Thomas Willson, a senior from 418 Maison, with Richard Cain of Kalamazoo, is in charge of the Homecoming Parade at Kalamazoo College, Kalamazoo, Michigan. Homecoming Day will be held by the college on Saturday, Oct. 27, and will feature a full day's program of events. The traditional parade and bonfire will be celebrated the day before, on Friday. The football opponent will be Hillsdale College, the game to be held Saturday afternoon at Angell Field.

Kenneth Venderbush, son of Mr. and Mrs. Ray E. Venderbush, 820 Pemberton, has been named associate editor of the Kalamazoo College Index, the student weekly newspaper. This announcement was made by the editor, James Morrell, of Kalamazoa, Mr. Vender, also active in many other organizations on the campus.

Two members of the Naval Reserves residing in the Grosse Pointe Woods com-munity have been called into active service. They are Jack Graham, son of Mr. and Mrs. William Graham, 20605 Ver-nier Circle, and Walter Gef-fert, son of the Rev. and Mrs.

W. J. Geffert, 1702 Stanhope. Having served in a local unit of the reserves during the past 10 months, these young men will leave for the Naval Training Center in Great Lakes, Illinois, tomorrow, Oct.

Marine Private First Class John P. Dimmick, 21, husband of Mrs. Barbara Dimmick, 904 Grand Marais, was promoted to his present rank when he was graduated from Boot Camp on Oct. 8, 1951.

Dimmick climaxed his recruit training by winning the marksman medal on the rifle range when he fired a score of 203 out of a possible 250 during his weapons training.

Dimmick entered the Marine Corps in October, 1950. He was an employee of Central States States Eng-Corp. Detroit, where he was a draftsman.

Fire prevention is an important part of civil defense. If an enemy attacks this country, his bombs, whether they be atomic, high explosive, or incendiary, will cause more damage by fire than they will by blast. Hence, anything done to make it hard for fires to start is a step towards preparing your community to protect itself if war comes.

Defense Go Hand in Hand

The majority of all fires start in chimneys. Others are caused by trashpiles, rubbish, or stored odds and ends that accumulate around the house. Closets, attics, and cellars are the main source of cellars are the main source of it, clean it out. write or print his name he may have his own library card. If you drop in at one of your libraries of an October or November morning and find twenty-five or thirty amail future citizens with their teacher, you may well wonder 'what goes one at your library.'

It is the goal of the library to have each child in the community own and better still use a nublic library card. To this end we have had the excellent cooperation of the schools, public, parochial and private.

Early in the Fall semester, arrangements are made by which all schools within walking distance of a library send classes for an annual visit. At this time the children learn how to use their library and an effort is made to interest them in books

and reading.
When the distance between school and library prohibits these class visits, the children's librarian visits the schools and talks with the children in their class rooms to stimulate an interest in the library and in reading. Said one youngster, presenting himself at the library desk after one of these visits . . "Well, here I am. You sure sold me!"

In a brief span of years these children will be adults. They are library minded now. Our job is to keep them so.

Beginning this month a weekly story hour will be held at the Main Library and at the City and the Woods Branches. All boys and girls of school age are invited. At a later date we hope to have a story time for the pre-

school children. Story Hour at Main-Thursday, 4 p.m., beginning October 18; at City — Tuesday, 4 p.m., beginning October 16; at Woods -Saturday, 11 a.m., beginning October 13.

> about the new building and hopes to do everything possible to forward its progress.

The group is also planning a dedication ceremony for the opening of the Woods Branch some time in December.

With such able participants as Mrs. George True, chairman of the membership committee, Mr. Willis Bugbie, chairman of the program committee and Mr. Charles A. Parcells, Jr., chairman of the gifts committee, the Friends will be sure to have a constructive and worthwhile program this year.

The library staff is appreciative of the excellent work this organization is doing.

The Golden Text is from Psalms (118:14, 17): "The Lord is my strength and song, and is become my salvation. I shall not die, but live, and declare the works of the Lord." Among the Bible citations is this passage, (Prov. 15: 26); "The thoughts of the wicked are an abomination to the Lord: but the words of the pure are pleasant words."

Hans Becherer, who did most of the kicking off and punting for D.U.S., got off one of his several good boots of the day, to give A. E. Smith their first opportunity to handle the ball. D.U.S. held them nicely, before Clarence Krajenke, center, recovered a Smith fumble on the Smith 39. This life for D.U.S. didn't last long though, for Brown fumbled on the Smith 30. with A. E. Smith recovering. The first quarter ended with no more scoring.

Early in the second quarter, Rentschler intercepted a pass on the Smith 31. Ohmart then went nine yards over left tackle, before Rentschler went the remaining 22 yards over center to paydirt. A pass from Rentschler to Osbeck was good for the extra Bennett and Mrs. Ward Cornwell point. Not much more action occurred in the second quarter until, with about two minutes re-maining in the half, Rentschler maining in the half, Rentschler went troop-camping at Camp intercepted his second Smith Holly on October 5, 6 and 7, with pass of the afternoon, this one Mrs. Harry Findlay, Mrs. Zolad, on the D.U.S. 24. by Dr. Arthur M. Majester, O.D. Many optical systems (the glass elements) in still and movie cameras as well as binoculars used in the tropics during War II, were destroyed by fungus. These microscopic growths give off acids that etch the lenses, thereby making the camera, binoculars and even eye glasses useless. Scientific laboratories have come up with new treatments for lenses to overcome this disadvantage.

In recent years coated lenses proved a boon to eyeglass wearers. These lenses have a very thin layer of a metallic compound to cut down loss of light by reflection. Coated lenses do not confuse the eyes with reflections from behind, and do transmit more of

the light to it from in front. Through science we are getting better materials to aid the human eye, the best instruments and procedures ever devised to test and correct any deficiency that the eyes may have in seeing.
