Republican National Committee Receiving Contributions to Fund

Hundreds of small contributions from all over the country, the bulk of them gifts of five or ten dollars, are being received by the Republican National Committee, according to John Hamilton, Republican National Chairman.

Six hundred and fifty-six contributions of \$100 or less were received during February alone. There were a number of dollar gifts. During the month, 383 men and women also pledged contributions for later this year. Most of the pledges are for less than \$25.

"We are now receiving 75 to 100 contributions daily of \$25 and less. Most of them are \$5 or \$10 donations," Mr. Hamilton said. "Such a large number of small gifts from wage earners and small salaried men and women indicates better than anything else, I think, that the rank and file of the people are vitally interested in the Republican Party."

"One-fourth of our contributions are from women. A number of Democrats are contributing. Letter after letter would seem to indicate that the gifts are being made by the Republican Party at a very real sacrifice to the contributors."

In commenting upon the many small subscriptions and pledges received during the last two months, Mr. Hamilton said that it was his hope, and the hope

Why Do Michigan Libraries Need Aid From The State?

Twenty-four per cent of the total population of this state is without library service.

The unserved territory includes 1,140,000 rural people and 46,000 urban residents, the latter in cities of from 5,000 to 25,000 population.

Education of all the people is to the interest of all the people as has been recognized by the state's grants to schools. Libraries, which are a part of the educational structure, cannot be developed without state support.

This financial aid should properly come from the state because of the tendency to shift tax sources from the local community to the state.

The library budget of all local communities totalled \$1,822,694 in 1935 which means an expenditure of 37 cents per capita including unserved areas, but even in communities where libraries exist the average expenditure was only 49 cents per capita. The established and accepted minimum standard is \$1.00 per capita.

If present funds were supplemented by the 25 cents per capita requested in the bill to be brought before the present legislature, it would not only be possible to extend service to present unserved areas but it would materially improve and develop the service in already established libraries.

Qualifications of Democratic Candidates for Township Offices

Norbert Denk is a candidate to succeed himself as Township Supervisor, a position he has held for several years. He has conducted the affairs of the Township in a very capable and economical manner and many advantages have accrued through his efforts. His thorough knowledge of the office and his splendid experience with the Ford Motor Car Company is a great advantage in the conducting of the affairs of the Township.

Carl Schweikart, prominent local attorney, is seeking the office of Township Clerk and his experience as member of the Wayne County prosecutor's staff should be a splendid advantage to our Township in the conducting of this most important office.

Adolph L. Damman has conducted the office of Township Treasurer in a capable and creditable manner for a number of years, and under his guidance this office has functioned perfectly. Taxes have been collected economically and efficiently and the disbursing of funds of the Township handled promptly and speedily. His fine record has been outstanding in local affairs.

Victor R. DeBaeke, Justice of the Peace, is also seeking re-election. He has always taken a prominent interest in the affairs of the community and has displayed considerable ability and exercised splendid judgment in dispensing justice as a Justice of Peace of Grosse Pointe Township.

Chas. A. Howind, who seeks election to the Board of Review, has a fine background of accomplishments to his credit and should be the type of individual best qualified for this exacting office.

Frank M. Allard, Frank W. Defer, John W. Travis and Robert Van Sinaeys are men of integrity and character and as constables will perform the duties of their offices with courtesy and consideration.

This resume of the qualifications of the candidates who seek election on the Democratic ticket is given that you might better know the men who have served you and who desire to serve throughout the coming year. These men have been selected because of their outstanding ability.

Republican National Committee Receiving Contributions to Fund

(Continued from Page One)
of other party leaders, that funds to pay off the party's campaign deficit of \$900,000 and to provide money for future campaigns would be raised through small contributions for a great number of people who would become interested in making an annual contribution to the party treasury.

Alfred M. Landon, the party's presidential candidate in the last campaign, was the first contributor this year, Mr. Hamilton disclosed, sending his check for \$1,000.

The largest contribution, \$25,000, was made by Howard M. Johnson of Pittsburgh. Mr. and Mrs. Robert Barr Deans of New York City gave \$10,000. During January and February there were seven contributions of \$5,000 each. Those to give that amount were Arthur Ballantine of New York City, J. F. Lincoln, Cleveland, E. T. Weir, Howard Heinz, Lorenz Iverson and Mrs. Anne Lee Beeny, all of Pittsburgh, and Henry Oliver Rea of Sewickley, Pennsylvania. Total contributions for January and February were \$97,798.19.

Smith, publicity chairman.

The annual bridge-tee for the scholarship fund will take place Tuesday, March 30. Door prizes and table prizes will be awarded.

The price of admission is 75 cents.

Democratic Clubs Support Roosevelt on Supreme Court Plan

At a recent meeting of the Grosse Pointe Detroit Progressive Democratic Club the subject of revising the Supreme Court of the United States was discussed.

After agreeing on the following points it was decided that each person present should write his congressman, urging him to give the President wholehearted support in behalf of his legislation.

1. That President Roosevelt by his progressive leadership averted a revolution and resulting dictatorship.
2. That the present members of the court, although very scholarly gentlemen, were schooled a long time ago, under entirely different social, economic and industrial conditions than those in existence today.
3. That the number of judges has been changed several times in the past without violating the Constitution.

Rabaut Introduces Bill to Cancel Certain Debts

House Resolution 5528 was introduced in the House during the past week by Congressman Louis C. Rabaut, Democrat, of the Fourteenth District of Michigan. The Bill has as its purpose the cancellation of certain debts, among which is one of Detroit's in the

sum of \$1,800,000. Under an explanation of the Bill in the Appendix of the Record Mr. Rabaut heads his remarks "In the spirit of fair play" which is followed up by a summary of cancellations made by the Reconstruction Finance Corporation in the amount of \$280,000,000 to the States who had borrowed money for relief purposes, whereas money borrowed by political subdivisions of States, such as cities and counties, are still held to be debtors in the aggregate of \$19,500,000. The money owed by the political subdivisions to the Corporation was borrowed for the identical purpose that the states borrowed it, namely, for relief purposes in the trying days of the depression. The Congressman concludes with the statement that the cities and counties are not desirous of evading any responsibility to the Federal Government but they do object to be discriminated against. Should the Bill pass, Detroit's debt to the Reconstruction Finance Corporation would be cancelled. Senator Brown will introduce a similar Bill in the Senate.

Detroit Jamboree Delegation Has Local Physician on Staff

Among the several fine scouters of the Detroit Area Council, Boy Scouts of America, who have signed up as leaders for the National Jamboree, to be held in Washington June 30th to July 9th, is Charles M. Burgess, M. D.

Dr. Burgess is now serving as vice chairman of the Northern District Committee. He is the son of Dr. Jay Burgess, former coroner of Wayne County. "Doctor Charlie," as he is affectionately known to many of the old timers in scouting, received his Eagle rank in Troop 62, of which he is now serving as a troop committee man. The local Jamboree Committee is very happy in being so fortunate to secure the services of Dr. Burgess to care for the several hundred local scouts who will attend this spectacular activity.

Other scouters who have registered as Jamboree leaders include: T. J. Wilson, scoutmaster Troop 17; T. F. Mueller, commissioner Redford district; Harold Wellman, scoutmaster Troop 252; B. Barnes, assistant scoutmaster Troop 229; George Schwarz, commissioner of sea scouting and Walter Butler, assistant scoutmaster of Troop 244.

"March of Time" Photographer at Institute of Arts

Julien Bryan, explorer and roving photographer for the "March of Time," and Burton Holmes, world's most famous travel lecturer, will be the World Adventure Series featured speakers at the Detroit Institute of Arts next week. Bryan speaks with new motion pictures

on "Modern Turkey" at 3:30 Sunday afternoon, March 21. By popular request Burton Holmes will repeat his motion picture travelogue "England, Scotland, Wales" at 8:30 on Tuesday evening, March 23.

Julien Bryan made a motion picture expedition through Turkey last fall. He obtained intimate shots of Turkey's dictator-president, Kamal Ataturk, at work and at play in his summer house. He filmed the mosques, market places and unveiled women of Old Constantinople, and busy scenes in the new Turkish capital of Ankara.

Case Cracks Down on Used Car "Gyps"

Revocation of the licenses of two used car dealers in the Wayne county area for the sale of re-built automobiles under the representation that they were new, has been ordered by Leon D. Case, Secretary of State.

All such dealers are licensed by the Secretary of State, by law. Case has notified all second hand car dealers of the state of the recent revocation orders, with the caution that all complaints against any licensee will be fully investigated by the Department of State.

Any complaint of alleged illegal practices on the part of any used car dealer will result in a request that the licensee show cause why his license should not be revoked, Case has advised all concerned.

Investigation of the recent complaints was made by Joseph Charnoske, Detroit legal counsel for the Department of State. It is Case's belief that not only will the public benefit from such a policy, but that the vast majority of the some 2,700 used car dealers in the state will welcome any move which will enforce ethical and legal practices upon those few of their number who might indulge in them.

Grosse Pointe Memorial Church Sponsor Sunday School at Lochmoor

In view of the need for a Protestant Sunday School in the Village of Lochmoor, the Grosse Pointe Memorial

Church is sponsoring the organization of an inter-denominational Sunday School, under the guidance of the pastor, Dr. Frank Fitt, and the religious educator, Mr. Arthur Neff.

The first meeting will be held on Palm Sunday, March 21st, 1937, in the auditorium of the Stevens T. Mason School, on Vernier road. The services will be held at 9:30 a. m.

Classes have been scheduled, in accordance with a recent survey, for all children three years old and over. There will also be a Young People's group, and a Bible Class for adults.

The movement is a result of the work of a number of civic minded residents of the village who desired a place of worship, for the religious training of the young people.

The officers and teachers cordially invite to the services all who are interested.

For any further information, call the secretary, Mrs. Jack Conley, 1840 Roslyn road, Lochmoor. Niagara 7052.

Fort Pontchartrain

The regular meeting of Fort Pontchartrain Chapter, Daughters of the American Revolution, will be held at Hotel Statler on Friday, March 19th. Luncheon will be served in the main dining room at 12:15.

Owing to the very grave illness of the regent, Mrs. Basil L. Connelly, the meeting will be in charge of the First Vice-Regent, Mrs. William F. Catlin who will call the business session to order promptly at 1:30 o'clock.

At this meeting, officers for the coming year will be nominated.

The speaker of the afternoon will be Mrs. Charles H. Mooney who will talk on Ellis Island, and the hostesses will be Mrs. Alfred J. Ackerman, Mrs. Walter Millard, Mrs. John W. Noble, and members of the Ellis Island committee.

State 1812 Council Convention March 30

The thirty-eighth annual State Council of Michigan Society, United States Daughters of 1812, will convene Tuesday, March 30, at Hotel Durant, Flint, at 10:30 a. m. following a state board meeting at 9:30 o'clock, with State President, Mrs. Helen Baker Rowe, of Grand Rapids, presiding at all sessions. Mrs. Emma A. Fox, state 1812 parliamentarian, will officiate in that capacity. Mrs. E. L. Murphy, of Flint, is chairman of local arrangements.

Reports of state officers, and an election of a staff of state officers for the coming year, will occupy the morning session. There is no contest for any office, though the post of secretary, made vacant by the death in February of Mrs. Fred W. Culver, of Saginaw, will be filled. Mrs. Edward B. Flack, also of Saginaw, acting secretary, will read Mrs. Culver's state report. Reports will be read by Mrs. Lloyd De Witt Smith, state vice president; Mrs. Clarence J. Chandler, chaplain; Mrs. Kate R. Kiefer, corresponding secretary; Mrs. Curtis T. Wolford, of Grand Rapids, treasurer; Lynn T. Miller, of Ithaca, auditor; Mrs. Herbert A. Thompson, registrar; Miss Myrtle E. Babcock, historian; Mrs. Charles H. Mooney, flag custodian, and Mrs. Helen Baker Rowe, state president.

Following a recess for luncheon, reports of state chairmen will be given and presidents of Michigan 1812 chapters will also report. The Hon. Judge Paul A. Gadola, of Flint, will speak before the Council at the afternoon session, while the banquet speaker, Former Congressman William W. Blackney, also of Flint, will give an address on "American Ideals." Also at the banquet, Mrs. Rowe will present greetings to Mrs. Emma A. Fox, in honor of her ninetieth birthday this month. Music at the banquet will be furnished by the St. Cecilia Trio, of Grand Rapids.

Miss Florence Kingsbury, sub-delegate of past state president, Mrs. Gordon W. Kingsbury, of Edison avenue, Detroit, will act as personal page to Mrs. Rowe at the State Council.

Public Letter B-O-X

March 16, 1937.

Editor of Grosse Pointe Review:

I have noticed several things in the columns of the city papers and in their public letter boxes that I think are sort of amusing.

One of them appearing in the letter box suggested that perhaps we were very foolish to express our opinion to our Congressman and United States Senator, inasmuch as we elected them to "Support Roosevelt," instead of going to Washington and thinking for themselves or to vote for what in their opinion is for the best welfare of their constituents.

Mr. McAllister's speech at Ann Arbor the other day suggested it would be well at this coming election to have some New Deal men in our Michigan Supreme Court and "Help Finish the Job," instead of electing such men of the caliber and wide experience of Supreme Court Justices Fead and North.

I wonder how many more people have decided that we have been fooled long enough, and are ready to go out this Spring election and demonstrate it?

ONE WHO HAS BEEN FOOLED.

AN ORDINANCE

TO AMEND Section 1 of the Zoning Ordinance of the City of Grosse Pointe.

THE PEOPLE OF THE CITY OF GROSSE POINTE ORDAIN:

Section 1 of the Zoning Ordinance of the City of Grosse Pointe is hereby amended to read as follows:

SECTION 1.
Definitions

For the purpose of this ordinance certain terms used are herewith defined:

- (1) **STREET**—A Street is a public thoroughfare or way thirty feet or more in width.
- (2) **ALLEY**—An Alley is a public thoroughfare or way less than thirty feet in width.
- (3) **LOT**—A piece or parcel of land occupied or to be occupied by a building and its accessory buildings and including the open spaces required under this ordinance. A lot existing and of record is a lot the dimensions of which are shown on a document or map on file with the register of deeds or in common use by county or City officers, and which actually exists as so shown, or any part of such lot held in ownership of record separate from the remainder thereof.

The term "lot" as used here does not necessarily refer to a lot shown on a subdivision plat or held in a single ownership and described in a deed. It means the parcel of ground necessary for the conduct of a given activity in accordance with the yard and court requirements of the zoning ordinance. Thus, a group of five or six building lots as shown on the City map might be acquired as the site for an apartment house, with allowance for the building itself and the yards required about it, and when so used or intended to be so used, it is a single lot in the meaning of the zoning ordinance. Or a man owning a large lot might build two or three houses on it to rent, but they would have to be so placed that each had about it the full yards required in this ordinance independent of the yards belonging to any of the others, and each parcel of land containing a house and its required yards would be considered a lot, whether in separate ownership or not.

Again a man owning sixty feet of frontage in a residence A District might build a single family two-story house thirty feet wide in the middle of it. He could sell strips from the side of his lot without changing its status under the zoning law so long as a strip 4 feet wide (the required side yard) remained on each side of his house. But anything less than the thirty-eight feet would not be considered a lot, and if he should sell off fourteen feet on one side of his house to give a neighbor a larger building site, that neighbor could only use the outer eleven feet in figuring the size of his lot when applying for a building permit. (This is covered in Section III (D). In other words, the strip of land required adjoining a building is considered to be a part of the lot on which that building stands even though it may have been transferred in whole or in part to a different owner.

(4) **CORNER LOT**—A corner lot is a lot of which at least two adjacent sides abut for their full length upon a street, provided that such two sides intersect at an angle of not more than 135°. A lot abutting upon a curved street or streets shall be considered a corner lot for the purpose of this ordinance if the tangents to the curve at its points of beginning within the lot or at the points of intersection of the side lot lines with the street line intersect at an angle of not over 135°. In the case of a corner lot with a curved street line the corner shall be considered to be that point on the street line nearest to the point of intersection of the tangents herein described.

Figure 1. Lot No. 1 is a corner lot with a curved street line A-B. A is the point of beginning of the curve within the lot. The straight line C-A produced, is the tangent to the curve at A. The curve is already started at the edge of the lot at point B, so the tangent is taken where the side lot line intersects the street line. The two tangents meet at D, forming an angle of less than 135°. E is the point on the street line nearest to D and so is the "corner." Lot No. 2 is not a corner lot because the angle between the tangents is greater than 135°.

(5) **INTERIOR LOT**—A lot other than a corner lot is an interior lot.

(6) **FRONT LOT LINE**—In the case of a lot abutting upon only one street, the front lot line is the line separating such lot from such street. In the case of any other lot one such line shall be elected to be the front lot line for the purposes of this ordinance provided it is so designated on the

building plans filed for approval with the Building Inspector, and provided that where a corner lot together with a lot or lots other than a corner lot are used together as the site of a terrace or apartment, such terrace or apartment must front upon both such streets, and no garage or accessory building of such terrace or apartment shall be constructed upon such lot or lots excepting in the rear of the same.

(7) **REAR LOT LINE**—The rear lot line is that boundary which is opposite and most distant from the front lot line. In the case of a lot pointed at the rear the rear lot line shall be that line parallel to the front lot line, not less than ten feet long lying farthest from the front lot line and wholly within the lot.

(8) **SIDE LOT LINE**—A side lot line is any lot boundary line not a front lot line or a rear lot line. A side lot line separating a lot from a street is a side street lot line. A side lot line separating a lot from another lot or lots is an interior side lot line.

Figure No. 2 shows an irregularly lotted block. Lot 6 would normally face A Street, but if the owner wishes to take advantage of the Main Street frontage, he may do so by calling that side the "front lot line" at the time of filing his building plans.

The side on A Street automatically becomes a side lot line, and the line running back from A Street is the rear lot line. On Lot 4 if the Main Street frontage is designated the front lot line, the B Street frontage automatically becomes the rear lot line. Lot No. 3 is a three-sided lot, the sides of which intersect at a point. The rear lot line is therefore, according to the definition, an imaginary line ten feet long parallel to the front lot line and placed as far back on the lot as possible.

(9) **FRONT YARDS**—A front yard is an open space extending the full width of a lot and of a uniform depth measured horizontally at right angles to the front lot line, unoccupied from the ground upward except as hereinafter specified.

(10) **REAR YARD**—A rear yard is an open space extending the full width of a lot and of a uniform depth measured horizontally at right angles to the rear lot line, and unoccupied from the ground upward except as hereinafter specified.

(11) **SIDE YARD**—A side yard is an open space extending from the front yard to the rear yard and of a uniform width measured horizontally at right angles to the side lot line, and unoccupied from the ground upward except as hereinafter specified.

(12) **COURTS**—A court is an open unoccupied space, other than a yard. A court not extending to the street or front or rear yard is an inner court. A court extending to the street or front yard or rear yard is an outer court.

Figure 3. The yards and courts are the open spaces required to give light and air about the buildings on a lot. The width of side yards and courts and the depth of front and rear yards required for different kinds of buildings are given in the ordinance. These dimensions are uniform for the full length of the yard except where additional width is required for the rear portions of side yards beside extra deep buildings.

After the yards required for a contemplated type of building have been laid out on the lot, any part of the area remaining, or all of it if desired, can be used for the principal building. Porches, garages and other projections and accessory buildings may occupy portions of the required yards, as prescribed in the ordinance.

Where a semi-detached dwelling is permitted on two adjoining lots outer courts may be substituted for the intervening side yards as prescribed in the ordinance, the buildable area being found as before.

(13) **HEIGHT OF BUILDING**—The height of a building is the vertical distance from the established sidewalk grade at the center of the front of the building to the highest point of the roof surface if a flat roof, to the deck line for mansard roofs, and to the mean height level between eaves and ridge for gabled, hip and gambrel roofs. For buildings set back from the street line the height of the building may be measured from the average elevation of the finished grade along the front of the building, provided such average elevation shall not exceed the established sidewalk grade at the center of the front of the building by more than one inch for each foot that the building sets back from the front lot line.

(14) **HALF STORY**—A half story is a story which is situated in a sloping roof, the usable floor area of which does not exceed one-half of the floor area of the story immediately below it. A half-story shall not be counted as a story for the purpose of determining yard dimensions.

(15) **DWELLING**—A dwelling is any house or building or portion thereof which is occupied wholly as the home, residence or sleeping place of one or more human beings, either permanently or transiently. In cases of mixed occupancy, where a building is occupied in part as a dwelling, the part so occupied shall be deemed a dwelling for the purposes of this ordinance and shall comply with the provisions thereof relative to dwellings.

(16) **CLASSES OF DWELLINGS**—For the purpose of this ordinance, dwellings are divided into the following classes: (a) "Private dwellings"; (b) "Terrace dwellings"; (c) "Two family dwellings"; and (d) "Multiple Dwellings."

(a) A "private dwelling" is a dwelling containing but one housekeeping unit and occupied by but one family alone.

(b) A "terrace dwelling" is a series of attached private dwellings separated from one another by common or party walls of fireproof construction.

(c) A "two family dwelling" is a dwelling containing but two housekeeping units occupied by two two families alone.

(d) A "multiple dwelling" is a dwelling occupied otherwise than as a private or two family dwelling.

(17) **CLASSES OF MULTIPLE DWELLINGS**—All multiple dwellings are dwellings and for the purposes of this ordinance are divided into two classes, viz.: class A and class B.

Class A. Multiple dwellings of Class A are dwellings containing three or more independent housekeeping units and which are occupied more or less permanently for residence purposes by several families. This class includes apartment houses, bachelor apartments, studio apartments, kitchenette apartments, and all other dwellings similarly occupied whether specifically enumerated herein or not.

Class B. Multiple dwellings of Class B are dwellings which are occupied, as a rule, transiently, as the more or less temporary abiding place of individuals who are lodged, with or without meals, and in which as a rule the rooms are occupied singly. This class includes lodging houses, boarding houses, furnished room houses, club houses, convents, asylums, hospitals, jails and other dwellings similarly occupied, whether specifically enumerated herein or not.

(18) **HOTEL**—A hotel is a multiple dwelling of Class B in which persons are lodged for hire and in which there are more than fifty sleeping rooms, a public dining room for the accommodation of at least fifty guests, and a general kitchen.

The definition of dwellings and classes are taken from the State Housing Code, with such modifications as fit them for use in this ordinance.

(19) **GARAGE, PRIVATE**—A private garage is a space or structure with not over eight hundred square feet of ground floor area, for private use, for storage only, having no public shop or service in connection therewith, and housing not more than four automobiles of which not more than one may be a Commercial automobile.

(20) **GARAGE, COMMUNITY**—A series of private garages located jointly on a parcel of land under a single ownership.

(21) **GARAGE, PUBLIC**—A space or structure, other than a private or a community garage, for the storage, care, repair or refinishing of motor vehicles, except that a structure or room used solely for the display and sale of such vehicles, in which they are not operated under their own power, and in connection with which there is no repair, maintenance or refinishing service or storage of vehicles other than those displayed, shall not be considered a public garage for the purposes of this ordinance.

(22) **STABLE**—The word garage shall include the word stable, one draft animal being considered the equivalent of one automobile.

Adopted Monday, March 15, 1937.

 City Clerk.

Original Motor Car Designs Are Sought

Original motor car designs represented by models submitted in a nationwide competition will be sought by the Fisher Body Craftsman's Guild in 1937 as a means of developing the creative genius of American youths.

Announcement of the new program extending the influence of the General Motors-sponsored educational foundation into the field of industrial design was made today by President William A. Fisher, who disclosed that four \$5,000 university scholarships and other awards totaling more than \$80,000 are being posted for this and the Napoleonic coach-building competition. The latter is being continued this year with even more awards than the number posted last.

The two competitions have been established on an equal basis. The university scholarship, one in the junior and one in the senior division, will be awarded the builders of the Napoleonic coaches and the model automobiles adjudged the best of those submitted. There are trips to the seventh Guild convention for the winners of regional honors, while cash awards, starting with \$100 for first place, will go to the victors in each state and the District of Columbia. Duplicate awards in each age division bring the total to 922.

The only limitations imposed upon those participating in the competition in creative design are practical in nature. Models may be of the solid variety, fashioned from a single block of wood, or other suitable material, but must be constructed to a scale of one inch to one foot and conform to the designated length, height and width, so that an actual car built to the same specifications would have sufficient head room, leg room and breadth to accommodate five or six persons comfortably.

"Heretofore, the Guild has emphasized the importance of craftsmanship, recognizing the definite advantage training of this sort affords youths entering the modern industrial world," Mr. Fisher said. "Since 1930, we have required participants in the competitions to reproduce miniature coaches, selecting the award winners on the excellence of the woodcraft, metal-models submitted.

"Success of the movement is evidenced by the fact that the Guild now has more than 1,250,000 members. Literally thousands of boys have received cash awards of varying amounts and trips to the Guild conventions. Forty-nine others have been awarded a total of \$176,000 in university scholarships. The four, who thus far have completed their college courses, found jobs awaiting them with General Motors upon graduation.

With this splendid record before them, officials of the automotive concern decided to broaden the scope of the unique educational foundation according to Mr. Fisher, who is vice-president of the corporation.

"There are few schools in the country, where it is possible for a boy to learn motor car design," Mr. Fisher stated. "It is our hope, through the new Guild program, to discover any individuals that may be especially gifted for this work, and to take a hand in their training. At the same time, we expect to awaken an interest in the broad field of industrial design, uncovering latent talent in a much larger number of youths, who may be ably fitted for this relatively new, but rapidly growing branch of industry."

Membership in the Guild is open to boys of from 12 to 19 years old, inclusive. Those under 16 are enrolled in the junior division, and those over that mark in the senior. The model car and the Napoleonic coach competitions will close at midnight, July 1 and August 2, respectively, announcement to the award winners being made as soon thereafter as possible.

GIRL SCOUTS

This week, we present the second editorial on Girl Scout Laws which are being written by the scribes in Grosse Pointe to commemorate the founding of the organization 25 years ago. This article was written by Mary H. Tiedeman, scribe of Troop 129.

A GIRL SCOUT IS COURTEOUS

Many times a person is ready to be courteous, but some do not know the real meaning of courtesy. Consideration plays a large part in practicing courtesy. Many are courteous at the beginning of a party or dance, but toward the end forget to thank people for the dance, or the good time. I think the real secret of courtesy is to practice it until you form a habit. Then, it isn't ever so hard to find words to thank and help people. I could go on telling you thousands of ways to be courteous, but the most important are the courteous things you and I should do every day. Do you greet your mother by running up to her and kissing her, or do you say calmly, "hello," and run off to play? This comes under consideration. Do you say "good morning" to your teacher, and do you help younger children get their wraps on? Please try to practice courtesy for the good and consideration of others. Put yourself to a test. Are you as courteous as you can be? Don't forget. A Girl Scout Is Courteous. M. H. T.

TROOP 129

Troop 129 met at Christ Church Chapel on March 12, 1937. The troop's tenderfeet are working on second class scouting. There are two classes, one sewing and the other cooking. Mrs. R. Waldron, the sewing instructor, was not present. The cooking class met in the kitchen with Mrs. S. W. Wallace presiding as head cook. The rest of the troop went to the piano to learn a round. One of the cooks announced the food was ready. Tapioca and creamed potatoes had been prepared. Many praises for the food were sung such as, "It tastes good," "It's like glue," "It must have sand in it," etc. The meeting was closed by awarding Virginia Woodall, Mary Elizabeth Titus and Rosalie Packard their pins. M. H. T.

TROOP 131

Most of the scouts of Troop 131 have now completed their observation, table setting, bed making and thrift. Some of the girls are working on sewing, first aid and home nursing, but mostly first aid and home nursing. They were tested for their knowledge about first aid as follows: First everyone marched to some music. When the music stopped there was supposed to be a train crash. Everyone limped to the seats in their patrol, some with broken arms, fractured skulls and so forth. One scout out of each patrol was chosen to appear as the sicker and a piece of cloth was pinned to them, naming some disease they were supposed to have. The scouts remaining in each patrol were sent to a table with pieces of paper laid out on it. Some said, "Call doctor," "Apply smelling salts to nose," "give a cold glass of water," etc. For example, if a person had "heat exhaustion" or a broken arm, you would select the paper you thought named the remedy for that disease and pin it to the piece of cloth that had the name of the disease the patient had. What a grand game it was. And until next week—cherrie. M. K. M.

TROOP 140

The members of Troop 140 met at the Grosse Pointe Memorial Church at 4 o'clock last Tuesday afternoon. The girls were passing a first aid test. The Troop bought a first aid kit which they will take with them when they go on hikes. The girls also practiced a song by the name of "Slumber" for the rally at the Neighborhood Club April 2. M. M.

TROOP 141

The members of Troop 141 met at the Convent of the Sacred Heart on Monday afternoon, March 15, for their regular weekly meeting. A troop committee meeting was held at 2 o'clock the same day. Ways of obtaining materials for which the troop is in need were discussed. Mrs. Charles Belanger visited the junior division and helped many pass their knot review. The scouts made plans for a trip to WWJ's new studio. B. C.

TROOP 156

Troop 156 is working very hard to have the entire troop second class scouts by June. At present they are most interested in first aid work. The troop practices every meeting on their song for the camp Rally, to be held at the Neighborhood Club. Miss Lois Oldham, troop leader, expresses her thanks to Troops 156 and 139 for the lovely farewell gift they presented to her. While Miss Oldham is away, Virginia Miller will take her place as troop leader. P. McG.

When You Build

Or In Your Present Home . . .

GET NATURAL GAS HEAT

Natural gas heat is the modern way of house-heating. With natural gas there's no coal to shovel, no fires to build, no ashes to carry, no trudging up and down stairs. Completely automatic and clean—no smoke, smudge, soot, grime or odor to make house-keeping harder.

If you are building a new home, you'll want to make it completely modern with a gas-fired air conditioning unit to heat, filter, and humidify the home. And if you'd like to make your present home a happier place to live, install a fully automatic gas burner in your heating plant. You'll be amazed at the difference natural gas heat makes!
