**No Townsend Club  
Meeting This Week**

On account of the Spring School Va-  
cation there will be no regular meet-  
ing of Townsend Club No. 7 this week.  
However, there will be a meeting of  
the Advisory Board of the Club at Dr.  
and Mrs. Baker's home, 1054 Marlbor-  
ough at 8:00 p. m., Friday, April 2. It  
is imperative that all members of the  
Board be present. Any other Club  
members who are especially interested  
in the Club's policies and who wish to  
attend are cordially invited.

The Children's Easter Party last Fri-  
day was a real success. There were  
nine attendance prizes, the first of  
which was won by Peggy Williams, 185  
Moran Road, Grosse Pointe. This prize  
a fine set of Easter Toys was made  
and donated by Mr. Myr of Coplin av-  
enue.

Mrs. Glinder of Manistique avenue,  
donated six of the other prizes.

Mr. Chaffee, the candy man, gave six  
pounds of Easter Party which was dis-  
tributed among all the children.

The Club wishes to thank all these  
kind friends who so generously donat-  
ed to make the first children's party a  
fine success.

In view of the interest exhibited by  
the children it has been decided to have  
a children's party at the Club the first  
Friday of every month, beginning April  
9th. All children are invited.

on Sunday afternoon and evening,  
April 4.  
Burton Holmes visits Mexican re-

gions of greatest interest to American  
tourists, showing not only unique spots  
in famous cities, but out-of-the-way  
villages reminiscent of Old Spain. Along  
his pictorial route are Mexico City and  
its street scenes, with its restaurants,  
its dashing caballeros and its beautiful  
senoritas, the Pyramids, Cuernavaca,  
Tasco, the floating gardens of Xochi-  
milco, Toluca, Puebla, Cholula, Mitla,  
Patzcuaro and its lovely lake, the jung-  
le-buried cities of the Mayas, palaces  
and pyramids of Chichen Itza, Uxmal,

**On and Off the Records**

by Lee Montgomery  
The cry of regimentation and re-  
marks that soon we would have no  
rights of life, liberty and the pursuit  
of happiness, have killed or discouraged  
a great deal of sound legislation in the  
past.

When doctors recommend Universal  
vaccination, a storm broke loose, and  
opposition based its stand on the  
legality of such measures. Today and  
for many months past, Universal  
fingerprinting has been fought by these  
methods.

I see no reason why an honest man  
and one who expects to stay honest has  
any objection to fingerprinting. It is  
really an unparalleled benefit, a benefit  
that should have the spontaneity of the  
public.

Just one of many benefits which has  
been tragically exemplified recently by  
the flood catastrophe and by the Texas  
School tragedy is that of identifying  
unidentified bodies. Many parents and  
relatives of these victims did not even  
have the small consolation of knowing  
what bodies were those of their kin,  
so they could insure them the kind of  
burial they wanted to give.

Even more important is the identi-  
fication of the criminal whose crime is  
the first to which the police have con-  
nected him.

A good many criminals have com-  
mitted crimes before they are caught  
for a particular crime. If we were all  
fingerprinted the chances are in favor  
of more first time detections.

Relating to the same subject, if a  
bit indirectly, was a story on the sport  
pages showing a card given a Tiger  
recruit, made out by the home town  
Sheriff. This card contained five  
fingerprints, a general description and  
the bearer's picture.

Edward Williams, County Auditor,  
has been the prime mover in Wayne  
County's fingerprinting for all citizens.  
His efforts have been very fruitful and  
now parents are fingerprinting their  
children by the hundreds at the Wayne  
County Bureau.

When depression days dwindle and  
prosperity comes into its own, trouble  
does not fly out the door, as one would  
expect.

Caspar J. Lingeman, County Clerk,  
says that law suits have increased ac-  
cording to his records, during the past  
year, when business also was increasing.

Many people have more social  
troubles during depression but haven't  
the few dollars necessary to enter  
court. Maybe they have so much  
trouble existing that they have no time  
to worry about their fights with associ-  
ates.

The third floor of the County Build-  
ing has been jammed nearly every day  
for the past two weeks with strikers  
from various factories. Most of these  
people are nice appearing people of our  
own type. They certainly aren't  
criminals as we think of the word, but  
they did just as certainly commit tres-  
pass, which is a crime. After hearing  
the court's rulings on trespass and  
realizing the seriousness of such an act,  
I don't think any of these people will  
trespass again.

Mayor LaGuardia of New York, cites  
Child Labor as a primary cause of  
crime. Michigan can be congratulated  
as being one of the first states to pass  
the Child Labor Amendment. When  
originally presented, this Amendment  
passed but 5 states. Today we find  
state after state falling into line with  
President Roosevelt's leading the fight  
and predicting a new Amendment to  
the Constitution of the United States.

How big a swing the new labor  
movement will cut in coming elections  
is hard to say but it is certain that a  
new labor bloc will have to be reckoned  
with not only nationally but in each  
local government unit.

Mr. Frankenstein, local organizer is  
politically ambitious. He polled a  
heavy vote, for a newcomer and then  
unknown, during the last election when  
he aspired to the legislature.

In two years he should treble his  
vote and his backing will, because it  
is factional, be hard to break up.

Both parties will watch this labor  
movement carefully. It can possibly  
grow into a third party vote, but more  
probably will swing to one of the two  
major parties there by making or  
breaking the party of its choice.

Pronunciation of familiar but unusual

words by radio announcers has done  
more to change colloquial methods of  
pronunciation than any other thing in  
the history of the American language.

Judge Ralph Liddy, who takes to the  
air weekly in an effort to acquaint  
the people with the courts was told that  
Miami is correctly pronounced Mee-

am-ee and not My-ami as he spoke the  
word.

Judge Liddy, who has a good master  
of not only the English language, was  
properly impressed by the announcer's  
correction. He made a point of pro-  
nouncing the word in good radio  
fashion the first time, and the second  
time, but as he became enthused in the  
case he was discussing, he forgot his in-  
structions and boomed out Miami in  
old manner. Today he is not sure what  
the name of that resort is, but it is at  
the lower trip of Florida. He is going  
there next winter.

The pitiful slaying of little Bernice  
Onisko recently makes us a little  
ashamed that a supposedly efficient  
civilization has been unable to cope  
with the problem of perverted and  
feeble minded people.

After the Gallagher slaying Auditor  
Ed. Williams, with the aid of Dr.  
Gruber, of Eloise Hospital and George  
Reid of the poor commission, made an  
investigation of this situation. Although  
steps were taken to carefully guard  
those who had committed such crimes  
until and if they were again safe to  
join society. Nothing has been done to  
deter these killings.

Mr. Williams is again sounding a  
cry for better care of mentally un-  
balanced. He would have more hos-  
pitals, doctors and nurses. Closer  
police check ups and a larger  
psychiatric division.

Caspar J. Lingeman, county clerk, is  
intent on getting at the source. He  
is thoroughly investigating plans or  
checking all marriage applicants  
against commitment records. He is  
also studying Wisconsin's marriage  
statute, making it mandatory for all  
marriage applicants to have a doctor's  
certificate. Such a law, he says, should  
naturally follow in our marriage sta-  
tutes. At present, it is against the law  
for the feeble minded to marry but  
there is no provision to have the county  
clerk check applicants.

### INSURANCE TIPS

**By H. THOMPSON STOCK**  
Crime is a hazard that should be insured against. A riot or a dishonest employee might wreck a firm as much as an uninsured fire. A holdup or a burglary might prevent a firm from paying its bills on time. In spite of the importance of insurance against crime, relatively few firms are adequately protected. This fact is shown conclusively by the recent survey made by the National Association of Credit Men.

Insurance against crime may be divided roughly into the following forms of insurance:

- (1) Burglary and larceny
- (2) Robbery or holdup
- (3) Automobile transportation and all risk
- (4) Embezzlement
- (5) Forgery
- (6) Riot and malicious damage

There are three principal forms of burglary insurance, viz., safe, open stock and residence. These forms not only cover loss or damage to the contents of the safe, store or home, but also damage to the safe and the premises caused by the forcible entry of the burglars. Residence burglary insurance usually also covers loss by larceny, theft and robbery. A loss by larceny is a loss caused by a thief who does not have to break into the premises and who does not have to threaten or inflict violence upon any one. In a store it is called "shop lifting." Theft is a general term used to give broad coverage. It includes theft by employees.

Loss of funds belonging to firm by burglary only or robbery, theft, holdup and larceny at the home of the custodian may be insured in connection with messenger robbery insurance.

Robbery or holdup insurance has four principal forms, viz., messenger, paymaster, office or store and personal. Messenger robbery insurance protects the assured in event money or securities are forcibly taken away from his custodian while away from the premises. Office or store robbery insurance covers the assured's funds against loss by holdup inside the assured's premises. Paymaster robbery insurance covers payroll funds both inside and outside the premises. Personal holdup insurance is for individuals to protect themselves against loss of money and clothing by holdup and is sold in connection with residence burglary insurance which also covers loss by holdup in the home. Kidnaping insurance is obtainable in connection with office or store robbery insurance. It protects the assured against loss in event custodian is forced to reopen the premises or to furnish information so that others can enter.

Automobile "theft" insurance covers loss by burglary, robbery, and pilferage. By pilferage is meant the theft of a part of a car—tire, radiator cap, etc. The term transportation insurance includes the various forms of inland marine insurance that cover property in transit by automobile, railway car, boat or airplane. In this category should also come property held by bailees. Robbery here is called "hijacking." The term "pilferage" is often used to mean loss of all or part of the contents of a package without the whole package being stolen. Sometimes pilferage and even burglary and robbery may be excluded. "All Risk" insurance includes jewelry, furs, fine arts and tourist effects floaters which like the transportation policies cover perils other than burglary, robbery and theft.

### Grosse Pointer Is the Democratic Candidate for Regent of U. of M.

John D. Lynch, a resident of Grosse Pointe, is a candidate on the Democratic ticket for regent of the University of Michigan. He has been a practicing attorney in the State of Michigan for over 25 years, and has two children attending the Grosse Pointe High School.

He was born near Detroit 47 years ago, received the Bachelor of Arts degree at the University of Michigan in 1910, and the Bachelor of Laws degree in 1912.

He owns his home in Grosse Pointe and the position he seeks carries no compensation other than the honor of holding the position. He asks the support of his many Grosse Pointe friends.

### Grosse Pointe Boy Wins Essay Contest

Very recently Father Hubbard, better known as the "Glacier Priest," delivered one of his interesting lectures on Alaska, at the Masonic Temple cathedral in Detroit, and many of the Catholic schools in the suburban and city areas were eager that the school children attend this lecture, a prize being offered to the boy or girl who could write the best essay on Father Hubbard's depiction of this great land.

Francis Tillon, whose home is at 1319 Beaconsfield avenue, Grosse Pointe Park, won the prize for both nine and tenth grades.

When awards were made by Judge Moynihan of the Wayne Probate Court, he selected Francis to whom this honor should be given, complimenting him for good English, punctuation, style and

penmanship. His fellow schoolmates gave him a rousing cheer and were proud that a member of St. Paul's Catholic school should be so wonderfully victorious.

### Coast Guard Service for Grosse Pointe Definitely Settled

Coast Guard officials agreed March 30 to maintain a permanent life saving crew on Lake St. Clair for the summer months, using the Grosse Pointe Yacht Club as a base. This action was taken upon petition of former Rep. Clarence J. McLeod.

In the last session of Congress, a bill was passed providing for a station on the lake but no funds were voted for its construction. The Coast Guard agreed Tuesday, however, to transfer equipment and men from other points to provide rescue facilities.

A crew of 11 men will be stationed on the lake and radio equipment will be installed in the tower of the yacht club.

### Detroit-Michigan Exposition Opens Friday, April 2nd

The doors will swing open Friday noon on the third and greatest Detroit and Michigan Exposition.

This year as never before, exhibits will be animated and moving, graphic examples and demonstrations of Michigan's greatness in industry, art and

civic endeavor, and will feature outstanding accomplishments by Michigan's builders in a brilliant century of achievement. It will be ten big days of music and mirth and mental stimulation. Two hundred exhibits will portray salient points of Michigan's wealth and achievement, with working models, picture and story used frequently throughout the halls.

Tito Guizar, romantic Mexican tenor, has broken his New York engagement to appear for seven days at the Exposition. Two popular orchestras and a full vaudeville program will supplement the free stage show.

In addition several new departmental activities will include the Mid-West Sportsman's Show, the Detroit News Hobby Show, a nightly style show, and six days of cooking school conducted by Miss Marion F. Sawyer, director of Home Economics for the Detroit Free Press. Another sensational feature will be the miniature lake—a tank show with competitive exhibitions of log-rolling, canoe-tipping, archery, bait and fly casting, pistol and riflemen, Indians and guides.

Several thousand persons will participate in competitions whose final phases will be displayed on the Exposition stage. Two of these include the Pronounce-a-Down contest of the Industrial Morris Plan Bank and final awards in airplane model-making contests sponsored by the Junior Birdmen clubs of the Detroit Times.

### Wayne Medical Aux., Meeting Friday, Apr. 9

The Woman's Auxiliary of the Wayne County Medical Society will visit the woman's division of the House of Correction at Plymouth, Michigan, on Friday, April 9 at 2 p. m. Members with cars, who can accommodate passengers, are asked to take members without means of transportation.

Please make reservations and arrangements with Mrs. Ralph H. Bookmeyer, Un. 2-1440, or Mrs. Leo P. Rennell, Un. 2-7711.

### Grosse Pointe Bank Now Federal Reserve System Member

The Grosse Pointe Bank is now a member of The Federal Reserve System. Membership in the Federal Reserve System is available only to

banks which can meet the exacting requirements of membership, not only as regards assets and liabilities, but also as to management methods of operation and maintenance of the highest standards of banking requirements and operations.

A. To the bank depositor this membership means the higher standard

of banking required to become a member, additional supervision and control, and in time of necessity a place for his bank to obtain ready cash from a loan, to maintain its reserves or meet a volume of unexpected withdrawals. The Federal Reserve System was created by the Federal Reserve Act approved December 23, 1913 and was broadened by the Banking Act of 1935. The Federal Reserve System comprises several parts, including (1) The Board of Governors of the Federal Reserve System, (2) The Federal Open Market Committee, (3) Twelve Federal Reserve banks with twenty-five branches, (4) Member banks numbering about seven thousand, (5) The Federal Advisory Council.

(1) The Board of Governors of the Federal Reserve System is composed of seven members appointed by the President and representing the financial, agricultural, and industrial interests and geographical divisions of this country. Their responsibilities chiefly concern the credit policies of the system, the discount rates charged by the Reserve banks, the requirements as to reserves to be maintained by member banks, and the regulation of the amount of credit that may be extended to brokers, banks, or others on any security listed on any security exchange. The Board of Governors is also authorized to make examinations of member banks and to supervise and control the policies and operations of member banks.

(2) The Federal Open Market Committee controls the purchase and sale of bonds and obligations of the United States, bankers acceptances and other assets. Through the operation of this committee, an undue use of bank credit for speculative purpose can be checked by the sale of securities in the open market or an increase in reserve requirements, having the effect of requiring member banks to curtail their own operations or borrow from the Reserve banks, in which case an increase in discount rate makes it more expensive and credit demand is low, the Open Market Committee may buy securities in the open market, and thereby increase the reserve deposit of member banks, thus enabling them to make additional loans without borrowing from the Reserve banks.

(3) The country is divided into 12 Federal Reserve districts, in each of which there is a Federal Reserve Bank, and there are in operation 25 branches and 2 agencies. The Capital of the Federal Reserve Banks is supplied by the member banks, each of which is required to subscribe to the capital stock of its reserve bank in proportion to its own capital and surplus. In addition, member banks are required to keep on deposit with their Reserve bank, their reserve deposits in an amount required by the Board of Governors within the limits of the Banking Act. The Federal Reserve banks may issue Federal Reserve Notes which are the notes used in our ordinary cash transactions. The Reserve banks must hold a forty per cent reserve in gold certificates against Federal Reserve Notes in circulation, and a thirty-five per cent reserve in gold certificates or other lawful money against deposits. When deposits are made with the Reserve banks in the form of gold certificates or lawful money, they add to the reserves of the Reserve banks and consequently increase their leading power by two and one-half times the amount of the deposit.

Federal Reserve banks are not operated for the purpose of making profits but for influencing credit conditions for the best interests of industry, agriculture, and commerce, consequently the member banks are limited to dividends of six per cent on the stock which they hold in the system, and any net earnings in excess of this are paid into the surplus fund of the bank, thereby strengthening its position and its ability to be of service. Of the aggregate net earnings of the Reserve banks since their organization, more than one-fourth has been paid to the Government as a franchise tax, about one-fourth was paid in dividends to member banks, one-fourth was contributed to the capital of the Federal Deposit Insurance Corporation, and one-fourth remains in the surplus account of the Reserve Banks.

About forty-five per cent of the commercial banks in the United States are members of the Federal Reserve System, including all national banks, and these member banks have resources amounting to about eighty per cent of the total banking resources of the country.

In its more than twenty years of operation and development, the Federal Reserve System has become an integral part of American business and finance. Through the Interdistrict Settlement Fund it has made possible the more efficient, less costly, and speedier handling of check collections and transfers of funds. It has provided an elastic adequate supply of currency, a concentration of bank reserves for greater usefulness, and an efficient fiscal agent of the Treasury.

The ability of member banks to borrow on business paper which provides a ready market for the loans of customers, has tended to equalize the credit supply in all parts of the country, eliminate seasonal credit strain and to give assurance of that member banks

can supply the credit requirements of their communities.

In this Federal Reserve System the Grosse Pointe Bank now takes its place as a member bank, and in so doing, becomes better able to serve the banking needs of this community and protect the deposits of its customers.

### License Plates Follow the Car

Leon D. Case, Secretary of State, has been called upon repeatedly of late to refund on license plates and stickers. Car owners have bought 1937 plates or stickers and before attaching the plates or stickers have sold or disposed of the car without giving the purchaser the plates or sticker.

This condition has been multiplied through the recent extension of the deadline for the use of 1936 plates, many car owners not attaching their 1937 plates or stickers sooner than legally required.

People acquiring cars with 1936 plates cannot buy plates or stickers for them, if 1937 plates or stickers have been previously issued for such cars. Nor can the purchaser of the unused plates or stickers secure a refund of their money. The plate or sticker "goes with the car".

The original plate or sticker purchaser refusing to surrender the license plate or sticker permit to the subsequent owner should be warned that the license plates and sticker permits remain the property of the state. The Motor Vehicle Law specifically provides that the license is issued to the car and must remain on the car for the remainder of the current year.

### Hannan Y.M.C.A. Notes

The boys' team of Memorial Lutheran Church won the first boys' inter-church basketball league. There were eight teams in this league which played forty games before over a thousand spectators. Reformation Lutheran Church were the class "B" champions. Both teams will be awarded medals by the league. These Leagues were promoted by Hannan Y.M.C.A. for the Detroit Council of Churches.

### Hannan "Y" Gym Circus

On Friday, April 9th, the boys and men of Hannan "Y" will put on a circus. There will be exhibitions of flying rings, horizontal bar and parallel bar work, drills, marches, horse work, pyramids, slowns, tap dancing, tableaus. It is expected that more than one hundred boys, girls, and men will take part. The public is invited. Proceeds from the modest admission fees will be used for boys' recognition dinner to be given in May.

### Sports Jamboree

Ann Arbor Y. M. C. A. is bringing to Hannan a group of men and boys' athletic teams from competition next Saturday, April 3rd, at 4:00 p. m. the boys' basketball teams will play. At 7:00 the men's basketball teams will engage each other. At 7:30 the handball teams will meet in the handball courts. While in the lobby the ping-pong teams will take each other on in this fast growing indoor sport. At 8:00 the volleyball teams of the two institutions will play a five game series in the large gymnasium. There is no admission charge for any of these sports and the general public is invited to attend.

### Garden Center Meeting at Alger Museum This Afternoon at 3 o'Clock

The Detroit Garden Center lecture on April 1st at 3 o'clock will be held in the lecture hall of the Detroit Institute of Arts instead of at the Garden Center in the Alger Museum on account of the widespread interest.

Mr. Frank S. Coan of New York will talk on "Gardens of Persia and India" illustrated with slides. Mr. Coan is secretary of the English Speaking Union of the United States and the Detroit branch of that Union will give a luncheon for him at the Detroit Athletic Club on the day of the lecture.

This lecture like all of the Garden lectures is free to the public and is sponsored by the Grosse Pointe and Bloomfield Hills Branch of the National Farm and Garden Associations and the English Speaking Union of Detroit.

### Brave Youngsters to Be Honored April 3rd

Six elementary school boys who risked life and limb to save playmates from possible injury or death in Michigan during 1936 will be signally honored Saturday, April 3, at the Detroit and Michigan Exposition, Convention Hall, Detroit.

This sextet, four of whom have been selected, were voted the outstanding child heroes of the past year by the Safety and Traffic Division of the Automobile Club of Michigan. They will receive national A.A.A. heroism medals on the Convention Hall stage, from H. O. Rounds the club's noted traffic expert.

The boys selected are: Bobby Cox, Pontiac; Robert Ricks, Hillsdale; Jack Schuknecht, Saginaw and Arthur Kendrick of Jackson. National A.A.A. medals are awarded only for exceptionally meritorious service or heroism. Bobby Cox last year saved two hapless playmates from a watery grave by pulling them out of Otter Lake, Pontiac. A playmate of Robert Ricks

fell into an ice pond near Hillsdale, and a possible death himself to rescue the youngster braved wintry blasts his buddy, Jack Schuknecht and Arthur

### BILL\* for a family of three: Electric Cooking is not expensive!

COST OF OPERATING AN ELECTRIC RANGE

Family of 3 \$1.70 per month

\* This figure is a 4-month's average (October, November, December and January) of actual cooking costs in families of three persons, at the rate of 2 1/4 cents (net) per kw-hr. Special record meters were installed on these customers' ranges, and the above figure is the result. It shows a cooking cost of about half-a-cent a meal a person. This is an AVERAGE of the cost figures obtained. Some of the actual costs were higher, some were lower.

These figures are obtained under everyday working conditions in ordinary kitchens... the ranges are used by women cooking meals daily for families of three, four and five people, or larger. In the survey, 5 well-known makes and 9 different models of electric ranges were included. These tests prove conclusively that electric cooking is not expensive. 10,000 of your neighbors chose electric cooking during the year 1936. ### Murray D. VanWagoner Seeks Second Term as Highway Commissioner

(Continued from Page One)

Did away with the political road in Michigan. Administered the highways with equal benefit to all the people. He remembered the "forgotten country" of past years—the Upper Peninsula, the Detroit metropolitan area, and the Northern part of the Lower Peninsula.

Achieved a national road-building leadership for Michigan, making it first, not only in quantity but quality. Won national bridge design honors two years in succession.

Substituted action for talk in dealing with public safety problem. Initiated largest grade separation program in history of state. Built safety into new roads and conducted state-wide traffic and safety survey.

Built farm-to-market roads throughout the state. Launched a program to "take Michigan out of the dust" by initiating construction of dust-proof, oil aggregate roads.

Built \$50,000,000 worth of roads, grade separations and bridges. His construction program last year was largest in all Michigan history.

Performed major construction operation on municipal streets throughout Michigan.

Kept the roads open, night and day, 365 days in the year. Despite extra service, he reduced maintenance costs more than 20 per cent.

Initiated the merit system before civil service became a state-wide issue. Good men have built good highways.

Recommended weight tax reduction, which was passed by the Legislature, saving Michigan automobile owners

more than \$5,000,000 annually. Building and maintaining the state's highways is a more important job than it has ever been before. This is true for at least two reasons. With every passing year the number of miles of roads increases, thereby adding to the job of maintenance. And during the past few years Federal appropriations have been increased tremendously in the efforts to create jobs, and this has resulted in a huge increase in new construction.

"Pat" Van Wagoner has grown with his job. He has gathered about him a group of men who are capable, energetic and loyal. He has kept his head. He has kept his feet on the ground. He has served the people of this state far beyond the ability of most men. He is entitled to another term.

### Sunday School Students Placed on Honor Roll of Grosse Pointe Church

The following Sunday School scholars were awarded the honor of getting on the "Cross Honor Roll" at the Grosse Pointe Lutheran Church, Kercheval and McKinley Road, Easter Sunday. A contest has been on among the boys and girls since October 1st, in an effort to increase the enrollment in the Sunday School. When a member brings a new scholar he not only goes on the honor roll but also receives a gold cross. The following each brought one or more new scholars:

George Beranek, 807 Rivard Blvd.; Carol Corey, 208 Kenwood Ct.; Orrin Figley, 213 Moran Road; Eugene Howard, 255 Cloverly Road; Russell Karn, 580 Fisher Road; Robert King, 891 Lincoln Road and John Patterson, 199

McKinley Road. George Beranek was awarded the prize for having brought the most scholars.

Next Sunday morning those who have memorized parts of the catechism will be enrolled on another special honor roll for memory work. The school conducts classes for all ages and all grades, meeting in the auditorium of the Richard School, Kercheval at McKinley Road.

### Attention, Firemen's Midgets, Practice Apr. 2

Here's the news you fellows have been waiting for. The Firemen's Midgets will start practice on April 2nd, weather permitting. You all know that practice makes perfect and that is what we all want after all, balanced teams means real competition. There is only one way to reach this goal and that means hard work, so fellows lets get out on opening day and start that "get into condition" play. Don't you want to be of the champion team? The champions are the leaders in any sport so if you want to be a leader answer your battalion call on April 2nd. Get in touch with Mr. A. Jones, 3995 Lillibridge and watch this paper for further information.

### Christian Science Churches

"Unreality" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, April 4. Among the Bible citations is this passage (Ps. 37:7): "Rest in the Lord, and wait patiently for him; fret not thyself because of him who prospereth in

his way, because of the man who bringeth wicked devices to pass."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 454): "Love inspires, illumines, designates, and leads the way. Right motives give pinions to thought, and strength and freedom to speech and action."

### Grosse Pointe Lutheran Church

"Journeying with Jesus from Jerusalem to Emmaus on the first Easter Day" will be the subject of the sermon at the Grosse Pointe Lutheran Church, worshipping in the Richard School, Kercheval avenue and McKinley Road, Sunday, April 4th, at 11 a. m., preached by the Rev. M. Luther Canup, D.D. pastor.

In this sermon Dr. Canup will answer the following questions: Is Jesus invited into the average Grosse Pointe Home? What are some of the marks of a Christian home? Are the homes in Grosse Pointe depending upon prosperity or upon God? What changed would Jesus make if He were to enter some of our homes? Can we expect the future generation to be Christian

if we bring up our children in non-Christian homes?

At the 9:45 a. m. Sunday School hour the subject, "God the Creator," will be taught in all grades and classes. New scholars are enrolled almost every Sunday. You and your family are
