Cheat Death

(Continued from Page 1)

Prentice and I were pulled out and we both collapsed. Gene was taken from the water last and Farms firemen revived him with a resuscitator."

He later stated the last thing he remembered was being in the water. He didn't remember being taken from the angry, churning water."

Later in the day Crescent members went in search of the Penguin and the punt. The sailboat was found on the lee side of the Little Club dock completely demolished and the punt never was found.

Praise Firemen

All four said Farms firemen should be credited with saving their lives with their quick thinking rescue. Long ladders were used to get the boys out of the water.

The thrilling rescue was witnessed by hundreds of Sunday motorists and pedestrians. The traffic jam which resulted made it necessary for the Farms police to call for help from both the Shores and City of Grosse Pointe. Traffic was blocked as far back as Wayburn avenue, the police said.

Scout Troop 156 Has Birthday

Boy Scout Troop 156 of Christ Church celebrated its 20th birthday on Monday, March 12. Families and friends of the scouts attended the party.

For perfect attendance for one year, stars were given to Grant Wilcox and Dave Hammond, Jr. for 2 years, Roger Harden and Marshall McClung, and four years to Jerry Harden.

New Troop Leadership was announced. Promoted were J. H. Granger to Scoutmaster; Eagle Scout Norman Harden, to Assistant Scoutmaster; and Patrol Leader Jerry Harden, to Junior Assistant Scoutmaster.

Leaders will be assisted by the following committee: Harold Harden, chairman; and L. W. Pritchard, M. S. McClung, Walter Collins, F. E. Cooper, E. R. Hammond, Jr., C. S. Martin and L. S. Trowbridge.

First Aid Skill Shown by Scouts

Both gymnasiums at Pierce Junior High School were jammed Tuesday night as more than 100 Boy Scouts of the Pointe took part in a First Aid Meet sponsored by Scout District No. 3.

The event was closely tied in with the Civilian Defense program. The boys who have been studying first aid procedure so they would be available in the event of a bombing attack, were given the opportunity to show just how helpful they could be.

Thirteen troops were represented, each with one to three teams comprised of five members each.

Problems were announced by James Lowmaster and the youngsters tackled them with skill and enthusiasm. A number of prominent local doctors were on hand to help with the judging.

Assisting with conducting the event were W. E. Gore, in charge of community activities of District 3; and Daniel J. McGinty, Boy Scout Headquarters Commissioner for the Pointe area.

Proposed Drainage Project Entails Spending \$3,000,000

A \$3,000,000 drainage project proposed by Gratiot Township would cost Grosse Pointe Woods at least \$1,200,000, Philip Allard, Woods acting city administrator, said.

"Whether our municipality is in a position to accept such a financial burden now is questionable," he said. "A special bond issue would be necessary."

Petitions Circulated
Petitions for the project were circulated among property owners in both communities by Gilbert T. Jerome, Township engineer.

The project calls for the construction of storm and sanitary sewers to relieve drainage problems in the northwest section of the Woods and an extended area the Township.

Allard stated that the Township would benefit a great deal more than the Woods if the plan is accepted.

The petitions will be forwarded to the Wayne County Drain Commission for action.

Would Share Balance
The balance of the expected cost would be shared by Wayne County and Gratiot Township. It was indicated that the proposed project would replace the

arter road station and open an area in the Woods for 1,000 new houses.

Allard declined to discuss the matter further. He said: "It's too early to go into any details now," he stated.

Annual U. of M. Night Due Here April 12, 13

Michigan Union Opera to Present, "Go West, Madam" in Music Hall Under Auspices of University of Michigan Club of Detroit; Proceed to Scholarship Fund

The University of Michigan Club of Grosse Pointe is stepping right up and taking its first really active part in the annual U. of M. Night being held this year April 12, 13 in Music Hall when the college's famous Union Opera will present "Go West, Madam."

Heretofore the Pointe has always been well represented in the U. of M. night audiences but now the local alumni mean business and they're selling tickets like the wind this early.

Robert J. Hood is president of the Grosse Pointe branch of the club and Ticket Chairman Mary Cobane reminds one and all every day that the past two such annual appearances of the college group have been sell-outs long before curtain time.

Miss Cobane's assisting committee includes Pointers Patricia Hall, Adolph Neeme, Dr. and Mrs. W. George Belanger, Mrs. Arthur Nees, Pat Baumgarten, Barbara Sickles, Ronald Jenkins and Josephine Bell.

Chairman for U. of M. Night is the Pointe's Richard A. Forsyth, a post he's held much to everyone's delight, for the past 10 years. President of the Detroit U. of M. Club is Ray C. Sackett.

Now for the bits of information enthusiastic committee members keep dropping our way.

As you know, it's an all male cast and chorus. "Go West, Madam" has its setting in Hellorado, Colorado (proving the Hopalong Cassidy influence has invaded the campus!).

Said a ticket sale seller to this dept. "Hellorado is a wild and woolly town where the citizens haven't seen a girl for 20 years."

Need any more be said?

In the lead role will be a favorite: Jim Lobough of Bartlesville, Oklahoma.

This marks the thirty first opera staged by a Michigan Union Opera Company.

"A BURIAL PLACE FOR KINGS" NOW UNDER CONSTRUCTION

The name "mausoleum" was given to a tomb erected to Mausolus, king of Caria in Halicarnassus, a Greek city of Asia Minor, by his widow, Artemisia, in 352 B.C. This great and beautiful structure was one of the seven wonders of the ancient world, and because of its splendor and the fact that it was in honor of a king, the word "mausoleum" came to mean a "burial place for kings."

Even at that ancient date, 352 B.C., this form of burial was not new. It was as old as Abraham, who buried Sara in a cave in the field of Macpelah, a family tomb which he, too, later occupied. It is as old as the pyramids, the tombs of Egyptian monarchs on the desert border of the Nile.

No, Mausoleums are not new, but for centuries this form of burial was restricted to the great and the rich of earth. But now, here in our own inventive and resourceful America, an America where the best of everything has been made available to the common man, this hitherto royal and exclusive privilege of burial, above ground, in the clean, dry, protected tombs built for eternity, is available to all at prices you can afford, no higher in fact than comparable burial in the earth.

Space in beautiful GETHSEMANE MAUSOLEUM for you and your family can be had at prices and terms that will amaze you, with no interest, no carrying charges, no taxes. When the MAUSOLEUM will be completed these prices will of course be much higher.

THE BOOK MENTIONED BELOW CONTAINS A LARGE COLOR PICTURE OF THE MAUSOLEUM, AS WELL AS INTERIOR VIEWS; ALSO DIFFERENT CRYPT ARRANGEMENTS.

Please remember to bring a hankie valued from 50c to \$1.50 to the March meeting for our hospitalized veterans for Mother's Day. Also, please bring a donation of 10c to cover cost of Mother's Day card and stamp. This means a great deal to our boys, ladies, so please don't forget!

you'll still say "Can't beat Dodge for dependability!"

NEW engineering advancements make traditional Dodge dependability GREATER VALUE THAN EVER

THE DODGE reputation for dependability and long car life is a matter of record ... a record of 37 years ... a record no other car can match. And with the many new advancements engineered into the great '51 Dodge, this famous dependability makes Dodge an even bigger value, an even bigger dollar buy.

For example, new Oriflow Shock Absorbers smooth out the bumpiest roads to give you a level, more comfortable ride ... smother the jolts ... reduce wear on vital chassis parts.

Cushions moving parts. Dodge Gyro-Matic, lowest priced automatic transmission, along with Fluid Drive makes handling easier and smoother for you. But equally important, Dodge Fluid Drive cushions the power thrusts from engine to rear wheels. Starts and stops are soft and smooth. Your car and your tires last longer.

Yes, everything about this great new Dodge—the way it looks, rides and handles—tells you that here's a car built to deliver years and miles of dependable, low-cost service.

5 minutes tells why. Give us just five minutes. Let us show you how you could pay up to \$1,000 more and still not get all the extra room, handling ease and rugged dependability of this great new 1951 Dodge.

NEW ORIFLOW SHOCK ABSORBERS! With twice the shock absorbing capacity, you actually "float" over roads so bad they stop other cars. No bounce, pitch or side-way—wheels stay on the ground for a smoother, safer ride.

Society News Gathered from All of the Pointes

From Another Pointe of View

by Jano Schermerborn

There is a gentleman in society who fascinates us, chiefly because all we've ever heard of him has made us wonder how in the world he's lived this long . . .

We are given to understand he has sought, untiringly, to be publicized as widely as the late Henry Ford, whose genius included a magic flair for headlines . . . yet our boy friend has spent a couple baffling decades having the Boss warn society editors not to use his name . . .

As official of a great company his presence was necessary, some years back, at the finals of a sports event for little boys . . .

And as the day's events drew to a close . . . photographers asked him to pose with the two youthful winners . . . "Put your arms around their shoulders" suggested the cameramen seeking a warm, human interest picture . . . The gentleman's brow furrowed ever so lightly, "Oh, no, I couldn't do that. I'll just stand with my arms at my side." Well, the picture was taken that way.

Camera Shy

A bit later the photographers were enlightened. "I couldn't pose the way you asked," said the official, "You remember those pictures the papers ran of Dillinger and that sheriff the other day? The sheriff posed for that years ago, and he certainly looked chummy with Public Enemy No. 1. Well, you never know. Those two boys today—they might grow up to be Dillingers and I wouldn't want any pictures like that to be printed around the country."

The cameramen were surprisingly silent. After that, his company brought a famous Hollywood actress to Detroit to add glamor when it unveiled its new product. Again the cameramen wanted a photo of the official, this time with the movie star.

The gentleman was more testy on this occasion. He wouldn't pose. But there was the usual explanation: "Why that woman has been divorced several times! I couldn't afford to have MY picture taken with such an adventurous."

The Waldorf System

We could go on for pages about this tour de force in charm, but to get to the point, our subject and his mate celebrated a wedding anniversary not long ago . . .

As it was told to us, the perfectionist conferred with the Waldorf about the evening's menu and had that establishment send its recipes for all the food, accompanied, air express, by each dish served as the Waldorf does it . . .

The chefs at HIS club here held a conference . . . studied the menus . . . the finished products . . . and agreed to duplicate for the big dinner dance . . .

Rehearsal

Now two weeks before the actual party . . . The couple had the club give a "rehearsal dinner" (Continued on Page 9)

Mrs. Baze greeted the guests at the reception in Grosse Pointe Yacht Club, wearing navy-blue taffeta, complemented by a navy flowered hat.

Barbara's traveling costume consisted of a light blue shantung suit, topped by a navy coat. When they return from their motor trip to Florida, the new Mr. and Mrs. Kelley will reside in Akron, Ohio.

Former FANNIE PERLEY RICHARDSON, of the Pointe, daughter of Mr. and Mrs. FREDERICK WARREN RICHARDSON, who now make their home in California. The young man arrived March 2.

Fort Lauderdale's Easter parade will include Mr. and Mrs. J. FRAZER WHITEHEAD, of Roosevelt boulevard, and their daughter, SUSAN, and son, GEORGE, this year. The Whiteheads have planned their Spring vacation to coincide with Easter recess at Grosse Pointe Country Day, where Susan is a student, and George's holiday from Michigan State College studies.

Frances Boyer Names Sister Maid of Honor

Mary Boyer To Be Sister's Honor Attendant at Mead-Boyer Wedding June 16; Former Denise Bredin Smith to Wed In East; Mary Whitehead Tells Plans;

Without a doubt old Mr. D. Cupid is the busiest man in society, all seasons of the year. Right now he has his own special DPW repaving and lengthening the orange blossom trail for smoother traveling when this Spring and Summer's bridal couples travel down the aisle.

Frances Boyer, daughter of Mr. and Mrs. Harold R. Boyer of East Jefferson avenue, has set June 16 for the date of her marriage to H. Hudson Mead, son of Harry H. Mead of Milford, Mich. Her sister, Mary Boyer, will be her maid of honor and the remainder of the wedding party is in the process of being contacted by letter and long distance calls at the moment.

The ceremony will take place at 4 o'clock in the afternoon at Grosse Pointe Memorial Church to be followed by the wedding reception at the Boyer residence. There's a trip to New York in the offing for Frances and Mrs. Boyer but it will probably take place after Easter.

At the moment the family is preparing to welcome two of its school set members who'll be arriving for Spring vacations. Maid of honor Mary Boyer will get in the last of the month from Vassar and Alger Boyer arrives this Saturday from his studies at Andover School.

In the East, former Pointer Mrs. Dee Bredin who now lives in Fifth avenue, New York, has announced the engagement of her daughter, Mrs. Denise Bredin Gillis Smith to Abbott Van Nostrand Jr. Theirs will be a June wedding.

The bridegroom-elect is the son of Mrs. Abbott Van Nostrand of Forest Hills, and the late Mr. Van Nostrand. He is a director of a play publishing company in New York and graduated from Amherst College in 1924.

April bride-elect Mary Whitehead, daughter of Mr. and Mrs. Thomas C. Whitehead of Radnor Circle, has told her wedding plans. She will be married on the twenty-first of the month to Kenneth A. Warren, son of Dr. and Mrs. Louis Austin Warren of Fort Wayne, Ind. The ceremony will be held in Christ Church Chapel, Grosse Pointe.

Barbara Bayne will be maid of honor and the bride-elect's cousin, Mrs. Clarke Murphy Jr. of Baltimore, will be matron of honor. Bridesmaids include Mary Carolyn Wade and the bridegroom-elect's sister, Evelyn Warren. Mary Prendergast, will be her cousin's junior bridesmaid.

Serving as best man will be Russell Keen and seating the guests: the bridegroom-elect's brothers, Lawrence Warren of Fort Wayne and Lester Warren of Cleveland, Dr. Warren Westrate and Mary's brother, Tucker Whitehead. Harriet Howenstein, daughter of Mr. and Mrs. Harry B. Howenstein of Vendome road, has chosen June 4 for her marriage to Roger W. Hull, son of Mrs. Charles B. Hull Jr. of Mt. Vernon road. Setting for the services will be St. Paul's on The Lake.

Pointe Couple To Wed April 6

Joan McElroy Rockwell, daughter of Mr. and Mrs. Walter F. Rockwell of Balfour road, is deep in plans for her marriage, April 6, to Malcolm McGregor Barnum, son of Mrs. Richard Fyfe Barnum of Yorkshire road, and the late Mr. Barnum.

The ceremony has been set for 5:30 o'clock in Christ Church, Grosse Pointe, to be followed by a reception at the Country Club.

Mrs. F. John Keogh, Jr. and Laird Beamer will be honor attendants for the April bride-elect whose bridesmaids include Barbara Barnum, sister of the bridegroom-elect; Mrs. Russel Werneken, Mrs. Hugh Mulkey, Mrs. Theodore Templeton, Patricia Baumgarten and Ann Reighley of Montclair, N. J.

Five-year-old Maria Suzanne Barrett, daughter of Mr. and Mrs. Arnold Barrett, of Clarkton, will be flower girl.

Seating the guests will be Joan's brother, Hays Rockwell; William Chesbrough, Fred Selker, Malcolm's cousin, Bill McMillan; Russel Werneken, Martin Oetting, and from New York: Theodore Merrill and Dieter Reichold.

A long list of parties will fetter the young couple before their trip to the altar. This past Tuesday Grosse Pointe Yacht Club was scene of a luncheon and kitchen shower given for Joan by Mrs. Werneken and her mother, Mrs. William Allen.

The engaged couple will share honors at the March 24 buffet supper being given by the Harold Borgmans. Mrs. Hugh Mulkey has planned a tea and shower for the bride-elect on March 27. The Least We Can Do

The wave of near-panic which swept the Pointe last Thursday morning when a furnace exploded, accompanied by the too realistic sound effects of a pair of diving jet planes, lends evidence to the belief that local residents have not studied their lessons in civil defense very assiduously.

Perhaps the incident will have the desired effect of teaching us to sharpen up on our knowledge of the prescribed procedure in the event of an attack from the air.

One of the chief objections to the way so many of the residents acted, is lodged by the police departments, and it appears they have ample grounds for complaint.

It is the duty of every citizen to be thoroughly familiar with all the civilian defense instructions.

What we discovered (in case you're statistically minded), was that every 30 seconds on the DOT... she reported "still busy."

Never-the-less, we must be prepared in case stray bombs do find local targets.

One of the most important instructions the OCD officials have issued is the admonition for parents to refrain from rushing to the schools to find their children.

The school buildings are among our safest structures. The teachers and pupils have been thoroughly instructed in just what to do in case of attack.

The children will be better protected there than they would in their own homes. Don't interfere with the plans that have been carefully made to safeguard them.

Pointers have been very slow to answer the call for volunteers to fill the important posts of auxiliary firemen and policemen.

The need for blood is very great and the plea for donors is a constant one. Yet, when the Red Cross sent its mobile unit to the Memorial Center to make it as convenient as possible for Pointers to give, only 115 pints were collected.

The Post Office Muddle

While the Administration is squawking about an estimated Post Office Department deficit of \$361,000,000 for 1952, we'd like to put in a plug for the postal worker.

Compensation of the postal employe has lagged far behind that provided in private industry.

Working conditions have grown worse because of cutbacks and failure to expand and equip post offices proportionately to the expansion of business.

President Truman, in his message to Congress on February 27, made several statements concerning the postal deficit which do not present the situation fairly to either Congress or the public.

Grosse-Exaggerations

A. PRYOR

"Forget thee" ... If to dream by night And muse on thee by day, If all the worship, deep and wild, A poet's heart can pay, If prayers in absence breathed for thee To Heaven's protecting power, If winged thoughts that fit to thee, A thousand in an hour, If busy Fancy blending thee With all my future lot ... If this thou call'st forgetting ... Thou indeed shall be forgot."

(John Moultrie)

If you are old enough to remember the "shovel brigade" that accompanied the depression of the 1930's, you will get a kick out of this incident that happened recently...

There seems to be a new wrinkle in foiling the general public in its efforts to reach the tired-business-man by telephone.

What we discovered (in case you're statistically minded), was that every 30 seconds on the DOT... she reported "still busy."

Speaking of telephone etiquette... we called a woman last week, whose maid answered the phone and said she would see if Madame was in.

And speaking of whether or not Madame is IN, we read a controversy on the subject in a recent periodical.

The woman who employs a domestic assistant is in a lot happier position because Madame can tell her to say she is "out" if she doesn't wish to be disturbed.

that these factors are paramount in the operation of the Post Office Department.

The need for blood is very great and the plea for donors is a constant one.

The Rural Delivery Service, which certainly exists as a service to the American farmer, cost \$152,000,000 in 1950.

Working conditions have grown worse because of cutbacks and failure to expand and equip post offices proportionately to the expansion of business.

President Truman, in his message to Congress on February 27, made several statements concerning the postal deficit which do not present the situation fairly to either Congress or the public.

Boat Banter

By Fred Rummels

Have you ever wondered how "insurance" came about in our day and age? It was really started by the men who went to sea in ships.

Years and years ago when the ancient businessman or trader sent his goods to another country by means of ship, two important perils might have prevented his profit from reaching their destination. The first was the simple matter of pirates. It was the duty of the captain of the ship to see that his ship was heavily armed or to travel in the company of other heavily armed ships. This gave some measure of protection against the cutthroats of the sea. Storms, hurricanes and treacherous shoals were entirely a different matter.

When a ship began to sink because of heavy waves or gun fire a very simple plan was used in an effort to save the ship. Part of the cargo was thrown overboard to lighten the ship and thus keep her afloat. There was only one trouble with this plan—whose goods were to be thrown overboard?

All the merchants aboard the ship had to argue about the matter and by the time they had come to some decision, they, the ship and the cargo quite probably wound up on the bottom of the ocean.

So a simple plan was used. It made no difference whose goods went overboard. The loss was made up by the contributions from the more fortunate owners whose goods escaped the briny deep. In a way this was a form of insurance in its crudest form. It helped distribute the loss.

At the same time another form of insurance came to light.

Usually when a ship sank or was captured by pirates the home merchant was ruined financially but it became possible for him to borrow money on a very peculiar kind of a loan. He could borrow money from the lender at a very high rate of interest and if the merchant's ship arrived safely at its destination he had to repay the loan. But on the other hand if his goods didn't get through his obligation was cancelled. In other words the lender was gambling on the ship getting through safely and collecting a high rate of interest for the risk he was taking.

In the sixteenth century the French definition of insurance was: "assurance is a contract by which one promises indemnity for things that are transported from one country to another, especially by sea."

In the eighteenth century, Lord Hardwicke handed down a decision in an insurance case pointing out, "The insuring of ships is as old as the laws of Oleron and Rhodes, whose inhabitants were the great traders of the world." He also stated that a look into the books would disclose the

The State of Michigan was the first to introduce roadside parks and picnic tables to America. More than 3,000 picnic sites and 60 roadside parks are located along the highways of the state. "IN THE PURPLE" The Book House for Children describes "a magnificent Pavilion of the Purple" as the official birthplace for royal children during the reign of Basil, who ruled the Byzantine Empire about 850 A.D. Today, when someone says: "He was born in the purple," it means, interpreted literally: "He was born a King or queen."

SOCIAL CLIMBERS The cliff dwellers of Ancient America (about 1,000 A.D.) had to ascend ladders and go through trapdoors in flat roofs to reach their apartments in dwellings that were sometimes "as long as a modern city block and as high as a five-story building."

Elementary School News

TROMBLY SCHOOL "Sold for \$600," roared the auctioneer after lively bidding on a used tractor at the country auction and husking bee. This all took place at the Jenkins farm on Highway 30 in the midst of the Iowa corn belt when the farmers decided they needed a community hospital.

The above setting was part of an original play given Friday, February 23, by Mrs. Mae Fuller's fourth grade. It brought to life the fun of rural living as well as the work and value of our great farming areas throughout the world. Listening to shop talk during an evening at the Jenkins' home the audience learned how farmers care for animals and rotate crops for soil conservation and many things about farm life. They realized how much modern machinery has added to farm production in America as compared with the prevailing success without it in many other farming regions.

Among the characters were: John Slattery who made a capital auctioneer, Bob Tutag and Sandra Riemer as Farmer Jenkins and wife, the gracious host and hostess for the big charity auction. Other fourth graders as guests at the husking bee or buyers at the auction sang songs and ended the event with a square dance that all enjoyed. Behind the curtain still other fourth graders assisted Loyd Eldridge with stage settings, lights, and curtain.

Planning and executing an original play about a unit of study is one way in which elementary school children demonstrate their understanding of book learning and share it with others.

MAIRE SCHOOL The Maire Staff was very sorry to hear about the sudden death of Mrs. Leone Bennett's father. Mrs. Bennett has the 4A-5B class at Maire this year and formerly taught at Richard school.

Even the little boys had their hair combed on February 23. A photographer was here at Maire School and took individual pictures of all the children. The school will use these pictures for the educational records, and parents may buy copies if they wish to do so.

DEFER SCHOOL Miss Dorothy Crandall's 6A class at Defer School decided to take a trip to the Goodwill Industries while studying the unit "Friendliness" in social studies.

On the way the pupils passed the headquarters of several other friendly organizations, the Y. M. C. A., Y. W. C. A., Salvation Army and the American Red Cross. The class was greeted at the Goodwill Industries by Mrs. Kopha, who explained the work of the organization and arranged for the tour through the building. Dorothy Crandall is the class teacher.

The children saw people repairing clothes, jewelry, clocks, furniture, shoes and toys. The repairing of these articles is done almost entirely by handicapped people. When the articles have been renewed they are placed in one of their three stores for sale.

'Whodunits' (Continued from Page 1)

that astounded him when he came to the Pointe was the easy way in which the local residents pay their book fines. He recalled seeing one man pay \$7.50 in fines without batting an eyelash. "In other libraries in which I have worked, they threatened to go to the board before handing over a 10 cent fine," he declared.

Heavy Circulation The local libraries circulated over 200,000 books last year. Mr. Orr revealed. This is considered a good average for the population of 40,000 which the main library and its branches serves. The residents paid over \$5,000 in fines, which goes a long way towards helping with the maintenance.

A fine tribute was paid the Friends of the Library, and Mr. Orr assured the Rotarians they would not rest until the Pointe has a new main library. He even mentioned that the site has already been selected, probably at Fisher road and Kercheval.
