

Stormy Argument Stirs Gratiot Township Board Meeting

At the monthly meeting of Gratiot Township's board held in Eastwood School last Monday evening, assembled spectators witnessed a heated verbal battle between Supervisor Ernest Provo and Treasurer Frank Jones.

According to reports, Jones has recently informed numerous residents that Supervisor Provo has raised township taxes and caused the equalization of tax assessments on private homes.

Quoting Michigan equalization statistics written in 1933, Provo emphatically denied Jones' statements. In connection with this year's tax increase, Provo pointed out that it was necessary to raise \$1,700 in order to open up Beaconsfield avenue through the Eastwood Farms Subdivision. In 1935 a real estate company was permitted to sell Beaconsfield avenue, an 86 foot wide thoroughfare, for residential purposes. The responsibility of straightening out this former error in judgment has unhappily fallen upon the present board. Provo, not satisfied in agreeing that this move could be termed an error in judgment, labeled it a downright act of stupidity. Provo was elected to office in the spring of 1939.

High School Students Plan Flag Dedication On Armistice Day

Fifty American flags will be dedicated by home room groups of Grosse Pointe High School in special Armistice Day ceremonies on Monday, November 11.

The flags were purchased by the students, acting under the leadership of the legislative bodies of the student government.

In the future, home rooms will open each week's work with the pledge of allegiance to the flag. This weekly ceremony will be led by the home room forum representatives.

Also on the Armistice Day program at the high school will be a discussion of American Education Week, and its

importance in the history of the United States.

At 11 o'clock on November 11, the hour when actual warfare ceased in 1918, a bell will ring. At that time all students will stand for one minute and class room doors will be opened so that all can hear taps, which will be blown by a bugler from the band. Following this, all will be seated and continue regular work for the remainder of the day.

Vice Reappointed Gratiot Township Zoning Inspector

Herbert Vice, present Gratiot Township zoning inspector, was temporarily reappointed to that post for a period of 30 days at a meeting of the township board in Eastwood school last Monday evening.

The township's planning board has been asked to examine all recent applicants for the position and make their recommendation at the next meeting on December 2.

All applications of persons living outside the village have been rejected. Supervisor Ernest Provo has stated that Gratiot Township contains any number of residents capable of handling this office.

REMEMBER?

14 YEARS AGO THIS WEEK

Two armed bandits held up the Mack-Maryland branch of the Jefferson Savings Bank shortly after noon on Monday, and escaped with \$2,000 in cash. A lone thief was captured in an attempted robbery of the same bank on September 30. (Editor's note—The bank building now houses the local branch office of the Secretary of State.)

12 YEARS AGO THIS WEEK

Herbert Hoover and Charles Curtis were stamped into office as an overwhelming Republican victory swept the country.

10 YEARS AGO THIS WEEK

Four Grosse Pointe High School students were suspended indefinitely for stealing articles from lockers in the school building.

4 YEARS AGO THIS WEEK

Franklin D. Roosevelt and John N. Garner crushed the Republican combination of Landon and Knox in an unprecedented landslide.

Rest that vacant room through a Grosse Pointe Review lens.

Continuing his argument, Provo quoted from a well-known professor, who stated that there are 869 forms of liars, but only one type is strictly forbidden. Provo was reluctant to use the phrase "liar," so he politely called Mr. Jones a "disident prevaricator," claiming that this type of person is one who is always willing to evade an issue or to give out information for which they possess no facts.

Provo concluded, saying that a glaring weakness has been evident in the township treasurer's office and the people of Gratiot Township have learned to take remarks from that source with a grain of salt.

Jones offered no public rebuttal to Provo's statements.

Pointe U. of M. Club Plans Showing Of Football Pictures

Exclusive motion pictures of Michigan-California and Michigan-Penn football games will be shown in the Pierce High auditorium on Wednesday, November 13, at 8 p. m., it was announced yesterday by the University of Michigan Alumni Club of Grosse Pointe.

According to preview audiences, the pictures show in remarkable detail two great performances by Michigan's all-American halfback, Tom Harmon.

Close-ups of precision blocking by the hard charging Wolverine line make the pictures better than a grandstand seat.

The Penn games pictures show the Quakers' great back, Francis X. Reagan, completely snowed under by a storm of M tacklers.

A star defense performance by Al Wistert, brother of Michigan's one-time all-American "Whitney" Wistert, is also visible. The pictures clearly make Wistert the fifth man in Penn's backfield, spilling Reagan, Dutcher and company for loss after loss.

Comments on the movies will be by Bob Morgan of the University Alumni Club.

The program will be presented by the Grosse Pointe High School band, under the direction of Dewey Kalember. Kalember has arranged a program of football and march music.

Gratiot Township Friendship Club Plans Big Party

The Friendship Club of Gratiot Township will hold a party at the home of Mr. and Mrs. Frank Jones, 18735 Eastwood Drive, on Saturday evening, November 16. Jones, well known resident, is Township Treasurer.

Festivities will begin at 7:30 p. m. and a large selection of prizes will be awarded to game winners.

At the club's last meeting on November 1, final plans for the approaching party were discussed. Refreshments were served after the formal business was completed.

High School Principal Father Of Baby Girl

Mrs. Walter R. Clemenson, wife of Grosse Pointe High School's new principal, gave birth to a seven pound 13 ounce baby girl in Cottage Hospital last Sunday.

The baby, Clemenson's second child, has been named Nancy Jane. Clemenson, former Port Huron High School principal, succeeded Paul A. Rehms at the beginning of the fall term.

Van Kleeck Solicits Support Of MEA In Community Fund Drive

In a speech at Pierce Junior High School last week, Dr. E. R. Van Kleeck, superintendent of Grosse Pointe public schools, urged the Michigan Educational Association of Grosse Pointe to support the Detroit Community Fund, the Neighborhood Club clothing program and the Neighborhood Thrift Shop toy drive.

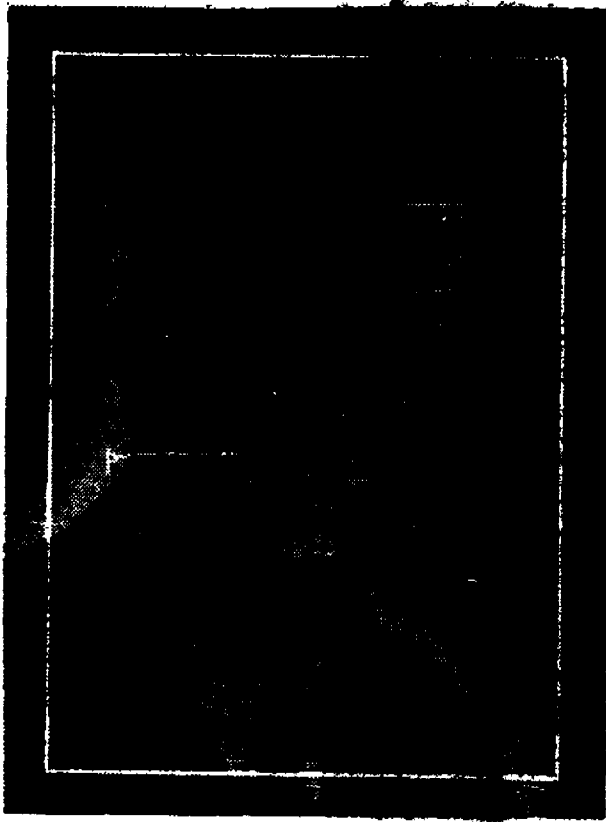

The Community Fund is sponsored in all Grosse Pointe schools by direct contributions through the children and by pledges by the faculties, Van Kleeck explained.

Clothing and toys are being solicited by letters sent to parents through pupils up to the ninth grade.

Dr. Van Kleeck added that the Neighborhood Club will sell all wearable clothes and give the remainder to the Volunteers of America. Toys not sold by the Thrift Shop will be given to the Goodwill Industries.

Rest that vacant room through a Grosse Pointe Review lens.

Re-Elected for Third Term

FRANKLIN D. ROOSEVELT

North End Residents Of Gratiot Township Cautioned About Dogs

Clarence F. Cayan, pioneer resident and former clerk of Gratiot Township, stated earlier this week that a condition existed in the north end of the community which may cause great danger to children.

Many dogs follow children to the school bus in the morning, and cars coming down Harper have to dodge to keep from hitting the dogs and children. It was pointed out by Cayan that somebody's child may be injured if such a condition continues to exist.

This situation has been brought to the attention of Ernest A. Provo, supervisor of Gratiot Township. Provo has assigned residents of this section

Grosse Pointe Speaks At Tourist Association Meeting Tomorrow

The annual meeting of the Southeastern Michigan Tourist & Publicity Association will be held on Friday, November 8, at the Hotel Harrington, in Port Huron.

J. Lee Barrett, executive vice-president of the association and well known Grosse Pointe resident, will discuss the proposed tourist advertising appropriation bill which will be presented to the incoming Michigan Legislature.

"Better Business 1941" will be the theme of the program. This vitally interesting subject will be handled by two nationally known specialists in tourist advertising.

Chrysanthemum Show Will Feature Many New Varieties

The annual chrysanthemum show to be held on Saturday and Sunday, November 16 and 17, at the Neighborhood Club, 17145 Waterloo at St. Clair, will afford the public an excellent opportunity of seeing many new introductions in the chrysanthemum world.

The Grosse Pointe and Eastern Michigan Horticultural Society, sponsors of the event, are fortunate in having as a member Vincent R. DePetris, a nationally known hybridist. DePetris will include many of his recent introductions and novelties of 1941 in a striking stage setting. Included in the DePetris exhibit will be "Anaconda," a large incurved red, and "Penrod," an incurved gold.

Among the singles will be "Northern Sunset," an arctic hybrid; "Harvest Glow," "Europa" (red); "Sonora" (scarlet) and "Athena," a crushed strawberry pink. In the pompon group, "Persian Pink, Dorine," a pleasing red; "Golden Surprise" and "Red Eagle."

One of the most interesting of the newcomers will be a fragrant counterpart of the popular "Valencia," exhibited for the first time.

The show will be open to the public on Saturday from 4 p. m. to 10 p. m. and on Sunday from 10 a. m. to 10 p. m. There will be no admission charge.

Women Students Earn Higher Marks Than Men At U. of Michigan

Women students earned better grades than men at the University of Michigan in the 1939-40 school year, according to a recent report made public by Registrar Ira M. Smith.

The average grades of all women students enrolled in the university last year on a grade point basis was 2.57, while all men averaged 2.48, Dr. Smith reports. These figures are based on a scale of four points for an "A" grade, three points for a "B," two points for a "C," one point for a "D," and no points for an "F."

As a group, sorority women earned the highest marks, with an average of 2.68, while unaffiliated women were second with 2.59. This distinction for

scholarship honors was also reflected in the percentage of women who were included in the list of students who were ineligible for initiation because of scholarship deficiencies.

Unaffiliated men attained an average of 2.51, which was also the average figure for all university students. Fraternity men averaged 2.48. Freshman women stood one point higher than freshman men, their respective scores being 2.34 to 2.33.

Among the sororities, Delta Gamma stood highest with an average of 2.80, 20 points above the all university record. Phi Sigma Delta was highest among the men's organizations with an average of 2.78.

Medical, law and dental students are not included in these figures, inasmuch as the grading systems in the professional schools and non-professional schools are not uniform.

Die-hard Republicans have already started boomerang "No Fourth Term" campaign.

City of Grosse Pointe Votes Republican Ticket; Schaeffer Leads Rabaut

Final returns from the City of Grosse Pointe in Tuesday's national election gave Wendell L. Willkie a four to one majority over President Franklin D. Roosevelt.

Polling 2,413 ballots to Roosevelt's 801, Willkie and his running mate, Charles L. McNary, continued a Republican precedent that has dominated Grosse Pointe politics for over a decade.

Incumbent Senator Arthur H. Vandenberg held a 1,654 vote lead over his Democratic opponent Frank Fitzgerald, while George B. Schaeffer, G. O. P. candidate for Congress from the 14th

district, moved 1,334 votes ahead of incumbent Louis C. Rabaut.

Voting on the four state proposals was as follows:

Proposal No. 1	Yes	No
Proposal No. 2	1,494	1,101
Proposal No. 3	2,097	528
Proposal No. 4	1,280	1,609
Parkway Playground Proposal	2,068	560
County Sinking Fund Proposition	1,875	922
	642	717

A total of 3,266 ballots were cast in the City of Grosse Pointe, establishing a new all-time record, according to the files of Clerk Norbert P. Neff.

Tabulation of votes in Grosse Pointe Township was not completed at the time this issue of The Grosse Pointe Review went to press. Political observers believe that returns in the township will follow the same pattern as the results in the City.

Gratiot Township's Rubbish Removal System Changed

Beginning Thursday, November 14, Gratiot Township's rubbish collector will gather garbage and rubbish on a per house basis, charging each resident 20 cents a removal.

This plan is used in many Wayne County municipalities, and has worked out favorably in most cases.

Driver Misses Curve And Crashes Into Tree

A car driven by John E. O'Hara, 20-year-old son of Elmer B. O'Hara, former Wayne County Clerk, crashed into a tree near Balfour Road and Essex at 2:30 p. m. last Saturday night.

Miss O'Hara was rushed to Cottage Hospital with a fractured skull, fractured lower jaw and internal injuries after being thrown through the convertible coupe's canvas top, striking the ground 27 feet from the car. Unconscious until Monday afternoon, the injured girl is now believed out of danger.

Questioned by Assistant County Prosecutor McManus after the accident, O'Hara refused to make a statement. Grosse Pointe Park Police Chief Henry W. Piel remarked that from the condition of the completely wrecked car, "O'Hara was obviously traveling at a dangerous speed, well over the legal limit."

Proceeding west on Essex, O'Hara's car failed to make the sharp curve near the intersection of Balfour and leaped the curb, striking a large tree head-on. Police authorities agree that the ripping of the canvas roof prevented the mishap from becoming fatal. There were no automobiles parked on either Essex or Balfour, within a reasonable distance from the accident.

O'Hara, who suffered only slight minor injuries, lives at 504 Barrington Road, Grosse Pointe Park.

(See picture on Page 6)

Assembly time on Monday will be 1:45 sharp, and the parade will move at 2 o'clock. Scouts will assemble on Watson near Woodward and according to Parade Marshal Ruel B. Chellis and Secretary William D. Howe, the scouts have a place of honor in the line of march.

Only fully uniformed scouts may march. Uniformed leaders are needed to help organize the scout section of massed color bearers and color guards.

All Boy Scout Troops in Metropolitan Detroit's Scout Council have been offered the opportunity to be represented in Detroit's Armistice Day parade on Monday, November 11.

There are 492 scout troops in the local council and each troop should be represented by at least four scouts with the American and troop flags.

Assembly time on Monday will be 1:45 sharp, and the parade will move at 2 o'clock. Scouts will assemble on Watson near Woodward and according to Parade Marshal Ruel B. Chellis and Secretary William D. Howe, the scouts have a place of honor in the line of march.

Polls Jammed In Record Vote

Jamming precinct polling booths during a last-minute rush, Grosse Pointe Township voters set an all-time record in Tuesday's National election. This picture was taken at 7:45 p. m., outside Precinct 13's booth on Charlevoix avenue between Beaconsfield and Lakeshore.

NEWS DIGEST

By DICK BODYCOMBE

They are called "funnies" by many, but as a rule it is exceedingly difficult to uncover the slightest trace of any humor. A single page of "comics" in a Detroit daily newspaper revealed the following: One murder, five carefully planned traps, seven guns, one hatchet, three man-eating dogs and one "quick-and-cementite" ambush!

British refugee children enrolled in American schools cause no end of confusion when they try to describe the English school system to their new playmates. In England the "public" schools are private, and you can take it

up from there.

The draft lottery has given mathematicians, "fact-finders," and novelty seekers a new supply of ammunition.

The Detroit Community Fund's worthy annual drive will continue for only five more days. Remember, "In America the Heart Dictates."

Traffic deaths in Detroit so far this year are 20 per cent over 1939's staggering total. "Spare a second, and save a life!"

Only 41 shopping days left before Christmas.

The overwhelming success of Grosse Pointe's first community Halloween celebration is tangible evidence of what can be accomplished with a little neighborly good-will and co-operation.

The departure of the first vanguard of 200 American nationals to be evacuated from China, has proven to the Japanese government that the United

States is through playing "guessing games."

The Detroit Red Wings are off to a "flying start" in the 1940-41 National Hockey League scramble, but the fans have not yet decided whether that is good or bad.

Here's one way (beside the election returns) to start an argument. How do you pronounce the word "status." Phonetically, it is pronounced "STAY-tuss."

As an aftermath of John L. Lewis' endorsement of Wendell L. Willkie, several UAW-CIO unions have threatened "dethronement" of the labor leader because of his alleged "desertion of our cause."

A new angle on the "protection" racket—For 10 cents Ludington, Mich., residents received a "hands-off on Halloween night" pledge from a group of youthful celebrants.

Because his home straddled the international boundary line, a Newport, Vt., citizen was fined \$50 for smuggling recently when he plastered a wall on the Canadian side with American-purchased wallpaper.

Listing the country's top college football teams, Arthur "Bugs" Baer committed an unpardonable blunder when he omitted the University of Michigan's Wolverines.

A wide-awake young businessman could make a fortune with a mobile unit equipped to disintegrate bumpers and fenders snarled daily in the City of Grosse Pointe's crowded angle-parking sector on Kercheval avenue.

The "Mussolini Special," vacationing in Greece, is way way behind schedule.

SOCIAL NOTES

Mrs. Elizabeth Hillenbrand, pioneer Grosse Pointe resident, celebrated her 90th birthday last Thursday, October 31.

Convalescing in the Bon Secour home on Cadieux Road, after a recent leg injury, Mrs. Hillenbrand received many gifts and presents from friends and relatives.

Mrs. Hillenbrand is the mother of John and Herman Hillenbrand, and the grandmother of Mrs. Theodore Hinz and Dr. Alfred E. Hillenbrand.

June T. Larson of 914 Beaconsfield avenue is woman's business manager of the "Michiganian," student yearbook of the University of Michigan, and of the 1940-41 directory of students.

June is a senior in the literature, science and arts college of the university this year.

Iota chapter of Sigma Eta Sorority will meet at the home of Mrs. Edna P. Sutton, 878 Cadieux Road, November 12. Delight Ross will give a report of the national-convention held at Fort Wayne, Ind., November 2 and 3.

American composers will be the subject of the afternoon. Those appearing on the program will be Jennie Mason

and heard an address by guest speaker, S. A. Courtis.

The next meeting of the Richard P.-T. A. will be held on Wednesday, November 13, at 3:30 p. m. Harriet Harwood will discuss children's books.

The week of November 11 has been set aside as American Education Week, and all school patrons and friends are cordially invited to acquaint themselves with the various activities of Richard school.

Children of the school are now busily engaged in many interesting activities and trips to various community agencies. Groups have visited the Detroit city airport, the D. & C. docks, the Ford Motor plant, the Children's Museum, Greenfield Village and the zoo.

The Fort Pontchartrain Society's Gamma Alpha Rho will sponsor a hayride on Saturday evening, November 9. The group will meet at the home of Robert Catlin, 2387 Woodstock, at 6 p. m.

Small tables will be set with fall flowers and Mrs. O. Dale Reynolds will give a report on the Junior D. A. R. assembly.

The Cadillac Guild of the East Side General Hospital will hold its fifth annual games party at the Neighborhood Club on Saturday evening, November 9, at 8 o'clock.

The general chairman of the party is Miss Helen Heiden, and assisting her are Mrs. M. J. Alef, chairman of ticket committee; Mrs. E. L. Purdy, chairman of prize committee; Mrs. Sherman Fausch, chairman of the table committee; Mrs. Gerald Jordan, chairman of the publicity committee, and Mrs. Werner Kersten, chairman of ways and means.

Glenn Morris, Olympic decathlon champion and former Detroit Lions football player, and Ralph Gaines of Highland Park were dinner guests at the home of Roy Voorhees, 415 St. Clair avenue, last Wednesday evening.

Morris and Voorhees were former classmates at Colorado State College.

The social life committee of the Guardian Angels Altar Sodality will sponsor a hard times party on Friday evening, November 8, in their gym, located at Hayes Blvd. at Mayfield avenue.

Beginning at 8 p. m., old fashioned and modern dances will furnish entertainment. There will be table, door and costume prizes.

Raymond E. Chambers Jr., of 744 River Blvd. and Elma Taylor of 1421 Yorkville, were recently initiated into Le Cercle Francais, University of Michigan French Club.

The Northwestern University Club of Detroit will hold its annual pre-Michigan game dinner on Friday evening, November 15, at the Downtown Club in the Penobscot Building. Franklin Bliss Snyder, president of the university, will be the main speaker of the evening. Also speaking will be Lynn Waldorf, head football coach. The college band will also be present, and dancing will follow the dinner.

Committee chairmen working on arrangements are Mrs. Walter D. Schlunt, Mrs. Harold Lussow, John Landers, Mrs. Churchill Williams, Mrs. Edward K. Kennedy Jr., Mrs. C. B. Johnson, James Payne, Ernest Hough and Mrs. Alfred N. Steele.

The National Park College alumnae of Detroit will hold their 11th annual charity bridge luncheon for the Children's Hospital of Michigan on Wednesday afternoon, November 13, at 12:30 in the Ingleside Club.

Forty door prizes will be given away in addition to a prize for each table. The school colors of green and white will be used in the decorations. A fashion show will also be presented.

The East Side Unity Ch. Meets each Thursday Evening at 8:00 o'clock at HOTEL SAVARY East Jefferson

The class is at Christ House. All Unity and public invited. MR. A. AS. O. E. FISHBURN, Licensed Unity Teachers.

Richard School Notes
Two hundred and twenty-five persons attended the first meeting of the Richard School Parent-Teacher Association on Monday evening, October 21. Parents visited classrooms, met new teach-

ers and heard an address by guest speaker, S. A. Courtis.

The next meeting of the Richard P.-T. A. will be held on Wednesday, November 13, at 3:30 p. m. Harriet Harwood will discuss children's books.

Fordson High Trounces Grosse Pointe 19-0 In One-Sided Battle

By DICK BODYCOMBE
Scoring two touchdowns in less than a minute, Fordson High's strong football squad turned on a fourth quarter scoring spree last Saturday afternoon and swamped Grosse Pointe High's unpredictable eleven 19-0, in a bruising battle on the Dearborn gridiron.

Aided by a strong wind, Fordson moved into Grosse Pointe territory on an exchange of kicks following the opening kick-off. Ripping through Grosse Pointe's line on short plunges and off-tackle slants, Fordson's dull but effective running attack quickly established a 7-0 lead.

In the second quarter Grosse Pointe made excellent use of the rising wind and kept the touchdown thirsty "Tractors" at a safe distance. The highly successful "Blue Devil" passing threat, Gordon Tanner to Bob Bureau, connected on one 49-yard gain, but a Fordson goal-line stand squelched this uprising.

The third period was see-saw, but in the final quarter the teeter-totter lost its balance. Stan Carnota, Fordson's triple threat halfback, who had been threatening all afternoon, finally broke loose and crashed across the Grosse Pointe goal-line on a tricky fake forward pass play, climaxing long sustained drive.

Fordson kicked off following the touchdown, and on the next play an alert "Tractor" intercepted a Grosse Pointe pass and lateraled to Fullback Howard Pingston, who trotted across the last white stripe unmolested for the game's final marker.

After dropping the first two contests on the 1940 schedule, Grosse Pointe's well uniformed "Blue Devils" turned over the well thumbed "new leaf," started to click with a potent passing attack, notched three consecutive Border Cities League victories and slipped into first place in the standings. But alas, alas, the undefeated Mt. Clemens "Special" roared into town and rudely detailed the title bound Pointers.

Assured of third place in the league's final ratings, Grosse Pointe gridders will seek to regain a 500 percentage as consolation prize when they meet first Huron High on the local field Saturday afternoon in the season's finale.

With a majority of this year's veterans graduating into retirement and few capable replacements available, Grosse Pointe's football championship "dreams" have been carefully wrapped and sealed in a cast iron shoe box marked "Do Not Open Until 1943 or After."

Trombly School Notes

The 3B-3A room at Trombly School is studying about the Bedouins, a native tribe of Arabia. Jo Ann Winger, third grade pupil, accompanied by her parents, traveled through Arabia on a recent world-wide tour. The Wingers made many interesting movies on the trip, and presented some of the pictures during an auditorium program.

The kindergarten children have made two glass gardens as part of their nature work. One contains common plants found in the Michigan woods, the other holds various types of miniature cacti from our Southwestern states.

The 1B group has been particularly interested in plant life this semester. The conservatory has given them a splendid opportunity to enjoy, observe and care for a variety of plants. Lantern slides from the American Museum of Natural History in New York City have been shared with many groups throughout the building.

The Trombly Parent-Teacher Association will meet on Wednesday evening, November 13, at 7:30.

Mrs. Harold Davis, program chairman, has arranged for the showing of two movies, "The Land of the Free" and "One Hundred Years of Baseball."

Miss Gertrude Barlow, supervisor of Southeastern Subdivision of Visiting Nurses, will talk on "The Black Bag," explaining the work of the visiting nurses in Grosse Pointe.

Trombly Girl Scouts will hold a harvest bazaar during the meeting. The girls are busy making aprons, stuffed animals, pot holders, tea towels, fudge, candy, cookies and cake to sell.

Refreshments will be served in the gymnasium immediately following the program.

Symphony Orchestra Plans Two Children's Programs Next Week

The Detroit Symphony Orchestra will present the second program in the series of school children's free concerts on Wednesday, November 13, and the opening concert in the series for young people on Saturday, November 16.

Victor Kolar will conduct the two programs in Masonic Temple and Edith Rhett's Tilton, educational director of the Detroit Symphony, will lecture. At the Saturday morning concert the soloist will be Suzanne Bioch, young lutenist.

"Around the World with Music and Dance" will be the subject of the Wednesday program. Compositions of Tchaikovsky, Mendelssohn, Brahms, Dvorak, Paderewski, Moszkowski and Johann Strauss will be included among the performances.

TO THE SUPERVISOR OF THE TOWNSHIP OF GRATIOT, WAYNE COUNTY, MICHIGAN.

You are hereby notified that the Board of County Road Commissioners of the County of Wayne, Michigan, did, at a meeting of said Board held Tuesday, October 22, 1940, decide and determine that the certain section of road described in the minutes of said Board should be a County Road under the jurisdiction of the Board of County Road Commissioners. The minutes of said meeting fully describing said section of road are hereby made a part of this notice, and are as follows:

"Minutes of the meeting of the Board of County Road Commissioners of the County of Wayne, held at 3800 Barlum Tower, Detroit, Michigan, at 10:00 a. m., Tuesday, October 22, 1940.

"Present: Commissioners Breining and O'Brien.

"It was moved by Commissioner O'Brien that the Board assume jurisdiction over the following section of road in the Township of Gratiot:

"A part of Private Claim 618, Gratiot Township, Wayne County, Michigan, being more particularly described as a strip of land 86 feet wide, lying between Roscommon Avenue and Woodside Avenue in Gratiot Township, and being further described as being lands conveyed to the Township of Gratiot by quitclaim deed recorded in Liber 5540 of Deeds, Pages 98 and 99, to be designated Beaconsfield Avenue, and being 0.059 miles in length.

"The motion was supported by Commissioner Breining, and carried by the following vote: Yeas, Commissioners Breining and O'Brien; Nays, None. Whereupon it was ordered that the above described road in the Township of Gratiot be hereafter a County Road under the jurisdiction of this Board."

THIS NOTICE IS GIVEN UNDER AND BY VIRTUE OF ACT NO. 283 OF THE PUBLIC ACTS OF 1909, AS AMENDED.

In testimony whereof, I have hereunto set my hand at Detroit this 25th day of October, A. D. 1940.

BOARD OF COUNTY ROAD COMMISSIONERS of the County of Wayne, Michigan.
CASPAR J. LINGEMAN, Clerk.

EDMUND B. SULLIVAN, Deputy Clerk.

Jackson Posthumous Son President Andrew Jackson was the posthumous son of Andrew Jackson, who came to America from northern Ireland.

Neighborhood Club

The boys' handcraft class, which meets on Saturday mornings, held its annual glider contest last Saturday. Prizes were awarded to the following boys: First place, Richard Goodson; second place, Richard Spohn; third place, Edward Willis, and fourth place, Billy Carter. The prizes were aeroplane material. We still have room for a few more boys interested in aeroplane building. Class meets from 10 to 12 a. m.

On Friday, November 1, the Waokya Camp Fire Girls held their regular meeting. Mrs. R. V. Redfield attended the meeting. Mrs. Redfield brought some beautiful flowers; the season's last from her own garden, and told the girls the essentials of the art of flower arrangement. At the end of her instructions, each girl was given the chance to make her own arrangement of flowers in a vase.

The A. O. C.'s will hold their monthly business meeting on Thursday, November 7. Members are urged to attend this all important meeting.

Team: W. L. Pts.
Cardinals..... 2 0 4
Junior Lions..... 0 1 0
Bears..... 0 1 0

SCHEDULE:

Thursday, November 7—Cardinals vs. Bears.

Wednesday, November 13—Junior Lions vs. Cardinals.

Thursday, November 14—Bears vs. Junior Lions.

The Cardinals, led by Ernie Thomas, made it two straight last week beating a lighter and inexperienced Junior Lion eleven to four. Thomas was the big gun of the contest as he raced for two touchdowns on 60 and 40-yard runs and put the pigskin in scoring position for his mates on two other occasions. The Bears lost their first league game to the Cardinals as the result of using an ineligible player. The league rules state that no player can exceed 115 pounds. The Cards protested on Homer Regard's weight and won. Regard was found to have weighed 120 pounds, five pounds over the limit.

The boys are scheduled to play eight league games, and although the Cards are off to a good start, some exciting football remains to be played and a winner yet to be decided.

The Saints Athletic Club is sponsor-

ing its second annual Christmas raffle. Tickets may be purchased from any member of the Saints Club and the prizes offered are of a very choice selection.

Eastminster Presbyt'r'n Church

Sunday, November 10, at 9:45 a. m.—Sunday School.

At 11 a. m.—"What Does the Crucifix Mean to You?—Or a Church Service for Two."

Christian Endeavor groups, 6:15 p. m. "A Woman Who Won a Husband."—7:30 p. m.

Tuesday evening, November 12, a fashion show will be presented in the church basement. The presentation is being sponsored by the Dorcas class. Tickets may be secured from the church office. Refreshments will be served. The show will begin at 8:15 p. m. and the public is welcome.

Wednesday evening at 7:30, the study of the books of I and II Peter will be continued. The subject is "Peter Teaches Us How to Live."

St. James Lutheran Church

"God knoweth the way that I take. When He hath tried me, I shall come forth as gold." (Job 23, 10). These words of Job shall form the text for next Sunday's sermon. Service at 11 a. m., Grosse Pointe High School auditorium. Public welcome. Sunday School at 9:45 a. m.

Grosse Pointe Lutheran Church

Special Armistice Day services will be held at the Grosse Pointe Lutheran Church, Richard School auditorium, Kercheval and McKinley, Sunday morning, November 10, at 11 o'clock, the Rev. M. Luther Canup, D.D., pastor. The sermon, the hymns and the music will bear upon Armistice Day. Members of all patriotic organizations in Grosse Pointe, of all Boy and Girl Scout troops and the public in general are cordially invited to attend this service.

Sunday School at 9:45 a. m., with classes for all grades and ages. There will be questions and answers on Armistice Day at the close of the Sunday School lesson.

Lecture on Christian Science by Richard J. Davis, C.S.B.

Under the Auspices of First Church of Christ, Scientist, Detroit, at the First Church Edifice, Cass and Hancock Avenues, Friday Evening, November 1, 1940

A Lecture on Christian Science Entitled Christian Science: God's Law Revealed in Spiritual Healing

by
Richard J. Davis, C.S.B.
of Chicago, Illinois

Member of the Board of Lecturers of The
Mother Church, The First Church of Christ,
Scientist, in Boston, Massachusetts

It is probable that if human life had unfolded for us a complete measure of happiness, peace, success, prosperity and health, if we had known the gratification of every desire and ambition, and if human existence had proved altogether satisfactory, we might have felt the incentive which has brought us together tonight. But such indeed is not the case. The prophet Jeremiah well described the situation of most people when he said, "We looked for peace, but no good came; and for a time of health, and behold trouble!" And then he voiced what is also the cry of humanity today, confronted as it is with every conceivable difficulty and problem requiring healing: "We have looked for peace, but no good came; and for a time of health, and behold trouble!" Why then is not the health of the daughter of my people recovered?"

To those of earth, bound with sickness, oppressed with sorrow, afflicted with poverty, or weighed down by unhappiness, Christian Science brings the joyful message that there is balm in Gilead—that there is a healing answer for humanity's ills. If this balm were nothing more than an optimistic statement of good cheer, it certainly would not heal the hurt of mankind nor prove a real physician, and there would be little reason for a hope within us. For seventy years or more, however, the divine Principle of spiritual healing, discovered in 1866 by Mary Baker Eddy, has been successfully applied to alleviate and destroy every conceivable ill that "flesh is heir to." It is proving its usefulness and availability to the suffering body of people. It is the healing word which sets Christian Science apart from other churches or denominations, and it is the healing fruitage of Christian Science which makes it worthy of your thoughtful attention tonight.

As one comes to understand more about this healing, however, it is realized that the healing activity of this Science of the Christ is far broader in its application than has been generally understood. It touches every phase of human life, from the physical to the spiritual, from the individual to the human race. It is the healing word which sets Christian Science apart from other churches or denominations, and it is the healing fruitage of Christian Science which makes it worthy of your thoughtful attention tonight.

From the very inception of Christian Science, Mrs. Eddy perceived that true spiritual healing could be brought about more widely only as men and women became spiritually minded, as they approximated in a measure the mind or consciousness of Christ Jesus. She said that it was what the Master Christian knew or understood of divine law that enabled him to do the works which he performed, and from the beginning of her great work for mankind, she constantly emphasized to her followers the necessity for growth in Christian character, as a living exemplification of the purity, honesty, compassion, and love which made the life of Jesus forever outstanding and his healing mission gloriously successful.

Mrs. Eddy's Character

Those who knew Mrs. Eddy best tell us that she was always a consistent and humble follower of Christ, that she endeavored to conform her life and thinking to the pattern shown on the mount, and that the healings, many of them instantaneous, which she personally demonstrated the Principle of Christian Science, were wrought as a result of her great spiritual vision and her inspired understanding of God and man. Mrs. Eddy was a humanitarian in the very highest sense of that word. She loved mankind—people of every race and creed—including even those who persecuted her. She had a sympathetic understanding of the frailty of human nature, realized and felt that it needed to be lovingly strengthened and compassionately sustained. She saw that the greatest sin was the greatest of all, the one most opposed upon which constitutes happiness. Therefore, the great purpose of her life, exemplified in her own living, was to uplift and heal humanity.

Today she occupies a unique position as the greatest religious teacher and reformer of this age. She is revered, honored, and loved by many thousands who have been healed and regenerated through her discovery. If one is honestly seeking healing to Christian Science, a natural prelude to that healing is a sympathetic understanding and loving appreciation of its Discoverer and Founder.

What Jesus Understood

It is clear, therefore, that Christian Science is eminently Christian, because it radiates and exemplifies the whole and undivided love of the Christ. What was this spirit of the Christ which Jesus manifested and which was expressed in his

mighty works? First of all, it must have been a correct concept or understanding of God, of what God really is, and of what man is. Jesus understood that God was not a man-like Deity, a divine entity somewhere in space, but rather the self-existent, spiritual and perfect cause or creator of the universe, and the teaching of Christian Science conforms to this definition, declaring God to be the one infinite divine Mind, or intelligent Principle of all being. In the Christian Science textbook (p. 587) Mrs. Eddy has defined God to be: "The great I AM, the all-knowing, all-seeing, all-acting, all-wise, all-loving, and eternal; Principle; Mind; Soul; Spirit; Life; Truth; Love; all substance; intelligence."

The God that Jesus knew and the God of Christian Science is absolutely perfect. The premises and basis of true spiritual healing is perfection. Christ Jesus understood that since God or Mind is the infinite, perfect cause, man, his image or spiritual expression, must also be perfect and intelligent, since a divine spiritual cause must inevitably express itself in an equally spiritual and perfect effect. Man, therefore, is understood in Christian Science to be the full and complete likeness of infinite Mind, infinite Spirit, Life, and Love. Jesus clearly referred to this perfection of man when he said, "Be ye therefore perfect, even as your Father which is in heaven is perfect."

"That spiritual understanding of the perfection of all things which Jesus possessed, and which made him the Christ, was the Saviour of the world, and it is today. Mary of Magdala stopped down; that is, she looked for a personal Saviour, whom she feared and believed had been taken away. But today this saying, spiritual idea is here, the perfect, even as your Father which is in heaven is perfect. No longer need it be said, 'They have taken away my Lord, and I know not where they have laid him.' Nor is the Christ, 'Truth, buried in a sepulcher of materialism. The spiritual idea of God and His man is omnipresent, unconfined and unrestricted in its divine unfoldment and accomplishment."

When Jesus declared his forever unity with God in the words "I and my Father are one," he declared it not only for himself but for all men. He asserted a spiritual fact—that God and man, Mind and its idea, could never by any possibility be separated.

Christ Jesus achieved a complete understanding and demonstration of absolute Love, divine Love. We, too, shall eventually attain this understanding, not through any hypermetaphysical attitude which ignores human conditions as they seem to be, but through the spiritual idea of God and His man, which is perfectly true, because, being a Science, it is based upon demonstrable rule and understanding, which in order to be proved must be correctly applied. Jesus, who realized the tendency of mortals to stray from the spiritual, declared that the way which leadeth to eternal life is straight and narrow. Scientific thinking is always narrow in the sense that it must be exactly and definitely applied. The science of mathematics is extremely narrow, and no correct chemical result would ever be attained without proper adherence to the rules laid down in chemistry. I speak of this because it is only proper to point out both the right and wrong way to bring about healing. Christian Science healing rests, as did that of Jesus, on sole and undivided reliance upon spiritual power. It attributes all power to God, and no power whatever to the material. It is well for anyone seeking help and healing in Christian Science to search earnestly his own heart and to ascertain just where his reliance and dependence are placed. For success in healing we cannot look both to spiritual and material, recognizing this temptation, said, "He that wavereth is like a wave of the sea driven with the wind and tossed," and he added, "A double-minded man is unstable in all his ways." Christian Science teaches that for one moment question the right of anyone to seek healing by whatever method his conscience dictates, but it is obvious that if one desires healing from God, God desires that he be healed by the faith and radical reliance which is His due. Jesus pointed out the fallacy of trying to serve two masters. There is no evidence that God made medicine any more than that He brought about the healing of the blind, the lame, the deaf, and other human ailments. Systems cannot properly be combined with Christian Science even if the attempt is made to do this.

Christian Science Treatment, or Prayer

Jesus healed the sick and raised the dead, because he was healed by God and had a deep faith that in some mysterious way Spirit would bring about miracles, but because he scientifically knew that the law of God is always operating and is instantaneously available, Christian Science treatment, or prayer, no matter how simply it may be expressed, is never mere belief in God. It is always knowing—knowing the Truth—which brings the desired result. Spiritual conviction and scientific knowing are the God-qualities which make every healing prayer, or treatment, effective. When we know the ever-present, the omnipotence of divine Love, then in the words of the Bible we can truly say, "I know that my redeemer liveth." In healing the sick or disposing of any other afflictive condition, the prayer, or treatment of Christian

Science, is not an attempt to destroy or displace reality. For, logically, if disease and every other unpleasant and evil situation is real, a fixity, by what conceivable mental process could it be destroyed? What is true remains true, has permanent reality. But Christian Science deeply disposes false beliefs—always through the perception of Truth we are saving ourselves and others from evil beliefs, delusions, about what is and really exists. We are not saved from the world, but from an evil belief about the world and what is going on in what seems to be our world. Christian Science treatment is the perfect establishing as truth what is, and always has been, the perfection of God's infinite Being.

Gratitude and Healing

Since spiritual or right thinking is the basis of all healing in Christian Science, there are inevitably certain qualities of thought, or if you like, states of mind, conducive to quick and satisfactory results, and one of these is gratitude. Gratitude often acts as a preliminary to healing. It is that right mental expectancy which precedes the human evidence of spiritual presence and power. Gratitude is an open door to spiritual reciprocity, it brings the light of inspiration and revelation. What an example we have of this in Jesus of Nazareth when, standing before the tomb of Lazarus, he declared, "Father, I thank thee that thou hast heard me always!" And again, when feeding the multitude, he gave thanks for supply which was not yet manifested. May we not do the same? When trouble, affliction, and suffering are ours, our thought, they would try to obscure every visible evidence of divine Love's presence and operation. At such a time, to count one's blessings quickens and awakens the realization that God is here and is available, and minimizes the suggestions with which one is contending. Gratitude is the handmaiden of faith. It is the "I thank thee" of the divine power and presence. Gratitude is the handmaiden of faith. It is the "I thank thee" of the divine power and presence. Gratitude is the handmaiden of faith. It is the "I thank thee" of the divine power and presence.

A year or so ago, in the home of a family whom I know, the father lay seriously ill with pneumonia. The night the other members of the family had worked and prayed to dispel the sense-dream, but apparently without result. As they gathered at the breakfast table, the mother said to her husband, "Now we have been working earnestly in Christian Science and we have prayed in the way we have been taught. Let us now rejoice, and let us sit here for a moment and give thanks to God for all the blessings that are ours, for we know that we have many." As if the Christ had spoken, a change for the better immediately took place with the suffering father, and before evening he was downstairs and perfectly normal.

The Healing of Prejudice

Let us consider for a moment the quality of thinking we call prejudice. How it closes the mind to unprejudiced, unbiased, shuttling out from a beautiful healing manifestation! What is prejudice? Is it not prejudgment—judgment rendered on a subject before the facts are fully understood? Prejudgment of Christian Science inevitably results in prejudice. It is safe to say that nine out of ten people who entertain a false concept of Christian Science have permitted themselves to prejudge it. That is, they have accepted beliefs or conclusions, not based on facts, without so much as looking into its textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, the only authoritative statement on the subject. What estimate of the subject, an intelligent professor of mathematics would have, if I were to contest with him on certain mathematical points, if I were to scoff at his ideas and endeavor to prove his statements wrong, if I were to make him even examined, much less studied, a book on the subject under discussion? What would be your estimate of me? I have a feeling that you would consider me extremely ignorant and ridiculous. The matter how great my own claims to intellectual and mental superiority might be. Now, my friends, that is exactly the position in which people place themselves, when they undertake to tell the world what Holy Science teaches, though their acquaintance with this Science has been limited only to a brief perusal of our literature.

Prejudgment of our brother is judgment of his life, his motives and conduct, without adequate acquaintance with all the facts that govern. Who of us wants to be judged on that basis? Christian Science enables us to recognize the impulse to prejudge a situation when it arises, to stop and say to ourselves: "Now see here, what do I really know about this case? Do I really know all the facts? Am I fully cognizant of this man's thought, his life, and his motives? And am I worthy of judging this man and his acts?" If we followed this course, few of us would or could go very far in the unworthy business of prejudging.

The Master, recognizing how very frequent is the tendency to criticize and prejudge, and understanding how these habits must be corrected in order to heal oneself and others, had much to say about judging and condemning. Christian Science teaches us that in order to be every whit whole we must be just and fair and, above all, compassionate. It is not righteous judgment that merciful estimate of man and all his motives which recognizes the God-qualities of human nature and its weakness? Is it not a recognition of the unseen struggles of the human heart, its writtings, its perplexity and despair? And does not righteous judgment separate and separate from man and see evil impersonal nature and absolute nothingness? Jesus' great love did not permit him to ignore evil and sin, but it did

enable him to impersonalize it, separate it from man, and thereby to judge righteously. This same method of thinking enables us, particularly when we have been misjudged, misused, or vilified, to lift our thought above the disturbing elements of personality, and maintain a spiritual peace and peace that passeth human understanding. Prejudgment is the judgment of ignorance and therefore does not harm, unless we permit it to do so. It cannot disturb the serenity of him who knows that Principle governs all men.

The understanding and love which looks for the good and denies the evil in one's fellow man, leads us eventually to the place where, like Christ Jesus, we are conscious of perfection instead of imperfection. A man may be quite exemplary in conduct, and yet if sin or evil in his neighbor appears as very real, if his neighbor be regarded as unworthy, as wicked and damned, can it be said that he himself is blameless? A note, yes, a beam, is lodged in his own eye, an imperfect point of view about his neighbor. Often, as we go about, the measurement of mortal mind tries to force its evil influences upon us. "Yet think, my friends, when the lame, the sick, the sorrowful, and the sinning come to us for help, to silently and prayerfully declare, 'Hail, son of God! Hail, the perfect child of a perfect Father!'"

Love Knows No Enemies

It is possible that there may be someone in this audience who believes that he is suffering or has suffered because of enemies. One of the blessed things which Christian Science does is to free us from our enemies, or correctly speaking, to heal us of our belief in enemies. We have usually thought of enemies as persons, external or apart from ourselves. But Jesus said that a man's foes were those of his own household, meaning his mental household or consciousness. Is it not true that you have to think of an enemy and mentally visualize him before you can have one? In order to have an enemy, you must first entertain a belief in him. One must accept hate and malice as reality into his own consciousness. Mrs. Eddy, in her inspired article, "Love Your Enemies" (Miscellaneous Writings, p. 10), says: "What is this enemy that thou shouldst love him? Is it a creature or a thing outside thine own creation? . . . Simply count your enemy to be that which defiles, defaces, and debases the soul—the disease that you should reject."

At the very time when mortal thinking was declaring that Christ Jesus was the victim of hate and malice we find him saying, "Father, forgive them; for they know not what they do." This was the conscious refusal on his part to believe in the reality of enemies. Detaching and separating evil from his concept of God and man, Jesus held these thoughts to be unworthy of Being. His illumined spiritual sense saw no enemies and knew none. Then may not we, in like manner, refuse to entertain enemy concepts, hostile contending mental pictures, pictures of malice, of hate or injury, of men endowed with the motive or power to do wrong?

Truth No Respector of Persons

A question that frequently arises and is often voiced by young students or beginners is this: "Since Christian Science is a science, and actually the Science of infinite Being, how can it be applied to demonstrate it with my little understanding? I must study it for many years before I can prove it. I have such a slight grasp of the subject. In fact, I know I am not good enough to teach it, and I am not sure of this. This living suggestion would, if it could, thwart and retard the progress of every seeker for spiritual light. If accepted, it would keep everyone in a state of perpetual despair, of his understanding of the Christ, and of his ability to demonstrate it. How would anyone ever learn to sing, if fear and self-depreciation prevented his uttering a note or expressing a tone? Children in school are always urged not to use the word 'I cannot' in connection with numbers, and having demonstrated some measure of success in a simple way they confidently move on to higher accomplishment in mathematical science. Christian Science shows us, too, that it is not a personal power that heals, but always the impersonal Christ, Truth, no matter how simply expressed. Spiritual understanding is no respecter of persons. It does not consider the background, environment, education or the lack of it. Spiritual understanding is the open fountain that cries, 'Ho, every one that thirsteth, come ye to the waters.' Spiritual understanding, when claimed, may be demonstrated by the humblest or most mighty of men. No matter where one may be, right there, where the understanding of God and man find him, there does it begin to operate and express itself in healing.

While on a recent lecture tour in England, I met and talked with a young man who had just left prison on parole. The experience he told me I have never forgotten. During the war he sustained an injury from a shell. This developed into a running wound which in many years had never healed, but gradually grew worse. A year or two ago he was committed to prison. The physical condition had become so bad by that time that the doctors declared his leg would have to be amputated. At this point in his experience, Christian Science was brought to his attention and he was given a copy of "Science and Health." His acceptance of the truth was so immediate and eager that in four days the wound was healed and he was discharged from the prison hospital as a patient, but continued to receive the truth from a nurse, a pioneer. He was healed solely through the reading of Science and Health. Shortly after this, a mother came to

the hospital to see her son, also a prisoner, and who was seriously ill with spinal meningitis. This beginner in Christian Science interested her in the subject and within a week or two healed her son. In the same ward he found an elderly man suffering with a poisoned condition of the appendix, and immediately healed him. All of this, including his own moral redemption and physical healing, took place within ten months. Now, my friends, in the face of such an experience as this, who would say that there are times, places, or conditions under which the law of Love is there so unworthy to much a sinner, that he may not immediately begin to prove and demonstrate his divine sonship through the utilization of what he knows of Christian Science? "Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ."

God Must Come First in Our Thinking

No matter how busy we seem to be, we must find time to think. The cause of our trouble is the lack of trying to convince us that we are on, so very busy in matter—for those who would progress spiritually, God must come first. Like Mary in the Bible, we must choose that the spiritual understanding, standing, and put that before all else. Busy men and women may say: "Yes, but how am I going to do this? Where in my active life can I find the time for study and spiritual advancement?" If any of you who are familiar with ships, particularly battleships, were to come on board very early in the morning, you would find the sailors busy scrubbing the decks, polishing the brass work, and mending all things ready for the day. In other words, you would find them using the early hours clearing the decks and preparing the ship for action. Now if there is any one thing that will help the business of the business man toward the attainment of a more harmonious day, it is taking time, early in the morning, like the sailors, to clear our mental decks for action, and to pour the oil of inspiration and guidance into thought, before starting on anything that is wrong nor kept out of anything that is right, then you will find that each day will be a day of progress and achievement, and you will have taken some important steps forward in the attainment of the practical application of scientific thinking in your daily life.

Self-Examination

When we become interested in Christian Science sufficiently to be students and to really apply what we know, it is discovered that nothing either good or bad happens to us or to those about us, merely by chance, but that there is always some mental cause. This, of course, sets us to work on the study of mental causation, particularly as it applies to one's own thinking. Self-examination is a necessary step in healing, and Mrs. Eddy has indicated this very definitely in Science and Health (p. 482), where she writes: "Anatomy, when conceived of spiritually, is mental self-knowledge, and consists in the dissection of thoughts to discover their quality, quantity, and origin. . . . This branch of study is indispensable to the extension of error. The anatomy of Christian Science teaches when and how to probe the self-inflicted wounds of selfishness, malice, envy, and hate." This dissection of thoughts, sometimes results in discoveries so astonishing and shocking that the student may possibly be a bit discouraged and depressed, unless he sees that the error, which has come to light in his own mind, has appeared only to disappear into its native nothingness, because he is no longer attaching it to himself, nor permitting it to use him. A lady once told me—and she was a very fine person, that she was quite amazed and disturbed to find that she had all her life believed in, and depended very much on, the power of money and really loved it. Another, a man with whom I am acquainted, discovered that he had an inordinate appetite for food, and that he loved the material pleasures of the table. Many unworthy beliefs come to the surface when one is really desirous of dispensing with them, and all of this is a direct progress. We find in Christian Science that this kind of house cleaning is vastly helpful. When I was a boy we used to have an attic, into which we went all winter, and stored furniture, worn-out clothing, old shoes, and a hundred memories of bygone days, musty and dusty, and of no real value except to keep alive a vanished past. There they lay until the time arrived to clean and tidy up the attic, and that was indeed an occasion.

By using Christian Science in our mental housekeeping, we can do away with the attic entirely. As we get rid of all the old outgrown concepts and musty abandoned beliefs of the past, there will be nothing useless to store away. Indeed our "regular clean-up week" must be a continuous performance. We must sweep out all the dark corners of fear, destroy the spiders of envy and resentment, and brush out their entangling webs. We must wash and clean our mental windowpanes, so that in a disturbed and unhappy world, our spirit, expressed in cheerful and joyful thoughts, may shine through to bless all mankind.

Business Practice Needs Healing

The experiences of the last few years have uncovered startling weaknesses in the structure and conduct of our national business life, and the time has come for us to recognize that industry, banking, or any other branch of business, no matter how great and impressive

may be its appearance, simply cannot stand if it is not founded on the basis of Principle, if it has not the qualities of honesty, justice, and love in its foundation. Someone may ask, "What have honesty, justice, and love to do with business?" Just this: all business is thought-expressed. You cannot have a business without thought or mind. Honesty, justice, and love are mental qualities, and they have the constituents that make for stability, permanence, and harmony; whereas dishonesty, injustice, self-interest, or hate, if they are the mental qualities motivating business, hold within themselves the seeds of their own inevitable failure and decay. The understanding of Christian Science reveals that the root cause of all dishonesty, greed, and unscrupulous competition is always fear, and fear is ignorance of God and of man's eternal and right relationship to Him. When the nature of God is perceived as the infinite All when it is seen that infinite substance, infinite opportunity, and infinite Love are the unescapable and inevitable heritage of man, of each and every man, then it becomes clear how causeless and needless is the fearful and frantic struggle to gain money, place, or success, at the expense of someone else who seems to be in the way. There is enough of Love, enough of substance, enough of Love, enough of good for all, for God. All-ah-mighty—that any finite sense has ever imagined Him to be.

Healing of the Nations

In these days, when the nations of earth seem to be in such a state of confusion and upheaval, when we find radical and sometimes impractical concepts of government being advanced, no one can deny that what might be called the body politic is in as great need of healing as the body we call human. We are hearing many theories of government propounded, and witnessing and talking part, in some novel experiments; but true government, as we understand it in Christian Science, is not a theory and is not dependent on experiments. The government of God is a divine fact, and is always and forever established. The need of humanity today is expressed in the words of the Psalmist: "All the ends of the world shall remember and turn unto the Lord; and all the kindreds of the nations shall worship before thee. For the kingdom is the Lord's; and he is the governor among the nations." If every ruler, every person, entrusted with government, yes, every citizen, knew this, and placed the responsibility for government where it belongs, with the one God, and knew that God is governing His universe, including man, harmoniously, this thinking would inevitably make for universal peace on earth.

The world picture, as it appears to the human senses, would try to make us believe that we are living in a modern Babel—a confused and discordant clamor of many voices, many longed-for, and divergent concepts of government. But is this true? Christian Science declares that there is just one Mind, and that one Mind is the mind of man, of all mankind. If this be so, can it be true that there is a different mind operating in England from that in America? Is the mind that governs Germany different from the one that governs France?

What we call government is of course basically human. A human government or nation is the expression of the aggregate thought of the people. It is no better and no worse than their thinking makes it. Government, therefore, has its beginning in the consciousness of the individual citizen, and Christian Science shows us that the law of healing is brought to bear upon what we call government, as we heal ourselves and correct our own thinking in this subject. The question is that if everyone rightly controlled and governed his own thinking, and made himself responsible for the discipline of his own thoughts, no external police force or regulation would be required. Correct self-government on the part of men, individually, would then inevitably express itself, in the most ideal concept of government, for the mass.

The kind of government that all right-minded people desire and long for, for the world over, is one embodying the elements of justice, honesty, and morality—a government that is wise and lovingly considers the interests of all, and accords equality of opportunity to every man. This ideal of government must be perceived and maintained in thought, before it can be realized, attained, and externalized in visible form. It is the privilege of a thinker, and God has endowed every one of us with that precious power to think, never to use thought unworthily. It is therefore the duty of a good citizen never to think thoughts which will do less than contribute to the good of the whole nation. This means that we should never give hospitality to thoughts of fear, panic, or dishonesty, thoughts expressing social injustice, lawlessness, or civic indifference.

The way of healing is the way of one Mind, one God, one government. Christian Science points this out, as the only solution to the discord and confusion of the nations. If the civilization of today is to be saved, then each one of us must think from the standpoint of one God and the unification of nations, which Mrs. Eddy so wonderfully outlines in Science and Health. In an article she wrote for the Boston Globe entitled, "How Strife May Be Stilled" (Miscellaneous, p. 278), she says: "The First Commandment in the Hebrew Decalogue, 'Thou shalt have no other gods before me,'—obeyed, is sufficient to still all strife. God is the divine Mind. Hence the sequence. Had all peoples one Mind, peace would reign."

"God is Father, infinite, and this great truth, when understood in its Christian Science literature, may establish the brotherhood of man, end wars, and demonstrate 'On earth peace, good will toward men.'"

Christian Science Church

"Adam and Fallen Man" will be the subject of the lesson-sermon in all Christian Science Churches throughout the world on Sunday, November 10. The Golden Text (Psalms 28: 1, 9) is: "Unto thee will I cry, O Lord my rock. . . . Save thy people, and bless thine inheritance: feed them also, and lift them up forever." Among the Bible citations in this passage (Genesis 1:31, to first period): "And God saw everything that he had made, and, behold, it was very good."

The Review is the only advertising medium covering the entire Township of Grosse Pointe, which is read in every home for its local news.

Fort Pontchartrain Chapter, D. A. R.

Mrs. Jacob Hammerl and Miss Melva Hammerl were hostesses at a buffet supper last night, November 6, given for the evening group, Fort Pontchartrain D. A. R.

Guest speaker, Miss Dorothy Shafer, spoke on "Modern Art."

Boy Scouts

Members of Scout Troop 146 have extended a cordial invitation to all boys living in the Grosse Pointe Farms area to attend their Scout meeting tonight, November 7, at 7:30 in Kerby School. Troop 146 was organized last spring and has carried on an active program since that time, including a camping trip last summer.

Driver Misses Curve, Hits Tree

Miss Virginia McFarbridge, 26, of 287 Riverside Drive was seriously injured at 2:30 a. m. last Saturday, when this car, driven by John R. O'Hara, 24, of 564 Barrington, struck a tree near the intersection of Balfour Road and Essex in Grosse Pointe Park. (See story on Page 1)

"Synthetic Prosperity"

By LEE BALINGER

Prosperity of large dimensions is in the making right now. The man on the street will have his pockets bulging with money. Everyone will have a place for the asking, either a job or relief. It will be merely a matter of individual preference. Stores will have full cash registers. Things are getting set, and plans being completed. In a matter of weeks probably the greatest boom in history will be under way. But, as Babson says, look out for the kick in the pants when it is all over.

It is reasonably easy to see the logic in the statement of Alfred P. Sloan Jr., that there will be a broad expansion of industry over a wide front, in spite of taxation. And as far as a trend for the next two or three years is concerned, there is every reason to believe that as long as the synthetic influence of the enormous amount of government spending continues, a high level of production will probably exist. Thus the superficial indication of returned prosperity will be apparent. And to the extent that this is true, to the same extent will we increase the price that we must pay eventually if the expansion should be accompanied by an abnormal rise in general price level.

It appears, however, that many stockholders are going to have to get used to the idea of probable diminished returns directly as the trend of increasing taxes proceeds. Also on top of this, profitable production may be cut into by a system of defense priority items. For this reason many large concerns are adopting the plan of reporting earnings before taxes to show the results for which the management is responsible, and the results after taxes to indicate the factors over which the management has no control.

As the third quarter earnings and reports come out several factors are prominently outstanding, namely, that employment is increasing by leaps and bounds, sales volume has increased, taxes in some cases are double last year and equal to or in excess of earnings applicable to common stock dividends.

In the steel industry, operations have now topped June of 1929. Obsolete furnace units have been drawn into action and new ones are being built. New orders are continuing heavy and deliveries are delayed into February on structural shapes. In alloy steels, delivery dates are not promised.

But the one fact that business leaders who were through the World War in industry keep emphasizing is that war business is very temporary and the greatest caution is needed by management with regard to plant expansion. Companies in their efforts to cash in on war business and get their share have a tendency to over-stretch. The war 23 years ago cost some manufacturers more than they made when the day of reckoning came. When you read about this and that concern going to spend so many millions in expansion don't be over impressed, but save the cheers for the day after re-adjustment for institutions which have preserved the interest of the stockholders, and permanent jobs for their workers.

News Commentator Visits Town Hall

Fulton Lewis Jr., national affairs commentator, who broadcasts nightly from Washington over NBC's coast-to-coast network, will be the Detroit Town Hall guest speaker in the Fisher Theater next Wednesday morning, November 13, at 11 o'clock. Lewis' subject will be "What's Happening in Washington."

The brilliant news analyst who was selected by columnists Pearson and Allen as radio newscaster of the year, will discuss the after results of the election in the nation's capital.

A native and resident of the District of Columbia, Lewis knows Washington politics from the ground up. As head of the Washington Bureau of Universal News Service from 1929 to 1937, he covered every type of news beat.

In a poll of all members of Congress asking which network commentator gives the best program from Washington, Fulton Lewis Jr., was selected for first place by a majority of more than two to one over the next ranking commentator. He was recently chosen by the editor of America's Young Men as one of the 10 outstanding young men of America.
