

### Grosse Exaggerations

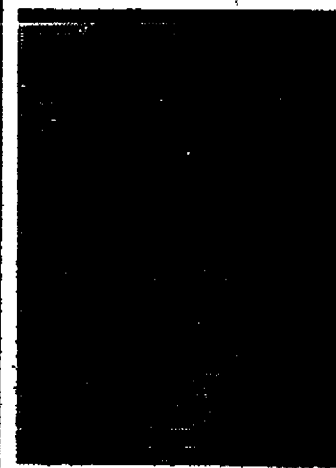

The other night at a movie theatre, a troupe of Switzerland was being shown. Just behind us sat a man and woman, the latter, raving about the beauty of Switzerland and adding that she'd ADORE going to a place like that. Finally, we heard her companion say, "Yeah, but just take away the mountains and whadda ya got?"

For months we've been hearing about a woman in Detroit, who (practically) guarantees her treatment for growing hair on the male dome. We checked up on it in a round-about way and found it to be true. She is a Mrs. Schram and her shop is at 3715 McChesna. Half the place is devoted to men's beauty needs and the other half is laid out so that the customer may relax in and out without detection. Mrs. Schram's treatment consists of massage and a special formula that has been in her family for generations. Several men have visited this hair raising shop regularly and we know one who has definitely begun to sprout hair. We've seen another guest who was as bald as a peeled egg three years ago and now has a thin covering of healthy looking black hair. Mrs. Schram is very frank in her analysis of each individual case. If you haven't a chance of growing a whisker, she'll tell you but if you have, you've got to be persistent or it won't work. The treatments aren't expensive and as we've already mentioned, her clients have shown very definite results. If you're gotten to the stage where you can comb your hair with a hairpin, we'd suggest you consult this true wizard.

### Canadian Legion Post U. S. A. 100 to Install Officers, January 13th

Canadian Legion Post U. S. A. 100 will install the 1940 officers at the Neighborhood Club, 17145 Waterloo, Grosse Pointe, on Saturday, January 13, at 8 p. m.

W. J. ANDREWS, 1939 Commander Canadian Legion Post 100

W. J. Andrews, 905 Three Mile Drive, having completed a very successful year as commander, will be succeeded by E. G. Clements, M. M. 1322 Wayburn avenue. The ladies will present a Legion standard to the Post. There will be dancing until midnight; also light refreshments. No charge for admission. All ex-servicemen and their wives and friends of the Legion are cordially invited to attend.

### Skating Information City of Grosse Pointe

For information relative to skating in the City Municipal Park, please call 7700-0000. For information relative to skating at the Neighborhood Club, please call 7700-0000. Skating in good weather, weather permitting. Commissioner of Park

### University of Michigan Club to Meet Jan. 18

The third meeting of the Grosse Pointe Chapter of the University of Michigan Club will be held at Pierce School auditorium on Thursday, January 18th, at 8:15 p. m. The speaker for the evening will be "Fritz" Crisler who will illustrate his talk with movies of some Michigan football games. After the talk there will be the usual social hour in the gymnasium. The club is inviting, as its guests, the members of the Grosse Pointe High School and all parochial school football teams in Grosse Pointe. Admission is free to members and their families. Members may also bring any friends who are alumni of the University as guests.

The Neighborhood Club is presenting another Professor Quiz program at their bi-monthly Theater Party next Friday night at 7:30 p. m. One team will represent the boys of the Club and the other the girls of the Club, and the questions the contestants can't answer are given to the audience. It's more fun than a circus—come and see for yourself.

### Major Burns Henry Post, 363, Auxiliary

Happy New Year, girls! We are starting a new year and let's get together and try and beat our last year's record—for believe me, we made a nice showing and are proud of our little unit.

We are looking forward to meeting our two new members in the persons of Lydia Elerick and Gladys Hammash, at our next meeting which is Friday, Jan. 12, at promptly 8:00 o'clock, at the Veteran's Bldg., and also we are quite confident of signing up two more by then so it won't be long until we will have our quota.

Our trophy and award chairman, Ruth Cross, will have some information to give us on medals that will be awarded to children from one of the Grosse Pointe schools. So long until Friday night. Mary Del Barba.

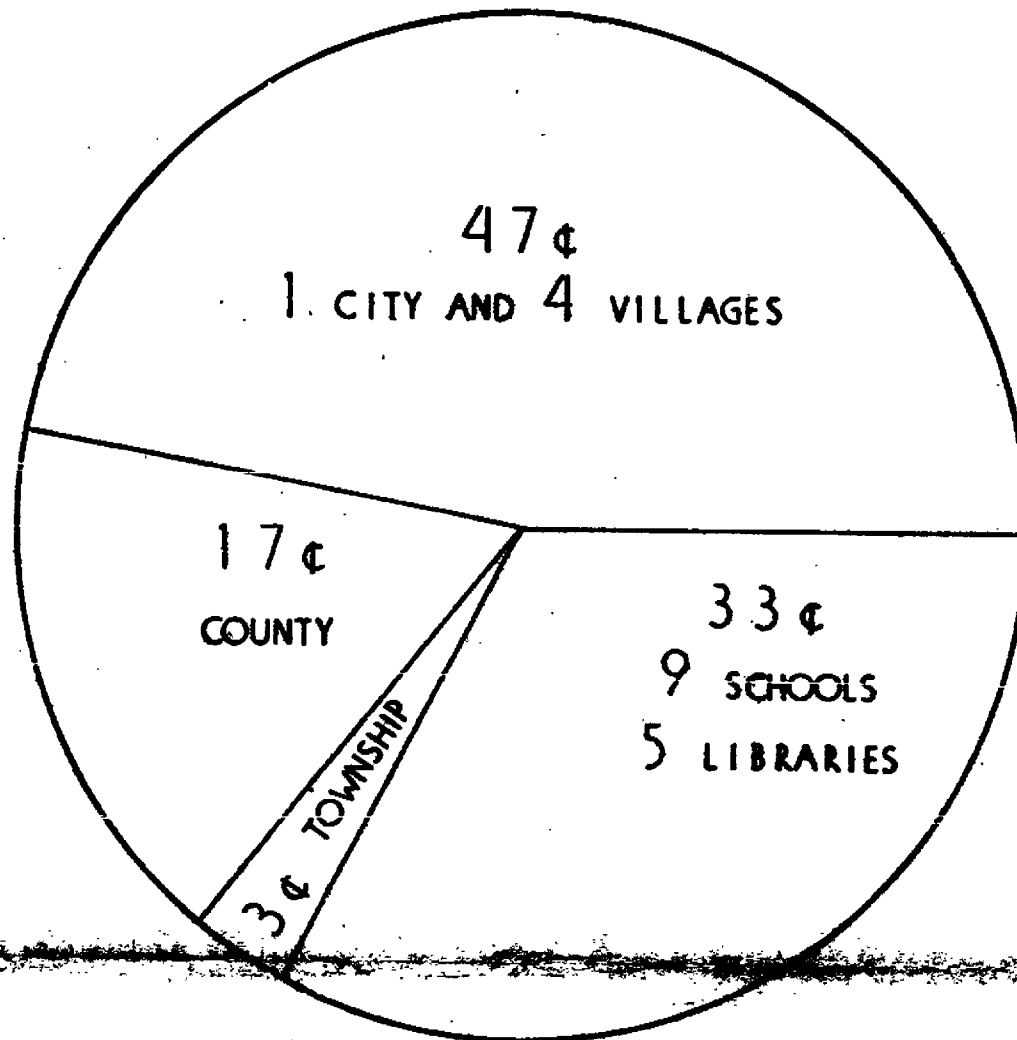

Save time and money with a competent, dependable teacher. Elaine Marie Arndt Dance Studio, L.E. 7833.

English Sparrow The common (English) sparrow is the most numerous bird in England, both in town and country.

## THE REAL ESTATE TAX DOLLAR IN GROSSE POINTE

### PROPORTION OF THE TOTAL REAL ESTATE TAX LEVY DEVOTED TO DIFFERENT GOVERNMENTAL PURPOSES

### JULY TAXES PLUS DECEMBER TAXES EQUAL TOTAL TAX DOLLAR

—Submitted by the Board of Education of Grosse Pointe Township

### Woods Community Club to Hold Skating Party January 20th

The Grosse Pointe Woods Community Club will hold a skating party at the playground, Ridgeway and Mack avenue, January 20, 4 to 6 p. m. All the children of the village are invited. Tickets for free hot dogs and cocoa can be secured at 2050 Roslyn road, between January 10 and January 16.

Enroll now—Grosse Pointe's most popular Dance Studio. Elaine Marie Arndt, L.E. 7833.

### Women's Republican Club of Grosse Pointe

Meetings of the Women's Republican Club of Grosse Pointe are to be held on the fourth Monday of each month at the Neighborhood Club, Waterloo and St. Clair avenues. Notices and information will be printed in the Grosse Pointe Review.

Women's Medical College Thirty-one new students have been admitted to the nineteenth college year of the Women's Medical College of Philadelphia. It is the world's oldest institution for the training of women physicians.

### Trombly P. T. A. Sponsors Classes

Mothers who have been attending the fall series are so enthusiastic about the Home Making classes that they have applied for a second series of lectures. The class will meet from 9:00 to 10:15 a. m. each Wednesday, beginning January 17. All persons interested in attending are urged to send name and 50 cent registration fee to the school office before the first class meeting.

## HERBERT ORIN CRISLER

His parents named him Herbert Orin. "The Grand Old Man" christened him "Fritz". The baptism by Stagg was the result of temporary ineptitude on the part of the new Michigan head football coach and assistant athletic director, then a

FRITZ CRISLER sophomore candidate for end at Chicago. Exasperated by his consistent bungling of a new play, Stagg identified him with the violinist. As he did so, he made it perfectly plain that it

was the similarity of last names and not of natural gifts that had suggested it to him. The sobriquet of "Fritz" has stuck ever since and it has been, incidentally, a blessing to sticklers for correct pronunciation.

This was the second of many incidents involving Stagg which had a direct bearing upon Crisler's life. The introduction of the Chicago director of athletics to the young man who later was to serve for eight years as his assistant was a knock-down for both. Stagg, avoiding a wide end sweep, charged unwittingly into Crisler, then a mere freshman and an innocent, sideline spectator at varsity practice. Each went sprawling. The resistance provided by the lanky youth evidently impressed the Chicago coach, for as he regained his feet and rushed back into play: "Why aren't you out for football?"

It was a new idea for Crisler. He had participated in no athletics at high school—had had no interest in them. But he reported the next afternoon for freshman football practice. "I wanted to see the inside of the gymnasium," he explains. He saw the inside of the gymnasium, while dressing, and a lot more when he got outside—including a half hour of scrimmage with the varsity. It was too much of a dose and he quit. And it probably was this experience which has made him emphasize, as coach, the necessity of making practice fun rather than drudgery for

players. "If a boy detests football," he holds, "it is usually the fault of the coaching methods."

Crisler was soon back on the football field, however. "I didn't think you were a quitter the freshman coach told him when he met him on the campus a few days later. Crisler resurrected his uniform and, in due course of time, became a regular freshman end. His striking career as an athlete had begun.

The Michigan head coach was born 30 miles from Princeton—that is, Princeton, Illinois—in Earlville, a hamlet 20 miles west of Chicago. The year was 1899. He attended Earlville high the fray he shot at the recumbent school for one year and spent the subsequent three years at the high school in the nearby town of Mendota. When he entered the University of Chicago in 1917, he intended to become a physician. But financial difficulties later rudely awakened him from this dream.

His freshman year at the University of Chicago was interrupted by the World War and in the spring of 1918 he departed for the Officers' Training Camp at Camp McArthur, Waco, Texas. He returned to Chicago in January of 1919. This is the date which his biographers will set down as marking the actual beginning of his climb to football fame. The rise brought him more "mash notes" than any other Chicago athlete received.

(Continued on Page Two)

## FIRST WINTER CONCERT FRIDAY NIGHT AT THE PIERCE JUNIOR HIGH

The first of a series of free winter concerts under the sponsorship of the Grosse Pointe Board of Education and John D. Pierce Junior High School Parent-Teachers' Association will be presented by the Detroit Federal Symphony Orchestra under the direction of Mr. Walter Poole tomorrow evening at 8:30 in the Pierce Junior High School auditorium.

### This Is How Propaganda Works

By PAUL M. DEAC

What little has been said about European propaganda bureaus may suggest these organizations are inactive or even have been done away with, altogether.

Yet, nothing of the kind has, nor will happen. Girardoux in Paris, Macmillan in London and Goebbels in Berlin—to mention only the "big boys"—have been working overtime ever since the first shot was fired in this war.

The reason why their intense and numerous activities are shrouded in silence is explained by the utter necessity of propaganda bureaus to remain under cover if they are to operate successfully. Their activities are to be felt, not seen.

Typical examples of the European *leverage de crises* (a popular French term for propaganda) are met with in almost every European publication, but the industrial London Contemporary Review tops them all in its December issue in an article by Robert Sencourt and entitled: "How Spain and Italy Act."

This sure is a masterpiece of its kind. In his immoderate desire to win Italy and Spain over to the Allied side and, also to "sell" them to British opinion, the overzealous author loses all sense of measure and utters the most brazen, deliberately fabricated lies.

It is interesting to note that if he ignored that it is not territory, but capital that a fast-growing nation needs most, Mussolini seized Ethiopia not because that country could become an ideal outlet for the excess of Italy's population, but merely because the Duce needed a pawn in his relations with Europe's bankers, England and France. His campaign in Spain was prompted by the same reasons.

"Hitler's ideas are impossible, aggressive, tyrannous," says he. Mussolini's? Oh, how admirably tame and idealistic.

"Nazism" continues encoeur, "is out of date in a world living by manufacture and commerce." But then, so is Fascism. For, what has Fascism that Nazism hasn't got? Franco's pronouncement is fallaciously pictured as having been "the uprising of a military party with ideas of social reform (sic) against the oppression of Moscow (???) from within the state." He even goes so far as to say that in Spain Communism was in control. "The Frente Popular was in reality a product of the Comintern," he affirms.

The truth is that Franco aimed to overthrow the republican regime; he wanted to destroy parliamentarism and democracy in Spain. The Spanish grandees and, also the Catholic church trembled for their abusive privileges when the Spanish people awakened and sent dire Alfonso XIII sprawling to exile.

Something had to be done. Franco is the man who did it. It is the abuse and oppression of military cliques, of men like Franco who have kept Spain so desparingly far behind other countries.

A proof that the people of Spain was not communistic can be found in a very little publicized phase of Soviet Russia's action in Loyalist Spain. The Russians let the people of Spain down the moment they found out Democracy and not Communism would be the regime to follow the civil war if the Loyalists won.

"Britishers who went to fight for democracy found themselves forced to listen to Soviet lectures with (listen in this one) pistols held at their heads from behind."

Poor Britishers. Can you imagine that? Unfortunately for author Sencourt, I and others who, unlike himself, have covered the Spanish civil war have never seen nor heard of any such atrocities.

And Mr. Sencourt being tenacious, he continues: "The Spanish war was a war of two totalitarianisms: one Sovietic and materialistic; the other Spanish (o Moors, o Italian fascists), Span-

(Continued on Page Two)

Two outstanding soloists will appear with the 70-piece orchestra. Miss Evelyn Woods, pianist, who is a pupil of Madame Samoff, has been an honor pupil at the Julliard School in New York City. Mr. Gustav Borham, first bass soloist with the Detroit Symphony Orchestra, will present two novelty numbers.

The Federal Concert Band, under the direction of Mr. Marjock Macdonald, is scheduled for future concerts. It is hoped that students and parents will avail themselves of this musical opportunity.

### Aquatic Club to Hold Swimming Demonstration Jan. 18

A swimming demonstration will be given in the high school pool by the Grosse Pointe Aquatic Club next Wednesday at 2:30 o'clock for the city boys, and next Thursday, January 19, at 8 o'clock. The admission will be 10 cents or an S. A. ticket. The public is invited.

The club is introducing a *fadon* trend into its demonstration this year, in that it will aim to raise money for the records to be kept and the "Book of the Woods" edition will be the cost "Soviet Serenade."

The demonstration will consist of water polo, relay swimming, and water polo. The relay swimming will be done by the fastest swimmers in the club. An added attraction will be the water polo race in which the fastest swimmer of the club will compete against the fastest swimmer of the city.

The club will hold a social on Wednesday, January 18, at 8 o'clock. The program will consist of a musical comedy, "The Merry Widow," and a play, "The Merry Widow."

### Party January 18th

The Discussion Study Club of Grosse Pointe will hold their January social and dance party in the gym, located at Hayes Blvd. at Mayfield Ave., Friday, Jan. 19th, at 8 p. m. Table and door prizes including a ton of coal donated by Wagner and Freese. Refreshments will be served. Admission 30 cents.

Mrs. Thos. Rutledge, chairman, will be assisted by the following committees: Tickets, Mmes. A. Heywood and S. Benichien. Tables and refreshments, Mrs. W. Kennedy and F. Harbois. Table prizes, Mmes. S. Andre and A. Stocking. Door prizes, Mmes. A. Linn C. Leaverton, R. Wolf and W. Fouchey. Refreshments, Mmes. S. St. Germaine and C. Diegel. Publicity, Mme. F. Harbois.

### SIGMA ETA MEETING JANUARY 16

The Iota Chapter of Sigma Eta Musical Sorority will hold their January meeting at 2 p. m. Tuesday, January 16, at 878 Cadien road, Grosse Pointe at the home of Mrs. Edna Sutton.

Ludwig Beethoven will be the musician under discussion in the following program:

A paper on the life of Beethoven by Edna Sutton and Delight Riss.

A play, read by Garnet Arborgast, Dora Hesse and Margaret Fitzgibbon, will have a musical background made up of Beethoven compositions.

Lucille Keneck, soprano, will be the guest soloist, accompanied by Harriet Kuenz.

Mrs. Parker Mason will be guest pianist.

### Ventriloquist to Feature Club Royale Program

Paul Winchell, ventriloquist, comes to the Club Royale Friday night, bringing with him a dummy that is acclaimed by eastern critics as being "the finest in the theatrical business." Especially amusing are his impressions of famous stars of screen and radio.

Lillian Carman, Broadway's No. 1 singing star, and who for the past six weeks has been performing at the International Casino in New York will provide the vocalizing. Dolly Arden, acrobatic control dancer, and Burns and White, youthful musical comedy dancers, along with the Royalties and Danny Demetry's music round out an exceedingly top-notch show.

Study with the best. It costs no more. Elaine Marie Arndt Dance Studio, L.E. 7833.

### Ballroom Dancing Class to Open Jan. 17

A new class in ballroom dancing for high school students will open next Wednesday, January 17, at 7:30 p. m. under the direction of Elaine Marie Arndt, noted dance stylist. This class will be held at the Trombly school, Beaconsfield at Essex. The course will include instruction in the fox-trot, waltz, tango rumba, conga, polka and also training in social etiquette. Grace, poise, exercise, self-assurance and appreciation of music are all benefits of dance culture.

A tap class for children will open on Tuesday, January 16 at 4 p. m. at the stud o. 919 Barrington road. The Arndt Dance Studio offers beginners and advanced classes for pupils of all ages including baby classes (age 3-6) ballet and toe, tap, and adult couples ballroom classes or private groups. (See adv.)

**New Garbage Receptacle**

The invention of a sanitary adjustable garbage and debris receptacle is a household and apartment sanitary necessity and is being introduced to the public by the Get-a-Garba Receptacle of 3030 Gratiot avenue.

It is the only dog, rat, fly, wind, rain, snow and odor proof receptacle having the Health and Sanitary Police Approval. The modernized receptacle has many sanitary features. In all it is an economical work saver made sanitary. It will improve our alleys and yards and at the same time prevent the spread of diseases.

**Trombly P. T. A. Meets January 1**

Mr. John H. Schriever, program chairman, has arranged an interesting evening for the Trombly parents and members of the community.

A select group of students from the High School band will give a 20-minute concert. The music will begin at 8:10. The speaker of the evening will be Dr. J. M. Orten, Associate Professor of Physiological Chemistry at the College of Medicine, Wayne University.

His subject is "Nutrition, Vitamins, and Your Child." Dr. Orten will approach this subject from a practical angle.

Mrs. Fred Hofmann is the social chairman for this meeting. She will be assisted by the room mothers, and a committee of mothers from the B and A Kindergarten, and the 1B grade. Refreshments will be served in the gym after the business meeting.

Room conferences will begin at 7:30. Everyone is cordially invited to come.

**Glee Clubs and Chorus to Give Music Festival**

The music department will be the first group in the high school to give a public performance in 1940. Two cantatas will be sung by the glee clubs and girls' chorus at a music festival Friday evening, January 19, at 8:15 in the high school auditorium.

The first cantata will be sung by approximately 100 girls of the chorus and glee club. Bettijans Jeaks, 12B, will be the soprano soloist.

Boys and girls will blend their voices as William Bayer, 10A, and both glee clubs sing a second cantata under the direction of Mr. John Finch, music instructor.

Singing a group of selections will be the A Capella choir, directed by Mr. W. J. Watkins, music instructor.

Tickets will go on sale the week of January 8 in the Student Council Booth at 25 cents or 15 cents with an S. A. ticket.

**Italy's 'Wooden' Nickels**

Not exactly a wooden nickel, but something just as good, may be the thought behind the recent decree in Italy to replace nickel coins by "wooden" nickels, a new stainless steel alloy developed by that country. Reports indicate that this is one of Italy's methods of conserving one of her strategic materials and she stands to save between five and six thousand tons of nickel, according to Engineering and Mining Journal.

**'Bad-Man' Cemetery**

Chuck Martin of Oceanside, Calif., a western story writer, maintains a cemetery of 80 make-believe graves on his ranch, reveals the American Magazine. The headstones record the deeds and death of each fictitious bad man who met his doom in one of Martin's stories.

**Grosse Exaggerations?**

(Continued from Page One)

els and picks while a bevy of workmen lay on the sidelines, drinking champagne out of the bottles! That's what we like about America; New York; workmen; and oh yes; young men in dinner coats.

Down town there is a dinky little barber shop outside of which hangs a neat sign reading "100 percent Union." We've never seen more than two barbers in the place, but it's nice to know that they're in perfect accord with each other.

And so endeth another week. Will be back again on January 25th, with all the news under the (Florida) sun. So long, folks!

**This Is How Propaganda Works**

(Continued from Page One)

ish and spiritual. One side Christianity, on the other Atheism.

Really? Why then were Spanish Protestants persecuted and their ministers tortured and put to death by Franco's henchmen? Why, if the Rebels were Christians? But, this Mr. Sencourt prudently skips.

"The Atheists (for Loyalists) had torture chambers." But, then, so did the "Christians" (for Rebels) for that matter. On the Loyalist side, Anarchists and certain Communists sometimes employed such horrors, but they were promptly suppressed the moment responsible authorities discovered their existence. This was not always the

case on Franco's side, where the Jesuits and the Moors often had the upper hand.

"The tradition of Franco was the tradition of honor" (sic). Perhaps that is why he allowed Spanish women to be raped and murdered by his fierce Moors!

And, remembering all of a sudden that he is keeping Il Duce waiting, he says: "Mussolini sponsored a religious revival (?) and works in closer and closer collaboration with the Church. Which only puts the Duce 'on the spot' for everyone recalls how he forced the Pope's hand in signing the Treaty of the Lateran. This understanding was meant to loosen the grip of the clergy over the younger generations and automatically place them under the sole influence and control of the fascist state. It was the signal for a ruthless drive by atheistic Fascism against the Italian clergy. And, since the Duce's tactics have greatly curtailed the Church's influence in Italy, the only approach possible is that between the royal family and the Pope. And Fascism will have to be driven from power if even such a friendship is to amount to anything. For, it is Premier Mussolini and not the King who is really ruling Italy.

And here is a dandy: "Only atheistic Moscow is to blame if Hitler is a scourge to the Church."

"Hitler's seizure of Prague was arranged by Moscow through atheistic General Sivov."

This is not what former President Eduard Benes told me. In fact, even French sources admitted at the time that British pressure and even threats were responsible for the destruction of the Czechoslovakian republic.

He quotes the Duce as having said to a visiting member of the House of Lords: "I love England." (re-sic). And he exhorts the reader to take Mussolini's word for it. Evidently, propagandist Sencourt has forgotten that the Duce considers England's empire and seapower the only real obstacle to Italian expansion and greatness.

And, to strengthen his argumentation he remarks: "The French have discovered unexpected virtues in the Italian regime." So, they have. But then, why is France maintaining a force of 1,000,000 crack troops on the Italian border? If this great army is not there for strategic purposes, its stay on the Italian frontier must be interpreted as a matter of convenience, winter sports, for instance. And, if this is the case, why doesn't Mr. Sencourt come out and say so, outrightly?

Space forbids me to show how the propagandist reconciles Italy with Yugoslavia, Greece, Turkey, etc. How he so convincingly tells the reader that the few kind remarks about Germany in the Italian press mean no harm. It is merely a face-saving maneuver. It is one thing the Allies cannot refuse Italy.

The author of this typical piece of propaganda concludes that "if a Russian peril of any kind should menace the Balkans, Italy would react with every means in her power." Yes, sir. And, to support his conclusion, he gives all kinds of reasons except the really good one, to wit: The Allies have convinced Italy that her very existence was at stake. They cleverly identified her interests with those of the tradition and civilization of Europe. And, when the above weren't effective enough, they pulled out the old trick which worked so well with Italy at the outbreak of World War I. The Allies promised Italy money, territory and specific spheres of influence.

That is all the Duce needed, so he signed on the dotted line. Of course, Robert Sencourt does not know the Allies have already bribed Italy into fighting on their side. Nor does he believe Paris and London will decide as to when Rome is to declare war on Germany or Russia.

**Crisler, as Head Coach, Has Splendid Record**

(Continued from Page One)

Crisler played guard on the Chicago basketball team in the second conference game that year and did not miss a single conference game for the rest of his college basketball career a career which included the captaincy in 1921 and membership on the All-Conference teams of 1920 and 1921.

Crisler played an inspired game of football at Chicago, winning places on the All-West and Eckersall's All-American eleven and on Walter Camp's third team. Although he is not so well known for his activity in his third sport, baseball, Crisler pitched for Chicago during his three years and made the trip to Japan with the 1920 Chicago nine.

The brain of the new Michigan head coach is as skilled as his muscles. He more than qualified for membership in the Phi Beta Kappa society, but because of a technicality, was deprived of election. At Chicago, 144 honor points were required for election to the society. Crisler had 146. But he had been a trifle lax in his attendance at chapel and, as a penalty, three honor points were taken from his record. He lost the key, consequently, by the narrow margin of one point. He did, however, win the conference medal for proficiency in scholarship and athletics.

Crisler was graduated by Chicago in March, 1922. Since January of that year, he had been helping Stagg and following graduation, he continued in that capacity, serving as assistant coach in football, basketball and baseball. In 1925 he became head baseball coach and assistant director of athletics.

In 1930, Crisler was called to the University of Minnesota to succeed Dr. Clarence W. Spears as football coach and shortly afterwards Dr. Frederick W. Luehring as director of athletics. His football team, in his final year at Minnesota, was rated at the

top of the Big Ten.

Crisler joined the Princeton staff in 1932 as head coach of football and during his career at the eastern school, won 25 games, lost 9 and tied 5. During most of this period, he was assisted by Elton E. ("Tad") Wieman, former Michigan coach, in the post of coach of the line.

During each of his two years as Michigan's head coach, a Crisler-trained player has been chosen by Grantland Rice on his All-American team. Ralph Heikkinen, guard, was so honored in 1932 and Tom Harmon, back, was selected in 1930.

Grosse Pointe Lutheran Church

"Is There Need for Another Protestant Church in Grosse Pointe?" will be the subject of the sermon at the Grosse Pointe Lutheran Church, worshipping in the Richard School auditorium, Kercheval and McKinley, Sunday morning, January 14th, at 11 o'clock, preached by the Rev. M. Luther Casup, D.D., pastor.

The sermon will be followed by the annual congregational meeting at which time there will be the reading of reports and election of church councilmen.

"What Forgiveness Involves" will be the topic taught in the upper grades of the Sunday School at 9:45 a. m. Our school conducts classes for all ages and grades.

Grosse Pointe families must accept the responsibility of remaining Christian. Wealth, culture and social prestige excuse no one from accepting Christ and carrying out His command to make disciples of all nations. Your neighborly church would like you to make it your neighborhood church. Bring your family. We preach Christ and Him crucified for our sins.

Copper in Building
Including electrical work, approximately one-third of last year's copper consumption in the United States was accounted for by the building industry, estimates of the American Bureau of Metal Statistics show.

Chinchilla Garments
There are in existence just 25 garments made of chinchilla pelts before trapping the animal was forbidden. Most of the garments are in the possession of royalty. They are valued at from \$80,000 to \$150,000.

No Funny Talk
Police Superintendent Edward W. Fallon of Boston, has ordered patrolmen in radio squad cars to stop wisecracking and joking. He said that some officers had been indulging in "smart" remarks when arresting offenders.

Draperies and curtains made to order. Repairs and installations. Estimates and suggestions submitted.

New Drug Is Valuable in Epilepsy Treatment

A new drug, discovered by two research doctors in the United States and developed in British hospitals, has been of benefit in more than 90 per cent of hospital cases treated for epilepsy, according to physicians.

Before a board of distinguished physicians, three doctors, W. McCartan and J. Carson, of the Brighton mental hospital, and Dr. I. Frost, of the Friern hospital, have told of results the new drug has achieved.

Its technical name is sodium diphenylhydantolate, but it is marketed as apantun and sodantoin.

Two American research men, Drs. H. Houston Merritt and Tracey J. Putnam, discovered it by electrically stimulating brains and nervous systems of cats, finding that the animals had an automatic convulsion.

They then experimented with a wide range of drugs until they found a combination which canceled out the convulsion.

They were then able to try the drug on human beings who were victims of epilepsy, and experimented on 142 severe cases.

After treatment lasting in some cases 11 months, but averaging four months, 86 per cent of cases were completely relieved of attacks and 77 per cent were substantially improved.

It is estimated that there are approximately 50,000 sufferers from epilepsy in Britain.

Government Is Planning Housing Census in 1940

A national housing census, the first of its kind to be attempted in the history of the nation, will be taken in 1940 in conjunction with the individual count, following action by congress in the final period of the last session.

According to E. L. Ostendorf, president of the National Association of Real Estate Boards, the census is "bound to be of far-reaching importance as a fact foundation for private enterprise, both as to new construction and as to rebuilding of existing construction. Most important, the data will be made available for each community."

"Because of the practical importance of having local data made available as early as possible," Ostendorf said, "the association will ask that the time of completing the census be moved forward."

Reporting on the bill, the senate committee on banking and currency stated: "Investment in housing represents one-fourth of our national wealth. In the form of either loans, commitments or guarantees, the federal government has an interest of approximately \$10,000,000,000 in housing. Yet this is the one branch of our national economy where reliable statistical information is sorely lacking."

The count of dwelling structures and dwelling units is restricted in the bill to a collection of the most significant factual statistics.

First Submarine Pentoses
The navy department says that the first use of submersible pontoons was in salvaging H. M. cruiser Gladiator, a British vessel, by the Liverpool Salvage association, under Capt. Fred W. Young, in 1908. In salvaging this vessel large steel cylinders were fastened to the submerged portion of the cruiser in such a way as to increase her buoyancy. The cylinders were built of steel plates and bars and were 12 feet in diameter. They varied in length from 40 feet to 75 feet. The cylinders were tested to 25 pounds per square inch. The outer skin was sheathed with wood and the ends were protected by collision matting. These steel cylinders had special valves to admit water for the purpose of sinking them and separate valves for the admission of air to drive out the water when it was desired to refloat them.

Lama Never Dies
Tibetans believe that the Dalai Lama never dies, but that his soul is merely transferred into the body of a new-born child immediately upon his death. The infant-elect must have been born at the precise moment of the Dalai Lama's death and miracles and signs must have attended to his holy birth. In cases of doubt other possible methods of finding a successor are provided.

Extinct Dodo
The dodo was a clumsy, defenseless bird, about the size of a swan, found living on Mauritius when the island was discovered by the Portuguese near the beginning of the sixteenth century. Its wings were small and incapable of flight. Unable to cope with conditions, this helpless bird was exterminated about 1651 and no entire specimens are preserved.

Origin of Pekingese
The origin of the Pekingese dog is lost in antiquity, but it is known that these dogs were regarded as sacred and kept closely guarded in the palaces of Chinese rulers for many centuries. In 1860, at the time of the looting of the summer palace in Peking, five of the dogs were seized and carried to England, where they became the progenitors of the Pekingese of today.

Barren on Consumers
More than 56 per cent of all taxes, reports the National Consumers Tax commission, are paid by consumers as a hidden part of the price of every purchase.

Faith Lutheran Church

At the 10:45 a. m. Sunday service the pastor will speak on the winning of souls and both choirs will sing. Bible classes will meet at 9:15. The Rev. G. L. Hueter, missionary returned from New Guinea, will speak at the Junior Mission League luncheon, to be held at 6:00 p. m. All are invited to attend the 8:00 p. m. showing of moving pictures taken in the New Guinea Mission Field.

On Monday evening, January 15, at 8:00 p. m., the pastor will begin a series of lectures entitled "The Way of Salvation as Taught by the Lutheran Church." Everyone is invited to attend this series of nine lectures, one of which will be given each Monday evening. At 7:00 that same evening a new course entitled "General Child Psychology" will begin in the Church Workers' Training Course.

On January 17, at 6:30 p. m., the congregation will hold its annual banquet and meeting. The Rev. H. L. Yochum, president of the Michigan District of the American Lutheran Church, will be the guest speaker.

Gerald L. K. Smith, America's noted radio orator and defender of the American system of life and government, will speak at the Brotherhood Banquet on January 25.

We invite you to worship at Faith Lutheran Church. We preach the Old Gospel for modern times.

Messiah Lutheran

Southeast corner of Kercheval and Lakewood Avenues. A. H. A. Loeber, pastor, 1434 Lakewood Avenue. Telephone Lenox 2121.

"And Jesus Was Called." This word from the gospel lesson for the coming Sunday will be treated in the sermon next Sunday morning. The service will take place at 11:15 a. m. The Sunday school will meet at 10 o'clock.

On Thursday evening of this week, January 11, at 8 o'clock, the Bagans Trio (harp, marimba and vibraphone) will render a sacred concert in Messiah Church. This instrumental trio will be assisted by the Ave-Lallemant vocal trio. The public is invited to attend. Admission is free.

Jefferson Avenue Baptist Church

Dr. Clarence Hill Frank, executive secretary of the Detroit Council of Churches, will be the guest speaker this Sunday, 11:00 a. m., at the Jefferson Avenue Baptist Church. A special Youth Service is planned for the 7:30

p. m. Worship Hour. The young people's organizations meet at 6:30 p. m. and the Church school at 9:45 a. m.

Better Light boosted STOPPING POWER of this window 46%!
A millinery shop made a test on the effectiveness of improved show window lighting. By using colored lighting for general illumination and white spotlights on the merchandise, the attracting power of the window was increased 46%. A similar test in a shoe store produced even more startling results. By doubling the general illumination and using a spotlight in the center of the window, the attracting power was increased 81% and the featured shoes were quickly sold out.
Perhaps better lighting can increase the effectiveness of YOUR windows. Detroit Edison engineers will gladly help you find out. They will make a lighting survey without charge and offer helpful suggestions where needed. Call your Detroit Edison office. The Detroit Edison Company.

ORDINANCE NO. 120

AN ORDINANCE for Safeguarding Life and Property by Regulating and Providing for the Inspection of the Installation and Maintenance in Building of Electric Wiring, Electric Devices and Electric Material, To Provide for the Licensing Registration of Electrical Contractors and the Licensing of Journeyman Electricians in the Village of Grosse Pointe Park; To Provide a Reciprocal Arrangement for the Recognition of Examinations and Licenses Issued by Other Municipalities in the State of Michigan Voluntarily Cooperating in the Enforcement of This Ordinance; To Provide a Penalty for Violations Thereof and To Repeal Ordinance Number 27 and all Other Ordinances and Sections of Ordinances in Conflict Therewith of the Village of Grosse Pointe Park.

THE VILLAGE OF GROSSE POINTE PARK ORDAINS:

Section 1. Electrical Inspection:

A. The Village Clerk, hereinafter called the Inspection Authority shall have and hereby is given jurisdiction, subject to review as hereinafter provided, over the inspection of all electrical installations, including changes, repairs and additions thereto within the Village of Grosse Pointe Park. This jurisdiction shall apply to the installation of devices, apparatus and equipment for connection to electricity supply systems having voltage over thirty volts, except as herein otherwise provided.

B. The Village Commission may, at its discretion, appoint and fix the remuneration of such persons or inspection agency as is qualified and competent to supervise thorough inspection of all such electrical installations, devices, apparatus and equipment.

Section 2. Fees for Inspection. A. When an application is made for a permit to equip any building with electric fixtures or wiring for heat, light or power, a fee shall be paid in amount as prescribed by the Village Commission of the Village of Grosse Pointe Park.

Section 3. Right of Access to Buildings.

A. The Inspection Authority and/or his deputy shall have the right during reasonable hours to enter any building for the purpose of making any inspection or test of the installation of electric wiring, electric devices and/or electric material contained therein and shall have the authority to cause the turning off of all electric supply and cut or disconnect, in cases of emergency, any wire where such electrical currents are dangerous to life or property or may interfere with the work of the Fire Department.

Section 4. Permits.

A. No alterations or additions shall be made in the existing wiring of any buildings, nor shall any building be wired for the placing of any electric lights, motors, heating devices, or any apparatus requiring the use of electrical current at a potential over 30 volts, nor shall any alterations be made in the wiring in any building after inspection, without first notifying the Inspection Authority, and securing a permit therefor. Applications for such permit, describing such work, shall be made by the person, firm or corporation installing same, and permit, when issued, shall be to such applicant.

B. This section shall not apply to maintenance and repairs on the premises of a person, firm or corporation regularly employing qualified electricians for that purpose, nor to such minor repair work as repairing fuses, changing lamp sockets and replacing drops, taping bare joints or repairing drop cords.

Section 5. Inspection.

A. Upon the completion of the wiring of any building, it shall be the duty of the person, firm or corporation installing the same to notify the Inspection Authority or his deputy, who shall inspect the installation as soon as possible, and, if it is found to be fully in compliance with this ordinance and does not constitute a hazard to life and property, he shall issue to such person, firm or corporation for delivery to the owner a certificate of inspection, authorizing connection to the electrical service and the turning on of the current. All wires which are to be hidden from view shall be inspected before concealment, and any person, firm or corporation installing such wires shall notify the Inspection Authority or his deputy, giving him sufficient time in which to make the required inspection before such wires are concealed.

Section 6. Re-Inspection.

A. The Inspection Authority, or his deputy, shall make periodically a thorough re-inspection of the installation

in buildings of all electric wiring, electric devices and electric material now installed or that may hereafter be installed, within the Village of Grosse Pointe Park, and when the installation of any such wiring, devices, and/or material is found to be in a dangerous or unsafe condition, the person, firm or corporation owning, using, or operating the same shall be notified and shall make the necessary repairs or changes required to place such wiring, devices and material in a safe condition, and have such work completed within fifteen days, or any longer period specified by the electrical inspector in said action. The Inspection Authority, or his deputy, is hereby empowered to disconnect or order the discontinuance of electrical service to such wiring, devices and/or material so found to be defectively installed until the installation of such wiring, devices and material has been made safe as directed by the Inspection Authority or his deputy.

Section 7. Construction Requirements.

A. No certificate of inspection shall be issued unless the electrical installation is in strict conformity with the provisions of this ordinance, the statutes of the State of Michigan, the rules and regulations issued by the Michigan Public Utilities Commission under authority of the State statutes, and unless they are in conformity with approved methods of construction for safety to person and property. The regulations as laid down in the National Electrical Code, as approved by the American Standards Association, and in the National Electrical Safety Code, as approved by the American Standards Association, and in the Village rules and regulations established as hereinafter provided (Section 10, paragraph D) shall be prima facie evidence of such approved methods.

Section 8. Approved Materials.

A. It shall be unlawful to install or use any electrical device, apparatus, or equipment designed for attachment to, or installation of any electrical circuit or system for heat, light or power, that is not of good design and construction, and safe and adequate for its intended use. The Inspection Authority shall have power to disapprove the use or installation of devices not fulfilling these requirements. Devices, apparatus and equipment approved by such generally recognized authorities as United States Bureau of Standards, Electrical Testing Laboratories of New York, or Underwriters Laboratories shall be held to have the approval of the Inspection Authority unless explicitly disapproved by said Authority for reasons of faulty design and poor construction involving danger to persons and/or property.

B. It shall be the duty of the Inspection Authority, or his deputy, from time to time to inspect devices, apparatus and equipment offered to the public for use in installation to see that such items conform to the above requirements.

Section 9. Records and Review.

A. The Inspection Authority, or his deputy, shall keep duplicate records of all permits issued and inspections made and other official work performed under the provisions of this ordinance. He is hereby authorized to hire the necessary clerical help to carry out the provisions of this section, and to fix their remuneration, subject to the approval of the Village Commission.

B. When the Inspection Authority, or his deputy, condemns all or part of any electrical installation, the owner may, within five days after receiving written notice from the Inspection Authority or his deputy, file a petition in writing for review of said action of the Inspection Authority or his deputy with the Board of Examiners, upon receipt of which the said Board of Examiners shall at once proceed to determine whether said electrical installation complies with this ordinance, and within three days shall make a decision in accordance with its findings.

Section 10. License for Electrical Work.

A. It shall be unlawful for any person, firm or corporation to engage an independent contractor in the installation, alteration, maintenance or repair of electrical wiring, equipment, apparatus or fixtures for light, heat or power purposes where the electromotive force exceeds 30 volts in or about buildings and/or structures located within the Village of Grosse Pointe Park, without first having procured a license.

Any person, firm or corporation who desires to procure a license, shall make application to the Inspection Authority on forms provided by him for the class of license desired.

Persons making application must be 21 years of age or over, and must have a license as a Journeyman electrician, and pass a suitable examination. Persons, firms or corporations applying for Contractor's license must have at least one member of the firm with the above qualifications and experience, or have one or more men employed with the above qualifications and experience.

A Board of Examiners is hereby constituted, consisting of a representative of the Michigan Inspection Bureau, a representative of an Electrical Utility Company, an Industrial Electrical Engineer, a licensed Electrical Wiring Contractor and a licensed Journeyman electrician. The Board shall be appointed by the President, and such appointments shall be approved by the Village Commission. The last two members of the Board shall have at least ten years' experience. This Board shall examine all applicants for either Contractor's or Journeyman electrician's licenses. Applicants failing to pass will not be eligible for re-examination in any reciprocating municipality for a period of thirty days.

The Board shall prepare the application blanks, prescribe the examination and meet at least once a month or on call of the Inspection Authority to hold examinations. Due notice shall be given applicants of the date of examination.

B. It shall be unlawful for any person to engage in the occupation or trade of Journeyman electrician in the installation, alteration, maintenance or repair of electrical wiring equipment, apparatus or fixtures for light, heat, power or medical purposes where the electromotive force exceeds 20 volts in or about buildings and/or structures within the Village of Grosse Pointe Park without having first taken the examination and obtained a license as herein provided. This provision shall not apply to helpers and apprentices provided such work as they may do is performed under the direction and supervision of licensed Journeyman electricians who shall be on premises at all times when such helpers or apprentices are performing such work on the premises.

All applications for said examination shall be in writing. The examination shall consist of an oral or written examination as the Examining Board shall determine, and such other practical tests in examination at the discretion of the Examining Board. Stenographic notes shall be taken of all oral examinations.

Minimum qualifications for examination for Journeyman electricians shall be four years of practical experience. Time spent in trade school attendance shall be credited as apprenticeship experience; four years in technical school and one year practical experience shall also qualify for examination.

C. The fee for an Electrical Contractor's license shall be \$25.00 per year. The fee for a Journeyman electrician's license shall be \$1.00 per year. Licenses shall expire on December 31st following the date of issue, and shall be renewed upon application by the licensee, together with the payment of the required fee. After March 1st all licenses not renewed shall be considered cancelled, and may not be renewed except upon approval by the Examining Board. Electrical Contractors' licenses and Journeyman electricians' licenses shall be issued by the Inspection Authority upon recommendation of the Examining Board. Licenses issued under this ordinance shall be non-transferable and shall be displayed when requested.

Any person, firm or corporation holding a license issued by the State of Michigan for the year of 1939 shall not be subjected to examination by the Examining Board in order to obtain a license for the year of 1940, provided the license is obtained before March 1st, 1940. No licenses shall be recognized by the Village of Grosse Pointe Park unless such licenses are issued by a co-operating municipality having an Examining Board.

All license fees collected by the Department of Inspection Authority from applicants who are not residents of the Village of Grosse Pointe Park in the case of Journeyman electricians, or who maintain their principal place of business as Electrical Contractors in another Michigan municipality, shall be equally divided between the municipality as designated by the applicant and the Village of Grosse Pointe Park; provided that such municipality continues to reciprocate by refunding to the Village of Grosse Pointe Park one-half of all license fees paid for licenses issued by such municipality to Journeyman electricians who are residents of the Village of Grosse Pointe Park and by Electrical Contractors who maintain their principal place of business in the Village of Grosse Pointe Park; provided further, that such municipality maintains an electrical inspection agency or bureau legally constituted by local charter or ordinance. All applicants for licenses shall designate their legal address as the location of their residence, in the case of Journeyman electricians, and the legal address of their principal place of business in the case of Electrical Contractors.

The Village of Grosse Pointe Park shall permit Electrical Contractors, lawfully licensed by other municipalities of the State of Michigan, to install, alter or repair electrical wiring, equipment, apparatus or fixtures for light, heat or power purposes within the corporate limits of the Village of Grosse Pointe Park upon a payment of a nominal registration fee. No registration fee shall be collected in any case where one-half of the license fee is received from another municipality, otherwise the registration fee shall be One Dollar, and shall expire concurrently with the license issued; provided that such municipalities reciprocate in recognizing Electrical Contractors who are duly licensed under the provisions of this ordinance by granting them the same privilege and charging them the same uniform license and registration fees. Provided further, that the licensing ordinances are substantially equal to the requirements of this ordinance. Journeyman electricians duly licensed by any municipality co-operating in the reciprocal arrangement, shall be permitted to work in the Village of Grosse Pointe Park without the payment of a registration fee.

Section 11. Fees for Electrical Inspection.

- A. The fees for electrical inspection shall be as follows: 1. Incandescent Light Wiring 4 circuits or less \$2.50 Each additional circuit up to and including 24 25 If additional circuits are installed after the original permit has been filed, the maximum fee will prevail. 2. Incandescent Light Fixtures First 50 sockets or less 2.50 Each additional 50 sockets or fraction thereof 50 3. Combined Wiring and Fixtures When inspected on one trip, 4 circuits or less and 50 sockets or less 3.50 Each additional circuit 25 4. Electric Ranges or Water Heating A single electric range or water heater 2.50 Each additional range or water heater 50 When range or heater is installed by the same contractor and may be inspected on the same trip with wiring or fixture inspections, for each range or water heater 20 5. Electric Signs 50 lamp or 500 V. A. or less 2.50 Each additional 20 lamp or 200 V. A. or fraction thereof 25 6. Motors and Generators For the installation of a single motor or generator 1 H. P. or less 1.00 Greater than 1 H. P. up to 10 H. P. inclusive 2.00 Greater than 10 H. P. up to 20 H. P. inclusive 3.00 Greater than 20 H. P. up to 30 H. P. inclusive 4.00 Over 30 H. P. 5.00

When more than one machine is to be installed on the same premises by the same party, and may be inspected at the same time, a charge shall be made for the largest machine according to the above schedule plus 50c for each additional unit. When several motors of less than 1/2 H. P. are properly connected to the same circuit, the fee charged shall be based upon the number of such circuits as for wiring of incandescent lighting.

7. Meter Permits For temporary service only... 1.00 Fixture permit fee includes meter permit for permanent service only. 8. Furnace Wiring For the installation of one furnace and/or temperature control equipment with motor or up to and including 1 H. P. 2.00 Where motor size exceeds 1 H. P., charge is for power. See Item 6. Where there is no motor connected with the above installation 1.00 For two or more furnaces and/or temperature control equipment in the same building, the above fees apply plus 50c for each additional. Where permit covers a combination of wiring circuits and furnace equipment, add one-half of the above fee to the regular charge for circuit wiring. 9. Additional Trips When additional inspections are made necessary by reason of the inspection being called prematurely, or due to non-compliance with the rules, an additional charge of \$1.00 per trip will be made. 10. Miscellaneous Fees for inspection of equipment not included in above may be ascertained upon application to the inspection authority.

Section 12. Exemptions. A. This ordinance and its provisions shall not apply to apparatus and equipment installed by or for any public utility operating under jurisdiction of the Michigan Public Utilities Commission. Section 13. Penalty. A. Any person, firm or corporation who shall fail to comply with any of the provisions hereof, shall upon conviction thereof, be subject to a fine of not more than \$100.00 or imprisonment in the Village prison or the jail of Wayne County or any other place of confinement provided by the Village for such purpose in the discretion of the Court for a period not to exceed ninety days, or by both such fine and imprisonment in the discretion of the Court unless otherwise provided in this ordinance. Section 14. Repeal of Conflicting Ordinances. A. All ordinances or parts of ordinances conflicting with the provisions of this ordinance and specifically ordinance numbered 27, are hereby repealed. Should any section, subdivision, sentence, clause or phrase of this ordinance be declared by the Courts to be invalid the same shall not affect the validity of the ordinance as a whole or any part thereof other than the part so invalidated. Section 15. Liability. A. This ordinance shall not be construed to relieve from or lessen the responsibility or liability of any party owning, operating, controlling or installing any electrical wiring, electric devices and/or electric material for damages to person or property caused by any defect therein nor shall the Village be held as assuming any such liability by reason of the inspection authorized herein, or certificate of inspection issued as herein provided. Section 16. Effective Date. A. This ordinance shall take effect twenty days from the passage hereof. Passed January 8, 1940. WM. G. STAMMAN, Clerk.

Section 17. Accidental Discovery. Accident often plays a large part in the discoveries of science. Roentgen, credited with discovering the X-ray, was put on the path of his epochal feat when he found that waves emitted from a Crookes tube, through which he had been sending electrical charges, registered on some photographic plates stored in his laboratory.

Section 18. Fireproof Minor Garages. A minor garage constructed of fireproof materials in accordance with the provisions of this ordinance may be located on the side lot line, providing the walls thereof adjacent to such side lot line shall have no openings therein. Minor garages constructed of fireproof material may have living quarters above to be occupied in compliance with the provisions of Ordinance No. 65 of the Village of Grosse Pointe Park, provided that if such garage shall have a finished floor area of not more than four hundred (400) square feet, all exterior walls thereof shall be of a minimum thickness of eight (8) inches of solid masonry, said walls to extend to the top of the ceiling joists, and the ceiling shall be constructed of a slab of a minimum thickness of six (6) inches of concrete or concrete joist and plaster tile or any other approved masonry construction; such slab shall have a bearing of at least six (6) inches upon all exterior walls, provided that where such garage has a finished floor area in excess of four hundred (400) square feet the exterior wall thereof shall be constructed of solid masonry of thickness of eight (8) inches with pilasters of dimension of 4 inches by 12 inches, spaced not more than ten (10) feet upon centers in all enclosing walls, or in lieu thereof a solid masonry wall without such pilasters of a minimum thickness of twelve (12) inches may be constructed, and for such garage the ceiling shall consist of a slab constructed of concrete or concrete joist and hollow tile or any other approved masonry construction of a minimum thickness of eight inches, and the bearing for such slab shall be not less than eight (8) inches upon all exterior walls where such exterior walls are twelve (12) inches in thickness, and a bearing of not less than six (6) inches upon all walls the minimum thickness of which is eight (8) inches, provided that minor garages having not more than four hundred (400) square feet of area may be located under a single dwelling, provided that the interior of all walls of the garage not of masonry construction, and the ceiling of such garage, where the floor above is not of fireproof construction, shall be protected with not less than 1/2 inch of gypsum or Portland cement plaster on metal lath, the thickness of such plaster to be measured from the back of the metal lath. Any stairway connecting with the dwelling above and the garage below shall be separated from the garage by a wall protected on the garage side as required for the enclosing walls of the garage and equipped with a self-closing fire door, door sill of concrete to be eight (8) inches above the garage floor level, and provided further, that any entrance to the first floor or basement of any attached dwelling shall be provided with a self-closing fire door with a door sill of concrete to be eight (8) inches above the garage floor level, provided further, that minor garages in excess of four hundred (400) square feet shall be constructed of materials as required hereinbefore for fireproof minor garages.

(f) No garage not of fireproof construction shall approach closer to any portion of the dwelling or enclosure thereof than six (6) feet, except as above provided. (g) One story minor garages may be attached to dwellings provided that the interior face of all walls of the garage not of masonry construction,

ORDINANCE NO. 121

AN ORDINANCE to Amend Article XXVI, Section 11, Paragraphs (e), (f) and (g) of Ordinance No. 75, Entitled "An Ordinance to promote the health, safety and general welfare of the people of the Village of Grosse Pointe Park by creating a department of building and safety engineering for the regulation of light, ventilation, sanitation, plumbing, electrical wiring, fire protection, maintenance, alteration, repair, construction, improvement, use and occupancy of buildings, and to establish administrative requirements and to provide penalties for the violation of the requirements thereof."

THE VILLAGE OF GROSSE POINTE PARK ORDAINS:

Section 1. That Article XXVI, Section 11, Paragraphs (e), (f) and (g) of Ordinance No. 75, entitled "An Ordinance to Promote the Health, Safety and General Welfare of the People of the Village of Grosse Pointe Park by Creating a Department of Building and Safety Engineering for the Regulation of Light, Ventilation, Sanitation, Plumbing, Electrical Wiring, Fire Protection, Maintenance, Alteration, Repair, Construction, Improvement Use and Occupancy of Buildings, and to Establish Administrative Requirements and to Provide Penalties for the Violation of the Requirements thereof," be amended so as to read as follows: Article XXVI, Section 11. (e) Fireproof Minor Garages. A minor garage constructed of fireproof materials in accordance with the provisions of this ordinance may be located on the side lot line, providing the walls thereof adjacent to such side lot line shall have no openings therein. Minor garages constructed of fireproof material may have living quarters above to be occupied in compliance with the provisions of Ordinance No. 65 of the Village of Grosse Pointe Park, provided that if such garage shall have a finished floor area of not more than four hundred (400) square feet, all exterior walls thereof shall be of a minimum thickness of eight (8) inches of solid masonry, said walls to extend to the top of the ceiling joists, and the ceiling shall be constructed of a slab of a minimum thickness of six (6) inches of concrete or concrete joist and plaster tile or any other approved masonry construction; such slab shall have a bearing of at least six (6) inches upon all exterior walls, provided that where such garage has a finished floor area in excess of four hundred (400) square feet the exterior wall thereof shall be constructed of solid masonry of thickness of eight (8) inches with pilasters of dimension of 4 inches by 12 inches, spaced not more than ten (10) feet upon centers in all enclosing walls, or in lieu thereof a solid masonry wall without such pilasters of a minimum thickness of twelve (12) inches may be constructed, and for such garage the ceiling shall consist of a slab constructed of concrete or concrete joist and hollow tile or any other approved masonry construction of a minimum thickness of eight inches, and the bearing for such slab shall be not less than eight (8) inches upon all exterior walls where such exterior walls are twelve (12) inches in thickness, and a bearing of not less than six (6) inches upon all walls the minimum thickness of which is eight (8) inches, provided that minor garages having not more than four hundred (400) square feet of area may be located under a single dwelling, provided that the interior of all walls of the garage not of masonry construction, and the ceiling of such garage, where the floor above is not of fireproof construction, shall be protected with not less than 1/2 inch of gypsum or Portland cement plaster on metal lath, the thickness of such plaster to be measured from the back of the metal lath. Any stairway connecting with the dwelling above and the garage below shall be separated from the garage by a wall protected on the garage side as required for the enclosing walls of the garage and equipped with a self-closing fire door, door sill of concrete to be eight (8) inches above the garage floor level, and provided further, that any entrance to the first floor or basement of any attached dwelling shall be provided with a self-closing fire door with a door sill of concrete to be eight (8) inches above the garage floor level, provided further, that minor garages in excess of four hundred (400) square feet shall be constructed of materials as required hereinbefore for fireproof minor garages.

(f) No garage not of fireproof construction shall approach closer to any portion of the dwelling or enclosure thereof than six (6) feet, except as above provided. (g) One story minor garages may be attached to dwellings provided that the interior face of all walls of the garage not of masonry construction,

and the ceiling of such garage, where the floor above is not of fireproof construction, shall be protected with not less than 1/2 inch of gypsum or Portland cement plaster on metal lath, the thickness of such plaster to be measured from the back of the metal lath. Any entrance from such garage to the attached dwelling shall be equipped with a self-closing fire door, the door sill to be of concrete and to be eight (8) inches above the garage floor level.

Section 2. Any person, firm or corporation, its, his, her or their agents or employees, who shall violate or assist in the violation of the provisions of this ordinance or who shall in any manner interfere with its proper enforcement, shall be punishable by a fine of not more than One Hundred (\$100.00) Dollars, or by imprisonment in the Village or County Jail for a period of not exceeding ninety (90) days, or both such fine and imprisonment may be imposed in the discretion of the Court, and for every day that a violation of the provisions of this ordinance shall continue to exist, the same shall be deemed to be a separate and distinct offense and shall be so punishable.

Section 3. All ordinances or parts of ordinances inconsistent with the provisions of this ordinance are hereby expressly repealed.

Section 4. This ordinance shall take effect twenty (20) days from the date of its enactment.

Passed January 8, 1940.

WM. G. STAMMAN, Clerk.

Barring the Honey. By stringing electrocuting lights around his cornfield, T. E. Heineman, of the Indiana Experiment station, finds that he can attract and kill corn borers before they have any chance to lay their eggs, declares the Country Home Magazine. Last year his wired field was almost entirely free of borers, while nearby fields of the surrounding area were badly infested.

Glass "Waste Dump" Near. In the 3,300-foot grinding and polishing line of the Liberty-Oregon-Ford glass plant at Toledo, Ohio, the top of grinding wheel are used daily, amounting to some 200,000 pounds of waste glass. Some of this is used for grinding sand. Some of the iron grinding wheels, wearing 24 hours a day on the glass surface, must be replaced after six days.

Beer Drinking Citizens. The city of Biggs, Colo., has again lived up to a tradition that has been established for several years. It is that when the deer season opens, fully one-half of the population moves to the hills. Fortunately, as each hunter is only allowed to kill two deer a year, the hunters get back in time to prevent any serious breakdown in the city's economic and industrial life.

Copper Shield Protection. Termites and other wood-boring insects cause an annual property loss to lumber sold to run as high as \$48,000,000, according to information from government sources. Much of the damage comes from so-called subterranean termites which must have moisture to live. As a protection against these destructive pests a copper shield has been devised, the primary function of which is to prevent the termites or other wood-boring insects from entering the building to destroy wood which acts as their food supply.

U. S. Religious Bodies Organized religious bodies throughout the nation had a total membership of 32,572,026 persons 13 years of age or older in 1938—a increase of 500,560 over the previous year. There were 246,067 houses of worship, an increase of 1,943 over 1937. Protestants had 233,230, Roman Catholics, 15,579, Jews, 4,116. Among the Protestants, the Southern Baptist convention had the largest number of churches—34,671.

German With Big Ideas Hermann Seergel, of Munich, Germany, once suggested damming the Mediterranean at Gibraltar, at the Dardanelles and at the Suez canal. Since the sun takes water from the Mediterranean three times faster than rivers flow into it, a vast area of arable land now undersea would thus be bare. Next, Seergel also suggested to dam the Nile canal should be built to the Sahara desert, which is below sea level, to turn the desert into a garden.

No Food Midge In studying the problem of penetration of fog by means of various forms of light, a U. S. army officer, Lieut. Col. H. C. Davidson of the army air corps, had a first-hand glimpse of bird flight habits. Ascending in a captive balloon over London with a British officer, Colonel Davidson found that hundreds of birds were flying around the fog, which was only 1,500 feet thick. Strangely enough, those birds skilled in navigation, such as sea gulls, all seemed to know where they were going and headed in one direction. The others, such as starlings, were flying around in circles, greatly confused because the land was hidden out.

Standings of Neighborhood Club  
Senior Basketball League  
(As of Friday, January 24)

Team	W.	L.	Pts.
Fitness Club	3	0	1,800
Eastminster	2	0	1,200
Canasta	1	0	1,000
Saints	1	1	500
Indians	1	2	313
Arrows	1	2	333
Rangers	0	2	300
Eastex	0	2	300

The Saints A. C., considered by preseason predictors as one of the weaker teams of the "Club" league, certainly changed the minds of a few hundred fans when they handed the Indians, last year's champs, their first defeat of the season, 32-24. Two evenings later this same Saints team gave "15" Club its stiffest competition of the year in losing a 20-25 decision. Trailing by one point with a minute left to play, "Bonehead" Hallinan, high-scoring forward of the "15" Club, took a long shot from mid-court that hit dead center to give his team a lead they didn't relinquish. The feature of this exciting game was the basket shooting of Gen. Bryant (rings center of Club 15), in the first half. Gen. tipped in three baskets in rapid order and also took one from the foul line to keep his team in the running and enable his mates to take a 15-11 lead at the half. This lead, obtained in the first half, was the deciding factor as the second half scoring ended up even-stevens with each team gathering in five field goals and four charity tosses for 14 points. Bryant and "Honey" Marack took scoring honors, each collecting nine points. Gordy Laline was high for the losers, scoring three hoops and two fouls for eight points.

The Indians, showing their zip and class of last year only in spots, have suffered two defeats in their last two starts. Holding a 12-11 lead at the intermission, during the Saints encounter they failed to score a point for the first five minutes of the second half, while the Saints were gathering in ten to take a nine point advantage that the Ex-St. Panthers were unable to overcome. Lack of the height that they had last year, the Champs are faced with a big handicap.

The Arrows also took the measure of the Indians in the game of 42-31. This was the Arrows first league win of the year. Using a "sloper" play in the last few minutes of the contest proved to be the winning margin of four points for the victors. Toped, using a one-handed push shot from all parts of the court, was the hero of the night.

The "Midnet" basketball loop is expected to get under way this Saturday morning at 10 o'clock. Four teams will go to make up the league. The teams represented are: Neighborhood Club Stars, Reds, Yankees, and Boys Club.

**School Notes**

A Christmas program was given by the 2A-3B class on Tuesday afternoon. All of the lower grades were invited and many mothers attended. The name of the play was "The Kitten Who Wanted to be a Christmas Present."

Judith Lyndrup announced the program. She told the audience that the scenery was painted by the class and the animals' faces colored by them.

All of the children in the class with the teacher, Violet Clemens participated in the program.

The operetta, "The Magic Gift" was presented by the children of the Defer school in the auditorium of the school on Tuesday evening, December 19th.

The main characters were chosen from the fifth and sixth grades. These boys and girls were ably assisted by a large chorus of children from the third and fourth grades.

The scene of the operetta was laid in medieval England on Christmas Eve. Elizabeth, the little girl who lived in the inn, believed firmly in the return of Caspar, one of the Three Wise Men, on Christmas Eve. When her brother, whom she had long believed to be dead returned with a box of gold for her, she felt that she had really received the Magic's heavenly gift.

The fifth and sixth grades of the Richard School presented the cantata "Chimes of the Holy Night" on Tuesday, December 12 at 8 o'clock in the auditorium. One hundred and ten children participated. Elizabeth D. Ellis directed the children. They were accompanied by a string ensemble, consisting of Mr. W. J. Watkins, Director of Music in Grosse Pointe Schools, Mr. Dewey Kalember, Mr. Samuel Trickey and Mr. Herbert Whitehouse. Three hundred and fifty people attended the performance.

Included in the audience were members of the pupils, the principal, and the 2A and 3B grades.

Dates, a product of the Arab country, were served by the pupils and served as refreshments.

**Christian Science Church**

"Sacrament" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, January 14, 1948.

The Golden Text (Leviticus 11:45) is: "I am the Lord that bringeth you up out of the land of Egypt, to be your God: ye shall therefore be holy, for I am holy."

Among the Bible citations is this passage (Psalm 51:7): "Purge me with hyssop, and I shall be clean: wash me, and I shall be whiter than snow."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 241): "The baptism of Spirit, washing the body of all the imperfections of flesh, signifies that the pure in heart see God and are approaching spiritual life and its demonstration."

**Honor Society Members  
Judged Objectively  
by New System**

In leadership, character, service, and scholarship, seniors who ranked above average when an impartial, objective scale was applied to their records, were elected to the Grosse Pointe High School National Honor Society by the faculty council last Thursday, announced Mr. Paul A. Rosen, principal, Friday morning.

Marjorie Kaufman, William Schmidt, Bruce Bockstanz, Alfred Pitt, Juliet Lindeman, Sally Morton, James Sterling, James Barnes, and Richard Moore are the newly elected members of the Honor Society.

A committee composed of ten teachers and administrative officers drew up the scale by which each candidate was judged. The scholarship requirement of at least a B average which has been used for two years was the first phase of the measuring stick.

After an investigation of service activities, the committee also decided that since the average number of service points for a senior was approximately six, ten points would be required for Honor Society membership. This requirement has also been used

Since the name of each student qualifying in scholarship and service was submitted to every teacher who had come in contact with him during high school to be judged as to character and leadership. Candidates were classified by the teachers in five groups: average, above average, below average, very much above average, or very much below average. A numerical value was given to each classification, and the rating of each candidate was figured mathematically. A rating above average in every aspect was required for a successful candidate.

This is the first time such objective methods in character and scholarship have been used in determining the new members in the society. A student also had to have been in this school for at least two years.

**Aural Guild Held  
Annual Meeting Jan. 2**

The Aural Guild of Detroit held its sixth annual meeting on Tuesday, Jan. 2nd, and once again Mrs. Chas. M. Kern was elected president. This is the sixth consecutive year that Mrs. Kern has held this office, which is proof in itself of her very excellent and capable leadership.

This organization is open to men and women of all ages whose hearing is impaired. The social activities are outlined for both young and "younger" groups, and gives them the opportunity to enjoy all forms of entertainment.

For instance, on Sunday afternoons there is Open House with badminton and ping pong and card games are always in order. Each month a dance and card party is held and from time to time, moving pictures and other attractions are featured. A luncheon and card party is scheduled for the third Thursday every month, affording every member the opportunity to make friends.

Lip reading classes are conducted in two "Y" branches, namely E. Jefferson at Garland, and W. Grand Blvd. at Dexter, on Tuesdays and Wednesdays respectively at 7:30 p. m., also on Friday nights at the club rooms at 305 W. Fort St. with a social hour following. There are three experienced teachers conducting these classes.

It is not necessary to be a member to take lip reading instructions.

**Keeping Up With  
The New Books**

The Grosse Pointe Public Library staff wishes to recommend the following new books:

"Speedboat Kings," by J. Lee Bar-

rett. In a book, with an excellent format and good illustrations, Mr. Barrett tells the story of the Mansworth Trophy and other boat races. Even those who know little about racing will find this account of the people who have brought this sport to Detroit an absorbing one.

"Auguste Rodin," by Victor Frisch. An intimate and understanding portrait of this great French sculptor by one of his own pupils. There are many sketches and pictures of his statues besides many discussions on the meaning of his sculpture.

"Free Artist," by Catherine Drinkwater Bowen. This is the story of Anton and Nicholas Rubenstein, two great Russian pianists, their early struggles and their final success. It is a beautifully written book, and should be of special interest to piano students, and to those who
