## Area in Woods Used as Dumping Ground for Detroit

Since last November Detroit has been dumping the refuse and fill from its alleys on this property owned by Johnstone and Johnstone. The Woods Council allowed the dumping despite a recommendation by its Planning Commission that the permit be refused. Tuesday night the Council reversed its decision, revoked the permit and ordered the dump covered with at least six inches of dirt. The realtors were requested to send a representative to the next council meeting on September 7.

## Sees Solution To Pointe's Rat Problem

### Health Commissioner Makes Tests With Liquid Which Repels Rodents

Dr. Thomas S. Davies, Health Officer of Grosse Pointe, has been making tests in recent days of a patented liquid spray as a repellent for rats and insecticide which, from his early experiments, he believes may settle the rat problem for Grosse Pointe.

The liquid is put on with a spray and whatever it touches is avoided by rats as humans avoid a plague.

He says that open garbage sprayed by this liquid will not be touched by rats whatever their degree of hunger may be. A rat hole sprayed by it will cause the rat to dig or gnaw another exit to his hole rather than pass the spot that has been sprayed.

It is well known that open garbage is the natural lure for rats. As long as it is uncovered, rats will congregate and breed. This liquid, which is called "Quel" will kill flies and maggots but will not hurt dogs or cats. It will not even kill the rats themselves, which in many circumstances is an advantage as dead hidden rats can become as great a nuisance as the live rats.

By announcing the matter on which rats feed with a substance which makes the food completely repugnant to them the rats leave the place.

Dr. Davies has high hopes that a general use of this spray by local householders will go far to settle the rat problem. The spraying is effective for one week, he suggests that the garbage collectors could carry spray guns around with them and by spraying the garbage cans and the surrounding place on which they rest, the rats would disappear.

## Cop's Countenance Crimson After Solving Mystery of Lost \$15,000 Diamond Clip

### Adds One and One and Comes Up With One After Being Enlightened by Communication from Insurance Company

The New York woman who lost a \$15,000 diamond clip while visiting in the Pointe, has her bauble back, and the Farms police are kidding the member of the department who came up with the solution to the mystery.

Mr. and Mrs. Frederick Wierdsma of New York and Bermuda were weekend guests of Mr. and Mrs. Wendell W. Anderson last month and on the night of July 24 attended a dinner party in the home of Mr. and Mrs. Dean Robinson of Provincial road. Driving back to the Andersons they had a flat tire.

Farms Patrolman Harold Seelow saw their plight at Kercheval avenue and Country Club and persuaded them to leave the car there and drive home in the police car.

The following day another Farms policeman, whose name is withheld in deference to his already red face, was cleaning out the same scout car and giving it its regular Saturday bath. On the floor of the car he spotted what he thought was the same piece of cheap costume jewelry he had found a week or two before in front of Mayfair Gables on Mack avenue. He had shown it to Chief Hoyt at the time and when both decided it wasn't much of a hunk of ornament, he had tossed it in the glove compartment of the scout car.

When what appeared to be the same piece turned up on the floor of the dimly lit interior of the car, he thought it had dropped out of the glove compartment. He stuck it nonchalantly in the pocket of his bluejeans. Going off duty a short while after, he went home, hung his bluejeans in the closet and proceeded to take his own Saturday ablutions.

He didn't give the piece of jewelry a thought until a week later when he put on the work pants again and felt it in the

pocket. He tossed it on the dresser, where it was soon spied by his wife.

Upon careful examination, she decided it wasn't such a bad looking ornament. And when her husband told her where he had found it and how he and the chief had agreed it was just a cheap piece no one would want back, she opined that she wasn't above wearing it if the occasion arose.

On August 7 the Farms police received a communication from a New York insurance firm, notifying them that Mrs. Frederick Wierdsma had lost a diamond clip while visiting here, and asking for assistance in finding it.

When the hero of the mystery read the bulletin, he began to put one and one together and cover himself with confusion. A great realization dawned that there was a possibility that he might have had two pieces of jewelry in his car instead of one. He looked in the glove compartment and sure enough, the costume hunk was still there.

He beat a hurried path to his home, retrieved the diamond clip from his wife and returned to Chief Hoyt with his embarrassing story. The chief called the insurance company in New York and reported the find.

## Civic League Picnic Draws Crowd of 500

### Bathing Enjoyed by Young and Old at New Woods Lakefront Park

The picnic sponsored by the Grosse Pointe Woods Civic League on August 12 at the Lakefront Park brought more than 500 residents out to enjoy the new park facilities. The new grills donated by the Kiwanis Club were a welcome addition.

The recreational program for the picnic was under the direction of Mr. and Mrs. Larry Westerville. Young and old alike joined in the events and their performances were scored by separate age groups.

Prize winners in the age group up to 7 were: Patty Kavanagh, Paul Ludwyck, Sharon Ernest, and Janet Kaal.

In the 8 to 10 group, Dick Kornfeld, David Gayden, Bridget Seiloff, and Jack Newkirk walked off with the prizes.

Carl Schneider, Gerald Peterson, Ken Chalmers, and Norman Soper won in the 11 to 14 age group.

Winners in the 15 to 20 group were Lorainne Chalmers, Ross Marr, Larry Marr, and Bruce Harrington.

Women champions were Irma Elson, Marion Johns, Margaret Platz, and Suzanne Zimmerman. Champs among the men were Jerry McCarthy, Harold Totten, Russell Near, and Ed Anderson.

Some prize winners left the park before the scores were tabulated and those who have not yet received their prizes may call Larry Westerville at TU. 1-0463.

Mr. Westerville was assisted by Mr. and Mrs. Dewey Kalember, Ben Brothers, Ross and Larry Marr, and Norm Soper.

## Former Navy Pilot Shoots Buzzer's Testimony to Bits

David Riecke, of 4714 Somerset, who was accused of flying his plane at a dangerously low altitude over the Harvard-Cadieux-Grayton area of Grosse Pointe on July 25, had a hearing at 7:30 p. m. August 16, before Justice John Potter at the Park municipal court.

## Police Seeking Hit-Run Driver

A resident of Beaconsfield avenue phoned the police at 11:25 p. m. on August 9 that he had just seen a car side-swipe two parked cars near his home and drive on.

## Calls Closed Pools Only Real Solution To Swim Problem

### Health Commissioner Davies Declares Himself Unequivocally in Favor of All Pointes Having Chlorinated Tanks

Dr. Thomas S. Davies, Grosse Pointe Health Commissioner, told the News on August 17 he is unequivocally in favor of enclosed swimming pools in the Pointe. He says that until such time as there is a stoppage of the flow of sewage matter into the lake above the Pointe, there is certain to be ever present the danger of the contamination of the bathing waters. The guaranteed safety of the water by the exclusion of sewage matter is a far cry in the future.

At the present time, he says, the water is in good condition and swimming is safe but at any time a sudden heavy fall of water might bring into the lake a dangerous amount of pollution.

He says the only guarantee of always-safe-swimming can come only when the beaches have enclosed pools. By this method alone can the authorities have constant control of the water condition. Lake water admitted to the pools can be effectively chlorinated. He questions the effectiveness of chlorination of open waters.

He does not believe that the provision of enclosed pools would be especially costly for the taxpayers. The Park already has an enclosed cement pool and residents there can be assured of safe swimming for their children. Other enclosed pools could be provided by the other Pointe communities, which need not be concrete, at comparatively moderate cost.

In such places there is a constant control of the waters in the pool. Chlorination is thus made effective and when in the judgment of the beach authorities it should be changed for cleanliness it is a simple operation to pump out the pool and introduce new water.

Some public officials argue that the pumping cost would be heavy but this is questioned, particularly in view of the fact that the swimming season is at most only a three months operation during the whole year.

## Dog Dies After Biting Two Boys

### Read Hartz, of 299 Rivard, Reported to the City Police on August 14 that a dog belonging to the family at 325 Rivard had bitten his son on August 12.

Since the incident the dog had died and Mr. Hartz was under great anxiety as to the cause of his death. The police and health authorities are making a thorough investigation of the matter.

There is no record on the police books of a dog at that number having been licensed.

Later it was discovered that another boy, Isaac Hedges, living next door, had also been bitten on the wrist and ankle by the same dog on August 12. The head of the dog was taken by the police to the Herman Kiefer Hospital for a microscopic brain analysis. It was learned that the dog had been vaccinated by Dr. Purvis on May 29 this year.

## TRUCK BUS TANGLE

A collision between a truck and a DSR bus at Grayton and Mack was reported by the Steiner garage at 11:30 a. m. on August 16. The truck driver drew the ticket as the responsible party.

## Committee Appointed to Settle Claims

### Sergeant Labadie Believes Girls Were Mixed Up in Window Breakings

The case against the gang of misguided yokels who broke more than \$7,000 worth of windows and street lights in the Pointe during the last few months, has reached a quiescent period during which a committee of their parents is attempting to establish specific claims and arrange for payment of damages.

On August 11 a meeting of the parties concerned was held with Judge D. J. Healy of Probate Court presiding. Fourteen of the boys, all of their parents with the exception of four who were out of town, six of the victims of the epidemic of destruction, various Pointe police officials and Charles Schooley, probation officer for the Pointe area from the Juvenile Division of Probate Court, attended.

Chief of police Tom Trombly and Detective James Flannagan represented the City and Detective Sergeant Elmer Labadie the Farms.

There was a lengthy discussion of the whole subject in the course of which Judge Healy bluntly stated that much of this so-called juvenile delinquency could be laid at the doors of negligent parents.

There was an entire absence of the frequent belligerent attitude of parents denying the guilt of their boys. All of the fathers and the few mothers who were present expressed anxiety to have the matter settled and pay the bill.

To determine just which boys are responsible for the damage done in each case is a rather involved operation. There were so many windows and light smashing episodes and so many different boys participating that it is going to be difficult to find out who owes who.

The total estimated damage done in recent weeks is placed at about \$7,000.

It was decided to name a committee of three of the fathers to dig into the matter and come to some just distribution of the financial responsibility as soon as possible.

When the meeting ended it was decided to hold another on the following Tuesday, August 17, in the office of the City Chief of Police on Maumee. Later it was found this meeting would have to be postponed until Thursday, September 9.

Business for his department took Chief Tom Trombly out of the city on August 17 and Charles Schooley, the probation officer, was to start his annual vacation on that date.

When this meeting is held it will be attended by the chief of the City and Sergeant Labadie of the Farms and the committee of three representing the parents of the boys involved, as well as a representative of the Probation department.

Whether or not prosecutions will follow the settlement of the damage claims, has not been established. There were several victims attending the August 11 meeting who strongly hinted they were not going to be satisfied with merely having the parents pay for the damage done and letting the youngsters go scott free.

The police have asked each of the boys involved to write a confession listing the particular episodes in which he personally took part. It is reported a number of these have already been received.

Sergeant Labadie of the Farms has stated the opinion that a number of local girls were also involved in these malicious forays. He says he will stick by that opinion until proven wrong. Sergeant Labadie also takes the stand that all of the boys involved in any of the episodes are equally guilty.

The great number of individual cases substantiates his argument that even those who merely accompanied the actual stone and brick throwers and BB gun shooters, are guilty as accomplices before and after the act. "They knew what they were going out to do and by accompanying the ring leaders, they became equally guilty," Labadie stated.

The police of the Pointe have been wholeheartedly in favor of full publicity, including the publishing of all names, in connection with the case.

## Lakefront Crash Injures Youths

Two youths driving on Lake Shore road at a high rate of speed at 2:30 o'clock on Sunday morning, August 15, did great damage to both their own car and the one they telephoned in the rear. Both were injured.

John Hooker, aged 17, of 445 University place and Henry Woodhouse, aged 18, of 325 Lake Shore road, were in the offending car. They ran into a car going in the same direction, driven by William J. McHugh, of 1436 Maryland. Both Hooker, the driver of the car, and Woodhouse received severe head lacerations and were taken to Cottage Hospital.

The private physician in charge of their cases stated on Tuesday that Woodhouse would be discharged the following day but that young Hooker, who was the more seriously injured of the two, would probably be held a few days longer.

## GARDEN NO RACE TRACK

County Cyril Tolstoj lodged a complaint with the Farms police on August 12 about boys running through the garden at his Lewis-ton road home.

## Wake of Wanton Destruction Left in Store by Burglars

A burglary that for pure, wanton, senseless destruction has rarely been equaled in the Detroit area, was disclosed at the Randall Furniture store at 9100 Cadieux road when the employees went to open up the place Tuesday morning, August 17, at 8 o'clock.

The thieves had done such an indiscriminate job of stealing and destruction that the surmise was expressed that it might have been done by professionals seeking to cover up with a screen of kid stuff.

The thieves entered by sawing through the roof and then kick-

### Early Registration Required Of Transfers to High School

"New students entering Grosse Pointe High School this fall are requested to enroll the week before Labor Day," announced W. R. Clemenson, principal of Grosse Pointe High School.

At Grosse Pointe High School the assistant principal and dean of girls will be in their offices to enroll new students beginning with the afternoon of August 30 to and including Friday, September 3. The deans and counselors will not be available to enroll new students Tuesday, September 7, or Wednesday, September 8, because of teacher meetings.

New students transferring to Grosse Pointe High School from a school other than a Grosse Pointe public school are requested to have their last school attended forward immediately a

transcript of their complete record to Grosse Pointe High School.

It is very difficult to place a student in the proper grade and with the correct selection of subjects when his record from the previous school cannot be studied. This is a disadvantage to the new student and adds to his orientation difficulties.

### Police Escort Given Solicitor

Woods police were called upon to enlighten another insistent magazine salesman on the village policy against solicitors on August 12.

Complaints from residents concerning a solicitor attempting to force his way into their homes resulted in the police picking up Lawrence W. Solquist, Barlum Hotel, Detroit.

He was taken to the station and then on to the Wayne-Macomb county line. Solquist was selling periodicals for the National Library Association of Terre Haute, Ind.

### Trailer Crashes Into Gift Shop

### Fishermen's Search Abated

Following the heavy rain on the night of August 11, the residents at the foot of Lakeland were awakened by several fishermen who were out on their lawn gathering night walkers who had come up for air.

The police directed them to move on and seek their bait in some other place.

The same storm that brought the bait to the surface blew down a few limbs but no trees were blown over or struck by lightning.

One big limb was reported down at Washington and Mack.

## Precedents for Proposed Park Ordinance Reviewed

Attorney Heftler Cites Discouraging Experiences of Other Municipalities in Attempting to Enforce Law

The cases upon which Pierre V. Heftler, the Park village attorney, wishes to hear the final say of the United States Supreme Court before he gives any opinion on the right of the Park village to legislate against a public address system, occur in three different states.

All of these cases are more or less directly hooked up with such constitutional rights as public assembly and free speech.

In Lockport, N. Y., the city had an ordinance which prohibited the use of public speaking systems where the noise from them penetrated out into the streets or into public places. The Jehovah Witnesses were using a sound truck in a public park and persisted in doing so despite the orders of the local authorities to the contrary. This

case is the only one of the three that has as yet actually reached the U. S. Supreme Court where the ordinance was declared unconstitutional on the grounds that it infringed on the right of free speech and public assembly.

A case involving the use of the public address system has arisen in a town in California where the right of deciding whether it may be used is vested in the head of the Board of Police

Commissioners. The issue was raised there by the communists who had been refused loud speaker use by the police. The State Supreme Court there has ruled against the ordinance vesting such power in the police commissioner on the grounds that it sets up a censorship over the expression of public opinion. This case is on its way into the United States Supreme Court.

The third case arises in New Jersey where a municipality had an ordinance prohibiting the use of sound trucks or public speaking systems. A labor union persisted in pleading its case before the public with such a device and this case also is on its way into the highest court.

The local ordinance which the manager of the Park proposed at the meeting of the Board of Village Commissioners on August 9 would place under municipal supervision both the use of public speaking systems and of public group meetings.

## Plan Field Day For Pointe Kids

The Metropolitan Club of Grosse Pointe will conduct its annual Children's Field Day at Grosse Pointe High School from 10 to 4 on Saturday, August 28, with a dance for adults following at night in the Eagle Club, 8 Mile and Gratiot.

Passes to the Pointe's lakefront parks will be all that are needed for admittance. The program for the kids will include all kinds of contests and baseball games. There will be free pop and ice cream and prizes to be given away include 10 bicycles. Children from 5 to 17 will be admitted.

The Metropolitan Club is composed of members of the Pointe police and fire departments and federal employees.

## Nab Trespassers At City's Park

Mrs. George Schaeffer of 246 Lakeland complained to the City police on August 12 that boys were going through her yard and climbing over her fence into the City beach park. Meanwhile they were parking their bicycles in her garage.

Officer Rabaut, who responded to the call, took three bicycles out of the Schaeffer garage and locked them fast to the parking stand at the foot of Lakeland and brought the three bicycle owners to the police station. They were given a warning to keep out of the City park and released.

All of the boys were residents of Grosse Pointe Park.

## Jeep's Crossing Rudely Halted

A jeep station wagon and a passenger car tangled at Kercheval and Kerby in Grosse Pointe Farms on the afternoon of August 16, with resulting damage about equally distributed between the two.

Donald Molloy, of Hanson court, St. Clair Shores, was driving his Plymouth west on Kercheval when he collided with the station wagon driven south on Kerby by John Thompson of Balsf, Indiana.

Officers Hilgendorf and Roland of the Farms police, reported that Thompson did not stop before crossing Kercheval. He posted a \$50 bond for his appearance in traffic court.

Damage was estimated at \$200 to each car.

## Fancy Figuring Required In Fining of Gambling Duo

Macomb County Prosecutor Edward E. Jacob told the News that it took considerable maneuvering in meting out punishment in the Sullivan-Fitzgerald case, to make the punishment fit the crime.

A large part of his official activities in recent weeks have been devoted to this now famous case. The total fines levied on the two were divided; \$33,000 against Danny Sullivan and \$19,000 chalked up against Gerald Fitzgerald.

## Dog Bites Lead Health Report

A general decrease in communicable diseases was reported by Dr. T. E. Davies, Township health commissioner, for the month of July as compared to June. The one increase was in the number of dog bites.

Dog bites in the township totaled 14. The Farms reported 7, the Woods had 4, the City 2, and the Shores 1.

Measles and mumps tied for second high on the list with one case of each in the Park, Farms, and Woods. There were two cases of each in the City with a total of five each for the township.

Chickenpox left its mark, with one case in the Park and three in the City.

Two cases of scarlet fever were reported in the Park.

## Police Dubious About Accident

Frank Denome, of 846 Newport, Detroit, brought a young woman and her boy friend into the Park police station at 2:40 a.m. on August 14. The woman had a bruise on her head. Denome said he had picked them up at Dickerson and Jefferson and that they had told him they had been struck by a hit-run driver.

The bruise on the woman's head was not too serious and the police thought it might have been made by a beer bottle instead of an automobile.

She was taken to Bon Secours hospital by Patrolmen A. Conlan and A. Boone, where her wound was dressed and she went her way.

The 15th Detroit precinct was notified. The case was in their hands.

## Big Registration Reported in City

City Clerk Norbert P. Neff, reports a total registration for voting in the September primaries and the following election in November in the city of 256 up to August 16.

As these registrations cover only those whose registrations had expired by reason of failing to vote within the last two years, and the cases of new residents in the city, and bears no relation to the large numbers of person already legally registered and in good voting order, he believes registration is unusually satisfactory and indicative of a large interest in the coming elections.

In presidential years there is always a great upsurge of political interest in the Pointe. The vote cast here in presidential elections is always far ahead of that cast in local and off year campaigns.

We can never learn the lesson too deeply that our action in the common places of life is deciding our destiny.—F. B. Meyer.

### Snubbed by the County

The letter sent to the Wayne County Board of Road Commissioners by the Commissioners of Grosse Pointe Park many months ago requesting that Jefferson avenue be given a smooth, modern pavement, yet remains unanswered.

The indifference with which this has been received might cause one to think the Road Commissioners were unaware of the existence of Grosse Pointe.

They are keenly aware of it when the county tax rolls are in preparation. Grosse Pointe stands a close fifth in its assessed valuation among all of the incorporated communities in Wayne County. The city of Hamtramck with \$87,831,020 stands fourth with Grosse Pointe close behind with \$86,472,720. A precious little of the county taxes which this community pays ever comes back to us. When we ask that the only thoroughfare extending all the way from the center of Detroit out to our community should at least be kept in respectable condition on the Grosse Pointe end we make a reasonable request and merit more than stony silence.

The grandiose scheme of widening the avenue to a full width of 100 feet through Grosse Pointe with which the county authorities have beguiled us for years, may not be realized in many years, if ever.

Moreover there is much criticism of this plan here in the Pointe. Many argue the present width of the street is sufficient for the traffic it bears and will be for years to come. Another argument against it is the obvious necessity of cutting down many of the beautiful trees which line it now and would not be replaced short of a half century of growth.

The need for a new pavement is unquestioned and unanimously desired by the people here. Its present condition will develop more rattles in a car than a Tin Lizzie ever possessed in its noisiest days.

Road engineers say that the present foundation is, with only trifling exceptions, ample to bear a complete new top. It has been learned that there is nothing on the agenda of the County Board of Road Commissioners for this season that provides for any work of any description on this main Grosse Pointe highway.

If the people here want something done next year they had better wake up and do something more than send polite requests to the road dictators downtown.

### The Challenge to Freedom

If further evidence was needed of the terrorism and intolerance practiced by the Soviet power, the case of the unhappy woman who leaped from a top floor of the Russian Consulate in New York the other day should be conclusive. Rather than be taken back to Russia to face death or the oblivion of a prison she chose the only way out.

The incident is proof of the terror which that government inspires among all of its own people who dare in the slightest measure disagree with its political and moral tenets. It illustrates pointedly the basic weakness of the Soviet ideology before the bar of world opinion.

Wherever men believe in free speech and respect human dignity the Russian practices are utterly repugnant. It is the opposite pole of the way of life we of this country have chosen for ourselves.

The Russian dictators are completely intolerant of any divergence by word or deed from the route they have mapped out for their people to follow. Their conduct is not a bit different from that pursued by Hitlerized Germany.

However the points of international contact may vary from day to day the basic issue is clearly drawn. It is Human Dignity, Human Rights and all the freedoms under Law vs Mediaeval Serfdom.

Unless the achievements of this modern civilization which have been in process of evolution for the past two thousand years are to perish from the Earth and human society is to relapse into a second Dark Age, the forces of slavery must be opposed wherever they raise their head.

Were this serfward march confined only to Russia we might view its progress with a certain indifference but the obvious purpose to press their unmoderated doctrines all over the world creates a situation in human history where our place and responsibility are clear.

Our political leaders seem to realize this. We should be grateful if they do. The substitution of a base materialism for all the triumphs of the spirit which have been so dearly won through the ages present a challenge which America, the last and greatest child of freedom, cannot ignore.

### Labor On Its Own

The statement of Walter P. Reuther, head of the UAW-CIO, that the resources of the largest labor union in the nation will henceforth be devoted to the formation of a new political movement and that he personally will devote his full time and energy, as president of his union to a "realignment of the political forces in America" is not to be taken lightly.

The welding of labor into a concrete political organization is a far departure from the American concept of government. With us government has always been regarded as the agency wherein just appraisal of the rights of all was attempted and an effort made to translate its acts into measures of common justice.

Political organization to advance the aims of particular groups in the social cosmogony is not new however. In Great Britain which boasts a democracy as real as our own, the nation is at present carrying on its Third Labor Government; twice under James Ramsey MacDonald and the present one under Clement Attlee.

Mr. Reuther is frank in saying that the immediate purpose of his plan is to accomplish as far as possible the election of Senators and Representatives who are friendly to Labor and, probably four years hence, elect a Labor President.

His whole basic idea of a labor party is directly opposed to the views of the late Samuel Gompers, for years head of the American Federation of Labor. He constantly advised against the formation of labor parties, as such, claiming wisely that the laboring man would wield more actual political power in

## Grosse-Exaggerations

A. PRYOR

"The flower that smiles today  
Tomorrow dies;  
All that we wish to stay  
Tempt and then flies."  
(Percy Bysshe Shelley)

Maybe this isn't new to you but it was to us when we heard it recently. Cafe Society referred to as "Barroom Nobility." Whoever invented the name Cafe Society can keep it. We'll settle for barroom nobility or even cocktail aristocracy... or better still, we'll make up one of our own... "barastocracy."

Heard a recording on the Dawn Buster program... the Boston Pops Orchestra playing (of all things) "Tiger Rag". It gives us a chance to panhandle... which in our case means to handle something in a panning manner. WHY, with all the classics in the world, the Boston Pops Orchestra has to play Tiger Rag instead of leaving that to Spike Jones or Cab Calloway... we'll never know. It reminded us unpleasantly of the time Lawrence Tibbett indulged in singing jazz for three straight weeks on some program. On another program, starring some comedian, Lauritz Melchior did the same thing and the live audience went wild with applause. This constant weather fixed up.

We would as soon see Kit Cornell play "Mrs. Wiggs of the Cabbage Patch"... or hear Lily Pons sing the "Woody Woodpecker" song. There's a funny twist in the makeup of some artists... the Charlie Chaplins who want to play Napoleon and the John Barrymores who want to be buffoons. Can't understand it.

If you are of the "make mine a DRY martini" school... you will like this. A gent who never gets a martini dry enough to suit him except when he makes his own... has a particular gripe with public bars where, he claims, they mix 'em about half and half instead of 6 to 1 (that six belongs on the gin end, natch!) One day he stopped in a bar, ordered a DRY martini and hung over the bar while the bartender made it. He watched the barkeep measure the gin into the shaker... and as the latter reached below the bar to get the bottle of vermouth... our hero waited until he had it half lifted off the shelf... then dramatically raised his hand and said "That will be enough vermouth."

A woman told us the following experience she had... which makes nice light summer reading. She hid herself downtown one day last week to purchase a modest wedding present for the daughter of a couple she knew slightly in a small social way. She thought a nice wooden salad bowl set would be suitable, so betook herself to the salad bowl department. There, she was waited on by a nice young lady who was obviously a College girl working during her vacation. (We say OBVIOUSLY advisedly... since our heroine ASKED the girl if she was a College-girl-on-vacation... and the gal said "yes".)

Madame, having already scanned the salad bowls on display and not caring too much for same, chose a towel rack and then not being too sure of herself, asked the salesgirl if she thought a bride living in a small apartment would like such a thing. The girl responded luke-warmly however, so Madame launched into a discussion with her about what or what not to get and in doing so, told the girl something of the background of the bride-to-be. When they got through yakety-yaking back and forth, it turned out that the salesgirl was the sister of the bride-to-be. That settled everything nicely. Sister reached below a counter and dragged out the perfect salad bowl... saying, "Here's one I KNOW my sister will love." Wish shopping was that easy for us.

Another woman told us a story that also makes good light summer reading. This one collects snuff boxes and like most collectors, she has amassed more snuff boxes than you can shake a stick at. Every Christmas, for example, her friends ply her with snuff boxes until she hasn't house room for them anymore. Recently, our little woman celebrated her birthday and since she has reached a high-water mark and since her husband had invited a large group of people to celebrate with her, she thought she'd drop a few hints here and there as to what she'd like... IF they were contemplating getting her.

One of her friends even asked her what she'd like, saying, "You might as well tell me. I want to give you something you REALLY want." So it went... and our heroine talked around the edges about such things as bridge table covers, hankiechiefs, sachet coat hangers, guest pouffe puffs, scarfs, and so on. The beg day came, the guests gathered around and fluttering about like a little dove, Madame opened her presents one by one. She received exactly TWENTY snuff boxes... including one from the woman who insisted on knowing JUST what she wanted! Our depressed little friend doesn't believe in looking a gift snuff box in the mouth. In fact she isn't going to look at them again ever. They are in a trunk in her attic.

this country by having a strong element in each of the old parties with whom party leaders would have to reckon. His was a political strategy which proved its effectiveness over and over again. No political party in this country ever took an attitude openly hostile to labor. The leaders would not do so any more than they would declare against the farmers.

As a political party the laboring man would stand upon his own, subject to the opposition of all not in his own political ranks. As an influential element in each party he commands attention of both.

### An Ancient Symbol

There are a lot of people in this country, aside from those who reside in the state of Michigan, who would regret to see the old steamer Michigan relegated to the junkman. It would seem like breaking up the old Constitution, inseparably associated with the days of our sea glory.

The old Michigan for nearly a century was the only national carrier of our flag on the inland seas. It stood as a monument to the spirit and ability of two great and intelligent nations with a common border of thousands of miles without forts or armaments to conduct their relations in peace and friendship.

The old boat is unique as a token of that great gesture in international understanding. All patriotic Americans and well wishers for international peace and goodwill should give their support to the movement to preserve her.

She is a heritage of the American people and the responsibility for her care and preservation extends far beyond the boundaries of the state after which she was named.

### Greeks Halt the Commies

Shaping events in the Greek peninsula would indicate that Secretary Marshall and other far sighted leaders in our government had sound judgment when they insisted that the established government in Greece should be helped in its fight to stay the advance of communism.

Greece is a strategic point in any campaign to prevent the appearance of the Russians in the eastern Mediterranean. With this accomplished by Moscow all Asia Minor would be open to their advance and the road to India and the domination of the southern half of Asia would be within sight. They already possess outright the northern half.

### Letters To The Editor

To the Editor of the Grosse Pointe News Dear Sir:

This is a warning to all dog owners who love their pets to watch them, as there seems to be a lot of dog napping. On Aug. 2 our little wire haired Terrier was taken. This has happened to more than 4 dogs within the last month right here in this locality.

We've been heartsick about our puppy and I do hope that whoever has him will take care of him as he has a navel rupture. But best of all I wish he were returned to us. I can't rest or eat properly as I miss him so terribly and keep wondering where he is. I know this sounds silly but he was so precious and anyone who loves pets will know how I feel.

He was well trained, or I should say, he had his tail cut and had a streak of white on his forehead that looked like his hair was parted crooked. He also had a brown leather harness on. He is black and white.

I don't know why they pick on our house as it's been broken into twice and this is the third dog we've lost in 8 years. That's a bad record for any village. I'm sure. Hope you will publish this and

Society is the madhouse whose wardens are the officials and police.—August Strindberg.

if by chance a child picked him up his parents will have the decency to return him to us. Thanking you very much. Mrs. Frank B. Reno, 1640 Brys Dr., Grosse Pointe Woods.

### Blood Pressure Clue to Health

By FRED M. KOPP, R.P.H.

Your blood pressure gives a physician many clues to your state of health. Low blood pressure often indicates anemia; it tells the physician that your energy is low, that you tire easily.

High blood pressure points to causes such as worry, overwork, possibly extreme nervousness. When the doctor has a chance to check your blood pressure at regular intervals, he can through advice and medication help you to control it... and thus enjoy better health.

Whatever the doctor's prescription, it is so important to your health that it should be compounded by a pharmacist who uses drugs that meet the highest standards of purity, freshness and potency.

## From Another Pointe of View

by  
JANE SCHERMBORN

The Liggett Straw Hatters are getting ready to present their very first production for public enjoyment . . .

Come August 26 . . . the place: Liggett Auditorium . . . the time: 8:15 . . .

Proceeds will benefit Percy Jones Hospital vets . . . so hurry to the phone and dial Nlagara 8379 for reservations (tickets only \$1.20, tax included) . . .

The vehicle chosen for the Straw Hatters first public appearance . . . is "Ask For Me Tomorrow" . . . a comedy drama in three acts by Joseph Hayes . . .

And pretty likely to be new to this locale . . . since only the East has seen it in a short run . . .

### THE STRAW HATTERS

The Pointe's Sally O'Connor . . . who teaches speech and dramatics at Liggett . . . is rehearsing the young actresses in their parts . . .

Rehearsals are held FIVE days a week . . . all morning long . . . and rehearsals are held at Liggett . . . with the girls "emoing" from the stage . . . the gardens . . . etc . . .

The cast will include the Pointe's Pat Texter who will play the part of Geraldine McMillan . . .

And you'll find many other well known local lasses . . .

For instance:

Becky Patterson will play Kay Adams . . . Barbara Graham will have the role of Ellen Collins . . .

Mimi Rohn will play Ginny Stewart . . . Flo Crotty has been cast as Mrs. McMillan . . . Cynthia Keydel is to enact Dr. Laura Wilder . . . and Lenore Smith plays the part of Liz Williams . . .

### SHIRLEY FORSYTHE HELPS

We were amazed to find that talented Shirley Forsythe (dotter of the Dick Forsythes) will have a "backstage" role instead of appearing on the boards . . .

But her holiday in Northern Michigan precluded strenuous rehearsing . . . and anyhow a dotter of the Forsythes is at home anyplace in a theater . . .

Others who will work backstage for the performance will be Julie Blossom (makeup) . . . Jane Austin . . . and Mimi Baxter . . .

Remember the date . . . and the cause . . . and get your tickets early . . .

### COOLIDGES VISIT HERE

Just departed after a visit with his parents . . . are the young Frank Wellington Coolidges Jr. who by the time GP News reaches you will have arrived in their home in Evanston, Ill . . .

They arrived at the Frank W. Coolidge Sr. home in Kensington road . . . from a visit with Mrs. Coolidge Jr.'s parents . . . Mr. and Mrs. Vernon M. Welsh at their Summer home . . .

Incidentally, that Summer home includes more interesting names than any we've heard since the B. E. Hutchinsons introduced us to "Waterledge, the Dumplings" in Rhode Island . . .

The Welshes call their Summer place . . . Rabbit Ear Ranch . . . and the post office address is: Steamboat Springs, Colorado . . .

While the Coolidges were here . . . Mrs. Coolidge Sr. was hostess at a luncheon for members of the young set to compliment her son and daughter-in-law . . .

The party took place at Lochmoor Club . . .

"The 'Liggett Straw-Hatters' will present a three-act comedy, 'Ask for Me Tomorrow' next Thursday evening, August 26, in the Liggett School auditorium. Liggett drama students, who wanted to keep up their stage work during the summer, met five days a week from 9 o'clock until noon to prepare the show. Proceeds from the play will be turned over to Percy Jones Hospital. PAT TEXTER, right rear, plays the heroine, a girl just out of college. Her domineering mother will be played by Flo Crotty. ## Patricia Flattery Weds Robert Hurley

Rosemary Patricia Flattery became the bride of Robert Paul Hurley Saturday morning at an 11 o'clock nuptial ceremony at St. Paul's Church on-the-Lakeshore. She is the third daughter of Mr. and Mrs. Thomas J. Flattery to march up the aisle this year.

The bride wore the white satin gown which her sisters, Sue and Sally, had worn in April and June at their respective weddings. The neckline of the long-sleeved bridal gown was trimmed with three rows of fagoting. It was fashioned with a long torso, flared skirt and long train. The fingertip veil of illusion fell from a cloche of satin. White roses and stephanotis formed the bridal bouquet.

Mrs. Walter O'Malley, the former Sally Flattery, was her sister's matron of honor. Bridesmaids were Mrs. Alvin G. Sherman, Jr., who was Sue Flattery before her marriage; Mary Lou and Suzanne Hurley, sisters of the bridegroom; Carolyn Dillon and Shirley Mendelson, of Pacific Palisades, Calif.

The attendants were gowned in amberlite taffeta, off-the-shoulder, with skirts windmill pleated in back. They wore maline cloches of cocoa-beige and matching gloves. Their flowers were varying shades of baby mums.

Mr. Hurley asked his brother, William L. Hurley, to be his best man. Their parents are Mr. and Mrs. William Hurley of Rivard boulevard. Seating the guests were Jack Flattery, brother of the bride; Frank B. Ware, George Williams, John Brothhead, Robert Lookes and Fred Stoepel.

### SHERMAN says—

### Food Prices Can Be Cut!

**MEAT:** Remove restrictions on purchase of Canadian and South American meat. Large quantities are available at low prices.

**POTATOES:** Stop government purchase and destruction of potatoes. Right now our government is buying millions of bushels to keep prices high.

**EGGS:** Stop government purchase and hoarding of eggs. Stop killing of egg-laying hens on government order. Some 5,000,000,000 eggs have been taken off the market in the last 18 months through government price support purchases. Many of these have spoiled in storage.

**BREAD:** Stop government purchase of grain crops to keep prices artificially high. Grain is plentiful—record world crops are predicted for 1948. Only govern- ment controls keep bread prices high.

INSTEAD OF GOVERNMENT-FOSTERED SCARCITY AND HIGH PRICES WE CAN AND SHOULD HAVE PLENTY AND LOW PRICES.

## Village of Grosse Pointe Farms

MICHIGAN

### Notice of Public Hearing

to consider  
Proposed New Zoning Ordinance

To the Residents of the  
Village of Grosse Pointe Farms:

Notice is hereby given that a PUBLIC HEARING will be held in the Village Hall, 90 Kerby Road, Grosse Pointe Farms, Mich-igan, on

Monday, Sept. 13, 1948

at 8:00 P.M. Eastern Daylight Savings Time, to consider proposed NEW VILLAGE ZONING ORDINANCE and 1948 ZONING MAP.

The proposed ordinance will repeal the present Village Zoning Ordinance and will provide a number of changes which will restrict building and uses to better protect the residential nature of the Village.

Residence Districts are affected by only minor changes since the entire community is now zoned to single residences only. The most important change is the proposed combining of the residence "A" and "B" districts into one area designat-ed as "Residence Districts."

Business Districts are affected principally by the plac-ing of limitations on the height of future construction to two (2) stories or thirty (30) feet, the exclusion of residential uses, open air sales and the storage of goods in the open, and the addition of parking requirements.

The proposed ordinance with the 1948 zoning map attached is on file in the Clerk's Office, 90 Kerby Road, in said Village, for examination by any persons interested.

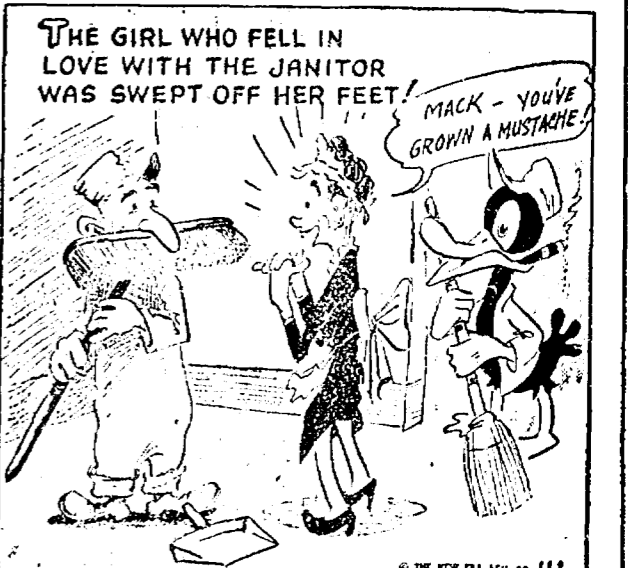

A hearing will be granted any persons interested at the time and place above specified.

This notice is given pursuant to direction of the Village Coun-cil and in accordance with said ordinance and the statutes in such case made and provided.

Harry A. Furton,  
Village Clerk.

# What does your Grocer Owe You?

We think that there are certain principles a grocer must observe if he expects to have the confidence and patronage of the community in which he operates.

We think also that the millions of housewives, who have to spend such a large part of the family income on food, want to feel that the grocers they patronize live up to these principles. It can make a lot of difference in the quality and the cost of the food.

Here, in brief, are some of the things A&P tries to live up to at all times, and if you ever find us falling short of these principles in any way we'd feel you were doing us a favor if you'd tell us about it. We don't think that honest intentions are enough... we believe we owe you a system that makes them come true.

**HONEST WEIGHT...** According to our way of figuring, there are sixteen ounces to the pound with no "ifs," "ands," or "buts." Our scales are in plain sight where you can see the dials, and we have them periodically checked for accuracy. Certain foods are subject to "shrinkage" in weight even after short periods in or on their way to the store. This should be our worry and not yours. When we weigh food up in advance for the convenience of self-service, we know what this shrinkage will be and we add enough to take care of it. A pound of food must weigh sixteen ounces when you get it... not just when we weigh it up.

**CORRECT PRICES...** plainly marked. Again we say honest intentions on our part aren't enough. We must also be accurate and we owe it to you to have a system that guards against slips and errors. A&P prices are plainly marked on the goods or on the shelves and cases or both. A&P cashiers are thoroughly trained to check your purchases quickly and accurately and give you a slip or sales ticket with every purchase itemized.

**SINCERE ADVERTISING...** You should be able to read your grocer's advertising with full confidence that the merchandise and prices are correctly represented in keeping with the spirit as well as the law of honest merchandising. If you see broccoli or lettuce or cabbage or hamburger or porterhouse steak listed in an A&P ad at such-and-such a price—that means it's the price of A&P's best broccoli or lettuce or cabbage or hamburger or porterhouse steak.

If, in the case of a product that we carry in more than one grade or size, (like eggs, for instance), we advertise the price, we advertise the grade also so you'll know what you're buying and what you should pay. We advertise to inform you—not to fool you into coming into our stores, and you won't go away disappointed.

**FRESHNESS CONTROL...** It's not enough for your grocer to buy good food for his store. If you're to get your money's worth he must keep it good until you come for it. That means he must have a sufficient investment in proper refrigeration equipment. His organization must be properly trained to buy properly for quick turnover. His source of supply must be right from the farm or factory to the store. A&P controls the freshness of the food we sell from the source to you, and you can trust A&P to guard its freshness and quality.

**EFFICIENT METHODS...** If your grocer's expenses are too high—if his shelves are stocked with food that doesn't sell—if he employs wasteful methods, you pay the bill. A&P has about ninety years of experience and organization behind its methods of eliminating unnecessary and burdensome costs. We'll go to any expense to improve our methods, but we think that waste is a sin. When we save, you save, and that's why your food will cost you less for the best if you do all your shopping in your A&P store.

These are some of the reasons why millions of women say, "I can trust A&P."

Pointers Beat Ford Highland Park and Alger Aggregations

Twelve Innings Required for Local Nine to Gain Victory Over Alger Outfit After Two Unearned Runs

By Joe Fromm

The Grosse Pointe American Legion baseball squad won two close games last week in the opening rounds of the city playoffs. Wednesday, August 11, the local squad captured a 7-5 win over Ford Highland Park in a thrilling 12-inning duel and two days later, Friday, the squad overcame a first inning 0-2 deficit to win 3-2 over Alger.

Alger, a member of the North division, opened the top of the first inning with two unearned runs on Grosse Pointe errors. The team settled down and Alger failed to score in the remaining eight innings.

Grosse Pointe hammered away at the lead with one run in the first, one in the second, and one in the seventh. Bob Green singled to center in the first, stole second, took third on a passed ball, and scored when outfielder Dan Burke grounded out second to first.

Hafer walked in the second. Wayne Peterson beat out an infield hit to first. Bill Winkler advanced both runners with a sacrifice to put Hafer in scoring position from where he scored on a passed ball.

Clare Weaver singled home the winning run in the last of the seventh. Harry Edsall beat out an infield hit after two men had been retired. He took second on a passed ball and scored on Weaver's pinch hit single.

Two days earlier Grosse Pointe scored two runs in the top of the twelfth to down Ford Highland Park, 7-5. Bob Ruck started on the mound and pitched the first 10 innings. He gave up only three hits and five unearned runs. Bob Green pitched the final two innings and received credit for the win.

Breen led off the top of the twelfth with a walk and stole second. Williams popped up. Art Duffy singled to drive in Breen with what proved to be the winning run. The local nine, however, added an extra insurance run before the side was retired. Russ Gragg followed Duffy with another single to center sending him to third, from where he scored on an infield out. Breen retired the Highland Park side in order in the last of the twelfth.

Don Williams and Russ Gragg each collected three hits to lead the Grosse Pointe 13 hit attack. Wayne Peterson followed with two hits. Williams and Peterson each hit triples in their totals. Bob Green and Dan Burke collected .50 hits in Friday's win. Bill DesRocher, Legion coach, had made contacts for an exhibition game with Hamtramck Falcons for Friday at Kerby Field.

Pointe-Owned Horse Takes Oldest Race

Air Sailor, a six-year-old horse owned by T. D. Buhl of Ridge road in Grosse Pointe Farms, captured the \$15,000 Frontier Handicap at the Detroit Race Track on Saturday, August 14.

A crowd of 20,000 watched the Grosse Pointe owned longshot, finished a length in front of a field of 12. The Frontier Handicap, run for the 35th year, is Detroit's most historic race.

Air Sailor captured fourth place in the 1945 Kentucky Derby as a three-year old. That same year the horse captured the \$30,000 Dick Wells Handicap at Arlington Park, his last important triumph.

Fleetridge, another longshot, finished a length behind the Grosse Pointe owned horse and was followed three lengths behind by Beau Nash. War Special from Dearborn's Stable was a length behind Beau Nash for fourth position. Sir Sprite, the 3-2 favorite, finished in fifth place.

Montayr, a stable mate of Sir Sprite, set the opening pace with hopes that the favorite would come from behind to win. Air Sailor passed him going into the stretch.

Jockey Mike Corona rode the winner from fifth place to second after passing the halfway mark. Corona held Air Sailor in that position until he saw Montayr beginning to falter. He then went into the lead just before the eighth pole and rode the remainder of the way to victory.

Air Sailor ran the mile and one-eighth in 1:31-2/5.

Rain Interrupts Playoff Games

Only one of the three final playoff games in the Grosse Pointe Playground league that were scheduled for Thursday, August 12, was played. The other two were hindered by rain the day before, that cancelled the semi-final games.

Hawks captured the Class D championship by defeating Turbo 6-2. The loss by Turbo was the first loss in eleven games.

The Grosse Pointe American Legion's next playoff game will be played at Kerby Field in Grosse Pointe on Friday at 5:30. The game will be against Hamtramck Falcons from the East division. The Falcons wound up the regular season in first place with a 15-2 record. Three Falcon players played in the Legion all-star game Sunday at Briggs Stadium.

The squad finished the regular season with a 9-0 average and won the first playoff game.

GeePees and DeFour Insurance were scheduled to meet Tuesday night for the Class A title. DeYonges and Wings met Monday for the Class C championship. DeFour eliminated Grosse Pointe Merchants Wednesday 1-0 on Al Ghesquier's seventh inning home run. Bockslanz homered for GeePees to give his team a 4-3 win over Show Bar the same night.

Other Class A results: Thursday, August 5: Pagoto 7, Barbecue 2; Belle Isle 4, Clovers 3. Tuesday, August 10: Merchants 7, Potato 2; Show Bar 6, Pete Moor 5; DeFour 7, Fisher Record 0. Thursday, August 12: DeFour 1, Merchants 0; GeePees 4, Show Bar 3.

Junior Loop Tilts Require Extra Innings

Optimists Retain League Lead by Downing Kiwanis, 15-14

Two extra inning baseball games Sunday featured the only two games played in the Pointe Junior League last week. The Optimist Club team remained in the league lead with a 6-5 win over the Lions in ten innings. Metropolitan Club came from behind to down Kiwanis 15-14 in nine innings. Two games scheduled for Wednesday, August 11, were rained out.

The Optimists and Lions were knotted at 4-4 at the end of the regulation seven innings. The Lions scored one run in the top of the tenth when Ken Rice tripled after two men were out and scored on a balk by pitcher Duane Streb.

The Optimists came back in their half of the tenth with two runs. Ted Barnes received life at second base when his fly ball to center was dropped. He took third on a ground out and then stole home. Pitcher Dick Rydberg's pitch to the plate was too late to catch Barnes. Rydberg seemed to be rattled at this and walked the next batter. Then hit the next one. Streb then singled to win his own game.

The outcome of the first half will be decided Friday when the Optimists meet Kiwanis in a replay of a rained out game.

### PERSONAL APPEARANCES

**MRS. CHARLES A DEAN JR.** chooses fashion's favorite tones in an evening gown worn to recent house party with smashing effect. The gown was white organza, moulded to the bodice and extending into a floor length modified full skirt. The merest wisps of caps were used at the shoulder, and on one shoulder she affected a wide, flat black velvet bow that floated part way down the bodice, both back and front. The skirt had deep godets of exquisitely fine black Chantilly lace. Her only jewels were diamond earrings and when she arrived she wore a brief sable jacket.

Black Chantilly lace is worn by the Pointe's smartest women this late Summer. The petite and lovely **MRS. GEORGE O. JOHNSTON** wears an evening gown of lush white taffeta with miles of black Chantilly used in tiers around the bodice and the full, long skirt. The bodice of the gown is designed without straps showing those soft, olive shoulders the Mauchester sun bronzed so well this Summer. Mrs. Johnston chooses three strands of pearls with this gown and wears a short boxy ermine jacket.

Summer evening gowns can't be mentioned without loud words of praise for the pale gray silk shimmering **MRS. GARY M. STROH** danced in the other evening. Square neckline, slim bodice, short sleeves, and long, straight lines distinguish the gown which has a dashing torso comprised of bands of shantung, flat and tight to the body, in tones of bottle green, brilliant green and tangerine. These bands are finished in flat ties down one side. The skirt is slit, chicly, to just below the knees in front. Choker pearls complete the costume.

### PILFERINGS

Leonard Lyons' young hopeful watched his mother try on a new dress. "You sure are beautiful," he assured her, "You look just like Abraham Lincoln."

Paul Whiteman, the famous band leader, never could see why some people thought he was fat—even when he tipped the scales at something in the neighborhood of 250. He likes to tell the story of the r-e-a-l-l-y stout party who made a million dollars without budging from his comfortable couch.

A visitor found him one day wearing a bathrobe with enormous checks, and a number sewed on to each check. "What's the idea of those numbers?" he inquired. "Watch me," said the Croesus. He summoned his butler, yawned, and ordered: "Jeeves, scratch Number 23!"

A wedding limousine rolled up Fifth Avenue a few weeks ago with a large placard tied to the rear bumper. It read: "Careless Talk Caused This."

Eddie Cantor avers that in his bed in an overcrowded Washington hotel he suddenly heard snores emanating from the adjoining bathroom.

He investigated, and rushed to the telephone. "Good Heavens," he cried, "there's a midget up here snoring in my bathtub!"

"A midget?" echoed the room clerk calmly. "He must have pulled the plug out. There's supposed to be two of them."

Two K.P.'s were staggering under the weight of a steaming kettle they were hauling from the kitchen in Fort Dix, New Jersey.

A colonel stopped them. "Get me a ladie," he commanded. One of the K.P.'s rushed for a ladle. The colonel dipped it into the kettle, swallowed a mouthful, gulped, and roared, "Do you call that soup?"

"No Sir," came the meek reply, "That's the water we've been washing the dishes in!"

MRS. GERALD KIEFER OF TOLES LANE

by Kitty Carney

From the cold regions of Alaska to the hot sands of Persia, people use bookmarks. One need only view the extensive collection owned by Mrs. Gerald Kiefer to be certain of that fact.

Mrs. Kiefer, who gathers her bookmarks from volumes throughout the house whenever they are to be displayed for some purpose, explained that she used to watch for unusual bookmarks, which could easily be mailed as gifts in greeting cards. Gradually, she began to pick them up in her travels, not only because they were interesting but also because they were easy to carry. Only in the last few years has she thought of bookmark-collecting as a hobby.

Mrs. Kiefer's Mexican bookmarks, fringed and hand woven in beautiful colors, resemble miniature serapes. A small Eskimo doll of leather and wool dangles from the tip of the blue bookmark from North Bay, Alaska, and an ivory insignia sets off her bookmark of fine Persian design. The bookmark which a Chinaman uses when he reads his manuscripts backward is an ivory carving.

**WOODEN SHOES**  
Hungarian folk mark places in their books, according to this Pointer's explanation, with a long silken cord to which small wooden shoes, dishes or peasant figures of wood are attached. Unusual is the floral design worked into an olive wood bookmark from Oberammergau, Germany, famous for its Passion Plays. One of her most unusual specimens, says Mrs. Kiefer, is the yard-long mark of beadwork made by an Indian for a missionary's bible. Other Indian bookmarks are woven of reed and sweet grass in two contrasting shades.

The face of an aged woman is

white background of another unique bookmark.

### PLAID BOOKMARKS

Scottish people have selected for bookmark purposes a plaid ribbon with metal insignia attached to each end. A mark, which Mrs. Kiefer believes to be rare now, is a metal marker with the head of Edward VIII upon it, made during the short time he reigned in 1936.

Perhaps the most fascinating thing about this collection is that

every type of material seems to be represented. There are bookmarks of leather, cloth, paper, beadwork, metal and even plastic. Several of Mrs. Kiefer's bookmarks are newer, mechanical specimens adjustable for books of varying sizes. One, for example, clamps on the back cover of the book and has a plastic flap to be inserted at the necessary page. Another spiral wire, attached to a clamp, is flexible enough to hold the place when a book is closed.

The Kiefers have picked up souvenir bookmarks in their journeys at Washington, Gettysburg, samples of loom work at Hartland, Mich., Holland, Mich., and of course, a copper one from Mackinac Island. They have a daughter, Janice, who treasures a hobby in her own right... an outstanding collection of dolls from all over the world.

### MAJOR PROJECT HALTED

The Park police on August 5 interrupted some boys on Whittier between St. Paul and Jefferson struggling valiantly to move a large underground oil drum. Just what the boys intended to do with their toy was not clear.

## Pointe Counter Points

by C.M.C.

Kenwood coats have arrived at JACOBSON'S. Each year Pointe parents who have offspring in the "toddler to teen" class, await word that the exclusive line of winter coats has arrived at Jacobson's. The fleecy-looking virgin wool put out by Kenwood includes outfits for sizes 1 to 3, 3 to 6, 7 to 14 and 9 to 15. To keep the wee tot cozy and warm when chill blasts blow a few months from now, JACOBSON'S proudly display three-piece Kenwood outfits composed of coat, leggings and bonnet. These come in pale pink, blue and other pastel shades, and transparent buttons trim the coat. A touch of rosebud embroidery on the coat is repeated in the material bow which sets off the bonnet.

The robust lads and lassies who have passed the toddler stage need sturdy outfits too. Kenwood coats with leggings to match can be found in JACOBSON'S well-equipped youngsters' department. These heavy duty coats come belted or straight-lined for action. And they are not in pastel shades... no indeed... the manufacturers know that these "rough 'n' ready" years need solid colors for longer wear. The shades include red, green, tan and royal blue.

Double rows of buttons, slit pockets and small cape are among the features which the three-to-sixers may select when picking their outfit at JACOBSON'S. Another item of choice are the matching hats... some sport turned-up brims... others are jaunty berets trimmed with tiny feathers. All come with detachable earlaps.

The juniors' older sisters, who make JACOBSON'S their shopping habit, can count on being Kenwood-clad too. Traditionally handsome is the classic white Kenwood coat for the teenager. Wraparound belt, slit pockets and white buttons complete the winter costume. The same coat is available in a number of other colors at JACOBSON'S.

A hint of fall in the air, as well as the familiar back-to-school trend, is slowly but certainly beckoning junior and senior localities home from Vacationland. One of the very first places which the female contingent will want to visit is that shop of distinction, WALTON-PIERCE.

The change from summer sunsuit to elegant fall frock can be made at either of the two WALTON-PIERCE stores, the GROSSE POINTE BRANCH at Kercheval and St. Clair Avenue or downtown in the Women's City Club. Incidentally, "the earlier the better" is the motto as this season opens at the Custom Shop downtown, where slick autumn ensembles will be designed to suit y-o-u alone.

Sport outfits, daytime frocks and date dresses from WALTON-PIERCE will complete the college girl's wardrobe, and \$29.95 is the starting price for these smart creations. Both maid and matron will be grateful for the lovely selection of fall apparel at Walton-Pierce.

In the new autumn collections WALTON-PIERCE puts emphasis on the fact that the "silhouette conforms to the individual and not the individual to the silhouette". In line with this theme are both the slightly fuller and narrower silhouettes which mark the season's dresses. Incidentally, the first fall hats, simple and stunning, can be found to match the new ensemble in the Walton-Pierce shops. The chapeaux start at \$12.50.
