you are called upon next Monday to go to the polls for a special election concerned with proposed zoning changes. The facts in the case are these:

A minority group, consisting mainly of residents Jiving in the environs of the village park and Bournemouth on one side and Hunting and the Detroit city limits on the other side, petitioned the commission to re-zone frontage on Mack avenue, originally designated for business property. Split by two factions, the commission has laid the question in the laps of the voters.

Although the minority group now claims that the Make Rounds of settion was assumed to have been completely residential by them when they bought lots and built their homes, it was known to be otherwise by subdivision promoters and village planners, plus the thousands of other home owners who bought lots in the village and established residence

To change potentially profitable taxable business property into residential sites is definitely not keeping faith with these thousands who have likewise invested in the village, acting upon the assumption that the original ransacked last Saturday between 5 and 9 p.m., but according to an investory taken by the family, the third or third or

An already over-crowded school con village of Grosse Pointe Woods would be further ba ened if the area were made residential. School authorities and anuary's Gra are already casting arxious eyes in the direction of the biles. Woods, which pote tially offers the largest school population area of the future.

If the zoning ordinance is changed the potential tax Governor Kelly and Capt. Donald particularly in the field of protection both day time and evening classes and residential property owners of the village. For, with impending growth in the village, the costs of operation of the government, police and fire protection and conduct of other village services will similarly advance.

Litigation costly for the village to fight, even if no damages were allowed in court, may also arise if the zoning ordinance is changed.

Altogether it seems that the best interests of all of by the Woods citizens before casting the east side of Mack avenue tross the village are being put at stake by the zealous efforts of a minority group who have apparently selfish designs on their section of the village.

And, in the light of the foregoing, it would seem unwise to change the current zoning ordinance.

"WE LEAD, OTHERS FOLLOW"

IT'S BETTER TO HAVE BEEN.

Local curbstone strategists who scoffed at the activities of the OCD as "unnecessary waste of time, money and effort" during the war emergency, deserve a little review of the facts.

Receipt this week of a Certificate of Merit signed by the governor of Michigan and state OCD director prompts such a recital. The FBI and the war department considered Detroit a

"Target for Tonight" any day or night. Hundreds of special ing year, agents were stationed in this area dating from Pearl Harbor. The entire metropolitan area was ringed by radar, and airplane interceptor and fighter cover was within minutes from the city and on constant alert for combat upon any report of an

unidentified plane approaching this area. Many local buildings were rendered virtually bombproof upon recommendation from high government circles, at costs ranging well into the six cipher figure.

Japanese bomb-carrying balloons fell in Michigan, as close

to Detroit as Plymouth. Fortunately Detroit (and Grosse Pointe could well have been included) did not receive more than the threat of an attack. If it had, those same local scoffers would have been the first to criticize over not being prepared. The above facts more than vindicate the judgment of those who saw to it that Grosse

Pointe was alerted. The local OCD, its director, the air raid wardens, fire wardens, block wardens, etc., are to be congratulated!

Attention Taxpayers Grosse Pointe Woods

Did You Know That The Proposed Change in the Zoning Ordinance

That it will wipe \$500,000 of potential taxable property ls? (Figures estimated by Councilman Paul Rowe). The prez erty will not pay taxes on something that they can never use, and you can't build a house on a 20 foot lot. YOU will have to pay the taxes which they are now paying.

Did you know that the petition for this change was signed by only about half a hundred of the some EIGHT THOUSAND residents of Grosse Pointe Woods? Can the rest of us afford to pay for the doubtful benefits to be enjoyed by so few?

Do YOU Think it is to the Best Interests of ALL the Village?

Did you know that some of these owners bought their business frontage twenty years ago, paid their taxes faithfully to the Village all these years. Would YOU deprive them of the use of their property now?

Finally, and probably most important, did you know that if this change in the Zoning Ordinance is passed, the Village will face many long and costly damage suits?

YOU Mr. Taxpayer Will Have To PAY THE BILL!

Average Veteran at U. of M. Is 24, Served 32 Months

The average veteran at the University of Michigan is 241/2 years old, served 32 months in the armed services and was overseas 26 months.

This was disclosed by a statistical survey of the university's 2,093 vetterans (2.056 men and 37 women) The survey has just been completed for the Veterans Service Bureau of the university by the statistical service of the registrar's office.

The survey also shows that 71 per cent of the male veterans served in the army, with 21 per cent in the navy, and 3.5 per cent in the marines. The remaining 4.5 per cent were in the coast guard, auxiliary services, or with foreign armies or navies. Among the women veterans, 51 per cent were in the army, 27 per cent in the navy with the other 22 per cent divided among the marines. coast guard, and auxiliary services.

As to rank, first lieutenants predominated among the veterans who served in the army, with privates next most numerous, and privates first class third in number, Among the former navy personnel, ordinary seamen top the list by a wide margin with lieutenants (jg), a poor second. Among the marine veterans, privates first class dominate the group. And the ex-coast guardsmen are the same as the navy men since most of them served as ordinary sea-

5. That the owners of these business lots have no vested rights to erect business structures in this area because none have as yet been crected and that these owners are subject to any ordinances the village may

6. That it will depreciate the value of the homes in this area if business buildings are erected.

7. That the residents of other sections of the village should not be too concerned if the residents of the south end of the village want to keep their immediate surroundings strictly residential because it will not injure the balance of the village.

8. That the matter of taxes is not pertinent because when a municipality collects extra taxes it must expand the additional amount for Opposing Change-

"Those who oppose this proposed amendment give the following reasome for doing so:

1. That this property was originally subdivided as business frontage, some of it before the village incorporated, this was recogni when the zoning ordinance was acted in 1940 and the residence the area were aware of this site tion when they purchased the property and therefore, it should a

4. That it is unfair to the owners of the business lots in this area who have invested in them because the present values of \$75 to \$120 per front foot will drop to \$15 per front foot if changed to residential prop-

5. That because these lots are generally only 20 feet wide, they are impractical for residential purposes and that it would be an especial hardship to the owners of a single lot who could not build without acquiring another lot.

6. That it will hurt the tax income of the village because:

A. Business property can be assessed higher for the same area; also personal taxes can be levied upon the stock and fixtures in a business establishment.

B. If this frontage on Mack avenue is prohibited to residential only, very few people will care to build a home on a main highway such as Mack avenue and that for this reason the lots will ultimately revert to

the state for non-payment of taxes. 7. That the residents of the south portion of the village are unduly concerned about these business structures and that they will not be objectionable because the present zoning ordinance prohibits all busi-

French Women to Take Fashion Load

The French women will regain their artistry in make-up is the opinion of Helena Rubinstein, whose return from France this week with new ideas on scientific perfumery stirred one of the top notes in fashion interest.

At present, she said, France is poor in materials, and inferior dyes for cosmetics contributed to the altered look of French women, often commented on by travelers. Generally, she said, French women deserve the admiration of the world,

Abdul doesn't know that a straw too many can break the camel's back. And many people don't know that one appliance too many on a circuit is the cause of that troublesome blown fuse. Many people are escustomed to inadequate wiring. But overloaded circuits are not your only handicap to home happiness if you have inadequate wiring. It means, too, improper distribution of outlets-not having the electric reaster where you want it because there's no outlet convenient, or it means that Dad sen't use that electric shaver where he weats it. Don't think "there's always reem for one more." Don't be like Abdul. Adequate wiring means a home for you "as good as new"-good enough to use every new appliance you'll want in your home. And, of course, if your plans for temerrow include a brand-new home, adequate wiring is an "A-1" item to check in plans and specifications.

This is one of a series of advertisements prepared in cooperation with the Electrical Association of Detroit in the interest of insuring adequate wiring for every home in this area. Be sure your home is properly wired. When you are planning a new home, for wiring recommendations, call:

The March of Dimes, he said, is the same drive to fight the dread disease, poliomyelitis, which has been carried on for many years under the direction of the National Foundation for Infantile Paralysis, founded by our late President, Franklin D. Roosevelt. It was he who symbolized our continuing crusade. Mr. Larned said, and he to whose memory this year's appeal shall be dedicated.

It is and always has been the aim of the National Foundation for Infantile Paralysis to make sure that no victim of the disease goes untreated regardless of his financial status, his age, race, color or creed. It is the purpose of the National Foundation for Infantile Paralysis to explore any new means of treatment which may be found, and to further scientific research into the causes of infantile paralysis so that we may some day find a means of prevention and a cure for this crippling menace to our children.

At the same time, he said, I feel it my duty to point out that it was the National Foundation for Infantile Paralysis which has provided the funds for medical and scientific evaluation of the work of Sister Kenny and it was the National Foundation who provided the mean for the introduction and teaching q her technique throughout the na kion. The Wayne county chapte has used a part of its funds sind that time to make it possible for doctors, nurses and physical therad the Kenny technique and to practic it in all Detroit hospitals where th victims of this disease have bee treated. On The Zoning Ordinance Change Election Monday, Jan. 14

DON'T deprive yourself of the convenience of reputable shops and stores easily accessible to your homes, right in the heart of your own village.

DON'T rob your village of taxable business frontage, for if you do, your own taxes will be raised.

DON'T break faith with the investment which many of your present fellow resident-taxpayers have made in your village.

DON'T involve your village in thousands of dollars worth of litigation which will probably result if the zoning is changed.

The Little Theatre, Inc., is a year old this month. One of the three incorporators of this non-profit corporation was Mrs. Bruce Proctor, wife of Dr. Bruce Proctor, 31 Radnor Circle, Grosse Pointe.

The Little Theatre is now affiliated with The International Institute of Metropolitan Detroit, Inc. "The Little Minister," Barrie's famous comedy, will be presented by the Little Theatre Jan. 24, 26, 26 in the International Institute playhouse, 2431 E. Grand Boulevard. The play is being staged under the direction of John F. Carrico, founder of The Little Theatre. Tickets are now on sale at the Institute, at Grinnell's or at the Downtown Record Shop in the Dime Bank building.

Catholic Theatre Plans Storm' As Next Production

"Storm," a fascinating dramatization of Mary Todd Lincoln's life, written by Edith Mirick, will be staged by the Catholic Theatre of Detroit on Feb. 14, 15 and 16 at the Art Institute auditorium.

"Storm" unfolds the life of the Great Emancipator's wife from the time of their courtship in Springfield, through the fatal days of the assination, to Mary Todd Lincoln's final return to Springfield. It is a play about Mary Todd Lincoln with a new story to tell-a kindly and truthful picture of one of history's most interesting First Ladies; and the portrait of Abe Lincoln is a new one, as a husband and a secondary character of the play.

Television industry's \$20,000,000 nvestment for research will provide 350,000 new jobs.

Wedded Bliss Finds Answer Pros and cons of marriage had two further arguments this week in fact and theory.

In Salt Lake City a court granted Russell Matthew Bishop, a sailor, a divorce after he had explained that he had had only two letters from his parents in the community to attend wife in nine months overseas. The first said she didn't love him; the second asked for a divorce. Refreshments and a social time

In Boston theory found another contribution from Dr. L.
