Rationing Due to Increase Demand For Available Plots

A stepped up program of Victory gardening this Spring was assured Tuesday at a meeting of the Grosse Pointe area Victory Garden council held in the home of the secretary, Miss Christine Edwards, 99 Lothrop, Grosse Pointe Farms.

Grosse Pointe War Ace Lieut. Maliszewski Awarded Distinguished Flying Cross

Receiving a citation for the second time within a week, Lieut. Edward P. Maliszewski, son of Mr. and Mrs. Peter Maliszewski, 1347 Bedford, has been decorated with the Distinguished Flying Cross, according to an announcement from the headquarters of the Army air force in London, Sunday.

Lieut. Edward P. Maliszewski

Park Dog License Revenue Doubled in 1942

Dog license fees collected in the village of Grosse Pointe Park during the year 1942 amounted to \$1,330.70, which represented double the amount ever collected before in one year.

Initial Interest in War Clubs Indicates Co-operation Throughout Community

Immediate response from letters to air raid wardens and scores of citizens enrolled in answer to last week's newspaper appeal for volunteers gave early indication this week of a successful drive to unite the Grosse Pointe and Gratiot township area into co-ordinated Neighborhood War Club "block" groups through the Civilian Service Corps.

Sendoff Groups Bid Farewell to 26 Pointe Servicemen

A fitting sendoff party for 26 inductees from Board 57 was hastily arranged by the Home Front committee and the Breakfast club this morning from the Neighborhood club at 6:45.

From an original group of 53 men who reported for induction last Thursday, 34 men passed induction examinations and were given optional seven-day furloughs before entraining for Fort Custer this morning. Eight of the 34 accepted elected to report immediately, leaving but 26 in the group which left this morning.

Final Warning Is Given Delinquents by Draft Board 57

The following named men registered with local board 57 are considered suspected delinquents. Any registrant who finds his name on this list should report to this local board in order that his record may be corrected. Failure to do so will cause the local board to turn the name over to the United States attorney for investigation.

10 Candidates File Petitions for Feb. 15 Township Primary

The following candidates have filed petitions in Grosse Pointe township for the primary election to be held on Monday, Feb. 15. For supervisor, Carl Schweikart, incumbent. For clerk, Henry Lavers, incumbent. For treasurer, Adolph L. Damman, incumbent.

Pointe Police Heads on Committees of Chiefs Association

The office of the president of the Michigan Association of Police Chiefs of Police, Dan E. L. Patch, in Ypsilanti, this week announced the appointment of three Grosse Pointe police chiefs on state committees.

ATTENDS CONVENTION The Rev. Merrill G. Bates, of the Grosse Pointe Unitarian church, attended a regional conference of Unitarian ministers from Michigan, Toledo, Ohio and Fort Wayne, Ind., at Ann Arbor on Monday, Jan. 26. Plans were made for an important regional convention of Unitarian churches to be held in November.

Branch Post Office Re-Established Here; Services Start Mon.

In order to accommodate the immediate need for Pointe postal facilities, Julius J. Nagel, proprietor of the Grosse Pointe Hardware, 16915 East Jefferson, has signed a contract with the post office department in Washington for the re-establishment of a branch post office in his store.

Council of Defense Names Executive Committee Tuesday

At a meeting of the Grosse Pointe area council of defense held Tuesday night, an executive committee was voted to work with Co-ordinator George Elworthy in handling the administrative work of local OCD.

Park Commission Renews Membership in Michigan Humane Society for 1943

The commission of the village of Grosse Pointe Park Monday night renewed the village's membership in the Michigan Humane society for 1943, which provides for the handling of stray dogs and cats.

Health Department Warning About a New Eye Disease Issued by Commissioner Here

The following letter has been given to all schools so that the teachers may be on the lookout for an eye disease that may possibly appear here and parents are asked to consult their physician should their children show signs of eye trouble.

Park President Praises Annual Police Report

With a total of \$12,501.50 having been collected during the calendar year 1942, President Karl B. Goddard of the village of Grosse Pointe Park, commended Police Commissioner Van Deusen and Chief Henry Piel upon the good record and the fine relation between collections and violations.

Your Review Carrier Boy Is Now Collecting for the Month of January

Review carrier boys will start collecting the 10c optional payment charge for the paper Friday, January 29 for January delivery. He has an Official Receipt Book. He Will Give You a Signed Receipt. January Receipts Are Printed on Blue Paper. Pay Only Your Regular Carrier Boy With Blue Receipts

Army Must Okeh OCD Request for Daylight Test

A daylight air raid alert, tentatively scheduled for next Wednesday morning, will find the Grosse Pointe OCD functioning in force.

All traffic will be stopped, drivers being obliged to pull to the curb and remain until the "all-clear" signal. Schools and apartment houses will stage practice air raid drills. Residents will take shelter in basements as they have been instructed by the wardens to do.

Village Dispenses With Primary as Too Few Candidates File

There will be no primary election in the village of Grosse Pointe Park on Feb. 8, it was found Monday night, as the midnight deadline for filing petitions passed with only one candidate filed in addition to four incumbents who filed to succeed themselves.

Park Commission Grants Ordnance School's Request

Permission to run tank motors in tests, if properly muffled, was granted by the village commission of Grosse Pointe Park Monday night to the U. S. Army Ordnance school for training in tank radial engines, being sponsored by the Continental Motors corporation at the northeast corner of Kercheval and Maryland.

War-Time Class of 130 to Graduate at Grosse Pointe High Exercises Tonight

Grosse Pointe High school's first class of war-time graduates with their views on the war will be graduated at 8:15 o'clock in the high school auditorium, Thursday evening at 8:15 o'clock in the presentation of class honors will be made by W. R. Clemens, principal.

Naval Academy Appointees Named by Rep. Louis Rabaut

WASHINGTON.—Congressman Louis C. Rabaut, Democrat of Michigan, has announced his nominations for appointment to the United States naval academy at Annapolis. James W. Brummer was the successful candidate and is the successful appointee. He is the son of Mr. and Mrs. Herbert Brummer, 4350 Nottingham road, and at present is a senior at Southeastern high school.

Economy Theme at Meeting of Village Commission of Grosse Pointe Park Monday

A patriotic declaration of the duty of every citizen and commissioner to save and sacrifice for the duration by Karl B. Goddard, village president of Grosse Pointe Park, drew a responsive vote of approval from the village commission Monday night at the bi-monthly meeting in the Municipal building.

Mortgage Burning Celebration Saturday at Veterans Home

Members and invited guests of the Alger Post, VFW, will gather at the Veterans home, 17145 St. Paul Saturday night at 8:30 to assist in burning the mortgage on the home.

Sewing Volunteers Needed at AWVS Workshop Here

A shortage of volunteer workers has developed in sewing for the AWVS workshop at 17027 Kercheval and an appeal is being made for more volunteers to take work home.

BABY DAUGHTER BORN

A baby girl was born to Mr. and Mrs. Ster, 22716 Lake boulevard, St. Clair Shores, Jan. 18, 1943. Henry Lavers, clerk of Grosse Pointe township, is the paternal grandfather.

War-Time Class of 130 to Graduate at Grosse Pointe High Exercises Tonight

Grosse Pointe High school's first class of war-time graduates with their views on the war will be graduated at 8:15 o'clock in the high school auditorium, Thursday evening at 8:15 o'clock in the presentation of class honors will be made by W. R. Clemens, principal.

A DEADLY FOE ON THE HOME FRONT

Once again, we are called upon to deliver our deadliest blows against that crippling enemy of children and maiming agent of mankind...

Through science and education, marvelous strides have been made in attempting to prevent epidemics of the dreadful polio and in the recuperation of its victims.

And, it has been the leadership of our President, which has brought the deadly menace out into the open, explained it to the public and started a country-wide co-operative effort to deal with the problem.

ANOTHER FELLOW'S DILEMMA

Along about the time that the 'teen-age draft came up, cartoonists over the country eminently illustrated the thought...

"Anyone who shall not have attained the age of 21, etc., is the law laid down on serving minors alcoholic beverages in the state of Michigan.

This newspaper in no way wishes to subscribe to any suggestions in the matter. We are merely pointing out a dilemma, which the state should clear up at once.

COOK BOOKS WON'T DO

The current appeal for books, in the Pointe 1943 Book Campaign, brings to attention the types of books wanted.

"Any book you really want to keep is a good one to give." By that guide, you will recognize what is wanted.

The 30,000 book goal set for the area, must produce a book from nearly every home. Better make it two or three or more, to make up for those who don't have them to give.

WINTER WARNING

Diphtheria is a real threat in Michigan at present and an outbreak anywhere in the state can reach epidemic proportions.

"The fact that cases of diphtheria are being reported to us from all sections of Michigan is cause for concern because this is indication that the diphtheria bacillus is widely scattered."

"Parents should understand that early symptoms of diphtheria in children are generally not alarming and they should be alert to secure early diagnosis if a child appears listless, has a moderate fever, and if he complains of a sore throat.

Immunization of children under nine years should be secured immediately if it has been neglected so far.

The diphtheria death rate in Michigan has dropped steadily during the past decade, to an all-time low of 0.33 deaths per 100,000 population last year when 18 deaths from this cause were listed.

Especially concerning is expressed because of the great influx of workers from southern states into war production centers of southeastern Michigan.

Silver Wedding

Mr. and Mrs. H. Killian, of Philip avenue, celebrated their silver wedding anniversary Friday, Jan. 22.

In the evening they were entertained at a gathering in the home of their daughter and son-in-law, Mr. and Mrs. A. G. Walter, of Lakewood avenue.

PUPILS REWARDED WITH WAR STAMPS

A unique idea to stimulate interest in piano practice has been started by Mrs. Elizabeth Rich, 2632 Country Club Drive, in her Saturday morning piano classes.

Hours of practice are carefully recorded on cards signed by the pupils' parents and the cards are then turned in for war stamps.

USES Now on 48-Hour Week

Since Saturday, Jan. 2, all offices of the United States employment service have been open for business on Saturdays.

"We were glad to adopt the 48-hour week," Craig said, "since this will make it possible for us to provide more adequate service to the area's war industries, most of which now are working on a seven-day work schedule."

The six-day working schedule is in accordance with legislation recently passed by congress which provides that all governmental employees are required to work 48 hours a week.

The USES East Side office is located at 14421 East Jefferson avenue at Chalmers, the manager is Walter A. Hammer, who was in charge of this office from June, 1940 to September, 1941, but from then until December, 1942 had him on special assignment at the Detroit area office.

A cut in the amount of 35 mm film that is made in picture industry may use in 1943 will save enough film to stretch three times about the earth at the equator.

TIME OUT

By BONNIE ESSERT

TAKIN' TIME OUT TO JOY the data--despite the exam mad cram.

It's every year at this time that we see what the inside of our book looks like--and it's enough to flood you right down.

Exams mean graduation (it says there!) and graduation means following open houses. Heard of Rozit Rupp's and another at Natalie Schreck's.

Despite the war and stuff, lots are planning college (Uncle Sam has plans too.) It's Feb. 5, that Pat Tobin and Eileen Macrae will board a train for college at Stevens, and if info is strictly pukka gen I'll deliver that: To the University of Michigan are going Cal Worrell, Ted Souris, Andy Steffani, Elaine Raisse, Mary Ellen Gallano, Martha McCray and Anne Leverenz.

Into service for certain are going Tom Lamb, Bob Glenwallis, Hank Wybo and Bob Hauke who has already left.

Into nursing are going Rozit Rupp, Jackie Rohn and Jean Garretson.

There you have some of the crystal ball futures of the class of January, 1943.

LAST SATURDAY WAS THE senior girls luncheon plus a floor show provided by same (the very!) Besides that "Bugs" Nixon and Elaine Raisse collaborated on a tea and Kay Atkinson had one too (a tea I mean.) Coming up is Martha McCray's and one at Pat Tobin's.

IT WEARD ME TO A STYMIED thinking of all these things the seniors are doing. Only a whiz kid with a ceiling eye cue could do it -- so does that mean a senior can? Mmm, could be! Should be.

Officers for the coming year were elected by the board of trustees of Cottage hospital of Grosse Pointe at the annual meeting held Wednesday at 11 a.m.

Announcement was made of the completion of the new three-story wing, with the first floor now ready for occupancy.

Construction of a new nursery is scheduled to commence at an early date. It will accommodate 25 babies. Many generous friends of the hospital have made this new addition and X-ray facilities possible.

New officers are: Mrs. Seabourne R. Livingstone, president; Mrs. Lynn McNaughton, first vice-president; Mrs. Carl Grown, second vice-president; Mrs. W. V. Palmer, Jr., third vice-president; Mrs. William P. Stevens, fourth vice-president; Mrs. W. K. Muir, recording secretary; Mrs. Henry Bordman, assistant recording secretary; Mrs. Joseph B. Schlotman, corresponding secretary; Mrs. Standish Bachus, assistant recording secretary; Mrs. George Black, treasurer and Mrs. Edwin S. Barbour, assistant treasurer.

Camera Club to Meet Tuesday Evening, Feb. 2

Tuesday evening, Feb. 2, the annual meeting of the Grosse Pointe Camera club will be held at which time the election of officers for the ensuing year will take place.

The retiring officers have prepared a social evening for the members which will include interesting colored motion pictures of the Smokey Mountains and the surrounding country.

After the affairs of the evening have been concluded a luncheon will be served by the ladies auxiliary.

Australian to Speak at Detroit Town Hall Wednesday

Linda Littlejohn, leading orator and radio commentator of Australia will speak at Detroit Town Hall in the Fisher theatre, Wednesday morning, Feb. 3.

Substituting for Maj. Alexander P. de Sevresky whose Town Hall lecture has been postponed until March 24, Mrs. Littlejohn will speak on her native land in line of war.

Air Raid Warden's First Aid Course to Start Next Monday

Another 10-hour standard air raid warden's course in first aid will begin Monday, Feb. 1, in room 215 at the high school at 7:30 p.m.

Classes will be held on four consecutive Mondays at 197 same hour. Miss Leona Buney will act as instructor for the course.

All high American seamen are now able to receive mail from home at foreign ports, the service does not provide for registered, insured, or C.O.D. mail.

THE PARTYLINE

Mr. and Mrs. Julius A. Schulte, of Yorkshire road, have announced the engagement of their daughter, Rosemary Jean, to Sergt. Jack J. Flynn, son of Mr. and Mrs. John J. Flynn, of Cincinnati, Ohio.

Mrs. Richard Stevens of Touraine road, left last weekend for Camp Crowder, Mo., to visit her son, Pvt. Richard Stevens.

Lila Belle Woods, daughter of Mr. and Mrs. E. Woods, of Missoula, Montana, was married to Quentin Ross Schulte, son of Mrs. Joseph Schulte, of Van Hook, N. D., Wednesday, Jan. 20, in Christ church chapel, with the Rev. Francis Creamer officiating.

Joan Paterson, of Grosse Pointe, was bridesmaid and Stephen David, of Detroit, was best man. Mr. Schulte received his commission in the U. S. Army Signal Corps on Jan. 19.

Mr. and Mrs. LeRoy T. Hood, of Washington road have announced the engagement of their daughter, Bunny Hood, to Lieut. Robert H. Wheeler, USNR, son of Mr. and Mrs. John E. Wheeler, of San Antonio, Texas. Lieutenant Wheeler is enroute home from duty in the Pacific and the wedding will take place upon his arrival.

Lily Huwiler, daughter of Mr. and Mrs. John Huwiler, 106 Mapleton road, has finished her required nurses training at Grate hospital.

Mrs. H. N. Y. Clements, of University Place, has left for Mt. Dora, Fla., where she will spend the remaining winter months.

A large airplane, with its wings marked "Joan and Bill" told the news of an engagement Saturday afternoon in the Park.

Joan Rita Millenbach, daughter of Mr. and Mrs. Mathew N. Millenbach of Nottingham road, gave a tea in her home to announce her engagement to Ensign William O'Neill Kronner, Jr., son of Mr. and Mrs. William O. Kronner, of East Jefferson. Guests received miniatures of the large airplane as Barbara Toolin and Virginia Macdonald presided at the tea table, assisted by Rosaline and Mary Millenbach.

Miss Millenbach attended the Sacred Heart convent and was graduated from Ladywood school in Indianapolis. Ensign Kronner, a graduate of the University of Detroit, is now an instructor at the naval air station in Memphis, Tenn.

Chief Trombly Issues Rules for Winter Driving

"With many essential cars having to get through regardless of weather, traffic accidents will probably involve numerous motor vehicles unless every essential driver takes practical precautions to minimize hazards of sleet and ice conditions now prevailing on some streets."

"Such was the prediction of Thomas V. Trombly, chief of police, of the City of Grosse Pointe, today, who at the same time advanced sound ruler based on national safety council research into winter driving hazards.

Avoiding winter accidents and traffic tie-ups is vital under present conditions of increased activity in war industries and the vast amount of related highway transportation. Unless properly prepared, non-essential cars should be left in garages 'til conditions clear.

"The best time to avoid a winter driving accident," said Chief Trombly, "is before you step on the starter."

"Any owner who knows that his car is not fully prepared to meet winter hazards should have the good sense and decency not to drive while streets are extremely slippery. That means any owner who is not sure of his brakes being equalized should have them tested immediately, and his anti-skid chains put on while ice or packed snow conditions exist. Loss of traction and skidding are the main causes of tie-ups and increase in winter accidents according to National Safety Council research.

"But there is another precaution, almost equally as important as tire chains and good brakes in sleety weather," the chief continued. "Reduced vision is an important cause of winter accidents, next to skidding."

"Windshield wipers, defrosters and headlights should be tested and wiper or defective ones replaced. There is no excuse for 'one-eyed' cars -- cars with one dead headlight -- or inadequate windshield vision. These hazards are always dangerous but more so now when the icy condition of streets makes it difficult to top or turn out to avoid hitting what looks like a motorcycle but is actually a car."

During 1942, twice as many workers in the lumber and saw mill industry quit their jobs as the national average job separation for all industries.

Comprehensive City Police Report for 1942 Submitted

A complete analysis of the work of his department during 1942 was submitted last weekend by Police Chief Thomas V. Trombly to Hugh J. Ferry, commissioner of public safety for the City of Grosse Pointe.

A copy follows: Jan. 21, 1943 Mr. Hugh J. Ferry, Commissioner of Public Safety, City of Grosse Pointe. Dear Sir:

During the year of 1942, calls and complaints responded to as follows: There were 2514 entries in day book. (This is exclusive of 507 homes on the watch list and 163 dogs reported lost which are recorded on loose leaf, and filed.)

There were 98,434 miles covered in scout cars in performance of the above duties. Using a total of 7,641 gallons of gasoline.

There were 100 automobile accidents, of which 72 were of a very minor nature, mostly occurring on Kercheval avenue in the business section.

Five persons injured in accidents and taken to the hospital for first aid.

One fatal accident, woman burned to death in car.

Three accidents, in which children were struck on bicycles. Twenty-eight alarms at business places.

Calls to assist other surrounding police departments totaled 19. Confiscated and destroyed 19 air rifles.

Held five blackout tests. Twenty-two bicycles reported lost or stolen. Bicycles brought in to station and returned to owners, 24. Eleven calls on breaking and entering, of which three were unfounded.

Six personal checks cashed by merchants, which were returned by banks as "no account," "insufficient funds," etc. Restitution to the sum of \$464.10 gained. Check for \$50 still being investigated.

Calls on mischievous boys totaled 219. Five residents locked out of their cars.

Twenty suspicious car calls. Two cars reported stolen. One unfounded, one recovered.

Seven cars towed to station. Officer detailed in scout car, on business outside the limits of the city, 55.

Eighteen cats sent to Humane Society, 15 destroyed. Cash held in station for safekeeping for 37 merchants.

Lost children, 17 reports. Total of 139 stray dogs picked up and impounded. Sent to Humane Society, 67. Returned to owners upon payment of impounding fees, 72.

Dogs struck by cars and taken to veterinary for treatment, 16. Dogs struck and killed by cars, 11. Persons bitten by dogs, 31.

Doors found open at homes on watch list and business places, 306. Windows found open in homes on watch list and in business places, 126.

Calls on trouble with domestic help, five. Family trouble calls, 14. First aid administered in station, five.

Fire calls responded to and scout car stood by to assist, 68. Sets of finger prints taken, 2,793. Fatal injuries, two (non traffic). Fall from roof and artery severed by broken window pane.

Eight residents died of heart attacks. One resident died of hemorrhage. One resident died of drowning in bathtub, caused by heart attack. In the above deaths the inhalator was used in all cases, and in some cases artificial respiration also administered.

Homes on watch list, 507. Residents locked out of their homes and entry gained by police officers, 44. Intoxicated persons brought to station, 32. Two calls on indecent exposure. Lanterns placed on excavations, obstructions in roadway and sidewalk, 25.

Larcenies, 40. Calls on molesting, 11. Noisy party calls, 16. Calls on neighbor trouble, 14. Operator and chauffeur licenses issued, 1,189.

Patients taken to hospital, 33; to their homes, six; to doctor's offices, four. Park cards issued, 3,815. Street lights reported out, 41; street light globes broken, 24; poles broken, two.

Suspicious person calls, 49. Scales tested, 118; gas pumps checked, 54; packages weighed, 172; oil measures checked, 120; meters on oil trucks, 18. Checked by Sergeant Schanbeck and Officer Rabaut of the department of weights and measures.

One suicide, shooting. There were 289 traffic violation tickets issued for the following: Speeding, 78; stop law, 33; reckless driving, 73; drunk drivers, 2; running red light, 9; balance composed of lesser violations.

Collection of \$2,669 on above violations. Issuance of 402 bicycle licenses. Teletypes sent out, 38. Files maintained on criminal investigations, 52.

Dog licenses recorded and cross indexed, for ready reference, 564. Census cards on homes taken and filed, 50,000 by Officers John Rabaut and James Casey attended full course of two days session on bomb reconnaissance, conducted by the United States army.

A six-day course on air raid information, was attended by seven officers, course and instruction under direction of the FBI. An auxiliary police force of 63 men, as required by the OCD of Michigan set up, to act in case of emergency, air raid, etc. These men completed full course as set up by OCD. Attended class for two hours each Sunday morning, for 20 Sunday (40 hours). Instructions were given by Chief Trombly, lieutenants and sergeants. First aid instructions by "Bill" Rae of the Detroit City Gas company.

New Scout Chief

A roaring welcome will be accorded Dr. Norbert K. Fretwell, internationally known educator, author, recreation leader and outdoorsman, when he appears as chief Scout executive-elect at the local Scout council's annual meeting in the Rackham Memorial auditorium, Woodward at Farmwood, Saturday evening, Jan. 30. This will be Dr. Fretwell's first public appearance since his nomination as the nation's chief Scout executive. He takes office in June, succeeding Dr. James E. West who has served as chief Scout executive since 1916.

address to the steeplechase this morning and R. Noble Weatherbee entertained with a number of piano selections.

The complete list of 34 men who passed the examination and are now in the service follows: Richard Harold Hansen, Elmer Martin Hook, Alvin Walter Taube, Vincent La Grance Bourgeois, George Nicholas Genematas, Carroll Trego Ballantyne, Jack Leslie Foote and James Edward Connors; William N. Ponder, Carl H. Larson, Frank J. Rieger, Xelle J. Wyble, John A. Byrne, Leland H. Russell, Patrick Wallace, Carl Prytulka and Robert E. Lawrence;

George H. DeCeuninck, Peter J. Denzler, Earl J. Socia, William H. Miller, Raymond D. Barendt, Daniel I. Effinger, Jr., George O. Young, Jr., Francis M. Meehan, Robert L. Wilson, Edward Q. Kohl, Roy M. Willis on, Frederick A. Walker, George McArthur, Jr., Paul S. Chapman, Milton G. Wills and William M. Wittbold.

Members of the committee for the 1943 Victory Book campaign, jointly sponsored by the AWWS, the Red Cross and the Grosse Pointe public library, are listed below:

Steering Committee: Miss Florence Severs, chairman; the Mesdames J. Dwyer Kinnucan, Stuart Bates, W. J. Moody; Dr. Paul Essert, George Elworthy, Ward Duckett, and Norbert Neff.

AWWS Working Committee: Mrs. Lloyd C. Hooker, chairman; Mrs. Howard Eingham, Mrs. Alger Shelden, Mrs. Andrew, recording secretary; Mrs. C. Thorne Murphy, publicity; Mrs. M. M. Sheaffer, Junior AWWS; Miss Dorothy Looker, Mrs. Julius Haas, Harry Lipski, posters; Mrs. Alfred Moran, Mrs. William Hurley, Mrs. E. R. Legg, speakers; Mrs. Frederick Colby, collections; and Mrs. Harold Beatty.

The Fire Fighters association, of the village of Grosse Pointe Park, report that Walter Zentgrebe is now convalescing at his home at 829 Westchester, after a recent operation for an injury received while on duty in the Grosse Pointe Park fire service. The members of the department wish him a speedy recovery and look forward to his return to work shortly.

ST. JAMES LUTHERAN CHURCH

GEORGE E. KURZ, Pastor

St. James Lutheran church of Grosse Pointe worships every Sunday in the Punch and Judy theatre. The morning service is at 11 a.m. Sunday school begins at 9:45 a.m. The congregation with Rev. George E. Kurz, pastor, has enjoyed a steady growth since the first service was held three years ago, on Feb. 4, 1940. A week from next Sunday, Feb. 7, will mark the completion of three years since that first service.

Holy communion will be celebrated. People in the community without a church connection are cordially invited to worship at St. James church and to send their children to the Sunday school.

Hitler is financing his war by enslaving European labor. In the United States we fight inflation and Hitler through taxes and the sale of War Bonds. Buy More War Bonds.

Electricity brings you a DOZEN HELPING HANDS

for only ten cents a day!

You'd need a dozen helping hands to perform all the jobs in your household now done by electricity. And if you had to hire extra help to do this work, you'd appreciate even more how LITTLE it costs you to do those jobs electrically.

Washing and ironing clothes, furnishing news and entertainment by radio, making toast and coffee, keeping time, vacuum cleaning rugs and drapes, in addition to lighting your home—electricity performs all of these tasks at a cost of 10c a day or less for many families. See how inexpensively these electric services work for you (figured at 2 1/4c net per unit—the thrifty "bargain" step in your residence rate): ELECTRIC CLOCK 3 1/2c a month, VACUUM CLEANER 4c a month (used 20 minutes a day), WASHER 6c a month (used 2 1/2 hours a week), ELECTRIC IRON 1c an hour, FOOD MIXER 1 1/2c an hour, WAFFLE IRON 1 1/2c an hour, HEATING PAD 1/10c an hour, REFRIGERATOR 16c a week, TOASTER 6c a month (used 5 minutes a day).

Probably nothing you buy today gives you so much in return as your electric service. It is one of the few things that has not increased in price. For 10c a day, would you go back to beating rugs by hand, scrubbing clothes on a washboard, cleaning oil lamps, using a sad iron, and all the other hours of drudgery of fifty years ago?

THE DETROIT EDISON COMPANY

Gratiot Treasurer to Campaign for Supervisor's Office

Announcement is made this week by Frank Jones, present treasurer of Gratiot township that he is a candidate for the office of supervisor of Gratiot township in the coming primary election on Feb. 15, 1942.

Basing his candidacy upon his five years experience under three former supervisors and charges of inefficiency upon the part of the present supervisor, Odilon Houtekier, Mr. Jones backs up his statements with the following information.

First, the deplorable condition of the garbage collection funds. With \$1,330.37 pledged to be paid to the water board for hire of the truck for garbage disposal from September 14, 1942 to Dec. 31, 1942, only \$452.52 has been collected from taxpayers for the service, leaving a deficit of \$877.85. Adding the cost for January, plus the cost of ditch digging now being done, the fund is at present more than \$1,117.85 in the hole. Mr. Jones asks the public to decide whether this is good government, or not.

Paragraph 5 in the Ten-Point program adopted by the Gratiot Citizens' committee, of which Mr. Houtekier was a member, and then candidate for the office of supervisor, states:

Article 1. "There shall never be a Special Meeting of the Township Board without the public first being fully notified of the object of such meeting." Mr. Jones states that this has been violated.

Article 4. "The people shall always be masters of the affairs of the township; the officers shall be servants." This has not been the case under Houtekier, says Jones.

Article 5. "Evaluating of properties for tax assessing purposes will be done by your supervisor, as the law prescribed, and not be left to an outside agency whose existence has been declared unconstitutional by the United States supreme court." Houtekier has failed to do so, says Mr. Jones.

"Chapter VII in the Township Guide, paragraph 764, on the township supervisor, Duties as assessor, assistant's power and duties, compensation, he shall by virtue of his office be an assessor of his township." Again Houtekier has failed to do so, says Frank Jones, candidate for the nomination for supervisor of Gratiot township.

- GRADUATION -

(Continued from Page One.)
their winners will be announced at the June commencement.

Dr. Paul L. Essert, superintendent of schools, will present the diplomas to the seniors.

The program will also include several numbers by the high school A Cappella choir singing under the direction of W. J. Watkins.

The Rev. Francis B. Creamer of Christ church will pronounce the invocation and the benediction.

Following the recessional the graduates and their guests will be entertained by the Mothers' club at an informal reception to be held in the girls' gymnasium.

Dominican High School Mothers' Club to Meet

The next meeting of the Mothers' club of Dominican high school, will be held Wednesday evening, Feb. 3, at eight o'clock at the school, Whittier and McKinney roads.

Myrtle Labbitt, women's club editor of station CKLW will be the guest speaker. Her topic being "Living All Your Life." All mothers of Dominican alumni and other women interested in the work of the school are invited to attend.

Mrs. Charles Schlink will be the hostess of the tea which follows the meeting.

More Men Wanted at Warner Aircraft for War Work

With all present openings for women filled, following last week's announcement of preference for "war widows," an appeal was issued today by L. Gendernik, personnel director of the Warner Aircraft corporation for more men applicants at once.

Warner production is essential to the war effort and Mr. Gendernik advises anyone not engaged on essential work to change immediately, in order to protect themselves for the future. In addition to several openings for unskilled workmen, special jobs for such skilled workmen as toolmen, sand blasters and screw machine operators, etc. are available immediately.

The Warner plant is located at 20263 Hoover road, within 15 to 20 minutes driving distance from points in Grosse Pointe and Gratiot townships.

A. Wautosa, War man, will be available to help you get the job and brought a pony cart for personal travel.

Hostess Corps Carnival for Service Men Last Saturday Night Proves Novel Affair

by MISS DORIS TROTT

The number 13 was no jinx to the Grosse Pointe Hostess Corps Saturday when the group began its second dozen of bi-monthly parties for men in the armed forces of the United Nations. When it comes to party-giving, Mrs. Ethelbert Spurrier and her gracious assistants proved long before they came to party No. 13 that they have talents capable of solving sailing problems much more acute than any matter of mere superstition.

The recreation hall at Christ church was colorfully bedecked for Saturday's carnival. Authentic circus posters loaned by Mrs. Lou Maxon and Mrs. R. T. Johnstone formed the background for a variety of attractions including fortunetelling, darts, throwing pennies into a dish submerged in a tub of water, shooting a candle's flame, roll-a-ball games, and an astounding magician's performance provided by the deft-fingered John Jacob.

Dancing was punctuated by ingenious diversions emanating from the fertile imagination of Miss Pauline Masak, social director of the Neighborhood club. To mention a few, there were the hat-passing relay, the military back-walk, a frantic and funny elimination scramble, and the conga line led by Mary Ann Dewey. Needless to add all were entered into with vast good humor and genuine youthful exuberance.

The soldier guests of the Hostess Corps were widely representative of American, Canadian, and British services stationed in a wide radius of Detroit. The variety of uniforms added definite interest to the assemblage. With particular pleasure the hostesses discovered familiar names and faces among the men brought out from the USO headquarters by the Red Cross Motor Corps. Fully 20 per cent of the servicemen present were return guests. And that fact should be regarded as proof positive of the success of the parties.

For the first time the hostesses had the pleasure of welcoming women in the uniforms of the armed forces. Four members of the women's division of the RCAF were among those present. All held the rank of LAW (leading air woman). They were the Misses Bernice Dietrick of Leroy, Sask.; Margie Har-

rison of Vancouver, B. C.; Helen Brown, of Dobin Sask., and Joan Miller of Charlottowne, B. I. In charge of the evening's arrangements was Marjory Klein, and her committee consisted of Mary Ann Dewey, Rosemary Heenan, Sue Stevenson, Jean Fairbank, and Virginia Geyman. Another vastly important group assisting Mrs. Spurrier in the work of the carnival was the refreshment committee headed by Mrs. R. T. Johnstone, Jr., and including the Mesdames Robert Barie, W. O. Gambil and G. E. Sheldnik. And speaking of workers at the party, no one contributed more than Harold Osborn of the staff of the church. He was on hand early and late to help in innumerable ways, because like everyone else he felt it was a privilege to do his part for a Hostess Corps party.

PARK MEETING

(Continued from Page One.)
1, 1941 wages, was used as a guide in determining existing salary adjustments. Fire Commissioner Johnson and the rest of the village commission agreed that they believed the present base pay of \$2,622 per annum, effective Jan. 1, 1943, for firemen was fair, and should not be changed.

Village Costs Analyzed
Village Manager Lane presented the commission with an extensive comparative cost analysis of other cities' departmental operations as compared with the village of Grosse Pointe Park, with suggestions and recommendations which he stated he believed should be given immediate and serious consideration in preparing the budget for the year 1943-44.

The analysis of the police department was based upon study of the departments of 61 comparative sized cities and showed average salary costs, per capita salary cost and average number of men in the departments. The report showed the Park with the highest expenditure for salaries, wages and departmental operating costs. Manager Lane's recommendations were for a reduction in personnel, reorganization of the department and to conserve on equipment and operation.

In the comparison of fire department costs, 66 cities of comparative size were used, with breakdown furnished on average salary costs, per capita cost and average number in the departments. The comparison showed the Park with the highest expenditure for salaries and fourth highest in departmental operating costs. Lane's recommendations were for reduction in personnel and reorganization of the department.

The department of public works analysis was based upon comparison with 30 similar sized communities' costs with a breakdown on services offered and labor and operating costs. Recommendations included arrangements for a sanitary land fill; having each household place ashes and rubbish at curbing for collection; return to once-a-week garbage and refuse collection for 60 days weather months, twice a week and once in 10 days during inclement weather months; and reduction in personnel and use of equipment.

The commission received the report and recommendations, and has taken them under advisement. The observation was made by the commission that the Park was offering citizens the best in services in the public use and police, with departments and that a great deal is made to see that the expansion in services was out of line.

Michigan State college and the Detroit Institute of Technology, where he was studying when he entered the service. He will be remembered for his prowess in tennis, both at high school and in college.

Park Firemen 'Kelly Day' Ruling Stands

On Friday, Jan. 22, the Michigan state supreme court denied a motion for a rehearing on their decision of Nov. 24, 1942, in favor of the Grosse Pointe Park Firefighters association on the 76-hour law, or so-called "Kelly Day" case.

The request for rehearing was made by a group of attorneys representing the Michigan Municipal League. The Nov. 24 supreme court decision was unanimous.

Authorization was given Village Manager Lane Monday by the commission of the village of Grosse Pointe Park to instruct all employees that they may now buy U. S. War

South Sea Islands

Editor
Grosse Pointe Review
15121 Kercheval Avenue,
Grosse Pointe Park, Mich.

Dear Sir:

Yesterday I received my first copy of The Review since I arrived at these South Sea Islands. Boy, it sure was good to see a home town paper. It only takes about 50 to 55 days for our mail to reach us from home, so we get a nice big pile all at once.

Yesterday at mess I ran into another Grosse Pointe boy, Lee Mulick. I ran right into him before we could recognize each other. He sure looks swell.

We have got the Japs on the run now and we're going to run them clear out of Tokio. I've seen a few of those yellow devils.

Sincerely,
George Lewendon

Arthur H. Hogarth, son of Mr. and Mrs. A. E. Hogarth, 1984 Lancaster, Grosse Pointe Woods, who enlisted in the Army Air Corps in December, is now stationed at Patterson Field, Ohio.

Pvt. John T. Hoag left Monday for California after spending 10 days visiting his mother, Mrs. J. J. Cheatham, of Bedford road.

(Continued on Page 6.)

WITH THE MEN IN SERVICE

Staff Sergt. Robert P. Oldham, son of L. B. Oldham of Grosse Pointe Woods, is spending a 10-day furlough visiting his father and sister, Mrs. Paul Blackburn, of 956 Beaconsfield, Sergeant Oldham is stationed at Camp Beale, Calif.

Nat Ventura, son of Mr. and Mrs. Dominic Ventura, of Kenosha, Wis., is visiting his wife at 1117 Lakepointe, Grosse Pointe Park. With the U. S. Army military police, Ventura is based at Fort Omaha, at Omaha, Neb.

David R. Nagel, son of Mr. and Mrs. Julius Nagel, 402 St. Clair avenue, City of Grosse Pointe, has been promoted from technician to staff sergeant at the Medical Replacement Training Center, Camp Robinson, Ark. Staff Sergt. David Nagel graduated from Grosse Pointe high school in June, 1937, and was employed in the advertising department of the Ferguson-Sherman division before entering the service in July, 1941.

Mr. and Mrs. John DesRocher, 1212 Maryland avenue, Grosse Pointe Park, were pleasantly surprised recently by the return home of their son, Wilfred DesRocher, B. M. C2, USCG, stationed at St. Petersburg, Fla. Wilfred was on a 10-day furlough and spent most of his time visiting friends and neighbors and former classmates from St. Paul's school. He is 25 and has seen foreign service.

Staff Sergt. Niles Cooper, 20132 Hawthorne, is now stationed at Camp Bowie, Texas. He was transferred from Camp Robinson, Ark., recently.

Lt. William L. Newman left Sunday for his camp in the Southwest, following a visit with his parents, Mr. and Mrs. Henry L. Newman of McKinley place.

Charles Weston, son of Mr. and Mrs. C. E. Weston, 308 Moran road, has been accepted by the Army Air Corps and has entered training at St. Petersburg, Fla. Charles graduated from Grosse Pointe high school in 1940, after having received his college education in the Grosse Pointe school system. He attended

'Talk of Town' Feature at Esquire

Gry Grant, Jean Arthur and Ronald Colman are starred in Columbia's exciting new romantic comedy, "The Talk of the Town," which plays Saturday, Sunday and Monday at the Esquire theatre. The film was produced and directed by George Stevens, maker of "Woman of the Year" and Sidney Buchman, author of "Here Comes Mr. Jordan" and other sensationally successful films. The screen play for "The Talk of the Town," whose supporting cast includes Edgar Buchanan, Glenda Farrell and Tom Tyler.

The second attraction is Hal Roach's streamlined Western featurette, "Dudes Are Pretty People," starring Noah Beery, Jr., and Marjorie Woodworth.

Big Double Bill at Shores Sunday

Popular Red Skelton and lovely Anne Southern, featured in "Panama Hattie" headline the double attractions scheduled to play at the Shores Theatre, Slack at Sing-Stile road Sunday, Monday and Tuesday.

Skelton is at his funniest and Southern knows all the quips and answers. It is a feature that will rock the audience with fun and laughter.

On the same program, famous Joannie Weismueller and Maureen O'Sullivan are paired in another Tarzan picture, with a city scene, entitled "Tarzan's New York Adventure." Selected shorts complete the program.

Music Recital Wednesday Night

Pupils in piano, voice and violin at the Grosse Pointe School of Music will be presented in a recital in the studios of the school, 17028 Kercheval, Wednesday evening at eight.

Piano selections will be played by Estelle Pappas, Beverly Fullerton and Shirle Groesbeck. Vocal numbers will be sung by Helen E. Arthur and Joyce Malinof. Robert Schiabile will play a violin solo.

BURNS HENRY AUXILIARY

The Burns Henry unit will hold a card party Saturday, Jan. 30, at 8 p.m. at the Post headquarters, 18322 Mack avenue.

A cordial invitation is extended by our hostess, Hazel Allor, to Post members, friends and the public. Come out and join the gang for a bit of fun and laughter.

Bowling News

Attention Chief Trombly - The Grosse Pointe Woods Recreation junior house league County Line team challenges Chief Trombly's City Police bowling team to a match. An answer is requested by Rene Degriek, owner of Woods Recreation.

The Grosse Pointe Woods fire department bowling team challenges the City of Grosse Pointe and the village of Grosse Pointe Park Police or Firemen's bowling team to a match at the mutual convenience of the teams.

Chuck Hanneman's All-Star bowlers will meet the Woods Recreation junior house league County Line team in a match at the Woods Recreation on Sunday night at nine o'clock.

MAIRE SCHOOL N-E-W-S

On Jan. 29, the following 6A's will go to Pierce junior high school from Maire school: Thomas Anton, Jerry Braund, Henry Baslepp, George Crossdale, Ronald Dearnley, Floyd Jevroy, Thomas Follis, Rae Garber, Quinn Lockel, Jim Mahoney, Donald McElroy, Allan Moore, Mary Lou Prevot, Calvin Purdy, Frank Schwartz, Richard Shirk, Barbara Shirk, Barbara Smith, Thomas Van Fiem, and Robert Wallace.

A definite effort has been made to prepare these pupils for the transfer from elementary to junior high school. Jan. 13, Calvin Purdy and Mary Lou Prevot visited Pierce for a day and brought back reports of the work done, to the class. David Sulter visited them on Jan. 22. Jan. 23 the children were invited to the Pierce school to a brief program given by Pierce students. The children were shown their new school and introduced to their new teacher.

New Entertainer at Pointe Show Bar

Playing "everything from Bach to Boogie-Woogie," is the billing given Marion Borders, sensational new piano and singing star at Howard Duncan's new Pointe Show Bar, opposite the Esquire theatre.

The septa entertainer made her debut at the Pointe Show Bar and has been one of the best received cats trumped up to date by Duncan. Possessing the natural musical ability of her race, Miss Borders backs up her prowess with a degree from a prominent Eastern conservatory of music. Request numbers are a specialty.

Victory Book Drive Sponsors Seek to Exceed Area Quota of 30,000 Books

Books . . . Books . . . Books . . . and more Books is the battlecry of the 1943 victory Book campaign launched last week under the joint local sponsorship of the Red Cross, the AWVS and the Grosse Pointe public library.

Reading material for men in the service of Our country, at least 30,000 books is the goal of the local drive, but the early response from last week's appeal is an indication of the results, the quota might be over-the-top. "Let's try to hit 40,000, instead of thirty," said a member of the sponsoring committee this week. "We mustn't let our fighting men down and we should show them that this community is more than behind them one hundred per cent!"

Adult Education Schedule Revised

The revised schedule of adult education classes sponsored by the Grosse Pointe board of education is as follows:

Wednesday, Jan. 27 - First Aid (standard) at Mason school.

Thursday, Jan. 28 - Typing (afternoon class 3:30-5:30); Gym (women); Swimming (women); and public speaking.

Monday, Feb. 1 - Meteorology (preinduction training).

Tuesday, Feb. 2 - Shorthand (intermediate, able to take dictation).

Wednesday, Feb. 3 - Navigation (preinduction training).

Thursday, Feb. 4 - Shorthand (beginning); Spanish I (conversation); and Sewing for Beginners.

Information in regard to the above classes may be secured by calling Forrest Geary, Niagara 2000, extension 25.

Woods Baseball Team Seek Season Sponsors

The fast stepping Grosse Pointe Woods baseball nine (hard ball) is seeking sponsors among business men of the village for the Spring and Summer season. Interested parties are asked to call David Martens at Niagara 1968.

City-Park Police Bowling 'Feud' Now Stands at One-All

Grosse Pointe Park's 10-pin artists of the police department swept a three game series, Sunday, in a match with the City of Grosse Pointe policemen at the Woods Recreation on Mack avenue.

Second in a series of three friendly matches, "Iron team" was one win to its credit. Speaking for the city, Chief Trombly states that his boys weren't even trying and only wanted to give the Park police a chance. The Park police declare that they will make Trombly rat his words when the two teams tangle again in the near future.

Scores Sunday were as follows:

Park Police	1	2	3	T
Butte	133	111	127	311
Verdonck	131	147	171	449
Louwers	173	157	182	512

New Serial Starts at Colony Kiddies Show Saturday

The second big Saturday matinee for kiddies this week at the Colony theatre will be marked by the start of the thrilling new serial "G-Men vs. the Black Dragon" and a surprise Western full-length feature in addition to the two regular feature attractions of the day. Doors open at 1:30 and the entertainment starts at 1:45.

Manager Frank Crowe has announced the installation of a new candy stand, featuring fresh candies, potato chips, gum and mints, which promises to be a popular addition.

Sunday and Monday's attractions feature Bruce Cabot and Ruth Hussey in "Pierre of the Plains," the Mountain Rhythm, starring the Weaver Brothers and Elviry. Sunday and holiday showings are continuous from 1:45 p.m.

An exceptional program has been scheduled for Tuesday, Wednesday and Thursday with the hit "Holiday Inn," starring Bing Crosby and Fred Astaire and Don Ameche and Joan Bennett teamed in "Girl Trouble." Free dishes are given to the ladies Tuesday and Thursday nights.

Birthday Show to Replace Annual Prudent's Ball

Instead of the central President's birthday ball this year, a gigantic stage show has been planned at the Fox theatre at midnight Friday with the entire proceeds to be donated to the President's fund for the relief of infantile paralysis.

The birthday ball was abandoned this year, first, because of the war, and second, because of the greater opportunity for more people to participate under the theatre program plan. All seats are reserved and may be purchased at the theatre box office.

In addition to Mrs. Pia Igy, celebrated coloratura soprano of opera and SRC radio fame and the famous "Dumka," Ukrainian chorus, the greatest array of theatre, night club and hotel talent ever assembled in Detroit will co-operate in the four-hour program. Mary Sumner and Stefanie Anstruzewicz will be the piano accompanists.

THE OLD JUDGE SAYS..

"Quite a discussion some of the boys were having down at lodge meeting last night. Judge... you know, in the anteroom before the election of officers."

"Sure was... and Herb was dead wrong. The alcoholic beverage industry does account for more taxes than any other industry. I checked the figures in my office this morning. Why the figure on alcoholic beverages is pretty close to a billion and a half dollars a year. Lucky thing we haven't got prohibition or the government would have to make up the money some other way. And there's only one answer to that... one tax. You know what that would add up to..."

about \$25 more taxes a year for every man and woman in the country. In other words you and Sue would have to pay about \$50 more in some form of tax. I guess about the only ones who'd come out ahead on that deal would be the bootleggers and gangsters"

Christian Science Lecture by Herbert W. Beck, C. S. B.

Under the Auspices of the Sixth Church of Christ, Scientist, Detroit, at the Sixth Church Edifice, Kercheval and Manistique Avenues, Tuesday Evening, January 26, 1943

A Lecture on Christian Science Entitled Christian Science: Its Simplicity

by Herbert W. Beck, C. S. B. of San Francisco, California

Member of the Board of Lecturers of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts

Christian Science has come to the world with its kindly, healing message to reassure us that the attainment of heaven is not a vain hope but a present, demonstrable possibility. It lifts our gaze from the deplorable material living to life divine, to the realization of God's love for us and all that this love holds. This love of God is thoughtful, ever capable of doing our needs, always at hand, and when the help is prayerfully and honestly sought, true prayer is not sent forth in vain; it does not disappoint, but it brings to bear a fruitage that is most satisfying and sustaining.

Are you trying hard to understand Christian Science? Are you finding it difficult to know and to love God? Are some of you finding it impossible to be rid of sin, sickness, discouragement, lack, or loneliness? If so, you can turn with assurance to Christian Science, for it heals the sick, binds up the brokenhearted, brings peace in place of discord—truly it gives us a practical concept of what heaven really is.

Christian Science is not hard to understand. You will find it is simple, preconcived ideas or opinions based upon an experience in evil, in disappointments, which come in hours of sickness, or in frustration of your attempts to have and to know good.

It is necessary to be willing to give up the old for a new concept. When the steam engine was invented and applied to what we now know as railroads, it met with much opposition; it was believed to carry evil spirits; it would bring disaster upon the people, and to the birds of the air, that sustained travel at ten miles an hour would bring death. But it is very plain that the new method would not be fitted into the old way of transportation, and people had to change over to the new way.

Therefore, the first step towards understanding the simplicity of Christian Science is to have the mental picture to approach the subject with an open thought, willing to accept its simple yet profound reasoning even if at first it appears contrary to what you are familiarly believed.

To approach the subject it is well to know how Christian Science is defined. In "Rudimentary Divine Science" (p. 1), Mary Baker Eddy, the Discoverer and Founder of Christian Science, defines it as "the law of God, the law of good, interpreting and demonstrating the divine Principle and rule of universal harmony."

Here we have the statement that the "law of good" is demonstrating universal harmony. And because harmony is universal, you are indicated in the blessing. It is not an extravagant statement to say that you already know some of the results of the law of good; but to understand it, you do need the teaching of Christian Science, which makes the rough places plain to the inquirer.

we accept the statement of Mrs. Eddy in the textbook which she has given to the world entitled "Science and Health with Key to the Scriptures," which reads (p. 259) "The title being and divine healing includes a perfect Principle and idea—perfect God and perfect man—as the basis of thought and demonstration." The investigator of Christian Science might wonder at this statement. What—a perfect man? And he asks: "What is the explanation because he believes man to be no less than his concept upon what he thinks he is and what his neighbor seems to be. Right here he may be assured that the man he has in thought is not the image and likeness of God."

The Bible records in the first chapter of Genesis that God made man in His image and likeness. This is more than an idle statement or just a poetic one. It is a fixed, scientific fact, and this man has remained as God made him. This is natural, for if God's man could fall from perfection, then there must be something weak or defective about man. And if the real man, the likeness of God, is defective or imperfect, then God must be defective, which, of course, is untenable.

Speaking of man, God's image, it is well to realize how wonderful it is. Think what it means to be the likeness of God. As you do so, you will realize that evil is not involved within that wonder; that the only thing that is evil is God; that he is far above the reach of ignorance, of sin, sickness, or death, for he is one with his Father. As we see man as the reflection of God, we realize God's goodness and love to His creation, and we honor God's allness and His perfect power. We find that man is fully equipped with spiritual qualities. There is nothing lacking in this equipment. But mortal mind or the carnal mind, to quote St. Paul's statement, tries to confine us to the things of this world; that we cannot succeed or even if we do, it will not bring happiness. From a mortal standpoint, man is as transient as the grass of the field; but as God's likeness, he is everlasting, lacking in no good thing.

And firmly to the truth that God made you in His image and likeness, know that it is true and that you know it; that the sickness is real, and so be blessed by a healing.

Christian Science Is Practical

Christian Science is practical, because it heals, reforms, blesses. This is a practical science, and the value of anything is measured by the results it produces. Christian Science welcomes such a test. Its teachings are not only beautiful but are possible of proof. The results of the practice of Christian Science are on every hand for you to investigate if you will do it. As disease frequently classified as incurable are healed, and those persons healed are soon able through the study of scientific Christianity to help themselves and others. That this healing is for all is proved when through a prayerful reading of Science and Health an understanding of the Bible is obtained which enables a student to follow the Master's instruction to reform the sinner and heal the sick. Please be assured that the ability to heal is not for a certain class; neither is there any inside knowledge for the initiated. Christian Science is a divine law understandingly applied in destroying sin, healing disease, wiping away the tears from our eyes, and giving us protection from evil. It comes to the world's assistance to lift consciousness from a false sense of reality to a right, practical understanding of that which is truly real and eternal.

How Is Christian Science Applied?

The question naturally arises as to how Christian Science is applied. The question is one of great importance, for one experiencing or being healed by Christian Science may well ask how it is done. Perhaps if we turn to arithmetic, we can find an illustration. As a child you were taught simple laws or rules, and you have been using these rules of arithmetic ever since. When, however, you are confronted with a mistake in arithmetic, you do not start with the mistake; you find the right answer; but you turn back to the rule through which the correction is made possible. Likewise any evil, any distress, may be considered as a mistake in living, for the rules of divine Principle, which Christian Science reveals as God have not been correctly applied.

If you will be understandingly affirm with confident assurance that you are God's likeness, that you are spiritually perfect and that sickness has no power, no life, no reality, you will express the Christian Science healing. This healing is accomplished through an intelligent application of the truth about God and man. Truth is omnipotent, and as you establish a connection with this power, there abounds what the Master said would happen: "the truth shall make you free." If after using this simple rule of affirmation regarding God's allness and man's perfection and the consequent denial of error as having any reality, the sickness disappears, what are you going to think about it? Will you not begin to investigate and use over and over again the divine rule which works, which heals? Do not scoff at this method of healing, for it has been applied and proved practical by many thousands of persons. Why not honestly test this simple method?

Spiritual Healing

To many persons Christian Science is simply a corrective agency. That it is applied Christianity does not seem to have occurred to them. But it is what has been heard have later through an awakened thought, found that spiritual healing dominated their experience. It is well to understand that in Christian Science healing we do not primarily seek to heal the body but to change or spiritualize the thought. Truly it is the sick mentality which is corrected rather than a sick body. It is well to realize that we are thinking all the time, either good or evil; we are constantly thinking. We

think our living; we think our business; we think our friends; we think our wealth, and of course, there is nothing so far as we are concerned that is outside of that, which we are conscious. So it is well to control our thought; to control our reactions; if we make much of evil, we will in all likelihood have much of evil; if we make much of good and demonstrate the law, we will find much of good. Our conclusions and reactions—control us unless there is a cross-current of another conclusion which would offset the effects of the first one. In Science and Health (p. 321) we find this statement: "Your decisions will make you, whichever direction they take."

To control our thoughts we need the consciousness of God, the "mind which was also in Christ Jesus." As we conform our thinking so that we become Christlike, the threats of evil and dire forebodings reach us less and less, and our lives become happier. The lack of health, of supply, of good, begins to fade away, for we are making our demonstration that good is the only real power.

Treatment in Christian Science is truly an awakening process. It awakens one to the truth that is real, and as he becomes conscious of what he is, naturally he makes use of it. This may be illustrated as follows: Suppose you are on the street and an approach, asking for alms. He stands before you in rags, expressing extreme poverty. He tells you something of his story, but while he is doing so you recognize him as an old acquaintance. Thereupon you tell him that a certain bank has been searching for him for years, because they hold in trust for him an enormous fortune. He goes to the bank with you and finds that the information is true.

Now the first point: Did you make him rich? Did you even give him a nickel? Or did you tell him of what he already had, and he found it true? Even so Christian Science approaches the poverty-stricken condition of the human mind, tells it of the riches which belong to the image of God; thought is awakened, and this element is found to be true, and the law of abundance of good is demonstrated for the benefit of that individual.

But you may say: That all sounds interesting, but how about my troubles? Let us return to the individual when he spoke to you, standing before you in rags which testified to the world that he was poverty-stricken. Were you telling the truth? Did the man's ignorance in any way change his inheritance? The answer, of course, must be "No." And so regarding any sickness or trouble, be assured that these troubles are not mental rags falling away to your real spiritual status. Why not go to the bank of Spirit and see what you have as God's image and likeness? And as you find some of the things about God and yourself, make use of it and see evil destroyed. The Apostle Paul said: "Be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God."

As to the band of lawless suggestions seen as sin, sickness, discouragement, and the like, each one is destroyed by the persistent and intelligent declaration and proof of the spiritual facts about the real man, as to what he is and what he can do. Man can express only infinite good; he can only magnify good. And with this recognition, the student of Christian Science is awake to the subtle suggestions of evil and is capable of destroying his wrong concept of power. This is done by scientifically knowing what constitutes power. Realize that you are God's man. Never forget it; never doubt it. Rejoice many times a day that you know God and love Him; that you represent Him, and so express the needed intelligence and power to overcome evil. And above all, know that God is aware of you, loves you, and keeps you safe.

In the practice of Christian Science, we handle error. What is meant by handling error? It is to challenge, to expose and discard the claims of error that it possesses reality, power, or life. If evil were eternal, it would necessarily come from God, the only creator, but this we know to be impossible, for God is Love and gives only good. Each erroneous condition presenting itself should be exposed and proved untrue or it will handle error. Mortal mind intellectuality will never scientifically uncover or properly destroy error. Spiritual understanding alone can do it successfully. Error should be handled quickly, decisively and cast out of consciousness by God's law of good.

Destruction of Sin

The nature of sin, its unreality, must be known before its effects can be scientifically destroyed. All wrong desire is based upon sin, which would insist that man is physical. Sin is only a supposition, though claims to be real, as real as an expression or emanation of the Mind. That it is a supposition may be proved when God's allness and ever-presence is understood and demonstrated as infinite good with no place for its opposite. Evil having no place, no reality, the truth may be realized that sin has no control or power over man. God's man also the lawman has no need of sin. The lawman has no need of sin. The young man exclaimed: "Why, the bridge would have fallen!" and his attention was called to the fact that

capable of sin, for man reflects or expresses his perfect creator. The real man's natural desires are for the good of God's giving. When the his gaze is turned away from the "Dead Sea" of sin, full of sorrow and disappointment to the ever-satisfying, never-failing fruitage of right living.

Recently a man walked unsteadily into a Christian Science practitioner's office and remarked that he was intoxicated. Following a short conversation, a treatment was given as we are taught in Christian Science. Several weeks later the man returned to express his gratitude and thanked his healer, saying: "Well, I declared the former patient, 'you're intoxicated, you told me you were drunk, intoxicated, but I knew it was not true; that it was impossible for man as God's image to be drunk or intoxicated, because of man's present perfection and love of good.' 'Well,' exclaimed the former patient, 'your declaration was certainly proved true, for I am free from my desire for strong drink.'"

The Two Textbooks

The Christian Scientist has two textbooks—the Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy. The latter opens the hidden truths of the Scriptures so that one understands the divine Principle back of all reality, and the earnest student finds health, happiness, and well-being for himself and his family. The Bible is revealed as a new book, as it were, as it were, a book which had never been studied before. Instead of accepting some of its truths as applicable to another age, he finds all that is true here and now. The Christian Scientist will continue to turn the erroneous thinking of the world. Since the publication of Science and Health, many changes have come to popular religious thought, and the old-fashioned ideas are more generally used.

Error Only Ignorance

Christian Science is not a Pollyanna teaching, simply mousing the words that everything is good and that there is no evil. We are not taught to ignore evil but to destroy it by using the only power in the universe, but as long as we are controlled by ignorance there will be evil to uncover, to deny, to reject, to destroy. It is stated in "Science and Health" (p. 542): "Let Truth and good destroy error in God's own way and in human justice pattern the divine." Mind you, it says let Truth do the uncovering, not human endeavor. Much anguish has been experienced by the attempt to find error in someone instead of understanding it is someone through the application of Christian Science we are able to uncover error, but the real task is to prove its unreality, and this calls for wisdom and spiritual understanding. The Christian Scientist, whether he is seeking for himself or for someone else, may be asked: Where did evil come from? One could answer that question if he could tell where ignorance comes from. We again refer to the Christian Science textbook (p. 390), which declares: "It is our ignorance of God, the divine Principle, which produces apparent error, and the right understanding of Him restores harmony." Ignorance is the only thing to be rid of, and this you do every day. You are constantly finding out things you did not know a short time before, and what happens to the things you did not know? They are destroyed? Or do they remain? You simply accept a fact which destroys ignorance about that fact. So in working out the problem of life, you are shown the way through ignorance and error to the understanding of divine Principle and to discover the ease with which you may make use of that Principle in destroying the ignorance which is holding mankind in the depths of darkness.

Straight and Narrow Way

There is only one way to heaven, and that is the way the Master showed us and which Christian Science enables us to demonstrate. The straight and narrow way is the one which God has given. This way appears limited and narrow, but it is broad, because it does not permit indulgence in sin, sickness, and death; yet while it appears narrow, it is as broad as infinity itself, as wide as a boundless sea. It is truly straight, because it is the direct, scientific demonstration of divine Principle. The straight and narrow way seems to be one of hardships, of turmoil and evil; but it is contrary to the luring pleasures which tempt one to disaster, which the Master told us leads to disaster.

Within the Christ-way bud and blossom the real-ways of happiness, peace, and plenty. There is, therefore, no evil within the straight way of spirituality. Because this way is the demonstration of God's allness, harmony can be the only experience within this path. Mankind, however, has been existing, but these things should and are, is ultimately will drive everyone out of the broad way into the realization that there is only one way of life, one way of demonstrating and living that life, and it is given in Christian Science. One who has a true understanding of Christian Science is to know that the real man, our real selfhood, is within the realm of good; that his capacity is infinite, his scope and activity boundless in expressing God. The path to heaven is the demonstration that man is in heaven now. The real man need not enter the straight and narrow way; he is within it now.

Several years ago a young man called upon a Christian Science practitioner and said to him: "I am an engineer in one of the best colleges in the country. He had been in The Mother Church Sunday School until he was twenty, but he had drifted away from Christian Science. He had an idea of its seeming narrowness. Christian Scientists do not believe in using tobacco, and to him this was very narrow. There were other similar things, too, about which he complained. After he had expressed his views, the practitioner said to him: 'You have told me that as an engineer you worked upon one of the largest bridges in the world and that it is a marvelous engineering achievement. Now suppose one day the engineers had said, 'We are tired and weary of building this bridge according to plans and specifications; let us be broad engineers and build the bridge accordingly.' The young man exclaimed: 'Why, the bridge would have fallen!' and his attention was called to the fact that

his bridge of life had nearly fallen. He was careless, out of work, had a wife and children to support, and he did not know what to do. He had endeavored to live Christian Science in a broad way, and it had led him towards destruction. He evidently later he met with a man, and he told him that he had not used tobacco since leaving his office; that he had a temporary position before the day was over, and that in two weeks he had a permanent one. He said: "I am living my life in Christian Science, for I am learning 'precept upon precept, precept upon precept; line upon line, line upon line; a little, and there is a little.'" He is today an earnest Christian Scientist.

World Conditions

In this present time of world war and internal unrest, dissatisfaction with things as they are, some times things it said that Christianity is fifteen hundred years old, and it is worse off than when the Master trod the hills of Judea. This statement is superficial, and it is based upon lack of understanding of what has happened since the time of the Master. The world today is not suffering from the application of Christianity but from lack of it. Can it be said that the lust for power and dominion is the outcome of the Sermon on the Mount; that through living the divine precepts in this material world, the world has been swept into a volcano of hate and mass murder? When each inhabitant of this globe finds that Christianity may be lived and applied through the use of the understanding which Christian Science gives, there will be no need for armaments; there will be no desire to take from others what is rightfully theirs.

War comes of ignorance; surely not from the understanding of divine Love. It all comes from the belief that material and not spiritual things are true and of lasting value. Has there ever been a quarrel over the possession of qualities that make for uprightness of character—the qualities that make an individual or a nation worthy of honor? How ridiculous would appear for nations or individuals to fight for the possession of spirituality, generosity or brotherly love! Here Christian Science comes to the world's assistance to lift consciousness from a false sense of reality, from a low, visible vision of things, to a right, practical vision of that which is truly real and desirable.

We hear much these days about "defeatism" and "evil is stopped"; it is a frequent question. Of course it can be stopped, because Truth is always the victor; and the more we realize that God does not support this attempt to dominate peoples and nations and bring them into slavery, the quicker the effort must be. Alertness must be our watchword—alertness to good; alertness to the presence of God; alertness to the fact that His love does destroy hate; as well as alertness to the approach, the cunningness, the mesmerism of evil to bring about a state of mental and physical lethargy.

No Christian Scientist wants war, for he knows that war is evil, to be fought only in defense of country and human rights because mankind has found no better way to check aggression. The attitude of ignoring evil, of pacifism, or appeasement has brought civilization to the brink of disaster. It is not correct to take the attitude that because of God's allness there is no war and put up no defenses. The condition of thought is helpful to the aggressor.

The practice of Christian Science is reasonable and practical. We need a vision of God's allness. In fact, the Bible tells us, "Where there is no vision, the people perish." So we must not become visionary about our vision.

We face a choice of evils, and Christian Science teaches us to take the one nearest right. In this case it is surely better to stop the inroads of evil and save what the world has struggled to attain through the centuries, than to let it slip away. Democracy with its blessings is worth fighting for. To keep America free is a worthy attainment. Mrs. Eddy in "The First Church of Christ, Scientist, and Miscellany" writes (p. 277): "But if our nation's rights or honor were seized, every citizen would be a soldier and woman would be armed with power girl for the hour."

Conclusion

Christian Science is the "pearl of great price" spoken of by our Master. It has untold blessings for mankind. It is easily understood and can be definitely applied to human problems with good results. If you approach God with clean hands and an honest endeavor, Divine Love is calling to each of us to awaken to his real self and leave behind the dream of wrong living and suffering. No one can present a testimony for the reason for opening the door to the Christ which is now knocking at the portals of human consciousness for the recognition of God's allness—the omnipotence of God.

A Christian Scientist is fully aware that he has much work to do before he arrives at his goal. He is just becoming conscious of the first glimmer of spiritual light against the darkness of mortal mind. This new light is a continuous unfolding, an endless acceptance of the law of spiritual freedom, bringing the risen day of the Christ and leading to the noonday fulfillment of belief.

Lift up your heads. O ye gates, even lift them up, ye everlasting doors, and the King of glory shall come in.

CHRISTIAN SCIENCE CHURCHES

"Love" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, Jan. 31. "The Golden Text (John 1:12) is: 'Keep yourselves in the love of God, Jesus Christ unto eternal life.'" Among the Bible citations in this passage (Matthew 9:35) and Jesus went about all the cities and villages, teaching in their synagogues, and preaching the gospel of the kingdom, and healing every sickness and every disease among the people." Correlative passages to be read from the Christian Science text-book, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 494): "Divine Love always has met and always will meet every human need. It is not well to imagine that Jesus demonstrated the divine power to heal only for a select number or for a limited period of time, since to all mankind and in every hour, divine Love supplies all good."

It takes both the Army and the Navy to save the world for freedom. It takes both War Bonds and Victory Taxes to save those pay-day dollars for after the war. Buy more War Bonds.

Do Not Use Your Gas Range for Heating DO NOT USE YOUR GAS RANGE TO PROVIDE SUPPLEMENTARY HEAT. War industries must have an adequate supply of Gas. Lack of fuel oil due to transportation difficulties means that War industries must increase their use of Gas to replace oil. In addition to the above suggestion regarding your Gas range, here are other things you should do: If you use Gas for house heating set your thermostat down to 63 degrees and close off unused rooms. Keep doors and windows closed. Wear warmer clothing in the house. Use the waterless method in cooking vegetables. Cook meat at low temperatures. Keep Gas burners clean. Help your country win this War. Follow these easy instructions and you will be cooperating with your Government in conserving Gas for War industries when demand for Gas is greatest. WITH THE MEN IN SERVICE
(Continued from Page 3)
GREAT LAKES, ILL. — Blue-jacket William L. Mikel, 25, son of Mr. and Mrs. Steve Mikel, 1432 Balfour street, Grosse Pointe Mich., was recently enrolled in the Service School for Carpenter's Mates at the U. S. Naval Training station here. Upon completion of the course, he will be eligible for advancement to a third class petty officer rating. Selected for this advanced training on the basis of a series of apti-

tude tests given him while in recruit training, he is preparing himself for specialist work when later assigned to duty aboard a Navy man-o-war, or at some other naval shore station.

★ Robert B. Mesmer, Jr., son of Mr. and Mrs. Robert B. Mesmer of 1046 Yorkshire road, will leave Sunday to report for air cadet training at San Antonio, Tex. He will report Sunday in Chicago and be sent to San Antonio for subsequent assignment. Robert enlisted in July, 1942, the day after his eighteenth birthday and has just been called to service. He graduated from Grosse Pointe high school in the class of 1941 and was varsity miler on the track team. Since graduation, he has spent a year at Wayne university.

The new cadet is a native of Charleston, W. Va., having moved here with his parents about four years ago. *

training station here to begin his basic training. Here he will receive several weeks of vigorous physical conditioning and be indoctrinated in the fundamentals of seamanship and naval procedure. As an important part of his program he will take a series of aptitude tests designed to aid in assigning him to the type of work for which he is best qualified. The Bluejacket will be granted a five-day leave, at which time he probably will be home for a visit.
