

SCHOOL BOARD AFFAIRS PROMPT BITTER FIGHT BETWEEN GROUPS

Lions Club In Pointe Lauded by National Officer for Services

In a letter just received from Melvin Jones, founder and Secretary-General of Lions International, the President of the Grosse Pointe Lions Club was commended on the work accomplished by the club during the past year. Mr. Jones states, that in his annual report to the International Convention of Lions Clubs, which was held in Toronto, Canada, last month, he was happy to be able to include and give recognition to the part the Grosse Pointe Lions Club played in the Association's program of Service.

The record of this service, as taken directly from Mr. Jones' report, is as follows:

Conducted sale of a newspaper (the Grosse Pointe Review), with club members assuming the role of newsboys for the day, and realized \$3,451.28 for Goodfellows Christmas fund. Purchased standards for Boy and Girl Scout troops of Grosse Pointe Area Council. Solicited funds for Community Chest. Expended \$755.81 in furnishing underprivileged children with shoes, and \$360.25 in supplying fuel to needy families. Eight membership reports received; seven on time.

An accurate record of activities is maintained at International Headquarters which shows that, during the past year, 16,625 activities have been reported by the 2,500 clubs in the Association. These activities have for the most part fallen under the following general classifications: Blind Work, Boys' Work, Child Welfare, Citizenship, Civic Improvement, Cooperation with other agencies, Education, Farm Work, Public Welfare and Safety.

Presumably because of the increasing need for service work today, 3,108 more activities were reported for the past year than have ever been reported before.

New British Cabinet Is Hailed as Encouraging

The formation of a new British Cabinet whose main business during the next few days will be that of balancing Great Britain's budget, is one of the most encouraging developments in European affairs since the Hoover moratorium according to Dr. Ralph E. Badger, executive vice president and Carl F. Behrens, economist of the Union Guardian Trust Company, Detroit. The new cabinet made up of members from each of the three leading parties is faced with the task of preparing a completely new financial program, to be placed before Parliament on September 8. With its success practically assured New York and Paris bankers are already preparing to provide London with a loan large enough to remove all doubt as to the stability of sterling exchange. Since much of the world's trade is still carried on through the use of the pound weakness in this currency seriously impairs international trade. The return of stability to British finances should, therefore, facilitate recovery in foreign markets.

Farm Produce May Now Be Purchased Direct From Farmers By Mail

The Post Office Department is desirous of encouraging the shipment of farm products to the city consumer and the use of the Parcel Post System as a shipping medium accomplishes this result at a small cost and deliveries are regularly and promptly made.

The Post Office will have an exhibit at the State Fair showing the various kinds of parcel post containers and arrangements can be made at the State Fair Post Office to secure the names of shippers who regularly send farm produce to the city.

Visitors to the State Fair who have farm products to sell, or residents of Detroit who desire to get in contact with farmers who are in a position to ship farm products to them should leave their names with the clerks at the (Continued on Page Four)

Neighborhood Club Activities

Don Carter Wins Tennis Championship of Grosse Pointe

Don Carter defeated Ed. Biederman for the Men's Singles Tennis Championship of Grosse Pointe on the Neighborhood Club courts Monday, August 31st, by the score 6-4, 6-2. Steadiness was the determining factor in the result.

First Round

M. Bacon defeated Standart, 6-0, 6-1. Montgomery defaulted to Dr. Dill. E. Carter defeated Hathaway, 6-1, 6-0.

Keys defeated Anderson, 2-6, 6-2, 6-0. Stokely defaulted to Hewitt. King defeated Mallette, 6-3, 6-3. Biederman defeated Hanks, 6-2, 6-0. Evans defeated Colby, 9-11, 6-3, 6-2. K. Bacon defeated Mollison, 6-0, 6-0. Kelly defeated Friedenberger, 6-0, 6-0. D. Carter defeated A. Moncrieff, 6-3, 6-1.

Brill defeated Tichener, 6-4, 6-4. D. Moncrieff defeated Gossom, 6-1, 6-3.

Radlow defeated McLeese, 6-2, 6-3. Grover, bys.

Second Round

E. Carter defeated Dr. Dill, 6-2, 6-4. Keys defeated Hewitt, 6-4, 6-4. Biederman defeated King, 4-6, 7-5, 6-3.

Evans defeated K. Bacon, 8-6, 3-6, 6-3.

D. Carter defeated Kelly, 9-7, 8-6. D. Moncrieff defeated Brill, 3-6, 6-4, 6-1.

Radlow defeated Grover, 6-4, 2-6, 6-4. M. Bacon, bys.

Third Round

M. Bacon defaulted to E. Carter. Biederman defeated Keys, 6-1, 6-2. D. Carter defeated Evans, 6-2, 6-4. D. Moncrieff defeated Radlow, 8-6, 6-4.

Semi-Finals

Biederman defeated E. Carter, 2-6, 6-3, 6-3. D. Carter defeated D. Moncrieff, 6-8, 7-5, 8-6.

Finals

D. Carter defeated Biederman, 6-4, 6-2.

Grosse Pointe Playground Ball League

Results of games played August 26. Limits, 9; Jolly Pals, 0. St. Claire, 6; Frogs, 5. Grosse Pointe Park, 5; M. Luth. 4. Kerchevals, 9; N. A. C., 0. Racquetters, 9; Tigers, 0.

Team Standings

| Team | Won | Lost | Pct. |
|--------------------|-----|------|------|
| Kerchevals | 9 | 1 | .900 |
| Grosse Pointe Park | 9 | 1 | .900 |
| M. Lutherans | 7 | 3 | .700 |
| St. Claire | 7 | 4 | .635 |
| Limits | 6 | 4 | .600 |
| Frogs | 7 | 7 | .500 |
| Jolly Pals | 4 | 7 | .363 |
| N. A. C. | 3 | 8 | .272 |
| Tigers | 3 | 8 | .272 |
| Racquetters | 2 | 9 | .181 |

The Neighborhood Club Senior Boys Tennis Tournament held at the N. C. during the past month came to a close Aug. 29, 1931. In the final match Robert Smith defeated Jack Kelly in straight sets 6-2 and 6-4. This was a very well played match with practically (Continued on Page Four)

School Board Split Seen as Taxpayers Group Joins with Conely in Leveling an Attack on Citizens Association

Recent developments in the affairs of the Grosse Pointe School Board have led the Grosse Pointe Taxpayers Association and Walter S. Conely, newly elected member of the School Board to direct a double-barreled attack this week on the Citizens' Association of Grosse Pointe and its official publication, the "Civic News."

Letters written by the Taxpayers' Association and by Mr. Conely severely criticizing the Citizens' Association and the "Civic News" have been received this week by the "GROSSE POINTE REVIEW and are published below in full.

The letter of Mr. Conely was directed to the Citizens' Association and was in answer to an editorial attack made on him in a recent issue of the "Civic News."

Lincoln Maire, president of the Citizens Association and editor of its publication has responded to Mr. Conely's letter and the full text of his reply is also published below.

The letters follow:

MR. CONELY SAYS

"To Mr. Lincoln Maire:

"I have been reading the last issue of Grosse Pointe Civic News, and have been wondering why you do not stick to your slogan, 'The first point of Courtesy must always be Truth.'"

"During my last campaign, you published several articles referring to me which were absolutely false. I let them go at the time, but since you continue doing so, I shall have to call several items to your attention.

"On page four of the last issue, you say that Mr. Chatters and myself used the 1929-30 records in making recommendations for a decrease in the school Budget.

"You did not have the courtesy to ask me what records were used, and I must inform you that we did not use the 1929-30, or the 30-31 records, but we did use the 31-32 Budget, which was the last Budget placed before the School Board.

"In the next paragraph, you infer that I said that Mr. Chatters had recommended a Budget reduction to the Board. I never made any such statement, but I said that Mr. Chatters and myself had conferred, and had come to the conclusion that the Budget could be reduced at least \$50,000.

"I am asking that you retract these two statements, and if you do not, I shall certainly place the matter before the Citizens of Grosse Pointe Township.

"A copy of this letter is going to each member of your Board of Directors, to the Grosse Pointe Review, and the Grosse Pointe Tax Payers Association.

"I am going to ask that in the future, before you publish articles using my name, you first call me up and get the absolute truth. I am not afraid of the Truth being published—but lies by inference are the lowest kind of Journalism.

"Yours very truly,
(Signed) "WALTER S. CONELY."

MR. MAIRE SAYS

"To Mr. Walter S. Conely:

"Your communication of August 28th, which you say you are publishing in the Grosse Pointe Review should prove of interest to the taxpayers.

"In that letter, you unaccountably put yourself on record for a \$50,000 budget reduction when you say, 'we did use the 31-32 Budget—and had come to the conclusion that the Budget could be reduced at least \$50,000.'"

"If the budget can be reduced, the Budget should be reduced, and it becomes your plain duty as a member of the school board not only to recommend this, but to see that it is carried out. This would be a big assignment and will never be accomplished by wasting time in going out of one's way to pick a quarrel.

"I have been attending the school meetings and my observations have given me a great deal of confidence in the integrity and judgment of your fellow board members. Any possible budget reduction commensurate with a good educational program would gain their co-operation. Therefore, I believe it fair to say to you that if, and when, you make a \$50,000 reduction in the 1931-32 Budget, I will retract any inference to the effect that you were not accurate in your calculations. I will go further than this, and hasten to thank you for having rendered a public service. On the other hand, if the budget cannot be reduced \$50,000, without impairing school efficiency, it would seem to me proof that you had based your sensational conclusions on inadequate figures,—in which case the retraction lies not with me.

"I made careful notes of the August 10th meeting, and it was evident to every one present that the figures upon which you were basing your statements about the student-teacher ratio were read by you from the River Rouge Public School Bulletin. These data were to the effect that Grosse Pointe had 152 teachers and 3,100 pupils, and were read from page 5, of vol. I, number 2. While this pamphlet was published in April, 1931, the chart renders information compiled from the State Crippled Children Reports for the year 1930. The Grosse Pointe 1931-32 budget is based upon the ratio of 3,659 pupils to 136 teachers (not including 7 principals), (Continued on Page Four)

Gar Wood or Kay Don?

Intense interest in the coming boat races that will terminate in victory for England or the United States, is being expressed by a great many Pointers who expect to be present to receive the pleasures and thrills that the two world renown sportsmen no doubt will furnish.

This is a happy event that many will plan for, in making your plans why not include a good dinner at the Village Tavern. See add on page 2.

Miss Ruth and Betty Butler were entertained at luncheons, theatre parties and moonlights during their visit in Grosse Pointe.

Colored Team To Play At Farms

Grosse Pointe Farms defeated Mack Cartage by the score of 9 to 1 last Sunday. Due to some very loose playing on the part of the Cartage boys the Farms had very little trouble in keeping the lead. The management has a special treat for the fans this Sunday, Sept. 6th, the fast River Rouge colored Monarchs will be the opposing club. Come out and see these colored boys play and be a Booster.

(Continued on Page Four)

SOCIETY

By DOROTHY DEE

Mr. and Mrs. Laurence Mattice of 549 Rivard Blvd., Grosse Pointe have been entertaining Mrs. Mattice's sister Mrs. B. B. Butler and husband and family from Cleveland, Ohio.

Miss Ruth Galster entertained in her home at Yorkshire road, Grosse Pointe Park, Thursday with a Personal shower complimenting Miss Viola Kennitz who is to become the bride of Mr. Paul Beck in September. Places were set for twelve guests.

Among those arriving within a day or two are Mrs. Sidney R. Small and her daughter, Miss Margaret R. Small, who are returning to their home on Provencal road, Grosse Pointe Farms, from Magnolia, Mass., where they have been the guests of Mrs. Small's mother, Mrs. J. Harrington Walker. Mr. and Mrs. Howard Bonbright and son, William Prescott Bonbright II, of University place, Grosse Pointe Village, are coming home from a vacation spent at Bass Rocks, Gloucester, Mass. Dr. and Mrs. Ernest T. Tappay who have spent the Summer at the Huron Mountain Club, will reopen their home on McKinley place, Grosse Pointe Farms.

Circulating Library at Hillebrand Drug Co., Kercheval and Chalmers.

Mrs. Howard Bonbright of University place, Grosse Pointe Village, returns this week from an eastern trip, which included a visit with her parents, Mr. and Mrs. Frederick W. Hodges of Lincoln road, at their summer home at Bass Rocks, Gloucester, Mass. Mrs. Bonbright was accompanied by her daughter, Miss Elizabeth Bonbright. Besides the sojourn at Bass Rocks they spent some time at other eastern coast resorts.

Mr. and Mrs. Arthur F. Alders of Trombly road, Grosse Pointe Park and Mrs. Alders' sister, Miss Gwendolyn Goodman have returned from Tawas Beach, where they were the guests of Mr. and Mrs. Selwyn Lambert of Bay City at their summer home. Mr. and Mrs. Lambert plan to move to this city in September and have taken a house at 1030 Bedford road, Grosse Pointe.

Harold Du Charme, of Lake Court, Grosse Pointe Village, is entertaining a party of friends on his yacht Natoya. They are cruising in Lake Superior until after Labor Day. The guests include Mr. and Mrs. Alvan Macauley Jr. of Kenwood road, Grosse Pointe Farms, Mr. and Mrs. Carsten Tiedeman of Kenwood road, Grosse Pointe Farms, and Miss Eleanor McVeigh, daughter of Mrs. Frances B. McVeigh of Van Dyke avenue.

The Misses Rosalie and Barbara Drake, daughters of Mr. and Mrs. J. Walker Drake of Windmill Pointe drive Grosse Pointe Park, and the Village of Lake Angelus, have left for New York. They will meet their sister, Miss Betty Drake, arriving next Friday from Europe. She enjoyed several weeks' travel abroad.

Mrs. Henry Munroe Campbell of Lakeland avenue, Grosse Pointe Village, who has been abroad this Summer visiting her son, Henry Munroe Campbell Jr., and his family will return about September 15. Mr. Campbell Jr., has been residing in France and Switzerland for a year. Besides being with her son and family, Mrs. Campbell did considerable traveling on the continent.

Circulating Library at Hillebrand Drug Co., Kercheval and Chalmers.

Mr. and Mrs. T. Winegar of Rivard boulevard, Grosse Pointe Village, are leaving the end of this week for a two months sojourn in the Pocono Mountains, Pa. Miss Jane Winegar will accompany her parents and be with them until October 1, when she will go to Miss Baldwin's School at Bryn Mawr, Pa.

(Continued on Page Two)

Record Flower Show Promised Sept. 11th At Neighborhood Club

The Flower Show sponsored by the Grosse Pointe and Eastern Michigan Horticultural Society to be held at the Neighborhood Club, September 11-13th, promises to be the largest yet staged by the local society.

Many Garden Clubs throughout Eastern Michigan have expressed their intention of forming parties to visit the exhibit.

For the first time the "F. T. D." (Florists Telegraph Delivery Association) are arranging to put on an attractive display which hereto has never been done at any community show throughout the country.

Cottage Gardeners

The Judging Committee for the 1931 Cottage Garden Contest being conducted by the Grosse Pointe and Eastern Michigan Horticultural Society have been making their final visit to all Gardens entered during this week, the first week in September. Maurice W. Haven, Landscape Architect, Birmingham who is chairman of Judges, announce that several gardens in the contest are quite outstanding as small gardens. Prize winners will be made by Mrs. Fred T. Murphy, President of the Garden Club of Michigan at the opening of the Flower Show on Friday 11th of September at 5 p. m.

The Flower Show Chairman, Tom Pearson, appeals to all Garden enthusiasts in Grosse Pointe Township who have any interesting species of flowers, especially flowers of old time gardens or novelties to send these along as complimentary exhibits.

Any such exhibits should be sent direct to the Neighborhood Club and have attached to them, the name and address of the sender.

Further information may be obtained from the Secretary, David Rawnsley, 102 Grosse Pointe Boulevard, Grosse Pointe Farms.

Hillebrand Drug Co., Qualified Prescriptionists, 14352 Kercheval avenue, at Chalmers.

Local D. A. R. Leaders Plan Attendance at Divisional Conference

The Central Divisional meeting of the National Society of the Daughters of the American Revolution will be held in Chicago at the Stevens Hotel, September 14 and 15. The Central Division comprises Illinois, Indiana, Iowa, Michigan, Minnesota, Ohio and Wisconsin. This is the third of these meetings which were inaugurated by Mrs. Lowell Fletcher Hobart, president general of the organization. The first one was held in Fort Wayne, Ind., last year at Des Moines, Ia., and this year at Chicago, Ill. Mrs. Hobart will be present and will address the conference.

Mrs. James H. McDonald, of Glencoe Hills, Ypsilanti, State Regent of Michigan D. A. R., accompanied by members of her state executive board, will attend. Of her board, Mrs. E. J. Savage, of Detroit, State Registrar and Mrs. H. Gray, of Benton Harbor, State Director have already made reservations.

Accompanying Mrs. Savage will be Mrs. Osmond D. Heavenrich, of Pemberton Road, Grosse Pointe, Regent of Fort Pontchartrain Chapter. Mrs. Charles H. Mooney, member of the National Committee on Ellis Island work, will represent Louisa St. Clair Chapter of Detroit.

A familiar figure at D. A. R. conferences, Mrs. Charles Horton Metcalf, may miss her first conference in years, because she is so occupied as chairman of hospitality for Louisa St. Clair Chapter.

Mrs. L. J. Mattice entertained twelve ladies at luncheon and bridge for her sister, Mrs. B. B. Butler on Friday.

AT THE THEATERS

By MOLLY ELGOOD

Michigan—"Daughter of the Dragon" In which Fu Manchu tries to rid himself of Scotland Yard interference...

Paramount—"Pagan Lady" Concerning a lady who regards not the conventions, over whom men fight...

United Artists—"Street Scene" Tragic drama woven around a group of tenement people. Strong meat; not meant for followers of light entertainment or children.

State—"Guilty Hands" District Attorney covers his guilty tracks; when up jumps his past and smites him.

Fisher—"Pardon Us" Laurel and Hardy, in three times as many predicaments as they manage to cram into a two-reel.

Traveling Husbands—A Radio Picture What traveling salesmen do when they're a'travel; even with Detroit exterior shots to back it up...

SOUNDS AND SHADOWS

Bella Lugosi, sinister vampire of that nasty chilly yarn "Dracula," has been definitely chosen for "Murders in the Rue Morgue."

"Flying High" is singing and dancing its joyful way to completion with the addition of Charlotte Greenwood, Hedda Hopper, recently of "The Common Law," and Guy Kibbee to its cast.

Years ago First National made a silent picture called "Polly of the Circus" maybe you remember it. Metro may buy the talkie rights, and use it as a vehicle for Marion Davies.

Looks to me as if some switching has been done in the cast for "Thru the Window," George Bancroft originally scheduled for the lead, doesn't appear to be mentioned anymore.

Ramon Navarro has been put in "Mata Hari," Greta Garbo's film.

Nils Asther has been re-signed by Metro, also Joan Marsh, at lower salaries than formerly. Part of the cost cutting process, and a bit tough on the cuttees.

Howard Hughes, forced to give up his intent to make "Queer People" because of none support. Sets up wondering what will happen now in the case of "Once in a Lifetime," also a satire on Hollywood. And as those who saw or read the play know, a pretty cruel satire; there seems to be quite a likelihood of it being shelved also.

"Her Majesty, Love" promises to be

Four Broadway Headliners at the Michigan

Four of Broadway's most versatile performers provide a wealth of entertainment on the Michigan theatre stage. They are Smith and Dale of the stage and screen fame in a comedy act "S. S. Malaria," Blossom Seeley and Benny Field's singing and playing, Jack Osterman, Broadway's wise cracking jester and Aubrey Wyckoff and company, something sensational in dancing. This is the first time that artists of this calibre have appeared together in one program.

On the screen Warner Oland carries on the further adventures of Fu Manchu in "Daughter of the Dragon" which brings back to the screen Anna May Wong and Sessue Hayakawa. The story is about Fu's desire for vengeance on Sessue Hayakawa who is a Scotland Yard operative with whom Fu's daughter is madly in love. This girl is the sensation of London as a sensuous dancer and the action of the story is carried into the Limehouse section of London. Fu makes his daughter swear a terrible oath promising to kill the man she loves. Under the guise of love she tries to kill the Scotland yard man and in an exciting climax a surprise twist occurs.

Laurel & Hardy First Full-Feature Now at Fisher!

Laurel and Hardy, the famous laugh-makers who have appeared with great success in numerous short comedies, are appearing on the screen of the Fisher theatre this week in their first full-length talking feature, "Pardon Us" has turned out to be one of the funniest comedies ever filmed.

The story centers around the two boys who get in trouble with the prohibition officers when they make more beer than they can drink, and by mistake, sell several bottles of the powerful brew to a policeman—whom they mistook for a street-car conductor!

Cows Long Domesticated Cows have been domesticated and their milk used for human consumption so long ago that all records of past peoples include them.

Rose "Harvest" The great rose fields of Bulgaria are harvested from May 15 to June 15, depending upon prevailing weather conditions.

Sometimes a Bigger One There isn't really much difference between an old fool and a young fool, except that the old fool has had more practice.—Toledo Blade.

Inseparable Qualities There never was any heart truly great and generous that was not also tender and compassionate.—South

Noted Educator William H. McGuffey, author of McGuffey's school reader, was born in Washington county, Pa., in 1800, and graduated at Washington college, Pa., in 1826. He was professor, first, of ancient languages and later of moral philosophy in Miami university in 1830-1839, president of Ohio university in 1839-1843 and professor of moral philosophy in the University of Virginia from 1845 until his death, in 1873. He compiled the so-called "Eclectic Series" of readers and other school books, of which immense numbers were sold.

Bargain Hunter Don received a penny for candy. He went to one of the two neighborhood stores and asked: "How many of those do you get for a penny?" and he pointed to some candy.

"Five," was the reply. "Is that all?" said Don, and he walked out. He went to the other store and asked the same question. "Three," was the grocer's reply. Don went back to the first store, tossed his penny on the counter and said: "Well, gimme 'em."

Fat Men Not Criminals Fat men may not be regarded with approval by modern doctors, but one consolation is theirs—prison authorities, at any rate in Japan, look upon them with considerable respect and esteem. A medical officer at one Japanese jail has just received a diploma from the Imperial university for a thesis on the proposition that fat men are rarely criminals and the most crime is committed by the lean and slender sort.—Manchester Guardian.

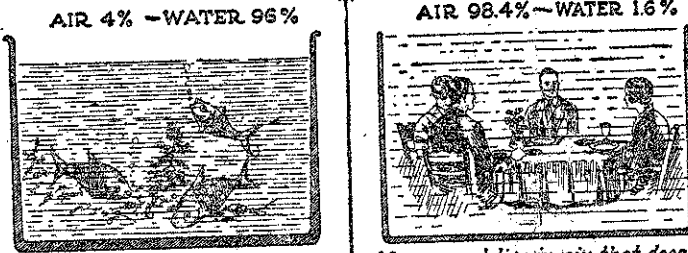

Good Reason The reason there are fewer accidents during the fishing season than during the hunting season is that a fisherman can't drag his fishing pole through a wire fence by the muzzle.—Exchange.

Worthiest of Efforts Efforts to be permanently useful must be uniformly joyous, a spirit all sunshine, graceful from very gladness, beautiful because bright.—Carylde.

French Measure Ligne is a French measure of length equal to 2.25 millimeters or 0.0885 inch.

DO YOU KEEP SUFFICIENT WATER IN YOUR AQUARIUM?

ALL ANIMALS, EVEN FISH, REQUIRE A PROPER MIXTURE OF AIR AND WATER IN WHICH TO LIVE

Fish cannot live in water that does not contain the proper air supply. Man cannot live in air that does not contain the proper water supply.

HOME AIR IS UNHEALTHFUL IN WINTER WHEN IT DOES NOT CONTAIN SUFFICIENT MOISTURE

MAN LIVES IN AIR AS FISH IN WATER

Holland Institute of Thermology Traces Respiratory Diseases to Dry, Dusty Stagnant Air in Homes.

FISH cannot live in water that does not contain air. Neither can man live in air that is entirely free from water. In fact, all animal life requires for existence a proper mixture of both air and water, declares the Holland Institute of Thermology, of Holland, Mich., whose research engineers have found that even slight changes in the composition of life environments are often detrimental to healthful existence.

The most desirable mixture of these elements for fish life is 4 per cent air and 96 per cent water. When the volume of air is less than 4 per cent, fish are likely to suffocate.

In the home, every pound of air heated to a temperature of 70 degrees should contain 10 1/2 grains of water to be most comfortable and healthful. This means a proportion of 98.4 per cent air and 1.6 per cent water. Yet in many homes during the winter sea-

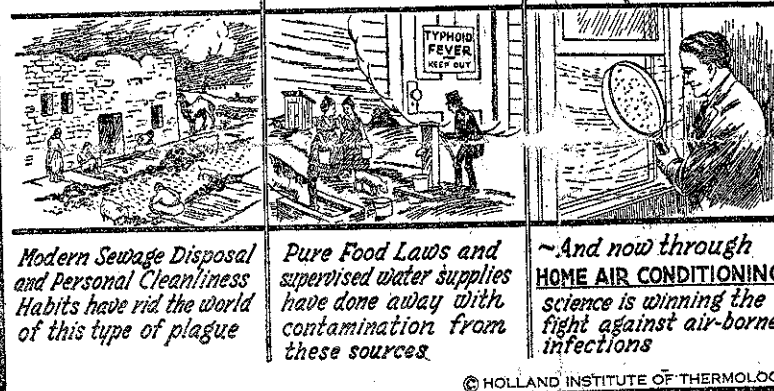

son the amount of air moisture drops to one-third and even less of this amount. Such air is the result of old style methods of heating which provide no means for injecting water vapor into the air to maintain a healthful and comfortable humidity. Common colds, influenza, and other respiratory infections are generally the result of insufficient moisture in home air.

The cold air of winter has only a fraction of the capacity of summer air for moisture. The great outdoors is the only source of our indoor air supply, and when winter air is heated to temperatures of 70 degrees or more, its moisture capacity is correspondingly increased. Hence, there is a shortage of water vapor in the air. The most satisfactory means of overcoming this moisture deficiency is by means of heating systems of the vapor air type. These are equipped with humidifiers which evaporate and automatically inject into the home air the water vapor from 3 to 25 gallons of water daily, as required. In modest homes of 5 or 6 rooms, from 6 to 8 gallons of water should be evaporated daily to adequately humidify the home air.

The moisture thus supplied is sufficient to conserve and protect health. Furthermore, moderate temperatures of 68 to 72 degrees will be found to be far more comfortable than the high temperatures and super-dry air that characterize homes heated with old style heating systems.

SCIENCE BATTLES IMPURITIES TO PREVENT DISEASE

1 DISEASES PICKED UP THROUGH BODILY CONTACT WITH FILTH. 2 DISEASES PICKED UP THROUGH FOOD & DRINK. 3 DISEASES PICKED UP THROUGH AIR WE BREATHE.

Modern Sewage Disposal and Personal Cleanliness Habits have rid the world of this type of plague. Pure Food Laws and supervised water supplies have done away with contamination from these sources. And now through HOME AIR CONDITIONING science is winning the fight against air-borne infections.

CHECK INFECTIONS BY STUDY OF AIR

Home Air-Conditioning Essential Factor in Checking Air-Borne Diseases.

OF THE three main sources of infection from which man is in constant danger of contracting disease, two have been practically controlled in modern civilization. Effective means for protection against the third have only recently been perfected, according to the Holland Institute of Thermology, of Holland, Mich. These sources of disease are the three external divisions of his environment—filth, with which his eternal body comes in contact; the food and drink he consumes; and the air he breathes.

Such epidemics as the horrible Black Death or the Plague of Justinian, from which people died by the millions in medieval times, were caused by disease of filth carried by the fleas of mice and rats. In those early days of history, little was known of sanitation, so rodents overran the land, and the disease-carrying fleas flourished. The disease germs these fleas carried, coming in contact with the bodies of people, spread rapidly to cause the terrible plagues of those times. When people learned to keep their premises and bodies clean, diseases of this nature disappeared.

In more recent times, such diseases as Asiatic cholera and typhoid fever taught mankind the grave menace to the human body in contaminated food and drink. Pure food laws and supervised water supplies have proved effective protection against these sources of infection.

In present times, most diseases resulting from man's contact with his environment are caused by impurities in the air he breathes, especially in the air within his home. Common colds, influenza, pneumonia, and other respiratory infections are the result. Now science is winning the fight against these air-borne infections by home air conditioning, which is the function of the modern warm air heating system. By means of an automatic humidifier, an air propeller unit, thermostat control, and an air filter, the up-to-date heating plant furnishes

an adequate supply of moistened, clean air in motion at comfortable and healthful temperatures in all weather.

Moisture Conserves Home Values, Says Institute

Home values are jeopardized by the damaging results attending the drying out of floors, cornices, moldings, baseboards and other interior woodwork during the winter heating season. Not only are sagging woodwork and wide cracks in floors unsightly, but they markedly affect the resale value of a house.

A most effective way to prevent the damage incident to drying out of interior woodwork and furnishings, is to artificially moisten the home-air during the heating season, says the Holland Institute of Thermology of Holland, Mich. The most efficient devices yet evolved for this purpose are those associated with the heating system itself.

In warm air heating systems of the vapor air type a humidifier with an especially designed evaporating surface receives a constant water supply by direct connection with the water main. It is of ample capacity to evaporate and inject into the home-air, the water vapor from four to six quarts of water per room per day.

This supplies sufficient moisture to prevent the drying-out of interior woodwork, floors and furniture that would occur under ordinary heating conditions. Thus the home heating system by adequately vaporizing the home air tends to protect values by preventing the damage that results when the air is overheated and too dry.

Of greater importance, however, is the fact that a much higher degree of personal comfort is attained with moderate temperatures, if the home air is adequately humidified.

Examine Heater Before Installing Oil Burner

Home owners should not install oil-burner units in their present coal-burning heating systems with the expectation that the new method of heating will overcome any serious deficiencies that characterized past heating plant performance, warns the Holland Institute of Thermology of Holland, Michigan. The heating system should be in A-1 condition else the oil-burner installation will not render the first class service expected of it.

Sometimes a Bigger One There isn't really much difference between an old fool and a young fool, except that the old fool has had more practice.—Toledo Blade.

Look Forward to Much Immunity From Disease

Mankind of the future probably will develop immunity against many communicable diseases that are now considered most fatal, says the Public Health Service.

Some racial groups already are able to develop partial immunity to measles, mumps, chicken pox and similar diseases of childhood after once coming in contact with them, it is pointed out, although several centuries ago these maladies may have been very deadly.

The human body develops immunity against disease either by normal contact with the disease or by artificial contact through use of antitoxins and vaccines.

Measles, for example, though not highly dangerous among people of the civilized world, still is fatal to persons who have not come in contact with the disease sufficiently to build up immunity against it.

Similarly with other ailments which have lost their severity on the white race, peoples exposed for the first time are notably of low resistance.—Detroit Free Press.

Big Western White Pine Tree in National Park

A grand old western white pine tree, believed to be one of the largest of its kind in the world and estimated at more than one thousand years of age, is in Crater Lake National park, Oregon. It is 23 feet, 2 inches in circumference, the measurements being taken breast-high in accordance with the Spalding rules of measurements. Its height is 140 feet. The pine is located in a canyon on the middle fork of Anna creek, two and a half miles south of government camp. The east side of the gorge has been subject to heavy erosion, causing the roots of trees in that section to become almost trunks in their own right. But this great tree, growing on the west side of the canyon, has never suffered from the effects of such action. The great size of this giant tree is particularly amazing because Idaho, and not Oregon, is recognized as the real home of the western white pine.

No Oil in Car

The wife of a Longmeadow man recently learned to operate their rather antique automobile. The man himself, to make his garage more clean, now that his wife would use it, placed an old dip pan under the car. For two weeks he was gone on a business trip, of such a flying nature that he used the train, leaving the care of the car to his wife.

Last evening he returned home, went to the garage and noted the pan had been removed from in under the car. Upon going in the house, he asked his wife, "How come? Said the little woman (she feels pretty small now, anyway), "Oh, I guess the children moved it. Anyway, there isn't any oil in the car. I looked a couple of days ago, and thought when you came home you could put some in."—Springfield Union.

Glad She Was Fooled

After overhearing a remark by his father that the age of a tree may be estimated by the number of rings about its trunk, a small boy threw a scare at his mother's party. The boy looked confidently into the face of one of the guests, who was on the further side of forty and was fondling her necklace, and remarked, "Lady, I can tell how old you are." Amid frantic attempts at hushing he managed to get out:

"You are twenty-two. I counted the number of rings on your necklace." The lady hugged the boy and the mother sighed her deep relief.

Noted Educator

William H. McGuffey, author of McGuffey's school reader, was born in Washington county, Pa., in 1800, and graduated at Washington college, Pa., in 1826. He was professor, first, of ancient languages and later of moral philosophy in Miami university in 1830-1839, president of Ohio university in 1839-1843 and professor of moral philosophy in the University of Virginia from 1845 until his death, in 1873. He compiled the so-called "Eclectic Series" of readers and other school books, of which immense numbers were sold.

Bargain Hunter

Don received a penny for candy. He went to one of the two neighborhood stores and asked: "How many of those do you get for a penny?" and he pointed to some candy.

"Five," was the reply. "Is that all?" said Don, and he walked out. He went to the other store and asked the same question. "Three," was the grocer's reply.

Don went back to the first store, tossed his penny on the counter and said: "Well, gimme 'em."

Fat Men Not Criminals

Fat men may not be regarded with approval by modern doctors, but one consolation is theirs—prison authorities, at any rate in Japan, look upon them with considerable respect and esteem. A medical officer at one Japanese jail has just received a diploma from the Imperial university for a thesis on the proposition that fat men are rarely criminals and the most crime is committed by the lean and slender sort.—Manchester Guardian.

Inseparable Qualities

There never was any heart truly great and generous that was not also tender and compassionate.—South

Marie Dressler and Polly Moran At Riviera!

Marie Dressler and Polly Moran, the famous comedy team that played together in "Caught Short" and "Reducing," are now appearing at the Public Riviera theatre in their newest and funniest comedy feature, "Politics."

"Politics" is the highly humorous story centering around a small town that is run by racketeers and bootleggers, until the women step in to take over the business end of the town's activities. Marie Dressler runs for the office of mayor and Polly Moran portrays the role of her campaign manager. The picture is exceptionally funny, especially so when the men of the town go on strike, only to be followed by the women, themselves, going on a strike!

Good Reason

The reason there are fewer accidents during the fishing season than during the hunting season is that a fisherman can't drag his fishing pole through a wire fence by the muzzle.—Exchange.

Worthiest of Efforts

Efforts to be permanently useful must be uniformly joyous, a spirit all sunshine, graceful from very gladness, beautiful because bright.—Carylde.

French Measure

Ligne is a French measure of length equal to 2.25 millimeters or 0.0885 inch.

SOCIETY

Mr. and Mrs. John Kenrick Bangs, Jr., of Maumee road, Grosse Pointe Village, are entertaining Mrs. Bangs' mother, Mrs. R. B. McFadden of Chicago. They are at the Wauwabeek, Jefferson, N. H., a favorite vacation spot of the family.

A bridge-tea will be given at the home of Mrs. John J. Palm, 168 Sunningdale Drive, Grosse Pointe Shores, Monday, Sept. 14, at 2 o'clock, by members of the Detroit Association of Ohio State University Women. The proceeds will be applied to the loan and maintained by the association at Ohio State University for the benefit of worthy girl students who have gained distinction on the campus. There will be 100 tables at play. The committee in charge and assistant hostesses for the afternoon will include Mrs. C. E. Beatty, chairman of the scholarship committee; Mrs. Mark Hanna, honorary chairman, Mrs. Melvin Siegel, Mrs. L. Rowan Mrs. A. H. Whittaker, Mrs. P. Pratt Mrs. W. P. Nelly and Mrs. Walter Knapp.

We Can't Worry

The economist who fears that the population of the United States will never go above 170,000,000 appears to be practically alone in his worry.—Cleveland News.

For Quick Exit

Things move so swiftly in South American politics that we suppose the first thing a new president down there does is locate the back door just to be ready.—New York Post.

Safeguarding Jury

"Embracery" is an attempt to corrupt or influence a jury by money, promises, letters, threats or persuasions. In the United States it is punishable by fine and imprisonment.

Flowed Up Ancient Crown

A peasant whose plow turned up a gem-studded ancient crown in a Transcaucasian field turned in his \$50,000 find and it went to the Archaeological museum of Georgia.

AIR MORE IMPORTANT THAN FOOD IN KEEPING BODY HEALTHY

MAN'S DAILY MENU CONSISTS OF— 3 1/2 LBS. AIR 3 1/2 LBS. FOOD 4 LBS. WATER 60% OF MAN'S ENERGY DERIVED FROM AIR HE BREATHS ONLY 40% FROM FOOD AND WATER HE CONSUMES

TOO DRY AIR LEADS TO ILLNESS, DEATH

Inject Water Vapor Into the Home Atmosphere for Health and Comfort.

FOOD is of less importance to life than is air, according to research engineers of the Holland Institute of Thermology of Holland, Mich. We can live many days without food, but deprived of air, even for a few minutes, we die.

But we are concerned about air not only because we breathe it. Air is to the human what water is to the fish. Fish could not live in water did it not contain an adequate supply of air.

Life is dependent upon clean air, moist, moving air, and in a broad sense, warmed air. If the air we live in is dry, dusty and stagnant, it has a detrimental effect upon the delicate membranes in the respiratory tract.

The so-called "cold" is more common in America than in any other country. Our cold epidemics usually commence with and continue through the heating season. Health authorities are of the opinion that the dry, dusty, stagnant air in American homes and places of work is an immediate cause of respiratory diseases.

Dusty, dry air is germ-laden. By keeping the home air in constant circulation, and passing it over the hot surface of the heater, modern warm air heating systems sterilize it, destroying the disease germs.

keeping the home air in constant circulation, and passing it over the hot surface of the heater, modern warm air heating systems sterilize it, destroying the disease germs. Thus, by keeping the air adequately moistened and by circulating and sterilizing it, the heating system is of equal or greater importance than the kitchen, from a health standpoint.

"Burning Out" Chimney Creates Fire Hazard

Danger lurks in the practice of purposely burning out chimneys as a means of cleaning them, warns the Holland Institute of Thermology of Holland, Mich. The burning out of a chimney is liable to crack the lining, permitting sparks to find their way into the frame of a home, or into the attic.

Obviously these dangers are enhanced in extreme cold weather, when under-sized heating systems make it necessary to resort to forced firing.

Aside from being a fire hazard, chimneys and smoke-pipes clogged with soot interfere with heating plant performance. These units constitute the "nose" of the heating plant, as they make possible the draft of air supply essential to fuel combustion.

To eliminate the fire hazard incident to "burning out the chimney" and to assure sufficient draft for efficient firing, the chimney and heating plant should be cleaned of their soot and dust accumulations at regular intervals.

This powerful cleaner is attached to the various openings in the heating plant and to the chimney by means of flexible piping through which the dust and soot are sucked out of the entire system, including the chimney, and deposited in a huge dirt bag some 40 feet long.

Smoke test of the chimney after the cleaning will reveal whether there are any leaks in the lining or brick work.

AIR MOTION KEEPS HOME COMFORTABLE IN ALL SEASONS

MODERN WARM AIR HEATING SYSTEM WITH AIR PROPPELLER IN WINTER IN SUMMER - PROVIDES UNIFORM WARMTH IN ALL ROOMS AT ALL LEVELS - KEEPS WARMED AND MOIST AIR IN CONSTANT MOTION - CHANGES AIR IN EVERY ROOM 4 TO 6 TIMES AN HOUR

HEATING SYSTEM AS AN AIR COOLER

Moving Air Stirred by Propeller in Modern Warm Air Heating Plant Provides "Dog Days" Relief.

PARADOXICAL as it may seem, the home-heating system can now be the source of summer comfort as well as winter comfort. This is made possible, points out the Holland Institute of Thermology, of Holland, Mich., by modern warm air heating systems.

Homes become uncomfortable during sultry weather due to the absence of air motion and to the formation of layers or pockets of stagnant air which soon become overheated and stifling. Even opening windows and doors fails to provide the necessary "fresh air."

By placing the air propeller in operation, the air in the rooms is forced into general circulation, just as warmed air is circulated during winter. The effect is to break up the pockets of stagnant, overheated air, the elimination of which, plus the gentle air motion produced by the air propeller, creates a physical comfort virtually equivalent to a drop of 10 to 15 degrees in temperature.

Home-owners will find that the action of this air propeller is sufficient to produce an indoor comfort in their homes superior to that enjoyed in many of the so-called "cooled" theaters.

Lasting Brick

Good quality bricks form the most permanent kind of building material. At Ur, in Chaldea, there is a well preserved arch built of sun-dried bricks 4000 years ago.

Credit Pearls to Vishnu

A Hindu myth attributes the creation of the pearl to the god Vishnu. His worshippers are accustomed to adorn their idols with pearls.—Gas

Activities

(Continued from Page One)
all the games going to deuce, but the
steadier playing of Smith enable him
to come through when necessity de-
manded. The results of the matches
were as follows:

FIRST ROUND

Robert Smith defeated Carlyle Mon-
crieff, 6-3, 6-3.
Junior Maul defeated Hugh Hay-
ward, 6-0, 6-4.
James Danahey defeated Jim Sween-
ey, 6-4, 6-1.
Paul Boessen defeated Wm. Harris,
6-2, 6-3.
Frank Vanderpoole defeated Jack
Blum, 6-1, 6-0.
Marvin Miller won from Donald
Cummings on default.
Art Parent defeated Guy Moss, 8-6,
1-6, 6-4.
George Hergenroether defeated Mel-
vin Braund, 6-2, 6-0.
Leonard Clinton defaulted to Rob-
ert Buckel.
Francis Bradley defeated Cyril Wy-
bo, 6-3, 6-2.
Art Armstrong defeated Chas. Tread-
well, 10-8, 3-6, 7-5.
Jack Kelly defeated Bruce Kenyon,
6-1, 6-0.
Philip Heiler defeated Philip Sloan,
6-2, 6-2.
Russel Bogardus defeated Marcel de
Wolf, 6-1, 6-0.
George Marshall defeated Wm.
Machleit, 6-0, 6-0.
Homer Gray defeated John Casey.

SECOND ROUND

Robert Smith defeated Jr. Maul,
6-2, 6-3.
Paul Boessen defeated James Dana-
hey, 6-2, 6-3.
Frank Vanderpoole defeated Marvin
Miller, 6-2, 6-4.
Hergenroether defeated Art Parent
6-2, 6-3.
Francis Bradley defeated Robert
Buckel, 2-6, 6-4, 6-1.
Jack Kelly defeated Art Armstrong
6-1, 6-0.
Russel Bogardus defeated Philip
Heiler, 6-0, 6-1.
Homer Gray defeated George Mar-
shall, 6-3, 7-5.

THIRD ROUND

Robert Smith defeated Paul Poessen,
6-3, 6-2.
Hergenroether defaulted to Vander-
poole.
Jack Kelly defeated Francis Brad-
ley, 6-0, 6-2.
Bogardus defaulted to Homer Gray.

SEMI-FINALS

Smith defeated Vanderpoole, 6-2, 6-0
Kelly defeated Gray, 6-0, 6-0.

FINALS

Robert Smith defeated Jack Kelly,
6-2, 6-4.

The Neighborhood Club Junior Boys
baseball team closed its season last
week after playing nine games. These
games were all home and home games
with Detroit Playground Teams includ-
ing the Ives, Stellwagen and Clark
Schools.

The local boy won 6, lost 2 and tied
one game during this schedule, the
highlight of which was a 27-1 victory
over the Ives School.

Frank Vanderpoole and Charles
Wolf with eleven runs each led the
team in scoring honors for the season.

Farm Produce May Now
Be Purchased Direct
From Farmers By Mail

(Continued from Page One)
State Fair Post Office or write direct
to Postmaster Chas. C. Kellogg.
The Postmaster has noted that the
increased size and weight limits of parcel
post which became effective August
1, 1931, has resulted in the receipt of a
large variety of shipments which were
not received before this date.

He states that the increased weight
limit of 70 lbs. to all zones makes the
parcel post of still greater utility to the
general public as well as to all mer-
chants and manufacturers, who are now
able to include larger orders in one par-
cel, where formerly it was necessary to
send two parcels to the same address.

The larger parcels which are now per-
missible also effect a considerable sav-
ing in postage.

The increase in size to 100 inches in
length and girth combined has also
broadened the extent and usefulness of
the Parcel Post Service in that the in-
creased dimensions permits the ship-
ping of large quantities of the lighter
and bulkier materials, and also ship-
ping of much larger articles than were
acceptable under the old maximum of
84 inches.

Another development in the general
use of Parcel Post is the greatly in-
creased amount of perishable parcels,
including fruits, eggs, vegetables and
many other farm products, which are
regularly being shipped as Parcel Post
by the farmer to the city consumer.

Many letters praising this service are
received from residents of Detroit who
regularly receive shipments of perish-
able goods and Mr. Kellogg attributes
the increase in the shipment of farm
products to the fact that the farmer
has an unlimited outlet for his product
and the city consumer enjoys the ad-
vantages of fresh products at a con-
siderable saving to himself.

Lochmoor
Church of Christ

Mack avenue, near Lochmoor Blvd.
Holidays are practically over. Children
soon back to school. As a consequence
we are looking for increased attend-
ance at the Home Church.

Now is the time to lay your plans are
you concerned with things, eternal, if so
come to church. We try to conform to
simple new Testament teaching and
practice, 7:45, Bible School; 11:00, wor-
ship; 9:30, singing, preaching the gos-
pel.

Wednesday, 7:45, Prayer, Praise
Preaching. The Evangelist is pleased
to be of service in visiting the sick giv-
ing counsel, call him up. Anniversary
services, Sept. 19 and 20.

Presbyterian Church
Of the Covenant

9:30 a. m., Bible School.
10:45 a. m., morning worship. Ser-
mon theme, "Will Christian Faith Live"
Preacher, The Rev. Robert L. King,
D.D., Pastor of the Albany Park Pres-
byterian Church of Chicago.

"No religious faith demands as much
initial investment and none pays such
dividends in lasting values as the Chris-
tian faith. It is satisfied with nothing
less than the actual investment of in-
dividual lives. It promises an abundant
and everlasting quality of living from
the moment of that investment. Again
and again, the man of Galilee likened
the laws which govern the life which
we now call Christian to the sowing
and reaping. Millions now living and
millions who have passed on during
these twenty centuries have invested
their lives. In proportion to the size
of their investment all have received in
their lifetime some dividends of lasting
value and their influence has added to
the wealth, the happiness and the wel-
fare of the world. All investments in
the Christian life are dedicated to eter-
nity. Christians do not look for quick
returns on the whole investment. The
abiding values are payable in the as-
surance of an ever increasing number
of people in whose lives the principles
of Faith, Hope and Love are definitely
at work."

Eastminster Presby-
terian Church

East Jefferson at Manistique. Carl
E. Kircher, pastor.
Rev. Carl E. Kircher, pastor of the
Eastminster Presbyterian Church has
just returned from his vacation spent
at Winona Lake Bible Conference,
Winona Lake, Indiana. He will speak
next Sunday morning at 11:00 a. m.,
on "Awake."

Messiah Lutheran

Southeast corner of Lakewood and
Kercheval. A. H. A. Lober, pastor,
1434 Lakewood avenue. Telephone,
Lenox 2121.

"Gratitude to God" will be the theme
of the sermon for the coming Sunday,
September 6. Services will be held as
follows: German service at 9 a. m.,
English service at 11:15 a. m.; Sunday
School at 10:15 a. m.

The work of decorating the church
has made splendid progress and will be
completed sometime next week. The
congregation and Sunday School will
observe Rally Day on Sunday, Septem-
ber 11, at 7:15 p. m.

Indian "Battle Flags"

Mexican Indians had some sort of
battle flags and some American tribes
carried a long staff with feathers at
the top and the end sharpened. One
of the braves carried it and stuck it in
the ground, standing guard over it until
recalled by the chief or killed. The
flag bearer was called a dog soldier.

Cross Word Influence

The old-fashioned office boy who
used to worry us by his whistling is
replaced by the one who worries us
ten times more by asking something
like this: "S-ay, what's a word of
three letters, meaning a bovine ani-
mal?"—Florida Times Union.

"Liberty Hall"

"This is Liberty hall," is in Gold-
smith's comedy, "She Stoops to Con-
quer." Squire Harcastle says to
young Harlow and Hastings when
they mistake his house for an inn,
"This is Liberty hall, gentlemen; you
may do just as you please here."—
Washington Star.

From the Troubadours

The complication of opinions and
ideas, of affections and habits, which
prompted the chevalier to devote him-
self to the service of a lady and by
which he strove to prove to her his
love, and to merit hers in return, was
expressed in the language of the Trou-
badours by a single word, by the word
"domnei," a derivation of "domna,"
which may be regarded as an altera-
tion of the Latin "domina," lady; mis-
tress.—Exchange.

Bird's Handicap

When a bird faces the glare of the
sun it cannot readily detect observ-
ers in its line of vision.

Wanted, Optimists
It's all nonsense to expect life to be
filled with sorrow and sadness.—Wom-
an's Home Companion.

TAXPAYERS SAY

(Continued from Page One)
burlesque and belittle the honest and
sincere attempts of citizens and tax-
payers at the July 20th meeting of the
School Board to suggest ways and
means of economizing in school costs.

"Then they show their disapproval of
newly elected Trustee Conely's attempt
to cut the school budget by making (so
we are informed) mis-statements as to
the figures used by him.

"The tone of their remarks clearly
indicates their antagonism to the Trust-
tee elected last June to the Board by
an overwhelming majority, on a plat-
form of economy and efficiency. It has
become quite evident from the attitude
of the Civic News, the School Super-
intendent and several members of the
Board, that Mr. Conely is going to have
hard sledding in his endeavors to live
up to his platform and keep the tax
rate down.

"With taxes becoming more delin-
quent each year, with the next school
tax jumping \$1.71 per thousand, with
the district owing \$4,000,000 and forced
to operate on borrowed money, how
long will it be before the Township
finds itself unable to borrow funds?
How long will we have to wait before
the situation becomes a crisis? Until
the Masquerader tells us?

"An Association pays when it demon-
strates faithfulness to the community
it serves.

"Very truly yours,
(Signed) "GROSSE-POINTE TAX-
PAYERS' ASSOCIATION
"Edwin H. Lindow, Sec."

MR. MAIRE SAYS

(Continued from Page One)
and I fail to see where you were co-
ordinating with the present budget in
taking 1930 information out of the Riv-
er Rouge Chart.

"The part of the article in the Civic
News that follows the substance men-
tioned in your 3rd paragraph, conse-
quently the part you refer to in pa-
graph 5, reads as follows: 'Mr. Chat-
ters was in conference with the Grosse
Pointe School Board at the July 20th
meeting, recommending that the tax
levy be \$850,000; he did not recommend
budget reduction.'

"I feel that anyone who will attempt
to twist this simple statement of a fact
into a cause for grievance on the score
you mention is hard pressed for some-
thing to dispute.

"Very truly yours,
(Signed) "LINCOLN MAIRE."

"Street Scene"
Scores Hit at
United Artists!

"Street Scene" Elmer Rice's famous
Pulitzer prize play which packed in the
crowds in New York for two years has
been made into a motion picture by
Samuel Goldwyn and is now playing
at the United Artists theatre. The pic-
ture which has been winning the plaud-
its of the press and public, features a
large cast and includes many of the
original stage players. Sylvia Sidney,
William Collier, Jr. Estelle Taylor are
the motion picture stars that play the
more important roles.
