## SCHOOLS OPEN IN TWO WEEKS

### 10th Annual Field Day Sat. at High School

### Full Day Schedule Starts September 7; Enroll Next Week

#### Metropolitan Program Offers Dance, Field Day for Area's Children

Thousands of youngsters are expected at the Grosse Pointe High School Athletic Field on Saturday, August 26, for the tenth annual Metropolitan Field Club Day, according to Chairman Jack Burnett.

More than a thousand dollars worth of prizes will be awarded to the winners in the many field events and novelty contests scheduled.

A formal flag raising ceremony at 10 a.m. will begin the contestants will be placed into classifications according to their ages from five to 17 years.

All day long a quartet of clowns will amuse the crowds with their antics.

Mike the mischievous monkey will make an appearance. A 1906 model fire engine will be on display all day.

Free ice cream and cokes will be distributed through the courtesy of Coca Cola Company, McDonald and Stroh Companies.

A program of dancing and entertainment has also been arranged by the Metropolitan Club for adults at the Club Eagle, Gratiot at 8 Mile Road, Friday, August 25, beginning at 9 p.m.

Tickets for the dance can be purchased from any Club member or at the box office.

More than 15 valuable prizes will be given away.

First prize include an Admiral television, radio and record player combination. Other awards offered are mixmasters, toasters, clocks and electric razors.

Entrance to the Field Day will require a park card from one of the five Pointe beaches.

James Flannigan is assistant chairman and the 21 competitive events are being handled by Bill Mason and Don Coats. Gatekeepers are Al Martin, Bill Crandel, Art Conlan, Art Charrier, Jack Paisley, Jim Furton, Doug Allor, George LaForest and Al Yakin.

Tom Trombly, Walter Hoyt and Jim Flannigan will maintain the first aid booth.

Lou Baldwin and Fred Deumling have been assigned to headquarters operations.

More than 10,000 bottles of Coca Cola will be distributed by A. Wyffels, E. Boylan, V. Hallberg, B. Berno, W. LaDuke, Joe Harold, Philip Costa, C. Fastender, Harold Zeed.

Color guards will be Walter Hoyt, Harold Zeed and two uniformed policemen.

Prize judges are Bob Hyde and George VanTien.

The Grosse Pointe High School athletic field where the Field Day is being held will be patrolled by City and Farms Police Departments.

Admittance to the program will be a Grosse Pointe swimming or park card.

#### Two Utility Poles Felled In Accidents

A Detroit Edison pole was knocked down and a telephone pole damaged in a freak chain of accidents on Moross road last Thursday.

Edward J. Ewing, Jr., 18, of 18910 Birchcrest, swerved to miss a parked car on Moross road and skidded into a telephone pole.

A few minutes later the tow truck that had been summoned to the location knocked over an Edison pole.

The boom of the truck, which is owned by the Grosse Pointe Garage, struck the pole and sent it toppling to the ground.

Lady Luck was riding with James Machris, of 1128 Lake-Dane, when he received only minor injuries after the engine of the airliner he was a passenger on broke loose over the Rockies near Denver.

The accident occurred at 21,000 feet, the propeller or part of the engine striking the top of the fuselage forward of midsection, tearing a four by eight hole. The plane made an emergency landing 18 minutes later in Denver.

Each afternoon a group of 250 ducks have been coming to Grosse Pointe Park waters. Young and old gather to watch them as they feed near the pier. One of their chief sources of supply is the proprietor of the pop stand who tosses out an ample supply of scraps for the feathered flock.

#### NORTHBOUND UNDER OWN STEAM

A pair of ambitious cyclists left this week on a 225-mile jaunt to upper Michigan. Russell Whittenberg, left, of 284 Fisher, and Charles Floor, right, of 282 Fisher, are on their way to the Lost Lake Woods Club near Alpena. Camping and cooking along the route, the boys' itinerary includes Flint, Saginaw, Bay City, Tawas and Oscoda.

#### Polio Hits 3rd Local Resident

A 35-year old Pointe resident was stricken with polio this week.

The victim, who is married and the father of a four-year-old daughter, was vacationing at a summer resort in Northern Michigan when he was taken sick.

Dr. Davies, Health Commissioner in Grosse Pointe, said that the patient is in an iron lung at Herman Kiefer Hospital.

The total of polio cases in Grosse Pointe now registers three. The other two cases, Dr. Davies reported, were minor and both victims will recover completely.

The Health Commissioner cautioned parents to "keep children away from crowds and to be sure that they wash their hands before eating."

The Detroit Department of Health reported a low of polio in the area. He said there have been 26 cases and 2 deaths for the week ending August 12, in comparison with 56 cases and 5 deaths for the same period ending last year.

So far, 75 per cent of the cases are under 15 years of age.

Polio continues to be low in the nation as a whole, with 975 cases of polio reported for the week ending July 29, as compared with 12,956 cases for the same period in 1949.

#### Open Bids In Sept. For New Schools

Bids will be opened September 22 by the Grosse Pointe Board of Education for the projected new elementary school at Lennox and Harper. The school will be named after Charles A. Poupard and will be situated in the Gratiot section of the Grosse Pointe School District.

Poupard was elected to the first Grosse Pointe Board of Education when the district was consolidated.

He served continuously for 26 years and served several terms as treasurer.

On September 13 bids will be opened for the completion of the new Kerby School.

"When these two schools are constructed, the \$3,000,000 building program approved in the bond issue last year will be completed," L. M. Bartlett, director of pupil personnel in Grosse Pointe, stated.

"We are anxious to complete our building program as soon as possible so that our school system can meet the growing educational needs of the community," Bartlett added.

#### Woods Residents Hold City Charter Hearing

An interested crowd turned out Tuesday night at Mason School to air their views before the Woods Commission on the form of working government they consider desirable in their move to become a city.

The general trend expressed at the meeting, which was under the direction of Harold O. Love, chairman of the Woods Charter Commission, seemed to be a shift to the Council-Manager form of government.

Malcolm Bingay, of Free Press fame, stated at the meeting that government is a business and the Village needs men who are trained in this field.

The task of an administrative official should not be on a part-time basis, Bingay added.

The Council-Manager form of government, as generally endorsed by residents, would call for an elected Council which holds all the city's powers.

In order to have a qualified administrator, the Council would then appoint a full-time administrative official who would be directly responsible to the Council.

The group strongly supported the election of all officials except the manager.

It was suggested at the meeting that provisions be put in the Charter to accommodate a change over to City Manager government, but that the actual switch be made gradually when the Village is ready for it.

Residents favored the Council-Manager plan so that the small governing body collectively would be responsible to the voters for all aspects of City government.

The trend toward adopting this form of government is a step forward, Mayor Alois Ghesquiere said.

"In the Council-Manager form the Council will give the voters what they want as a legislative and policy-making body. The manager is assigned to carrying out the plans," Ghesquiere added.

The mayor will be freed from technical administration and can concentrate on leadership of the Council which shapes the policies of the city.

Love said that the meeting was considered a real success by members of the Charter Commission.

"We sensed what the people are striving for in this change in government," he stated.

The Grosse Pointe Woods City Charter will be placed on the ballot in late October or November.

#### Park Theft Sends Parolee To Prison

Sgt. Richard Meade arrested three thieves Thursday night as they were attempting to steal hub caps from a parked car at Vernor and Lakepointe.

In court Saturday morning before Judge C. Joseph Belanger, George W. Podolin, 22, of 20419 14 Mile Road, admitted that he was a parole violator.

Podolin was turned over to the State Parole Board by Park police from which he will be sent to the Iona State Prison.

Two accomplices in the attempted theft were Louis J. Haddod, 24, of 5468 Connors, and Anthony F. Block, 23, of 852 Baldwin. They were fined \$38 each.

Police said the car which was being stripped by the rogues belonged to Ethel Camp, 15111 Vernor.

#### Gratiot Twp. Reconsiders City Move

Gratiot township formed a group recently to study the advantages of incorporating the community as a city.

A move to incorporate was defeated at an election last year.

The new plan was resurrected when the J. L. Hudson Company publicized their gigantic development program to be established in that area.

The newly formed group will study taxation and service problems including police and fire protection, garbage disposal, road repair, street light facilities and the public library.

#### Prowlers Escape; Police Get Real Prize

Police discovered a valuable diamond watch which had been missing for several weeks when they answered a call at the Roy Ouellette home, at 1045 Audubon, last Monday night.

Mrs. Ouellette summoned police aid when three men attempted to gain entrance to the residence.

They fled when she called to them from the second floor.

In making a search of the grounds later that night, Officers Marcel Vervacke and Stanley Johnson discovered the watch on the front lawn.

The watch had been lost by a visitor at the home several weeks ago.

#### HONORED

Mrs. Fred T. Murphy was recently presented with the national citizenship award of the Veterans of Foreign Wars for her public welfare work and sustained activity with the American Red Cross. The gold medal symbolizes Mrs. Murphy's concentrated interest in citizens groups and veterans organizations.

#### Lawyer Is New Head of Vets

Boniface R. Maille, of 700 Balfour, was elected National Commander of the Disabled Veterans at the annual convention in San Francisco.

A Detroit attorney, Maille, is a past commander of the DAV in Michigan and served with the Amphibian Engineers in the South Pacific during World War II.

He is chairman of the Board of Trustees of Michigan's \$50,000,000 Veterans Trust Fund.

The women's auxiliary re-elected Mrs. Henrietta Mills, of Los Angeles, as national commander. May Holmes, of Detroit, was named second junior vice commander.

Resolutions adopted included one urging that draft laws be amended to draft capital, labor, industry "and all other resources" in case of war.

#### Sideswipes Bus

A Lake Shore Bus was sideswiped last week as it was making a turn from Kercheval into Moross road.

The other car was driven by Ewald Arenty, of St. Clair Shores. Police said Arenty passed the bus on the left side and sideswiped it with the fender of his car.

#### Farms Guards Swim To Victory In Meet

Grosse Pointe Farms emerged the victor in the swimming match between the lifeguards of five Pointe municipalities last Thursday at the Farms Pier.

Times and winners for the 60-yard free style were Ted Mumford, Farms, first; Charles Fleck, Shores, second; Louis Geist, Farms, third; and Ted Maude, Park, fourth.

Breast stroke champions were Richard O'Connell, Farms, first; Bob Robertson, Shores, second; Don MacCauley, Shores, third;

and Tom Dewey, Farms, fourth. Pitting their brawn in the 300-yard free style were Frank Bieman, Park, first; Burt Spurrer, Farms, second; Ken Walker, Park, third; and Bob Schick, Woods, fourth.

Back stroke winners: Bob Jenks, Shores, first; Ted Mumford, Farms, second; Jim Marshall, Park, third; and Jim Hartman, Shores, fourth.

In the 120-yard free style event: Bob Jenks, Shores, first; Don MacCauley, Shores, third;

#### City Slates Rent Control Hearing Tues.

A public hearing on the question of termination of housing rent controls will be held Tuesday, at 7:45 p.m. in the City of Grosse Pointe Municipal Building.

The Federal Housing and Rent Act of 1950 provides:

"The Housing Expediter shall terminate the provisions of this title—upon receipt of a resolution of its governing body—based on findings by such governing body reached as a result of a public hearing held after ten days notice that there no longer exists a shortage in rental housing accommodations as to require rent control in such city."

If the residents so favor the use of this ruling, the housing rent control will continue in effect until January 1, 1951.

#### Left Turn Is Wrong Move

Two cars were badly damaged in a collision Friday at Mack and James Hamilton.

James Hamilton, of 303 Kerby, was attempting to make a left turn from Mack into Moross when he was struck on the right front fender by an automobile driven by Walter H. Van Ney, 1945 Anita police said.

The drivers were uninjured.

## A SADLY NEGLECTED PREROGATIVE

Apathy of the voting public is too often most marked in the primaries, when the American public's voting record hits the lowest ebb.

The serious aspect of the primary is seldom realized and hardly detected until the voter comes up to the general election and sees two mediocre candidates pitted against each other. In this case, he usually takes the lesser of two evils.

In this practice, the voter is only contributing his bit toward the tendency to permit top notch candidates to be defeated in the primaries and mediocre men get into office.

The great democratic principle which is supposed to operate at the polls in general elections, as well as primaries, is for enough independent voters to pick the superior candidate, to offset any possible machine or block of votes which may be controlled by an inferior candidate.

## SALUTE TO GOOD FRIENDS

Grosse Pointe boys and girls have no truer friends in the community than the members of the Metropolitan Club — Grosse Pointe's policemen, firemen and mailmen.

The friendship and understanding encouraged by the Metropolitan Club, plus their splendid Juvenile Athletic Program, has paid far bigger dividends than many realize.

Compared with juvenile problems in Detroit or across the nation, Grosse Pointe has a minimum of delinquency.

In fact, the ugly phrase "Juvenile Delinquents" bannered across the nation's press is seldom seen in Grosse Pointe.

The one big factor in contributing to

## HOUSEWIVES MAKE PRICES

Prices are rising and the possibility of controls is being discussed. Again the importance of maintaining the free market except in the direst of war emergencies is widely ignored. The moment that controls are substituted for the free market scarcity becomes inevitable, and most important, the political and economic system which makes representative government possible in this country, begins to melt away before the fire of official "directives."

For example, meat prices along with everything else, have been headed upward. But if supply and demand are allowed to function within the free market the situation will correct itself. In the words of L. H. Simerl of the Department of Agricultural Economics, University of Illinois: "Consumers themselves must accept the responsibility for meat prices. Farmers have cattle and hogs, and they must sell them. Likewise the packer must

## THE FBI AND SABOTAGE

Some years ago a Presidential directive was issued providing that the Federal Bureau of Investigation take charge of investigative work in matters relating to espionage, sabotage, subversive activities and related matters. Now President Truman has again called attention to this directive, and added the suggestion that all patriotic organizations and individuals, as well as law enforcement officers, report all information concerning such matters to the Bureau.

The FBI is as near to you as your telephone. The organization is interested in facts, not gossip or idle rumors. Some bit of information which may seem inconsequential to the individual coming upon it may be just what the FBI needs, in conjunction with other data in its possession, to make a case. No one should make private investigations in this field—they can

If this situation does not obtain, the primaries become ripe pickings for the professional vote-getter and the professional politician who may not even have a good name to qualify him for office.

It is true that it is sometimes difficult for the public to evaluate the candidates, in the event of a large number of names on the primary ballot. However, any candidate for office has a reputation and his affiliations and record of connections can be used as a guide to his competence. If the democratic principle works, the public is given ample opportunity to hear, see or read about the candidates through the radio, television and the press.

Grosse Pointers should be the first to realize the importance of the primary and give this year's candidates their thoughtful consideration before going to the primaries on Tuesday, September 12th.

This condition is the Recreation Program sponsored by the Metropolitan Club of Grosse Pointe, Spirit No. 20.

Many merchants and other good people of the area have joined hands with the policemen, firemen and mailmen in helping to publish their annual yearbook and stage their annual field day. Their generosity is rewarded in the results of the work done by the Club and the club's sincere appreciation.

Without such support, the tenth annual field day at the high school would not be possible this Saturday. With their support, the boys and girls of the community are to be treated to a day of games, entertainment and refreshments.

keeping pushing the meat out of his coolers. Retailers, too, must sell practically every pound they buy, or losses will drive them out of business. The housewives at the meat counters get the meat at their own prices. Of course, not every individual housewife makes her own price, but their combined actions certainly do make the prices. . . . Just as they have lifted prices to these high levels, they can let them drop . . . they have done it before.

"Both employment and wage rates are at or near peacetime record highs, and both are certain to go higher. With plenty of money in their pockets, consumers will not let meat prices drop very far. That is because they want to keep prices of livestock up. It is simply because they like meat and are able and willing to pay for it."

Controls are a basic departure from the American system.

only lead to hysteria and witch-hunts which in themselves weaken our internal security. If any fact of any nature comes to your attention which suggests sabotage or espionage, report it at once.

This is vitally important now. The forces which are working to undermine us are not always easy to identify. They have been trained in deceit. They utilize cleverly camouflaged movements, such as peace groups and civil rights organizations, to advance their ends. Communism teaches that every conceivable weapon must be used to help destroy the non-communist world. And the center of that world is the United States.

Remember—the FBI is our first line of defense against the destructionists within this country. Help it whenever you can, and without delay.

## Preliminary Battle Royal

## Find Schoolbooks In Country Obsolete; Blame Politicians

Your child may be learning his lessons from books which are as out-of-date as the horse and buggy. If so he is being made the victim of political graft or stupidity, says J. Robert Moskin. Writing in Redbook Magazine for September, he points out that in order to benefit by advances in knowledge and in teaching techniques, your child needs the best textbooks possible, selected by the most qualified people available.

"Schoolbooks are among the basic tools of free, public education. When stupidity or politics enter into the selection of texts, your child is the victim. Frequently the lazy method of re-ordering an old, out-of-date text cheats youngsters of the opportunity to benefit from modern advances in teaching techniques. McGuffey's Reader, which revolutionized the teaching of reading 120 years ago, sold 24,000 copies last year, mostly in the Ohio valley. The last major revision of this series was made in 1879. Minor revisions in individual editions were made as recently as 30 years ago.

"Often political influence plays a part in the selection of the books our children use in school. Recently, in an important city in Kansas, a politician attempted to force the State Board of Education to buy an American history book in which he was 'interested.' As a result of the stormy controversy that followed, three history books were adopted, instead of the single one recommended.

"Situations like this are partially the result of vigorous competition to sell books to our schools. The 90 big publishers of schoolbooks squeeze their rivalry into the four months before school opens in the fall. Their \$130 million business each year sells seventy-four million schoolbooks, plus forty-one million pupil workbooks and uncounted teachers' manuals. Since all these books are bought in lots ranging in size from large to huge, there is almost always a chance for graft to creep in.

"Not every community submits to neglect and ignorance. Parents in Slatington, Pennsylvania, can watch their youngsters do their homework with a sense of well-being. Elwood Prestwood, when he became Slatington's school superintendent eight years ago, found boys and girls studying from schoolbooks that had been published 40 years ago. He set about to correct the situation. By leaving selection to the best, most

modern books to trained teachers and by making his pennies count, Mr. Prestwood was able to give each kid in Slatington, not a wealthy town, two dollars' worth of new, up-to-date books a year.

"In other communities, parents themselves have taken a hand in perfecting their children's education. Parents of Westport, Connecticut, under the inspiration of School Superintendent Gerhardt E. Rast, have formed a 'School Study Council,' for the improvement of their schools. This plan is one that any alert small community can follow."

## Greatest Killer of Them All

Heart disease is still the greatest killer of Michigan people. Dr. Albert E. Heustis, State Health Commissioner, said today in reporting Michigan's ten leading causes of death for 1949.

Heart disease killed one out of every three Michigan people who died in 1949. Diseases of the heart caused 19,137 of Michigan's 57,107 deaths last year.

Cancer was in second place but caused less than half as many deaths as heart disease. One out of every seven died of cancer.

Apoplexy, accidents and nephritis (kidney disease) which caused less deaths in 1949 than in 1948 was still in third, fourth and fifth places. Pneumonia, which caused more deaths in 1949 than in 1948 remained in sixth place. Diabetes, which has been increasing in prominence as a cause of death for the past three years, moved up to seventh place. Premature birth, against which the practicing physicians and health department of the state have been conducting a diligent campaign, has caused less deaths each of the last three years and fell to eighth place in 1949. Tuberculosis remained in ninth place but was giving way to new methods of diagnosis and treatment. Arteriosclerosis was increasing but remained in tenth place.

### ELECTION BAIT

When a politician promises you "something for nothing," you can be pretty sure that he will get a lot of the "something" and that you will get a lot of the "nothing." Political promises ordinarily don't mean too much—because the next new crop of promises in order to get elected.

# Michigan Mirror

By GENE ALLEMAN

Defense needs of Michigan continue to get top billing. The state legislature, convening again at Lansing, received a request from Governor G. Mennen Williams for a \$2,000,000 civilian preparedness program. The cost of a "living blood bank," planned as aid for an A-bomb attack, was estimated at \$1,000,000. Minimum A-bomb destruction in Detroit would be 100,000 killed or injured, 100,000 homeless, according to Brig. Gen. Clyde E. Dougherty, civil defense director.

Michigan's National Guard is not ready. This fighting force which saw some of the roughest duty in the New Guinea campaign against Japan would need five months of intensive training to be ready for combat, according to Gen. Ralph A. Loveland, Guard commander.

With 18,900 officers and enlisted men normally assigned to an infantry division, some 7,500 guardsmen fell out for summer training at Camp Grayling.

And at the same time, Dwight D. Eisenhower still says, "You can't win anywhere if you don't win this one."

If President Truman signs the Dingell law, Michigan will be richer by some \$100,000 next year and \$200,000 each year thereafter. The bill, already passed by Congress, will earmark 10 percent of fishing tackle excise taxes for fish research in the state. Michigan led the nation last year with 1,110,109 licenses issued.

The state social welfare com-

mission has dumped Governor G. Mennen Williams' proposal to boost food budget allowances for public assistance cases until Congress decides on price controls.

Michigan cities are losing their policemen to the army. In rapid succession most areas of the state have asked for blanket draft deferments for their single patrolmen under 26.

Just how bad can a bar get? The answer, according to the state liquor commission is this: Any licensee convicted of three serious charges within two years will lose his license. The question arose in connection with a Detroit establishment which was closed for 30 days and assessed \$500.

The tavern has been charged at various times with selling liquor to minors, having an intoxicated bartender, serving intoxicated patrons, allowing intoxicated persons to loiter, having an unsigned license and operating under unsanitary conditions. "We can't help it," Commissioner Harry Henderson said, "if previous commissioners were lenient . . . . But the next time . . . ."

Where did the money go? A top drawer advisor to the municipalities board and interior department asked that when he warned congress that the stockpile of strategic materials "is not sufficient." Data concerning the \$2,000,000,000 stockpile is confidential, even in peacetime. The same hearing mentioned Michigan and its run-down copper mines. S. H. Williston, leading mine expert, says Michigan is not alone in this. "Almost every strategic metal mine within the U. S. is closed, abandoned or filled with water," he said.

Michigan automobile manufacturers are concerned over our inadequate roads. Since the nation's car population has jumped so rapidly (12,000,000 more vehicles

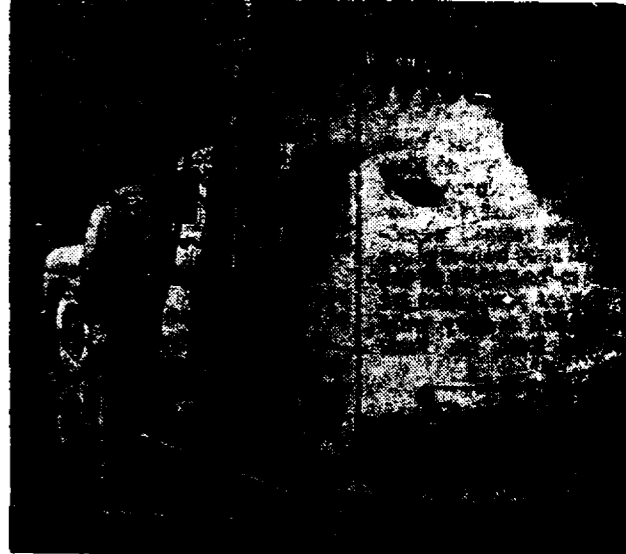

since before World War II) it is feared that the highways will not be able to handle the traffic. Solution: More money for roads and better highways, according to Albert Bradley, G.M. executive and chairman of the national highway users conference. "Less was spent for highways in 1949 on a comparable dollar basis than in the average prewar year," he asserts.

What happens to the broad guard if the National Guard is called? A paper army will move in if current plans mature. Called the Michigan State Troops, the army will be composed of World War II veterans who will be available on paper but called only for drill and instruction only of the Michigan Guard is called. The organization will prefer combat infantrymen.

# School Opening

(Continued from Page 1) School will enroll pupils in grades Four through Six. A. A. Marsh School will enroll pupils in grades Kindergarten through Three; and the Parsons School will enroll pupils from grades Four through Six. A separate announcement also appears under the present caption of the Board of Education, in order for children to be enrolled in Kindergarten; they must be five years of age or before December 31 and must be five years of age between December 1 and March 31 of the current school year. At the request of the parents, the Board of Education may be given certain tests by Department of Public Personnel of the Gross Pointe Public Schools to determine the readiness of such children to enter kindergarten.

Parents of all children of this age who were listed on the May census have been informed of this policy by letter. Parents of children who do not receive such notification may make an appointment for a visit by calling the Board of Education, TU 5-2000, Extension 3.

School officials estimate that this year will see an all time record enrollment in excess of 400 pupils. This will be an increase of more than 50 pupils over last year's enrollment.

All teachers and other school employees will start their new school year on Tuesday, September 1. On this date special meetings and conferences will be held at all employees at the Gross Pointe High School Building. On Wednesday, September 2, all members will be on duty at their assigned buildings preparing for the opening of school. The first day will take place on the following day, Thursday, September 7.

# Farms Guards Swim To Victory In Meet

(Continued from Page 1) Turt Switzer, East second, Frank Holman, Park, finished Ron Walker, Park, fourth. Honors in the 100-yard individual medley went to Bill McCauley, Shore, first; Jimmy O'Connor, Casco, second; Ed Marshall, Park, third; and Ed Carroll, Park, fourth.

The 240-yard relay first place went to the Shores and the Park, third.

# Germans Will View State Gov't At U-M

A practical view of Michigan city and state governments in operation will be given German administrators who will attend the University of Michigan Institute of Public Administration this fall.

Under a contract signed with the State Department, the institute will acquaint government officials from Germany with the American form of government. The visitors will then serve internships in federal and state agencies and will conduct tours in the state will give the officials here a chance to see how policy is made and how government operations are carried out.

The institute will be held at the University of Michigan, 400 North State Street, from September 15 to October 15. The first group of about 12 will arrive in early September.

# New Students To Register Next Week

Enrollment for new students entering Gross Pointe High School in the fall are urged to enroll the week before Labor Day, according to an announcement by W. R. Clemenson, principal of Gross Pointe High School.

At Gross Pointe High School the Assistant Principal and Dean of Girls will be on duty from August 15 to September 6 to enroll new students beginning with the afternoon of Monday, August 15 and including Friday, September 6. Hours for this advance enrollment are 1 to 4 p.m.

The deans and counselors will not be available to enroll new students Tuesday, September 5, or Wednesday, September 6, because of teachers meeting and orientation meetings.

New students transferring to Gross Pointe High School from a school other than a Gross Pointe public school are requested to have their school record forwarded immediately a transcript of their complete record to Gross Pointe High School.

"It is very difficult to place a student in the proper grade and with the correct placement of the teacher," Clemenson stated, "when his record from the previous school cannot be studied."

"This is a disadvantage to the new student and adds to his orientation problem," he added.

# Local Dentist Takes Top Camera Honor

A coveted honor among amateur camera fans was recently won by a Pointer.

Dr. L. Benson Bristol, of 243 N. Millikan, was awarded the Pictachman Trophy for exhibiting the best print of the year in an contest for best pictures sponsored by the Detroit Camera Club.

The picture was taken while Dr. Bristol and his family were on their way back from a Mississippi vacation.

The winning print shows a silhouette of his five children, Dr. Bristol, with his eleven-year-old daughter, a member of the Gross Pointe Camera Club.

# Well-Aimed Brick Hits Its Mark

A ten-year-old girl was taken to Cottage Hospital Sunday by Gross Pointe Park police when a companion hurled a brick at her while they were at play.

The injured young miss was treated for a gash on the forehead.

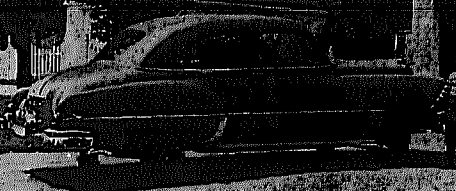

The winning print shows a silhouette of his five children, Dr. Bristol, with his eleven-year-old daughter, a member of the Gross Pointe Camera Club.

# LOOK, MOM! NO WHEELS!

Michael Hanna was a bit surprised when he saw his father's car completely demobilized. Vandals put the car up on cement blocks and removed wheels and all accessories. The automobile is owned by Frederick G. Hanna, of 2101 Fleetwood.

# ELECTION SCHOOL FOR NEW VOTERS

As a community service and to provide a means of imparting information to the several hundred newly registered voters in Gross Pointe, an ELECTION SCHOOL will be conducted at the Gross Pointe War Memorial Center, 23 Lake Shore road, on Wednesday evening, August 10, at 7:40 p.m.

In view of the striking number of new registrations enrolled throughout the five Gross Pointe Units in the recent primary election, it was deemed highly desirable to provide an opportunity for the young "first-timers" to be adequately informed in all phases of voting. This will be upon a strictly non-partisan and non-political basis in which instructions will be based upon HOW to vote—not for WHOM.

A typical facsimile of an election board will be set up with the necessary applications, poll books and instruction ballots, together with ballot boxes and voting booths.

Norbert P. Nell, city clerk of the City of Gross Pointe, has agreed to conduct the school in connection with the program activities of the Memorial Center. The public are invited and it is hoped that all electors who desire information in the general subject of "HOW TO VOTE" will be on hand.

# Rotary Hears Speaker On Employment

Getting labor to team with management would mean the end of the current employer-employee discord, Prof. Irving Palmer told members of the Gross Pointe Rotary Club Monday at the Memorial Center.

With the school of business administration at Wayne, where he lectures in personnel methods, Palmer told his audience that the psychologist's approach to the labor problem is to be accented to fit the right man to the right job.

Palmer's discussion was based upon surveys made in his department at Wayne, plus his extensive academic background.

Practically all discord would disappear if management and labor would work together "on the same team," the speaker concluded.

Governmental buying agents pledge fight against hoarding.

# Child Allergies Traced To Psychological Illnesses

Many children suffering from allergies have been found to feel unwelcome by their parents, according to a study made by an outstanding California physician-psychologist team, Dr. Hymen Miller and Dorothy Baruch. They have had marked success in treating allergic patients by getting at the underlying emotional causes, according to Albert G. Mole, who writes in McCall's for September.

The increasing realization among the medical profession of the need for the psychologist's approach, in addition to the usual physical treatment, in combating allergies;

"Physicians dealing with allergies have long suspected that deep-seated emotional disturbances lay behind a vast number of the cases that come before them. But some 40 to 50 years ago these wise insights were brushed aside, when medicine discovered the art of immunology. And so medical attention for nearly two generations was upon a single track—the physical attack upon allergies."

"In the last few years, however, another view—which emphasizes the emotional and nervous elements involved in almost all diseases—has come in for increasing attention. For the most part it has been propagated by psychiatrists. Outstanding among these is a California team of husband and wife which for more than five years has been studying the emotional factors that seem to be at the base of so many allergies. The physician of this team is Dr. Hymen Miller, associate clinical professor of medicine at the University of Southern California Medical School. His partner in research is Dorothy Baruch, a well-known Beverly Hills psychotherapist.

"The Millers have found that the vast majority of the allergic children who were brought before them had a deeply troubled relationship with their parents, especially with their mothers especially. Psychiatrists call it maternal rejection, defining the rejecting mother as "one whose behavior toward the child is such that she consciously or unconsciously has a desire to be free of the child and considers it a burden."

"When non-allergic children feel lonely to their parents," Dr. Miller explains, "they come right out with it. In contrast, the allergic child tend to shut in what they feel. They disdain resentment, and get sick. They take their meanness out, as it were, on themselves, in the form of asthma or hay fever or eczema, instead of on their parents."

"This does not mean that if you are the mother of an allergic child you must condemn yourself as an unloving, rejecting parent. You need not jump to the conclusion that your solitude for your child is wholly due to some horrifying hatred. But it does suggest that allergy may be providing a channel through which the child overcomes or protests some disturbance in his relationship to you, his parents."

William "Zeke" O'Connor, an end on the Detroit Lions football team, has his hobby the raising of dogs.

# Thief Cooks Chef For \$95

Questioning by Park police today might result in locating a chef which had been reported stolen by the Tony's Restaurant.

James Brown, of 415 Field, left money on his locker while he was changing his clothes in the apartment.

After the theft was discovered, Stanley Zanders and Donald arrested George Curcio, 36, 1017 Mayfield, for questioning.

Curcio told police that the money was hidden inside the locker which is located on the ceiling of his car.

### Mrs. John J. O'Brien Named Regional Head of Torch Drive

Leadership for the 1950 Torch Drive of United Foundation has been announced. Grosse Pointe, Mrs. John J. O'Brien, named regional chairman of Region One.

Deigh Navin Photo  
MRS. JOHN J. O'BRIEN

Each of the eight regions will have two campaign units, one for business and industry, one for general solicitation. The eight regions are broken down into 20 divisions which, in turn, are made up of 101 areas sub-divided into 1,060 districts. Each region, division, area and district will have a general chairman with co-chairmen and committees. An estimated 6,000 women and 3,000 men volunteers will be needed for small business and residence solicitation during the drive, October 10 to November 9. In the first Torch Drive last year, 6,500 volunteers raised \$9,270,000 for the benefit of more than 140 health and community services. It has been estimated that 200,000 residents of the Metropolitan area of Detroit were not given an opportunity to "Give Once For All" because they were not asked. The United Foundation will seek to enlist enough volunteers this year so that every person will be solicited—but each worker will need to call on only 10 prospective givers. The goal for this year's drive has not been determined. Enough money will be sought to continue the high standard of services which have made Detroit outstanding in the health and community field. Among the many services dependent in whole or in part on United Foundation are the Arthritis and Rheumatism Foundation, Brightmoor Community Center, Catholic Family Center, Catholic Youth Organization, Committee for Education on Alcoholism, Leader-Dog League for the Blind, Sarah Fisher Home, Michigan Children's Hospital, and many other doing their part equally well to make Detroit a better community in which to live.

### Bethany Resumes Fall Schedule

Committees at Bethany Lutheran Church are busily at work making plans for the beginning of the fall schedule, with numerous and interesting activities in the offing. Sunday School and Bible Classes, dropped during the summer months, will also be resumed in early September. The Sunday morning services of worship continue as usual, 8:30 and 10:30, with the pastor speaking this Sunday on the theme: "Lord, Thou Hast Begun to Show Us Thy Greatness!" Located at E. Outer Drive and Chatsworth, Bethany extends a cordial invitation to all community residents to come, visit, and worship with them.

### Scout Troop Open to Join

Community boys, 11 years old and up, and interested in scouting, have an opportunity to join Troop 555. Openings are now available for several boys in this age group. Art Hollinger, leader of the troop, announced. Interested boys are asked to call him at TU. 5-3492. The troop is sponsored by Bethany Lutheran Church, E. Outer Drive at Chatsworth. Their first meeting is scheduled for September 7, 7 o'clock, at the church.

### Red Cross Issues Plea For Donors

With an assigned quota of 500 pints of blood per month, for military uses, the Detroit Regional Blood Center has begun recruitment for additional donors, it was announced by John M. Sullivan, executive director of Detroit Chapter, American Red Cross.

The request, Sullivan said, came from Gen. George C. Marshall, president of the national Red Cross, on behalf of the Department of Defense. The blood is needed not only for Korea, but also for the expanding armed services in the United States, Gen. Marshall indicated.

"We expect to make our quota and still meet civilian requirements," Sullivan added. "We have ample facilities at the Detroit Center, and donors from outside the area will be welcome."

Persons wishing to contribute blood will save time by first calling the Red Cross Blood Center, Woodward 1-3900, and asking for the appointment desk.

### Feature Arts of Bygone Era At State Fair

The humble unpretentious American pioneer home of the 1750's will be featured by the Edison Institute at the 1950 Michigan State Fair, James D. Freil, Fair manager, has announced.

Handicraft arts of a bygone era will be actually demonstrated by instructors from the Institute's Textile Department. The free exhibits will be housed in the area underneath the stands to the left of the main entrance to the Coliseum.

Visitors to the Fair will see the raw washed wool carded or combed and spun into yarn on a large early American spinning wheel. After spinning, the yarn will be woven into fabric on a manually operated four-harness Colonial loom.

It has been planned to furnish the home with articles which formerly graced dwellings during early pioneer days. A colorful red-checked table cloth will adorn the rude and sturdy kitchen table, while above the fireplace strings of dried herbs will represent the spice sets of yesteryear. Candle molds, copper ladles, bed warming pans and a wooden plunger-type churn are but a few of the colonial housewares on display.

A functional split-rail fence will border the area adjacent to the home. Displayed within this area will be agricultural implements and machinery transportation used by early fathers. Exhibited among agricultural implements will be a plow said to have been used by Daniel Webster to demonstrate to a young boy the art of handling a plow. The mole board of this particular plow is reinforced with pieces of an old wood saw. A large smokehouse constructed from a single sycamore log will illustrate one of the methods used to preserve foods in early times.

The display will be open to Fair visitors from 10 a.m. until 11 p.m. daily, September 1 through 10.

### "Quote... and Unquote"

"I like the life and I like the hours."—Yank Pitcher Joe Page, telling why he likes baseball. "Best excuse I've heard in two years."—L. A. judge, suspending fine of motorist who didn't give hand signal for turn because he had canaries loose in sedan. "In the interest of solvency and stability, it is necessary that we balance the budget and make payments on the national debt."—Farm Bureau Vice President R. E. Short.

"His Majesty will bring dignity to this garment."—London editor defending taste of King George VI in wearing tartan dinner jacket.

"A healthy, black-ink economy is the bulwark of the nation's defense."—Louis A. Dibble, Pres. Eastern Malleable Iron Co., Nautuck, Conn.

DORIS DAY has installed a volleyball court at her new North Hollywood home. She says the game is good for her figure.

### CANDIDATES JOINS HOSPITAL MEET

Exclusive to Grosse Pointe Review  
Mrs. Zais Woodford Schroeder of 1011 Bishop, is shown here with Mrs. Lulu Bachman, candidate for probate judge, both members of the board of directors of the Wayne County General Hospital, with Frank Kelly, chairman of the board.

They attended a meeting and picnic of Eloise hospital employees honoring Dr. Gruber, superintendent.

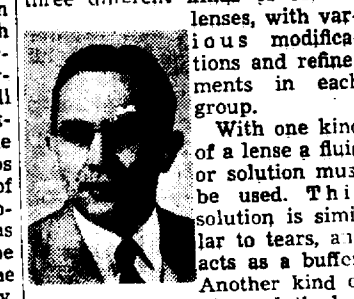

Mrs. Bachman, Detroit's nationally prominent woman lawyer, believes that one of the six probate judges should be a woman because probate court handles all estates, with a necessarily watchful eye to protect widows and orphans, as well as the mentally ill and the handling of all cases of juvenile delinquency.

Of the six present probate judges, only Judge Daniel J. Healy devotes full time to juvenile case work which is his abiding interest. The other judges seldom bother with juvenile affairs.

Mrs. Bachman is the mother of three grown children, is past president of the national association of women lawyers, was twice honored by the U. S. army for volunteer work in recruiting and serves without pay, by choice, as official observer at United Nations meetings.

### NEWS IN SIGHT

By Dr. Arthur M. Majester, O.D.  
When people speak of contact lenses, they usually visualize one type of lens. Actually, there are three different kinds of contact lenses, with various modifications and refinements in each group.

With one kind of a lens a fluid or solution must be used. This solution is similar to tears, and acts as a buffer.

Another kind of contact lens is the solutionless type. No fluid is used in the lens during the process of inserting the lens under the lids. The tears fill the space between the eyeball and the lens.

The third type, and one which has not received too much publicity, is about three-eighths to a half inch across, circular in shape, and sort of dome form. This lens fits over the front of the iris or color part of the eye. No solution is used with this lens.

At present, practically all contact lenses are made of transparent plastic materials.

### Truman Sets Spending Mark

A recent survey shows President Truman's administration has spent more than twice as much Federal cash as was spent by all the Presidents from George Washington to Herbert Hoover added together.

From Washington's inauguration to the end of the Hoover administration, spending totaled \$110 billion. Spending in the Truman administration, including proposals for fiscal 1951, has totaled almost \$260 billion. Spending under President Roosevelt, including nearly all World War II, was over \$375 billion in twice as many years as Mr. Truman has served.

### Woods Seeks 2 New Officers

Grosse Pointe Woods will hire two new police officers to keep pace with the growing Village. Chief Walter J. Goulette reported. Candidates must be between the ages of 23 and 30, five feet, nine inches or more in height and in excellent physical condition. A high school education or equivalent is required.

### Lesser Lights In Vegetable World Suggested by Expert

This is the season when so many different kinds of fresh vegetables are available that deciding which to buy can become quite a problem.

Here's what your vegetable buying plan should include for good nutrition and variety, advises Mary Bodwell, agricultural economics department food specialist at Michigan State College.

For each day the family menu should offer:

1. At least one serving of the green, leafy or yellow vegetables such as spinach, carrots, broccoli and lettuce.
2. At least one serving of potatoes.
3. Some vitamin C group food, among which tomatoes are outstanding with cabbage a close second.
4. Two or three other vegetables such as green beans, beets, sweet corn, cucumbers and radishes.

Almost everyone is familiar with buying and using the more common vegetables. However, Miss Bodwell believes many of us could well afford to get better acquainted with some of the less commonly used vegetables during this heavy supply season.

Kohlrabi and salsify, for example, are not well known to many people who are quite familiar with the other root crop vegetables such as rutabagas, parsnips and turnips. Kohlrabi, the "cabbage turnip," is pale green in color, has a turnip shape and is about two inches in diameter. If larger, they may be woody and tough. Four medium-sized kohlrabi will give two cups of vegetables when cooked. Salsify is usually sold in bunches of 10 or 12 roots, in markets or stores carrying a rather complete line of vegetables. It is often called the "vegetable oyster." It has a parsnip-like shape, cream color and oyster flavor.

Two other strangers on some family tables are brussels sprouts and broccoli. Both have quite a high vitamin C content similar to cabbage, an also vitamin A as well as minerals. Brussels sprouts look like baby cabbages,

are of walnut size, and have a cabbage-like flavor.

Broccoli, a close relative of cauliflower, also has cabbage-like flavor. It has stalks about four or five inches long, and loose, dark green heads made up of compact flower buds. If the buds have developed into yellow flowers the broccoli is over-mature. This is one vegetable in which the larger stalks are usually more tender than the small ones.

One of our popular decorative and seasoning vegetables, parsley, is an excellent food but too often discarded as waste. It is extremely high in vitamin A, and nutritionists say it should be eaten with the food it decorates.

### Why Editors Skip Town

"Manicurist—must be good and fast."—Want ad in Michigan paper.

"One chaste longe and other furniture."—For Sale ad in Alabama paper.

**CHRIST THE KING LUTHERAN**  
Grosse Pointe Woods  
W. J. Gelfert, Pastor  
The Sunday school, which meets every Sunday from 9:30 to 10:30 a.m. serves the needs of children age 3 to 13. New pupils may be enrolled on any Sunday.  
A sincere welcome to all who desire to worship in the main service held every Sunday at 11 a.m. Holy Communion is celebrated on the first Sunday of every month.  
"Let the Word of Christ dwell in you richly in all wisdom."

**CHRISTIAN SCIENCE CHURCHES**  
"Christ Jesus" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday August 27.  
The Golden Text (Jeremiah 23: 5, 6) is: "Behold, the days come, saith the Lord, that I will raise unto David a righteous Branch, and a King shall reign and prosper, and shall execute judgment and justice in the earth. And this is his name whereby he shall be called, The Lord Our Righteousness."  
Among the Bible citations in this passage (Isa. 52:7): "How beautiful upon the mountains are the feet of him that bringeth good tidings; that publisheth good tidings of good; that publisheth salvation; that saith unto Zion, Thy God reigneth; that saith unto Corathive passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 16): "Our Master taught his disciples one by one the prayer which we name after him, the Lord's Prayer. Our Master said, 'After this manner therefore pray ye, and thus he gave that prayer which covers all human needs.'"

**BARA' WORLD FAITH**  
Mrs. Floyd H. Munson, sec'y  
TU, 1-7032  
Friday, August 25, 8:00 p.m. Discussion group at the home of Mr. and Mrs. Floyd H. Munson, 432 Fisher Rd. Open to the public. Subject: "The Presence of God."  
Sunday, August 27, 10:30 a.m. children's class, 132 Moran Road. Subject: "The Messengers of God."

**LUTHERAN CHURCH OF THE REFORMATION**  
Vernier Highway E. at Lakeview

# NEW SAINT CLARE CHURCH

Rev. Philip L. Colgan, O.S.A., pastor of St. Clare Parish, announced a few days ago that ground will be broken for the new St. Clare Church next Sunday morning, August 27, after the ten o'clock Mass. George F. Diehl is the architect. The actual excavation will begin the following day, the Feast of St. Augustine, Founder of the Augustinian Order who lived from 354 to 430. Members of the Augustinian Order estab-

lished St. Clare Parish in the year 1926 and have been in charge of it ever since. The new Church will be located at the southwest corner of Mack and Whittier. The Grosse Pointe area of the Parish extends from Balfour to Notre Dame and from Mack to Lake St. Clair. The Detroit boundaries are from Beaconsfield to Bluehill and from Mack to Waveney.

## —The Grosse Pointe Review—Thursday, August 24, 1950

### Durant Assails Spendthrifts

(Special to the Review)  
Speaking Tuesday night at the Neighborhood Club, 17145 Waterloo, Richard Durant, candidate for the Republican nomination for Congressman from the 14th District, made a fervent plea to "put first things first." Declaring that the present Administration apparently had no grasp of the necessity for strict economy in non-essentials, Durant, a veteran of World War II who heads his own successful small business, bitterly assailed the "spend, spend" attitude in Washington.  
"It is completely typical of the attitude in Washington today," Durant said, "that when faced with the necessity for more money for national defense, Mr. Truman can think of nothing else to do but levy new taxes and call for emergency measures. You and I know that when our family budgets over-run our income, we must cut down our spending on what we know are non-essentials. But Mr. Truman does not seem to have either the wisdom or the political courage to insist that the Federal Government do the same."  
"We are faced today with the possibility that World War III may be starting. As we are finding our cost in Korea, we are pitifully unprepared for it—or even a series of 'warm wars' such as the struggle in Asia. I am not going to relate the blunders of Mr. Truman which led up to this mess we're in—the point at the moment is that we must do something about it."  
"What does Mr. Truman want to do? He wants to get another \$10 billion; he wants to raise it by raising taxes and increasing our cost of living all down the line; he wants, apparently, to go right on with deficit, inflationary, financing; he wants strict controls. "The price rises which have taken place recently are not caused because people are un-patriotic or irresponsible. Historically, wars have been financed by the inflationary device of creating new money, and when war appears people try to protect themselves by buying before the increased supply of money gets to work chasing a supply of goods which is not increasing in the same proportion. Threats to impose direct controls such as rationing and price fixing only aggravate the situation because that makes more people attempt to protect themselves."  
"What will stop the price rises is a statement that the government is not going to create new money; that the government will live within its income and pay its bills from current receipts. That will put on the brakes before the cleverest lawmaker can write a preamble to a control law."

### Cody's Experience Qualifies Him for Probate Court Seat

(Special to the Review)  
Thirty-one years ago, a mother taught her son that in this land of the free the poorest boy can aspire to public office.  
That son is William J. Cody. Cody, who has been a Circuit Court Commissioner of Wayne County for 14 years, is now a candidate for Judge of Probate in the Sept. 12 primary, to fill the vacancy created by the death of the late Judge William F. Cotter.  
When he was 13 years old and living in Highland Park, Bill went to work selling newspapers. He had the big corner, the one at Woodward and Manchester Aves.  
Bill sold papers after school. Then he came back at night between 11 p.m. and midnight and sold more.  
**WORKED WAY THROUGH**  
The hard-working lad kept this up for 12 years, while going through high school, two years of junior college and four years at the Detroit College of Law.  
He came to know hundreds of the automotive line workers and the automobile executives. He was friends with—and could call by name—thousands of his customers.  
Both the big and little man were Bill Cody's friends. Although Bill has become a judge, they are still his friends.  
**WINS CAMPAIGN**  
Fourteen years ago Cody was unknown. He worked hard, and, by collecting a few pennies from his friends, was able to campaign and become Circuit Court Commissioner.  
Each election the people have shown their approval of him by returning him to the bench with a larger and larger majority.  
In 1948 Cody polled a record number of 428,000 votes, leading his nearest opponent by more than 100,000 votes.  
As Circuit Court Commissioner

### Install New Washmobile At Joe's

A new modern Washmobile recently installed at Joseph's Friendly Service Station, Kercheval at Lakepointe, offers customers the benefit of a speedy, gentle car wash.  
The washmobile has eliminated mechanical brushes and gives the car a quick, thorough shampoo. Cars come out sparkling clean.  
A time-saver as well, the new device takes only nine minutes for a wash and is easy on the finish.  
While the family car is being shined, Joe provides entertainment for the younger folks. During the day, two ponies prance around the yard next door.  
While the kiddies wait their turn to ride, a long line of would-be Hopalong Cassidys hang over the picket fence to watch their other counterparts.

### MacRae Enters State Race For Senate

(Special to the Review)  
It does make a difference whom you send to Lansing, to represent the first district in Detroit and Wayne County during the strenuous days ahead with the war program and other important matters coming up.  
Richard A. MacRae has been a resident of Detroit since 1911, and during all that time has taken a keen interest in civic and community affairs. He served you at Lansing from 1929 to 1932, and his record was outstanding for constructive legislation, and especially for the benefit of home owners and taxpayers.  
Richard A. MacRae as a candidate for State Senator on the Republican ticket is well qualified by experience and training to represent the first district at Lansing. For many years he was active in the building and real estate field. He served as Secretary of the Eastern branch of the Detroit Real Estate Brokers Association, and is now legal Counsel for the Eastern Detroit Realty Association. He is a successful practicing attorney, and understands the problems of the worker, businessman and home owner.  
Detroit is the most dynamic city in the world, and Wayne County leads all others in population, employment and taxes. The First District is one of the largest in the state and has many problems that need Mr. MacRae's experience and judgment. Let us send representatives to Lansing who know the needs of the district, and who are able to fight for them.

# NOTICE OF REGISTRATION and NOTICE OF ELECTION

## SPECIAL ELECTION, GROSSE POINTE WOODS, WAYNE COUNTY, MICH.

"To the Qualified Electors of the Village of Grosse Pointe Woods, Michigan

"You are hereby notified that a Special Election will be held in the Village of Grosse Pointe Woods, Wayne County, Michigan, on Tuesday, September 12, 1950, and that the polls for said Special Election shall be open from 7:00 o'clock in the forenoon to 8:00 o'clock in the evening, Eastern Standard Time.  
"You are further notified that the polling places for said election shall be as follows:

- Voting Precinct No. 22:**  
The Voting Booth in the Mason School, situated on Vernier Road.
  - Voting Precinct No. 23:**  
The Voting Booth in the Municipal Building, on Mack Avenue at Anita Avenue.
  - Voting Precinct No. 25:**  
The Voting Booth situated in the Parcels School on Mack Avenue and Vernier Road.
  - Voting Precinct No. 26:**  
The Voting Booth in the Mason School situated on Vernier Road.
  - Voting Precinct No. 27:**  
The Voting Booth situated on Mack Avenue and Kenmore Road.
  - Voting Precinct No. 28:**  
The Voting Booth situated on Mack Avenue at Broadstone Avenue.
- "You are further notified that the following proposition shall be submitted to the qualified electors for their adoption or rejection at said Special Election, to-wit:

### WATER SYSTEM BOND ISSUE

"Do you favor borrowing money and issuing bonds therefor of the Village of Grosse Pointe Woods, in the sum of \$95,000.00 to bear interest at a rate not to exceed four (4%) per cent per annum, payable semi-annually, the said bonds to mature serially in the following manner:

- \$6,000.00 in the years of 1951-60 inclusive, and
  - \$7,000.00 in the years of 1961-65 inclusive,
- for the purpose of making a public improvement in the Village of Grosse Pointe Woods, to be and consist of providing additions and improvements to the water supply system?"

"In accordance with the provisions of Article 3, Section 4, of the State Constitution as amended, only those electors of the Village of Grosse Pointe Woods qualifying under such provision, are entitled to vote at said Special Election on Bond Proposition.

"You are further notified that if you have not already registered you may do so by appearing before the Board of Registration at the Municipal Building on Mack Avenue at Anita Avenue, Grosse Pointe Woods, Michigan, on August 23, 1950, between the hours of 8:00 o'clock in the forenoon and 8:00 o'clock in the evening, Eastern Standard Time.

"You are further notified that registration may also be made with the Village Clerk on any day up to and including August 23, 1950, on which latter day the Village Clerk will be in his office between the hours of 8:00 o'clock in the forenoon and 8:00 o'clock in the evening, Eastern Standard Time.

**Philip F. Allard**  
Village Clerk,  
Village of Grosse Pointe Woods

# CLOWNS RETURN FOR FIELD DAY FUN SATURDAY

These scenes from last year's Metropolitan Club Field Day will be repeated again this year on Saturday, August 26, for thousands of Grosse Pointe youngsters. The day will begin at 10 a.m. at Grosse Pointe High School Athletic Field with a formal flag raising ceremony. High-

lights include games, contests, valuable prizes, free pop and ice cream, and numerous clowns. Sponsors of the Field Day, the Metropolitan Club, are policemen, firemen and Federal employees from Grosse Pointe.

## Junior Legion Squad Wins '50 Playoffs

The American Legion Junior baseball season closed last week after a close match at Waterworks Park where Grosse Pointe Post 303 beat Pulaski Post 270 in the final game of a two-game knockout series to determine the winner of that division.

Grosse Pointe won the trophy for 1950. The Grosse Pointe team was recruited from boys of St. Paul, St. Ambrose and Grosse Pointe schools and sponsored by Tom Boyd, Inc., Ford dealer, representing the Ford Motor Company, national sponsors of American Legion Junior Baseball.

There were over 15,000 teams playing Junior Baseball in 1949, 300 alone in Michigan.

The players making up the Grosse Pointe team were Jim Oester, Earl La Fave, Rodg Mulier, Willie Winkler, Bob Sabo, Jim Schoeck, Buzz McAndrew, Jack Pollak, Bob Cupples, Norm Soper, Mickey Endres, Dale Ewart, Bill Palm, Lee Clancy, Bob Sealby, Coby Martin, Rich Yuma and Johnny Dicoce.

The Legion encourages boys between the ages of 14 and 17 to try out for the team, providing they are enrolled at St. Paul, St. Ambrose or Grosse Pointe public schools. Legion teams can also play boys who are not in school, but who are residents of Grosse Pointe Township on February, 1951.

Boys who want to get the most

out of baseball as a pastime or possible profession are urged to sign up early next spring.

Grosse Pointe Post has also made plans to give local fans an opportunity to see regular games played at Grosse Pointe next year, both single and double-headers.

Rodg Mulier and Norm Spoer represented the Legion team in the All Star game played at Briggs Stadium which was won by a close score of 2 to 1.

This game between teams of the Detroit Districts and Downriver organizations takes their pick of players.

Bo McMillin, head coach of the Detroit Lions in the National Football League, has a 28-year winning average in coaching of .611.

**Right Idea - But**  
A man has to have some machinery and equipment to get out on his own, right enough, but there's a right way to get it. "Capital investment" is the wrong way—as a Philadelphia man found out when the man collared him for trying to buy a 20-ton crane truck with a foot boom.

## Trials Begin Friday For American Harmsworth

There's promise of a wild scramble for the three places on the American team that will defend the Harmsworth Trophy against the challenge of Miss Canada IV on the Detroit River over the Labor Day week-end.

This came about when a fleet of 15 unlimited hydroplanes were named to compete in the trials that will be held over the regular five-mile course, starting Friday, August 25th, and continuing through August 28th.

Topping the list, of course, is the world record holder, Slo-Mo-Shun, owned by Stanley Sayres of Seattle, and the recent winner of the Gold Cup in the July regatta.

Along with the record holder, which has been timed officially at more than 160 miles an hour, will be such other established craft as My Sweetie, owned by Pointer Horace Dodge, and the two Such Cruisers, owned by Jack Schaefer of Detroit.

In the fleet also will be the "dark horse"—Miss Pepsi, owned by the Dossin Brothers of Detroit. This craft has yet to receive its baptism in competition, but folks who know about such things claim the craft is capable of world record speed. The craft was built by John Hacker, who also built My Sweetie, and he claims it is the best boat he ever built.

The others in the field of contenders are the Daphne and Lotus, owned by Horace Dodge; Al Fallon's Miss Great Lakes; D. Cameron Peck's Astrea of Chicago; My Darling, owned by A. S. Maren of Springfield, Illinois; J. A. Schoenith's Gale; Deejay V, owned by Daniel J. Murphy of Philadelphia; Cricket II, owned by Norbert Hollenbach of McHenry, Illinois; The Thunderbolt, a Detroit boat owned by George Zizas; and the "Old Faithful" Tempo VI, owned and driven by Guy Lombardo.

Inasmuch as there are only 24 unlimited boats listed with the American Power Boat Association, the Harmsworth fleet embraces the majority and is truly representative of the best in American waters.

The team of three will be selected in the trials, but speed alone will not be the main issue. The boats will be judged on

their seaworthiness and maneuverability, along with past performances.

In this connection, Guy Lombardo gave the selection committee something to think about when he phoned his entry:

"I have had 700 pounds taken out of my boat and this has greatly increased its speed. But, in spite of the showing I made in Detroit in recent regattas, please remember that the old Tempo VI usually finished a race—and that's more than can be said for a lot of Harmsworth boats."

While the trials will be held over a four-day period, the Harmsworth rules do not require that the team be selected immediately. The committee will have until two hours before race time to make the final choice. For that reason, it is more than likely that three boats will be selected along with three alternates and the final choice made just prior to race time.

Prior to the trials, there will be a conference dinner of the boat owners at the Detroit Yacht Club on Thursday evening, August 24th, at which time further details of the trials will be discussed and a schedule set up for the trials. Incidentally, Lombardo has asked to run Tempo VI at 8 o'clock Friday morning in order that he can get away to conduct his orchestra at the Canadian National Exposition over the next week-end.

Reports from Gravenhurst, Ont-

tario, where the Canadian challenger is being prepared, indicate that the difficulties which pursued the boat a year ago have been removed and that the craft is running very satisfactorily. Therefore, a spirited contest between the Rolls-Royce powered challenger and the American motors is in prospect.

The course over which the Harmsworth will be run is five nautical miles in length—laying between the Belle Isle Bridge and a point opposite Gar Wood's home in Grayhaven. Contrary to previous years, the boats this year will run counter-clockwise and may carry one or more in the crew. Each race will consist of eight laps, or forty miles, and the first nation to win two races will be declared the winner of the famed Harmsworth trophy.

The first race is scheduled Friday, September 1st, and the second on Saturday, September 2nd—each starting at 5:05 o'clock, with the start and finish at the Detroit Yacht Club. Should a third race be necessary, it will be held Labor Day morning at 10:30 o'clock to clear the decks for the annual Silver Cup races in the afternoon. Should a postponement of either of the first two races be necessary, it will be run on Sunday afternoon at the same time.

**PRACTICALLY A PARADISE**  
Gary Cooper, star of Warner Bros.' Technicolor melodrama, "Dallas," likes to describe his mountain home at Aspen, Colo., as "a paradise on earth, practically." To the right of his house is a trout lake, to the left is a trout stream, and near the front door is one of the finest ski slides in America.

## Offer Top Engineering Courses at UD

The University of Detroit evening division will offer special top-level engineering courses on the McNichols Road campus in the fall semester.

"These courses will not only be of value to night school engineers wishing to continue on an evening program instead of day school," explained Dr. Francis A. Arlinghaus, division director, "but will also offer refresher work to engineers in industry." Statics will be taught Mondays and Wednesdays beginning at 7 p.m., and dynamics on a schedule beginning at 8 on Monday and 9 on Wednesday.

Registration is scheduled for September 6-16.
