

Ed Palumbo Given Praise for Work on U. of D. Grid Team

The Man of Destiny on the Team of Destiny. That's what they're calling Ed. Palumbo, left-halfback on the University of Detroit football team this fall.

Ed. owes his place in the football sun to an accident—not one that he was the victim of but one that robbed the squad of Jimmy Piper, its star triple-threat halfback.

Then in the Manhattan game, the fifth on the schedule, it happened.

Piper, who had been passing the Titans to victory, was laid low with a broken hand, out for the season, it seemed.

So far, so good. But it remained to be proved whether Palumbo could hurl passes against stiff competition as unerringly as he did in scrimmage practice.

DR. J. G. HARVEY VETERINARIAN Modern Equipped ANIMAL HOSPITAL 17151 KERCHEVAL, at Neff Road

It turned out that Ed. was an even better Saturday afternoon player than a practice player, for he threw two passes that resulted in touchdowns against Duquesne and gave Detroit a victory.

When the current season opened, Piper was ineligible, the result of a condition in one of his studies.

But Jimmy had been in the game only two minutes when he was injured, this time with a broken ankle.

His home is in Cleveland and he prepared for college at Cleveland Latin. He is 5 feet 10 inches tall and weighs 162 pounds.

Samuel H. Wylie Will Lecture to Theosophical Society, Friday, Nov. 5

Mr. Samuel H. Wylie, lecturer for the Michigan Theosophical Federation, will give the first of a series of seven lectures in Theosophical Hall, 1509 Broadway, Wurlitzer Building, on Friday, November 5 at 8 p. m.

Free classes in the study of Theosophy are held Mondays at 8 P. M. and Friday afternoons at 2:30.

Undersea Adventure for Art Institute Patrons on Sunday Afternoon

Undersea adventure is promised patrons of the World Adventure Series of the Detroit Institute of Arts next Sunday afternoon, November 7, at 3:30.

Stationed in a metallic tube and steel chamber that stretched from a ship to the floor of the Caribbean, Mr. Williamson obtained in color motion pictures a complete record of undersea life.

Mr. Williamson's father invented the flexible tube which let Mr. Williamson work below the surface.

Mrs. Benjamin S. Warren left last week for New York where she will lecture to the Garden Club of America on "Kashmir."

Mariner News

The "Northern Light," Ship No. 162, Grosse Pointe, Michigan, put to sea on its Girl Scout Mariner journey on April 16, 1937.

Parents, relatives, Pilot Committee members, friends, Sister Mariners and Brother Sea Scouts, accepted invitations to the investiture ceremony.

On May 8, the officers and crew were feted by the Sea Scouts of the "Yosemite" in honor of their entry into the "order" and in reciprocation of their hospitality and good will.

The first field trip taken as a ship was to the "Wawatam," the only train ferry of its kind in the world.

During the week-end of August 21, the ship journeyed to Marblehead, Ohio, on Lake Erie, and visited the Lighthouse and Coast Guard Service.

On June 26, the crew and officers of the ship journeyed to Kingsville, Ontario, where they spent a most delightful week-end at a Sister Mariner, Marilyn Rupp's cottage.

Besides these special events, there have been short supervised sailing and motor cruiser trips.

One of the projects for the coming season includes the making of a relief map of Lake St. Clair: channels, islands, harbors, lighthouses, buoys, etc.

The ship plans to take a cruise during the summer of 1938 on an honest-to-goodness schooner and has definite plans for earning the necessary expense.

Words cannot properly express the debt of gratitude the ship owes to its Pilot Committee Chairman, Norbert Neff, who has given of his influence, time and energy, in behalf of the successful launching of the "Northern Light"; and to Mr. L. B. Oldham, publisher of the Grosse Pointe Review, who has printed invitations and cards and is the dogger of the ship's flag.

Guiding us always is that northern light—Polaris—described in the following poem (and adopted by the "Northern Light" as its inspiration).

POLARIS "A falling star is a breathless wish, Gleaming through the night, But foveller is the constant star"

Public Acts of '37 to Be Huge Books

Laws cost money; the more a legislature passes, the greater the cost to print the volumes of Public Acts at the end of each session.

There are indications that copies of the 1937 Public Acts may break several records. Each of the 13,500 volumes will contain approximately 1,000 pages.

Paper for the 1935 volumes cost the state \$2,439; printing and binding came to \$9,995. The books for years have been sold within Michigan for \$1.50 postage paid.

The books will be available about December 1.

Lawrence Tech-Ferris Clash at Ford Field

With the championship of the Michigan-Ontario Collegiate Conference hanging in the balance, the Lawrence Tech Blue Devils will meet the Ferris eleven on Ford Field this Saturday in what should be a football classic.

Last Saturday Ferris smothered Assumption College 27-0 while Lawrence Tech was defeating Holbrook College at Manchester, Ohio 19-6.

Coach McElwain of Ferris has 12 veterans on his squad while Coach MacGillivray of Lawrence has but four.

Saturday will be homecoming day for Lawrence. All graduates of the college are expected for the game.

Canada-Mexico Road Longest The 3,700 miles of highway leading from the Gaspé Peninsula, Canada, across the United States to Mexico City is by far the longest automobile route in the world.

Trouble Will Leave You it goes away and leaves you if you quit thinking about it.

Prepare for Winter! LET US CLEAN and CONDITION YOUR Heating Plant Now! H. BUCKERIDGE & SON

For Snappy and Perfect Cleaning and Pressing Service CALL TU. 2-3000 IMPERIAL CLEANERS SUITS OR DRESSES Perfectly Cleaned \$1.09

### Buckeridge & Son Have Been Appointed Norge Agents in Grosse Pointe

(Continued from Page One)  
omical operation of their heating plants during the coming winter. Buckeridge and Son are particularly qualified to handle this business inasmuch as they have, in conjunction with the Detroit City Gas Company, installed gas fired equipment over a period of the last ten years.

This new Norge gas burner features entirely different principles than are offered in any other Domestic Gas Burner because the amount of air which is required for complete combustion is positively regulated and supplied under pressure by a motor driven fan in exactly the right proportion to the amount of gas passing through the burner. In conjunction with this perfect mixture of gas and air, a specially built combustion chamber is supplied with each burner, which is easily adapted to any heating plant and which produces results in the home heating plant comparable to those experienced in commercial heat treating applications where economy is absolutely necessary. As an example of the amazing results obtained with this burner, it is noteworthy that Norge Gas Burners operate at temperatures of 2300° F. in the combustion chamber.

A unique feature of the combustion chamber is the pressure baffle which directs the hot flames from the combustion chamber so that they are sprayed over the entire heat absorbing surface of the boiler or furnace. This results in a larger heat transfer to the home with maximum efficiency.

The burner is sold, endorsed and serviced by the Detroit City Gas Company and any representative of the Gas Company can give you complete information relative to it. A burner is on display at Mr. Buckeridge's store and Mr. Buckeridge will be glad to give into technical details and will be glad to make arrangements for survey of your heating problems and will supply an estimate of approximate heating cost using this burner.

Mrs. James Turner returned last week from Paris, France where her daughter, Pamela, entered school.

## WORLD CRUISE

Number One

A bugle call at 11:30 a. m. warned the visitors abroad to go ashore. Promptly at high noon, Sunday, January 10, the mooring lines of the Reliance were loosened from the bollards, and two little tugs coaxed the great steamer out into the Hudson. One tug placed itself at the bow and pushed down the stream; the other placed itself at the stern and pushed upstream, and headed the prow down stream. Then the Reliance moved out under its own power on the first leg of its cruise around the world.

The ship's itinerary is 31,579 nautical miles in length, but shore excursions have been provided at 36 different ports. One shore excursion, from Bombay, covers more than 3,000 miles. The Reliance is due back in New York on May 25, or 136 days after its departure. During this time she is to visit four other continents and thirty different countries.

The Reliance, operated by the Hamburg-American line, was put into service in 1920. Construction was begun before the World War, but was delayed during the war. Her registered tonnage or displacement is 20,000 tons. Compared with the Queen Mary of the Normandy, she is small—but compared with many others, she is large. Passengers have expressed the opinion that her size makes for a comfortable voyage.

On the bridge are located three gyro compasses, one on either side, and one directly in front of the helmsman. They indicate the direction that the ship is moving. The real gyro compass, called the "mother" compass, is located six decks below, and is connected with the bridge compasses by electric wires. These latter are called "daughters."

On this ship, the bridge is called the "ruderhaus," which is not inappropriate, inasmuch as the rudder is operated here, and it controls the direction of the ship. The rudder is operated by steam, and the helm is a steering wheel and a kind of throttle. The helmsman has in front of him a magnetic compass, in addition to the "daughter" compass. The helmsmen are only on duty for one hour at a time.

There are many safety devices on

toward Funchai, Madeira, and the Azores broke the force of the storm on our path and gave us relief. The Hamburg-American liner, Hansa, was docked in the berth adjoining ours at 46th Street, New York. It was scheduled to sail an hour later than the Reliance, and we watched them load it. Its original name was Albert Ballin, but recently they changed it to Hansa. The Hitler government investigated and found that Albert Ballin had Jewish blood in him, so the name had to be changed instantly. Perish the thought of a ship with a Jewish name ever flying the sacred Swastika. The names of all writers of the Bible also are ineligible.

I asked a German citizen, aboard the Reliance, why the Germans were prejudiced against the Jews. After I explained the meaning of "prejudice" to him, he promptly said that it was because the Jews surpassed them in everything. They used to take the lead in science, the professions, finance, business, and about everything else of merit. He could have abridged his statement considerably by boiling it down to one word, "jealousy." I thought of Pharaoh Rameses II, who said: "Behold, the people of the children of Israel are more and mightier than we; come on, let us deal wisely with them," etc. Rameses II "set over them taskmasters to afflict them with their burdens . . . but the more they afflicted them, the more they multiplied and grew. And they were grieved because of the children of Israel."

I suppose that if Einstein had published his theory of relativity under the name of some German scientist he would have been permitted to continue to live in the Fatherland. The nation, or the individual, who persecutes the Jew must suffer for it some time. The sublime saying: "Inasmuch as ye have done it unto the least of these, my brethren, ye have done it unto me," was uttered particularly of the Jews. They are His "brethren."

The steamship people publish daily the "Reliance Observer," and deliver a copy to each passenger, at the noon luncheon. It is chiefly devoted to social activities, and information to passengers about shore excursions. They also make typewritten copies of the radio news bulletins and place them at con-

venient places for the passengers to read. The bulletins of the week have included such items as the finding of the body of the kidnapped Mattson boy, truce in the automotive strike, and the movement of the first installment of gold to Fort Knox. If the origin of this gold could be traced, the trail would lead to some unexpected places. The world has been collecting gold for several millenniums, and little of it has been destroyed or lost. About three thousand years ago, Solomon collected most of the known supply of gold. No doubt some of the Fort Knox stock was in Jerusalem at one time. During the reign of Rehoboam, son of and successor to Solomon, King Shishak of Egypt came up to Jerusalem and robbed the Temple and the King's palace of its gold. It was this young upstart, Rehoboam, who said he was greater than his father in proportion as his thigh was greater than his little finger. But when King Shishak came, Rehoboam meekly yielded and let him carry off the nation's supply of gold. Then he replaced the temple ornaments with brass.

At 11 o'clock Sunday morning, Dr. Clifton H. Brewer preached a sermon in Social Hall. The splendid orchestra favored the gathering with a sublime rendition of Ave Maria. About 3 in the afternoon a beautiful sail ship was sighted. When we came near, both ships stopped. With all sails to the wind, the sail ship presented a beautiful sight. Passengers crowded to the Promenade Deck to find out what it was all about. A row boat left the sail ship and brought mail to the Reliance. The sail ship proved to be the "Dutchland," a German training ship for naval cadets. We are off the beaten path, and passengers have seen only two ships since leaving New York. We are due to arrive at Funchai, Madeira Island, at 7 o'clock Monday morning. Each passenger has been supplied with a coupon book which entitles him to participate in all parts of the shore excursion, including a ride up the mountain on the funicular (cog-wheel) railway, and a slide down in a wicker basket. Passengers have been divided into two groups. One is to disembark at 8:30; the other at 8:45.

### Community Fund Campaign Making Final Week's Drive

Community Fund campaigners today closed their first week of the 1938 drive for \$2,500,000, facing a big task in the single week remaining to raise the quota needed for the support of the Fund's 80 charitable and health agencies.

Report meetings next week will be held daily instead of every other day as has been the case during this first week. This is expected to stimulate the activities of the solicitors and to wind up the campaign by November 12 with virtually all of the campaign goal obtained.

The campaign this year is being operated on the usual plan with solicitors visiting men and women in their places of employment rather than in the home. "Obviously, it will be impossible to solicit every Detroit who wants to give to the Fund," Percival Dodge, managing director, declared. "We are turning, in this part of our campaign, to the 300,000 and more who annually are the backbone of the Fund."

Those who are not solicited should telephone the campaign headquarters at the Hotel Statler, Cherry 7830, or come into our headquarters and make their pledge. A telephone call will bring a solicitor if you are unable to mail or bring in the subscription.

Every effort will be made, Dodge indicated, to reach as many contributors as possible by the 4,000 persons, men and women, who are seeking to raise the quota.

"It is impossible, however, for us to solicit every person in Detroit," he said. "We know there will be many who want to give but who are not solicited. A telephone or personal call to the headquarters is the only way we can reach these persons."

A preliminary special gifts campaign held the last two weeks in October raised \$1,161,179 for the Fund. These solicitors still are at work seeking to raise the remaining amount of their total goal, \$1,555,187.

Statements urging support of the Fund have been received by many leaders in Detroit civic life. Mayor Couzens, honorary president of the Community Fund, G. R. Harris, superintendent of the Department of Public Welfare, and Clarence E. Brewer, commissioner of the Department of Recreation, were among the city officials to give their support.

In all churches last week end, Catholic, Protestant and Jewish, appeals were made to congregations as a result

of letters sent to pastors by Dr. Ralph McAfee, executive secretary of the Detroit Council of Churches, Dr. Leo M. Franklin, of Temple Beth El, and Most Rev. Edward Mooney, Catholic Archbishop of Detroit.

### Judge John Faust Post to Stage Military Ball

The Military Ball in the Naval Armory, November 11 at 9 p. m., will be the outstanding observance of the nineteenth anniversary of Armistice Day. This brilliant and colorful dance, has played host to thousands of military, naval, veteran and citizen groups during the past seven years. Brilliant uniforms, colorful dresses, gay decorations, smooth spacious floor, the grand march and the enchanting strains of Mike Falk's 14-piece orchestra serve to present an entertaining spectacle for the guests of Judge John Faust Post No. 113, The American Legion.

The post is composed of over 500 city, state and county employed world war veterans. It is named in memory of that citizen, soldier and jurist, the late Judge John Faust of Recorder's Court. In its varied program are several youth building activities. Strong bodies, clean minds and a spirit of fair play are accomplished through the sponsorship of a Boy Scout troop and a junior baseball team in the local Legion league. Their Sons of the Legion Squadron are encouraged in Americanism and taught useful and constructive hobbies.

In past years the post has presented scholarship award medals to a dozen schools annually; both public and parochial, in recognition of outstanding student effort.

The Military Ball is an informal affair, welcoming participation by all citizens in rejoicing that cessation of hostilities 19 years ago has brought peace to our nation. Guests in uniform or civilian attire are equally welcome. Admission is 75 cents per person.

### Anointing With Oil Is Old

Anointing with oil has been part of the Coronation ceremony of English Kings since the crowning of Egbert of Mercia in 785. The first Scottish king to be anointed is believed to have been Edgar, in 1097.

Rush to the Klondike  
About twenty-eight thousand persons rushed to Alaska when the news of gold in the Klondike region reached the outside world.

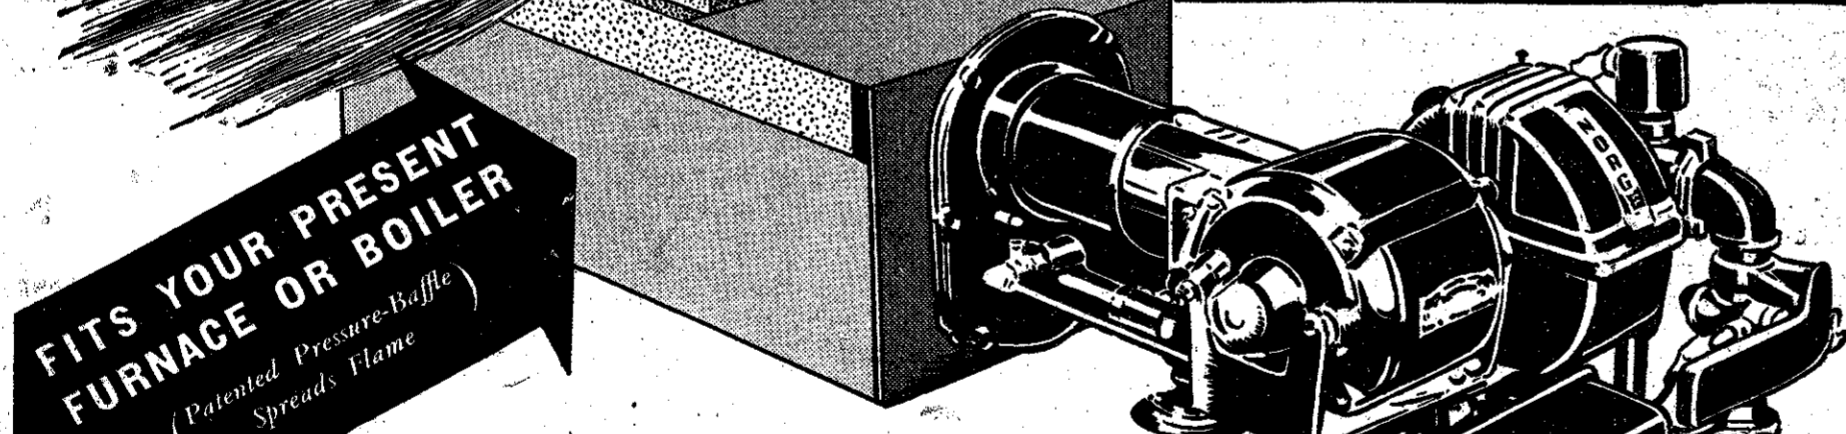

Hanging Glaciers  
Hanging glaciers are poorly formed glaciers hung high up on the cliffs and do not descend the slopes.

Again **NORGE** Leads

WITH A REVOLUTIONARY NEW **GAS BURNER**

Don't Buy Any Fuel UNTIL YOU INVESTIGATE THIS REVOLUTIONARY NORGE GAS BURNER

that cuts Heating Costs Amazingly

FITS YOUR PRESENT FURNACE OR BOILER (Patented Pressure-Baffle Spreads Flame)

**\$10.00 DOWN** Puts this Norge Unit in your Present Heating Plant Up to 3 Years to Pay

Now you can enjoy clean, carefree, dependable gas heat at amazingly low cost! Gas heat on an economy basis... possible because of the revolutionary new Norge gas burner that operates at efficiencies never before reached with this type of fuel in home installations. The new Norge gas burner is a Pressure Type burner that is independent of weather conditions or draft for perfect operation. Furnaces or boilers that have never before been adaptable for gas can now use this perfect fuel!

Develops as Much as Twice the Heat Obtainable from Ordinary Gas Burners  
Triple control of air and gas makes possible the perfect combustion obtained in the Norge unit. This and other fully patented principles place this burner years ahead of any other burner on the market. It develops from 1,000° to 1,500° more heat than ordinary burners do from the same fuel. Get complete details at once!

**SPECIALLY ENGINEERED INSTALLATIONS FOR STORES AND BUSINESS BUILDINGS**

The Norge Gas Burner can be adapted to nearly every heating requirement. Phone or write for complete details about this new economy gas heating.

**Phone for FREE Survey of Your Heating Problem**

Our heating experts will examine your present equipment or discuss new installations at no cost to you. Act at once! Endorsed, sold and serviced by the Detroit City Gas Company, phone CHerry 3500.

Grosse Pointe High School Notes

For the benefit of the scholarship fund, the Mothers' Club will hold its annual party on Wednesday evening, November 10, at 8 o'clock, in the cafeteria.

A group of 16 students from the Lincoln Consolidated High School will visit here on November 16, under the direction of Mr. H. A. Tape.

Both of the plays to be given by the junior dramatics clubs Friday afternoon at 3:30 o'clock and Saturday at 8:15 o'clock are comedies.

The Mime Players under the direction of Mrs. Katherine Heideman will present "Owing to Maggie."

venturer live. The scene is in the room of a tenement house in East side New York.

Taking part in the play are: Betty Johnston, Barbara Nixon, Dick Selje, Bob Bodycombe, Douglas MacKenzie, Winifred Lamee, and Virginia LeDuke.

The production staff includes: Carolyn Nixon, student director; Marion Bishop, tickets, and Dorothy Ann Smith, properties.

The Masque Players under the direction of Mrs. Zella Slogett will present "Six Who Pass While the Lentils Boil."

The cast contains: Myles Standish, Mollie Lester, Betty Lou Brossy, Samuel Fittes, Doris Mitchell, Franklin Johnson, Thomas Parrish, Mary Macbeth, Robert Thomas and Dwight Wilson.

The production staff includes: Joseph Brachen, properties; Audrey Levenseller and Janet Hunter, costumes; Frank Munger, sound effects; Jack Newhall and Betsy Cadwell, mechanical butterfly; make-up, Points Players.

So far between \$25 and \$30 worth of tickets have been sold. This is more than was sold all last year.

Mr. Paul Rehnus, principal, was appointed a member of the Executive Committee of the North Central Association of Colleges and Secondary Schools.

He takes the place of Mr. H. H. Ryan, who left the vicinity of North Central jurisdiction to accept the position of Director of Integration, New Jersey State Teachers College at Montclair.

Under the new entrance plan 16 students have been admitted to the Points Players. The new plan requires pupils wishing to obtain membership to give an oral recitation before the members of the club.

The new members are William Ludwig, 10B; Frank Clark, 9A; Carl Weideman, 9B; George Crockett, 9A; Catherine Raupugh, 11B; Francis Freiwald, 10A; Marjorie Kaufmann, 10A; Margaret Morgan, 9A; Janet Tiedeck, 12B; Marion Keuchenmeister, 9B; Beverly Albyn, 11A; Vonnie Young, 11A; Jean Bracken, 9A; Pat Wenzel, 9B; Shirley Schreck, 10A; Barbara Ferry, 9A.

The sale of the Christmas, 1937, issue of Proem, school literary magazine, will begin Monday in the English classes and extend through Friday.

As soon as the classes reach their goals of 100 per cent, they are to turn the money in to Mrs. Vincent Peterson, or Miss Doris Trot, in room 230.

Last year, with a school enrollment of something over 1700, Proem sales reached a total of 1650.

Manuscripts for the magazine will go to the printer this week. Frank Cole, 9B; William Ludwig, 10B; Tim Donovan, 11B, and Shirley McGee and Bruce Lindley, 12A's, are a few of the contributors.

Enrollment plans for the second semester of 1937-38 are now being made by home room advisers. The enrollment blanks are to be in the office Tuesday, November 23.

Students consult their home room teachers in conference, making their plans and having them approved by parents and by the grade adviser.

Mr. Charles Leavitt, guidance director, emphasizes the importance of two factors in the making of semester schedules. The student is to realize that the enrollment plan is not a temporary thing, which can be changed easily.

Since the size of the classes and work of the teachers is determined by the number of students who enroll in various courses, enrollments must be called in at an early date that has been set for them.

Miss Florence Severs, director of the Grosse Pointe libraries, in a talk to the English VIII class first hour Tuesday, October 14, spoke of the history and present problems of the Grosse Pointe libraries.

It is part of the course requirements that the students learn to use libraries. Miss Severs first outlines the history of libraries in general, then went on to explain the Grosse Pointe system.

To meet popular demand there will be at least two more S. A. dances added to the schedule for this year.

The next dance will be November 19 announced Mr. Harold Husband, sponsor of the Student Association.

The profit for the last dance held on October 16 was \$31.65.

The Wig and Masque Players and the Mime Players, seventh grade dramatic clubs, will present their first plays of the year on Friday and Saturday of next week, November 5th and 6th.

The Mime Players will present "Owing to Maggie" by John Jacobs Trent. The cast includes Betty Johnston as Maggie, Barbara Nixon, as Edith, Dick Selje as Bob Drummond, Bob Bodycombe as Mr. Coyle, Douglas MacKenzie as Dick Dolorton, Winifred Lamee as Sylvia, and Virginia LeDuke as Mrs. Bird.

The Wig and Masque Players will present "Six Who Pass While the Lentils Boil". The prologue will be given by Robert Thomas. The cast includes Myles Standish as the Device Bearer, Betty Lou Brossy as You, Samuel Fittes as The Boy, Doris Mitchell as The Queen, Franklin Johnson as The Ballad Singer, and Dwight Wilson as the Headman.

Tickets are 25c or 10c with Student Association tickets, and they may be obtained from any junior dramatics club member.

Dancing Good Training for Football Players—Athletes As Dancers

Dancing and football would seem at first glance farther apart than the proverbial poles, but the great hero of modern football, Knute Rockne, used dancing seriously and with success in his training.

Ted Shawn, who, with his group of Men Dancers, comes to Masonic Audi-

torium, Detroit, Friday evening, Nov. 12, in "O, Libertad," an American Saga in Three Acts, says that rhythm is as necessary to sport as it is to dance.

"Many sport movements are used in dancing and many dance movements are helpful to the athlete," Shawn says. "During my course at Springfield one of the football coaches talked to me about his emphasis on kicking, so I gave his men patterns in kicking used in football."

"Basketball, too, and swimming have movements used in dance. I worked with all the coaches and they felt that the dancing helped their men. In addition to the fact that it is definitely tied in with physical education, the value of dancing in college is that it gives them something outside and above what they get in sport. It is the great bridge between bodily activities and mental education. It uses the body as vigorously as sport does, but through dancing the men also get music and contact with painting, sculpture, ethnology and religion.

"In sport you are to win or break a record. In dancing you have a totally different purpose. You are trying to express something, perhaps to create, and are competing only with your own personal past record."

In this work with men, Shawn has provided the ideal art-form for athletes.

Michigan Tuberculosis Death Record Increases in Year 1936 Over 1935

Statistics compiled by the Michigan Department of Health reveal an increase in the state's 1936 tuberculosis death record over the 1935. Theodore J. Werle, executive secretary of the Michigan Tuberculosis Association, pointed out this week in discussing the need for a continued vigorous anti-tuberculosis campaign throughout Michigan.

"The increase number of tuberculosis deaths for many individual counties was small enough to be passed over without particular emphasis," he said. "We should not treat lightly, however, the fact that a few deaths in a number of counties has raised the mortality rate for the entire state," Mr. Werle pointed out.

"A difference of even one death should stimulate local interest in Christmas seal financed anti-tuberculosis projects because there should have been less. In many counties, the rate was lowered, but the decrease was not great enough to offset the total increase."

Feast of Foreign Foods to Be Served at International Center YWCA

The favorite foods of 40 different nations will be served at the Feast of Foreign Foods in connection with the seventh annual Old World Market of International Center Branch, Y. W. C. A., on Friday and Saturday, November 12 and 13, at 2431 East Grand boulevard. The public is invited to enjoy this unique event.

The afternoon will be devoted to the market with sale of foreign novelties, Christmas gifts and international pastries beginning at 3 o'clock. The Feast of Foreign Foods starts at 5:30 and continues to 8 o'clock, followed by a gay international program of folk music and dancing in costume. On Saturday evening the program will be followed by general dancing to the music of a tambourita orchestra.

The dinner on Friday night will be in charge of Mrs. Marie Pavel assisted by Mrs. Christian Patroulean. On Saturday night Mrs. Domonick Queci and members of the Delta Lota Sigma Sorority and Mrs. Pauline Orlich will assist.

Mrs. M. R. Keyworth, chairman of the International Center Branch Y. W. C. A. and president of the State Federation of Women's Clubs, is general chairman of the Old World Market. Her committee includes many prominent Detroiters, among them Mrs. H. A. Pickert, Mrs. Benjamin W. Soffe, Mrs. S. Homer Ferguson, Mrs. Ralph Pino, Mrs. Richard H. Lawrence and Mrs. Sanford Phelps and Mrs. R. R. Alvord.

Mrs. Cameron McLean is program chairman, assisted by Mrs. S. A. Courtes, Mrs. Wilbur Brucker, Mrs. S. H. Jensen, Mrs. Anna Forbok and Mrs. V. P. Moisdies.

A la carte service will enable each guest to sample all the foods offered or concentrate on a few tried and true favorites. Bring the whole family! All foods served will be prepared in the International Chapter kitchens by skilled nationality cooks.

Highway Department Ready for Winter

First snow flurries throughout Michigan last week speeded the state highway department's preparations to keep 8,848 miles of trunkline highways open to traffic during the winter months.

tional snow fence and assigned snow removal equipment to key points throughout the state in preparation for any emergency of ice or snow. The Commissioner said that a \$900,000 budget for snow removal and ice treatment had been set up for the 1937-38 season. This figure is based on costs during an average winter.

The department has purchased 39 miles of new snow-fence to replace worn out stocks and to protect additional mileage of trunkline roads. This brings the total mileage of snow fence available for this year 752 miles.

Henry Vaughn, who is studying in New Haven, is being initiated for the Chi Phi Fraternity. Henry Ford II and Bill McMillan, also at New Haven, have been asked to join the Zeta Psi; while Henry Chaney is joining the Fence Club.

50,000 OF YOUR NEIGHBORS HAVE Switched TO ELECTRIC COOKING You CAN afford it! A few years ago, an electric range cost several times as much as an ordinary stove. Today, an electric range costs no more than the average stove of comparable size and features: the price is just about the same. . . . And look at the VALUE you receive in an electric range! An electric range is built to serve you many years. Twelve years is the average length of time a family keeps a stove. That means that the stove you buy today will be cooking for you in 1949. "Electric cooking is MODERN cooking—it is the latest thing"—that is what many women say when they switch to electric cooking. During the past year 10,000 women in and around Detroit have switched to an electric range, and today 50,000 of your neighbors cook with electricity. Consider these advantages of an electric range—features that no other stove and no other cooking method can give you: Absolute CLEANLINESS, with pure heat from a glowing wire—heat as clean as sunlight. BETTER FLAVOR—meats and vegetables cooked in their own juices to melting tenderness. Healthful WATERLESS COOKING, with precious minerals and important food values sealed-in. And best of all, the ease with which you can keep your kitchen bright and clean and sparkling . . . because an electric range does not burn fuel and therefore walls and curtains stay clean and utensils remain bright. There are no matches or flame in the kitchen. When you buy a new stove, GET YOUR MONEY'S WORTH! If you are paying the same price, choose the stove that will give you more. Only an electric range has these extra advantages of electric cooking! See the new Electric Ranges on Display at Department Stores, Electrical Dealers and at all Detroit Edison Offices

Eastminster Presbyterian Church

East Jefferson at Manistique. Carl E. Kircher, pastor. Sunday School at 10 a. m. Mr. H. H. McNeill, superintendent. Armistice Day service at 11 a. m. Dr.

SPECIAL Monday and Tuesday Shampoo and Fingerwave 50c OIL PERMANENT WAVE SPECIAL \$4.00 Value \$2.95

Kircher speaks on "Silence in Heaven." There will be patriotic delegations of Canadian and American soldiers, Boy Scouts, etc. The choir directed by W. Bertram Beer will bring appropriate music. The various youth groups will meet at 6:15 p. m. At 7:30 p. m. Dr. Kircher will preach the third sermon in the series "Questions People Ask." The theme of this sermon will be "Why Am I Here?" Wednesday evening we will continue our series of studies in "Your Favorite Chapter in the Bible."

Grosse Pointe Lutheran Church

"Faith in God, Love for Christ and Loyalty to Country," will be the subject of the sermon at the Grosse Pointe Lutheran Church, Richard school auditorium, Kercheval avenue and McKinley road, Sunday morning, November 7th, in a special Armistice Day service. "Christian Character and Peace," will be the subject taught in the upper grades in the Sunday School at 9:45 a. m., with classes for all grades and

At the close of the Sunday School hour, members of the Reserve Officers Training Corps from the Northern High School, Detroit, will lead the school in a special Armistice Day program, flag salute, pledge of allegiance and taps sounded for the dead. Thirty new scholars were enrolled in October. You and your family are

Cooper Bros.

Funeral Directors

Residence—1305 Buckingham FU 2-1717

cordially invited to attend our Sunday School and church services.

Christian Science Churches

"Adam and Fallen Man" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, November 7. The Golden Text, from John 6:63, is: "It is the spirit that quickeneth; the flesh profiteth nothing." Among the Bible citations is this passage (John 3:21): "But he that doeth truth cometh to the light, that his deeds may be made manifest, that they are wrought in God." Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 218): "When we wake to the truth of being, all disease, pain, weakness, weariness, sorrow, sin, death, will be unknown, and the mortal dream will forever cease."

Patriotic Societies to Attend Armistice Day Services Nov. 7

Among the patriotic societies whose members will attend the annual Armistice Day service which the Very Rev. Dean Kirk B. O'Ferrall will conduct at St. Paul's (Episcopal) Cathedral, Woodward Avenue at Hancock East, Sunday afternoon, November 7, at five o'clock, and whose flags will be carried in procession, are Daughters of the American Revolution, U. S. Daughters of 1812, Daughters of Colonial Wars, Daughters of Founders and Patriots, Historic Memorials Society, Colonial Dames, Michigan Society of Mayflower Descendants, and others.

Messiah Lutheran Church

Southeast corner of Kercheval and Lakewood avenues. A. H. A. Loeber, pastor, 1434 Lakewood avenue. Telephone Lenox 2121.

"Cast Thy Burden Upon the Lord" This word from the psalm will be treated in the sermon on the coming Sunday, November 7, at 11:15 a. m. The Sunday School will meet at 10 o'clock.

The Monthly Bible Hour, sponsored by the Young People's Society, will take place next Sunday at 5:15 p. m. St. Paul's Second Epistle to Timothy will be studied at that time.

Van Wagoner Rejects Bid for Mackinac Ferry

For the second time in a year State Highway Commissioner Murray D. Van Wagoner this week rejected bids on the construction of a streamlined, end-loading ferry for service at the Straits of Mackinac.

The commissioner said he regarded the low bid of \$1,625,280 submitted by the Great Lakes Engineering Works, of River Rouge, as "excessive." Defoe Boat and Motor Works, of Bay City, was the other bidder with a bid of \$1,846,800.

A year ago at the original letting there was only one bidder and its bid of \$1,600,000 was rejected by the commissioner. The commissioner gave no indication this week of plans for further procedure in connection with a new boat.

New Form Now Used for Gas Tax Refund

To facilitate the mailing out by the state of checks to cover gasoline tax refunds to those entitled to them, Leon D. Case, Secretary of State, has authorized a new refund claim form requiring more detailed information than has heretofore been sought on such reports.

The state's gasoline tax law provides that any such tax paid on such fuel used for purposes other than to propel a motor vehicle on a public highway, must be refunded to the person paying in, on proper application. The average year's gas tax refund volume ranges over \$1,000,000 a year; the checks going largely to those using the fuel for agricultural purposes.

The new claim form requires that the monthly consumption of fuel by each motorized unit be listed by an individual operating more than one, seeking a refund. The more detailed information permits the Department to pass on the merit of all claims within a more reasonable time, whereas with the form previously used, investigators were frequently required to check applications on which additional information was sought. This procedure necessarily slowed down the refund process.

Dr. E. B. Elliott Speaks to Religious Council

Character education is one of the most important functions of our modern schools, Dr. Eugene B. Elliott, state superintendent of public instruction told the Michigan Council of Churches and Christian Education assembled in annual convention at Battle Creek recently. Dr. Elliott's subject was "How Can the Church Help the Public School?" "Religion has been an important factor in bringing about the establishment

of public education as we know it in America," Dr. Elliott declared. "Today we find that the religious background of education serves as a foundation stone for our educational undertakings."

Without moral direction the best education on earth may result in producing only arch-criminals, Dr. Elliott said. "Our big problem today is to determine just how we can preserve the separation of the church and state and at the same time provide the young with moral training necessary for them to become useful citizens. Religion has been a potent force in shaping our morality. But there is much left to be done. One of the first undertakings is to make goodness attractive. We have altogether too much Stoics mixed up with our religion. We have those among us who draw themselves apart from the world hoping thereby to live pure lives. Goodness to youth must be presented as a sound and sane way of living.

"The church must continue to point the way for the best in moral standards. It is the church that has had so much influence upon our professions with their high standards of ethics."

Fall Festival

A splendid floor show has been arranged as one of the features of the fall festival to be given by employees of Leon D. Case, Secretary of State, in the grand ball room of the Book Cadillac Hotel, the evening of Saturday, November 6th.

Including in the speciality acts will be solo numbers by Bettie Robin, attractive dancer, and late song hits offered by Dorothy Mason, popular radio and night club entertainer. Music for dancing will be furnished by Del Delbridge and his orchestra.

Arrangements have been made to assure a thoroughly enjoyable evening for a large crowd which will include many prominent state, county and city officials will be present, as well as a good sized delegation of State employees from Lansing.

First to Grow Potatoes The potato is a native of South America, apparently originating along the Pacific coast of that country, as the first published record of potatoes is found in Cieca's "Chronicles of Peru," published in 1553. The Incas called them "pappas." They were introduced into Europe in the middle of the Sixteenth century, states a writer in the Cleveland Plain Dealer, but did not become an important crop until much later. In cultivation the tuber has become larger, and the seeds fewer, but otherwise the plant is little different from its wild form. Botanists have searched in vain for its progenitor.

R. E. Lee and Natchez Race The race between the Robert E. Lee and the Natchez in 1870 was won by the Lee, whose time was three days, 18 hours, 14 minutes. The Natchez required three days, 21 hours, 58 minutes for the run of 1,200 miles from New Orleans to St. Louis.

Oldest Church in Americas The oldest church in the Americas, the convent of San Francisco, is reputed to have been built by Cortez in 1520, while on his way to the conquest of the empire of the Aztecs. He paused at Tlaxcala long enough to convert some of the Tlaxcallan chieftains to Christianity and to make an alliance with them in his war against Montezuma. The font in which four of these chiefs were baptized is in use in the church. Tlaxcalla lies between Vera Cruz and Mexico City, about 100 miles from the Mexican capital.

Helgoland for Zanzibar In 1890 Helgoland was traded by England to Germany for Zanzibar, 3,000 times as large.

The Game Fall Mall The fall mall game seems to have been very much like croquet. It took its name from the Italian, palla, meaning ball, and maglia, meaning mallet.
