Rabaut Claims Letters Are Being Duplicated

Rabaut says that form letters opposing the Robinson-Patman Bill, in coming to his desk, resemble in their form and errors the opposition to the holding company legislation. Many letters arriving in protest today all bore identical initials other than those belonging to the Congressman, all were written on similar paper, all were mailed in the same type envelopes and experts say written by one typewriter, and all were signed with addresses omitted.

Star Carpet Cleaning Co. Gives Rug Facts

So many cases of rugs damaged by home cleaning methods have been brought to the attention of Star Carpet Cleaning Company that this reliable institution feels it necessary to broadcast a warning.

It is absolutely impossible to remove all the dirt from a rug if it is cleaned at home. Patented rug soaps claim to remove dirt, and they give an appearance of cleanliness to the rug because the brush skims off the surface dirt. But the dirt deep down in the fibers of the rug remains, and the rug's cleanliness is only temporary, for the soap suds cannot be rinsed out at home, and these suds that remain in the rug quickly attract dirt.

Furthermore, the rug often becomes streaked if it is cleaned at home, and many of the rugs are so badly damaged when they come in to Star's plant for a going over that Star cannot always remove these streaks.

Here is what happens to your rug when you clean it at home. You spend the entire day scrubbing the rug with a soapy brush, and you think you have cleaned it because the rug has an appearance of brightness.

Lions Sponsor White Cane Ordinance to Aid Detroit's Blind

Detroiters will pause Thursday to stretch out a guiding hand to their sightless fellowmen.

In an impressive ceremony at noon on the City Hall steps, Mayor Frank Couzens will pledge to the city's blind the protection they are to receive under the new White Cane Ordinance.

Nearly 200 unseeing men and women will be presented, with white canes—the symbol which commands the sighted world to stop and to help these unfortunates.

By sponsoring the campaign for the White Cane Ordinance, Detroit's Lions Clubs have brought about this protection for the blind.

Thursday the white cane becomes a stop signal for vehicle operators and pedestrians alike.

The white cane means its carrier is blind, and is depending upon the seeing world to aid him on his way.

More than forty women will be among the 200 blind persons, ranging in age from 16 to 80, who will receive their white canes of safety as a climax to the ceremonies.

Escorted by members of Detroit Lions Clubs, the blind will mount the City Hall steps to be presented with the white walking sticks by Mayor Couzens.

By his very presence, there each of the city's blind will move on faltering steps to make his own appeal for the busy Motor City to make highways safe for the blind.

"We feel that this will be a scene Detroiters will remember for a long time," said Donald P. Schuur, the Lion who has campaigned most earnestly for passage of the Ordinance.

Grosse Pointe Post 303 NEWS

By AL ZARB St. Patrick Day's party, at our club-house, was, as usual, a hilarious and most enjoyable affair. Those of you who failed to come missed a darn good time. However, due to the fact that it was a last minute affair, the crowd was not as large as usual, but that did not prevent them from making merry and enjoying themselves. Commander Smith and Floss Krapp will bear me out on that statement.

Another party next Saturday, March 28th. This is something different. We start with a bingo party and end the evening with dancing. Admission is free, so come down and bring your friends, and if you don't have a good time I'll eat my hat (at the end of the season).

Comrade Korte needs a few volunteers. Don't let the same men do all the work. This is your Post, this work should be spread amongst the members.

Post meeting was held Wednesday night, March 18th, with Gordon Lees conducting the meeting as Commander (Continued on Page Five)

Funeral Services Were Held Sunday for Mrs. N. Ray Watling

Funeral services for Mrs. N. Ray Watling, 33, who died in Grosse Pointe hospital last Thursday afternoon of pneumonia, were held at 1 p. m. Sunday in the Watling home, 576 Notre Dame avenue, Grosse Pointe, and at 3 p. m. in the Starville Methodist Episcopal Church. Rev. Harvey Colburn, Congregational pastor, Ypsilanti, officiated. Burial was in Starville cemetery.

Mrs. Watling is survived by her husband, N. Ray Watling, teacher at the Grosse Pointe High School; two sons, David Lee, 5, and Patrick James, 10.

Transportation of the blind for the occasion has been provided by the Ford Motor Company and the Oldsmobile Motor Car Company.

Commissioner Heinrich A. Pickett and Supt. John P. Smith of the Detroit Police Department have promised hearty co-operation.

Each safety patrol boy of the public and parochial schools will be instructed in the new ordinance and asked to do his part in helping the blind.

Superintendent Frank Cody of the public schools has placed a copy of the ordinance in the hands of every teacher, and has asked the new law be explained to every pupil.

All employees of the Detroit Street Railway system also have been notified of the passage of the Ordinance and through the co-operation of Fred Nolan, General Manager of the D. S. R., placards asking the public's support of the law to help the blind will be placed in street cars and buses.

Passage of the ordinance is the most significant step in the program of Detroit Lions to aid the city's blind.

Late King Wrote to West Side Resident

The death of King George V recalls to mind the fact that Kenneth MacLennan, formerly with Grosse Pointe Country Club, who resides at 84 Alger avenue and whose sixty-fifth birthday is today, was the recipient of a letter from the late ruler of England written just prior to his death. The letter was in reply to a congratulatory message which Mr. MacLennan dispatched to George V on the occasion of his silver jubilee.

This letter marked the third such missive which MacLennan has received from an English ruler. The others were from Queen Victoria and Edward V. MacLennan, who has made his home in Detroit 30 years, was a servant in the household of both Queen Victoria and Edward V.

Following is the most recent letter from the royal family: "The private secretary is commanded to convey to Kenneth MacLennan the king's thanks for his good message of congratulation and good wishes on the Silver Jubilee of His Majesty's Accession."

A Juvenile Traffic Court

Under the heat and fury of the prevailing traffic situation, there is being incubated in our metropolitan area; the germ of active public interest in the solution of this problem. Keener vigilance, by the police in detecting traffic offenders, rigorous penalties against the reckless; a campaign of planning and education for the general class of automobile drivers—all to militate against current casualties.

In response to this growing public enthusiasm, in the traffic problem, Probate Judge D. J. Healy, Jr., has accepted recently in Wayne County a Juvenile Traffic Court to review and to study the perplexing cases of traffic violators who are under 17 years of age. The juvenile traffic offender is, therefore, now going through a similar procedure as does the adult in the Detroit Traffic Court. Suspension of violators driving licenses, or a complete taboo on driving a car is imposed by the Court, commensurate with the gravity of the offense.

Minors who refuse to abide by the Court's instructions, or who remain adamant, either through their own recalcitrance, or because of objections on the part of their parents, are faced with the alternative of having complaints filed against them with ensuing court supervision during their probationary period.

Judge Healy, Jr. has contrived, however, to dispose of many traffic complaints involving juveniles without giving the boy or girl an "official record." For the entering of such violation against him on the court records often-times, militate against the child's interest, which is in contravention to the spirit of the statute which governs the Juvenile Court procedure. Instances where youths have been precluded from procuring employment because of a

minor juvenile offense, have come to the attention of the Court—children have been branded as "delinquents," when in justice they should have been categorized as "infractors."

But in no sense are traffic violators condoned by the Court. These cases are studied thoroughly and adjudicated, strictly on their merits. The offender is required to study thoroughly the rudiments of safe and sane driving; he is instructed, further, in the ethical value of respect for other's rights; he is reminded that egotism and selfishness are the roots of most traffic accidents; he is urged, in driving, to invoke the "Golden Rule" rather than the rule of the "Right of Way."

There are instances, however, when the traffic violation is only the proximate occasion of the child's being before the Court: unsanitary home, conditions or baneful companions or vicious recreational outlets or conflicts within the child himself have been read in between the lines of many traffic tickets. In these cases, the Court, necessarily, responds to the gravity of the situation and set in operation its machinery of delinquency prevention.

Grosse Pointe High School Notes

Grosse Pointe High School, for the first time, is a member of the group of more than 200 high schools in the United States selected to present the Bausch and Lomb Science Award, according to Mr. John R. Barnes, principal.

This award will be tendered to the student who in the opinion of the Faculty Science Award committee has done the best work in science over a four-year period. The medal will be presented annually at the June commencement. The award committee will consider January as well as June graduates.

The award was established by the Bausch and Lomb Optical Company in 1932 as an incentive to high school students in the study of science. Its aim is to discover and encourage promising students in the hope that some of the more than two hundred winners who graduate annually will eventually make valuable contributions to science. According to the secretary of the National Science Award Committee, winners of the award in previous years are making conspicuously fine records in colleges throughout the country.

Mr. G. W. Lance, chairman of the local Faculty Award committee, which will include all instructors of physics, biology, and chemistry, estimates that between 75 and 100 students in Grosse Pointe High School will be eligible each year to compete for this medal.

Students who wish to be considered should apply in writing to the chairman of the science department. Blanks may be secured for this purpose from Mr. Lance in Room 222 any day after school. Those graduating this coming June should make application immediately. Graduates of the class of January, 1937, should not make application until October 1936.

The following rules have been set up by the faculty committee:

- 1. Only those who have completed at least two out of the three available senior high sciences with an average of B or better are eligible.
2. Only those who have completed at least one year of mathematics and at least two years of science at Grosse Pointe High School are eligible.
3. Only those who have completed at least Mathematics I through VI with an average of B or better are eligible.
4. Only those who are approved for graduation during the current school year are eligible. Summer school graduates may not be considered until June of the following year.

Parents of Grosse Pointe Senior High School students will be guests Friday evening, April 3, at the Senior Open House, it has been decided by the committee in charge.

The teachers on the supervising committee are: Mr. Donald Campbell, chairman; Miss Doris Tefft, Mrs. Lola Detting, Mrs. Anne Majneri, Miss Helen Barthel, Mrs. Jetta White, Mrs. Elizabeth Hudson, Mr. S. A. Shoemaker, Mr. William Hamilton, Mr. Axel Gruenberg, and Mr. N. R. Watling.

The schedules for the coming track and tennis seasons have been decided upon. There will be 15 tennis meets commencing April 23 and ending June 12. Seven of these will be played on Grosse Pointe's courts and eight at other schools. Each Border Cities League team will be met twice.

In track six meets have been scheduled, the last of these being the state meet. Mr. Frank Banach, track coach, has only one letterman back this year, Jack Chapman, and an exceptional opportunity is offered to all boys even though they have had no former experience. The track and tennis schedules are printed below:

The complete set-up of a modern newspaper, from the writing to the final wrapping, was seen.

Landscaping for the new Lewis E. Maire school will put into effect ideas submitted by Mrs. Myrtle Wagner's biology I classes of last semester, announced Dr. Brownell last week.

The plans of Doris Allen, 10-A, Richard Stone, 10-A, Helen Ellis, 10-A, Robert Krause, 10-A, and Roy Fairbank, 10-A, and Robert Field, 10-A, who worked together on a design, have been selected from 15 entries. No one plan will be used in entirety, but ideas will be taken from each.

Judges for the contest were Mr. Lincoln Maire, son of the man for whom the new school has been named, Dr. S. M. Brownell, superintendent, and Mr. Edward Allen, administrative assistant.

Mr. Maire, a professional landscape architect, said, "For students not having had special training in landscape architecture the plans showed unusually good ideas and draftsmanship."

The winning designs were chosen on the basis of three points: first, landscaping ideas; second, materials used; third, the care with which the plan was made.

Each of the five winners will receive a letter from Dr. Brownell.

Notice of Hearing

ON PROPOSED AMENDMENT TO THE VILLAGE OF GROSSE POINTE PARK BUILDING ZONE ORDINANCE.

WHEREAS, on February 27th, 1928, this Council enacted a certain Ordinance known as the Building Zone Ordinance, being Ordinance No. 65 of the Village of Grosse Pointe Park, and, WHEREAS, since the enactment of said Ordinance it has come to the attention of this Commission that certain provisions of said Ordinance in relation to side yards, were of such character that certain corner lots in the Village of Grosse Pointe Park became practically useless for building purposes, if such provisions were strictly construed,

NOW THEREFORE, BE IT RESOLVED that this Commission proposes to amend Section 4, Paragraph (c) of Ordinance No. 65 of the Village of Grosse Pointe Park, known as the Building Zone Ordinance, to read as follows:

"SECTION IV, (C) SIDE YARDS

—In a Residence A District, there shall be on each side of every lot a side yard, the minimum width of which shall be four feet. This width shall be increased four feet for each story by which a building erected on the lot exceeds two stories in height. Where the side wall of a building exceeds fifty feet in depth the width of side yard opposite the portion in excess shall be not less than ten feet.

On a lot occupied by a church or other building in which persons congregate, or which is designed, arranged, remodeled, or normally used for the congregation of persons in numbers in excess of twenty-five, the width of such side yard shall be not less than forty feet."

PROVIDED, HOWEVER, that the side yards on corner lots fronting on Windmill Pointe Drive, shall be not less than the minimum width for such side yards provided in the subdivision restrictions, notwithstanding anything in this Ordinance to the contrary."

BE IT FURTHER RESOLVED, that this Commission shall meet on April 17, 1936, at 8:00 o'clock p. m. at the Municipal Building in the Village of Grosse Pointe Park for the purpose of conducting a public hearing as to the advisability of amending the said Building Zone Ordinance in the manner herein proposed.

BE IT FURTHER RESOLVED that notice of such hearing shall be given by publication of the time, the place and the character of the proposed amendment in the Grosse Pointe Review, for two (2) successive weeks at least fifteen (15) days prior to the date of hearing herein fixed, and by posting copies of such notice in three (3) public places in the Village of Grosse Pointe Park, within like period.

perience will be kept by the Guild. BOY SCOUTS

Scouts and leaders of the Detroit Area Council, Boy Scouts of America, are "train minded." That's because they have adopted the slogan "All Aboard the Exposition Express"—which means "all ready for the big Merit Badge Show at Convention Hall, April 16 and 17."

Enthusiasm is at a high pitch. Troops are still asking at Scout Headquarters for the privilege of showing some merit badge or other—but the space has all been assigned. Over 70 booths have been taken and no additional space is available.

Tickets for the Exposition have been forwarded to all Scout units, and in many instances are already disposed of. Many excellent sales successes have been reported. One scoutleader sold 97 tickets in two days. Another sold 52 tickets his first day out. Several troops have already sold their quotas and secured additional supplies.

With all the interest, initiative, and originality being displayed by so many of the demonstrating Troops, we know that the various booths are going to be brilliant with activity, materials, and craftsmanship.

Many of the downtown stores and business houses are helping. Sixty thousand adult tickets (and as many children's tickets) were printed without cost by Crowley-Milner & Co. Walker & Company are building a beautiful display for the Exposition. S. S. Kresge, J. L. Hudson Company, Cunningham Drug Stores, Silvercup Baking Company and many other large firms are co-operating with advertisements, radio announcements or in other ways. Posters have been distributed by the Board of Education throughout all the schools. The Service Clubs, P. T. A.'s, and the American Legion are also doing their part to make the Exposition a success.

There's no doubt about it—the Exposition will be the largest demonstration of boy activity and hobbycraft ever displayed at one time in the history of Convention Hall. Truly, scouting marches on!

INSURANCE TIPS

By H. THOMPSON STOCK

Fire insurance policies do not cover loss by fire and smoke when the fire is confined to where it is supposed to be. Insurance men call fires in the furnace or in a stove "friendly fires."

In the case of furnaces with oil burners, occasionally the oil burner does not function properly—especially when it is old and parts are worn out—smoke will fill the house and leave a grimy smudge that is not easy to clean.

Insurance companies have met the demand for insurance for this purpose. The rate for dwellings has recently been halved so that \$1,000 costs now only 50 cents for three years. Coverage is effected by means of a rider to the fire insurance policy and amount of coverage must equal the amount of fire insurance the house or the contents is insured for.

If you do not have this coverage and want it—just phone your agent and tell him you want it.

Use of the Great Seal
After the Constitution was adopted one of the first acts of congress was to ratify the Great Seal. Although the secretary of state is official custodian of the seal he cannot place it on any paper unless that paper bears the signature of the President.

Sloping Smokestacks
According to one authority, smoke stacks were sloped backward to eliminate draft because of the theory that there was less likelihood of air pressure from the top of the stacks; however, marine engineers have found vertical stacks to be just as efficient.

Spring Tonic

(By Alene Theisner, Nutrition Director, Detroit Dairy and Food Council)
Remember the so-called "good old days" when the sight of the first robin brought out grandmother's pet remedy for Spring fever—sulphur and molasses? All right, have your laugh, but she was right after all.

Not the sulphur, but the molasses she used to disguise it is a grand source of iron, just the ingredient winter-weary systems need. Iron, you know, builds healthy red corpuscles... puts pep and vitality into your veins and renewed vigor into your whole body.

Today's tonic is still iron, it's much more palatable than sulphur and molasses... no medicine in ours—just eating. Here's our prescription for Spring fever patients—large dose of fresh green vegetables, especially the leafy ones, fruit, eggs and milk, to be taken daily.

Now that Spring is really here we no longer need the hearty foods we've been busily eating all winter to build up energy and fat to keep us warm.

Political Taxing

(By Representative Allen T. Treadway of Massachusetts)

Embarrassing situations have arisen since President Roosevelt notified Congress, on January 3rd that he could see no need for new taxes at this Session. That statement, it will be recalled, brought loud applause from the Democratic side of the House. Two months later we find the Majority groping desperately for additional funds to cover their extravagant expenditures.

Such terms as "cushion reserves," "windfall taxes," "floating accumulation taxes" and "equalized processing taxes" carry no real meaning in tax parlance. They are purely political camouflage and window dressing, calculated to conceal an economically indigestible tax measure on the eve of a presidential campaign.

In 1935, the New Deal tax program was written word by word in the Treasury and sent to the Ways and Means Committee for the rubber-stamp approval of Congress. Now, with a presidential election in the offing, the labor of framing the 1936 tax bill is passed adroitly back to Congress.

The problem before the Majority in Congress is to raise new taxes without imposing new levies on any considerable group of voters.

The Democratic Party must choose. If they intend to pass a tax bill at this Session, they must contrive to lay the burden in such a way that it will not embarrass either themselves or the presidential candidate in the White House.

Star Carpet Cleaning Company Gives Rug Facts

(Continued from Page One)

But where does the dirt go? The dirt stays right in your rug! You have brushed the dirt and soap suds into the very fibers of your rug, and it is really as dirty and unsanitary as it ever was. The dirt and caustic suds acting on the fibers of the rug attack the material and weaken it so that the rug's period of usefulness is shortened. The rug becomes limp and lifeless instead of bright and resilient.

At Star's scientific rug cleaning plant, on the other hand, your rugs are carefully routed through eight separate processes that remove all the dirt from your rugs and bring out the luxurious texture and rich, beautiful colors that make your rugs look like new.

The Star Carpet Cleaning Company is one of the largest and finest rug and carpet cleaning plants in America. It is equipped with all the latest, most scientific equipment for cleaning rugs so that your floor coverings are returned to you looking just as bright and beautiful as new. Star maintains a special department for the cleaning and repairing of Oriental rugs. In this department native craftsmen repair tears and holes so that they are invisible.

Backed by 43 years of rug cleaning experience, Star Carpet Cleaning Co. cautions you to play safe with your rugs and send them only to an experienced, reliable rug cleaner, where they will receive the thorough, scientific attention that prolongs their life and beauty.

303 NEWS

Smith was unable to attend due to his wife's illness.

Earl Cramer was elected adjutant, and Russell Murphy senior vice commander. Cramer took office immediately. However, Murphy will be installed next week, in spite of the recount demands of Al Zarb and Paul Zumbo who got one vote each. (I believe Zumbo voted for himself).

The Drum and Bugle Corps was out for practice 100 per cent again. That outfit will be going places this year. Art Simms, besides managing the Corps, is also their music instructor; what they need now is new uniforms, so we can make a good showing in Cleveland.

Art Dorie is now connected with the cafe on Mack this side of 7-Mile Rd., formerly Snay and Dunning. Drop in and see him.

Comrade Bauman of the Manor Cafe attended our party with some friends. The membership contest is in full swing, with team No. 11 (Al Zarb) still

leading. A little more effort and 303 will be over the top. Comrade Bill Neff is still confined to his home. Drop in and see him.

High School Notes

Madeline Smith, 9-A, will be Grosse Pointe High School's representative in the Border Cities League declamation contest when it is held on April 9.

Madeline was chosen Thursday when she delivered her declamation entitled "Abraham Lincoln."

William Muehl, 11-A, and Bruce Lindley, 11-B, will represent Grosse Pointe in the extemporaneous and oratory contests, respectively.

The winner of each of these three divisions in the Border Cities League contest will be presented with a dictionary by the Detroit Free Press.

For the purpose of observing Grosse Pointe High School's social science and fine arts departments in operation, Miss Lois Rodgers, supervisor of fine arts, and Miss Helen Stuern, supervisor of social science, both from the Hamtramck High School visited here and at Richard school last Thursday.

Miss Stuern was very favorably impressed with the social science department. "I think the idea of keeping up with the current happenings all over the world is excellent. The small classes you have here allow the students and teachers to be so much more intimate. At Hamtramck, you know, in some cases one teacher has as many as 130 pupils."

Miss Rodgers was equally impressed by our art department. "The art projects produced by high school students are remarkable. I think your instructor has a great deal to do with it, however. The atmosphere is so sane. There is none of that rush and confusion so prevalent in other schools I have visited. I admire the respect shown the students who are in charge in the halls."

The high school senior class movie, "Kentucky Kernels," show last Tuesday, netted the class \$57.30. The expenses and the cost of the film amounted to \$14.15. This money will go into the class treasury to help pay for the caps and gowns to be used for the June graduating classes.

The senior class officers, in charge of the movie, are William Braybrook, Mary Margaret Thomas, Agnes Gardner, and Richard Morin.

The sixth grade pupils of Mason School will present "The English in Michigan" on March 27, in the Mason School auditorium.

The presentation will be made up of three scenes: The first, Alexander Henry at Mackinac Island; the second, Chief Pontiac's conspiracy; the third, Passing of Detroit from the English to Americans.

This assembly will be the third in a series portraying the progress of Michigan. The first episode pictured the Indians in Michigan; the second episode, the French in Michigan.

Mrs. D. K. Christian, fourth grade teacher, has charge of the production.

A new club sponsored by Mrs. Anne Majneri to promote skill in shorthand and typing is being organized at Grosse Pointe High School. Jean Betzing, 12-A, will be temporary chairman, and Agnes Gardner, 12-A, will temporarily be the club's secretary.

Any student of shorthand or typing who has passed his typing or transition tests is eligible for membership in the club. Invitations written in shorthand on St. Patrick's day cards were sent out Friday.

Omous Burg Sunday Speaker at Art Institute

Omous Burg, young explorer and adventurer, sailed in a tiny boat through uncharted seas at the tip of South America to bring back the first complete motion picture record of this wild and picturesque region. He will show his motion pictures and give a public lecture on "Around Cape Horn in a 26-Foot Skiff" at the Detroit Institute of Arts at 3:30 Sunday afternoon, March 29th.

Amos Burg shipped his skiff 7,000 miles south to Patagonia. Thence, with a single companion, he started for Cape Horn. He smashed his way through thirteen hurricanes. Once a gale and hail storm bombarded him for 120 hours continuously. He photographed two of the world's wildest primitive tribes, the Alacaluf and the Yaghams. His motion pictures are a stirring combination of land and sea adventure.

John Erskine to Speak in Final Town Hall Lecture on Wednesday

John Erskine, famous writer, composer, pianist, and authority on such famous sirens of history as Eve, Helen of Troy and the Queen of Sheba, will close the 1935-36 Town Hall season in the Fisher Theater, Wednesday morning, April 1. Mr. Erskine's original engagement was Nov. 6, but he was seriously injured in an automobile crash on his way to Detroit less than an hour before his lecture engagement. His Detroit lecture will be the first and only one permitted him by his doctor since the accident.

"The Influence of Women—and Its Cure" will be his subject. Speaking of his recent book of the same name, the Chicago Daily News says—"A book that

makes Schopenhauer sound like a feminist. Mr. Erskine must be a brave man!" His lecture will bring the same Erskinian flare for amusing comment and satire to the Town Hall platform, and may explode a few witty bombshells into the very laps of his feminine listeners.

Besides being author of such famous books as "The Private Life of Helen of Troy," Mr. Erskine is a distinguished composer and pianist of concert caliber. He appeared at Orchestra Hall last year, at the invitation of Oasip Gabrilowitsch, as guest artist with the Detroit Symphony Orchestra. He has been president of the Juilliard School of Music, New York, since 1928, and a member of the Board of the Juilliard Foundation which helped put the floundering Metropolitan Opera Company back on its feet.
