ."

In the evening at 7:30 o'clock Mr. Allen will speak on the topic, "God's Blockades." Message and music with a gospel emphasis, combine to provide a profitable and inspiring service.

Presbyterian Church of the Covenant

Services for Sunday, September 28: 9:30 a. m., Rally Day Pageant, "Adventuring in New Fields," presented by Church School. Promotion will take place this Sunday, also.

Morning worship at 10:45. The pastor, Mr. Nickless, will preach on the first of two sermons that he has announced to preach on, "The Kingdom of God," the thing that Jesus Christ talked most about.

Sunday, Sept. 28th, at 10:45: "What is the Kingdom of God?"

Sunday, Sept. 28th, at 7:45: "Why they heard Him."

Sunday, Oct. 5th, at 10:45: "Where is the Kingdom of God?"

6:30 p. m., Tuxis meeting for high school people. Special Rally Day service. "Echoes for World Christian Endeavor Convention at Berlin." Miss Irma Bielenberg.

At the Men's Friendship Bible Class at 9:45 a. m., Captain Dennison, superintendent of the Detroit House of Correction, will speak on the subject of "Crime." The men of this class started their bowling for the season, last Tuesday, at the Palace Recreation bowling alleys.

The annual Harvest Home dinner will be served at Covenant Church Thursday, Oct. 1st, at 5:00 p. m., continuing through the evening.

Messiah Lutheran

Southeast corner of Lakewood and Kercheval avenues, A. H. A. Loeber, pastor, 1434 Lakewood avenue. Telephone Lenox 2121.

"God's message to men in the present depression" will be the theme of the sermon to be delivered next Sunday, September 28. Services will be held as follows: German at 9 a. m., English at 11:15 a. m.; Sunday School at 10:15 a. m.

The annual Mission Festival will be held a week from next Sunday, October 5. Rev. J. H. Witte, superintendent of the Lutheran Children's Home in Bay City, will be the speaker in the evening service.

The Young People's Society will meet next Tuesday evening at 8 o'clock and the Junior Society on Friday, October 3, at 7:15 p. m.

Noah's Wife

History was the subject which the class was studying, and presently the teacher asked: "Now, can any of you tell me who Joan of Arc was?" Profound silence. Then a hand went up, and a small boy shouted gleefully: "Please, teacher, Noah's wife."—The Churchman.

Easy for Pilgrims

Early Indians were not really the savages they were called in Europe. The Pilgrim Fathers were lucky when they landed at Plymouth to find land that had already been cleared by the Indians for the raising of corn.—Country Home.

Cashing on Reputations

Do not try to cash in on a reputation. Sit down and figure out how you won the reputation. Then get a job that will give you a chance to use the stuff that made it.—American Magazine.

SUTTER ANSWERS CRITICISMS OF EXPENSE FOR RICHARD SCHOOL ROOF

"One of the most beautiful things in the Pointe, architecturally, is the lovely roof of the Pere Gabriel Richard school," said Fred Sutter, President of the Board of Education, "and yet some critics of the Board, hoping apparently to cast discredit upon it, have been carrying on a whispering campaign regarding the cost of this roof."

"I am informed that stories are being spread to the effect that the school board 'wasted' \$60,000.00 of taxpayers' money in this roof. As usual, the facts in the case are quite at variance with the fanciful tales being put out."

"If we could have used a flat roof on a school such as this, a saving of possibly \$20,000.00 would have resulted. Entirely aside from the question that such a roof would have completely ruined the appearance of the school, I would point out that the space in the attic formed by the present roof is being used to advantage. In fact if we had not provided this attic space, it would have been necessary to provide it elsewhere, probably by constructing a basement, and altogether the above "saving" would have been eaten into until very little remained. While I realize the hopelessness of chasing down every lie in order to nail it, this is such a flagrant case of misrepresentation that I find it impossible to refrain from exposing it for what it is worth. I am submitting herewith a letter from Robert O. Derrick, Inc., the architects of the Richard school which discusses this matter a little more technically than I have."

The letter follows: September 5, 1930

Mr. Fred Sutter, 1000 Kensington Road, Grosse Pointe, Michigan. Dear Sir: In answer to your inquiry regarding the cost of a flat roof as compared with the high pitched roof as designed for the Gabriel Richard School in Grosse Pointe Farms, we wish to furnish the following information:

Were it possible to merely substitute the ground east of the site, a flat roof

a composition roof over the present attic floor slab, a saving of \$20,000 might be made. Architecturally, a flat roof would be entirely out of keeping with the French style of design used for this building, and considering the high elevation of would leave unsightly pent houses over the Play Room and the elevator shaft as well as metal ventilators exposed to view.

The roof as designed is not just so much waste space. Storage on the attic floor is accessible from the elevator. Space is provided for the fans, etc., as required for the ventilation of the toilets and for the air supply for the auditorium and gymnasium. Also the play room is elevated well into the roof space.

A small portion of the cost of this pitched roof can be attributed to the construction necessary to procure a favorable insurance rating for the building. Had a flat roof been used, more basement would be required than now exists. It would have been necessary to provide an air shaft, a fan room and storage and these would have consumed considerable of the difference in cost between the two types of roof.

Yours very truly, Robert O. Derrick, Inc.

Venerable Ancient Custom In the British museum in London there are examples of Egyptian veneer work that are many thousand years old. Pliny says that veneer came into general use in Rome in his day. It obtained great popularity in the Netherlands, France and England in the Eighteenth century.

NOTICE OF A SPECIAL MEETING OF THE QUALIFIED VOTERS OF RURAL AGRICULTURAL SCHOOL DISTRICT NO. 1, GROSSE POINTE TOWNSHIP, WAYNE COUNTY, MICHIGAN. Notice is Hereby Given of a special meeting of the qualified voters of Rural Agricultural School District No. 1, Grosse Pointe Township, Wayne County, Michigan, called by the Board of Education of said School District, to be held at the Grosse Pointe High School on Tuesday, the 30th day of September, A. D. 1930 at 9:00 o'clock A. M. Central Standard Time (10:00 A. M. Eastern Standard Time) for the purpose of considering the question of borrowing money and issuing the bonds of the school district therefor to acquire and pay for three certain junior high school sites in said district hereinafter described and mentioned. Notice is also Hereby Given that the estimate of the Board of Education of said School District of the amount of money necessary to be raised for such purpose is as follows: For Sites Nos. 1, 2 and 3 collectively, \$399,000.00. The several junior high school sites proposed to be acquired and paid for are identified and described respectively as follows: Site No. 1—All those pieces or parcels of land located in the Village of Grosse Pointe Park, Grosse Pointe Township, Wayne County, Michigan, described as: Lots 87 to 103 inclusive and 217 to 233 inclusive of Scripps' Grosse Pointe Park Subdivision in the Village of Grosse Pointe Park, Michigan. Site No. 2—All that certain piece or parcel of land located in the Village of Grosse Pointe Farms, Grosse Pointe Township, Wayne County, Michigan, described as: All of the Lothrop Estate Farm in P. C. 231, lying between the proposed line of Beaupre Avenue and the proposed line of Charlevoix Avenue, in the Village of Grosse Pointe Farms, Michigan. Site No. 3—All those certain pieces or parcels of land located in the Village of Lochmoor, Grosse Pointe Township, Wayne County, Michigan, described as: That parcel of ground beginning at the intersection of the easterly boundary of outlet "B" and Vernier Road, extending approximately 453 feet in an easterly direction along Vernier Road, and extending from Vernier Road in a southerly direction to the southerly boundary of Private Claim 156; from thence extending along the boundary in a westerly direction a distance of 453 feet and thence in a northerly direction to the point of beginning. Notice is also Given that the polls at said special meeting will be kept open from 10:00 o'clock A. M. to 7:00 o'clock P. M. Central Standard Time (11:00 o'clock A. M. to 8:00 o'clock P. M. Eastern Standard Time) as required by law. Date August 18, 1930. By order of the Board of Education. CHARLES A. PARCELLS, Secretary of the Board of Education, Rural Agricultural School District No. 1 Grosse Pointe Township, Wayne County, Michigan.

Not All Enlightenment
All the great events of this globe are like the globe itself of which one-half is in the full day and the other half is plunged in obscurity.—Voltaire.

City of Contrasts
Budapest has an area of 80 square miles, and is situated on both sides of the Danube river. Six bridges connect the two banks. It is formed from two old towns—Buda, on the right bank, and Pest, on the left. The atmosphere of Buda is that of Old World Judea, and that of Pest, in contrast with this, has the bustle of the New World. Budapest is considered one of the most beautiful capitals in Europe.

Binocular's Advantage
The binocular glass has an advantage over ordinary spyglasses or single lens telescopes, because it enables both eyes to focus on the same object and gives a much stronger vision than can be obtained by the use of one eye alone. The first binocular telescope, which was invented in 1608, consisted of two telescopes placed side by side.

American Swamps
There are from 60,000,000 to 80,000,000 acres of swamp land in the United States, the largest areas lying in the lower Mississippi valley, the Everglades of Florida, the swampy lands of the Atlantic coast and the low lands bordering the Great lakes.

Three Diets
Under a liquid diet come milk, broths, beef tea, albumen drinks, gruels, eggnog, cream soups and beverages. Light diet, cream soups, soft-cooked eggs, milk toast, cereals, soft custard, junket, creamed chicken and gelatin dishes. Convalescent diet, soups, broiled tender meats and fish, baked creamed potatoes, some light vegetables, simple salads, cooked fruits, baked custard, light desserts.

When Salt Was Scarce
At the beginning of the Civil war salt was imported from England almost entirely, and when transportation became difficult salt became scarce. And so it was at the beginning of the World war—an old lady ordered at once 100 pounds of salt. Asked why, she said she wasn't going to get caught the way her mother was caught in 1861. She needn't have worried.

Neighborhood Club Activities
handcraft, junior camp fire girls work and special parties and events.
A most interesting class is being held for women at the Neighborhood Club which started Thursday, September 25th. The group meets from 1:30 to 3:30 p. m. They are planning the study of home furnishing and decorating to include selection of upholstery, making of slip covers, lighting in the home, refinishing of furniture and accessories. This work is conducted under the auspices of the Michigan State College of Agriculture and Applied Science. The actual construction of many of the accessories among which are the making of lamp shades and Italian quilted pillows, will be conducted in the class. All women who are interested are invited to come and join.

Federal Reserve Banks
The federal reserve act was passed in 1913 and the banks were opened in 1914.

Other Times
Before marriage a man holds an umbrella over his girl to keep her hat from getting wet. Afterward to keep her hat from spoiling.

Word for Red Flannel
Rayon has advantages, but we must not forget that America was built by men in red flannel undershirts.—San Francisco Chronicle.

River Flows Backward
The Chicago river originally emptied into Lake Michigan. Now, water from the lake is forced through the river into the Illinois river and so into the Mississippi river. Thus it may be said that the Chicago river flows backward.

Reason for Heaven
A man's reach is higher than his grasp—or what is heaven for?—American Magazine.

Yearly New Londoners
Sixty thousand children are born in London every year.—London Answers.

Industrial Review of Prominent Business Men

GOOD CHEER CAN BEST BE EXPRESSED WITH FLOWERS

For years, flowers have been used extensively in the expression of the more tender of human emotions, and the use of flowers reigns supreme for all social, joyful and mourning occasions. When words fail you, or you are unable to properly express your feelings, use flowers. It is the easiest and least expensive manner in which to convey your sentiments. Your intentions will never be misunderstood if you send flowers.

They are experts in making beautiful floral designs for weddings, funerals, and all kinds of social functions. This work is in charge of an expert, whose rare skill makes the piece one of unusual beauty.

LOCAL TIRE AND BATTERY CONCERN CHANGES NAME

The Commercial Tire and Battery Service, 15307 East Jefferson ave., have changed their business name to Barrett's Tire and Battery Service, however, there are no changes in location or management.

Barrett's Tire and Battery service also advises their patrons as to the care of tires, the proper air pressure to carry, and other valuable information.

HORSEBACK RIDING IS BECOMING POPULAR

Horseback riding has from the beginning of time been the sport of kings. In the time of war the man on horseback has always held sway, in society the horse show and polo are supreme amusements, while in the far west cowboy still rides with the lariat.

Captain V. A. Tareff, the manager, has divided the Academy, in two divisions in order to give up-to-date service to every one. One division is devoted to club members and their friends. In the other department they own and maintain a stable of 92 horses expressly for the use of the general public.

DAIRY PRODUCTS ARE HANDLED WITH CARE

So commonplace, and matter-of-fact to us, are some of our most important necessities to the welfare of health and well-being that we pass them by and accept them without a second thought. For example, there is the bread we eat, the water we drink and so many other articles which go to make up our everyday existence.

every bottle of milk which they deliver passes through this process it is placed on a truck and delivered to this firm's patrons.

INFORMATION FOR NEW CAR BUYERS AND CHEVROLET OWNERS

The Chevrolet Sales and Service station operated by the Tucker-Jordan Chevrolet Company, 14259 Mack ave., Lenox 9800, have on display samples of all models of this wonderful car, shown in eight different models—a six-cylinder car in the price range of the four.

force you to buy one of the expensive models if they think one of the cheaper ones will be adapted to your needs. Aside from the sales department, this firm also has a well-stocked parts department and are ready to give you prompt service on parts and repairs.

SCULPTURE WORK HAS STOOD TESTS OF MANY CENTURIES

Every architect knows the essentials of plaster ornamentation and realizes the merit of ornamental plaster cornice, moldings, brackets, centerpieces and many other cast plaster units as a medium of expression.

the east and is familiar with the different periods of art in this line from the time it was first introduced in Italy down to the 20th century.

NATURAL CUT STONE ADDS BEAUTY TO BUILDINGS

From an architectural standpoint, natural stone has always played an important part in the construction of hotels, office buildings, public buildings and all kinds of modern structures because of its permanence, architectural beauty, finish and strength.

Company, 7976 Riopelle, Empire 4726, is an old established firm in this city who have won a remarkable reputation upon the accuracy and finish of all stone leaving their yards.

HAVE YOUR AUTO RADIATOR REPAIRED BEFORE WINTER

In the life of every automobile sooner or later it will need the attention of the auto radiator mechanic. Because at the least expected time the cores are likely to burst and delay you with your early business engagement—or make you late in keeping your theater appointment.

skilled of care and attention by workmen who have spent practically a lifetime in learning the inner workings of radiators and know how to repair them.

BRAKES SHOULD BE INSPECTED OFTEN

In this day of hurry and rush with traffic jams and accidents becoming more every year, the necessity of a specialist to keep your brakes in proper conditions becomes more evident. There is hardly a more essential part of an automobile than the brakes, yet it is the habit of a large majority of motorists to give them the least attention.

With the advent of the Reynolds Brake Service it's a simple thing to have your brakes in good working order as they offer free testing service. When they established their shop at 8626 Gratiot Ave., they realized that to make their services most efficient, it was necessary to install the very best equipment and then employ the most competent mechanics.

USED CARS GAIN IN POPULARITY

People no longer look upon the owner of a used car as being out of date or a back number, due to the fact that practically all used cars put on the market for sale have to measure up to a certain standard and this firm takes special pride in seeing that every car leaving their establishment must meet the requirements of the purchaser.

in used cars who are able to dispose of a practically new car to his customers at a very low price. In both instances the big financial loss is suffered by the original owners. The saving therefore is tremendous and the services derived from the used car purchase are practically the equivalent to those when a new car is purchased.

MONUMENTS ARE USED TO PRESERVE RECORDS

The placing of memorials over the graves of the dead is a custom that originated with our early civilization. In Egypt it was the custom for the Pharaohs to erect a pyramid during their lifetime so that when the final summons came a place was prepared for their reception.

duction of work both large and small. The men employed here are more than mere cutters of granite, but are artists in this line and all the work has the stamp of the real artist. They produce any design that one may have in mind or will submit original designs that will be in keeping with the size of the work desired.

UNDERTAKING BUSINESS IS BECOMING MORE MODERN

In a comprehensive review of this character, embracing as it does the most salient features of the community's progress, we cannot fail to devote some space to the professional status of the community, and, justly so, to a profession so essential as that of the modern funeral director and embalmer.

decorated and its very appearance speaks quiet and solemnity. Here complete funerals can be conducted. The use of this chapel is free.

Dancing classes at the Neighborhood Club, conducted by Mary Hazel Benedict, will be resumed on Saturday, October 4th. All former pupils have been notified of their scheduled classes and new pupils desiring information are invited to call Niagara 0771.

Last Friday evening, the V. V. V. Girls A. C. held their annual election of officers with the following results: President, Kathryn J. Gillam; Vice-President, Clara Millar; Secretary, Henrietta DeVuyat, and Treasurer, Alyce Wernet.

The schedule has been slightly revised, the Gymnasium classes to begin at eight instead of nine o'clock. The business meetings will be held as usual the first Friday of each month and will be followed by bridge and refreshments.

Committees will be appointed very soon to begin the fall and winter activities. Mr. Elworthy will conduct the weekly girls classes.

The A. O. C. Girls of the Neighborhood Club held a Weenie Roast at Pine Woods Thursday, September 18th. After the roast, election of officers was held with the following results: President, Juanita Kline; Secretary, Jane Nevin; Treasurer, Lillian Basberg; Corresponding Secretary, Joyce O'Leary.

An Outdoor Pot-Luck Supper has been planned to be held on Thursday, September 25th.

Applications are still being received for the Junior Boys Football Team and any 12 to 14 year old boys desiring a tryout should report at the Neighborhood Club on Thursday or Friday afternoons at 4 o'clock.

The Annual Hop-Scotch Contest for Junior Girls will be held at the Neighborhood Club on Wednesday, October 1st, at 4 p. m. All girls between the ages of 6 and 12 are invited to join us. There will be two practice games, one on Monday, and one on Tuesday afternoon. Don't forget the Big Day—October 1st.

Last Friday afternoon the Neighborhood Club junior boys played their first football game of the 1930 season against the Hanstein School. The game was closely contested with the N. C. boys finally winning by a score of 15 to 13.

The outstanding players for the winning team were Homer Gray and Albert Vanderkerkove, while Jacobs, who scored all the 13 points for the losers, was by far the best individual on the field.

At the present time, the schedule is not completely filled and any teams composed of boys from 12 to 14 years old, desirous of booking games should call Mr. Simonsen at Niagara 0771 as soon as possible.

Grosse Pointe High's Reforestation Plot to be Planted Soon

Planting upon Grosse Pointe High School's reforestation plot will begin on September 29, according to a letter received recently from Mr. Marcus Shaaaf, state forester. The plot is located in the Osgmaw Forest Reserve near West Branch, Michigan.

The reforestation plot was purchased by the students of the High School and named in honor of Mr. Jerome Burt, former principal. Funds to purchase this reforestation plot were raised in a drive, sponsored by the Student council, last semester.

It is planned to have the reforestation committee, Phyllis Johnson, chairman, Joe Crain, John and Henry Parsons with Mr. and Mrs. A. E. Trippensee represent the school at the planting.

Classes of Preachers Archbishop McGee said: "There are three kinds of preachers—first the preachers you can't listen to; second the preachers you can listen to; third, the preachers you can't help listening to."

GROSSE POINTE SOCIETY

(Continued from Page One)
Pointe, after spending the summer at Lakefield, N. H.

After spending the past year enjoying a trip around the world, Mrs. Hugh Dillman returned on Saturday last from New York to her Grosse Pointe residence.

The Saturday evening dinner dances have been resumed at Lochmoor club and will continue throughout football season.

Miss Dorothy Damerow, daughter of Mr. and Mrs. Theo. Damerow, left for Ann Arbor on September 22, where she will finish her senior year at the University of Michigan.

The Garden Club of Michigan will meet at the residence of Mrs. Frederick M. Alger, on Lake Shore drive, Grosse Pointe, on Friday, September 26, at 3:15 o'clock.

Mrs. Arthur McGraw, who went to her cottage at Squirrel Island, Me., after returning from Europe in the spring, has now returned to her home on Lakeland avenue, Grosse Pointe.

Mr. and Mrs. Horace E. Dodge, who have been living abroad since their marriage, will return to Detroit next month and will take up their residence at the Whittier, Burns drive.

Mr. and Mrs. Howard Bonbright of University place, Grosse Pointe Village, are in Lake Forest, Ill., where they are visiting Mr. and Mrs. Lawrence Armour for the week end.

Mr. and Mrs. Joseph B. Schlotman entertained 30 guests at dinner at their home Monday complimenting Mr. and Mrs. Lloyd P. Jones, of Colorado Springs and Bermuda, who are the guests of Mrs. Jones' mother, Mrs. Elmer David Speck.

Mr. and Mrs. Jones are leaving this week to enter their daughter, Miss Dorothy Peniston Jones, in Miss Walker's School at Simsbury, Conn.

Mrs. Schlotman will leave this week for Washington, D. C., accompanied by her daughter, Miss Josephine Ford Schlotman, who will enter the Mt. Vernon School.

Mrs. Henry F. L. Parker of Kerby road, Grosse Pointe Farms, returned Tuesday after visiting her mother, Mrs. Cudney, in Chicago, for two weeks.

Mr. and Mrs. Cameron B. Waterman of Lincoln road, Grosse Pointe Village, are awaiting their son and daughter-in-law, Mr. and Mrs. Ira D.

Waterman, of Colorado Springs, Colo. The guests will arrive September 25 for a few days.

'White Hell of Pitz Palu' Punch and Judy Feature

An absolutely new kind of photoplay, 'The White Hell of Pitz Palu,' will be at the Punch and Judy theater next Thursday, Friday and Saturday, October 2, 3 and 4.

The picture, produced by Dr. Arnold Fanck in the high Alps of Switzerland, has a highly dramatic story into which are woven the most astonishing thrills ever seen on the screen.

'Madame Satan' at the State Theater

To follow his spectacular 'Dynamite' on the talking screen Cecil B. DeMille has secured a breath-taking comedy drama of modern life titled 'Madame Satan.'

DeMille has assembled an outstanding cast of star players headed by the flaming Lillian Roth, Kay Johnson, Roland Young and Reginald Denny, for the production.

The story deals with the struggle of a wife to regain her husband's love. She turns out to be too cold and efficient for him, and he seeks the companionship of others.

Underworld and Slugs

The underworld is the debased or criminal portion of humanity. It does not necessarily have any relation to slums, which may be merely a low or squalid neighborhood, although they frequently are found together.

The manual alphabet used by deaf mutes was not invented by them but by persons who talked, for the purpose of secret communication in monastic institutions.

Struck out by Murray, 3. Bases on balls of Murray, 0. Two-base hit—Hanvey. Umpires—Jarrait, Nittie.

Buster Keaton at the Punch and Judy

'Dough Boys,' comedy of military life with Buster Keaton playing a millionaire's son who enlists in the army, is the attraction which will be at the Punch and Judy theater Thursday, Friday and Saturday, September 25, 26 and 27.

Keaton's role calls for unusual versatility, the comedian appearing as singer, Apache dancer, and ukulele player as well as a raw recruit who becomes initiated in the trials and tribulations of life as a soldier.

Edward Sedgwick, who directed Keaton in 'Spite Marriage' and 'Free and Easy,' supervised the new comedy and also played the role of the camp cook, staging with Keaton and Cliff Edwards a comical song-parody number.

The cast includes Sally Eilers, of 'Dry Martini,' 'Cradle Snatchers,' and more recently 'Let Us Be Gay'; Cliff Edwards, last seen in 'Way Out West' and 'Good News'; Edward Brophy, who combines the duties of acting with those of production manager; Victor Patel, Arnold Korff, Frank Mayo, Pitzky Katz and William Steele.

Small 'Territories'

Three of the Pacific islands, detached territories of the United States, have areas of 43 square miles each.

MEXICO PLANS FARM REVIVAL

Employs American Experts to Restore Prosperity of Agriculture.

Urbana, Ill.—Mexico, 'cradle of wars,' has set out to restore an industry which in the more troubled times of 20 years ago proved its undoing, and it has summoned an Illinois authority to help do the job.

H. W. Mumford, dean of the college of agriculture, University of Illinois, and director of the state agricultural experiment station and extension service, has been appointed along with two other American agricultural authorities to serve on a commission which will study the live stock, educational and other phases of the republic's farming industry and make recommendations for their development.

Back in 1911 money accumulated by the Madero family of Chihuahua from stock raising supplied the sinews of war for the overthrow of the Diaz government. That benevolent dictator, who ruled between 1876 and 1910, is credited with having done more for the progress of Mexico, one of the world's richest treasure lands, than had been achieved by the republic in all the centuries of its previous history.

United States Plan Appeals.

Now stock raising in the rich republic is not as prosperous as it once was. Mexican officials realize, however, that the industry can be made just as potent a force for building up good government as it was for tearing it down 20 years ago.

Thus is the republic, sometimes spoken of as 'a wondrous storehouse of nature's wealth,' taking another step to emerge from the fierce internal struggle which has retarded its progress for years.

Cattlemen in the past have found in the broad pampas of Mexico a paradise of grazing land from which each year they reaped millions of profits. Hides constitute an important export to the United States. Ninety per cent of all the kinds of fruit grown in the world flourish in Mexico and every variety of grain found in the United States abounds even more luxuriantly in the rich soils that favored land. Millions of acres densely forested with trees whose woods are the most valuable in the world for industrial purposes.

Mumford is Authority. The most important Mexican plant is the agave, or maguey. Fibers of the maguey are used to make paper and rope and its huge leaves as thatches for houses. Mexico produces normally about 100,000,000 bushels of corn annually, or about one-third as much as Illinois. The frijole, or Mexican bean, is grown in every one of the 28 states and two territories. Sisal hemp, which has made Yucatan one of the richest states in Mexico, is used largely in the manufacture of binder twine for American harvesters.

In naming Dean Mumford as one of three American counselors on its agricultural problems, the Mexican government has selected one of the foremost live stock authorities of the United States. He was one of the first, if not the first, authorities in the country to recognize the importance of marketing studies in experiment station work. The first bulletin ever published on the marketing of a live stock product is the 'Production and Marketing of Wool,' issued in 1900 by the Michigan experiment station. Credit is given him for doing the pioneering work in standardizing market classes and grades of live stock.

Developed Feeding Tests.

He was one of the first to recognize the inadequacy of the results from the usual live stock feeding trials in animal nutrition work. It was he who inaugurated the practice now common with all experiment stations of using carload lots instead of just a few animals in these feeding experiments. The animal husbandry department which he developed at the college of agriculture, University of Illinois, is perhaps the first real comprehensive one that the country had.

He served on the national farmers' live stock marketing committee of fifteen from which evolved the producers' live stock marketing agencies, now acclaimed as the most successful voluntary co-operative marketing enterprise in the country.

During the summer of 1929 he served as a member of the American commission to study German agriculture. He also has investigated live stock conditions in Argentina, and on another occasion did similar work in France, Great Britain, Belgium, and Holland.

Michigan State college, from which he was graduated and which he later served as a staff member, distinguished him several years ago by awarding him the honorary degree of doctor of agriculture.

Serving with him on the Mexican commission will be Director Fabian Garcia of the New Mexico agricultural experiment station and Dr. John W. Gilmore, an agronomist of the college of agriculture, University of California.

Big Business. A big business man is one who talks golf at the club and business on the links.—Exchange.

London Man May Adopt Knitted Dress Shirts

London.—The latest fashion news from Bond street is that knitted dress shirts may soon grace the dinner tables, ballrooms and wherever smartly attired men gather.

When the prince of Wales spoke some time ago of the foolishness of men submitting to the 'bottled' shirt, there were hundreds of sufferers who agreed with him. Now, however, thought of the comforts that might be obtained from a knitted shirt, which has now come into the market and is already displayed in West End shops.

The body of the shirt is knitted fabric. The front is made of soft pique with three buttons. The sleeves are of cotton, with cuffs of soft pique, like the front. It is believed to be just the thing for the less formal functions.

Government Gives Man Job for His Lifetime

Washington.—The District of Columbia government has a man on its payroll it can't get rid of.

Dr. William Tindall, who has been in the city's employ for 61 years, was given a lifetime job by an act of congress. Tindall is an authority on the history and development of the National Capital and served as secretary to its last two governors and all of its boards of commissioners until 1912.

Although he reached the compulsory retirement age a decade ago, Tindall's period of service was extended several times because of his value to municipal officials. But the law prohibited his serving longer than the first of August.

Suitor, Aged 30, Kills 60-Year-Old Deaf Mute

Linz, Austria.—Franz Plakol, a thirty-year-old peasant, has confessed he killed a sixty-year-old deaf mute, Anna Gattereder, because she refused to accept him as a suitor. The murder was committed in broad daylight and only a short distance from a field in which many persons were working. Plakol knew that the mute woman was unable to call for help, he confessed.

Woman's Offer to Buy Eiffel Tower Declined

Paris.—An offer by a wealthy woman to buy the Eiffel tower has been turned down by the authorities and evoked a statement from the office of works that the famed structure is not for sale.

Forty years after its inauguration the Parisian landmark is a rich source of revenue for the government, since thousands of tourists each year pay ten francs each to mount to the top.

Not Much Advancement. Progress is most admirable, said H. H. Ho, the sage of Chinatown. 'Yet to explore the sky with kites gave our ancestors a more serenely innocent pleasure than we are now deriving from airplanes.'—Washington Star.

'Top Speed' Hits at Fisher Theater

Probably the most hilarious and side-splitting comedy yet to grace the talking screen can be marked off to First National and its appreciated effort, 'Top Speed,' now convulsing capacity audiences at the Fisher theater.

Joe E. Brown, who scored signally in 'Hold Everything,' has the role of a \$35 a week broker's clerk loose on a vacation among millionaires. Is Joe disheartened? No! Brandishing a foot long cigar he informs all who sundry that he and his partner, who is Jack Whiting, a co-clerk, are really and truly millionaires.

'Scarlet Pages' at Michigan Theater

Bringing to the screen the same characterization which she created in the stage play, Elsie Ferguson, stage and screen star, is now on the Michigan screen in 'Scarlet Pages.'

A wide departure from any of her other roles, Miss Ferguson portrays a brilliant and shrewd attorney. Her defense of a girl, unknown to her as her daughter, is one of the dramatic high spots of the picture.

Marian Nixon, Grant Withers, Helen Ferguson, DeWitt Jennings, Charlotte Walker, Wilbur Mack, Neely Edwards and others complete the all star cast. Miss Nixon enacts the role of the daughter. Maude Fulton did the screen dialogue.

Gay Comedy at Madison Theater

The funniest comedy to come from Hollywood since the advent of talking pictures is the spicy French farce, 'The Matrimonial Bed,' which is now having its first Detroit engagement at the Madison.

'The Matrimonial Bed' is mature comedy with never a dull moment. The story concerns the confusion that overcomes a modern French family when a first husband, supposedly dead for five years, turns up at an inopportune time as a victim of amnesia. Without knowledge of the intervening years, he proceeds to take up life where he left off.

Each Class Room in Richard School Uses Radio for Programs

A visit to the new Pere Gabriel Richard elementary school located on Kercheval and McKinley avenues is like an adventure in a doll house. Everything is built on a lilliputian scale. The desks grow in size as the grades become higher.

This building is one of the most modernly equipped elementary schools that have been built.

Every room has a radio speaker and the gymnasium and auditorium have one at each end of the room to insure better hearing. The radios are used for listening to musical programs, announcements, and instructive talks.

The faculty staff consists of Mr. C. J. Messner, principal, twelve class room teachers, and four instructors in special subjects. The traditional system is used in place of the platoon, the pupils remaining in their rooms and being taught by different instructors.

Church of Christ

BRITAIN'S IDLE COST VAST SUM

Government Is Spending \$13 a Second in Dole for the Unemployed.

London, England.—Great Britain today is spending \$13 a second to feed, clothe and house the 2,000,000 and more men and women who are the needy members of the country's army of unemployed.

This figure is based on the expenditure of more than \$400,000,000 a year for doles, which is only a little less than one-fourth of the interest on Britain's national debt for one year.

One-sixth of the country's 12,000,000 insured industrial workers thus are idle and, as winter approaches, the efforts of Premier J. Ramsay MacDonald's labor government to help the situation apparently so far have proved ineffectual.

Thousands More Are Idle.

In addition to the 2,050,737 persons reported by the ministry of labor to be on the unemployment exchange registers on August 11, when statistics were last published, there are thousands of workers not included under the regulations of the national workman's insurance act, who also are idle.

The total number of unemployed has reached the highest point since 1922 when 2,580,429 were reported idle, this number having been caused by the coal mines dispute. Even during the general strike in 1926 the figure reached only 1,575,890, including all workers except miners.

The unemployment problem has plagued Great Britain for ten years, beginning in 1920 when the first evidences of a trade slump were felt after the World war. The insurance act provisions were drafted to care for the nominal pre-war estimate of 4 per cent unemployment.

They have been found inadequate to cope with the situation in recent years, and special appropriations have become necessary to alleviate suffering. Approximately \$400,000,000 a year is being paid out to the insured workers.

Industry Continues Expansion.

Paradoxically, British industry is continuing the expansion begun in 1920 and today employs over 1,000,000 more workers than a decade ago, while maintaining the same wage levels as then.

Officials of the Trades Union congress explained this situation was caused largely by the fact that before the World war an average of between 300,000 and 400,000 left the country each year for other lands. During the years 1914-1915 there was no immigration and since the end of the war the number of emigrants has been less than half the figure of pre-war days.

Telling blows have been struck at Britain's basic industries by dwindling markets abroad. These have been due in a measure to the world depression, experts explain, and also to the unrest in India and the wars in China, hitting at British trade.

A graphic portrayal of the results may be found in the figures reflecting conditions in the coal-mining industry, for example. In 1913 about 1,200,000 bituminous coal miners produced 287,000,000 tons of coal for home consumption and export. Last year less than 250,000,000 tons were mined by less than 1,000,000 men. The slump was attributed chiefly to the development of the use of hydro-electric power and the loss of markets due to the development by other countries of their own coal fields.

Miners Badly Hit.

The coal miners have been badly hit. Pathetic scenes are witnessed daily in the huge coal areas where collieries have been closed for months. Several villages in South Wales, including Blairstown and Abertillery, have gone bankrupt.

Men who spent years developing a small business dependent on the patronage of the miners have closed their doors and moved away. Men with families have mortgaged the little cottages that represented life savings, lived on these funds, and when they vanished, pulled a few notches in their belt and gone on the dole.

There were few motor cars, radios and other luxuries to be turned into cash. The British miner's pay check never has enabled him to become the silk-shirted miner of America. And today 23.8 per cent of the miners in all Britain are unemployed—they are "on the dole."

France Runs Short of Two-Cent Pieces

Paris.—French business men recently complained to the ministry of finance that there was an insufficiency of 50 centimes (approximately two cents) pieces in circulation and demanded a new stamp.

Snake Leads Caretaker to Wholesale Killing

Hereford, England.—Ten minutes after his daughter had seen a snake disappear into a pile of grass on the historic Holme Lacey estate, John Gaines, caretaker, had killed 27 of the reptiles measuring from 3 feet to 45 inches and destroyed numerous bunches of eggs.

Why So Often?

A normal man is one who cleans his desk every six months and wonders why he saved that darned stuff.—Akron Beacon Journal.

WHO'S WHO "CRASHED" BY 3,400 MORE AMERICANS

New Names Include Bobby Jones—Dr. W. E. Barton Gets More Space Than Anyone Else.

New York.—More than 3,400 Americans gained some measure of fame by being listed for the first time in the 1930-31 "Who's Who in America."

Fourteen of the group of sixty-four men selected by James W. Gerard as the "real rulers" of America are omitted from the list. In general there appears to be a tendency to recognize literary, scientific, theological and academic achievement more readily than leadership in business, industry or sport, judging by the names listed and the space given them.

The most prominent man, if space in the volume is any criterion, is Dr. William Eleazar Barton, noted authority on Abraham Lincoln, with 108 lines to his credit. Next come Nicholas Murray Butler, president of Columbia university, and Samuel Untermyer, noted New York lawyer.

Some concession is given the world of sports in the admission for the first time of the name Robert Tyre Jones of Atlanta, Ga., world's foremost golfer. Among others listed for the first time are John F. Curry, leader of Tammany Hall, and Charles H. Tuttle, United States district attorney in New York.

The Hollywood turnover is apparently too rapid to be recorded, for William S. Hart and Jackie Coogan are mentioned, while today's stars are left out. John Gilbert and King Vidor, however, are two screen personalities who "made good" this year.

Ramon Novarro, whose name adorned the previous edition, was not mentioned in the latest volume, and another to be omitted was Aimee Semple McPherson. The name of Cornelius Vanderbilt, Jr., is left out this year, too.

The volume contains sketches of 29,704 persons. Death removed 1,497 names from the last edition and 1,102 were dropped. New names totaled 3,498.

Reunion With Comrade of War Cost His Life

Wagon Mound, N. M.—Charles Geist lost his life because he recognized the name of his war-time buddy on a sign.

Geist and J. J. Lowenthal, traveling from New Jersey to Los Angeles, drove their automobile up in front of the Wagon Mound garage here recently.

To them Wagon Mound was just another town. They stopped "to stretch their legs."

"Say, I know that fellow," Geist said to his companion, pointing to a sign that bore the name of Fred Crocker. "We were buddies in the war."

Crocker was overjoyed to see Geist. He persuaded the men to stay overnight. It was a great reunion.

The next day Geist was in the Wagon Mound garage supervising work on his automobile. A cyclone struck the town.

Geist, who went through the war unscathed, was killed when the garage walls collapsed under the force of the wind.

His first reunion with his buddy was his last.

British Museum Acquires Egyptian "Dream Book"

London.—A "dream book" on the early Egyptians, which may explain the interpretation given by Joseph to the dream riddles presented to him, has taken its place in the Egyptian section of the British museum and, with other documents, is being translated and classified for further study.

The book is a part of eight early Egyptian papyri dating between 1250 and 1100 B. C., presented to the museum by Mr. and Mrs. Chester Beatty, patrons of Egyptology, and is the only book of its kind recovered from ancient Egypt. It contains records of 100 dreams, their probable significance and the results to be expected.

Among the papyri is also one of the earliest known examples of allegorical writing, describing the "blinding of truth by falsehood."

Bride's Pet Dog Placed in the Receiving Line

Boston.—"Snudge," the tiny pet Pekingese of the bride, occupied a place in the receiving line at the wedding reception of the former Miss Ellen Hemenway Taintor, who became the bride of Yvan Dedons de Pierrefeu in the Unitarian church at Manchester-by-the-Sea.

The little dog, arrayed with neck bow of broad white satin ribbon, keenly felt the importance of the occasion as he greeted the fashionable guests with short, snappy yelps and extended paw, from a ribbon-trimmed basket, which rested upon a table in the reception room.

Joffre Tells History of War in 20 Words

Paris.—Marshal Joseph Joffre became a challenger for Calvin Coolidge's record for brevity when he told the history of the World war in 20 words.

"A people once dreamed of establishing a world hegemony," the famous military leader told a delegation who visited him. "France ruined their project. And this was done at the Marne."

Use for Lacquer

The bureau of standards says that lacquer may be used to give paper a glossy, water-resistant finish. It is usually applied with a spray gun.

Mankind's Advance
As outlined by Dr. Will Durant, the progress of mankind is indicated in the following stages: Speech, fire and light, the conquest of the animal, the passage of man from hunting to agriculture, social organization, the moral sense, the sense of beauty, science, writing and print, and education.

Election Tuesday in High School Building Awaited by Electors

(Continued from Page One)
The Board of Education, in its efforts to acquaint the electorate with

the elements entering into Tuesday's election, has had published a pamphlet bearing on the proposed Junior High School program. According to Fred Sutter, president of the School Board, this pamphlet is to be mailed to all male electors of the School District and should be in their hands by September 26. Anyone not receiving a copy by that date will be sent one upon request to the Board by telephone, Niagara 2000.

This booklet, Sutter stated, was designed to present the facts in the situation and it is believed that no controversial material

has been included. It answers the many important questions that are constantly being asked regarding the Board's plans with reference to providing sites and buildings to take care of our rapidly increasing junior high school population. Tables of data and illustrations assist in the presentation of the case. The Board hopes that every elector will read this booklet carefully in order to reach an intelligent conclusion on which to base his vote in the election on September 30th.

"I hope," concludes Mr. Sutter, "that this presentation of the facts of the case will effectually dispose of much loose and irresponsible criticism inspired

apparently by selfish motives. It is unfortunate that the efforts of the Board of Education should be handicapped by this sort of thing but as long as human nature is what it is, we must expect the wisest planning to be opposed by factions who have their own petty interests closer to heart than the larger interests of their community. No elector, I trust, will be so blinded by the sophistries of such groups as to lose sight of his civic duty at this time. The election is on September 30th, and if you wish to back up your school board in its junior high school program go to the polls in the High School on that day and mark your ballot, 'Yes.'"

YES

A YES Vote is a Vote in favor of the Junior High School Program. It is a Vote of Confidence in Your Board of Education. It is a Vote for the Welfare of the Children and for the Progress of Grosse Pointe.

The bond issue of \$399,000.00 to be voted on Tuesday, September 30th, is for the purpose of buying three sites for junior high schools. Our junior high school system will consist of three schools to be built upon these three sites. Site No. 1 is located in Grosse Pointe Park, one mile east of the city limits. Site No. 2 is in the Farms and Site No. 3 is in Lochmoor, both of the latter being acreage and available at acreage prices. The three-school plan and the location of the three sites were decided upon by the Board of Education only after long deliberation, holding of public hearings and consultation with competent educational authorities.

The question has been asked as to why school No. 1 is to be built in Grosse Pointe Park. It is pointed out in reply, that there are at present 428 junior high pupils living in the Park. This is more than 50 per cent of the total for the entire district. By the time school No. 1 is ready there will be 575 pupils in the Park, and it is estimated that within ten years (1940) this number will have increased to 900, or more, all of them living within the Park. It seems reasonable to believe that a village with 900 junior high pupils should have a junior high school for them within its limits also.

It is the opinion of the Voters' League for Better Schools that the junior high school plan of the Board of Education will adequately serve the school district of Grosse Pointe and at minimum cost to the taxpayers. It believes that this plan should receive the support of every school elector. It urges you to attend the meeting* in the high school auditorium at 10:00 A. M. Tuesday morning, ratify the sum estimated by the Board and then cast a YES ballot on the bond issue.

VOTERS' LEAGUE FOR BETTER SCHOOLS.
(Organized in 1923).

***EXTRACT FROM THE OPINION OF THE ATTORNEY-GENERAL**

"* * * the practice is, when the meeting is opened, to permit the electors assembled to ratify or change the amount estimated by the Board and then proceed by ballot to vote on the question of whether or not the bonds shall be issued.

NOTE!

All voting is to be done in the high school, NOT in the precinct booths. This space is paid for by a group of citizens who are interested in our school system.

VOTE NO SEPTEMBER 30TH

On Tuesday, September 30th, the qualified electors of Grosse Pointe Township will be asked to authorize a \$399,000.00 Bond Issue to finance the purchase of three (3) Junior High School Sites.

The Grosse Pointe Taxpayer's Association, which stands for better education and adequate schools, urges every qualified elector to go to the polls at Grosse Pointe High School on that day and vote NO on this proposal.

- 1st. Is the object in view a necessity?
- 2nd. Is it being accomplished at lowest cost?
- 3rd. Is there some other way to secure the same result more cheaply?

The Taxpayer's Association answers these questions as follows:--

FIRST:

Is it necessary to purchase three junior high school sites?
NO. The crowded conditions in the High School can adequately be overcome for the present and future by a Two Site System. The property located at Cadieux and Kercheval which should be used as site number one (1) is in a heavily populated district, contains nearly eight acres and has been owned by the School Board, and left lying idle for seven years.

The City of Detroit with a population of over 1,500,000 people, has thirteen (13) Junior High Schools. Why does Grosse Pointe Township with a population of approximately 20,000 people, and every allowance made for future growth, need three?

SECOND:

Is it being accomplished at lowest cost?
NO. The Whittier-St. Paul site desired by the School Trustees as their site No. 1 is the most costly property that could have been selected. It contains thirty-four (34) highly restricted residence lots with a market value of \$8,395.00 per lot, or a total of \$285,430.00. In addition, the acquisition of this costly site would necessitate tearing down four expensive homes worth approximately \$150,000.00, making a grand total of over \$430,000.00.

The proposed Bond Issue would not cover the cost of the first site, let alone buy two others. Obviously, further appeal must be made to the voters for additional Bond Issues or additional sums must be spread upon the tax rolls to cover the huge cost of the three (3) site plan.

THIRD:

Is there some other way to secure the same result more cheaply?

YES. Two Junior High Schools can be built at less initial cost than three. In fact there would be a saving of near a million dollars, because no Bond Issue would be necessary to purchase the site already owned, and because one less building would save the cost of another auditorium, another gymnasium, another library, another set of shop rooms and expensive shop equipment, another cafeteria, landscaping, etc., another superintendent, additional janitors, corps of engineers, etc. The interest saving on a Two Site System, on the lessened initial and administrative costs would easily amount to \$60,000.00 a year, or four times the present cost of transportation (\$15,000). Two Junior High Schools will adequately take care of 3,500 students which is the future maximum number of junior high school students to be provided for, as estimated by experts employed by the School Board.

THE TAXPAYERS ASSOCIATION URGES THE VOTERS TO GO TO THE HIGH SCHOOL AT GROSSE POINTE BOULEVARD AND FISHER ROAD AT 10:00 A. M. ON SEPTEMBER 30TH AND BY THEIR VOTE COMPEL THE SCHOOL TRUSTEES TO ABANDON THEIR EXTRAVAGANT PROGRAM FOR THREE JUNIOR HIGH SCHOOL SITES, CEASE THEIR DILATORY TACTICS, AND PROCEED AT ONCE TO RELIEVE THE CROWDED CONDITION OF OUR SCHOOLS BY UTILIZING THE CADIEUX SITE ALREADY OWNED, AS THE FIRST SITE FOR A JUNIOR HIGH SCHOOL.

GROSSE POINTE TAXPAYERS ASS'N.
