

RELEASE PLANS FOR JUNIOR HIGH SCHOOL

Summer Waste Paper Campaign Begins Monday

PROPOSED JUNIOR HIGH SCHOOL BUILDING TO BE SITED AT MACK AVENUE AND EIGHT MILE ROAD

ARTISTS' conception of the new junior high school which will be erected in Grosse Pointe Woods at the corner of Eight Mile road and Mack Avenue. At the far left, classrooms will surround a court facing Vander road. To the rear of the auditorium and library there will be a gymnasium. The building will be a combination of modern and traditional conditions at Mack until such time as a second elementary school is built.

In the near future, the wing in the foreground will house the Woods branch of the public library. To the left of it will be the music studios and gym; outside accommodations will be made for football, tennis and other sports. Temporary plans call for classrooms for the fifth and sixth grades of Mason school; this will alleviate crowded conditions at Mason until such time as a second elementary school is built. The junior high school will ultimately house 900 pupils, most of whom will come from the area of Grosse Pointe Park and Gratiot.

Child For 150 Pounds of Paper

The boys' and girls of Grosse Pointe will be out on one of the biggest waste paper drives since the first campaign started several years ago. The goal which each will try to reach will be a free baseball ticket for a Detroit Tiger game.

POINTE PARAGRAPHS

by THE POINTER
"Rooster will be eaten this week," was the climax written to a complaint to the Farms police by a village matron who asked that something be done about the nearby rooster which was crowing at all hours.

We're wondering who that bus driver was who almost ran a red light last night while watching two young ladies walking down the avenue in their play suits. Tsk, tsk.

Some eighty-six thousand of the Navy's Waves are going in for cake-cutting Monday, July 30, when they celebrate the third anniversary of the founding of the women's reserve. The celebration comes amidst one of the largest recruiting drives in the history of the organization. Two thousand more are needed each month to speed the navy on the victory road to Tokyo. Hail of the navy! (Continued on Page 5.)

REMEMBER?

One Year Ago This Week
After weeks of looking at the cool water of Lake St. Clair, Grosse Pointers took advantage of the lifting of the swimming ban from the municipal park beaches and swarmed to cool themselves in the water. Residents of the Farms and St. Clair Shores began swimming July 21 followed by the City and Shore the next morning. The Park residents had to wait three days before donning swim suits.

Presentation of the Army-Navy "E" award for excellence in war production was made to Verna Machine and Engineering, Monday, July 24, in impressive exercises at (Continued on Page 5.)

The drive will begin next Monday, July 30 and will continue for a limited time only.

Through the cooperation of the Detroit Baseball company, tickets to a Tiger baseball game will be given for each one hundred and fifty pounds of paper collected. The tickets will be good for all games with the exception of holidays and Sundays.

The summer playgrounds sponsored by the Grosse Pointe Board of Education have been designated by Neil Blondell, chairman of Salvage for the Grosse Pointe area, as the receiving depots. The playgrounds and their locations are (1) Trombly, 820 Beaconsfield; (2) Defer, Kercheval at Nottingham; (3) Maire Kercheval at Cadieux; (4) Richard, Kercheval at McKinley; (5) High School, Fisher Road; (6) Mason, 1840 Vernier Road.

The supervisors in charge of the various playgrounds will be on duty as follows: Defer, Trombly, Maire, 9:30 a.m. to 12:30 p.m.; 1:30 p.m. to 4:30 p.m.; 6:15 p.m. to 9:00 p.m. High School, 9:30 a.m. to 12:30 p.m.; 6:15 p.m. to 9:00 p.m. Richard and Mason, 1:30 p.m. to 4:30 p.m.; 6:15 p.m. to 9:00 p.m.

If residents of any of the Grosse Pointe villages have paper, magazines, cardboard, etc., that they would like to have collected, please call the Grosse Pointe Board of Education, N.E. 2000, extension 25. Help some youngster to meet his quota and see a Tiger baseball game.

Enter Through an Open Transom Window

Entering through an open transom window above the front door, thieves escaped from the Grosse Pointe Woods Barbecue early last Sunday morning with \$250 obtained from a cash drawer.

The robbery was discovered at 8 a.m. by the chef who found disorder in the establishment when he opened up Sunday morning. After the manager and owner were notified, Woods police were told that only the money was missing.

Entry was made after 2:30 a.m., Sunday. Monday morning at 2:50 a.m., five men were apparently frightened and dropped the safe they had taken from the Aiger market at Mack and Anita and made off in a speeding car. Police investigation revealed that these men had pried and forced open the front door of the market, had taken the safe from the store and on the way to the car, dropped it in the street.

Miscellaneous papers were the only contents of the safe.

Farms' Resident Pronounced Dead on Admittance Saturday

Henry Barbas, 59, of 128 Mapleton, was pronounced dead from a heart attack last Saturday at Bon Secours hospital after Grosse Pointe Farms firemen and an inhalator failed to revive him when a call for help was sent them earlier in the evening.

Employee Bitten

William Jackson, employed at 181 Merriweather, told Farms police that he was bitten on the leg by a dog whose owner also lived on Merriweather.

The Grosse Pointe Neighborhood Club is running out of the magazines which are a traditional part of the boxes given to selectees at the club. Current editions of pocket size mystery magazines and novels are needed. If you have either of these magazines would you please send them to the Neighborhood Club at 17145 Waterloo?

Repetition

Talk about history repeating itself—George E. Flanders Jr., of 284 Barrington Rd., Grosse Pointe Park, left for Memphis, Tenn., on July 23, for duty in the Naval Air Corps. George is 17 years of age and on the same day 27 years ago his father also 17 years of age, left Detroit for Quantico, Va. to serve in the U. S. Marine Corps.

Boys Denied Driving Privileges After Accident

On July 18, a radiator ornament was reported stolen from his car by H. Kleiman of 1793 Anita but it was in an auto accident in Grosse Pointe Park where a trace of the article was found.

Officers H. Hennig and S. Enders investigated the accident at Trombly and Essex last Thursday and found a fifteen year old driver and a same-aged companion had turned the car over. In addition to this, the officers found the stolen Kleiman ornament in the rear seat.

The automobile, it was learned, had been taken from one of the youths' homes without permission; they were detained by the Park detective bureau for further information. Both boys will be denied driving privileges until they are eighteen.

Another Thief Robbed To Police

Lieutenant Arthur Louwers of the Park police force received a report from Carl Binns of 1115 Balfor road this past week which stated that between July 17 and July 22, \$64 had been taken from an upstairs bedroom and the first floor living room.

The time or method of the entry is not known; the police has this case under investigation.

Now He's Walking

Ruby Carr, told police last Monday that she had been robbed of \$25 from the rear of 493 S. 1st St.

Neighborhood Club Day Campers Stage Wild West Show

To end the summer day camp of the Neighborhood Club this week, the campers are putting on a real Wild West Show, to which everyone is invited and welcome. By an honest to goodness show we mean complete with savage and ceremonial Indians, vivacious can dancers, old mountain square dancers, all American cow girls, and last but not least a true western cowboy's serenade.

Besides the show there will be an exhibit for parents and friends to see, all the articles of handicraft; the campers have made during summer day camp since the beginning in June. So to all you lovers of the good old west, the day campers extend a sincere invitation to their presentation of a Wild West show, Friday, July 27 at 1 o'clock at the Neighborhood Club. Admission free.

Police Find Body of Man in Lake

While Farms Officers S. Allor and E. Boylan were cruising on Lake Shore road Tuesday morning, they noticed a car parked on the street which appeared to be abandoned.

Searching the auto for evidence they found several articles of a man's outer clothing. Investigating further around the property and waters of the Crescent Yacht club, the officers found the floating body of John Russman, 67, of 10512 Mering road.

Identification was made by relatives who believe that the dead man took his own life; he had been suffering from a mental disorder.

Small Blaze

A small fire in the basement of the Farms apartment building at the corner of 1st, fourth and 288th roads, little damage resulted.

Newest Jap Warship

Aboard a U. S. Aircraft Carrier Off Okinawa. — Ensign Clifford L. V. Fluit, 23, USNR, Grosse Pointe, carrier-based Navy torpedo-bomber pilot, flew in a flight of eight Navy bombers which scored four, and probably six, torpedo hits on the Jap battleship Yamato off Kyushu in April.

The Yamato, newest and greatest Jap warship, a light cruiser and eight to 10 destroyers were included in an Imperial Fleet task force which moved out of the Inland Sea to assault the Yank beachheads on Okinawa. Navy planes from Vice Admiral Marc A. Mitschner's famed fast carrier task force intercepted the Japs 50 miles off Kyushu. With torpedoes, bombs, and bullets they sank the Yamato, the cruiser and three destroyers, severely damaged two other destroyers and routed the remainder.

Eight Avenger torpedo-bombers, based on a light carrier of the Independence class, flew to the attack. When they sighted the Yamato, she had been damaged and was making only 12 knots. On her starboard bow was the light cruiser, while a destroyer was well aft on the starboard quarter. That left the starboard side almost unprotected.

One after another the Avengers glided in low to drop their torpedoes. Four of the eight dropped were definitely seen to hit. Two probably hit and two were not observed. The Yamato sank soon afterward.

Partially Relieve Mason Congestion

Knowing that the postwar era will bring an immediate need for additional housing of Grosse Pointe school children, and culminating a year of careful work and research in preliminary planning for two postwar school buildings, the Grosse Pointe board of education has selected the firms of Giffels & Vallet, Inc., and Derrick & Gamber, Architects, to complete plans and specifications for a junior high school building and an elementary school building. Negotiations are now going on between the board of education and the two firms for drawing up of a satisfactory contract.

Park Monies Put in U. S. Bonds

Upon the recommendation of Commissioner Karl Goddard, the Grosse Pointe Park village commission agreed to purchase \$75,000 in U. S. bonds Monday evening. This money is from the surplus funds of the general account and the bonds purchased are the 3 1/2% Certificates of Indebtedness. The money is divided into three parts and will become due April 1, May 1 and June 1, 1946. \$45,000 of the village's sinking fund has also been placed in U. S. bonds, Series G. It was urged that this money be used for the bond purchases for it will not be needed in the next 12 years, said William Johnson, village controller.

List Rules For 1945 Garden Show

On the occasion of the 29th annual flower, fruit and vegetable show (Fourth Victory harvest show) of the Grosse Pointe and Eastern Michigan Horticultural societies, Sept. 8 and 9 at the Neighborhood club, a large section will be devoted to home raising. The exhibits will be as follows: Group 1. Jelly—Class 1, apple, green; class 2, apple, red; class 3, cherry; class 4, plum; class 5, peach; class 6, any other variety. Group 2. Jams—Class 1, blackberry; class 2, peach; class 3, plum; class 4, plum; class 5, green gage; class 6, strawberry; class 7, raspberry; class 8, any other variety. Group 3. Marmalades—Class 1, orange; class 2, quince; class 3, grapefruit; class 4, peach; class 5, pear; class 6, any other variety. Group 4. Preserves—Class 1, cherry; class 2, peach; class 3, plum; class 4, plum; class 5, watermelon rind; class 6, marmalade; class 7, plum; class 8, any other variety. (Continued on Page 5.)

The building will be built so that for two or three years, eight of the 19 classrooms will be used to house elementary school pupils who live in the Grosse Pointe Woods area and the Gratiot area of the school district who are now being compelled to attend school in the lower end or the west end of the school district and by transportation in buses. These elementary school pupils of the fifth and sixth grades in Grosse Pointe Woods and Gratiot and the seventh, eighth and ninth grades now attending the Brownell Junior high school, located in the Grosse Pointe high school building, will share the use of the completed structure.

In addition to the 19 standard classrooms, the building will be provided with three science rooms, two industrial arts rooms, two home arts rooms, a speech room, restrooms, a cafeteria, and a library. (Continued on Page 5.)

Closed for Vacations, July 30, thru August 4. Imperial Cleaners, Mack at Nottingham—Adv.

"WE LEAD, OTHERS FOLLOW"

KNOW THIS BUTTON

Every day more and more little gold buttons — an eagle with spread wings in a circle — are appearing on the lapels of our service men and women. This button is an emblem worn only by those who have been honorably discharged from the armed forces for various reasons.

Only last month, or last year, these same men and women left their jobs, and their homes to serve their country so readily and so honorably. Testimony of a job well done are the victories at Omaha Beach, Sugar Loaf Hill, and Hill 69, Wake Island, and the Battle of the Bulge. Each day more Americans are becoming familiar with this little button as their sons and daughters are released from military service.

Some day all of the men and women will return from the Army, Navy, Marines and Coast Guard, proudly wearing their United States service discharge pins. Memorize that little gold button so that you will not be embarrassed by having to ask "What is that button for?" Everyone should be able to recognize this badge of honor.

Hostess Corps Sees Concrete Evidence of Recent Party

With the last detail of the Millionaires Carnival completed, six Junior and Senior members of the Grosse Pointe Hostess Corps paid Percy Jones Hospital a visit last week and were glad to see that the money raised by the Carnival at the Neighborhood Club on June 9 has contributed to the comfort of the boys. You remember that the object of the party was a music room. That room is now going full swing. Lots of classical records are available for the men who want them along with some popular and semi-popular records, many of which were the direct contributions made at the popular record booth at the party. It was noted with pleasure that even music lessons are given there. The room is thoroughly enjoyed by an ever increasing number of recuperating men.

Batchelor Officer Quarters (Patients) now require some furniture. The Hostess Corps has turned the remaining money over to Mrs. Glenn Anderson, president of the Sunshine Fund, for that purpose. The rooms are compact and when completed will have a large game table in one room and facilities for comfortable reading and relaxing in the other.

MR. AND MRS. Joseph St... Grosse Pointe announce the engagement of their daughter, Virginia to T/Sergt. J. Sterling Price, son of Mrs. Berryman... and the late Mr. Price of Los Angeles, Calif. The bride-elect attended Michigan State college and is a graduate of Grosse Pointe High School.

Announce Birth S-Sergt. and Mrs. George F. Schafer announce the birth of a son, George Edward, on Sunday, July 15, Mrs. Schafer is the former Katherine Kubasta and is making her home with her parents on Yorkshire. Sergeant Schafer is stationed at Hondo army air base in Hondo, Tex., and is the son of the A. P. Schafers on Balfour road. Collectors Club to Meet The next meeting of the Grosse Pointe Collectors club will be held at the home of Hil F. Best at 1215 Nottingham, tomorrow night at nine o'clock.

Facts and Fallacies About Your Timepiece

No watch keeps perfect time. Fine American railroad watches will run from one-half to a full second fast or slow every day, and one of the most expensive watches you can buy — a little number which retails for around \$5,000 — will be off one-eighth of a second every day.

"Don't wind it too tight or you'll break the spring!" That old warning is meaningless today. The strongest man on earth couldn't wind most modern watches hard enough to break the mainspring. Manufacturers have made them "muscle-proof." Tiny watches are just as accurate as big ones when they're properly adjusted, but they can seldom take as much punishment. Watches of the diameter of a dime and the thickness of a half dollar can't be expected to absorb as many hard knocks as a standard railroad-sized turnip.

Watches, like dogs, behave differently for different masters. One which is exceptionally accurate when worn by a sedentary businessman, for example, may become erratic when borrowed by his athletic son or jitterbug daughter. This is because every time you move you change the position of your watch in relation to the earth's magnetic field.

unless the watch is a very cheap one. It's because even the best lubricating oil thickens in cold weather, gets thin in hot weather. Compensatory balance wheels and hair springs manufactured of a new temperature-proof metal alloy have greatly reduced weather errors in timepieces of all kinds.

When you set your watch, turning the hands backward won't hurt it a bit. Only in striking clocks must the hands be moved forward. A smooth descent from 30,000 feet in the sub-stratosphere to sea level won't disturb a good watch one iota—it's been tried—but a jerky drop of one foot may break the balance staff or snap the hairspring. Thus, if you wear a wristwatch, don't bang the table to attract a waiter.

Some people boast they're so full of animal magnetism that watches won't keep time. That's nonsense. Laboratory tests have shown that no one is that much of a live wire. Usually, such persons just forget to set their watches.

Most people know that sudden cold sometimes snaps mainsprings, but many are not aware that thunderstorms are even worse saboteurs. Electrical discharges in the atmosphere during a storm often affect watch movements.

The same watch will keep different time in winter and summer, indoors and out. In zero temperature, the average watch will lose 10 seconds in 24 hours; under a blazing sun it will gain 10. This is not due, as generally believed, to the contraction and expansion of the metal working parts,

but see the wheels go round, perform the operation in an air conditioned room. Otherwise, you may have to pay for a repair job. Infinitesimal particles of dust can clog the works, and if damp air gets into your watch, the moisture will condense later and may cause rust. Rust ruins more watches than all other causes combined.

—From a sign seen in Macy's watch repair department.

WHEN IS V-J DAY?

These Facts from the Army and Navy Are the Latest Indicators

In spite of Okinawa, Iwo Jima, and all the other American victories, Japan still now controls an area and population far larger than the United States, and with many natural resources greater than ours.

Her home islands are industrialized and organized to the last rivet, the last kilowatt of power, the last pair of human hands.

Japan can put in the field over 4,000,000 well-trained, battle-hardened troops, many with ten years of war behind them. Back of these soldiers are more than 70 million civilians on the Jap homefront... ready to fight and die for the cause.

Formidable? Yes... but Japan will be beaten! When? ... Well, that depends.

Are YOU planning to quit your war job, stop your blood donations, slacken your Bond buying, use more gas, have more fun, ease up generally?

Before you do, remember that many a gallant American boy will die at the hands of the Japs. How many?

That's up to YOU!

Here's How You Can Help: Keep Your War Job Keep Buying War Bonds Observe All Wartime Regulations

SERVICE PARADE

With the 3rd Infantry Division in Northern Luzon, P. I. — Bruce D. Allor, son of Mr. and Mrs. L. Allor, 81 Mapleton road, Grosse Pointe Farms, has been promoted from T-5 to corporal. He is a clerk in Battery A of the 121st Field Artillery Battalion which is a part of the veteran

32nd "Red Arrow" Infantry Division.

Corporal Allor entered the army June 20, 1941 received training at Fort Sill, Okla., and embarked for duty in the Pacific in April, 1942. He is entitled to wear the American Defense ribbon, Good Conduct medal, Asiatic-Pacific theatre ribbon, Philippines Liberation medal and the Bronze Arrowhead for participating in the initial landing at Biak.

Corporal Allor was a glass inspector at the Ford Motor company. He attended St. Paul high school and the University of Detroit. He was a member of Ford Local 600 UAW-CIO.

Corporal Allor is one of five brothers in the service. Sergeant Robert Allor is a medic in the Southwest Pacific; Richard and Bernard are in the navy; and Pfc. L. H. Allor fought in Europe.

Lieut. (jg) Donald Nugent, son of Mrs. Blanche Nugent of Maryland avenue, arrived home for a 15-day furlough on July 17 accompanied by his wife, the former Dorothy Everett of Dallas, Tex.

Lieutenant Nugent is expediting and presiding officer in the office of the resident inspector of naval material at Dallas.

His brother, M-Serg. Floyd Nugent, is expected to arrive home within a few weeks from the European theatre. Sergeant Nugent was

a German prisoner of war for hours this spring but was liberated by advancing American troops. He was held captive in a wooden box hole and dedicated to the proposition that all GI's are created equal. We are now ensnared in the heat, rain and mud of the island, testing whether this project of the dough-boys will long endure. We are all together slipping and sliding as we do this, but in a longer sense we cannot cultivate, we cannot navigate, we cannot harrow this ground for these great rains which make this mud here have made it impassable far above the poor power of all but the tanks. It is for us, the infantry, rather to be enslaved here by this mental labor which they who are in charge have thus so freely advanced. It is rather for us to be sickened by the dish of hash set before us that from these cans we took our nourishment, nor no devotion to those cooks, for our stomachs gave an everlasting commotion. The world will little note nor long remember what we build here, but we shall never forget the hash and beans we ate here. Let us resolve that we shall not have sweat in vain; that this outfit shall have 30 days of freedom in the United States by Christmas; that this thought shall not perish from our hopes...

New Orleans, La. — Franklin Walker, whose wife is Mrs. Jane Walker, 211 McKinley street, Grosse Pointe Farms, has been graduated from the officer candidate department of the transportation command school, New Orleans army air base and has been commissioned a second lieutenant in the army of the United States.

Lieutenant Walker was a stevedore and expeditor with the St. Paul's Concord, N. H., and university.

The officer was assigned to duty with the transportation command immediately after receiving his mission. The mission of the transportation corps is to transport officers and war materials to the front lines.

EVERY LOCK HAS ITS KEY

One by one, medical science is finding the keys that unlock the secrets of diseases and infections that for centuries have barred the way to healthy longevity. Insulin, Vitamins, Sulpha Drugs, Penicillin—all were unknown a few short years ago. Today, they are opening up new vistas of health... offering new hope to the afflicted. Prescriptions calling for them, and for other wonder-working drugs of modern medical science and therapy, can be filled at Busch Drugs. Specially, there may be a key for every lock, but in the meantime, each person holds the key to a longer, healthier life—frequent health check-ups by the family physician.

Sunday School Session for July and August
10:30 A. M.
Wednesday Evening Testimonial Meeting 8:00 P. M.
Reading Room open week days 11:00 A. M. to 9:00 P. M. — Sunday 2:30 P. M. to 5:00 P. M.

GROSSE POINTE WOODS PRESBYTERIAN CHURCH

REV. ANDREW F. RAUTH, Minister

10:30 a.m. Worship service. Sermon theme, "A Closed Church." This will be the last service held until Sept. 9, when church services and church school sessions will be resumed. After the worship service on Sunday, there will be a congregational meeting held to transact necessary business concerning the new building which will be built on Mack avenue at Torrey road and Ford Court.
10:30 a.m. The nursery class will meet for small children. The remainder of the church school is not meeting during the summer.

GRACE EVANGELICAL AND REFORMED CHURCH

Lakepoints at Kercheval
WALTER S. PRESS, Minister

The subject of the sermon next Sunday morning at 11:00 a.m. will be "The Function of the Christian in the World." The annual church picnic will be held on Sunday, Aug. 5, at the picnic grounds of Glen Eden Memorial Park, near Farmington.

PEACE LUTHERAN CHURCH

East Warren and Balfour
REV. ENNO G. CLAUS, Pastor
VICAR, MARVIN MARTIN

Two identical services of worship are conducted each Sunday at Peace Lutheran church at 8:00 a.m. and 10:45 a.m. Concluding his series of sermons on the Sacred Decalogue, the Rev. Enno Claus, pastor, will speak on the theme: "Mary and Judas." The sermon on the coming Sunday will present the truths of the Ninth and Tenth Commandments.
Sunday school begins at 9:30 a.m. each Sunday. Bible classes, one for adults, taught by the Rev. G. Claus, and another for young people taught by Vicar Marvin Martin, are conducted during the regular Sunday school session. Friends and guests are welcome.

For the convenience of parents with children under six years of age, a nursery is conducted each Sunday during the 10:45 a.m. service. Parents may leave the little ones in charge of the nursery mothers and attend the service undisturbed.
Daily vacation Bible school at Peace church will conclude its activities for the year tomorrow. The three weeks of Bible study, games,

songfests, talks and handwork projects have been both profitable and enjoyable. The attendance this year has exceeded that of every other year in the number of pupils that were enrolled. A total of 362 came for the entire period of three weeks or for some portion of it.

ST. PAUL'S EVANGELICAL LUTHERAN CHURCH

Jackson School Auditorium
Mariborough and Waverly Aves.
REV. EUGENE POPPEN, Pastor
ROBERT WIETELMAN, Vicar

The summer schedule of services are now in effect. German service at 8:30 a.m. English service at 10:30 a.m. During the summer months special music is furnished by various members of the choir in the form of solos and duets.
We invite all children of this area, who have no Sunday school connection, to attend our classes which are held for all ages. Sunday school begins at 9:30 a.m. Visit our Bible class conducted by Vicar Wietelman, you'll find it very interesting. Bible class starts at 9:30 a.m.
The annual Sunday school picnic will be held at Chandler Park on Friday, July 27 at six o'clock. The luncheon will be in form of a pot-luck affair. Games and races are part of the program.

ply pastor in Hannibal, Mo. He will preach on "Warnings of Christ."
Bethany's main service of divine worship is regularly held each Sunday morning at 10:30. In addition, Bible study classes are also conducted — these at 9:30 and for all

age groups.
The primary - kindergarten department, which starts at 9:30, continues its sessions till the end of the main service. This is for the convenience of parents with small children, so that they can worship

STATE OF MICHIGAN
MUNICIPAL FINANCE COMMISSION
LANSING
NOTICE OF SALE
\$29,000.00
Village of Grosse Pointe Woods, Michigan
Special Assessment Rolls 32 to 37 Sewer and Water Improvement Bonds
Sealed bids for the purchase of Special Assessment bonds of the Village of Grosse Pointe Woods, Michigan, of the face amount of \$29,000.00 will be received by the undersigned at the Clerk's office in the Village of Grosse Pointe Woods, Michigan, until at 8:00 o'clock p.m., Central Standard Time, at which time and place they will be opened and considered by the Village Commission.
Tuesday, August 7, 1945
The bonds shall be dated August 1, 1945, and shall mature serially without option of prior payment \$7,000.00 August 1 each year, 1946 to 1948, both inclusive, and \$8,000.00 August 1, 1949; shall be coupon bonds of the denominations of \$1,000 each; and shall bear interest at a rate, or rates, not exceeding 5% per annum, expressed in multiples of 1/4 of 1%, and said interest shall be payable on February 1, 1946, and semi-annually thereafter on August 1 and February 1. Both principal and interest shall be payable at the Detroit Trust Company.
The bonds shall be awarded to the bidder whose bid produces the lowest interest cost to the Village, after deducting the premium offered, if any. In determining the net interest cost, interest on premium will not be considered as deductible and interest on bonds will be computed from August 7, 1945, to the respective maturity dates.
No proposal for less than all of the bonds will be considered.
In addition to the special assessments levied, the full faith and credit of the Village of Grosse Pointe Woods is pledged for prompt payment of the bonds.
Envelopes containing the bids should be plainly marked "Proposal for Bonds."
A certified check in the amount of 5% of the total par value of the bonds drawn upon an incorporated bank or trust company and payable to the order of the Treasurer of the Village must accompany each bid as a guarantee of good faith on the part of the bidder. No interest shall be allowed on the good faith checks.
Bids shall be conditioned upon the unqualified opinion of Miller, Canfield, Paddock & Stone, approving the legality of the bonds. The cost of such opinion shall be paid by the Village. The purchaser shall pay the cost of printing the bonds.
The right is reserved to reject any and all bids.

5. Exhibits should be in place for judging by 12 o'clock noon on opening day, Saturday, Sept. 8.

Pointe Paragraphs

(Continued from Page One.)
recruits are needed in the hospital corps to help the sick and wounded. In the three years of their life, the Waves have increased in numbers until they now compose 18 per cent of the total naval personnel assigned to shore establishments in the continental United States. They have released 50,500 men for duty afloat or overseas and have taken over about twenty-seven thousand jobs in the naval shore establishment.

that each year many new trees had been planted throughout the village and because of the dry spell that year, many had died... they were asked to be sure and water them each day... Among the new books listed at the Grosse Pointe library was "Stock Market Crash - After," by Fisher... Ronald Colman was starred in his third successful talking picture, "Raffles," in which he made love for the first time to a brunette actress, Kay Francis.

with tall waving palm trees and wild animals. In the center of the swimmers' table was an inviting pool of water at one end on which was a diving board and a young lady poised for a dive. In the water were bathers and even a couple canoeing. A huge pumpkin was nestled in the center of the jack-o-lanterns' table. Surrounding it were smaller pumpkins and witches on broomsticks. The highlight of the snowflakes table was a snow man all white and fluffy accompanied by Christmas trees, bells, Santa in a reindeer sleigh and everything that goes with Christmas.

Henrietta Sutton. Every day camper had all the cake he wanted and none were without ice cream. Indeed, everyone had a very "happy birthday."

the plant, Maryland and Charlevoix. Residents were urged to take heed of the government's plea to can as much as possible. The Pointe canning center, in Grosse Pointe high school, was opened to those who did not have the proper equipment at home.

The majority of ballots sent to the Park village clerk indicated they were in sympathy with Ernest "Tony" Koinis' request to keep his popcorn wagon parked at Bishop and Jefferson.

The third annual tennis tournament started July 31 at Grosse Pointe high school... Coal users were reminded to fill their bins at once in view of the coming shortage... Woods residents were still complaining about chickens being a nuisance on Roslyn and Van Antwerp.

Five Years Ago This Week City Attorney Albert E. Meder declared that additional voting booths would not mean additional votes cast in the forthcoming September election. This was an answer to the Republicans who were asking for a better voting booth in the City. He told them to concentrate on obtaining more registered voters instead of attempting to increase the number of booths.

Wilson of the Wayne county sheriff's office cleared ex-constable Wilson of Gratiot township when he stated that there was nothing unusual about a constable resigning his post and the township board appointing someone to fill the vacancy.

Many donations were being received for the Grosse Pointe Woods Community club which was proposed for Ridgmont and Mack... the "For Rent" column in the Review listed four homes for rent and listed persuasive advantages as "ideal for newly married couples," and "near schools and transportation"... Seven Boy Scouts and their Scoutmaster left on a 10,000-mile tour of the western states.

10 Years Ago This Week Speculation had arisen regarding the allocation of the five billion dollars set aside for relief by the President.

The widening of Kercheval avenue had been expected to start shortly according to advice from the Wayne county road commission. The Edison company's lines were being set back and other preparatory work was in progress. One of the features which had been planned was traffic lights at each of the three corners, set on ornamental standards instead of overhead cables.

The latest in chain letters—was one started by a brewery which ultimately brings the recipient 32 cases of beer and \$19.20 refund on the bottles... so stated John Smith in his NEWS Digest column... George Hilsendeg of Lochmoor boulevard and his sister, Mrs. William Decatur Parsons of New York and Long Island, had left for the Continent where they spent three months traveling in England, Scotland and Paris.

15 Years Ago This Week Residents of Grosse Pointe Park were responding in a most commendable fashion to the urgent request of the village president for comments and expressions of opinion on the proposed "waterfront park." In addition to general park facilities, such as landscape effects, benches and flower beds, a bathing beach and boat dock was proposed for the park. The Villagers avenged themselves in baseball—for the defeat handed them by a Detroit team through the heavy hitting of Cole and Crandall and the coaching of Jerome Van Beeklaere... The citizens of Grosse Pointe village were reminded

Lydia Buhl Encourages Bishop Road Vacation

The Grosse Pointe Park village commission received a letter of approval from Lydia M. Buhl for the vacation of Bishop road south of Jefferson, which was proposed and petitioned for by the members of the Stroh estate.

The commission was told that more information regarding the intentions of the Stroh's to subdivide their estate east of Bishop, will be available at the next meeting in August.

Neighborhood Club N-E-W-S

The week of July 16-20 brought with it a most unusual event, a birthday party, at which each day camper celebrated alike. The day campers were divided into four groups representing the four seasons: Spring, summer, fall, and winter. They were lions, swimmers, jack o'lanterns and snowflakes, respectively. In all activities throughout the week the same grouping was maintained.

Wednesday bright and early the day campers journeyed over to the City park where a splashing time was had by all. Campers swam for an hour and a half, then hiked back to the Neighborhood club playground where they had a cook-out lunch. Children brought whatever they wanted to roast. In spite of the wartime shortages there were many with hot dogs and rolls and marshmallows. The rest of the afternoon was dedicated to handcraft.

Friday was the big day. Everybody, his mother and father, sister, brother, cousin and even grandmother were there to help celebrate the birthday party. The playground was bedecked with clean white tablecloths. The leader of each group was responsible for setting up the centerpiece and place cards for his table. So attractively were the arrangements that Miss Maask decided each table had won and every day camper was rewarded for his energetic efforts with a prize. To explain in detail, the spring or lions table was made up like a jungle

The climax of the party came when the cake and ice cream were served.

To help make the party a success, cakes were contributed by Mrs. Thorenson, Marie Trentenelli, Victoria Keeler and Mary Jane, Ellen Dansbury, Ellen Barbet, Marie Pongracz, Barbara LaBroski and

President of Board of Education Issues His School Report for 1944-45

EDITOR'S NOTE—In the interest of providing the taxpaying public of the community with a full report of the operation of the public schools which concern the families of more than five thousand pupils in the area, The Grosse Pointe Review hereby publishes the annual report of the president of the board of education for the 1944-45 school year, given at the annual meeting June 11.

Subsequent issues will carry the annual report for '44-45 of the school superintendent.

The war is still on and problems are still with us in the school system which stem from that fact. But V-E Day came last month and we are justified in hoping that V-J Day is not too far off. In thinking of the problems of the district in the immediate years ahead I would like to

call attention first to some of the achievements in our district in the rather immediate years just passed.

We have maintained a school system at a very high standard of excellence in spite of the fact that the wealth in taxable property behind each pupil in our schools has dropped from \$36,476 in 1930-31 to \$18,962 in 1945. In other words, we have about one-half as much wealth to support the education of each child as we had five years ago.

Since 1940-41, the year before our entry into the war, our taxable wealth per pupil has dropped from \$20,944 to \$18,962 or a total of \$1,982 while our pupil operating costs of goods and services have risen from \$155.34 to \$195.19 or a total of \$39.85. This is a decrease of taxable wealth per pupil of 9.46 per cent and an increase of per pupil cost about 25 per cent.

The decrease in wealth per pupil during the war years has resulted mainly from a more rapid increase of pupils in membership than from direct losses of assessed valuation. Last year we were compelled to increase the tax rate a small amount because of reduced assessments of \$306,000 resulting from (1) homestead exemptions and (2) the raising of large estates along the lake front.

We have established revised salary schedules and cost of living adjustments that have enabled us to hold and attract good teachers in spite of the competition by the armed forces, industry, other teaching positions and other occupations.

We have bought and paid for during the past six years 64 additional classrooms, shops and laboratories and their equipment, including 38 in Pierce Junior high school, 10 in the Industrial Arts building, 12 in the Mason elementary addition and four in the remodeling of Grosse Pointe high school. These have been largely paid for in the war years.

We have kept a high standard of healthful and sanitary maintenance of our school plant, grounds and equipment.

We have provided also from school taxes the services of a splendid public library with five libraries conveniently located throughout the district and a book wagon to reach the more remote areas. This library service has an outstanding record in service to the reading public in the increase in circulation and in relatively small increase in costs. The service is not only in books, but in a fine library of music and records available to the public in the stimulation of book clubs, discussion groups and hobby opportunities. It is a genuine educational and cultural influence in our community and many taxpayers do not realize that it is part of the school board activity and expense.

We have provided for transportation for almost 1,000 of the approximately five thousand pupils. This has been done because we have not yet school facilities within walking distance of every child. Transportation will increase in 1945-46 but the long time objective, when reached, of schools located near the pupils will greatly reduce this problem.

The tax rates for the past five years has been as follows:

Year	Rate	Debt	Total
1940-41	7.50	2.47	9.97
1941-42	8.51	2.24	10.75
1942-43	8.60	2.15	10.75
1943-44	8.30	2.37	10.87
1944-45	8.70	2.26	10.96

Looking ahead we face:

1. Presumable increase of pupil load.
2. Possible decrease in assessed valuation or at least increase at a lower percentage rate than increase of costs.
3. Necessary building in the eastern end of the district to take care of the school population in that portion of the district.
4. Possible increase in instruction and maintenance costs.
5. Certain increase in debt service to pay for additional school facilities.

We have planned two new buildings — a junior high school and an elementary building. We have architects employed on the plans. We have applied for priorities so that building may proceed.

When we can build we are not sure. But we are at least moving ahead with plans and will be ready.

Whether there will be federal or state aid toward such building we do not know. If there is, we expect to be ready to take advantage of it.

The present state law is such that the costs for building which we undertake will have to be liquidated in five years. There will be no way presently foreseeable, that such a program can be financed without some increased millage of taxes voted favorably by the taxpayers.

We face in the coming few years, it seems to me, in any event, these two alternatives:

1. Increase the tax rate.
2. Curtail educational services.

This community has wanted and supported a superior school system. This has been done within the 15 mill tax limitation. It is the judgment of the board borne out by the facts that we face the time presently when we must have some increase in millage in order to carry on the present high standard school system.

Referring briefly to this past year,

I wish to call attention to the financial progress. We have enjoyed the highest percentage of tax collection in school board history in Grosse Pointe. By the same token our backlog of possible back tax collection is decreasing.

Our bonded debt was reduced this past year \$57,000 by reason of bonds paid off.

Our sinking fund was increased \$115,219.88 to date. It now stands at \$1,455,703.88. Our bonds outstanding are \$3,337,000. Applying the sinking fund to that total, we have a net debt of \$1,915,286.62. Our total net debt reduction for the year is \$172,219.88.

I cannot close this report without expressing the deep appreciation of the board to the office workers, teachers, custodians and administrative staff for their fine service in 1944-45, not alone for the things that they are employed to do but for the very many extra services they have so generously performed for local and national government agencies for the aid of the nation, for the support of the war activities and for the aid and comfort of the needy, both here and abroad.

We have had a most busy year on the board — with 12 regular and eight special meetings. We have spent 67 hours and 50 minutes in session — but that is only part of the time given by board members to the responsibilities of board membership. But the joy of serving this community is found in the increasing evidences of appreciation both from students, faculty, taxpayers and parents. We carry on a great business and a deep responsibility — the education of over five thousand of America's finest youth.

CHARLES A. PARCELLS.

- Postwar School -

(Continued from Page One.)

mental and choral music rooms, a pupil library, two arts and crafts rooms and four special rooms for commercial work, study hall, and similar junior high school activity. There will be two gymnasiums, an auditorium with the capacity of 900 pupils and one of the gymnasiums will be equipped to provide cafeteria service similar to that in the Pierce Junior high school. In addition the building will be erected with facilities for the Grosse Pointe Woods branch of the public library.

The building will be so designed that the elementary school children can carry on their activities in a separate wing from the junior high school pupils. As the enrollment of the junior high and elementary schools of that area increases, the elementary school may be erected on one of the three sites already purchased by the board on Roxbury road, or in the Torrey Woods area, or in the Gratiot area. It is believed that the estimated cost of this building can be kept below a million dollars.

New Kerby School—The firm of Derrick & Gamber will be authorized when proper contracts can be drawn to proceed with completion of plans and specifications for a Kerby elementary school to be located on a school site at Kerby road and Beaupre, owned by the board of education to house the present overflow capacity of the present Kerby school, which has been crowded beyond its capacity for several years and to replace the present and obsolete Kerby school building and to provide for anticipated growth in the Grosse Pointe Farms area following the war. Preliminary plans for this building have also been worked out by Derrick & Gamber during the past year and drawings and sketches have been submitted. They call for a building that will house 450 to 500 pupils with 15 to 16 classrooms, an elementary school library, a small gymnasium or playroom and lunch room for hot lunches. This building will also be planned on a unit basis so that separate units could house different sections, such as the primary section, the intermediate section and the upper elementary grades. When this building has been completed, the board plans to dispose of the present obsolete Kerby school building by sale, or utilization of the plant for other necessary purposes in operating the schools.

It is hoped that the estimates on this building can be kept to approximately three hundred and twenty-five thousand dollars.

These two structures should provide the school district with adequate housing to care for the present congestion and overflow in the east end of the school district so that every elementary school child would have a school within a walking distance neighborhood and also to provide for facilities for anticipated increased expansion and increased enrollment in the school district for some time to come.

Priorities Sought—

Applications for priorities to construct these buildings have been submitted by the board of education to both the Federal Works Agency and to the War Production Board. The application to the FWA has already been considered and assistance from the FWA and priorities have been refused by this body. Negotiations with the WPB for priorities are continuing and the local board of education is making every effort possible to be prepared to get construction on these buildings as soon as it is practical and possible to do so.

Estimates of building costs naturally are considerably higher than those given by the way and the board of education and the community are naturally going to have to be prepared to pay more for these buildings than they have for other buildings housing the same number of pupils in the area. Preliminary estimates of architects indicate that cubic foot cost for

school buildings will be close to 60c per cubic foot as compared with 38c to 40c on school buildings built before the war. In brief, the proposed junior high school building which will be somewhat similar to the present Pierce Junior high school building which cost in 1939 approximately

seven hundred thousand dollars will probably cost in the immediate post-war period closer to a million dollars. While the board of education is acutely aware of this considerable

difference in cost, the congested nature of the school plant and the anticipated growth of school population make it almost imperative to proceed with the building plans.

"My electric water heater helps me around the clock"

AT 8:00 A.M. AT 9:00 A.M.
AT 10:00 A.M. AT 1:00 P.M.
AT 6:00 P.M. AT 10:00 P.M.

"I'll never again be without automatic hot water. It's quite inexpensive—only a few cents a day. (We hadn't known before that Edison has a special low rate for water heaters.) We've been pleasantly surprised, too, to discover that electric water-heating is completely clean—and dependable and trouble-free. In our home hot water flows all day—for washing dishes, laundry, washing and scrubbing, baths, constant washing of faces and hands. It certainly pays to have hot water always on tap... no trips to the basement... no waiting. From my husband's morning shave to late baths, our electric water heater helps us around the clock. We consider it one of the finest services electricity brings us."

Electricity has made the old-fashioned way the wasteful way. The wise man—and the wise woman—finds out about appliances for modern living... how they operate... what they cost.

President of Board of Education Issues His School Report for 1944-45

EDITOR'S NOTE—In the interest of providing the taxpaying public of the community with a full report of the operation of the public schools which concern the families of more than five thousand pupils in the area, The Grosse Pointe Review hereby publishes the annual report of the president of the board of education for the 1944-45 school year, given at the annual meeting June 11.

Subsequent issues will carry the annual report for '44-'45 of the school superintendent.

The war is still on and problems are still with us in the school system which stem from that fact. But V-E Day came last month and we are justified in hoping that V-J Day is not too far off. In thinking of the problems of the district in the immediate years ahead I would like to

call attention first to some of the achievements in our district in the rather immediate years just passed. We have maintained a school system at a very high standard of excellence in spite of the fact that the wealth in taxable property behind each pupil in our schools has dropped from \$36,476 in 1930-31 to \$18,962 in 1945. In other words, we have about one-half as much wealth to support the education of each child as we had five years ago.

Since 1940-41, the year before our entry into the war, our taxable wealth per pupil has dropped from \$30,944 to \$18,962 or a total of \$1,982 while our pupil operating costs of goods and services have risen from \$155.34 to \$195.19 or a total of \$39.85. This is a decrease of taxable wealth per pupil of 9.46 per cent and an increase of per pupil cost about 25 per cent.

The decrease in wealth per pupil during the war years has resulted mainly from a more rapid increase of pupils in membership than from direct losses of assessed valuation. Last year we were compelled to increase the tax rate a small amount because of reduced assessments of \$306,000 resulting from (1) homestead exemptions and (2) the razing of large estates along the lake front. We have established revised salary schedules and cost of living adjustments that have enabled us to hold and attract good teachers in spite of the competition by the armed forces, industry, other teaching positions and other occupations.

We have bought and paid for during the past six years 64 additional classrooms, shops and laboratories and their equipment, including 38 in Pierce Junior high school, 10 in the Industrial Arts building, 12 in the Mason elementary addition and four in the remodeling of Grosse Pointe high school. These have been largely paid for in the war years.

We have kept a high standard of healthful and sanitary maintenance of our school plant, grounds and equipment.

We have provided also from school taxes the services of a splendid public library with five libraries conveniently located throughout the district and a book wagon to reach the more remote areas. This library service has an outstanding record in service to the reading public in the increase in circulation and in relatively small increase in costs. The service is not only in books, but in a fine library of music and records available to the public in the stimulation of book clubs, discussion groups and hobby opportunities. It is a genuine educational and cultural influence in our community and many taxpayers do not realize that it is part of the school board activity and expense.

We have provided for transportation for almost 1,000 of the approximately five thousand pupils. This has been done because we have not yet school facilities within walking distance of every child. Transportation will increase in 1945-46 but the long time objective, when reached, of schools located near the pupils will greatly reduce this problem. The tax rates for the past five years have been as follows:

Year	Operating Rate	Debt	Total
1940 - 41	7.50	2.47	9.97
1941 - 42	8.51	2.24	10.75
1942 - 43	8.60	2.15	10.75
1943 - 44	8.50	2.37	10.87
1944 - 45	8.70	2.26	10.96

- Looking ahead we face:
1. Presumable increase of pupil load.
 2. Possible decrease in assessed valuation or at least increase at a lower percentage rate than increase of costs.
 3. Necessary building in the eastern end of the district to take care of the school population in that portion of the district.
 4. Possible increase in instruction and maintenance costs.
 5. Certain increase in debt service to pay for additional school facilities.

We have planned two new buildings — a junior high school and an elementary building. We have architects employed on the plans. We have applied for priorities so that building may proceed.

When we can build we are not sure. But we are at least moving ahead with plans and will be ready.

Whether there will be federal or state aid toward such building we do not know. If there is, we expect to be ready to take advantage of it.

The present state law is such that the costs for building which we undertake will have to be liquidated in five years. There will be no way presently foreseeable, that such a program can be financed without some increased millage of taxes voted favorably by the taxpayers.

We face in the coming few years, it seems to me, in any event, these two alternatives:

1. Increase the tax rate.
 2. Curtail educational services.
- This community has wanted and supported a superior school system. This has been done within the 15 mill tax limitation. It is the judgment of the board borne out by the facts that we face the time presently when we must have some increase in millage in order to carry on the present high standard school system.

Referring briefly to this past year,

I wish to call attention to the financial progress. We have enjoyed the highest percentage of tax collection in school board history in Grosse Pointe. By the same token our backlog of possible back tax collection is decreasing.

Our bonded debt was reduced this past year \$57,000 by reason of bonds paid off.

Our sinking fund was increased \$115,219.88 to date. It now stands at \$1,455,703.88. Our bonds outstanding are \$3,337,000. Applying the sinking fund to that total, we have a net debt of \$1,915,286.62. Our total net debt reduction for the year is \$172,219.88.

I cannot close this report without expressing the deep appreciation of the board to the office workers, teachers, custodians and administrative staff for their fine service in 1944-45, not alone for the things that they are employed to do but the very many extra services they have so generously performed for local and national government agencies for the aid of the nation, for the support of the war activities and for the aid and comfort of the needy, both here and abroad.

We have had a most busy year on the board — with 12 regular and eight special meetings. We have spent 67 hours and 50 minutes in session — but that is only part of the time given by board members to the responsibilities of board membership. But the joy of serving this community is found in the increasing evidences of appreciation both from students, faculty, taxpayers and parents. We carry on a great business and a deep responsibility — the education of over five thousand of America's finest youth.

CHARLES A. PARCELLS
— Postwar School —
(Continued from Page One.)

mental and choral music rooms, a pupil library, two arts and crafts rooms and four special rooms for commercial work, study hall, and similar junior high school activity. There will be two gymnasiums, an auditorium with the capacity of 500 pupils and one of the gymnasiums will be equipped to provide cafeteria service similar to that in the Pierce Junior high school. In addition the building will be erected with facilities for the Grosse Pointe Woods branch of the public library.

The building will be so designed that the elementary school children can carry on their activities in a separate wing from the junior high school pupils. As the enrollment of the junior high and elementary schools of that area increases, the elementary school may be erected on one of the three sites already purchased by the board on Rosky road, or in the Torrey Woods area or in the Gratiot area. It is believed that the estimated cost of this building can be kept below a million dollars.

Applications for priorities to construct these buildings have been submitted by the board of education to both the Federal Works Agency and to the War Production Board. The application to the FWA has already been considered and assistance from the FWA and priorities have been refused by this body. Negotiations with the WPB for priorities are continuing and the local board of education is making every effort possible to be prepared to get construction on these buildings as soon as it is practical and possible to do so. Estimates of building costs naturally are considerably higher than those shown in the way and the board of education and the community are naturally going to have to be prepared to pay more for these buildings than they have for other buildings housing the same number of pupils in the area. Preliminary estimates of architects indicate that cubic foot cost for

New Kerby School

The firm of Derrick & Gamber will be authorized when proper contracts can be drawn to proceed with completion of plans and specifications for a Kerby elementary school to be located on a school site at Kerby road and Beaupre, owned by the board of education to house the present overflow capacity of the present Kerby school, which has been crowded beyond its capacity for several years and to replace the present and obsolete Kerby school building and to provide for anticipated growth in the Grosse Pointe Farms area following the war. Preliminary plans for this building have also been worked out by Derrick & Gamber during the past year and drawings and sketches have been submitted. They call for a building that will house 450 to 500 pupils with 15 to 16 classrooms, an elementary school library, a small gymnasium or playroom and lunch room for hot lunches. This building will also be planned on a unit basis so that separate units could house different sections, such as the primary section, the intermediate section and the upper elementary grades. When this building has been completed, the board plans to dispose of the present obsolete Kerby school building by sale, or utilization of the plant for other necessary purposes in operating the schools.

It is hoped that the estimates on this building can be kept to approximately three hundred and twenty-five thousand dollars.

These two structures should provide the school district with adequate housing to care for the present congestion and overflow in the east end of the school district so that every elementary school child would have a school within a walking distance neighborhood and also to provide for facilities for anticipated increased expansion and increased enrollment in the school district for some time to come.

Priorities Sought

Applications for priorities to construct these buildings have been submitted by the board of education to both the Federal Works Agency and to the War Production Board. The application to the FWA has already been considered and assistance from the FWA and priorities have been refused by this body. Negotiations with the WPB for priorities are continuing and the local board of education is making every effort possible to be prepared to get construction on these buildings as soon as it is practical and possible to do so. Estimates of building costs naturally are considerably higher than those shown in the way and the board of education and the community are naturally going to have to be prepared to pay more for these buildings than they have for other buildings housing the same number of pupils in the area. Preliminary estimates of architects indicate that cubic foot cost for

school buildings will be close to 60 per cubic foot as compared with 38 to 40c on school buildings built before the war. In brief, the proposed junior high school building which will be somewhat similar to the present Pierce Junior high school building which cost in 1939 approximately

seven hundred thousand dollars will probably cost in the immediate post-war period closer to a million dollars. While the board of education is acutely aware of this considerable difference in cost, the congested nature of the school plant and the anticipated growth of school population make it almost imperative to proceed with the building plans.

Gratiot Township Graded School District to Pay Pupils' Transportation Cost

The people of School District No. 2, Gratiot township, voted at their annual meeting to pay the transportation of high school students, living within this district, to public high schools.

made during the Christmas vacation. The second payment to be made on or before June 20th.

Each student must get a certified copy of their attendance from their teacher before payment is made. This is presented to the Secretary of the Board of Education of Gratiot Township for payment.

Report of Annual Meeting of School District No. 2, Gratiot Township

The annual meeting of School District No. 2 Gratiot Township, County of Wayne, State of Michigan, was held July 9, 1945 in the Beacon school. The following members were present: Mrs. Edith McClelland, president; Mrs. Margaret Medley, treasurer; Mr. Edward Eppinger, secretary; Mr. Alfred Claire, trustee.

Table with financial data: Paid Principal on Bonds \$10,000.00, Paid Interest on Bonds 625.00, Other Disbursements 30.00, Net Total of Cash Disbursements \$10,655.00, Cash Balance June 30, 1945 2,546.76.

Financial Report July 1, 1944 to June 30, 1945. Cash Balance—June 30, 1944 \$13,283.75, From Current Tax Collection 23,961.11, From Delinquent Tax Collection 2,858.79.

Secretary's Summary of Bank Balances. General Fund \$18,966.56, Building and Site Fund 3,139.75, Debt Retirement Fund 2,546.76.

General Fund — Budget Expenditures. General Control (Administration) \$ 1,821.36, Instruction 33,139.92, Auxiliary and Co-ordinate Activities 33.18.

It was moved by Mrs. Medley and supported by Mr. William A. Aldrich to accept the secretary's report. Motion carried.

Building and Site Fund Receipts. Cash Balance on Hand June 30, 1944 \$ 3,139.75, NO OTHER RECEIPTS, Total Disbursements Including Balance \$67,544.56.

Edward A. Eppinger, Secretary, School District No. 2, Gratiot Township, Wayne County, Michigan. Published As Provided in Part 2, Chapter 5, Section 22 of the General School Laws of Michigan.

What about finding new ways of serving bologna or sausage... when you can get them? Try adding cut-up bits of bologna to serve with creamed macaroni. Put the mixture into a casserole dish, cover with crumbs, and bake.

Standing near the curb... one of those fellows from the railway service... besides covered with a poster. It shows a soldier walking and saying 'I walk a mile for a (brand of cigarette). Scrawled under it in crayon... "So would I!"

Sweet 17-year-old waiting at bus stop... also two soldiers wearing overseas ribbons. They tease her... "Hello, Mary"... "Oh, Susie"... but she gives them the "cold soldier."

WESTERN MOVIE TOPS BILL FOR SHORES THEATRE

A story adapted from the best-seller serial which appeared in the Saturday Evening Post will be the main feature of the Shores theatre next Sunday, Monday and Tuesday. "Tall in the Saddle" stars popular **John Wayne** and **Ella Raines** in a story of the west. John, the cowboy, comes into a new town prepared to become foreman on a huge ranch. When he arrives there, he learns that the owner of the ranch had been killed and not wishing to become involved in a situation of which he knows nothing about, hires out for work with a ranch of which **Miss Raines** is manager.

After several escapades in which John is nearly shot, he uncovers a mystery in which the local judge is connected with a group of men who are trying to swindle the heiress of the dead rancher out of her property. After a wild ride through beautiful western terrain and valleys, John, accused of murder, proves to the law enforcing officers the crookedness of the judge and his gang and that he himself is sole heir of the ranch—he was the nephew of the dead owner.

American Legion Auxiliary

MORALE, that magic word which means the difference between defeat and victory in modern war is a special concern of the American Legion Auxiliary, according to Mrs. Gladys Craig, membership chairman for our local unit.

The Auxiliary is working to strengthen the morale of America as an important part of the nation's defensive preparations she said, pointing out that women have a deciding part to play in maintaining the spirit of the nation: "Our mighty navy and our army need a united people behind them, determined that our freedom and democracy shall endure."

We realize how much of the responsibility of that spirit rests upon a great woman's patriotic organization such as the American Legion Auxiliary. At this time, we are endeavoring to build up our strength so that we may better carry this responsibility. We want every eligible woman to come into our ranks and aid us in our activities. We believe that in the Auxiliary they can serve more effectively than anywhere else.

The Auxiliary needs them and America needs them as active members during this most critical time in the history of our nation.

Unit members are urged to mail their dues for 1946 at once to Gladys Craig, 3057 Lakeview, so that the new president will be given a paid-up membership list. If you wish to join our unit, call Mrs. Craig and she will gladly mail you an application blank.

One tablespoonful of used fat will make vaccine for 73 men.

City Police Investigate Attempted Break-in of Store

City police are investigating the attempted robbery of the S. S. Kresge store on Kercheval avenue which was made early last Friday morning. Preliminary reports reveal that the lock of the large grill door had been smashed and the second door partially broken.

WAC MOVIE HAS DRAMA, LAUGHS AT THE COLONY

Coming to the Colony Friday and Saturday is one of the first really good pictures about the **Woman's Army Corps** since its beginning early in the war. The movie does not limit itself to the enlisted personnel but follows the characters through officer's candidate school to give both sides of the WAC life.

Starring **Lana Turner** and **Laraine Day**, in "Keep Your Powder Dry," they are two Wacs who overcome obstacles in their basic training in Iowa and in officers' training later on. Lana is a wealthy girl who enters the Wac to inherit over a half a million dollars; she keeps this a secret but it is later found out by

Laraine who, as a daughter of an army officer, tries to do her best to force Lana out of the corps and into disgrace. She says that it is for the corps' own good — but in the end Lana turns out to be conscientious in her duties to her country, and refuses to leave the corps. She graduates as a second lieutenant and happily leaves for an overseas assignment with Laraine at her side — her true friend won over because of her loyalty and good-soldier qualities.

Car Stolen From Tavern, Found at Rear of Church

A car, stolen from the rear of a Kercheval avenue tavern on July 21 was returned to its owner, **Karl Kuenzel** of 415 Marlborough, two days later when it was found by Detroit police parked in the rear of a church at Coplin and Vernor highway.

The car was reported to be in the same condition as when it was stolen even the keys were left in it.

VETERANEWS

From the Office of Veterans' Affairs

Recognizing the need for rehabilitation assistance for men discharged from the military service, the War Relocation Authority in the fall of 1944 invited the co-operation of the Michigan state hospital commission, the Michigan society of psychiatry and neurology, the Michigan society for mental hygiene, the state board for vocational rehabilitation and the state bureau of social security in a program de-

signed to set up an out-patient service to meet this need.

The co-operation requested was readily secured and plans were made for the establishment of 10 clinics where discharged servicemen and women needing adjustment might go for examination and treatment. These centers are located in various sections of the state in order that travel to and from them might be minimized.

The program attempts to make available without cost to every Michigan veteran in need of mental therapy the assistance required in readjustment to his rightful place in the community.

These clinics are now actively in operation. Located at Ann Arbor, at Harper hospital, Detroit; at Kalamazoo, Flint, Grand Rapids, Lansing, Traverse City, Newberry and Saginaw with consultations at irregular intervals at Ionia, the clinics are staffed largely by doctors from the state hospitals. Detroit is an exception to this general rule, the work there being done by psychiatrists in private practice. Michigan psychiatrists who staff these clinics have volunteered their services, working long hours to give this assistance to Michigan's veterans.

Referrals to Clinics—

Referrals may be made by local counselors, by the Red Cross, by social agencies in the community, or the veteran may apply in person. Appointments must, however, be made in advance of consultations. When a referral is made, a social worker is assigned to prepare a history of the case in advance of examination so that the psychiatrist may have all available information without losing time asking the patient for it.

The MOVA provides a clinic secretary for each center who makes appointments, keeps records, assists the doctors and works closely with the counseling centers in the area served by the clinic. At the OVA in Lansing is a chief of out-patient services who co-ordinates the work of the various clinics and makes periodic visits to each.

The clinic program of the MOVA is financed from a special veterans' reserve fund set up by the legislature and released by the state administrative board. A sum of \$42,000 has been allocated for this purpose.

So pressing is the need for additional psychiatrists and psychiatric aides that funds have been made available to give special training to 10 doctors and to 50 psychiatric aides. In return for this training, they will agree to serve in the program for at least a year after the completion of their courses.

Sydney J. Allen, national service officer of the DAV, spoke on National Service Life Insurance before a group of counselors at Wyandotte last Tuesday. He is an authority on the subject and will gladly answer

any letters from veterans on the subject. His address is Room 104, Veterans Administration Facility, Dearborn, Mich.

A Berkley council of Veterans' Affairs was organized during the past week. Plans are underway to open a counseling center in Berkley soon.
