BOARD LAND PURCHASE DEFEATED

Issue of Additional Property Purchase was Defeated Monday

Alfred E. Meder was elected trustee of the Grosse Pointe Board of Education for the term of three years at the school election held Monday, June 14. Of the 1,326 votes cast Mr. Meder won by the slight majority of 38 votes over Clifford B. Loranger.

The second part of the ballot dealt with the purchasing of property designated by the Board of Education for the purpose of building further schools. This proposal was defeated by a majority of 128 votes. Of the 1,283 ballots cast the No's received 698 votes while the Yes's received 570.

The voting on the proposal was as follows:

	For	Against	Spilled	Total
Precinct No. 1	190	182	2	374

By precincts the School Board vote was:

Precinct No. 6	82	76	95	—	233
Total	460	498	357	17	1325

This election marks the second defeat of the School Board's attempt to purchase further sites for the building of added school buildings. Six weeks ago a similar proposal, that of purchasing a new Junior High School site and other acreage, was voted against.

Mr. Meder, a resident of Grosse Pointe for 15 years, has promised to do all he can to save every possible tax dollar and at the same time keep down the school tax. He is well acquainted with the needs of the community and will strive to do his utmost to correct them. Before the election when his name first appeared as candidate Mr. Meder proclaimed that he would insist upon stricter economy consistent with good education, with all unnecessary frills done away with in favor of the essentials of education; that the Board will call from time to time sectional meetings of taxpayers and parents in order to discuss matters of great importance, and that publicity be given of all Board meetings.

This year's school election deviated from former ones, since the polls opened at 8 a. m. and closed at 8 p. m. According to all reports the heaviest voting took place in the evening from about 6:30 to 8.

Our Elders For Counsel

By DAISY HUGHES PHIPPS

With loyal heart and sore distress,
I pray our country may have rest
From all dissention, fear and strife—
Bitterness removed from every life.
To Communism, we say "Taboo,
Our fair land is not for you!"
From Russia's blood-stained battle ground
The real status has been found.
Why should we imitators be
Of such a disastrous melee!
Let our highest tribunal remain—
The people's rights it does contain.
If amended this should be,
Commit it to our citizenry.
Old men for counsel we are told,
In the Book that never grows old!

Review of Year's Accomplishments Told by Charles Parcels

Groups of fives and sixes stood about the auditorium, main corridor and outside the doors of the drawing room where the votes were being counted and checked. Not until the last vote had been counted was anyone really certain who had won, so close was the race between Albert E. Meder and Clifford B. Loranger. At 9:30 the officials of the Board left the drawing room for the auditorium where Mr. C. A. Parcels, president of the (Continued on Page Two)

Christian Science; in an increasingly friendly public thought as reflected by legislative bodies when handling measures involving medical and religious freedom; and in much good healing work; featured reports today by church officers at the Annual Meeting of The Mother Church, The First Church of Christ, Scientist.

JUDGE CLIFFORD P. SMITH Incoming President of The First Church of Christ, Scientist, in Boston, Massachusetts

Mason City, Iowa, in 1896, where he practiced law before becoming judge of the District Court of Iowa. He has been a member of The Mother Church since 1902, and was one of its Executive Members. He had class instruction from an authorized teacher in 1901. Primary instruction from the Christian Science Board of Education in 1903, and Normal instruction from this Board in 1910.

Judge Smith has been in the service of The Mother Church occasionally since 1908. The positions he has held include the following: member of a committee to define and preserve the legal rights of Christian Scientists, First Reader of The Mother Church, Trustee of The Christian Science Publishing Society, President of The Mother Church, member of the Christian Science Board of Lectureship, teacher in The Christian Science Board of Education, Manager of Committees on Publication, Editor of The Christian Science Journal, Sentinel, and Herald. Since 1932 he has been Editor of The Mother Church's Bureau of History and Records. He also had the privilege of rendering particular services under the direction of our Leader, Mary Baker Eddy.

Judge Smith declared in his address that "To insure its strength and success an organization movement requires (1) a good purpose clearly stated (2) an intelligent plan for achieving this purpose, (3) active co-operation in accordance with the plan by the persons who compose the movement.

"The Christian Science movement has the first of these essentials in our Leader's writings on the nature and purpose of our Church. The second of these essentials (a practical plan conceived in wisdom) we have in our Church Manual. The third essential can be restated for our movement as active and united efforts to communicate, demonstrate, and propagate the Science of Mindhealing. For this essential, the responsibility rests on all Christian Scientists collectively and individually. The obligation to prove by its effects that our religion deserves its name is not limited to listed practitioners; this obligation extends to all who are enrolled as Christian Scientists."

The fact that the Christian Science denomination has 2781 branches was cited and Miss M. Rosamond Wright, Manager of the Department of Branches and Practitioners, reported further for the year, "Good growth in our movement is shown throughout the

organization and recognition of fifty-nine new churches and societies as branches of The Mother Church, and six new university organizations. Twenty-five of these branches are in Europe, thirty in North America, two in Australasia, one in Africa, and one in South America."

The Christian Science Board of Directors, in its message read by the retiring chairman, Mrs. Nelvia E. Ritchie told Christian Scientists everywhere, "The inspiring reports and testimonies of healing that have come to this Board during the past year give abundant proof of work well done, of progress throughout the movement—give evidence of obedience to Principle, and bear witness that the truth Jesus demonstrated is again understood and made manifest on earth today. While these splendid evidences of progress give cause for rejoicing and we humbly bow our heads in gratitude to God for these proofs of His power and presence, yet as students of Christian Science we all realize that greater works are before us.

"It is our sacred duty and privilege to uphold righteous government and to know that in reality divine Mind, with its attributes of intelligence, wisdom, justice, and mercy, always guides and controls the avenues and channels through which government is expressed. As we look upon the apparent unrest and fermentation in the affairs of the world today, it is heartening and comforting to know that by obedience to the teachings of our Master we can be conscious of the government of divine Principle, and actually see this government made manifest in human affairs and universal peace established."

William M. Bartlett, Secretary of the Trustees under the Will of Mary Baker Eddy's writings in 1936 increased 66 per cent over sales in 1935. An accounting of expenditures in excess of \$200,000 during the year ended April 30 was also rendered. In fulfillment of the purpose of the will, the items for which this fund was used included assisting 33 churches and societies in erecting, purchasing or remodeling buildings, helping churches with lecture activities; and for free distribution of Christian Science literature.

In the report of the Manager of Committees on Publication, the Hon. C. Augustus Norwood declared:

"During the year, secular newspapers published approximately one hundred thousand excerpts from our Lesson-Sermons, each of which showed that Christian Science is based on the Bible. Radio stations programs, each of which included passages from the Bible and from Mrs. Eddy's writings. Secular newspapers reprinted about twelve thousand religious articles from The Christian Science Monitor, and more than two hundred and fifty radio stations now carry 'The Monitor Views the News.'"

"We are glad to report that public thought, which is reflected in legislative bodies, has become sufficiently free from prejudice so that Committees have been able to prevent the passage of many measures which would have restricted the rights of Christian Scientists."

The place of Christian Science periodicals in carrying on healing ministry disseminating inspiration for humanity that it may find relief from its burden of sickness and sin, featured the report of The Christian Science Publishing Society, presented by Roland R. Harrison, Manager. Mrs. Eddy's statement on Page 271 of Miscellaneous Writings was quoted, that students of Christian Science "should take our magazine, work for it, write for it, and read it." This applies to all the periodicals, it was concluded.

Judge Frederick C. Hill, Chairman of The Christian Science Board of Lectureship, reported 3216 lectures had been delivered during the year ended April 30. Of these lectures, 53 were given in Hawaii, China, Japan and Manila, one in the City of Mexico, eight in Bermuda, Canal Zone and West Indies, 242 in Great Britain and Ireland, 129 in Continental Europe and Scandinavia, and 2722 in Canada, the United States and Alaska.

"The press has been very generous in contributing space for the publication of lecture reports, Judge Hill de-

clared. Edward R. Ripley, Church Treasurer, expressed gratitude for the increased individual activity accomplished by members of The Mother Church and added that "in distributing the founds so generously contributed for flood relief, excellent service was rendered by the Committees on Publication and the various relief workers. That the relief extended was greatly appreciated is evidenced by the following messages among the many received:

"One expressed gratitude for the 'loving service rendered to both Scientists and non-Scientists.'

"Another wrote: 'I shall always be mindful of the joyful manner in which this assistance was given when no other help was obtainable.'

"A third said: 'The manifestation of joy and brotherly love by the workers . . . is most inspiring and is noticed and spoken little or nothing of Christian Science.'

"A publisher who would not even advertise our lectures, was so impressed by assistance given him, that he has since been carrying Lesson-Sermon excerpts and has offered to carry a full lecture report."

In the report of the Clerk, Ezra W. Palmer, attention was drawn to the international appeal of Christian Science as indicated by the fact that the Instructions for Membership in The Mother Church are now available in 11 languages.

"The Mother Church, built on the Rock, Christ, is a mighty power for righteousness," he declared. "It is leavening, transforming, and spiritualizing thought throughout the world, both within and without the Christian Science movement. Gradually, but surely, barren dogmas and false concepts which obstruct the flow of light from God to human consciousness, are fading away as the spiritual idea of Church becomes clearer and dearer to the seekers for reality."

Review of Year's Accomplishments Told by Charles Parcels

(Continued from Page One)

school board, opened the annual meeting of the school district. Approximately 130 persons were present at the meeting.

Mr. Parcels opened with a brief account of the activities of the school board for the year 1936-37. He pointed out six important items which had been attempted by the board. First, the completion of the Louis E. Meyers school and the furnishing of this building. Secondly, the survey and attempts to secure further sites for a new junior high school and several elementary schools. The third achievement was the reduction in the tax levy, while the fourth was the reduction of the net debt, which was extremely high at the opening of the year. The fifth and sixth things accomplished were the increase in enrollment and the increase in numbers of students working due to the Placement Bureau. "This year 134 students have obtained full time jobs, while from 100 to 150 have part time positions due to the service of this bureau," he said.

Mr. Parcels, by the use of figures showed the improvement of the school system in the last ten years. "In 1927 there was an enrollment of 1,952 students in the Grosse Pointe schools, while at present the enrollment is 3,953. Twenty-one colleges were entered by 58 students in 1927, yet today 136 students are entering 69 colleges from the Grosse Pointe High School. The percentage of D's and E's for final grades received by students from Grosse Pointe schools in college for the year 1927 was 32 per cent. The percentage for 1937 is 16. Today we have five elementary schools and one high school, but in 1927 we had only three elementary schools."

Dr. Brownell, superintendent of the Pointe schools and now rounding out his tenth year of service, gave a short report on the achievements of the board for 1937. He pointed out, however, three things that must be done in the very near future. "First," he said, "there must be a continuous improvement in the co-ordinating of the curriculum. Second, some consideration must be given to the matter of the housing problem and, third, the high school curriculum must be expanded to meet the needs of students not going to college. Only four out of every ten graduates go to college, therefore the remaining six must receive an adequate education in order to obtain positions."

Four measures were moved and passed at the twenty-ninth meeting of the board. The first measure passed was the fixing of salaries of the trustees for the coming year at \$200 and the salary of the treasurer at \$1,000. Second, the budget of the library for the year 1937-38 is set at \$18,500. Four banks, Grosse Pointe Bank, National Bank of Detroit, Detroit Bank and Manufacturers National Bank were approved as depositories of the money and funds of the school district. This meeting closed with the approval of paying the sum of \$10.00 to all election inspectors, board members and members of the Board of Education for their services on election day, Monday, June 14.

Poultry Fanciers Form New Association

(Continued from Page One)

Among the many members present there were representatives from Detroit, Grosse Pointe, Royal Oak, Redford, Ferndale, Royal Oak, Birmingham and Pontiac.

The organization membership is open to breeders and those interested in thoroughbred poultry throughout the state.

The purpose of the organization is to promote the interest of standard bred poultry in all its phases. In pursuance of this idea there will be meetings held on the last Thursday evening of each month, the next meeting being at the above address on June 24.

Present plans are to have two breeds of two birds each exhibited each month at these meetings, where the birds will be scored by their owners and then by an A. P. A. judge. After this procedure the discussion will be thrown open to all the members.

For the June meeting Cornish bantams and black minorcas are the breeds selected.

PITCHING FIND

Jack Dawson, sixteen-year-old pitching sensation of North high school, Des Moines, Iowa, who was signed by the Fargo-Moorhead club of the Northern league—a farm of the Cleveland Indians. Dawson, a righthander, who joined the team at the end of the school term, started the season by hurling 15 hitless innings. Cleveland's Bob Feller is from Van Meter, Iowa, a short distance from Des Moines.

Words Ending in "Dous"
The five words in the English language ending in dous are tremendous, stupendous, hazardous, jeopordous and horrendous.

Dutch East Indies Costumes

In the Dutch East Indies the simple, but none the less colorful, costume of both the men and women consists of the sarong, which is a batik wrap-around skirt, and the kebaya, a jacket in a color which harmonizes or contrasts with that of the batik skirt. The men wear a "kain kepala" which is a batik turban headgear, and the women have a slendang, a long shawl-like piece of batik cloth which is used for purposes varying from carrying infants on one hip to ornamental decoration very much in the manner of the American girl's kerchief.

World's Oldest Book What is believed to be the oldest book in the world, the "Scroll of the Pentateuch," the first five books of Moses, is still in a remarkable state of preservation in Nablus, Palestine. It is claimed that this book was written 12 years after the Israelites entered Palestine in 1451 B. C., thus making this ancient tome 3,887 years ago. There will be a farewell service Sunday evening at the Jefferson Avenue Methodist Church, East Jefferson at Marlborough. Dr. Eugene M. Moore is leaving the pastorate of this church after a stay of seven years and goes to Conference. Kircher, of the Eastminster Presbyterian Church, and Rev. A. C. Bauman, of the Kercheval Evangelical Church, will speak on appreciation of his labors to the community. Dr. Moore will then preach his farewell sermon.

Christian Science Churches

"Is the Universe, including Man, Evolved by Atomic Force?" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, June 20.

Among the Bible citations is this passage (Ps. 33:6): "By the word of the Lord were the heavens made; and all the host of them by the breath of his mouth." Correlative passages to be read from the Christian Science textbook, "Sci-

ence and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 295): "God creates and governs the universe, including man. The universe is filled with spiritual ideas, which He evolves, and they are obedient to the Mind that makes them."

The Third Degree

The third degree is the psychological method used by the police in the United States for the purpose of forcing the truth from a person under arrest. It consists in continuous and relentless questionings, lasting for many hours, or even days, until the prisoner, if guilty, is morally compelled to give way and confess.

Children In Court

By Judge Malcolm Hatfield
With an ever increasing number of children being brought into court, juvenile authorities in many districts are becoming alarmed over what the future holds for such youngsters.

One of the principle reasons for a 15-billion dollar a year crime bill is that many parents do not realize that they themselves are developing disobedience and dishonesty in their children. One of the most common methods whereby parents lay the foundation for a dishonest youth is by lying to others in his presence. Parents should always remember that a son or daughter will not remain honest if they themselves are untruthful.
