Backstage View of 'Kercheval on the Hill'

This picture taken from the Richard School playground shows how the newly improved Farms municipally-owned parking lot is benefiting the businessmen and shoppers in this fast growing district. Two walk-throughs provide easy access to Kercheval from the lot. The paved driveway between the News building and the new supermarket under construction is being dedicated for pedestrian traffic only, with all vehicles barred. An attractive garden walk-through has been created on the other side of the News building by Edward Pongracz, Jr., jeweler. Many of the stores in this shopping area are so new they are getting ready for their first Christmas season. —Picture by Fred Runnells

Two Crashes Reported on Lake Shore

Lieut. Gov. Connolly Falls Asleep at Wheel; Speeder Hits Pillar and Demolishes New Car

Two accidents happened within a single hour on Lake Shore road in the early hours of Thursday, November 17. Lieutenant Governor John W. Connolly was driving alone north on Lake Shore when he momentarily fell asleep at the wheel and his car went over the safety aisle causing him to receive a cut on his cheek. He was taken to Saratoga Hospital where his injury was treated.

Runs Into Pillar

An hour later a car driven by James Langan, 21, of 513 Eastlawn, ran into a iron pillar in front of 900 Lake Shore and was demolished. Larry Reume, 28, of 8305 Dorchester, a passenger in the car suffered dislocation of two vertebrae and was removed to Saratoga Hospital, where it was later reported he was recovering.

Others Not Hurt

Langan and another passenger in the car, Jack Sherman, 21, of 476 Coplin, were uninjured. The car was new, having been driven only 600 miles and is reported by the police to be a near total wreck. The car was driven at a high rate of speed.

Probe Mystery Of Broken Leg

Can a man break his leg and not know it? This is the interesting query with which the Grosse Pointe Woods police are wrestling.

On the night of Nov. 17 as one of the employees of the Bar-B-Cue on Mack left the place, he saw a man leaning against a pole. Thinking it was merely a case of a little too much drink, he at first paid no attention.

A moment later however, the man called to him and said he could not walk. The Woods police took him tenderly to his home at 2050 Kenmore and the next morning he could not get out of bed and complained of excruciating pains in his leg.

Dr. Clifford Loranger was called in and at once said the patient had a badly broken leg. The man, Arthur Gerterhouse, aged 56, could advance no information on how or where he had broken it.

Judge Upholds Park Police In Suit Brought by Driver

Park Village Attorney Pierre V. Heitler won a decision for the village before Circuit Court Judge Ferguson last week on the right of the police to stop a car driver on the highway for the examination of his brakes.

Last summer Ralph C. Martin of St. Clair Shores was stopped by Park Patrolman Stanley Johnson for speeding. At the same time the officer demanded that he get out of his car in order that he might examine his brakes.

New Main Library Building Urged as Portion of School Board's Enlargement Plans

Friends of Library Plan to Circulate Petitions Demanding Inclusion of New Structure in Program Being Formulated by Educators.

The Friends of the Grosse Pointe Public Library held their annual meeting and reception for the new library director, Robert Orr, and Mrs. Orr on Tuesday November 15. A large and enthusiastic crowd turned out. The meeting was held in the Main Library at the Pierce School building.

Mrs. Lloyd G. Hooker opened the meeting by calling on Miss Melitta Roemer, secretary, for her annual report. This was followed by the annual report of Mrs. Hubert Goebel, treasurer. Mrs. Hooker then presented a report of the board of directors covering the past year.

Directors Elected

The chairman of the nominating committee, Mrs. Alfred Whitaker, presented nominations for new directors, as follows: Mrs. Fred T. Murphy, Kenneth Moore, Mrs. William Young, Mrs. Sterling Sanford, and Mr. Charles Barocelli, Jr. When no nominations were received from the floor, the group formally approved their election.

The new library director, Robert M. Orr, gave the group a report on his background. He drew a picture of library development from the time when books were chained to shelves to the current emphasis on getting books into wide use among adults and children.

Pays Tribute to Staff

Mr. Orr paid warm tribute to his staff, introducing them to the group. He discussed the library's service and its future, emphasizing that the staff is giving the best possible service within its limitations, and would continue to do so.

The director praised the Rotary tool collection, the film and record collections, and the fact that the library has over 10,000 active users, 6,000 adult, and 4,000 children. He indicated that service to the Park and City is good, to the Woods inadequate, and to the Farms and Shores very poor.

For the future, Mr. Orr advocated the following as necessary for good library service: a new Central Library; a North End Branch; larger book collection and staff; and erection of striking signs to identify library agencies.

Adopt Resolution

In the general discussion following, the group strongly indicated its appreciation of the need for a Central Library. A resolution was adopted authorizing the Board of Directors of the Friends of the Library to take immediate and vigorous action.

Martin wouldn't get out, so the officer took him out. After a brief test of the brakes the officer drove the car around the Park station for a more thorough examination of the brakes. They were found to be O.K.

In due time Martin was fined for speeding and then set up a counter action against the village alleging that the officer had no right to forcibly hold him up for a brake examination.

Judge Ferguson's ruling established that he had.

Police Need Help to Halt Sex Crimes

Ask Parents of Children Who Have Been Molested to Furnish Full Reports

Chief Arthur E. Louwers of the Park police requests the parents of young children who have been molested or accosted by men, to let him know all the details of the incident. The fact that Mabrey, who kidnapped the little Kuechenmeister girl, has already confessed to two other similar attempts, has moved the police to weave a chain of evidence around this fellow that will make it difficult for him to plead an irresistible impulse when drunk.

Lived Close to Pointe

Mabrey, who lived and moved around the Alter road area may be the one who has been reported in several cases of accosting in that region, which directly adjoins the Park section of the Pointe.

The Chief also suggests that parents of children who have ever been approached in other sections of the Pointe report the circumstances to the chief in their section.

Seek Evidence

The intention of the local police is to make a thorough investigation of all such cases to build up a mass of information under which they can approach such characters with a warning that will curb the practices of these degenerates.

Rubbish Yields Misplaced Cash

Soon after the rubbish collectors had called at her house on Nov. 16, Mrs. Frank H. Neiden, of 735 University place, discovered she had thrown a paper bag among the other waste which contained a sum of money.

She notified the police who had the rubbish collectors carefully search through their latest collection from that area. They found the bag which contained \$35.

Youth Collapses While Bowling

Charles Kneckel, aged 23, of 11214 Elmwood, Detroit, collapsed of a heart attack while bowling in the Grosse Pointe Woods Recreation on November 14.

The police took him to the home of a friend living nearby and he responded to restoratives and was hence taken home. At last report he was doing nicely.

DECK LIGHT STOLEN

Albert Couvreaux of 420 Moross road, reported to the Farms police on Nov. 14, that someone had stolen the rear deck light from his 1948 Plymouth while it was parked alongside his house during the night.

BITTEN ON NOSE

Lawrence Burg, of 14311 Kercheval avenue, was bitten on the nose on Nov. 15 by a dog owned by William Kerber of 61 Merrilweather road.

Health Department Ordered to Vacate Quarters Over Bank

Township Officials Upset Over Notice to Move Offices; Financial Institution Needs Room to Expand Its Facilities.

The Grosse Pointe Bank is going to enlarge its quarters in the near future. In a notification the bank gave to the Township Health Department under date of November 16 to vacate its quarters as soon as possible, the bank says this step is necessary to enable the bank to keep pace with its growth and to better serve the needs of its customers.

It intends to take over the quarters now occupied by the Health Department on the second floor facing Rivard boulevard. Its bookkeeping department will be located there.

To Let Contract

Vice-President William DeBaeke said on Monday that the contract for the alterations has not yet been let, but will be shortly.

Supervisor Carl Schweikart of Grosse Pointe Township, which carries on the health service for the Pointe, is deeply concerned by the situation. It will be impossible, he says, to get along without quarters, similar to those used in the bank and he is in a quandary where such quarters can be obtained here on such short notice.

"Until such time as the County is definitely ready to assume this service," says Mr. Schweikart, "or another service has been set up by the joint action of the Pointe communities, the health and safety of the people of Grosse Pointe would be imperiled and particularly the physical well-being of the school children would be placed in jeopardy."

Has Four Offices

The Health Department occupies four offices over the bank, for which it pays the bank \$150 per month. These are offices for Dr. Thomas S. Davies and his executive assistant, Miss Lange, a waiting room and secretary's office, the clinic and the fourth for storage and supplies. The Township has its regular offices in the Park Municipal building and these are fully occupied with no room for the displaced health offices. It pays \$200 per month for these offices to the Park village.

Promotion Given To Park Fireman

Pending the receipt of a complete report from the Civil Service Commission on the recent promotions and additions to the fire department, which has led to a bitter disagreement within the Commission, the Park Council at its meeting on Nov. 14 recommended the promotion of William B. Grant to the position of Fire Lieutenant. Lieutenant Grant's promotion had not been questioned in the sessions of the Civil Service Commission.

He is no relation to Karl E. Graul, one of the three Civil Service Commissioners.

DOOR LIFT MOTOR BURNS

A fire which started in the motor of a door lift at the home of William T. Barbour of 43 Old Brook Lane on Nov. 17, was extinguished when Farms Patrolmen La Ponsa and Van Tiem pulled the fuse.

Season's 17 Cases of Polio Set New Record for Pointe

The October report of Dr. Thomas S. Davies, Grosse Pointe Township Health Commissioner, reveals that six new cases of polio were reported in the Pointe area during the month. With two additional cases reported on November 1, the total number of Pointe cases this year reached 17.

This is 10 more cases than have been reported here in any other season. There was one death, that of James Wade, a Grosse Pointe High School student.

Dr. Davies pointed out that the polio season has been unusual from several angles this year. More adults have been afflicted than in previous years. The disease has shown a tendency to reach epidemic stages at times, then die down and then flare up

Commission Agrees That Frequent Overflows of Storm Water Do Not Pollute Supply

The St. Clair Sub-Committee of the Regional Planning Commission held a meeting at 1:30 p.m. Nov. 18 in the Memorial Center at which the chief subject of discussion was the drainage and water pollution on the St. Clair, Grosse Pointe and Detroit water fronts.

The meeting was attended by health representatives and sanitary engineers from St. Clair, Grosse Pointe, Detroit, Highland Park, Hamtramck and East Detroit. William R. Harper, District Commissioner from Macomb County was also present.

Pass Resolution

The general consensus of the meeting was expressed in the following resolution which was unanimously adopted:—

BE IT RESOLVED, that the members of the Lake St. Clair Sub-Committee on Drainage and Pollution firmly believe that the infrequent overflow of combined storm water into the latter, rivers and streams are not considered dangerous or particularly detrimental to the public raw water supply for filtration, recreational boating, bathing, or fishing, and

WHEREAS, during the periods of the year the flush of combined storm flow sewers are very infrequent, as compared with the constant outfall of sanitary sewers, which are the major sources of river and lake pollution; and

WHEREAS, this committee urgently recommends that all sanitary outfall sewers discharging into the lakes and streams be permanently removed or properly treated, subject to the requirements of the health authorities, and that the treatment of combined storm water be indefinitely postponed, pending results of sanitary sewage elimination.

NOW, THEREFORE, BE IT RESOLVED, that this committee has presented to the Regional Planning Commission this request and recommendations and that the matter be referred to the proper controlling authorities and to the various committees and sub-committees on water, drainage and pollution in the respective areas.

Detroit Agrees

It was significant that the Detroit representatives at this meeting also voted for this resolution. It has been the contention of the Detroit Water Board that the drainage from the Parks, Farms and City contributed to the pollution of the water at the Detroit intake. This was the basis of the plan to divert the outflow from Fox Creek in times of high water down to the Conner Creek outlet.

The gist of this resolution is that this overflow does not dangerously pollute Detroit's water and should greatly strengthen the position of the Grosse Pointe communities in opposing this project which would involve a financial burden on them of more than \$5,000,000.

Accident Caused By Ignoring Sign

An accident occurred at McKinley and Charlevoix at 11:13 a. m. on Nov. 19 when the driver of a car failed to stop for the stop sign. Louis Burton, Jr., of 3315 Hudson, driving south on McKinley, collided with a car being driven east on Charlevoix by Mrs. Hildegard H. Eppinger, of 338 Mt. Vernon.

Burton accepted the blame for the crash, which did damage estimated at \$50 to the Eppinger car and at \$15 to his own.

Truck Hits Parked Car Turning on Kercheval

A truck owned by the Long Cartage Company and driven by John Long, backed into a parked car near the Punch and Judy Theater while the truck was attempting to turn around on Nov. 15.

The car, a 1949 Oldsmobile owned by Harold Lawson of 361 Elliott street, East Windsor, suffered damage estimated at \$50 to its left rear door.

New Parking Lot Relieves Congestion in Farms

Another view of the municipally-owned parking lot in the Farms business district, taken looking north towards Ridge road. Drivers using the lot save the fee exacted by the parking meters on Kercheval and have easy access to the stores and offices through two walk-throughs located on either side of the NEWS office, located in the middle of the business area.

A.A. Speaker Tells Students About Evils of Strong Drink

By PATRICIA MARX
Grosse Pointe High School
Journalism Student

"In twenty years, twenty of you will be alcoholics," predicted a speaker from Alcoholics Anonymous in Grosse Pointe High School's assembly, Friday, November 11. "The inevitable end for a percentage, is, of course, Skid Row."

Even though his father was addicted to strong drinks, and he had this example before his eyes, the speaker, who prefers to remain anonymous in print, didn't learn from it.

"I decided I could drink within reason. It was just too bad for the old man, he couldn't take it," explained the speaker. "I was a social drinker, but I always had to have one more drink than the average person got."

"At first, two drinks brought the ruddy glow, then four, then six; soon every time I took a drink I got drunk," he said. "I got fired. In a period of ten years I had forty jobs, and each one lower on the scale."

By the time he began to drink steadily, he was married and had three children. The scorn of his children, the aversion of his wife, and the fact that he had no friends finally brought this former alcoholic to his senses. He joined Alcoholics Anonymous and hasn't had a drink for twelve years.

"We of Alcoholics Anonymous only concern ourselves with the problem drinker, the compulsive drinker, the alcoholic. We are not politicians, reformers, or prohibitionists," the speaker emphasized. "We sell the most intangible of the intangibles, a mental and spiritual idea."

To rehabilitate the alcoholic, Alcoholics Anonymous has a program of twelve steps. The speaker pointed out some of them, as having to admit you are licked, trying to live the way God wants you to live, continuing to check yourself daily on the way you are living, finding help in prayer and meditation, and carrying the message to other alcoholics.

"Alcoholism is a progressive, fatal illness," the speaker stated. "There are two ends, either early death or insanity. It's your choice."

Woods Planning For Open House

The Woods Council at the meeting on Nov. 15 named Dec. 10 and 11 as days for an open house inspections of the enlarged quarters in the Municipal Building.

The Fire and Police quarters, executive offices and the council chamber have all been enlarged. The cost, aggregating \$38,000, was provided for in the last bond issue of the village.

Kidnapper Used Stolen Park Car

A car stolen from in front of the property of C. E. Mercier at 1255 Buckingham during the period of the hectic hunt for the kidnapper of Karen Kuechenmeister on the night of November 14, and later found at Kercheval and Alter road, is believed by the Park police to have been the identical car in which Allen B. Babrey, later confessed kidnapper, made his quick getaway after he had abandoned his own car in front of 1372 Balfour.

It was here that the Park police took several quick shots at him as he was fleeing on foot, but they were principally concerned with the safety of the little girl. They radioed her safety to police quarters at once as soon as she was found unharmed.

Mabrey a few minutes later aided his quick apprehension by his telephone message to the police, making a phony report about his having been held up and robbed.

'Possums Join Gouletts' Zoo

Chief of Police Walter Goulett of the Woods announces two new additions to the collection of birds and animals which he and Mrs. Goulett have been feeding. There is a considerable cove of woods in the rear of their home at 1464 Brys drive and a sizeable collection of birds, squirrels and rabbits have been profiting by the food which the Chief and his wife have been putting out for them.

Recently they discovered a possum in their private menagerie and a night or two later they saw a second one. Since then the two have become members in good standing of the semi-domestic animal family. The chief says the possums have become quite tame and are growing fat and friendly under their care.

Two Bags Stolen From Jacobson's

Manager John Hannan of the Jacobson Store phoned the City police at 2:25 p.m. on Nov. 16 that they had had a robbery of two bags, aggregating \$27.95 in value.

The police learned that a woman customer had been in the store to return a bag. This was done and her account was given credit.

Immediately after she left another woman came in and made a minor purchase, for which she paid cash and left. Right after she left the clerk found the returned bag which had been lying on the counter was missing, and also another bag on a counter to the rear.

Barry Salton Completes Training in Caribbean

Barry Salton, seaman, USN, son of Mr. and Mrs. F. P. Salton of 1260 Maryland avenue, recently returned to the Naval Amphibious Base, Little Creek, Va., as a crew member aboard the patrol craft USS 877, having completed a refresher training period in the Caribbean Sea.

The exercises involved five weeks of extensive battle drills and war games climaxing with a final battle problem. During the exercises the crew members were afforded an opportunity to visit Port-Au-Prince, Haiti; Kingston, Jamaica; and Guantanamo Bay, Cuba.

Barry, who entered the Naval service Oct. 7, 1947, received his recruit training at the Naval Training Center, Great Lakes, Ill. Before entering the Navy, he attended Grosse Pointe High School.

In the case of Hildebarde Andries Verwiebe, 6028 Whittier, charged with reckless driving at Charlevoix and Three Mile, complaining witness refused to sign complaint and the case was dismissed.

Phyllis R. McCarthy, 918 Nottingham, charged with making improper turn at Jefferson and Beaconsfield, resulting in an accident, pleaded not guilty and on further examination the case was dismissed.

Church Christmas Fair Set for November 29

Checking plans for the St. James Lutheran Church Christmas Fair to be held next Tuesday in the church building, McMillan road just off Kercheval, are, left to right: Mrs. Laforet, general chairman; Mrs. George Kurz, wife of the pastor and head of the Christmas decorations booth; and Mrs. Louis Carbone, publicity chairman.

B. and E. Reported At Farms Home

A breaking and entering was reported to the Farms police on November 15 by Mrs. R. J. Purdy, whose family moved on Nov. 17 into the home at 183 Beaupre road.

Someone gained entrance through a basement window, and apparently left the same way. An unsuccessful attempt was made to force the door at the top of the basement steps. Some articles which has been moved into the basement were not molested. The door was considerably damaged.

INVADED BY PHEASANT

The home of Mr. and Mrs. William Droll of 2619 Williams in the Farms was invaded by a cock pheasant which crashed through both the storm and permanent windows of their bedroom Sunday Nov. 6. It then crawled away and hid under a table.

Installation of Parking Meters Produces Queries

Some queries have arisen as to the proper position of the car with respect to parking at the new meters recently installed on Kercheval between Fisher and Muir roads. One woman inquired of a store in the neighborhood whether she should drop her coin in the meter at the front or rear of her car.

The instruction of the Farms police is that the front fenders of the parking car should be as nearly flush with the meter at which they are to park as possible, but should never go beyond that point. This leaves the maximum distance in the rear of the car in which to back prior to turning into traffic.

A parker may of course use a meter on which the time limit has not yet expired. The dial will show with reasonable accuracy how much time is left.

David T. Roney's On Honeymoon

Justine DePetris and Bridgroom Leave for Cruise After Their Wedding in St. Paul's on the Lake; Reception Held at Grosse Pointe Yacht Club.

The David Trombley Roney will be back from their Jamaica wedding trip in time for Christmas dinner in Grosse Pointe. The bride is the daughter of Mr. and Mrs. Vincent R. DePetris of Hampton road and the bridegroom is the son of Mr. and Mrs. Edward C. Roney of Iroquois avenue.

Their wedding was solemnized last Saturday morning in St. Paul's on the Lake at an 11 o'clock ceremony with the Rev. Father Charles Parrish officiating.

Vases of white chrysanthemums, snapdragons and callies were used at either end of the altar and cybotium ferns decorated the chancel.

Justine, who was given in marriage by her father, wore a renaissance gown of candlelight satin with deep pointed collar and a long train finishing the full skirt. Her illusion veil was applied to a flat cap of rose point and duchesse lace. In her arms were white orchids intermingled with stephanotis and ivy.

Mrs. David J. Tindall Jr., sister of the bridegroom, was matron of honor in a gown which was repeated in the bridesmaids' costumes. It was a classic frock of Victorian green satin falling floor length. A Juliet of the satin was worn on her head and she carried rubrum lilies and pink carnations.

The bridesmaids included two other sisters of the bridegroom: Virginia and Peggy Roney, and Mrs. John B. Ford III, Caroline White, Veramae Adams and Mrs. Charles R. Salisbury.

Edward R. Roney Jr. was his brother's best man and bridesmen were Thomas and Robert Roney, also brothers, Bernard A. Clark Jr., Robert G. Fisher Jr., John W. Anhut, H. Richard Coffey, Stanley J. Renouf and Daniel J. Tindall Jr.

Mrs. DePetris wore wistaria blue crepe with a matching felt hat trimmed in bronze beading and pinned orchids to her purse. Mrs. Roney, for her son's wedding, wore a Coquette model with a bronze beaded collar on a cypress green crepe semi-fitted coat over a V-necked crepe gown. Pleats at the side of the gown were held in place by green bronze beads and her Omar Khayam chapeau of black velvet was trimmed with chenille veil and a single rose in front. Bronze pink orchids were caught to her bronze beaded bag.

Mr. and Mrs. DePetris were hosts at the reception and wedding breakfast in Grosse Pointe Yacht Club following the church service.

When the couple left on the first lap of their Jamaica wedding trip, the new Mrs. Roney was smart in a green silk traveling dress under a green tweed coat.

Upon their return, Mr. and Mrs. Roney will be at home in Lake Shore Village.

The newly married Mr. and Mrs. William A. Paterson are having their first Thanksgiving dinner together today in New York with their friends, Mr. and Mrs. John Fox of Park avenue.

Mr. Fox came out to the Pointe to be a groomsman in the wedding party when Nan Flanders, daughter of Mrs. George E. Flanders and "Pat" Paterson were married last Saturday morning in St. Ambrose Church.

It was at 11:30 o'clock that the charming bride took the arm of her brother, George E. Flanders Jr. to speak her wedding vows. She wore a gown of off-white silk net embroidered on imported Breton lace over satin designed to fit closely to just below the knees, where a burst of fullness graduated into the formal train. Her wedding dress had sweetheart neckline and sleeves were long and fitted. A veil of matching lace fell from her bridal head-dress and was finished in three tapering points just below finger tip length.

Nan carried white orchids and Stephanotis with streamers of ivy.

Mrs. Donald R. Spencer was her sister's matron of honor and her gown of silver gray tissue faille had Cowl neckline, brief sleeves and fell in unpressed pleats to ballerina length. She wore a tiara of cinnamon red carnations and she carried an arm bouquet of the same flowers.

The bridesmaids' gowns and flowers matched those of the honor matrons. They were Joanne Gay and Jeanne Milner.

"Pat", son of the late Mr. and Mrs. Walter Paterson, was assisted by John S. Kilner as best man. Ushers in addition to Mr. Fox were Arden Yinkley of Wilton, Conn., John W. Hoag Jr. and Walter B. Flanders, another brother of the bride.

Mrs. Flanders was in caramel crepe for her daughter's wedding. The frock, a lovely one, was trimmed in bronze beads and seed pearls. Completing her costume she wore a chocolate

brown velvet hat and orchids were pinned to her bronze bag. After the church ceremony guests attended the wedding reception at the home of the bride's mother on Barrington road. The receiving line formed in the living room of the gracious home where smashing white mums banked the fireplace before which they stood.

The bride's table, centered by the double tiered wedding cake (which was trimmed with fresh white bridal flowers, was decorated with low bowls of white flowers and silver candlesticks held ivory tapers.

For traveling, Mrs. Paterson chose a dressy suit of black velvet with which she wore a black velvet cloche and black velvet slippers. Following their wedding trip to New York and Wilton, Conn., the young couple will make their home in Vernier road here at the Pointe.

Isabel Seymour Weekends Here

Isabel Seymour has arrived from Trinity College in Washington to spend the Thanksgiving holiday with her parents, Mr. and Mrs. Bartholomew A. Seymour, of Edgemont Park.

They were joined there by Isabel who was in Plainfield, N. J., playing in the Southeastern Hockey Tournament last Friday. She is a member of Trinity's varsity team.

Adding to all the excitement, Isabel had a birthday anniversary Saturday and that eventful day was celebrated with her parents. Also in the group at Atlantic City were Mr. and Mrs. James Fitzgerald, who were at-

Pointe Spirit and Aid May Return Symphony

Pointe Workers Giving All Out Support to Women's Group in Its Efforts to Give Detroit Orchestra; John Scripps Sweeney III in Concert, Nov. 30.

Music is looking up if you view the situation from Grosse Pointe where a great and busy contingent of women (and the men, though in less organized fashion) are taking up this matter of a "Detroit Without a Symphony" and doing something about it!

While they work on the General Theme, they find time to support musical events being offered hereabouts. For instance there is great interest in the Pointe's John Scripps Sweeney III and his Nov. 30 appearance in Music Hall with the Faculty Symphony Orchestra.

The orchestra will be directed by Homer LaGasey, conductor. This orchestra, now in its seventh year, is a full orchestra with a personnel of 91 members (of whom 55 are teachers in Detroit public schools). The orchestra has won increasing prestige through the years and its incentive is the members' love of playing serious music on a mature level in a complete symphonic organization.

Mr. Sweeney will play the Concerto in A minor for piano and orchestra by Grieg. At the age of seventeen the artist made his first important public appearance when he played with the Detroit Symphony Orchestra. After serving in the Navy he returned to his musical studies and for two years was pianist of the Detroit Symphony.

This Fall he made an extensive concert tour through the middle west and is scheduled for another such series next Spring. In early February he will give a concert with Willard Tressel, violinist, in the Rackham Auditorium in an event sponsored by the Michigan Real Estate Association for its Educational Fund.

Mrs. Horace E. Dodge again came to the assistance of cultural Detroit. The Women's Association to the Detroit Symphony Orchestra has announced her gift of \$10,000, enabling them to extend the children's concert series.

Mrs. Fred T. Murphy, chairman of the children's concerts, said that the great gift helped make it possible to increase the number of concerts the Detroit Symphony will play for Detroit school children.

The concerts are scheduled for Dec. 15; Jan. 12, and 19; Feb. 9, 16 and 23; and March 9 and 16. All will be played in Masonic Auditorium with Valter Poole conducting.

In Grosse Pointe, the Morning Musicales have reached new heights in importance and popularity. Started five years ago by Mrs. Frank W. Goldie, when the gasoline shortage made trips to the downtown auditoriums impossible for many musical patrons, the Musicales are being held this Winter at the Country Club.

A luncheon follows the musical morning, attendance at which reads like the "old list" when Orchestra Hall was in its hey day and music circles were thoroughly gentle.

The next such musicale takes place Dec. 1 when the artists presented will be Nina Minchen Mesirov, pianist; Fritz Siegel, violinist and Ennio Bolognini, cellist.

Party Honors Son's Fiancee

Mrs. Margaret Simonel invited guests to her Haverhill road-home Saturday night to meet her son Emile's fiance, Charlotte Shilling, daughter of Capt. Charles W. Shilling, U.S.N. and Mrs. Shilling of Washington and Arlington, Va.

Mr. Simonel and Miss Shilling, who will be married Dec. 28 in the Naval Chapel, Washington, D.C., are presently students at Oberlin Conservatory of Music in Oberlin, O.

Oldest and Newest Merchants

Arthur L. Paselk, the first merchant to commence construction of a shop in the new Kercheval on the Hill business district will soon mark 10 years at 73 Kercheval. He is shown here extending greetings to Margie O'Neill Lundy who with her partner, Mary Brown McGregor, have just opened the Hill's newest shop, Mary Lund, Inc., at 117 Kercheval. "It was a pretty lonesome spot around here when I came along and the first to join me was Mr. Denler, the decorator," Paselk said Monday.

Thanksgiving ... Then and Now

It is a far cry from that first Thanksgiving offered up on the rocky coast of New England a little more than three centuries ago by that God-fearing band of men and women, to the Thanksgiving of today, when the 150,000,000 people of the most best nation on Earth give thanks for the unparalleled abundance which they are sharing with the less fortunate peoples of other lands.

However much we may rail at the follies of governments and leaders who have brought this suffering upon their people, we are conscious that there are hungry and cold men and women and children who are the heirs of this folly and must be helped.

Never before in all human history has this spirit of thanksgiving been exhibited on such a gigantic scale as today. All of the outpourings of America's abundance, from the simple packages of food and clothing sent to individuals abroad to the mountains of materials and the billions of treasure we are sending out, are but the direct reflection of the spirit which first had birth in the days of our beginnings.

This happy land is giving concrete expression to the sentiment of gratitude that was first spoken by the New England Pilgrims. The thankfulness for survival which they ascribed unquestioningly to a Heavenly Father, is being translated almost unconsciously today in the great mass of materials we are forwarding to Europe and to the continents of the Earth.

Our gifts for temporary emergency needs are only a minor part of the help we are giving. The vast sums we are making available to people of other lands are advanced that they may revive their own production and become self sustaining again.

The whole process stems back to that original bounty credited to an All-Wise Creator for the material things needed for our own sustenance.

This spirit is one of the finest growths in the entire story of the race.

Those first simple outpourings of thankfulness have been transformed into a world crusade for human betterment. That its purpose and underlying meaning has not grown dim in the great March of America, the land of Freedom and Human Dignity, is evidenced by our place in today's events.

Library and School Questions

The Friends of the Grosse Pointe Public Library at the annual meeting of the organization on November 15 held in the Pierce School adopted a resolution declaring it to be the urgent desire of the Friends of the Library that the Board of Education include in its building program provisions for a Central Public Library. It was further proposed and agreed that petitions would be circulated by the group to give the library's friends an opportunity to indicate their urgent desire for such a provision and that all interested parties should write to the Board of Education and should urge their friends to do so.

With this broad purpose of the Friends of the Library there can be no quarrel. Grosse Pointe needs and should have a fine public library creditable to this fine community.

The wisdom of pressurizing the responsible heads of our public education system to wrap up in the same school building package on which he electors will vote in a short time, a provision for a public library, is highly debatable, as a matter of policy.

When the question of the bond issue of \$4,000,000 was voted upon last spring, although it was for school construction alone, it was badly defeated. It is easy to see in the forthcoming school bond vote opposition from a new quarter because of the inclusion of a new item.

The question will also arise from a tax conscious citizenry why they should now be called upon to finance a project similar to the one which the Board of Education and the library people rejected a year ago this month, when they spurned the free gift of the Alger House property, plus the necessary funds to make any needed alterations to the extent of approximately \$250,000. This plan would not have placed any additional burden on the taxpayers.

The immediate problem now before the Board of Education is the provision of sufficient school facilities for the present and fast growing school population. Even the more restricted program it now has in mind will call for a substantial bond issue; reported to be between \$3,000,000 and \$4,000,000. The result of the vote last spring was discouraging. Our school directors are to be commended for their courage in bringing up the issue again, which is born of their own sincere convictions of its necessity.

The question has been raised also whether the Board of Education can assume the maintenance of a General Public Library, as apart from a School Library, out of public taxation.

At the time when the decision was made to build a War Memorial Library at the corner of Kercheval and Fisher, it was largely made on the urgings of the late Charles Parcells, then president of the Board of Education. Mr. Parcells said that as a School Library, in which classification it was to be officially carried by the school board, it could be maintained out of public taxation. This is a question which could doubtless be quickly answered by any attorney familiar with the school laws of Michigan but to the best of our knowledge has not yet arisen in connection with the Public Library discussion for the Pointe.

Another question upon which the taxpayer will seek an answer before this library item is wrapped up with the school program, is whether or not the Friends of the Library have in mind the utilization of the Murray Sales property which the school district now owns and where its adaption to library uses would appear to involve a much smaller sum of money than a library new from the ground up.

Grosse Exaggerations

A. PRYOR

*"These words no Shakespeare wrote,
These words no Byron penned,
Nor poet classical, with fancy free;
It is an honest heart speaks for a precious friend,
And yet it sounds like purest poetry."
(Heinrich Coward)*

This metered parking space innovation is causing more controversy in the Pointe than the subject of capital punishment. The "pro" side argues that it is definitely a boon to the motorist as well as the shopkeeper, for various reasons. One: A shopper doesn't have to park 4 blocks away because the shop owners have all parked THEIR cars in front of the stores eight hours. And don't think that hasn't happened in the past! Two: The shop owners should like it because it leaves a certain amount of free (so to speak), space in front of their shops so customers CAN park. Three: If you DO object to the penny or nickel... you CAN park behind the shops and walk through either of the two open ways... on you can park on either Fisher, McMillan or McKinley for free.

The only motorists the powers-that-be DIDN'T take into consideration are the little ladies who attend the salon de beauté. And THEY have a point. During the past week, three poor little women had to rush out into the street with wet heads in order to drop another nickel in the slot! And hairdressers are getting stomach ulcers trying to get the clients done and out of their cars within an hour. WHY, you ask, don't these women also park in a free place a block away? Well, we can answer anything. Not ALL women who go to beauty palaces... but a great many, do not stay in the shops long enough to dry their hair and get "combed out." They often leave with their hair still in pin curls and those of you who have seen a woman with her hair in pin curls will know why she doesn't want to subject herself to the eyes of the neighborhood while she walks a block to her parked car! And another thing... not all of us look good in babushkas. And another thing, come the snow (and we feel sure it WILL come), who wants to spoil a new hairdo because she has to get snow-flaked on the long trek to her car? Who indeed!

Anyone interested in picking up a little extra change before Christmas? Filed in the News office is a letter from a gentleman upstate Michigan who has a sure-fire scheme up his sleeve for any interested parties. His letter is too lengthy to print here but we give you enough highlights to whet your appetite. He sez that a new device has been invented that will detect any kind of metal under water. It seems that a sunken vessel has been located in a nearby Bay, that contains a valuable cargo of copper! Since copper today is \$355.00 a ton, and since there are, three to four hundred tons on this sunken ship... well, you get the point. Our hero needs a little financial assistance in order to start "digging"... or whatever the term is for scooping up an old vessel... and whomsoever wishes to invest in this romantic enterprise, will naturally share in the profits of the retrieved copper. Just leave us know if you'd like the gentleman's address!

Have you ever told a dear friend of the family who was going on a trip, to be sure to look up old Charlie Whoosis when he arrived at his destination? If you HAVE, you will think twice before suggesting such a thing, after reading this true account of what happened to a local business man, who was asked to do just that when he got to California.

Our hero called the Charlie Whoosis in this case, and after introducing himself and arranging a meeting place for a quick drink, he wondered what they'd have to talk about... then thought at least he might open the conversational gambit with the statement that he was the God-father of their mutual friend's child.

So be it. The little men met, sized each other up over a martini, then old Charlie Whoosis said: "HOW IS Frieda? I haven't seen her in years." Happy as all get-out that the conversation was opening just as he had hoped, our local hero said, "Oh, she is fine... and by the way, I am the father of her child!" Naturally, the poor man meant to say "God-father"... and mis-spoke himself; but we wonder what a psychiatrist would have to say about that slip of the tongue? We wonder, indeed!

More Peace Talk Needed

It would appear that there is a deal of breath and time being wasted over the question of atomic power and its prospective use in war. If binding provisions could be set up against the recurrence of wars between nations, atomic energy and all its correlated applications would automatically go out the window as a subject for debate. Whether or not this could be accomplished is at the present moment questionable. The Kellogg-Briand Pact of a quarter century ago was an effort in that direction and it quickly ran to a sorry conclusion.

This was a remarkably brief expression asked of the nations to abjure war as a factor in national policy. All the nations subscribed to it with suspicious unanimity and then proceeded to ignore its lofty sentiments and went right on making ready for another war; defensive in most instances but frankly aggressive in others.

War is the court of last resort in all international disputes. From it there is no appeal. Nations engaged in war are always fighting defensively, they tell the world. They are also fighting for survival and in such circumstances will not hesitate to use any weapons at their command. They will no more hesitate to use atomic bombs than would the first users of gunpowder hesitate to use bullets because they could pierce the light armour of their enemies.

There should be less face making and bellicose talk among nations and a greater concentration of national effort on securing binding pledges that none will start a war.

This, with simple pledges that no nation will interfere in the internal affairs of another nation, either in a material or spiritual sense, and there would be some assurance that enduring peace was in sight.

No Love Approach

The school teacher in Sharon, Pa., who paddled the 17-year-old Miss who refused to abstain from making a racket and general uproar in the school halls, was at least not guilty of a love approach. He left welts on the young lady's posterior and got himself suspended for his direct methods in discipline.

On further exploration of the matter, however, the directors of the Hickory School District restored him to his place. This was made the more easy by the fact the high school pupils said the teacher was a "good guy" and that some of them said if he hadn't paddled her they would.

The complete unsexiness character of the teacher's assumption of his duties was evidenced by the welts. He hadn't even "kept her after school" but applied the corrective medicine out in the public hall. The three resounding whacks where they did the most good had been effective.

Besides, teacher said he probably had acted a little hastily.

What Goes on at Your Library

By Joan Taylor

With Thanksgiving here and everyone counting his blessings, the library would like to give thanks for its friends. That they are not the fair weather variety was shown Tuesday evening, November 15. Despite the raw windy night, close to one hundred persons turned out for the annual meeting of the Friends of the Grosse Pointe Public Library, held at the Main Library.

Not to discount the distaff side, we were glad to see the masculine gender so well represented in the audience. The group's reaction to the needs of the library as cited by Mr. Orr was heartening. In the spirited friendly discussion there was evidence that the Friends of the Grosse Pointe Library plan to take definite action on the issue, paramount at this time, a new central building.

At the reception for Mr. and Mrs. Orr, following the meeting, many interesting ideas were voiced and enthusiasm was apparent on all sides.

It is said that advice is something that everyone gives and no one takes. We were given some the other evening, however, that we are delighted to take. In response to our request for column ideas, it was suggested that an interesting item might be "Who's Who on the Library Staff." We are quick to act upon this proposal.

This week we present our first assistant and cataloger, Mrs. Helen Finster. Since Helen is

averse to the limelight in any shape or form, we shall have to creep up on her with this or it may never see print. After attending the University of Wisconsin Library School at Madison, Mrs. Finster held a responsible position in the Racine Public Library. Later she returned to her native state of Michigan to become affiliated with the Grosse Pointe Public Library. As assistant librarian she shoulders heavy responsibility in the overall administration of our library system. In addition, Mrs. Finster holds the position of cataloger. There are more spectacular phases of library work but no job is more important in providing the ground-structure for a smoothly functioning organization than is that of the cataloger. She it is who makes the resources of the library accessible to the public. On the human side of the ledger, if we are in trouble, be it one of gargantuan proportions or one of trifling significance, the mislaying of our bifocals, (yes, we wear 'em), Mrs. Finster is always right there to help.

The library has given thanks for its friends and now to put the shoe on the other foot, we once knew a small boy who was thankful for a library. To the Brownsville Children's Branch in Brooklyn, New York, floored youngsters of every nationality. One little lad not long on American soil, frequented a particular corner. We stopped one day to talk with him. His eyes, too grave for his years, lit up and he spoke with the precision one uses when employing a newly adopted tongue.

"At school it is to work. At home it is to sleep, but in the library it is to LIVE!" He will be a grown man now. We hope he is still thankful for libraries.

Whenever he is able to assist your doctor, the conscientious pharmacist stands ready. This is the 268th of a series of Editorial advertisements appearing in this paper each week.

Very truly yours,
P. V. HEFTLER,
Village Attorney,
Village of Grosse Pointe Park.

Editor's Note: Mr. Heftler refers to the letter from Fire Chief Edward Rector to Edward H. Raccot, promising a permanent sergeancy in the department as soon as one was available. Heftler stated in a Park Commission meeting, when the dispute between the Civil Service Commissioners first became public, that it was his opinion that the letter had no legal bearing on the decision of the commission. It was natural to assume that the Civil Service Commission had conferred with Mr. Heftler on the matter before they announced their decision. Raccot did not get the appointment.

LEST WE FORGET...
THANKSGIVING
WAS MADE IN AMERICA

The little company of Pilgrims, pitifully few in a great, uncharted, unfriendly wilderness, came to their first Thanksgiving and knelt in humble gratitude before the food that was barely enough to keep them alive. They had fought for their freedom... they had stood their ground... and won! It was a Thanksgiving made in a new land and out of a hard and bitter struggle. As we sit down this year in the comfort and with the abundance that our America has given us... let us hold fast to a strength and faith as great as theirs. It is still our own Thanksgiving, made in America, for Americans.

University of Pennsylvania Bringing Show for Holidays

"Adamant Eve" (or Never Underestimate the Power of a Woman), is the title of the 62nd annual production of the Mask and Wig Club of the University of Pennsylvania. The show will appear at the Music Hall on December 23, and promises to be a bright spot in the Holiday Season. The production, a modern musical review, is a satire on the current scene, portraying the idea that women have an ever-increasing desire to dominate men. A series of sketches permit the all-male undergraduate cast to do some hilarious burlesque on current headline topics and conclusively prove that it's really the woman who rules the roost.

Dr. Edris Rice-Wray To Give Lecture Here

Residents of Grosse Pointe and vicinity are invited to a free public lecture to be given by Dr. Edris Rice-Wray of Puerto Rico, who will speak on the subject, "Prescription for Living" at the Grosse Pointe War Memorial Center, 32 Lake Shore road, Friday, Dec. 2, at 8:30 p.m.

Dr. Rice-Wray, a graduate of Vassar College and Northwestern University Medical School, had a private practice in medicine for 10 years in the suburbs of Chicago before going to Puerto Rico in 1947. She was district health supervisor of the Puerto Rican Health Department and is in this country under the sponsorship of the Puerto Rican Government, to get her master's degree in Public Health Administration.

Dr. Rice-Wray says, "There have been two international meetings of psychiatrists with the purpose of finding some international common denominator of moral and ethical standards. Once they have found this common denominator, they plan to present it to the world? I wonder on what basis the world will accept it, as each religious denomination has its own version of moral and ethical standards. We need a better understanding of religion before we can proceed."

MAIRE SCHOOL

Students in the second grade have found natural science one of their most fascinating fields of endeavor this fall. The pupils have observed the habits of many of the common insects and are studying the role these creatures play in the world.

The children have joined their efforts in building a collection of insect specimens for the school's science department. Earlier in the fall when insects were lively, the children found great sport in capturing them for the collection. The insects were mounted on cotton and placed under glass in ordinary picture frames.

Outstanding individual collections are those of Barbara Sachs, 1011 Cadieux, who has black beetles of the same size; James Pike, 684 St. Clair, has spiders and the spider's eggs; Johnny Maxwell's collection of monarch butterflies; Richard Grow has leaves of many common deciduous trees; Frank Sweet, 1621

Cadieux, began his collection when he was in the first grade and now has specimens of monarch butterflies and luna moths.

KERBY SCHOOL

To the children one of the most exciting and pleasurable factors of the New Kerby School, is the school store. It is not that the wares are so extraordinary; in fact they are the usual pencils, paper, rulers, crayons, and notebooks that are sold in other school stores and at the same prices. But this is, for the most of us, the first time we can equip ourselves with school supplies in our own school building. The storekeepers and salesgirls are Sylvia Melmer, Susan Johnson, Mary Jo Giroux, and Julie Evans. The store is a homeroom project of the 6B-6A group.

The origin and significance of Columbus Day was well observed on October 12 by the 4B boys and girls in the New Kerby School. Timothy Coplin, Suzanne Cumberworth, Susan Dhooge, Robert Franseth, Marilyn Hageman, Susan Harper, Judith Henry, Richard Kost, Lois Rupp and Linda Taylor were given a chance to share a fascinating story of Columbus by telling it over the amplifying system.

The story developed appreciation of courage, bravery and perseverance and created the spirit, "If at first you don't succeed, try, try again."

The room mothers of the Kerby School Kindergarten gave a tea on September 28 for the purpose of having all the kindergarten mothers become acquainted with one another and with the two kindergarten teachers.

About forty-five were able to attend. Mr. Hicks, Mrs. Ayres,

and Mrs. Moser, (school nurse) were also invited. At the tea, the mothers discussed the possibilities of someone donating a rug for each of the Kindergarten rooms.

MAIRE SCHOOL

In order to make possible an exchange of ideas among the various elementary teachers, an art exhibit and open house was held in the library of the Maire School from 4 until 5:30 on Thursday, November 17.

Miss Gladys Vance, the elementary art counselor, organized the exhibit to show various experiences children can have in their art classes during the holiday. The Christmas theme was carried into other activities showing their relations to the art program. For example, shadow plays of carollers, puppet shows and home made moving pictures provide a variety of creative possibilities during this season.

Many class room teachers brought samples of gifts, cards, wrappings, tree trimmings and table decorations that children could make. Each contributor explained the technique, and gave the source of materials necessary for the article of his illustration.

RICHARD SCHOOL

Under the fine leadership of Captain David Whittingham, the Richard School Safety Patrol is well under way toward another successful year.

Aside from their regular duty of covering 16 posts four times a day the boys have presented a Halloween Safety program over the school radio. Also, at the regular weekly meetings various topics are discussed. Recently, the special safety problems of snowy weather were reviewed.

Because of the changing school population, the patrol is about to undertake a study of all posts to determine pedestrian traffic lead and placement of patrol boys. Lieutenants Rowland Austin and Max Luft assist the captain in his duties. Following is the list of names of Richard boys who have earned the right to wear the white belt as members of the patrol: Jim Dieman, Judd Emerson, Bill Leonard, Max Luft, Paul Thompson, Phil Warren, Rowland Austin, Jim Book, Stephen Milliken, Paul Scheid, David Whittingham, Dan Goodnow, Phil Hannah, John Bennett, Jim Featon, Tom Jeffs, Bob Barton, Bob McAdow, Don Miller, Jim Wiedeman, Peter Gorschner, Joseph Washburn, Tim Quisley, Tony Hermann, John Chaffee, Bill Lambrecht, Jim Bleen, Charles Molyneux, Bredford Tisdale, David Beyer, Jim Darby, Richard Keys, Mike O'Neill, Dick Schleicher, Walt Carrier, Sandv McMechan, George Risk, Bill Reeves, George King, Bob Boudreau, Dick Whittford, Bill Eger, Don Lockwood, Tom Hoder, Jerry Cavanaugh, Norman Danaber, Frank Girardin, Bob Nestor, Bob Reuther, Bill Hotchkiss, Dick Douglas and Bill Esperti. Mr. Hammel, Grade 4A, is the teacher sponsor.

Monrie Redfield, who operates the Henri Camera Shop in the smart Livernois shopping center, will open a Grosse Pointe branch store at 1714 Kercheval avenue, next to Doubleday Book store on Thursday, December 1.

The shop will be stocked with the latest cameras and movie equipment. Opening day events include answers and advice by Richard Kimbrough of Bell and Howell Company and Alexander Grant, one of Detroit's best authorities on color work. Gifts for everybody visiting the store and a number of special prizes will be featured opening day. Raymond Fees will manage the store.

THEATER PARTY

There will be a Theater Party at the Neighborhood Club this Friday, November 25, at 7 p. m. These parties are held every Friday evening and feature cartoons and novelty contests. All children of the community are welcome.

Buhl Car Catches Fire On Kercheval Avenue

A car owned by Arthur Buhl, Jr., of Provincial road, caught fire at Kercheval and Country Club drive on the morning of Nov. 21. It was being driven by Donald McIntosh. The Farms Fire Department, which answered the call, reported the blaze was caused by a broken hose connection, which spilled alcohol on the hot engine. Damage was estimated at about \$25.

Mercury '50's in Debut Nov. 29

Improved, comfort and performance mark the new 1950 Mercury shown here in the popular six-passenger coupe model. Interiors have been planned in harmonizing, contrasting tones of broadcloth that give the passenger compartment a true customized appearance. The 110 horsepower V-8 engine incorporates a number of mechanical changes resulting in added economy and smoother performance.

To Conduct Fair At St. Columba

"The House of Eight Circles" is what the Women's Auxiliary of St. Columba Episcopal Church are calling their bazaar. Each room in the house will have articles for sale, at the parish house, Jefferson and Manistique, from 10 a.m. to 10 p.m. on Thursday, December 1.

Starting in the attic, Mrs. George Healy's Circle, the Martha Mary, will collect all the odds and ends somebody can't use and somebody else, maybe you, will want. Then in the bedroom with Mrs. Arthur Mount as chairman for the Dorcas Circle, there will be beautiful pillowslips, dresser scarfs and all kinds of closet accessories.

And the Ellen Ramsay Circle, with Mrs. Stanley Brown, president, has that very important room, the Nursery! There you will find adorable things for the small fry, infants garments, dainty hand knits and all. There will be jeans, pajamas, blouses—everything for youngsters up to six years.

The Play Room is next to the nursery where toys, dolls, stuffed animals, everything to make eyes shine on Christmas morning have been collected by Mrs. Elmer Friewald of Friendship Circle. The Bath Room will be equipped with towels, wash cloths and other things by the Mary Norvell Circle. Miss Margaret Fullwood is in charge.

Varsity Club Honors Painter Sal Viviano

Warns Against State Medicine

The members and guests of the Mothers' Health Club heard a most interesting talk on State Medicine, given by John G. Miller, public relations field secretary for the Michigan State Medical Society, at the Grosse Pointe Memorial Center, Tuesday afternoon, November 15.

Mr. Miller emphasized the fact that the miracle of modern American medicine has produced, for this country, the finest health record in the world. He illustrated this by citing the fact that since 1900 life expectancy has risen from the age of 49 to 68 years at the present time. Appendicitis deaths have been reduced forty per cent since 1940. Infant mortality has been reduced from one hundred deaths out of every 100,000 in 1915 to 32 deaths in 1947. Maternal mortality has had an even greater reduction. During the last world war, the U. S. had the lowest draft rejection in the world, 95.4 per cent of the young men were able to pass their physicals.

American industry has also benefited by our system of voluntary medical care. The workman in 1900 lost 28 days a year for sickness, while in 1925 the loss was only 8 days. The reverse was true in Germany, where they have had socialized medicine. Over the same period of time, where 5 days were lost in 1900, 28 days were lost in 1925.

Socialized medicine would do two things, Mr. Miller said. First, it would cost the taxpayers terrifically. Second it would result in sharp deterioration in medical care. The doctor would not have the time to spend with the person who is actually sick. Much of his time would be taken up by people who would take advantage of free care. "Consider also the red tape demanded by government services," he added.

"The very idea of socialized medicine is contrary to the principles of free enterprise on which this country was founded. These principles have proven sound in the past. Due to this heritage of individual freedom we are now a country having 45 per cent of the world's wealth and an outstanding health record," Mr. Miller concluded.

A discussion was held following the address. The problem of getting young men of high caliber to study medicine in the future under socialized medicine was brought up. Tea was served by Mrs. Earl Walke and her committee.

PILFERINGS

You may read about business' future in the WALL STREET JOURNAL. WE read "PEPPER AND SALT" and pilfer:

"Seated together, two strange men will
At dinner's end be strangers still;
Two ditto women each will ken
The other's taste in food, clothes, men."

While being fitted for glasses one day, Mr. Applegate was obligated to have the pupils of his eyes dilated; and with the result that he couldn't read his paper that evening. Feeling sorry for him, his wife said: "I'll read the sports page to you Arnold, dear... Hm-m! The Yankees, whoever they are, won a game from the Dodgers, whoever they are. There was a home run, whatever that is. And here's a picture illustrating it."

"Does it show a smiling runner crossing home plate?" Arnold asked. "And is one player shaking his right hand while another shakes his left. And is the catcher on the opposing team—the gent with the grill work over his face—looking very bored and disgusted with it all?"

"Arnold!" said the wife. "You've been violating orders. You've been peeking at this picture!"

"Darling," said Arnold, "I've been looking at that picture for the past 40 years, so help me!"

Long after he was through, a second rate prize fighter insisted on trying to earn his money in the ring. One night after taking a bad beating, he was woozily emerging from his dressing room when he encountered an acquaintance who greeted:

"Hi, there—Penny Wise and Pounded Foolish."

Pointer of Interest

MR. AND MRS. BENNETT BURGOON JR. OF GRAYTON

—Picture by Clarke Templeton, Jr.

When the Bennett Burgoons Jr. moved to Grosse Pointe from Rockford, Ill. five years ago, they brought along an idea which has resulted in happiness and friendship to scores of couples arriving here to make their home.

The Burgoons met the idea in Rockford. It had a name: The Newcomers Club. When they first lived in Rockford they were invited to membership and thus met the circle of friends they disliked leaving when business moved them here. So the solution for the Burgoons... and for so many, many others... was to form a Grosse Pointe Newcomers Club.

They are young with a matching zest for people and life. She is very tiny, brunet with warm, soft eyes. He is tall and has one of the friendliest smiles you're likely to meet... what's more it's such a nice sincere smile.

Here they were in a strange town (reporter's note: and a singularly unneighborly one for some reason) and their own friendly natures called for friends. It happened that at the same time a young man named Jim Dodge and his wife moved here because of business and it wasn't long before Mr. Burgoon and Mr. Dodge met, learned that their business headquarters were in the same Pennsylvania town and that they both shared a feeling of being very new residents in Grosse Pointe.

First Meeting
Mr. Dodge listened to the Newcomers Club idea and liked it. Mr. Burgoon called on Forest Geary of the Grosse Pointe Board of Education and editors of the Grosse Pointe newspapers, who all agreed to help. The newspapers carried an item saying that any Pointer who had not lived here over two years and who had moved here from outside the Greater Detroit area was invited to join the Newcomers Club. The story carried the Burgoons' telephone number.

Remembering smiles cross Mr. and Mrs. Burgoon's faces as they recall that first meeting at their home. Seven couples turned up and there was a great deal of shyness and a great deal of sizing one another up until the mutual need of friends overcame it all and the Newcomers Club was on its way.

"It's a firm bond," the Burgoons will tell you, "a group of people who are totally strange to a community and who want friends... not just acquaintances."
The Interview
Some of the vital statistics set up by the club included: members are allowed to be active for three years after which they become alumni—meetings are held twice a month—the board (now composed of past presidents and their wives) meets once a month to plan programs and parties—at the end of each year (sometime in Summer marks the end of the group's year) there is a formal dinner dance, usually held at Lochmoor Club.

The first time a new couple attends a meeting, the president introduces them to the membership and then asks the following questions: Where did you come from? Where do you live in Grosse Pointe? Did you rent your house or did you

buy? (This is the question which always brings the smiles)... How many children have you? What is the husband's business.

At the end of three years membership, the Burgoons and other Newcomers declare you have so many friends you are in a veritable whirl and life is nice, indeed. Every once in a while the alumni group get together with the Newcomers but for the most part they are left to themselves so that all new people are running the club and it is never in danger of being "clique-ic."

The NEWCOMERS have met for the most part at Neighborhood Club but are found often now at Grosse Pointe Memorial Church house. From the meetings have come many little groups who share enthusiasm for various categories. There are the bowlers, the golfers, the bridge and canasta players, the dancers (eighteen couples are now fast at square dancing lessons).

Once a year the girls have a tea at one of the members' houses and this is always a special event.

The Burgoons (who were made life members and thus go on and on in the Newcomers Club) hope the group never grows much beyond its present size of 50 couples.

"Then you have such a large group that you don't get to know one another well and the whole purpose is lost."
If the club continues to grow, this nice young couple hope that some plan like a Grosse Pointe Woods Newcomers Club, Nark Newcomers Club, etc. will be devised; then the groups, will be small enough to permit real friendship.

RICH REWARD
The other night this reporter went out to the dancing-card party and supper the club gave at Memorial Center. Everyone was having a wonderful time and there was such a pleasant, friendly atmosphere. Greetings were everywhere and smiles were mellow.

The Burgoons disclaim credit (although Mrs. Burgoon said her husband really did the work because he didn't want her to be lonely in her new home) but they must receive reward every time they meet with the Newcomers.

There were newcomers at War Memorial that night from New York, Mexico, Illinois, Pennsylvania, Texas, Virginia, West Virginia, California, Minnesota, Ohio and Massachusetts.

One of the group inadvertently rewarded the Burgoons that

Burglar Sheds Light on Theft

The Rogers Service Station of 15201 Kercheval thought it was crowding the mourners too far when they discovered one of their employees attaching a spot light which they recognized as having been stolen from their place, to the car of a friend of the employees.

Investigation by Detective Sergeant Hough developed the fact that John Bowden, colored, aged 35, of 3836 Harding, an employee of Rogers Service, had taken the spotlight from the place and either sold or given it to his friend Henderson Ross, also colored, aged 42, of the same Harding address.

Ross apparently needed assistance to attach it to his car and what better place to go than to the point of origin. Here Bowden was attaching it to Ross's car with speed and accuracy when the proprietor sensed something familiar about the light.

On November 16 Judge Potter fined each \$50 for simple larceny and placed them on six months probation each, accountable to the Probation Division of the Wayne County Circuit Court.

Center Visited By Kiwanis Club

The Grosse Pointe Kiwanis Club held its dinner meeting this week on Tuesday, Nov. 22, in the War Memorial Center. As the notice of the meeting said, it was to afford the members, following the dinner, an opportunity to make a leisurely and close inspection of the place.

The Center is attracting increasing attention from Pointers, who in addition to admiring its patriotic memorial purpose, are looking into the possibilities of arranging their weekly meeting there.

The Kiwanians are reported to have expressed themselves as delighted with the property.

Pointe Counter Points

We've never heard so many gals saying they hoped they'd get a compact for Christmas. But there was an addition: They all hoped they'd get one of those teddily good looking Mary Dunhill silver compacts from GROSSE POINTE-DRUG CO. They're fairly deep and oval shaped and a special one comes with separate sterling perfume dauber that's marvelous to tuck in your purse. GROSSE POINTE DRUG CO. has just droves of darling "under five dollar" gifts. Tinv, square gold evening compacts for instance... so light you'll never notice them... tiny enough to fit in the daintiest bag... and complete with nice mirror and pressed powder, perfume funnels and scentomatics (the new dauber we spoke of before); cosmetic travel kits... one with two of Charbet's most famous fragrances in scarlet silk container... another of talc and cologne in a quilted satin case. And a Christmas prize, that is not only a handsome gift but a labor saver for you (because it comes elegantly packaged) is Ballerina cologne.

Never has WALTON PIERCE GROSSE POINTE BRANCH done such an all out glamour job of custom Christmas packaging as you'll find this year. The chic note in the pale wheat colored basket into which dazzling, shining wrapped gifts are tumbled. There's a touch of gold or gleaming silver—Kajal fringe all around and your gift says Merry Christmas even before it's opened! The baskets were ordered from Italy and are all shapes and sizes. Some are regular woven affairs and others resemble tiny hats turned upside down and handled. Still others are the fascinating lacy ones. Close inspection of one basket revealed that jeweled earrings were used to trim one of its silver wrapped packages. Minute Christmas tree balls in festive colors and icy snow flakes are among the other trimming used. And guess what! GROSSE WALTON PIERCE GROSSE POINTE BRANCH has disguised the hosiery gift. You know how "at a glance" you can tell just which box contains your Christmas hosiery... well, it's going to be different this year. Because that extra special (dull finish and s-h-e-e-r) hosiery comes in white boxes just a little bigger than a cigarette package. Crimson ribbon frame the boxes and ties at top with holly berries. Smart Santas are going to WALTON PIERCE!

It's easy on your tootsies to find different, little gifts at JACOBSON'S this Christmas shopping season. For all the intriguing little presents are arranged in one shelved showcase. You stand right there and cross name after name off your list as you purchase. The silver Turkey Dressing Spoon which reaches way to here to get every bit of the wonderful stuffing;... gold or silver, cute fat little salt and peppers for a breakfast tray;... key chains with a no-fumbling future for its easy to locate the round jewel in the most disorderly handbag! The jewels are toned in star-sapphire, ruby or emerald... the carry-with-you tiny ashtrays that make life bearable when you find you're smoking without an ash tray in sight!... a golden maid's bell (for those who live on Lake Shore road)!... flower scissors for the Dazzlers who may cut those Amari can Beauty stems from their daily bouquets... silver cake cutters... round roll cigarette boxes for a handbag or a side table (in silver or chartreuse lizard leather). There, see how easy it all is at JACOBSON'S!

You're going down in our book as a person of Great Will Power if you can resist any of the new toys at YOUNG CLOTHES, INC. There're the English mice, for instance. You and your mate will wear them out after the kiddies have gone to bed between now and the Night Before Christmas. One around and the tumbling mouse just rolls over and around and over. YOUNG CLOTHES, INC. have put these and dozen of other tiny gadgets into baskets where you'll find all your stocking presents for the young (and for the adults, too, we'll wager!) The dolls are heavenly. One kind, (ready budget priced) has movable legs and arms and the sweetest face! A handbox of clothes may be purchased for this little darling. There are real huggable baby dolls and YOUNG CLOTHES will make up a bassinet for any doll; these are so exquisite Santa won't want to leave them anyplace! English soldiers and a fort are for the very young young gentlemen. We fell in love with a Christmas Steigh Continental which some baby must have for riding over the snowflakes. White and pink teddy bears, lots of cuddly toys and the charming Cindy doll whose wardrobe may be custom made to match her little owner's all are custom gifts... the kind of sugar plums children are meant to have at Christmas time.
