## CITY GOES TO POLLS ON TUESDAY

### HEADLINES

of the  
WEEK

As compiled by the  
Grosse Pointe News

Thursday, October 25

**AN INTERNATIONAL** News Service story from Washington says that Professor Albert Einstein and associates have informed President Truman that German scientists are conducting research in atomic energy and rocket bombs in Spain under the protection of Generalissimo Franco. Representative Coffee of Washington says the President is reported preparing a statement denouncing the Franco regime and believes the situation will lead to the severance of diplomatic relations with that country.

**RESULTS NOT KNOWN** in the strike poll of GM employees yesterday, but agreed by all that the overwhelming proportion of those who voted favored strike if demands are not met. Union spokesman conceded that of 325,000 GM employees eligible to vote probably not more than 100,000 will vote in all its plants throughout the country. Next on the strike vote list are the 125,000 employees in the Chrysler plants, who cast their ballots today.

**GLADWIN HILL**, New York Times correspondent in Warsaw, says the Communists are making fast progress toward the control of the country by the political technique of setting up several independent parties, nominally differing in objectives, but basically holding the same Communist tenets. Under this plan the Communists groups already hold twelve of the twenty key positions in the Polish Government.

**THE CABLEGRAM** Mrs. Thompson sent to Russia the day she was murdered is discarded as a clew by the Oakland county authorities.

**GOVERNMENT** economists report to the Reconversion Advisory Board that industry can afford to raise basic wage rates as much as 24 per cent without increasing prices.

**DR. ROBERT LEY**, head of the German Labor Front in the late Nazi Government hanged himself last night in his prison cell in the Nuremberg Prison. He was awaiting trial as a war criminal with 23 other associates.

**HARRY H. BENNETT**, who had been relieved of his position as Director in charge of Administration, in the Ford Motor company, several weeks ago, resigns from the Ford board of directors. He asks that his resignation be accepted at once that he may be free to engage in other business.

**GENERAL MOTORS** employees endorse the strike by a 6-1 vote but high union officials insist they will order a strike only as a last resort after all efforts to reach agreement with the company have failed.

**NEW YORK TIMES** correspondents in six European countries make common report that friction between the Anglo-American Allies and Russia has made more difficult the administration of the occupied areas.

**NAVY DAY** and eighty-seventh anniversary of the late President Theodore Roosevelt's birth, first President to build a modern United States Navy. . . advocate of the "strenuous life," a lover of the outdoors, a naturalist, a hunter of big game, an explorer in both Africa and South America. . . his administration marked the end of an era and the beginning of a new one, as the first President to definitely place limits to the machinations of organized wealth in the political life of the nation. . . built a fleet of sixteen of the most powerful first line battleships of that day and sent them around the world on a "practice cruise." September 1907—February 1909, when Japan was making bellicose gestures against the recently enacted California Alien Land Laws. . . ran for President on the "Bull Moose" (Independent) ticket in 1912 and won 88 votes in the electoral college against 8 by President Taft, who carried only Vermont and Utah and became the worst defeated candidate who ever ran for President (Continued on Page 2)

### "Jamming" of Police Radio By Pointe Kids Is Disclosed Following Halloween Boast

Amateur Broadcasters Also Interfered with Boat and Plane Reception before Uncle Sam Stepped in

Some recent dark intimations from a trio of amateur radio broadcasters, that they were set to do some expert "jamming" of the police two-way radio as their piquant contribution to the Halloween festivities Wednesday night, called forth an expedition from Chief Trombly of the City in his office Monday afternoon.

The Chief's impromptu remark tore the lid right off of the hitherto unpublished story of how some Grosse Pointe youths last summer invited into their experiments the painful and embarrassing intrusion of the Federal Communications authorities.

There are three boys at least, in the Pointe, living on Loraine, McMillan and Moran respectively who have, by indulgence of fond parents, radio transmitters of a power and range quite out of proportion to their amateur status. With this equipment the youths had all sorts of fun for a while last summer in messing up the radio messages coming in from the big ships passing through the nearby Lake channel and even ever and anon interfering with the transmission to and from airplanes flying overhead.

The fun had not progressed too far before sleuths from the Communications Commission office in Detroit were nosing around.

Their investigations, with the top flight equipment with which they work, soon succeeded in tracing the scientists to their lairs. Needless to say the interference stopped short.

Whether or not the jamming was resumed on the local police wave on one of the nights of its promised greatest activity was not known when the News went

### Expert Says Pointe's Bus Company Has Choice Setup

One of the higher bracket employees of the Detroit Street Railways overhearing a conversation between two citizens of the Pointe in which fear was expressed that if the Pointe villages bore down too hard on the Lake Shore Coach Lines, Inc., on the matter of taxes the whole Pointe area might suddenly find itself without bus service, broke in with a grin and observed that there was not the slightest danger of that happening.

"Don't you people in the Pointe realize," he said, "what a choice morsel it is for a passenger carrying concern to have the monopoly on the business of transporting the people between Detroit and a community like Grosse Pointe?"

"If any threat of suspension of service is ever made as a back-

### 200 Children Made Happy By Toy Club

Pointe Organization Also Gives Presents to Aged and Ill Without Funds

The Grosse Pointe Toy Club, which is starting its annual campaign to raise funds to see that every Pointe kid has a toy for Christmas, is anxious that those who donate to the fund know just how the money is spent.

The firemen and police of the Pointe constitute the Toy Club. All the time they spend on the worthwhile work of the organization is donated and every penny received is spent on toys which go to unfortunate children who would not have any if it weren't for the club, and for less privileged aged and sick.

During the last year donations to the club and the balance left over have totalled \$1,182.66, the amount on deposit on January 4, 1945.

The club does its heavy buying right after the holidays, when toys can be bought at a discount. They are then stored away for the following Christmas season. Since January the club has spent \$346.05, and had a balance in the bank on October 25, 1945 of \$239.61. The stores give the club goods at wholesale prices.

Records show that 200 children of 54 families were taken care of with toys, games, candy and fruit cakes. Gifts of toys, fruit cakes and toys were also sent to Marine Hospital, Sigma Gamma, St. Francis Home, German Orphanage, Evangelical Orphanage and Lutheran Charities.

Patients from the Pointe area who are in Eloise Hospital and the Dow Convalescent Home also received fruit cakes. Twenty-six cakes were given to old people in the Pointe.

Three dog bites were recorded in the Farms during the week. Kenneth Fields of 208 Lakeview was bitten on the left leg Friday night by a terrier owned by Mrs. Lilly Frazier of 388 Ridge road.

Marilyn Norton, aged 11, of 903 Rivard, was bitten on the left hand Monday night by a Schnauzer owned by R. F. Olinger of 271 McKinley road.

Robert Young, aged 3, of 443 Madison, was bitten over the right eye Tuesday morning by a cocker owned by R. S. Bankert of 452 Moran road.

In all cases the bites were reported to the Department of Health and the animals ordered confined for a 10 day observation period.

### Gloved Bandit Is Given Long Pen Sentence

Ernest Morris Put Out of Circulation for Five to Fifteen Years

Householders of Grosse Pointe who have been nervous since Ernest Morris, the gloved bandit who was alleged to have pulled off many major burglaries in Grosse Pointe and in Bloomfield Hills within the year, was let off by the Circuit Court on probation, need have no further fears regarding his movements. Ernest is definitely removed from circulation for some time to come.

While he was still on probation he robbed a home in Detroit where a young woman whose bedroom he had entered recognized him only as a colored man. Soon after the robbery a Detroit scout car picked him up on a street corner for a general quizzing and examination as is frequently given to probation or parole cases and found a quantity of jewelry on his person, which they were convinced had been stolen. It was identified by the young woman whose bedroom he had invaded.

This was a little too much for the over patient Circuit Court and Ernest was sent up for a long stretch in Jackson.

The time he pulled off three burglaries in a single night in the Farms and Shores his local career was summarily stopped by a pistol shot in the groin administered by Lieutenant Duemling of the Shores police. He lay at the point of death in Receiving Hospital for several weeks but was apparently too tough to die. He never acknowledged any of the Pointe robberies and the police here found it impossible to make out a burglary case against him.

He was sent up at that time for stealing the car which he used the night of the three point robberies in the Farms and Shores and it was because of his breaking his parole for this offense, plus his jewelry stealing from the room of the sleeping woman, that led to his long sentence recently.

He was sent to Jackson penitentiary by Judge Krause on a sentence for burglary and entry, for five to fifteen years.

### Accused Bandit Given Hearing

Arraigned before Justice Kenneth Thomas in the Farms last Saturday morning on a charge of holding up the Beaufre Hardware store on Kercheval avenue on Tuesday afternoon, October 23, Paul W. Barnes, 26, of 1978 Philip, Berkeley, Mich., waived examination.

He was bound over to circuit court on a \$5,000 bond and two sureties. Barnes was caught by Detroit police shortly after he took nine dollars from Alvin Guoin, proprietor of the store. He used a car he had stolen in Detroit 20 minutes before, to make his getaway.

### Boy Breaks Leg In Scrub Game

On the first play of a scrub football game on the High School grounds last Saturday morning, Bobby Moore suffered a broken leg. He was taken to Cottage Hospital by Farms Police Officers Hilgendorf and Roland.

On Monday Dr. John MacKenzie of Cottage asked the Farms to provide transportation for an emergency trip to Harper Hospital, where Bobby was taken.

The Farms police reported they were told the main artery in the boy's broken leg, had become squeezed in the fracture, and his leg had swelled badly.

Harper Hospital reported Wednesday morning that circulation had been restored in the leg and the swelling had been entirely reduced.

Bobby is the son of Mr. and Mrs. Robert Moore of Kerby road.

**DRAFT CALL SCHEDULED.** Draft Board 57 will have another call for draftees on Monday, November 19.

### Farms Asks State To Curb Macomb's Pollution of Lake

Resolution Sent by Trustees to Health Commissioner Asking Him to Halt All Dumping

A resolution protesting against the pollution of Lake St. Clair by Macomb County municipalities has been forwarded to Dr. William E. DeKleine, State Health Commissioner, by the Village of Grosse Pointe Farms.

The resolution was adopted at a meeting of the Farms trustees on October 15, but the formal wording of it was carried over to a later date. President James K. Watkins worded the general structure and the exact wording was placed in the hands of a committee.

The attention of the State Health Commissioner is called to the fact that William Harper, drain commissioner for Wayne County, closed the interceptor gates on September 25 and again allowed the sewage and drainage from Macomb to pass directly into Lake St. Clair instead of continuing through the interceptor. This interceptor was built at a great expenditure of federal and county funds for the express purpose of stopping the lake pollution.

Local and state officials have pointed out that Mr. Harper has evidently been lingering under the delusion that the Pointe communities didn't care about lake pollution excepting during the summer swimming season. Some time ago the state officials asked the Farms village engineer, Murray Smith, to suggest to the Farms trustees that they adopt the resolution protesting Mr. Harper's action.

The finished resolution as sent to Lansing, follows:—

WHEREAS, Lake St. Clair is one of the natural resources of this community providing not only recreational facilities for bathing, boating and fishing, but also furnishing the water supply for this and other communities, and

WHEREAS, the emptying of raw sewage into the lake by the municipalities of Southern Macomb County tends to contaminate the water, to prevent the use of the lake for bathing, to destroy the fish therein, to make

### Goosey, Goosey Gander's Gone

Wanted: the safe and considerate return of a goose, who some time in the early hours of Monday morning wandered from his domicile in a garage at 988 Lincoln road. His mistress will deeply appreciate his early return. She trusts there will be no hiatus in the fattening process in view of the near approach of the season of heartfelt thanksgivings.

The Christian Science lecture delivered by Miss Florence Middaugh on Friday, October 26 at Sixth Church of Christ Scientist was omitted from publication in this issue of the NEWS because of reasons beyond our control. It will appear in full in the issue of Thursday, Nov. 8.

### Detroit Police Ask Pointers To Enroll in Traffic School

Officer Joseph L. Stephens of the Detroit police department has been calling on Pointe police officials in recent days to stimulate interest among Grosse Pointers in schools for safe driving which the Fifth and Fifteenth Detroit police precincts are putting in operation. Officer Stephens is the Safety Officer attached to the Fifteenth Detroit precinct.

These schools, he says, should appeal to Pointe citizens because they are maintained in territory immediately adjacent to Grosse Pointe, and if any resident of the Pointe happens to get into driving trouble with the Detroit police it would stand him or her in good stead to be the possessor of one of their certificates stating that they had taken such a course in the Detroit police

### Only Fights Center About Council Posts

Ralph MacGregor Picked to Try and Unseat Chester Carpenter; Morgan Runs

The election in the City of Grosse Pointe next Tuesday will be a quiet affair so far as the election of the executive officials of the City is concerned. Ralph B. Netting, a councilman of the City for several years past, is unopposed for Mayor, as are Norbert P. Neff for City Clerk, Theodore G. Osius for Treasurer, Neil Blondell for Assessor and Charles H. Locke for Constable.

The Council fight is another story. John H. Mack, a present councilman, is a receptive candidate rather than an aggressive one. He appears to have no serious opposition, although it is noted that his name appears in the political advertising for the Carpenter slate, along with that of Sidney H. Morgan.

Mr. Morgan is a new name in the candidate councilmanic list. He is generally agreed upon by both sides, and has a likely chance of leading the ticket. The real fight centers about the head of Chester F. Carpenter, a city councilman of several years standing and for practically his whole tenure of office the commissioner of highways and parks. The group opposed to Carpenter has picked Ralph MacGregor to carry the banner. Mr. MacGregor is a mason and waterproofing contractor. He is married and owns his home at 942 Rivard where he has lived for the past twenty years. He has no particular yen for politics but has consented to run for the group that would like to unseat Carpenter.

The fight that revolves around Carpenter's head is partly intra-office in that Mr. Neff, the City Clerk and Mr. Blondell, the Assessor, make no bones about their preferences for MacGregor and Carpenter respectively. In addition to these however both candidates are supported by a lively group of citizens.

Ralph B. Netting, the unopposed candidate for Mayor, has had a fine record as a city councilman, although for the past three years he has been in the Navy and his inability to attend many of the meetings has been noted by his fellow councilmen. Mr. Netting is a graduate of the U. S. Naval Academy.

Some question had been raised as to his eligibility for the office while he was still in the Navy. That question apparently has been cleared up by an opinion from a responsible source that he can run for the office and be elected but could not actually serve until he was discharged. Mr. Netting receives his discharge from the Navy on November 1, it is understood.

The electors will also pass upon the proposed employees' pension measure recently adopted by the city. This measure was approved by the council after long investigation and is quite in line with modern relationships between municipalities and their employees. There does not appear to be any serious opposition to the measure.

Another matter that has escaped much publicity on which the voters will also pass concerns the authorization by the citizens for the sale of 23 acres of property which the city owns in Detroit along Radnor between Mack and Warren. This property was acquired by the city many years ago for a sewer disposal installation and used as such for a time, but has now been out of use for the past twenty-five years.

It is a tract 5,000 feet long but only about 250 feet wide. Some of it is being sought now by a Catholic order for a site for a High School.

The proposal is to sell it for approximately \$35,000. There is much opposition to this sale by citizens who have given thought to the matter. The main argument is that this plot will be of great future value to the City as a site for public works necessitated by the City's growth. It is felt that to acquire such ground in the future would cost much more than the comparatively small sum that would be

the lake less suitable as a source of water supply for the communities so using it, and the continuance of this practice may constitute a serious hazard to public health and safety, and WHEREAS, it is entirely unnecessary that said communities use the lake for the discharge of (Continued on Page 16)

### Hallowe'en Season Ends

Police Books Full of Usual Depredations; Tomatoes Are Favorite Weapon

As the NEWS goes to press this week, Pointe youngsters are attending their annual community Halloween parties in nine centers throughout the area and another season of pranks is drawing to a close.

The police books of all the Pointes have been crammed for the last week or more with the reports of the usual Halloween depredations and damage. Ripe tomatoes have been the favorite weapon of the majority of the youngsters. They have been used to throw at passing motorists and pedestrians, at houses, stores and offices. They have been rubbed on freshly painted homes. A gate has been missed here and there, but they have been discovered later, hidden in shrubbery or tossed in a vacant lot. The usual soaping of car windows and windshields and the ringing of doorbells have been as popular as ever.

One of the chief concerns of the police has been the removal and damaging of stop and street signs. The traffic control sign at Fisher road and the boulevard was damaged and stopped working until repairs were made. The police have been as tolerant as ever.

### Cleanup Drive This Weekend

Authorities Ask All to Cooperate to Make Campaign Successful

The Pointe authorities hope the annual cleanup campaign will make a garrison finish on the last three days of the campaign, Nov. 2, 3 and 4, Friday, Saturday and Sunday.

Householders are urged to clear the rubbish from their victory gardens and their premises in general and place the rubbish on the curbs between the sidewalks and streets. All of the villages have pressed every extra truck into service to gather up the refuse.

It would not guarantee them immunity against punishment, but would place them in a position to receive more considerate treatment, as evidencing their interest in safe driving.

These schools are held each Tuesday night from 8-9 o'clock. Instruction comes under the headings A, B and C. The first instruction has to do with the duty of the policeman and carries information on the various traffic ordinances of Detroit. The second, or B section of the course has to do with the general theme of traffic violations of which the citizen may be guilty; and C, the general qualifications required for safe driving on the part of the civilian driver.

# "KISS of DEATH"

By LAWRENCE RANDALL  
 As Told to Mary Madison  
 SYNOPSIS OF THE STORY SO FAR

Coming home to Grosse Pointe, brilliant young publicist  
**LARRY RANDALL** finds Grosse Pointe shocked by the sensational death of the girl he loves and idealizes.  
**MIRANDA AMES**, fabulous beauty and heiress of the world's greatest motor fortune, Consolidated Motors, with her stepmother,  
**FAY AMES**, a champagne blonde with a colorful past. **LARRY RANDALL** is assigned to suppress publicity on the murder by  
**CORNELIUS DUNN**, public relations counsel for Consolidated Motors, directing the case from New York, and sending ace detective  
**GUY ZINGLER** to aid Grosse Pointe police solve the crime, in charge of  
**LIEUTENANT CARROLL**, homicide expert, who shows **LARRY** the exhibits found by **MIRANDA'S** body on the pier of The Grosse Pointe Golf Club. 1) match folder from The Plaza Hotel. 2) spilled face powder of unknown brand. 3) a wine menu with the autograph of the big name band leader, Jock Pendleton and 4) a string of \$50,000 pearls on **MIRANDA'S** body. **LARRY** vows to kill the killer. At the Lakeshore Drive estate of **FAY AMES**, **LARRY** finds her with  
**ROGER BROOKS**, the aimless, aristocratic fiancé of **MIRANDA**.  
**DON MONACO**, a hand-kissing clarinet player of noble ancestry. And  
**MISS SNEED**, the gaunt old family retainer who was **MIRANDA'S** former governess. The cadaverous **MISS SNEED** startles **LARRY** in the act of taking a sample of **FAY AMES'** face powder, as **FAY** enters and claims her powder case. A morbid atmosphere seems to haunt the magnificent menage of the Ames estate.

**IN THE ESQUIRE ROOM**  
 Cornelius Dunn's air-shipped investigator, Guy Zingler, was in my bachelor apartment when I drove back from Fay Ames' place. Stretched out on a sofa, he was spellbound, gazing at my first edition of "Vertes" with an interlinear smile.

I said, "I'm glad you got in all right and found something to read."  
 "The switchboard operator gave me the key you left for me."  
 Guy Zingler was a glossy. He was a thin, sallow faced, sleekly groomed man about forty, with a black prop of a moustache which he had a trick of slanting to stress words when he talked. He was wearing an inspired Charvet tie with a smoky blue suit which I wagered he was going to tell me before the night was over had been cut by the young "Messieurs Rockefeller's" tailor. His grooming spelled Park Avenue but Broadway was tattooed on his face.

"Want to come with me into the kitchen while I mix some drinks?" I suggested.  
 The juleps I set up didn't taste quite so convincing to me as the ones from the Ames' pantry. Maybe it was because I didn't have the silver glasses to do the frosting job to perfection. Zing funneled his down. I hoped he wasn't going to turn out to be one of these chain drinker detectives. He may have sensed my thought for he hastened to assure me he was a private investigator, not a police detective.

I told him what I knew of **Miranda's** murder, beginning with Dunn's phone call, my talk with Al Carroll, and my meeting with Fay and Roger Brooks. I expanded on **Miranda's** background as I knew it. He, of course, had just a wirephoto acquaintance with her.  
 He said, "Then all the police have definitely established so far is that it is a brain concussion, causing instant death and inflicted by a weapon unknown."  
 "Right. I'm sure, though, that they're bent on solving the case and will do so."  
 "Do you think Cornelius Dunn wants them to solve it?"  
 "Why not? Why shouldn't he want them to?" I demanded.  
 "Don't get frothed up. I just asked, that's all."  
 "Well, whatever he wants them to do, it's got to be solved. I've got to know who killed **Miranda**."  
 I must have shouted at him with more force than I intended. His moustache curved in a confidential leer.  
 "And just what is your passionate interest in the case?"  
 I checked myself. That was just the thing I didn't want to do; appear to have a personal stake in **Miranda**.  
 "I'm working for Dunn. It's part of my job, putting this thing in the right light before the press."  
 "You're a very intense young man, aren't you? I'm working for Dunn, too, but I'm not overworking for him or anybody else."  
 I took the envelope containing **Fay's** face powder out of my pocket and showed it to him.

He clanked down his glass. "This **Fay Ames** sounds like a lucky lottery ticket."  
 "She isn't a ticket—she's a whole sweepstakes."  
 "The others you've mentioned that were at this Pendleton's dinner party," Zing said, jotting down the names in a soiled pigskin notebook, "I'll check up on their backgrounds and relations with **Miranda Ames**."  
 "Most of them are sacred cows."

You'll have to handle them carefully."  
 "Don't worry. I know scandal in this little affair is verboten as a straw hat in the stock exchange."  
 Zing leaned back. "This is the first kitchen I was ever in that had lounging chairs in it. Neat idea."  
 I explained that I sometimes drank my meals in it and like to be comfortable in the process.  
 "Well," he said brightly, "we've got a nice little murder set-up here, haven't we?"  
 I could fancy Zing, rubbing his hands together eagerly and wig-wagging his moustache with gusto as he caught his own mother, gun in hand, stuffing stolen bank notes into a satchel while he explained to her blithely that he was going to fix everything up cozy for her. He'd even give her a parting gift of a Five Year Diary to write her memoirs in Sing Sing.

I said, "Drink up. Then we'll go down to the Book-Cadillac and slap a grilled dinner and a couple tankards of Sherry on the expense account. I can drop this face powder at the Grosse Pointe Police Station."  
 "O.K. The Book is where I'm staying. Room 1300. One of those studio apartments where everything turns out to be something other than it looks like."

"Don't you think it would be a smart idea to have a private phone wire put in, Zing?"  
 "First thing in the morning. About this powder you're taking to the police. Even if the powder should be proven by analysis to be the same as that found on the pier, you still haven't made any point. There may be hundreds of women in town using that particular powder."  
 "But **Fay Ames** wouldn't be using an ordinary powder. It would be too expensive a brand to involve a directory full of women. It's a point, anyway."  
 "I don't count so much on points as on people," he replied. "Anyway, it's beyond me why you'd want to involve the woman you're supposed to be representing."  
 "I'm not her lawyer. I'm her public relations man. If she's involved, the only way I can keep it quiet, is to know about it."  
 "Sounds like a perfect echo of the master's teachings."  
 We got into my car, crawling down the drive by the laced-loamed lake, toward town. The traffic was the customary Sunday serpentine tangle of people driving back into town, ex-

hausted from a week-end's rest in the country.  
 Zing came into the police station with me to meet Al Carroll but Carroll wasn't back yet from his trip to see Birdie Maclean at the Grosse Pointe Club. I knew Carroll didn't care much for private tails and Zing probably had no hankering for police detectives. I left the powder sample for Carroll with a note.

On our way out I careened into Flash Corbett. Corbett these days was by way of blowing himself up into a radio commen-

tator, that spawn of newspaper man and lecturer. I'd known him in his A.P. days when he was working strictly from hears like the rest of us. Even now he couldn't keep away from a story when it appealed to him.  
 "Hello, Randall. When are you going to hand out a hoked up release on **Miranda Ames**? All I can get so far is the fact that she's dead—and we didn't get that from the police."  
 "That's all there is to get," I lied.

### Pointe Rotarians Hear Plan For Detroit Transit System

Del Smith, Public Relations officer for the DSR was the guest speaker at the Grosse Pointe Rotary Club meeting at the Whittier Monday noon and gave the members a revealing talk on the plans that are in the making for a vast expansion of the transit facilities of Detroit.

About a year ago the Mayor appointed a body known as the Metropolitan Transit Board, whose function it was to make a survey of the city and its immediate suburbs with the twofold object of bringing in a recommendation for improved transit facilities which would contemplate certain express highways and aid the DSR to give faster and more adequate transportation service to the community.

In general terms this board has recommended that four main express highways should be built; one on Grand River, one already known as the Harper-McGraw project, one running along Hastings street from Jefferson avenue to the north boundary of Highland Park and the other the Lodge Express Highway which would virtually preempt all of the present Fourth street.

Practically all of these highways would be either depressed below their present grade, as is the case with the Davison Highway, or elevated above it. A second important feature of the proposed transit system would be

the location of four additional terminals. These would provide facilities for the handling of about 300 more buses per hour. The legend on the numerous maps and drawings which Mr. Smith displayed called the plan the "DSR Modernization Plan."

Mr. Smith doubted whether the subway feature in intra city transportation would ever play the important part in the development of a Detroit transit system that it does in New York, as the physical conditions in the two cities are entirely dissimilar.

Naturally the development of a vast transit engineering project such as proposed in Detroit would cost a large sum of money; just how much Mr. Smith was unwilling to estimate. He did venture that when once the go ahead was given on the job it could be finished in two and one half to three years.

#### CIRCUMSTANTIAL EVIDENCE

When the windows of a school teacher living on Kenwood court were soaped by a Halloween prankster, she told Farms police she thought she knew who did it. The accused youngster was picked up and confessed he was in the neighborhood at the time, but denied that he had soaped any windows. He admitted however, that he had been kept after school by the teacher several times.

### Canadian Driver Given Lodging

As Jerome Baecke, of Langton post office, Norfolk county, Ontario, was driving south on Berke-shire near Charlevoix he collided with a car owned and driven by John L. Swantek of 8226 Morrison, going east on Charlevoix. The Park police opened that the Canadian gentleman was so much under the influence of drink that he had best be taken into protective custody for the night.

The following morning the judge approved their appraisal of the case by fining Baecke \$75 and \$5 costs. He was also directed to pay for the damages done to Swantek's car.

### Joy Ride Ends In Lecture Tour

Five boys, several of whom have had previous acquaintance with the City police, went on a synthetic joy ride Sunday night and were picked up by the police. One of their chief offenses was that they were making a great display of drinking beer out of bottles held at a rakish angle while they coursed up and down the quiet streets of this otherwise well ordered community.

Monday afternoon they were all in for a talk with Chief Trombly, who was primarily interested in where they got the beer. They succeeded in convincing him that they had collected it in two to four bottle levies on their respective home refrigerators.

One of the boys is already under probation with the County Juvenile courts and the Chief bore down strongly on their disloyalty to a friend who is in a parlous position with the court.

After an earnest talk from the Chief and appropriate expressions of regrets from the boys, they were told to go and sin no more.

### Ardent Admirer Scares Damsel

A young woman who lives in the 1200 block of Beaconsfield appealed to the Park police Sunday night for protection. She said she was "afraid of her gentleman friend"; also that he was still in her flat.

Ever anxious to succor innocence in distress, a couple of the officers accompanied her home. When they arrived there they shed all doubt as to the ardor of her late friend. Although he has disappeared he had done visible damage to the door of the young woman's apartment.

At her request they lingered while she packed a few intimate personal belongings and went home to mother. She said she would be only too glad to pay the landlord for the damage done the property by her late admirer.

#### ROOF FIRE EXTINGUISHED

A roof fire that was quickly extinguished by the Park firemen was started at the property at 920 Beaconsfield just before noon on Sunday.

### Bishop Raymond Wade Comes To Methodist Church Sunday

The Charter Period of the Grosse Pointe Methodist Church closes this coming Sunday, November 4, when Bishop Raymond J. Wade will bring the message of the morning at the 11 o'clock hour. Bishop Wade, who is the Bishop of the Detroit Area, will assist the pastor, Rev. Hugh C. White and Dr. J. Adolph Halmhuber, Executive Secretary of the Methodist Union, in the reception and recognition of all Charter Members. The Charter Period remains open for Service Personnel who can come into Charter Membership at their earliest possible convenience.

Bishop Wade, before the war, was Bishop of the European and North African Jurisdiction of the Methodist Church. He plans to leave on or before the first of March for a tour of the war devastated areas. On his list are Sweden, Norway, Denmark, Finland, Latvia, Estonia and all of Central Europe and North Africa. He will visit and report on as many of these localities as time

and conditions will permit. Bishop Wade has been in receipt of many interesting and informative communications from these areas and has in his grasp a very comprehensive picture, not only of the conditions as they affect the church but of general conditions everywhere in the European and North African Theater of Operations.

### Explosion Starts Blaze in Park

A queer sort of grass fire occurred Saturday evening in a vacant lot south of 572 Pemberton. After making an examination of the fire and its origin Sergeant Mead believed it was caused by a small explosion of some kind of gas that had accumulated in a pile of smouldering leaves. He concluded this to be the case from the fact that the explosion had been sufficient to send flying embers a considerable distance away and start another fire. No actual damage was done.

### Taxi Sleuth Puts Finger on Drunk

The Grosse Pointe Cab company office called up the City police station at 4:45 o'clock Thursday morning and reported a very reckless and apparently drunken driver going east on Kercheval.

Officers Dereadt and Collins took up the hunt and arrived just in time to see A. J. Wettlaufer of 514 Lincoln road putting his car in his garage. The car had its front end smashed in and its driver very drunk.

As the driver had been lately outward bound from Detroit the City police called up the Detroit Accident Prevention Bureau and they sent out Officers Urban and Beekman who reported that he had hit a car on Charlevoix east of Hillger. They took Wettlaufer back to the McClellan police station.

### Woman's Scream Scares Accoster

As a young woman living in the 1000 block on Maryland was returning to her home at 8 p.m. on October 25 from a nearby candy shop she was accosted by a white man, apparently 25 years old who asked her "who lived there?"

The young woman was alarmed by the appearance of the fellow and ran onto the porch of her home which fortunately was almost at the exact spot where he was accosted. The man ran up on the porch after her and grabbed her arm. She screamed and the man ran away, crossing the street and disappearing between two houses on the opposite side.

### Pranksters Keep Police on Hop

Saturday evening about nine o'clock J. Wittstock of 1200 Devonshire, phoned the Park police that boys were playing hare and hounds over his property, breaking down the hedges and shrubbery.

When Officers Hoyer and Ingalsbe reported for an investigation they found no boys. While pondering on the sudden disappearance of the youngsters how-

ever a second alarm was turned in from 1162 Devonshire, just a few steps away. There presumably the same active youths had set fire to windrows of dead leaves on the pavement between St. Paul and Kercheval. Again the youngsters did the disappearing act.

Exactly ten minutes after the second call a report came in from the Berns home at 1240

Bedford that some boys were running about in a vacant house across the street, apparently carrying burning brooms. Again the officers took after the fast moving youths and got there just in time to catch a fleeting glance of them, but not soon enough to bag any of the quarry.

Apparently the youngsters thought the trail was getting pretty hot as that was the last heard of this particular platoon for the evening.

## Truman Tells How

President Truman's speech Tuesday night which was frankly acknowledged in advance to be intended to express the position of his administration on the problems that beset the country's domestic affairs told us little that was new and also little with which we can disagree.

Most of it had to do with a recital of natural laws of economics with which all are more or less familiar. On the one hand we are threatened with inflation which would be very bad; on the other with deflation, which, according to Mr. Truman, would be even worse.

Wages must be increased, the President says, that the buying power of the people may be maintained. That of course would mean inflation, unless, the prices of the things which labor produces and would be expected to largely buy, were kept down. He pleads with all the old time Roosevelt fervor to hold the line.

He makes some slight gesture of concession to capital by proposing that where it finds the formula of higher wages without increased prices insuperable, it may bring its woe to the Government for a review of their individual problems and, if their complaint impresses his economic experts as justified, a special dispensation may be granted permitting them to advance their prices, subject, of course to the rigid control of the aforesaid experts. In a few cases, where the danger confronting the employer would be too imminent to permit delay, permission might be granted for a review of their situation at the time of the wage advance. By and large, however industry is expected to lie quiescent while this great experiment is underway. The effects of the six months "cooling off" to which industry is to be subjected before it lets out a squeak, might of course be read in the records of the bankruptcy courts, but of this Mr. Truman has no fear. He is firmly convinced that industry in its present "very strong position" will be amply able to absorb this increase of 20% to 25% in its payrolls.

He labors at some length to demonstrate this via the promised relief from the excess profits tax, the abolition of overtime pay, improved technique in manufacturing and the greatly expanded market that is bound to appear with labor's increased buying power. These are all features of the looming situation on which doubtless the great employers of the country have already had some casual speculation.

In Mr. Truman's entire speech he failed once to use the words "capital" or "stockholder." Obviously such opprobrious terms would grate upon the ears of his selected audience. The several millions of frugal citizens whose savings are invested in the securities of these great employing concerns are to shift for themselves if dividends stop. His remarks to the side responsible for meeting the payrolls were all addressed to "management," the hired men of the owners. Management was apparently the whipping boy for all the accumulated faults of the employers.

The President said he was most anxious to get the Government out of business as soon as possible, but, he urges the retention of the wartime powers vested in the government for a while longer. He yearns for the early restoration of free enterprise but at the same time wants those controls maintained which have plagued business and made a crazy quilt of the whole American economic pattern for the past dozen years.

He supports collective bargaining and with this general thesis he will have few dissenters. Common sense long since indicated this as the only feasible and fair way for employer and employee to make the necessary adjustments in their relations. He neglected to lay much emphasis on the obligation of labor to faithfully observe the letter and spirit of its covenants.

Mr. Truman inherited one of the most difficult tasks that ever confronted a chief of state when he took over the Presidency. The people in the main believe in his sincerity in attempting the solution of the tremendous problems that fell in his lap with the ending of the war. He cannot suggest a solution for any one of them that will meet with the approval of all. There will be many persons however who will regret that he did not speak with as much emphasis for a square deal for the millions of men and women, plain people of our common country who are the beneficiaries of the successful functioning of our industrial activities, as he did for those who operate them with their brain and brawn.

Many also will believe they see a direct glance towards his political future in the pointed way he referred to the failure of the Congress, even to, specified committees of Congress, to act favorably on certain legislation he has proposed, and which these segments of Congress have denied or delayed. It has required vastly more political courage for these committees to sprag his recommendations that it did for him to make them.

His animadversions on the Congress will not enhance his popularity with that body nor strengthen his leadership at a moment when signs multiply that his leadership is weakening.

## Standing By Our Guns

President Truman's Navy Day speech in New York which was heralded in advance as his most important expression on our foreign relations since he came into office, was exactly that. Even such an habitual critic of the administration as Senator Taft said it was an admirable statement of principles and Governor Dewey said "it was a wonderful, wonderful speech."

It being Navy Day it was appropriate that he should first pay his respects to the "most powerful navy in the world" and recite its recent heroic exploits and its great role in winning the victory. The meat of the speech, as it concerned the Navy, was that it was to be maintained as the strongest sea force in the world, even after the demobilization now under way. The same applied to the airforce.

This was an explicit expression from the President that America is to assume and keep its place as the backbone of the United Nations, or such structure as may evolve from it, to prevent wars between major powers and assure lasting peace in the world. It was the very essence of common sense. Where he said later that American foreign policy aims at full support of the United Nations' organization the assurance was already given that the means were to be at hand which would be adequate to give it force and effect.

If there was any single purpose upon which the American people were in accord when we entered this war it was that the errors of the last one were not to be repeated. When the peace had been won it was to be kept. This directly implied that such force in being was to be at hand, as would naturally indicate this nation as the rallying point for all

### STEWING IN OUR OWN "JUICE"

peoples of peaceful intent whenever world peace was threatened. Wisely, preparation were begun even before the actual end of the war to organize this intent through an association of fifty nations. The prime purpose of this organization was the preservation of world peace. It was effected on our initiative and consummated on our own soil. It would have been treason to our associated nations, particularly to the many small and weak countries which look to us as their chief bulwark of defense, to have done less than make an early pledge of our intent to maintain in readiness strength ample to command this leadership. Happily this pledge has come and from the President himself.

Mr. Truman enumerated twelve general theses to obtain in our foreign relation both at the moment and in the developing future. Most of them have long since been accepted by the majority public opinion here, but their reiteration was wholesome and timely.

He denied any territorial expansion or aggression by us; eventual return of sovereign rights to all peoples who have been deprived of them by force; freedom of the seas for all nations and equal rights to the navigation of boundary rivers and waterways which pass through more than one country. This later may be construed as a bow to Russia in her desire to gain free ingress to the Mediterranean area, but his preceding declaration of "No recognition for any government imposed upon a nation by a foreign power and prevention where possible of 'forceful imposition of such a government'" definitely was not. It may be interpreted to mean that some of the puppet governments now apparently in process of establishment by Russia in her small neighboring states will long await a welcoming nod of recognition from Washington.

Item No. 9 in his outline of foreign relations saying "The right of the sovereign states of the Western Hemisphere, to work together as good neighbors in the solution of their common problems", is quite clearly seen as a reaffirmation of the Monroe Doctrine of 1823, slightly smoothed down so as not to ruffle the sovereign sensibilities of our Latin neighbors.

The entire declaration was one with which no American citizen, short of small calibred, issue seeking politics will disagree. It breathed common sense from first to last. Hair-splitters and wilful doubters will cull from it selected items for disagreement but the great body of the citizenship of the country will approve it.

And America stands by her guns.

## Bus Tax

There is no disposition to find fault with the bus service the Lake Shore Coach Lines have given the people of the Pointe. Considering the handicaps in manpower and equipment under which all passenger transport concerns have operated during the war period, they have probably given better than average service.

This question however is quite apart from the continuation of the privilege of carrying on its business wholly free from any taxation in the area in which it operates.

It derives its revenue almost entirely from the people of Grosse Pointe, in their travel back and forth between here and Detroit. In spite of this fact the bus company makes no contribution whatever towards helping the private citizen carry the burden of local taxation.

As soon as its buses start to travel on the streets of Detroit, immediately to the west, it begins to pay taxes to a municipality where it gets no revenue and where it is prohibited from carrying mid-route passengers between its Detroit and Grosse Pointe terminals.

The situation is one which merits the early attention of the Grosse Pointe public authorities. To say that the question of levying a fair and reasonable tax in the Pointe is made too complicated by reason of the division of the Pointe into five separate municipalities merely sidesteps the issue. A wheel tax could be levied wherein each municipality would receive a revenue proportionate to the miles of travel on its streets by the bus company, with the total tax paid by the company to all the municipalities to be just and fair.

The same process could be applied to a flat per bus tax, or, if the five communities cannot be persuaded to take common action on the matter, any one of them could start it alone with the certainty that the others would quickly see the light and become willing associates in a general agreement.

The whole subject is of too great importance to the taxpayers to be lightly passed over by the local council bodies.

## Marshall's Warning

Rarely have the American people been treated to a clearer statement on the problem of national defense and our world responsibilities than was contained in General Marshall's brief talk on the radio Monday night. It would not be overstrained to liken it to Washington's Farewell Address.

General Marshall spoke in the vein of a statesman of vision and understanding rather than the customary narrow and hard bitten manner of a professional soldier.

He deprecates the too rapid demobilization of our fighting force and bluntly states that if it proceeds unchecked the army cannot guarantee the safety of the nation if the fires of war break out anew.

He sees the rapid demobilization a "disintegration" not only of the armed forces but of our whole concept of world responsibility.

The newly born United Nations, which is wholly dependent on the instant strength of America to bring it through its first trying days of life, will be deserted and abandoned by us if the present breakdown of our fighting forces continues.

The General's remark: "I never felt so certain of anything in my life", should place a stop to our present pell mell rush to strip ourselves of our whole material and spiritual readiness for war. There is peril in this course and no American has so well pointed it out as our tried and proven Statesman-Chief of Staff.

## Grosse-- Exaggerations

A. PRYOR

"I stole forth dimly in the dripping pause  
Between two downpours to see what there was.  
And a masked moon had spread down compass rays  
To a cone mountain in the midnight haze,  
As if the final estimate were hers,  
And as it measured in her calipers,  
The mountain stood exalted in its place.  
So love will take between the hands a face....."  
(Robert Frost)

A gent from the west, stationed here for the duration, was recently honorably eased out of the army . . . so he and his charming wife decided they liked G.P. well enough to settle down here. They bought a house and sent 'home' for their worldly goods . . . which were stored in a warehouse there.

When they first left their home, some three years ago, they had to move in a rush, so left the packing and storing to a caretaker in their employ. . . Madam gave implicit instructions to the trusty c.t., that all their precious family silver should be placed in a large crate for that purpose and stored in the bank. . . The rest of the lesser loot was to go in barrels to the warehouse. She rested contentedly in G.P. for three years, confident that her orders had been carried out.

However, when their belongings arrived in the Pointe, she was horrified to open the 'silver' crate (fresh from the bank where it had been escorted all over the place by an armed guard), to find in it a mess of kitchen utensils. On the heels of this horrible discovery, the frantic woman 'heard' a rattling barrel being brought into the house. "WHAT have you there?" she called to the moving man. "A lot of silver!" . . . was the laconic reply. Sure enough . . . the family silver was indeed rattling around in an old barrel that had been at the warehouse . . . while the kitchen paraphernalia had been resting under lock and key in the bank vault.

One of the snappiest 'proud father' stories came to our ears this week, when a Navy officer stationed here, drove a relative South to view his brand new baby, still at the hospital in his home town. He had been on the spot when the baby was born . . . but could stay only a day or two before going back to see it. When they arrived at the hospital, Papa said to his companion, "Let's go see the baby first." They peered through the glass partition of the nursery, where six or seven bundles from heaven reposed. "THERE she is," he said pointing to the third baby from the left. "How do you know THAT one is yours," asked his pal. "They all look alike to me." To which the father replied, "Sure that's mine. That's where she was when I saw her a week ago."

If you're the type that can scare up at least a gosling pimple at the thought of fighting off a "telephone-salesman" for rug cleaning . . . we pass on a nifty idea from a friend for getting rid of same. After this woman listened for an unhappy twenty minutes about the glories of the new rug cleaning wonder that picked up LITERALLY everything . . . she said, "How about the bodies under the sofas?" The salesman explained that our heroine must have misunderstood . . . or at least HE was misunderstanding HER. "Not at all," replied the woman, "I want to know what this contraption does about the bodies under the sofas. HUMAN bodies!" The man hung up without further ado.

A story in Beltaire's column last week reminded a friend of ours about a similar experience her husband had at a local spot a few years ago after a football game. The large reception hall was crowded with a milling mob from all parts of the country. Suddenly from the farthest end of the room, her husband (whom we shall call Jake Bluff), saw an old school tie waving at him frantically. He waved back and soon found the pal was weaving his way through the mobs trying to get to him. The going was tough but the school tie tackled his way through the crowd, stopping every now and again to be sure Jake was still there. Each time he'd wave encouragingly as much as to say, "I'm trying to get to you . . . hold on."

After about fifteen minutes, he made it . . . breathlessly held out his hand and with beaming face, started to exclaim, "Hello you old soandso" . . . then took a closer look, and said, "Gosh, I'm sorry . . . I thought you were Jake Bluff." Our friend . . . who was indeed Jake Bluff was so surprised, he let the school tie get away without ever telling him he was right the first time.

Best definition of the week . . . Fred Allen calling Charlie McCarthy . . . "The woodpecker's hors d'oeuvre."

Those who telephoned the Punch and Judy theatre for seats the early part of this week, might have been startled to hear a tired voice say, as the connection was made, "Same place!" We happened to recognize the Punch's beloved "Richard" . . . who told us he'd had so many calls for seats for "Valley of Decision," that he just plain got tired of saying, "Punch and Judy" . . . so he changed it to "Same place."

## Doctor's Efforts Are Often Handicapped

By FRED M. KOPP, R.P.H.

Sometimes the doctor's efforts are seriously handicapped by voluntary advice to those who can cite instances where such and such a specific worked wonders for their friends.

Perhaps it did, but that case may not actually resemble yours in any degree. Only a trained doctor can know what your constitution can stand, how your very mental processes work, and what your individual needs may be.

By all means, protect the doctor from misuse of his time and energies. But do not hesitate to refer to him those symptoms which demand instant attention and great skill in handling.

Medication is always important. It must be prescribed by a physician, it must be compounded by a competent druggist.

## Short And To The Pointe

After four years of arrivals and departures the WALTER SCOTTEN family will soon be together again. With the senior Scottens in their Edgemont park home are their son-in-law and daughter, CAPT. AND MRS. JOHN R. ODELL, JR. Expected soon is CAPT. OREN SCOTTEN, who has done intelligence work in England and Europe. The captain flew to Egypt recently to arrange for his sister, MRS. PAUL MARDEN, and her two youngsters, to sail on the Gripsholm Nov. 10. Completing the family roster, WALTER SCOTTEN II hopes to return from Saipan before long.

Birthday greetings rang throughout the THEODORE OSIUS home on Washington road as Mrs. Osius honored her husband at a dinner party last week.

MR. AND MRS. BENJAMIN S. WARREN, JR. are anticipating moving day, when they will take up residence in their new house on Lakeland avenue. Since the former lieutenant-commander's release from the Naval Reserve, they have been the guests of MRS. BENJAMIN WARREN, SR., in her Lake Shore road home. Mrs. Warren senior is just back from a motor trip to Boyce, Va., with MRS. RUSSELL A. ALGER, of Provençal road.

MRS. EDWARD S. BENNETT, of Country Club lane, had a double incentive for her recent trip to Washington. Not only was she anxious to visit her son-in-law and daughter, LIEUT. CMDR. AND MRS. JOHN R. HERTZLER, but the journey gave her an introduction to her new grandson, BENNETT. The Hertzlers plan to make their home in York, Pa., when John is discharged from the Navy.

# Yacht Club Members Celebrate Halloween

### Very Special Floor Show Staged by Guests Is Feature of Gala Event Held Saturday Night

Grosse Pointe Yacht Club members made merry last Saturday evening at the club's annual Halloween party, with dinner, dancing and a very special floor show. Traditional decorations of witches, black cats, ghosts and jack-o'-lanterns furnished the atmosphere, and it was a case of costume or not, as you please.

Mrs. Strasburger was the center of much Pointe entertaining before she boarded her train. Her brother and sister-in-law, Count and Countess Alfred Niecykowski, were hosts at a family dinner in their Neff road home. The Hamilton James, of Rivard boulevard, feted her at a cocktail party.

## Blue Devils Defeat Hazel Park by 7-6

### Denny Thomas Is Big Star As Grosse Pointe High Battles To Fourth Victory of 1945 Season

It was a noisy bus ride home after Grosse Pointe had tucked away its fourth victory of the season, 7 to 6 over Hazel Park Saturday afternoon. It was much different than the hearse ride home from Wyandotte a week previous when the Blue Devils suffered their first defeat of the season.

Big Don McPhail got the ball rolling when he yelled "How about a song, fellas?" Immediately Grosse Pointe's Alma Mater rang out, to be followed by other songs. Above the din came the cry, "That's another scalp for us; now bring on Fordson." Fordson is Grosse Pointe's hottest rival and the game is always the biggest for both schools.

This joy wouldn't have been possible if it hadn't been for the steller play of Denny Thomas, center and line backer of the team. Although the entire team played an inspired brand of ball in the first half, it was Thomas who kept the victory spark alive during the second half when Hazel Park seriously threatened the Blue Devils' goal line. Repeatedly Thomas stopped the Hazel Park line smashes and batted down passes. Denny not only played a swell defensive game but put on an offensive drive all of his own several times when he intercepted Hazel Park passes at crucial points of the game and ran back a punt for 9 yards. Thomas' play was the type that stamps a player for All-State mention. It was believed, before game time, that Denny wouldn't last very long because of the knee injury received in the Wyandotte shower room, but Thomas was a 60 minute boy again despite the sore knee.

### Pointe Wins Toss

Grosse Pointe won the toss and elected to defend the south goal. Ed Isbey returned the kickoff to his own 39 after taking the bouncing ball on the 20. Beer punted to Sutherland, on the Hazel Park 30, who tumbled and end Don Winslow recovered for the Devils. This looked like the first break of the game but Isbey's pass to Dick Wuerker was intercepted by Sutherland on his own 25, and he was stopped in his tracks by Wuerker.

Hazel Park cheers were turned into groans on the first Hazel Park play when Webster centered the ball high over McIlvride's head and the ball bounced to the Hazel Park 2 yard line where it was recovered by Dick Wuerker. It didn't take Grosse Pointe long to capitalize on this second break. Marty Beer crashed the line three times. He smashed over from the 3 yard line.

A trick play made the extra point, a fake placement kick by Isbey and Wuerker with Isbey passing to Dick Finch in the end zone to put the Blue Devils ahead 7-0 after five minutes of play.

Play was even for the latter part of the first period and early stages of the second quarter with Marty Beer keeping Hazel Park in its own territory with his fine punts.

### Denny Goes To Work

Half way through the second quarter Denny Thomas started Grosse Pointe on another touchdown drive when he picked up a Hazel Park punt on his own 18 and ran it back to his own 32. Ed Isbey attempted to gain around right end but was boxed in after picking up 10 yards. As he was being tackled he lateraled to Marty Beer, who picked up another 13 yards to the Hazel Park 45 where he was pulled down from behind by the safety man as he was getting into the clear.

Louie Champine added 6 more yards through center. With the ball resting on the Hazel Park 39, Isbey gambled on fourth down. Beer knifed off right tackle and rambled all the way to the Hazel Park 16. Grosse Pointe tried desperately to score before time ran out in the first half, but lost the ball on downs when three line plays and a pass failed. Hazel Park punted out of danger as the half ended.

Hazel Park's coach pulled a neat bit of strategy when he started his second team in the third period. This period was a comedy of fumbles with each team contributing equally to the act.

At the start of the fourth quarter Hazel Park's first team returned to the game and passes began filling the air. Four passes put the ball on the Blue Devils' 5 yard line. With four downs to make five yards for a touchdown Hazel Park abandoned its successful passing game and reverted to line plays. Three line plays netted a three yard loss. On fourth down Reid passed to Sutherland in the end zone for the score.

### Kick is Blocked

Ainsley kept Grosse Pointe in the lead by blocking the placement kick for the extra point and Grosse Pointe led 7-6.

### Getting the Bird

PREASANTS ARE SCARCER this year, but Pointers are scoring birds. BUS BEAUPRE and brother, KENNY, brought three down on opening day. EZRA LOCKWOOD of Ridge road had fine luck in the Thumb district, and AB CROOKS did well around Selfridge. MR. AND MRS. BILL MICHEL failed to flush birds at Grayling, early season rains having washed out nests hereabouts. GILES REAUME'S pheasant, bagged in Canada, came to his office in tasty sandwiches put up by the Mrs. One nimrod, more nimble than most, reportedly shot a pheasant dinner right in his own back yard... on Hillcrest... laws abide!

### For the Courageous

OUTSTANDING EVENT at Percy Jones Hospital was the dedication, last week, of the new machine shop school for handicapped veterans convalescing there. GLENN ANDERSON, founder of the enterprise, does his good deeds quietly and sincerely, and this outstanding event went unheralded and un-sung because Glenn likes it that way. Together with other industrialists, Glenn made the shop school a reality. It has been in partial operation for some weeks, and when entirely completed will represent an investment of \$100,000. Already 150,000 man hours of work have been completed by handicapped veterans and amputees, giving an idea of the school's potential value in rehabilitating many hundreds of Uncle Sam's courageous men.

### Adieu

MADGE MORTIMER, long in the circulation department of the NEWS, left this week for New York City to return to her old "love"—radio. A host of friends bade farewell with gifts and flowers... and a tear or two, realizing they will miss Madge plenty. The column joins in wishing her a terrific success in the new venture.

### Family Scene

ALMOST NIGHTLY there's a family game of pinocle at the SHARPE home on Oak—three generations participating. Grandfather ALLOR and his daughter and son-in-law, the BOB SHARPES, and their two high school sons, BOB and BILL. They play partners, the losers looking on. One generation plays as well as the other. Last night's winners were Bob and Bill, taking the deciding game with an extra large meld.

### Aches & Canes

MRS. CHARLES VAN DYKE broke a toe... jammed it against a castor on a table leg at home... and currently sports a cane to support a neatly satin bandaged foot in a ballet motif. Sometime back, when your scribe broke a toe in the same manner, SCOTTY HOCK had to laugh. Not long after, Scotty called... to borrow the cane... for he had misguidedly and broken his toe. If we were the laughing sort, we would have had a double laugh, for it was only a couple weeks ago that Scotty had a session on crutches. Now that the thing is happily over, we're both watching our toes and q's. GEORGE GIFT is using crutches between his home on Neff and the office at Parke-Davis. We hope he can shed them pronto.

### Fill'er Up

MOST GAS STATIONS are now open in the Pointe area on week days until 10:00 p. m. and part time on Sundays. Local managers subscribed to the longer hours to meet the competition of neighboring stations.

## New Ford Seen in Pointe Setting

ALFRED F. STEINER, owner of the Ford, Mercury and Lincoln agency whose showrooms and service garage are on Mack avenue at Grayton, points out new features of the 1946 Ford V-8 last Friday at the Grosse Pointe Yacht Club. The new Fords have a wheelbase of 114 inches. The new grille presents a lower, wider, heavier appearance. A new rear lateral stabilizer improves roadability and multi-leaf springs give a smoother ride. Interiors are luxurious in both the deluxe and super deluxe models. Many new engine features are embodied in the new Fords.

## Rotary Club Busy Planning For Annual Charity Party

The Rotary Club is going ahead full steam for the Feather Party it is going to have in the Neighborhood Club on the evening of Monday, November 19. It is already determined that this event shall exceed in size and scope any of the several previous highly successful similar events conducted by the club.

The club wishes to emphasize again to the Pointe community the basically serious purpose which underlies all of the fun and frolic which attends these affairs. While it will be an evening of real fun and entertainment for all who attend, the hope is that out of it will be realized a substantial sum of money. All of the money realized from the event will be applied to some worthy cause of interest to the whole Pointe community. The club does not make any profit out of it for the club itself, nor does any individual associated with the affair.

Usually the organization has some prime object towards which it aims as the beneficiary of the event. This year it is the hope to raise enough money to make at least a big start on the establishment of a local blood bank for Grosse Pointe. Patronage of the party will be a pleasant and easy way for the civic minded as well as fun loving people of the community to do a good turn in furthering a splendid social service movement.

Some people pursue happiness. Others create it.

LIEUT. COMDR. ALLEN F. EDWARDS, JR. is back in the service of the Navy on December 7, Pearl Harbor Day. He has been in the service since two months before the original Pearl Harbor Day, or October 1, 1941 to be exact.

When first called to active duty, Commander Edwards was assigned to the Army and Navy Munitions Board in Washington, D. C. and served there until he was sent to skipper a mine sweeper in 1942. After a short trip he transferred to Naval Aviation and was assigned to the Naval Air Materiel Center in Philadelphia, where he has served since.

He and Mrs. Edwards are bringing home a 13-month-old

son, Allen F. Edwards, III, who was born in Bryn Mawr. They made their home in Wynnewood, Pa., a suburb of Philadelphia.

Commander Edwards' family lived on Neff road. He and Mrs. Edwards formerly lived on Neff road before he entered the service, but now they are looking for a house.

2/C DONALD D. McLEAN can be reached at U. S. Naval Barracks 8-B, Vallejo, California. He is the son of Mr. and Mrs. Edwin G. McLean of 353 McMillan road.

T/5 JOHN S. HUWILER, son of Mr. and Mrs. John Huwiler of 108 Mapleton, is in Calcutta, India, where he has been stationed for the last five months.

He has been in the Army Medical Corps since April, 1942.

His sister, 1ST LIEUT. LILY HUWILER, is an Army Nurse. She was in the jungles of New Guinea for 13 months and has been in Manila for the past seven months. A recent snapshot of her in Manila showed her standing in front of the Governor General's palace, where MacArthur was so much in evidence in bygone years. The NEWS regrets that the figure of Lieut. Huwiler was so small in the photo that it could not be satisfactorily reproduced.

SHANGHAI—(Delayed)—L. T. (j.g.) FREDERIC J. SCHREIBER, USNR, 37, of 227 Chalfonte, Grosse Pointe, Mich., carried an unlucky number through a lucky voyage to be among the first American Naval personnel

to move into Shanghai, China, after the end of hostilities.

The unit which carried this distinction was organized under the mysterious name of NABU-13—or Naval Advance Base Unit 13. Members of the group, most of them Seabees, were the first Americans to move through the Yangtze and Wangpoo rivers in eight years, since shortly after the ill-fated PANAY had been bombed and sunk in 1937.

The group of LST's (landing ships, tank) which brought the unit to Shanghai from their organizing point at Calcione, Samar Island, stopped en route at Okinawa to rendezvous with their escorting vessels and to take on necessary supplies.

The trip was marked by foul weather, including two typhoons, and the exploding of a floating mine that rocked one of the LST's, but the most serious casualty was the "dunking" of one of the crewmen, who was promptly rescued by his mates.

ALLEN CAREY, 29, electrician's mate, third class, USNR,

501 Washington road, Grosse Pointe, Mich., has been assigned to the crew of the USS FRANKLIN D. ROOSEVELT, second of the Navy's new super aircraft carriers.

The 45,000-ton carrier, named for the late President Roosevelt, is the first major combat vessel of the modern Fleet ever to be named for an individual.

Members of the ship's crew took pre-commissioning training at the Atlantic Fleet's Naval Training Station at Newport, R. I.

Mr. and Mrs. Hamilton D. James of 337 Rivard have just received word that their son L. T. HAMILTON R. JAMES has been made a Chevalier, Ordre de la Couronne in Belgium.

Lieutenant James was with the 79th Infantry Division at the Normandy invasion. After that he became liaison officer between the U. S. Seventh Army and the French forces. Just before his transfer to Brussels, he was in counter-intelligence in Czechoslovakia.

## POSTWAR IMPROVEMENTS FOR DOWNTOWN DETROIT

The postwar plans of The Detroit Edison Company call for an expansion in electric generating capacity to meet peacetime demands for power in this area.

Believing that the next ten years will see a tremendous increase in electrical power needs, the Edison company has planned for an expenditure of \$125,000,000 in expansion of its facilities during that period.

At this moment it is expending \$4,000,000 to complete additions to one of its power plants. In addition, about \$1,000,000 will be spent for

an alternating-current network extension in downtown Detroit. This is another step in the program to make a-c current available ultimately in all of the metropolitan area.

There was no "standing in line" for electricity during the war, thanks to foresight and careful planning. We are preparing now to furnish even more electric power for peace than was required for war. Our new plant expansions, added to our present system, will serve all the electrical needs of southeastern Michigan today and tomorrow.

In addition to the contributions deducted from the salary or wages of any member, as hereinbefore provided, he may redeposit in the Annuity Savings Fund, by a single payment, or by an increased rate of contribution, an amount equal to the total amount, or any part thereof, which he may have previously withdrawn therefrom, as provided in the Retirement System.

(d) Transfer of Accumulated Contributions. Upon the retirement of a member, his accumulated contributions standing to his credit in the Annuity Savings Fund shall be transferred to the Annuity Reserve Fund. At the expiration of a period of three years from the Date an employee ceases to be a member, any unclaimed balance of accumulated contributions standing to his credit in the Annuity Savings Fund shall be transferred to the Pension Reserve Fund.

### ANNUITY RESERVE FUND

Section 95. The Annuity Reserve Fund is hereby created. The Annuity Reserve Fund shall be the Fund from which shall be paid all annuities and all benefits in lieu of annuities, payable as provided in the Retirement System. Should a disability beneficiary be restored to active service with the City, his annuity reserve, if any, shall be transferred from the Annuity Reserve Fund to the Annuity Savings Fund and shall be credited to his individual account therein.

### PENSION RESERVE FUND

Section 96. (a) The Pension Reserve Fund is hereby created.

The Pension Reserve Fund shall be the Fund (1) in which shall be accumulated reserves for the payment of all pensions and other benefits payable from the contributions made by the City, and (2) from which shall be paid all pensions, and other benefits in lieu thereof, to members and beneficiaries as provided for in the Retirement System.

(b) Appropriations to Pension Reserve Fund. Upon the basis of such mortality tables, regular interest and other tables, as the Board shall adopt, the Actuary shall annually compute the pension reserve liabilities covering pensions, and other benefits, payable or which might be payable from the Pension Reserve Fund to members and beneficiaries of the Retirement System. The pension reserve liabilities covering service rendered and to be rendered by original members and beneficiaries who were original members shall be amortized in such manner as the Board may determine, subject to the approval of the Council. The pension reserve liabilities covering service rendered and to be rendered by new members shall be financed over the period of prospective membership service of such new members. The Board shall certify to the Council on or before the third Monday in January of each year the amount of contribution to the Retirement System to be paid by the City, and the Council shall appropriate and cause to be paid to the Retirement System, during the ensuing fiscal year, the amount of contribution so certified.

(c) If Appropriations be Insufficient. In event the amount appropriated in the budget for any year be insufficient to pay in full the amounts due in said year to all beneficiaries of the Retirement System, the amount of such insufficiency shall thereupon be provided by the appropriating authorities of the City.

(d) Contributions by Instrumentalities of City. Contributions to the Retirement System by the City to the extent necessary to provide pensions and other benefits upon the retirement of members who were employees of instrumentalities of the City shall be made from the revenues of said instrumentalities.

### EXPENSE FUND

Section 97. The Expense Fund shall be the Fund to which shall be credited all money provided by the City (and any instrumentality of the City) to pay the administration expense of the Retirement System and from which shall be paid all expenses required in the administration of the Retirement System. The Board shall annually certify to the Council, according to legal budget procedure, the amount of appropriation necessary to administer the Retirement System during each fiscal year and the City shall appropriate such amount to the credit of the Expense Fund.

### MANAGEMENT OF FUNDS

Section 98. (a) The Board shall be the trustees of the several funds of the Retirement System and shall have full power to invest and reinvest such funds, subject to all terms, conditions, limitations and restrictions imposed by the law of Michigan upon life insurance companies in the making and disposing of their investments, except that notes, bonds or obligations of the City of Grosse Pointe shall not be subject to said limitations or restrictions. The Board shall have full power to hold, purchase, sell, assign, transfer and dispose of any securities in which any of the funds of the Retirement System have been invested. The Board shall have power to purchase notes, bonds or obligations of the City of Grosse Pointe at any legally conducted sale.

(b) Maximum Cash on Deposit. There shall be kept on deposit available cash, not exceeding ten per centum of the total assets of the Retirement System. All funds of the Retirement System shall be held for the sole purpose of meeting disbursements for pensions, annuities, and other benefits authorized by the Retirement System and shall be used for no other purpose. The moneys to be credited to the Annuity Savings Fund, Annuity Reserve Fund, and the Pension Reserve Fund shall be interpreted to refer to the accounting records of the Retirement System and not to the actual segregation of the moneys within the said Funds of the Retirement System.

### ALLOWANCE OF REGULAR INTEREST

Section 99. The Board annually shall allow regular interest on the mean amount of assets credited to each of the several

Funds of the Retirement System, except the Expense Fund; Provided, That interest on contributions of members to the Annuity Savings Fund, within any one fiscal year, shall begin on the first day of the fiscal year next following and shall be credited at the end of the fiscal year. The amounts so allowed shall be due and payable from interest and other earnings on the funds of the Retirement System. Any additional amount required to allow regular interest on the Funds of the Retirement System shall be paid from the Pension Reserve Fund; and any excess of earnings over such amount shall be credited to the Pension Reserve Fund.

### METHOD OF MAKING PAYMENTS

Section 100. All payments from the funds of the Retirement System shall be made by the City Treasurer only in accordance with the accounting procedure adopted by the City; Provided, That no payment shall be made from the funds of the Retirement System unless such payment shall have been previously authorized by resolution adopted by the Board.

### ASSIGNMENTS PROHIBITED

Section 101. The right of a person to an annuity, a pension, a retirement allowance, to return of accumulated contributions, the annuity, pension, or retirement allowance itself, any optional benefit, any other right accrued or accruing to any person under the provisions of the Retirement System, and the moneys belonging to the Retirement System shall be unassignable and shall not be subject to execution, garnishment, attachment, the operation of bankruptcy or insolvency law, or any other process of law whatsoever, except as is specifically provided in the Retirement System.

### ERRORS

Section 102. Should any change or error in the records result in any member or beneficiary receiving from the Retirement System more or less than he would have been entitled to receive had the records been correct, the Board shall correct such error and as far as practicable shall adjust the payment in such a manner that the actuarial equivalent of the benefit to which such member or beneficiary was correctly entitled shall be paid.

### STATE OR FEDERAL COVERAGE

Section 103. Should the members be required by law now enacted, or which may be enacted, or any amendments or rulings in connection therewith having the force of law, to accept coverage under any Federal or State annuity, pension, retirement, or old age security system, and should the City and/or the employees of the City be required to make contributions to or be subject to payroll taxes in support of such system, then all benefits of whatever nature provided by the Retirement System accrued or accruing to members, except the right of refund of accumulated contributions, shall be modified in such manner as is recommended by the Board and approved by the Council.

### VALIDITY

Section 104. Should any section or part of a section of the Retirement System be held to be invalid for any reason such invalidity shall not be held to impair or invalidate the remainder of the sections of the Retirement System, or any part of it, it being the legislative intent that every section and part hereof shall stand and be in force and effect notwithstanding the invalidity of any particular provision or provisions.

## Drama Group Being Formed For Pointers

Director of Pointe Players Will Head Organization For Adults

An adult dramatic group is being organized under the direction of Harry V. Anderson at the Grosse Pointe High School, starting Thursday evening, November 8 at 7:30. Persons interested in the various phases of dramatic production can find a ready outlet for their talents. No one need say that they have never acted because they were not chosen for a part. The group will be limited to a workable number so that everyone can be active.

Mr. Anderson directs the Pointe players at the High school. The last two plays done by this group were successes and contained a calibre of work which many called professional. Mr. Anderson was closely associated with the "College Theatre" at the Teachers College of Connecticut. He received a B.A. degree from Trinity college in 1943 and an M.A. from Harvard University in 1944. He did outstanding work in speech while at school and teaches the speech courses at the High School.

All former Pointe players are especially urged to attend the meetings of the dramatic group. Call NI. 2000-Ext. 25 for information.

## Speaker

PFC. GORDON F. SCHAENING, discharged this week after spending two years with the Infantry in the European Theater of War, will speak to the boys and girls of Calvary Lutheran Church on Sunday, November 4 at 9:45 a.m. Private Schaening saw action in Belgium, Germany and Holland and was wounded by snipers in the Battle of the Bulge. He spent six months in Army Hospitals and is now living at 26625 Ridgemont.
