Flood Threat Causes City To Pass Law

Emergency Ordinance Identical to That Adopted by Park, Approved

Prompted by the threat of the high waters of Lake St. Clair, a special ordinance providing for prompt action in an emergency, was passed by the Grosse Pointe City Council Monday night. The ordinance is an exact duplicate of the one passed last week by the City of Grosse Pointe Park, excepting that the powers granted therein are conferred upon the mayor instead of the city manager.

The ordinance empowers Manager Everett Lane of the Park and Mayor Ralph Nettling of the City to take direct action without referring to their respective councils, providing a flood emergency rises. If residents in danger areas cannot be contacted or provide protection for themselves and their property, these two officials would have the power to take any and all protective steps that are required, in their opinions.

Won't Be Liable

The ordinance also specifies that the cities shall not be held liable for any damage done while taking such protective measures.

City Clerk Norbert Neff and Councilman Chester Carpenter reported Monday night on a flood control meeting they had attended with representatives of the other Pointe municipalities. This meeting was held on Wednesday, April 16, in the Grosse Pointe War Memorial Center.

Four Firemen, Seven Police Officers Awarded Citations At Farms Council Meeting

Rescue of Four Sailors From Lake and Capture of "The Cat" and Two Other Burglars Win Recognition; Chiefs Make Awards

At the monthly meeting of the city council of Grosse Pointe Farms, Monday night, April 21, Chief of Police Walter R. Hoyt, and Chief of the Fire Department William H. Newport awarded citations for outstanding service to members of their departments.

Firemen Philip Norman, Ralph Snay, Harold Campbell, and Frank Goosen were "highly commended" for their quick thinking and fast action which definitely prevented loss of life, due to extremely cold water and high waves.

Saved Four Sailors

Norman, Snay, Campbell and Goosen were responsible for saving the lives of four persons March 11, 1951, when a small boat capsized some 500 feet offshore. Two of the four persons had attempted the rescue of two occupants of the capsized craft in a small flat bottomed boat. High winds had swept it and the four men to the break-wall along Lake Shore where the backwash of heavy seas swamped the boat.

Much of Loot Recovered

Sgt. Paisley and Patrolman Kilets were awarded citations for police work that led to the arrest of Charles Caver and Eli Leggett, and the subsequent solution of thefts in Grosse Pointe involving nearly \$2,600 in stolen goods and cash, \$2,380 of which was recovered. The arrests also led to the clearance of thefts of six automobiles in Detroit and Washtenaw County.

Nab Four Boys In Stolen Car

The sheriff of Bad Axe, in Huron County, Michigan, notified Grosse Pointe Farms police April 17, that his department had arrested four boys in a stolen car. A check proved the car belonged to Dean E. Kohler, of 458 La Belle, in the Farms.

After further questioning by the sheriff, the four boys, two juveniles from Grosse Pointe Farms, Charles Dupuis, aged 17, of 81 Cambridge, Grosse Pointe Farms, and Ronald Miller, aged 17, of 895 Dickerson, Detroit, admitted stealing seven other cars.

Man Charged With Robbing Store Found Unconscious

Grosse Pointe Park police received a report of a man lying on the sidewalk on Maryland, north of Kercheval, on the night of April 19. The police found Walter Dedow, aged 60, of 466 Ashland, unconscious, and his face in a pool of blood.

Investigation disclosed that Dedow had stolen nine five dollar bills from one of the cash registers in Bell Drugs, at Kercheval and Alter road. A girl at the soda fountain had seen Dedow reach into the cash register, and told the manager of the store, Bruno Wronski, who had been in the basement at the time.

Wronski chased after Dedow and, as he later told police, found him, sprawled on the sidewalk, bleeding. Wronski returned to the store to telephone the police, and when he came out again Dedow had disappeared.

Dedow was found on Maryland a short time later. Park police officers said he was bleeding from his ears, nose and mouth. He was rushed to Bon Secours Hospital. He had not regained consciousness by Wednesday afternoon.

Dedow may be transferred to Receiving Hospital in Detroit, depending on his condition. The case has been turned over to Detroit police for investigation and prosecution.

Rotary Club Celebrates Youth Week

Students Honored at Meeting Addressed by Supt. of Schools Bushong

National Boy and Girl Week was observed by the Grosse Pointe Rotary Club at its weekly luncheon meeting in the War Memorial Center Monday when it played host to 12 high school students and heard James Bushong, superintendent of the Pointe Public School System, pay a glowing tribute to youth.

Mr. Bushong praised the progress made in all fields of education and said he has little patience with the adults who complain about present day teaching methods and yearn for a return to the little red school house.

Compares Progress

"They wouldn't want to return to the little red school; the horse and buggy method of transportation, but in a nice new Cadillac convertible," he said. "There has been just as much progress made in education as in transportation," he stated.

The superintendent exonerated the schools and colleges for any laxity in morals or ideals which might be charged. "We adults can take the entire blame for this," he declared. He expressed his great faith in the morals and ideals of the students of today and said the isolated cases could be traced directly to the homes and parents of the delinquents.

Cited As Great Crime

Mr. Bushong stated that failure to provide adequate facilities for educating the young is one of the greatest crimes which could be committed. To furnish badly-trained teachers to pupils in crowded classrooms is like cutting off their limbs and making (Continued on Page 2)

Retirement Badge Given Trombley

Lieutenant Philip Trombley was awarded his Retirement Badge at the regular monthly meeting of the Grosse Pointe Farms City Council, last Monday. Trombley retired from the Farms Fire Department April 1, marking the completion of 26 years' service.

Councilman Richard Maxon, Mayor Pro Tem, awarded the badge and a resolution, representative of all Farms residents, in appreciation of Lieutenant Trombley's services.

Said Trombley, "It has been an enjoyable 26 years."

City's Town Hall Meeting Scheduled To Be Held May 13

Hope for Big Turnout of Residents At Neighborhood Club To Discuss Development of Recreational Facilities

The Town Hall meeting planned for an open discussion of the City of Grosse Pointe's recreational facilities, will be held in the Neighborhood Club on the night of May 13, it was announced at the city council meeting Monday night.

Committee Report Heard

Edward J. Pongracz, appointed by council to be chairman of the committee arranging the meeting, was present at Monday's council meeting, as were most of the committee members. He reported on progress made to date.

Two Major Projects

Construction of a completely new pier is a major project, as is a proposed swimming pool which has been under discussion for some years. The council wants to know just what the residents think and whether or not they will be willing to share the costs of such a major improvement program.

Mr. William Adams of University place, a member of the Town Hall meeting committee, told the councilmen she is in favor of a full study of a complete recreation development program at this time. She cited that the lakefront park only serves the people for a few months each year and that year-round facilities in other sections of the city should be considered at this time.

Up to Committee

After some discussion, the council agreed that it should be left up to the meeting committee to decide just how broad the discussion should be. (The council passed a resolution thanking Mr. (Continued on Page 2)

Park Adds Two Traffic Lights

The City of Grosse Pointe Park has installed two new traffic lights, one at Charlevoix and Nottingham, and one at Charlevoix and Vernor.

Aside from controlling the flow of traffic, the lights will be important to the children crossing Charlevoix at Defer and Pierce Schools.

Chief of Park Police Arthur Lowers, stated that with the light at Charlevoix and Nottingham, assignment of a police officer at that crossing will be discontinued. However, the school safety patrol will still direct the crossing.

Not Heavy Enough

It was also discovered that the sheeting received in December (Continued on Page 2)

Pool of Manpower Asked By Pointe Flood Committee

At a meeting of the newly organized Grosse Pointe Flood Committee, headed by R. Noble Weatherbee, the members passed a resolution soon to be presented to the city councils of all the Pointe municipalities. The resolution proposes the designation of men from each of the Public Works' departments to collectively aid distressed areas in the different municipalities.

At the same time, representatives of each community reported to the committee the flood conditions of their areas and the steps that had been taken to combat further overflow of the lake waters.

A problem of existing damage alone concerned representatives of the Farms; and that, it was reported, is confined to the park pier. No concern over the health (Continued on Page 2)

Help of All Required To Achieve Goal

Harper Woods and St. Clair Shores Join Five Pointes in Annual Campaign

The Clean-Up Drive, sponsored annually by the Grosse Pointe Garden Club Council, which will be held this year from May 2 through May 11, is gaining momentum rapidly. Grosse Pointe, Harper Woods and St. Clair Shores residents (both young and old), are realizing that each has a special civic responsibility in this project.

Daily the list of active participants is growing to include all the schools, churches, organizations, civic groups, clubs, etc.

Officials Cooperate

The seven area chairmen for the campaign have found their particular municipal heads most helpful in outlining for them the ordinances and the support they can give in the next few weeks.

Most of the local municipalities have the same regulations regarding 1. Rat control; food for dogs or birds should not be left on ground, and gas will be used if the office is contacted. 2. All have regular pick-ups for rubbish. 3. All require a bond for contractors which is refunded when inspection is completed. 4. All are cooperating in spraying for Dutch Elm Disease. 5. All will have extra pick-ups during the drive.

Special Problems

Some communities have special rulings and problems, however. Listed below are the seven area chairmen's names and telephone numbers which residents in that area might find helpful to contact for further information or details. Listed also, are specific suggestions from each area.

1. Grosse Pointe Park, Mrs. Kenneth Beardslee, VA. 3-9627. A News Letter has recently been sent to all residents by the Park, urging cooperation in Clean-up and suggesting how this can be made a year round project, also reviewing ordinances. Information was given on combating Dutch Elm Disease. There is no burning of leaves, as the Park has a leaf picker. Also 50 gallon oil drums may not be used as refuse containers. There is now a full time sanitation deputy for dog and sanitation infractions.

2. Grosse Pointe City, Mrs. William M. Adams, TU. 1-1305. Leaves may be burned in the driveway. Boy Scouts are checking vacant lots on streets in the City, and these listings will be sent to City officials.

3. Grosse Pointe Farms, Mrs. George Duffield, TU. 5-2096. As much of the rubbish in vacant lots results from residents' dumping of cuttings, etc., Clerk Harry Furton of the Farms hopes that the drive will stimulate neighborliness, and that groups will get together and clean up these sore spots. He points out that clean lots reduce rat and mosquito menace, are less hazardous for children and facilitates the summer cutting by maintenance crews. Leaves may be burned at curb. Everything placed at curb during the drive will be picked up.

4. Grosse Pointe Shores, Mrs. Paul Sutherland, TU. 5-8272. Besides the regular weekly pick-up, a call will bring extra service. Leaves can be burned in the street. Vacant lots are the responsibilities of the owners and it is hoped that if the owner does not make the effort to participate at this time, the neighbors will see that the vacant property's appearance does not mar the street.

5. Grosse Pointe Woods, Mrs. Paul Rowe, TU. 4-1297. There was a special truck collection for rubbish on April 23rd, and extra trucks will be used during the week of the drive. Leaves may be burned in driveways only. Stone keepers are asked to be especially careful of any refuse at all times, under the Rat Control ordinance. Many trees have already been sprayed by the municipality for Dutch Elm Disease prevention.

6. Harper Woods, Mrs. L. Edwin Wenger, LA. 7-2231. The Goodwill Industries is cooperating with Harper Woods this year in Clean-Up. Saturday, May 3, will be its Clean-Sweep Day, when any house-holder who wishes Goodwill collection will so indicate by placing a broom upside down outside the house. Different streets in Harper Woods have different days for ordinary (Continued on Page 2)

Clean-Up Drive May 2-11

(Continued from Page 1)

rubbish collection, but during the drive extra calls will be made as necessary.

7. St. Clair Shores Mrs. Leroy Howard, PR. 6-7527.

Many fine civic improvement plans, such as roadside beautification, are afoot, but the immediate concern is the flood menace. Consequently, much of the Clean-Up will be tied in with the flood protection. This includes filling in of low lands and the building of dikes. St. Clair Shores will also have extra pick-ups to augment the regular monthly collection on the fourth Monday.

Youngsters Helping
Young people in the community are also laying plans. Forrest Geary of the Board of Education reports cooperation from the schools in making of posters. Several bundles have already been received and are ready for distribution. The art teachers are keeping records of the children submitting these posters. Later each child will receive a certificate of merit signed by Mrs. Donald C. Stevenson, President of the Council.

When the posters are ready the Girl Scouts and Camp Fire Girls will see to their distribution. Working in troops, they will place posters in stores after having received permission from the managers.

Scouts Lead Hand
The Boy Scouts also have an

important job. Dr. McGinty, volunteer head of all Grosse Pointe Boy Scout troops, is briefing the boys in their role of delivering Clean-Up "Flyers" to all homes. These pamphlets cannot be left on lawns or in mail boxes, but must be given to the occupant.

The Hi-Y clubs are meeting to work out their plans for participation in the campaign. So watch next week's News for the results of this big meeting.

Churches to Participate
There will also be further details from the Garden Council committees regarding other plans the schools are making, the churches' part and the Garden Center Exhibit.

Meanwhile start outside or inside, in the attic or in the basement, under the bushes or with a paint brush, but start to "Clean-Up, Paint-Up, Fix-Up" today.

Flood Threat
(Continued from Page 1)

further expected damage," was the advice given by the experts, according to Mr. Carpenter.

Leslie Brown, of the engineering firm which handles the city's projects, said he sees no immediate danger of flooded sewers. Chief damage would be done to lawns and shore installations, he said.

Would Flood Basements
In the event the water reaches its predicted high level, there might be flooding back from the shoreline for distances of 200 to 400 feet, he said. This would undoubtedly mean flooded basements for some of the homes close to the shore.

Mayor Netting was empowered to use all the facilities of the city to do anything deemed necessary to curb the danger of flooding.

REAR END CRASH
Edward B. Youngs, of 819 Pensacola, Pontiac, Michigan, failed to stop for Charlevoix while driving north on Somerset on April 20. His 1951 Pontiac was struck in the right rear end by a Willys driven by David J. Slowe, of 1334 Somerset. Slowe's "Jeepster" suffered damages to the front bumper and grille.

Man Found Dead in Harvard Road

Dr. E. W. Keane reported to Grosse Pointe Park police on April 18 that a man was lying between the curb and sidewalk across the street from his home at 1007 Harvard road.

Sergeant Richard Meade and Patrolman Sinkutch found John Marshall, aged 56, of 1120 Chalmers, on his back, his face turned blue and his body limp. Neither Meade nor Sinkutch could feel any pulse.

Marshall was pronounced dead on arrival at Bon Secours Hospital. A post mortem determined the cause of death to have been a heart attack.

Robert B. Murray Taking Training at Great Lakes

Undergoing a two-week reserve training course at the Naval Training Center, Great Lakes, Ill. is Robert B. Murray, seaman recruit, USNR, son of Mr. and Mrs. Walter E. Murray of 1601 Roslyn, Grosse Pointe.

Upon completion of his reserve training, Murray will return to his job at WXYZ-TV in Detroit.

The training given reserves closely parallels that given the regular recruits. Certain subjects are stressed and others are eliminated from the training due to the shortness of the course as compared to the 11 weeks afforded the regular Navy recruit.

Now, according to Harry Furtton, a heavier steel has been purchased that will not bend while being driven. The rods have been delivered and the permanent installations are being rushed to completion, with the government's blessing.

Oldest Delegate Meets Candidate

DAVID GREEN, 89, of Pontiac, tells FRED M. ALGER, Grosse Pointe's Secretary of State and candidate for Governor on the Republican ticket, that he voted for his grandfather who was elected governor of Michigan in 1864. Green was a member of the State Legislature in 1899 and again in 1921. Mr. Green and his wife represent 100 years of voting the straight Republican ticket.

Durant to Give Talk at Center

"United States Foreign Policy" is the subject Richard Durant has selected for an informal address at the Grosse Pointe War Memorial on May 2. The Grosse Pointe Young Adult Council is sponsoring the program, which is open to everyone from 18 through the thirties.

Mr. Durant was the Republican Congressional candidate from the Fourteenth District in 1950, and is active in the Young Republican group, as well as other political organizations. He recently won acclaim for his debate with Professor Slosson of the University of Michigan on foreign policy, and will present some of the same ideas in what promises to be a stimulating and educational evening.

The program will be followed by a social hour full of varied activities including cards, mixers, dancing and other games. Refreshments will be served. Albert Labelle is chairman of this informal get-together, and the Young Adult Council sincerely hopes it will afford an opportunity for more of the younger Grosse Pointe residents to become better acquainted.

The discussion will be held in the Veterans Room and will begin at 8:30 p.m. There will be a fifty-cent admission charge per person to cover the cost of refreshments. More complete information may be obtained by calling the Center (TU. 1-6030).

He warned that the Pointe would soon need more classrooms and more teachers to provide for the ever-increasing flood of new students coming into the community, and he expressed the fervent hope that the residents would realize the importance of the investment required to keep the education system abreast of its opportunities.

Students honored as guests at the special program included: Dick Weber and Mary Ann Marszalick of St. Ambrose, Bob Barrett and Janet Wrubel of St. Paul, Fred Duffield and Velton McKinley of Detroit University School, Connie Zick and Marian Ferry of Country Day School, and Carol Loveless, Lanna Smith, Bob Schaller and John Lister of Grosse Pointe High.

Mr. Bushong was introduced by Robert Orr, chief librarian of the Pointe.

Committee Members
Members of the committee arranging the gathering include: Mr. Pongracz and Mrs. Adams, Alfred Grow, Jr., of Lakeland avenue, Lloyd Marentette of Notre-Dame avenue, James McMillan of Rathbone place, George Moffat of Neff road, and Mrs. place.

Postcards announcing the meeting will be sent to every home in the City. Merchants will advertise the gathering by placing placards in their store windows. Boy and Girl Scouts will help distribute handbills.

Flood Disaster Boosts Need For Donations to Red Cross

The Detroit Red Cross chapter will cooperate in helping the National Red Cross raise an extra \$10,000,000 for flood relief, Chapter Chairman Alvan Macauley, Jr., announced today.

Macauley wired this assurance to E. Roland Harriman, national president, in response to an urgent appeal for support.

"Detroit is afflicted by the plight of the 130,000 homeless refugees already being cared for in Red Cross shelters and the anxiety of those still waiting for the crest to pass," said Macauley. "This is a national calamity that appeals to the sympathy of every one of us. No one is going to miss a few extra dollars given for the support of such a cause. Those who have already given for the 1952 fund will want to give some more. It is surely an opportunity for those who have not yet given to extend the hand of a good neighbor to fellow countrymen in dire distress."

Harriman's telegram said in part: "Ten million dollars and possibly more needed if we are to carry on as the country's official disaster agency. Such a sum unavailable in the national treasury, from which in the present fiscal year more than \$22,000,000 have been spent or committed for disasters not including present floods."

Macauley said the Detroit chapter has not set a new quota. Money is still coming in from the

March campaign and many contributors have already sent additional checks for disaster sufferers, Macauley said.

He pointed out that thousands of the victims have relatives and friends in this area who will want to help.

Latest figures released by Red Cross show 31,730 families affected by floods in a ten state area, or approximately 130,000 persons. Families were distributed by states as follows: Iowa, 17,318; Nebraska, 3,885; Minnesota, 2,642; So. Dakota, 2,120; Missouri, 1,850; N. Dakota, 1,456; Wisconsin, 950; Montana, 885; Kansas, 500; Illinois, 125. A total of 84 counties in the 10 state area are wholly or partly inundated, the Red Cross said. It also reported that preliminary surveys show 200 homes destroyed and 4,107 damaged by the flood.

A staff of 175 experienced disaster workers is assisting 6,000 local volunteers in emergency relief efforts. The Red Cross is operating 72 shelters and feeding 11,500 persons daily, including dike workers. It was estimated that a minimum of 12,000 families would require rehabilitation when the flood waters have receded.

To Repair Piece Of Roosevelt Pl.

Estimates are being obtained on the cost of repairing that section of Roosevelt place which extends for 380 feet north of Maumee avenue and connects with Charles place in the City of Grosse Pointe.

The council heard an estimate of \$784 at its meeting on Monday night, but this did not include a black top surfacing. It was proposed that the street, 18 feet wide, be regarded and drainage provided by installing catch basins on either side at Charles place, then surfacing with crushed stone.

Some of the council members thought a black top surface should be provided to make the repairs more permanent and the engineer, Leslie Brown, was instructed to bring in an estimate on a more complete job.

He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father.

5. What techniques and practices do lower-grade teachers follow in helping children to get along better with one another?
6. Has television noticeably affected the rest and sleep requirements of the five- and six-year-old child?
7. What kind of disciplinary controls are advisable for five- and six-year-old children?
8. What types of special and helpful services are available to Kerby pupils who may have indications of social, emotional, or academic problems?

Society News Gathered From All of the Pointes

From Another Pointe of View

By Jane Schermerhorn

We want you to know that getting this first item was like pulling teeth.

Hank Walker, who lives over on Village Lane, naturally was polite and gracious about our wanting to tell, in this column, that a group of Pointe teen agers are staging a concert tomorrow (Friday) night in Pierce Junior High Auditorium . . .

But . . . he rather doubted a society column would draw many customers.

You know . . . the old Kiss of Death when mentioned here.

So, for our own pride and also because we believe you'll feel the event deserves your support . . . we hope we can sell a few tickets to the big Jam Session which will give its profits to the Damon Runyan Cancer Fund.

Jam Session Friday

Two amateur bands . . . "The Swingsters," featuring Ralph Cross and His Trumpet . . . and Dick Saunders' "Dixieland Seven" . . . are going to be featured . . .

In an evening devoted to pop, swing and Dixieland rhythms . . . (it was our profound ignorance of these musical classifications that made Hank fear we'd hurt rather than help the benefit concert) . . .

Tickets are only a dollar (You can get them at Jack O'Connor's Record Store, Kercheval at Notre Dame) . . . and there are 950 seats to fill in the auditorium . . . From what we've heard we believe it's going to be an utterly amazing evening.

Buy Your Ticket Today

Now the Swingers also spotlight Skeeter Cadieux on the trumpet . . . and Frank Foguth whose drums are wild, they tell us.

Dick Saunders, head man of the Dixieland Sevens, and Neal Smith will be featured in vocals.

If you want to help fight cancer . . . if you are community-spirited to the point that you encourage teen agers in causes as worthwhile as this one . . . and if you want your wig blown off by the latest in music . . .

We trust you'll buy a ticket (Danny Webb, Dale Petroskey and Glenn Thompson are selling tickets at Grosse Pointe High . . . and Tommy Saunders is ticket chairman at Pierce Junior High) . . . and be in your place Friday evening at 8:15.

Robert Kalthoffs Sail To Puerto Rican Home

Leave Following Saturday Rites in SS Peter and Paul Jesuit Church; Bride the Former Nancy DuBrul, Daughter of Mr. and Mrs. Stephen DuBrul of Sunningdale Drive

Nancy DuBrul and her bridegroom, Dr. Robert John Kalthoff, will begin their married life in Puerto Rico, where the doctor is stationed with the US Air Force serving in the Medical Corps.

So the new Mrs. Kalthoff's trousseau was chosen with a view to life in the tropics. And, like so many of today's brides, her wedding and shower gifts were left behind to await that day when the newlyweds return to civilian life and a permanent address.

The DuBrul-Kalthoff marriage was solemnized last Saturday at an 11 o'clock nuptial mass in SS. Peter and Paul Jesuit Church.

Nancy wore a gown of ivory tulle designed with great simplicity to reveal the full beauty of the heirloom Belgian lace of which her bridal cap and veil were fashioned.

The fitted bodice was finished with bateau neckline and long sleeves. The full skirt, worn over a hoop, fell into a cathedral train. Belgian lace framed the sides of the short silk illusion veil and Nancy carried white lilies and ivy in her wedding bouquet.

Mimi DuBrul was her sister's maid of honor and Dr. Kalthoff's sister, Mrs. Ernest Cole, was honor matron. The bridesmaids were Nancy's other two sisters, Katherine and Sheila Galvin and Marjorie Mattiome of Toledo.

All wore identical waltz length gowns with high Empire bodices and elbow-length puff sleeves. Narrow brimmed leghorn hats were banded in wood violet velvet ribbon ending in streamers at the back and the attendants carried bouquets of violets. Their white cotton gloves were short and saucy.

The honor attendants' frocks were toned in mauve and the maids wore periwinkle blue. Jack Gotfredson was best man and the ushers were Stephen Du-

Brul, Jr., brother of the bride; Ernest Cole, Alfred Jehle and Urban Fisher of Grand Rapids.

Mr. and Mrs. Stephen DuBrul of Sunningdale drive, parents of the bride, entertained wedding guests at a reception in the Grosse Pointe Yacht Club immediately following the church ceremony. Dr. Kalthoff is the son of Mr. and Mrs. Robert A. Kalthoff of East Detroit.

The bride traveled in a tailored gray suit with which she wore a brief yellow coat and a cloche of white daisies.

Our Biggest Business

National Boy and Girl Week, now being observed, shifts the spotlight to the country's greatest natural resource, its youth. It also focuses attention on the nation's greatest business, education. We were privileged to hear, on Monday of this week, (at a luncheon of the Grosse Pointe Rotary Club), a very capable speaker expound on both of these subjects.

James W. Bushong, superintendent of Pointe public schools, gave his listeners a graphic description of the magnitude of this business called education. He painted a vivid word picture of a gigantic parade passing down Pennsylvania avenue in Washington, the marchers composed entirely of students, teachers and administrators of the country's institutions of learning.

Presuming that the marching column was a solid 16 abreast, and that the parade moved at a rate of speed which would take 35,000 past a given point, such as the White House, every hour, it would take this parade 41 days to reach its end.

The training of young people is a job which cannot be handled by the schools and the teachers alone. The physical facilities for conducting classes and supervised recreation and instruction in the manual arts must be supplied. The Pointe may be proud of the job it has done in this respect. The rapid growth of the community will make it necessary to keep adding to these facilities. May the taxpayers accept the bills for such growth and continued improvement in the light of the soundest investment they could make.

Failure to provide our children with the best possible educational equipment might be likened to the business concern which is handed a lucrative contract, then proceeds to toss it away by buying inferior equipment and hiring inefficient labor to produce the product.

Our school superintendent puts it more brutally, but with equal truth. He says that when we fail to provide adequate facilities for development to the child who is endowed with brilliant capabilities, we are committing just as much of a crime as if we intentionally crippled that child. The "cripples" will get along all right in the world, but if we had the power to see what they might have become, given the proper equipment and guidance, so we could compare them with the retarded product of our making we would be devastated by the immensity of our failure.

Speaking of the rumored moral laxity and lowered ideals of our younger people, Mr. Bushong was quick to rise to their defense. He cited not only the accomplishments, but the popularity of such youth organizations as the Hi-Y and Y-Teen Clubs, as examples of what the young are doing and thinking. The isolated cases of delinquency and misguided dishonesty and maliciousness were handed to the parents as the fruit of their own neglect.

And it would behoove us all to remember that the gossip of one misdeed casts a far wider ripple than an accolade for a job well done. It is completely unfair for us to judge an entire student body on the basis of assinine antics performed by a handful.

We were privileged to be among the first to welcome Superintendent Bushong to the community after his appointment by the Board of Education. He made such a strong impression that we commented on it editorially.

It is a great source of satisfaction to find first impressions confirmed. The Pointe has acquired a great asset in its new superintendent. He was quick to find an abounding faith in our young people, and with equal rapidity he imbued them with a great and complete confidence in him.

Possessed with a capacity for inspired leadership (a mixture of profound intelligence, great common sense and infinite understanding tempered with a rare sense of humor), his powers to exert a fine and lasting influence on the community are inestimable.

"Better Boy and Girl Week" suggests a timely dedication on the part of the older generation to the problems and interests of the young; and greater support to those who have dedicated their lives to this all-important calling whose goal is the greatest possible development of our greatest resource.

Clothing Drive Goal 100 Tons

A goal of 100 tons has been set for the Spring Public School Clothing Drive which opened Tuesday in Detroit and Wayne County schools and will continue through May 2. The public is asked to take their contributions of used shoes and clothing to a public school during the drive. The garments are then cleaned and repaired by the Volunteers of America and given to needy children absent from school because parents cannot afford to clothe them.

A. N. Hennigar, chairman of the School Social Service Committee which sponsors the drive,

pointed out that the clothing received in the spring drive will be processed in the summer to prepare for the heavy demand during the fall and winter months. Thousands of children are kept in school every year as a result of the public support of the clothing drives, Hennigar said.

Those contributing to the drive should tie the shoes in pairs and wrap clothing in bundles. All sizes are needed, both child and adult, as the program helps even students of high school age. Families with no children in school may arrange a pick-up at their home by calling the Volunteers of America at LOrain 7-4900.

Grosse-Exaggerations

A. PRYOR

"Come, give me your hand sir, my friend and my brother: If honest, why sure that's enough. One hand, if it's true, is as good as another, No matter how brawny or rough. Though it toil for a living at hedges or ditches, Or make for its owner a name, Or fold in its hand all the dainties of riches, If honest . . . I love it the same." (Mattias Barr)

Those of you who have ever seen the "dunking" process of the Baptists in the South should like this true tale about a colored preacher down there. During a revival meeting of Methodists, the preacher urged his flock to "join the army of the Lord." He repeated it over and over, and finally everyone at the meeting rose to his feet except one little man who sat firmly in his seat. Finally, the preacher noticed him and called out, "Brother, aren't YOU going to join the army of the Lord?"

The little man, who had at last caught on to the fact that he was with a group not of his own faith, called back, "Not here, I'm not. I'm a Baptist!" Whereupon the preacher blithely replied, "Oh well then . . . you belong in the Navy!"

Spring, Spring, Spring. The Robin may be the harbinger of Spring to most folks, but not to us. In fact they fooled us this year by appearing while G.E. was hovering between sun and snowflakes. As far as we are concerned, the arrival of Spring is heralded by (of all things) the Grosse Pointe business men driving to their offices with the "top down." Also, the steady line of cars on weekends, when the elf dwellers come out to see the "country." Then there are our never failing daffodils, Emperor tulips, hyacinths and crocuses. You can't fool THEM! Spring is here, indeed.

Another and more positive sign of Spring is represented by all those little men whose labors are linked with the first bud . . . the wall washing crew, the window cleaners, the odd job man, the part-time gardener, the cooling system boys and the oil burner cleaners. TRY to get them and you'll know the season is on! Every year we decide we will telephone and date them up sometime in November and every year we forget. Consequently, we get the same answer each April . . . "Sorry, we're booked up until the end of May." Yes, indeed, Spring is here.

We think the following is a very nice little true story concerning four College boys and a vacation trip. The group had been to Bermuda and on the way back to college, they were to fly to Boston, where one of the boys had left his car . . . then drive the rest of the way. What with plane schedules, weather and one thing and another, it was very late when they got to Boston, and being a little short of cash, they decided they had better "hole" up for the night . . . if possible at some local fraternity house.

Just outside Boston they stopped at a gas station (about 2 a.m.) and inquired about the locale of some fraternity houses. No one knew from nothing, so the boys decided to drive on and find one for themselves. They drove and drove, but nothing turned up. Finally, the boys decided they'd curl up and sleep in the car . . . but the owner of the auto had a cold and refused to spend the night in the wide open spaces. On they drove . . . when finally the "leader" of the expedition pulled up in front of a "frat" house looking building and announced he'd try this place.

He left his pals in the car, while he went to the front door, which proved to be unlocked. He called out as he entered the building, but all was silent. Then he noticed a row of doors at one side of the hall, so he opened one and found behind it a very nice, plain little room, bearing a welcome looking cot on which were piled several blankets. He rushed outside to relate the good news to his companions, who were already asleep in the car . . . so our hero went back into the building, gathered a few blankets, covered his friends with same . . . and went back inside to the cot and was soon asleep.

The next thing he knew, it was daylight, and bending over the cot peering at him with a smile on his face, was a Monk! Our intrepid young man had housed himself in a Jesuit Monastery! He explained his presence to the kindly Monk, who told him to invite his friends inside. When they were gathered together, the Monk cooked breakfast for them and sent them on their way with his blessings.

This item comes under the heading of "Irresistible Opportunities." A local woman with a sizable house and commensurate fortune, received a telephone call from a woman unknown to her . . . who identified herself as a representative of an underwear firm. She announced that she had a proposition to offer that Madame could hardly turn down. The proposition was that our heroine invite a number of friends to her house to "view" the lingerie (which the little woman would bring in abundance), and the hostess would serve coffee and cakes to her guests as they oohed and ahhed over the bras, slips and nighties. The G.E. matron, a little startled but polite to the end, allowed as how she was sorry but she didn't have the time to devote to this worthy cause. Whereupon, the telephone saleswoman said, "Oh, we don't expect you to do this for NOTHING! When the party is over, even if we don't make a sale . . . you will have your choice of any piece of lingerie . . . up to between ten and fifteen dollars!" WOW!

Legion Spectacle To Be Broadcast

Dale McIntyre, Director of Public Service and Education for Radio Station WJR, will narrate the American Legion's Americanism spectacle which will tour the state during May and June in an effort to bring to as many people as possible a re-awakening of those principles which made our nation great.

An Air Force Veteran of World War II, McIntyre narrated for five years the radio program "Know Your America" which was sponsored by the Goodwill Station. The program won three consecutive honor medal awards from Freedom's Foundation in Valley Forge, Pennsylvania, and this year WJR was the only station in the nation to win its Distinguished Service Citation.

Opening night of the "Know Your America" ninety minute production will be a premiere showing May 16 as part of the Holland Tulip Festival.

12,467 AT MSC Final spring term enrollment at Michigan State College totaled 12,467, according to Registrar Robert S. Linton.

What Goes on at Your Library

by Jean Taylor

Interest rather than reading level, frequently determines a child's ability to read a book. We have seen many children read and comprehend a story, normally considered beyond them, because they had a burning interest in the subject. Such an interest may have been aroused by any one of a number of things, a story they have heard, a hobby they are pursuing, perhaps a radio program they have turned to by chance.

We should like to call your attention to two radio programs which, we believe Grosse Pointe children will enjoy. For five seasons the Junior League of Detroit has sponsored a radio program which has won two national awards as outstanding among educational programs for children. Scoop Ryan, Cub Reporter.

This program centers about the adventures of a young boy, Scoop Ryan, who believes the most exciting job in the world is that of the newspaper reporter. Scoop's grandfather owns a small paper and to give his grandson a taste of a reporter's life, he sends him on various assignments.

All Scoop's adventures have been interesting but his present experiences broadcast by WJR every Saturday morning from 10 to 10:15 have a special appeal. This particular assignment sends Scoop and his photographer friend Tex, all over our own state of Michigan and they learn much about its fascinating history.

Next Saturday, April 26, Scoop and Tex will be in Menominee to cover the great fire of October, 8, 1871; a dramatic story now forgotten because of the Chicago fire that occurred the same day.

On May 3 you'll find them at Sault Ste. Marie and you'll hear the story of the building of the locks that handle more shipping than the Suez and the Panama Canals combined.

Anyone aged eight and up, will enjoy this program about Michigan which will continue through May 31. If you will write Scoop, care of WJR, you may have at no cost a Michigan State road map with interesting pictures. These maps will provide an excellent guide for following Scoop's adventures each week and, who knows, perhaps you'll drive over some of the same roads this summer vacation.

The Junior League of Detroit originated and developed the idea for this program and financed the writing which is done by Ann Nicholson of Chicago, a professional script writer. WJR gives the time as a public service. The program is directed and produced by the Wayne University Broadcasting Guild. A radio advisory committee is composed of representatives from various educational organizations, the schools, the Scouts, the public library, and others.

We invite any boys and girls who enjoy Scoop to write us at the library and tell us which adventures you like best. Perhaps you will want to read more about this historic state in which we live.

Another radio program which boys and girls appreciate is the Carnival of Books. This program which emanates weekly from Chicago, presents an author and a panel of children who interview the author. This may be

heard over WWJ Sunday afternoons at 1:30.

Mrs. Ruth Harshaw, who has conducted this program for several years, believes "there is just one thing more exciting than bringing books and children together. That is to bring books, children and authors together." The program was originally sponsored by Carson Pirie Scott, Chicago, to promote its children's department. It was then known as "The Hobby Horse Presents."

Each program is introduced by Mrs. Harshaw herself; an excerpt from the book to be discussed is interviewed by a panel of children of appropriate ages.

Elizabeth Howard Mizner, Grosse Pointe author of "North Winds Blow Free and Peddler's Girl," was one of the popular writers on the Carnival of Books last Fall.

If you are interested in any story presented on this radio hour, ask for it at your library. You will find there, almost all the books discussed on this program.

When Styes Recur

By Fred M. Kopp, R.Ph.

While one sty may not indicate anything seriously wrong with either your eyesight or your general health, when styes recur the physician will look for trouble in both places.

Sometimes physicians find that wearing glasses or having lenses of glasses changed will prevent styes from recurring. In other instances the trouble is not so easily adjusted and involves the physician's attention to improvement of your general health.

Many persons who are careful to secure competent medical advice are less careful when they have prescriptions to be filled. Always choose a pharmacist by the same high standards.

Car Broken Into On Parking Lot

While Joseph J. Ponzio, of 14920 Novara, Detroit, was in the Woods Theater last week, someone broke into his 1949 Ford parked on Mack avenue, between Mason and La Belle.

When Ponzio came out of the theater after midnight, he found the left front window smashed, and a pair of brown leather, fur-lined gloves missing. The car had not been locked. Ponzio told Woods police that he thought the car had also been driven.

Voters' League Offers Speakers

The Speakers' Bureau of the League of Women Voters of Grosse Pointe Park announces a group of programs available to local club and church groups as a public service. These programs may be scheduled now for next year's meetings.

Speakers or panels are available on the following topics: Recreation, Children's Services, Taxation, Inflation, Reorganization of State Government and the Little Hoover Commission, and History of the League of Women Voters.

Through months, and sometimes years of intensive study of these topics, a body of information has been built up which has condensed into brief and understandable form. All of the talks, or panels, have been brought before

the League membership for finishing before they become available to other groups.

A partial list of speakers include the following: Mrs. L. E. Bauer, and Mrs. William M. Adams, Recreation; Mrs. William Gall, Children's Services; Mrs. John J. Remillet, Jr., Taxation; Mrs. John R. Pear, History of the League.

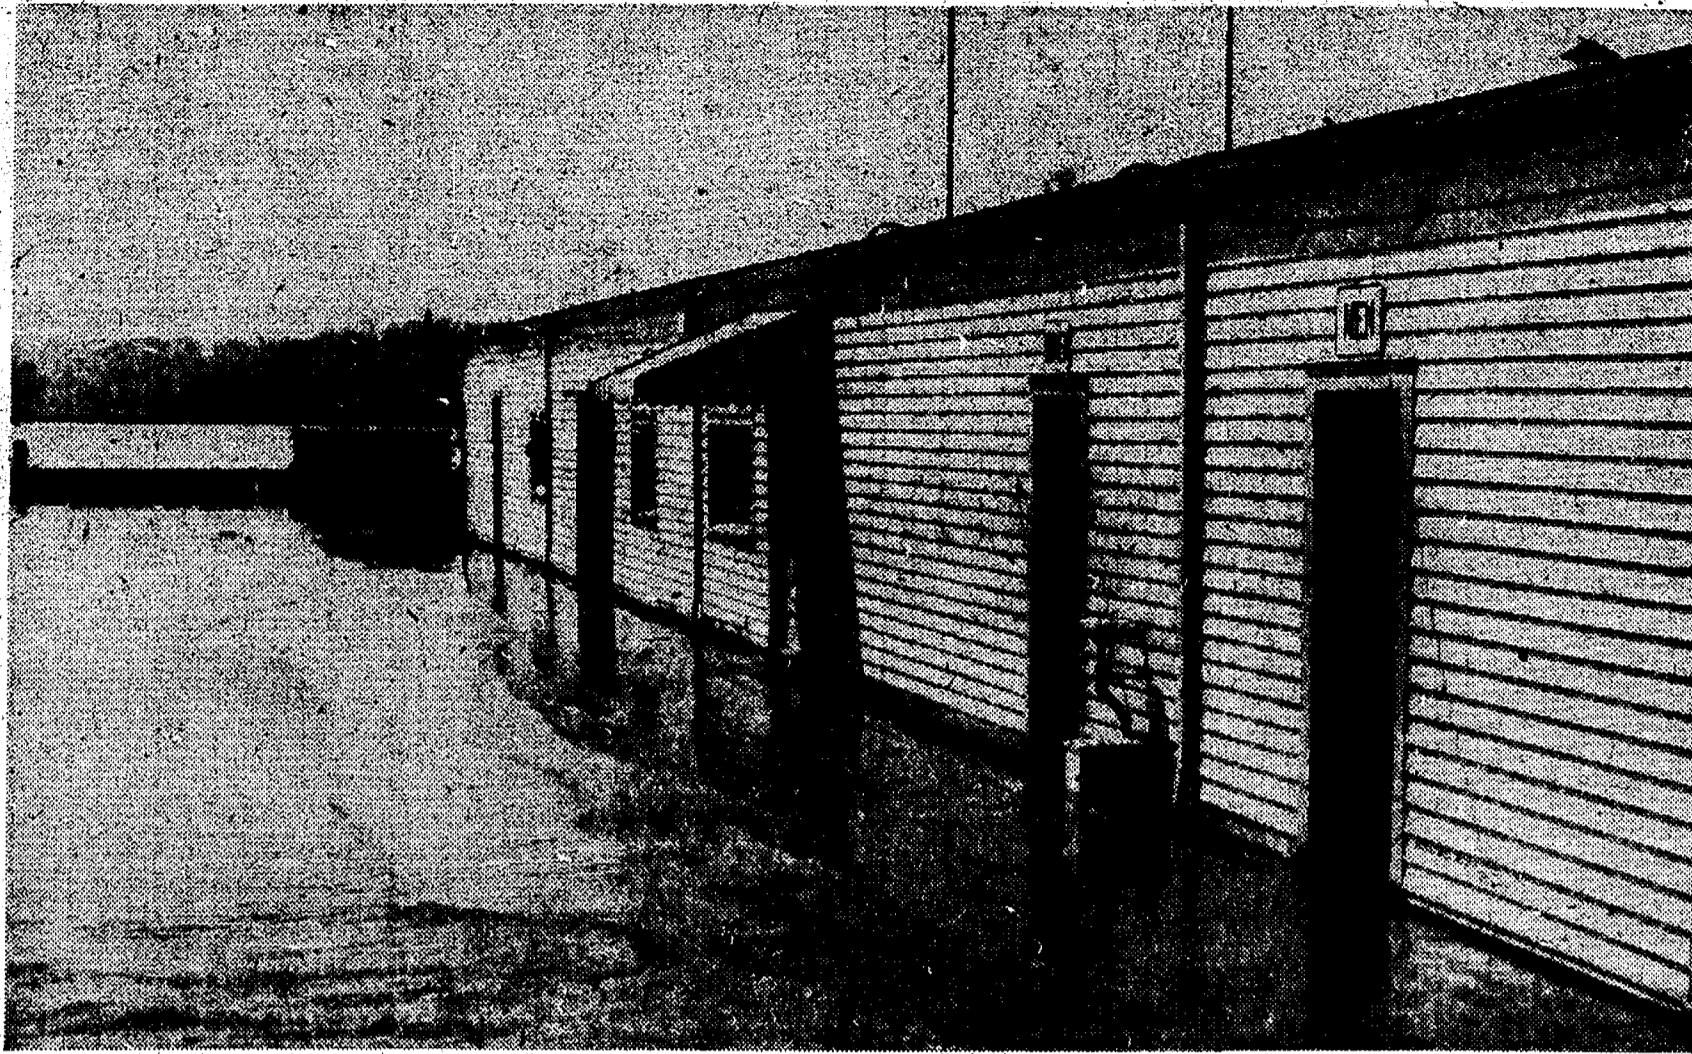

Mrs. John Hutchinson, who is available to speak on Reorganization of State Government and the Little Hoover Commission, was one of five women members of that commission from a group of 45 men and women representing all sections of the state.

Program chairman of any civic church or social group wishing to schedule one of the programs offered, can call Mrs. Whitney Collins, League Public Relations Chairman (TU. 1-1883), any day from 5 p. m. to 7 p. m.

WHEEL DISCS STOLEN

James L. Blean, of 325 Rivard boulevard, reported the larceny of two wheel discs from his 1951 Cadillac to City police on April 17. The car had been parked in his garage when the theft occurred. The discs were valued at \$20.

The waters of Lake St. Clair lap gently over the concrete dock in front of the Grosse Pointe Farms bathhouse, with even small waves gliding into the locker rooms. It isn't difficult to imagine what an on-shore storm could do here. And the lake level is expected to rise nearly another foot before it reaches its peak in July.

Chase Nets Two With Stolen Car

While cruising west on St. Paul on April 19, Park police officers French and Barclay saw a Nash Rambler station wagon, travelling north on Beaconsfield, run through the stop street at St. Paul.

The officers chased the car up Beaconsfield at 45 miles an hour through the Kercheval, Vernor, and Charlevoix stop streets before making the arrest of the driver, Russell Troup, aged 26, of 336 West Pearl, Hazel Park. With Troup was Frank Christ, 27, of 2023 Fifth street, Detroit.

After questioning by Detective Sergeant Stanley Enders, it was learned that Troup had stolen the Nash from the owner of the roominghouse where he lived.

It was also learned that Troup was on parole after a charge of armed robbery. He was turned over to Hazel Park police for prosecution. Troup is also wanted for investigation of breaking and entering by Detroit police.

Christ had not been involved in the theft of the automobile and was released.

Discussion of Television Attracts 250

Before an assembly of some 250 representatives of schools, churches, Boy and Girl Scout organizations, visual education departments and YMCA groups, Willard E. Walbridge, manager of WWJ-TV, was introduced as guest speaker of the Grosse Pointe Motion Picture Council, last Monday in the Trombly School auditorium.

The open meeting was sponsored by the Motion Picture Council because of the growing concern among parents, and civic, religious and educational leaders, over the number of hours children are spending in front of television sets. Their concern has inspired them to understand the impact of television on children in particular, and to overcome the passive and negative results of too much bad programming.

Mrs. Frank Seydler opened the conference, and Mrs. Lyle Hudson introduced Mr. Walbridge, who expressed the hope in his opening remarks, "that this meeting can result in a better understanding . . . of just what the television broadcaster is trying to do, and the problems he faces in doing it."

Mr. Walbridge then outlined the growth and development of television, from the experience of WWJ-TV. He cited, the pro-

gress that has taken place in the past five years, from WWJ-TV's beginning in March of 1947, and through the fall of 1948 when they were joined on the air by WXYZ and WJBK, to early 1949, when network links were completed to the East.

In recognition of the fact that across the country there are 18,000,000 homes watching television programs from 108 stations, Mr. Walbridge cited that "television . . . has had unparalleled impact upon the lives of our people."

It was explained that many responsibilities are entailed in the broadcaster's public trust, and that he is required by law to operate in the public interest, convenience, and necessity. Mr. Walbridge brought to mind that television, when it seeks to inform, and assumes the reportorial function, "surpasses anything yet devised."

He reminded that Mayor Cobo had credited television with ending the long transit strike in Detroit, and that reports followed the coverage of the San Francisco peace conference that American Communist party enthusiasm declined after the broadcast.

Citing the televising of the Senate Crime investigations, Mr. Walbridge stated that the television broadcaster is "carrying out well his public trust to keep the public informed."

Following a disclosure of the educational possibilities of television, in which he cited the University of Michigan program, proving that the mass medium of television and higher education were compatible, Mr. Walbridge remarked about the adverse criticism leveled at television. In con-

nection with this he reminded that the television industry is aware of its faults, and that steps have been taken to remedy them as much as possible.

At that point the industry's "emancipation proclamation," the Television Code, was suggested as the master plan that was designed to lift television to a plane of good taste, providing the public the benefits of its great potential. The purpose of the code is "cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural, economic, moral and entertainment needs of the American public to the end that more and more people will be served."

Farms Fire Loss For March, \$40

In his monthly report, submitted to the city council of Grosse Pointe Farms, William H. Newport, Chief of the Fire Department, revealed that only two fires occurred during March. They were recorded as miscellaneous fires, with damages estimated at \$40. However, a total of 17 calls were answered by Farms firemen.

Vacation days taken during the month totaled 53, and only one day of sick leave was reported.

Pointe Gardens To Be On View

Representatives of garden clubs from the entire Detroit area met Tuesday in the Detroit Boat Club at a "kick-off" luncheon for the annual garden pilgrimages that benefit the Detroit Garden Center on Belle Isle.

Plans were outlined for the 1952 garden tours which will open Saturday and Sunday, May 17 and 18 in Dearborn, Grosse Ile, Wyandotte and Trenton, starting at the Ford gardens, "Fair Lane," in Dearborn. Fifteen gardens will be shown in these areas.

Nine Grosse Pointe gardens will be open to the public the following week-end, May 24 and 25, it was announced by the Pilgrimage Chairman, Mrs. Frederic J. Schumann. Ten gardens in Palmer Woods, Huntington Woods, Birmingham, and Bloomfield will be shown on Saturday and Sunday, June 14 and 15. The three-week intem will permit the gardens to develop into full early-summer bloom, it was explained.

Each of the three tours will cost the public \$7.00 which will go into the maintenance fund for the Detroit Garden Center.

Following Tuesday's luncheon, guests viewed colored slides of garden centers in other cities, and examined model gardens which were on display.

Area chairman for Grosse Pointe is Mrs. Thomas J. Little III, with Mrs. Alan P. Beebe and Mrs. Alexander Wiener as co-chairmen. Other members of the committee from Grosse Pointe are Mrs. Sherwood Reekie, Mrs. Emil

Billboard Permit Request Refused

Permission was refused the Grosse Pointe Brokers' Association to erect a 20 by 10-foot billboard on vacant property at Kercheval and Cadieux, by the City council at its meeting Monday night.

The request had the support of the Grosse Pointe Property Owners' Association.

In refusing to grant the permit, council directed that a letter be sent the realtors' organization, citing the fact that not sufficient argument had been presented to warrant the granting of the permit. This leaves the door open for the real estate group to come back and present evidence supporting its request.

Welcome to New Teachers

Because of the growth of the Grosse Pointe community and the subsequent increased enrollment in the public schools, the Grosse Pointe School Board has made some 50 appointments to the different faculties.

These appointments have also been made because of the need to replace those teachers leaving the Public School system for reason of transfer or retirement.

By way of introduction to the parents of children who will attend or who are now attending the public schools, the NEWS is publishing weekly short biographies of those whose appointments have been confirmed. During the coming months until school reopens in the fall, the biographies of new teachers will appear in each issue.

Barbara K. Wundram, of 921 Vernier road, has received an appointment to teach in the early elementary grades at Kerby School beginning next fall. She is a graduate of Eastern High School in Detroit and is currently working toward her B. A. at the University of Michigan. Miss Wundram is 22-years-old.

During the past five years she has served as a counsellor at Camp Cavell on Lake Huron, at the Grosse Pointe Nursery day camp, and at the day camp of the Detroit Board of Education.

Miss Wundram has been active in community services during high school and college, particularly with children's homes.

The Grosse Pointe School Board announces the appointment of Frank J. Nagi, of 14818 Quincy, Detroit, to the faculty of the Montith School. Mr. Nagi, aged 35, will teach the fifth and sixth grades, beginning next September.

A graduate of Southwestern High School in Detroit, he is now taking his Bachelor of Arts degree at Michigan State. He will have completed the requirements within three years, this June, instead of four.

Mr. Nagi served four years with the United States Navy in the Pacific and during the past year has acted as counsellor at several boy's camps.

Boat Clubbers Set for Dance

Bulwarked by a newly erected dike, Detroit Boat Clubbers at the "April Showers" Square Dance this Saturday will feel reasonably secure that they will see only flowers, no floods, in the Club gardens in May.

Following a Square Dancers' dinner at 8:30 there will be instruction for beginners by Callers Reed and Lee Hagen before veteran dancers join them. The evening will wind up with refreshments at 11:30.

Chairmen are Mr. and Mrs. E. R. Harrigan, assisted by the Victor Hughes, Harry Russells and Paul Nagels.

Automobile Club Will Honor Mason School Safety Patrol

Grosse Pointe's Mason school and St. Clair Lutheran School of St. Clair Shores will be honored as two of 101 Michigan elementary schools having outstanding safety patrols in their areas this school year, according to Automobile Club of Michigan records.

In recognition, they will each be invited to send a safety patrol boy on a tour of Washington, D. C. from May 8 through May 11. Ernest P. Davis, Auto Club safety director, announced. Names of the boys to be selected by school and Club officials, will be determined soon.

In March the American AAA patrol boy was honored with a special U. S. Post Office commemorative three-cent stamp.

The 101 Michigan school patrols singled out for honors were selected on the basis of efficiency and effect, as revealed in school records. All expenses of the patrol trip by special section of a crack train to Washington, D. C. will be borne by Auto Club as a small reward from the motoring public to Michigan's 43,000 AAA safety patrols.

Students Annex Musical Honors

By Elaine Burr
GPHS Journalism Student

Several Grosse Pointe High School musicians were lucky enough to walk away with ratings of first division or superior at the recent State Solo and Ensemble Festival.

Among these were George Papich, violin soloist; Elaine Burr and Peggy Proctor, who teamed in a flute duet; and Don Corey and Joan Smithers, another flute duet.

Winners of second division, or rating of excellent, included Peggy Proctor, flute soloist, a clarinet duet composed of Coby Martin and Ed Vance; Mary Lou Hornberger, cornetist; Jane Armstrong, share drum soloist, and a sax quartet including Carlene Schroeder, Jim Broadman, Glenn Thompson, and Con Proctor.

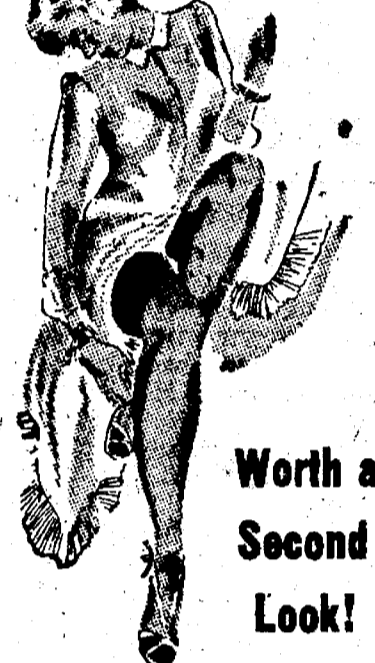

Safety, Drive In Second Week

Each Grosse Pointe City is entering its second week of its attack on traffic accidents caused by dangerous turns at intersection according to the Chiefs of Police.

They emphasized the fact that there are two special hazards in turning—the turning driver cuts across the paths of some vehicles and pedestrians—a driver behind the turning driver may try to pass on the wrong side or may not be able to stop in time. One way to lessen this hazard, they continued, is to signal other motorists and pedestrians that you are going to turn—and in what direction.

Expert drivers give three separate signals on each turn. They pump their brake pedal for slowing down so that the stoplights flash in the rear. They pull left to the centerline for a left turn and pull close to the right edge for a right turn. And they give the legal arm signal or use a directional signal device.

George Measel, chairman of the Grosse Pointe Traffic and Safety Council, called upon all motorists to cooperate in the safety program being conducted by the police and the State Safety Commission. He reminds all motorists that giving correct signals in time not only informs other people but reminds the turning driver himself to be extremely careful when turning.

28 Answer Baseball Call At St. Paul High School

St. Paul Flyer baseball coach Eddie Lauer was greeted by 28 baseball candidates who answered his first call to spring practice at Kerby Field. Among the 28 were six returning lettermen headed by Captain Pete Schummer.

Ed Lynch, catcher, John Barton and Paul Giest, outfielders, Larry McCarthy, shortstop, and Jim Bejin who with Schummer gives Lauer two experienced pitchers, are the other lettermen. Bejin also plays the outfield and Schummer takes over the key-stone sack when not on the mound.

Five outstanding prospects round out the Flyers' starting lineup as the first games with St. Ambrose and St. Catherine approach this week. Bob Keller has the inside track for the first base post and Gene Graham for the "hot corner" third base job. Ted Monahan appears slated to play the role of Ed Lynch's understudy in the catching department.

Ray Moxley will take over second base when Captain Schummer takes over the pitching chores. Paul Allemen seems assured of one of the outfield berths.

The Flyers have a twelve game schedule of which five games will be played away from home. The Flyers will use Kerby Field in the Farms for their home games which will start at 4 p. m.

Following is the schedule of Flyer opponents.

Display by Damman's Builders' Show Feature

The display of Damman Hardware, 9941 Hayes, at the 1952 Builders' Show, suggests a kitchen in a garden, with all of the decorative features surrounding the kitchen design found in garden. Flowers and vined trellis, pickets, garden gate, grills, flower boxes and a tremendous change of pace in color and design, make this display a breath-taking presentation.

The display includes the new I.X.L. prefabricated, factory built, moisture content controlled wood cabinets in natural birch and colors, as well as rounded, dripless edge Formica counter tops with cove back, and a two-level vanity-lavatory integrated bathroom cabinet.

The entire plan is based on comfort and usability and is a tribute to the Cardiac studies made by the Home Economics Department of the Home University in cooperation with the Michigan Heart Association.

Yacht Club Seeks Protection From Flood Waters

This picture, taken Tuesday afternoon, shows construction going on at the Grosse Pointe Yacht Club which is counted on to combat further flooding. A concrete block wall 28 inches high, is being built around the entire club property. Note the precariously narrow margin of safety between the water level and the height of the sea wall. Damage estimated at \$40,000 has already been done to the club property.

Warren Bowls Record Series

Winding up the regular season of bowling in the Grosse Pointe Business-Men's League last Wednesday at the Maple Lanes alleys, Bruce Warren of the Boutin's Service team rolled a 736 series with games of 236, 242 and 258. Warren not only established an all-time high for Maple Lanes, but paced his team to a sweep in their series with the Staudt Real Estate team.

And not to be outdone as far as the record books are concerned, Roy Barrett of Barrett's Flowers rolled three games with identical scores—157.

To determine the final winner for the second half of the season, the league now has a "position" night, after which the first and second half winners roll against each other, followed by a "Doubles" night and the annual banquet on May 10.

Scores in the "200" class were posted by Baumgarth with 212, Bosco 215, Boutin 243, Cramer 209, J. Cross 213, DeSantis 216, Gilstorf 204, Gross 224, Lawson 222, Melucci 201, Marton 203 and 228, Neagle 202, O'Toole 236, Pety 204, Sawinski 230, and Waybrant 206.

Fred Alger Raps Steel's Seizure

The real meaning and menace of President Truman's action in seizing control of the nation's steel companies was underscored in a dramatic speech by Secretary of State Fred M. Alger, Jr. before the Livonia Republican Club recently.

Alger pointed up the fact that this collusion between the Democratic administration and the leaders of organized labor would inevitably result in higher prices for everyone, and a further stepping up of the inflationary spiral that threatens to wreck the national economy.

"The extent to which our government is willing to go in enforcing controls and regulations over industry was never amplified more clearly than in the president's action in confiscating our steel companies," he said. "Ours is supposed to be a government of all the people—not a government by pressure groups. But this is a pressure group. And this is a bold example of where the controlling power of the Truman administration actually rests."

"In uniting with leaders of organized labor to force labor's dictates upon our country, our government has entered into a collusion which can only result in speeding up the vicious inflationary spiral that is threatening every business, every industry and every individual in the country."

"Would it appear to you that the same forces which compelled this confiscatory act are also controlling our executive office in Lansing, and that this action is merely a high level outcropping of the corrupt Pengergast brand of politics that has infiltrated throughout the entire Democratic administration?" Alger was introduced by George Shaffer, chairman of the 17th congressional district of the Republican Party of Michigan.

Donovan's Team Wins Loop Title

Lane Donovan paced his team to the season championship in the St. Paul Bowling League last Sunday morning at the Maple Lane Alleys when he fired a 258 in the third game of the championship match against Ted Corbett's team. Donovan finally wound up with a 620 three-game series.

The Corbett keggers lost the touch that vaulted them into first place in the second round on the final night of regular competition. They dropped the first two games by less than twenty pins and had an outside chance to overtake the Donovan boys in the final game but that is when Donovan turned on the heat and won the season title going away.

The new champions are Lane Donovan, captain; Frank Taylor, Bob Van Tiem, Al Ryda and B. Kolodziejki.

Ed Sexton finished the regular season with the highest individual average, 178. The highest individual triple series was posted by Bill Kerby with a 648 series. The high single game was rolled by Tom McLaughlin with a 287.

In the team department Lane Donovan's outfit rolled the high three-game total of 2712 and Fred Dansbury's outfit posted the high team single game of 1012.

Farms Police Report Issued

Chief of Grosse Pointe Farms police, Walter R. Hoyt, released a report, April 21, covering the activities of his department during the month of March of this year.

170 violations were reported in the Farms municipality over the 31-day period. The revenue collected from these violations totaled \$687.

Three injuries resulted from 21 traffic accidents, and the damages were estimated at \$2,190. One auto theft was reported. Recovery was made by Detroit police.

An original loss of \$221 was incurred through 10 cases of simple larceny. \$90 of the total was recovered. Included was a loss of \$20 as a result of three cases of breaking and entering. There were no complaints of grand larceny.

Two instances of property damage were reported with a loss of \$301. Total arrests recorded in the report numbered 32, of which 20 were arrests of adults. Of the adult arrests, three were female. These arrests were on charges ranging from reckless driving to investigation of contributing to the delinquency of a minor.

One case of attempted suicide is included in the report.

St. Paul Parents Honor Athletes

Last Sunday evening, April 20, the parents of all the boy and girl athletes at St. Paul High School put on a banquet to honor their kids.

The mothers prepared a beautiful turkey dinner with all the trimmings and the dads, aprons and all did the serving to more than 300 mothers, dads and youngsters in the gymnasium at the school.

Speeches were short and toastmaster, Reverend LaSalle Lenk, director of St. Paul sports, kept the program clicking off in clock-like fashion.

Bob Hall, old time vaudeville star, had the huge gathering rolling in the aisles with his witty rhymes and funny jokes. He was the guest speaker, through the courtesy of the Pfeiffer Brewing Co.

The highlight of the evening came when Coaches Eddie Lauer and Kay Dungan presented the athletes with their letter certificates and the seniors with individual "oscars."

This occasion was not something new for St. Paul, as in past years the mothers and dads have provided a dinner for the athletes at some place other than at the school. Everyone agreed that having it at the school was best. And most of the people present stuck around after the party was over and enjoyed an evening of dancing.

Big Year Planned By Tennis Club

The club officers are: vice-president, Joe Kristufek; secretary, Hazel Browne; treasurer, Jim Kennedy; and chairman of the Tournaments Committee, Mrs. A. B. Ebbers.

Team to Enter Big Pin Tourney

Chief Tom Trombly will head the Grosse Pointe Metropolitan bowling team of Ed Leahy, Leonard Johnston, Pete Martin and Everett Plumb when it takes part in the National Metro Bowling Tournament next Saturday, April 26, at Royal Oak.

Bob Van Tiem, one of the champions from Lane Donovan's team in the St. Paul Bowling League, is the alternate on the Pointe team.

This tourney is an annual event for city employees from all over the nation.

Parochial League Divisions Form Athletic Conference

The Central and Eastern divisions of the Parochial Athletic League have combined into a new 12-school league, according to Reverend LaSalle Lenk, athletic director at St. Paul.

The new league will be known as the Big 12 Conference and will begin competition with the start of the football season next Fall.

Members of the new loop are St. Paul, St. Catherine, St. Ambrose, Nativity, Annunciation, St. Bernard, St. Charles, St. Florian, St. Martin, St. Rose, St. Phillip, and St. Thomas.

Each school will not meet every other one each year but a system has been set up by the athletic directors which will give each school four opponents which it will play year in and year out.

To round out the schedule, four new schools will be replaced by four different schools.

The setting up of the new league is the first such in the Parochial League in more than a decade.

St. Paul's Father Lenk is the president of the new league and will be assisted by Fr. John Deother of St. Catherine who is the secretary and publicity director, and Fr. Leo DePlautny, St. Charles, Treasurer.

Telephone Answering Service Opens Grosse Pointe Office

The installation of a limited amount of equipment by telephone company engineers at 17039 Mack avenue (at Cadieux), marks another step forward in the development of Telephone Answering Service, Inc.

Basically, T. A. S. enables doctors, lawyers, professional men and business men to get "direct wire" service, which will assure them that their home or office phone will always be answered efficiently 24 hours a day.

T. A. S. works this way: When the subscriber's phone is left un-

attended day or night the phone rings in the T. A. S. office and the T. A. S. operator will answer all calls, take messages, answer questions, take orders, etc., according to instructions, in exactly the same manner as the subscriber's own private secretary. This service is also excellent for service companies who make after hours calls as it enables them to eliminate full-time telephone operators in their plant.

Telephone Answering Service has operated a downtown Detroit office since 1928. Recently branches were opened in Northwest Detroit and Highland Park. The new Tuexedo Exchange Office is the fourth addition to the service.

For information concerning this new T. A. S. branch phone WO. 3-2234 at the Detroit office.

Grosse Pointe Farms SUMMARY OF PROCEEDINGS OF SPECIAL MEETING APRIL 16, 1952

Called to order at 8:00 P.M. Present on roll call: Mayor William F. Connolly, Jr., Councilmen Daniel W. Goodenough, Richard L. Maxon, Neil S. McEachin and George L. Schlaepfer.

Absent: Councilmen John M. S. Hutchinson and William G. Kirby. Mayor William F. Connolly, Jr., presided.

The business of the meeting was confined to that included in the notice given.

The Council received an attorneys opinion on the question of continuing the Sewer Pumping agreement with Wayne County in which it was recommended that, due to proposed major expenditures in the near future, the agreement be cancelled at the expiration of the ten year period April 19, 1953 and renegotiated. The recommendation was adopted.

The Council considered a new report of the City Engineer for steel sheeting the north and east side of the Municipal Pier structure and approved-

1. The purchase of approximately \$16,794.00 of steel from the L. B. Foster Company.

2. Increasing the contract awarded to Leigh Merrill for installing the steel sheeting from \$15.00 a foot to \$17.00 a foot, plus the payment of \$500.00 for special construction charges already completed.

3. The sale of 20,400 square feet of Armo steel sheeting at not less than the City's cost price.

4. Increasing the expenditure allowed for miscellaneous repairs from \$3,000.00 to \$4,000.00.

The meeting adjourned at 9:30 P.M. WILLIAM F. CONNOLLY, JR. HARRY A. FURTON MAYOR CLERK

THE CITY OF GROSSE POINTE AN ORDINANCE TO PROVIDE PROTECTION AGAINST UNUSUALLY HIGH LAKE LEVELS

THE CITY OF GROSSE POINTE ORDAINS: 1. It is hereby found and declared that Lake St. Clair has risen to an unusually high level, that such high water level, in conjunction with storm, has already caused flooding of land, overloading of storm sewers and consequent flooding of basements.

In the light of the foregoing and informed opinion that water levels will continue to rise, there is imminent danger that the waters of Lake St. Clair, particularly in periods of storm, many periodically be driven over and on to substantial areas in the City of Grosse Pointe, flooding the sewer system, and in addition causing property damage, and endangering safety, health and general welfare of the public; and that immediate action is necessary to protect the public interest against the dangers aforesaid.

2. The Mayor is hereby empowered to examine the public and private property in the City of Grosse Pointe along the shore of Lake St. Clair and to determine the areas wherein, in his judgment, there is danger of overflowing from the waters of Lake St. Clair. On those floodable areas which are publicly owned, the Mayor shall forthwith erect barriers, dikes or other embankments adequate in his opinion to protect against overflow. In the case of floodable areas privately owned, the Mayor shall notify the owner or occupant thereof, if he can be found, to forthwith erect such a barrier, dike or other embankment. If any such owner or occupant cannot be found immediately or when so found fails promptly to provide protection adequate in the opinion of the Mayor, the Mayor is directed to provide an adequate barrier, dike or other embankment, the same to be carried out forthwith if the Mayor, on account of rising levels, storm predictions or the like, considers that danger is imminent. In erecting the structures herein required, the Mayor is hereby authorized to enter upon private property, to move soil, build embankments and in general take any and all measures that may be required in the premises; and such incidental private damage as may thereby be caused to lawns, gardens and the like is hereby declared to be necessarily suffered on account of the emergency and in the public interest, and the City and those acting under its authority shall not be liable therefor.

3. This ordinance is hereby declared to be an emergency ordinance immediately necessary for the preservation of public peace, health and safety and is hereby given immediate effect.

PILFERINGS

The New York Sunday Times Magazine Section calls it "JUST AVERAGE," with the compiler Paul Steiner: Her height in lipstick is consumed every five years by the average American woman, a cosmetic firm announces.

Nearly 10,000 miles a year are covered by the average automobile in America, the industry calculates.

There is an average of three bibles in every home in America, according to a recent Oxford Press survey.

One police officer, on the average, loses his life for every nine criminals killed in the commission of crime, it was lately reported.

Seven minutes to dress are taken by the average woman in a room without a mirror; sixteen minutes in a room with a mirror, a German statistician discovered.

Eleven P.M. is the average American bedtime hour, a survey discloses.

The average building in New York, despite the many skyscrapers, is only five stories high.

Cosmetics cost American men \$32,000,000 in an average year, sales record for the industry show. (This is for THEIR OWN cosmetics, mind!)

Pointer of Interest

MRS. JOSEPH ACKERMAN OF HAWTHORNE ROAD

A year ago our Pointer of Interest, tired of writing children's songs and creating puppet figures to bring the musical characters to life, decided she'd like to paint.

To the ordinary mortal that would mean finding an art teacher, long months of work in class and the study of basic principles.

To Mrs. Joseph Ackerman it meant going to an art store buying some water colors and paper and—painting.

The other afternoon we sat in her living room amid a couple dozen of the 70 canvases she has completed in the past year. It was an enchanted hour under the spell of the artist's own delightful imagination.

For onto those canvases she has transplanted not scenes from the live-a-day world but the fanciful figures from her imagination: Angels, chubby and humorous and sometimes with a message, are the people of her dream world.

Angels on Canvases The angel series were the first efforts of Mrs. Ackerman's brush. And the first painting shows "The Angel's Wash Day." The angels are hanging wings on a line to dry; a Mama Angel labors over a scrubboard washing a pair of wings; another grown-up angel sews the laundered wings back onto a baby angel.

The artist's Work Shop finds a seamstress angel working on a console sewing machine (just like Mrs. Ackerman's own) stitching new creations. Another angel sprinkles stardust on new wings and on a rack there are frocks copied from those Mrs. Ackerman has worn over the years.

The artist's belief in life everlasting shows up in "Angels, Coming and Going." For here her cherubic characters pause for a while in a heavenly garden, some to return to earth. Those who are residents of the garden have wings and those just arriving are wingless. It's here the stork calls for babies and Cupid places wee angels in big white diaper for trips to earth.

Philosophic In "The Angels Evening Hour," a dark-gowned monk "giving all he had to worship, attracted angelic forces to himself." He plays a violin outside a chapel at eventide and an Angel Orchestra accompanies him. In the background a tardy angel is shown arriving with his violin case.

Still another in the Angel Series is "Shopping," when members of the angel world peer at wings with price tags and gaze in mirrors to see the effect of the latest in wings.

The Easter parade inspired a small canvas of flower chapeau-ed ladies and a visit to a night club prompted Mrs. Ackerman to paint, "Having A Little Bit Too Much."

Most of her landscapes are suggested by "places she'd like to be."

Reflections

by paul gach

Right now I'm trying to write copy. It's difficult, but this reminds me of a good subject: COPIES. Photographic copies can do a lot to restore a treasured old picture to its original beauty. During the process there are several times when retouching can be done. A battered, torn or faded old print can be slowly and carefully brought back to normal. A good copy job requires much time and skill. Do you have an old portrait of someone very dear to you? It can be copied in time for a Mother's Day gift. Good idea? Have it done. I make copies

SUNSHINE CAKE

Contributed by

Mrs. Gerald W. Chamberlin

- 1 1/2 c. sugar
 - 1/2 c. water
 - 7 eggs, separated
 - 1 1/2 c. cake flour, sifted three times
 - 1/4 tsp. salt
 - 1/2 tsp. cream of tartar
 - 2 tsp. tropical fruit extract
- (To make tropical fruit extract use equal parts of vanilla, lemon, orange, almond and rum extracts.)

Cook sugar and water till spins a fine thread.

Beat egg whites and salt very stiff, then add sugar and water mixture, beating constantly till it is no longer warm (this last is very important). Add flavoring. Fold in the egg yolks which have been beaten until they are thick and lemon-colored. Last, fold in flour and cream of tartar.

Bake in an ungreased tube pan in 300 degree oven for 45 to 60 minutes. When done, invert pan and cool at least for one hour.

BUTTER CREAM FILLING AND FROSTING

- 1 c. confectioner's sugar
- 1 c. white shortening (crisco or spray and part butter)
- 1 small can pet milk
- pinch of salt

tropical fruit flavoring.

Beat these ingredients with egg beater until consistency to spread. I usually double the recipe for Sunshine cake. Cut the cake in sandwich fashion, spreading butter cream frosting in between, replacing the layers and frosting all over. The sides should be covered with finely chopped pecans or walnuts and the pastry tube may be used to add decorative rose buds to the top. It really looks quite professional and of course, tastes better!

Politics

Her most recent effort, a timely painting, takes us back to the angels and reveals the artist's views on the modern world. It's title is "Politics" and lo, the angels with buckets, scrub brushes and carpenter tools are hard at work: Some of the angels are painting the clouds with sunshine and others are mending huge, crevasses in the globe.

"That's what the Republicans will have to do when they get back in Washington," Mrs. Ackerman explained.

The granddaughter of a Lutheran minister, and daughter of a musician, Mrs. Ackerman has inherited her family's artistic and aesthetic talents.

She may go back to her song writing and use the angels to illustrate a book of songs for children. But if first she knuckles down and builds a rocket ship to the Moon, taking off from Grosse Pointe, we won't be surprised.

Not a person to sit and wonder how things are done, the surprising Pointer of Interest does them. Gracefully, ably she invades that territory "where angels might fear to tread."—j.a.s.
