

BOND ISSUE FOR 3 JUNIOR HIGH SITES IS DEFEATED BY ELECTORS

Detroit University School Opens Year In Modern Quarters

During the rapid growth of Detroit many memorable institutions, initiated by the city's early settlers, have been practically obliterated.

In its early history, then decidedly a provincial town, Detroit was colonized chiefly by migrants from the Eastern states.

In answer to the growing demand for such a school, the Detroit University School was established on Elmwood avenue in 1899.

The years passed and educational methods changed. A fire destroyed the plant in 1916 and the trustees, among whom are listed several of Detroit's most progressive business leaders, adopted the country day school idea which was at that time just coming into vogue.

This latter idea is nothing more or less than providing the boy whose parents are busy through the day with home surroundings.

This difficulty has been solved by the Detroit University School. The boy comes to his schoolhouse early in the morning and goes through a well-balanced study and program that keeps him busy throughout the day.

The healthy growth of the school compelled the trustees to look for new quarters and in 1927 they purchased 18 acres of land just beyond the Seven Mile road off from Mack avenue.

The former policy of careful preparation for the eastern schools as well as for our own middle-west universities has been strictly adhered to, but in addition to this the needs of the individual boy have become a major problem.

September Report of the Register of Deeds

September marked an increase over August of 138 in the number of warranty deeds to land, according to the monthly report of Otto Stoll, County register of deeds.

Of the latter total, 5158 were deeds, 4323 mortgages, and 931 miscellaneous instruments. Fees totaled \$12,696.07.

Neighborhood Club Activities

The regular monthly business meeting of the V. V. Girls A. C. will be held on Friday, October 3rd, at 8 o'clock sharp.

The first meeting of the Grosse Pointe Athletic Club was held on Monday, September 29th. Several of the members got into gym suits and enjoyed a good workout in the gymnasium.

The Junior Handcraft class continues to grow apace and every Monday, Tuesday and Wednesday afternoon finds a group of youngsters busily engaged in sewing.

The first round of the Ladies' Bridge Tournament was played on Monday, September 29th. Most of the old members returned and several new ones have entered.

On Thursday, September 25th, the A. O. C. Girls enjoyed an old fashioned "pot luck" supper at the Neighborhood Club.

Dancing classes are scheduled to begin on Saturday, October 4th. Call Niagara 0771 for full particulars.

The purpose of the meeting was to officially begin the work of the organization and to inform the 51 new members as to their prospective duties.

Service Club Meets to Organize Routine

"The increasing dependability which is being placed on the members of the Service Club should inspire those members to do their duty and eliminate carelessness in their work," said Mr. John Barnes, principal of the Grosse Pointe High School.

The purpose of the meeting was to officially begin the work of the organization and to inform the 51 new members as to their prospective duties.

Many Pledge Aid to Unemployed: Garska, Grateful, Renews Plea

Alfred Garska, president of Grosse Pointe Park wishes to extend his sincere gratitude to those residents who responded to his petition which appeared in a former issue of the Review regarding the employment of jobless residents of the Park.

He asked those more fortunate residents who were in a position to lend assistance, to cooperate with him in placing these unemployed to work.

There are still a large number of unemployed residents and Mr. Garska makes a further plea to those able to help the situation. Even though they cannot do any hiring themselves, perhaps they know of some one who can.

Night School Shows Increased Enrollment

The night school enrollment in the Grosse Pointe public schools for the first week has exceeded all previous records for the same length of time, according to Mr. A. J. Trippensee, night school principal.

If new members continue to enroll at the present rate there will probably be a few more classes formed. Last term's total enrollment mark will probably be reached within the next three or four weeks.

In New York city, where there is an association for this purpose, women are not accepted as donors of blood for blood transfusions.

University of Detroit's Grid Nucleus

These five players are the backbone of the 1930 University of Detroit Titans, who must face this year such teams as Grinnell, West Virginia, Iowa, Michigan State, Marquette, Fordham and Georgetown in succeeding weeks with only one breathing space intervening.

University of Detroit plays Albion college next Friday evening in the second night game of the season at the U. of D. Stadium, Six Mile road and Livernois avenue.

Special Election Is Canceled by Vote at General Meeting

The \$399,000 bond issue to provide funds for the purchase of three Junior High school sites failed of ratification at a general meeting of Grosse Pointe School district electors, Tuesday morning, with the result that the general election planned by the School Board did not take place.

An overwhelming majority of the more than 600 School District electors present at the meeting which took place in the high school building, refused to approve the bond issue when a vote on the proposition was taken.

This action at the general meeting cancelled the election and open polling that was scheduled to be held during the entire day, Tuesday.

The law under which the Grosse Pointe School district operates requires a bond issue for school purposes to be approved by acclamation at a general meeting preceding the opening of the polls, and failing of this ratification, the polls cannot be opened.

Following the defeat of the \$399,000 bond issue, a counter resolution was presented to the electors at the meeting to the effect, that, mindful of the necessity of obtaining Junior High school facilities at an early date, the School Board was instructed to take the steps necessary to use the school site at Kercheval avenue and Cadieux road, now owned by the Board of Education, as the site of the first Junior High school.

Pointe-Birmingham Grid Game Scores

Last Friday the Grosse Pointe High school football team fought Birmingham to a scoreless tie. In the first half, Birmingham by some good offensive playing had the ball in the Pointer's territory most of the period.

LIGHTS of NEW YORK

It was John Oliver La Gorce who, on his last trip to New York, told me about "Old Sow." He had been fishing and on this trip, heard the story.

Sacketts Harbor nestles on the shore of Lake Ontario, across from the mouth of the St. Lawrence and the Thousand Islands. Here, on July 32, was fought the first battle of the War of 1812.

The defenders on shore had only one gun. They called it "Old Sow." It was a thirty-two pounder, and had proved to be too big for a small Yankee schooner.

There was no death of powder, but all the cannon balls on hand were intended for a twenty-four instead of a thirty-two pound gun.

Still, that artifice doesn't appear to have improved their aim. For around two hours, the ships shot at the shore and the shore shot at the ships.

Finally, the Royal George almost got the range, and with a thirty-two pound shot, it buried itself in the ground near "Old Sow."

But their gratitude to "Old Sow" does not appear to have been profound, for there the old gun rests in sun and rain.

Astrologists are doing an immense business in New York. They are consulted by almost every class of people.

SALVAGING GERMAN FLEET EXPENSIVE

Six Years and \$2,000,000 Spent in Work.

London.—Eleven years ago the huge German fleet, still proud in defeat, rode the waves in Scapa Flow.

Then suddenly one of the battle cruisers lurched forward and began settling into the sea.

The Germans had opened the sea-cocks. They had scuttled their craft as a last act of defiance.

After recovering from their amazement the admiralty officers turned their thoughts and energies to having the ships salvaged.

Although he knew comparatively little about salvage operations, Cox realized he needed more than the usual equipment and purchased the submarine floating dock the Germans had used.

One of the most difficult tasks in the entire operation, it is said, was that of closing all deck and hull apertures left open when the fleet was scuttled.

Cox's determination was displayed while attempting to salvage the battle cruiser Hindenburg, weighing 28,000 tons.

Later, in order to counteract this list, Cox's workmen built onto the Hindenburg's side a block of concrete weighing 9,000 tons.

Six years have passed since Cox began his operations. His firm has spent to date more than \$2,000,000.

Sun Fires Tar Barrel, Blast Maims Worker Minneapolis, Minn.—Thrown skyward when a tar barrel in which he was standing exploded in a freak blast, Clifford Palm, employee of a sheet metal company, suffered two broken legs.

Palm was standing on the barrel in order to reach a weld spot, working with a torch. The barrel, empty of tar except for that clinging to its sides, stood in the sun.

A spark from the welding torch probably ignited the gases, which caused the explosion.

Outcrop of Gold Ore Is Found on Virginia Farm Staunton, Va.—Gold mining in the Shenandoah valley, though never practiced extensively, may be revived if ore deposits on a grazing farm, five miles east of Elkton, owned by John A. According to reliable information, an extensive outcrop of gold ore, the first deposits found about a year ago, has been discovered on this farm, and after being assayed by government chemists is found to constitute a high-grade sample of the metal.

"Manslaughter" Feature at Hollywood Theater

"Manslaughter," one of the most widely discussed talking pictures of the season, comes to the Hollywood theater Sunday to head the program of motion pictures, stage attractions and novelties.

On the stage is featured the spectacular presentation known as "Uncle Tom's Dream." This is a comedy, singing, dancing and musical fantasy based on the famous Harriett Beecher Stowe novel and introduces Bartrom and Saxton in some excellent comedy and Negro spirituals.

Eddie Loughton continues as master of ceremonies and leads the Hollywood Merry-makers, popular orchestra, on the stage, besides contributing a number of songs and specialties.

As usual the Hollywood will give away two new Fords again this week, No. 68 on Friday and the 69th on Saturday.

"Romance" on Bill at Punch and Judy

Greta Garbo, who may always be recalled upon to do something different, will be seen in curls and crinolines in her second all-talking picture, "Romance," which will be at the Punch and Judy theater Tuesday and Wednesday, October 7 and 8.

The picture was adapted from the stage hit in which Doris Keane scored an outstanding success both here and abroad, by Bess Meredyth and Edwin Justus Mayer, author of "The Firebrand." Miss Garbo will be supported by Gavin Gordon, a screen newcomer, Lewis Stone, Elliott Nugent, Florence Lake, Clara Blandick, Henry Armetta, Mathilde Comont and Countess Nina de Liguoro.

Moviegoers unfamiliar with the plot may rest assured that it gives the Swedish star ample opportunity for a display of her well-known talent for emotional portrayal.

As usual the Hollywood will give away two new Fords again this week, No. 68 on Friday and the 69th on Saturday.

ANCIENT PALESTINE
CITY IS ALL-JEWISH

Tel Aviv Most Remarkable
Town in Old World.

Tel Aviv, Palestine.—This thriving
city at the eastern end of the Medi-
terranean is singular in the world as
the first all-Jewish city since the dis-
persal of the Jewish race in 70 A. D.
In outward appearance Tel Aviv
greatly resembles a prosperous Cali-
fornia seaside town, but it is the econ-
omic and cultural center of the most
modern political experiment—the at-
tempt to establish a Jewish national
settlement in Palestine.

Most Remarkable City.
From many viewpoints Tel Aviv is
the most remarkable city in the Old
world. The rapidity of its develop-
ment is astonishing, judged by Old-
world standards. The town was found-
ed on barren sand dunes north of the
ancient city of Jaffa in 1909, and the
census of 1913 showed only 908 in-
habitants. In 1919 there were 2,862
inhabitants, but today there are more
than 40,000 and the city has out-
stripped its neighbor, Jaffa, which has
existed since biblical times.

Other features of the first modern
Jewish town are that the ancient He-
brew language is the official and gen-
erally spoken language; it is inhabited
by Jews from about 40 different coun-
tries, it was the first local authority
in the Near East whose council was
elected by direct voting of the entire
population and the first town to grant
full women's franchise.

Since the famous Balfour declara-
tion in which England promised to
facilitate the foundation of a national
home for the Jewish race in Palestine,
Tel Aviv has grown by leaps. In 1919
the area of the town was about 220
acres; today it is more than 1,400
acres.

Contrast Is Striking.
To the casual observer the busy
streets and boulevards considerably
resemble a newly built American boom
city. The streets are thronged with
well-dressed people, with shiny motor
cars, mostly of American manufacture,
and motor busses. The traffic police-
men are dressed much like the sum-
mer uniforms of American policemen.
The shops are bright and modern. The
homes are either of the California
bungalow type or flat buildings. Com-
pared with the dirt and squalor of an
Arab town like Jaffa, the contrast is
striking.

Although there is a physical resem-
blance to an American town, the in-
habitants differ from those of any
other city in the world. Most of them
have come to Palestine in pursuit of
an ideal, which is the erection in the
ancient home of the Jews of a modern
Jewish state to constitute the focal
point for a cultural revival of the
Jewish race. One of the first stages
which is being accomplished here is
the resurrection of the Hebrew lan-
guage as a living force.

Family Outwits Swarm
of Bees in Week's Siege

Wimpey, Man.—Driven from up-
stairs to downstairs and finally strug-
gling to maintain their household in
the kitchen, H. Bandy and family,
who live on a farm near Birtle,
Man., are recovering from a week's
battle with a swarm of bees.

The bees flew in a week ago, mak-
ing their first stop on the roof of the
Bandy home. For some time they
caused no trouble, but as their num-
bers increased they invaded the bed-
rooms, usurping beds and dressers.

The Bandy's retired to the rooms
downstairs. They were forced to make
their last stand in the kitchen when
the bees followed them to the lower
floor. Realizing the propensities for
pursuit which bees have, the Bandy's
then retired into the open. Falling
into the trap, the bees followed, and
now the Bandy home is free of bees.

The hearse, hit by a heavy truck
coming down a hill towards it, was
rolled over on its side, the casket
opened and the body thrown out into
the interior of the hearse.

It remained for drivers of other
funeral cars following to extricate
body and coffin and await the arrival
of another hearse.

distinction of being the first

France.

After warning his seventeen-
year-old sweetheart, who had

the engagement, that he would

in an airplane to a height of
2,000 feet and then threw him-
self down at La Peyrade, South
France.

"The Love Parade"
at Punch and Judy

Maurice Chevalier, who has become
the greatest European actor to achieve
success in American films since Emil
Jannings, will be seen and heard in his
most gorgeous picture to date when
"The Love Parade" opens at the Punch
and Judy theater Sunday and Monday,
October 5 and 6.

"The Love Parade" is something
different in all-talking musical film pro-
ductions, just as Chevalier is a person-
age entirely different from all other
screen types.

In the first place "The Love Parade"
was written for the audible screen. It
is not a film version of any previous
stage production, it was created ex-
pressly for the screen and with the idea
of the screen's values for amusement
uppermost in the minds of the geniuses
who created it.

Frak of Nature

The Great Stone Face about which
Hawthorne wrote is the "Old Man of

tains of New Hampshire. It was dis-
covered in 1805 by Francis Whitcomb
and Luke Brooks while working on
the Notch road. It was first described
by Gen. Martin Field who visited it
in 1827. From the base of the projec-
tion forming the chin to the top of
that forming the forehead the vertical
distance is 38 feet. The projection
is mainly of granite.
