Governor Urges Second Payment on 10-Year Plan

Governor Frank D. Fitzgerald today issued a statement reminding taxpayers that they must act at once, if they wish to take advantage of the savings offered by the 10-year installment plan are never free from politics. In our of paying delinquent taxes.

"September 1 is the deadline." the governor declared. "Those who paid their first installment last year, and those who wish to come under the plan by making two payments at once, will find it to their advantage, I am sure, to visit their county treasurer."

Last year, the governor recalled, treasurers' offices were jammed during the closing days, causing much inconvenience and delay. To avoid this, he urged that payments be made as early as possible.

While the state is standing the expenses of the tax-collection drive, Governor Fitzgerald declared it was acting merely as a collection agent. Ninety per cent of the delinquent taxes collected remain in the local community where they originate. They are used for the support of city, township, school district, or county gov

"The state is deeply interested," he explained, "for the reason tramck. He served as postmaster there that a self-supporting local government is the best kind of a govern ment. It is managed by its own people. It is not subject to evils of remote control. Likewise, when a local community handles its own affairs, it does not become an additional financial burden to the fish are churned around at a great rate state. The local unit of government, the state, and the people in general profit when taxes are paid."

It was Governor Fitzgerald who championed the advertising campaign for tax collection last year, which resulted in the payment of \$15,000,000 in first installments, of which \$13,500,000 went directly for the upkeep of local governments.

Republican Women Hold Rally at Home Of Mrs. W. R. Hudson

By KAY KILBRIDE

"Pinecroft." the lakeshore home of Mrs. William R. Hudson, at 3463 East lefferson avenue, St. Clair Shores, was the scene, last Wednesday, August 19, of a political rally of the Women's Republican Club of Grosse Pointe. Interested women from Lochmoor, Indian Village, Mt. Clemens and Grosse Pointe began assembling on the spacious lawn directly in back of the house shortly after one o'clock. When the meeting was called to order at 2:30 by Mrs. Mertz of Grosse Pointe some several hundred Republican voters were

Mrs. Edwin Krieghoff, chairman of the Club, was the first speaker of the afternoon. Her subject "What Is The this program. New Deal?" was capably covered and among the points brought out was that in November voters are going to choose men, not a platform. Mrs. Krieghoff contrasted Roosevelt and Landon as governors, showing how the first was 50 cents. Reservations may be made the champion spender, while Landon saved money for his state. "The hope of the country," continued Mrs. Krieghoff, "lies in the Republican party, for in returning our party to a place of responsible influence we will bring back prosperity."

Mrs. Krieghoff defined the New Deal as "Roosevelt and his brain trusters," bringing out the point that President Roosevelt never mentions the Democratic party as such, but rather speaks always of the new deal. "We should rejoice," she concluded, "that the ballot and not the bullet still rules here."

Mrs. Rex, chairman of publicity, followed Mrs. Krieghoff with an enlight ening talk on the condition of the state. Giving statistics and figures Mrs. Rex told the women exactly how our part of the country has suffered during the last four years. Mrs. Varnum, secretary of the Wom

en's Republican Club of Indian Village next spoke on the closeness of politics to women. "As women," she said, "we kitchen, our shopping, in everything we do, we are necessarily close to it and so we should see that the right I am willing to put in as much of my

Grosse Pointe Teaching Staff to be Augmented By Out of District Teachers

Information has been drifting into the office of the Grosse Pointe Review which would lead one to believe that young men and women who have graduated from our Grosse Pointe schools and have acquired the necessary requirements for teaching, are being discriminated against by our school superintendent. Why were individuals from this district not considered when the need for teachers arose?

Our Superintendent of Schools has often reminded us of the high rating of our Grosse Pointe schools, yet graduates of this same system were overlooked when some twenty teachers were required. Our superintendent turned to Wisconsin, Illinois and Indiana for talent. Is this an admission of failure of our school system or is the training of these states superior to that of our own?

We have also become acquainted with the fact that the principal for the new school which is nearing completion is an importation from Illinois. Again we ask, are there not individuals in our own system capable and qualified through their untiring efforts who have merited promotion?

Another question which so many have asked us to explain deals with the School Board, and that is why so many questions of inportance are adroitly sidetracked when an audience is present and items of relatively no importance are discussed and considered until the individuals become tired and weary and disgustedly leave the meeting? Of course it is understood that such matters can be terminated satisfactorily to the Board more easily if the sponsors or interested voters are not present.

How often this practice of strategy enters into the picture is impossible to say, but it seems that several matters that should have been given first consideration at the Board meeting last Monday had not been presented after several hours of discussion of matters of minor importance.

One question which was handled deftly and set aside had to do with the wages of the janitors who are still working at depression wages, and the Superintendent has often said he couldn't understand how anyone could support a family on the wages received by these men. There doesn't seem to be any difficulty in securing increases for some individuals who are being quite well paid. Probably a title such as "Doctor of Janitors" would have secured the increase with a little less difficulty.

It is only fair that Grosse Pointe parents should interest themselves in what is taking place. We are aware of the fact that much displeasure has been shown at some acts of the Board and the Superintendent of Schools.

Drive Safely

Sometimes driving seems to bring out the worst in human nature. Selfishly, a driver will hug the center of the road, refuse to let others pass weave in and out of traffic, or cut across a line of cars when he wants to make a turn. The courteous driver is the better driver and usually gets places just as fast. He invariably shows his driving ability by adopting good road

Practice courtesy on the road. Many drivers who wouldn't think of being rude to their fellow-men elsewhere seem to forget their good breeding on streets and highways. At this time of the year large numbers of motorists are driving for sheer pleasure. Their right to that pleasure should not be jeopardized by those who consider highway courtesy as the other fellow's concern. Polite motoring makes driving safer and more pleasurable for everybody.

Remember, on the road discourtesy may mean serious injury or death. Arrive safely!

Grosse Pointe Post Picnic to Be Held Sunday, August 30

The Grosse Pointe Post of the Amercan Legion will hold its annual picnic on Sunday, August 30th, at Venetian Park, on the 13-Mile road near Gratiot. There will be a barbeoue, dancing, interesting contests for the children, drawings for prizes, refreshments, danc-

ing and a band concert. That is all one needs for a grand and glorious time. They extend the residents of Grosse Pointe and vicinity an invitation to join them in their festivities with the assurance that all will enjoy themselves, and the children will have an excep-

tionally good time.

WOMEN LIKE BATHING SUITS AS A MATTER OF FORM

Water Tanks May Be Added to State Road Upkeep Equipment

The maintenance experience from this year's drought may force the state highway department to add water tanks to its equipment in many counties of the state.

Admitting that gravel-road maintenance "has not been altogether satisfactory this summer," State Highway Commissioner Murray D. Van Wagoner pointed lough that the hair has been too dry for calcium chloride to hold to ure. As a result, the chloride has been blown off the roads with the dust, the highways themselves have dried up and pitted to prevent dragging and have become dusty and rough.

"It may be necessary for us to purchase a number of more tanks so that we will have water for dust-laying purposes," the commissioner said. "We already have a half dozen but this number is insufficient to cover our entire gravel-road mileage,"

The commissioner also revealed that a special study is being made of the summer-maintenance problem to reduce costs, if possible, and utilize the savings for black-topping some of this gravel mileage,

The commissioner said the tanks can be purchased for less than \$350 apiece He estimated that the number of additional tanks needed for state-wide maintenance would require an outlay of not more than \$15,000 or \$20,000.

"Of course all dust-laying is a temporary answer to the problem," Van Wagoner said . "The state could save money altimately if we could put an oil aggregate surface on all our gravel trunklines but you can't do this when you haven't the state funds."

In addition to a half dozen tanks this summer, the state highway department

Mothers' Milk in Demand by Mothers' Milk Bureau Here

With ten premature or seriously sick babies desperately in need of mother's milk, the Community Fund Mothers' Milk Eureau of Woman's Hospital to day issued an appeal for additional milk.

The demand for mother's milk always exceeds the supply, but at this time the unusual number of premature babies has made the need imperative. according to Miss Mae Hylund, who has charge of the Bureau.

The Bureau takes milk only from mothers who have more milk than they need for their lown child. It pays moth ers ten cents an ounce and carfare to the hospital, where the milk is taken. Arrangements should be made through Miss Hylund, Columbia 5716, for anpointments.

The Mothers' Milk Bureau was organized in 1914 and is one of the best equipped Bureaus in the world. It has served as a model in the establishment of similiar bureaus, and has been the subject of scientific articles and studies for many years. Milk which it supplies is scientifically handled, from the physical examination given to the mother, through to the sterilized containers in which it's packed and made ready for the infant. It has been the means of supplying over a million ounces since it was organized.

BANKING SYSTEM SHOWS PROGRESS

State Bank Resources Grow More Than Three Billion Dollars in a Year

NATIONAL BANKS GAIN

American Bankers Association Gives Details of Banking Institutions and Notes Stronger Condition

NEW YORK .- Continued improvement in the condition of state chartered banking institutions, with an increase of more than three billion dollars in a year in total resources, is shown in a report just issued by the State Bank Division of the American Bankers Association.

The report was prepared by the division's Committee on State Bank Research from data furnished by state banking departments and parallels data issued by the Comptroller of the Currency for national banks which show similar improvements.

"The combined resources of 10,473 state supervised banks were \$35,724, 723.000 as of December 31, 1935," the state bank report says. "Total deposits amounted to \$30,526,920,000. Total loans and discounts stood at \$12,430, 404,000 and total investments were \$14,170,421,000."

A year previous, tables in the report show, there were 10,644 state supervised banks, with combined resources of \$32,680,203,000, total deposits \$27,297,959,000, loans and discounts \$13,060,033,000 and investments \$12, **5**82,325,000.

Classes of Institutions

Of the reporting state banking institutions on December 31, 1935, 82% were commercial banks, the report states: 9% trust companies, almost 9% stock and mutual savings banks and less than 1% were private banks. The report adds:

"The parallel upward movements of deposits and total invested funds of total state supervised banks during the years 1934 and 1935, after declines in these items in 1932 and 1933, are indications of definite steps toward recovery in banking.

"Based on figures assembled for total state supervised banks on resources and liabilities as of December 31, 1931 to 1935, it is noted; (1) that deposits in 1935 rose approximately 12 per cent over the previous year, as compared with an increase of about 9 per cent in 1934 over the year 1933, and declines of 7 per cent and 12 per cent in 1933 and 1932; respectively, from the pre-ceding years of 1932 and 1931; and (2) that total invested funds increased by approximately 2 per cent in 1935 and also in 1934, while they had decreased by 9 per cent in 1933 and by 11 per cent

Analysis Shows Stronger Position

In a survey and analysis of earnings and expenses of state banks doing a commercial business, it is brought out that in a majority of states they have 1935. On the basis of data covering 7,928 banks in 42 states, the report says:

"The most significant fact to be pointed out is that new profits of state banks-after deducting charge-offs on loans, investments, etc., and adding recoveries-were shown in 37 of the 42 states which reported in 1935, in comparison with net profits in only 11 of the 35 states reporting in 1934. Measured in terms of dollars per each \$100 of invested funds, net profits in 1935 ranged between \$2.40 and \$.10 per \$100. with 19 states showing profits of \$1.00. or over, per \$100; while in 1934 net profits did not exceed \$1.20 per \$100 and only three states showed profits of \$1.00, or over."

The report contains voluminous tables showing the resources and liabilities of all classes of state chartered institutions and detailed analyses of earnings and expenses by states and of insured commercial state banks grouped by size of banks.

Bankers Help Farmers

The conviction that 4-H Club work lays the foundation for sound citizenship and intelligent farming influenced a New York City bank executive to contribute \$500 to the Agricultural Committee of the State Bankers Association, to further 4-H Club activities in the state, "I am convinced that the work is so worthy, and is being so well handled that it should interest those who believe in building sound citizenship, as well as intelligent farming for the future." he said.

Unusual prominence was given this past year to agricultural work by the Tennessee Bankers Association, The Agricultural Committee report reveals hearty cooperation between bankers and extension workers. "Key bankers and county agents have been in closer contact than ever before," it says,

Georgia bankers have given both moral and financial backing to a Marketing Project sponsored by the Extension Service of the College of Agriculture, and activities the past year showed significant results. The phases of the Marketing program emphasized in the year's work are: The retail curb market; roadside marketing; miscellaneous marketing (suited to the locallty); bartering (exchange of commodities or services with neighbors); standardized canned products for sale prepared in homes or canning centers.

medium having complete coverage in day. So-until another time-keep the Grosse Pointe district.

See Our State Fair Governor Urges

Through the State Fair Board. Governor Frank D. Fitzgerald has issued a proclamation asking all residents of Michigan to try and pay a visit to the Eair this year.

"It is entirely proper and fitting," he wrote, "that the 87th Michigan State Fair should be used as an instrument to celebrate the 100th anniversary of Michigan's state-hood by depicting the progress which we have made and the results which have been obtained from the time our ancestors carved out of the Old Northwest Territory the prosperous and dynamic State of Michigan,

Cites Progress "One hundred years ago we were less than 90,000 people, scattered along the Detroit river and the southern borders of the State. Indians still roamed the forests and the interior of Michigan was practically an unbroken wilderness.

Rich State

"Today we have over 18,000,000 acres of land in farms with a valuation of nearly \$900,000,000. More than 1,897,000 horses and cattle graze on the hills, valleys and flatlands of our state. We rank fourteenth in the value of the farms and eighteenth in the number of farms. In 1934, the income to the farmers of this commonwealth was estimated to be \$115,669,000. Our industrial development has startled the world and the products of our shops and factories are found upon the farms. the roads, and in the homes of every civilized people in the world.'

Fair Outlook Bright

Success of the Michigan State Fair this year, September 4 to 13. depends solely on "a good break in the weather" according to Secretary George A. Prescott.

"Every facility and requisite for making this Centennial fair the greatest in Michigan's history has practically been laid in our laps." Prescott said Saturday, "and apparently there is nothing to fear save cold or raing weather.

"The automotive and other industrial concerns are renting space and arranging for exhibits far beyond any of their previous efforts. Agricultural and live stock exhibits will top any achieved in other years."

Britain Traces 1776 Failure The British attribute their failure in our Revolution to the fact that, according to them, it was largely a naval war, and the Eng-lish fleet lacked its usual dash and enterprise. Their armies failed on land for want of proper support from the sea and Yorktown's surrender was due to the actual, if temporary, loss of the command of the sea, with Paul Jones harrying the English at their own doors.

Most Unusual Bombardment Turin, Italy, was beseiged by a French army in 1640, and was saved | Purdith, of Longfiellow Ave., returned by one of the most unusual bom. bardments in history. In trying to relieve their starving allies, Spanish troops hollowed out cannon balls, filled them with flour, and fired them into

American History at the Exposition

Mack at Nottingham

"Mr. Lincoln returns." An impressive re-enact-ment of the passing of the Lincoln funeral train across the country bearing the martyred president's body to its last resting place at Springfield. This scene is one of the high spots from "The Parade of the Years," huge drama of American transporta-

tion at the Great Lakes Exposition at Cleveland. Every day thousands of visitors are viewing this in-tensely interesting pageant of the country's history. The locomotive is the "Sam Hill" disintered from oblivion some years ago and now on leave of ab-sence from Henry Ford's museum.

Public Letter B-O-X

To The Editor
Next November the people of the State of Michigan will be asked to decide on a referendum which aims to establish a state income tax in place of the present taxes on real estate (state, county, township, municipal, school, district, etc.)

There is no reason to discuss here how such an amendment, if ratied, will effect the pocket-books of individuals. For since the method of levying such an income tax is left to the State Legislature, not even the tax experts can determine in advance how much any particular person would gain or lose.

As citizens of Grosse Pointe, however, it is important for all of us to examine this referendum in regard to our own communities. Because the Grosse Pointe villages are exclusively residential, with a preponderance of fine homes, they can afford to maintain schools and various public services unequalled anywhere else in Michigan This high municipal standard is paid for out of local taxes-assesed by men responsible to us, paid by us, and spen

What will happen to Grosse Pointe if all real estate taxes are repealed and a state income tax substituted unerefor? First, the residents of Grosse Pointe, with a large proportion of high incomes, will contribute probably the highest per capita share of this tax in the state; this money will be collected and spent through Lansing. Second, the budget to maintain our schools, police and fire departments, etc., etc., will be determined by the state legislature. And what voice has Grosse Pointe in this legislature? We hang on to Detroit's coat-tails in the First Wayne District, represented by seventeen "O'Piggies and Hogskies." With Wayne County notoriously underproportioned in the legislature, what consideration is Grosse Pointe going to receive when it tries to get some of its own money back? Think it over. E. C. PARKER.

To the Editor: Civil War in Spain arousing world wide interest, has found echo here in Detroit and its environs At meetings of trade unions, house parties and places where people congregate in large and small groups, discussions on Spain are usually accompanied by collections of funds nearly all of which is given with the understanding that the Spanish government utilize the money to defend itself against the Fascists.

David Dubinsky, president of the International Ladies Garment Workers Union is the national treasurer of this fund.

The Committee to Aid the Spanish People which was sponsored by the Conference for the Protection of Civil Rights, has arranged a huge mass meeting at which prominent speakers will acquaint the people with what is really happening in Spain. This meeting is taking place on Thursday, September 3, at 8 p. m., at the Arena Gardens Bowl, Woodward and Hendrie.

The hall's seating capacity is only 4,000. The committee urges all those who desire to further acquaint themselves with the Spanish situation to come early to be assured a seat. In case of rain the meeting will be heid the following night, Friday, September CONFERENCE FOR THE PROTECTION OF CIVIL RIGHTS

Daughters of 1812 Luncheon Sept. 1

Mrs. Beatrice Larned Massey, of Santa Barbara, Calif., who is in the city visiting her brother, Charles P. Larned, will be the guest of honor at a luncheon at 12:30 o'clock Tuesday, September I, at the Colony Town Club, tendered her by the executive board of Gen. Alexander Macomb Chapter United States Daughters of 1812. Mrs. Massey is an honorary member for life of the National Society, and an honorary state president of the Michigan Society, of the 1812 Daughters. During her regime as state president, the funds were raised by private subscription for the erection of the monument to Gen. Alexander Macomb, which stands in Washington boulevard at Michigan avenue. Through her efforts also, a memorial window was placed at Dart mouth, England, honoring the American prisoners martyred there in the War of 1812.

Mrs. Massey will speak briefly about the early history of the State 1812 Society. Those tendering the luncheon include Mrs. Francis C. McMath, Mrs Clarence J. Chandler, Mrs. Henry B. Joy, Mrs. Gordon W. Kingsbury, Mrs. Lynn T. Miller of Ithaca, Mrs. Lloyd DeWitt Smith, Mrs. Jales W. Partlan, Dr. Nelle G. C. Deffenbaugh, Mrs. M. L. Hoagland, Mrs. Edward J. Savage, Mrs. Herbert A. Thompson, Miss Myrtle E. Babcock, Mrs. Charles H. Mooney, Mrs. Jacob J. Lamb and Mrs. Edward H. Eichelzer.

Reservations are with the corresponding secretary, Mrs. Savage, by Monday, August 31.

Schools to Receive State Seal Copies

In order that the official seal of the State of Michigan may be made familiar to school children of the state, Orville E. Atwood, Secretary of State, has had authentic copies of it made for school distribution. The reproductions of the seal are appropriately colored to bring out the features specified by the legal description of the seal. The copies will be appropriate for framing by each school.

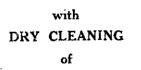

Actual distribution to the some 6,000 public schools of the state will be handled by Dr. Eugene B. Elliott, State Superintendent of Public Instruction. The reproductions will be received in the near future, with distribution of school supplies by the state school head. Distribution to the approximately 500 parochial schools in Michigan, will be handled by John J. O'Hara, auditor

The drawing of the seal from which the official reproduction was made, was prepared this summer under the direction of Dr. Louis Webber, deputy secretary of state. The move was decided upon by Atwood because of widespread laxity through many years, in the printing of reproductions of the seal for various official uses throughout the capitol, on stationery and forms of various kinds. For ordinary use, reproductions of the state seal are not sufficiently large to permit inclusion of many details provided by law.

Fourth Play of Detroit Federal Theater Rehearsed

riewpoint a smart business duty.

"Let Freedom Ring" by Albert Bein, he Detroit Federal Theatre's next production, will open early in September fact only one error was made by the at the Lafavette Theatre.

It is the company's first venture into folk drama, and in this play they will finest example of its killed in the conemporary American theatre.

"Let Freedom Ring" opened in New York City on November 6, 1935 and had an extended run of three months. The New York company is now touring the New England states and finding an enthusiastic reception in the industrial centers there.

The play deals with the migration of the Carolina mountain folk into the cotton mills in the valleys, against whose servitude they rebel. The social upheaval of their lives is accompanied by a complete upheaval in their characters and spirit.

Prominent in the cast will be favoritwho is directing the play, and "The Road to Rome" by Robert E. Sherwood. These players include Herschel Mayall, Harriett Russell, Jay Michael, Helen DuBoise, Elynor Knight Richard Gamble, Ward Davis and Jacques Le-Pere. The settings will again be designed by Stephen Nastfogel.

Among the enthusiastic press comments in New York were Burns Mantlis of the Daily News who says "Here is drama wrung from the woes and wrongs of the underprivileged and exploited textile workers of a Southern mill town. Here, is drama that is honestly moviated by social and economic conditions."

Textile Workers of America says, You have written out of the struggle of our people what must be acknowedged as a great and forceful play." Percy Hammond, New York Heraldvehemence of the dramatist who knows his cause is just, Mr. Bein has produced

INSURANCE TIPS

By H. THOMPSON STOCK

Years ago there were no paid fire departments. Hence in order to requestion "Why is a Sheriff" seems to be ouce losses, many of the early fire insurance companies maintained their own fire departments to put out fires ers this year was the largest since 1927, featured recently in Radioland, the occurring in the houses which they insured. Each company had its own distinctive emblem or fire-mark placed on served his fifth year as director at every building insured by it. If a burning building did not bear their own mark, the firemen might go home and let the fire be put out by the owner and his neighbors.

Volunteer and paid fire departments changed this situation. But as late as 1863 a company was organized in riding masters and boat skippers, nat-California that gave ten percent of its ure and handicraft instructors, radio profits to the volunteer fire departments' charitable fund in order to encourage the volunteer fire brigades to eral leadership of the intimate characput more water on the buildings bearing ter-building groups. the emblem of this company.

As the emblems lost their signi-They are still used, however, in France for advertising purposes. During the revolutionary war, a Philadelphia company authorized the melting their lead emblems for bullets.

The first company to use "firemarks" was the Fire-Office, a partnership formed in London, England in 1680 which took over the fire insurance business of Nocholas Barbon commenced one year after the great fire of London, England, in 1666. This conflagration lasted four days and was any county unit. Mr. Schneider points stopped only by blowing up buildings. Over 13,000 buildings worth about 12 million pounds on 436 acres were destroyed. It was this conflagration that demonstrated the need for insurance protection. Authorities agree that modern insurance dates from this time. It is interesting to note that insurance in those days considered the value of

> The first company to use fire marks in America was the Philadelphia Conributionship for the Insurance of Houses from Losses by Fire, which was organized in 1753. Other insurance companies organized before 1800 that are doing business in the United States are: Royal Exchange (1696,) Sun Insurance (1710,) London Assurance (1720), Mutual Assurance (1784,) Insurance Company of North America (1792,) Phoenix (1792,) Insurance Company of State of Pennsylvania (1794,) Baltimore Equitable Surety (1794,) Mutual Assurance Surety of Virginia (1795), Norwich Union (1794) and Providence Wachington (1799).

Grosse Pointe Farms Takes Double-Header

Last Sunday the Farms defeated East End Laundry 6 to 1 with Vic Tellep. tching and with Catcher Harms away and Perry with a broken finger, Gregg did the receiving and did a perfect job as usual. Van De Pitte hurled the second game against St. Stanislaus and was granted. Ginger is here shown defeated them 8 to 2 with Tellep behind the plate. Although Vic has never played any other position but pitcher he looked like a first rate catcher. In Farms in both games. Vic Himbauck, Grosse Pointe High athlete, has joined the Farms team and played a perfect present, what is without a doubt, the game at second base in the first game and left field in the second, with Gregg taking over second base.

Next Sunday the Farms wind up the season with another twin bill that is tough competition. The first with U. S. Rubber and the nightcap will be with Needham Motor Sales, who defeated Grosse Pointe 10 to 6 earlier in the season. U.S. Rubber has four teams so they are selecting all the best players to make up a good fast team.

1,000 Boys Attend YMCA Summer Camps

The return of 208 boys to Detroit Saturday afternoon from camp marked es of "I Confess" by William Beyer the end of the 1936 season for the two summer camps maintained by the De troit Metropolitan Y. M. C. A.

The last contingent to arrive from Camp Ohiyesa, near Holly, was composed of under-privileged boys between the ages of 10 and 17 whose ten-day vacation was made possible by special contributions received by the Y. M. C. A. The camp got under way June 22 with a similar ten-day period for under-privileged boys numbering 207 making a total of 415 boys from distressed families to receive a vacation with little or no cost to themselves.

In addition, there were three twoweeks periods for boys whose parents paid in full for their camping, with Francis J. Gorman of the United 615 boys in attendance. The individual campers at Olivelsa for the summer numbered 869, with 163 of them remaining for two or more periods.

ing camping experience and charactertraining for 131 boys, and Camp Ohithis summer helped a full 1,000 boys to profitable vacations in the open.

year as director of Camp Nissokone Ohiyesa, declared the number of campwith both camps operating at capacity Olriyesa.

Because of the increased attendance this year it was possible to increase also the staff at each of the camps. Approximately 106 counsellors were attached to the two camps, the personnel including swim and athletic coaches, broadcasting operators and others whose efforts were devoted to the gen-

ficance, the practice of attaching them these two "Y" camps have long been of the rink's edge, spraying ice into the rated among the finest boys' camps in the United States. From a sanitary ers, dancers on skates and skating and healthful standpoint they received comedians round out the entertainment a near-perfect rating from the State Board of Health.

A feature at Camp Ohiyesa during the past season was the presence of grounds in abundance along with the Dr. Charles Eastman, noted Sioux lecturer and author, whose Indian merce, and industry. name is Chief Ohiyesa, and for whom the camp was named. He gave daily talks on scouting and woodcraft to the boys, also helping them with their nightly campfire pageants.

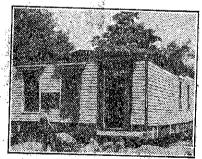

Many boys from this community were among the "Y" campers.

Pony Entrant

Little Walter Rix, 7, of 1143 West Six Mile Rd., Detroit, is the first to enter a pet in the Michigan State Fair pet show. He brought his pony, Ginger, to the Fair Grounds and said he would enter his pet if Ginger were given grazing privileges on the Fair Grounds. The request taking a lump of sugar from Miss Virginia Lyon. The Fair will be held this year Sept. 4 to 13 inclusive.

Where Grant Lived

This is the house in which President U.S. Grant lived when he was an obscure army lieutenant stationed in Detroit. The house was recently moved from Fort street to the Detroit Fair Grounds where it will be open to visitors to the Michigan State Fair, Sept. 4 to 13. Workmen are shown restoring the house to its condition when Grant lived in it. The house will be stocked with

Attendance on the Increase at Great Lakes Exposition

Cleveland, O.-America has discovered the Great Lakes Exposition. Daily attendance at this Cleveland lake front fair is growing steadily and to date more than a million and a half pelople have enjoyed its colorful and fascinating attractions.

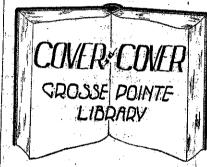

During the week of August 17 to 22 thousands of farmers and their families will be added to the crowds when they come to attend the programs arranged for Farm Week. Monday, August 17, will be Agricultural Day; Tues-The other "Y" camp, Nissokone, near day will be Dairy Day, followed by Oscoda, wound up its activities for the Farm Produce Day on Wednesday, Tribune says, "Written with the summer with the return of 107 boys to Farm Wives Day on Thursday, Farm Detroit last Wednesday afternoon Improvement Day Friday, and Rec-One hundred and thirty-one individual retaion Day Saturday. Out-of-Town Jobs Open in Michigan

There are jobs for cabinet makers, molders, finishing machine and rolling machine operators in various parts of Michigan, if those qualified are willing to leave their present localities, Major Howard Starret, State Reemployment Director, said today.

Four offices of the National Reemployment Service, a part of the U. S. Department of Labor, are holding these orders. This employment service is organized to save manufacturers and business men time and money as well as to place Michigan unemployed in jobs, Major Starret said. The service is entirely free of charge.

The Muskegon office reports no qualified cabinet makers registered there. These are steady Union jobs for experienced cabinet makers and assemblers on fine store equipment, carved stairways and panel work, he said.

At Grand Rapids, molders who can make small brass moldings by the squeezer process are needed. This is steady work for men between 25 and 45 years of age, the office reports.

A call for finishing machine operators come from Cadillac where the jobs will last about six weeks, Major Starret said. Good mechanics who can operate a double screw machine finisher on 20 foot concrete paving are eligible.

The Benton Harbor office is seeking experienced rolling machine operators on automobile accessories and parts for steady work.

The demand continues through the state for die and tool makers and designers, die and tool machine operators, and metal pattern makers, according to

Major Starret. Major Starret pointed out that only

the remaining 91 staying on through and the Vocational Agricultural Educa- formation in the counties under their

NOTICE OF Primary Election

The Bride Looks Up a Recipe

There is a rumor going around that young husbands are rapidly discarding the old complaint that it isn't "like mother used to make."

More power to the alert young brides who are seeing to it that the culinary art-one of the most important in mar-

riage-isn t being reglected. Good food and the right kind of food dis necessary for bealth and happiness in marriage. Yet we

admit freely and frankly that no young man likes to find his companion always in he kitchen struggling over preparing

It's an art, with maybe a touch of olack magic thrown in, to prepare good and nourishing meals with only a small output of energy and time. But let anyone who says it can't be done show his face around here.

It's pretty much a matter of careful planning - and two minutes of this planning in the morning will eliminate bours of labor later.

To begin with-plan all meals for the day one at one time. Then, with a phacticed eye run over them to see that you are feeding your young man each adult (part of which may be used in cooking) and one cereal food, 1 serving of meat, 1 egg (at least every day.) If you find these foods concealed among the day's menus, you may feel assured that the head of the house will be adequately nourished

The next step of the planning is to make out the market list, being sure you have everything you need for the entire day.

For success in cooking, a modern cook depends upon carefully tested receipts. If she uses a good cook book and follows the steps carefully, success is almost sure to be hers. It takes cars of experience to cook well without a recipe, and we heartily advise against it for a beginner. To "set a good table" is a mark of a successful, alert woman. Anyone who in these days boasts that she is a terrible cook betrays a mental and physical laziness that she would do well to conceal.

For a beginner, the following day's nenus may be helpful. We will get more ambitious with experience. Breakfast

Orange Juice Bacon Scrambled Eggs Whole Wheat Toast

Luncheon Macaroni with Cheese Head lettuce salad-French dressing Chocolate Milk Assorted fresh fruits

Lamb or Pork chops in milk Baked potatoes Creamed Cauliflower

Cabbage Slaw Ice Cream

There are special problems of cookng that cook books are sometimes not helpful in explaining. Each week in this series, we shall take up one and discuss it thoroughly.

G. P. Raptist Church

15129 Kercheval Ave. David W Ewart, pastor. Sunday services:

9:45 a. m., Bible School. 11 a. m., morning worship. 7:30 p. m., evening evangelistic serv ive. Sermon: "Pictures of Fulfilled Prophecy." Happy song service. A

warm welcome for everyone. Wednesday at 7:45 p. m., prayer meeting. Studies in the Book of Colossians.

Christian Science Church

"Christ Jesus" will be the subject of the Lesson-Sermon in all Christian on Sunday, August 30.

Among the Bible citations is the following (Matt. 10:7, 8): "And as ye go, adequately and that you find: 1 citrus preach, sayings, The Kingdom of heavfruit, at least 2 fresh vegetables in en is at hand. Heal the sick, cleanse addition to potatoes, 1 pint of milk for the lepers, raise the dead, cast out devils; freely ye thave received, freely give."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 138): "Jesus established in the Christian era the precedent for all Christianity, theology, and

healing. Christians are under as direct orders now, as they were then, to be Christlike, to possess the Christ-spirit, to follow the Christ-example, and to heal the sick as well as the sinning.".

Messiah Lutheran Church

Southeast corner of Kercheval and Lakewood avenues. A. H. A Leeber, pastor, 1434 Lakewood avenue Telephone Lenox 2121.

On the coming Sunday, August 30, the pastor will continue the series of sermons on "Texts from Acts," when he will treat the "Conversion of Saul of Tarsus." The service will take place at 10:15 a. m. and the Sunday School will meet at 9:15 o'clock.

Hannan 'Y' Boys in Swimming Tests

Junior division boys at the Hannan Memorial Y. M. C. A. started their preparation for next season's swimming team activities with a try-out meet held last Thursday afternoon in the "Y" pool. In the ten-year-old class. David Science Churches throughout the world Cummings, Warren Johnson, Jr. and A. Wingo, Ir., were the high standing boys as a result of trials in the 20-yard free style, 20-yard back stroke, and diving events.

Other competitors representing future team material liciuded I. Wingo. H. Velick, C. Gardner, J. Hubbell, Jack Park, P. Nelson, R. Furton, R. Sturdy, E. Roxbury, W. Foster, P. Duff, R. Wert and K. Emerick.

ADVERTISE IN THE REVIEW

Jax-payers:

your tax record clear make second payment the 10-YEAR PLAN September 1st, 1936

AX-PAYERS of Michigan last year set a notable example for the people of America by paying or reviving their taxes on hundreds of thousands of pieces of property.

Many thousands of tax-payers cleaned up their back taxes in full. Other hundreds of thousands put them on a ten-year plan by paying one-tenth of their total indebtedness for 1932 and prior years.

Now the second payment is due. It amounts to only one-tenth of the amount involved, and to it must be added a carrying charge

Don't miss making this pay-

And remember: if you failed to put your taxes on the ten-year plan last year you can still do so by making the first two payments, plus 4%, and a small extra charge on the first part.

Note:

By paying up your taxes now on the 10-Year Plan you save 8% to 36% on future payments.

MICHIGAN'S 10-year plan, as en-acted by the legislature, pro-vides that on unpaid balances the tax-payer is to add interest at the rate of 4% per annum from September 1, 1935. In other words, on this year's installment the interest charge is 4%. On next year's, 8%. In 1938 it will be 12%. In order to save these ad-vancing costs you can now anticinate vancing costs you can now anticipate all payments by adding only 4%.

By Order of Augmented Administrative Board of State of Michigan
