

# BAND CONCERT TONIGHT

## News Digest

Detroit will have a big air show about the middle of September.

The Gas Dealers Union met with a new problem early this week in their drive for members. Signs were posted charging \$1 per gallon for gas while the parade was on.

The Publisher of the Grosse Pointe Review was the recipient of a basket of delicious beef steak tomatoes from one of the truck-gardeners on Beaconsfield avenue last week. Thank you!

A Negro accused of murdering an officer was seized and lynched by six unknown men Monday. They don't believe in waiting for the slow-moving wheels of justice in that part of the country.

Wonder if Tommy Farr will clip the wings of the high-flying Joe Louis in the forthcoming battle August 26th.

Only three hundred and ten executions in Russia in three months. What they need is a slaughterhouse and a good butcher.

The Chinese situation is becoming alarmingly serious. Wonder if this will be the battle field for the next great world war or is it just another of those events which will result in a great deal of valuable territory for Japan without much bloodshed.

If your admirers get too persistent call the police. That is what a thirty-seven year old Union official had to do in Detroit.

It was ideal for boating again this week on Lakepointe avenue, which reminds us that the Gold Cup races will be held in Detroit this year with several European nations participating.

It seems that an epidemic of measles is on the way here, according to a warning issued by Detroit's Health Commissioner.

Sport enthusiasts are preparing for the second session of Detroit's racing season. Wonder why all the hullabaloo about gambling when it could be legalized, and the state could share in the profits.

The state is opposed to gambling and other vices, yet it sells liquor, benefits by gambling devices or shall we say pari-mutuels which is the same thing, for people will gamble despite all investigations and objections to it.

It won't be long before we hear flowery announcements about the activities of pig skin tossers, with summer drawing to a fast close. It is to be noted that many sparkling stars will be added to the roster of the Detroit Lions.

## Farms Ball Team Meets Roseville Sunday

Next Sunday at Kerby Field the Farms baseball team will meet Roseville in a single contest, starting at 3 p. m.

Last Sunday, on the locals' field, the home boys were defeated by Rud Service, by the score of 7-1.

## Grosse Pointe Wife Found Hanged

Mrs. Mary Tyree, 38, mother of two small children, was found dead early Monday hanging from a furnace pipe in the basement of her home at 705 Washington road, Grosse Pointe.

The body was discovered by the woman's husband, Hunter B. Tyree, office manager for the L. A. Young Spring and Wire Corporation.

Tyree told Grosse Pointe police his wife had been ill for some time. Police believe Mrs. Tyree hanged herself with a clothesline shortly before 7 a. m.

The Tyrees formerly lived at 2576 Ashland avenue. They moved into the Washington road home, formerly the home of Cliff Bell, operator of the Admiral Bar and the Commodore Club, about three months ago.

## Board of Education Defends Dr. Brownell Part Time Service

August 17, 1937

Mr. L. B. Oldham, Publisher  
Grosse Pointe Review  
Grosse Pointe, Michigan  
Dear Sir:

The Board of Education would appreciate your giving the enclosed statement as prominent a position in your paper as was given the questions raised in the last issue.

Very truly yours,

RALPH M. CLARK, Secretary  
Board of Education.

RMC/MLN

### TO THE CITIZENS OF GROSSE POINTE:

Your Board of Education is pleased to have this opportunity of answering some questions which recently have been raised.

The Board of Education, whose meetings and minutes are and have been open to the public, would like to call attention to the minutes of its meeting of May 3, 1937 which read in part as follows:

"It was moved by Trustee Clark, supported by Trustee Loranger, that S. M. Brownell, Superintendent of Schools, be granted leave of absence without pay from October 1, 1937 to May 1, 1938, in order that he be enabled to accept the invitation to teach school administration in the Yale University Graduate School, and that it be understood that the superintendent will so arrange his work as to direct the activities of the school district and be available for consultation with the Board of Education and staff of Grosse Pointe between October 1 and May 1 to the extent of meeting with the Board of Education for at least ten of its monthly meetings during the 1937-38 school year.

Adopted as follows: Yeas: Trustees Clark, Loranger, Parcells, Poupard. Four (4). Nays: None. Absent: Trustee Barrett. One (1)."

Those who were present at the annual meeting of the School District, June 14, will recall that the president reported the attitude of the School Board in this way: "During the past ten years Dr. Brownell has been asked to teach in the education department summer schools of the University of Wisconsin, Cornell University and Harvard University. Your Board has gladly granted leave for the splendid contacts with the educational world which these opportunities afforded. We have benefited in Grosse Pointe by having a superintendent alert and up-to-date concerning the movements in the field of education. Moreover, our reputation as a School (Continued on Page Eight)

## Chain Store Tax Less Popular in 1937

That protests from consumer and farm groups are putting the breaks on legislation which forces chain stores to raise their prices to consumers, is shown in a survey of bills proposed and laws enacted by State Legislatures in their recent sessions. Altogether 98 anti-chain store tax bills, intended to cripple chain stores, were introduced in the Legislatures of 32 states during their 1937 sessions. But only five of these once popular measures became laws, the other 93 being killed or failed to pass.

Wisconsin and Maine led in the trend away from special burdensome taxes on chains. Maine replaced its anti-chain store tax, enacted three years ago, and turned a cold shoulder on three bills to increase the levy. Repeal of the tax was brought about almost entirely by farmers and farm associations, who objected to the tax on the grounds that the chain stores are their best markets and that any laws which injure markets injure the farmer's income.

Likewise in Wisconsin. Due largely to farm opinion Wisconsin allowed its tax of \$250 on each store over 25 in a chain to expire, and failed to pass three other proposals to continue this type of taxation.

Further indication of the growing unpopularity of anti-chain store legislation is seen in the failure of the United States Senate to enact a bill taxing the larger chains \$550 a store in the District of Columbia. Although the proposal to sock the chains was advanced by strong opponents of chain stores in the House as an example to the rest of the country, it received little consideration in the Senate Committee where it was quickly killed.

The turning of the tide against taxes intended to penalize the chain stores started in California. There a huge tax on chain stores was passed by the legislature and submitted to the people to vote upon during the last national election. To the surprise of the politicians favoring the tax, it was voted down by their constituents in 57 out of the 58 counties. Since then lawmakers have stopped to wonder if special taxes on the stores which sell at low prices and make it possible for the masses of people to buy at low prices might not be boomerangs after all. For the public is coming to realize that special taxes on food chains mean higher prices, and farmers are already on record to the effect that they mean smaller markets and fewer sales.

## New Gas Conversion Burner Recommended by Buckeridge & Sons

Why spend \$60.00 or more modernizing your old oil burner ignition when you can get a \$50.00 allowance for your used equipment on a modern New Gas Conversion Burner. Many installations have been made for as low as \$125.00 plus tax because of this allowance. This amazing offer on gas burners is being made by H. Buckeridge & Sons, situated at 15108 Kercheval Ave.

The Buckeridge installation includes vacuum cleaning of the furnace; new thermostat and other necessary controls, installing of new flue pipe and painting of all exposed iron work on the furnace.

It is believed by all, that Gas House-keeping is here to stay. First, because with it you eliminate all service charges and other hidden costs. Secondly, it has proven to be economical, clean, noiseless, odorless and the most completely automatic of any house heating equipment.

H. Buckeridge & Sons has been associated with the Detroit City Gas Co. for many years and are their authorized dealers. All gas designed boilers, furnaces and conversion burners purchased through this company bears the approval of the gas company.

A free estimate of equipment and the furnishing of names of gas heating users in your neighborhood for the comparison of heating costs will be provided upon request.

## Alger Post Activities

By MARY JANE STOETZEL  
The Alger Post wishes to remind all those who are planning on attending their picnic that it will be held Sunday, August 22, at the Remus Farm, on Little Mack Road near Ten Mile Road. All are invited to be present and take in what promises to be an interesting afternoon for all who attend.

Last Friday the Alger Boys were beaten, 12 to 5, when they met the Hoffman Post larger boys' team in a game of ball. Although badly beaten the sons of the veterans say that it was a real exciting game.

## William Krapp Funeral Rites Held Monday

By MARY JANE STOETZEL

Death came to Mr. William E. Krapp, former commissioner of Grosse Pointe Park, last Thursday as he laid abed in his home on Kensington Road after four years of constant illness. Mr. Krapp passed away as quietly and peacefully as he had lived, careful up to the last not to be of a bother to anyone.

Funeral services were held Monday in Mr. Krapp's beautiful home on Kensington Road at 2 p. m. with Rev. Cosgrove officiating. With two Grosse Pointe scout cars acting as escort, the body was taken to Woodmere Cemetery for burial.

WILLIAM E. KRAPP

Mr. Krapp, who died at the age of 37, had been a resident of Detroit and Grosse Pointe for practically 45 years, since the day after he passed away would have marked the beginning of his forty-sixth year. Coming to Detroit from Rochester, New York, where he was born and educated, Mr. Krapp began a life which was all work and no play. For 23 years he was a division superintendent at the Hupp Motor Car Corp. In 1931 when the depression was at its peak, he retired from the automobile industry and devoted his time to the Krapp Bros. garage, on the corner of Kercheval and Maryland, of which he was president. For 22 years Mr. Krapp had been associated with Krapp Bros. Auto Dealers.

In 1931 Mr. Krapp was appointed to fill the vacancy of village commissioner in the council of Grosse Pointe Park, which was created by the death of Thomas McGilligan. In 1932 he was elected to fill the unexpired term, while in 1933 he ran for the regular election. After three years in public office he retired from politics.

Although successful in business Mr. Krapp found his happiness in his home, not being particularly interested in outside amusements. In spite of success and social prominence the Krapps lived quietly. Everyone who ever knew Mr. Krapp speaks of him only with kindness. Friends who have known him for years say that never had they heard him utter words of unkindness about others; never did he raise his voice in anger, and never did he cheat.

For 31 years Mr. Krapp had been married to his wife, Anna. Two children were given him, his son, Irwin, who is 27, and his daughter, Mrs. Evelyn Newmann, 30. He was also the grandfather of two grandchildren.

Mr. Krapp had spent the last four years in poor health. Last June he underwent an operation from which he never really recovered. Tuesday, August 10, he was confined to his bed, from which he never left.

The family of the late William E. Krapp wish to extend their heartfelt thanks to their friends, neighbors, officials of the various villages, the City, Township and the police department for their kind and considerate expressions of sympathy and condolence in their recent bereavement.

Mr. and Mrs. William Deuler, of Merriweather road, entertained their neighbors Sunday evening with a cocktail party.

Some of the neighbors present at the party were Mr. and Mrs. Tom Henry, Jr., Mr. and Mrs. Allen Beebe, Mr. and Mrs. John Sutton, Mr. and Mrs. Ben Shepherd and Mr. and Mrs. Tom Mann.

## An Open Letter Relative to Sewer Conditions in Grosse Pointe Park

To the Public:

Considerable confusion and misunderstanding appears to exist in the minds of residents of the Village of Grosse Pointe Park regarding the abnormal rainfall we have experienced with consequent flooding of streets and basements in the Grosse Pointe Park area.

In various articles that have appeared in Detroit newspapers, an impression has been given that the Village of Grosse Pointe Park has been amiss in providing proper sewage facilities, and has failed to co-operate with the City of Detroit in the matter of sewage and drainage facilities.

In order to clear this misinformation, I wish to cite the following facts:

When the Village of Grosse Pointe Park was incorporated in 1907, it consisted of undeveloped property mostly farm lands. At that time the only source of drainage and sewage disposal was open Fox Creek which was then a county drain. Six years later, in 1913, due to the development and subdividing of property, the Village of Grosse Pointe Park took steps to install adequate drainage facilities. In developing the sewer system an agreement was entered into with the City of Detroit in 1913 whereby the City of Detroit agreed to furnish an outlet for Grosse Pointe Park drainage and sewage under the following conditions:

1. Plans of all sewers constructed in Grosse Pointe Park were required to be approved by the Engineering Department of the City of Detroit.
2. All installations of sewers were to be inspected by the City of Detroit engineers.
3. All inspection charges were to be paid by the Village of Grosse Pointe Park.
4. An initial payment of \$10,000.00 for tapping privilege was paid by the Village of Grosse Pointe Park to the City of Detroit.
5. An annual service charge was required to be paid by the Village of Grosse Pointe Park to the City of Detroit.

In return for providing an outlet for Grosse Pointe Park drainage, we were to discontinue depositing our drainage and sewage into Fox Creek and Lake St. Clair, thus eliminating possible pollution of water entering the intake pipe of the Detroit Water Works at the head of Belle Isle.

Pursuant to that contract the Jefferson Avenue trunk sewer and all lateral sewers in the Village of Grosse Pointe Park were constructed under plans and specifications approved by the City of Detroit and under supervision of the City of Detroit inspectors. No sewers were constructed in Grosse Pointe Park without the approval and supervision of the City of Detroit. The Village of Grosse Pointe Park has promptly paid the annual fee each year. Subsequent to 1913, the City of Detroit

## Moonlight Trip Planned by State Employees Aug. 31

A splendid floor show will be one of the features of the moonlight lake cruise to be given by employees of Leon D. Case, Secretary of State, aboard the Str. Put-in-Bay the evening of Tuesday, August 31. There will also be continuous dancing in the main ball room.

The boat will leave from the foot of First Street at 8:45 p. m. and in addition to the Detroit district employees and their friends, a large delegation, headed by Secretary Case, will be present from Lansing.

## Mayfair to Have Modernistic Bar

Patrons of the popular Mayfair, on Mack at the Seven Mile Road, will be pleasantly surprised shortly. The management announced today plans for the installation of a new modernistic cocktail bar which will be ideally located so that patrons can view the floor presentations directly from the bar.

The floor shows are presented nightly, beginning promptly at 10:30 p. m. and 12:30 a. m., and a well-balanced program has been secured for the week. Bobby Sheppler and his boys are quite talented musicians and are making quite a hit with the large Mayfair crowds.

## Symphony Presentation Tonight at 8 o'Clock at Grosse Pte. High School

By MARY JANE STOETZEL  
Music will reign tonight on the grounds of the Grosse Pointe High School when Herbert L. Straub waves his baton and conducts the Detroit Civic Orchestra in what promises to be an interesting and splendid program of music. All music lovers in and around Grosse Pointe, and even those who don't particularly like music, are invited to come and witness this program.

Do you know what has happened to all the unemployed artists and musicians in the United States? Are they like the Rembrandts and Beethovens of the past, starving in their garrets? Maybe, during the depression years that is what happened, or else these unemployed were struggling along at some small job, unhappy because denied their natural means of self expression. Today, however, the picture is changed, for the WPA has put these people in the limelight.

Five thousand artists are working on paintings, which will preserve American history and culture, at present time. One of their latest and greatest productions is a mural in the mess hall of the United States Military Academy at West Point. Thus, a native art is being born.

In the field of music, there are in the United States 13,000 professional musicians playing and singing in hundreds of Federal musical organizations. These organizations are making America musically articulate by giving free concerts for millions of people, who never before had the opportunity to hear such music. The works of the young composers, also under Federal project, are now receiving hitherto undreamed of opportunities.

Since the latter part of December, 1935, the Detroit Civic Orchestra has been in operation as a part of the Federal Music Project, established by the government under the direction of Dr. Nikolai Sokoloff, as an emergency measure to reduce unemployment in the musical profession.

The name of the orchestra is the Detroit Civic Orchestra, consisting of 45 members. This orchestra is a unit of the Federal Music Project, which is sponsored by the Works Progress Administration.

The Detroit orchestra is the largest in the State. The players practice every day for four hours in various recreational centers. Each player is required to provide his own instrument; while Arthur Luck, librarian of the Detroit Symphony Orchestra, furnishes the music.

Last winter this orchestra played a number of concerts at various public and parochial schools and colleges. They also played at the Palmer Park, Belle Isle, the Lafayette Theatre and over WXYZ, from 9 to 9:30 p. m. During the summer months they have been giving concerts in Wayne and Dearborn.

Mary Lou Berns, daughter of Mr. and Mrs. L. J. Berns, of Bedford road, is cruising about the Great Lakes aboard the South American.

Mr. and Mrs. Don M. Dickenson, Jr., returned to their home on Touraine road, last Tuesday after spending a month vacationing at Ogunquit, Me.

Mr. and Mrs. Joseph Washington Frazer, of Roosevelt Place, and their daughter, Aerielle, are enjoying themselves at their summer home in New-

troit to relieve that portion of its newly annexed property immediately north of Grosse Pointe Park constructed the Bedford Road Sewer and the Cadieux Road Sewer with outlets in the then open county drain known as Fox Creek, under the express agreement that only surface drainage should be discharged into Fox Creek. After these sewers were constructed, it was found that raw sewage was being discharged into Fox Creek through the Bedford Road and Cadieux Road sewers by the City of Detroit causing a menace to the health of the residents of the Village of Grosse Pointe Park.

In 1927, after negotiations with the City of Detroit supplemental agreement was entered into by Grosse Pointe Park and the City of Detroit whereby Grosse Pointe Park constructed a closed drain in and along Fox Creek within the Village limits at the expense of the Village (costing \$500,000.00) and under the express understanding with the City of Detroit that if the Fox Creek closed drain proved inadequate

## Drug Stores to Close on Sunday Afternoons After September 5th

Drug stores in Grosse Pointe and the surrounding territory have mutually agreed to close on Sunday afternoons beginning Sunday, September 5, opening again in the evening. They ask the residents of the area to co-operate with them that they too might enjoy Sunday afternoon away from their daily toil.

## Young Democrats to Stage Fall Rally and Get-Together

The Young Democrats of the Fourteenth Congressional District are staging their annual fall "get together" at Beverly Gardens, at Van Dyke and 13-Mile Road, on Friday, September 17, at 8 p. m.

The tickets may be purchased from any member of the Fourteenth District Young Dems, and will be on sale at the door. William Renaud, who can be contacted at the County Building, is chairman of the ticket committee. The 50-cent admission fee covers a diversified program of dancing, with popular melodies to be furnished by a union orchestra, unusual feature acts, and all refreshments.

Many prominent state, county and city officials, as well as a large delegation from Lansing, will be in attendance.

## Symphony Concert

PROGRAM

August 19, 1937—8:30 P. M.

- "Poet & Peasant" (Overture) .....Suppe
- "Blue Danube" (Waltz) .....Strauss
- (a) "Dance of the Clowns" (Snow Maiden) .....Rimsky-Korsakoff
- (b) "Flight of the Bumble Bee" .....Rimsky-Korsakoff

WINTERHALTER & GLASER

CERTIFIED PUBLIC ACCOUNTANTS Michigan July 27, 1937. Board of Education Rural Agricultural School District No. 1 Grosse Pointe, Michigan.

Pursuant to our engagement we have complete an examination of the books of record of the Rural Agricultural School District No. 1 for the fiscal year July 1, 1936, to June 30, 1937, and as the result of our audit we herewith submit our report, together with the following Exhibits and Schedules.

Our audit consisted of a detail verification of all recorded cash receipts and disbursements, together with a complete verification of all bank and fund balances by direct correspondence with the depositories. All payroll distribution was checked with cash disbursed.

Subject to the comments which are made a part of this report, we hereby certify that in our opinion this report correctly reflects the financial condition of your School District, as at the above mentioned date.

Respectfully submitted, WINTERHALTER & GLASER, S. J. Winterhalter, C. P. A.

COMMENTS

Treasurer's Cash \$59,710.53. All bank accounts confirming the above balance were verified by direct communication with their respective depositories. A detail of these banks and balances are as follows:

Table with 2 columns: Bank Name and Balance. Includes Cash in Banks (Active), Cash in Closed Banks, Taxes Receivable.

All collections of current and delinquent taxes made during the year under review were accounted for. Collections of current taxes made during the fiscal year ending June 30, 1937, totaling \$536,015.71, represent 81.24 per cent of the taxes assessed on the 1936-1937 tax rolls.

Due from Townships for Taxes Collected. Gratiot Township \$483.50, Grosse Pointe Township \$2,671.40.

Defaulted Interest on Securities \$48,233.36. We compiled the defaulted interest on bonds held in the Sinking Fund and found it to be in agreement with the amount shown by your books of account.

Books and Supplies, \$22,124.13. Text books and library books which are carried on your records at \$13,201.57, are at values appraised during the year 1931.

Bond Retirement Sinking Fund \$704,608.93. The Bond Retirement Sinking Fund is accounted for as follows: Securities owned \$654,175.43, Defaulted interest 48,233.36, Cash on deposit 251.70, Due from closed banks 1,948.44.

Current Surplus \$920,605.51. Analysis of current surplus is shown in our Schedule VIII.

RECEIPTS AND DISBURSEMENTS

Statements of receipts and disbursements for the period covered from July 1, 1936 to June 30, 1937, of the various current funds are shown as follows:

Table with 2 columns: Fund Name and Amount. Includes General Fund, Sinking Fund, Library Fund, Bond Coupon Fund, Construction Fund.

Receipts of current and delinquent taxes, together with interest on delinquent taxes from various taxing units, were verified with records of this taxing unit. Receipts of tuition, cafeteria, auditorium and house rent were verified by an audit of the books of account of the Custodian. Bonds interest receipts were checked with statements rendered by the Custodian of the bonds.

Disbursements were made by checks on properly authorized vouchers. We tested these vouchers and checks for clerical accuracy and checked them with the cash disbursement record. We did not make a detail verification of the Distribution, but we did test check these for various periods during the year. All payroll distribution was checked for cash pay period.

Bond Retirement Sinking Fund. Sinking fund bond transactions were analyzed in detail and additions and deductions, as set forth in schedule II were accounted for.

Receipts in this fund were confirmed from the township records, and disbursements were made on duly authorized vouchers. Detail is shown on schedule III.

Bond Coupon Fund. Receipts were traced from the general fund debt service and disbursements are for interest coupons as presented for payment is shown on schedule IV.

Construction Fund. Lewis E. Maire School receipts and disbursements for the period covered are shown on schedule V.

Budget Statements. A consolidated statement of budget appropriations and expenditures are shown in schedule VI. A detail analysis of budget appropriations and expenditures are shown in schedule VII.

EXHIBIT A General Fund Balance Sheet June 30, 1937

Table with 2 columns: ASSETS and LIABILITIES. Includes Cash in Banks, Securities, Taxes Receivable, Due from Townships, Defaulted Interest, Books and Supplies.

EXHIBIT B Capital Fund Balance Sheet—June 30, 1937

Table with 2 columns: ASSETS and LIABILITIES. Includes School Sites, School Buildings, Equipment, Bonds Outstanding, Capital Surplus.

SCHEDULE I Statement of Receipts and Disbursements July 1, 1936 to June 30, 1937

Table with 2 columns: Receipts and Disbursements. Includes Balance July 1, 1936, Receipts (Current Tax Collections, Delinquent Tax Collections, Primary Fund, etc.), Disbursements (General Control, Instruction, Operation, etc.).

SCHEDULE II SINKING FUND Statement of Receipts and Disbursements—June 30, 1937

Table with 2 columns: Receipts and Disbursements. Includes Balance July 1, 1936, Receipts (Interest on Securities and Bonds Sold, Defaulted Interest, Debt Service appropriation, etc.), Disbursements (Interest and Premium on Bonds Purchased, Bonds Purchased, etc.).

Accounted for as follows

Table with 2 columns: Description and Amount. Includes The Detroit Bank Cash, Securities Owned, Delinquent Interest, Due from Closed Banks.

Accounted for as follows

Table with 2 columns: Description and Amount. Includes The Detroit Bank Cash, Securities Owned, Delinquent Interest, Due from Closed Banks.

Accounted for as follows

Table with 2 columns: Description and Amount. Includes The Detroit Bank Cash, Securities Owned, Delinquent Interest, Due from Closed Banks.

Accounted for as follows

Table with 2 columns: Description and Amount. Includes The Detroit Bank Cash, Securities Owned, Delinquent Interest, Due from Closed Banks.

Accounted for as follows

Table with 2 columns: Description and Amount. Includes The Detroit Bank Cash, Securities Owned, Delinquent Interest, Due from Closed Banks.

LIBRARY FUND

Statement of Receipts and Disbursements—June 30, 1937. Receipts: Balance July 1, 1936 \$186.55, From Taxes 656.06, Total \$842.61. Disbursements: Books Purchased 496.35, Magazine Subscriptions 343.40, Total 839.75.

SCHEDULE IV

BOND COUPON FUND

Statement of Receipts and Disbursements—June 30, 1937. Receipts: Balance July 1, 1936 \$593.75, General Fund Debt Service 70,252.50, Total 70,846.25. Disbursements: Interest Paid on Bonds 69,975.00, Total 69,975.00.

SCHEDULE V

CONSTRUCTION FUND

Statement of Receipts and Disbursements—June 30, 1937. Receipts: United States Government \$58,905.92, Interest on Bonds 2,534.99, Transferred from General Fund 30,028.23, Total 91,469.14. Disbursements: Paid on Building Contracts 213,095.72, Total 213,095.72.

BOARD OF EDUCATION DEFENDS DR. BROWNELL PART-TIME SERVICE

Continued from Page One

District has gone far and wide because of the growing distinction of our superintendent. You should know that Dr. Brownell has in effect turned over to Grosse Pointe all that he has earned in this work because he has taken leave of absence without pay.

In granting the request of Yale University for the part-time services of the superintendent during 1937-38, the Board of Education considered the following to be some of the benefits which would come to the taxpayers and the schools of Grosse Pointe:

- 1. The superintendent is to be present in Grosse Pointe for one-half of the year, but the district will pay him only about two-fifths of his salary.
2. The saving in his salary will be sufficient to provide, without added cost to the taxpayers, the full time services of a new man on the staff.
3. The superintendent in his time away from Grosse Pointe is to direct a group of graduate students in a survey of the Grosse Pointe schools, the results of which will be turned over to the Board of Education.

Similar studies, such as will be conducted by Dr. Brownell at Yale University relative to the Grosse Pointe schools, have been made by universities for school districts at costs to the school district ranging from several hundred to several thousand dollars.

It, therefore, is the judgment of the Board of Education that the part-time arrangement is a distinct advantage to the school system and the taxpayers of Grosse Pointe as well as a compliment to the ability of the superintendent of schools.

The needs in connection with the co-ordination and improvement of the instructional program in the rapidly growing Grosse Pointe district were carefully studied by the Board of Education before it decided upon having a full time director for this work. After this decision was made his appointment was purposely delayed until the new member of the Board could be present at the meeting to discuss the appointment.

It has been and is the policy of the Board of Education to fill all positions with those best qualified for the job. This means careful consideration of persons on the staff as well as those from other places. In the case of filling the position of director of instruction, the Board of Education found the best available man to be on the staff and promoted him to this job.

BOARD OF EDUCATION, GROSSE POINTE PUBLIC SCHOOLS, Charles A. Parcels, Ralph M. Clark, Charles A. Poupard, J. Lee Barrett, Albert E. Meder

Public Letter B-O-X

During the past two years, according to press reports in the Grosse Pointe Review as well as in such periodicals as the Saturday Evening Post, the National Reemployment Service in Michigan has done a creditable piece of work.

Now the service, which has helped a great many Grosse Pointe employers of domestic help and other personal service workers, is to be eliminated. The State government plan to set up similar employment offices to take its place.

It seems to me, that the directors of the Michigan service could make no wiser move than to take over the entire personnel and records of the present Federal service and thus assure Grosse Pointers and other employers and job hunters in Michigan that an efficiently operated free employment service will continue to be available to the citizens of this state.

Senators, Representatives' Terms. Senators are elected for six years, one-third of the senate being elected every two years. Representatives' terms are two years, the entire house being elected every two years.

Three Detroit Boys Win in Model Coach Contest in Michigan

Three Detroit boys and one from Lansing today were declared the winners in the Napoleonic coach-building competition conducted by the Fisher Body Craftsman's Guild in Michigan.

First place honors in both divisions went to Detroit contestants. They are George Masinda, 16 years old, a junior entrant, and M. Eugene Honderich, 18, a senior division contestant. Each will receive \$100 in cash.

The coach constructed by Honderich also won regional honors in his division, with the result that he will attend the seventh convention of the General Motors-sponsored educational foundation in Detroit, Aug. 31 to Sept. 3, besides becoming eligible to participate in the distribution of the \$5,000 university scholarships offered as national awards.

The other Detroit boy to win honors in the state competition is Donald Warde, 16. He took second place in the junior division and \$75 in cash. The senior second place winner is Charles Haddard, 20, of Lansing.

State and regional winners among boys from Michigan, Wisconsin, Illinois, Indiana, and Ohio were announced by William A. Fisher, president of the Guild and vice-president of General Motors, which sponsored the competition.

She is a lady garter snake in the Michigan Insect Zoo in Convention Hall, and her 36 pencil-like infants weren't an hour old before she sent them out to fend for themselves. This wasn't so bad, however, for Brayton Eddy, director of the Zoo, supplies them daily with the kind of insect food they would seek if they were in their native fields.

Boys of from 12 to 16 comprised the junior division, and those from 16 to 20 the senior division. Regional winners were selected from among the state winners, and national winners will be picked from among the regional winners. Names of the latter will be announced the opening night of the Guild convention at a banquet in the General Motors Building.

New Automotive Course Meets With Demands

Placing Automotive Engineering as a Bachelor of Science degree course on a par with other engineering courses such as Aeronautical, Architectural, Chemical, Civil, Electrical and Mechanical has met with immediate favor according to Dean G. A. Hendrickson of the Lawrence Institute of Technology.

At the present time, Lawrence Institute has received several hundred applications for this course. As a result full classes in all of the subjects are assured. Of particular interest among these new students are: Automotive Mechanism, Auto Parts and Accessories, Automotive Industry, Auto Machine Design, Auto and Aircraft Engines, Auto Tools and Dies, Auto Chassis Construction, Automotive Steels, and Auto Body Design.

The departmental faculty is being organized using specialized automotive engineers from local industry. The entire curricula will be offered in the Institute's Evening School. Special students for one or more classes per week are being accepted.

Traveling Library for Farm Youth

The success of the traveling library staffed by National Youth Administration workers in the Mesick area of Wexford County gives an interesting insight as to what Michigan's 125 consolidated schools and other interested agencies may soon be doing to furnish the state's rural population with reading material.

Vacations for the children of Mesick in Wexford County was not without books. The consolidated school bus was turned into a traveling library. It stops at farms every two weeks, carrying a load of books for young farmers. The traveling library obtained 500 books for the summer season from the Central State Teachers' College at Mt. Pleasant.

The traveling library follows the regular school bus route and allows participants to borrow two books. Besides new books, agriculture bulletins supplied through the County Agricultural Agent, are also placed in circulation.

This project is the first of its kind in the state and educators in rural areas are watching this venture with great interest.

Of course there is one cent fine for overdue books but the National Youth Administration library helpers report that no fines are charged when the bus is late.

East Side Meets West Side in Midget Series

In the field of sports there is none so close to the hearts of the American people as the game of baseball. It is the primary and finishing school of all athletics. When your little lad dons his first baseball mitt and lifts his tiny bat to take his cut, is he not a hero.

And the old professional who no longer can circle the bases with the speed of his youth, how reluctantly he relinquishes his place to the youngster who is coming up.

It has been the practice of the Detroit firemen to organize Midget Baseball clubs. These teams are so organized and arranged that all sections of the city has teams. They are competently managed and the expense is borne by the firemen.

This year the firemen have arranged a program for the boys in connection with the Firemen's Annual Field Day. Twenty-one boys from the west side meet an equal number from the east side and a baseball game will be played, with each side striving to uphold his section we are assured of keen rivalry, good baseball and genuine effort.

New Arrivals at Michigan Insect Zoo Attracting Attention

Thirty-sextuplets were born last week to a Detroit mother—and already she has deserted them.

Mr. and Mrs. Garter Snake and their offspring are all displayed in a big glass cage, where they crawl helterskelter over a huge spring of tumbleweed, "like," as one visitor put it, "a lot of ornaments on a Christmas tree."

Among other arrivals in the Zoo's maternity ward last week were four tiny DeKay's snakes about the size of a big darning needle and some 50 Central American wolf spiders.

Largest addition to the Zoo during the week was the Gila monster, this country's biggest lizard. The Gila (pronounce it Heela) monster lives on ants and lizards' eggs in its native southwestern desert country.

Director Eddy is also proud of a busily buzzing yellow-jacket nest, a huge hive of bees and a cage of the crickets made famous by Charles Dickens, all put on display in the last few days.

Y. M. C. A. Boys to Camp Under Stars

A group of fifty or more older boy members of the Hannan Y. M. C. A. are going camping this Thursday and Friday. With Dodge Park No. 8 near Utica as their camping grounds this group live in the open, cooking their meals over the open fire from early Thursday through supper Friday night.

Leaving Hannan Branch by bus, private cars or bicycles, the boys will go out Van Dyke to Dodge Park where they will be met by another group from Northeastern Y. M. C. A.

The camp is under the direction of Roberts D. Burr and Jack Quilhot, associate boys' secretaries of the Hannan and Northeastern branch Y. M. C. A.'s. They will be assisted by a group of trained assistant leaders.

Grosse Pointe Playground League

SENIOR HARD BALL Playoff Series (2 game knockout)

Table with columns: Team, W, L, Pct. Farms 2 0 1.000, Bisons 1 0 1.000, Parks 0 1 .000, Blue Devils 0 1 .000, Lochmoor 0 1 .000.

Last week's scores: Farms 10; Blue Devils 1. Bisons 7; Lochmoor 2. Farms 5; Parks 0.

SENIOR SOFT BALL Championship Series (2 game knockout)

Table with columns: Team, W, L, Pct. Stars 1 0 1.000, Pointers 1 0 1.000, Cavaliers 1 0 1.000, Robins 0 1 .000, Industrial Supply 0 1 .000, Beaconsfield 0 1 .000, De Van 0 0 .000.

Last week's scores: Stars 6; Beaconsfield 2. Pointers 7; Industrial Supply 2. Cavaliers 4; Robins 3.

MIDGET HARD BALL

Table with columns: Team, W, L, Pct. White Sox 13 5 .721, Cards 7 5 .583, Giants 9 8 .529, Tigers 9 8 .529, Browns 8 8 .500, Indians 8 9 .470.

FEATHERWEIGHT HARD BALL

Table with columns: Team, W, L, Pct. Beags 10 4 .714, Eagles 8 4 .666, Sparrows 6 6 .500, Hornets 2 3 .400, Indians 1 2 .333, Bisons 0 5 .000.

FEATHERWEIGHT SOFT BALL

Table with columns: Team, W, L, Pct. Giants 10 3 .769, Cubs 10 3 .769, Bears 11 4 .732, Bisons 3 11 .214, Hornets 1 4 .200.

The boys will go by trolley to the Ambassador bridge, will hike over the bridge and up to Windsor where they will visit the Walkers Dairy and see the pasteurization of milk and the manufacture of ice cream.

The boys will then have a swim as guests of the Windsor "Y." Then they will return by ferry to Detroit and by trolley to the Hannan Y. M. C. A.

Dads Win Softball Game at Hannan Y

Over sixty-five fathers and sons attended the Dad's Night program at the Hannan "Y" Friday night. The softball game which started the evening was won by the dads team, score 6-5.

Boys' Inter Branch Golf Tournament

A boys' inter-branch golf tournament is scheduled for Tuesday, August 24, at Chandler Park. This event will start at 1 o'clock.

Case Still Holding Many 'Lost' Checks

Leon D. Case, secretary of state, is custodian of about 500 checks averaging \$4 each, which the State of Michigan has been trying to return to their rightful owners for more than three years.

In 1934, the legislature reduced the weight tax rate on passenger cars, from 55 cents to 35 cents per hundred-weight. But before the act was passed, thousands of motor car owners had already bought their 1934 plates.

Only occasionally is a check claimed, but much more frequently people apply for refunds which they think they never got until their signatures on cancelled checks are turned up from the records. The great bulk of refund checks originally returned unclaimed in 1934, were claimed the next year.

The checks are always good, but from all appearances virtually no more of them will ever be claimed. Incorrect addresses, or changed ones are believed to account for the condition.

Messiah Lutheran Church

Southeast corner of Kercheval and Lakewood avenues. A. H. A. Loeber, pastor, 1434 Lakewood avenue. Telephone Lenox 2121.

"Hope" will be the subject of the sermon on the coming Sunday, August 22, at 10 a. m. This will be the third of the sermons on "What The Christian Has."

Holy Communion will be celebrated in the service on the last Sunday of this month, August 29.

The Ladies' Aid will meet next Wednesday, August 25, at 1:30 p. m.

Mt. Olive Lutheran Church

"The Little White Church Around the Corner," Radnor avenue (Lincoln) at Mack. F. E. Stern, pastor. Sunday school at 9:30 a. m. Services at 10:45 a. m.

Revised Edition of Students Handbook Is Available Now

The revised edition of Grosse Pointe High School's student handbook, The Pointer, will be obtainable at the high school next week, announces Miss Doris K. Trot, adviser of publications.

New students will be given copies free of charge at the time of registration. Copies of the new edition may be obtained by others who desire them for 25 cents each.

The revised Pointer differs from its predecessor only in the fact that it has been brought up to date. A picture of Mr. Paul A. Rehms, the new principal, an explanation of the slightly changed interpretation to be put upon marks next year, and a brief explanation together with the bell schedules of the Trombly-Defer and Cadieux annexes are included.

The major portion of the book is devoted to information connected with the student's choice of subjects. Included in the course of study section are write-ups of all the courses offered

by the school as well as complete information concerning graduation and college entrance requirements. Several new courses appear for the first time. Among these are a capella choir, remedial English, and child care.

The new edition of the handbook appears in a red cover to distinguish it from the blue-covered booklet of two years ago. No pages have been added to the total number in the book, the additions having been accomplished through omissions and condensations.

The new student who reads the handbook before the opening of school on September 8 will be well informed concerning his new school in regard to its physical layout, its schedule, its rules of conduct, its grading system, its extra curricular activities and awards, and its course of study.

Milk Is Best Food for Calcium Supply in Daily Diet

Milk has no equal among foods as a source of calcium and when taken in suitable quantities is a dependable source of calcium, phosphorus, protein, vitamin A, and vitamin G, according to the National Dairy Council.

Milk contains also appreciable quantities of other vitamins and minerals. About two-thirds of the solids of milk consist of fat and sugar, which are sources of energy. The solids in milk total nearly 13 per cent, a fact often lost sight of because milk is a liquid.

Milk in some form might well furnish one-fourth of the total energy of the diet of the average family, says the Bureau of Home Economics of the U. S. Department of Agriculture. In terms of money value, from one-fifth to one-third of the allowance for food should be spent for milk and its products.

Quoting Dr. H. C. Sherman of Columbia University, the government bulletin "Milk for the Family" gives the rule that "whatever amount of money is available for the family's food, it is wise to spend at least as much for milk (including cream and cheese if they are used) as for meats, poultry, and fish."

Government nutritionists who have studied food selection from the standpoint of nutritive value suggest weekly market orders and menus based on four diet plans: (1) a liberal diet, (2) an adequate diet at moderate cost, (3) an adequate diet at minimum cost, (4) a restricted diet for emergency use.

In all of these diets, milk plays a leading part. The government nutritionists point out that "for individuals of all ages and families of all incomes, milk and cheese are of prime importance in the diet because of their exceptional food value."

Senator Vandenberg to Speak at Michigan G. O. P. Convention

The scheduled address of United States Senator Arthur H. Vandenberg in Bay City during the two-day Republican rally, September 17 - 18, is expected to attract nation-wide attention due to his prominence in the national political picture, being one of the outstanding candidates for the G. O. P. presidential nomination in 1940.

Baby-Stealing by Eagles  
Classed as Pure Fiction

According to authorities, eagles cannot lift more than 12 pounds. This fact alone makes baby-stealing stories pure fiction. No acceptable proof has ever been advanced to substantiate the belief, asserts a writer in the Detroit Free Press.

The food of the eagle is 98 per cent fish. They do not care for animal meat when fish is to be had.

It is freely admitted by ornithologists that the eagle is by nature a robber. The osprey, an expert fisherman and too small to defend itself against the big eagle, is often forced to give up its fish to the eagle. Eagles are more likely to join the buzzards in clearing shores of dead fish than to catch them alive themselves. It is generally agreed also that eagles seldom attack birds and mammals unless they are wounded or weakened by disease.

Aside from its commanding appearance and devotion to its young, the eagle has no great virtues to warrant its selection as a national bird. But it has beauty and splendid appearance. From the earliest time the eagle has inspired thoughts of courage, strength and freedom. That is why the bird has been selected to be the national emblem for many nations, as it is the emblem of the United States.

To see the white-headed bird poised against the blue in the top-most branch of a tall tree is to witness one of the finest sights. To see it circle on widespread motionless wings, now sweeping for a moment near the earth, now rising slowly in a great ascending spiral until almost lost against the clouds, is to be awe-struck at this symbol of freedom.

# Happenings of the Nation Told in Pictures

## Scenes and Persons in the Current News

1—A Japanese outpost in the front line as the Nipponese engage the Chinese in undeclared war in North China. 2—View of mass meeting of 20,000 people which followed the annual parade in New York city of the American League Against War and Fascism. 3—Archbishop Edward Mooney (left), recently installed in the Catholic diocese of Detroit, confers with Archbishop Giovanni Cicognani, papal delegate to the United States, who consecrated him.

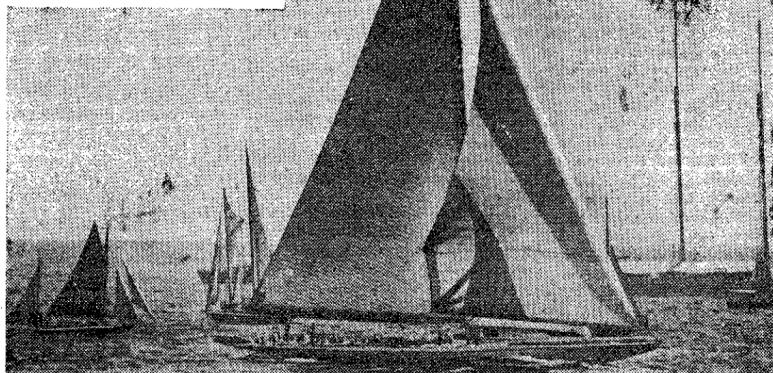

## Cleveland Decides to Extend Its Exposition

Throngs such as these shown crowding its amusement area caused the Great Lakes exposition in Cleveland to extend its closing date from September 6 to September 26, according to Lincoln G. Dickey, general manager of the fair. Dickey, shown in the inset, stated that the September 26 date was final and by that time more than 8,000,000 people would have seen the 1936 and 1937 editions of Cleveland's celebration of its centennial. Visitors from every state have attended the Fair.

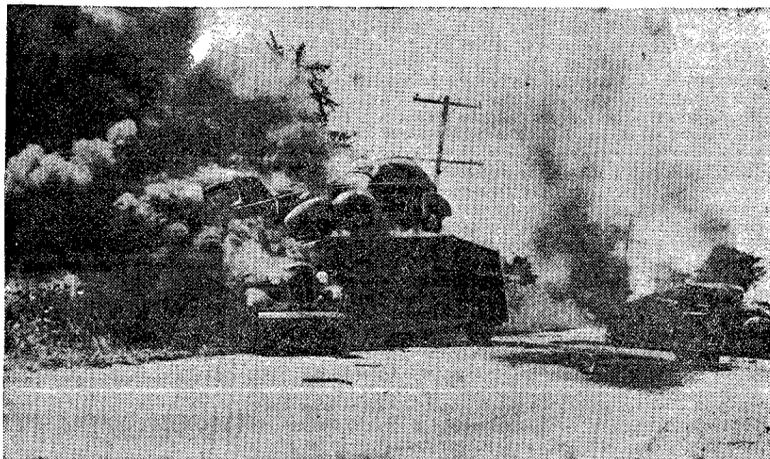

## Ranger Sets Record in Retaining America's Cup

Striking across the finish line ahead of its British rival in a series of four races off Newport, R. I., the Ranger, piloted by Harold S. Vanderbilt, retained possession of the America's cup. The defender broke two racing records in its victories over the Endeavor II, piloted by T. O. M. Sopwith. The races were held over a 30-mile triangular course on the Atlantic ocean.

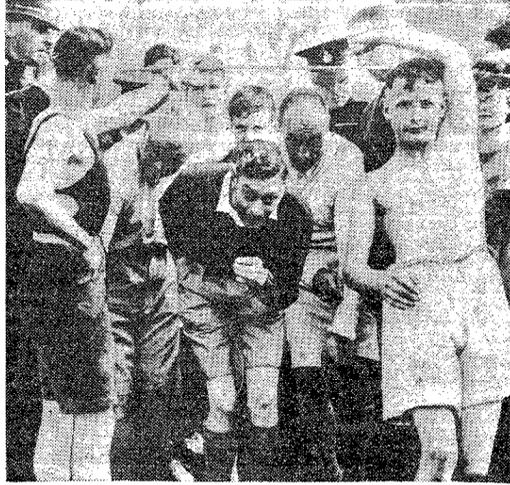

## Flaming Death Follows Collision on Highway

This happened when a truck carrying four new automobiles and another machine collided on a highway west of Akron, Ohio. The four cars and truck were consumed in the fire. At the right may be seen the auto, also burning. The driver of the truck escaped injury when he jumped from the cab, but the driver of the car was burned to death.

## King in Shorts Forgets State Cares

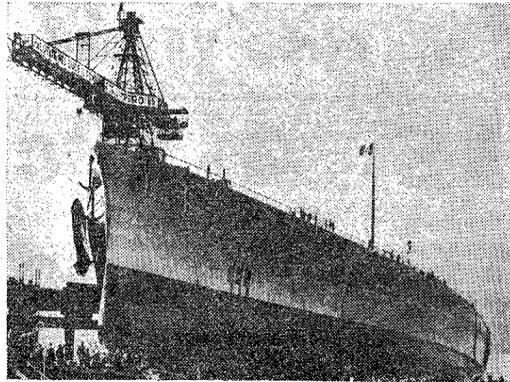

Garbed in shorts and stockings and sweater to enjoy a day of fun, King George VI is shown on a recent visit to the duke of York's camp for underprivileged boys at Southwold, England. Forgetting the cares of state the democratic monarch ducks under a barrier to get a better view of a football match.

## TO SUPREME COURT

Senator Hugo LaFayette Black of Alabama, whose nomination to fill the Supreme court vacancy created by the retirement of Associate Justice Willis Van Devanter, was presented to the senate by President Roosevelt. Black, a vigorous New Deal Democrat, is fifty-one.

## Italy Launches Biggest Battleship

Thousands shouted and waved their hats as this sleek monster slid down the ways at Trieste, marking a red-letter day in Italian naval history. The battleship is the Vittorio-Veneto (35,000 tons), the largest of Italy's sea-warriors and one of the largest in the world. The sign on the launching mast reads: "Hail Il Duce as founder of the empire."

## SPECKLED KING

"King Freckles" was the title conferred on Jackie Martin II of Philadelphia, winner of a freckle contest in Philadelphia. Jackie was chosen from among hundreds of runners-up as the kid most abundantly freckled and therefore most deserving of the crown and kingly cup.

## Chiang Unites China Against Japs

Generalissimo Chiang Kai-shek, under whose personal control the financial and economic resources of all China were placed in the struggle against Japanese aggressions in the north. Chiang, who heads China's supreme war council, is shown as he left a conference at Nanking following the outbreak of the North China trouble.

## NOVEL SURF SLED

Miss Althea Martin shown with the new type of surf sled patented by a Los Angeles newspaper man, which will lessen the danger of the rider getting hurt in the surf. The streamlined pontoon below its nose allows it to float the rider in perfect safety, while the stabilizer shield along the tail holds it to a straight course.

## Monument to Amundsen Is Unveiled

A monument to Roald Amundsen, the great Arctic and Antarctic explorer who was the first to reach the South pole, as it appeared following its recent unveiling at Tromsø, Norway. The memorial, costing \$4,250, was raised by popular subscription. Its sculptor was Carl E. Paulson. Lincoln Ellsworth, Amundsen's companion on a North Pole expedition, contributed \$1,000 to the fund for its construction.

## NEW TAMMANY CHIEF

Christopher D. Sullivan, new leader of Tammany Hall in New York who succeeded the late James J. Dooling as head of the famous Democratic organization. Following his election, Grover Whalen withdrew as a candidate for mayor of New York in favor of Senator Royal S. Copeland.

## Bees Are Credited With Size, Beauty of Blooms

Bees have had a tremendous influence on the earth's flora and fauna. Flowers with their sweet scent, beautiful colors, and their honey pots are a combination which Nature designed to get a certain job done—to perpetuate varieties of plants that the earth will always be covered with vegetation without which man and beast could not endure. The scent and color attracts bees and the nectar bribes them to visit plants and crosspollinate them.

In the beginning, notes a writer in the Missouri Farmer, botanists tell us, there were no flowers nor bees. Pollen was simply produced in abundance to be carried by wind and there was such waste of it, so determined was Nature not to take chances, that huge deposits of coal have been formed with pollen. When flowers and bees came the world became more beautiful. Plants with the most beautiful and the sweetest flowers were favored, given an advantage, and hence we have plants as they are today. Nor has this evolution stopped—it is still going on and a case in point is the goldenrod; the bees have so crossed it as to have developed almost numberless varieties, while the flowers of other plants are said to be growing in size and beauty as a result of the visits of their mutual friends, the bees.

## Definition of "Gentleman"

A few definitions of "gentleman" follow: "He is gentle that doth gentle deeds" (Chaucer); "The man of sense, of grace, of accomplishment, of social power" (Emerson); "His nature is kind and affable to every creature" (Barnfield); "One who never inflicts pain" (Newman); "One that should leave the world untainted with falsehood or dissimulation or wantonness or conceit" (Marcus Aurelius); "Living blood and a passion for kindness does at last distinguish God's gentleman from Fashion's" (Emerson); "Fineness of nature, rendering the body capable of the most delicate sensations and the mind capable of the most delicate sympathies" (Ruskin); "One who understands and shows every mark of deference to the claims of self-love in others, and exacts it in return from them" (Hazlitt).

## Does Not Lose Citizenship

A natural born citizen of the United States does not lose his citizenship by living abroad, no matter how long he stays there, unless he renounces it by becoming naturalized in the country of his choice. But if a naturalized citizen of the United States returns to the country of his birth, and remains there indefinitely without contact with the American government, it is assumed that he has forfeited his American citizenship, and it remains for him to prove that he has not. Yet, a naturalized citizen who has, for instance, business connections which take him to his native land and keep him there may stay for years without forfeiting his citizenship.

## An Early Day Feminist

There have always been feminists, and there is the story of long ago of the widow of a German printer who strongly objected to the supremacy of husbands, and desired to revise the text of the passage in the Bible which speaks of the subjection of wives (Genesis 3:16). The original text is "He shall be thy lord." King James version: "And he shall rule over thee." For "Herr" (Lord in German), she substituted "Narr" (fool in German) and thus made the reading "He shall be thy fool."

## English House of Parliament

The English House of Parliament is a royal palace, and its official name, when not in session, is Palace of Westminster.

Tuberculosis Facts

"Facts about tuberculosis must constantly be placed before the public," Theodore J. Werle, executive secretary of the Michigan Tuberculosis Association, emphasized today in a discussion of health education and its influence on tuberculosis control.

be made common knowledge to be really effective. Several practical bits of information regarding the White Plague should be memorized—like the multiplication table," he declared.

within the reach of everyone. They should be utilized to the fullest possible extent if tuberculosis is to be completely eradicated," Mr. Werle stated emphatically.

"Thirdly, contact with a case of active tuberculosis must be avoided. It is among the people who have been exposed to the disease that tuberculosis spreads most rapidly.

"Because tuberculosis visits more fatalities upon the young girl, the man in industry and the Negro, these three population groups are in especial need of tuberculosis information," he said.

"Keep the Milk Moving," Dairy Industry Tradition

This may have happened to you—for it does happen.

You are speeding along in an express train when suddenly a train not nearly so elegant as the one you have paid to ride in goes roaring past.

This super-express is the milk train. Its schedule is important because there are lives dependent upon its prompt arrival.

Every morning thirty million bottles of milk are deposited on the doorsteps of America. Behind that achievement—which is so commonplace we seldom give it a thought—is the world's most efficient system of distribution.

The milk boasts many cherished traditions, of which "Keep the milk moving" is a keystone. The dairy farmer and his helpers meet the first deadline at the country receiving plant.

The milkman is the final link in the chain. Storm or flood does not halt him, and when there is no beaten path to your doorstep he beats one.

Facts About "Gus" Dorais, Football Coach at U. of D.

Full Name—Charles Emile Dorais. Nickname—"Gus." He was first given this label by classmates at Notre Dame because his surname is pronounced exactly the same as that of the great French painter and illustrator, Gustave Dore, who flourished in the latter half of the nineteenth century.

Birthplace—Chippewa Falls, Wisconsin. Date—July 2, 1891. Grade School—Notre Dame Parochial, Chippewa Falls, Wisconsin.

College—University of Notre Dame, September 1910 to June 1914. Graduated in June 1914 with an LL.B. Columbia College, M. A. in June, 1916.

Athletic career—When Dorais graduated from high school, after having been selected as All-Wisconsin quarterback, he had the choice of attending either Minnesota or Notre Dame.

When he enrolled at Notre Dame in September, 1910, and went to the gym to meet the football coach, he was met with a sarcastic remark about his small stature (5 feet, 7 inches) and his lack of weight (145 pounds).

As a football player, he stood out for his running back punts from the safety position, fine punting, almost unerring drop and place-kicking (he missed only one in four years of playing) and, of course, forward passing.

In the summer of 1913, Dorais and Rockne worked at the summer resort at Cedar Point, near Sandusky, Ohio, and together they practiced forward passing. In this connection, the fact is noteworthy that Rockne, too, originated something new in the business of receiving forward passes.

In the summer of 1913, Dorais and Rockne worked at the summer resort at Cedar Point, near Sandusky, Ohio, and together they practiced forward passing. In this connection, the fact is noteworthy that Rockne, too, originated something new in the business of receiving forward passes.

The forward-passing team of Dorais to Rockne started Notre Dame on its road to fame and changed the entire complexion of the game of football.

As a writer, Dorais has a style that is noted for its simplicity. He has the rare faculty of being able to write for the "man of the street," compactly and intelligently.

Dorais is quite popular as a coaching school instructor. He has lectured at many of them in all parts of the country.

setting what is probably still the record for completed consecutive passes and completely demoralizing the Army team. The result of that game was 35 to 13 for Notre Dame and use of the forward pass, not as a mere threat, but as a real offensive scoring weapon.

Dorais captained the 1912 Notre Dame team and Rockne, the 1913 team. In 1912 Dorais was picked on most of the All-Western teams and in 1913, his final season, on most of the All-Western and All-American teams.

Coaching career—Dorais began his coaching career in the fall of 1914 at Little Columbia College (Iowa), then known as Dubuque College. Out of a total of 28 games played during the seasons from 1914 to 1917 inclusive, he won 17 games, tied 2 and lost 9.

He joined the army in 1918 and was detailed to Camp MacArthur, Waco, Texas. Here he was appointed Director of Sports. His football team won all of its games and the championship of the various camps.

Before the succeeding football season, Gonzaga University appointed Dorais its Director of Athletics and head coach of football, basketball and baseball. His study at Gonzaga began in the fall of 1920 and ended in March of 1925.

Dorais came to the University of Detroit in March, 1925. Because of the many adjustments that had to be made, his first two teams were mediocre and less.

In a game with Villanova in 1932, Nott completed nine consecutive passes, two of which resulted in touchdowns.

Married—to Viola Fettgatter of Dubuque, Iowa, May 20, 1917. Children—Thomas, Jan. 25, 1921; William, Dec. 24, 1923; Dorothy, May 1, 1925; Joan, Nov. 7, 1928; David, Dec. 12, 1933.

Hobbies—Fishing, hunting, golf, in the order named. Sidelines—Commentator for the North American Newspaper Alliance, covering Midwest football.

Radio series football talks to boys. Physical description—Short, (5 feet, 7 inches); weight now about 155 pounds; strong and wiry; slim; face has deep lines and hair is all there, but is now streaked with gray.

Additional information—Should have added under "Career in athletics in college" that Dorais also played baseball at Notre Dame and ran on the track team. Noteworthy as to the latter is the fact that he performed as very few other runners do, namely, he ran both the mile and the sprints and was better than the average in both.

To raise some much needed cash while at Notre Dame, Rockne entered several prize fights, always under an assumed name. Dorais used to sneak off the campus with him, too, and acted as his second and manager.

As a writer, Dorais has a style that is noted for its simplicity. He has the rare faculty of being able to write for the "man of the street," compactly and intelligently.

Dorais is quite popular as a coaching school instructor. He has lectured at many of them in all parts of the country.

His lone effort at book-writing is his treatise on "The Forward Pass and Its Defense." This was published in 1931 by the Athletic Book Company of Chicago. It is generally considered the last word on the subject.

Christian Science Churches

"Mind" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, August 22.

Among the Bible citations is this passage (Ps. 40:5): "Many, O Lord my God, are thy wonderful works which thou hast done, and thy thoughts which are to us-ward: they cannot be reckoned up in order unto thee: if I would declare and speak of them, they are more than can be numbered."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 209): "Mind, supreme over all its formations and governing them all, is the central sun of its own systems of ideas, the life and light of all its own vast creation; and man is tributary to divine Mind."
