The Community Suffers Great Loss

The untimely passing of the City of Grosse Pointe's beloved and highly respected mayor, Mason P. Rumney, is a saddening blow to his community, his associates and his friends.

Successful alike in business and as mayor of the City, Mr. Rumney endeared himself to all by his straight-forward fairness, tolerance, kindness and consideration.

One of the best known men on the river, he was affectionately and democratically known as "Mase" on the piers, in the cook's galley or in the cabins.

With wide business and social affiliations, Mr. Rumney was distinguished for his activity in clubs and organizations. Modesty many times prevented full public knowledge of his many benefactions. No matter how busy Mr. Rumney was.

he always had time to sponsor or take part in anything of a patriotic nature. The loss of a man of the character and stature of Mason P. Rumney is most deeply felt and regretted.

TARAWA VETERAN FONDLY HANDLES BLOOD PLASMA Singers Are Wanted

MARINE Pfc. Charles Pentecost, of Lakepointe, fondly pats the case containing blood plasma at the mobile blood bank which was stationed at St. Clare's school last Saturday. He claims that four blood transfusions gave him "another start in life" after he had been injured in the battle of Tarawa. Holding the case is Mrs. Frank Buck of 851 Pemberton, who was in charge of the volunteer group of donor's aides at the blood bank, and looking on is Capt. William H. Horwitz of Rechester, N. Y., a member of the army medical corps, who supervised the activities at the unit Saturday.

Let's make this the KNOCKOUT PUNCH!

Buy an extra war bond

On the battle fronts, our men are putting every last ounce of effort into the grim job of ending the war at the earliest possible moment. We at home can do no less.

YOUR fighting can take the form of war bonds. Every extra bond you buy is an added blow against the Axis. Every dollar you put into the Fourth War Loan Drive is one more weapon in a mighty arsenal to overwhelm the enemy and bring a decision sooner.

In this crucial battle, let's concentrate everything we have. Let's make this the knockout punch. In the words of our fighting men, let's "pour it on" to hurry the day of Victory!

YOUR INCOME TAX PROBLEM IN MARCH 1944

This coming March the problem of preparing an accurate income tax return is complicated by the necessity for considering the years 1942, 1943 and 1944.

The Wage Earner's tax problem has not been solved by Pay-As-You-Go; even though his employer is now withholding his tax, he must file a return for 1943 by March 15, 1944. Also, as nearly as can be determined at this writing, he will have to file an estimate of his 1944 taxes on June 15, 1944, and pay half of his 1944 taxes on that date.

Business and Professional Men are confronted with a dual tax and accounting problem. Taxpaying is now a serious and perplexing year round proposition. Estimating business profits, commissions and net returns from income producing property a year in advance, then translating these into terms of tax liability and payments, calls for a combination of sound accounting practice and competent professional tax experience. The day of the curbstone "expert" has passed.

So too, good tax work today cannot be done on a production basis. Each individual still has his own particular tax problems, and his accounting must be tailored to fit

To this task our organization brings the "Know How" acquired from more than 23 years tax and accounting experience. We conduct a tax, accounting and report service for 12 months of the year; our office and facilities, including free consultation service, are available all year round, and thousands of taxpayers have availed themselves of it. We will be glad to discuss your tax problems with you. No obligation.

Pin-up picture for the man who "can't afford" to buy an extra war bond...

TOU'VE HEARD people say: "I can't afford to buy an Y extra War Bond." Perhaps you've said it yourself... without realizing what a ridiculous thing it is to say to men who are dying.

Yet it is ridiculous, when you think about it. Because today, with national income at an all-time record high... with people making more money than ever before...with less and less of things to spend money for...practically every one of us has extra dollars in his pocket.

The very least that you can do is to buy an extra

\$100 War Bond... above and beyond the Bonds you are now buying or had planned to buy. In fact, if you take stock of your resources and check your expenditures, you will probably find that you can buy an extra \$200...or \$300...or even \$500 worth of War Bonds.

Sounds like more than you "can afford"? Well, young soldiers can't afford to die, either...yet they do it when called upon. So is it too much to ask of us that we invest more of our money in War Bonds...the best investment in the world today? Is that too much to ask?

Lets all BACK THE ATTACK!
