As the temperature dropped outside, PAULINE MASACK, Girls' Athletic Director, BILL DESROCHER, Boys Athletic Director, and DIRECTOR GEORGE ELWORTHY watch the thermometer in the Neighborhood Club gymnasium plummets, despite the club's heating plant going at full blast. Said Elworthy "it's nice to know we will have a nice warm gym next year at this time." The mercury was at 34 when this was taken.

Yule Burglar Gets Set for Fashion Show

Six Suits, Slacks and Sport Coat Among Items Stolen Dec. 23

Additions were made during the last week to the list of articles stolen from the James Morrison residence at 66 Hall place on December 23. The family's holidays were made anything but merry when a thief entered the house while everyone was away, did a thorough ransacking job and stole about everything but the kitchen stove.

Took \$1,100 Coat
Listed last week as missing were a beaver coat valued at \$1,100, a \$20 rod and reel, a \$600 Italian tablecloth with matching napkins, a silver tray and silver plates, valued at \$200, and a \$75 man's suit.

Detective Sergeant Elmer Labadie of the Farms made new entries this week. Further investigation disclosed that also missing are: Five more men's suits with a total value of \$320, a matching sports jacket and slacks valued at \$60, a \$20 leather camera case, a silver bon bon dish, \$50; a silver gravy boat and spoon, \$75.

Insures Own Cheer
And to insure cheer on his own Christmas the burglar took a bottle of whiskey valued at \$11.75.

Also missing is a gold-plated, push-lined antique jewelry case which contained a number of antique pieces. Among these were two lockets, a necklace, a religious medal, a mosaic pin and a pair of earrings. Also in the box were a \$5 gold piece and a woman's change purse containing \$50 in currency.

Icy Pavements Receive Blame For Crashes Over Holiday

Icy pavements were blamed for several crashes in Grosse Pointe Farms during the New Year weekend.

A car driven by John F. Hanley of 1336 Lochmoor boulevard skidded on the ice in front of 4162 Maison road at 3:40 p.m. on December 31 and crashed into the rear of a delivery truck owned by a Detroit department store. The truck was driven by David McQueen of 2139 East Eight Mile road.

At 8:10 a.m. on Jan. 3, Vernon Sylvester of 296 Chalfonte, reported that when he was driving south of Kerby, his Buick skidded on the ice and crashed into a Chevrolet sedan parked in front

Neighborhood Club Athletes May Be Experiencing Final Year in Frozen Gymnasium

Completion of Texas Pipeline Expected to Bring Gas to Warm Heating System Offered by Printe Rotary Club

By Fred Rummels
"Why can't the Neighborhood Club gymnasium be heated to a comfortable temperature during the winter months?" That is the \$64 question in Grosse Pointe. A couple of telephone calls produced the answer.

Mr. Baker, staff assistant of the Sales Department of the Michigan Consolidated Gas Company, informed me that it was absolutely impossible to allot gas for space heating, under any circumstances, until 1950, when his company will have access to the new Texas pipeline which is now under construction.

Proper Procedure
I asked Mr. Baker what procedure the Neighborhood Club would have to take to be sure it would be able to get the space heating gas when it becomes available. He informed me that anyone who had the necessary equipment installed for heating, when the gas becomes available, should have the contractor who did the work make application for a meter, and the order would be filled immediately.

Now that brings us down to the question as to whether the Neighborhood Club has the necessary equipment to take advantage of the situation.

A call to Ed Rector, Grosse Pointe Park Fire Chief and President of the Rotary Club, set the wheels in motion to answer this question.

Rotary Club Offer
Two years ago the Rotary Club offered two gas heating units to the Neighborhood Club. Chief Rector was asked whether or not the offer still was in effect. The Chief couldn't answer the question officially but promised to bring up the question at the club's next meeting of the Board of Directors.

If the Rotary Club's offer still

of 371 Kerby. William Reed is the owner of the Chevrolet, which was damaged to the extent of \$25. The Buick suffered \$15 damage.

Walter M. Bernie of 884 Beconsfield, Grosse Pointe Park, reported to the Farms police, that he had been involved in an accident at Beaupre and Charlevoix at 4 a.m. on January 1.

He said that a car ahead of him stopped suddenly and his car skidded into the door of the one ahead, closing the door on the leg of the driver.

When the driver threatened to beat him up, Bernie fled from the scene and reported the mishap to the police.

Old Fashioned Cure Prescribed

A woman who lives in the 800 block of Washington road called upon the City police at 6 o'clock on Sunday evening and said she wanted a policeman to try to make her boy stop swearing at her.

When the domestic readjustment squad arrived they found both father and mother present and both at their wits end as to what to do to make their 13-year-old stop swearing at them.

After appraising the situation, a moment they advised the parents to apply the old fashioned, proven "strap-in-woodshed" cure.

The advice was entered on the police docket in the more decorous terminology as "parental persuasion."

Young Window Breakers Nabbed

A group of eight youngsters, all of them between 9 and 12, have been rounded up by the Farms police in connection with damage done at a new house being built at 256 Kenwood court by Roland Bengt of The Whit-tier.

The boys have confessed to taking part in the breaking of a number of windows. Their parents were called in on the resulting consultations and have agreed to foot the damage bills.

Police Seeking Car Tamperers

While Bill Browne of 276 Lewiston was calling at Lincoln and Waterloo on the evening of December 31, somebody tampered with his car. He found the spark plug wires had been crossed, which, as can be imagined, made starting extremely difficult.

He told the police he thought he knew where to look for the culprit and the police promised full cooperation.

Debt Question Injected Into Merger Plan

Obligations of Municipalities Could be Handled By Districts

The proposed consolidation of the five Grosse Pointes is by far the biggest item of local public interest that has come up in this community for years, and will continue to be until it is settled by the people themselves at the polls sometime this spring.

One of the most frequent queries heard concerns the manner by which existing debts of the various present municipalities would be composed with respect to their future liquidation and with justice to themselves and the other municipalities with which they would be associated in a single city.

Up to Commission
Much of the detail of consolidation would necessarily be left to the devising of the Charter Commission which would be set up once the citizens of all the Pointes voted affirmatively on the bare question of consolidation: yes or no.

It can be ventured however that the citizens and public officials who are behind the consolidation plan have in mind the possible, or probable, setting up of special assessment districts within the proposed consolidated city, which would be coterminous with the present boundaries of the different municipalities.

No Great Difference
The taxpayers in these assessment districts would pay taxes, as residents or property owners, within the assessment districts, and these special taxes would be applied to the assessment charges and eventual liquidation of their present or old debt. This would be in effect no more or less than they would have to pay if consolidation never took place, and would leave each assessment district (or present municipality), to pay its own debt.

Bond issues for future improvements would be general obligation issues resting upon the whole municipality.

3 Cars Figure In Mack Crash

Three cars figured in an accident on Mack avenue in front of the Woods Theater at 6:25 p.m. on January 2, with total damage amounting to an estimated \$250.

The police report turned in by Officers Boylan and Sylvester of the Farms, says Arthur Van Hollebeke of 1351 Wayburn, driving his 1941 Plymouth west on Mack, got over on the south side of the road and struck two cars going east.

A Packard driven by Robert Williams of Payton, Detroit, suffered \$50 damage. A Pontiac driven by Donald Wigent of Algouquin, Detroit, was damaged to the extent of \$100, and a like amount was suffered by the Plymouth.

Van Hollebeke was given a ticket for reckless driving.

Police Seeking Hit-Run Driver

Farms police are seeking the driver of a green Cadillac who left the scene of an accident on Fisher road at 9 p. m. on January 2.

Gertrude Quinn, of 338 Fisher road, said that her Dodge coupe was parked just south of Kercheval on the west side of Fisher when it was struck by the Cadillac.

The driver faces hit-run charges.

Two Cars Tangle On Lake Shore

Damage estimated at \$250 was done when two cars crashed on Lake Shore road at noon on New Year's Day.

Thomas C. Beech, of 10435 East State, Detroit, was driving his 1948 Oldsmobile east on Lake Shore when he was run into by a 1940 Bantam, also being driven east by Thomas M. Garrison of 6132 Townsend.

Damage to the Bantam was estimated at \$125 and to the Olds at \$100.

Important Meeting On Memorial Plans Called for Friday

Several Propositions for Taking Over Alger House as Community Center To Be Laid Before Heirs' Representatives

A meeting scheduled for Friday noon is expected to have great bearing on the question of whether or not Alger House shall become Grosse Pointe's World War II Memorial. Dwight Douglas, representing the Alger family heirs, has been asked to meet with officials of the Grosse Pointe War Memorial Library Fund and several private citizens who have taken a leading part in the movement to have Alger House converted into a War Memorial Community Center.

These Will Attend
Attending the luncheon session in the Detroit Club Friday with Mr. Douglas will be Alger Sheldon, president of the Fund; James K. Watkins, president of the Farms and honorary chairman of the memorial fund campaign; Paul I. Moreland, treasurer of the Fund; John Kenower, fund director; Selden Daume, president of the Detroit Trust Company and also representing the Alger family; and Ernest Kanzler.

Since the Township offered some weeks ago to take over the Alger House property and maintain it as a war memorial community center, lawyers and officials have been going over the legal angles of such a plan.

Everything in Order
They felt it most important to have everything in perfect order before presenting any proposition to the Alger family which might not be feasible, and which might result in another turmoil such as that which followed the rejection of the property by the School Board in November.

It is reported that several plans have now been worked out, all of which will be presented to the Alger representatives at Friday's meeting.

It is said to have been determined that the township could legally accept the property and maintain it. Another idea which has been pushed by some of the groups is that the War Memorial Library Fund take it over, if the Alger family is willing to allow this, and maintain it as a perpetual memorial organization.

Would Change Name
This would involve changing the incorporated name of the organization to delete the library wording which now appears in the charter.

There has been a great deal of discussion on the bearing which a possible merger of all five Pointes might have on the maintaining of the memorial. It seems likely this issue will be put to a vote in the not too distant future.

With only one municipal government to deal with, it is pointed out it would be a much simpler matter to solve the matter of maintenance.

Strange Robbery Reported in City

Mrs. Charles W. Bishop, of 512 St. Clair, reported to the police on December 28 that six leather covered pillows, which she had placed outdoors in front of her living room window, had been stolen.

The pillows were of different colors and would be difficult to conceal.

Farms Zoning Law Presents No Barrier to Alger House

A meeting of the Board of Trustees of the Farms was called by President James K. Watkins on Wednesday, December 29, to consider whether or not the present zoning regulations of the village would bar the use of the Alger House property as a War Memorial.

President Watkins stated that while no authoritative action was taken by the trustees the general consensus was that inasmuch as the proposed memorial was a community-wide enterprise there was no barrier in the existing zoning laws of the village to its use for this purpose.

Trick Issues Arising Over Boundaries

Township Attorney Berns Wrestling With Problems; Vote Seems Definite

The drawing up of the petitions calling for an election to determine whether or not Grosse Pointe is to be consolidated into a single city has brought to the surface tricky questions.

The question of the exact boundaries of the municipalities to be consolidated into one calls for the most exact description. There can be nothing left to surmise or guess work. A boundary line cannot be described as "about" somewhere, and "more or less" has no place in such an instrument.

Shores is Split
As is known by most Pointers who have had any contacts with the official life of the area, a part of the village of Grosse Pointe Shores lies in Macomb county.

It is understood that when the Edsel Ford estate was developed the decision was arrived at by some arrangement that his property was to be a part of the Village of Grosse Pointe Shores. The destination of the taxes which this great property would produce in substantial quantity doubtless had something to do with this.

This part of the village lies in Macomb county, but is attached to an incorporated village which is designated as a Wayne County municipality.

Can It Be Done?
The question which now confronts the attorneys preparing the petitions is whether this small segment of Macomb county can be incorporated into a city which will be in Wayne county.

There is also a part of Grosse Pointe Woods village which lies in Grosse Pointe township. The fact that this section or rather two sections in the Woods which are in Grosse Pointe County somewhat simplifies the issue but nevertheless leaves some boundary adjustments to be made.

Attorney Julius Berns is now wrestling with these problems. In a short time the completed petitions will be in circulation throughout the Pointe. With the requisite number of names subscribed to the petitions they will be presented to the County Board of Supervisors on January 28. After this the County Board will designate the date of the election on the consolidation issue.

Few Signers Needed
As the number of required signers to the petition is only one per cent of the population from each community, according to the last preceding Federal census, with a minimum of at least ten signatures, it is presumed there will be no doubt of the presentation of legal petitions from each one of the Pointe communities.

When these are filed an election becomes mandatory. As the last census (1940) showed Grosse Pointe, including the city, to have a population of 28,285 the aggregate minimum number of names from all of Grosse Pointe need be only 283, provided there were not less than 10 signatures from any one municipality.

Miss Dawson was unable to guess the time the purse was taken but was informed by a woman customer that she had seen two men, each apparently between 25 and 30 years old lingering about her office door.

Detective Flanagan at first suspected it might have been the same two who stole some antique silverware from the Cecil Gordon Shop on Fisher road a few days ago, but a further checkup with that place indicated it was not the same parties. All four men were about the same age.

Youngster Runs Into Car's Path

As Frank J. Paquette of 5925 Dextel was driving north on Rivard on Sunday afternoon, at a speed, he said, of not more than fifteen miles an hour, 5-year-old Marian Newberry of 2056 Cambridge, Berkel, ran in front of his car and was knocked down.

The little girl and her brother were visiting her grandmother and she had started across the street to join her small brother on the opposite side. She was rushed to Bon Secours where it was found she was suffering from nothing more than bruises on each leg.

James O. Kelley, familiarly known as "Jack," long a well known restaurant manager in the Detroit area died Sunday in the Ford Hospital.

Mr. Kelley will be recalled by Grosse Pointers through the restaurant he conducted for a short period on Fisher road.

Little Pointe Branch Sold \$209,000 Worth of Stamps During 1948

Leland Lindow, superintendent in charge of the Grosse Pointe Post Office, reports that the business of the Maumee branch for the year ending December 31 was the largest since it was first opened as an emergency office in the holidays of 1943.

The business for the year 1948 was \$209,000. These figures represent stamp sales alone and are not associated in any way with the other office activities. The business in stamp sales was \$19,000 higher than last year.

Store Thieves Snatch Purse

Manager of Peter Pan, Inc., Is Victim of Light-Fingered Pair

Etta Dawson, of 3701 Bedford, Detroit, manager of the Peter Pan Shop, Inc., of 17045 Kercheval, reported to the City police on January 3 that her purse had been stolen from her office desk.

The purse, a brown calfskin leather strap model, contained one twenty-dollar bill and an unknown sum in smaller bills and change. It also contained a book of her blank personal checks, a fountain pen, gold compact and other items of only personal value.

Miss Dawson was unable to guess the time the purse was taken but was informed by a woman customer that she had seen two men, each apparently between 25 and 30 years old lingering about her office door.

Detective Flanagan at first suspected it might have been the same two who stole some antique silverware from the Cecil Gordon Shop on Fisher road a few days ago, but a further checkup with that place indicated it was not the same parties. All four men were about the same age.

Bicyclist Skids on Ice And Injures Left Knee

George Cherpelis, aged 19, of Lakepointe, while riding a bicycle at Kercheval and Lakepointe on December 28, skidded on the ice and was thrown violently to the ground.

He was removed to Bon Secours Hospital for treatment for abrasions on his left knee.

Spends Xmas at Home After 6-Year Absence

It was a Merry Christmas for the J. L. Henriens of Kerby road, for they had with them their son, Lt. Al. J. Henriens, who has been in Guam for two years and spent his first Christmas home in six years.

Lt. Henriens, with his brother, Joseph Henriens, Jr., returned to Fort Slocum to await transfer to Bedford, Mass., where he will be discharged and return home.

F. R. PICONE, of 547 Barrington road, Grosse Pointe Park, has been appointed an Assistant Prosecutor by Wayne County Prosecutor Gerald K. O'Brien. He has been authorized to offer his services to the residents of the Pointe area for any point of information they may desire.

Church to Hold Birthday Party

The Grosse Pointe Congregational Church is to celebrate its ninth anniversary on January 13 with a "Birthday Dinner" served at 6:30 p.m. in Christ Church, Grosse Pointe Boulevard.

The church choir will sing "Oh, Lady Be Good," the Youth choir, "Jeanie with the Light Brown Hair," and "My Alice Blue Gown."

A timely skit, "Pulling the Purse Strings," will be presented by the Women's Association. It is rumored that the Men's Club will also be on the program.

Movies of the recent ground breaking and progress of the building of the new church which is under construction at the corner of Chalfonte and Lothrop, will be shown.

Call Mrs. F. A. Tomlin, TUx 2560, or Mrs. George Trumbull, VA 2-5517, for reservations.

Wrong Number Call Suspected

Mrs. William C. Loveless of 217 Merrivether road, reported to the Farms police on Jan. 4 that she had received a mysterious phone call the night before.

"She said that when she answered the phone at about 11:15 she heard a woman who was apparently in trouble. Before she could gather what it was all about, a man's voice came on the phone, informed her that it was a wrong number, then hung up."

Supper Planned By Methodists

The Grosse Pointe Methodist Church will hold a Church Family Pot Luck Supper at the Maire School on Friday evening, January 7, at 6:30 p.m.

The speaker of the evening will be Dr. Paul Morrison of Trinity Methodist Church, Highland Park, who will review the book "Cry The Beloved Country" by Alan Paton. There will be movies for the children provided by Mr. Cornelius Huyksen, president of the Grosse Pointe Kiwanis Club.

The Building Enterprise Commission will present a report with definite plans leading up to the ground breaking date for the construction of the new church building.

Mrs. Wayne D. Wetzel, 425 Cloverly road, is in general charge of the Pot-Luck and should be called at TU. 1-0904 for consultation as to what to bring. All members and friends are cordially invited to attend this occasion.

Test Varsity-Alumni Game Enthusiastically Endorsed

Listening through the keyhole, your roving reporter collected only a few of the many praises being sung by both players and spectators at the Varsity-Alumni basketball game at Grosse Pointe High School, December 28.

Vince Schoeck, starting forward of the Varsity team, said, "Sure, I think it's a very good idea having a game such as this. It gave the players who represent the high school good experience to meet bigger and better opponents. It gives our squad a chance to get good constructive criticism from older and more experienced players."

Dr. Edward J. Guenther, a former player at his home-town high school, and spectator at Tuesday's game, stated, "Certainly, I put my 'OK' on this type of game—I don't know why it wasn't started long before this. I am greatly in favor of it because of the great deal of friendly spirit and the enthusiasm that was shown by the crowd."

"The fineness of interest shown by the parents, students and alumni was what pleased me. A game such as this is something to look forward to by everyone and I certainly do favor having a game next year and every year," explained Mr. Frank C. Willson, father of Tom Willson, former high school star who played for the Alumni.

From a woman's standpoint Nancy Georgi, high school senior, added, "When you play teams like those in the Border Cities League, the spirit is not there for both teams as it is when former varsity players return for an exhibition game with the present varsity members."

Sherb Brown, candidate for the presidency at G.P.H.S., stamped his whole-hearted approval by saying, "It's just like 'Old-Home Week' to see the Alumni return and play for the sheer joy of playing basketball instead of playing for the win. I'm for it 100%."

Mr. Frank Banach, athletic director at Grosse Pointe High, put his unofficial "OK" on the game when he said, "By all appearance, this game will be continued. The spirit of friendliness was definitely there." When asked whether he was in favor of making the Varsity-Alumni

game an annual affair, Coach Banach said, "I am very much in favor of it."

Bad Drivers Pay Fines in Court

Robert McLean Behr, of 830 St. Clair, for failing to make a proper stop, resulting in an accident, was fined \$15 and \$5 costs.

Nicholas M. Paradisi, of 272 Ridgmont, for driving without due care and caution, causing an accident on Mack on Nov. 29, was fined \$15 and \$5 costs.

Gets Christmas Present From Hit-Run Driver

The parking space in the rear of the city municipal offices on Maumee is a peculiar place for the operations of a hit-run driver but it happened at a car belonging to Richard Barrows of 22 Elm court on Christmas eve.

Barrows had gone into the Post Office on a late Christmas mailing errand and when he came out a moment later the damage had been done. One of his fenders was crumpled up.

Even a small-time orator can make an audience believe that he speaks of a threatening crisis.

Forming Class In Psychology

A class in the "Psychology of Personality" is being formed beginning Tuesday, January 11, at Grosse Pointe High School. Mrs. Morgan Sherman will conduct. It will meet at 8 o'clock.

This class is an outgrowth of a daytime class where it was realized how much fathers were interested in this field of personality; also what an important part the father has or should have in personality guidance both in the home and outside.

The understanding of personality, what causes people to be the way they are and what can be done to change and improve them will be studied. Naturally, emphasis will be placed on the guidance of children of all ages.

The organizers are anxious to have the fathers in this class and to guarantee them not being submerged by women. No women will be admitted without their husbands at the first meeting.

Engaged

Mr. and Mrs. C. Francis Gossler of Roslyn road began the new year by announcing the engagement of their daughter, JACQUELINE, to Donald Roy Converse, son of Mr. and Mrs. Roy J. Converse of Girardin avenue, Detroit.

All women of the community are invited to hear Mrs. Hauck review Frances Parkinson Keyes' "Dinner at Antoine's," her latest novel about New Orleans.

This will be the first of a series of book reviews under the direction of the new officers. Mrs. James Alexis is the president of the association. Mrs. Gerald Schroeder is chairman of the ways and means committee. Mrs. Conrad Istock is leader of the Rachael Group, hostesses for this month, and Mrs. Gordon N. Cameron is chairman of book reviews.

The reviews are held the second Wednesday of each month.

Woods Girl Hurt In Freak Mishap

On Christmas night Donald Miller, of 1781 Allard, backed his car out of his driveway too fast and top far. He struck a car directly across the street in front

of 1780 Allard, where Suzanne Williams was standing in front of the half opened door of her car at the moment, removing a radio.

The rear of Miller's car pinned her fast behind her own car door.

She was taken to Cottage Hospital where examination revealed

no further injuries than some painful bruises.

Detroit's Chest Record is Best

Final reports of Community Chest campaigns in major cities in the country indicate that Detroit is out in front in percentage gains over its 1947 results.

Detroit reports a 7.8 per cent gain over the amount raised for its 125 Red Feather agencies in 1947. This year \$5,843,000 was reported at the end of the campaign. St. Louis reports a gain of 6.1 per cent over its last year's figure and Pittsburgh was 4 per cent above its 1947 returns. Cleveland raised 5.2 per cent more than in 1947 and Cincinnati had a 3.5 per cent gain. Boston raised 5 per cent less than they did last year.

Although Detroit was 2.7 per cent short this year in raising its goal of \$5,975,000 the board of directors of the Community Chest are still hopeful that the unpledged balance will be realized.

"The balance of \$130,000 is a proven need as the budget review committees meeting daily are finding their task of budgeting agencies extremely difficult because of the increased cost of commodities," Walter C. Laidlaw, campaign manager, stated.

"Also, with juvenile delinquency creating many youth problems the demand for extending recreation services are greater than ever," Laidlaw said.

Hurt in Tangle With Pointe Bus

J. A. Young of 19204 Rockcastle, G. P. Woods, driving on Mack at Bournemouth the day before Christmas, got in the way of a Lake Shore bus and in the collision suffered injuries which necessitated x-rays at Saratoga Hospital.

His car was badly damaged. He was given a ticket for driving across the right of way of the bus.

Act to Hasten Pump Delivery

The Woods Council is getting restive over the long delay in the delivery of the big pump to be used at the Torrey road pumping station.

The pump has been on order with the Worthington Pump and Machinery company for the past six months. Clerk Allard was directed to write to the company and tell them that the village urgently desires quick delivery.

The council is concerned with the situation that might develop if high water in early spring should find the village unprepared to meet the emergency which the pump was intended to care for.

Power Squadron To Give Course

The Detroit Power Squadron, an organization of both power and sail boat operators which has been in existence since 1916; will hold registration at 7 p. m. on January 11 at the Edison Boat Club at the foot of Lycaete, for those desiring to take the course in instruction for amateurs in piloting, seamanship and the general "rules of the road".

There is not any charge for the instruction and only a small expense for charts and materials used in the course. Instruction in safety on the water is an important feature of the instruction.

There are many owners of both power boats and sail boats in the Pointe who have long been members of the Squadron.

BLAME ASSIGNED
A car crash at Beaconsfield and Charlevoix at 5:30 p.m. on December 30, involving cars of Peter Galdoni of 1354 Lakepointe and Joseph Helman of 3910 Audubon, resulted in Helman getting the ticket. There were no personal injuries but considerable property damage.

Distress Cries Rend Night Air

Mrs. Martha S. Bachers, of 979 Barrington, phoned the police shortly after midnight on January 2 that cries of distress were coming from the alley alongside her house.

When the police investigated they found that a party who had come out of nearby saloon had had trouble starting his car and had slipped on the ice and fallen on his face, injuring his nose. A woman companion in the car had added her screams to the general confusion.

The police decided that while the bruised one was a little drunk he was not drunk enough to be taken into custody. After patching him up they sent the two on their way.

Detroit Speeder Nabbed in Park

As Park Patrolmen Barclay and Del Place were patrolling the streets at 12:20 a.m. on January 2, they overhauled a visiting citizen from Detroit who was using the Park's highways for a speedway.

They took John C. Sullivan's car away from him and gave him a memo to answer at Police Court for drunk and reckless driving, which, however, had not yet resulted in personal injury.

Another Hockey Player Injured

Ronny Walker, aged 12, of 1059 Lakepointe, was taken to the Park police station at 9 p. m. on Jan. 2 for first aid.

He had suffered a bad bruise on the side of his head from a fall on the ice while playing hockey in the beach park. He was treated and taken home.

A citizen passing by happened to be a neighbor of his and offered to take the aged man home. He was given first aid by the police and turned over to the neighbor for home delivery.

One or Five?

The move inaugurated by Grosse Pointe Township to effect the consolidation of the whole Pointe area into a single municipality has brought into the open for the first time an issue that has been debated and with varying degrees of seriousness for a long time.

The fact that it has been proposed officially at the moment when one of the Pointe municipalities, the Farms, has already launched an election to be held this spring on the question of changing its structure from village status to city, is significant.

The Farms' move, if it should prevail, would make no change in the municipal structure of Grosse Pointe as a whole. The idea is not new in the Pointe. The Park village has already voted twice on this same move and rejected it both times.

It was believed at first that the Park and the Shores might follow suit in special elections on the City issue this spring, but later word is that both are waiting to observe developments in the Farms election as demonstrating the drift of public sentiment on a multiplicity of little cities where villages now exist. To many unexcited citizens it looks much like tweedledee and tweedledum.

The township's proposal constitutes a basic change in the Pointe's government. The question will doubtless be debated seriously by both sides. The citizens will await with keen interest the arguments, pro and con.

The township's plan contemplates single agencies of local government all along the line, where five now exist. It would probably result in some saving of the taxpayers' money and would undoubtedly permit the carrying through of projects of common import to all of the communities, more expeditiously and in more businesslike manner.

Opposed to this is the fact that it would deprive each of the little villages or cities, as they happen to be, of those much prized privileges of literal home rule, which seem to rate so highly here.

Our New Governor

The people of Michigan give an honest and sincere welcome to their new Governor, G. Mennen Williams, of Grosse Pointe. They wish him well in his declared intentions to administer the State's affairs on a common-welfare basis.

He is young, ambitious, physically strong and mentally alert. The qualities for a fine public service are all in his hands. He is obviously strongly social minded in its broadest and best sense. With this no honest citizen will quarrel. The leader who aims at the advancement of the general welfare of all, is proceeding along the American way of life.

If the exigencies of politics incline him to sift out for special consideration or preference particular groups he will fall short of the high ideals he so bravely expressed in his inaugural address. The pleas of all must be justly considered, but primarily as they affect the common welfare.

If Governor Williams can keep constantly in mind that he is the chief executive of all of the people of his imperial state and never the champion of any particular group or element, he will be a good governor, even a great one. The answer is of his own making.

The Chinese Mess

About the end of the war this newspaper published an editorial entitled "Let John Chinaman Do It," for which the writer was severely criticized by a prominent local educator who disagreed with our advocacy of keeping our nose well out of the Chinese mess.

This critic believed that a vast opportunity was opened up to us to assist this great people in its adjustment to the ways of the modern world and particularly as a force to be nourished as a bulwark against the advance of communism into eastern Asia.

Our belief then was and still is that it is an utterly hopeless task to attempt to mold a great human mass of more than 400,000,000 people into a spiritual and political entity which would be an acceptable member of the comity of Christian states and accommodated to the culture of Christian civilization.

The Chinese people practice a civilization older and more deeply rooted than that which Europe transplanted to the New World. They have a natural resentment against any attempt to change it to conform to the newer forms of the Occident. Christianity itself had been taken to them by the Portuguese before it was even brought to the New World by the Spanish adventurers who walked with the cross in one hand and a sword in the other.

The deep rooted opposition of the Chinese to western civilization was significantly seen in the effort of the dowager Empress Tsi Ann to drive the "foreign white devils out of China" as late as 1900. Through four centuries of contact the West had affected only slightly the prejudices of the Orient towards the Christian states of the world.

This contact between China and the West had borne profitable commercial fruit but had paid small cultural or spiritual dividends.

The occasional Chinese who have been educated in this country is a mere trickle and in no way symptomatic of any awakening of the great masses of Chinese to the culture of the West.

Our efforts to aid the Chinese since the end of the war have been based on political considerations. The fact that China had been attacked by the Japanese led to the belief

A. PRYOR

"And when they bore me overmuch, I will not shake mine ears, Recalling many shousands such whom I have bored to tears. And when they labour to impress, I will not doubt or scoff; Since I myself have done no less and, sometimes pulled it off!" (Kipling)

At one of the Club parties during the holidays, one of the Pointe's best dressed women received somewhat of a shock. She wore a year old evening gown... designed with a mammoth bow spread across the front of the dress a few inches below the waistline. As she sailed into the crowded bar her eyes immediately lit upon another woman wearing the SAME dress but with the bow in the back! Our heroine lost no time in engaging the woman in conversation, where it was discovered they had bought the frocks at the same shop but from different sales people. One woman was assured that the bow belonged in the back and the other that it belonged in front.

As women are wont to do at a party where they aren't expected to do such things, they immediately repaired to the ladies' lounge, where they undressed and each tried her dress on turned around backwards from the way she'd been wearing it. The lady with the bow in back won hands down. Soooooo, our heroine donned HERS with bow in back too, and proceeded to join the party. Her flabbergasted husband sez he will never learn to understand women!

We sat next to a medium stout gent at a recent dinner party and when large coffees were passed, saw him fish into his pocket for a couple of small pellets which he dropped in his cup. "That's saccharine," he explained. "Gotta watch my waistline." We were greatly impressed and a little ashamed of the two heaping spoons of sugar we took, when we shouldn't have. We were impressed, that is, until the dessert was passed and our strong-minded dinner partner took TWO helpings of chocolate ice cream dripping in whipped cream! Like the husband in the afore-mentioned incident... we will never understand men!

No doubt you are familiar with the "Shopping News"... which by the grace of somebody or other, is thrown on your doorstep gratis? Well, the other morning when we answered the peep of our doorbell, there stood two small urchins; one holding out a Shopping News to us, while the other gripped the handle of a little red wagon filled with the papers. When we asked, like the witch in the fairy tale: "What's all THIS about?" the littlest one squeaked, "Wanna buy one of these for a penny?" We dallied with the little gent as though we were making a million dollar investment, before parting with a nickel, with which he was delighted. We found that he and his partner-in-crime, found a stack of the papers in a nearby lot and decided to make the best of it. Until he got to us, he had sold just one.

After hearing the following we'll settle for having heard everything. The story comes from a local woman who couldn't have made this one up if she wanted to. It concerns another woman (friend of hers), who has the habit of dropping in on her friends at tea or cocktail time, and when asked if she'd like something (meaning a cup of tea or some liquid refreshment) she invariably asks for something to eat. Not just a cookie or cracker, mind you, but a sandwich or sometimes even a salad. Her friends are beginning to wonder if she ever eats at home. Well, this day the little gourmet came to call as usual between 5 and 6 and announced over the proffered highball that she was "starving." The wary hostess suggested some crackers and cheese, perhaps? But NO. Now hold onto your hats, girls; the visitor, in hungry earnestness asked, "You wouldn't by any chance have a nice kippered herring in the house, would you? I just feel like I'd love some kippered herring." Now THERE is something for the book! Kippered Herring... just the sort of thing you keep around the house to nibble on on a rainy day! Oh Brother!

A small six-year-old boy whose parents have brought him up to speak like a human being instead of a goon, started in kindergarten recently, and after he'd been attending for a few days, he was asked by his mother how he liked school? The tot replied, "Frankly, I think you're wasting your money!" As soon as Ma could settle her face into its normal contours, she asked what he meant? "Well," replied junior, "I've never talked baby talk. There, they give us little things to play with and everyone says things like 'tisey-bitsey and goo-ga and bid tat!'"

Our next small fry tale deals with a seven-year-old girl who spent the holidays at her grandmother's house... where a brand new baby cousin was receiving all the attention. One evening the child went up to the nursery with grandma to see the baby reclining in its bassinet... all done up in buttons and bows and looking like a confection. Grandma and the nurse were oogling and angling over the infant as the silent child stood by watching. Finally she said, looking wistfully at the baby, "Gee, I wish I had my life to live over again!"

that there existed a natural alliance with the west and we accepted Chiang Kai Shek, the then top man in China, as our front to plant a bastion in the Orient against the march of Communism.

It is obvious now that we made a bad guess. It is being demonstrated that Chiang is wholly unfit, either by antecedents or disposition, to act as a champion of the western ideals we hoped to strengthen. He has shown himself to be neither a good military leader nor a leader acceptable to his own people. Starting with the great mass of his people, nominally under his control, he has been pushed farther and farther back until now he is fairly fighting for his actual life with a weakening toehold. Whatever communist influence may be ascribed to his opposition among his own people it should be remembered that "communism" is only a name to designate those who oppose him.

It would appear timely for us now to let the Chinese people settle their differences in their own way, and meanwhile be careful not to back again some other ex-war lord. It is unfortunate that we did not awaken to the futility backing one of them earlier.

The East wants nothing of the West more than it can wheedle out of us, and that can be written down as applying to all the Orient, whether on mainland or islands.

It is said that our political leaders have at last awakened to the hopelessness of the situation. They have blundered too long already.

Meanwhile let us hang on to such strategic points as we possess.

If we had had a few more leaders on the spot like MacArthur in Japan it might have been another story.

At the present moment it looks as if Uncle Sam, who was all dressed up to do a mighty mission in the Orient, has no place to go. We certainly will not improve our position by sticking out necks farther into the hopeless Asiatic noose.

It's time we quit trying to reform the world or forcing democracy upon peoples who want none of it and don't know what it means anyway. We have still a few problems here at home. Our surplus energy can better be spent in putting our own house in order.

1948 Healthiest Year for State

When all the figures have been tallied, the year 1948 will be the healthiest in the state's history, Dr. Albert E. Heustis, State Health Commissioner, said today.

The death rate for 1948 will be the lowest in the state's history. On the basis of the first ten months' figures, the state's death rate will drop to 9.15 per 1,000 population as compared with the rate of 9.36 in 1947 and the previous low of 9.52 in 1942.

The incidence of communicable disease and the death rate from communicable disease in the state will reach an all time low. Infant and maternal death rates, will also be at all time lows.

Judging from the first nine months of the year the ten leading causes of death will undergo several changes. The only two communicable diseases among major causes of death will move down the list; pneumonia from sixth to seventh place, and tuberculosis from eighth to ninth place. Both prematurity and diabetes will move up, prematurity from seventh to sixth place and diabetes from ninth to eighth place.

Heart disease will continue to

lead all other causes of death. There will be about two and one-third as many deaths from this as from the next cause of death—cancer. During the first nine months of 1948, heart disease caused 13,936 deaths in comparison with 13,705 for the same period in 1947.

The ten leading causes of death

Serious Accidents Do Happen at Home

By FRED M. KOPP, R.P.H. One of every three accidental deaths occur in the home! The number of serious but not fatal accidents is very great... and of course minor mishaps are frequent.

A serious injury to some member of your family can spell real hardship for the entire family, so practice a safety program in your home. Let a doctor examine at once any serious injury.

For minor injuries a well stocked medicine chest that contains fresh, sterile bandages in several sizes should always be kept in readiness. Buy these from a trusted druggist.

for the year will be: heart disease, cancer, apoplexy, accidents, inflammation of the kidney, premature births, pneumonias, diabetes, tuberculosis, and arteriosclerosis, the Commissioner said.

Measles Invade Holiday Parties

The Campfire Girls of Grosse Pointe Park were told last September that Sue Richner's mother, Mrs. Cedric A. Richner, would entertain the girls at a Christmas party, since each mother was supposed to entertain the girls in some way during the ensuing year.

Sue and her mother were hostesses at this gala affair on Thursday, December 30, from 4 to 7 o'clock. As each girl arrived she received a large red grab bag with gifts inside of bottled toilet water and a leather book-mark with the campfire insignia on it. Also 4 prizes were given for the highest scorers in bingo. After singing and other amusements the girls gathered in the dining room for a baked-ham dinner. Each girl's place was marked with a miniature coke bottle (imitation liquid inside), with their names on them.

About 7 o'clock, Sue's brother, Bud, who is home from Michigan for the holidays, drove the happy girls home safely.

An hour later Sue began to break out with a rash on her left cheek! Her mother immediately thought it looked like the measles were coming on and there's a clash.

Several Pointe lassies have added their names to the list of brides-elect with the beginning of a new year. Mr. and Mrs. Harold E. Walton of Bishop road revealed the betrothal of their daughter, Julia Virginia, to George Stanley Shirk, Jr., at a small cocktail party on Thursday.

A man we know used to think that most people were bent on taking advantage of him. And so he was always trying to get even with someone. Then one day he had an idea. He singled out a person who had done him a good turn and "got even" with him. Today, he hasn't an enemy in the world.

Olson and Rummel Stand Out In Victory Over GPHS Team

Cleanest Game of Season Witnessed by Capacity Crowd of Students, Graduates and Parents; Hope for Repeat

By Fred Runnells

Grosse Pointe's varsity basketball team turned in its best game of the current season when it met defeat at the hands of the Alumni team, 45-28, in the first scheduled Varsity-Alumni game in the history of the school, before a capacity crowd of students, alumni and parents on Tuesday, December 28, on the local court.

From the beginning of the game the varsity showed it had no fear of the former Border Cities League champions. It carried the fight to the Alumni throughout the first half and was only four points behind, 19-15, at the halftime intermission.

Olson Stands Out

Had it not been for Bob Olson, currently playing for the University of Michigan, the Alumni would have been on the strait end of the halftime score. Olson racked up 10 of the Alumni's 19 points.

Johnny Rummel, now playing on the Hillsdale College team, connected for two field goals while Tom Willson, a member of the Kalamazoo College freshman team and Leroy Guaresimo notched the other field goals for the Alumni. Paul Grubbs added the odd point on a foul shot.

Scoring for the varsity in the first half was evenly distributed among the starting five with Sparky Farquhar and Rydberg garnering two field goals each. Vince Schoeck, the Blue Devils' biggest scoring threat, was held to three points while Spike Quirk and Barry Munro got one basket each.

Battle Is Tight

The third period saw the two teams battled on even terms until the last three minutes of the third period when Johnny Rummel began to hit his favorite shot from the side court, and the Alumni moved into a commanding lead.

At this point the varsity appeared to get a little panicky and its smooth floor play began to fall apart.

Coach Wermet began digging deep into his huge bag of tricks in an attempt to halt the Alumni, but the Alumni, being schooled in the Kernet fashion, deciphered the defense and continued to move ahead.

Allan In Heart Breaker

Jerry Allan's clever ball stealing trick finally took the heart out of the varsity. On two occasions he grabbed the ball and scored on solo jaunts down the court in the final period, much to the approval of the loudly cheering Alumni crowd.

Bayard Johnson and Lowery were the only varsity players who didn't register a point. However, it was Johnson's outstanding defensive play in the first half that kept the score as close as it was in the first half.

Made All Difference

Had it not been for Bob Olson and Johnny Rummel the varsity could have very easily chalked up a lopsided victory. Olson collected 12 points as did Rummel to tie for individual scoring honors of the night. Olson scored 10 of his 12 points in the first half while Rummel notched 8 of his 12 points in the second half.

Vince Schoeck led the varsity scoring attack with seven points and was followed by Spike Quirk and Sparky Farquhar with 6 points each.

Following the game, Principal Walter Clemenson congratulated members of both squads for the

fine display of sportsmanship and the clean way the game was played.

Very Clean Game

Only 19 personal fouls and 2 technical fouls were called by the Collins brothers who turned in an outstanding performance of officiating.

The game was the hardest fought game of the current season and in comparison to the Blue Devils' first two league games played this year against Royal Oak and Fordson was the cleanest game. Thirty-two fouls were called in the Royal Oak game and forty fouls were called in the Fordson contest.

This year's game was the "test game" according to Principal Walter Clemenson, who stated after the game "it seems to me that if there is this much spectator interest in this game we should have it each year during the holidays." This statement is not official and it doesn't mean there will be another Varsity-Alumni game next year, but it does prove a game of this type can be played cleanly, provide wholesome entertainment during the Christmas holidays for students, Alumni and parents, and not be detrimental to the high school squad.

The official attendance was not announced but it is estimated over seven hundred witnessed the contest.

Thanks Due Officials

Mr. John Barnes, superintendent of schools, Principal Walter Clemenson, Athletic Director Frank Banach and Coach Ed Wermet are the men responsible for the Varsity-Alumni game and should receive a basketful of congratulations for their wholehearted cooperation and efforts in making this game possible. Mr. Barnes should receive special mention because it was his word that made it possible to turn on the "green light" and set the wheels in motion to make the Varsity-Alumni game a reality.

Hitch Hikes 100 Miles to Play in Game

Johnny Rummel Has Wild Time Making Points in Time for Big Battle

Grosse Pointe's first scheduled Varsity-Alumni basketball game sent Johnny Rummel on a 100 mile hitch hiking spree the day of the game to join his Alumni teammates.

At 4:30 p.m. Johnny, who is a member of the Hillsdale College varsity basketball team, had just finished his third practice session with his college team. It was his plan to hitch hike to Jonesville and catch a bus for Detroit. Just as he arrived at the bus station the Detroit bus could be seen disappearing down the road. With the disappearing bus Johnny's hopes of playing in the Varsity-Alumni game seemed to disappear too. But with determination he polished up his thumb and started for Grosse Pointe.

Stops Empty Bus

Car after car passed him by but finally a chartered bus, making an empty run, stopped at a stop light. Johnny banged on the door. Finally the bus driver opened the door. "Will you give me a ride into Detroit," queried Rummel, "I'll pay you the bus fare." At first the driver refused saying "it was against company rules" but finally gave in to Johnny's pleading.

At Wyoming and Michigan the bus ride ended at 7:15 p.m. A taxi was hailed by Rummel who told the driver "there's an extra buck in it for you if you get me to Grosse Pointe High by eight o'clock."

On the trip across town the cab driver got a traffic ticket for speeding which delayed the dash five precious minutes and then when the trip seemed to be nearing a successful climax the cab ran out of gas in front of the Grosse Pointe garage for another delay.

Rummel walked into the locker room at Grosse Pointe High just as the Alumni were donning their warm-up jackets prior to the start of the game. He was in the starting lineup.

Bob Olson drove in from Ann Arbor the evening of the game after putting in two strenuous practice sessions with the U. of M. squad. However, he had his own car.

Vociferous Alumni

The Alumni cheering section of Earl Brabb, Bour Spurrier, Ted Mumford, Louis Champagne, Dan Beck and many more too numerous to mention here, came early and stayed late. Their cheers fairly brought the roof down. The entire Alumni bench was a scene of activity when little George Mantho scored his first basket of his career in a Grosse Pointe uniform. It came early in the last quarter.

Bob Olson's entire family, mother, dad and sister, were on hand to see Bob turn in a spectacular game. Dr. Isbey was forced to cheer for both the Alumni and Varsity. Both his sons played, Ed on the Alumni and Bill on the varsity. Tom Wilson's dad was beaming with pride when Tom took to the court. Former "Dads' Club" president Dan Beck grabbed himself a good seat a half hour before the feature game started.

Cass Town Hall Presents Odom

Captain "Bill" Odom, ace flyer and explorer of the skies, will fly into Detroit in his own plane to be the speaker to resume the Detroit Town Hall lectures at the Cass Theatre on Friday morning, January 7.

Ever since his boyhood in 1924, back on a Kansas farm, Bill Odom had wanted to fly and the war gave him the great opportunity. In 1941 he joined the RAF Ferry Command flying out of Montreal to England delivering planes.

After the destruction of the Burma road he shared in the greatest of air adventures "flying the hump." In 1947 he made his famous "record smashing round-the-world flight" - 73 sleepless hours and five minutes! Then in 1948 in an especially equipped plane he made a scientific expedition to China.

Captain Odom expects to make his next trip around the world - vertically over both poles - over the North Pole to Tokyo and then over the Antarctic to a South American port, in 4 hops of one day each!

He believes our rapid progress in the air is bringing more benefits to peace than to warfare. With his subject "The Future of Air Power" he tells how barriers of nationality, language and race will break down, and how universal good will and the establishment of unity will result from peace time flying services.

First Half Winner Subdued In St. Paul Bowling League

"Uneasy rests the head that wears the crown" is the old saying, proven true throughout the ages, and again in the St. Paul Bowling League when the teams swung into action in the second round of competition.

Sweeney's, winner of the first round, took a terrific beating in the second round when it dropped three points and to tenth place in the standings. Two weeks previous Sweeney's captured seven of eight possible points to win the first round by two points over the Ruprich team.

Currently leading the league with four points are the Furton, Van Steen, Van Becelaere and Gouin teams, which made a clean sweep on the first night.

A four-way tie for second place was created when the Reno, Walters, Allard and Lauer teams captured three points. Walters' move up in the standings came as a great surprise as this team trailed the entire league during the first round of competition. Odd as it may seem, the four

Two Reserve Teams Battle

Overtime Period Needed to Settle Dispute Between Red and Blue Squads

Two evenly matched basketball squads from Grosse Pointe High played an exciting 46-45 battle with an overtime period before the Varsity-Alumni game on Tuesday, December 28. The score at the end of regulation time was 44-44.

The Blue squad composed of Captain Alex Mann, Frank Schneider, Bruce Allen, Bill Rossiter, Jim Schoeck, George Alperwitz, Art Duffy, and Tom Patrick captured the game on a basket by Allen in the "sudden death" overtime period. Ordinarily a three minute period is played in case of a tie but the sudden death was used because the featured Alumni game would have been delayed too long.

The Red Squad

The Red squad was composed of Captain DuWayne Peterson, Luther Neeb, Bill Rupp, Tom Lamb, Ben Bray, John Tower, Ken LaBadie and Jim Davidson. The Red squad took an early lead and held it until the dying minutes of the first half. The score at the end of the first quarter was 14-10. The Blue team pulled up slowly and took a 21-19 lead at half time.

The third period looked as if the Blues would make the game a runaway as they held a 38-32 advantage at the end of the period. But the Reds kept plugging and tied the game in the last minute of play.

Misses Free Throw

Ken LaBadie had two free throw chances in the overtime for the Reds but missed the first one and made the second. The rules for the overtime say the first two points wins. This gave the Reds a 45-44 advantage, but Allen's basket decided the game. Peterson and Neeb of the Reds tied for high points honors with 11 each. Mann, Allen, and Schoeck of the Blue scored 10, 9, and 8 points respectively. The next reserve game will be Friday, January 7, at Monroe.

Hanson Chevrolet Annexes Top Spot in Club League

Four-Way Tie Broken with Victory Over Old Brick Inn; Tom Boyd Team Defeats Swishers by 24-19 Score

By FRED RUNNELLS

Hanson Chevrolet captured a one point, 37-36, thriller from St. Elizabeth when Bob Messmer sank a foul shot in the fading seconds of the game played at the Neighborhood Club Monday, January 3.

The personal foul called against Charlie Doemer wasn't the one that Messmer won the game on, but it was on the last of two technical fouls called as the result of Doemer's infraction of the rules.

Berates Referee

When Doemer's personal foul was called it was his fifth name to do bodily harm but Athletic Director, Desrocher whisked the referee out of the gym, leaving the St. Elizabeth players to cool off.

Reserves Intervenes

Following the game Doemer went after the referee with intent to do bodily harm but Athletic Director, Desrocher whisked the referee out of the gym, leaving the St. Elizabeth players to cool off.

St. Elizabeth held a commanding 23-11 lead at the halftime intermission but folded badly in the third period, allowing Hanson to get back into the ball game. From here on in it was a "battling royal."

Thirty-two personal and two technical fouls were called, 17 against St. Elizabeth and 15 against Hanson.

Verdonck High Scorer

George Verdonck of Hanson captured high point honors with 15 points. Bob Messmer and Bob Brown of Hanson and Bill Mel drum and George Carnegie of St. Elizabeth tied for second place honors with 10 points each.

Results of other games played during the week are as follows: Tracy Motors squeezed out a one-point 36-35 victory over the Swishers when Dick Schroeder sank a foul shot with one second to go in first game of the triple header bill on Tuesday, December 28.

East Side Sports swamped St. Elizabeth in the second game, 77-46. Fred Jackson of East Side Sports scored 31 points for individual scoring honors.

St. Clair Wins

St. Clair won its first game of the season when it walloped the Francois Bulldogs, 58-34. Ken Christensen of Francois scored 18 points for top honors in the final game of the night.

On Friday afternoon, December 31, St. Clair (Minor division) whipped St. Ambrose, 54-32. Bob 'Sailor' led the St. Clair attack with 23 points for individual honors.

Tracy Motors kept its winning streak intact by shellacking St. Paul, 55-26, in the first game of the triple bill on Monday, January 3. Tracy held a commanding 29-10 halftime lead.

Thrilling Finish

Red Mason netted one of his famous long shots with two seconds remaining in the game to give Old Brick Inn a 36-34 win over East Side Sports. The defeat was East Side Sports' first loss of the season.

Dan Malovich scored 15 points in East Side's losing cause for scoring honors.

Tom Boyd won his first game in two starts in the Minor division when he whipped the Swishers, 24 to 19, to create a four-way tie for second place.

The Tom Boyd outfit jumped into an early lead which it never relinquished, and held a commanding 16 to 5 lead at half time.

Clark McPhail led the Boyd attack with 10 points for individual scoring honors and Kirk Welch was high for the losses with 8 points.

East Side Sports "Five Old Men" surprised everyone including themselves when they ran the younger Francois Bulldogs into the ground to win their second game in as many starts, 46 to 33.

Lead Overcome

Francois appeared to be on its way to an easy victory in the first quarter and held a commanding 10 to 4 lead, but this was soon erased when the "five old men" turned on a sudden burst of speed in the second quarter and ran rings around their younger opponents to grab a narrow 19 to 15 margin at the half time.

Bud Malkavitch of East Side Sports captured high point honors with 15 points.

Leroy Guaresimo, who was by far the best player of the game, led the Francois attack with 10 points. It was Guaresimo's play under both backboards that kept the Bulldogs from being humbled completely.

St. Clair Defeated

In the final game of the triple header bill the classy looking St. Clair aggregation suffered its second defeat in as many starts when St. Elizabeth outscored its opponent, 46 to 36. The game appeared to be shap-

St. Ambrose Five Outclassed By St. Joseph Quintet, 59-35

By JOE FROMM

The St. Ambrose cagers were outclassed by a first division St. Joseph quintet Monday Dec. 27, in the opening round of the Annunciation Invitational tournament. St. Joseph led most of the way and in the fourth period turned the game into a lopsided affair and won 59-35. St. Ambrose is only a second division club.

The game was the first one of the season for the local St. Ambrose team. The players missed easy layup shots. St. Joseph had played four games previous to the tournament contest and had already polished its flaws.

The St. Ambrose attack was spearheaded by veterans Jim Burns and Joe Landry. Each player collected 11 points.

St. Joseph took the lead in the initial period and led 13-8. The score at the end of the half favored St. Joseph 26-16.

St. Joseph widened its margin to 38-25 at the end of the third period. The St. Joseph coach used his second and third stringers in the final period. With the score 54-33 and a minute-and-a-half left to play the St. Joseph coach sent in his starters in hopes of reaching the 60 mark but fell one point shy.

Kuhlein tallied 15 points for the winners to take scoring honors. Burns and Landry shared

the runner up spot with 11 each. Lanky Jim Brenner of the St. Joseph squad was close behind with 10.

Town Planning and You...

A Series of Articles by Mrs. Marion Holden Bemis

III. CAN GROSSE POINTE AFFORD NEW PARKS AND PARKWAYS?

When parks, parkways or other "aesthetic" improvements are contemplated by any municipality most taxpayers actually recoil, because they see the tax rate rising, and nobody likes to pay more taxes. However, we all pay insurance, and we need only look around us to realize that property values must be "insured" if they are to remain stable. Detroit is example enough of what happens without the insurance of planning and zoning to protect living values.

Actually Insurance
We could quote national authorities and examples in many cities to prove to the residents of Grosse Pointe towns that the purchase—before it is too late—of park and parkway sites is actually insurance of the best sort, because parks and parkways act as protection against blight and decreasing property valuation, quite aside from what they add to the living values of a community.

But let's take Westchester County, N. Y. which is more than 20 years ahead of Grosse Pointe in its park and parkway planning and performance. Why, can it be that we in the middle west are so much closer to the pioneer that it is still in our blood to cut trees instead of planting them. Are we still so unsettled, so "temporary" in this community, so anxious to move on to places made, (or kept), beautiful by someone else that we are completely uninterested in stabilizing our homes and our property values by improving our communities before it is too late? We have lived in the Detroit region since 1705—is it too soon to settle down, look around us, and decide to stay another two hundred years?

Many Similarities
There are many similarities between Westchester County and the Grosse Pointes; both are dormitory areas occupied by the families of men who work in the nearby city, and both therefore are dependent on the city; both are primarily residential; both have natural beauty, and the following sentences from Chapter IV, Vol. IX, Harvard City Planning Studies: "The Westchester County Parkways, about Westchester apply equally well to Grosse Pointe:
"The rapid growth and increasing density of population, attended by uncontrolled development of land, had led to the despoilation of many of the characteristic beauties of the region," and, "The general condition at the beginning of parkway development was one of congestion on the highways and lack of any adequate facilities for recreation."

Fascinating Story
The story of parkway development in Westchester County is long and fascinating, but since we are primarily concerned with the effect of this development on land values, let's look at a chart labeled "How the Park System has created wealth for Westchester County as shown by increase in total assessed valuation of taxable property." In 1923—the year before development of a park and parkway system began—the county's total assessed valuation was just under \$800,000,000; in 1924—even before the Bronx River Parkway was completed—property values had shot up more than \$100,000,000, and in 1931 had risen to \$1,800,000,000—one billion increase in seven years! Sorry we do not have today's figures.

Traffic Will Increase
Some of you will maintain that Grosse Pointe needs parks but not parkways, which might bring even more traffic into the area. Well—you'll have more traffic whether you provide for it or not, and it seems only common sense to decide where the main bulk of it should go, and then protect residential property from its noise and fumes by buying up vacant land as fast as possible along such through arteries as Jefferson and Kercheval—even Mack, which is pretty far gone already—and planting it to protective green "buffer" strips.
"The planning of the parkways is especially interesting, in Westchester County, owing to the endeavor to make the right of way blend with the normal landscape of the region. The Commission has its own nurseries and landscape staff both for new work and for maintenance. Owing to

the care taken in the selection and planting of material, the parkways have developed a pleasing maturity of form in the years since the beginning of the actual work."

Everything Blends In
You are all familiar too, with the attractive, unobtrusive, buildings in the parkways, the adequate, but inoffensive directional signs. As you drive to New York you have doubtless observed that beauty and convenience have been first considerations with the Westchester County Park Commission; six men who serve without compensation—as do your councilmen and plan commissioners.

"The fullest cooperation has been effected between the commission and the various cities, towns and villages during all stages of the work, with the result that the parkways are a contributing force in local development as well as in the county as large."

Problem of Government
I realize I am posing a problem of government, since we have nothing comparable to the Westchester County Park Commission in Wayne County. We do have a Wayne County Road Commission, however, composed of three men: Charles L. Wilson, chairman; Michael J. O'Brien and Prescott G. Brown, and requests for parkways must go to this Commission. It's a very powerful body with responsibility for building and maintaining county roads, and under it is a Forestry Division as well as a Parks Division which is following a Master Plan for county parks.

Roads over which the County Road Commission has jurisdiction in the Grosse Pointe towns include Jefferson and Lake Shore; Vernier; Kercheval to Fisher; Mack to the Macomb County line; Moross from Mack to Ridge; Vernier, a state road, is maintained by the Wayne County Road Commission under a special agreement. If a village or town wants to do the job with its own funds, it must still get permission from the County Road Commission, and maintenance can be worked out between the village and the commission.

Many Examples
Returning to the effect of parks and parkways on land lease values, I could cite chapter and verse for pages and pages with examples from many cities. Kansas City, for instance, put in its park and parkway system "at a time when its general funds were needed for existing governmental requirements and when its borrowing capacity was exhausted." They went ahead anyway, and after the park and parkway plan had been in operation for some time, "constructive real estate men... found that the difference in favor of boulevard real estate was a quarter of a million dollars more than the entire cost to taxpayers of all the parks and parkways embraced in the system."

What You Can Do
What can YOU do, if you favor a parks and parkway program for Grosse Pointe before all the vacant land is built up? Plenty of things, among them: LOOK at your town and its through-ways; TALK to your friends and in your organizations about the possibility of a park and parkway program to be included in a Master Plan for the five-towns. In this way, you help to prepare a "climate of public opinion" conducive to getting the thing done.
Incidentally, the best reference work on this subject is Vol. IX of the Harvard City Planning Studies: "Parkways and Land Values"—a volume with which every

councilman, plan commissioner—and especially a very realtor—should be thoroughly familiar.

Two Ways To Do It
So before you as citizens decide NOT to do the many things that need to be done to stabilize and beautify this intrinsically lovely section, think over what a city official in Detroit said the other day re: the city's capital improvement program: think of all the reasons why it CAN'T be done, or think out and propose the ways and means to GET it done!"

PackardBacking Television Show

Packard dealers of Greater Detroit will launch a weekly half-hour television show, starring George Scotti with "a new kind of variety entertainment," over WWJ-TV (Channel 4) from 8 to 8:30 p.m. Thursday, Jan. 6.

The program will be televised at the same time on Thursdays thereafter, according to Hugh W. Hitchcock, Packard's director of advertising and public relations.

Hitchcock explained Scotti would do pantomime impressions of popular recording artists, using the piano, solovox, novachord and celeste. There also will be some participation by audiences in the WWJ-TV auditorium.

Scotti, concert pianist and mimic, came to Detroit about two years ago from a professional career in New York, Washington, Philadelphia, Cleveland and other cities.

A native of Cleveland and 35 years old, Scotti attended New York University for two and a half years. Then, he decided a career of teaching music would be "too dull." He managed to get in on the end of vaudeville, playing at the Palace Theater in New York among other places. Two years with a classical orchestra followed.

The new Packard show will be produced by Walter Koste, with Dave Zimmerman as announcer. The show is being developed by the Detroit and New York offices of Young & Rubican, Inc.

Jewell Stindt and Marjan Duncan were top scorers for the G.P.A.C. team and did a bang up job despite the fact that Miss Muriel Kreski and Miss Alto Bruno—their standbys—were away on Christmas vacation.

152 V-8 "Horses" wrapped in a velvet glove of power!

● The instant your toe touches the Lincoln accelerator pedal—a message is telegraphed back to you—"here's a sensitive, boundless reservoir of power to whisk you away to destinations unlimited!"

Power is uppermost in importance in a car—especially a fine car. Without it—balance, beauty, visibility, luxury and comfort go for naught. For it is the engine that gives you mobility!

That's why the marvelous new Lincoln engine gives the Lincoln and Lincoln Cosmopolitan their incomparable character—places them in a position of leadership in the fine car field.

No other motor car manufacturer has ever built as many V-8 engines as Ford Motor Company and its Lincoln-Mercury Division:

The traditional quality born of this background

of experience is doubly, dramatically demonstrated in the new Lincoln engine—with its 152 V-8 "horses" wrapped in a velvet glove of power.

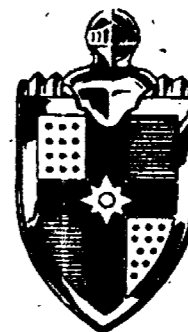

What does this mean to you? It means true confidence in Lincoln power—a dependability that establishes a new high level of performance. It means, too, greater safety through a new high degree of maneuverability in the pinches of traffic snarls or on the open road.

No words can describe power in a car—you must feel it. No words can describe intrinsic value—you must see it. No words can describe a new "drive" sensation—you must experience it!

Won't you arrange an appointment when you can "take the wheel" of a new Lincoln or Lincoln Cosmopolitan? When you do... a thrill awaits you!

Slice in Food Budget Demanded By Splurge of Holiday Spending

The most careful budgeters are likely to find their funds a bit low after the splurge of holiday spending. If you're in that class you'll find plenty of company among other residents and you'll be looking for some real bargains to cut down on current expenditures. The total amount of our bill may make us think there is no such thing as a bargain in food, but careful shopping will turn up a number of items that are relatively inexpensive. During the month of January the United States Department of Agriculture lists the following foods as plentiful, thus offering a good return for the money spent: fresh and canned citrus fruits, cranberries, winter pears, spinach, cabbage, carrots, potatoes, dried beans and peas, cheese, pecans, dried prunes and raisins, canned corn and peas, honey, peanut butter, fresh and frozen fish, oat and corn products. Most homemakers can think of a variety of ways of including most of these foods in their menus, but cereals seem slated almost exclusively for breakfast. There are few more appealing foods on a chilly winter morning than a bowl of steaming oatmeal topped with a pool of melting brown sugar and cream or top milk. That's a good starter for the day and a good starting point for using this nourishing food. Give variety to plain oatmeal by adding a cupful of raisins or chopped dried prunes, or half a cupful of sliced dates to the boiling water before stirring in the cereal. The Nutrition Service of the American Red Cross recommends oatmeal as a meat extender. It's a good source of tissue and blood building protein and iron and carries generous amount of the B-vitamins so the resulting dish is not only tasty but nourishing. Try these recipes on the family soon. GLAZED HAM BALLS One-half pound smoked ham, ground, 1/4 pound ground pork, 1/2 cup rolled oats, 1 beaten egg, 1/2 cup milk, 1/2 cup brown sugar, 2 tablespoons flour, 1 teaspoon dry mustard, 1/2 cup pineapple or apricot juice, 2 tablespoons vinegar, 6 whole cloves, 1/2 cup dark corn syrup. Combine meats, rolled oats, egg and milk. Mix until thoroughly blended. Chill. Shape into small balls and place in shallow baking pan. Bake in slow oven, 300 degrees F., for 1 hour. Drain off fat. Combine remaining ingredients in sauce pan and cook on top of stove until slightly thickened, pour over ham balls and continue baking for 15 minutes. Makes 6 servings. Serve the ham balls in a noodle or rice ring bordered with green peas or beans. For crispness add jellied tomato salad with shredded cabbage, celery and green pepper molded in it and finish the dinner with baked apples topped with a bit of ice cream. LIVER AND VEAL MOLDS One-half pound beef or pork liver, 1/2 pound ground veal, 1 medium sized onion, ground, 1 beaten egg, 1/4 cup catsup, 1 teaspoon Worcestershire sauce, 1 teaspoon salt, 1/4 teaspoon pepper, 1 tablespoon minced parsley, 1/2 cup milk, 1 cup rolled oats, 8 slices bacon. Cover liver with hot water, simmer for 5 minutes and drain. Grind liver and onion, using fine knife. Combine all ingredients, except bacon, mixing until thoroughly blended. Line 8 custard cups or muffin pans with slices of bacon and fill with meat mixture. Bake in moderate oven, 375 degrees F., 35 to 40 minutes. Remove from molds and serve at one. Makes 8 small molds. Tuck potatoes in the oven to bake shortly before putting in the meat molds, and later add a casserole of scalloped tomatoes. An assortment of raw vegetables or a tossed salad go well with this combination. Your favorite apple pie will be fine for dessert. Oatmeal makes delicious cookies and it's good in other desserts too. This orange torte is low in cost but high in taste appeal. ORANGE TORTE One orange, 1 cup raisins, 1 cup sifted enriched flour, 1/2 teaspoon soda, 1 cup brown sugar, 1/2 cup shortening, 1 egg, 1 cup buttermilk or sour milk, 1 cup rolled oats. Squeeze orange. Grind orange rind and raisins through medium blade of food chopper. Sift flour, soda, salt and baking powder into bowl. Add sugar, shortening, egg and orange juice. Beat for about 2 minutes or until smooth. Fold in orange rind and raisin mixture, the buttermilk and the rolled oats. Bake in greased 7x11 inch pan in a moderate oven, 350 degrees F., for 45 to 50 minutes. Serve warm with a topping of whipped cream or hard sauce. Makes 8 servings. Note: The shortening must be at room temperature so it will combine with the other ingredients.

National Guard Boosts Strength

The Michigan National Guard increased its strength 50 per cent in 1948 to complete two years of post-war reorganization with the most powerful citizen army in its history, according to Brig. General George C. Moran, The Adjutant General. The Guard has expanded from 5,482 officers and men last January to more than 8,500 at the end of 1948. Fourteen new Guard units were organized during the past year. There are 124 units now organized, including 15 Air National Guard units. These units are assigned to more than 40 different communities. More than \$6,000,000 in federal funds are being expended this fiscal year to finance the operation of the Guard's expanded organization. In addition, more than \$75,000,000 worth of uniforms, equipment, vehicles and arms have been distributed to Michigan Guard units. Guardsmen are receiving approximately \$1,500,000 annually for armory and field training pay. Some progress was made in 1948 in improving the Guard's housing problem through the acquisition of the Detroit Artillery Armory, a former war plant valued at more than \$2,500,000. Vehicle storage buildings were also completed at Ypsilanti and Monroe. Two additional storage buildings were started at Grand Rapids and Flint. Two new armories at Albion and Greenville were also leased. Major changes in organization and administration of the Guard in 1948 included: (1) inauguration of a new intensified three-year training program, (2) the reorganization of units of the 46th Division to correspond with the new hard-hitting Army structure, (3) the adoption of new grade titles for all enlisted men similar to those recently adopted by the Army, and (4) the authorization and assignment of enlisted administrative assistants to company commanders. Among the critical problems faced by the Guard in 1949 will be the defeat of the Gray Board's recommendation for direct federal control of the National Guard in peace time. Currently, the Guard is subject to direct federal control only in time of national emergency. The National Guard may be forced to fight for its very existence as a state controlled military force in 1949.

Santa Sticks to Reindeer

Rose Company, DeSoto-Plymouth dealer, 1833 East Jefferson, went all out in Christ-
mas display. Jefferson Avenue traffic watched Santa Claus and his reindeer ride an
array of new DeSoto and Plymouth cars. Santa apparently was unaffected by the sug-
gestion that the automobile might prove a faster means of making his rounds.

PERSONAL APPEARANCES

The glamor that made this New Year's Eve something extra special was exemplified by four of the Pointe's consistently and notably well dressed matrons . . .

MRS. CHARLES A. DEAN, JR., whose vivid dark beauty is striking in itself, seemed to glow even more in a dream gown of bright coral velvet. The skirt had yards and yards and yards of velvet to make it extremely full and the bodice was fitted, finished in a stiff, wide fichu of the velvet at back, from shoulder to shoulder. Mrs. Dean wore one of the first of the new red lilies making floral news at the Pointe this early 1949. Its coral toning blended with her gown.

As if MRS. GEORGE LACKEY wasn't already richly endowed with charm, the eve of the New Year found her wearing a "charm" gown . . . of spun champagne satin with a slightly below waistline jacket embroidered completely in gold charms studded in tiny topaz stones. The charms were secured to the jacket material and included miniature moons, stars, baskets, etc. The skirt of the gown was modishly full and fell in rich folds to floor length length.

Always the most fun . . . and the prettiest girl at the party . . . MRS. T. D. BUHL toasted the New Year in misty ice blue satin. The bal gown was strapless and the bodice top was finished in graceful multi folds of the satin. The skirt was smashing full and floor length and for other Mrs. T.D.B. gaily direct those purty eyes of yours over to the Counter Point column.

PILFERINGS

After talking to a few Grosse Pointe mamas this week and listening to what the boarding school set did to the house, we got out our childhood's "Bib Ballads," written by Ring W. Lardner (we've just now gotten to the age really to appreciate and enjoy it) and reprint it:

COMING HOME

Prepare for noise, you quiet walls!
You floors, get set for heavy falls!
Frail dishes, hide away!
Get ready for some scratches, stairs!
Clean table linen, say your prayers!
The kid comes home today.
For three long weeks you've been, O House,
As noiseless as the well-known mouse,
As silent as the tomb.
And you've stayed neat, with none on hand
To track your floors with mud and sand,
To muss your ev'ry room.
The ideal place for work you've been,
But soon a bedlam once again,
A mess, a wreck. But say,
I wonder will it make us mad
No, House. I'll bet we both are glad
The kid comes home today.

And from the same loved volume, isn't this the poem every mother and father mentally writes?

HIS WONDERFUL CHOO-CHOS

When I see his wonderful choo-choo trains,
Which he daily builds with infinite pains.
Whose cars are a crazy and curious lot—
A doll, a picture, a pepper pot.
A hat, a pillow, a horse, a book.
A pote, a mintie, a button book.
A bag of tobacco, a piece of string.
A pair of wubbas, a bodkin ring.
A deck of twos and a paper box.
A brush, a comb and a lot of blocks—
When I first gaze on his wonderful trains
Which he daily builds with infinite pains
I laugh and think to myself, "O gee!
Was ever a child as cute as he?"
But when he's gone to his cozy nest,
From the toil of his strenuous day to rest
And when I gaze on his trains once more
Where they lie abandoned across the floor,
And when the terrible task I face
Of putting each pullman back in its place,
I groan a little and think, "O gee!
Was ever a child as mean as he!"

Pointer of Interest

MRS. JULIUS HAASS OF CLOVERLY ROAD

By Kitty Carney

Mrs. Julius Haass is a Pointer of Interest for several reasons—her hobby, her home and her pet project. The hobby, a worthwhile one which she calls rearing, is that of preparing Braille manuscripts for the blind. Her large Italian style home on Cloverly road with its many handsome art pieces reflects her love for art, which she also carries out by her work as president of the Founders Society of the Detroit Museum of Art. Needless to say, the Founders Society is her favorite project.

While she was a Red Cross worker during the war, Mrs. Haass took up Braille, because she wanted to help out while she was at home. The pages which she did on a Braille typewriter were shellacked and bound at Red Cross headquarters, she explained, to become reading matter for blind veterans.

Continues Activities The war's close did not bring an end to Mrs. Haass' Braille activities, however. Finding that ex-servicemen were not the only blind persons needing help, she has continued to turn out manuscripts, including many books for the Detroit Library for the Blind. Mrs. Haass has been especially interested in educational experiments with a Saginaw girl, blind from birth, and has prepared a number of Braille textbooks for her use. Her average speed in

preparing the Braille, she believes, is six pages an hour.

Mrs. Haass started collecting art pieces at the age of seven. She still has her first treasure, a vase, which her father purchased at Pompeii. She is greatly devoted to primitives, and handsome pictures and old art specimens, to make any collector envious, grace the rooms of her home. Her favorite is a thirteenth century gothic French capital, the ornamental head of a pillar, which she has in one of the archways.

Love's Art Institute While Mrs. Haass speaks sincerely about her own art objects, many of which were gathered on European trips, she waxes eloquent on the topic of Detroit's Art Institute. "People have no

idea what is in the art museum," she contends. "It opens a whole new world to them from prehistoric times to the present . . . It is one of the very great museums in the world."

A board member for years, Mrs. Haass is currently president of the Founders Society. Detroit's museum, according to Mrs. Haass, who knows whereof she speaks, is considered among the 10 best in the world, and is one of the most beautiful in the country. She points to the gradually growing membership of 3,000 in Detroit's Founders Society, as compared with 17,000 members in the Chicago society.

Art Treasures Since many of Europe's old families are now giving up their art treasures, the Founders Society president is even more anxious to obtain new members and enable the museum to make more purchases.

Whenever Mrs. Haass travels to New York or other large cities, she carries with her a long list of art galleries which she visits in both official and social capacities for the Founders Society and for her own enjoyment.

FOR TOMORROWS

God of mountain, God of field,
God of love and battle shield,
Today the sun shines down upon your earth
Warming her very heart, and yet my own
Cold with the ice of fear for one I love
Will not be melted, strain though it does to trust.
God—dear God—grant that I may be
Drenched with the faith of prayers that tumble from my lips.
"Safe, keep him safe, day after endless day that we're apart,
Close, keep him close, in thought, in deed, in heart."
Can you hear my cry for strength in the scream of war-filled world?
Bestow on us, dear God, your mercy rare,
Grant us the years of tomorrow's we long to share.
Peggy Boyer

ETERNAL SONG

The silver reeds bend low
Beneath the rain,
And wind, that makes them sing
A low refrain.

So haunting to the ear
Yet oddly sharp.
The master hand has touched
A whistling harp.
Peggy Boyer.

VALENTINE

Though far too wise
For youthful capers,
You're a lighted fag
In my pile of papers.

You're the kerosene
To my kitchen fire,
Though we make epigrams
Of desire.

Still we can't act
Like two Apaches,
Maybe you're the spark,
But I'm safety matches.

Town Hall Books English Diplomat

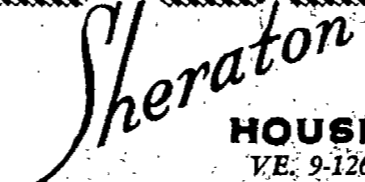

Richard Lloyd George, second Earl of Dwyfer, will be the speaker at Detroit Town Hall, Wednesday morning, January 12, at 11 o'clock in the Fisher Theatre. His subject will be "Outlook in Europe."

The distinguished British statesman is the son of England's famed war minister of World War I. He worked closely with his father during the Premier's political career, and this unusual background gave him a keen insight into the events that led to the second world conflict.

During the past two years, Richard Lloyd George has traveled extensively in Europe, gathering material for his American lectures. He is an informal and engaging speaker, and one of England's best liked diplomats.

Chic wool suits . . . that are just the thing for wear right now up till Spring. Blouses to go with your new wool suit or the pets already firmly established in your wardrobe. The wool separates are sale-priced and marked for clearance. You'll find better footwear, slings-backs, open or closed toes, in suede, reptile, leather and colors: red, navy, green, black and brown. All during the holidays party mood prevailed at ANTHONY'S SALON, with lovely ladies being coiffed for the season's brightest parties. Mrs. T. D. Buhl thought so much of the gay New Year's Eve hat, (red and silver and high) and the tiny horn she carried home from her appointment at ANTHONY'S that she donned hat and blew horn to greet 1949, at the party where she celebrated New Year's Eve. Needless to say, the colorful hat sat prettily on a perfect Anthony hairdo.

The newest and best way to "stay away from cigarets" is with one of the De-nicotea holders to be had at GROSSE POINTE DRUG CO. Really filtering the smoke, protecting teeth and fingers from stain, giving all the satisfaction of cigaret smoking but taking away most of the harmful tars and oils, the holders are being used by both men and women. They are made by Alfred Dunhill, than whom there is no whomer. The men's holders come in shell, red, black or white and the ladies' holders are in the same attractive shades. You'll really feel better once you smoke the De-nicotea way!
