Dethmers Rules Late Registrants Do Not Rate Vote

The 30 residents of Grosse Pointe City who delayed their registration for the general election next Tuesday until after Oct. 16, official closing day, have one chance left to enable them to procure a ballot, according to a ruling by Attorney General John R. Dethmers at Lansing.

POINTE PARAGRAPHS

A former member of 64th Field Artillery Battalion of the veteran 25th Infantry (Tropic Lightning Division of General Eichelberger's Eighth Army, now occupying the Kobe Base area of Japan, S/Sgt. Raymond H. Westrick Jr., son of Mr. Raymond Westrick of 2118 Lancaster ave., Grosse Pointe, has left for the United States to be discharged under the Army's redeployment program.

A second ruling, however, opens the way for those late-comers to secure a ballot in that it provides that under certain conditions persons not registered by Oct. 16 can appear before the election board at Grosse Pointe City offices on election day between 7 a. m. and 8 p. m. and make sworn statements.

HAD ASKED FOR RULING
The opinion of the attorney general was sent to Mr. Neff and to Albert E. Meder, attorney for the city, who had asked for a ruling so that there would be no question about the validity of the vote Nov. 5 as respects registration.

Mr. Dethmers gave as his opinion that "registration may occur on election day if any person whose name is not registered shall offer and claim the right to vote on Nov. 5 and shall under oath state that he is a resident of the precinct and has resided in it 30 days next preceding such election, designating particularly the place of his residence, that he

Rotarians Are Hosts Between Santas

Ventriloquist...and...Cartoonist

Christmas came before Halloween for fifty young ones from Detroit's Protestant Children's home and Vincent's Orphanage, as members of the Grosse Pointe Rotary Club staged a Halloween party Monday at the Whittier Hotel. Each little miss was given candy and gifts which part of the group can be seen in the top photo. Lower left, Jerry McSafely, an argument to versatile ventriloquist Wayne Medina, Sergeant in the Safety Division of the Detroit Police Department, who also presented Jerry's cousin Pinocchio, Fernelius toured the European theatre entertaining soldiers during the war. On the right, cartoonist Carl Larson is shown with Mayor President William Moir, drawing one of the caricatures of club members and guests, which were presented to the visitors. Ralph Henderson was chairman of the day's program.

Night Prowler Steals Wallets from Bedrooms

A mysterious "cat burglar" who has been doing a fairly flourishing business in Grosse Pointe Woods and Shores is being sought by police.

The second story sneak thief who works his trade in the early hours of the morning while his victims lie sleeping has gotten away with at least \$175 in two of his four burglaries.

His biggest haul was at the home of Alvin Macauley, president of the Packard Motor Car Co., 735 Lake Shore road, in the Shores.

WINDOW UNLOCKED
The quiet, working burglar managed to enter the home through an unlocked window after midnight and while the family were sleeping, made his way to Mr. Macauley's bedroom and stole his wallet containing \$100.

That was last Saturday. Apparently encouraged by his success, the burglar then entered the home of Stephen DuBrul at 900 Sunningdale in the Woods. In a bedroom there he took approximately \$75 from Mr. DuBrul's wallet.

An earlier attempt to enter the home of Wendell Goddard at 350 Provincial in the Woods was foiled when the "cat burglar" found no windows unlocked or easily opened and had put a ladder up to a second floor bedroom.

While attempting to remove the bedroom screen, the burglar aroused Mr. Goddard, who got only a fleeting glimpse of the silhouette as the thief slid down the ladder and fled.

Park Council Urges Defeat of Tax Rebate

Park Commissioners refused a request for an appropriation of one cent per capita for promotion of the Sales tax amendment (Proposition No. 2) and rebating one-third of the state sales tax to the municipalities for schools.

The request came from Mayor Welch of Grand Rapids, publicity chairman of a state committee supporting a "Yes" vote on No. 2.

APPROVES STATEMENT
At the same time the Commission approved, with amendments, a statement opposing the sales tax amendment as prepared by Everett Lane, City Manager of Grosse Pointe Park.

It Is the Duty of American Citizens to Vote!

Citizens who have not made up their mind for whom they are going to vote in the general election next Tuesday, Nov. 5, have only too short a time left to study all the issues thoroughly and to check the records and associations of all the candidates.

Good citizens make the business of good government a year-round duty by keeping abreast of current affairs, principally through the press, and not limiting their interest to a few days or a few weeks prior to voting day.

Both Republicans and Democrats predict a heavy vote on Tuesday despite the fact that this is a so-called off-year election when voters are generally apathetic.

Besides the partisan nature of the votes for various offices, many electors will be drawn to the polls by the constitutional amendments and propositions being balloted upon. Any proposal to increase taxes or to decrease taxes always acts as a spur to lackadaisical citizens who might otherwise shirk their duty and fail to vote.

This election is of considerable interest with a United States Senator and 17 Congressmen to elect in Michigan, besides the state ticket and a member of the State Supreme Court.

Control of the United States Congress is at stake in the election throughout the country and Republican quarters look to Michigan to elect additional Republicans.

Whether or not their optimism is justified will be known Tuesday. One factor which cannot be gauged too accurately is the vote of the returned veterans. They will form a large percentage of the first time voters and they are more inclined to make their own decision without considering the party allegiance of their father or relatives.

Citizens would do well to remember that it is only a short time since a tyrant in Europe arose to threaten our right to a free vote. This thought alone should bring electors to the polls.

"If I had been governor this last year, I can tell you that we would not have had a general motors strike lasting 114 days. That strike could have been settled within a few days had Michigan's labor mediation program not been scrapped."

"You don't get anywhere by running to Washington on those things. We have the brains and the good-will to work out our own problems of that kind. I know Michigan labor and management, and I know the right approach can keep them at peace, and producing the goods we all need today for a stable prosperity."

Police Seek 'Cat Burglar'

(Continued from Page 1)

From evidence in the Chief's possession it is known that the burglar returned to the Evans home, rang the side and back door bells and then broke a rear living room window to enter the house.

He found the rings on a chiffonier where Mrs. Evans had left them when she went out of town. The thief is described as being about 27 years old, white, 5 foot 7 or 8 inches, good looking with dark hair and wearing a dark blue suit and dark felt hat.

Chief Louwers suggests that householders watch for a man of this description acting suspiciously.

MEA Urges Voters to Pass Sales Tax Amendment, No. 2

The State of Michigan can well afford to help schools and local government through Proposal No. 2 (sales tax amendment), in the opinion of Earl H. Babcock, superintendent of Grand Haven schools, and chairman of the Michigan Education Association Legislation Commission.

"The state treasury had a surplus and balances of more than \$138,000,000 at the end of the fiscal year, June 30, 1946, according to the published statements of the state auditor general and other figures verified at his office," said Babcock.

"This is more money than the state's total collection from the sales and use taxes during the past fiscal year. Returning some of this sales tax money might avoid further increases in local taxation."

NEED \$104,500,000 "Surveys by the State Department of Public Instruction and the M.E.A. have established the need for at least \$104,500,000 of state aid annually for schools," he said.

"During the past four years, the State of Michigan has increased its surplus and balances by more than \$100,000,000."

OTHER BALANCES "There is a surplus of \$21,532,356 which has not been earmarked," reminded Mr. Babcock. "The auditor general's report describes certain other balances as 'funds restricted by the legislature for definite purposes, such as: — the \$50,000,000 in the Veterans' Trust Fund, the \$11,453,489.05 in the State Highway Fund, the \$27,881,094.15 in appropriation balances for uncompleted buildings and improvements, and the \$14,447,000.00 in the State Treasury."

Printing Trades War Against Communism

The resolution termed Communism "repugnant to our ideals and way of life."

Phone Service Speeded to Northern Resorts

The Michigan Bell Telephone Company announced the completion of a \$150,000 project to speed up long distance service to and from state's northern resort areas. It is the largest project of its kind this year. As a result of the new construction, the number of through long distance circuits between Detroit, Grand Rapids, and Chicago on the south and the tourist areas of the north are increased from 50 to 67. In addition, 9 more circuits are opened between Standish and West Branch.

Dear Sir: We of St. Paul Lutheran Church sincerely appreciate the fine publicity which your newspaper carried during our recent Diamond Jubilee Celebration. Your newspaper is read by many of our members who appreciate the cooperation which you have been giving in publicizing our program of activities. Very truly yours, George J. Grewenow, Pastor For the Jubilee Committee

Dear Sir: When the results of the past season's food planting program were reviewed at the last meeting of the Grosse Pointe Victory Garden Council, on Oct. 15, it was found that the interest in the planting of interest in many war time projects, the vital need to continue to grow vegetables was well supported. One hundred eighty-eight families again planted gardens on four community plots in the Grosse Pointe municipalities, besides the unnumbered others who raised food in their own back yards.

Your continued willingness to publish in the Grosse Pointe Review not only the material we have sent you but many related articles, and to comment editorially on the food situation, has been a most important factor in keeping the community interested in this very necessary program. We wish to express our sincere thanks to you. We shall not know until next spring what plans to make for the future, but we feel sure that, if the necessity continues and land is still available, the people of Grosse Pointe will again do their best to help provide sufficient food for all. Sincerely yours, Christine Edwards, Secretary.

Engineer Appeals to Voters to Support Airport Proposals

Leroy C. Smith, County Highway Engineer and Airport Manager, stated today that Detroit and Wayne County will lose \$5,000,000 under the Federal Aid Airport Development Act, unless the electorate votes for the development of the Detroit Wayne Major Airport and approves Proposition Nos. 4 and 5 at the Nov. 5 election.

County Proposition No. 4 is the question of authorizing a bond issue of \$5,000,000 for the development of the Detroit-Wayne Major Airport.

County Proposition No. 5 is an increase in the tax limitation of 40c on \$1,000 of assessed valuation of all property in the County to provide funds for the development of the Airport and for the retirement of bonds issued for that purpose.

Mr. Smith stated that it would be impossible to acquire any other airport site in time to participate in the Federal Aid Airport Development Program.

Propositions Nos. 4 and 5 are approved by the electorate of Wayne County on Nov. 5, this metropolitan area will continue to lag behind the rest of the country in airport development, thereby losing valuable aviation industry that would normally locate here.

The land for the development

of the Detroit-Wayne Major Airport, totaling over 2,300 acres, has been acquired by Wayne County and the Civil Aeronautics Authority has indicated in its studies of this area, that the Detroit-Wayne Major Airport site is satisfactory to commercially serve Detroit and Wayne County.

The site of the Detroit-Wayne Major Airport, Smith continued is closer, in traveling time, to the center of population in Detroit (21 minutes to the Fisher Building), than the airports in Chicago, Cleveland, New York or any other comparable municipal areas are to their centers of population.

The Detroit-Wayne Airport can be developed into a major airport at a lower cost than any other site studied and will occasion less damage and nuisance to the surrounding private property and residents, Smith said.

It seems to Mr. Smith continued, good business sense for the voters of Wayne County to vote for the development of the Detroit-Wayne Major Airport now, when they can get \$5,000,000 on a matching basis from the Federal Government rather than defeat these issues and forfeit all chance for participation in the Federal Aid Airport Development Program.

Mr. Smith requested all interested parties in airport development for Detroit and Wayne County to unite in urging the electorate to Vote YES on County Propositions Nos. 4 and 5, thereby assuring the air traveling public and commercial aviation of convenient and adequate facilities necessary to modern aviation and air commerce.

The development of a major airport to serve this metropolitan area has been a political football long enough, and County Propositions Nos. 4 and 5 will enable the voters of Wayne County to state emphatically at the forthcoming election that they do want an airport appropriate to Detroit and Wayne County needs and also to provide funds necessary for its development.

Rabaut Addresses Junior Engineers

Congressman Louis C. Rabaut, Democrat of Grosse Pointe, spoke before the Detroit Junior Section of the American Society of Mechanical Engineers, at the Rankham Memorial.

Mr. Rabaut had been invited to appear at the opening meeting of the 1946-47 season of the Society, and spoke on "Activities of Congress."

He referred to his own experience as chairman of the subcommittee on appropriations when he told the group of the difficulties in cutting the funds of the various agencies.

In particular, Rabaut mentioned his own warning to the Departments under his jurisdiction: "The cost of operating the Government must be reduced."

Rabaut did not minimize the necessity for certain projects during the postwar period, but he reiterated his stand on the need for economy.

Radio Station Outlines Plans for Community

Following is a condensed outline of the proposed public service for Grosse Pointe Community radio station WFTE as set forth by the president of the Grosse Pointe Broadcasting Corp., Lorenzo Gentile, in a hearing before the Federal Communication Commission.

Mr. Gentile appeared before the FCC to support his application for a radio license for the station.

His program, in part, is as follows:

The applicant, with the cooperation of the Board of Education, has a complete set-up for a Board of Education workshop type program. The applicant will devote one hour a day to the Board of Education and parochial schools.

The applicant's Sunday schedule provides time each Sunday for the churches of the Grosse Pointe area, including Episcopal, Catholic, Methodist, Presbyterian, Baptist and Christian Scientist.

The applicant proposes a complete public safety service in cooperation with the Metropolitan Club of Grosse Pointe, made up of the members of the Police, Fire and Municipal Departments of that area.

Once a week the applicant will present one of the police chiefs in interviews and talks on safety and crime prevention. Also, once a week one of the fire chiefs will be presented with a program on fire prevention.

At least three fifteen-minute periods per day will be devoted to news.

ROUND TABLE
The applicant has set aside one hour every Sunday afternoon for a "round table discussion" with prominent officials and citizens of the community taking part in any of the current issues.

The Grosse Pointe community has one of the finest educational systems in the country because there is an active parent-teacher group to back it up. The parent-teacher meetings each week are extremely important to all of the citizens of the community, and it is the applicant's intention to make recordings of the important portions of each meeting and re-broadcast them the next day.

With the cooperation of the Grosse Pointe Historical Society, the applicant will present a week-to-week running story of the development and growth of the community.

Through one of the Grosse Pointe civic societies, the applicant will also offer time to the other four communities, Mt. Clair Shores, East Detroit, Roseville and Mt. Clemens for the same purpose.

In summing up, the applicant wishes to state, that as a point of interest, the five communities that make up Grosse Pointe, namely, the City of Grosse Pointe, Grosse Pointe Park, the Village of Grosse Pointe Farms, the Village of Grosse Pointe Woods and Grosse Pointe Shores, are all non-political in nature.

All public offices in this community are honorary and affiliated with no political party. Although the public officials are elected through democratic processes, they serve without pay, for the betterment of this community.

Veteran Postman is Given Honor

Back on his mail route on Rivard, University and Lakeland which he has served for nearly 30 years, Charles L. Rawlings, veteran Grosse Pointe postman has been receiving congratulations from residents along his route.

Over the week-end Rawlings, 5, of 8478 Pennsylvania, took time out to trek to New York City. He was presented with the fifth annual James J. Hoey Medal by the New York Catholic Inter-racial Council.

Awards are made by the New York group to the member of each race who, in the Council's opinion, has done most in the last year to further racial justice.

Rawlings, a Negro, was honored because of his work as president and one of the Catholic Inter-racial Council of Detroit.

Honored with Rawlings was Richard Reid of New York, editor of "The Catholic News."

Upon learning of the honor bestowed on Rawlings who works out of the Kercheval Postoffice branch, Edward Cardinal Mooney telegraphed congratulations to the Detroit. Rawling's wife, Edith, accom-

panied him to the East for the occasion.

Rawlings will observe his thirtieth year as a mail carrier Christmas Eve.

RADIO NEWS AND VIEWS

By JIM HENRY

Detroit had its first live television last week when WDDT (Detroit News-WWJ) pulled a surprise premiere with eleven hours of telecasting.

With an unprecedented publicity splash of front page stories, editorials, columns, sport shots, and photo spreads, the Detroit News definitely established itself as another "first."

Local radio now expected the ABC announcement of Detroit television plans to put sparks under the heels of WWJ and News executives—they had a slogan to protect with a promotion campaign heralding another "first" already well under way.

BEAT ALL FORECASTS

However, the actual launching of live television programs hit the city with the dramatic impact of a top-secret "D" day landing. The telecasting beat all forecasting by at least thirty days. And WWJ scored a quick first round knock-down in the battle for Michigan television supremacy.

Nevertheless, it's only the first sound. It looks like a long battle ahead that may or may not be won by the quick. Technical superiority and programming will be the major factors in deciding the ultimate television outlets and has big future plans for the motor city and its recently purchased local outlet, WKYZ. Then too, CBS might come to Grosse Pointe with an eye on the competition.

This next year will introduce fascinating developments with the public standing to benefit from the competition.

LOCAL AIRINGS

"Quidnunc" introduced to Detroit radio last year by WKYZ-Detroit Free Press is starting in six other cities this fall. Its broadcast every Saturday at 11 a.m. with third, fourth, and fifth grade school children participating.

Dave Zimmerman, Coffee Club Emcee, started his dramatics on the University of Michigan campus acting in plays and leading orchestras. He graduated in 1935 cum laude.

After Admiral Chester Nimitz appeared on the WDDT television premiere, he signed the guest book with an informal, "Admiral, Texas Navy."

A Michigan State College list of alumni in Detroit radio inadvertently omitted the name of one of its most prominent members—George Cushing WJR of the class of 1914.

Michigan's famed Harry Wimer seems destined for another national award with his stellar broadcasting of the army games. Vivacious Kathleen Lrdie, Detroit public school radio supervisor, received a national Award of Merit for outstanding service in the field of educational radio.

Fred Wolf brings local bowling fans action direct from the alleys in his Sunday night broadcasts at 11:30 p.m.

Rollon Parker who played a variety of radio dramatic roles in Detroit has definitely made the grade in New York. He is acting on top net shows including "Crime Photographer," "Backstage Wife," "Front Page Farrell," and "Helen Trent."

"I KNOW YOUR COMMUNITY CHEST DRIVE IS GOING OVER THE TOP."

It is hard to know that the Community Chest is going over the top of the quote?

... that we'd cut down on the services of our Visiting Nurses, our clinics, our hospitals... the care to the aged... the Scouts, the "Y's," the camps, and the recreation and community centers that mean so much to our youth?

It can't happen here! It WON'T happen here. NOT IF YOU'LL DIG DOWN AND GIVE—GIVE GENEROUSLY TO YOUR COMMUNITY CHEST.

Some of the Good Your Community Chest Dollars Do

She doesn't need steel braces for her spirit! Strong and gallant, it shines right through in her smile. And maybe some day the skillful and devoted orthopedic care she's getting from a Red Feather clinic will fix the crippled limbs, too.

"Encore, please" is the USO story in a nutshell. And so the USO is putting on repeat performances again this year for all those wounded veterans still in hospitals who fought to bring us peace, as well as for all our new service men whose job it is to keep the peace.

The sound of this bugle carries across a nation. It's calling all boys—to healthy fun, clean living. It's calling all thoughtful men and women, too, to help build tomorrow's citizenship by today's gift to their Community Chest.

Blue Devils Win by 22-0 Over Highland Park Team

The Grosse Pointe Blue Devils put on their best offensive show of the year while overwhelming the Highland Park High School eleven 22-0 Saturday afternoon at the Grosse Pointe Field. The Pointers scored in each of the last three quarters after being held better than even for the first ten minutes of the game. Isbey accounted for two of the touchdowns on endrumps, and passed to Dan Beck for the other. Flaugh converted twice.

Serra nearly scored on the last play of the first quarter on a beautiful 48-yard spring through the whole Parker team. Cunningham, Parker quarterback, called him on the end line, as the whistle blew.

On the first play of the second period Ed Isbey ran around his own right end for the 6 points. Flaugh, center, was substituted for Champagne and split the up-ights for the extra point.

The Parkers came back strong after the kick of rushing and passing to the Grosse Pointe 9-yard line was first down and goal to go. However, the Pointers line was equal to the occasion stopping three line smashes cold, and the Blue Devils took over after an incomplete pass, on their own 7-yard line.

The Parkers had two more opportunities to score in the second period but again the Grosse Pointe linemen snuffed out the fire. The first one was stopped when Allen intercepted a pass on his own 25-yard line, but the Parkers took over two plays later, also by interception.

With a first down and ten on Grosse Pointe's 34-yard line Ed. Brab's Grosse Pointe RT, stopped the Highland fullback for a two-yard loss. And after an incomplete pass Patterson

The bridesmaids, Dorothy Schoenmeyer and Nadine Thackaberry were gowned similarly to the maid of honor except that their headdresses were of aqua marine plumes.

St. Paul HI-Lights

The teen-agers got together again this week-end which could mean only one thing — more parties and fun for all.

On Friday nite, NANCE STAHL gave a party for some of her feminine friends. The group started out at the Punch and Judy then topped the evening off with cokes and potato chips at Nance's dwelling. Nora Allard, DoDo Backman, Jo Manning, Joanne Athanson, Marty Mauer, Barb Kelly and yours truly were some of the girls who joined in the merry-making.

JO MANNINO played hostess to the same group of girls on Sunday afternoon. After taking in a movie, the lassies raided the Hawthorne House ice-box which provided them with chocolate ice cream and peppermint pie.

Another group caught the early train to Ann Arbor this week-end to take in the Michigan-Illinois contest. Football enthusiasts, Betty Huetteman, Jean Kulka, and Joan Krausman were the lucky "3" for this game.

Even more students thronged to the Youth Club Party this week than last. It seems as if these Friday nite dances are going to be real successes if you can judge by the attendance of the fellows and gals. Some of the huge crowd seen playing ping-pong and dancing were Sally Nacy with Vince Oliver, Margaret Clark, Jack Auckland, Rosemary Wruble, Joan Carrier, Eleanor Allard, John Hutton, Phil McGahey, Betty Sheridan with Alec Moir, Tom Deitz, Nancy Rockwood, Henrietta Sutton, Don Williams, Bob McBride, with Joanne Krehnbrink.

Others gathered by the juke box included Jack Clark, Ed Rotarius, Jane Lodewyk, with Fred Maddock, Chris Weot with Jack Trombley, Ed Quirk, John Poppeirther, Pierre Belanger, Charles Bout, Barb Van Tiem, Bob McLaughlin, Alice Fauser, Peggy Wortley, Phyllis and Eileen Moore, Bob and Bill Sharp and Jim Shane.

The U. of D-Drake game began the evening last Friday for George Heid, Ted Vernier, Ray Huetteman, Don Simpson, Ralph DeGonda, John Fushman, and Albert Gammert.

After the game the girls who were invited to the school for the Youth Club dance then continued on the way to AL CAMPENHOUT'S home for a get-together which climaxed the strictly stag evening.

Another gathering of girls started their evening of fun at the Punch. After the movie the gals trekked over to MARY LOU VERNIER'S home for eats and refreshments. Carol Staub, Nancy Downey, Judy Henneke, and Mary Lou Vernier were included in the list of party-goers.

Can you spot your state ... and how many more?

This page is framed by all 48 states. They're accurate in outline but not in relative size.

Without peeking into Junior's geography book, find your own state first. Then see how many more you can identify. (Answers buried below.) Ten right means you're bright. Twenty makes you an honor student. Thirty qualifies you as Secretary of States!

So what? So the folks who own America's business-managed electric companies live in every one of these states. They include a lot of your friends and neighbors—and probably you, too.

How come? Well, several million Americans have invested their savings in electric companies directly. Some 48 million more have invested indirectly—through savings bank accounts and life insurance policies. Banks and insurance companies, entrusted with your funds, like to put 'em to work in sound utility securities.

As a result, almost every American family has a stake in the self-supporting, tax-paying electric companies that provide most of America's power. Thanks largely to good business management, the price of electricity has come down while other prices have gone way up—and this country enjoys the best electric service in the world.

Vernier School News

OUTDOOR ASSEMBLIES
"Where there's a will there's a way!" That appears to be the spirit at Vernier School as they certainly have taken advantage of the fine, balmy autumn days that we've had.

Because they are handicapped by not having an auditorium or a gym, Mr. Jameson planned to have assemblies in the wide open spaces which surround the school.

After the second most successful paper drive of all ended, when 15,787 pounds of paper had been collected, one of the outdoor assemblies was held. A prize was awarded to each child who brought the most paper for his class. A grand prize was awarded to the building winner. Cheers were given, songs were sung. A fine spirit prevailed and these words could be heard among the children. "Let's have another assembly out here."

There was a bit of excitement at Vernier School when several workmen appeared one day and began measuring and digging behind the school building.

After the first digging one boy said, "Hey kids, come here we're going to have a tunnel!" Right he was, because plans have been made to build a 30 by 40 cinder block building and the tunnel will join it to the present building.

Now another question arises: Will it be finished by second semester? Nobody seems to be able to answer this question at present but everybody is hoping that it will be done.

The hustle and bustle continues and the children are checking each day to see how much progress has been made. "The part I really enjoyed," said one fourth grader, "was the day when all of us kids went out to watch the cement being made by the huge machine."

"Learning from another source besides books" is being put into practice at Vernier. The children will be allowed to go outside from time to time to watch this interesting project.

ONE-WEEK SERVICE—LE. 7404

If You Were There... Wouldn't You

Take him to a show?

To men on isolated island bases, to armies of occupation, to training camps in the United States, goes the morale-building entertainment of USO-Camp Shows, easing the boredom that's the toughest part of peacetime service. Our men are doing a necessary job for us—let's keep the shows going and brighten up the job for them!

Bring him some entertainment?

Upon the earnest plea of General Bradley, personally seconded by General Eisenhower, more than a hundred Veterans' Hospitals have been added to USO "camp shows" hospital circuits. To men suffering the weariness of convalescence, USO entertainment may well make the difference of a quicker recovery. Continuance of this service is vitally needed.

Give him a smile and some cheerful talk?

As long as our boys are filling the ranks of the services, USO Clubs in the United States must be maintained—"a home away from home" for youngsters and older men alike. Here a phonograph record, a homemade cake, a place to write a letter, a kindly word, bring the servicemen into contact with the friendliness of the community.

Alger for Office

Frederick M. Alger, Jr., Republican nominee for Secretary of State, has returned to political battles after serving four and a half years with the Navy. A member of the Naval Reserve, he rose to the rank of Lieutenant Commander before returning to civilian life.

Alger is a grandson of the late Russel Alger, General in the Union Army, Governor of Michigan, Secretary of War under McKinley, and United States Senator. Alger was the personal choice of gubernatorial candidate Kim Sigler for the office of Secretary of State. Sigler chose Alger as his running mate because of his outstanding efforts to secure good government in Michigan.

Long active in Republican circles, the candidate has established himself both in Michigan politics and business.

Township Attorney Disputes 'Double Benefit' Tax Claim

The villages in Grosse Pointe township would not receive a double benefit compared to residents of Grosse Pointe City if the proposed Constitutional amendment (No. 2) carries Nov. 5, Julius L. Berns, attorney for Grosse Pointe Township gave as his opinion.

Mr. Berns contradicted a statement from the Bureau of Governmental Research which said that residents of the villages would get a double benefit, one in the village and one in Grosse Pointe Township if the proposed amendment carries at the election.

The Grosse Pointe Township attorney said that nothing would go to the township as it does not share in intangible taxes.

The Bureau sets forth its objections to the amendment (No. 2) in a statement, part of which is reproduced below:

A proposed constitutional amendment (No. 2) is to be voted upon at the election November 5 providing that one cent of the sales tax one-half cent to cities, villages and townships, half cent to schools. The Bureau believes the proposal is unground in principle, is inimical to the best interests of good government in the state, and could readily be contrary to the best interests of Detroit.

The proposal provides that one-half cent of the sales tax, apportioned on the basis of population, shall be returned to school districts of school census, and one-half cent returned to cities, villages, and townships, apportioned on the basis of population.

A rider provides that additional apportionments shall be continued to schools on the same pro rata basis as at present.

The measure derived its original sponsorship and major support as a drive by the cities to secure a larger share of state receipts. To this provision was added for a return to schools, presumably to widen the basis of appeal and support.

Arguments on which the proposal rest are relatively simple: The state is flush; has experienced a phenomenal growth in receipts.

Local units face heavy demands, are hard pressed. A number of cities are handicapped in raising added money through application of the mill tax limit. Cities have been unsuccessful in attempts to press their demands on the legislature. The amendment would force a sharing of the state's lush revenues.

Against this, the Bureau believes the problem is not this simple, it is not this readily disposed, and may not have the expected result.

Insofar as the Bureau is concerned, at the top of the list stands the fact that whatever he merits claimed for it the proposal violates the fundamental and sound principle that responsibility for raising money should accompany the spending of it.

That principle is bedrock in responsible government. This proposal violates it; a violation for which expediency can be no excuse. The state may flush; cities may be hard pressed, but those facts do not constitute warrant for violating a fundamental principle of responsible, sound government.

Support Is Asked for Judge Sexton

The following statement in support of Judge James H. Sexton for probate judge has been submitted:

"Judge James H. Sexton of the Wayne County Probate Court was born in Toledo, on July 20, 1896. He has been a resident of Wayne County for the last 36 years, his family having moved to Detroit in March, 1910.

Secondly, the Bureau believes that measures of this type, even if meritorious in other respects, should not be frozen into the constitution. The argument is that drastic situations require drastic action. The trouble is that the action so taken is based on conditions as they now exist, and while even drastic situations are sure to change, a constitutional amendment is drastically permanent, imperious to change.

Third, the proposal seriously hamstringing a new state administration before giving it a chance to show what it can do. The fact is undeniable that the state has experienced a tremendous growth in revenues. The Tax Study Commission found that its revenues could be cut. At the same time, the fact also stands that the state has legitimate needs, particularly among its institutions. Cutting through the problem with this sort of broad axe is no likely to be a wise or balanced solution.

Fourth, it should particularly be noted that a bonus proposal is to be voted upon at the same time as this proposal. If both were approved, the state would face a large additional expense while it lost a third of its sales tax revenue. There already is discussion of increased taxes to meet this problem.

Cotter Is Endorsed

William F. Cotter, candidate for probate judge on the non-partisan ballot, is proud of his endorsement by the Detroit Citizens League.

Michigan Mirror

The controversial sales tax diversion amendment, sponsored originally by mayors of Michigan big cities and now supported by public school teachers, is due for a showdown.

On November 5 the registered citizens of Michigan—those who qualify by registration laws to cast a ballot—will make a fateful decision.

This column has presented both sides of the issue pertaining to diversion of one-third of the state sales tax revenue to local governments, plus freezing of a state aid formula into the state constitution that would remove public school appropriations from the legislature.

It is becoming increasingly apparent that public school teachers caught in the postwar inflation, are badly underpaid and are in need of better salaries. Kim Sigler and Murray D. Van Wagoner will not dispute this fact.

It is also becoming more and more apparent that something has got to give way IF Michigan voters authorize a \$270,000,000 bonus for Michigan war veterans and also authorize a bumper state aid formula for schools and cities. How both of these proposals can be put into effect without badly disrupting state services, which for the most part involve people in home-town communities, has been a subject of considerable concern with administrative officials at Lansing.

Democratic nominee Van Wagoner has referred recently to the likelihood of the two proposals being approved by the voters on November 5. This likelihood, he warns, increases the need of Michigan having an experienced state administrator in the governor's chair who knows how to handle the new problem.

State Treasurer D. Hale Brake, who is a nominee for the same office on the G.O.P. ticket, has sharpened his pencils recently and arrived at an estimate that the \$270,000,000 veterans' bonus would require the additional expenditure from the state general fund of approximately \$17,500,000 a year for many years to come. This amount, significantly enough, is a little more than the surplus accrued in the general fund during the 1945-46 fiscal year after all disbursements had been made.

Latest figures from the office of John D. Morrison, State Auditor General, indicate a year's surplus of approximately \$16,300,000. Had the veterans' bonus been in effect during the past year there would have been no surplus at all!

It is generally conceded that the veterans' bonus (Ballot Proposal No. 3) has a much better chance of being approved by the voters than the sales tax diversion amendment (Ballot Proposal No. 2).

We have noted little if any attack on the bonus proposal. We have noted considerable controversy—pro and con—about the projected school aid and big city amendment to secure state money.

Therefore, when the latter issue is being considered on its merits it seems logical to take for granted that the bonus will be approved. Personally, we believe that such is the case. If such is done, you arrive automatically at a point where the much talked about surplus becomes non-existent, as the above reasoning indicates. Retail department store sales are currently running about 50 percent over the same period one year ago—an astonishing fact, but nevertheless quite true. How much longer the postwar inflation boom will continue is anybody's guess, although government economists have been warning in consistent unison that a readjustment or recession is due sometime in 1947 and that we should get ready to see supply and demand more in normal balance.

It was actually not so long ago—during the Frank Murphy administration in fact—when the auditor general's office was buying red ink by the gallon. A treasury deficit grew into the millions. Welfare demands were high, and people could not be left to starve. A deficiency was created by the welfare load, and Republican politicians began to make political capital of the fact that the Democrats were running the state into debt and that it was high time the voters turned to Republicans to do something about it. Sure, it's right on the record. While state payrolls have increased steadily administration after administration, the record also shows unmistakably that state aid to local governments has gone up steadily. It is not easy to paint the other fellow's kettle black. For example,

State payments returned to and benefiting local governments grew from \$89,000,000 in 1937 to \$178,000,000 in 1946—a ten-year period. The total of operating expenditures and reserves (for all purposes) clumb-

ed from \$160,000,000 to \$281,000,000. Read this paragraph again. Who's taking advantage of whom?

Republican Nominee Sigler has declared repeatedly that legislators should get more money; that legislators, as well as school teachers, are "underpaid." Democratic nominee Van Wagoner has his own proposals calling for more state financing, one of them being for veteran homes at low interest rate and at a nominal down payment of around \$500.00 each.

With the veterans' bonus added to the state expenditures, it seems unlikely that the state government will reduce its spending in the next administration. In fact, the chances are that new taxes will be imposed—especially if the sales tax amendment is added to the bonus as additional drains on public funds.

The above facts do not take into consideration other interesting factors. The University of Michigan and Michigan State College, by legislative authorization, have already run up overdrafts (deficiencies, if you please) of around \$6,400,000 to cover cost of veteran educational demands. The state welfare department has a deficiency at present of around \$3,500,000.00, due to higher living costs. On top of this there are other operating deficiencies in sight.

The much talked about surplus at Lansing is largely an illusion, if prudent citizens take into consideration an impending veterans' bonus and existing deficiencies in state funds. The discouraging thing about the entire problem is the indifference of many people. "Lansing has too much money," they say. "Here's a chance to get some of it back home!" We wonder.

Congressman Louis C. Rabaut, Democrat for re-election on Nov. 5, has been stressing the slogan, "Use your head—Use your vote," to numerous groups in his Fourteenth District.

"This is a most important election," Rabaut said, "and therefore I urge you to THINK. Remember, it is fatal to be confused by propaganda at election time. Look at the record and see who has been your friend day in and day out—then VOTE."

"Don't be misled by false claims on billboard posters and the fortunes spent on myriad forms of advertising. No, don't be misled," Rabaut continued. "Eternal vigilance is the price of liberty and your vigil this year is most important. Yes, THINK, recognize your friends, and don't be misled. VOTE—for your own and the nation's welfare."

A Big Vote of Confidence for Senator Vandenberg

We believe that the re-election of Senator Vandenberg presents a challenge to the people of Michigan. The Senator has taken the voice of our State into the highest councils of domestic affairs and into the peace deliberations of the world. He has given our State a prominence and an influence in world events that is unequalled in our history. His re-election becomes a matter of State pride.

We are proud of Arthur H. Vandenberg. We are proud that he comes from Michigan. He should be re-elected to the U. S. Senate with an extra big vote of confidence.

And remember this — no matter how heavy his responsibilities around the world, he has never failed you and our home State when Michigan interests have been at stake in Washington.

Let's get out and vote on Nov. 5. Let's "tell the world" that we support our Senior Senator from Michigan.

This message is published in behalf of 100,000 citizens from all 83 Counties of Michigan who placed Senator Vandenberg in nomination in June.

CHRISTIAN SCIENCE CHURCHES *
 "Evaluating Pessimism" will be the
 subject of the Lesson Sermon in all
 Christian Science Churches throughout
 the world on Sunday, November 3.
 The Golden Text (Psalms 9:16) is:
 "The Lord is known by the judgment
 which he executeth; the wicked is
 snared in the work of his own hands."
 The Bible citation in this
 passage, (Isaiah 55:7): "Let the wicked
 forsake his way, and the unrighteous
 man his thoughts; and let him return
 unto the Lord, and he will have mercy
 upon him; and to our God, for he will
 abundantly pardon."
 Correlative passages to be read from
 the Christian Science textbook, "Science
 and Health with Key to the Scriptures,"
 by Mary Baker Eddy, include the fol-
 lowing (p. 39): "The destruction of
 sin is the divine method of pardon.
 Divine Life destroys death, Truth
 destroys error, and Love destroys hate.
 Being destroyed, sin needs no other
 form of forgiveness."
