### Grace Evangelical Church Dedication Sunday, October 11

The Grace Evangelical Church congregation has made rapid progress under the leadership of Rev. W. H. Seibert, who became their pastor January, 1935, and Sunday, October 11 the dedication of their new beautiful edifice will take place.

The church was first organized at the home of Mrs. R. O. May, and in January, 1925 Rev. F. H. Eglinsdoerfer was invited to become pastor. In September, 1926 he was succeeded by Rev. A. Haessler, who held the congregation together through all those years of trouble and depression until October, 1934 to be succeeded in January, 1935 by the present pastor.

At one time they held their meetings in a store building, later moving into Brotherhood Lodge Hall, until the temporary building which has been in service for some time was constructed.

The structure is of Gothic design and is complete. It is only a unit of what this church has eventually become. The other unit will be added when the need for further expansion arises. This new structure is a pleasant sight to behold and adds new life and beauty to the buess frontage on Kercheval avenue.

Even the businessmen in the vicinity were enthused over the project and contributed liberally to the building fund.

The unit is complete in that it has a sanctuary and chancel, choir room, pastor's study, a basement and furnace room with tchen and hall. Ground was bren for the new building April 6, with appropriate ceremonies, and the cornerstone was laid June 30.

Great care was exercised so that the congregation would not be indebted to such an extent that its progress would be retarded.

The new church is large enough to permit expansion of the congregation to three times its present size before the need for further construction will arise.

The credit for the realization of this achievement is due largely to the ambitious and untiring efforts of the new pastor, who has been an inspiring leader.

This new House of God where worshippers might gather in pleasant surroundings is no longer a vision but an actuality, for which the congregation may well feel proud.

### Democratic Club to Hold Rally October 20

The Wayne County Council of Democratic Clubs, which was organized in 1935, believes in going forward with Roosevelt and the Democrats in the November election. They are sponsoring a large political rally to be given Tuesday, October 20, at 8 p. m. in the Cass Technical High School.

All Democrats, New Deal Republicans and independent voters are invited to participate in the activities of this affair.

Leo Lippa, president, states that every Democratic organization should interest itself in this above affair as it is promised to be one of the largest affairs of the election year.

For further information call the Wayne County Democrat, 155 West Congress street, in regards to the parade that is now being arranged through its program committee. It is expected that there will be over 1,000 automobiles in the line of march.

### U. of D. Sec'd Home Game Friday Evening With Oklahoma A.-M.

The University of Detroit Titans play their second home game of the season next Friday evening with the strong and speedy Oklahoma A. and M. team from Stillwater ase opposition. This will be the third tting of these two eleven. In 1934 the 'Aggies gave Coach Dorais' mesard surprise, winning 19 to 6. Lyear the Titans averaged this defeating out on the long end of a 13 t score.

This time Oklala A. and M. will show the Titans entirely new style of football; new, tis, to the Aggies. Ted Cox, a form, Minnesota captain and later famous the Tulane coach, is now in charge at Stillwater institution and of co he is using the same shifts that hmade the Gophers such a terror to opponents. Detroit had a look at thistem in the opening game when was presented by Western State Tera, but that team was too small anden to get the most out of it.

The Aggies haybig, powerful line, with nearly everan on it standing six feet or over, weight of the line, according to theiram averages 185 pounds, but thatbably is less than what the scallyally would show. The team has 16rmen on its squad, one for each pos. It is not likely that all of these get a chance to start, however, here is some very fine sophomore rial.

In the backfield the Aggies run to speed and goosing rather than beef. They have punters and three passers who rather than fair, and they probably wre the Titans some trouble with therial game. Detroit's pass defeas not had a real test so far thison, but doubtless will get one in rrow's game with

Mr. Odell was born in Shelby, Mich., Sept. 25, 1879, the son of the late Samuel Shelby and Leila Shelby. He came to Detroit as a boy, was educated in the old Detroit School for Boys and was graduated from the Massachusetts Institute of Technology in 1902 with a bachelor of science degree in chemistry.

After teaching chemistry at his alma mater, he was associated with the Campbell Soap Co., at Camden, N. J. In recent years he had been with the theater business in Detroit.

### Women's Republican Club Open Air Rally Saturday At Lochmoor

The Grosse Pointe Republican Women's Club will stage a huge open air rally in Lochmoor Saturday night at 8 o'clock with a view to enlightening the voters as to the platform and aims of the Republican party.

Fred M. Alger, Jr. Republican nominee for Congress from the 14th District, will be the principal speaker, and a number of other candidates from the district as well as a representative speaker of the National Committee will address the anticipated large audience.

This Club has made an intensive campaign in the interests of the average citizen, because they feel that the citizen is being imposed upon, and asked to carry a burden which will increase with the march of time, and eventually become unbearable.

Governor Alfred M. Landon's sound car with a showing of some of the products imported from foreign markets, will be there, and Congressman Joe J. Manlove of Missouri will give an interesting talk on national affairs.

### Scout Officers Training Reservations Now Being Taken at Headquarters

Many reservations for the Junior Officers' Training Course, commencing Tuesday, October 13, at the Durfee Intermediate School, are being received in every mail at Scout Headquarters. Several troops have registered more than the suggested number of six scouts (one for each course being offered).

The courses cover not only a reviewing of the designated subjects, but instructions in how to teach the subject after returning to the home troop.

The cooking course, given out-of-doors, covers all second and first class requirements; also the latest practical helps on merit badge cookery and the technique of teaching others the culinary art.

First aid will cover the requirements of the American Red Cross junior first aid course, including the new requirements for second and first class first aid in the Boy Scout handbook.

Two afternoon sessions in the out-of-doors in order to do "field" work will be necessary for the course in map making. Nature lore will necessitate three out-door sessions to cover a study of birds, trees and animals. The out-of-doors will be needed to cover the course in pace, tracking, estimation, compass. Actual practice and "field" work will be made available in the signaling course. Different methods of signaling will be included.

All of the courses offered are available to any junior officers over 13 years of age. The course is designed to help the scoutmaster with the advancement program by having trained junior leaders in his own troop.

### Petite Youngster Travels to Dance

Ann Marie Schultz, talented baby dancer began her training at the age of three years. She made her first public appearance during Christmas week of last year.

Mr. and Mrs. Stanley J. Schultz, of 6110 Newport, are the proud parents of this little miss, who is just four years old now, very tiny, and has quite a repertoire for her age, including solo dances, duet routines with a boy partner, Master Roland Munck, and several group numbers.

During the month of August Mrs. Schultz took Ann Marie all the way to Chicago where she appeared before the members of the Chicago Association of Dancing Masters during their convention, demonstrating baby ballet dances for the Elaine Marie Arndt Dance Studio of Grosse Pointe.

Probably many Grosse Pointers are already acquainted with little Miss Schultz as she has been presented at several social functions in this locality and also had a nice part in the dance recital presented last May.

Ann Marie has received all her dance training with Miss Elaine Marie Arndt of 919 Barrington road.

**Badminton Club at Hannan Y. M. C. A.**  
The Hannan Y. M. C. A. will promote a mixed Badminton Club this year. On Friday night, October 9 at 8:15, there will be a demonstration of how the game is played by Tom Lemke of the Northern Y. M. C. A. who won the city championship last spring. There will be three courts to play on and all "Y" members and their ladies are invited to join and bring their friends along as guests.

It is hoped that there will be space enough for a shuffle board game too. For those who do not as yet have their own rackets, the "Y" will have a few on hand for rent at 15 cents per hour or 10 cents per half hour.  
This is an opportunity for men to bring their companions in for a social and recreational hour and learn how to play this fast growing game of badminton.  
Instruction will be available on the fundamentals of the game.

**Music Students Turning to Classical Music**  
This fall's music students are spurning the current craze for "swing," "rhythmic rhythm" and other variations of "jazz," according to J. Bertram Bell, director of the Detroit Conservatory of Music.  
Less than 10 per cent of the full enrollment at the Conservatory, Mr. Bell reports, sought popular music instruction. And of this number, fewer than 25 requested training in any of the current "jazz" variations.  
The trend to classical music, Mr. Bell found on a recent tour of eastern schools, is not confined to Detroit. He discovered, however, that Michigan is well in the lead.  
Rapid increase in the trend to the higher type music is attributed to its growing use over radio and in motion pictures.

**Otis Skinner to Speak on Town Hall Program Wednesday at Fisher**  
Otis Skinner—one of the most amazingly gifted figures in dramatic history, and perhaps the greatest figure in the theatrical world today, will open the Detroit Town Hall in the Fisher Theatre, Wednesday morning, October 14. Mr. Skinner is now tramping from coast to coast in his new role as the most delightful lecturer to come forward in many years. In his program, "Footlights and Spotlights," he will present anecdotes, dramatic roles and highlights of the theatre. He will include dramatic excerpts from his famous parts in "Haji" in Kismet, "Galardo" in Blood and Sand, "Antonio" in Mister Antonio, and "Colonel Bridau" in The Honor of the Family. Mr. Skinner plans to tell how he created the characters in the plays used in this lecture, and will give dramatic renditions of various scenes.

After 58 years on the stage, Otis Skinner is still "The First Gentleman of the Theatre," and one of our best loved and most popular actors. Edwin Booth, Richard Mansfield, Mrs. Fiske, John Drew, Sr., Henry Irving—these names are only memories. Otis Skinner is the last distinguished link between the theatre of yesterday and today.  
Recognized as one of the greatest living Shakespearian actors, Otis Skinner has played leading roles in more than 50 plays, among them Merchant of Venice, Hamlet, Romeo and Juliet, Richard III, One Hundred Years, Richelieu, As You Like It.  
Tickets for Mr. Skinner's Town Hall lecture-recital are on sale now at Grinnell's, and Monday, Tuesday, Wednesday at the Fisher Theatre, \$1.65, \$1.10, 83 cents, including tax.

Fannie Hurst, famous American novelist, will be the second attraction on the series, October 21. She will speak on "Being Ourselves." A few season tickets are still available at the Town Hall office, 246 Hotel Statler.

of the United States, who were given the trip as a reward for exceptional records, and 250 Kelvinator executives and invited guests.

Mr. Cadieux, who is connected with Kelvinator-Detroit branch, was awarded the trip for exceptional service as one of Kelvinator's star salesmen.

Kelvinator's tour in a specially-chartered liner to foreign shores marks a new departure in industry relations with its sales personnel, providing the occasion for its leading salesmen to become better acquainted with the company executives as well as taking the form of a week's "floating university." Each day on the cruise, a short time was set aside for a study of business problems, with nationally-known speakers on the program. These included such authorities as Professor Robert F. Elder of the Massachusetts Institute of Technology, marketing expert; Dr. Vergil Reed of the United States Department of Commerce, and Thomas Beck, publisher of Colliers.

In Havana, trade relations were discussed at a luncheon given by George W. Mason, Kelvinator's president and board chairman, and attended by leading Cuban officials, the American ambassador and prominent business men. Among those at the speakers' table were: Dr. Jose Manuel Cortina, Cuban

Secretary of State; Dr. Rafael Santos Jimenez, Postmaster General; Dr. Antonio Beruff Mendieta, Mayor of Havana; Jefferson Caffery, United States Ambassador; Walter Donnelly, United States Commercial attache; C. R. Cameron, United States Consul General; Senors Miguel Santiago Valencia and Juan Sabates of the Cuban Tourist Commission, and Senor M. R. Arellano of the Arellano Company, Kelvinator distributor for Cuba.

Mr. Cadieux reported extensive use in Cuba not only of electric refrigeration but of air conditioning as well. "A large number of the houses in Cuba are equipped with electric refrigeration," he said, "and the Cuban housewife is coming to demand it. In the cities, the use of this type is generally accepted, and its use is extending to the urban and more rural sections as well. Today some of the business offices are turning to air conditioning to alleviate the heat of the tropical summer, and the demand for room coolers and air conditioning to cool stores, restaurants and offices is growing remarkably. Throughout Cuba, the name of Kelvinator is becoming synonymous with electric refrigeration.

Mr. Cadieux reported that the increasing demand for products had necessitated enlargement of the big Kelvinator plant in Detroit and that construction on two large buildings was now under way, to be finished within the next three months.

### U. of D. Second Home Game Friday Evening with Oklahoma A. M.

(Continued from Page One)

Villanova at Philadelphia. It was weakness against this pass that cost Detroit three games last season and Coach Dorais is hoping that he will be able to remedy the defect before this campaign is very much older.

Detroit's chances against Oklahoma A. and M. will depend somewhat on how the players come through the game with Villanova. If nobody is hurt in that contest and Dorais is able to put his full strength on the field, the Titans should win by a comfortable margin. But if there is a fat injury list, things may go hard with the Detroiters, even though they seem to have uncovered plenty of reserve material in the sophomore class.

Another thing on which the Villanova game is expected to throw some light is the worth of Detroit's passing game. It looked like a million dollars against the Western State team, but the Teach-

ers unfortunately had a ten-cent defense. They played a straight zone defense and couldn't seem to cover their territory. Detroit probably could have completed a dozen more passes if she had kept on trying them, but Dorais wanted to see his running game in action and told his quarterbacks to "mix 'em up."

The Oklahoma Aggies will have an abundant supply of reserve material for this game, something that they have not always been able to boast in the past. Twenty new men have joined the squad this year and in a number of cases they are almost good enough to chase veterans from their jobs. The second-string line is slightly heavier than the starting combination, but offsets this by lack of experience.

Dorais probably will stick to the same lineup that started against Western State and Villanova. This comprises 10 lettermen and John Ivory, quarterback, who is playing his third year on the squad. Ivory, by the way, looked very good in the opening game. He ran the team with excellent judgment, blocked well and made one

touchdown on a pass and run that covered half the length of the field. Other good looking quarterbacks are Filiatraut and Ripley. Filiatraut runs the team well but is not much of a ball-carrier, while Ripley is a strong ball-carrier but hasn't had much experience in generalship, halfback being his regular position.

Coach Dorais is hoping that the Aggies will offer stiff competition because this will be the last game before the season's biggest feature, the battle with Alabama Tech (Auburn) here on October 17. This team is rated one of the best in the south and Dorais feels that his Titans need a good battle against a smart and versatile eleven to tune them up. Auburn lost but three men from last year's squad and undoubtedly will show Detroit as much football as it has seen in years.

M. Luther Canup, D. D., pastor.

Sunday School at 9:45 a. m., with classes for all grades and all ages. October is rally month in Sunday School and church. New scholars are added to the school every Sunday.

### "Maria Chapdelaine" Featured at Cinema

"Maria Chapdelaine," the French prize-winning picturization of the famous story by Louis Hemon, filmed in the unsurpassed beauty of its natural setting, the little village of Peribonka in French Canada, will be the second offering of the season at the Cinema Theatre, 58 East Columbia, just off Woodward. The picture opens next Tuesday, October 13. The picture is being sponsored by the Detroit Public Libraries.

This film was awarded the "Grand Prix du Cinema Francais," as the best film of the year made in France, and has been acclaimed the world over. The film has complete English dialogue titles so that, as the New York World-Telegram said, "you don't need to know French."

The picture was filmed by actors of the famous Comedie Francaise who went to the actual locale of the story. It is the simple but beautiful story of a girl of French Canada, loved by three men. Like all life, they embody the familiar, the adventurous and the sophisticated. The trapper, her first love, is killed as he fights his way through a blizzard to be with her Christmas eve.

Maria's choice, then, is between the handsome Lorenzo, of the city, and the voiceless, big, hulking Eutrope, of the country. And her choice, is that of the priest of her community and her people. And she is true to the pledge. "We shall stay on the land we settled 300 years ago. We shall not surrender it. For we are a pledge that France in the new world shall endure."

"Maria Chapdelaine" is played by Madeline Renaud, star of the film "La Maternelle," which made such a hit when shown in Detroit a few months ago. Jean Gabin plays the adventurous trapper, and the city youth is played by Jeann-Pierre Aumont.

A group of selected short subjects will complete the program at the Cinema.

### Four Point Meals

(By Nutrition Department, Detroit Dairy and Food Council)

A woman is never in the housekeeping business very long before she begins her four-point campaign for something to eat that is different, delicious, easy-to-prepare and inexpensive.

One new food, or an old one introduced at a different time or in a novel way will raise the spirits of quite an ordinary meal to a place where the cook and the family think it fulfills the four-point program.

Milk ices are in the genius class when it comes to transforming ordinary, family meals into something with a bit more imagination. Served with a meat course they are a delightful contrast in flavor, texture and temperature. Lemon, orange, pineapple, lime or tomato ice are good meat-course accompaniments. In addition they help supply the necessary milk quota to the family, and no up-and-coming young housewife is going to let her family deprive themselves of the benefits they would gain from their milk drinking and milk foods.

For afternoon refreshments, or in the evening when a group drops in for bridge, the ice again comes to the rescue when it is stirred, in generous quantities into fruit juice, ginger ale or lime rickey, and served as a drink. With crackers and cheese it is an ideal lunch, and the guests, host and hostess won't toss because of drinking coffee before bed. Any fruit ice is good in this mixture.

It costs so little, and is so easy to make in electric refrigerators, there is no reason why a trayful of an ice should not always be ready for serving. The only requirement for making a good one, aside from using a good recipe, is to stir it often during the freezing process in order that large crystals will not form to spoil the texture. Once every half hour during the early part of the freezing the tray should be removed and the ice thoroughly stirred.

### Christian Science Churches

"Are Sin, Disease, and Death Real?" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, October 11.

Among the Bible citations is the following (Job 37:23): "Touching the Almighty, we cannot find him out: he is excellent in power, and in judgment, and in plenty of justice; he will not afflict."

Correlative passages to be read from the Christian Science textbook, Science and Health with the Key to the Scriptures, by Mary Baker Eddy, include the following (p. 525): "Everything good or worthy, God made. Whatever

is valueless or baneful. He did not make,—hence its unreality."

MRS. HOWARD C. JONES, of Wash-bash, Ind., is visiting her son-in-law and daughter, Mr. and Mrs. George T. Mahaney, of Buckingham road.
