## RELIGIOUS EDUCATION WEEK

"Religious Education Week reminds us of the great need for increasing every effort to supply the spiritual requirements of our nation."—J. EDGAR HOOVER.

"The seventeenth annual observance of national Religious Education Week deserves the support of every American."—JOE E. BROWN.

"It is my wish that all Christians take an active and intelligent part in Religious Education Week. . . Religion and confidence in God seems to be what this world needs most at all times."—BOB FELLER.

"Religious Education Week from September 28 to October 5 will afford an excellent opportunity . . . to remember that the only really dependable solution to the evils that afflict the world is to be found in religion. Without the influence of religion the ablest statesmen labor in vain. Without its inspiration the goals of justice and liberty for all are unattainable. Educators and clergymen throughout the world recognize these truths. It is devoutly to be wished that they be brought to the conscience of as large a number as possible."—GOVERNOR THOMAS E. DEWEY.

"Somehow men's minds must be changed, their motives purified, their wills conformed to the will of him who came to teach 'Peace on Earth Good Will Toward Men.' That is the mission and the challenge of Religious Education Week. We must strengthen churches and church schools for their supremely important tasks!"—U. S. COMMISSIONER OF EDUCATION J. W. STUDEBAKER.

"Religious Education Week, to be observed for the seventeenth time this year from September 28 through October 5, gives all of us an excellent opportunity to honor and support the church in its teaching tasks and to renew our efforts in its behalf."—SENATOR ARTHUR CAPPER.

"Religious Education Week, sponsored by the International Council of Religious Education, will serve to focus the attention of parents on the spiritual welfare of their children."—HARVEY S. FIRESTONE, JR.

"I am very happy to endorse the seventeenth annual observance of Religious Education week, sponsored by the International Council of Religious Education."—R. J. THOMAS.

"I ask the leaders in all our communities during Religious Education Week to pay careful attention to the nationwide program sponsored by the International Council of Religious Education. Its program meets a great need which will help our children and youth for a better life in the world of today."—SENATOR CLAUDE PEPPER.

## IT CAN'T BE DONE

Who's worried about high prices?  
You, the consumer, naturally are. And you aren't alone. So are the manufacturers who produce the goods you buy. And so are the retailers who sell them to you.

Retailing in general has held to a consistent policy during postwar price inflation. The policy was developed by the chain systems, and thousands of independents of all kinds and sizes have voluntarily adopted it. It consists of increasing operating economy to the highest possible level, to holding unit profits to the lowest point consistent with sound business practice, and to raising prices only when higher wholesale prices make it unavoidable.

Other innovations are also being used in an attempt to help-pressed consumer. Many food retailers, for instance, are offering plainly-marked, lower priced meats and are featuring alternate foods for buyers who cannot afford Grade A prices. Merchandisers in other lines are performing similar services.

A retail association reports that fewer consumers are blaming stores for high prices than in the past. That is a healthy sign, and shows that the public is learning an important lesson. High prices are the result of many causes, some extremely complex, and to lay the blame on any group or any organization is unjust. It is especially unfair in the case of retailers, who cannot control wholesale prices, and must pay the going rate for their stock of goods. Every intelligent retailer would like to slash his prices now—but it just can't be done.

## NEW NURSING HOME

## Christian Scientists Open New Nursing Home

Christian Scientists in Detroit and Michigan are rejoicing in the opening of the Concord Nursing Home at 528 East Grand Blvd., corner Vernor Highway, Detroit.

The project had its inception more than a year ago when a group of individual Christian Scientists recognized the need for a place where those under Christian Science treatment and needing nursing care could be accommodated in surroundings in keeping with the teachings of their religion.

A committee was formed and trustees were appointed to organize and establish the Concord Nursing Home, which has been incorporated as a non-profit organization under the laws of the State of Michigan.

While not in any way connected with any Christian Science church in Detroit or elsewhere, it is operated by Christian Scientists for the care and benefit of those of their faith needing the special facilities which the home affords. Nurses who are graduates of one of the Christian Science Benevo-

lent Associations are on duty twenty-four hours a day.

The building, formerly a large solid brick, slate-roofed dwelling on the northeast corner of Vernor and East Grand Blvd., has been completely renovated, altered and furnished to accommodate ten to twelve patients. As the need grows and finances permit, additional patients may be accommodated through alterations which will be made when building conditions are favorable.

The entire project has been financed by voluntary contributions. The cost of the building and site, together with the alterations and furnishings so far authorized, approximate \$50,000.00.

The idea back of this activity is to provide an accommodation as nearly like a home environment as possible so as to avoid the atmosphere of an institution. In accordance with this thought, the home has been furnished tastefully with all new furniture and equipment. The grounds are being landscaped in keeping with the setting of the home and will add much beauty to the neighborhood.

## City Sewage Adequate State Officials Find

A proposal to improve sanitary sewage in Grosse Pointe City in the area between Maumee to the lake front was turned down by a special committee of three who studied the issue with stream pollution and state health department officials.

In its report to the council, the committee said that the present system is adequate but recommended that the village should keep a comprehensive report of any sewage complaints of flooded

basements or any irregularity for further study.

The council, in keeping in step with the committee's recommendation, requests all property owners in the aforesaid area to call the clerk's office or the Village police department whenever they have any trouble with their sewage.

As a result of the committee's report, the proposed \$85,000 bond issue to finance the project was dropped.

City Councilmen Chester Carpenter, Gerald Miller and Sidney Morgan comprised the committee.

## Burial Rites Held For H. Green

Final rites were held Tuesday at the William R. Hamilton Funeral Home for Heatley Green who died Saturday at his home 1006 Berkshire. He was 69.

Prominent in Detroit business circles for many years, Mr. Green was president of the Automatic Product Co. and the Bangor Investment Co.

He belonged to the Detroit Club, Country Club of Detroit and Engineering Society of Detroit.

Survivors included his wife, Catherine, a daughter, Catherine, and a son, Andrew H. III.

Burial was at Elmwood Cemetery.

## Mr. District Attorney

Script writer Robert Shaw, age 30, who turns out "Mr. District Attorney" and "Christopher Wells" each week for radio listeners was recently notified that he inherited between \$3,000,000 and \$4,000,000, but he doesn't get it until he is 45 years old. He couldn't have written a better part for himself.

Until he reaches 45, Shaw will have to struggle along on the \$1,500 a week he makes for authoring Mr. D. A. and Christopher Wells plus the 3% interest of his inheritance which is considerably more than most people make a year—or a decade! Figure it out!

## NEW COAT

The Park municipal building will get a new coat of paint beginning next week.

## City Zoning

(Continued from Page 1)

residential district.

3—Parking areas will be increased.

The proposed changes immediately affect builders.

The General Houses Inc., who planned to erect 14 terraces in the Beyer sub-division located on Village lane between Notre Dame and St. Clair.

Representatives of the company appeared in a public hearing held prior to the council meeting to voice their opposition to the change.

"We purchased the property with intentions of building terraces there," said a company spokesman. "If you convert this area into a Class A we stand to lose our investment."

Class A owners are restricted to single dwellings.

The request to convert to Class A came from a group of single residence property owners in the sub-division who feel that the erection of terraces there will reduce the value of their property.

This group was represented by Harry S. Walker, who said, "why should we veteran home owners accept a project that will distract to the beauty of our neighborhood but add to our fire hazards and parking problems just so a group of outside realtors could make some money?"

Another person affected is John Chadwick veteran Grosse Pointe resident who has purchased the property on the northeast corner of Neff and Maumee (next to the village police department) for erection of a nine family multiple dwelling.

Mayor Etting told a representative of Mr. Chadwick who appeared to receive a building permit, that he would have to wait until final action is taken by the zoning committee.

The representative said that Chadwick has invested several thousand dollars on the property which he planned to build nine single family residence at a cost of \$100,000.

The council postponed any action on the plan until Wednesday, October 8 when it will meet and take further action. Meanwhile the zoning committee will study the changes and plans with Mr. Ross.

## Council

(Continued from Page 1)

would be approximately \$600,000. We are advised that the interest rates on these bonds would certainly not exceed 1½% or 2%. If we assume 2% and serial principal payments over 20 years, the total principal and interest would be about \$480,000, or about \$24,000 a year. This on the present assessed valuation would mean about 75¢ per thousand. If the principal payments were made over 25 or 30 years, the total interest would, of course, be more (The interest rate also might be slightly higher) but the annual budget requirement would be materially less.

Third:—It is stated that relief is needed for only about 100 basements. While we admittedly have not the exact figures, we believe that this is a gross understatement and the figure is nearer 800. In addition to the foregoing every new home built in the areas where flooding has occurred will be subjected to the same condition, and as more homes are built, and new areas developed, the hazard of flooding will be increased throughout the whole Village.

## NO REASON

Fourth:—The reflection cast upon the firm of engineers employed by the Village is entirely without reason as this firm has the best of recommendations and are consultants and designers for many other municipalities and for large industrial concerns.

As to the balance of the statement it is largely opinion and any person or group, even though anonymous and unwilling or afraid to disclose his or its identity, has a perfect right to voice an opinion. The Village officials recognize that additional drainage facilities are necessary and will continue their efforts to obtain them. To date we have received no suggestion from the Grosse Pointe Farms Better Government Association except that we resign. We doubt whether such action would speed the construction of new sewers.

## FARMS COUNCIL

Hoodlums At Bay, No Windows Broken

Since the seriousness of their offenses appeared in the Grosse Pointe Review last week, the group of hoodlums who had been terrorizing the communities by hurling bricks threw windows of private homes, have behaved themselves. Pointe police reported no windows broken during the past week.

## Police Find Mary Ann Not Guilty

Little Mary Ann Schlaf, 12, of 1464 Vernier road, is not guilty.

A neighbor reported to Mr. John LeBond, 1388 Vernier road that Mary was the bicycle rider that ran down John, Jr., 4, who was playing on the sidewalk. The boy suffered a cut on his eye that required seven stitches.

Woods police who checked the accident report discovered that the neighbor's story was not accurate.

Eye witnesses told police that the girl was standing by her bike on the sidewalk near 20719 Wicks Lane when Little Johnny came running from Vernier road, but not watching where he was going. He crashed into the bike.

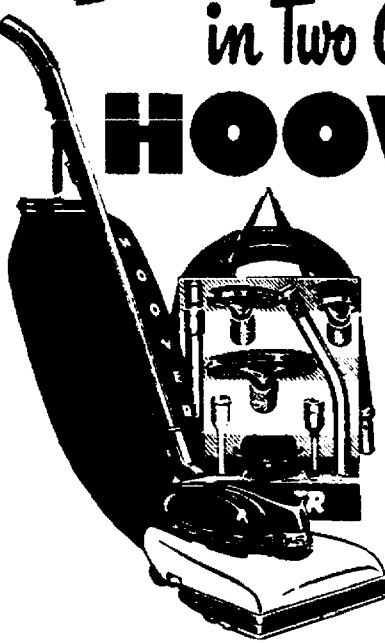

Mary took the boy to his mother who carried him to the family physician.

Would you go to Europe, Japan or Korea? Or would you stay near home? Any man who has had prior service in the Armed Forces may elect to do any of these things if he enlists in the Army now for 3 years or more. He can choose to be assigned directly to duty in Europe or with one of five famous Infantry divisions in the Far East. Or he may choose to be stationed near home for the first full year of his enlistment (where there are vacancies). Men with or without prior service may choose one of the famous combat divisions in Japan or Korea.

Would you select a career in aviation? This you can do, and be guaranteed the training you choose before you enlist! Only requirements beyond regular physical and mental examinations are that you be a high school graduate, or that you are in the Air Force and can qualify. It's today's great opportunity to write your own ticket in the Air Force.

Would you want to learn to fly? If you are single, 20 to 26½, and have had two or more years of college education or the equivalent, you can become an Aviation Cadet with the U. S. Air Force. Nowhere else can you get better training, for nowhere else is aviation advancing as fast or as far as in our own Air Force.

Would you go to a leadership school? If you have qualities of leadership, would you want to develop them to their fullest? U. S. Army Leadership Schools are now selecting like candidates from servicemen to take these valuable courses.

The Army and Air Force are doing everything possible today to help each individual develop along the line that he picks for himself. Army and Air Force training is thorough and take-home pay is better than most civilian jobs. Opportunities for advancement are wide open to every man in uniform. Make your choice today at your U. S. Army and Air Force Recruiting Station.

# Drive-In For Tony Underway

Construction of a \$45,000 drive-in which will feature the pop corn of the famous Tony Koinis began this week.

The building will be erected next to Tony's present sweet shop on Jefferson near Barrington road.

The announcement was made by S. J. Stevens, Tony's representative.

It marks the end of a decade of sentiment and tradition involving Tony's rolling pop corn wagon.

For more than 20 years Tony's wagon on Jefferson avenue, was a landmark of Grosse Pointe.

People liked Tony and his pop corn. This proved Tony's downfall for business became so good that Park officials claimed he created a traffic hazard.

After long and disputed court battles which put Tony's name in newspapers across the nation, the Supreme Court decided in favor of the Park council, by ruling Tony off Jefferson.

Stevens said that the entrance to the drive-in would be from Jefferson with the exit on Barrington.

He said that Tony had obtained all the necessary permits for the building from the Park office and from the Wayne County Road Commission.

As a service to the people in this area, Tony has arranged to have the high curb at the bus stop in front of his store replaced with a shorter and safer one, making it easier for the numerous persons who get on and off of buses at that point.

# Gale Wrecks Wires, Trees In Pointe

The Sunday afternoon gale-rain storm which swept the entire state brought down several trees and wires in Grosse Pointe.

It was reported by Grosse Pointe police who said that no one was injured as a result of the storm and that no other damages or flooded basements were reported.

Though the strong wind tore down wires in all the five Pointe communities, the Woods and the Shores suffered the most.

One wire fell across Vernier road near Lakeshore road forcing police to detour traffic for hours.

In the Woods a 4800 volt wire fell near the home at 1046 Roslyn completely burning a bird house in the yard and endangering other property nearby.

The Shores and Woods fire and police departments stood by in protection at these locations until the Detroit Edison Co. made the necessary repairs.

Other places affected by the gale were:

At Sunnindale near the Lochmoor Club entrance — up-rooted tree was reported.

Trees were also down at 15321 Windmill Pointe drive and 658 Barrington road.

The Edison company repaired a fallen wire at 716 Middlesex, and a wire which landed on the home of Mrs. J. A. Duncan at 1113 Wayburn. No damage was reported.

The only flooded streets reports came from Grosse Pointe City residence in the Kercheval area between Cadieux and St. Clair.

# Park Acts To Curb Noises

The Michigan Construction Co. will extend its efforts to curb disturbances as it tunnels through Kercheval avenue erecting new sewage for Detroit.

The action came as a result of a letter the company received from the Park council requesting that it take some steps to keep construction noises at a minimum.

The council acted in behalf of Park residents in the Kercheval area between Maryland and Beaconsfield, who have complained repeatedly.

The project, which will extend to Audubon, will not be completed until next July.

# Council Considers Appeal For Garage

The Park council is taken under consideration an appeal by William Serra, of Detroit, to build a two-truck garage on a lot on Kercheval between Lakepointe and Maryland to keep produce trucks in.

Mr. Serra's request for a building permit was refused by the Park's building inspector.

# Violators Have Tough Night In City Court

# New Cab Rates For Park Village

According to a ruling passed by the Park council taxi cab rates the village will be twenty five cents for the first quarter mile and five cents for each additional quarter mile or fraction.

This rate, which will be effective October 10, is in accord with other Pointe communities and Detroit cab fares.

# Roy Rogers Saves Day For Pigeons

There is a soft spot in the hearts of approximately 300 Grosse Pointe pigeon fanciers for Roy Rogers, the horse opera star.

It is quite a twist from pigeons to horses but here is the story:

A little more than two weeks ago Pointe fanciers prepared to ship their birds to Lafayette, Indiana for the 12th Annual L. W. Schimmel Memorial Race but when the feathered aggregation arrived at the railroad station no freight car was available. Something had gone amiss with the railroad's schedule.

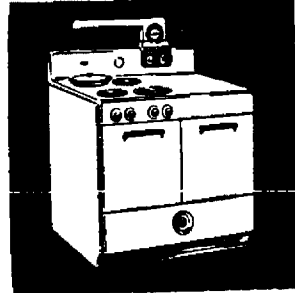

The pigeons were left stranded. However, Roy Rogers heard of the matter and he offered one of his cars that was used to bring his rodeo show to the Olympia for a two-week engagement.

The fanciers accepted the star's generous offer and shipped their birds off in time to compete in the race which is considered one of the most important events of the year by pigeon fanciers.

So you can bet your last dollar that when a Roy Rogers flicker appears at a neighborhood theatre the fanciers will be in their applauding as much as the youngsters.

Hot peppers are seldom grown in gardens, but if you wish to try them the same general cultural methods will suffice.

# Teen Talk

By MEEKY MARIE VAN ZANEN

Little more news this week — yep in just a few more weeks we'll be right back to the old grind of having long columns just filled with news morsels of the gay teen agers life.

Did ya hear about the gay party that took place at the THORPE'S residence last Friday night? No? We'll here it is in slightly abbreviated form.

Gery Rounds, Sharon Ford, Sue Cruikshank, Barb Mann, Helen Plath, Mary Gratzner, Mary Ann Mann and your scribe gathered to whip up an original rendition of BLACK AND BLUE. The girls now have arranged a lovely pantomime along with the words to add spice to FRANKIE LANES oh so popular new hit.

After rehearsals were through Mrs. Thorpe served a lovely fresh fruit salad, potato chips, hot toasted muffins, pepsi cola and chocolate.

Then on Saturday night the same group gave a simply hilarious hay ride at the Magnolia Ridinf Seables. The fun began when the girls met at SHARON FORDS adobe to pack themselves in cars and trek out to the great the horse with their loads of hay.

After gazing neath the stars for an hour food was provided for all along with an evening of dreamy dancing in the clubhouse.

Still the fun continued when SHARON invited the kids back to her house and again food was served.

HAG! 'ALL GIRLS! NO BOYS ADMITTED' was strictly enforced. AL SICKLER'S gal only party on Friday night. Between tossing records on and off the vic the gals sipped cokes and munched potato chips.

The girls in on the fun are Julie Ford, Joyce Giller, Joan Rollings, Joyce Wick, Alice Savage, Joanne Smith, Pat Coffey, Cathie Greig, Mary Stover, Margo Gessler, Nancy Doherty, Joan Van Baeleare, Gerry Jacobsen, Marti Watkins, Gretchen Kleehammer, Lois Holtz, Barb Otto and Nancy Voohtreese.

DICK POLAND also entertained last week end. He chose to give a mixed party at his house, for Doris Diesing, Doug Turnbull, Irene Anschautz, Pinky Brant, Myrna Trodan, Jim Swift, and Jack Smith. The kids wasted away hours dancing singing, and of course enjoying the usual food.

BILL ANDERSON'S house was open to everyone last Saturday night.

Sandwiches cokes, and pepsi's were served, while those enjoying it were Bob Bolo, Norma Neeb, Vince Schoeck, Betsy Waldbot, Bill Pierce, Hill Pierce, Chuck Marcus, Ed Karrer, Dick Mitchell and practically all the rest of the High School.

Next Saturday night there will be a varsity drag, at the girls gym of the high school. YOU ARE INVITED TO ATTEND. Wear your favorite sweater and skirt, and of course varsity sweaters for the boys.

Let's all celebrate the first game of the season by backing up the game and ending off the week-end in fine spirit by attending the dance on Saturday nights.

Whats say kids? Humm?

### "Identify yourself, young man!"

Mrs. Williams couldn't believe that this was the Edison man, come to replace a burned-out fuse. Why, she had reported her electrical trouble only twenty minutes before.

If Mrs. Williams were to visit Edison's Customer Service Switchboard, she'd understand better how such promptness is possible. Here, at the nerve-center of the Edison system, clerks write up incoming requests for service, pass them on a conveyor belt to a control table, where a large illuminated map of the city stands. The requests are sorted geographically, routed on another belt to a staff of dispatchers who are in almost constant touch with servicemen in the field.

With such a system it's no wonder that most customers' calls are relayed to a serviceman in their neighborhood within a matter of minutes.

# Paula Offers Tips On How To Make Good In School

## Paula's Hi-Lites

by PAULA BEAUPRE

Before we start this article, you students who are interested in school only because it means you can play football, or because you can be a cheer leader or play in the school band, had better look the other way because this column deals only with those who are trying to learn something and are willing to put forth a little effort to achieve good grades.

Most students can get good marks. You needn't have an easy teacher or be a quiz kid. It's just that you must know how to study, and there is more to the art of studying than just cramming for exams. Whenever your work falls off, you can very quickly pull up in your classes if you know the cause of your troubles and what to do about it. If you're already in a slump or want to avoid one, these suggestions might work for you.

### WHICH ARE YOUR DANGER POINTS?

1. I am not interested in school.
2. I just don't know how to study.
3. I have no privacy at home.
4. I do not get sufficient play or relaxation.
5. The teachers dislike me.
6. I have not set aside a specific time for study.
7. I have no friends at school.
8. I find it difficult to memorize things.
9. My friends drop in when I'm studying.

### 1. YOU'RE NOT INTERESTED IN SCHOOL.

Are you going to school just because you have to? Or do you have an objective in mind? It's an incentive to your grades if you know that school will bring you closer to your goal. On the other hand, however, you may have abilities that can be developed through some other method than sitting in a classroom. The law and your parents, however, say you have to stay in school. So you fret at the precious waste of time. But is it really time lost? However unduly to future ambition your present courses seem to be, they are teaching you to think. And this world certainly needs teen-agers who know how to think!

### 2. YOU DON'T KNOW HOW TO STUDY.

If you're having a tough time with your homework, it may be that you're not taking notes properly. Listen attentively while you're in class. Get the big point the instructor is trying to put across. Here's where one word in your notebook will do the trick, whereas trying to write word for word will make you lose something else that is being said. Keep your notes on each subject in separate sections of your notebook.

### 3. YOU HAVE NO PRIVACY AT HOME.

If there is one thing that helps study, it's a little private corner—or room for yourself. If you explain to your parents that you need room for books, notes, a small file, perhaps a typewriter — and quiet — they'll arrange something.

### 4. YOU DON'T GET SUFFICIENT RECREATION.

Getting away from your books is important. You've earned the right to relax and have fun. Brush away the cobwebs with a rousing party, some bowling, skating or dancing.

### 5. YOUR TEACHERS DISLIKE YOU.

Perhaps you're imagining this. It's true they dislike the idea of your being unprepared or falling below the rest of the class, but if you discuss your difficulties with them, you'll find them most anxious to help you.

Ask what they think of your work, what suggestions they have for you. Ask them to help clarify anything you don't understand. They get to know you better and any student who is interested in himself gains the interest of the teacher.

Too many students lose ground because they imagine the faculty is not interested. You'll find out that most teachers are human beings. Once you have established friendly relations with them, watch your interest in your work grow.

### 6.—YOU DON'T HAVE A SPECIFIC TIME FOR STUDY.

Arrange a time schedule for yourself. Start after dinner and work on half hour intervals. Take five or ten minutes out for complete relaxation at the end of every half-hour. Your time schedule might look like this:

- 5:30-6:30 Dinner.
- 6:30-7:00 Check your notes.
- 7:00-7:30 Work on Math.
- 7:30-7:40 Just relax — put your feet up!
- 7:40-8:10 Work on English.
- 8:10-8:20 Relax — grab a bite to eat.
- 8:20-8:50 Work on Latin.
- 8:50-9:00 Relax — don't eat any more.
- 9:00-9:30 Polish up your history notes.
- 9:30-9:45 Get material ready for tomorrow.

You can vary this schedule to fit in with your program. The trick is to work along steadily, not save it all up till the night before exams.

### 7. YOU HAVE NO FRIENDS AT SCHOOL.

Feeling alone and out of the picture has caused more than one person to fall down in his studies. If this is what is bothering you, let's look at some of the common reasons.

You're shy — you aren't athletically inclined — you haven't learned how to dance — you have no hobbies. But with a little effort on your part, you can overcome any and all of your difficulties. A smile will go a long way in gaining the friendship of your classmates. There are classes in dancing. If you try, you'll find you can do something about making friends.

### 8. YOU FIND IT HARD TO MEMORIZE.

Everyone finds this tough. But you can whip this obstacle by starting off slowly. Try two facts first. Repeat them over and over until you know you can recall them whenever you want to. The trick is constant practice is looking at your material, writing the stuff on paper, and then hearing yourself talking out loud. Make sure, however, that your facts are related in some way to the big essential of your assignment.

### 9. YOUR FRIENDS INTERRUPT YOU.

Put a stop to it. Let them know in no uncertain terms that you'll be glad to see them any time — except when you're studying.

A short ten-minute session usually turns into a two- or three-hour visit. You'll talk about Sinatra, Crosby, and the girl who had the new hair-do yesterday — but no Math will be done.

Yes, it's tough to do but stick with your resolution. Remember your objective, if you don't want your heart to stand still the next morning for fear that you may be called upon to recite or use the blackboard.

There'll be no more blurs and many more A's if you follow this simple procedure. And school will be much more fun. It always is when you know your work. Haven't you noticed?

### Goes Commercial

Frank Leahy, the nation's No. 1 coach, will team up with Harry Wismer, the nation's No. 1 sports-caster, in a new football program called "Leahy of Notre Dame." Program will be heard 5:15 p.m. Friday, September 26th, over WJR and 5:30 p.m. every Friday thereafter.

### HOT FURNACE

The season's first fire report caused by the overheating of a home was received at the Farms department early this week from Mrs. Jane Tucker, 80 Kerby road. Her furnace blower became too hot. The Fire department took care of the matter with no damages reported.

## A JOB FOR DURANTEE

St. Paul High School seniors had their day Friday afternoon when they initiated the school's freshmen by parading them down the Village Shopping Center. One of the freshmen is shown preparing to carry out a nosey assignment. His classmates are in the background offering notes of encouragement. The parade announced the seniors big dance at the school Friday evening, September 26.

## PROVIDING IT'S A PIGEON

### Pointe Fanciers Don't Mind Getting The Bird

How would you like to give someone the bird. Well there are about 150 persons in Grosse Pointe who will be more than glad to get it—providing the bird is a pigeon.

Pigeon fanciers, these persons get as enthused over preparing their birds for a homing race as the most rabid Brooklyn fan gets over a Dodger ball game.

Typical of this group is Jules Degraeves, of 1348 Lakepointe, who has been a fancier for more than 45 years.

He sleeps, and talks pigeons 24 hours every day, and sometimes he eats them too. For according to Mrs. Degraeves, pigeons make the best soup. And more than often when a bird fails to make the grade as a homing pigeon, it becomes part of Mom's soup recipe.

A native of Belgium, Mr. Degraeves has some birds left that are from the original stock that accompanied him to America more than 35 years ago.

One does not have to spend more than a few minutes with Mr. Degraeves to appreciate the fact that he knows his business about pigeons.

Owner of about two dozen birds, the veteran fancier has built a loft above his garage that is unique and as clean as a little girl's dollhouse.

His prize bird is a seven-year-old World War II veteran, who saw action in the European theatre. This bird was among the 3000 contributed by local fanciers that were cited by the Army and Navy for service during the war.

Mr. Degraeves, highly regarded by his associates, is president of the local chapter of the American Racing Pigeon Club which has more than 22,000 members across the country, organized for the promotion and protection of pigeons. Mr. Degraeves is also president of the Schimmel Memorial Race and an official of numerous other club activities.

Local fanciers are members of the homing clubs in this area which are affiliated with the Detroit Pigeon Club.

The local clubs are The Homing Pigeon Club, 15110 Charlevoix; Gratiot Homing Club, Gratiot at Houston and the Cadillac Club at Cadillac and Wavney.

Local fanciers are members of the homing clubs in this area which are affiliated with the Detroit Pigeon Club.

## St. Paul Alumni Braves Rain to Cheer Team

### By THE BENCH WARMER

ATchoo! Excuse me! School spirit can make you pretty sick if it means staying to the end of the game, come rain or snow.

Before the blinding rains came we managed to see many loyal supporters of St. Paul's. Among the alumni present were several gridiron heroes of the past and scads of fans who haven't forgotten the thrill of a touchdown for the hometown.

George Heigt, Ted Vernier, Ray Heutteman, Ralph Schneider, Betty Sheridan, John Fushman, Paula Beaupre, Dodo Backman, and Art Smith represented the class of '47. Dating back farther than that were Vince Giles, Bob Sauer, Ronnie Marchand, Harriet Furtton, Shirley Williams, Jim Birmingham, Tom Ward, Jane O'Connor, Warren Adams, Bill Reid, Joan Ensor, Gerry Mauer, and Tom Belanger.

Although showers of confetti made the Senior girls invisible from time to time, we managed to see Joan Krausmann, Nancy Schumacher, Myra Backman, Joan LaBelle, Rita Lanigan, Fran Ardito, Sue Burke, Peg Wortley, Elin Kelly, Mary Lou and Pat Thibodeau, Mary Hillebrand, Rosemary Wrubel, Alice Fauser, Betty Heutteman, and Jean Kulka. By the way, five senior girls send orchids to Porky Schoenith for the timely role which was probably the only thing that saved them from pneumonia.

We didn't see all the underclassmen because cheering and game watching were engrossing. Those we did see were Judy Athman, Rita Leithausen, Ann Meathe, Marie Meldrum, Catherine McKillop, Sal Murphy, Joan Schumacher, and Pat Trombley. Yelling and cheering with the

### Waterfront Park Marks Season's End

The summer activities at Grosse Pointe Park's Waterfront Park exceeded those of previous years despite the difficulties encountered with water pollution and periods of inclement weather. 141,000 people passed through the turnstile as compared with 135,000 the previous year. According to an official report very favorable comments were made by many visitors and taxpayers who went out of their way to praise the layout, facilities and leadership. Much credit is given to the new Director of Recreation, Dave Beauvais and his staff for a very safe, interesting and well rounded Park program during the season. No fatal accidents occurred during the season. One guest received a compound leg fracture resulting from a fall from one of the large swings. Other minor accidents were scratches and bruises which were treated at the First Aid Station. The results of this summer's program indicates that the men, women and children of Grosse Pointe Park want more and better recreation facilities, entertainment and activity.

Plans for next summer are now being prepared for an enlarged program. Principally Safe Swimming all summer.

The following is a list of accomplishments which were under the direction of Peter J. Keonig, Park recreation commissioner:

1. Complete re-arrangement of swimming areas under American Red Cross Standards.
2. The high diving dock was completely rebuilt and new steel sheet piling was driven along the face of dock to protect the structure from heavy seas.
3. New cocoa matting was purchased for the top surfacing of the dock; metal pipe standards were constructed for 3 new diving boards and a raft was purchased and placed in the swimming area.
4. Horse shoe courts were constructed north of the tennis courts and Goal-Hi Basketball equipment was provided in the grove.

Program consisted of the following:  
1. 4th of July Program—featuring aquatic stars, daily events and fireworks—6,800 people attending.  
2. 1 Scheduled Swimming Meet—4,200 people attending.  
3. One Tennis Tournament including three exhibitions.  
4. Other aquatic attractions included -- Diving Exhibitions, American Red Cross Life Saving Classes, private swimming lessons, game area swimming, water polo and water basketball.

The season ended with a Sailing Regatta with 15 entries. All boats entered in the race were Park Registered Boats of many classes. Prizes were awarded to winners. Much interest is being shown in this program which resulted in the organization of a sailing club for future regattas and sailing activities at the Park.

### Guild Opens Season

The Dramatic Guild of Detroit will open its season Sunday, October 12, with Luigi Pirandello's drama, "Right You Are! (If You Think You Are)". It was announced by Charles D. Adams, managing director. ### Radio-Television Fair to Feature \$5,000 in Prizes

Large first-day crowds of interested spectators marked the opening of Grinnell's week-long Radio & Television Fair, open to the public from 9:30 a.m. to 8:30 p.m., Monday through Saturday.

Representatives of the Press and Radio were guests of Grinnell's at a press party Monday night from 8:30 to 10:30.

Straight from New York's Radio City comes the piano team of Carlie and Wayne, giving four times daily a demonstration of such perfect co-ordination that they challenge the audience to distinguish between the "live" performance of one and the performance of the other, which is broadcast from a remote location in the store.

### SPECIAL TREAT

Visitors to the Fair will have an opportunity to participate personally in Grinnell's "Television Party," a weekly television program emceed by Dave Zimmerman. They are also invited to have free recordings made of their voices at any time during the week.

# St. Paul Drops Season's Opener To St. Ambrose Eleven 7 to 0

## McFarland Runs 40yds for Score

St. Paul was trounced 7-0 by St. Ambrose last Sunday at Grosse Pointe High field. In this initial appearance of the season St. Paul presented a rather green team with only four regulars from last year's championship line-up.

The two teams battled up and down the field throughout the first half, without either obtaining a definite advantage. The second half started out much the same until late in the third quarter Bob McFarland of the Cavaliers ran back a St. Paul punt by Bob Berg for forty yards to score the first and only touchdown of the game. McFarland ran the extra point over to give St. Ambrose a 7-0 victory.

The Flyers will attempt to gain their first victory next Sunday against St. Philip at 2:30 P.M., Grosse Pointe High field.

Paul DuRocher, captain and backfield ace of St. Paul, aggravated a leg injury in the last quarter and was forced to leave the game. He may be lost for the season.

## PIGSKIN POINTERS EXPLAINED

St. Paul's Coach Eddie Lauer is explaining a few pigskin pointers to big Harry Hammond, 16, veteran tackle who has had two years of varsity experience. St. Paul opened the season Sunday, September 21, against St. Ambrose at Grosse Pointe High School field.

## Boy Magician Fools Woods' Cub Scouts

The Grosse Pointe Woods Cub Scouts began their 1947-48 schedule of activities with a meeting at Mason School Friday.

During the meeting which was attended by new cubs and their parents, Mr. W. Ferguson, cubmaster explained that the entire scout movement is cooperative.

Following the discussion tricky entertainment was provided by Malcolm McColl, 13, son of Dr. and Mrs. M. McColl, 940 N. Oxford. Young Malcolm proved himself a capable magician by performing several tricks that even fooled the front row kibitzers.

The Cub Scouts meet once a week at the home of a cub's parents.

Mr. Ferguson pointed out that in Grosse Pointe Woods there is a golden opportunity for parents to render a real service to their boy and the community by taking an active part in the cub scout movement.
