

Park to Be Party in Case Of Residents Versus Doctor

Suit Listed for Trial in Circuit Court After Appeal Is Taken to Decision Handed Down by Justice DeBaeke

An apparently innocuous little resolution that was passed by the Park council at the meeting Monday night, served to recall again the persistent efforts underway, at the insistence of the residents around Balfour and Kercheval, to compel Dr. W. K. Usher to discontinue his somewhat pretentious combination residence and medical establishment at the northeast corner of that intersection.

The case is now listed for trial in Circuit Court and the resolution Monday night was merely to give official sanction to the appeal.

When Dr. Usher built his home there about 1898 the plans were approved by the village which showed it was to contain doctor's offices. An effort was made at that time by abutting residents to prevent him from going on with the project.

City Plans To Improve Beach Park

There was a meeting of the Citizens' Recreation Committee of the City Tuesday morning called by Councilman Carpenter, head of the Department of Parks and Recreation, to discuss the projects under way and contemplated for the improvement of the City's Beach Park for the coming season.

The Citizens' Recreation Committee is a body named by Mayor Netting last year and recently reappointed. The chairman and co-chairman of the committee are Edward Pongracz and Mrs. William Adams, of 305 University place.

Mr. Carpenter outlined to the group improvements that will be made this year, many of them in line with recommendations made by the Citizens' committee since the close of last season. Among these are relaying and change of elevation in much of the sidewalk within the park, the opening of a second vent in the swimming pool to admit more fresh water, the providing of many new benches in the park, an additional drain in the park to carry off much of the surface drainage which carries leaves and refuse into the pool.

There is also under consideration the construction of a broad central paved walk down the middle of the park. The city attorney is to be asked to give an opinion on whether this might be in conflict with the provisions in the deed when the land was purchased.

Not known to even all the residents of the city is the fact that this land which now comprises the municipal park, was not a gift to the city, but was purchased and paid for by the taxpayers' money. It cost \$50,000 and was bought in 1910.

Cars Slightly Damaged In Kerby Road Crash

Two cars tangled at Kerby and Webster in Grosse Pointe Farms at 12:20 p. m. on February 23.

Gerard J. Moenart of College avenue, Detroit, was driving north on Kerby and was attempting to turn into Webster when his car was hit by one driven by Christopher C. Manino of 282 Ridgemont road.

Damage was slight and both were insured. Manino accepted the blame.

Arrests Nip Plan to Rob Theatre Head

Youthful Gang Captured by Police Discloses Schedule of Operations

Chief Arthur Louwers of the Park police has been busy checking up further on the operations of the gang of young hoodlums and desperadoes from nearby Detroit. He says that each interview with a member of this gang, who are now mostly behind the bars, brings out further interesting information.

Their operations have not been confined, to simple burglary alone. They have been the principals in several holdups in Detroit. One of them acknowledged that their plans were all completed to hold up the manager of the Esquire Theater after he had closed for the night. Their plan was to rob him of the cash they expected to find on him on his way home for the night. The place had already been carefully "cased". The gang were always armed and, according to their own confessions ready to use their guns if they were caught or cornered. Esquire Theater hold-up was to be last Saturday night.

From the way they ruthlessly tore down curtains or pictures from walls and threw them on the floor suggested that they thought they might find hidden safes or crypts of some kind behind them, after the usual plots of crime movies.

Talking on this phase of the cases more at length, Louwers thinks shows of this kind are having a bad effect on the minds of boys in the 15-17 year age brackets. A good many of the boys in this gang are of this age. He says youngsters of this type are a greater peril to both police and public than the more mature criminals.

Pointer Exonerated In Detroit Accident

Henry Popeller of 1372 Wayburn, Grosse Pointe Park, was exonerated of all blame in an accident at Mack and Field in Detroit at 12:35 a. m. February 23.

Glora Karn, aged 26, of 1809 Mayburn, Dearborn, ran into the side of the Popeller car, the police stated. She was treated in Receiving Hospital for multiple bruises and abrasions.

Drainage

tween Kercheval avenue and Chalfonte avenue, also Lewiston road, Kenwood Court, Moran road, Merriweather road and Mt. Vernon avenue between Charlevoix avenue and Chalfonte avenue.

"In the above streets the existing sewers will not have to be relaid but will be crossed by one large storm water sewer, which will practically double the sewer capacity of the area by providing an adequate outlet.

"This type of design is accepted as sound engineering practice for an area, as it reaches its ultimate development and in place of building a very large sewer on every street it is much less costly and more efficient to connect normal street sewers with one large storm water sewer crossing the area.

"The storm water sewer relief program has been worked out during the past year under the direct authorization of the Village Council by the consulting engineering firm of Hubbell, Roth and Clark in conjunction with the Village Engineer Murray M. Smith and with the approval of the Michigan State

Board of Health. The program merits the approval of all the residents of the Village and will serve the purpose for which it has been designed, which is storm water relief.

Probable Financing
"The Village Clerk, Harry A. Furton, who is also the Financial Officer of the Village, explains that the Farms has always used the serial bond method of financing rather than the sinking fund method; i. e. to arrange retirements annually over a period of years to maintain an even taxing program during the life of the issued bonds.

"The usual and probable plan for financing the above proposed construction costs of approximately \$350,000 is on a 30-year program. This is done to spread the costs as nearly as possible among all who benefit and avoids burdening the present taxpayers with high taxes if financed over a short period.

"Based on going interest rates, a retirement program for the issue would add approximately \$18,000 annually to the Village's present retirement program. On present assessed values of \$30,000,000 the additional annual needs would require an increase of approximately 63c per \$1,000 of assessed valuation. To the

average home owner this would mean, depending on the assessed valuation, an added cost of from \$2.00 to \$8.00 per year for this purpose.

"The program now needs the approval of the voters before the Council can take steps to put the construction program into being.

"An opportunity to express yourselves is offered to you at the Village Election to be held Monday, March 10."

Attack Causes Driver to Crash

Richard Trombly of 615 Notre Dame, a chauffeur for Mrs. Jennie Crowley of 243 Lakeland, while driving west on Jefferson between Park Lane and Edgemont Tuesday afternoon, suffered a slight stroke. This caused him to veer over to the eastbound side of the road.

He collided with an eastbound car driven by George Anderson of 838 Pinecrest, Ferndale, Mich. Both cars were badly damaged and Trombly was taken to Bon Secours hospital by Sergeant Vernier for treatment.

Council of Veteran Affairs Nears End Of Job; Aided 5000

Information Center on Kercheval Avenue to Close February 28; Helped 831 Prepare Terminal Leave Papers

After 16 months of operation the Veterans Information Center of the Grosse Pointe Council of Veterans' Affairs on Kercheval avenue, which aided personally or by telephone approximately 5000 veterans of World War II in their reconversion from military to civilian status, will terminate its activities on February 28, 1947.

Of the 2289 veterans from Grosse Pointe and Gratiot Township who have already been discharged, 1785, or 78 percent, have appeared in person at the Information Center for advice or assistance on their various veterans' problems. Also, 1002 veterans from Detroit and St. Clair Shores have taken advantage of the Center's facilities. In addition, the Center received about 2000 telephone calls and had more than one personal call from 500 veterans.

The Council's Veterans' Information Center began operations in its quonset hut headquarters at 18829 Kercheval on October 15, 1945. On that same date, Joseph R. O'Connor, a veteran of four years' service with the Army Air Forces, was chosen as Veterans' Counsellor.

According to John J. O'Brien, chairman of the Council's Executive committee, the decision to terminate the activities of the Information Center came after the records disclosed that only a relatively few veterans from this area remain to be released from service. It was also dis-

closed that the Center's headquarters must be removed from its present location by March 15, 1947, to make way for a new building on the property.

Since its opening, the Information Center, under the direction of Mr. O'Connor, and with the assistance of Mrs. Vera Mae Brady as secretary, has counseled returning veterans on the preparation of terminal leave applications, educational matters, employment, insurance and many other subjects.

High on the list of problems brought up by the veterans were those concerning terminal leave, with 831 individuals seeking aid in making out their application forms. Applications were both made out, and notarized by the Information Center's staff.

By far the second most important problem for veterans was advice on educational questions. 529 returned service people sought assistance on education. These people were told how they could get the benefit of government-financed education, where courses are available, or how to take advantage of approved job-training programs.

Insurance was the next most important subject to inquiring veterans, with 258 bringing insurance questions.

Other problems for which veterans sought advice were employment, housing, loans, job training, taxes, hospitalization, legal questions, priorities, bonuses and compensation.

The quonset hut in which the Council has been operating over the past 16 months was loaned to it by the AWVS, Grosse Pointe unit. New partitions were donated by the Chaplain and Robinson Lumber companies, with the Grosse Pointe Board of Education donating the labor to install them.

The Grosse Pointe Council of Veterans' Affairs is made up of 83 interested organizations, agencies and institutions of the community. Financial sponsorship of the program has been by the five Grosse Pointe municipalities and Gratiot Township.

The Grosse Pointe Council is headed by an executive committee made up of many prominent citizens of Grosse Pointe and Gratiot Township, and includes Mr. O'Brien, chairman; Dr. Paul Essert, co-chairman; Mrs. Alger Shelden, co-chairman; Dr. Herbert G. Allison, Dr. Leo H. Bartemeier, C. G. Burns, Rev. James P. Clark, Ralph S. Farnum, Forrest Geary, Aloys A. Ghesquiere, Rev. Francis H. Glazebrook, Odillon Houtekier, James W. Lee II, Mrs. T. W. P. Livingstone, Richard Maxon, Paul I. Moreland, Norbert P. Neff, Edward J. Pongracz, Jr., Henry R. Roesch, C. E. Runkle, Vincent E. Schoeck, Alger Shelden, Herbert B. Trix, Elmer F. Ulrich, Robert G. Detroit Requests Meeting To Discuss Drain Problem

Fox Creek Situation of Interest to All Pointes and Mutual Cooperation Appears Necessary to Complete Project

A letter from the Detroit City Engineer's office was read at the Park council meeting on Feb. 24, asking for a get-together at an early date with the municipal engineers of the Pointe villages and City to discuss in detail their mutual responsibilities growing out of the Fox Creek drain situation.

This presents a problem to both Detroit and the Pointe that cannot long be postponed. The Fox Creek drain enters the river above the water supply intake for Detroit City, a situation that has long been condemned by Detroit's own health authorities.

Added to this, the State Stream Control Commission issued an order as recently as December 1945 requiring that within a reasonable number of years, reported to be five, no sewage, either wholly or partly sanitary, should be permitted to enter any public water course.

In theory at least all of the sanitary sewage from the Pointe area goes down to the Detroit sewer treatment plant, but in times of high water the sewage goes over the spillways into the storm water lines and thence into the lake or river.

It is recognized that eventually all of this drainage will have to be directed into the Connor creek outlet, bypassing the Detroit water intake. This will be a costly engineering job and it is quite likely the Pointe communities will be asked to cooperate with Detroit in the undertaking.

A committee was named some time ago, consisting of Commissioner Gillett, chairman; Commissioner Koenig and Manager Lane to examine into the details of Detroit's request for a right of way through the village for its big 14 foot sewer which Detroit is going to build to relieve its drainage problem for Detroit in its areas north and east of the Pointe villages.

This big drainage enterprise will be wholly a tunnel job and in the Park will start under Kercheval, thence to Audubon, thence on Audubon to Vernor Highway and thence east to Cadieux.

There is no question of the right of Detroit to lay such a line but Detroit desires to approach the problem from an amicable standpoint, with the neighboring communities.

The Park Council has already passed a resolution of general agreement but has named the Gillett committee to examine into the matter from a quid pro quo basis as a bargaining point for the adjustment of drainage

Gobs Like Speed On Shore Leave

The City police station received a phone call for help in running down some speedsters on Lake Shore road, from the Shores police at 2:30 a. m. Sunday morning.

Between Johnson and Testaert of the City going east and DeForest and Allard of the Shores westward bound, they pocketed the fast ones. The Shores police had clocked them at 80 miles per hour.

The occupants of the car were a couple of young sailors from the Great Lakes Naval Station in Chicago who were having a leave in the Detroit area.

Borderline Accident Cases Sometimes Very Confusing

Police Chief Walter Hoyt of the Farms was authorized by the village trustees to use his own discretion in sending the police patrol to help the Woods in accidents which occur on Mack avenue between Cook road and Seven Mile road, where the Farms and Woods border each other.

Chief Hoyt said that from time to time accidents occur on Mack when it is difficult to tell to which village the case belongs. The Woods has no patrol and cannot handle stretcher cases, making it necessary for officers of that village to call on the Shores or Farms for help.

As the Farms police headquarters is much closer than the Shores to the location mentioned, Chief Hoyt wanted permission to use the village equipment for the fast removal of injured if the need arises.

Edwards Citation Made Permanent

Lt. (jg) Leonard Park Edwards, USNR, of 946 Washington road, Grosse Pointe, Mich., husband of Mrs. Shirley Edwards, has received a permanent citation for his Air Medal from Secretary of the Navy James Forrestal, for the President.

Lt. (jg) Edwards, who has been released to inactive duty, earned the award for aerial flight as pilot of a dive bombing plane during action against enemy forces in the Solomon Islands and the Bismarck Archipelago Areas.

During the war, citations were temporary, or incomplete, for security reasons.

Text of the full citation is as follows:

"For meritorious achievement in aerial flight as pilot of a dive bombing plane in Bombing Squadron 306, during action against enemy Japanese forces in the Solomon Islands and the Bismarck Archipelago Areas from April 20 to May 30, 1944. Participating in numerous strikes against Japanese shipping, airfields and shore installations on New Britain, Bougainville and Buka Islands, Lt. (jg) (then Ens.) Edwards desired intense antiaircraft fire to press home low-altitude attacks and score damaging hits on the assigned targets. His airmanship, courage and devotion to duty were in keeping with the highest traditions of the United States Naval Service."

ARNALL TO SPEAK
Ellis Arnall, former Governor of Georgia will speak on "The South Today" in the small auditorium of Masonic Temple in Detroit on Saturday, March 1, at 8:30 p. m. under the auspices of the Michigan Citizens' Committee.

Robbers Using New Technique

As Dick Young, of 682 Neff, was about to put his car in the garage he rents at 651 Neff on the night of Feb. 17, he saw a suspicious-looking man standing in the driveway close to the garage.

Instead of going on in he backed his car out again and drove around several blocks and returned seven or eight minutes later, the man who was very tall and thin still stood in the same place. Again Young drove around the block and on his second return the party was gone.

The police did not learn of the incident until the next day. They regret that Young did not go directly to police quarters, only a short distance away, and let them know after his first discovery.

From the description of the fellow he closely resembled the highwayman who held up Mr. and Mrs. Washburn as they were going into their home on University place about three weeks ago. The robber got away with something over a hundred dollars but overlooked a much larger amount which Mrs. Washburn had on her person.

Robbery via the garage-waiting technique is growing in popularity with the bandit fraternity, it appears.

Photographers To Meet Mar. 4

Lester McDowell, president of the Grosse Pointe Camera Club, has arranged for a demonstration of toning of photographs for Tuesday evening, March 4, at the Club's regular meeting.

The lecture will be a practical one showing the various steps and procedures and the methods of photographic toning of prints. The lecturers intend to include sepia and gold toning in their talk and demonstration.

The Club members will also submit their photographic prints to the Club's judges for criticism and awarding of points.

The meeting will be held in the clubrooms at the Neighborhood Club. President McDowell issues an invitation to the interested public to attend.

Mary, Mary, quite contrary

by Mary Madison

MORE THAN ANY OTHER NATION PERHAPS, WE AMERICANS ARE INFLUENCED BY THE FABLE OF THE LABEL. Through advertising, radio commercials and video-do-do we are hypnotized by the fame of a name. As one who was practically weaned on a dollar sign in the back rooms of the advertising archives, we have not only encouraged the great fable but are constantly falling under the spell of our own rah-rah rhetoric and demanding the label.

Never were we so impressed by the might and magic of labels as when a charming old lady took us into her confidence on the eve of a party for her youngest niece. It seems—sh-h-h—that she was going to serve cocktails. And it also seems like the genteel old soul couldn't get the brand she'd been told to buy. What she wanted to know was what would happen if the kiddies sipped from an unknown label, and we lightened her heart by saying that both labels were well known and that nothing would happen with one that wouldn't also happen with the other label.

All labels are the signature of a maker, and as such should be as honest as his signature on a bank check—whether he be an artist or an "auto typhoon," as Maggy the Model calls her motor boys. In fact it is Maggy who set us off on this label loopy because Maggy is just back, hot from Paris and mad, mad, mad about her first spring models with those magic scrawls of Schiaparelli and Lucien Lelong. Now anyone who thinks the Battle of Paris is over may be advised that it has just changed its locale to Fifth Avenue. Like it or not, our New York designers are back at the old business of copying Paris clothes. Some are fairly good carbons but most are fuzzy around the edges. Paris still has the imagination and contends that our mass production turns French models into mess production.

ACTUALLY ONE CAN'T BLAME MAGGY FOR WANTING Paris Originals any more than you can blame someone for preferring one Picasso original to a dozen Picasso copies. Still, she has gone off the deep end when she carries on and on about their collections.

"The clothes at Lelong's and Schiaparelli!"—and we quote it right from the clothes horse's mouth—"make any woman look beautiful and a beautiful woman look like the belle of the century."

Dress. I bought the black model, all gently shirred and belted at the natural waistline with wide black ribbon spiraling up the skirt. Very lush and plush, that little model!

"What are they doing at Lanvin's, since the great Madame died?" we asked Maggy.

"Carrying on her tradition of making the best robes de style in Paris. This spring the Lanvin collection is simply out of this century with Pierrots and Columbines, and Domino Wraps and Harlequin Bicornes. I got the prize black and white dance number embroidered in sequins, with its Domino Cape of Black Satin. All I need now is a black eye masqué and a lover to meet me in the garden."

"That," she pointed out, "is going to be child's play for you at the Pointe—in fact, the men will probably form their own Garden Club—or should I call it Bush League?"

"Call it what you like," snapped Maggy, "but I'm still allergic to men unless they're very munny millionaires!"

Charity Career Wins Recognition

Mrs. Howard M. Bingham, 168 Vendome road, Grosse Pointe Farms, began her career as a volunteer for the Red Feather almost eight years ago as an art teacher at Tau Beta Community House. Last Wednesday she was awarded the Red Feather Lapel Pin as Volunteer-of-the-Week on

Fran Harris' "Red Feather Revue." The public service program is heard each Wednesday at 1:15 p. m. over WWJ.

Mrs. Bingham taught art regularly at Tau Beta for a year, but shifted her volunteer-work interest when the war made greater demands on everyone. For three years she served as co-chairman of a unit of the American Women's Voluntary Services, and concluded her connection with

them a year after the end of the war.

Then she became an ardent Red Feather worker. As an area chairman, she served long hours during last fall's campaign, and when the campaign was over she continued to be active at 51 West Warren, center of Community Chest activities.

At present, Mrs. Bingham is program chairman for the Women's Committee of the Community Chest, and is engaged in one of the Chest's most ambitious projects. The Women's Committee has joined with the Metropolitan Unit of the campaign organization in seeking to establish a permanent nucleus of Chest workers within the various geographical areas. The intention is to provide year-round activities for a permanent group of volunteers. The program will also provide training for Red Feather recruits.

The mother of two children, Eleanor Bingham feels that "being a volunteer for the Community Chest is a wonderfully satisfying experience. There are all kinds of jobs for all kinds of people, and we'd be happy to welcome anyone."

Those interested in volunteer service are invited to call Temple 1-1600 and contact the Central Volunteer Bureau.

"Red Feather Revue," a regular public service feature of WWJ, is conducted by Fran Harris who broadcasts on the spot from a different Red Feather service each week. Here she gives the listener a behind-the-scenes glimpse into Red Feather activities, interviews a Volunteer-of-the-Week, and presents answers by Community Information Service to personal problems submitted by listeners.

The bride's mother wore a gown with a long brown satin draped skirt and natural opalescent sequin top, with a brown satin half-turban hat. The mother of the bridegroom wore ice blue satin. Both carried purple orchid corsages.

Society News Gathered from All of the Pointes

From Another Pointe of View

by
JANE SCHERMERBORN

In Lent we have a chance to muse. The social calendar being very much on the dull side... it's a chance to sit down at our Underwood and just chat with you of this and that.

This respite won't be for long... the other day... we just got an inkling of what a merry schedule "Americans for France" are dreaming up for us.

Probably because the Community Chest... dropped many of the nationality war relief agencies from its program... we are noticing an increased activity in behalf of our neighbors overseas.

It looks to us as if one of the most active groups will be this same Americans for France.

THE WAR ISN'T OVER

Certainly there is much to be done in all the war torn countries which really suffered first hand from the cruelties of Hitler & Co... and we over here, in this land of the comparatively privileged, must never forget the sufferings of others.

At Red Cross the other day... someone said the war is over... she got away with it for about a split instant... because John Sullivan (the genial gentleman who manages the annual campaign fund for Red Cross) smacked his fist on his desk... and reminded us all that there are 2,000,000 men and women still in the armed forces... that there are our own veterans... able AND disabled... to be cared for... and in addition there are millions of victims of war in the countries where the action took place.

AMERICANS FOR FRANCE

Wendell Anderson seems to be the moving spirit of "Americans for France."

We have heard rumors of a charity ball among other things... and most of the Top Drawer folk are said to be interested.

The organization also does a lot of sewing (NOT Mr. Anderson and his committee... but those of the distaff side... many of whom are native Frenchwomen)... and engages in other helpful projects.

Incidentally it was plans for "Americans for France" that occupied Mr. A's time right up till the instant he left for Cat Cay last mid-week.

Telephones jingling from Manhattan... flying trips to Milwaukee, etc... were on his always interesting schedule.

He and Mrs. Anderson will be at Cat Cay until late in the Spring.

GREETINGS TO THE DICK FORSYTHS

Offly nice to see the Dick Forsythys on the local scene once again.

After Dick's mission to Sweden (where things are a bit on the grim side, but at least the country has NO slums, rats or smoke—Mr. Swinehart of the Detroit News please note).

He, Mrs. F. and the family returned here... and under some lucky star... managed to find a house on Rivard.

Trust they will both fast slip back into their accustomed activities at the Pointe again... they make everything they do much fun.

THE POWER OF A WOMAN

Some concern uses the slogan, "Never Doubt The Power Of A Woman"... (as if YOU would!).

And we'd like to give their trade mark a little more weight. When we were reading... (and writing) about Cynthia Dean's engagement last week...

We were reminded how it fell our lot... to help select the wardrobe of the beautiful Mary Grace Simescu... Detroit's Automotive Golden Jubilee Queen... when she reigned over the city last June.

ENVIABLE GOWNS

When we talked to the buyer of the large department store where the gowns were being purchased...

She happened to mention the name of the stylist "Adrian." And we were very definite about the fact that Mary Grace MUST have at least one gown by Adrian.

The reason... was the chic Mrs. Charles A. Dean, Jr. if you were slightly dashed about where the Deans came in on all this a few sentences back).

Mrs. Dean is one of Adrian's devotees... and it was an Adrian she wore to a political meeting one autumn afternoon which first made us sit up and take notice of the designer.

SHE REALLY MADE THE PURCHASE

So... that was the power which influenced the purchase of one very elegant oyster white crepe dinner gown for Queen Mary Grace (who since has become the blissfully happy Mrs. Kip Woody of Detroit).

The gown... we thought... boasted the same wonderful lines we have admired in Mrs. D's wardrobe.

Its shoulders were regally fitted to the little queen... and across the bosom... and floating gaily over one knee of the elegantly draped skirt were chubby, dusky angels with the most delicate pink, feathery wings.

It was our favorite of all the queen's wardrobe... and we've always meant to tell Mrs. Dean what a hand she really had in choosing the costume.

MUSINGS

Nursery News will enliven Lent's doldrums this year... Grosse Pointe nurseries are going to be jammed... according to our agents.

Still puzzled by the young heiress (in Detroit we don't usually call them heiresses, but it IS a nice, sensational word)... who wouldn't work for a charitable cause from now till Spring because she's "getting married this Summer"... slimmest excuse we've ever heard for selfishness.

The Jack Chapins left their baby daughter, Suzanne, for the first time since her birth... to get in some skiing last weekend at Otsago... it was a very hesitant departure... though they are keen on skiing... just to show you what... 1964 deb crowd does to the heart!

Pointers Featured In Engagement News

Lanie Wright, Bill Harris, Anna Marie Weir, William Martin, Mary Lee Thomas Make Social Headlines

Grosse Pointers have a new topic of conversation this week, after an announcement made out on Beverly road last Friday. News concerns Louise Helene Wright (much better known as Lanie) and William Callery, who are now making plans to be married this summer.

Lanie is the daughter of Mr. and Mrs. Charles Wright Jr. and is one of the most popular members of the Pointe's young crowd. She made her debut in 1941.

Bill is the son of Mrs. William Callery of Baltimore.

The pretty bride-to-be attended Country Day and Chatham Hall and is a member of Tau Beta and the Junior League.

Bill's schools are Gilman and Princeton, where he was a member of Cap and Gown. He served with the Navy during the war.

The pair are apartment hunting out here now. They have not set a definite date for the ceremony.

Another announcement of Grosse Pointe note comes from Lake Forest, Ill., where Mr. and Mrs. Charles F. DeLong have announced the engagement of their daughter, Mary, to William P. Harris III. Bill's parents are Mr. and Mrs. William P. Harris Jr. of Windmill Pointe drive.

The couple are making plans for a July wedding.

Bill was graduated from Hill School, Pottstown, Pa., and is now (Continued on Page 9)

When the time arrived for the trial, however, Koinis was in a hospital and a certificate to this effect resulted in placing it on the April trial list.

It is rumored that as soon as trial had, been postponed, Tony made a miraculous recovery and was back again on the job with his popcorn and candy business on the streets as usual. April, however, looks like the show down.

Grinnells Books Master of Organ

Tom Montgomery, considered by many to be the finest Hammond organist in the country, has been booked to play a special program in Grinnell Brothers Music Store on East Warren, near Outer drive, on Monday, March 3, from 4 to 5 p. m.

Montgomery, as those in the know say, "plays a mess of organ." He is equally good at classical numbers, popular tunes and boogie-woogie. He has played from coast to coast in the better places and has filled engagements at outstanding Detroit night clubs. He has been heard in the Wedgwood Room, Latin Quarter and Northwood Inn.

Tom played a pipe organ in a Catholic church when he was nine years old. He has been playing organ ever since, and loves it.

Hit-Run Driver Nabbed by Police

When Fireman Bliss and Patrolman Teetaert were in the Maumee station in the early hours Sunday morning, they heard a crash which their ears told them was nearby. A quick radio call to officers Mauck and Johnson took them to the vicinity of Neff and Maumee where they calculated the crash must be, and they picked up a party giving the name of William M. Robinson, Jr., of 448 Allard, Grosse Pointe Farms.

He had run into a parked car near 480 Neff, belonging to Thomas H. Joyce of 975 Washington. Joyce was calling nearby. His car was considerably damaged and the Farms man got a double barreled ticket; hitting a parked car and leaving the scene of an accident.

Spectator Takes Crash Seriously

While Sergeant Vernier of the Park police was investigating a minor accident Wednesday afternoon, Feb. 19, he parked his car on Charlevoix a few feet south of Cadieux.

At the moment a milk truck of the Switzer Creameries came along and the driver was so engrossed in surveying the damage caused by accident No. 1 that he immediately scored accident No. 2 on his own account by smashing into the rear of the police scout car.

Fortunately for the driver he was going only five or six miles an hour, having just turned out of a driveway. As it was, he had a narrow escape from serious injury from the resulting mess of broken glass bottles in the truck. He had to be fished out of the truck by the police but was uninjured.

Damage to the rear end of the police car was estimated at \$85.

THROWN FROM HORSE

Severely injured when she was thrown from a horse owned by the Grosse Pointe Riding Stables on Cook road on Feb. 22, Patricia Moore, 14, of 4142 Nottingham road, was reported to be slightly improved in Cottage Hospital. She was still not fully conscious on Tuesday night.

HOW DOES CHRISTIAN SCIENCE HEAL?

The disappearance of organic and functional disease, as well as of trouble in other forms, is continually recorded among these who have turned to Christian Science for help.

The method of such overcoming of difficulty is prayer—a spiritually scientific manner of thinking based on the teaching of Christ Jesus.

What this prayer is and how anyone can understand it and use it effectively in accordance with his need are fully explained in the Christian Science textbook, **SCIENCE and HEALTH with Key to the Scriptures** by Mary Baker Eddy. This remarkable book, other works by Mrs. Eddy, and all other authorized Christian Science literature may be read, borrowed, or purchased at the Christian Science Reading Room, 14730 Kercheval Ave., corner Manistique

14 Young Thugs Held by Police

In all 16 youths between 15 and 17 years of age have been arrested by the Detroit, Grosse Pointe Park and Grosse Pointe City police in connection with the many burglaries recently perpetrated.

Two have been released but 14 are still held on charges of burglary, robbery armed, purse snatching and a variety of other crimes. Almost all of them have confessed to being armed at the time of their crimes.

The weapons carried by them were not weapons of questionable danger, but ranged from 25 calibre to 38 calibre, all automatics. It is a miracle that some of the many victims of this irresponsible band of young human rattlesnakes has not been murdered.

The latest one of the gang to be garnered in was Adam Feiter, aged 17, of 5765 Cadillac, Detroit, whom Detective Enders of the Park police got Tuesday.

Concert Planned By Music Guild

The Detroit Music Guild will present one of its outstanding concerts on Wednesday, March 5, at 8:30 p.m. in the Lecture Hall of the Detroit Institute of Arts. The Guild Chamber Orchestra will offer Handel's Concerto Grosso in G Major for two solo violins, solo cello, string orchestra and piano; Hindemith's sonata for English horn and piano; Bach's Concerto in A Major for piano and string orchestra and the first performance in Detroit of Bloch's Concerto Grosso for string orchestra with piano obligato, which was written in 1924.

Mr. Felix Resnick, who is a member of the Detroit Symphony Orchestra and studied conducting at the Julliard School of Music, will conduct the Guild Chamber Orchestra.

Katja Andy, one of Detroit's leading pianists, will appear as soloist. Lare Wardrop, member of the Detroit Symphony orchestra, will be soloist on both the English Horn and the oboe.

Reckless Drivers Keep Police Busy

City Officers Mauck and Johnston observed a car speeding down Jefferson at 1 o'clock Saturday morning that appeared to them to be traveling somewhat faster than necessary. They clocked Nicholas Serra, aged 18, 750 Lakepointe, at 55 miles per hour.

He had himself a nice new Plymouth coupe and was breaking it in. He had also incidentally passed a red light at Maumee and Fisher which also went in the omnibus bill of complaint.

Later in the morning of the same day Officer Deredt gave a ticket to George F. Korn of 1191 Chicago-boulevard, who had selected the same favorite speedway for a burst of 47 m.p.h.

At 5:50 p. m., same day, Peter J. Clark, aged 20, of 1010 Vernor highway got a ticket for making a left turn in front of 17151 Kercheval without giving warning. He was hit by a car driven by William Chene, aged 16, of 6426 Marine City highway. Clark's car rammed a parked car, jumped the curb, ran over the sidewalk and ended up against a tree.

Youngblood Votes For Budget Slice

Illness in his family and Washington's unseasonable weather has thrown the Pointe's Congressman Harold F. Youngblood "off the beam" in his social engagements but by a manner of two minutes it did not prevent his reaching the Floor of the House in time to vote for the six billion dollar budget cut.

Just as the Congressman and Mrs. Youngblood were making preparations to attend the congressional reception at the White House, Mrs. Youngblood was stricken with a throat ailment that required her to enter a hospital, necessitating cancellation of the Truman reception. No sooner was she released than her eldest daughter Joan developed a fever and the family doctor advised her parents to place her in a hospital.

While all this was going on, the House was engaged in the controversial budget bill and the leaders were trying to round up all Republican Congressmen. Youngblood was headed off just as he registered his daughter in the George Washington Hospital and in the midst of Washington's worst blizzard in five years drove to the Capitol and reached the floor of the House just in time to cast his vote with the Republican leaders for the budget cut.
