Winning the Prize

HEALTH, harmony, security, joy, and freedom are today within reach of the spiritually scientific thinker. If we continue to believe that these desirable states are to be found in matter, or are to be gained by means of material methods, we are already losers in the race. To believe that the determined human will is a factor in successful living is a mistake which tends to rupture the harmony of mankind. Success, when built upon a foundation of materiality, is temporary and may be likened to the house built upon the sand: "And the rain descended, and the floods came, and the winds blew, and beat upon that house; and it fell: and great was the fall of it." (Matthew 7:27).

Is not a prize or goal a point toward which we direct our thoughts and efforts? In the world of sports the goal is a winning-point, a definite line, a fixed limit. In the world of thought goals assume greater importance; and in the universe of spiritual understanding, the possible unfolding of the truths about Life, Truth, Love, and of man as God's image and likeness, is without limits. In the divine universe every right thinker is a prize winner. Every good motive or aim has its reward, since every spiritual thought carries with it joy, peace, abundance, health.

In the human sense of life mankind strives to achieve a competence, health, harmony. Too often, in spite of sincere efforts, the goal seems always just beyond one's reach. The proverbial ship with its cargo of rich rewards seems long overdue, or perhaps fades away on the horizon. Hope erelong becomes a cheat. But human sense—human outlining, human sacrifice, human will—is the foundation of sand upon which no one can successfully erect a permanent structure. It is only upon the rock of spiritual thinking that one may build a right sense of life, may achieve permanence, peace, security, and win the prize of harmonious existence of eternal life.

through understanding God's aliveness. The Scriptures offer a rich field of reading and study. In them we find practical wisdom, inspired directions for, and illuminating illustrations of, constructive living. . . . In Science and Health with Key to the Scriptures (p. 462) Mary Baker Eddy says, "Whoever would demonstrate the healing of Christian Science must abide strictly by its rules, heed every statement, and advance from the rudiments laid down. There is nothing difficult nor tollsome in this task, when the way is pointed out; but self-denial, sincerity, Christianity, and persistence alone win the prize, as they usually do in every department of life."

Christian Science teaches, as does the Bible, that man's origin is spiritual, not material. It teaches that hatred, envy, revenge, greed, malice, anger, are inflammatory states of "thought. Like poison, these false beliefs cause the distress, inharmonious, and death which seem to afflict mortals. Wherever fear or greed enter into a human problem, there enters also inharmonious—disease of body, mind, business.

Honesty, sincerity, generosity, simplicity, righteousness, carry a cargo of riches only dimly seen by mortals. Frithfulness, temperance, gentleness, coupled with the spiritual understanding of Life as God, and of man as the reflection of Life, bring as each day greater evidence of supply, health, peace.

It seems easier to desire freedom from distress than it is to gain the corrected mental outlook, the spiritual point of view which confers a realization of present harmony. Every amateur begins with the simple rudiments of the art in which he desires to become proficient. Every prize winner expends countless hours upon practice, constant repetition of those rudiments which are the foundations of his or her success. Divine Mind, God, is the source from which we may draw unlimited ideas, and these ideas are practical, powerful, productive. These ideas spontaneously appear to the consciousness which is practicing right, truthfulness, spiritual thinking.

Holding in thought an inharmonious past, fearing a dark future, living today in a sense of fear, confusion, doubt, or of distrust in God's omnipotent love and tender care for His children, what can our outlook be? Surely, not a healthy, peaceful, secure state of mind! The false sense of life as being of or in matter can be removed from our lives by understanding spiritual truth.

Paul wrote for the encouragement of mankind (Philippians 3:13, 14), "Brethren, I count not myself to have apprehended: but this one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." —The Christian Science Monitor.

Barnacles

Barnacles are condemned by modern navies. Ships hurry to dry dock to have their bottoms scrapped. However, barnacles had more stately positions in Greece during the days when tomb stones were used for billboards. In that period a certain fringe of Greeks revered barnacles, saying they were gifts from their pagan god.

The Greeks took great care to knock off as few barnacles as possible when repairing their ships. Each barnacle represented a blessing, they said.

Scales of Prices

In the cities of Egypt there flourishes a system of five scales of prices. One for Egyptians. A second, 10 per cent higher, for all the Arabic-speaking peoples. A third, 100 per cent higher, for the black, brown or yellow folk who do not speak Arabic. A fourth, 500 per cent higher, for Europeans. And the fifth, unhampered by any limit and gauged only by the gullibility of the buyer, for tourists from the United States.

A man was buying some meat when a second man entered, obviously in a great hurry. He rudely interrupted the other man's order. "Give me some dog food," he said, and added to the first customer. "Hope you don't mind." "No. Not if you're that hungry," replied the other.

Happenings of the Nations Told in Pictures

Exciting Moment in English Motorcycle Race

It isn't a spill. The sidecar passenger is leaning over to keep the balance of the machine as they take a difficult turn during the Sydenham Vase race for motorcycles with sidecars at London's Crystal Palace.

Personalities in the World's News

1—Cardinal Pacelli (center), papal delegate to the thirty-fourth Eucharistic congress which was held in Budapest, is welcomed on his arrival in Mussolini place by M. Szendy, lord mayor, and Admiral Horathy (right), Hungarian regent. 2—While crowds outside the convention hall jeered and picketed, Herman Schwinn, west coast organizer for the German-American Bund, explained the ideals of his movement to delegates garbed as "storm troopers." 3—Alf M. London (center), 1938 Republican presidential candidate, pictured with A. C. Benell, publisher of the Niagara Falls Gazette, and Clarence Funnell, delegate to the Constitutional convention, while attending the annual gathering of the Association of New York State Young Republican clubs at Niagara Falls. London called upon his party to dedicate itself to a program to "free this country from all oppressive dictation," whether by government, industry, finance or labor.

Elder Statesman Takes Lesson in Divining

Lloyd George, British statesman of World war days, is shown as he assisted Mary Wylie, a "water diviner," during a demonstration of her power on the former's estate at Churt, Surrey. Her visit was made at the statesman's invitation after he chanced to see the green fields on her farm, watered from a well that she discovered through her "power." Looking on at the left is Dame Margaret Lloyd George.

Prize Cow Given Roosevelt Blessing

President Roosevelt got close to nature when he visited the little mountain community of Arthurdale, W. Va., site of a federal homestead project. The prize-winning New Deal cow shown in the picture seems unimpressed by the presidential friendliness.

GOLD STAR MOTHER

Mrs. Bess Duncan Wells of Portland, Ore., who was elected national president of the Gold Star Mothers at their national convention in Philadelphia. She succeeds Mrs. Horace B. Blake of Philadelphia. The war mothers hit "isms" as they urged in a resolution that aliens swearing allegiance to a foreign country's dictatorship be deported.

SIX-SHOOTING HOSTESS

Lois Mulqueeny, crowned hostess of the rodeo at Livermore, Calif., backs up her invitation to the annual show of bronc and steer riding, roping and other cowboy and racing events, with a pair of shooting irons that belie her attractive looks.

NEW SPEED KING

Floyd Roberts of Van Nuys, Calif., is shown after winning the 500-mile Indianapolis motor speedway race. Roberts finished about five miles ahead of Wilbur Shaw, winner of the 1937 classic. Driving a streamlined, all-aluminum Miller-built car, he established the remarkable average of 117.2 miles an hour, smashing the record of 113.58 hung up by Shaw last year. Roberts drove the entire distance without relief and made only one 30-second stop. Roberts' victory won him \$25,000.

HIZZONER DIGS IN

Mayor Fiorello H. LaGuardia of New York sure enjoys his barbecue at the National Press club's annual baseball game and picnic at Fort Hunt, Va., recently. Notice the big helping on the plate in front of him which he cleaned up with gusto.

NAZIS SEEK ARREST

Prince Felix, twenty-two-year-old brother of exiled Archduke Otto, pretender to the Austrian throne, for whose arrest a warrant has been sought by the Nazi public prosecutor. It is alleged that the prince fled from a Vienna military academy to the Hungarian border the day before German troops marched on Austria, taking with him his silver table service valued at \$1,000.

PARTIES FOR CHINA

Col. Theodore Roosevelt, Jr., who has invited Americans to attend symbolic "Bowl of Rice" parties in 2,000 cities to raise funds for 30,000,000 Chinese civilians left destitute by the Japanese invasion. Highlight of the parties will be a contest to select the most perfect fashion model in America. Son of the famed T. R., Col. Roosevelt is national chairman of the United Council for Civilian Relief in China, the former governor-general of the Philippines.

Campus Ghost Writer Exposed

Robert Greenlees Pearson is among the upper 10 per cent of the graduating class at the University of Kansas this year, but he won't be elected to Phi Beta Kappa, honorary fraternity, because he admitted in a magazine article that he had been a "ghost writer" for students at many schools. He had clients at Northwestern university, Wellesley college, the Universities of Wisconsin and Wyoming. He guaranteed his work—a "B" average or no pay. Pearson is shown talking on the telephone to a prospective customer.

Farm Girl Knows Her Spelling

Marian Richardson, twelve-year-old Elizabeth, Ind., farm girl, won the fourteenth annual National Spelling Bee held in Washington, D. C. She defeated Jean I. Pierce of Buffalo, N. Y., who failed to spell the word "pronunciation" correctly. Photograph shows Miss Pierce (left) as she checked the spelling of the word with the aid of Miss Richardson shortly after the contest closed.

NOBLE PRISONER

Pictured in the uniform of a general in the happy days of the dual monarchy is Archduke Joseph Ferdinand of Hapsburg, chief of the royal Hapsburg-Tuscan line and great-uncle of the Archduke Otto, pretender to the throne of Austria. The archduke achieved the doubtful distinction of becoming the Nazi's most illustrious prisoner, when he was arrested near Salzburg, charged with making inciting remarks about the Nazi regime.
