City of Grosse Pointe Fire Losses for 1935 Total Only \$9,123.00

City of Grosse Pointe, Joseph T. Brisson, Superintendent of Public Safety, relates that his officers are continuing their annual inspection of all buildings in the city in an effort to discover possible danger spots and to warn residents of fire hazards that exist in their homes and are easily preventable by a bit of forethought and caution.

Fire losses during 1935 totalled \$2,123 in the City as opposed to a value of property endangered amounting to \$201,725.00 with insurance coverage amounting to \$181,725.00. This is a remarkably low loss in view of the total valuation of the property endangered or involved by fire and considering that the firemen responded to 118 alarms during the year.

Superintendent Brisson states that while the causes of fire are many and varied, one of the most common is that of blazes which originate in rubbish which has been allowed to accumulate in basements against wooden walls or partitions. In several instances last year firemen were called to quench flames which were rapidly assuming dangerous proportions when detected. In each case these fires were the result leys on Jan. 29, and from what of ignition of either loose rubbish or we hear rotund Bob knows his the rubbish-filled bags which had been placed upon wooden walls or near or under the basement stairway from Al Simmons has asked the writ- which the fire was in a fair way to ers to please keep him out of the communicate itself upward throughout columns until he has made good, the structure. Two means of abating the danger of such fires originating in debris or rubbish are suggested: 1, Keep all such material (and containers) away from wooden walls, framing or partitions. 2, Secure metal cans of ample capacity Gangsters have the most elab- and deposit therein the burlap bags containing rubbish. Defer School Bond Issue Paid in Full by School Board

No formal ceremony was held, but the Grosse Pointe Board of Education celebrated the paying off of the \$250,000 bond issue on the Defer School at the last meeting, held on Thursday evening, January 16. The building is now completely paid for. The payment was made without any refunding, it was pointed out, through placing in the Sinking Fund each year a sufficient amount to retire the bonds when they became due.

Mr. Charles A. Parcells, president of the Board, said that it was a source of satisfaction to him and to the Board—and must be to the community that the bond issue is paid off. He stated, "The \$250,000 in bonds issued January 15, 1921, drawing interest at the rate of six per cent, which became due on January 15, 1936, were paid off with money which was on hand for the purpose."

The payment of this amount reduces the bonded indebtedness of the school district from \$3,863,000 to \$3,613,000 and reduces the annual interest obligation by \$15,000.

The latest edition of Earl Carroll Vanities will be seen at the RKO Downtown Theatre in Detroit one week beginning Friday, January 24 as the regular Downtown Theatre prices and this is the first time a show of this magnitude has been precented at these orices.

THE OLD MASTER COMES OUT OF THE KITCHEN

To Remark "George Rector speaking. Today I want to explode some popular ideas about cooking... such as the belief that Crepe Suzettes can be properly made only in Paris, and that American apple pie is no good anywhere outside of a New England breakfast, and that steak not broiled over charcoal has been shamefully mistreated. * * * That charcoal broiling business, now ... there's a pretty bit of nonsense!

"I know some good and honest and estimable citizens who swear by charcoal broiling. When it comes to steaks, they will have no traffic with the ordinary way of fixing them. This select little group will turn up their collective and respective noses at any piece of meat broiled in the common manner. And that state of affairs is too bad. Yes it is!

"Give me an electric cook stove, a good thick juicy Porter-house, and all the trimmings, and I will guarantee you as succu-lent and tender and deliciously flavored a platterful of steak as you have ever tasted in your born days. What is more, I would like to MEMBER OF THE invite all these particularly fussy gentlemen to dinner, and let them judge for themselves

about the cooking.
