### Large Water Bill. **Problem in Farms**

The problem of a large water bill which suddenly in three weeks jumped from seven thousand cubic feet of water to a total of over five hundred thousand cubic feet and the next month to over a million was discussed at the Farms village meeting. Michigan department of health. Monday evening.

Accountable, no doubt, to the gyrations of a meter running wild, an adjustment is being considered by Farms officials after the matter is taken up with the City of Detroit.

### Wartime hints worth knowing:

How to save ELECTRICITY

### without sacrificing needed LIGHT

With fall evenings just around the corner, the matter of home lighting becomes doubly important. In many homes there will be increased demands for longer hours of eyework-extra studying, sewing and other seeing tasks. Fortunately, it is possible to make your present lamps and fixtures do double duty . . . and to save electricity without sacrificing needed light.

Here are a few practical suggestions: (1) Fitting dark-colored lamp shades with white linings can increase the amount of light from the lamp by as much as 50%. Use good white paper and fasten seam with Scotch tape. (2) Clean lamp bulbs and reflectors frequently. Dust and dirt may rob you of half the light you pay for. (3) Flaring lamp shades do a better job of spreading light than straightsided shades. The wider the opening at top and bottom, the more useful light is directed into the room. (4) Whenever possible, make floor and table lamps serve more than one person for reading or sewing. A single lamp on a table, for example, can provide light for chairs on both sides of it. Electricity is not retioned. But its production requires coal and railroad transportation. Don't waste it!

The July average of drivers' speed n Michigan highways was 39.1 miles an hour, compared to 39.3 miles in May and 39.9 miles in April, the commissioner reported.

### Youths Are Example of New Ruling at Waterfront Park

One example of what some of the non-residents think about the banning of the 25-cent guest fee at the Grosse Pointe Park waterfront parl was seen Saturday afternoon when Officer Stanley Enders nabbed two Detroit youths who wanted to ge into the park.

One lad, 18, swam from an adjoining road with the purpose of notifying friends in the park that they had arrived and wanted entrance into he park through a punched guest

However, this swimmer and his ciend waiting for him on the other ide of the fence, were denied enrance by the officer.

### Eye' Banner for **Bond Purchases**

Three one-thousand dollar War Savings Bonds are in the hands of Neil Blondell, budget director of the City of Grosse Pointe, which are credited to the employees' security pay fund. There is one thousand dollar bond on order and after Sept. 1 the city will purchase its fifth bond of the same denomination.

This unique plan of forestalling inflationary trends of pay boosts by freezing the increases in War Bond investments is working out very satisfactorily, Blondell stated, especially since these purchases have been made only since July 1.

The result of this plan is that the city is practically the only municipality in the area which flies a "Bull's Eye" banner.

Each employee's account is credted with the 10 per cent increase in war bonds each pay day. He will not receive the money, until he leaves the city's employ; then proportionate nterest will be credited. In the case of death, the settlement is made

'You certainly are, Hank. Part of the grain you farmers grow is used by the beverage distilling industry to make alcohol for war purposes. Hundreds of millions of gallons are required every year for smokeless powder, medical supplies, chemical warfare materials, shatterproof glass, lacquer for camouflaging equipment, fuel to propel torpedoes and in the making of critically needed

synthetic rubber. But, Hank, the grain used in distilling this alcohol is not thrown away. It is processed and comes back to the farm again in the form of distillers' dried grains or dried solubles which you use for dairy feeds, hog supplements and poultry mashes. This year alone it is estimated 388,000 tons. of these much needed feed stuffs will be produced by the distillers.

Informal programs will be given in the afternoon of each day by various AWVS and school groups.

Each evening at eight o'clock there will be a musical program planned by Mesdames George M. Slocum, Fred Zeder and Abram Vanderzee, which s as follows:

Monday, Aug. 23-Mrs. Frank W.

Goldie will open the fair by singing The Star Spangled Banner follow by a program of patriotic music, sung by a chorus of 12 boys from the Naval armory trained by Mrs. Goldie. Tuesday, Aug. 24 - Miss Vera Richardson, assisted by two young ladies in colonial costumes, will play early American folk music, by candlelight, on the clavichord. As a contrast, later in the evening they will change to eighteenth century costumes and sing the lovely English ballads that were sung in Williamshospitalization because he knew he found their solace. ### BETHANY SCHOOL

Bethany Christian Day school was founded by Bethany Lutheran church in 1889. The fall term, which begins on Wednesday, Sept. 6, marks the fifty-fourth year of its existence. The new school, 11475 East Outer Drive at Chatsworth, was dedicated in June, 1942. The aim of the school is to give a thorough training in the elementary school subjects from the first grade through junior high, combining this training with a Christian philosophy of life. Any inquiries concerning admission to the school may be addressed to the principal, Walter H. Matthes, 5767 Balfour avenue. Telephone Tuxedo 1-3392.

# Wishful Thinking Won't Destroy Tokyo

# It'll take men, material—and YOUR money!

Before we can knock the Japanese to their knees, you and everyone of us are going to have to put at least 10% of our pay into War Bonds. Not somebody else, but you and me—NOW!

Because all-out war takes money. You can't buy Victory at the dime store. If you think so, take a look at what a 2,000-plane raid\* takes in men, money, and materials:

- Value of planes participating, \$600 million
- Cost of fuel consumed, \$11 million

- Cost of bombs dropped, \$12 million
- Total men involved on ground, 240,000
- Total men involved in air, 12,000
- Probable losses in airmen killed or captured, 400
- Probable losses in planes, 79

Total cost—Everybody all-out for Victory and everybody putting at least 10% of pay every pay day into War Bonds!

Destroying the military heart of Japan is definitely worth it. Are you saving your 10%?

### DO YOU KNOW?

When you buy WAR BONDS, you're saving, not giving! Series E WAR BONDS are worth 33% percent more in 10 years! You get back \$4 for every \$3 you

invest!

These BONDS, when held to maturity (10 years), yield 2.9 percent per year on your investment, compounded semiannually!

Joining a Pay Roll Savings Plan makes saving easy! Joining your bank's Victory Club (it works like any Thrift or Christmas Club) is a convenient way to save for War Bonds for those who aren't members of a Pay Roll Savings Plan.

You can have enough money to do a lot of things you'd like to do, and to buy the many things you'll need after the war is over, if you save enough in War Bonds every pay day NOW!

You can start buying WAR BONDS by buying War Scamps for as little as 10 cents.

\*Based on British raids on Cologne and Essen as given in INS news report.
