Again near-sighted hunters start the hunting season off right by mistaking hunters for deer, and bagging a couple of them.

Ere Reading has taken office there is much talk of contemplated changes and establishing of new heads in some of the departments.

Three thousand, eight hundred drivers have lost their licenses since the first of the year for driving while drunk or under the influence of intoxicating beverages.

Increase the revenue of the government but cut taxes is the problem of the House and Congress at the special session of Congress. Sounds rather like a tough problem. We always thought the government's revenue usually came from taxation.

Windsor plumbers went out on strike for an increase in wages. Now to return to work they will be forced to take a reduction.

A building company offered the city of Detroit a tract of land. But here is the nigger in the woodpile, it must purchase the remainder of the property at current market prices.

There are about 200,000 hunters scouring the woods for deer. Quite an army, almost one for every bush.

The children usually suffer for the misdeeds of their parents. They are forced to live down the notoriety and suffer for the errors of their parents. How little they are considered until it is too late.

Europe as always is endeavoring to invade the United States into some sort of a mess or other. Recently it was the situation in China. If peace is valued then steer clear of any such situations.

Correction of Error

The telephone number of the newly opened meat market of Omer Mulier at 15225 Kercheval avenue at Beaconsfield was printed incorrectly last week. The telephone number should have been Lenox 7786.

This new market is destined to popularity in the neighborhood because only meats of the very highest standards are handled. You can depend upon the quality and you will find their prices quite reasonable. This store was opened in order to extend more convenient service to the many patrons of Mulier's market who reside in this area. A delivery service is also maintained for your convenience.

The A Cappella choir, under the direction of Mr. William J. Watkins,

will sing several numbers. This will be the choir's first appearance before the parent groups.

An exhibition of original art work of the students of Grosse Pointe High School, arranged by Miss Janette Adams and Miss Marion Lampman, art teachers, will be on display in the lower halls.

Business meeting of the Mothers' Club, room 119 at 7:30. Refreshments will follow.

The picture of the A Cappella Choir is on the left.

Pritchard-Magnee Wedding Announced

Mrs. Wm. Pritchard, of 1221 Lakepointe, announces the coming marriage of her daughter, Anna Pritchard, to Eugene F. Magnee, son of Mr. and Mrs. E. H. Magnee, of 2786 Carson avenue, Detroit, on Thanksgiving, November 25, at nine o'clock in St. Ambrose Parish.

The bride will be assisted in marriage by Eugene's sister, Eleanor as maid of honor. The bride's sisters, NaDean and Shirley, will assist her as bridesmaids.

The groom will be assisted by his cousin, Edmore DeMay as best man and Benjamin Southerland, his cousin, and Roy Sanders as attendants.

The ushers will be Raymond Kusch, the bride's cousin, and Louis Shauls.

Anna will be given in marriage by her brother, Edward Pritchard.

Solos will be provided for by her brother, William Pritchard.

Breakfast and reception will follow the ceremony at the home of the groom's parents, Mr. and Mrs. Magnee.

Alger Post Elects New Officers

At the last regular meeting of the General Russell A. and Colonel Frederick M. Alger Post No. 995, Veterans of Foreign Wars, the following officers were elected:

- Commander—Barney Besso.
- Senior Vice Commander—Jos. Schmitt.
- Junior Vice Commander—Claude Raven.
- Quartermaster—L. Bariteau.
- Chaplain—E. Houghtling.
- Judge Advocate—Carl Williams.
- Surgeon—Dr. Arthur J. Neumann.
- Adjutant—Wm. Thorus.
- Officer of the Day—Harold Martenson.

During the past year the Post has continued the rapid stride manifested since its inception seven years ago and is one of the strongest and most active posts in Wayne County. With the population of the community rapidly growing, the Post has kept abreast with increasing memberships. Great things are being planned for the future and the coming year will prove as eventful as those of the past.

The annual Feather Feast of the Post will be held in the club rooms at Neff road and Mack avenue on Friday evening, the nineteenth, to which all members and their friends are invited to attend.

Eagles to Hold Benefit Party Sunday Night

The Eagles are holding a big Bingo and Feather Party at the Fairview Gardens, 11000 Mack avenue at Fairview on Sunday, November 21, at 8:15 p. m. The doors will be opened at 7:15 p. m. and the general public is cordially invited to attend and share in this big distribution of values.

The proceeds are used for the purpose of dispensing aid to the indigent, of the organization and the community at large.

Horticultural Society Annual Party Saturday Evening, November 20

Every year just before Thanksgiving the Grosse Pointe and Eastern Michigan Horticultural Society sponsors a big party at the Neighborhood Club. This year's party will be held Saturday evening, November 20th, beginning promptly at 8 p. m.

This annual event is usually quite well attended and the committee is fully prepared to handle a large attendance. Those who attend will spend a pleasant and enjoyable evening.

If you have ever attended one of these big parties you won't want to miss this one for the society has devoted considerable time to assure success and make the party worth your while.

They cordially invite the residents of Grosse Pointe and their friends to participate with them in this annual event at the Neighborhood Club, 17145 Waterloo avenue at St. Clair.

Left to right: Back row—Norman Bandemer, Donald McConachie, Robert Skuse, Gail Brainard, Robert Wright, Richard Stone, Arthur Dannecker, Barton Wood, Harry Keller, George Gerow, Roger Koltz, John Truer, Rudolph Kamischke.
Middle row—Robert Squire, Mary Margaret Haberkorn, Louise Page, Marilyn Wendt, Barbara Fitch, Rebecca Roberts, Catherine Hauke, Betty Baer, Mildred Farmer, Catherine Scully, John Newhall.
Front row—Joan Reutter, Anna Page, Margaret Fleming, Margaret McNeil, Elizabeth Keydel, Jeanette Coury, Anita Bailey, Eleanor Carothers, Catherine Rauph, Suzan Danreuther, Dorothy Miller, Betty Monjar, Marilyn Roselle.

Three Bicycles Unclaimed in City of Grosse Pointe

The City of Grosse Pointe Police Department has picked up in the last few months which have been unclaimed. One 28" girls, one 28" boys and one 24" boys. Owners can obtain same by presenting proper credentials. (Sgd) THOS. V. TROMBLY, Chief of Police.

Detroit Lions Attend Local Party Tuesday

The winners of the Grosse Pointe softball league were given their awards Tuesday evening at the Neighborhood Club at a banquet at which a number of the members of the Detroit Lions Football Club attended including Chuck Hanneman, Butch Morse, Abe Kirchner, and Roy Macklem.

The winners of the Grosse Pointe Softball League who were feted at this party were Norman Finger, George Stevenlunck, Robert Oldham, Paul Bossen, Irwin Krapp, John Fuchs, Albert Leysen, Richard DeSmet, George Marshall, Anthony Decker, and Chuck Hanneman.

Umpires and several other visitors were also present at the banquet.

De La Salle Party Saturday Evening

De La Salle Auxiliary is sponsoring their annual Thanksgiving games party on Sunday evening, November 21, at eight o'clock. The proceeds will be expended for the benefit of the Christian Brotherhood of Detroit.

Mrs. Schiefelblin is chairman and Mrs. Schmid co-chairmen.

New Broiler Wins Praise of Housewives

One of the modern gas range features that is getting prolonged applause from the homemakers of the nation is the new waist-high broiler that is found on many models. In their new positions, it is possible to turn and tend the steaks or chops without stooping. In addition, these new broilers are usually of the pull-out or swing types that eliminate any need for handling blazing hot grills and trays.

The new smokeless broilers which are practically standard equipment nowadays on modern gas ranges are just what the name implies. Ingenious construction of grills allows free drainage of fats and grease while the meat is broiling, but prevents the cooking flame from reaching it after it is in the tray.

The new grills, in spite of their ready drainage, are designed to have greater metal areas in contact with the meat being broiled. This means a quick searing of the underside of the food, sealing in flavor and juices as the upper portion of the meat is cooking.

Broiling, by the way, should always be done with the heat control at the highest point—550 degrees.

Art Window Cleaning Offers Diversified Services

The Art Window and House Cleaning Co. with Grosse Pointe offices at 781 Notre Dame, offer a wide range of service to residents of Grosse Pointe and the surrounding territory. Removing and putting up screens, storm doors, sashes, etc., washing and cleaning walls, ceilings, woodwork, kalsomine and wall paper. Floors scrubbed and waxed by machine, also window cleaning.

This organization has a reputation for fine work and has been established for a good many years.

Betty Shaffer, of Grosse Pointe, has been elected to the J-Hop committee at the University of Michigan.

Sech Things Will Happen, M' Lads!

And he took it on the chin. Who? Why just a young man and one of his friends in our vicinity who are trying to get along peacefully. It is coming to a pretty past when a couple hembres try to eat in peace and along comes a Joe Louis sock out of the air, one down and one up, but wait, the one that is up tries to retaliate for his dear friend with a haymaker, and misses by four feet, and the momentum was so great that before he could right himself, he also landed on the hard surface, commonly called floor.

NOTICE

During the week of Thanksgiving the Grosse Pointe Review will be delivered to the homes on Tuesdays morning. Advertisers and shoppers please note the change for this one issue. All reading matter must be in by Saturday noon to insure publication. All advertisements must be in by Monday noon.

Attendance Records Broken at Lions' Party Last Night

One of the most popular weekly affairs is the East Side Lions Club Bingo Parties, at the Deutsches Haus on Wednesday evenings. The proceeds are devoted to charitable enterprises and the one held last night was jammed full with some 1,500 participating in the activities.

The next party will be held Wednesday evening and you can play thirty games for only 35 cents.

Police and Firemen Stage Annual Fund Raising Party Friday

The City of Grosse Pointe Police and Firemen are holding their annual fund-raising party on Friday, November 19 at 8 p. m. at the Grosse Pointe Neighborhood Club at 17145 Maumee avenue. The feathers are sure to fly on this occasion and it is one of those affairs which we look forward to each year.

The committee anticipates an exceptional turnout this year and have prepared for a big attendance. A cordial invitation is extended all Grosse Pointe residents and friends to join them in an evening of fun and profit at this big Grosse Pointe affair.

Women's Advertising Club Party Saturday

One of the biggest and best parties of the pre-Thanksgiving season is the annual fun fest sponsored by the Women's Advertising Club of Detroit at Hotel Statler on Saturday evening, November 20. Games start at 8 o'clock.

Proceeds of this annual affair which this year is in charge of Mrs. Olive Torpey, will be used for the club's scholarship of merit for the student winning highest honors in the Wayne University advertising class and for loan funds to students of advertising, as well as other charitable work.

Tickets may be secured from any member of the club or the committee which includes Mary Hopkins, Marguerite Aubert, Florence Cox, Suzanne Blank, Lois Bryson, Betty Mezwin, Marie Ryan, Mary Humphrey, Alice Gorham, Dolly Callanan, May Vander Pyl, Esther Scanlon, Elizabeth Flannery, Estelle McGibbon, Sylvia Hinderstein, Gretchen McKenna, Laura Pringle, Hazel Young, Lucille Roth, and Ethel Berman.

Dorothy Maul, of Grosse Pointe, has been initiated into Kappa Delta sorority at the University of Michigan. Miss Maul is a junior in the university.

Chrysanthemum Show Colorful Autumn Event Closed Saturday Night

By MARY JANE STOETZEL

Chrysanthemums ranging from miniature daisy pompons to the exhibition measuring at least 28 inches in circumference were on display at the mum exhibition staged by the association of estate gardeners, the Grosse Pointe and Eastern Michigan Horticultural Society, in the Neighborhood Club November 13 and 14. The show, under the direction of Robert James, was in co-operation with the Junior League Garden Club, the Garden Club of Michigan, the Garden Center of Detroit and the Little Garden Club.

Although a poor year for chrysanthemums, due to a hot September followed by cold weeks, the flowers were of unusual quality and variety. The rich, autumn tinted Melba chrysanthemums were the prominent flowers of the show for no matter where one looked these colors and flowers could be seen. The buff tones of the gymnasium walls harmonized with the full blooms and provided an excellent background for the masses of potted plants and palms arranged around the room. One of the most unusual and magnificent exhibits was the waterfalls of cascades of yellow and white mums placed at the ends of the room.

The prize winning estates and gardeners are as follows: Mrs. W. O. Briggs, of Bloomfield, and Ernest Marsh; Mrs. E. D. Speck and Robert De Schrysburn; Mr. E. L. Ford and Ernest Wolfe; Mrs. L. D. Buhl and Theodore Kalkhoff; Mrs. R. A. Alger, Sr. and P. J. McKnight; Mrs. W. W. Knight, of Perryburg, Ohio, and Thomas Wilson; Mrs. John S. Newberry and Richard Sayward; Mrs. E. B. Whitcomb and William Crichton; Mrs. E. S. Evans and Fred Martin; Mrs. J. B. Ford, Jr., and Charles MacDonald; Mrs. F. A. Turnbull and William P. Thomas, and Dr. J. W. Ankley, an exhibitor.

The John S. Newberry's estate staged

Wedding Bells to Ring for Charles Chackman Shortly

The telegraph companies have reported an increase in business during recent weeks as the wedding date of one of the popular fruit and vegetable salesmen at Fred's Grosse Pointe Market draws near. According to recent reports the fortunate young lady resides at Kokomo, Indiana, and the wire are kept busy. On a recent trip after receiving one of these telegrams we understand a speeding charge was made, we believe in the vicinity of Peru.

The writer leaves for Europe as this item goes to press, and at the same time expresses best wishes for a long life of married bliss. We understand the wedding ceremonies will be held shortly after Thanksgiving.

Expression of Appreciation

The family of the late Joseph Du-castel wish to extend their heartfelt thanks to their friends and neighbors for their kind and considerate expression of sympathy and condolence in their recent bereavement.

Alger Post Auxiliary Installs Officers

At the last regular meeting, one of the Past Presidents, Rae Rusch, installed the following officers for the ensuing year:

- President—Isabelle Mackey.
- Vice President—Margaret Poole.
- Junior Vice President—Bertha Hasslett.

- Chaplain—Dorothy Wells.
- Secretary—Eva Bariteau.
- Treasurer—Agnes Tilton.
- Conductress—Esther Ravens.
- Trustee—Odella Schmitt.
- Guard—Kathryn Stone.
- Historian—Hansine Martinsen.
- Patriotic Instructor—Henrietta Dorie.
- Banner Bearer—Irene Meische.
- Musician—Mabel Bradley.
- Color Bearers—Josephine Besso, Clara Coriden, Elizabeth Crandon and Violet Nesbitt.

Another Past President, Daisy Reeves, presented to the Auxiliary, through President Mackey a beautiful Memorial Cloth which was made by Sister Martinsen.

President Mackey was tendered a lovely basket of flowers from her officers.

After the ceremony was over the ladies played various games of cards and closed the evening with a chow mein supper.

Mr. and Mrs. Ralph Jordan and the Wendell Andersons left last Thursday to be the week-end guests of the Allen Grovers in New Milford. They motored down with the intention of attending the Yale-Princeton game at Yale Saturday.

a beautiful and colorful display for the show. The greater part of the exhibit was yellow and bronze colored single and pompon types of mums. The Society Challenge Cup was given to the Newberry estate for this entry. This cup is awarded yearly to the one showing the most outstanding exhibit.

Mrs. E. D. Speck was awarded two blue ribbons for six pink exhibition type blooms. One of the ribbons was given because she had the best arrangement in a particular class; while the second was received because these flowers were the best in a series of classes. In the large exhibition blooms, the prizes were divided among Mrs. Walter O. Briggs, Mr. E. L. Ford and Mrs. E. D. Speck. An outstanding specimen of the burst plant was shown by Mrs. E. S. Evans. The largest flower in the show was approximately 30 inches in circumference and was exhibited by Mr. E. L. Ford.

Mrs. W. W. Knight, of Perryburg, Ohio, entered some unusual begonias in the show. The Japanese arrangements of chrysanthemums were one of the most interesting features of the exhibit. Mrs. D. D. Dunlop received first prize; while Mrs. A. W. Bender and Mrs. R. W. Jackson received second and third places respectively. The idea of the Japanese in their arrangements, which usually take 16 years to complete, is to have the tallest plant, often times the pine, designating heaven, the flower mid-way to heaven, as man; while earth is the lowest bloom, about half the height of man. Woman is considered lower than man by the Japanese and this is seen in their arrangements for the blooming meaning women are either the same as earth or, are plants curling under the ones pertaining to men.

Mr. Ernest Marsh received first place for the best arrangement of flowers other than chrysanthemums. His was a large basket of pink roses and white carnations and snapdragons. Theodore Kalkhoff was given second place for his basket of white snapdragons, carnations and roses, which were the finest of quality. Mrs. Richard Jackson's entry of fruit and vegetables, on what looked like a bread board, gained first place in Class G dealing with arrangement of fruits and vegetables. Her exhibit was made up of a tomato, lemons, two wax beans, a small bunch of grapes and a large pineapple surrounded by a trailing vine. Mrs. W. Beresford Palmer received second place, while Mrs. Allan F. Edwards was given third.

One of the most amusing tables seen at the show was the one dealing with mums arranged with other flowers and foliage to give the best results and the identical flowers arranged to give the worst effect possible. Mrs. W. Beresford Palmer gained first place; while Mrs. James W. Hughes received second. It was interesting to see the different types of containers used by the various exhibitors. It seems that nowadays anything may be used. Today articles are used to hold flowers that were never dreamed of in the years gone by.

Intermingling among the exhibits were large displays and baskets given by the Mack Ave. Greenhouse, Peter Pan, Myron Bloy, Grosse Pointe Florist and James the Florist. Mrs. H. M. Torrey contributed two large complimentary baskets to the show. The V. R. DePetris' decorations of the stage was a work of art. A modernistic, oriental touch was shown in the decoration of the table place below the center of the stage. This table, entirely covered by blue cellophane, bore rose colored canillas, bird of paradise blooms of blue and orange, white calla lilies, carnations, gerbera, enthuynr and interesting pieces of knick-knacks of glass and china. On each side of the stage were introductions of the tight furred upstanding beauty of the exhibition bloom, named by V. R. DePetris for Col. F. M. Alger, and those large sunburst chrysanthemum.

The winners of Class A for arrangement of chrysanthemums of yellow and bronze tones in copper or bronze containers were Mrs. R. K. Dykamb, Mrs. W. Beresford Palmer and Mrs. J. G. Standart. Mrs. W. B. Palmer received first place for chrysanthemums with tones of pink predominating. Second place went to Mrs. Rothe E. Farr, while third went to Mrs. James T. Shaw. Single white chrysanthemums in white-lead pewter or silver containers made up Class C. Mrs. W. B. Palmer was given first place; second, Mrs. W. R. Jackson and third, Mrs. John G. Rumney. Honors in miniature arrangement of chrysanthemums or other flowers went to Mrs. John G. Hammond, Mrs. John S. Rumney and Mrs. James W. Hughes.

An unusual fact seen in this show was the presence of many new names of the exhibitors and winners of the different prizes. This presence was largely due to the Garden Center Club, which got out and received many entries from people from the other end of town besides those in Grosse Pointe.

Top Row—Betty Rae Lancaster, Mary Ann Cannon, Miss Arndt and Susan Meisch.
Second Row—Carol Freeman, Emily Harding, Joan Domine and Mickey Dows.
Front Row—Delores Wise, Elaine Downey, Doris Domine, and Sharon Dows.
Seated in front is Joyce Dannecker.

Grosse Pointe Lutheran Church

"Thanksgiving through Thanksgiving" will be the subject of the sermon at the Grosse Pointe Lutheran church, worshipping in the Richard school audi-

torium, Kercheval avenue and McKinley road, Sunday, November 21, at 11 a. m., preached by the Rev. M. Luther Canup, D. D., pastor, in a special Thanksgiving service.

WORLD CRUISE

By W. R. LENCE

Third Article

A booking was promised me on an American ship due to sail from New York, January 7th. But the American shipping is tied by the strike of the seamen, and my ship did not sail. Application was made for a stateroom for me on the Empress of Japan, sailing from Vancouver, but all the space was taken up, chiefly by Americans who had to leave the United States in order to sail the Pacific. Then, I began making inquiries about the issues of the strike.

Why is it that American lines are tied up, and all others are operating? Wages and working conditions are not in dispute. The German employees of this ship, "The Reliance," tell me that the wage scale on the American lines is considerably higher, notwithstanding they are competitors. The only issue discussed was: "Shall the unions, or the employers, hire and fire the men?" This is the only question in dispute. The leaders of the men demand the right to employ all the men, also all officers below the captain.

Why do not the employers accede to this demand? They are responsible for the protection of passengers and property, and they cannot give this protection without having control of the crew. Certain powers must go with responsibility, otherwise there will be not real responsibility. The labor leaders' demand that they be allowed to hire and fire the men has already been enforced upon certain American ships. I talked with a passenger on an American ship last year, sailing from the Orient under these conditions. He said that a waiter was discourteous to ladies at his table. The ladies appealed to the officers of the ship, but the latter could do nothing, and the ladies had to submit to the waiter's insults, or go hungry.

This passenger also said that the ship's orchestra, employed by the labor leaders, as musicians were good boiler-makers. But nothing could be done about it, and the passengers had to listen to them trying to play throughout the voyage. I asked my informant what the remedy is for such a situation. He said: "There is only one remedy—sail on ships who fly foreign flags."

The employers have acceded to every demand of the strikers, except yielding to the labor leaders—some of whom are not American citizens—the right to hire and fire the officers and men. And they have offered to submit even this issue to arbitration. But the labor leaders refuse to arbitrate it.

Why do the labor leaders make this demand? So far as I know, they have never given a reason. But, obviously, it is to provide a way for them to levy tribute from all people who work in maritime service. It is not unlike the "check-off" system suffered by the coal mine operators and coal miners. Under the operation of the latter, the labor leaders prepare a statement of amounts to be deducted from the wages of the miners. The operators have no choice. They must deduct the amounts specified from the wages of the men, and turn them over to the labor leaders.

Labor unions, wisely operated, are a good thing for both the men and the employers. This writer used to be a member of a labor union. Subsequently, as an executive of corporations, he sat on the other side of the table for many years, and dealt with the representatives of the men. He is proud to be able to say that he is still in good standing with the men with whom he dealt.

There is a third party to every strike—the long-suffering public. This third party is receiving very little consideration at the present time. A strike is one form of war. Issues which cannot be settled by negotiation ought to be submitted to a committee, chosen out of the third party, for arbitration—instead of going to war.

Labor leaders who coerce employers into yielding up the right to hire and fire their own men, or enforce the "check-off" system, abandon the legitimate functions of the labor union, and fall to the level of the racket. Both systems are certain to lead to corruption. Moreover, they will eventually destroy their unions.

MADEIRA
When we arose Monday morning, January 18th, we found the Reliance was anchored in the harbor of Funchal, on the south side of the Island of Madeira. She had sailed about 2900 miles with only one stop. That stop was made to receive something (passengers are wondering what) from the German training ship Dutchland, in mid-ocean. The city, built on the side of the mountain range, presents a picture that would be hard to surpass. Tenders came at 8:30, and passengers began to disembark. Bullock carriages were waiting at the pier to carry us up to the station of the Pombal Railway. These carriages consist of wicker bodies mounted upon runners, and are drawn over the volcanic stone pavement by oxen. Nearly all traffic is handled on sledges. Funchal on this tropical island, is the only city in the world that operates sleds all the year around.

Our taxicabs stopped first in the district where Madeira's world-famous wine is made. Members of the cruise were invited to take seats at tables and sample Madeira's famous product.

"on the house." Many warehouses contain long rows of great casks, each filled with 750 litres, about 250 gallons. This wine is exported all over the world. In the museum they have on exhibition an old wine press which dates back about 300 years.

A drive through the retail district carried us to the railway station. In this district there are many shops in which Madeira's equally famous embroideries are on display. Many cruise members availed themselves of the opportunity to buy embroideries, at very reasonable prices. The trains of the railway consist of a locomotive and one open car. The latter it open on both sides, with side steps, very much like the old-fashioned trolley cars. Each carries about 50 passengers. The engine pushes the cars up the mountain, so there is no danger of them breaking loose from the engine and running down the steep grade. These trains carried us up to the height of about 3,000 feet, and then we walked up the rest of the way. Each train employee wears a gold shield about seven inches long by five wide, and appears to be very proud of it.

Sweet-faced children waved to us as we went up the mountain. Everybody manifested a friendly spirit. Many children were out offering flowers for sale. Small boys ran along the sides of the train and threw flowers into the cars.

The whole of Madeira is mountainous. The center range or backbone, running from east to west, rises to a height of 6,000 feet. The vegetation is luxurious. The sides of the mountains are terraced and every foot of available ground is in cultivation. Many of the terraces are supported by retaining walls of stone. A waterfall here and there adds much beauty to the landscape.

The trains stopped near the top to permit visitors to view the tomb of Emperor Charles of Austria. He succeeded to the throne on the death of Francis Joseph during the World War. At the end of the war he was brought here by a British man-of-war. This was his home until his death about four years later. His remains are interred in the parish church, called "Mountain Church." A place has been reserved for his body by the side of Francis Joseph in Vienna, and it is expected that his bones will be removed there.

Another emperor did time here in exile. Before taking Napoleon to St. Helena, they kept him here for a time. Christopher Columbus was married here about the year 1470. There is a statue of Joas Goncalves Zarco in front of the Esplanade Hotel, near the top of the mountain. It was he who discovered the island. Two dates are inscribed upon it—1419 and 1919. A cruise member commented that he lived to a ripe old age. The first indicate the year that he discovered the island, the other the date of the erection of the statue.

A delicious luncheon was served in the Chalet Restaurant at Esplanade Hotel. Then the cruise members slid down the mountain in wicker baskets. Two men guided each basket with ropes. Judge Jelke of Ohio, and I, who occupied one chair, thought that they sometimes exceeded the speed limit.

When I was here two years ago the day was clear, and we had a marvelous view of the city and harbor, from the top of the mountain. But a cloud covered the mountain this time, and we could not see more than 100 to 200 feet ahead of us. After sliding down a thousand or so feet, we came out into the sunshine again. Then all the passengers were photographed while in the wicker sleds.

SOCIETY

By MARY JANE STOETZEL
Jane O'Connor, daughter of Mrs. Ester Miner O'Connor, of Barrington road, was chairman of the patrons committee for the eleventh annual Towar Dance given by the senior class of Marygrove College, Detroit.

This dance, the first formal party of the year, will be held on the campus Friday night, November 12, in the grand ballroom of Madame Cadillac Hall.

Miss O'Connor invited Mr. Bud Payne, of Chicago, to be her guest. She was present at the At Home, a small informal gathering held in Madame Cadillac Hall, October 22. This party was given by the senior class in honor of the out-of-town freshmen.

Miss Rita Smith, of Maryland ave., daughter of Mr. and Mrs. Thomas A. Smith, invited Mr. Martin Hogan, son of Mrs. Mary Hogan, to be her guest at the dance. Miss Mary Kirchner, daughter of Mr. and Mrs. Arthur G. Kirchner, of Balfour, invited Mr. Paul Daubel, of Cleveland, to be her partner. Miss Kirchner was a member of the refreshment committee for the At Home.

Others attending the dance from Grosse Pointe are: Hope Fela Foley, daughter of Mr. and Mrs. Raymond M. Foley, of Grosse Pointe Shores; Mary Kathryn and Marjorie Ebner, daughters of Mr. and Mrs. Frank G. Ebner, of Barrington road; Elleen McGraw, daughter of Mr. and Mrs. Frederick McGraw; and Mary Kathleen Schrage, daughter of Mr. and Mrs. Wendelin C. Schrage, of Devonshire road, who is taking Tom Brennan as her guest.

Mrs. Louis H. Jarvis and Miss Ruby

E. Jarvis entertained 50 guests at 27 E. Jarvis in their home on Piccadilly rd.

Mrs. Irving R. Bacon, of Rivard boulevard, entertained 16 members of her art appreciation group at luncheon Monday. Mrs. F. L. McColgin talked on tapestries.

Mr. and Mrs. Jack Smith, (Peg Robinson,) announce the birth of a son, Larry Allen, November 10.

All Y. W. C. A. members are invited to a "Membership Night" party at Central Branch Y. W. C. A. on Friday evening, November 26.

Those who take classes and sports at Central Branch Y. W. C. A. are invited to the Sunday Fireside tea and program on Sunday afternoon, November 21, from 4 to 6 o'clock. This is an opportunity to get acquainted.

Francis J. LeBlond, of Lakepointe avenue, is returning to Detroit Thanksgiving week after being away from the city since June.

Mr. and Mrs. Bloom and Mr. and

Mrs. Shepherd Roberts, of Winnetka, are meeting on the east bound train from Chicago tomorrow night for the Navy-Princeton game. They will stay in New York for the following week and will be home after the Thanksgiving recess.

Mrs. Harold Baker and her youngest daughter, Margaret, have left the city for a ten day visit with the William Crows (Barbara Baker) in Rye, N. Y. Mr. and Mrs. Crow will not be home for Thanksgiving but will be here for Christmas.

Mr. and Mrs. John Finlayson (Casimira Gzowski) are coming to Detroit to join their families for Thanksgiving dinner. This will be one of their first trips home since their marriage last summer.

The Freddy Alger, Jr., returned home last week from Baltimore where they visited for a week. They got in town last Friday morning and left the same night for a week-end visit in Chicago with Mrs. Alger's parents, Mr. and Mrs. Charles Dewey.

Five Grosse Pointe girls received their cap and gowns Tuesday, Nov. 9, at Marygrove College. Agnes Marie Bondy, daughter of Denis Bondy, of Moran road; Rita Campbell, daughter of Mr. and Mrs. Charles Arnold Campbell, of Bedford road; Mary Elizabeth Dietz, daughter of Mr. and Mrs. Fred Dietz, of Beaconsfield ave., Mary Elizabeth O'Connor, daughter of Mr. and Mrs. Maurice F. O'Connor, of Beaconsfield road, and Marjorie Jane Ebner, daughter of Mr. and Mrs. Frank G. Ebner, of Barrington road, were five of the 194 freshmen that received their academic dress.

The investiture took place in the college chapel, immediately following the Founder's Day program in the college auditorium. The Most Rev. Edward Mooney, Archbishop of Detroit, was guest of honor at the program held in commemoration of the ninety-second anniversary of the founding of the Sisters, Servants of the Immaculate Heart of Mary, who conduct the college.

Miss Mary Kathryn Ebner and Miss Eileen McGraw also from the Pointe, are members of the Junior class which entertained the freshmen at a banquet in Madame Cadillac Hall after the investiture. Miss Ebner was on the place card committee for the banquet.

Hannan Y.M.C.A. Notes
 The third annual International Festival of the Hannan Memorial Y. M. C. will be held Friday and Saturday of this week, November 19 and 20. The

festival this year places special emphasis on the Scandinavian countries. Many exhibits featuring the hand-work, needlework, weaving, pottery, glassware, pewter and dirigold of the four Scandinavian countries will be displayed. The cultural life of these

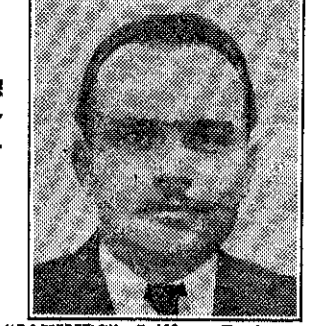

Nordic peoples will be shown in a book exhibit which will feature folk tales, plays, poetry and music. The principal exhibitors are: Mrs. Hildur Swanson, Mr. and Mrs. James Hansen, Miss Warren, the Norse Civic Association, the J. L. Hudson Company, Mrs. Ernst

Bensen, the Detroit Library, the Children's museum and the Butzen Stamp Exchange. On Friday afternoon a children's matinee program of wide variety and interest will be held at 4 o'clock. Movies of the sports life of the Scan-

dinavian countries will be shown which include skiing, snow shoeing, etc. Mrs. W. A. McDonald will give some of Hans Christian Anderson's Fairy tales. Miss Charlotte Nordquist will play some Scandinavian accordion numbers and interpret them in the native tongue. Miss Irene Bensen will give some Norwegian readings, and Miss Norma Hansen will exhibit a display of Norwegian dolls. Letters written by students from 16 grade schools in Southeastern Detroit will be received at this matinee and forwarded to school children in the Scandinavian countries.

The printer has promised to have our new Camp Fire song books ready by the end of next week. They will be 10 cents apiece and will have lots of news songs in it as well as lots of old ones.

Miss Irene Bensen will give some Norwegian readings, and Miss Norma Hansen will exhibit a display of Norwegian dolls. Letters written by students from 16 grade schools in Southeastern Detroit will be received at this matinee and forwarded to school children in the Scandinavian countries.

The honored guests will include the vice consuls of three of these countries, Carl Moe of Norway, Carl Berglund of Sweden and George Heidemann of Finland. Members of the Board of Directors of the Norse Civic Association are expected to be present. The climax of the Scandinavian Festival is the festival entertainment and dance to be held on Saturday night. The committee in charge of this part of the program headed by Mrs. H. J. Driscoll and aided by Mrs. A. Ingersoll promises a very delightful evening of dancing and entertainment. Dan Davids' Collegiate, an eight-piece orchestra famous for their specialty numbers, will furnish the music. A group of Danish folk dancers in full native costume will add life and color to the program.

SECOND INSERTION

 164376
 COMMISSIONER'S NOTICE — In the Matter of the Estate of MARCEL LUS FRASER otherwise known as MICHAEL FRAZIER, Deceased. I, the undersigned, having been appointed by the Probate Court for the County of Wayne, State of Michigan, Commissioner to receive, examine and adjust all claims and demands of all persons against said deceased, do hereby give notice that I will be at the Municipal Building, 60 Kerby road, Grosse Pointe Farms, Michigan, in said County, on Tuesday the fourth day of January A. D. 1938, and on Friday the fourth day of March A. D. 1938, at ten o'clock a. m. of each of said days, for the purpose of examining and allowing said claims, and that four months from the fourth day of November A. D. 1937, were allowed by said Court for creditors to present their claims to me for examination and allowance.
 Dated November 4, 1937.
 THEO. BEAUPRE,
 Commissioner.

Thanksgiving Drama
 The Sunday School at the Grosse Pointe Lutheran Church, Richard School, Kercheval avenue and McKinlye road, will dramatize the history of Thanksgiving Day in a special Thanksgiving program next Sunday, the 21st, at 9:45 a. m. The young people will give sketches of the Feats of the Tabernacles, under Moses; the Holland Thanksgiving in 1575; England's celebration of the discovery of the Gunpowder Plot, 5th day of November of each year; the Harvest Home Festival which the German Protestants celebrated each year; the Pilgrims at Plymouth in their first Thanksgiving in 1621; the act of Congress in 1784 declaring a national Thanksgiving for the end of the Revolution; and Lincoln's first National Thanksgiving, as we have it today, proclaimed in November, 1863.
 All classes in the school and all grades will participate in this Thanksgiving dramatization. Members of the school and congregation will present gifts of food before the altar which will be given to the less fortunate in the form of Thanksgiving baskets. The public is cordially invited to both the Sunday School special program and the Thanksgiving services with sermon at 11 a. m.

Camp Fire Girls Activities
 Camp Fire Girls of the Detroit area are "Holding on to Health" by earning Health Honor No. 423, "Have a Tuberculosis Skin Test." Attractive certificates will be awarded to each girl who completes the requirement for this honor.
 In certain high tuberculosis areas of the city this test is given free by doctors, in co-operation with the Board of Health in fighting this disease.
 The Camp Fire Chorus has been divided into junior and senior units. The groups will practice separately but will sing together at a number of all-city affairs. Practices will be held at the Camp Fire office as follows: Junior group: Wednesday, November 24, Fridays, December 3, 10 and 17. Senior group: Saturday, November 27 (at camp), Mondays, November 20, December 6, Tuesday, December 14 and Friday, December 17.

Lecture on Christian Science by Paul Stark Seeley, C. S. B.

Thursday Evening, November 11th
SECOND CHURCH EDIFICE
East Grand Boulevard near Jefferson Avenue

Friday Evening, November 12th
THIRD CHURCH EDIFICE
Second Boulevard and Seward Avenue

A Lecture on Christian Science

Entitled
Christian Science: The Revelation of Spiritual Power
by
Paul Stark Seeley, C. S. B.
of Portland, Oregon

Member of the Board of Lecturers of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts

What is power? Where is it, and how can you and I lay hold of and use it? These are the important questions. Power is the native ability of creative Mind to constitute, maintain, and govern its infinite manifestation, spiritual creation and man. Says the Psalmist, "Power belongeth unto God," and Paul says, "There is no power but of God," and "The kingdom of God is not in word, but in power." God is often referred to in the Bible as the Almighty. To be almighty, God must possess all the might there is, that is, have all power. Then to find the power man must find and know God. Mrs. Eddy speaks of "spiritual understanding—the true knowledge of God—as imparting the only power." (Miscellaneous Writings, p. 3). If you wish to possess the power to solve mathematical problems, you obtain it by acquiring an understanding of the principle of mathematics, by opening your thoughts to mathematical facts. In the proportion you understand mathematics, you possess the ability to solve mathematical problems. The understanding of mathematics includes the power to demonstrate mathematical rules. The understanding of God reflects God's power. You reflect God's power as you understand the Life, the divine Principle, which we call God.

Since all power is with God, and we possess it only as we understand God, it is of first importance that we have a correct concept of God. God, Christian Science teaches, is not anywhere in matter, is not in what we think of as the sky, the earth, or the sea. God is not the material sense of universe. God is Mind, Spirit, and Mind, Spirit, cannot be in its opposite, the negative and material order or consciousness. God's creation is not material, but spiritual, and so never findable in the material concept of existence. Said Jesus, "God is a Spirit; and they that worship him must worship him in spirit and in truth." Much of the confusion in religion has arisen because men have supposed God to be where He is not; have tried to conceive God as something which eye can see, or material sense cognize. Darkened material thinking cannot commune with or understand the divine intelligence of Mind. It is God, but as you think spiritually you find your mental oneness with the presence and nature and substance of the source of spiritual thinking, God, Love, Mind.

Christian Science teaches that God is not merely an important factor in creation. God is the sum of all that is real, intelligent, the totality of true Mind, including its every manifestation. "God," says Mrs. Eddy, "must be found all instead of a part of being" (No and Yes, p. 12); also, "God is everywhere, and nothing apart from Him is present or has power" (Science and Health, p. 473).

Mind Power is the Messiah

Christian Science teaches that the power of divine Mind is the Saviour, or the Messiah for humanity. Jesus explained and proved that the spiritual power of the Father, divine Mind, is the Saviour of men from the ignorant, mindless, material forces which are evidenced in sin, sickness, and death. Said He, "The Father that dwelleth in me, he doeth the works." In other words, divine Principle or Mind, operating in the human consciousness accomplishes the subjection of every evil force and condition which would contradict the supremacy of God. Mind-power accomplishes this saving of men by enlightening, that is, educating them out of material, ignorant thinking into spiritual, God-empowered thinking.

Man Endowed with God's Power

Christian Science is in accord with the Bible teaching that man's real being is not in, or limited by, a material, organic body, but is the individual expression of Spirit, Mind, God. As God, Spirit, cannot be found in the material order, no more can God's man, the expression of God, be in matter, the opposite of God. Physical science attempts to find life in material, chemical elements, physical organs, physical sense, and physical action, and makes no headway at all in its attempt. Recently a well-known physical scientist expressed his conclusion, resulting from many years of endeavor to discover what man is, in these words: "Man is an ensemble of one million billion specialized amoebas (cells) tied together with unknown bonds." Surely this is not a conception of man which aids in the attainment of a truly scientific and satisfying sense of Life.

Paul says, "They which are the children of the flesh, these are not the children of God." Mrs. Eddy designates the material creation, including material man, an "enigma" (Science and Health, p. 124), that is, something that is unexplainable. Every effort of physical science to explain it, confirms the correctness of her analysis. One of the leading members of the medical profession in the United States of America recently published a book entitled "Man the Unknown." Christian Science disagrees with the assumption that man is unknown. It teaches that both God and man are altogether knowable, but not knowable through the physical senses. They can only be apprehended through spiritual sense, the perceptive power of eternal Mind. Man, as taught in Christian Science, is the individual, spiritually mental manifestation of God, mentally like God in quality. God, divine Mind, manifests Himself through the spiritual creation and spiritual man.

Power in Spiritual Thinking

If you desire electric power for your home, you establish connection with the power plant. Power is there to make your home light, but it will not force itself upon you. You must do your part in order to obtain it. So with God's power. It forever exists to enlighten man, but each individual must, by the quality of his thinking, find God's power within him. God's power is found within us in the degree that we entertain God's thoughts. They bring God's power to us. No one can ever find and use the power of God except as he thinks spiritually, for it is spiritual thinking alone that unites us with God and His unlimited power.

To spend much time in improving the power of agriculture, manufacturing, transportation, and so on. Would that we might spend much more time improving the quality of our thinking, and by so doing, bring our human affairs under the control of God's healing, omnipotent power. Spiritual thinking is the activity of divine power.

To Philip, Jesus once said, "He that hath seen me hath seen the Father, and how sayest thou then, Shew us the Father, Jesus? Of course, did not mean that everyone who had seen his physical personality had seen God, but what he meant was that those who were able to appreciate his spiritual qualities of thought would therein discern the manifestation of God. "Honesty," says Mrs. Eddy, on page 453 of Science and Health, "is spiritual power. Dishonesty is human weakness, which forfeits divine help." Meekness is another spiritual quality essential to the possession of God's power. Human willfulness, like dishonesty, forfeits that power. If one is truly sincere in striving to improve the quality of his thinking, he soon learns the criticism, irritability, apathy, sinful indulgence must be relinquished if he is ever to find God and His power. The real man reflects God in spirituality, and in no other way. God is his Mind, so man reflects God, Mind, and his thoughts express the activity of Mind.

We may not all yet be able to have clothes of the best quality, but we can all have thoughts of the highest quality, divine quality. Inferior quality of thinking is what separates us from God's presence, and God's power. There is one, and only one way to limitless power; it is through thoughts of spiritual quality. Spiritual power and spiritual quality dwell together. We have the former as we entertain the latter.

Power Inseparable from Truth

Truth and power live together. What is true, when consciously known, reflects the power to free from what is false. The true sense of mathematics, when realized, carries in its truthfulness the power to illuminate the mind from an ignorant sense of mathematics. So the true idea of God carries with it the power to free from ignorance of God any consciousness that accepts it. The true idea of man has in itself the power to completely free life from every misconception of man. The power of Truth operative in Truth's ideas is our savior from ignorance of what is true.

The primal quality of Truth is intelligence, so the primal quality of man, Truth's witness, is intelligence. Another most important quality is goodness. One must be truly intelligent in order to be truly good, and one must be truly good in order to be truly intelligent. Mistaken mortals sometimes think it is smart to be bad and untruthful to be good. Jesus expressed spiritual power because He was genuinely good, that is Godlike, in quality, so genuinely loving, just, meek, honest, and spiritually discerning. "The good you do and embody," says Mrs. Eddy, "gives you the only power obtainable" (Science and Health, p. 192). This was perfectly illustrated in Jesus' wonderful career. He showed that one embodies good by doing good and that power is inseparable from goodness.

Tiny insects, sometimes almost too small to be seen, will prevent a beautiful rosebud from coming to bloom. The bud may be a good bud, but it is prevented from coming to bloom unless the insects are detected and destroyed. Sometimes in our expertness we may have excellent desires. They grow and bud but they never bloom, and the reason is that bad or weak qualities of thought, often not recognized and corrected, prevent our desires from coming to fulfillment. Selfishness, self-will, apathy, material indulgence, bad temper, the letter of Science accepted as though it was the spirit of Truth, hinder the higher desires from coming to bloom.

God's Power Kills Fear

One of the greatest blessings that comes from the discovery that all power belongs to God is the lessening of fear in us, and finally its complete annihilation. Why is anyone ever afraid? Simply because he believes that there is somewhere an evil and dangerous power that can in some way operate in him or on him to make him sick, subject him to accident, to loss, failure, discord. If one had to accept the testimony of the material senses such a conclusion would seem justified. But through spiritual thinking one discovers that such a belief is not basically true because God, intelligent God, has all the real power there is. Power belongs to intelligence rightfully, inevitably. And man is the individual expression of both the intelligence and the power of God. Man filled with the spirit of divine power is fearless because unassailable, beyond the touch of error's vain assumption to power. This fact recognized, one's fear goes as his understanding of God grows.

No one can actually have any fear of the power of God. God's power never harms anything true. It destroys only what is negative, false, fraudulent. God's power is always constructive, intelligent, loving, sustaining, and protective. It preserves, not destroys; heals, not makes sick. Fear comes not from God, but from ignorance of God. His power belongs to you. God is the Bible, "God hath not given us the spirit of fear; but of power." "The spirit of fear" is God's continuing gift to you and me.

In the chapter on Christian Science Practice in Science and Health, Mrs. Eddy says (p. 391), "Fear is

the fountain of sickness," (pp. 411, 412), "If you succeed in wholly removing the fear, your patient is healed. The great fact that God lovingly governs all, never punishing aught but sin, is your standpoint, from which to advance and destroy the human fear of sickness." The Christian Scientist bases his thinking for the destruction of fear and disease on the divinely scientific concept of a God-governed man. This concept displaces the ignorant, material one of a fear-controlled, matter-dominated man. This foundational, spiritual fact of creation, as Mrs. Eddy in beautiful phrase tells us (Science and Health, p. 521), needs to be "engraved on the understanding and heart 'with the point of a diamond' and the pen of an angel."

The Christian Scientist knows that he has glimpsed only in a small degree the import of these truths of scientific perfection, but his hold on them grows and strengthens. He clings to them steadfastly as the cornerstone of the Science of Life. He refutes the whole argument of the material senses that his individuality is embodied in and limited by organic matter and so separated from God, and he strives to realize the spiritual fact that the only true self he has is forever superior to, and apart from, matter and forever united to God, as embodies God-bestowed power.

The Christian Scientist knows, in some degree, and daily declares, that his only real self is fearless because God, his only real Life and Mind, is fearless. He thinks and declares from day to day, and hour to hour, that real life reflects Life, God, divine intelligence, substance, and is the individualized activity of the power of God.

Real Life Includes Power

The coming of Jesus was a startling experience for those of his time, accustomed as the people were to subjection to the rule of prelate and of Judaic man-made law. Suddenly there appeared among them a man who had little regard for all their forms and rituals, a man who really understood God and His power, and proved that he did so by his healing works. Here was a man who without the least egotism said, "All power is given unto me," and proved his God-given capacity to use divine power to stop sinful thinking and subdue the forces that produce sickness and death. Says Mrs. Eddy (Retrospection and Introspection, p. 58), "With our Master, life was not merely a sense of existence, but an accompanying sense of power that subdued matter and brought to light immortality." Here is a good test as to how much real manhood we have found. Is ours just a sense of existence, running with the currents of material life, or are we gaining a sense of divine power, the power of vital, universal good, within us? No mortal, no sense of substance, Mind, and Life of spiritual man, empowers him with the ability and power to be all he should be, to do what he should do, as the perfect and immortal witness of the Almighty.

Human Will Not Real Power

The deceptive counterfeit of God's power is the human will which often seems so much a part of mortal selfhood. It is not the true motivating power of man, but is the negative, material sense of mind, God's opposite, driving and impelling mortal mind to mortal personalities. How is it that the human will comes to have so much influence over mortals? Mrs. Eddy gives the answer. "Elevating evil to the altitude of mind gives it power," states Mrs. Eddy (Christian Science versus Pantheism, p. 6). That is what we mortals have ignorantly been doing, elevating this blind, selfish, stubborn, ignorant force called the human will to the altitude of mind. And it is not real mind at all. It urges, pushes, drives on the one who elevates it to the altitude of mind, posing as his own consciousness. Until he discovers its fraudulent nature he is deceived by it and is impelled hither and thither in the quick, opposite of the ways of wisdom and intelligence. Human will is not Mind. It must be recognized as an alien outside the realm of Mind, a would-be usurper of the will of wisdom. You and I, then, need to be separating the human will and its impulses from our sense of Mind, for just so sure as we are willing to accept the human will as our consciousness, we give it to the altitude of mind, and enthrone it with power over us. When you feel a willful urge to sin, to be angry, to have your own willful way, stop. Know that that is human will. Declare your unwillingness to elevate it to the altitude of mind.

True Meekness Gives Real Power

How does one get rid of the human will? By examining from day to day one's thoughts, desires, impulses. Are they expressing the will of unselfish good, God, the purposes of Love to bless and benefit all and to relate all in harmony and peace? If we are to get rid of the human will we must realize that our individuality is always effect, never cause. God alone is the cause of everything that is true. We get nowhere by trying, in a blind and ignorant way, to be the cause of anything and so to take over the prerogative of Deity. All-intelligent life is ever present to guide our every thought, decision, and movement. In our true being we are not will-driven mortals but Love-governed children of God. "Meekness," says Mrs. Eddy (Miscellaneous Writings, p. 380), "moderating human desire, inspires wisdom and procures divine power." Again we see that the way to divine power is to strive to reflect the Mind of Christ. Meekness is a quality that links thought to God and omnipotent power.

Mortals foolishly strive, struggle, conspire, sometimes electioneer, to secure some human place and temporary power, only to find how empty such success is. Human place, of itself, cannot give any abiding satisfaction or sense of accomplishment. It is, though, often an opportunity for useful service. But what helps the individual is his unselfish serving, his spiritual attainments, not the place. Again man strive their lives through for material possessions, believing therein will be satisfaction. But no one has found it there, and no one ever will. Satisfaction is found in thinking of spiritual quality, not

in possessing material things in quantity.

Evil Only Destroys Itself

Jesus refers to the evil sense of power as "the power of darkness." That is a most accurate description of the blind, devilish, destructive, material forces. The seeming powers that frighten and terrify, the powers that often come to be habitual in impelling to sin, dishonesty, deceit, cruelty, are all powers of darkness. How many of these dark forms of negative power are we accepting? Christ Jesus and Christian Science have come to turn thought from these ignorant, scientific powers to the power of God. Fortunately evil only power is to destroy itself. It is powerless to destroy one iota of intelligence and good. Evil, material forces may seem to wreck and destroy the lives of men and nations. But these experiences are always confined to the transient realm of material thinking of which they are a part. They appear terribly tragic to those who accept the material order as substantial and real. But they never come into, nor substitute themselves for, that realm of spiritual reality and activity Jesus was conscious of when he said, "The kingdom of heaven is at hand." He eventually exposes, and so destroys, itself. So does the lying sense of evil in the material sense, but it is more quickly destroyed as men learn of and realize, as did Jesus, the present intactness of the spiritual kingdom of God.

Error destroys itself, but neither your selfhood nor my selfhood is ever included in this self-destructive process. The negative, material order, its personalities, conditions, and forces, is always of itself and by itself in the realm of negative belief and never supersedes or entangles with the kingdom of Life, Truth, and Love. Jesus' statement, "All power is given unto me," applies to your real selfhood. He spoke what is true in regard to every real individuality, for the only agency through which the omnipotent power of God, good, can be manifested is in the true individuality of man. In "Pulsations of Mrs. Eddy says (p. 3), "Know, then, that you possess sovereign power to think and act rightly, and that nothing can dispossess you of this heritage and trespass on Love." Christian Science is awakening men to realize that they constantly have "the sovereign power to think and act rightly," the power to think and live happily, healthfully, harmoniously, successfully, the inherent power to overcome the sense of sickness and the urge to sin.

As the individual expression of God, you have every right to deny all the lying, limiting arguments of matter and to realize and affirm that you have the power of irresistible, omnipotent Mind, working in you, for you are not to be afraid, in purity, and spiritualize your consciousness and bring you into joyful attainment with omnipotent Love.

Human Thoughts Powerless

When Jesus came before Pilate, Pilate said to him, "Thou sayest thou art king, is that true?" Pilate thought not that I have power to crucify thee, and have power to release thee?" The Master's reply was, "Thou couldest have no power at all against me, except it were given thee from above." Pilate knew his power did not come from above. It was only the temporary power of the human law. Jesus knew that he was not to be afraid, and which was supporting him and his work was superior to all human power that Pilate's claim to power gave him no concern.

Many mortals suffer unnecessarily because they ignorantly believe that some Pilate or Pilates, sometimes a group of them, have power to do them harm, to injure them, to bring them to ruin, to condemn them with criticism, hatred, anathema, or directed malice. Let them follow carefully Jesus' mental processes and know that no negative, ignorant, material thinking has one atom of power against God's man. The "power of darkness" can never deprive a candle of its own light. The candle of a man's life, the power which cannot be extinguished, is the light which all the darkness in the world cannot avail. No more can the darkened thinking of one mortal, or many mortals, affect the God-enlightened consciousness of one man. Between a ray of light and a world of darkness there is no contact. One is positive, the other negative. Between them, whose being is born of living, intelligent light, and the darkness of material, hateful, unkind thinking there is never even a momentary link or contact.

Mesmerism Powerless

Evil mental practice, sometimes designated malpractice, is as powerless against God's man as it is against God, for man is of and in God. It fails utterly by reason of its inherent powerlessness to touch or harm the affirmative consciousness that knows man's true origin and power, and his natural, conscious oneness with the omnipotent Mind. Evil thinking has not the smallest degree of power from God. The one absolute intelligence cannot, and does not, ever yield its man or its power to darkness, malice, and ignorance. Where, then, can evil obtain power? It cannot obtain any real power from anywhere. Whatever power it may seem to have it obtains from mortal mind, and we ignorantly believe in it, just as the dreamer believes in his dream. You may believe that a black cat, or the number thirteen, has some evil power, or that an evil-thinking mortal can hurt you with his thoughts, but fortunately your superstitious belief does not make such baseless beliefs true. You may suffer from your false belief while you entertain it, but whenever you are ready to think truthfully—ready to awaken from your dream—you can be free from it and its consequences. It is not evil that has power. It is your belief that it has power which needs to be destroyed. An understanding that God has all power will do this. Nothing else will.

It is a good practice daily to ask yourself the question, Where is power? Realize that to God, infinite, affirmative Mind, alone belongs all power. Furthermore Mind, intelligence, possesses every individual agency through which power can operate. This one Mind-power is always constructive, protective, sustaining, never harmful or destructive. Ask yourself the question, Since God has all the power there is, how much power is left for evil? None. I can

then rely with perfect confidence on the power of God to protect me, to govern my thinking, my acts, my judgments. All my hopes I commit to the power of God. As Mrs. Eddy says in one of her poems (Miscellaneous Writings, p. 388), "Thou to whose power our hope we give." Let us give our every hope to God's loving, wise, all-embracing power.

God Is Everywhere Omnipotent

Orthodox religion has conceded God's power to overcome sin, but it has been uncertain and hesitant to admit God's power always to overcome sickness and subjugate matter. Yet that is what Jesus spent most of his time doing. In every detail of his human experience he recognized the spiritual power of God, whether the need was to make a sick body well, a base mentality wholesome, or to overcome the limiting forces of matter which said intelligence could not at once provide food for a multitude, and that material weight and space could separate man from the place where it was right for him to be. Mrs. Eddy cautions Christian Scientists not to "limit in any direction of thought the omnipresence and omnipotence of God" (Science and Health, p. 445).

Every moment we are thinking. Our thought goes out in a great many directions. Sometimes the direction is toward our homes, our dear ones, our businesses, employment, our church and its associations. Sometimes the direction may be along lines of recreation or education. Again thought goes out in the direction of pressing problems that demand our attention and solution, it may be supply, or the overcoming of ill-health, or the conquest of some sin or false appetite. But whatever the direction may be, we must learn not to limit the omnipotence and omnipresence of God in our thinking. The varied human situations that our thought may go out toward must be seen as always subject to the omnipotence and omnipresence of God. His power and His presence made manifest in a perfectly ordered spiritual creation subdues the false belief in and fear of any situation which erring mortal mind may present to contradict the reality of His aliveness.

Our dear ones are supported and protected by His omnipotence, embraced in His omnipresence. Business activity is fundamentally the activity of omnipotent Mind and is truly expressed in that Mind's harmonious omniscience. In matters of church and other human associations the spiritual fact is the basis of our thought. God omnipotently working in the consciousness of all to govern, control, order, and unify for the accomplishing of His purposes.

Mortals are inclined to regard the matter of making a living as a pretty serious matter. It certainly is much too serious a matter to leave out of it the one fact that will make it a normal and harmonious undertaking. That one fact is the omnipotence and omnipresence of God. Recognize the fact that it is God's power which animates, controls, directs, supplies, and provides. See that there is no real presence, but God's presence, made manifest by a universe of intelligent, Love-governed individualities. His power and wisdom operate so that "under the deific law . . . supply invariably meets demand" (Miscellaneous Writings, p. 45). Your living does not come basically from some person, or some company. It comes from God. Never trust any lower power or presence to provide for you. To be sure, the supply may appear through some human agency, but always it is basically made possible by the power and present activity of intelligent Mind, God. Trust that Mind and have no other trusts. Neither possessions nor persons are the source of supply, but always the one omnipotent Mind that constitutes all possessions all, and provides for all by working in, governing, and constituting all.

The Bible a Message of Power

Jesus was a student of the Bible, or so much of it as was then existent. He studied it because he knew the value of the ideas it presents. He developed ignorance of the Scriptures among the people, and to that ignorance attributed their erroneous ways of living and thinking. On one occasion he said, "Ye do err, not on knowing the scriptures, nor the power of God." Had they known the Scriptures, they would have known "the power of God," for the Scriptures exist to acquaint men with spiritual power. "The central fact of the Bible is the superiority of spiritual over physical power" (Science and Health, p. 131). Mrs. Eddy was a deep student of the Bible, and she admonishes Christian Scientists to habitually study the Scriptures. "The Bible," she says, "was written in order that all people, in all ages, should have the same opportunity to become God-endued with power" (The First Church of Christ, Scientist, and Miscellaneous, p. 190).

Truth's Healing Power

A few years ago in southern Illinois a woman lay grievously afflicted with tuberculosis. Her physicians told her that one lung had ceased functioning and that only a small portion of the second was active. They told her she might live a week, a month, or possibly two months, but that they could do nothing for her, and that the end was near. One Friday a Christian Scientist visited her and left some Christian Science literature for her to read. The patient accepted it, and after reading it asked her husband to arrange for the Christian Scientist to come the next day, Saturday, to see her. She came at nine in the morning and remained until one in the afternoon, explaining to the patient the love and power of God, and God's willingness and ability to heal her. Before the Christian Scientist left, the patient asked her to give her Christian Science treatment.

The Christian Scientist prayed for the patient in accordance with the teachings of Christian Science. She worked earnestly to realize what was the spiritual fact in regard to the patient's condition. Her real Life was God, Spirit, Mind, never infused into matter and never made subordinate to material forces that could afflict her with disease and death. She knew that eternal Love makes and maintains its witness, man, inde-

structible as Mind's own manifestation, as incapable of being consumed as is Mind. For some hours she pondered the great, eternal facts of God and the perfection of His man, and knew that these truths existed as the savior for the patient from the godless, powerless claims of ignorant matter and material force.

What happened? Sunday morning the patient awakened with a sense of life and freedom she had not known for years. She desired to arise and dress herself, something she had been unable to do for a long time. Reluctantly her husband and nurse consented. But they could not believe such a change had taken place. She was, however, entirely able to do so and then asked her husband to take her to the Christian Science church for the Sunday service. They walked several blocks to the church and back again after the service. Her lungs were functioning normally, and she was well on her way to a complete healing which came through the further application of Christian Science treatment. Today she is a whole, healthy, active worker in a Christian Science church.

What saved this woman from the consuming forces of matter? The power of God, her real Life, Mind, and Soul, operating in the spiritual quality of thought of the Christian Scientist. Spiritual thinking is power because it is Truth, active as individual consciousness.

Christian Science and God's Power

It is said that something more than four hundred years ago Leonardo da Vinci wrote an accurate scientific thesis on airplane flight. But it was several centuries before the ideas which da Vinci discerned were put into daily practice, after the Wright brothers made the first actual flight in an airplane. Nearly two thousand years ago Christ Jesus both taught, and put into daily practice, the true ideas of the spiritual Science of Life. But the ideas he so clearly perceived and so definitely demonstrated were resisted by the merits of centuries of material ignorance of spiritual reality, and after a comparatively brief period, became to men largely a theory, unadapted to their everyday needs.

But the ideas he understood and utilized were true and practical. They could not remain forever lost or obscured by material ignorance, any more than the ideas of air flight which da Vinci perceived could be indefinitely hidden from men. Mind's natural purpose to enlighten consciousness cannot be indefinitely deferred by the darkness of ignorance. But the flight brothers worked for years to make the ideas governing air flight their own. They had to use of certain qualities of thought to achieve their goal. Persistence, patience, accuracy, self-sacrifice were some of these.

So Mrs. Eddy, in order to perceive the meaning of the basic ideas of being which Jesus so clearly discerned, had to be willing to improve with spiritual ideas the quality of her thinking. She was naturally religious in her attitude toward life, had become affiliated in her youth with an orthodox church. But that was not enough. There had to be years of patient, persistent searching of the Scriptures, years of trial and experiment in her determined search for the Science of healing by divine power. Her deep faith in God enabled her to lay hold of that most precious quality, moral courage, and with it to pursue the path of honesty of purpose, humility, purity were some of the other qualities of thought which enabled her to find, feel, and use the power of the Almighty. Nothing but the power of God could have enabled her, a retiring, gentle, New England woman unaccustomed to the strivings of men, to face a world of opposition to all she had to give. But through the spiritual quality of her thinking she had found the source of all real power. She came to the place where she knew, with the Psalmist, that "power belongeth unto God." Through her works thousands were healed. She made the demonstration of God's power the foundation of the Christian Science movement, and that is its foundation today and forever. It was the power of intelligent Mind that communicated and revealed to Mrs. Eddy the true ideas which she has made available for all. In Science and Health, page 109, she says, "The revelation of Truth in the understanding came to me gradually and apparently through divine power." It was the power of true Mind working in her which wisely defined the footsteps for the establishing of the Christian Science movement and its co-ordinated activities, adapted to the world-wide dissemination of the message of God's supreme power. It is the omnipresent, omniscient power of uniting Mind that is and will continue to be the reliance of Christian Scientists for the guidance, protection, and direction of this God-empowered movement and the accomplishment of its purpose to heal from sickness, deliver from sin, and free from every condition of thought and being which is less than the expression of real Life, God.

One of Jesus' greatest statements was, "Behold, I give unto you power to tread on serpents and scorpions, and nothing shall hurt you." No stronger statement could be phrased in regard to the supremacy of spiritual power—"power over all the power of the enemy, and nothing shall by any means hurt you." No hurt can come to those who embody this power by thinking as he thought, by using the spiritual qualities of thinking he possessed. No hurt can come either through the laws, or times, or conditions, or body, or through physical or material means of the evil thinking of one, or a few, or a multitude of mortals. "Nothing shall by any means hurt you!" The promise of dominion over and exemption from every lie of "the power of darkness" Christian Science is bringing to fulfillment for those who are willing to recognize and use the spiritual qualities of thought which give consciousness the limitless power of man's limitless God. With John they hear a voice saying, "Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 228): "If we follow the command of our Master, 'Take no thought for your life,' we shall never depend on bodily conditions, structure, or economy, but we shall be masters of the body, dictate its terms, and form and control it with Truth."

Christian Science Churches

"Soul and Body" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, November 21.

The Golden Text, from Psalm 62, is: "My soul, wait thou only upon God; for my expectation is from him."

Among the Bible citations in this passage (Luke 12:22,23): "And he said unto his disciples, Therefore I say unto you, Take no thought for your life, what ye shall eat; neither for the body, what ye shall put on. The life is more than meat, and the body is more than raiment."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 228): "If we follow the command of our Master, 'Take no thought for your life,' we shall never depend on bodily conditions, structure, or economy, but we shall be masters of the body, dictate its terms, and form and control it with Truth."

INSURANCE TIPS

There have been many different community or group plans of insuring oneself against hospitalization. In each case it was necessary to belong to or be a part of one of these groups in order to be eligible to this benefit. The Income Guaranty Co. new plan does not require groups but is available to the individual.

Baylor University was first to start this type of protection. Later it became very popular in England, and in 1932 many groups were formed in the eastern states until today New York City alone has more than 300,000 under various plans that pay up to \$5.00 a day for sickness or accident.

Accident and illness are items we are unable to predict in advance, therefore it would be impossible to include hospital bills in any budget because we never know when we might have to go to a hospital or how long we would have to stay.

Sixteen people every minute are entering hospitals in the United States for an average stay of 13 days each.

For the small initial fee of \$1.00 and 75 cents per month you can have the Income Guaranty company's plan that entitles you to 28 days of hospitalization at \$5.00 per day, and in addition \$10.00 for operating or delivery room, \$10.00 for anesthetic and \$5.00 for x-ray examination.

There are no restrictions as to what hospital you are to enter. Any incorporated or licensed hospital that you or your physician may select.

Mrs. W. Wright Gedge, of Rvard boulevard, is visiting Mr. and Mrs. David M. Wilson at their home in Louisville. Mr. and Mrs. Wilson were the house guests of Mrs. Gedge until last week.

Mary Rait and Margaret Waterson, of Grosse Pointe, are members of the publicity committee for the fourth annual swim circus and water carnival to be given at the University of Michigan on November 6. The Women's Athletic Association is sponsoring the show and will add the profits to its swimming pool fund. Varsity Swimming Coach Matt Mann is in-charge of the program. Doris Phelps, also of Grosse Pointe, is on the ticket committee for the same project.

Messiah Lutheran Church

Southeast corner of Kercheval and Lakewood avenues. A. H. A. Loeber, pastor, 1434 Lakewood avenue. Telephone Lenox 2121.

The Lord's Parable of the Wise and the Foolish Virgins will be treated in the sermon next Sunday, November 21, which is the last Sunday of the present church year. The service will begin at 11:15 a. m., while the Sunday School will be in session from 10 to 11 o'clock.

On Thanksgiving Day, the service will take place at ten o'clock in the morning. Those people in the community who have no church of their own in Detroit or Grosse Pointe are cordially invited to attend the service.

Mt. Olive Lutheran

"The Little White Church Around the Corner." Radnor (Lincoln road) at Mack. F. E. Stern, pastor, 4425 Radnor avenue. Telephone Niagara 3023.

Sunday school at 9:30 a. m. Divine services at 10:45 a. m. The Y. P. S. meets Friday at 8 p. m. The children's confirmation class meets Tuesdays and Saturdays.

Thanksgiving Day, Thursday, November 25, will be observed with a special Thanksgiving service commencing at 10 o'clock.

Blue Devils Lose to Port Huron, 7-6, in Season's Final Game

By CLAYTON SCHWARZ

In their last game of the 1937 season the Grosse Pointe football team fell before an undefeated Port Huron team 7 to 6. This contest was played at Port Huron in a continuous drizzle that made wide open football impossible.

Port Huron scored first when with two minutes to play in the first half a pair of completed passes coupled with three Grosse Pointe penalties advanced the ball to the one-yard line. Rogge's kick was downed on the Red and White 40. Johnson hit the center of the line for one yard, Grosse Pointe was penalized five yards for offside, and Gulliam at guard made it a first down on the fifty. Johnson at center could get only one yard, but Grosse Pointe once more drew a five-yard penalty for offside. Seely raced around left end for 12 yards, Johnson picked up two at guard, and Gulliam's pass to Turnbull was completed on the Blue Devil 26. Johnson took Gulliam's flat pass and ran to the six-yard line. Grosse Pointe called their fifth time out and were penalized to the one-yard line. On the next play Johnson barely made the necessary yard, for the touchdown. Johnson's place kick cut the heart of the goal posts, and the score was Port Huron 7, Grosse Pointe 0.

Grosse Pointe advanced the ball to the Port Huron 40, but Johnson intercepted Fetter's pass as the half ended. The third quarter was scoreless, and it was not until the closing minutes of the fourth period that the Blue Devils were able to pierce the tiring Port Huron team. One Grosse Pointe drive was stopped at the Red and White 18, and Johnson kicked out to Piche, who ran the ball back to the Grosse Pointe 46. Barrett took Fetter's pass for a 16-yard gain down to the 40, and Fetter's second pass was caught by Rogge who ran to the six-yard line before he was thrown. On the next play Piche made a diving grab at Fetter's third for the touchdown. Rogge's attempt to convert was partially deflected by a charging Port Huron lineman, and the ball was inches wide of the uprights. Score: Port Huron 7, Grosse Pointe 0.

There was no further scoring in the remaining two minutes, and the final score gave the Red and White team a one-point edge.

Rogge outpunted Johnson in the first half, but the Port Huron co-captain kicked better the second half. In the matter of yards gained rushing, Port Huron had 158, and Grosse Pointe had 128. The Blue Devils completed six passes for 81 yards, while Port Huron completed two for 28 yards. Port Huron had nine first downs to eight for Grosse Pointe. Port Huron lost 69 yards from scrimmage, and Grosse Pointe lost 42. (These figures include penalties.) Port Huron outweighed the Blue Devils 20 pounds to the player, but Grosse Pointe tackled and blocked harder nevertheless.

Cadillac Society Dinner November 26

Robert and Harry Vibbert, program chairman and color-bearer, respectively, of Cadillac Society, Children of the American Revolution, assisting their mother, Mrs. Harry J. Vibbert, senior president of the Society, will be hosts to members of the group at a pot-luck dinner at 6:30 o'clock, Friday, November 26, at the Vibbert home on Westmoreland avenue, Rosedale Park. The dinner will be followed by a meeting, over which Mrs. Vibbert will preside. As speaker on the human conservation program, Mrs. Philip Kaplan will present colored moving pictures of "A Day at Grace Bentley Camp," the crippled children's camp on Lake Huron.

Members may bring as guests any who are eligible, as a membership drive is in progress. Reservations should be made with Mrs. Vibbert not later than Wednesday, November 24.

GIRL SCOUTS

The Girl Scouts of Grosse Pointe again present to the readers of the Grosse Pointe Review, the column of happenings among the scouts of this district.

The scribes held their first meeting of the year on last Thursday, November 11, at the home of Mrs. Henry H. Hubbard on Muskoka road. Four troops were represented by Jacqueline Ewing, Mary Lancaster, Eleanor Ross, and Sally Watkins. Plans for the year were discussed, and it was decided to meet the first Friday of every month, the next meeting being scheduled for December 3. The scribes of other troops are urged to get in touch with Mrs. Hubbard so that their troops may be represented in the column.

Scouting activities in the Pointe are well under way. Seven troops are at work, and three more have definite prospects of completing their organization soon. The training school for new leaders and troop committee members opened November 8, and meets every Thursday morning from ten to twelve at the Grosse Pointe Memorial Church. There are twenty-five in this group.

At the November meeting of the District Committee, Mrs. James J. Phelan, was re-elected as chairman; Mrs. Albert C. Dickson was made vice chairman, and Mrs. Hayward Thompson was elected a member at large. New members of the committee who were elected were Mrs. Bruce Chalmers, chairman of Permanent Camp, Mrs. C. H. Moore, treasurer, and Mrs. Guy G. Wedthoff, secretary.

Any women interested in taking a course to be Brownie leaders are urged to get in touch with Mrs. Norman Anderson, chairman of Brownies. There is only one troop in Grosse Pointe, and more troops could be formed if leaders could be obtained.—K. P. H.

TROOP 124

The Star Troop met at Trombley school at 4 p. m. Tuesday.

Nancy Robertson, the game leader of the troop, led them in "Dodge Ball," and "Sho Fly," and Mary Ellen Nichols, the song leader, led them in "Whether the Weather," "Desert Silvery Moon," "Row, Row, Row Your Boat," and "Star Troop, Star Troop."

In the patrol corners, they are taking up "Thee Study," and map making for their first and second class work. Each week a patrol lays a trail by scale and buries a treasure so the next patrol can go out to find it. The new girls are trying to complete their tenderfoot tests.—E. J. R.

TROOP 129

During the last few weeks, members of Troop 129 have been studying nature, but at their meeting last Friday, one group dressed dolls for the poor children for Christmas, and the other taped pictures on metal.

In the absence of the captain, Mrs. Morgan Sherman, the lieutenants took charge.—S. A. W.

Union Thanksgiving Services November 24

Wednesday evening, November 24, at 7:30 p. m., there will be a United Thanksgiving service for your community at the Eastminster Presbyterian Church. The sermon will be preached by Rev. Warner H. Siebert, of the Grace Evangelical Church. The music will be furnished by the Jefferson Methodist Church choir, Rev. C. L. Calkins, pastor. The other co-operating churches will be the Kercheval Avenue Evangelical Church, Rev. A. C. Bauman, pastor.

Eastminster Presbyterian Church

9:45 a. m.—Sunday School. Mr. Hugh H. McNeill, superintendent.

11:00 a. m.—We will have our annual Thanksgiving services. There will be special music appropriate for the occasion.

6:15 p. m.—Christian Endeavor groups.

7:30 p. m.—There will be a special youth service. Rev. John W. McCracken, of New York City, will be the guest speaker. His subject will be, "Christ in Cellophane."

Wednesday evening we will continue the study of "Your Favorite Chapter in the Bible." We are studying the 103rd Psalm.

Oriental Magic to Be Demonstrated at Institute of Arts

Magic will rule at the Detroit Institute of Arts, Woodward at Kirby, next Sunday afternoon, November 21, at 3:30, when John Mulholland, world-famous exponent of oriental magic, demonstrates his magic and lectures on "Adventures in Magic."

Mr. Mulholland has visited forty-two countries collecting tricks of magic. He has a magic library of more than 3,000 volumes and has written a number of books on magic himself. He is a former vice-president of the American Society of Magicians. Pagan miracles, Oriental magic, wonders of ancient and modern times will be described and performed by Mr. Mulholland in his appearance at the Detroit Institute of Arts.

Mr. Mulholland's performance is sponsored by the World Adventure Series of the Detroit Institute of Arts. Call Temple 2-7676.

"Why did I buy an ELECTRIC RANGE? I'll tell you!"

"IN SHOPPING around I discovered that the prices of electric ranges were just about the same as the prices of other stoves of comparable size and features. There was very little difference. Imagine! All these years I've been wanting an electric range, and I've never bought one because I had a notion they were too expensive. They used to be—and I was simply amazed when I found out how prices have dropped.

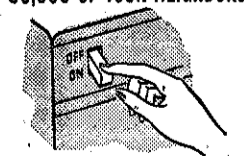

"When I learned how reasonably you can buy an electric stove today, I didn't waste any time. I bought mine right away. It was too good a bargain to miss. With prices the same, I wouldn't have anything else BUT an electric range.

"What other stove gives you such CLEANLINESS and freedom from the problem of keeping kitchen walls clean? What other stove cooks without flame or matches? What other cooking gives such delicious FLAVOR? What other stove permits healthful WATERLESS COOKING of meats and vegetables right on the stove, without special waterless cooking utensils?

"I looked at all of them, and only the electric range had every single one of these features. It wouldn't have been very wise to pay the same amount of money for a stove with none of these advantages. So naturally, I chose the electric range. Now I have a stove that will be modern for years to come, and I'm sure I wouldn't exchange it for any other stove in the world!"

Mrs. James Coombe, of Cincinnati, has gone home after a visit with her sister, Mrs. Greene Fenley. She left Detroit last Wednesday evening after attending a luncheon given in her honor at the Colony Club by Mrs. Leavitt Bulky. The day preceding Mrs. Robert Stoepel had a luncheon in her home on Lakeland.

Mrs. Edward Henkel and Jeanette are leaving for Manhattan for the Thanksgiving holidays. They will be joined by Ruth, who is at Garland this year.

Staying at the Ritz in New York are Mrs. Joseph Schlotman and Mrs. Ralph Booth. They will both be back in the city shortly.

Alger Post Auxiliary Armistice Day Activities

Presentation of a life membership in the Alger Auxiliary was made to Mrs. Mary E. Murphy in recognition of her kindness and assistance during the year.

The Alger Auxiliary commemorated the day by presenting to the Marine Hospital at Windmill Pointe, a circulating library on rubber treaded wheels, which can be silently rolled from bed to bed, making some dull moments a little cheerier for the veterans who are confined there.

The presentation was made through Max Thorpe, a member of the Alger Post, who is a patient, there by the following members of the auxiliary, President Mackey, Chaplain Wells, Treasurer Tilton and Hospital Chairman Ravens.

After the presentation, cigarettes were distributed to the men through the hospital. This, together with the sending of baskets of fruits and goodies, also keeping the boys supplied with magazines throughout the year, is the work of their auxiliary.

Noted Commentator on Town Hall Bill for Coming Week

John B. Kennedy, ace NBC announcer, political analyst and news commentator, who comes to Detroit Town Hall in the Fisher Theatre Wednesday morning, November 24, at 11 o'clock, is now editor of Commentator and formerly editor of Collier's magazine. He will speak on "What's Wrong With This World."

When radio was still just an idea in Signor Marconi's head, Kennedy wanted to write, so he got into the newspaper business. His newspaper experience included trips to Europe as correspondent for American press association and reportorial work in Canada, St. Louis, Chicago and New York.

He directed Knights of Columbus activities at the front during the World War, and worked with Herbert Hoover in relief work abroad. His war work won him several decorations from foreign countries. He was editor of Columbia, the Knights of Columbus magazine.

Collier's Magazine was the next step. Kennedy became successively managing editor and associate editor. He set something of a record with his prolific output of interviews and short stories. He has contributed more than 300 articles on famous men and women to various publications, and has interviewed everybody from the Pope to Al Capone.

In 1924 Kennedy became Master of Ceremonies on the big air show put on by his magazine. Today, on the Magic Key of RCA program, Kennedy is the "high spot" announcer each week.

He has become known as the "Flying Reporter," for practically every week he goes by airplane to some point in the country where a story has occurred or is in the making. One week he may be near the Golden Gate at San Francisco. Next week he is just as likely to be found with a microphone on top of the Statue of Liberty in New York's harbor.

Kennedy plays a good game of golf, swims with a rope, likes beer, smokes a pipe, is fond of talking to Broadwayites and like to write in the kitchen.

Tickets are on sale now at Grinnell's box office, Detroit.

cost each. Grosse Pointe family about 10 cents a day for the next five years.

Following the speeches, the meeting was thrown open to discussion and the resolution to the Board of Education passed.

Mr. and Mrs. W. L. Emory, of Lochmoor boulevard, and their family will be leaving Detroit in a couple of weeks for Florida.

Mr. Otto Ward has just returned from North Carolina where he spent a week visiting his mother.

Defer Parent Teachers Resolve New Junior High School Needed

A resolution requesting the Board of education to take immediate action toward securing a junior high school building for Grosse Pointe was unanimously passed by the Defer Parent Teachers' Association meeting Tuesday evening in the Defer school.

The junior high school situation was presented to the audience of 300 parents by five men acting as a panel jury. Mr. Edward Gehrig presided as chairman over the discussion.

Mr. John McPherson, the first speaker, outlined the reasons for the selection of the site which has been designated for the new building on Mt. Vernon and Charlevoix. He listed the pieces of property now owned by the school district, emphasizing the fact that the district does not now possess any land upon which an intermediate school might be erected.

Pointing out some of the disadvantages which students attending the high school suffer because of overcrowded conditions there, Mr. Miles Culehan advocated immediate action toward a new building. He declared that the equipment of the high school building cannot possibly be suited to eleven year olds and seventeen year olds as well, and predicted a day of "hunchbacks of Grosse Pointe" if the schools are forced to continue to subject children to unsuitable conditions. He warned against the fire hazards existing in overcrowded buildings.

Mr. Jack Drew explained the reasons why the present seventh and eighth graders must be assigned to two buildings and discussed some of the disadvantages from which these grades unavoidably suffer. He described the educational job of the elementary, the intermediate, and the high school, and showed why a specially equipped building is necessary to give children of junior high school age the proper education.

The need for further vocational education, impossible in Grosse Pointe without more adequate building facilities, was the chief point made by Mr. Henry Brooks.

Mr. Carl Dolbaere, the final speaker, estimated the cost of a junior high school building and site, warning the audience that proper school buildings have to be paid for. He was of the opinion that the needed buildings would

Works of Michigan Artists on Display at Art Institute

From all over Michigan came nearly 1,200 paintings, prints, and sculpture for the seventeenth annual exhibition for Michigan artists which opened at the Detroit Institute of Arts November 16. Out of 1,200 entries 260 were chosen by a jury elected by the vote of previous exhibitors in Michigan artists exhibitions. The members of the jury were James Calder and Leon A. Makielski of Detroit, David Fredenthal of Cranbrook, Carlos Lopez of Royal Oak, John Davies and Dirk Van Dyke of Flint, and Mathias J. Allen of Grand Rapids.

Both well known artists and newcomers are represented in the exhibition and were awarded prizes, of which a total of 16 amounting to some \$1,500 were given. John Cornish, a student at Wayne University, and John E. Christensen of Detroit, both newcomers to Michigan artists exhibitions, received prizes, as well as the well known

A modern GAS range gives you more for your money!

FOODS TASTE BETTER . . . LOOK BETTER . . . ARE BETTER

Only WHEN COOKED WITH GAS!

Greater fuel economy and cooking performance with GAS! It's the one cooking fuel that allows you to use every cooking method, the one fuel that puts no limitations on your cooking.

The modern gas ranges are great, too. There's no warm-up period with a gas range, no uncontrollable heat-hangover, either. Cooking begins when you open the burner, ceases when you close it.

Gas ranges are more economical, too. Cost less to operate, less to maintain. No switches to short-circuit, no heating units to burn out. Fifteen years from now you'll still be proud of the modern gas range you buy today!

See the special values in modern gas ranges now on display! Compare them, feature for feature and dollar for dollar, with any other type of range. You'll buy the GAS range—and you'll get the best!

See them at your dealer's or at the Gas Company TODAY!

PRICES FROM **\$54.50 to \$157.50**
