McFarland Addressed Sheriffs of Monroe County Wednesday

Edward W. McFarland, chairman of the state Liquor Control Commission, in accepting an invitation to address a meeting in Monroe next Wednesday evening to be attended by the general public, and especially licensees, mem-

bers of local governing bodies of Monroe and other nearby counties, sheriffs and other enforcement officers, stated: "The interest being taken throughout the state by all groups of citizens in the administration of the liquor control act is very encouraging to the commission, and is helpful. We, in turn, are desirous of having every citizen thoroughly familiar with what we are

trying to do, and that is, to raise the standards of the establishments in which alcoholic beverages are sold to protect the public morals and the youth of our state, and to protect the licensee himself, who is endeavoring to live up to the rules and regulations of the commission. "At this time, the task of renewing licenses for 1938 is underway, and every license of each type should be thoroughly familiar with the procedure. Likewise, the township supervisors, the boards and the councils who approve or disapprove of renewals should understand the serious part they have to perform. The public, too, including every citizen, has a distinct duty in knowing and giving voice to the control of the liquor traffic." The meeting in Monroe will be held in the court room of the court house, at 7:30 P. M. Accompanying Chairman McFarland will be C. A. Parrish, chief enforcement officer and in charge of the licensing division of the commission.

Part of the meeting will be devoted to answering any question those in the audience may wish to ask. Legislators are especially invited to attend, as are the licensees. "The vendor of alcoholic beverages is in a legitimate business," Chairman McFarland said. "He deserves and must have the safeguards and protection that any other legitimate business requires, and it is the duty of the enforcement officers to provide such protection. The attitude of the public is a reflection on the way the licensee conducts his business."

William Watkins to Attend National Music Conference

The five general sessions and some 40 session meetings and clinics will be devoted to the various phases of music education in elementary, junior and senior high schools, colleges and universities, as well as post-school musical activities. Among the topics under discussion will be: music in social life, music education in churches, creative music, music theory in high schools, vocal and instrumental music in elementary schools, experimental projects in music education, college and university bands, orchestras and choirs, Catholic music, teacher education, music education broadcasts, music education by radio, class piano instruction, junior and senior high school choruses, orchestras and bands, music appreciation, rural school music, senior high school voice training, coordination and integration of music in the school curriculum, etc.

A series of four festival events will be provided by a national high school band and a national high school orchestra of 250 players each, a national junior orchestra of 200 players, and a festival chorus comprised of some 2,000 singers. These groups, which are sponsored by the National School Band, Orchestra and Vocal Associations, are made up of outstanding players, choirs and choruses from schools representing most of the states. The St. Louis public schools will contribute "Musica Americana," a pageant portraying the 100 years of music in the public schools, with 3,000 children participating. The Missouri Music Educators Association will present a rural school music festival featuring typical instrumental and vocal ensembles and a great chorus of 3,500 children from the rural and village schools of Missouri. A festival program provided by participating college choirs will be another feature.

The St. Louis Symphony Orchestra, Vladimir Golschmann, conductor, will play a special concert for the visiting members and delegates in the St. Louis Opera House, Sunday evening, March 27. This concert is provided as a compliment to the convention by the St. Louis Symphony Orchestra Association and the St. Louis Board of Education.

William J. Watkins, director of music for the Grosse Pointe schools will attend the 25th meeting of the National Music Educators Conference to be held at St. Louis, Mo., March 27th to April 1st. In addition to the educators, musicians and citizens who will attend and contribute to the meeting, over ten thousand elementary, high school, college and university students from all parts of the country will add their share to the program in concerts, demonstrations and music clinics.

Christian Science Church
 "Matter" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, March 20.
 The Golden Text, from Psalm 114:7, is: "Tremble, thou earth, at the presence of the Lord, at the presence of the God of Jacob."
 Among the Bible citations is this passage (Eccl. 3:14): "I know that, whatsoever God doeth, it shall be for ever; nothing can be put to it, nor any thing taken from it: and God doeth it, that men should fear before him."
 Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 469): "Life is neither in nor of matter. What is termed matter is unknown to Spirit, which includes in itself all substance and is Life eternal."

Grosse Pointe High School Notes

Miss Myra Werten, renowned Polish artist and teacher, will be at the Grosse Pointe High school Wednesday, March 23, to speak on contemporary Polish art under the auspices of the art department of the high school.

Miss Werten will speak during both of the lunch hours, from 11:15 to 12:45 o'clock in room 205, the public being invited to attend. An exhibit of Polish art will be displayed in the art room, and Miss Werten will be present to answer questions concerning it both morning and afternoon.

The Board of Education of Detroit, the Board of Education of Hamtramck, the Art Institute, the Public Library, Marygrove College, and the high school have combined to bring Miss Werten to Detroit for a week of lectures.

Miss Werten was born in Warsaw, Poland. She received her art training in the Warsaw Academy of Arts and has studied in Paris. She is now head

of the Polish Section of the International School of Art.

Miss Betty Robinson, "A Girl in Two Olympics," will talk on "Olympic Games and Personalities," of Amsterdam and Berlin at an all-school assembly in the high school next Tuesday.

For the past ten years Miss Robinson has been a sprint star. She was a member of the 1928 Olympic team at Amsterdam when she became world champion in the 100-meter race. In 1936 at Berlin she was a member of the winning relay team. Fate played a cruel trick on her in 1932 when she was unable to participate in the Olympic games because of a broken leg she suffered in an airplane crash.

In her speech Miss Robinson will talk about Olympic personalities as Jesse Owens, Eleanor Holm, Glen Cunningham, as well as foreign stars. A high school track coach discovered her talent as he saw her running to catch a train. She was called the baby of the 1928 team because she was the youngest member.

Open house for the parents of the 7-B students attending the high school and Cadieux annex will be held next Tuesday at the high school from 7:30 to 10 o'clock.

From 7:30 to 8:30 o'clock, students and teachers will be in their respective rooms to meet and confer with parents. Parents will be welcomed there by a student chairman who will introduce Mr. Paul A. Rehmus, who will give a short talk.

Members of Miss Dorris Teft's 7-B gym class will do two Danish dances, "The Dance of Greeting" and the "Ace of Diamonds." John Sweeney, 7-B, will play several selections on his accordion, and the "Mime Players" will present a short play entitled "Great Caesar."

From 9 to 10 o'clock, the teachers and pupils will again be in the homerooms to talk to parents.

Mr. Paul Juigne, seventh grade advisory chairman, states, "The open house is held for the purpose of establishing a closer relationship between the parents of the children and the school organization. As in the past, it is planned to carry directly to the parents the policy that the aim of the school is to work with the home for the full development of the child. Specific practical objectives will be to explain the organization of the school to the parents, and to encourage each parent to meet every teacher who has contact with the child."

Alarmists Are Condemned by George Gundry

Auditor General, George T. Gundry, today condemned what he termed "alarmist and propagandists," who he and are creating apprehension through untruthful statements regarding the forthcoming tax sale.

Gundry said, "Those taxpayers who hold receipts showing that they have paid the taxes that are due, can thank their alarmist friends for their lively interest and forget them. If a taxpayer's property is advertised as delinquent, that advertisement should mean exactly nothing if he holds paid tax receipts. All that has happened in such a case is that the public bookkeeping got behind in the unprecedented tax rush of last fall, and the adver-

tising lists were compiled, by necessity, before all of the payments could be entered on the record.

Gundry pointed out that no law on the statute books of the State of Michigan will maintain a cloud on the title to a parcel of land for tax reasons if a proper receipt is held.
