DEMOCRAT

PRESIDENT FRANKLIN D. ROOSEVELT

Louis C. Rabaut Seeks Re-Election To Congress

Representative Louis C. Rabaut Democrat of the 14th Congressional District is seeking re-election to the House of Representatives for the 75th Congress. He advocates sane and efficient legislation, favorable to the people of the District.

Appointment of Jack Semon as Township Clerk Is Approved

When Ralph E. Beauspre became ill he appointed Jack Semon the Deputy Township Clerk to act as Township Clerk during his absence. Due to his death and according to State law Mr. Semon automatically became Township Clerk, the appointment being approved by the Township Board.

Correction of Error

Due to an error we published incorrectly the telephone number of Mondry Cleaners, one of the oldest and best known dry cleaning establishments in Grosse Pointe. The correct telephone number is Niagara 9500. We regret the inconvenience it caused.

Dancing Party at St. Paul's Oct. 30

A modern and old-time dancing party will be held at the St. Paul school on Grosse Pointe boulevard on Friday, October 30, at 8 p. m. Music for the occasion will be furnished by the Pioneers.

There will be cards and refreshments. Grosse Pointe residents are cordially invited to attend.

Watch for Important Announcement Soon

Watch these columns carefully for the next week or two for an important announcement which will be made by Fred's Grosse Pointe Market, of 17030 Kercheval avenue. Mr. and Mrs. Therry Food Buyer, don't miss it.

Home Economic Expert at A. & P. Saturday

Carolyne Price home economic expert for the Women's Home Companion will appear at the A&P Stores at 17045 Kercheval avenue from 10:00 A. M. to 2 p. m. Saturday, October 31.

She will be pleased to discuss your problems and advise you relative to your home economics. Avail yourself of this splendid opportunity.

National, State, and County Elections on Tuesday, Nov. 3rd

Every voter in Grosse Pointe should go to the polls Tuesday, November 3 to vote. You have heard and read about your candidates and have had time to form your conclusions. Now go to the polls and give the men of your choice support.

Most important is the selection of President of the United States. If you feel that Franklin D. Roosevelt is the logical man to leave in charge of national affairs then show your confidence by giving him your vote. If on the other hand you feel that Alfred M. Landon will handle the affairs of your country more to your liking then extend him your support. There are also several other aspirants to this high office and if you feel they merit your support vote for them, but whatever you do be sure to vote.

Sergt. Joe Vernier Gets His Bird

While on a recent hunting trip, near Ashley, Mich., Sergt. Joe Vernier, accompanied by friends of Grosse Pointe, was the first in the party to get a pheasant. He called loudly across the field to Mr. Joe Delor that he had his. Everyone in the party ran to see the prize and upon examination found the bird that Sergt. Vernier shot had been dead and stuffed for at least five years.

Vernier says "he is one of the good officers who always gets his bird, even though stuffed."

At the same time there are other offices and your ballot will be a big aid in selecting the men for these offices, which are: vice president, governor, lieutenant governor, secretary of state, attorney general, state treasurer, auditor general, justice of the supreme court, United States senator, representatives in Congress, state senator and representatives in the State Legislature. (Continued on Page Five)

Louis B. Ward Busy in Campaign for U. S. Senatorial Seat

In his many campaign speeches throughout the state, Louis B. Ward, candidate for United States Senator, is meeting the argument advanced by the opposition against the Third Party movement, by pointing out that in three major crises in the history of this country it was a new party which decided the issue.

The declaration of independence is in reality, he contends, the platform of the original third party, formed by Thomas Jefferson to break the rule of British oppression. Andrew Jackson headed a third party when the question of the constitution was before the nation, and Abraham Lincoln was elected by another third party to save the union from dissolution and re-establish a government of the people, by the people, and for the people. (Continued on Page Seven)

Bicycle Contest Started by Belle Isle Cycle Co.

The Belle Isle Cycle Co., 15023 East Jefferson avenue, announced the opening of a contest for boys and girls which does not necessarily require an outlay of money. Boys and girls of the vicinity whether they own a bicycle or not are invited to register.

On December 12 a drawing will be held and the lucky one will be presented with a bicycle. Boys and girls from 8 to 18 are eligible. This contest is conducted to introduce the facilities and services extended by this new Grosse Pointe company.

Friday Night—Bingo party at Grosse Pointe Post Hall, 17520 Mack avenue.

Attention Again Please, Voters

In the last issue of The Grosse Pointe Review we asked how many of our readers were actually good citizens.

That was a daring question. Naturally we all think we are. Probably some of you resented our inquiry.

But when you read on and found that in the entire Grosse Pointe area, including Lochmoor, only 6,250 out of 14,031—43 per cent—registered voters went to the polls September 15th to vote at the Primary, we feel pretty certain you forgave us our bluntness.

If you did not then, you certainly did on reading the next paragraph in which we told you that at the last National Election 35 per cent of the voters in our community stayed at home.

However, we only gave you a part of the story. What must we all think of ourselves in the face of the following:

GROSSE POINTE TOWNSHIP—The last Township election was held in April, this year. Both of the major parties had candidates in the field. The previous election had resulted in a grand jury investigation. There were in the neighborhood of 7,450 persons who might have gone to the polls. Voting booths were scattered throughout the Township to make it convenient for the electors. What a fight that promised to be! But only 2,450, or about 33 per cent, voted.

BOARD OF EDUCATION—Property owners and guardians of children of school age may vote at the elections conducted by the Board of Education. There are slightly over 10,000 eligible to vote.

In the annual election for trustees held in June, 1936, 398 voted—about 4 per cent. You smile and say that this probably was an "off" election. Or you think that perhaps the editor of this article made a mistake. Or, as a last resort, you blame a typographical error for the 398 figure.

But you are wrong. The previous year, June, 1935, at a similar election, there were but 520 who cast ballots—about 5 per cent.

Yes, you say, but when something real important, something that touches our pocket books, is contemplated by the School Board we turn out. But such is not the case. In December, 1935, we voted on the question of a bond issue of \$169,000 for the erection of the new school at Cadieux and Kercheval. Three hundred ninety-six persons were sufficiently interested to vote—4 per cent.

So that in the last three school elections, the destinies of a governmental unit spending large sums per year, and vitally affecting every taxpayer's purse and every mother and father who are sending their children to the public schools, was of sufficient interest on an average to less than 4 per cent of our people.

GROSSE POINTE PARK—In March, 1936, at the last election in the Village of Grosse Pointe Park, a determined effort was made (Continued on Page Two)

Edgar J. Auclair's Campaign Making Unusual Progress

Although unfamiliar with the generally accepted methods of conducting a political campaign, the committee in charge of Edgar J. Auclair's campaign in the Fourteenth congressional district, has succeeded in arousing public interest to a degree which few thought possible.

Until a month ago Auclair was not heard of as an aspirant for public honors. His meetings are well attended and his strict adherence to the policy of refraining from indulging in personalities, while the major party candidates are engaged in the usual mud slinging type of appeal, is placing Auclair in a decidedly favorable light before the constituents.

An enthusiastic crew of campaign workers, volunteers enrolled from the 120 units of the National Union for Social Justice in the 14th district, is making preparations for a whirlwind drive before election day, to place in the hands of every voter information and facts pertaining to the candidate (Continued on Page Five)

Grosse Pointe Post 303 invites you to attend bingo party October 30, 17520 Mack avenue.

REPUBLICAN

GOV. ALFRED M. LANDON, Candidate for President

'Alger for Congress' Committee Urges All to 'Get Out and Vote'

"Get out the vote" is the slogan of the Alger for Congress committees of men and women in the final week of the campaign preceding the November 3 election. Every effort is being made to bring out a new top total of voters this year in order to get a clear expression as to the wishes of the electorate of the Fourteenth District.

FREDERICK M. ALGER, JR.

While national issues have figured largely in the Congressional campaign, the personal popularity of Frederick M. Alger, Jr., has been one of the major features of the drive for votes. Starting out in the primary campaign with a large personal acquaintance through the district, Alger has visited every section and met hundreds of voters who had only known him by reputation previously. That he is a natural vote-getter was shown by his (Continued on Page Two)

Judge Robert E. Sage Seeks Re-Election to the Circuit Court

Conscientious voters are more concerned with the competency of a candidate for public office, rather than his party affiliations. This necessary quality will be found to a high degree in the record of the incumbent Circuit Court Commissioner, Robert E. Sage. (Continued on Page Five)

Grosse Pointe Post Hallowe'en Party Saturday, Oct. 31st

Grosse Pointe Post No. 303, American Legion, will hold a special Hallowe'en Party Saturday, October 31 at their headquarters, 17520 Mack avenue at Neff road. A rip-roaring time will be in store for those who attend. Fun, favors, music, dancing, games and refreshments. Costume prizes will be awarded. Don't miss this big party of the Grosse Pointe Post.

Republican Rally at Deutches Haus on Thursday, Oct. 29th

The Republicans of the 14th Congressional District are staging a huge rally at the Deutches Haus on Mack avenue at 8 p. m. Thursday, October 29, at which a discussion of national affairs and presentation of candidates will take place. This will be the last big rally of the party before the forthcoming election November 3. Grosse Pointe voters are invited to this event.

Bingo Party Friday, October 30, 1936, Grosse Pointe Post 303, 17520 Mack avenue.

Jacob P. Sumeracki Seeks Re-Election as County Treasurer

As treasurer of Wayne County during the last four years, Mr. Sumeracki has given a business administration. Without any additional expenses, he has accomplished treble the work of his predecessor, tax collections increasing tremendously.

Tax evaders have been forced to pay up, and such payments tend in the long run to lower taxes for everybody. Systems which Mr. Sumeracki installed for following up tax claims in receiverships, bankruptcies, etc., have brought in many thousands of dollars in taxes and have won high praise from the courts and the legal profession. The treasurers office has collected 92 per cent of the 1935 county personal (Continued on Page Five)

ATTENTION AGAIN VOTERS, PLEASE

(Continued on Page Eight)

by the "outs" to beat the "ins." Literature swamped the mails and the porches. Neighborhood meetings were held.

The result was that of more than 5,000 who could have cast ballots, only 2,681 actually voted—53 per cent.

That was a big vote, they tell us in the Park. And, they add, almost twice as many voted at that election as usually do at their Village elections.

CITY OF GROSSE POINTE—In March, 1934, approximately 2,400 eligible voters were given the opportunity to decide whether the then Village of Grosse Pointe should continue as a village and remain in the Township, or become a city and withdraw from the Township. Two parties were formed, one favorable to the change and the other opposed. Again the mail was flooded. Meetings were held. Only 1,413 voted—60 per cent.

In May, 1934, the question of whether a proposed charter should be accepted and the choice of officers under the new city form of government was submitted to the voters. 1,086 persons voted out of the approximate 2,400 who had the right to cast a ballot—45 per cent.

In November, 1935, the regular bi-annual election of officers occurred. There were about 2,700 persons who could have voted. Two hundred sixty-four did vote—less than 10 per cent. So that the City of Grosse Pointe, with an assessed valuation of over 13 million dollars, will be government until the early winter of 1937 by officers chosen by considerably less than 10 per cent of those who have the privilege of voting!

GROSSE POINTE FARMS—Of about 2,500 who had the right to vote at the March, 1936 election when the Village of Grosse Pointe Farms chose its present officials, the number voting was slightly under 800—32 per cent. That constituted about the usual fraction of voters who can be counted upon in the Farms to turn out for a Village election.

GROSSE POINTE SHORES—Here, again, everyone excepting the voters who stayed at home, or on golf courses, or at bridge tables, will be blamed for the figure 36 appearing at this point in this editorial. Surely, this must be a mistake in proof reading!

The actual fact, however, is that in May of this year when the Village of Grosse Pointe Shores gave its approximately 300 registered voters a chance to decide upon the officers who would govern them, only 36 cast votes—12 per cent.

This would be amusing were it not that the officials of the Village tell us that this is not unusual.

LOCHMOOR—The Village of Lochmoor points with pride, and well it may, to its annual election in March, 1935, when 447 out of a possible 550 voted. That was about 81 per cent. Sad to say, when the 1936 village election occurred, only 293 voted, or about 53 per cent. Apparently the electorate had worn itself out at the 1935 election.

Isn't it about time those of us who have the right to vote turned over a new leaf?

Now we are faced by another National Election. Is it going to be merely an opportunity for further excuses for not doing a DUTY that is incumbent upon every registered voter, or are we going to remember the rare privilege we have of selecting those who are to govern us?

Certainly those who do not cast their ballot next Tuesday should be stopped from criticising what those elected to office may do or not do while holding office.

But there's more to it than that. If our community is to do its DUTY, it is necessary that every person who voted at the Primary get some other registered person to go to the voting booth. That is a real job. But if we try, we can do it.

Talk about it amongst your friends. You won't have any trouble finding some amongst them who for some reason or other did not vote at the Primary.

Let's make the community vote conscious! But in our effort to get our large percentage of the voters, we must not forget to vote ourselves.

See you and your friends at the polls!

impressive primary vote and his supporters have followed up with an intensive campaign to have every voter in the district familiar with his candidacy.

'Alger for Congress' Committee Urges All to 'Get Out and Vote'

(Continued from Page One)

A highlight of the last full week of the election campaign will be a meeting Thursday evening in the Deutsches Haus, Maxwell and Mack avenues, given by the Alger for Congress committee. United States Senator Arthur H. Vandenberg, of Michigan, outstanding leader in the upper house of Congress, will be introduced to the audience by Frederick M. Alger, Jr., and deliver one of his masterly campaign addresses on the necessity of sending to Congress men of the Alger type. He predicted success in Washington for Alger—a success that would reflect real credit on the district that sent him there.

Alger has made his campaign on a platform distinctly liberal and favoring old age pensions, unemployment insurance, minimum wage laws and business aids that will restore real employment to millions.

THE DETROIT EDISON COMPANY

GENERAL OFFICES
2000 SECOND AVENUE
DETROIT, MICHIGAN

October 27, 1936

TO THE CUSTOMERS OF THE DETROIT EDISON COMPANY:

This letter is about Detroit Edison rates for electric service.

The Michigan Public Utilities Commission has made a long-time study of the and held public hearings. It has issued an opinion which shows the wide scope of the study, and also shows the Commission's fair attitude. There are statements and figures in that opinion with which we do not agree. It is not necessary that we should agree. The important thing is that we will be guided by the rate order which is annexed to the Commission's opinion.

The present General Commercial Rate is not changed. Neither is the rate for large blocks of high tension electricity, sold to customers who have the knowledge and the means to manage that high-power energy. The most important new rate will, we believe, be acceptable to customers who use current daily for many hours. It requires that service for all purposes be given through one meter instead of through separate meters for light and for power.

About the new rate for residence service. This makes some reduction to every customer except those who are paying the minimum bill of forty-five cents net per month, or ninety cents net on the usual two-month bill. The Commission has done away with the difference in rate between the small house and the large one, which formerly depended on the number of rooms in the house. This room count plan worked well for 38 years. We do not object to the change. It makes for simplicity.

The Commission in its opinion recognized that no figures set up for today could be correct for evermore, amen! But they think and we hope that the present order will serve for quite a while. They see that heretofore we have given to our customers the advantage of every economy which we have been able to make. There are a lot of conditions (besides the increasing price of coal) which may tend to raise rates. Please notice now that the 40-hour week which we adopted in 1932, a year before the Blue Eagle was hatched, is likely to stay with us. This means that a man or a girl in Detroit Edison service will have to so manage his or her work, and have the work so arranged beforehand, that he or she can earn a living wage in forty hours per week. It will probably require more money in the payrolls. Again, next year there has to be taken out of an employee's pay one cent for each dollar that is coming to him. This is his contribution towards what is called Social Security. The Company will next year have to pay two cents for each dollar that the employe receives. We are paying one cent this year.

About taxes. Not so long ago there was collected from us in taxes, payable to the United States, or the State of Michigan, or the municipalities where we do business, 7 cents out of every dollar which you paid us. Right now the figure is 14 cents out of every dollar which you pay us. Maybe some of you think that you pay no taxes. Don't believe it! You are paying taxes in a great many places and in a great many ways, but these other places and other ways are not our scrape. Ours is that we are acting as tax collectors to the extent of 14 cents out of every dollar that you pay us. And that is not the end of it. All indications are that taxes will go up. You pay the taxes. It is only out of what you pay us that we can pay them! And that's that!

The story of electric rate reductions is at its end for quite a while. We want you to notice once more that every economy that we have been able to make—and these have amounted to millions of dollars during the depression years—has been passed on to you in rate reductions. We are making this rate reduction all over the thirteen counties which we serve. We have always played fair with you and we will keep on doing so. We want you to play fair with us, even if it proves that the rates have been let down too far.

Just one last word—maybe some of you rather like to pay taxes. If so, you presumably know what the taxes are spent for and whether they are spent wisely and economically. We have our own opinion about all that, but this is no place for us to offer it. If you like to pay taxes, that is all right with us. Good luck to you!

Noted Speaker on Town Hall Program

When Edward Tomlinson, noted press, radio and platform authority on South America, addresses the Town Hall audience in the Fisher Theatre, Wednesday morning, November 4, at 11 o'clock, he will discuss Detroit's own stake in South America. In connection with his lecture, "The Americas versus Old World Diplomacy," he says, "No city in America has more stake in the Latin American countries than Detroit. Every branch of the automobile industry is represented in Brazil and Argentina with factories, branch plants and distributing houses. There is Henry Ford's tremendous investment in the heart of the Amazon country.

Mr. Tomlinson went to Geneva last summer to make first hand observations of the League of Nations sessions, with an eye to their effect on the Latin American nations. Three days after his Town Hall lecture in Detroit, he sails from New York with the United States Delegation, headed by Secretary of State Hull, to attend the widely heralded Pan American Conference in Buenos Aires. He will act as radio commentator on this conference for the National Broadcasting Company, the first broadcast taking place at the time the American delegation leaves this country. Following the conference, Mr. Tomlinson will circle the entire South American continent by steamer and by air, travelling over 16,000 miles. This will make his 13th annual visit since 1923 to this part of the world.

Edward Tomlinson knows the inside story of the great game of international politics now moving to its climax in the other Americas. He knows the presidents and dictators, generals, explorers, business men, gauchos, farmers and peasants—and has interviewed most of the men now in power. Tickets for his lecture are on sale now at Grinnell's and Monday, Tuesday and Wednesday at the Fisher Theatre.

Borrowing From Wage Earners

American wage earners are going to have their pay cut next January—not by their employers, but by the Roosevelt New Deal.

Starting January 1, the New Deal will take one per cent out of the pay envelope of every American worker in thousands of industries.

Within a few years it will be taking three per cent.

The alleged purpose of this assessment is to finance the unworkable New Deal social security program.

But where is the money really going? The government will spend it—and substitute its own bonds in the treasury for the money.

This is New Deal borrowing in a new and vicious guise—Borrowing from wage earners.

But what about the security this is supposed to assure?

Henry Ford reduced the phantom of facts when he said:

"It defines security on a level of fifty cents a day twenty years from now."

That is all the workers will get—if they ever get anything. But the cut in their wages will start in January.

FOR AUDITOR GENERAL

GEORGE T. GUNDRY (Democrat)

The Caribbean Islands Most of the Caribbean islands which paid such splendid dividends on Queen Isabella's original jewel investment sank into languorous poverty with the growth of the United States, the development of the machine age and the decline of the Spanish empire.

Michigan in Wild Landon Welcome

By R. M. McFARLAND GRAND RAPIDS, MICH.—"Governor Landon has given the greatest reception I have ever seen given a Republican presidential candidate barn-storming through Michigan," said United States Senator Arthur Vandenberg after witnessing crowds that ranged from 10,000 to 25,000 greet the candidate at Monroe, Detroit, Flint, Lansing, Jackson, Battle Creek, Kalamazoo and Grand Rapids.

"Governor Landon will carry the Upper Peninsula by a handsome majority," said Ex-Governor Fred W. Green, who has just toured that section. County chairmen reported those counties in the northern third of the state would produce easily a 35,000 plurality.

"The Democrats were badly split at the last primary," Ex-Governor Wilbur M. Brucker, senatorial candidate, explained. "The primary vote showed a total of 5 Republican votes to every 3 Democrats. The New Dealers put on all the high pressure influence they could to get Murphy nominated for Governor and they pushed Brown over for Senator by a very few thousand votes. That means they registered every controlled and regimented voter they had. But with 600,000 votes outstanding the Republicans have a fine chance to win. Only a few of the industrial cities will be real battlegrounds. Open country is mostly Republican."

Senator Vandenberg explained that the balance of power in Michigan lay with the vote of automobile workers. He added: "It's a choice between American common sense and New Deal economic suicide. Henry Ford has said his surety no one can accuse him of playing politics. He talked pure economics." He continued: "The automobile workers must decide whether they want a college experimenter like Tugwell, a reformer like Harold Ickes or a shrewd lawyer like Richberg running their industry, or whether they will follow their natural leaders who built the auto industry up from nothing. Automobile officials ought to know more about what the auto industry needs than Washington New Dealers. Factory officials unanimously declare that the New Deal is dangerous."

RED CROSS HIGHWAY POSTS AID INJURED

1,000 Function At Key Points To Give Emergency Care To Traffic Hurt

Highway first aid stations, set up by the Red Cross to give emergency care to victims of traffic accidents, are saving lives, according to James L. Fieser, vice chairman in charge of domestic operations.

"More than 1,000 of our emergency posts are already operating in 47 states and thousands of others will soon be established at key points along America's highways," Mr. Fieser stated.

The Red Cross highway posts are concentrated at danger spots in rural areas where medical aid is not readily available. The importance of this coverage of the open road, the Red Cross holds, is given sharper emphasis by the fact that there has been a 150 per cent increase in rural traffic fatalities during the past twelve years.

The project was initiated last year on a national scale as a practical approach to the highway accident problem. The Red Cross felt that it could best apply its strength by succoring those who continue to be injured pending a reduction in the highway accident rate through legislation and safety education.

"Our program brings first aid skill to the scene of accidents in an effort to reduce the number of persons killed and maimed in automobile mishaps," Mr. Fieser said. "Our highway first aiders are not medical men in any sense, but it is their job to turn the injured over to the medical profession in the best shape possible."

The Red Cross highway posts are established at gasoline service stations, tourist homes, rural police and fire departments. The personnel of the posts are trained by the Red Cross in first aid, standard first aid equipment is installed at each station, and identifying signs for the benefit of motorists are erected beside the highway at both approaches to the station.

The attendants of these roadside units who qualify as first aiders volunteer their services through the Red Cross and may under no circumstances accept pay for caring for the injured.

To complement the highway first aid stations, the Red Cross has announced formation of mobile units. Several thousand trucks which regularly ply the highway in the course of routine work will be equipped with first aid kits. Drivers and crews will take courses in both standard and advanced first aid, and each truck will be identified as a Red Cross mobile unit. More than a hundred trucks are already operating.

"The highway police of eight states who have finished first aid training will join this army mobilized to cut accident fatalities and prevent complication of minor injuries through misbandaging at the scene of accident," Mr. Fieser said.

"We receive reports from our first aid stations daily, telling of essential care given to traffic casualties on the spot and of lives actually saved."

This and many other Red Cross programs of equal value are supported by the people of America during the annual Roll Call for members. This year the Roll Call will be held from November 11 to 26.

Red Cross Potential Life Savers Number Nearly 2,000,000

First aid and life saving certificates issued by the American Red Cross since the start of the service 26 years ago now number 1,883,702. During the past year the Red Cross qualified 222,693 persons in first aid and taught water safety and rescue methods to 80,961.

This army of First Aiders and Life Savers is one of the great safety factors in the nation. They are trained to give immediate first aid at the scene of accident, thus saving many lives and preventing permanent injury. Red Cross training includes skill in treating for shock, splinting fractures, checking arterial bleeding, applying artificial respiration, towing drowning persons to safety, and in the safe handling of boat and canoe.

Red Cross volunteers, framework of the organization, last year gave a total of 1,707,820 hours of service, producing 685,074 garments, 4,355,719 surgical dressings, 16,773 Christmas bags for soldiers, sailors and marines serving overseas. Perhaps the most important undertaking of these generous contributors to the public welfare is the making of braille books for the blind, with 342,000 pages printed during the past twelve months.

Of the 16,500,000 school children enrolled in the Junior Red Cross societies of 52 nations, more than half are members of the American Junior Red Cross representing 34,882 schools in this country.

Red Cross chapters aiding the needy in their communities act on approximately 22,674 family problems each month.

Cisco Fish in Great Lakes The Cisco, a fish of many local names, is among the most abundant of all fish found in the Great Lakes. It is variously known as Lake herring, Blue-back, Gray-back, Green-back and shore herring. The annual catch made by commercial fishermen in Michigan waters alone runs about 4,000,000 pounds a year.

God of Silence Harpocrates, the Egyptian god of silence, was represented holding one of his fingers on his mouth.

From the Cradle to the Grave

Atwood Seeks Early Auto Plate Sales

In an effort to stimulate the sale of automobiles at the time when for years manufacturers have closed their plants to take inventory, Orville E. Atwood, Secretary of State, has written to proper officials of every state in the Union, notifying them that 1937 license plates were placed on sale October 21. He notified these officials that he would do all he could to co-operate with them, in the event they saw fit to release their 1937 plates early this year.

allied industries are located, will be immeasurably benefited by every move to overcome the seasonal slack in the automotive industry.

This is the second successive year in which motor vehicle license plates have been placed on sale October 21, Atwood pointed out when he set the date. It was made as early as practicable in order to aid the manufacturers in their drive to bring out models for fall trade. It was believed that with the placing of license plates for the succeeding year on sale coincidentally with the bringing out of new models, one factor of sales resistance would be overcome for the motor industry.

It is the belief of Atwood that labor in Michigan, as well as everywhere else in the nation where automobile or

Notice of Annual Election

TO THE QUALIFIED ELECTORS, CITY OF GROSSE POINTE, WAYNE COUNTY, MICHIGAN.

NOTICE IS HEREBY GIVEN that the General Election will be held in the State of Michigan and in the City of Grosse Pointe on

Tuesday, NOV. 3, 1936

at the Central Polling Place, the City FIRE HALL, 17145 Maumee Avenue, between Neff and St. Clair Avenues, polls of such election being open from Seven o'clock in the forenoon until Eight o'clock in the afternoon, Eastern Standard Time,

For the purpose of electing candidates for the following offices:

- President of the United States
- Vice-President of the United States
- Governor
- Lieutenant Governor
- Secretary of State
- Attorney General
- State Treasurer
- Auditor General
- Justice of the Supreme Court (to fill vacancy)
- United States Senator
- Representative in Congress
- State Senator

Representatives in the State Legislature

Also for electing candidates for the following County offices:

- Two Judges of Probate
- Prosecuting Attorney
- Sheriff
- County Clerk
- County Treasurer
- Register of Deeds
- County Auditor
- Four Circuit Court Commissioners (full term)
- Two Circuit Court Commissioners (to fill vacancy)
- Drain Commissioner
- Two Coroners
- County Surveyor

There will be submitted to the electors, at the General Election to be held on Tuesday, November 3, 1936, the following proposed amendments to the Constitution of this State.

(Proposal No. 1)

AMENDMENT TO PERMIT FIREARMS AND OTHER DANGEROUS WEAPONS SEIZED OUTSIDE DWELLINGS, OUTBUILDINGS AND LANDS CLOSELY ADJACENT THERETO, TO BE INTRODUCED AS EVIDENCE IN ANY CRIMINAL PROCEDURE.

Amending Section 10 of Article II of the State Constitution:

Sec. 10. The person, houses, papers and possessions of every person shall be secure from unreasonable searches and seizures. No warrant to search any place or to seize any person or things shall issue without describing them, nor without probable cause, supported by oath or affirmation: Provided, however, That the provisions of this section shall not be construed to bar from evidence in any court of criminal jurisdiction, or in any criminal proceeding held before any magistrate or justice of the peace, any firearm, rifle, pistol, revolver, automatic pistol, machine gun, bomb, bomb shell, explosive, blackjack, slungshot, billy, metallic knuckles, gas-ejecting device, or any other dangerous weapon or thing, seized by any peace officer outside the curtilage of any dwelling house in this state.

The section of the constitution which would be altered or abrogated in the event of this proposed amendment now stands as follows:

Sec. 10. The person, houses, papers and possessions of every person shall be secure from unreasonable searches and seizures. No warrant to search any place or to seize any person or things shall issue without describing them, or without probable cause, supported by oath or affirmation.

This amendment, if adopted, will permit the introduction as evidence in any criminal procedure of firearms and any other dangerous weapons seized by peace officers outside the limits of land occupied by a dwelling.

(Proposal No. 2)

AMENDMENT TO REQUIRE LAWS PERMITTING COUNTIES TO INCORPORATE, AND, ON APPROVAL BY MAJORITIES OF CERTAIN SPECIFIED ELECTORS TO ADOPT A CHARTER.

Adding Sections 32 and 33 to Article VIII of the State Constitution:

Sec. 32. The legislature shall provide by a general law for the incorporation of counties; such general law shall limit the rate of taxation for municipal purposes and restrict their powers of borrowing money and contracting debts.

Sec. 33. Under such general laws, the electors of each county shall have power and authority to frame, adopt and amend its charter and, through its regularly constituted authority to pass all laws and ordinances relating to its municipal concerns, subject to the constitution and general laws of this state: Provided, That no such charter or amendment thereto shall become effective in any county unless the same shall have been approved by a majority of the electors voting thereon of that city located within such county in which are cast the largest number of votes upon such proposition and also by a majority of the electors voting thereon residing outside the corporate limits of such city.

This amendment, if adopted, will add two new sections to the Constitution requiring the legislature to provide a general law permitting the incorporation of counties; also that such law shall limit the tax rate for municipal purposes and the power of the county in borrowing money and contracting debts. It also provides that if the county elects to come under the act it will have power to prepare and adopt a charter. It also provides the manner in which the electors of the county shall approve the adoption of the charter. This will require the electors of the city in the county casting the largest number of votes to approve the adoption by a majority vote and all other municipalities and townships outside the said city must approve the adoption by a majority vote.

NORBERT P. NEFF, City Clerk

(Proposal No. 3)

AMENDMENT PROVIDING FOR EXEMPTING CERTAIN ARTICLES OF FOOD AND PREPARED MEALS FROM THE SALES TAX

Adding Section 22 to Article X of the State Constitution:

Sec. 22. No tax shall be levied upon the sale of the following articles of food: Bread, milk, dairy and cereal products, meat, lard, vegetable shortenings, fish, eggs, sugar, salt, spices, vegetables, and fruit; whether such foods be sold in sealed containers or otherwise. Nor shall taxes be levied upon the sale of prepared meals.

This amendment, if adopted, will add a new section exempting food stuffs mentioned in the section from the state sales tax. Also provides there shall be no tax levied upon the sale of prepared meals.

(Proposal No. 4)

AN AMENDMENT PROHIBITING, AFTER DECEMBER 31, 1937, ALL REAL AND PERSONAL PROPERTY TAXES, EXCEPT TO MEET EXISTING INDEBTEDNESS; PROHIBITING NEW LICENSE TAXES UPON THE OWNERSHIP, POSSESSION OR USE OF REAL AND PERSONAL PROPERTY; PERMITTING THE TAXATION OF INCOME FROM PROPERTY UNIFORMLY WITH OTHER INCOME; AND PROVIDING THAT THE MONEYS FROM INCOME TAXES SHALL BE DISTRIBUTED AMONG LOCAL UNITS OF GOVERNMENT WITHIN THE STATE IN A MANNER LATER TO BE PROVIDED BY LAW.

Amending Section 3 of Article X of the State Constitution:

Sec. 3. No tax shall, from and after December 31, 1937, be assessed or levied by the state or by or for the benefit of any county, township, school district, city, village or other political subdivision of the state upon real property or tangible or intangible personal property, except for the payment of interest upon and principal of obligations heretofore incurred; nor shall any privilege, license or occupational tax, other than those now provided by law, be hereafter assessed or levied upon the ownership, possession or use of real property or tangible personal property. Income from real and personal property may be taxed uniformly with income from other sources. The proceeds of all taxes upon incomes shall be distributed to the several counties, townships, school districts, cities, villages and other political subdivisions of the state, as may be provided by law.

The section of the constitution which would be altered or abrogated in the event of this proposed amendment now stands as follows:

Sec. 3. The legislature shall provide by law a uniform rule of taxation, except on property paying specific taxes, and taxes shall be levied on such property as shall be prescribed by law: Provided, That the legislature shall provide by law a uniform rule of taxation for such property as shall be assessed by a state board of assessors, and the rate of taxation on such property shall be the rate which the state board of assessors shall ascertain, and determine is the average rate levied upon other property upon which ad valorem taxes are assessed for state, county, township, school and municipal purposes.

This amendment, if adopted, provides that no tax shall be levied on real and personal property, tangible or intangible, by the State or any other political subdivision of government in the State after December 31, 1937, except where necessary for the payment of interest and principal of present indebtedness. It also will prevent the levying of any privilege, license or occupational tax other than those now existing. The legislature, if this amendment is adopted, may provide a uniform rate of taxation on income from real and personal property as well as from other sources. It also provides that in the event of the adoption of a law taxing incomes the proceeds must be distributed among the various local governments of the State.

Louis C. Rabaut Seeks Re-Election To Congress

(Continued from Page One)
3. I suggest more attention be given to the clause in the Constitution "to provide for the general welfare."
4. I favor investigation and proper reorganization of all overlapping divisions of Government. This should embrace both the regular departments and all government corporations. The results would be greater efficiency and economy.
5. I favor the St. Lawrence Waterway project as in my platform of 1934.
6. I favor adequate old age pensions relief (State co-operation with the Federal government will greatly clarify this controversial subject.)

Special Classes for Artistic Exhibits at Chrysanthemum Show

(Continued from Page One)
1. Flowers arranged to give best results;
2. Flowers arranged as unsuitably as possible.
Note: Bouquets must be entered using flowers identical in variety and number, but in separate containers.
Class F—Chrysanthemums — or any other flowers in a miniature arrangement.
Class G—Arrangement of fruit and/or Vegetables—in wooden container.
Special class for children (under 12)
Class H—Novelty arrangement of flowers, originality to count.
Special Note: Above classes to be staged by 12-noon Saturday, November 14, 1936.

Edgar J. Auclair's Campaign Making Unusual Progress

(Continued from Page One)
and the platform for which he stands. The opposing candidates now regard Auclair as a serious contender for the honors, as it is realized he will not have to secure many additional votes outside of the 25,000 N. U. S. J. members claimed for this district; to finish ahead of the field.

Judge Robert E. Sage Seeks Re-Election to the Circuit Court

(Continued from Page One)
Judge Sage has an enviable record for his past six years in office. Those who have appeared before him have found him not only a judge, competent from a legal standpoint, but also a man of understanding and justice from a human standpoint.

During Judge Sage's term in office he has handled over 100,000 cases. Among those which many people will have cause to remember are those concerning evictions in regard to bank depositors during the bank holiday in 1933. Many tenants renting from the banks were faced with the peculiar situation of having their money tied up in closed banks, and at the same time being haled into court because of their failure to pay their rent to those same banks. An illustration of the humanness of Judge Sage is shown in the following statement made by him at that time to the daily newspapers: "Where the depositor can show he has more than enough money deposited in the bank to meet the arrearages, I shall refuse to evict him. I shall also refuse to dispossess people in arrears on land contracts under similar circumstances. There is no legal precedent for this action but it seems the only fair and square thing to do. My court operates on fairness and less on tricks of the law."

Robert E. Sage, Republican nominee for Circuit Court Commissioner, well deserves re-election by voters of Wayne County, regardless of party preferences.

Jacob P. Sumeracki Seeks Re-Election as County Treasurer

(Continued from Page One)
taxes levied in the City of Detroit, leaving only an 8 per cent delinquency, and has collected the real estate taxes by better than 76 per cent, a gain of more than 6 per cent in one year. The office has collected 88 per cent of the entire 1933 county levy in the City of Detroit, and 80 per cent of the levy in the out-county districts.
When Mr. Sumeracki was elected, the treasurer's office was in the midst of collecting 1932 taxes, at the rate of \$8.15 per \$1,000 of assessable property. In his first year in office, the rate dropped to \$5.57; and the next year to \$5.54. Today it is still lower, \$4.90.
Mr. Sumeracki championed the ten-year payment plan to collect \$38,500,000 of old Wayne County taxes which were "dead" on the books because the lump sum was too heavy for property holders to shoulder. Today, through full payments or under the ten-year plan, he has started the ball rolling on \$30,000,000 of that total, leaving only \$8,500,000 on which the owner has paid nothing.
Mr. Sumeracki has urged the state authorities to turn back into acreage the "wildcat" subdivisions represented

in greatest part by this \$8,500,000 in "dead" taxes.
The ten-year payment system, which gives at a glance detailed tax information on 650,000 descriptions of property, enabled the office to provide prompt service to many thousands of taxpayers during the rush to pay the first installment. The system has been copied by various county treasurers in the state.
He has opposed every movement to seize the property of the home owner. He helped convince governing agencies that the man who could not pay might better be nursed along than thrown to the sharks. He consistently opposed the 1936 tax sale, which the supreme court finally held unconstitutional.

In the battle against tax-title sharks which has marked his whole administration, he has sponsored measures to give governmental units a priority over professional buyers at tax sales.
At his last election, Treasurer Sumeracki received more votes than any other candidate for office in Wayne County. Because of his record for service, his popularity has grown steadily. He enjoys the confidence of the public as a whole, and a respect which transcends party lines.

National, State, County Elections on November 3rd

(Continued from Page One)
For the County: Two judges of Probate, prosecuting attorney, sheriff, county clerk, county treasurer, register

of deeds, county auditor, four Circuit Court commissioners, two Circuit Court commissioners to fill vacancies, drain commissioner, two coroners, and a county surveyor are to be elected.
Four State constitutional amendments will be submitted to the voters.
One has to do with seizure of weapons to be used as evidence in criminal procedure.
The second amendment is to require the State to form laws permitting counties to incorporate.
The third amendment, and a very important one, has to do with the removing of the sales tax from certain items of food and prepared meals.
The fourth amendment limits the taxation on personal and real property.
There are thirteen polling booths established throughout the Township and one in the City of Grosse Pointe so that voters can conveniently go to the polls.
This is one of the most important elections in the history of the United States and as such the voters should show their interest by casting their ballot.
VOTE TUESDAY, NOV. 3RD.

Wedding Cake for "Good Luck"
The practice of guests at the wedding taking home their slices of the cake to keep for good luck has its counterpart in many customs in barbaric lands. Among the Chunchu Indians of Peru, for instance, wedding guests carry home bits of a piece of pottery broken by the chief of the tribe in performing the marriage ceremony. They believe these fragments of a shattered pot bring them good fortune.

Christian Science Lecture by Frank Bell, C. S. B.

A Lecture Entitled
Christian Science
BY
FRANK BELL, C. S. B.
of New York City

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

Christian Science is applied to human problems through what St. Paul calls transformation by the renewing of the mind. Sin, disease, poverty, and the like, are healed by means purely mental or spiritual. The means thus employed to help mankind are not supernatural, not occult, but Christian and scientific. They express the simple, natural, accurate rightness of reality.

Reaffirming and emphasizing the essential goodness of God, Christian Science defines evil, the opposite of good, as the unlikeliness of God. The degree of the unlikeliness is the measure of the evil. Stimulating and enlarging the student's understanding of the nature of God, Christian Science enables him to distinguish evil from good and thus equips him to deal with evil intelligently and effectively.

The great spiritual thinkers who speak to us through the Scriptures are of one accord in urging acquaintance with the divine nature as essential to mastery over evil. Jesus taught that to know God aright is the remedy for all ills, even to the realization of "life eternal," the perfection of being. Pure Christianity must be superior to everything that would tend to deplete or to destroy man, or even to hold him in a limited sense of life and destiny.

Christian contemplation of God's nature as spiritual, therefore not material, as infinite and perfect, therefore neither limited nor incomplete, helps one to recognize that materiality, limitation, and imperfection are unlikelinesses of God, therefore not good but evil. Gross material mindedness may not take kindly to such realization, but to spiritual mindedness it is natural and inevitable. Spiritual mindedness may be cultivated by any earnest individual through the study of the textbook of Christian Science, "Science and Health with Key to the Scriptures," by Mary Baker Eddy.

Spiritual mindedness is the opposite of material mindedness. "The things of the Spirit" are discerned to be real and tangible as material sense is put off through the transforming processes of correct Christian thinking, in which there is diligent and systematic effort to love God, infinite Spirit, "with all the mind." To spiritual mindedness it is increasingly clear that whatever is unlike the goodness of God is in its final analysis false, and "Be not afraid!" thus becomes scientific.

The hold of materialism is loosening. Philosophers speak with assurance of matter as a mere mental impression; the human voice encircles the earth in a moment; an ocean of space is but a day's journey by air. Those who see natural progress in these things are not far from recognition of the fact that Jesus could be at "the other side" of the sea instantly by reason of the perfection of his state of mind, the spiritual purity of his thought. Enlightened thinking in our day has reduced a continent to a few hours of travel and will continue to reduce matter until it no longer obstructs. Obstruction is the opposite of freedom, and true freedom is good. The general trend of human progress, despite occasional gross deviations, bespeaks the ultimate triumph of the good. In her book, "The First Church of Christ, Scientist, and Miscellany" (p. 345), Mrs. Eddy says of "modern material inventions," "They are preparing the way for us."

What is needed is not to disregard or to alter reality but so to correct the sense of things that the fact rather than the error shall be revealed. Christian Science accomplishes this correction through prayer, through spiritualization of thought, through the cultivation of a state of mind that rejects false physical sense testimony and accepts the spiritual truth.

Jesus frequently said that his sense of things was different from that of materially minded persons. This is especially noticeable in connection with his healing work. Being spiritually minded, he saw the ten lepers as clean, ready to show themselves to the priest. He saw the paralytic by Bethesda pool as able to "arise and walk." No question appears to have occurred to him as to whether the two blind men could see; they were questioned only as to their belief. To him Lazarus and the daughter of Jairus were not dead but asleep. His statements on these and other like occasions show that he was conscious of the fact that through his immaculate spiritual understanding the physical sense evidence of evil was reversed and cast out. Such was the purity and strength of his realization that nothing but the good is true, that many earnest persons caught something of the "mind that was in Christ Jesus" and were lifted out of a sense of pain, deformity, sin, or lack. Not a fact was changed.

Jesus verified the prophecy of Isaiah that he should not judge according to "the sight of his eyes" or "the hearing of his ears," according to the material sense verdict. Since the time of Jesus the truth of being, in contradistinction to the human belief in evil, has not been uttered with anything like the courageous clearness with which Mrs. Eddy has set it forth in her many writings. The purity of her realization of the basic rightness of reality increasingly appears to the earnest student. Christian Scientists therefore rejoice to acknowledge her spiritual leadership.

LIFE SPIRITUAL, NOT MATERIAL

The common belief about a man's life is that he lives within a physical body, that his identity is located inside a material structure of flesh and bones. How life got into the body, what keeps it there, how it is to get out, and where it is to go when it gets out, are subjects of much speculation and little assurance.

All human ills are associated with the sense of life in the flesh. Therein man is supposed to live a precarious life and to die an inevitable death; therein are his aches and pains, his fears and disappointments, his sinful habits, devastating appetites, illusive pleasures. The sorrows and sufferings from which mortals pray to be delivered all have to do directly or indirectly with the so-called corporeal, fleshly selfhood, including that which is called the mind within the body. Christian Science, concerned with the overcoming of human ills, that the inherent rightness of God's creation may appear, invites men to consider the reasonableness of the proposition that since discord is found only within the realm of physical sense, the way out of trouble lies through the taking on of a better sense. It is possible to do this in a perfectly natural way.

To hold to the belief that man lives inside of a material body one must well-nigh ignore the fact that actual life has not been found in the body. Each of the activities within the body can be truthfully described only as an effect of something else. If that something else were inside of the body it scarcely could have escaped detection by this time.

The situation is illumined by such statements as this from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, page 208: "You embrace your body in your thought, and you should deliberate upon it thoughts of health, not of sickness." A moment's consideration makes it plain that we do embrace our material body in our thoughts. Therefore both we and our thoughts must be in fact outside of that body. One could not well be inside of that which he embraces. We contemplate our so-called physical selves from without, not from within.

If man does not really live in the flesh, then clearly he ought not to go on believing that he does. Inspired thought beckons us out of materiality. In Genesis we are assured that true man is the image and likeness of infinite Spirit. A psalm reminds us that we shall be satisfied when we awake in God's likeness, the likeness of Spirit. Isaiah urges, "Cease ye from man, whose breath is in his nostrils; for wherein is he to be accounted of?" Jesus, commanding his followers to take no thought for the body, declares that real life, life eternal, is a state of mind, to know God aright. St. Paul, seeing that "they that are in the flesh cannot please God," advises Christians to cultivate a willingness "to be absent from the body, and to be present with the Lord." John, the Revelator, explains the possibility of beholding new heaven and new earth, not material but spiritual, through mental purification.

Christian Science teaches and proves that to lift one's sense of identity and reality up out of the flesh into infinite Spirit promotes health and harmony. Thus Christian Science restores that which was lost, Christian healing.

Life was no mystery to Jesus. "It is the spirit that quickeneth; the flesh profiteth nothing," said he. The sick are healed and sinners are reformed through learning to look outside of the flesh for that true spiritual animation which alone is capable of maintaining the universe and all that is therein.

To the Master evidently it was clear that health is primarily a state of thought and only secondarily or incidentally a condition of body or matter. To him the sick were those "whom Satan hath bound," the Satan whom he described as "liar, and the father of it," a self-constituted lie or false sense, having "no truth" in it. Both the casting out of devils, sick, deluded beliefs, and the spiritual quickening of those who came to be healed were accomplished through the operation of the Mind that was in Christ Jesus, as St. Paul describes it. Those who were healed were those whose hearts were open to the regenerative influence of that mind or sense which perceived and reflected the absolute truth concerning God's creation.

TRUE SENSE VERSUS FALSE

The teachings of Christian Science coincide with the affirmations of the Scriptures that all things were made by God, that without Him was not anything made, that God saw, comprehended, creation in its entirety, and it was very good.

The Bible also avers that everything that was made not only was in the beginning perfect and complete, but is now and everlastingly will be perfect and complete. In the words of Ecclesiastes, "Whatever God doeth, it shall be for ever: nothing can be put to it, nor any thing taken from it."

These declarations are true, not only because they appear in the Bible; they are true because they could not possibly be untrue. Reason and logic affirm the sublimely simple proposition that the intelligence and ability to create a universe imply the intelligence and ability to create it aright.

But while revelation and reason agree as to the unanswerable fact, human sense argues through a thousand daily experiences that discord, fear, sin, and disease, myriad forms and phases of evil, do exist, are a part of actuality; that creation, if it ever was good and right, was not sufficiently good and right to remain forever good and right.

There is conflict, in other words, between pure reason and human experience. Neither the unstable theories of material science, the blind hopes of superficial religion, nor the stupid dreams of sensualism will solve this problem.

Fortunately, in all ages there have been prophets and seers who were not wholly deceived by the apparently overwhelming material sense testimony on the wrong side. In the nineteenth century a woman saw the incongruity between the truth of being and experiences of human life. She saw that perfect God and imperfect man could not both be true. Imperfection could not be real unless God, the creator of all, is its author. Imperfect creation could be the product only of imperfect creator. To her the question was clear-cut and unescapable. Her answer was such as would come from one who loved God wholeheartedly and pure-mindedly as did Mary Baker Eddy. In her textbook, "Science and Health with Key to the Scriptures," page 113, she writes: "According to the Scripture, I find that God is true, but every [mortal] man a liar." The sense of things that denies the perfection of God and His creation is false.

When Mrs. Eddy learned that it is the physical senses which presume to take issue with God's perfection, she saw that it is the impressions of these senses which constitute what the Bible terms the "carnal mind," that "is enmity against God." If God's man is all right, the mind or sense which says that he is partly wrong is a lying mind, a false sense. Mrs. Eddy calls this false sense of things mortal mind, to distinguish it from immortal Mind, which latter is properly spelled with a capital M, for it is a true synonym for God. When Paul declared that salvation should be found in taking on the Mind that was in Christ Jesus, he knew that Jesus had repudiated the so-called mind or sense of things that accepted any evidence of reality in aught unlike the nature of God.

Mortal mind must be put off. Why? Because it is composed of that material sense which is unable to resist the temptation to believe that mindless, inert, nonintelligent matter has the capacity within itself to think, to act, to live; to believe that man, therefore, is not the image and likeness of God, Spirit, but is a physical mechanism. Mortal mind consists of the thoughts that it thinks. Therefore, as the Bible declares, "we wrestle not against flesh and blood." We are engaged in a warfare against wrong thinking. The true sense is spiritual and its fruits are the opposite of sin and death.

APPLICATION IS SIMPLE

"Become conscious for a single moment that Life and intelligence are purely spiritual,—neither in nor of matter,—and the body will then utter no complaints," writes Mrs. Eddy on page 14 of Science and Health. How is one to acquire that consciousness? By diligent right thinking. You are master of your thought, if you so choose. Your affairs, of body, mind, surroundings, are the coincident expression of your thought.

If you will begin, as a systematic daily mental practice, to contemplate the essential nature of God, as best you can conceive of Him, and definitely and in an orderly fashion to affirm in your thought the reality of God's nature; if you will in like manner systematically and persistently deny the essential reality of all that is unlike the nature of infinite Spirit; if you will do this not as a matter of vain repetition, but with an earnest striving to bring into this activity some degree of conscious realization of the actual presence and power of God, operating in and through you to bring into expression the essentials of His nature, you will find that, asking bread, you will not be given a stone.

You will find, if your experience does not differ from that of countless thousands of your fellow-men, that the setting into operation of these processes of Christianly scientific thinking will begin to be made manifest in most practical ways in your experience, in healing of sickness, overcoming of sin, mastery of lack, suppression of discord, elimination of fear. There is rich reward in taking your stand mentally on the side of the good God and His good creation.

There is in spiritual reality nothing the matter with God or His creation. The trouble is with our sense of things. We need to take on the Mind that was in Christ Jesus, which enabled him to say with absolute conviction, "Be ye therefore perfect, even as your Father which is in heaven is perfect." We need not merely to believe this theoretically, but to affirm it practically, to use it as a spiritual weapon against suggestions of imperfection, as did the Master.

The medicine of the Great Physician was denial of error and affirmation of truth. Those whose hearts opened to his teaching were mentally purified and stimulated, and the outward effects were manifest. By this purely spiritual process the sick were healed, the lame walked, the dumb spake, the blind saw, the dead were raised. And the method was always the same—the definite rule of imperfection denied, perfection affirmed. "He sent his word, and healed them." Here was such clear realization of the fact of perfection that mere belief in imperfection faded out of consciousness.

The rediscovery of the Christ method of healing, the setting forth of the simple rule and method by which this healing may be accomplished, and the establishment of a church to protect her discovery for the benefit of mankind, these affirm, and will increasingly affirm, the greatness of Mary Baker Eddy. Through her pure love for God and man millions have been blessed with health, strength, abundance, joy, and peace, such as they had believed impossible.

This Science quickly verifies itself in the experience of the earnest student. It is like mathematics in that respect: A few simple applications of the primary rules will prove the Principle and inspire the confidence necessary to further progress.

THE OVERCOMING OF LACK

Christian Science heals poverty in the same manner that sickness and sin are healed, through "the renewing of the mind," as St. Paul puts it. Inspired writers repeatedly have asserted that thought adjusted to the divine nature will bear fruit "after its kind." Jesus gave the unfailing rule for success when he said, "Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you." This kingdom, the Master said, is "within you," and "at hand;" therefore the individual Christian has the right to feel that the essential completeness of reality is present, not absent, and only needs to be realized in order to be enjoyed.

A divinely intelligent and loving creator has not made a man to be impoverished any more than to be sick or sinful. Poverty, like disease and sin, involves a mistaken sense of God and His work. The evil quality of poverty is not that it makes men suffer but that it misrepresents God. The Christian aim in overcoming poverty, as in healing sickness and sin, is to the glory of God. Mere getting of money would not glorify God, but the demonstration of power over material things through spiritual understanding does "magnify the Lord." The writer of Genesis affirms that divine Spirit has given man dominion over earthly things. Jesus proved this to be true and said his followers should do likewise.

One who for many years had been distressingly limited in income or salary found himself trying vainly to use his early glimpses of Christian Science to enlarge the salary by some mysterious process. Finally he saw that what needed to be enlarged first was his understanding of man as God's image and likeness. It was his narrow, pinched sense of self that was bringing forth "after its kind" in his personal experience. Cultivating a larger and more spiritual concept of God and man, as he learned to do in a perfectly natural way through the teachings of Christian Science, he soon found this clarified vision reflected in his affairs. Men and things began to manifest an unmistakable tendency to help rather than to hinder. Unexpected opportunities appeared and unsuspected capacities came to light. Human relationships became more fruitful of good, after the manner of true brotherhood.

Christian Science cannot be used for the mere acquisition of money or other material things, but it is successfully employed to the overcoming of that abnormal sense of lack which is the result of ignorance of spiritual substance and which in turn bears fruit in human fear and poverty.

Mastery of materiality is the secret of wealth and health. It is the mastery that comes to light in daily experience through the Christianly scientific cultivation of spiritual-mindedness.

REALITY BROUGHT TO LIGHT

Christian healing is becoming less mysterious to those who see, as men are increasingly seeing, that so-called material objects are objects in sense or thought, not outside of thought or sense, and that this is true of the individual object called a physical person and of the aggregated object called a person's affairs. Modern discovery and invention reveal a distinct trend away from many long-entrenched beliefs in the so-called substantial qualities of materiality. Liberated thought is being prepared to accept Mrs. Eddy's teaching, that "There is no life, truth, intelligence, nor substance in matter. All is infinite Mind and its infinite manifestation, for God is All-in-all" (Science and Health, p. 468).

St. Paul did not require a laboratory in order to be convinced that the flesh, materiality, "cannot inherit the kingdom of God," that is, has no place in reality. He was sufficiently Christian to see that there could be no essential reality in that which does not conform to the simple logic that the creation of a good creator is good. It was this Christian purity of thought which enabled Paul to be a distinguished healer of the sick, after the manner of his great Master. His emphatic reminder to the Athenians that "we live, and move, and have our being" in God, in infinite Spirit, revealed a state of mind through which healing inspiration would naturally radiate to those who were suffering from the discordant effects of the belief that man lives in the unlikeliness of Spirit, namely, in the flesh.

In the nineteenth century lived a woman whose love for God was so pure and true that she gladly accepted the divine commission to declare to this age the omnipresence of God's goodness and the consequent unreality of whatever is unlike the goodness of God. Mary Baker Eddy could not have discovered the Science of Christianity had she not been willing truly to follow him of whom it was prophetically said, "He shall not judge after the sight of his eyes, neither approve after the hearing of his ears; . . . and he shall smite the earth with the rod of his mouth." A mere theory of Christianity might affirm the goodness of God and seek to ignore appearances to the contrary. The actual Science of Christianity must not only assert the goodness of God, but must "smite the earth" in proof of God's goodness; teaching its adherents how to reverse the suggestions of physical sense, which otherwise, would deny that the cause of reality is either wise or good.

THE NATURE OF EVIL

There need be no perplexity in regard to Mrs. Eddy's use of the term "animal magnetism" on the part of those who accept understandingly her statement, on page 103 of Science and Health, that "As named in Christian Science, animal magnetism or hypnosis is the specific term for error, or mortal mind."

Mrs. Eddy has not undertaken to invent a new kind of evil, nor is the student of Christian Science invited to substitute a mental devil for a physical one. He is invited to use the term animal magnetism as "the specific term for error," because to do so will help him to adjust his thought intelligently to the problems of evil as they appear in his human experience.

Christianity teaches, according to St. Paul, that man lives, moves, and has his being in God, in infinite Spirit. Christians presumably accept St. Paul's statement that "they that are in the flesh cannot please God." Spiritual existence alone is in accord with the design of Deity.

Good men and women in all times have yearned for the realization of spiritual existence, but have found it difficult to resist the attraction of a sense of life not in God, Spirit, but in animal flesh, which, according to the Scriptures, "lusteth against the Spirit." Like St. Paul they could say: "With the mind I myself serve the law of God; but with the flesh the law of sin."

The specific term for anything is the term which reveals its exact or particular nature. Christian Scientists find that the use of the term "animal magnetism" as "the specific term for error" helps them to understand that evil is a false and fraudulent attraction of the sense of life from Spirit to the flesh, and that outside of the mesmeric illusions of this false and fraudulent sense there is and can be no field of operation for evil mental influences or tendencies. Thus the student learns that evil is not a mysterious something to be either feared or ignored, but a common impulse of the mortal mind, or fleshly sense, to be overcome. Through meeting and mastering this fraudulent impulse, on the basis of the essential rightness of God and His creation, the

scientific Christian makes himself a channel for divine Love, which is the specific term for the only spiritually real impulse, influence, attraction, or law. Thus he becomes a Christian healer.

RESISTING FALSE INFLUENCE

The activity of Christian Science is not of the nature of mental suggestion or hypnotism. Jesus expounded the rule, "Not my will, but thine, be done." The effort of mental suggestion is to impose one human will upon another. Much that is involved in the so-called laws of evil and disease in human experience can be traced to some such wrong mental activity or mental malpractice. Jesus denounced human will and proclaimed the will of God to be the only real will-power. That rule brought healing to the sick nineteen centuries ago, and it brings healing to the sick to-day.

The rule, "Not my will, but thine, be done," is, of course, the rule of perfection. God's will is perfect. Thought that is open to the fundamental rightness of being catches something of the spiritual import of Jesus' teaching, and this improved state of mind manifests itself, after its kind, in outward conditions and affairs. Jesus must have meant this when he said regarding one of his healings, "Thy faith hath made thee whole." His affirmation of God's will that man is perfect had encouraged a measure of acceptance, and that improved state of mind which he named faith, expressed itself in a corresponding state of body, as states of mind never fail to do. The scientific relationship between state of mind and state of health is affirmed and reaffirmed in the Scriptures.

The study and application of Christian Science will stimulate one's natural capacity to reject the mental suggestions of evil and so to counteract their effects. Christian healing will thus be seen to be the result of the adjustment of thought to the nature of God and His good creation. St. James must have been aware of this when he admonished those who were sick to seek healing through the prayer of the righteous. Mrs. Eddy was spiritually

DISPOSING OF A NEGATION

Having accepted the Scriptural assurance that the author of all reality is good, and the creator of that only which is good, the Christian Scientist does not shun the logical conclusion that evil is not an entity. The teaching of Christian Science, that evil is primarily a negation, may be illustrated by the negativeness of the evil called ignorance.

The schools are devoted to the overcoming of ignorance, yet they do not regard it as something. No time is wasted in the schools in trying to instruct any one as to the origin or elements of ignorance. If a pupil were to demand to know who made ignorance, where it came from and what it consists of, he would have to be told that nobody made ignorance, it does not come from anywhere, nor does it consist of anything. The educator knows that ignorance is not the presence of something but the absence of something, in other words, a pure negation. Knowledge of the essential negativeness of ignorance does not tempt the educator to ignore the effects of the negation.

One who has gone to school could not consistently say that it is impossible to comprehend the idea of a purely negative evil, a mere nothing, which yet needs to be positively and vigorously handled and overcome. Christian Scientists accept the definition of evil or devil as given by the Master, namely, that it is "a liar, and the father of it," and has "no truth" in it; in other words, a self-constituted lie, utterly devoid of truth.

Jesus' practice "was consistent" with his preaching as regards the nature of evil. The essential nothingness of evil need not be accepted as a mere theory; it can be proved in many ways by those who are willing to adjust their daily thinking to this rule, as explained in the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy.

HOW MANY OF THESE DESIRABLE features HAVE YOU IN YOUR PRESENT LAMPS?

SPECIAL 3-LIGHT BULBS
A single lamp bulb furnishes three different directions of light. You can adjust the beam of light to suit your needs.

SHADE WITH WHITE LINING
Scientifically designed to give maximum efficiency, this shade has a white (or very light) lining which reflects light instead of absorbing it. A wide opening at both top and bottom permits plenty of light to diffuse throughout the room.

A modern floor lamp has all of them!

It has been proved by countless tests that for easy, comfortable seeing—and the protection of your eyesight—you need 25 to 30 foot-candles of light for reading, writing, and other ordinary seeing tasks. The average lamps in your home furnish probably 5 to 10 foot-candles. Under present-day standards of lighting, ALL OF YOUR LAMPS may be out-of-date! This does not mean that you should discard them. But why not supplement them with a modern new 3-light lamp . . . one with all the proven advantages shown above? A free Sight-Meter test of your lighting will show you some amazing truths about your lamps and your home lighting in general.

the SIGHT METER will tell you why!

Activities of Grosse Pointe Post, No. 303, American Legion

This evening, the 30th, our regular bingo party will be held at our headquarters, 17520 Mack avenue near Neff road. The price of admission as usual will be 25 cents. Fifteen games will be played and worthwhile and useful prizes will be awarded. A good time is guaranteed all. If we do not keep this promise tell us and offer constructive criticism, which we assure you will gratefully received. If we do please you, as we always strive to do, tell your friends and bring them along with you for an evening of enjoyment.

Our Hallowe'en party will be held Saturday evening, October 31. Come either masked or without as you prefer. Admission price for this will also be 25 cents. For the price of admission there will be four prizes awarded and free dancing from 9 p. m. until the wee small hours. There will be plenty of refreshments on hand suitable for both young and old, so come early and stay late and have a wonderful evening. Our address is 17520 Mack avenue at Neff road, and there is plenty of parking space.

For further information and tickets for this Hallowe'en party call the following comrades: Commander Louis Baldwin, Niagara 6565; Adjutant Earl O. Cramer, Niagara 4227; Leo Weil, 878 St. Clair, Niagara 5555; William Van Heuvel, 383 Neff road, Tuxedo 2-2289; William Korte, 2534 Marlborough, Detroit, Murray 5152; and also the Display Department of Crowley-Milners. Tickets will also be on sale at the door.

Hannan Voters' Forum to Close on Monday

W. P. Lovett, executive secretary of the Detroit Citizens League, will appear as the guest leader on the fireside forum program at the Hannan Memorial Branch, Y. M. C. A., next Monday evening, November 2, at 7:15 p. m., speaking on the topic "Turning the Light on Your November 3rd Ballot." This meeting will be the last in the current Voters' Series of five discussions arranged to provide Hannan members and their friends with an intelligent basis for their voting at the fall election.

Mr. Lovett will deal particularly with the proposed four amendments to the state constitution and the two amendments to the city charter. He will also describe the purposes and program of the Detroit Citizens League, giving special attention to certain of its recommendations for Tuesday's balloting. As president of the National Association of Civic Secretaries and author of the book, "Detroit Rules Itself," Mr. Lovett's name is known and respected wherever clean, intelligent voting is sought in civic affairs. No one could be secured who would be better qualified than he to speak the last word in such a Voters' Series. Visitors will be welcomed at this session of the Forum.

Mrs. Wm. K. Williams Working Hard for Dems

Mrs. William K. Williams, vice chairman of the Wayne County Democratic Committee, has been working night and day to promote the success of the National, State and County tickets. A life-long Democrat, she is an able and enthusiastic leader for the Democratic women in Wayne County. The now effective Democratic organization is an outgrowth of the Reporter Plan, whose aim was to instruct and interest women in legislative measures and governmental policies. After the women had learned about the definite issues at stake, they were only too willing to join the group in their Congressional District, attend weekly meetings at which Reporter Speakers informed them more fully about the policies of President Roosevelt, take part in the political census, see that inter-

ested voters were supplied with accurate information, and take to the polls on election day those who otherwise could not get there.

In taking the political census, the women have trugged the streets, going from house to house, ascertaining the number of voters, to which party they belong, whether or not they have registered, answering questions, and leaving pamphlets which more fully explained the issues.

In the subscription drive for the Democratic Digest, the women of Wayne County under the leadership of Mrs. Williams and Mrs. Donald Walker, her assistant, were able to procure 465 subscriptions, which were half the number received in the state.

In every Congressional district, Mrs. Williams has appointed chairmen who in turn have chosen divisional chairmen and precinct captains, who have carried on the work in their own district.

Bridge Party at K. C. Hall November 4th

The annual bridge party for the benefit of the Catholic Instruction League will be held in the Knights of Columbus auditorium, Woodward at Forest, on Wednesday, November 4.

Admission will be 50 cents. The general chairman of the event will be Mrs. Loretta Cronin Mulken. Committees: Tickets, Mrs. Mary A. Frawley, Johanna McDonnell; reception, Angela Roe, Mary Deruin, Mabel Burkheiser, Eugene Thompson, Matilda Deane, Mrs. Edw. Ouellette, Winifred Skiffington; prizes, Mrs. Harry B. Sharkey, Gertrude Healy; arrangements, Marie Meier, Mary Morgan, Mary O'Shea, Mrs. Harry C. O'Neill, Mr. Ray Cameron; publicity, Mrs. Lloyd Eagan.

Some Titan Football Stars

Here are four of the veteran players of the 1937 University of Detroit football eleven. Captain Al Boglarky, right-end, is one of the best flankers the team has had in recent years, a fine defensive man and an exceptionally capable blocker on offense. Jim Piper, is the "triple-threat" in the backfield, who does most of the passing and punting. Andy Farkas is one of the hard-running backs that ever wore the Red and White, seldom is a single tackler able to bring him down. Dave Crotty, left-tackle, has been virtually impregnable in the three years that he has been on the varsity.

the local scouts will here be invested with merit badges for their advancement beyond the usual first class rank. Awards will also be made to standing as life, star, and eagle ranks.

After these investiture ceremonies the boys are to have several contests

to demonstrate their proficiency in some of the better known scouting activities. These activities will cover work in signalling, knot-tying, and first aid. Each troop has entered a team in each event, their aim being to demonstrate their proficiency in com-

pany with the boys of the other troops in Grosse Pointe.

The program will begin at 8 o'clock and be completed by 9:30. These cere-

monies are held twice a year to honor those boys who are advancing in the scouting program. In the absence of Mr. Kales from the city, the program

ANDY & ANN CAFE 15009 Charlevoix at Wayburn Beer - Sandwiches - Light Lunches

Notice of Annual Election

TO THE QUALIFIED ELECTORS OF THE TOWNSHIP OF GROSSE POINTE, WAYNE COUNTY, MICHIGAN.

NOTICE IS HEREBY GIVEN that the General Election will be held in the State of Michigan and in the Township of Grosse Pointe on

Tuesday, NOV. 3, 1936

at which time the following officers are to be voted for:

- President of the United States
Vice-President of the United States
Governor
Lieutenant-Governor
Secretary of State
Attorney General
State Treasurer
Auditor General
Justice of the Supreme Court
United States Senator
Representative in Congress
State Senator
Representatives in the State Legislature

YOU ARE FURTHER NOTIFIED that the polls will be open from 7:00 o'clock in the forenoon to 8:00 o'clock in the evening, Eastern Standard Time.

There will be submitted to the electors, at the General Election to be held on Tuesday, November 3, 1936, the following proposed amendments to the Constitution of this State.

(Proposal No. 1) AMENDMENT TO PERMIT FIREARMS AND OTHER DANGEROUS WEAPONS SEIZED OUTSIDE DWELLINGS, OUTBUILDINGS AND LANDS CLOSELY ADJACENT THEREOF, TO BE INTRODUCED AS EVIDENCE IN ANY CRIMINAL PROCEDURE.

(Proposal No. 2) AMENDMENT TO REQUIRE LAWS PERMITTING COUNTIES TO INCORPORATE, AND, ON APPROVAL BY MAJORITIES OF CERTAIN SPECIFIED ELECTORS TO ADOPT A CHARTER.

(Proposal No. 3) AMENDMENT PROVIDING FOR EXEMPTING CERTAIN ARTICLES OF FOOD AND PREPARED MEALS FROM THE SALES TAX.

(Proposal No. 4) AN AMENDMENT PROHIBITING, AFTER DECEMBER 31, 1937, ALL REAL AND PERSONAL PROPERTY TAXES, EXCEPT TO MEET EXISTING INDEBTEDNESS; PROHIBITING NEW LICENSE TAXES UPON THE OWNERSHIP, POSSESSION OR USE OF REAL AND PERSONAL PROPERTY; PERMITTING THE TAXATION OF INCOME FROM PROPERTY UNIFORMLY WITH OTHER INCOME; AND PROVIDING THAT THE MONEYS FROM INCOME TAXES SHALL BE DISTRIBUTED AMONG LOCAL UNITS OF GOVERNMENT WITHIN THE STATE IN A MANNER LATER TO BE PROVIDED BY LAW.

(Proposal No. 5) AMENDMENT TO PERMIT THE INTRODUCTION AS EVIDENCE IN ANY CRIMINAL PROCEDURE OF FIREARMS AND OTHER DANGEROUS WEAPONS SEIZED BY PEACE OFFICERS OUTSIDE THE LIMITS OF LAND OCCUPIED BY A DWELLING.

(Proposal No. 6) AMENDMENT TO PERMIT THE INTRODUCTION AS EVIDENCE IN ANY CRIMINAL PROCEDURE OF FIREARMS AND OTHER DANGEROUS WEAPONS SEIZED BY PEACE OFFICERS OUTSIDE THE LIMITS OF LAND OCCUPIED BY A DWELLING.

(Proposal No. 7) AMENDMENT TO PERMIT THE INTRODUCTION AS EVIDENCE IN ANY CRIMINAL PROCEDURE OF FIREARMS AND OTHER DANGEROUS WEAPONS SEIZED BY PEACE OFFICERS OUTSIDE THE LIMITS OF LAND OCCUPIED BY A DWELLING.

(Proposal No. 8) AMENDMENT TO PERMIT THE INTRODUCTION AS EVIDENCE IN ANY CRIMINAL PROCEDURE OF FIREARMS AND OTHER DANGEROUS WEAPONS SEIZED BY PEACE OFFICERS OUTSIDE THE LIMITS OF LAND OCCUPIED BY A DWELLING.

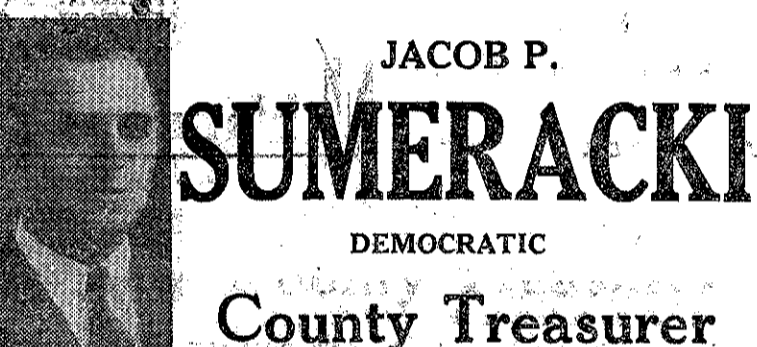

(Proposal No. 9) AMENDMENT TO PERMIT THE INTRODUCTION AS EVIDENCE IN ANY CRIMINAL PROCEDURE OF FIREARMS AND OTHER DANGEROUS WEAPONS SEIZED BY PEACE OFFICERS OUTSIDE THE LIMITS OF LAND OCCUPIED BY A DWELLING.

(Proposal No. 10) AMENDMENT TO PERMIT THE INTRODUCTION AS EVIDENCE IN ANY CRIMINAL PROCEDURE OF FIREARMS AND OTHER DANGEROUS WEAPONS SEIZED BY PEACE OFFICERS OUTSIDE THE LIMITS OF LAND OCCUPIED BY A DWELLING.

- YOU ARE FURTHER NOTIFIED that the polling places for said Election shall be as follows:

Hall—Reporting News. Shows the cub reporter and the student how to ask questions and take notes; how to recognize and gather news and how to write it up. Collins—Motor Car Trailers. How to build, equip and furnish them. Contains complete specifications and detailed drawings for making an inexpensive trailer and a luxurious trailer. White—Mc, Detective. The greater part of this autobiography is devoted to true stories of Mr. Whites experiences as a detective attached to the district attorney's office in Los Angeles. Corbett—Mrs. Meigs and Mr. Cunningham. Mrs. Meigs still finds much in life interesting and amusing especially when Mr. Cunningham enters her life bringing new flavor. De La Roche—Whiteoat Harvest. One eventful year in the lives of the people of Jalna. Mantle—Best Plays of 1935-36. Summaries and excerpts from last season's ten best plays. Douglas—White Banners. One stormy day Hannah walked into the Ward's house and stayed, as servant, friend and counselor, for 25 years. Her original philosophy helped every member of the family in their problems.

'Streets of the World' Coming to Detroit

Detroit is to see the "wonders of the fair," only in this particular case it will be the wonders of many fairs. The big, gorgeous spectacle "The Streets of the World" is coming from Cleveland, San Diego and Dallas fairs for eleven days and nights to Convention Hall starting October 29th to November 8th. In addition, the international travel show and exposition will be added to the glorious, glittering pageant of the villages of the world, bringing the beauty and traditions of the world, in a brilliant panorama filled with the very life of the old villages of Europe, the Orient and South America. Ten acres of the finest shows of the outdoor exhibitions are now being assembled in Convention Hall under the same expert management which made "The Streets of the World" the outstanding feature of the Cleveland Fair. Included in these special attractions will be the world famed "French Casino," the show that played to well over one million people this past summer. Under the sponsorship of the many foreign societies of Detroit and the consuls of each country represented, the show bids fair to be the outstanding

David Irwin to Be at Art Institute No. 1

David Irwin, the only man to travel alone across Arctic North America, will speak on "Alone Across the Top of the World," with motion pictures, at the Detroit Institute of Arts at 3:30 on Sunday afternoon, November 1. The 24-year-old explorer was set ashore on the bleak north shore of Alaska. With his dog team he mushed 3,000 miles over swamp and tundra, mountain passes, frigid barrens, frozen water courses. Among his motion picture highlights: the blue-eyed blonde Eskimos; the Andrew Bahr reindeer expedition; hunting polar bear, walrus, caribou and whale; facing starvation and death at the Magnetic Pole; a six-month trek without a sight of human beings; the Arctic's most primitive people.

Admiral Byrd to Speak at Cass Tech Nov. 9

Admiral Richard E. Byrd will speak on "My Second Antarctic Expedition," with 9,000 feet of motion pictures, at Cass Technical auditorium at 8:30 on Monday evening, November 9. He comes under the auspices of the World Adventure Series at the Detroit Institute of Arts, where reserved tickets at 50c and 75c are now on sale. Admiral Byrd's motion pictures show the rebuilding of Little America, where 56 men were buried alive for two years. They show the conquest of the Arctic by airplane, dog team, ship and tractor. They reveal pictorially how experts, in 16 fields of science carried through their dangerous work in spite of crevasse, shifting ice fields, and blizzards.

Sinclair Lewis Play Secured for Federal Theatre Presentation

"It Can't Happen Here," a dramatization of Sinclair Lewis' Nobel Prize winning story, will open its second successful week at the Lafayette Theatre starting Tuesday, November 3. Author Lewis' literary game is also being presented on the stage of 20 other large American cities from coast to coast. In New York City "It Can't Happen Here" is being presented in Yiddish as well as in English. Herschel Mayall, who was a decided hit in "The Road to Rome," has gained a host of new friends with this stellar performance as Doremus Jessup, liberal Vermont editor. Mr. Mayall car-

ries the role with ease. Miss Peggy Fenn, who won her spurs in "I Confess," is a sparkling gem in the part of Lorinda Pike, chief aide to Jessup. J. Richard Gamble, as president of the United States has also proven himself capable in this part. The Lafayette Theatre management announces that popular prices will prevail for all performances with matinees on Saturday.

International Festival Planned at Hannan "Y" November 6, 7, 8

The Hannan Y. M. C. A. Mothers' Club is planning an International Festival to be held Friday, Saturday, and Sunday, November 6, 7, and 8. The Latin-American countries have been chosen by the club for the countries of honor at the festival. The sponsoring committee has made plans for a series of interesting and entertaining events. A special program for grammar and intermediate school boys and girls; a young people's dance; an exhibit of the arts, crafts, industries, and cultures of the honored countries; and an international dinner will be featured.

An afternoon program of movies, exhibits, and entertainment, with Dr. J. C. Field of Lima, Peru, as guest speaker, is to be held in the "Y" gymnasium for the boys and girls of this district. A dance will then be held in the evening with all the color and picture-ness of a South American fiesta. A cafe decorated in tropical splendor with Senoritas serving Latin-American refreshments it to be arranged about the dance floor. Saturday evening a dinner will be served in Latin-American style in the banquet hall. Each table will be presided over by a national or a tourist from one of our neighboring countries. Following this dinner an opportunity will be given to meet the international guests and to see the exhibits of Pan-American life and culture.

The general committee under Mrs. M. F. Armour's chairmanship includes the following chairmen: Mrs. B. Davey, dinner; Mrs. F. E. Glasgow, dance; Mrs. W. Foster, publicity; Mrs. Bender, entertainment; and Mrs. R. Tidman, exhibits.

Roger H. Freund to Leave Hannan "Y"

The boy members of the Hannan Y. M. C. A. gathered for a farewell supper in honor of Mr. Freund, boys' work secretary, Wednesday evening of this week.

Mr. Freund, who has been in "Y" work in Detroit since 1920 and who has been in charge of the boys' program at Hannan for the last three years, leaves this week for Ann Arbor. There he will be general secretary of the Ann Arbor association.

The dinner which was presided over by Hugh McLeese was attended by more than a hundred boys and young men who had been members in the boys' division under Mr. Freund. Lloyd Disney, who has been a member since the Hannan Y was built, presented Mr. Freund with a desk lamp as a gift from the boys of the division.

Alvin Deiss, the newly appointed boys' secretary, was presented to the boys by Mr. Ernest Hedden, executive secretary of the branch. Mr. Deiss comes to the Hannan Branch from Northeastern Y. M. C. A. where he has been directing boys' programs during the past three years.

Roberts D. Burr, associate boys' secretary, told of the plans for the International Festival which is to take place at the "Y" on November 6 and 7.

Machines Can Take Michigan's Ballot

Not to exceed nine political parties will face Michigan's voters, on ballots or voting machines, November 3, Department of State records show.

Of interest in this connection is the fact that the modern style voting machine will not accommodate more than nine parties, without the machine adjustment by factory representatives. City clerks, in cities where voting machines are used, were concerned over the one-time possibility that paper ballots might have to be resorted to throughout the state. Fifteen parties originally filed their vignettes with Orville E. Atwood, Secretary of State. No voting machine could accommodate them all.

Ten parties will face Wayne County voters as the candidates of one party will be confined to Wayne County races. Paper ballots are used in that county, however.

The order in which political parties are arranged on the ballot, is, under state law, determined by the number of votes cast for the several party candidates for lieutenant-governor at the last preceding general election. The nine parties certified to the ballot by the Department of State, in the order in which they will appear on the ballot, follows: Republican, Democratic, Socialist, Communist, Farmer-Labor, Socialist Labor, Commonwealth, American and The Third Party.

Six parties of the original fifteen will not be represented for a variety of

reasons. No candidates' names were filed for the People's Progressive, National, Proletarian or Liberty parties. The candidates of the Progressive party withdrew. The slate of the United party was not accepted because of its failure to conform with state election law requirements.

Camp Fire Girls

Camp Fire Girls will hold district committee of awards meetings the first Saturday in November. Leaders are asked to notify Camp Fire headquarters, 51 W. Warren as to the number of girls who expect to pass their requirements for rank. The time and place of the meetings in the various districts will be announced at a later date.

Camp Fire girls who were campers in the senior unit at Camp Wathana, the official camp of the Detroit Council of Camp Fire Girls, during the past summer, will hold a reunion at camp the week-end of October 31. A Hal-lowe'en party, on Saturday evening, will climax the week-end's activities. Groups of girls will leave the city Friday evening and Saturday morning for Camp Wathana. Miss Catherine F. Stearns, local executive secretary, will accompany the group to camp.

All Needlework Guild garments must be in at the Camp Fire office by November 1. Camp Fire girls co-operate with the Needlework Guild of America in making garments for hospitals and needy families, as part of their service project throughout the year.

Boy Scouts Conduct Annual Roll Call

A job not quite as big as the National census-taking, but almost as important, is being done for the local scout council with a roll call of every scout troop, cub pack and sea scout ship will be taken during the period of November 1 to November 21.

Every district commissioner, assistant commissioner and many other district leaders will be assigned to visit certain units for the purpose of checking every registered member of the scouting organization and ascertaining each member's scout rating.

About 9,000 boys and 2,200 men will be canvassed during the three-week period designated.

Each unit leader has been acquainted with the facts regarding the council's first annual roll call and will be ready to receive the official "census-taker" of scouting. Applications for the many new boys who are just joining may be turned over to the visiting official who

WPA Women Compile 'Economic Cook Book'

Women enrolled in the nutrition classes conducted in conjunction with WPA sewing projects in Kent County have prepared a cook book which seems likely to go into extra editions. Already more than 800 mimeographed copies have been distributed, and the supply is nearly exhausted with demands growing steadily.

Designed to serve as a guide to the preparation of tasty meals on a minimum budget, the volume is appropriately titled, "Economic Cook Book." The typing and mimeographing was done by NYA girls and the women themselves paid for the material out of their earnings. The women also contributed the recipes out of their own experience and each was tested and discussed in class before being approved for publication. One of the most interesting features of the cook book is a section devoted to meat substitutes. Here one finds such palate ticklers as "cheese and rice croquettes," "potatoes in cheese sauce," "scaloped eggs," "peanut and tomato luncheon dish," "scaloped macaroni and peanut butter," "meatless spaghetti," "cottage cheese and nut loaf," and a "Friday roast," compounded mainly of macaroni, ground peanuts and grated cheese.

Navy News

The Navy School of Musi, Washington, D. C., is under the direction of Lt. Benter, U. S. N., who is the leader of the Navy Band, made famous by Lt. John Philip Sousa. The school has 100 students, enlisted in the U. S. Navy for the express purpose of becoming musicians, and receiving instruction there. The course is of two years duration. Men accepted for enlistment for this school must qualify as musicians as well as to pass the regular mental, moral, and physical requirements of the general service of the Navy. The enlistment is for six years, two of which is under instruction at the school. The applicant must have a basic musical education, and should have experience in a band or orchestra.

Russian Film at Cinema Theatre

Russia's prize-winning film, "The Youth of Maxim," which was originally banned by the police department of Detroit, will continue still another week at the Cinema Theatre, 58 East Columbia, just off Woodward avenue. The picture has been highly praised everywhere it has been shown by critics as the best example of Soviet Russia's film art.

"The Youth of Maxim," deals with that period in contemporary Russian history after 1905. It tells the story of the struggles of the peasants who rose against the czaristic regime. The heart-breaks and troubles endured by those people in their long fight are realistically portrayed on the screen for the first time. In addition to the "Youth of Maxim," the Cinema presents a well-rounded program of short subjects.

Call Grosse Pointe Printing Co., Lenox 1162, for Job Printing.

MRS. ISOBEL P. CLARK, of Grosse Pointe, has been a guest at the Barbizon-Plaza Hotel while visiting in New York.

LOUISE M. THOMCZEK, of 1245 Balfour Road, was one of the successful scholars who passed the August examinations of the Michigan State Board of Pharmacy. She graduated from Marygrove College with a B. A. degree in chemistry, and a B. A. degree in pharmacy from Wayne University.

The following girls from Grosse Pointe attended the annual Parhel-lic banquet held in the Women's League building at the University of Michigan on October 26: Betty Ann Barthel, Ruth Crossdale, Edith Frederick and Martha Clise.

Harry E. Cecil Entertains Grosse Pointe Kiddies

On Wednesday, Grosse Pointe High School was the scene of one of the most successful social events of the season from a juvenile point of view. It was a spectacular event that pleased the kiddies, thrilled and mystified them, which is one of the Halloween highlights, as the party room had been converted into a festive fairyland with constalks and black cats posed in the fields between the pumpkins and Jack o' lanterns. Witches were riding

brooms in the sky and clusters of colorful balloons adorned with more witches, cats and pumpkins hung from above. It was a costume party and what a picture it made! Lots of orange and black and all the other colors, too, many countries represented by national costumes and extravagant arrays of every description. There was no let-down, the party was one of continual surprises, music, gaiety and entertainment. Mr. Cecil, of the Harry E. Cecil Chocolate Co., was one of the featured performers of

the afternoon who amazed his gullible audience by pulling bunny rabbits out of their own clothes, making objects appear and disappear and reappear, in fact, his work was inconceivable. Mr. Cecil is a truly fine artist and completely pleased and dazzled his audience. Mickey Mouse and Betty Boop frolicked for the guests also, being ably presented on the screen by Mr. Denis Cooper, noted Isle Royale lecturer. Styles, smiles and steps were presented by some of Miss Elaine Marie Arndt's pupils in toe and tap dances.

Arndt Dance Studio was hostess for the afternoon to all of her juvenile pupils for whom the party was given. The children themselves took an active part in the affair doing circle dances and playing games. They had a lot of fun with the favors they received and candy, ice cream, and cookies were plentiful. It was a perfect party long to be remembered, candy, novelties and balloons were given to them as they all left looking forward to the next similar event.

Witches Are Out Again
(By Nutrition Department, Detroit Dairy and Food Council)

Halloween is a time for a mad, merry party. Guests are warned to leave dignity and worldly cares at the door as they don their masks. For who can maintain dignity while ducking for apples or nurse a grouch while following other guests up a ladder, through a window into the witch's den?

Upside-down, round-about, wholly mad are the parties planned for All Hallow's Eve. In keeping with the light heartedness of the party and Halloween colors of orange and black are the refreshments.

Keep the refreshments simple for young guests if you would please their mothers. Please the children, too, with something like this:

Orange Milk Ice
Chocolate Drop Cookies
Licorice and Orange Gum Drops

Let most of the fun come for them through unusual table decorations, numerous prizes and favors for everyone. Many mothers prefer nowadays to serve a simple meal at the regular time rather than refreshments to spoil the children's appetites for their meals. In this case the refreshments may become dessert.

For adults, late supper after the merrymaking is more popular, also if it is kept simple but wholly in keeping with holiday ideas. The following menu may be used also for a Halloween luncheon.

Waldorf Salad in HOLLOWED OUT Orange Baskets
Hobgoblin Sandwiches (cut round with chicken filling and faces of black Caviar)
Celery Brooms (celery curled at one end only)
Individual Pumpkin Pies
Coffee
Pumpkin Pie

Plain pastry
3/4 teaspoon ginger
1 teaspoon cinnamon
2 tablespoons hot water
1 1/2 cup pumpkin
1 cup milk
1/2 teaspoon salt
2 eggs
3/4 cup brown sugar
2 1/2 tablespoons orange juice

Line tart tins with pastry. Make a smooth paste of the spices and hot water. Heat the milk to the scalding point in a double boiler. Turn pumpkin into a mixing bowl and add the spice mixture, brown sugar, salt and beaten eggs. Mix thoroughly and then add the scalded milk and the orange juice. Pour into pastry-lined tart tins. Bake in a hot oven (450 degrees Fahrenheit) from 15 to 20 minutes or until crust becomes delicately browned, then lower oven to 300 degrees Fahrenheit and bake until filling is just set which will require about ten minutes.

Neighborhood Club Activities

Last notice is now being given on the Ghost Glide, the masquerade Halloween dance given by the A. O. C.'s Thursday, October 29, at 9 p. m. Free refreshments will be served and there will be prizes for both men and women for the best and funniest costumes. And don't forget the Top-Hatters Orchestra will be playing.

Important Notice! Friday night, instead of a play as already stated, a movie will be shown. The admission will be one cent. Come on up to the Neighborhood Club and meet your friends.

The men's gym class is being held every Monday night at 8 p. m. Calisthenics, volley ball and games are the features of the class. Come on, fellows, keep healthy.

Hello, do you still remember me? Ye Old Wind Bag in person. I have bags of news to tell you about the F. L. G.'s. Our first meeting we elected officers, they are as follows:
