## Pledging Support to a Fine Movement

The Cub Scouts have started another year's activity with the ending of the long summer vacation period. The Kerby School Pack, which meets in Christ Church, had its first meeting Monday night. Here a group of parents are signing up their young hopefuls' applications for membership in the junior scout movement. The parents pledge to take an active interest in the work of their own children and the pack as a whole.

## Attendance Records Broken At Pointe Lakefront Parks During Season Just Ended

Figures Show That Five Sites Were Visited by Estimated 351,000 Residents; Fine Swimming Enjoyed at Beaches

More persons patronized the Pointe's municipal water front beaches this past season than ever before. This can be attributed to several factors. There was unusually fine swimming weather during most of the summer, with no interruption because of health board edicts prompted by deterioration of the water below safety conditions. The other factor is the normal growth of population as evidenced by the many new homes built and occupied during the season. More children have advanced into the swimming age and hundreds of young men have permanently returned home from war service.

The Park led all of the public beaches as was to be expected from its larger population. The fact that the enclosed pool there had been re-equipped with pumping and chlorinating machinery also stimulated attendance. According to Park Superintendent Brown 140,600 persons dipped in to its safe waters during the season.

The Farms beach attendance was 94,724, by far the largest ever for the beach. Last year it was 86,829 and in 1946 only 59,636.

Chief of Police Walter Goulette, of the Woods, who through his police officers has general charge of the park, reports that about an even 40,000 patronized the new beach, which had its first season this year.

Superintendent Locke of the City's beach park did not attempt to keep an accurate count of attendance each day but says for the whole period for which the park was open attendance averaged about 900 per day or well over 70,000 for the season.

In the Shores, much the smallest in population of the five municipalities, Manager Jeffers estimates the attendance at 6,500.

This gives an aggregate for the entire Pointe, based upon both actual count at some beaches and careful estimates at others, of 351,324 for the season from the official opening of the swimming season to its close with the opening of the schools.

This is a lot of swimming out of a total population of about 39,000.

## Driver Blames Crash on Cat

Joan Jorgensen of 712 Berkshire, driving east on Jefferson avenue at 11 a. m. on Oct. 4, had a pet cat in her car which momentarily distracted her attention and caused her to hit a parked car belonging to Fred Gill of 313 Roosevelt place.

The impact drove the Gill car into a light pole damaging it in both front and rear.

Miss Jorgensen was taken to Bon Secours Hospital for treatment for a minor knee injury.

Superintendent Locke of the City's beach park did not attempt to keep an accurate count of attendance each day but says for the whole period for which the park was open attendance averaged about 900 per day or well over 70,000 for the season.

## Hope to Find Runaway Boy By Birthmark

Navy to Be Asked to Up-end New Recruits in Search for Missing Lad

William Yerge, of 1046 Lakepointe, reported to the Park police last week that his son, Donald William Yerge, 15, had disappeared from home on Sept. 27.

He had told friends that he was going to join the Navy.

The police have sent out an alarm for his pickup. He is too young for the Navy and his parents are under great anxiety as to his whereabouts.

Detective Stanley Enders, to whom the case was especially referred, has since discovered some interesting features in young Yerge's disappearance.

He left a note explaining in detail his plan for getting in the Navy. He was going to borrow the birth certificate of a friend who was a couple years older than himself. This would effectively hide his identity so far as the Navy records go.

Then he had arranged with a man "downtown" who, for \$5, would sign the papers as his "father", with his permission to join the Navy. Presumably young Yerge would have no difficulty in making such a mutually advantageous arrangement "with almost any man on skid row who happened at the moment to have a suit of clothes respectable enough to carry the role of "father."

Enders said "we'll have a heck of a time locating this kid if he does succeed in getting into the Navy. We don't know whose birth certificate he might use."

The detective said they had one card up their sleeve, however, which might work. The boy had a pronounced birthmark on his right rear flank and "if we can persuade the U. S. Recruiting Service to upturn every young swab they have taken into the Navy in the last two weeks and take a quick glance at his posterior department they may discover the right sternum."

SHOPPING TROUBLE

Mrs. E. Epler of 15237 Madeline, Detroit, was shopping at the Thrift Shop on Oct. 1. She had her son, Michael, aged 2 1/2, with her. Michael disappeared and there was much excitement until City Patrolmen Rabaut and Keller located the youthful absentee at 694 St. Clair.

AWNING FIRE

The Woods fire department extinguished an awning fire last Tuesday at 731 South Oxford, apparently caused by sparks while Mrs. Mervyn Gaskin was burning rubbish in the incinerator.

## Woods Waits Decision on Tax Quarrel

St. Clair Shores Demands Payment on Assessment for Lakefront Park

Julius L. Berns, attorney for Grosse Pointe Woods, is hopeful of getting the decision of the Macomb County Court within the next two or three weeks on the case involving the right of the St. Clair Shores Village to collect taxes on the Woods-owned water front park within the St. Clair village limits.

This is the 43 acre tract which the Woods acquired from the Edsel Ford estate nearly two years ago.

The issue of the right of the Woods to own and operate a municipal park within the St. Clair limits was settled affirmatively for the Woods many months ago.

St. Clair was loath however to forget the taxes which it collects on the tract. Along with St. Clair village, the county of Macomb and the local school district also participate in the division of the tax receipts. The aggregate is somewhere between \$3,000 and \$4,000 annually.

The issue was drawn and Circuit Court Judge Eugene Huff of Saginaw County was called in to specially preside.

The brief in the case was submitted last February. Last June Judge Huff called for a supplementary brief and recently again called for more particulars. All statements of facts are now in the hands of the Court and a decision should be forthcoming soon.

There is much evidence to support the hope of the Woods village that it will escape the taxes. A local instance is where the City of Detroit, which owned the Russell Alger property on Lake Shore in the Farms and operated it until recently as a museum, consistently refused to pay taxes on it to Grosse Pointe Farms, despite repeated requests and demands from the Farms that it do so. The Farms eventually had to abandon its fight and Detroit never paid any taxes during all the years the Alger property was a museum.

Immediately upon getting the call from the City police, Paisley dispatched Allor and Dhaveloose to the scene, where he and Van Tiem joined them. A search of the building disclosed nobody inside.

About Same Time

The shop was entered early on Sunday morning, Sept. 5, apparently about the same time, and a sable jacket valued at \$4,000 taken. That burglary was discovered at about 3:30 a. m. by Patrolmen Allor and Seelow.

On that occasion, the thief, or thieves, also entered by smashing a window, apparently with a hammer.

They got the jacket in the window but ignored a Russian sable scarf valued at \$2,500, also in the window.

Police Disperse Swains Trying to Crash Party

Lois Buck, of 851 Pemberton, phoned the Park police at 12:40 a. m. October 2 that she was having a party for girls only at her home and a group of boys on the outside were interfering with the party.

Officers Del Place and Verwache were dispatched to the scene of the social riot and dispersed the disappointed young swains.

FALSE ALARM!

When Farms police arrived at the home of Mrs. Russell Labadie, 125 Muir, Monday night, she sent them back to the station. She had found and remedied the noise that had alarmed her. It was a furnace blower.

Motor Balks At Sugar Ration

An automobile driver showed up at the Grosse Pointe garage at 2:38 a. m. on Oct. 3 and said he had been having trouble with his car all the way out to Grosse Pointe from W. Jefferson avenue.

The helpful garage attendant took a quick looksee.

"Here's your trouble; no car will run on syrup," he said, and pointed to grains of sugar scattered significantly around the gas cap.

The troubled car owner opined that some friends he had left in a West Jefferson beer garden had played a joke on him.

## Thieves Get \$5,000 In Furs on Second Visit Within Month

Unprotected Window Smashed Again in Daring Burglary on Kercheval Within 10 Minutes of Police Check; \$4,000 Loot Obtained There Sept. 5

Thieves made a daring entry of the shop of Furs by Robert Kercheval near Fisher road, for the second time within a month early Tuesday and escaped with furs valued at about \$5,000. According to Sgt. Jack Paisley, of the Farms police, the thieves broke in and obtained five expensive fur pieces in the space of about 10 minutes.

They entered by smashing the diagonal window next to the door, Sgt. Paisley said, ignoring some dresses and hats in the show window, and took the furs from a rack in the store.

The store had been checked at midnight by Patrolmen Sidney Allor and Camiel Dhaveloose in a scout car and was found to be o. k. again at 12:05 a. m. Tuesday by Patrolman George Van Tiem.

Probably Experienced

Paisley was informed of the broken window by a City police scout car at 12:15 a. m. The window had a hole about two by four feet.

Chief Walter Hryt, who began an immediate investigation, said the job apparently was the work of at least three, probably experienced, burglars. No fingerprints were found in a minute check by Detective Sgt. Elmer Labadie.

Hoyt pointed out "that the shop's windows are not wired with burglar alarms. The doors are.

Five-Minute Job

He said it would be simple for a well-organized gang to do the job in less than five minutes.

Listed by Michael Roberts, branch manager, as having been stolen were a muskrat coat valued at \$750; Rocky Mountain sable jacket, \$800; black caracul jacket, \$1,000; black Russian broadtail jacket, \$2,000; and blended squirrel jacket, \$350.

Immediately upon getting the call from the City police, Paisley dispatched Allor and Dhaveloose to the scene, where he and Van Tiem joined them. A search of the building disclosed nobody inside.

## Building Sale, \$81,000 Bonds Are Approved

800 Vote on Propositions for Improvement of Services

All four propositions were approved by Woods voters in a special election Monday, although Proposition 2 had a narrow squeeze. The others were passed by wide margins.

Nearly 800 voters turned out at the four precincts to express their desires on the matter of three bond issues and the sale of some municipal property.

The three bond issue propositions needed 60 per cent majorities to pass, according to Village Clerk Philip F. Allard, while the proposal to sell "that portion of the Mack Avenue municipal building and park site situated in Grosse Pointe Woods" needed only a simple majority.

Sale Favored Heavily

Needless to say, the selling proposition received the heaviest favorable vote, 701 to 85.

Proposition 2, for the issuance of \$20,000 in bonds over a 10-year period for additions and improvements to municipal buildings, had the closest call, passing by only 516 to 267. It failed of a two-thirds approval—required in many places on bond issues.

Of the revenue issues, Proposition 1, for \$20,000 in bonds issued over 10 years for purchasing modern fire apparatus, got the heaviest favorable vote, 623 to 154—indicating a keen interest in fire protection.

River Project Wins

The proposal to issue \$41,000 in bonds over a 10-year period for construction of drainage structures in and along Milk River and cleaning the Milk River" easily gained a 60 per cent majority and would have scraped through on a two-thirds majority, 557 to 226.

The bond issues, totaling \$81,000 over the 10-year span, will begin in 1950, with \$2,000 each on the building and fire apparatus improvements and \$4,000 on the drainage project.

The issues will be the same each year through 1959, with the exception of the drainage issue, which will be \$5,000 in 1959.

Cigaret Spark Burns Out Car

A spark from a pipe or cigaret apparently was the cause of a fire early last Tuesday which practically burned out the inside of an automobile owned by Charles Stephenson, 28, of 359 McKinley avenue.

Investigation has failed to locate the cause of an apparent disruption in phone service reported by Fred Day, Stephenson's next door neighbor when he was unable to reach the Farms fire department, according to Chief George Dansbury.

In any event, Dansbury added, service is now in good order and a test made later that morning indicated the phone was functioning a. k. a. Dansbury conjectured that Day may have dialed wrong in his haste.

Stephenson, who advanced the pipe or cigaret theory, said he had the fire extinguisher himself before the fire department would have arrived, anyway. Damage was estimated at "quite a bit more than a hundred dollars."

ALCOHOLIC ANONYMOUS

An unnamed man came to the City police station at 2:09 a. m. on Oct. 2 and reported that he had come within an eyelash of killing a drunken man at the corner of Jefferson and St. Clair only a few minutes before.

By the time the police patrol car arrived the drunk had staggered away.

YOUTH ACCEPTS FULL BLAME FOR ACCIDENT HE ESCAPED

At least young Richard M. Shebay, of 11032 Wayburn, Detroit, can be given credit for hanging around to take the blame.

Shebay, 19, who claims about six months driving experience, admitted to police early Sunday that he failed to give a proper signal for a left turn at Mack and Oxford.

What followed was a pileup of two other automobiles. Shebay's car coming through unscathed. All too often, as any experienced motorist can attest, the driver in Shebay's position drives blithely off leaving the other fuming futilely.

According to Woods police, Shebay, driving north on Mack, was preparing to turn left into a West Jefferson beer garden had played a joke on him.

George V. Mason, 22, of 14940 Wilfred, Detroit, attempting to overtake Shebay, swerved to the left side of Mack to avoid hitting Shebay and then skidded about 40 feet into an auto parked off the pavement on the northwest corner.

And, that unoccupied car, owned by Nellie Crowl, of 875 Marlborough, Detroit, was the real sufferer. The whole left side was bashed in for damage estimated by police at \$200.

Shebay was ticketed for endangering other vehicles and Mason was charged with not having his car under control. His car received just a crumpled fender—about \$25 damage.

Miss Crowl got a headache!

NIGHT SOLICITOR GETS BUM'S RUSH

A woman residing on Middlesex called the Park police department Sept. 28 to inquire whether magazine salesmen had the right to solicit subscriptions at night.

The question was a poser for the police. There is no clear clock schedule provided in ordinances for this type of salesmen.

Inasmuch as other complaints had been received from householders who were provoked by these aggressive young men, Detective Stanley Enders hunted up the man in question and told him to leave the Park, pronto, and confine his business hereafter to the day time.

Although not considered seriously hurt, Carey remained in the hospital overnight for observation.

### Wire Recordings Speed Teaching

Wire recordings will be employed as an adjunct to the teaching of conversational Spanish in the adult evening classes about to open at the Grosse Pointe High School building under the auspices of the department of adult education.

The wire recorder reproduces sound by means of magnetic impulses on stainless steel wire. The light-gauge wire is "played" through the recording machine on spools, one spool, containing several miles of wire, being sufficient to make a recording several hours in length, and for this reason the device is of far greater value in school rooms than phonographs or other devices hitherto available.

One small error can spoil a whole phonograph record, but with the new wire recorders alterations can be made, or mistakes corrected, in a few seconds. To make a change or correct a mistake all one has to do is return the wire through the recorder and, presto, the old words have disappeared and the new ones are recorded in their place.

Amazing to the uninitiated is the fact that a magnetic recording of sound on wire lasts forever, unless it is purposely "erased." A wire recording can be played time after time, in fact it can be played until the wire is worn out by friction and still be as loud and distinct as when new. The alteration in the molecular structure of the metal which takes place during recording is perpetual.

A wire recording fell from a boat into San Francisco Bay. When recovered some months later and the accumulated layers of mud and slime were cleaned off the wire, it was found to have suffered no ill effects whatever, and when "played" was perfect.

The adult Spanish classes of Clarence V. McGuire, which have attracted widespread attention because of the unusual teaching techniques which they have employed, will use wire recordings primarily as a means of simplifying and speeding instruction. Experiments conducted in a high school classroom last June by Mr. McGuire indicated that, by using recordings as an adjunct to teaching Spanish a recitation normally requiring 110 minutes of elapsed time could be completed in 34 minutes, without omitting any detail of the program of instruction.

A great deal of time is unnecessarily lost in the average classroom due to lack of a planned program of recitation, Mr. McGuire states, and it is his opinion that a lot of this lost time can be saved by recording the lessons. Use of the records will rest the teacher, and it will make things easier and pleasanter for the students also, he believes. Where ultra-modern techniques are employed, as in the adult Spanish classes at Grosse Pointe, recording facilities ought to be of especial value, Mr. McGuire says.

Mrs. Edwin James will assist Mr. McGuire in the adult classes, which open for the season on Wednesday, October 6.

### Vote Pleasing To Youngblood

Orland H. Ellis, Administrative Assistant for Rep. Harold F. Youngblood, made public a post-election statement of the Congressman. He quoted Youngblood to this effect:

"Naturally I was pleased with the results of the election.

"During my term as Congressman from the 14th District of Michigan, I have done my level best to represent the District in the way I felt they wanted to be represented. I voted for measures which would bring about economy in government and against the spend, tax and spend policies of the past 16 years. The vote cast Sept. 14 indicates to me that the people of the 14th District and the people of the entire nation are interested in real economy in government and want to discontinue the lavish practices of the New Deal. The vote cast bids well for Governor Dewey's election to the Presidency in November and the return to normalcy in government.

"I want to take this opportunity to thank all the people who assisted me in my campaign. Without their assistance and their votes my nomination would not have been possible. I also want to thank the members of my congressional staff for the way they assisted me in my work in the 80th Congress.

"If re-elected in November in the final election, I intend to continue to give my full vigor to the preservation of my people's interest and for the advancement of economical and sound government."

### Rally Planned By Allied Youth

Fun and frolic will be the theme of the big Rally to be held by the Allied Youth Friday night, October 8. This annual send-off will start with a talk by the popular Rev. Paul Sloan of the Ferndale Presbyterian Church. The excitement will reach something of a peak in the Amateur Talent Show.

Allied Youth is non-political, non-sectarian, and welcomes everyone over 14 who is not too old to laugh and enjoy life. If this means you, join the gang on Oct. 8, at 8 p. m. at St. John's Community House, 33 East Montcalm, just across Woodward from the Fox Theater.

The East Side Allied Youth post will meet on the 15th of October at the Grosse Pointe Memorial Church. At this meeting they will get the fall program planned and under way. After the meeting, Tim Ford of

the Detroit Crime Prevention Bureau, and one of AY's favorite members, will speak, to the group. Then everyone will adjourn to cokes, dancing, and powwows. Meet us there at 8 p. m., Call CH. 6194 for information.

# Park Manager Lane Reports On Parley of City Managers

### Brings Back Opinions of Municipal Experts After Attending 35th Annual Meeting of Association at Mackinac

In view of the fact that two of Grosse Pointe's municipalities are functioning under what might be called a Manager-Commission Plan, the Park and the Shores, the report which Manager Everitt B. Lane of the Park made to the Board of Commissioners on September 27 was interesting to all Grosse Pointers.

If it should happen that the recently discussed City charter movement results in all of the Pointe municipalities being converted to City status, the probabilities are that most or all of them would install city managers. Mr. Lane was fresh from the 34th annual conference of the International City Managers' Association held at Mackinac Island September 12-16.

His report discloses that 860 cities or incorporated municipalities now function under the manager plan.

It is significant that in Maine, a relatively small state, where New England thrift and business sense are strongest, there are 88 cities and towns under manager operation, heading the list for the whole country. Michigan is second with 69, Texas third with 66, Virginia has 52 and California and Florida 48 each. The association expects the total roll of city manager communities will reach 1000 within the next year.

Lane's report stated that cities and villages are still confronted with the problem of meeting full scale municipal operations at extremely high cost levels. Property tax has reached its peak and cities are searching for other revenues which are stable and depression-proof. A revision of the real estate tax along just and scientific lines will do much to improve this situation.

The Park itself which Mr. Lane manages has been going on a pay-as-you-go plan in its permanent improvements ever since he took charge.

"State aid," he said, "is not the answer." Cities and villages should stand on their own feet, widen the base of local taxes and adopt legislation for excise taxes and others that are necessary.

The report's comment on civil defense is especially significant for this area. Conferences have been held by the Office of Civil Defense with state governors and officials of "Big Target" cities.

Municipal debts are still on the increase, Mr. Lane's report says, and he recommends that before money is borrowed a community should make a complete engineering survey and should employ a special bond attorney. Municipalities should retire their debts faster in time of prosperity, and normally in time of depression.

The conference declared for promoting a good public relations program. The affairs of the local government should be taken to the people and its projects fully explained. "The people are not naturally technically minded. Periodic reporting to the citizens and taxpayers is very necessary."

"Develop off-street parking areas. The streets are made for traffic relief and transportation, not for parking."

It was recommended by the conference that public works construction which is not immediately and vitally needed be postponed. "Materials, supplies and equipment will be short and expensive for some time."

# Plan Drive to Furnish Blind With Dogs

Completing preparations for the campaign to raise funds for the Leader Dog League are, left to right: MRS. ARTHUR H. BUHL, JR., MRS. LEWIS S. ROBINSON, MRS. BRUCE CHALMERS, and standing, MRS. ANDREW W. BARR. The meeting took place before a demonstration by the dogs and their trainers in the Buhl home.

# Visitor in Pointe Fatally Stricken While Playing Golf

For the second time this summer a golfer has been stricken and died while playing on a Grosse Pointe course.

The latest victim was Herbert F. Jindsay, 65, of Milwaukee, who was playing the Lochmoor Club with his son-in-law and some friends Sunday when he had what apparently was a heart attack on the No. 3 fairway.

He was carried into the clubhouse and was pronounced dead a short time later by Dr. R. C. Sinclair, of 1469 Hawthorne road. The son-in-law is P. W. Fox, of 1383 Bishop road.

On Monday, July 5, Richard Fyfe Barnum, 54, of 1012 York-

shire road, widely-known Detroit business executive, was stricken on the 18th green at the Detroit Country Club.

# 2 Pointe Youths Enlist in Navy

Byron (Bud) Horsley, of McKinley road, and Jack Galdoni, of 1354 Lakepointe, have enlisted for one year in the U. S. Navy.

They decided on the one-year voluntary enlistment in compliance with the Government's directive for compulsory military training, according to Horsley's mother, Mrs. B. R. Horsley. They are stationed at Great Lakes Training Center, Great Lakes, Ill.

Horsley was graduated in June, 1947, from Grosse Pointe High School and attended Western Michigan College, at Kalamazoo, last year.

Galdoni, a June, 1947, graduate of St. Ambrose, was a Michigan State College student last year.

# DIRTY TICKET?

Arthur N. Rucinski, 26, of 17317 Hamburg, Detroit, and Norman Brown, 33, of 17409 Hamburg, were ticketed by Farms police Sunday, Oct. 3, on complaint of R. H. Maude, of 5261 Devonshire, Detroit, for taking black dirt without permission from Maude's property at 420 Roland court.

# Four Pay Fines In Park Court

Judge Victor H. DeBacke disposed of four cases in Park Police Court on Sept. 29.

Donald S. Pett, of 1320 Roslyn road, for speeding 40 m.p.h. on Jefferson on Sept. 7, was fined \$15 and \$5 costs. He also was placed on 30 days probation and directed to attend at least two sessions of the Police Traffic School.

Frank L. Cinder, of 1784 Roslyn road, for speeding 40 m.p.h. on Charlevoix on Sept. 15, was fined \$5 and \$5 costs.

Leo Jerome Baerle, of Detroit, for failing to stop at a stop sign at St. Paul on Sept. 10, causing an accident, was fined \$10 and \$5 costs.

Vito Caruso, of 354 Chalmers, for speeding 45 m.p.h. on Jefferson on August 3, was fined \$15 and \$5 costs.

Wallace claims to represent the common man, but his campaign has had more large contributions (\$1,000 or more) than the Democrats and Republicans put together.

# Farms Building Boom Continues

Building in Grosse Pointe Farms continued to maintain a boom pace during the month of August, according to the report of Building Inspector Theodore Beaupre. His department issued 34 permits during the month representing a total valuation of \$503,000.

August's permits bring the total valuation of construction in the village since March 1, the beginning of the fiscal year, to \$1,908,000.

There were 25 permits for residential buildings issued during the month. These represent a total valuation of \$466,000. Seven of the homes are being built in Bournemouthe road; three are in Chalfonte, two in Edgemere, four in Moross, three in Mt. Vernon, three in Radnor circle, and one each in Champine, Colonial Court South and Stanton lane.

A permit for one business building valued at \$25,000, to be constructed at 93 Kercheval avenue, was issued, and there were eight miscellaneous permits for alterations and additions, representing a total value of \$12,000.

### Boys Get Liberal Education On Motor Trip to California

The Grosse Pointe boys who were privileged to be in the party which Chet Sampson took to the West Coast the latter part of the summer had a wonderful time. How they could have crowded in so much sight seeing of both nature's wonders and the intriguing views at Hollywood fairly staggers the imagination of their elders, to whom they have since been reciting their travels and adventures. None but the young could have endured some of the tremendous hops their caravan of five cars made in a

single day and yet see so much. It was a liberal first-hand education for the youngsters in the physical marvels of their country from which they have brought back memories they will never forget. They swam in the Great Salt Lake where they "couldn't sink if you tried," as one of them put it; they climbed down into the Grand Canyon of the Colorado, traversed the Mojave Desert, the Garden of the Gods, Yosemite, Lake Tahoe, Sequoia National Park and innumerable other wonders that have slipped from the memory of their elders.

The four hectic days they passed in Hollywood, however, capped the climax of the modern minded youths. Here the sample of a single day alone gives a picture of the other three.

At 10:45 they were the guests of Keenan Wynn at his home; at 12 they had a meeting with Burt Lancaster who was accompanied by the girl who writes the teen age, syndicated column for the Hearst papers. At 3:30 they met Ronald Reagan, whom most of them agreed was their favorite. At 2 p.m. they were Alan Ladd's guests at Paramount Studios where they saw him and June Havoc at work on a new picture. They saw six takes while they were there. Following it's they made a tour of the rest of the studio including the permanent street sets. They then visited Joan Leslie at Eagle-Lion studios. They agreed that she was as charming and intelligent as she was pretty. She escorted them all around that studio.

Time and their crowded program prevented their keeping an appointment with Ginger Rogers at MGM. Later they took in Lucille Ball's Rodeo show and at 7 o'clock they sat down to dinner after one of the most hectic days either Sampson or the boys had ever spent.

On another day they were Roy Calhoun's luncheon guests at the beach. Here they also met the vice-president of Selznick, Henry Willson. They were accompanied by a photographer from a movie magazine who took pictures of them which are to be used in a couple of months.

On another day they saw Lon McAllister and Billy DeWolf, Bob Crosby's "Club 15" with Margaret Whiting, and Abbott and Costello.

**LECTURE ON SOBRIETY?**  
Four young people, 18 to 20 years old—two boys and two girls—got off with lectures Saturday night, Oct. 2, after they were discovered by police drinking beer on the Country Club grounds.

### Youngblood Gets Beaten Foes' Aid

In an unparalleled demonstration of the unity for good government demanded by Gov. Thomas E. Dewey, the defeated 14th district primary candidates for Congress on the Republican ticket joined Monday night at a dinner meeting to pledge support of Congressman Harold F. Youngblood.

The meeting, in the Saverine Hotel was attended by Youngblood, the incumbent; Claude G. McDonald, nominee in 1942 and 1944; Arthur G. Sherman, who twice has sought the seat; Arthur J. Nadar, Lawrence A. Love and S. A. Wood.

The meeting also was attended by Orland H. Ellis, administrative assistant to Congressman Youngblood, and Clayton A. Braathen, who is assisting Ellis.

Following the meeting, the entire group attended the regular meeting of the 14th Congressional District Committee at which time they were named by District Chairman Wilbur M. Brucker as honorary committee members to act in an advisory capacity.

### Failure to Pay Trebles Cost

Failure to make good on a \$15 check which came back marked "insufficient funds," cost William G. Crego, 25, of 4649 Coplin, Detroit, \$25 and five dollars costs in addition to the \$15, Saturday.

Crego was brought before Justice of the Peace George Beauchamp on the complaint of a restaurant at 19060 Mack that he had passed such a check Sept. 3.

He pleaded guilty to a disorderly person charge—which covers a multitude of sins—and was assessed the above fine and costs and ordered to pay the \$15, making a total of \$45.

### Police Produce Sobering Effect

A complaint came into the Park police station on the night of Sept. 20 from the Del Mar Cafe that a couple of drunks were in a hot argument and endangering the peace and order of the establishment.

When the police arrived the men at once lapsed into the best of good humor. Under police advice they shook hands and went their respective ways.

The police also left with the observation that there is nothing so touching in all the world as the "love of one drunk for another."

### Williams-Love Debate Tonight

The general meeting of the Grosse Pointe Branch of the American Association of University Women will be held at the Grosse Pointe Memorial Church on October 7, Thursday, at 8 p.m. Members and invited guests will hear G. Mennen Williams and Harold O. Love debate on the Republican and Democratic issues. Wallace Temple will serve as chairman.

### Ban New Homes As Playgrounds

The big boom in residential building in Grosse Pointe has been accompanied by another form of juvenile malicious mischief.

Houses under construction seem to be a favorite resort for curious youngsters. Sometimes they only play around in them but very often they have caused considerable damage.

A report came in at the city police station on Sept. 29 of boys playing around in a new house on Village Lane. No damage was reported and the boys were driven away with a warning.

C. Ceeck, of 1378 Beaconsfield, agent for the owners of a new house being erected at 1034 Whittier, was showing some prospective buyers through it at 5 p. m. on Oct. 2 when a pop bottle crashed through a plate glass window.

Chased in Car  
Running to the rear of the house he saw four boys scampering away. He chased them in his car and located them in a nearby yard.

The boys admitted they had been batting objects with a plastic sword and a bottle had gone through the window. The parents agreed to make restitution.

A neighbor in the 1300 block of Bishop phoned the police the same afternoon that boys were doing damage in a new house across the street. The police caught one of the four boys in the group and released him with a warning. No damage had been done.

Similar reports came from several other points but there was no instance of the deliberate window breaking which caused such extensive damage several months ago.

**Severe Treatment**  
The builder of a new house, at 745 Notre Dame, reported to City police Oct. 4 that two windows had been broken and mud thrown all over the basement floor.

Farms police also received a report of six windows broken in a new house at 352 Ridgmont, Sunday.

It is the potential damage to new properties implied by the presence of boys to which home owners and contractors object. The police have issued a warning that houses under construction or repairs are not playgrounds, and more severe treatment for such practice is promised unless the nuisance ceases.

### Acting Group Meets Oct. 14

#### Masquers Plan Production of Three-Act Play

Everybody interested in acting or play production is cordially invited to the Grosse Pointe Masquers' opening meeting of the year at 7:45 p.m., Thursday, Oct. 14, in the Grosse Pointe High School auditorium.

The players will be directed by M. Haythorn Bambas. They are going to undertake the production of a three-act play.

Incorporated with the task of reading and casting for the selected play, will be an eight-weeks course in the development of individual voice and direction, practice and the use of stage makeup and opportunity for each member to act.

**Special Training**  
Special training in various phases of acting technique and the development of initiative in character portrayal will be important features of the course.

Group discussions will give the amateurs ideas on the most effective methods of memorizing. They also will gain knowledge of how to overcome stage-fright, and receive suggestions for the bridging of unexpected gaps during production.

**Wide Experience**  
Miss Bambas is a graduate of Wilson College and also holds a Bachelor of Arts degree in drama from Carnegie Institute of Technology.

She has had four years summer theater experience at Martha's Vineyard, Mass. She also has acted in radio, and in numerous community theater productions in Pittsburgh.

For further information, call the Grosse Pointe Board of Education, Niagara 2000, Extension 25.

### Fast Recovery Of Stolen Car

A 1947 model automobile reported stolen last Thursday from the garage at 960 North Oxford was recovered early Friday morning by City police.

The auto, which according to Woods police belongs to Virginia Seigfried who they said lives at the North Oxford address, was reported taken from the garage sometime during the day.

According to the police report, the ignition keys were left in the car. The auto was found parked at 3:05 a.m. Friday, at Neff road and St. Paul, by Sgt. Ed Trombly and Patrolman Mauch of the City police.

**UNINFORMED THIEVES?**  
A Woods police scout car noticed the rear door to the basement of the abandoned "Cook Farm," next to the Woods Recreation bowling alleys on Mack, was knocked off its hinges Monday morning, October 4. Nothing else was disturbed. Apparently some uninformed thieves, they surmized.

### Camporee Held By Sea Scouts

By Joe Fromm

Twenty-one Sea Scouts from the Detroit and suburban area attended the camporee sponsored by the Grosse Pointe ship 690 at the Grosse Pointe Woods municipal pier over Sept. 17 and 18. Ships from Wyandotte and St. Catharine along with Grosse Pointe ship were on hand.

Wyandotte's ship was present with six crew members, St. Catharine five, and Grosse Pointe five. Two scouts from Royal Oak and three from Denby High School area attended although they did not come with boats. Birmingham ship B-4 did not arrive because of an impending storm.

The scouts from the Grosse Pointe ship were: Norm Brothers, Jerry Diesing, Bob Carter, Norm VonAllmen, and Wayne VonAllmen. Skipper Werner VonAllmen and Assistant skipper Bryon Runde commanded the Pointe scouts.

Also on hand were members of the Kiwanis Club, which sponsors the Pointe troop. George Gardner, president of Kiwanis and Arnold Leibold, chairman of

Sea Scouts, were among those present.

Arnold Diesing, a member of the Grosse Pointe Woods village council, was active in helping to arrange for the program and was given a vote of thanks by the scouts.

The Sea Scouts camped on the Woods grounds overnight. Tents

were loaned to the Pointe group by Lauren Wild of Boy Scout Troop 290 of Grosse Pointe.

The four skippers and three assistant skippers present held a meeting and decided to form a Sea Scout officers' club.

The world has many empty honors to bestow upon those with empty minds.

### Dance Planned For Teen-Agers

A dance for all Pointe teen-agers has been planned for the night of October 15, from 9 to 12 in the Neighborhood Club. Wally Engle's band will furnish the music.

The party is in the nature of an experiment. So many Pointe youngsters have complained there are too few events planned for their entertainment. If this event proves successful it is planned to hold the affairs every month.

Tickets will sell for \$1.00 per couple, just enough to defray expenses. The youngsters are making all the arrangements themselves and hope all the teen-agers will cooperate to make this first event a great success.

Detroit's Meter Experiment

Detroit is now starting an experiment in the use of parking meters which will be watched with keen interest by the people of Grosse Pointe.

Detroit's parking problem is great and ours is small, but the same basic purpose exists in both communities. Its purpose is to prevent the undue monopoly of street space and the hogging of the parking privilege by employing a momentary leasing privilege by paying a coin in a parking meter.

Its primary purpose is not the raising of municipal revenue; that is only an incidental, although doubtless some places have installed them with this chief object in view.

Some persons contend that inasmuch as the streets belong to the public they have the right to use them as they see fit, even to the extent of indefinite parking.

The right of the citizen to park on the streets, under such directions and regulations as may be necessary, is unquestioned, but the use of the meters provides for the just apportionment of this privilege.

Detroit starts off its parking experiment by installing them in that congested and curb-scarce area bounded by Fort, Cass, Adams and Randolph. If it proves even partially effective there their use will be proved justified in less crowded places.

Grosse Pointe's interest of course lies in observing how effective they may be in solving our problem in a few crowded commercial areas.

It is in no manner associated with parking in residential sections. There is no need for their installation in such places. There they would be only a nuisance.

Preparation

The practically identical notes which the United States, Great Britain and France have sent to Russia on the Berlin impasse give significant notice to the World that the Western Powers have transferred their approach for accord with Russia from the futile arena of words to the more easily understood field of action.

This shift in orientation has been further emphasized by the fortnight speeches of Secretary Marshall, the blunt talk of British Foreign Minister Bevan and the warning sounded by M. Spaak, Belgium's representative in the United Nations. The speech of Senator Vandenberg Monday night, emphasizing American unity, which starts complete and unbroken at our waters edge was further confirmation of this new approach.

They charge Russia's course has isolated her in the court of world opinion and that she and her satellites will stand alone in any crisis which she may force upon the world.

Already, in anticipation of the situation with Russia which has now materialized, Britain, France, Belgium, the Netherlands and Luxembourg have formed a mutual assistance pact. This was done nearly six months ago.

Our Government plans to place a protective roof over this alliance in the form of arms and munitions to be furnished under a revival of the war-time lend-lease arrangement. However, it will be more explicit in its application, with more binding covenants as to mutual obligations, than existed during the war.

Much planning already has been done towards meeting the first onslaught of war from the East and for the West's later taking the initiative which would lead to its victorious conclusion.

There is still an excellent prospect that war will be avoided, but actual preparations to meet it, if it should come, is the only sensible course.

It is said that the first item for consideration by the new Congress when it assembles in January will be to implement officially the plans that already have been well advanced.

Happily for us as well as for the other Western Powers both of the great political parties which now are contending for national control in November are of practically one mind in their attitude towards the European situation.

This is an element of incalculable internal strength here at home, which the Communist states in Eastern Europe would do well to note.

The threat to our internal security by the presence of an unknown number of Communists or pinks is a negligible factor. These dubious citizens already have been pretty well tagged and would be filed away promptly behind barbed wire or otherwise suitably and effectively disposed of.

Treason at home has never been lightly dealt with in time of war even by this happy-go-lucky and tolerant Country.

The core of this Country is as sound as a new nut. There will be no division in the ranks of 99 per cent of the American people whenever the issue of our general welfare and precious liberties is once clearly drawn.

Grosse Pointe's Growth

The announcement that building operations in Grosse Pointe since January 1 had totaled almost \$9,000,000, raised scarcely a ripple of enthusiasm in the Pointe community.

With proper qualification and explanations this apparent indifference is understood, and not without its commendable angle.

There was undoubtedly, a quiet but little expressed gratification that Grosse Pointe had continued to grow as a fine residential area. Of growth and development as understood and practiced in almost all other municipalities, Grosse Pointe wants no part.

This region was planned, developed and still carries on as a strictly residential community. It was intended to be and yet remains a desirable place to build homes and for no other purpose. It is the unalterable purpose of its citizens to keep it so. This purpose is admirably reflected in the official conduct of the governing bodies of its five municipalities.

Only such concession is made to business as is necessary

Grosse Exaggerations

A. PRYOR

"Call for the grandest of all earthly spectacles, What is that? It is the sun going to his rest. Call for the grandest of all human sentiments, What is that? It is that man should forget his anger before he lies down to sleep." (Thomas De Quincey)

What happened to a certain School building lately, shouldn't happen to a dog. A new 7 story building was erected on the grounds and as is usual with administration buildings, all the washrooms were in the same position on each floor, so a view from the outside would show them one above the other. The clever architect specified that the window panes for these washrooms were to be the type whereby the temporary occupant might look out upon the world, but the world, alas could NOT peer in from the outside.

All was well until one fine day after the building had been occupied for a week or so, when one of the little ladies on the Board decided to take a walk around the outside of the building for a look-see. What she saw, shocked her almost beyond reason. It seems that the builder made a slight error in the window panes . . . affixing them so that the occupants of the washrooms (all male at the moment) could NOT see OUT, but everyone and his brother could see IN from the outside! Since the washrooms all happened to be occupied at the time our heroine made her survey, she had a pretty upsetting time of it. We hesitate to tell you the location of the new building . . . not wanting to bring out the "peeping tom" that is in most of us!

If the ins, ims and nons in front of some words have often gotten your nanny, you will like this little tid-bit. We were conversing with Francis Lederer (as charming as he is handsome) . . . when we got on the subject of the word, "non-inflammable". WHY "non" we asked ourselves. Why isn't just plain inflammable enough? From there we went on looking for and discussing similar words . . . and how mixed up they can get you. We were reminded of the time the woman said to her husband, "Why can't you be more COUTH?" After all, why not? If uncouth means what it does, then couth should be a very excellent opposite word. Mr. Lederer then told us about the Big Man who messes up so many words, overhearing his subordinate bawling out a group of men. He called the man into his office for a friendly bit of advice . . . and added, "You know you can't talk to those men that way . . . they are too TELLIGENT."

It may have taken a lot of courage on the part of the first man who ate a raw oyster . . . but we ran across a technical article the other day that named some of the "foods" eaten today by people all over the world, that take a lot more courage than we can conceive. Being the type that shudders at the very mention of such well-known delicacies as "bird's nest soup" or "shark fins" or "rattlesnake pate" . . . we are not likely to take to any of the tid-bits listed in the article . . . even out of sheer curiosity. How about you? They were: grape-bellied honey-ants of Mexico; squid, sea urchins and giant sea worm; centipedes and green caterpillars almost complete the list. Whew!

One of Grosse Pointe's better know wags is in hiding from a certain downtown hotel where his sense of humor got beyond him one day recently. Our hero, who always wears a carnation in his buttonhole (stop guessing, now) was standing, hatless and overcoatless in the lobby one fine day . . . "loitering" in the neighborhood of the desk waiting for a friend, when a Hokinson character right out of Spodunk, dashed up to him and asked irately, "Are YOU the manager?" Slightly startled, but not really meaning to be mis-leading, our hero asked in return, "What seems to be the trouble?" Taking that to mean he WAS the manager, the little woman "tore" into him in no uncertain language, telling him what she thought of him and his danged hotel for keeping her waiting so long for her SUITE! All right so the hotel WAS crowded but did he realize WHO she was, etc.

That's when the little imp in our Grosse Pointer came sneaking to the fore. He glared at her. He "beetled" his brows . . . then he said in a menacing voice, "We don't care what you think. In fact NOW you can't even have a room. We don't want your kind in this hotel!" . . . then pointing dramatically to the door, he actually shouted, "NOW GET OUT!" Then as she stood there speechless, he beat it, but fast . . . and hid behind a pillar to see what came next. What happened was plenty. The woman went screaming around the lobby insisting upon speaking to the OWNER! The clerks on duty came running to try to calm her down. What did this manager look like? She described him. No one recognized the description as anyone belonging to the hotel. Our hero waited until it was dark, then slunk out of the hotel, leaving in his wake a group of non-plussed, frightened and weary hotel employees.

In the line of duty, (don't shoot 'til you see the whites of our eyes), we called on a local woman of impeccable taste who is also blessed with a vivid imagination. On a front hall table stood a stark white china bowl . . . which was crammed to the gills with . . . of all things . . . parsley. Beautiful, brilliant green parsley and it was one of the most decorative things we've seen in many moons. How about that, girls? Madame tells us that with fresh water added, the parsley lasts longer than posies and it's certainly less expensive.

to serve the ordinary needs of community life. Wherever persons live there must be food stores, drug stores and such shops and businesses as must be convenient to its residents for their services and comforts, and such establishments of this character as occur here are rigidly restricted to specified zoned areas.

Urban growth as universally understood is neither practiced nor tolerated here. Manufacturing, particularly in heavy industry, is not permitted. Grosse Pointe intends to spare itself the harrassment and municipal headaches which accompany this sort of growth. Such small manufacturing enterprises as were tolerated during the war as a patriotic cooperation were only admitted temporarily and compelled to move out when the war was passed.

Grosse Pointe proclaims itself to the world as a place of homes. It intends to remain so.

In this program of growth the words "restricted" and "exclusive" are often unfortunately employed. The young man who builds a modest home here is as sincerely welcomed by a friendly and warm hearted citizenry as is the millionaire who builds a castle.

This does not imply that this community is indifferent to the character of its in-coming residents, but the poor man of honest background and respectable antecedents finds a more sincere welcome here than the individual of shady associations or questionable personal character, whatever his wealth may be.

The Pointe's reputation as a desirable residential area is known through the nation. It is the intent of its people to maintain that reputation.

And that good name must continue to be based upon quality rather than quantity whether we are counting noses of population or weighing bank balances.

School Days Should Be Happy Days By FRED M. KOPP, R. Ph.

School days are happy days for healthy children. To be happy, children must enjoy the feeling of "belonging" and children who have good hearing, good eyesight, and attend school regularly have that feeling. For they are always aware of what is going on.

If your child hasn't had a physical examination before school began let the doctor check him or her now and make certain that eyes, ears, and general health are up to the demands of school days.

Then you can send your child off to school each morning with a light heart, knowing that he or she is getting the most out of school in education and fun.

Just as this contrary column is settling down to the business of being a Desk Jockey and tuning up the keys of the little old tripewriter for winter, we find that everybody else is blithely cavorting about with plans for a lush, plush season. Onward-and-Upward-with-The-Arts is their ecstatic cry, as Grosse Pointers are going all out—and some of them will soon be ALL IN—for a regular Marathon of The Muses. Art, Music, Opera, Drama—the day is done when one can take 'em or leave 'em alone; this year you either take 'em or be left alone.

Already we have a toppling stack of brochures, folders, portfolios and the loveliest letters, all about the symphonies, operas, concerts, town halls, and fashion shows soon to dazzle the palpitating public.

Our own Detroit Symphony Orchestra is scheduling a very impressive Symphony Week, with fabulous fanfare from October 10 through October 16. The First Annual Symphony Ball will be held in the grand ballroom of The Book-Cadillac Hotel following the opening of The Symphony, for season ticket holders and maintenance fund subscribers. One intriguing feature of this event is the fact that Carmen Cavallero—that Latin from Manhattan—will supply the dance music, and Carl Brisson will be Master of Ceremonies.

The very Grand La Scala Opera plans are progressing with a shining air of sweetness and light which should be flattering to our middle-western culture, in contrast to the last hard dying echoes of New York's Metropolitan fiasco.

That artistic debacle was so

MRS. MACAULEY IS CHIC

The better ads always show Madame, dressed for the opera or a formal evening . . . as a veritable Cinderella in her bal gown . . . But too often . . . the true life picture . . . doesn't add up that way . . .

However . . . whenever Mrs. Edward R. Macauley dons formal clothes . . . she makes the ads come true . . .

The other evening at the D.A.C. she was radiantly beautiful in a forest green brocaded satin crepe dancing gown . . . the low cut bodice attached to a sweeping, long skirt . . .

She wore a fingertip length ermine wrap . . . Her sparkling eyes . . . dark copper hair, perfectly dressed . . . and you DID have a glimpse of Cinderella at the height of the ball . . .

## Pointe Branch of AAUW Told of Travel Grants

The Grosse Pointe branch of the American Association of University Women has just received a communication that three Filipino students are to arrive in this country. These three students are the first to receive travel grants under the Fulbright Act which provides that funds in local currency from the sale of U.S. surplus in foreign countries be used for educational purposes.

Fulbright funds, issued in Filipino currency, will pay for the ocean voyage of Bai Matabay Piang, a woman leader from the island of Mindanao; of Mrs. Brigida C. Millan, a supervisor of home economics in Manila; and Mrs. Jenny Lind N. Dolorico, a teacher in Leyte. Each of the three has been awarded an AAUW International Grant which will finance a year of college training in the United States.

Miss Piang, whose title "Bai" denotes royal lineage (her father being head of an influential Moslem tribe in Cotabago), is leader both by birth and personality. She has played a leading part in work to promote educational opportunities and democratic ways among the women of the Moro tribes. Miss Piang was the first Moro girl to be enrolled in the public school of Corabato, and after completing the elementary school with honors, was granted a government scholarship to study in the State Normal School at Manila.

During the war, Bai Piang was active in the underground movement, procuring medical supplies for guerilla fighters and working behind Japanese lines to organize hospitals, schools, and housing for evacuees. She helped to organize the Moro Bolo guerillas, a battalion which operated under her uncle, now governor of Corabato. Two guerilla regiments were named after her. After her home province was freed from Japanese occupation, she bent her energies toward reconstruction, working in the social service field. With her AAUW grant she will study social science in the University of Chicago.

Mrs. Brigida C. Millan of Rizal City, Philippines, has been employed as a home economics supervisor by the Bureau of Public Schools Central Office for a number of years. She is to use her AAUW grant for an advance home economics and administration course at the University of Nebraska.

Mrs. Jenny Lind N. Dolorico of Tacloban, Leyte, is the third Filipino student. The AAUW grant will enable her to study at the Teachers College at Columbia University, where she will gather new ideas for the Leyte Trade School where she taught.

As a contribution toward the reconstruction of the liberated countries the AAUW study grant program was organized as soon as the Allied victory was in sight. Last year 54 women students from abroad received AAUW awards enabling them to study in this country.

Tea will be served following the meeting. Co-hostesses include Mrs. N. J. Miller and Mrs. George Lockhart.

White chrysanthemums trimmed the altar and marked the family pews when the couple repeated their vows before the Rev. Father Edmund Perrin.

The bride chose an ivory satin gown styled with Peter Pan collar and shirred bodice. A band of orange blossoms held in place her fingertip veil of French illusion and she carried a white prayer book adorned with an orchid.

Wearing a gold satin gown, Adele Connolly, sister of the bridegroom, was Ann's only attendant. Her crownless bonnet matched the gown and she carried a bouquet of yellow and rust colored baby mums.

### Elementary School Notes

RICHARD SCHOOL The Pere Gabriel Richard School got off to a fine start for the 1948-49 school year. With the national trend being an upward surge in enrollment, especially in the elementary school, Richard began the new school year with 576 children, more than 30 over the figures for the close of school last June. Every available space in the building is being used for instructional purposes. The kindergarten is made up of four sections, two meeting in the morning and two in the afternoon, totaling 108 children. There are seven classrooms in the school which have 30 or more pupils, the largest being a class of 36.

During the summer, when the girls and boys of the school were experiencing happy vacations with their families at home or at lake cottages, attending the local schools for summer instruction, or going to camp, the Board of Education employees were getting the building ready for the new school year. A number of the classrooms have been painted, the several kindergarten rooms being completely done over. All of the drapes and flags were cleaned. New equipment and instructional supplies were sent over. The school is using a new textbook in the field of science. We now have a brand new 18 mm sound motion picture projector.

There are three new staff members. Phyllis Holt has one of the first grade sections and comes to Richard after experience in the Grand Rapids system. Leone Bennett is in charge of one of the 5B sections and has had a number of years experience, most recently in Hazel Park. Winifred Merritt, who has taught in Miami, Florida has one of the 6B sections. There is also new personnel among the counselors who spend one half day per week each in our school. The music counselor is Winifred Gomez and the art counselor is Gladys Vance.

Besides the regular instructional program carried on by the full time staff the school has the services of part time teachers who take care of instrumental music, the correction of speech difficulties, and psychological counseling for pupils who have academic or behavior problems. A nurse will also be in attendance on a limited time basis.

PARCELLS SCHOOL Miss Wolfe's room of 8Bs had charge of the Flag Raising on September 24. Robert Van Houtoghen was the announcer and led the group in the pledge. Robert Scheuerle and Donald Marter raised the flag while

Blue Devils Lose a Heartbreaker

Beaten, 6 to 0, by Royal Oak In Game of Missed Chances

Pointe Eleven, Bested in All But Two Departments, Still Manages to Knock Down Acorns' Prestige

By FRED RUNNELLS

Following Grosse Pointe's 6-0 defeat by Royal Oak in Royal Oak Memorial Park last Friday night, Blue Devil Coach Ed Wernet stated: "we won one we lost."

On the surface, that statement seemed true. But once the statistics were compiled it was discovered the Acorns bested the Pointers in every department but two.

The Acorns out-rushed and out-passed the Pointers by a wide margin to chalk up their first Border Cities League victory in as many starts.

Despite the win the Acorns lost plenty of pre-game prestige which had labeled the Acorns as "the team to beat" for the title this year.

Grosse Pointe had an opportunity in the early stages of the game when Brogan's punt stopped on the Acorns' 8-yard line.

Gain 4 Yards The exchange of punts gave Grosse Pointe the ball on the Acorn 28 but three running plays and a pass netted only four yards and the Acorns took over on their own 24.

It was at this point the Acorns started to roll for the only touchdown of the game. However, the start of the drive didn't indicate a score was forthcoming.

It was a bad pass from center that forced Halback Roy Leet to run with the ball when the play called for a kick. Leet picked his way to midfield and it was here that the Acorns' firecracker exploded.

Five Plays to Score If it had not been for Coleman's bone-crushing tackle at midfield Leet would have gone all the way without a hand being laid on him.

Three line plays and two passes netted Royal Oak's touchdown. Leet's first pass to End Manly Wilson was good for 20 yards to the Blue Devils' 23.

A line play by Leet was good to the 20 and then Leet hit quarterback Harry Burtwell with a beautiful pass on the 7 and Burtwell stepped over into pay dirt.

Bad Pass A bad pass from center prevented the Acorns from kicking the extra point but always alert Leet grabbed the ball at the last moment and tried to flip a pass to Wilson in the end zone, but it was no good and Royal Oak led, 6-0.

The Blue Devils gave their huge following a thrill early in the second quarter when Cal Purdy lobbed a long pass from his own 49-yard line to Bill Anderson on the Acorn 25.

Anderson took the ball on a dead run, juggled it a half dozen times and then dropped it. Anderson had a clear field ahead of him if he had held onto the pigskin.

Miss Big Chance Grosse Pointe had another beautiful opportunity on the next play when Leet fumbled Pat Brogan's punt on the Royal Oak 30 and tackle Frank Palazzolo recovered for the Pointers.

However, the Pointers could do no better than make eight yards in four downs and once again the Acorns' defense got a big hand from the Royal Oak stands.

The Acorns immediately punted out of danger to Coleman on the Blue Devils' 46. Coleman was brought down on the Acorns' 40. There was a holding penalty against the Blue Devils and the ball was put down on the Pointe 35-yard line.

Kicks Out Two plays later the Blue Devils drew another 15-yard holding penalty placing the ball back on the Pointe 22. Brogan kicked out of danger to Don Johnson who fumbled at midfield but recovered.

Royal Oak began to move toward touchdown territory again and but for the marvelous defensive play on the part of Tom (Crusher) Follis would have notched another score.

Royal Oak had moved from midfield to the Blue Devil 15 when Follis, on successive plays threw Royal Oak for a seven-yard loss which broke the Acorns' morale. Two pass plays failed and the Blue Devils took over on their own 21 as half-time neared.

Threatens Again Shortly after the third period, Royal Oak threatened again when End Dave Bramer intercepted a Brogan pass on the Acorn 40 and drove back to his own 45.

Three line plays gave the Acorns a first down on the Blue Devil 43. Leet then hit the line for one yard and on the next play flipped the prettiest pass of the game to Harry Burtwell.

Burtwell took the ball on a dead run behind the Grosse Pointe secondary on the 13-yard line and stepped into pay dirt. However, Royal Oak was penalized for holding and the score nullified.

Play Called Back With six minutes remaining, Follis gave the Grosse Pointe

Pointe High Netters Beat Birmingham

Blue Devil Tennis Team Takes Easy 5-1 Victory in Return Match

By FRED RUNNELLS

Coach Merlin Schultz and eight of his most promising 1949 tennis prospects traveled to Birmingham last Thursday, September 30, to tackle Birmingham in a return fall tennis match, which was won handily by the Pointers, 5-1.

Alex Mann, veteran from the Pointers 1948 Border Cities League championship team, avenged an earlier defeat by six foot three Keith McIntyre in the first match between the two schools. He downed McIntyre 6-1, 11-9, in a grueling match. McIntyre displayed a terrific service but was out stroked by his smaller opponent.

Bob Allen, playing number 2 singles, waltzed through his opponent in less than a half hour winning, 6-2, 6-1.

Jim Swift found his number 3 singles opponent a little on the tough side and was forced to go three sets before being declared the winner.

Dick MacKenzie was forced to be satisfied with a 1-1 tie when rain halted the number 4 singles match.

Neil Kaake, a new comer to the squad, was the only Pointer to lose a match.

In the doubles matches Bill Rossiter and Dick Smart were able to score a 6-2, 6-2, victory in the number 1 doubles. Tom Auch and Fred "Skip" Pessel, both veterans, just went along for the ride as rain washed out the final doubles match.

St. Paul Bowling Loop Scrambled

By FRED RUNNELLS

The St. Paul Bowling League went topsy-turvy in its fifth night of competition, September 30, and 15 of the 16 teams changed positions in the standings. Only the Ruprich squad remained the same as the week previous when it captured two points to stay at the top of the league. Ten teams improved their positions with two squads, Van Steen and Rigler, moving ahead four places.

Van Steen went from eighth to fourth and Rigler moved up from fourteenth to tenth.

L. Brecht moved back into the individual lead which he lost last week, and is now sporting a 172 average. Pete Martin of the Walters third place team moved up in the standings to second place just one point behind the leader.

G. Walters hit the 200 circle for the second week in succession with a 218. Other bowlers who found their way into the 200 bracket were: J. Rotole, 233; P. Allard, 227; C. Van Steen, 212; C. Commerson, 210; R. VanTiem, 204, and D. Trombley, 201.

From Joe To You

by Joe Fromm

During practice recently, Bill Anderson, GPHS back, intercepted a pass. Coach Wernet told him to say something like "hey," "I've got it," or "block" to let his teammates know that he had the ball. Anderson said, "I'll yell 'HELP.'" Wernet came back with an aside remark, "You'll probably need it with the team we've got."

Cal Purdy, Blue Devil quarterback, missed the game Sept. 25 because of illness. He was on the verge of pneumonia and had to remain in bed. End Marv Weaver missed the first quarter because he was a pallbearer at his grandfather's funeral. He rushed to the game immediately after services. Guard Frank Palazzolo almost missed the opening kickoff. His brother's car broke down on the way to the game and he had to run 10 blocks to just make it.

Canada will gain rich territory by adding Newfoundland.

Kenneth Venderbush, 820 Pemberton road, Grosse Pointe Park, is one of the ten students of organ at Kalamazoo College who have enrolled in the American Guild of Organists as student colleagues, it is announced by Mr. Henry Overley, head of the music department of the college. The Guild is a national organization with more than 8,000 organists enrolled. Kalamazoo College was the second school to be enrolled in the student colleague section when that classification was opened two years ago. More than 200 schools now have memberships.

Mr. Venderbush is a freshman at the college.

Amusing But Confusing

Grosse Pointe High's identical twin combination of HIL (left) and BILL PIERCE is amusing to members of the Blue Devil football squad but mighty confusing to the Pointers' opponents when both boys are in the line-up. Both play end positions and Coach Ed Wernet uses their identical likeness to an advantage by substituting them into the game at the same time which adds to the confusion not only of the Blue Devils' opponents but to the sports writers covering the game. The number seven and eleven on their uniforms came about quite by accident when the varsity suits were handed out to the regulars.

Pessel and Auch in Finals Of High School Net Tourney

By FRED RUNNELLS

After more than three weeks of play the fall singles tennis tournament for Grosse Pointe High School students is in the final stage, with veterans "Fred" "Skip" Pessel and Tom Auch slated to meet for the title in the next few days, weather permitting.

Tom Auch found the trail to the finals plenty rough, but managed to earn the right to play in them by beating a tough opponent in Jim Swift in three sets, 3-6, 6-1, 7-5. Swift forced the match most of the way with a hard driving game and rushing the net. This procedure forced Auch to commit error after error, but his experience saved him at crucial moments when points were important.

On the other hand Pessel had a picnic in reaching the finals when he defeated Dick MacKenzie, a new 10B student from Pierce, in straight sets, 6-3, 6-1. This match was poorly played because of adverse weather conditions and a strong wind which made the ball do tricks.

The boys' doubles tournament got underway on Tuesday, October 5, with the draw of 16 teams. Singles finalists "Skip" Pessel and Tom Auch were seeded number one and are top heavy favorites to take the title. However, the teams of Alex Mann-Bill Rossiter and Jim Swift-Bob Allen, will provide plenty of opposition.

Coach Merlin Schultz should be commended for organizing these fall tournaments and keeping up tennis interest at the school on Fisher road which is noted for its great teams.

This is the first year fall tennis has been played at Grosse Pointe High since 1940. At that time former tennis coach Larry Westerville carried on much the same type of program and from it gained profitable results in producing such stars as Ross Herron, Bob King, Jim Kennedy, "Ax" Jemal, "Butch" Skau, Tom Wilson, Paul Grubbs and Andy Creamer, to name a few. These boys and others gave Grosse Pointe powerhouse tennis teams that swept everything before them for 69 consecutive matches to establish (as far as can be learned) an all-time high school consecutive winning record in the country.

From the brand of tennis being played by Coach Schultz's boys in the present fall tournaments it appears that the Blue Devils will continue their winning ways when the squad swings into Border Cities League action next spring.

Houston Tips Tires Out of Rotary Tie

Takes Over First Place Alone; Auto Club, Mondry Tie for Second

Houston and Motor City Tires, both tied for first in the Rotary Bowling League, fought it out last Friday night in the Woods Recreation.

The Tires, leading by five marks going into the 10th frame, lost out when three of the Houston five struck out to win by 13 pins.

Upset by this turn of events, Motor City dribbled the next two away to give Frank Thayer and his topnotchers a clean sweep, dropping the Tiresmen to fourth place.

Auto Club shot consistently to hand Harrison Carpets a 4-0 shellacking, with Gallagher, the Auto Club's leadoff, turning in 584, including a 219 middle game. The road service boys jumped from fifth to a tie for second.

Make Jump, Too Mondry Cleaners also jumped from fifth to second when they blanked Piche Barber Shop, 4-0. Al Przeklas and Gene Mertz bowled extra well for the Fisher road quintette.

Middle Atlantic Transportation Co. climbed out of the cellar by collaring G. P. Review 4-0. Although Henry Peplinski rolled 210 in a 569 series, the rest of the "scribes" showed little. Tony Volpe's expressmen were really hot all the way.

Kopp's Pharmacy more than held its own when it trimmed Farms Market, 3-1. The "coppers" missed a sweep when they lost the last game by one pin. The two Carls, Thompson and Allemand, were tops for the winners.

Stubborn Foe Earl Holzbaugh ran into a stubborn foe when it crossed alleys with the Punch & Judy Cocktail Lounge.

With a game apiece, and one to go, Holzbaugh was determined to win his first series this season but the "cocktail servers" eked out the last one by six pins, giving total pinfall to Earl's boys by the narrowest of margins, one pin.

Wilson for the Judges and Trombly for the "Fordmen" were standouts on their respective teams.

St. Ambrose Eleven Tied, 6-6, By Late Annunciation Rally

Fourth Quarter Fumble Sets Up Score-Knotting Tally; Gallo Trots 37 Yards for First Counter

By JOE FROMM

Annunciation came from behind in the fourth quarter with a 61-yard touchdown march to tie with St. Ambrose, 6-6, Sunday afternoon in a Parochial League game on the Grosse Pointe field.

Ambrose marched 53 yards near the end of the first half for its score.

If the teams finish the schedule tied for first, the game will be replayed. Otherwise it will stand.

St. Ambrose started its touchdown march when it received a punt on its own 47-yard stripe. Willis hit right tackle for one yard. McFarland passed for seven more.

The kick for point was blocked by the St. Ambrose line. Ambrose took the kick-off and marched to the Annunciation 16 where penalties and the Annunciation defense held. Annunciation took the ball over on downs and the game ended several plays later.

Ambrose will meet St. Martin at the Neighborhood Club Sunday in what should be the toughest game of the year.

Herb Graffis, writing for the Chicago Sun, tells of meeting a Girl Scout leader and learning from her the "tremendous scope and interest of the Girl Scout program."

Graffis' article states, "... it looks to me like the maidens' program has about everything in it except boys. And as an ex-boy myself my recollection is that the girl with Girl Scout schooling has an edge on most youngsters of her sex in the sort of air of quality that gets the desirable youths."

"For many years I have looked over women and now have reached the time at which I can form a few conclusions. I have seen some gorgeous looking women of various ages who have not much luck in getting grade A males as playmates, pro tem or for life."

"When I've tried to figure it out it has dawned on me that the unlucky ladies just missed having that superior something called class. ... Every once in a while I see Girl Scouts and the factor of class that is so general among them never has failed to impress me."

Training course for Scout leaders began September 29. Interested persons may call Mrs. Russell Smith, NI 5888.

Word was phoned into the Park police station at 11:30 p.m. on September 20 that a utility pole on Audubon just north of Jefferson was on fire.

Sparks were being thrown out from the pole and the Detroit Edison trouble shooters were notified. It is not an uncommon occurrence, say electric men, when a short takes place at the base of these poles under the ground for the pole to get red hot near the ground and be a source of real danger to the public.

HOT SEAT!

A fire in the rear seat of an automobile belonging to Clifford H. Turner, of 10957 Nottingham, Detroit, was extinguished by Woods firemen on Mack, north of the Woods Theater. Damage was estimated at \$75.

Boat Banter

by Fred Runnells

The 75-mile North Channel race, open only to L boats, C boats and Luder 16's, was the best to date as far as a record turnout was concerned and was won by Ted Kuhn in his L boat "Surprise," which was no surprise to anyone who knows Ted. He is a consistent winner in the L class and captured the Detroit River championship for the sixth time in succession this season.

Kuhn's time for the 75 mile race was short by forty minutes of breaking the late Morrill Dunn's record of 11 hours and 19 minutes, set back in 1941.

Two girls, Betty Pultord and Doris Nevins, finished second and third respectively and were followed over the line by Arnold Fuch's "Gamble," Joe Matte's "Cutty Sark," both C boats, Hank Dunlap's "Mercury," Bill Sarn's "Host," Art Locke's "Lillith," Bill Dunn's "Cayuse II," the record holder, Arden Poulson's "Nite Wind," John Carlen's "Glory Be," Newell Saigon's "Indian Drum," Bob Roadstrum's "Cotton Top," Chet Renaud's "Maybe," Pele Kilgore's "Puffy," Frank Brown's "Hodge Podge" and Freddie Hayes did not finish.

Per Valbo, well known local cat boater, won the Detroit River catboat championship over the weekend of September 25 and 26 with 8 1/2 points to Larry Pace's 6 1/2 points.

Valbo was in his glory in the race's heavy going and he made hay to build up an early lead.

Valbo sailed under the Detroit Yacht Club burgee and Pace represented the Detroit Boat Club.

Maurice De Clerq, representing the St. Clair yachtmen, scored 4 points. Louie Layton of Edison Boat Club dropped out to avoid getting wet.

A ding-dong grudge race was held off the Windsor Yacht Club Sunday, Sept. 26, between Jack Tighe and Bill Douglas. Tighe won handily with the writer going along for the ride.

The race all stemmed from the

terrific razzing Tighe administered to Douglas after beating him for the first time this season in the Sweepstakes regatta September 11.

Douglas, who owns one of the Fleet, invited Tighe to "come on newer Star boats in the Detroit over and get beaten" and Tighe, who owns one of the older Stars, took up the challenge and settled the issue once and for all. That is for the 1948 season at least. No doubt these two boys will start out the 1949 season going hammer and tongs at one another.

Reports Dinghy Stolen From Dock at Park Pier

Warren E. Helle, of 1258 Bedford, reported to the police on October 3 that a small dinghy owned by him had disappeared from the dock at the Park water front park the night before.

The boat, only 8 1/2 feet long, of the type used on the deck of cruisers, was painted tan on the outside and white inside. A water front broadcast was sent out by the Park police.

YOUNGSTER BITTEN

Daniel Marentette, 4, of 389 Notre Dame, was bitten on the right hand by a chow dog belonging to the Morgana family at 357 Notre Dame. It was a puncture wound. The dog was placed in a police kennel and the Board of Health was notified.

The Village Commission of the Village of Grosse Pointe Park will hold a public hearing in the Commission Chambers at 15115 E. Jefferson Ave., Grosse Pointe Park, Michigan, at 5:30 P.M. Village of Grosse Pointe Farms MICHIGAN

Notice of Public Hearing to consider Proposed New Zoning Ordinance

To the Residents of the Village of Grosse Pointe Farms: Notice is hereby given that a PUBLIC HEARING will be held in the Village Hall, 90 Kerby Road, Grosse Pointe Farms, Michigan, on Monday, October 25, 1948 at 8:00 P.M. Eastern Standard Time, to consider proposed NEW VILLAGE ZONING ORDINANCE and 1948 ZONING MAP.

The proposed ordinance will repeal the present Village Zoning Ordinance and will provide a number of changes which will restrict building and uses to better protect the residential nature of the Village.

Residence Districts are affected by only minor changes since the entire community is now zoned to single residences only. The most important change is the proposed combining of the residence "A" and "B" districts into one area designated as "Residence Districts."

Business Districts are affected principally by the placing of limitations on the height of future construction to two (2) stories or thirty (30) feet, the exclusion of residential uses, open air sales and the storage of goods in the open, and the addition of parking requirements.

## who, where and whatnot

By whoozit

It's check and double check for MRS. WILLIAM WALLACE in the man-tailored brown and white checked sheer wool suit she wears when rehearsing for the forthcoming "Spring Again" which AWVS will present later this month. With the suit, Mrs. Wallace wears a trig beige pure silk blouse sportily printed in deep brown horses. A wide brimmed beige felt hat, with sweeping feather, wood brown suede pumps and matching handbag complete the outfit.

MRS. JOHN GORDON HILL always wears pastel costumes in her Cloverly road home. Against the soft background of the lovely home, the pastels are just right, too. The other afternoon she chose a poudre blue crepe frock with bow of the material worn low at the neckline. A simple bodice with elbow length sleeves featured V neckline with turn down collar. Skirt was pleated and the frock buttoned down the front in dusty blue pearl discs. Exactly matching the dusty blue pearls were the bracelet and necklace Mrs. Hill chose. Her slippers were poudre blue kid.

Keeping fashion strictly in the family, have you seen cute, sub deb JOAN-ELLIS HILL in her ever-so-good looking plaid bolero suit? The short, pleated skirt is worn with darling, fitted bolero and the material is authentic Stuart plaid. The material was brought right from Scotland by Joan-Ellis' nurse, Mary, when the latter visited her native land on the occasion of her parents' golden wedding anniversary. She used her entire supply of visitors' ration coupons for the material, part of which was tailored by her brother in Scotland into trousers for Joan-Ellis' little brother.

ELIZABETH BLISS is envied not only for that smooth sun tan (which is ever so effective with her blond coloring) but for the stunning pink linen frock she wore the other afternoon. The low oval neckline showed her bronzed shoulders ever so slightly and the soft bodice of the frock extended into a long and very full skirt. A tiny gold kid belt was worn at the waistline and Elizabeth threw a pale blue cardigan over her shoulders. She wore white ballet slippers.

### PILFERINGS

#### About People You Know By Their Friend (Bennet Cerf)

- Dorothy Thompson:
- Dorothy Thompson, most overpowering and awe inspiring female commentator in America, was anything but that when she first met Sinclair Lewis at a dinner party in Berlin. Lewis was so enchanted that in the middle of the dinner he leaned past a couple of startled guests and asked her to marry him.*
- They spent their honeymoon on a trailer trip through Britain. Later Adolph Hitler personally ordered Miss Thompson bounced out of Nazi Germany, an indignity for which she never forgave him.*
- The Lewises had a tranquil married life until Miss Thompson became so engrossed in column-writing, lecturing, radio work and general re-shaping of the world, that she had no time left for anything else.*
- Somebody asked "Red" Lewis where she was one evening. "She disappeared into the NBC Studios three years ago," answered Red, "and nobody has seen her since."*
- Another time he heard that she was being mentioned for a presidential nomination. "I wonder," he said wistfully, "if they'll let me write 'My Day'."*
- One of William Lyon Phelps' students at Yale once asked him this question in the middle of a lecture on Browning.
- "Professor, which gives you the greater thrill: a student who knows and appreciates Browning as thoroughly as you do, or that same student weaving through an entire Harvard team for a touchdown?"
- The beloved "Billy" Phelps replied without hesitation:
- "I thrill to either performance, young man. The only difference is that when a student understands Browning, I do not smash my hat."
- A fearsome man is Colonel Robert Rutherford McCormick, writes Bennet Cerf. McCormick, publisher of the Chicago Tribune, is especially fearsome when someone dares to disagree with him.
- The Rhode Island legislature, for instance, passed a bill that displeased him. Out into the Tribune lobby strode the Colonel and snipped one star from the American flag that waved there.

In private life, Lucius Beebe is the scion of a fine old New England family, so influential that when Lucius was requested to leave Yale, he was taken on at Harvard! Legend persists that Lucius' precipitated exit from New Haven had to do with a ventriloquist whom he palmed off on the Yale Chaplain as a famous minister from the West.

The minister was asked to deliver a sermon in the Yale Chapel, and progressed beautifully until the point where he stopped talking, cupped his hand about his lips, looked aloft, and called, "Am I right, Lord?" Down from the rafters, (remember, he was a ventriloquist) came an answering "You certainly are, My Son!"

## Pointer of Interest

MRS. HERBERT H. WEBB OF STANTON LANE

By Kitty Carney

The handsome home which the Herbert Webbs built in Stanton lane and moved into in May has many novel and attractive features, not the least of which is the fireplace which Mrs. Webb finished with her own ceramic tiles.

Although she had not heard of its being done before, Mrs. Webb decided, when planning the new home, that she would like to make tiles for her own small fireplace. First, she sketched on paper a design of leaves and trailing ivy; then, under her fingers the clay became a raised white pattern against an aqua background. She accomplished the intricate task by molding two square blocks a night at a ceramics class at Grosse Pointe High.

Each of the 18 ceramic blocks is a four-inch square; this is an unusual feature because the tiles fit in closely at right angles. The ivy design has a smooth continuity as it moves over two sides of each ceramic tile on both the outside and interior of the fireplace.

Mrs. Webb first ventured into ceramics several years ago when she asked a school teacher for a "hunk of clay" which she could work with her fingers. She moulded the material into a pair of old-fashioned figures which took first prize in the Painters'

Show at Dayton Art Institute.

At the same time, two of her paintings were hung in the Dayton show. A few tasteful portraits and pastels on the walls of the Webb home bear testimony to Mrs. W.'s talent. She is so fond of a pair of Bisque figures which stand on the mantel-piece that she did chalks of them for her bedroom.

Surprisingly enough, Mrs. Webb was a home economics major at Penn Hall and Ohio State University. Only in recent years has she dabbled in the field of art. One summer she studied oil painting under Anthony Thieme at the Rockport, Mass., art colony.

The harmonizing of many colors in her home decoration scheme shows Mrs. Webb's aptitude for that type of thing. White rare antique and lovely old dishes are dear to her heart, she came up with at least one more modern idea in furnishing convenience. It's one no home should be without—besides her ample cupboard space in the

kitchen, she suggested a "canned goods" cupboard. This extends out only six inches from the wall at one end of the room, allowing ample space for the largest size can, but eliminating the need to grope far back into the cupboard. "Wonderful!"

Mr. and Mrs. Webb have two sons, William, who recently embarked on his freshman year at U. of M. under a four-year scholarship, and Kenneth, a student at Grosse Pointe high school.

### Pointers See President's Cup Race in Washington

The President's Cup Regatta held Saturday and Sunday, Sept. 25 and 26, in the Potomac River, drew a group of Pointers to Washington.

Among them were Mr. and Mrs. Ray Whyte, Mr. and Mrs. Robert Keller and Mr. and Mrs. Glendon H. Roberts.

Mr. and Mrs. Roy Thompson, of New York, who were house guests of the Whytes during the summer, met the visitors at the airport in Washington.

### Richard School P-TA to Meet

The first meeting of the Richard School Parent Teacher Association for the 1948-49 school year will take place on Tuesday evening, Oct. 12, beginning at 8 p.m.

Instead of the usual procedure of having the parents visit in the classroom from 7:30 to 8, they will first go to the auditorium. There the president, Nathan Goodnow, will conduct a brief business session and tell the assembled parents the plans for the association for the year.

Among the items up for discussion in the auditorium meeting is that of a Halloween party to be sponsored by the P.T.A. and to be held on the evening of Oct. 30, Saturday.

Following the general meeting the parents will go to the several classrooms of their children where the teachers will discuss with them the school program. Among the significant subjects for presentation in the classrooms is that of our new reports to parents.

At about the tenth and twentieth week of school during each semester the school sends to all the homes a report on the work of each child for the period. This past year a new form has been developed and this new form will be discussed by the teachers.

Besides the report card time will be taken to discuss the general instructional program within each classroom. The first meeting usually attracts at least 300 parents.

With a nice taste and care in weaving words together, you will express yourself most happily, if a skillful setting makes a familiar word new.—Horace.

## Pointe Counter Points

By JANE SCHERMERHORN

No matter how "just off the press" that slick paper magazine of yours may be, the pretties to be found on its pages are to be found, at the very same moment, in the smart shops of the Pointe. All the thrill of Manhattan shopping PLUS the convenience of buying within a stone's throw of home belongs to Pointers. Lucky people!

We must confess that the most elegant fashion magazine, though, doesn't include the exquisite lingerie to be found at THE CLOTHES-LINE. Pure silk nighties with breath-taking and lace trimmed negligees are there for Modom now. Alencon lace trims the pastel (nighties and negligees may be in same or contrasting tones) lingerie. The tailored pure silk slips are dreamy—Made to order—Speedy delivery.

A bit more on the tailored side we found the boudoir fashions at JACOBSON'S. You'd wake up fresh as a rose in their white tailored pajamas so gaily splashed with scarlet floral pattern. There's a matching brunch coat for these snappers, too. Belted and too Gertrude Lawrence-ish for words. You know your habits, so you may be interested in the quilted brunch topper with pajama bottoms only. This ultra model comes in chartreuse background with just a bit of copper, white and deep green print. The coat and belt are lined in deep green. Popular three-quarter length robes of quilted taffeta are featured at Jacobson's, too. These have 2-e-p pockets, covered buttons and some are chic with ribbon tie (to match the lining) running through the collar. Colors: Navy, lined in crimson; green, lined in gold; aqua, lined in a small checkered material. The always good long flannel robes, tied at the waist and piped at sleeves and collar are to be had in lush shades of aqua, coral, red and navy. "Wake Up Coats" are cute as cats. They're of rayon gabardine, come in long or short lengths, and may be monogrammed.

SCHETTLER'S on Fisher road are introducing "traveling atomizers" to the Pointe and you simply are not a smart traveler if you don't carry your pet fragrance in one of these efficient, good looking gadgets. Made by Marlee, the bottle part is heavy cut crystal. It has a tiny gold-like cap of its own. The atomizer, with gold thread covered bulb, detaches. The two parts fit in the neatest little like zipper cases (white, sand, red, green, blue or beige). Not a drop of perfume spills in your luggage; when you're home, the atomizer is a delightful addition to your dressing table. Cheap as cheap, incidentally.

We've never forgotten the description, years ago, by an enthralled matron who had seen the linen closets at Mrs. Louis Mendelsohn's Pointe home. Vogue never pictured anything as beautiful or as orderly. This same description applies to those perfectly wonderful Mr. and Mrs. Chesit at HAYDON HOUSE. The chests are scientifically designed to store the most amazing amount of clothing (even to shoes), and besides being really elegant furniture, they do away forever with Fibber McGee closets. Haydon House is featuring the modern chests but they may be ordered in Period spirit, too.

The gillett, bound to be as mystifying to the male population as a gusset or voile, is teddibly 1949 and is being spotlighted by the WALTON PIERCE GROSSE POINTE BRANCH. The gillett, as you know, is a fine knitted-like blouse to be worn with suits or as evening blouses with velvet or taffeta great skirts. Those at Walton Pierce are truly heavenly! A navy blue boucle-like gillett is spiked with silver thread. There are just the wispiest cap sleeves and the necklines are wondrously done... some beaded with narrowst velvet ribbons, others in cut out effect with single pearl embroidery—others laced with flat ribbon. We saw dusty pink combined with thread of gold; a pastel blue with thread of gold and pearl embroidery; a mustard toned gillett with wood brown narrow velvet ribbon lacings at the throat. Still other gillets come in solid oyster white, navy, black or brown. You'll find gillets dress up your suit and turn it into a symphonic ensemble as no ordinary blouse possibly could!
