Lake Levels Predicted For Mid-Winter Months

The Grosse Pointe Flood Committee met at the War Memorial Center last Tuesday to hear a report of comparative elevations of the water level during the past year.

The report revealed that the average level of Lake St. Clair during September of this year was over 10 inches higher than September of 1951, and that during the first 10 days of October, 1952, the average level was over 7 inches higher than the same period in 1951.

In December of 1951, the level dropped one inch below the high of that year, in July. The following month, January, 1952, the level surpassed the 1951 high by 2 1/2 inches. During the fall and early winter months of each year, the levels generally subside. A period of continued high at that time constitutes a high water threat for the spring and summer months that follow.

A prediction for the mid-winter months of 1952-53 was submitted at the meeting, the

City's Parking Authority To Be Given Job of Solving Problem at Recreation Site

Off-street Parking Area May Be Created on Portion of Lakefront Property; Special Committee Holds Two Meetings

The problem of providing an off-street parking area at the lakefront park of the City of Grosse Pointe will be aired at the city council meeting next Monday night, it was learned this week.

Funds to purchase additional land for a parking area adjacent to the recreation site were to have been provided by the proposed bond issue of \$260,000 which was rejected by the voters on September 10.

Named Committee
Following the bond issue defeat, a special committee of two councilmen, Kenneth Bergmann and Donald Wright, was appointed to make a complete study of the recreational needs of the community and bring in recommendations. They will propose Monday night that the parking problem be handed over to the Parking Authority and taken out of the hands of the recreation committee.

It will be their recommendation that all of the land in the lakefront park north of the two stone eagles be turned over to the Parking Authority for the creation of an area where cars may be parked off the street.

No New Polio Cases Reported

No new cases of infantile paralysis were reported to the Grosse Pointe Health Department between October 2 and October 15, according to Dr. Thomas Davies, commissioner for the Grosse Pointe-Harper Woods district.

The season's total up to Wednesday stood at 26 cases, with 19 of these in Grosse Pointe and seven in Harper Woods. Seven of the victims were 15 years old or older and 19 were under 15.

Dr. Davies said there has been paralysis in 12 of the 26 cases. The remainder were not accompanied by any form of paralysis.

No deaths from the disease have been reported in the district this season.

Robbery Fugitive Returned Here

Park Detective Sergeant Stanley Enders, returned 22-year-old Mamon Carty here from Flint, Michigan, last week to answer a charge of grand larceny. Carty, who lives at 6051 St. Aubin, had been involved in the robbery of Andy's Service Station, at 15200 Charlevoix, last June. Police said that \$90 in coins and bills had been taken. Carty was arraigned before Judge C. Joseph Belanger on Wednesday, October 8, and was bound over (\$2,000 two-surety bond) until the next trial of Circuit Court.

Coach Line Asks Pointes For Permits

Three Grant Request Which Will Enable Company to Obtain Tax Rebate on Oil

Representatives of the Lake Shore Coach Lines, Inc. have appealed to the administrative bodies of the Woods, Shores and Park for a permit to operate on the municipalities' streets, approval of which enables the corporation to recover a portion of the tax imposed on the purchase of diesel oil used by its coaches.

The appeal was made in the face of an expected wage increase request that may be made when the corporation's contract with the union expires December 1.

Would Boost Costs
A ten-cent an hour increase to employees would mean an increase in expenditure by the corporation of about \$20,000 a year. At present, its gross revenue per mile is between 32 and 33c. Expenditure per mile is between 31 and 32c.

The Federal Government allows partial exemption from the diesel oil tax, which was increased by the state in 1951, provided a franchise or permit has been granted a public carrier for operation on municipal thoroughfares. The savings to the Coach Lines would amount to a few hundreds of dollars each year in each community.

Three Grant Request
Each of the councils that have been approached have granted the permit. The Farms and City councils will hear the appeal within the next few weeks.

Lost Sailor's Body Recovered

The body of William J. McDonald, Jr., aged 64, whose 16-foot sailboat was capsized by heavy winds in the afternoon, October 1, was recovered last Sunday about two miles off Jefferson Beach.

A search was begun late in the evening when McDonald failed to return his boat to its mooring at the Woods lakefront park by 7:30 p. m. The boat was found 4 miles out from the Clinton River Spillway early the following morning. McDonald, who lived at 14145 Rossini and was a former resident of the City of Grosse Pointe, had been a building contractor in the Detroit area for 38 years. He is survived by his wife, Emma; son, Franklin; daughters, Mrs. Albert Mancini; Mrs. Oscar J. Gaerminch; Mrs. A. C. Allard; and Mrs. John A. Richardson. Funeral services were held at the Verheyden Funeral Home last Tuesday. Burial was in Evergreen Cemetery.

New High School Auditorium-Gym Termed Necessity

President of Dads' Club Reviews Reasons Why Voters Should Approve Passage of Bond Issue for Campus Structure

Last Wednesday night the Grosse Pointe Board of Education officially approved the submission to the qualified voters of the community, of the question of whether or not a new auditorium-gymnasium shall be built on the High School campus. A bond issue proposal to cover the cost of such a building will be submitted at a special election to be held some time shortly after the first of the year.

This week, arguments in favor of the proposed building are again advanced by J. Lamar Newberry in the following "Re-Submission of Resolution to the Grosse Pointe Board of Education."

The Arguments
We, who have been closely connected with Grosse Pointe High School feel that there is still a dire need for greater Gymnasium-Auditorium facilities in the community and particularly at the High School.

Last winter a very comprehensive survey was made which thoroughly investigated the Gymnasium-Auditorium facilities in all Class A secondary schools in Michigan and many in the Midwest. You are all familiar with the results of this survey, which received considerable publicity. This study showed that Grosse Pointe High School has the worst facilities of any Class A High School in Michigan and among the worst in the Mid-west—in fact a very poor second to the Class B Schools.

Suggests Tour
I wish it were possible, at this moment, to take you on a tour of the Auditorium and the Gymnasium to more strongly emphasize our points.

Let's take up the Auditorium. FIRST:—In the Auditorium, it is only possible to seat about one-third of the student body at any one time. Many of the assemblies of the school through necessity, must be held in the gymnasium with the students sitting on the floor. Not a very lady-like procedure for the 16, 17, and 18 year old girls of the school, to be required to sit or loll on the floor.

SECOND:—After next January, commencement exercises cannot be held in the High School because of the number of graduates. It will be necessary to go to either Pierce or Parcels. Not a very fitting climax to graduation. The students feel a strong attachment for their High School, and further feel that it is only proper to graduate amidst familiar surroundings.

Delightful Custom
The June class has a very delightful program on the lawns in front of the school and weather permitting, I personally would like to see this custom continued even when we acquire the new Auditorium-Gymnasium. However, three years ago, at the June Commencement, it rained and considerable confusion resulted. While the High School had made

Police Sergeant Hurt in Mishap

Dr. Clarence Candler treated Woods Police Sergeant Walter O'Dell for a severe cut over his left eye last Friday. Seven stitches were taken to close the wound. O'Dell, who lives at 2061 Kenmore, suffered the injury when he walked into the edge of an open door in his home early that morning.

John K. Roney Elected Head Of War Memorial Center

At a meeting of the Grosse Pointe War Memorial Association held last Monday night, officers of the association were elected for the ensuing year. John K. Roney was elected president, succeeding Alger Sheldon, who had held the office for 10 years. Paul Moreland was succeeded by Richard Huegeli as treasurer of the organization. Mr. Moreland had held that post for 10 years. Other elected officers are: James Lee II, first vice-president; Mrs. John F. Hering, second vice-president; Mrs. Emmet Tracy, secretary; Donald Thurber, as-

Five Pointes, Harper Woods Seek Solution

Engineers Make Report On Survey to Representatives of Six Municipalities

Representatives from each of the Grosse Pointe communities and from Harper Woods met with a consulting engineer of Beyster, Inc. last Friday to hear a survey progress report culminating four months of study of a proposed joint disposal system for the municipalities.

The meeting concerned itself only with preliminary discussion of the proposal, which was made out of concern for the development of a more economical plan to dispose of all refuse and to find a method that would provide complete disposal.

Incineration Favored
The recommended disposal method suggested by the study was that of incineration. There are three different locations under advisement at the present time where an incineration plant might be constructed, about 14 miles from Grosse Pointe Park. As yet, there have been no figures released as to estimated costs of the project.

It was suggested that the expenditure might be defrayed by offering the facilities of the disposal plant to other neighboring communities at a designated figure per ton of refuse taken by the plant.

Not Part of Authority
These users, however, would not be members of the authority (The Five Pointes and Harper Woods) operating the plant. The formation of such an authority is granted under a State act which permits two or more communities to enter a joint operation for refuse disposal, and also allows a bond issue to finance the project.

Economy of such a plan would eventually be realized through the elimination of separate pickups of garbage and rubbish.

It was also stated that other methods of disposal are not nearly as complete.

Plan Well Received
Everitt B. Lane, city manager of Grosse Pointe Park, who has been one of the major figures in fostering the proposal, stated that the plan was well received by the municipal representatives. Further consideration will be given the project at another joint meeting on October 27, and Lane added, positive action may be taken at that time.

Elmer Coon, Jr., Killed in Korea

Elmer C. Coon, Jr., Airman, U. S. Navy, was killed in action in Korean waters on October 11, while on board the USS Kearsarge. He is the son of Mr. and Mrs. Elmer C. Coon, of 4826 Berkshire, Detroit.

Coon, who was 21 years old, had been a student in Grosse Pointe schools from 1942 to 1947. He had been a member of the Village of Grosse Pointe Shores and Tom Boyd baseball teams. He had been in Korean waters about one month at the time of his death.

He is survived by his mother and father, a sister and one brother. The Coons are former residents of the Village of Grosse Pointe Shores, where Mr. Coon is employed.

Damage Heavy In Garage Fire

Farms firemen fought a blazing garage fire at the home of Mr. and Mrs. L. F. Vollmer, 219 McKinley avenue, for nearly an hour early last Sunday morning. Damaged in the fire were porch screens and shades that had been stored in the garage, three bicycles, and the Vollmer's Cadillac. The bicycles were completely charred by the flames. Firemen said that the automobile had been burned red hot in the inferno. A neighbor had reported the fire to the Farms department. The Vollmers, police said, had been asleep when the blaze was discovered.

Auditorium-Gym Termed Necessity

(Continued from Page 1)
adequate plans for this eventuality—as the first drop of rain fell, the people on the fringe crowded into the halls. It was only with a great deal of needling, con- joling, etc., that they were able to get the Senior Class into the Boys' Gym to continue the pro- gram. You all recall that there

was considerable resentment and criticism directed toward the School Board as a result of this, for not having provided adequate facilities for this very important activity.

Band Penalized
THIRD—Many of the school organizations, particularly the band, must through necessity, hold their concerts at Pierce. Why? Because they are unable to use the High School stage without relegating the brass and drum sections to the wings.

FOURTH—From the commu- nity standpoint, there are no fa- cilities to my knowledge, where more than 900 of its citizens can meet for educational, musical, cultural or civic programs. Many civic affairs which could be planned and held in Grosse Pointe by our Service Clubs, have not been promoted because of lack of facilities.

Disgruntled Students
FIFTH—Each year a Commu- nity Halloween Party is held in Grosse Pointe. The High School is host to all the Senior High Schools in the Grosse Pointe area for this occasion. With about 2,000 attending, less than one-third can get into the Auditorium with the

result that before 9 p.m.—900 to 1,000 are milling around the halls. They are disgruntled, critical and unhappy because they have paid admission to get in, yet are de- prived of seeing the show in the Auditorium. While there is dancing in the Gyms, many high school students do not dance and resent not being able to see the program where professional night club acts are presented.

This year there is talk of hav- ing the 10th grade students at- tend the parties at either Pierce or Parcels, because of our lim- ited facilities. This is causing re- sentment among the 10th graders with many claiming they will not attend any party, thereby de- feating the very purpose for which these Halloween Parties were originally planned. With our proposed structure, it would not be necessary to eliminate any of the senior high school students.

Arguments For Gym
Now what about our gymna- sium? Incidentally, any reference to boys in the following also ap- plies to the girls' athletic pro- gram.

FIRST—It is only possible to offer to the Grosse Pointe High School student, gymnasium OR swimming twice a week. Because of the limited space, some classes have had as many as 73 students. Not a very complete program is it, when the majority of schools offer Gym 5 times a week with smaller classes? In the new gym- nasium we have asked for divid- ing doors so that three gym classes may be running simultane- ously.

SECOND—Our intramural pro- gram suffers materially during the winter months because of the lack of facilities. Many intramural basketball games must be held during lunch periods—not a very healthy situation for the participants, yet the students de- mand it. Because of the small gym it's a case of that or go with- out. With increased facilities an extensive program could be de- veloped. Many parents whose children have less physical apti- tude and have not been able to make the competitive squads, have hoped that our facilities could be expanded to permit more time to be devoted to them. This new space would permit that.

Varsity Also Suffers
THIRD—The varsity program also suffers as a result of our small gym. No Class A School in Michigan has as small a gym or basketball playing court as we have. Coaches of other teams with which we have enjoyed very pleasant relations in the past, have suggested that our games be played on some court other than Grosse Pointe's because it is just too small. Some referees, too, have refused to officiate at basketball games here because of the size of the gym. Players are in constant fear of being in- jured by running into the crowds, sitting on bleachers overlapping the very edge of the court, or into the wall at the end of the court.

Narrow Escape
Last year one player, (Dave Terris), received an injury to his back resulting from crashing into the crowd which almost made further athletic competition impossible for him that year. Frankly, we have been very for- tunate that no serious injuries have ever resulted, but that's not saying someone could not be seriously injured in the future. You can't afford to wait until an ac- cident happens to give this serious consideration. At regional meets and even at league games our players have been at a disad- vantage because their training on a small court doesn't equip them for play on the larger standard courts.

Inadequate Facilities
Not only is our gym too small but our Physical Education De- partment does not have adequate supply and storage room facili- ties, nor is there a room where athletic uniforms and equipment can be dried out. At present, part of Mr. Banach's office and the supply room has been converted into a drying room, and I might say, the odor is putrid. Why, even the toilet facilities in the locker rooms are disgracefully inade- quate—just one toilet with two urinals in the boys' locker room!

Boys Underprivileged
To summarize this, because we have the smallest gym in our class in the State of Michigan, our high school students are grossly underprivileged. Parents attempting to attend basketball games have given up in despair after trying to find seats or standing room for a game. The balcony is almost use- less. Those in the front row must lean over the rail to see. All those

in the second and subsequent row must stand up. Visiting teams must be discouraged from bring- ing their followers to attend our games.

Contradictory Situation
One of the requirements to graduate is that a boy take Physical Education each semester in Senior High School; a girl taking it 4 out of 6 semesters. This would indicate that this Board feels that Physical Education is a very important part of the students' schooling. Therefore if we do not have the proper fa- cilities, can this requirement be adhered to during the next few years when the enrollment in the high school is expected to exceed 2,000 students?

Another very important ques- tion is "Who will be able to use the Auditorium-Gymnasium?" I feel that this question can best be answered by referring to the policy of the board which has existed in the past. It will be open to any and all organizations in our community that required a spacious structure for activities held after regular scheduled school hours.

Have Been Unselfish
In conclusion I should like to say that twice in the past the supporters of the Auditorium- Gymnasium have unselfishly withdrawn their program in fa- vor of the programs which the board felt had higher priority of need. Three years ago when we withdrew our support we were assured by the board that on the occasion of the next issue the Auditorium-Gymnasium pro- gram would be placed on the ballot and that the public would be allowed to make the final decision.

When all the taxpayers are ac- quainted with the needs, the great benefits to be derived by the youth of Grosse Pointe, and the extremely small cost involved, we are confident the Auditorium- Gymnasium will become a real- ity.

Church Group To Meet Here

Rev. Kenneth L. Patton, Minis- ter of historic Charles Street Uni- versalist Meeting House in Bos- ton, will be the speaker at three major sessions of the Michigan Area Unitarian Conference, to be held at the Grosse Pointe Uni- tarian Church October 24 and 25. Delegations from Unitarian churches and fellowship groups in Toledo, Fort Wayne, Kalamazoo, East Lansing, Flint, Ann Arbor, Birmingham and Detroit will join with their Grosse Pointe hosts for this annual gathering.

"Pioneering in Religion for Our Time" will be the confer- ence theme, highlighting—the pioneer work Mr. Patton has been doing in the Boston church. There, aided by artists, crafts- men, poets and musicians, Mr. Patton has devoted his own con- siderable talents in these fields to the development of visual sym- bols and worship forms expres- sive, in the minister's own words, of a faith "so wide in its human- ity, so inclusive in its symbolism and its resources in art, litera- ture and music, that it encom- passes the whole drama of man- kind's religious quest."

Mr. Patton will address ses- sions of the conference at 8:15 p.m. on Friday, 9:30 a.m. on Sat- urday, and 3 p.m. on Saturday. At the latter meeting he will il- lustrate his talk with colored slides and tape and disc record- ings taken from his work in Bos- ton. The public is welcome at these meetings, all of which will be held at the Grosse Pointe church on Jefferson avenue, op- posite Rivard.

Rev. William D. Hammond, minister of the host church, is program chairman for the con- ference. Respectfully submitted, J. LAMAR NEWBERRY, President—Dads' Club.

Mack Avenue Now Open in Woods

Mack avenue in the Woods is open again! Early this week the newly completed, wider traffic lanes were cleared and thrown open to the public.

Merchants who have realized a curtailment in sales through- out the long weeks of roadbuild- ing work, are offering exceptional merchandise at special prices this weekend to celebrate the return to normalcy. Mrs. Naomi Mitchell of the Town 'N Casual Shop on Mack avenue, opposite the Howard Johnson Restaurant, said yesterday that the new thorough-

fare would greatly enhance park- ing and shopping in the Woods.

Says Wonderful Things About You!

The instant your beautiful Cadillac points its golden crest into view, it begins to say wonderful things about you.

It says, almost as plainly as if the words were written out, that you are a person of achievement in your own world of affairs.

It talks of your good judgment and your splendid taste—and indicates your sense of responsibility for those who ride with you as passengers, or drive beside you in the traffic lanes.

It speaks of your family and your home and your friends and your way of life—

and, in general, paves the way for the respect of those you encounter as you sit at its wheel.

This is true because those who own Cadillacs form a virtual "Who's Who" of America's highways. In almost every community in the country, Cadillac is the favored car of the leading people.

The reason for this, of course, is found in the history of the car itself.

For fifty years, it has been the unwavering purpose to make Cadillac as fine a car as it is practical to produce. Goodness has

always been the watchword—craftsmanship has always been the creed.

As a result, Cadillac has long been known and accepted as—"The Standard of the World." And, inevitably, people who want and seek the finest have turned to Cadillac.

That's why the man who sits at the wheel of a Cadillac is an accepted and respected member of the most distinguished motoring family to be found anywhere.

If you are ready for membership in this incomparable group, better come in and see us soon. How about making it today?

They Stage Annual Fairs to Help Fight Polio

Great day for the young Grosse Pointers who held their Fourth Annual Fair for the benefit of the March of Dimes on September 13, was their visit to the Wayne County Chapter office of the March of Dimes. All smiling as they presented a check for \$714.50 to DONALD W. BARTON, administrator of the Chapter, were, from the left, SUSAN GILLIS, GAY MERCER, KATHY BENSON, LYNN JOHNSTON, MIMI KENOWER and JOAN LeGRO. Dibby Pearce, seventh member of the group who have planned, organized and run the fairs, was unable to be present. The sextet examined the Wayne County polio incidence map and were interested in every phase of the March of Dimes operation to which they have so generously contributed their time and efforts. Two of the group, Mimi Kenower and Dibby Pearce, have had polio and made complete recoveries.

A \$15 bond was forfeited by Darwin T. Martindale when he

failed to appear in court. Martindale, who lives in Memphis, Michigan, had been charged with speeding on Jefferson last May.

Legion Honors Given Pointers

Grosse Pointe contributed three Legionnaires to the "Progressive Program" staff of American Legion Department Commander Eugene W. Houck in Lansing, October 3-4-5 when the executive committee approved the list of 1952-53 office holders at the annual fall conference.

They were: First year term, Naval and Merchant Marine Affairs, James J. Meehan, 460 Moran road, Grosse Pointe Farms; and second year reappointments, Public Relations and Publication Commission, Charles Slear, 1740 Anita; and American Legion Hospital Committee, Cosimo, M. Minardo, 913 Nottingham road, Grosse Pointe Park.

All members will take office with the avowed purpose of carrying out the Legion program of preparing America for an eventual war by keeping up our armed strength and by fighting internal subversive forces.

Houck expressed great personal satisfaction in being able to appoint such capable men to responsible positions within the organization.

"It's not often a state commander has had such a wealth of experience from which to draw in order to carry out a progressive program based on community service and national security," Houck declared in making his appointments.

Children Slightly Hurt in Accident

Two young children were slightly injured last Saturday in an auto accident that occurred at the intersection of Charlevoix and Maryland.

Mrs. Eva M. Thompson, of 691 Manistique, pulled into the path of an automobile traveling west on Charlevoix after she had made the stop on Maryland. Mrs. Thompson's grand-daughter suffered a bump on her forehead.

The daughter of Lyster N. Zittel II, 1312 Somerset, driver of the other car, also suffered a slight head injury. Park police said no one involved in the accident was seriously hurt.

Breaks Window To Steal Radio

Michael Bundy, of 1883 Fleetwood, Detroit, told Grosse Pointe Woods police that someone had stolen the radio from his 1949 Plymouth while it was parked on

Mack avenue, north of Roslyn road, on Sunday afternoon, October 12.

Bundy said he had left the car at about 2:30 p.m. and when he

returned a few hours later, found one of the windows broken and the radio gone.

Cigaret Burglar Gets Probation

Following a report late one night last July that two men had been seen running from the rear of Kroger's market, at 18850 Mack Avenue, into a nearby field, Sergeant Eugene Boylan, of the Farms Police Department, conducted an investigation that led to the arrest of John J. Nadrowski, 12712 Frankfort, Detroit.

Nadrowski, an employee of the store at the time, was charged with stealing cigarettes in the store and selling them to another local establishment.

Sergeant Boylan and Lieutenant James Furton uncovered 64 cartons that Nadrowski had been selling for less than wholesale price for nearly five months before his arrest.

Nadrowski stood mute before Judge J. Burgess Book III, July 28. Book entered a plea of not guilty for him and bound him over under \$500 bail until the next session of Circuit Court.

Nadrowski was placed on probation for two years and charged \$100 in court costs when he appeared before Judge Ira W. Jayne on October 2.

The dinner has been set for 6:30 Friday evening, October 24, at which time Professor Edward Speare of Olivet College will discuss some of the college's advantages.

The Congregational Church will recognize the state-wide "Olivet Day" on Sunday, October 26.

The church USO will entertain soldiers of the Chalfonte anti-aircraft battery with games and singing at 12:30 p.m., October 28.

Community sewing will be held on the first, third and fifth Tuesdays of each month from 10 a.m. until 3 p.m., the association announced.

Lack of confidence is said to be retarding business—but there is no lack of confidence men.

Girl Scouts Aid TB Fight

Girl Scouts from Troop No. 940 under the leadership of Mrs. Jane F. Smith, 249 Kenwood Court, Saturday spent the day helping the Tuberculosis and Health Society prepare their Christmas Seal letters for mailing.

As part of their community service the following girls are playing an essential role in the 46th Annual Christmas Seal Sale whose funds go to combat tuberculosis. They are Katie Collins, Susan Burgess, Nancy Cowan, Carol Lee Stone, Edith Hope, Martha Herdegen, Patty Smith, Carol Massey, Frances Vaughn, Mary Lee Wilcoxson, Carolyn Krebs, Eve Frandel, Kathy McDonald, Margaret Quigley, Jana Sue Kaler, Barbara Luss, Lois Blackburn, Susan Cooper.

The funds from the sale of the double-barred Christmas Seals go toward combating tuberculosis in Wayne County. Last year there were 4,136 cases of TB in the county and many more which remained undiscovered.

Part of the money from the sale of the Seals goes toward discovering unknown TB cases by providing opportunities for chest X-rays. Other portions of the money are used in health education and rehabilitation of TB patients in Herman Kiefer Hospital and Maybury Sanatorium.

Society News Gathered From All of the Pointes

From Another Pointe of View

By Jane Schermerborn

It occurs to a portrayer of the passing show, that one of the penalties of being around a long time—

Is the tug we feel when we lose a member of the cast . . . While each day brings new and vivid friends, we miss those who now are part of memory.

We felt that way when news came, this past week, of the passing of that deboniar troubadour, Ray Gorrell, whose graceful music set the tempo for Detroit society over thirty-odd years . . .

And when we recall the old and lovely days . . . Ray will be there at the drums . . . switching those funny hats to add to the merriment . . . and we'll see him at the head of his orchestra, eyes twinkling, ready to play the night through for the debutantes and their beaux.

Ray Gorrell

You'd have called him a broth of a lad when he arrived from Chicago three decades ago. He joined Gene Goldkette's organization. But his own personality and his way with a drum soon brought him recognition and he became the darling of society.

His was the only Detroit orchestra we've ever known to be engaged for an out-of-the-country party.

We're thinking of the time Ray and his entire band flew down to Bermuda to play for Wendell W. Anderson at the Royal Air Force Ball back in '41. He introduced the earliest rumba band to Detroit to play for Mrs. Edsel Ford and the late Mr. Ford.

It was Gorrell music at the ball of society's Scintillating Six marking the debut at the Country Club of Mrs. Arthur H. Buhl Jr., the late Mrs. Paul H. Deming, Mrs. Samuel H. Bell, Mrs. Alexander Wiener, Mrs. Frederick Latham and Mrs. Jonathan Latimer.

Pointers will remember they danced to Gorrell music when Peggy Ainsworth (Mrs. William Wilford Townsend) was a feted debutante . . .

The Music Was His

When the Pointe's great hosts entertained, they complimented their guests with their favorite music . . . Ray Gorrell's . . .

He was the modern music master for the Newberrys, the Algiers, the Gardners, the Joys, the Andersons, the Holdens, the Books, the Boyers, the Buhls, the Demings, the Dodges, the Evans, the Kanzlers, the Macauleys, the Torreys, the Fords, the Schlotmans, the Skaes, the Backuses, the Strohs . . .

"Wonderful people" he always called them . . . and long ago, we came to know, that's precisely the way his wonderful people felt about Ray Gorrell.

JANE McCLURE-JOHN GRAHAM WED

At a small, informal wedding in Christ Church, Grosse Pointe our favorite young actress . . . Jane McClure . . . became the bride of John Graham last Friday evening . . .

Republicans Plan Luncheon

A Republican Television Fund Raising luncheon will be held on Monday, October 27, at the Crystal Room of Masonic Temple at 12:30 p.m., sponsored by women of Wayne and Oakland Counties representing the 20 Republican Women's Clubs in those areas.

There will be a speaker of national renown, to be announced later. The purpose of the luncheon is to raise an immediate and substantial sum of money to defray television costs, and all women donating to the fund will receive invitations to the luncheon.

Word has come from Arthur Summerfield, Chairman of the Republican National Committee, saying that "the overwhelming public demand for radio and candidates is putting an ever-increasing drain on our finances." As a result, the women in Wayne and Oakland Counties have accepted a quota of \$30,000, to be raised before election for broadcasting purposes. The women decided upon the luncheon as a means of meeting the quota quickly, knowing that the \$30,000 will not be immediately forthcoming as a result of the current small-girls neighborhood solicitations, and time being too short for a general campaign.

A luncheon held last May 27, which raised \$22,000 for campaign funds, secured a number of other gifts from 378 women who had never before contributed to the Republican party. Those who worked to promote that luncheon were so enthusiastic about this method of money raising that it was decided in this emergency to repeat the project. It is expected that 1,500 or more women will be involved in making the luncheon a success.

Heading the committee in charge of luncheon plans is Mrs. Charles A. Dean, Jr., member of the National Republican Finance Committee and Vice-Chairman of Wayne County Republican Finance Committee.

Other committee chairmen include Mrs. Sherman J. Fitzsimons, Jr., Mrs. William K. Muir, Mrs. Lester S. Moll, and Mrs. Yates G. Smith. Also working on solicitation of donations are: Mesdames Gari M. Stroh, Laura B. Higbie, Edward S. Evans, Jr., Benjamin H. Paddock, Eleanor J. Dwyer, Charles C. Creedon, Henry L. Newnan, Harold E. Tyree, Willard S. Worcester, William L. McGiverin, Lowery Kammer, Benjamin S. Warren, Jr., Robert E. McKean, Arnold F. Malow and Lester F. Ruwe.

Montreal Bride-Elect Feted at Pointe Party

Dorothy Cuttel, Who'll Wed Ched Swenson Nov. 1 Honored At Round-the-Clock Shower by Mrs. Remington J. Purdy; Ched, Son of C. Q. Swensons of Lincoln Road

The Pointe, which lunches and showers its own bride-elect within an inch of their pretty lives, last week-end greeted Dorothy Cuttel of Montreal who on Nov. 1 will become the bride of Ched Swenson, son of Mr. and Mrs. C. W. Swenson of Lincoln road.

Dorothy, daughter of Mr. and Mrs. A. Douglas Cuttel of Hamstead, just outside of Montreal, and her mother arrived by plane to spend the week-end with the Swensons.

Mrs. Remington J. Purdy immediately sent out invitations to a round-the-clock shower and buffet supper party in Dorothy's honor, inviting friends of the Swenson family to the affair in her home on Beaufre road.

Arriving for the week-end and in time for the party was the Swensons' daughter, Mrs. A. C. Dannecker, Jr., of Worthington, O.

The ceremony will take place in the Queen Mary Road United Church, at Hamstead, Kay Swenson Dannecker will be Dorothy's matron of honor and other bridesmaids will include Beverly Brophy, Marjorie Parsons.

Guests at the party given by Mrs. Purdy were fascinated to learn about a new kind of bridal shower, one popular in Montreal. Dorothy told them of the Martha Washington shower which had been given for her just before she left for the Pointe.

A Martha Washington shower provides brides-elect with all the tools and equipment for sewing such as sewing kits, pinning shears, sewing cabinets, etc.

Invited to meet the attractive visitor from Montreal were: Mrs. Jack Herrold, Mrs. William Boyd, Mrs. Henry Wilson, Mrs. Mark K. Edgar, Mrs. Alanzo Allen, Mrs. Samuel Armstrong, Mrs. George Hughes, Mrs. Bruce Bender, Mrs. Merton Carleton, Mrs. William Carlton, Mrs. Eugene Klaver.

Mrs. Harry N. Phillips, Mrs. Richard Phillips, Mrs. Charles Leavitt, Jean Leavitt, Mrs. Ray Wertz, Joan Wertz, Mrs. A. Guy Ropp and Mrs. A. G. Ropp, Jr., Mrs. Edwin Ross.

Help Solicited By TB Society

The Tuberculosis and Health Society is already thinking about the Christmas season and looking forward to the 46th annual sale of double-barred cross Christmas Seals.

To help with the mailing of its hundreds of thousands of letters which will go to families in Wayne County, Richard L. Lea, executive secretary, of the Society is calling on men and women to volunteer in the preparation of the mail. The work of the TB and Health Society is financed by the sale of the double-barred cross Christmas Seals.

"Tuberculosis is a disease that we can do something definite about. We know what causes it, how it spreads and what to do about curing it. We can stop it before it starts," Lea stated.

"Through continued efforts in TB control we are yearly lowering the death rate from the disease but it is still our most expensive public health problem. Through early case-finding we can ferret out the disease while it is in its early stages and thus prevent its spread."

"Through health education we can teach people the value of proper health habits and the value of having a chest x-ray once a year," the executive said.

The TB and Health Society at 153 East Elizabeth, Detroit, urges everyone with an hour or so to spare to spend that time in helping the modern crusade against disease. Call the Society at Woodward 1-1697 now, and say, "I want to volunteer."

A Devastating Challenge

On Tuesday morning of this week Arthur Godfrey closed his daily radio program with the reading of a gem of American literature, "My Creed," by Dean Alfange.

As we listened we realized that we were hearing the best possible answer to the alarmingly large number of voters who are basing their political thought on the selfish viewpoint of their own personal well-being. This great segment which announces "We never had it so good," quite obviously gives little or no thought to the financial future of the nation. What is even more important, it is apparently oblivious to the spiritual stagnation which the "Everything for Free" program engenders in the citizenry.

This brilliant lawyer of Greek ancestry has written a devastating challenge to all the proponents of padded payrolls, bought votes and mass groveling at the public trough. It should be invaluable ammunition for the Republicans who are seeking a chance to put an end to these evils committed in the name of service and security. It should be "must" reading for all who have become confused in their thinking.

Thanks to the fine cooperation of Robert Orr, director of the Grosse Pointe Public Library, we were able to obtain a copy of The Creed. The source is given as "This Week," issue of December 30, 1951. We print it in the hope that it will receive solemn study.

MY CREED

I do not choose to be a common man It is my right to be uncommon—if I can. I seek opportunity—not security. I do not wish to be a kept citizen Humbled and dulled by having the state look after me. I want to take the calculated risk; To dream and to build, to fail and to succeed. I refuse incentive for a dole. I prefer the challenge of life to the guaranteed existence; The thrill of fulfillment to the stale calm of utopia. I WILL NOT TRADE FREEDOM FOR BENEFICENCE NOR MY DIGNITY FOR A HANDOUT. I will never cover before any master nor bend to any threat. It is my heritage to stand erect, proud and unafraid; To think and act for myself, Enjoy the benefits of my creation And to face the world and boldly say "This I have done." All this is what it means to me to be an American.

The Responsibility of All

Once again a United Foundation Torch Drive has been launched and, as in each of the three previous campaigns, Pointers are playing a very large part in this all-out effort to raise funds to support 150 health and community service organizations in the Detroit Metropolitan area.

More than 1,000,000 contributors and 50,000 volunteer workers are joined in this "Give Once for All" project which has as its goal \$11,900,000. Included in the agency members of the campaign are the 128 local agencies in the United Community Services which was formerly the Community Chest; 18 state and national agencies in the United States and Welfare Fund of Michigan; and the American Red Cross, the USO, American Cancer Society and the Metropolitan Polio Foundation.

Local agencies include those organizations which are providing such vital service as the Children's Hospital of Michigan, the Boy and Girl Scouts, League for the Handicapped, Salvation Army, Children's Aid Society, YW and YMCA, Catholic, Protestant and Jewish organizations, numerous other hospitals, orphanages, homes for the aged, organizations fighting juvenile delinquency, family disturbances and other community problems.

Many of the largest individual contributions to the fund are made annually by Pointe residents. Executive leadership for the campaigns is also largely drawn from this community. A very high percentage of the advisory and governing boards of the participating agencies are comprised of Pointers.

The area can be proud that it contributes so much to this worthy project, not only in funds during the drive, but in year-round service. But we cannot let the largess and labor of this small portion of our residents represent our total share of the responsibility. It is a job that requires the whole hearted cooperation of each and every one of us. The time is now here to make our own individual donations. Let us not be found wanting.

An Example of Service

An outstanding example of community service is contained in a report circulated among the membership of the Grosse Pointe Rotary Club, showing the activities in which the club has participated during the last year. The report is not publicly distributed and is intended in no way to call attention of non-members to the work which the service organization does.

It is rather used as a stimulus to the membership to concentrate its efforts on the annual party which is held each November to raise funds for the varied charitable program which the club carries on.

During the 15 years which the club has been in existence it has expended well over \$50,000 on these charitable activities. Practically every cent of this has gone to aid worthy individuals and organizations within the Pointe community.

The report just issued shows that during the last year the local club spent over \$5,000 for the following projects:— Supplied monthly motion pictures for patients at Marine Hospital.

Provided special summer tutoring for crippled-deaf girl. Sent underprivileged boy to U. of M. Fresh Air Camp. Provided loan for needy family.

Supplied athletic equipment for servicemen stationed in Grosse Pointe. Furnished Safety Stickers for all Police Departments in Grosse Pointe.

Contribution and supervision for Community Halloween Party. Awarded three scholarships to High School graduates.

Grosse-Exaggerations

"True luck consists not in holding the best cards at the table; Luckiest he who knows just when to rise and go home!"

Try not to beat back the current, yet be not drowned in its waters; Speak with the speech of the world think with the thoughts of the few." (John Hay)

The tired business men whose wives drag them out night after night will enjoy the following true story. Our hero who is a middle-aged, hard working gent who does more than his share of party-going due to his gay spouse, laid the law down last week and told her that by GEORGE she was not to make any plans whatsoever for such and such a night because by GEORGE he was going to watch the Lions football game being televised at eleven p. m. from California! Fine, sez the little woman, then proceeds to forget about it. Sure enough, when Pop came home on the evening of the big game, he was told they were going to Soandso's for dinner. Since the Soandso's in question like football like Adlai likes Ike, our hero felt he was doomed and said so in a number of unprintable words.

When they arrived at the dinner, the little man proceeded to drown his sorrows and did such a good job of it he had to leave right after dinner and go home to sleep it off. In order to get rid of him as neatly as possible, his better half promised him she would be home by 11 and would wake him up to see the game. True to her word, she arrived just before game time, and shaking her husband announced in loud tones that he was to GET UP... the game was about to start. He mumbled something unintelligible and started to rouse himself... so madame retired to her own room and went to bed.

The next thing she was conscious of was a loud screaming of her name from the adjoining bedroom. Donning a robe, she rushed into the room where she found our hero sitting in front of a stark white and snowy television set, shaking it like mad, twisting buttons, pounding the top and cursing his head off. When he saw the little woman, he bellowed: "Thought you said you had this blankety blank set fixed? I can't trust you to do anything. The game must be half over by now and I can't get a thing." More pounding and more swearing... then he rushed to the phone saying, "I'm going to call Joe... if the game isn't over by now I can run over there and see the end of it at least." Just then, his wife glanced at the small but accurate clock on the night table. Then she gently removed the receiver from her husband's hand and said, "Go back to bed DEAR... it happens to be FIVE THIRTY in the morning!" So saying, she stalked majestically out of the room.

We just heard this story about movie star George Murphy, who is an ex-Detroitier. Way, way back when George was trying to break into show business, things were not so rosy for him at times. He did odd jobs of this and that and knew what it meant to pinch his pennies. Finally, the big break came when he was offered a chance to appear at the opening of Montmartre... then a veddy snazzy New York Night Club. He and his lovely wife Julie were to have the opportunity to show their dancing ability to Manhattan's snootiest critics. There was only ONE hitch. Julie had a beautiful dancing gown but George had no white tie and tails! Nor was George in any position to KNOW anyone who DID have a full dress suit. Nor did he have enough money to buy a second-hand one... but he DID have imagination!

Timing his plot right down to the minute, he sent Julie on to Montmartre, then took a cab to a second hand clothing store not far from the Night Club and told the driver to wait around the corner. He entered the store and quickly chose the suit he wanted (having "cased" the joint some days before). He gave the proprietor a long song and dance (verbal, this time about a wedding and that he wanted to try the suit on with all the go-with-its... just to be sure he'd look okay. The little shop-owner fell in with the idea and shuffled around getting George the right shirt, tie, studs et al. Finally he was put together and what he saw in the mirror pleased him very much. Now all he had to do was be a hit tonight and he'd be all set... but he still had to get out of the shop and he still didn't have a cent. Sez Murphy to the little man, "Do you mind if I take a look at this suit outside in the street light?" The affable and unsuspecting proprietor said he did not... so George strolled nonchalantly out of the shop and once outside, ran like aich for the cab he had kept waiting and told the driver to "fly" to Montmartre.

By the time the shopkeep had gathered his wits together and called the police... who quickly tracked down George's whereabouts... he was already out on the dance floor with his bride... making dancing history. THAT is what we call "timing." P. S. We presume George eventually paid the second-hand suit man and all was forgiven!

We love the local woman who when asked which party she was voting for this year, said "The Prohibition Party. At least I know what they stand for. They're against liquor!"

Now that chlorophyl is sneaking into everything except our orange juice, they have come up with a chlorophyl aspirin tablet made for the express purpose of helping one to get rid of a STINKIN' hangover. That's for us!

What Goes on at Your Library

by Jean Taylor

We were pleased to learn of the proposed Young People's Concerts arranged for this winter by the Detroit Symphony Orchestra.

This announcement is bound to provoke the happy memories of many young parents who attribute their own love of music in part, to such concerts in the days of Gabilovitch, Victor Kolar and Mrs. Edith Retts Tilton, for many years educational director of the orchestra, helped to develop in thousands of children an intelligent appreciation of music.

This season's series of young people's concerts directed by Walter Poole with Miss Laurence Collins as guest commentator, provides an opportunity for Detroit's children not to be overlooked by Grosse Pointe parents. Tickets for the series may be purchased at Grinnells or the Masonic Temple.

Mrs. Daniel W. Goodenough, 23 Lothrop, Grosse Pointe, chairman of the Young People's Concerts will be glad to answer any inquiries regarding this project.

Children's awareness of good music has developed greatly in the last decade or two. Talking with young people in the library we are amazed many times at the knowledge and appreciation they have of the subject. As we mentioned before in this column the Grosse Pointe boys and girls are fortunate in having in their schools an excellent music program. No doubt much of their interest stems from this.

Most parents want their children to enjoy music but many are at a loss to know what steps to take to stimulate a child's growing interest. They appreciate the fact that pushing children into experiences before they are ready obviously hinders rather than helps. As it is with reading, so with music, there is no set age or grade when children are ready for any one experience. They must work at their own level of ability and go forward at their own speed if they are to grow musically.

Again we remind you that records are available at your Main Library and the Woods Branch. These may be borrowed with your library card. A rental charge of six cents a day is made for long playing records, two cents for standard.

If you are a puzzled parent,

a number of books available at your library will help channel your approach to this problem.

HOW TO HELP YOUR CHILD WITH MUSIC by M. Emet Wilson... "A useful manual for parents, written with the idea that any youngster can be helped towards the enrichment of life through music. Sensible advice is given on a multitude of subjects — at what age to begin lessons, how to select an instrument, how to find a teacher, how to foster practicing. The specific things a parent can do, listed at the end of each chapter, are constructive, sound and stimulating."

WHAT MAKES AN ORCHESTRA by Jan Balet... This is a gay book. "A full symphony orchestra is assembled here, section by section, with thirty kinds of instruments. Each page has a picture of one instrument and a humorous picture showing the instrument being played." Louise Bechtel in the Herald Tribune says "It makes one want to turn on the radio or victrola at once to see whether one agrees with these interesting descriptions of sound. It is a book that will help to create more and better listeners."

Two interesting books for young people about the instruments of the orchestra and their players are TUNE UP by Harriet E. Huntington and THIS IS AN ORCHESTRA by Elsa Posell. MAKING AN ORCHESTRA by Dorothy B. Commins contains a chart with cut outs to set up a small orchestra.

THE CHILDREN'S RECORD BOOK by Harriet Buxton Barbour and Warren S. Freeman provides many suggestions for music interesting to young ears. Recordings are listed according to age interest.

Standard year-around rates continue in effect. Adult admission is 85 cents for the Village and Museum each, with combination tickets to both available at \$1.50. Children under 12 years of age are admitted at half price with a combination ticket for 75

Every Second Counts

By Fred M. Kopp, D.Ph.

When an accident occurs, every second counts to the injured person... a matter of life or death very often. If you must stand by helpless that is a great tragedy and one you would not soon forget.

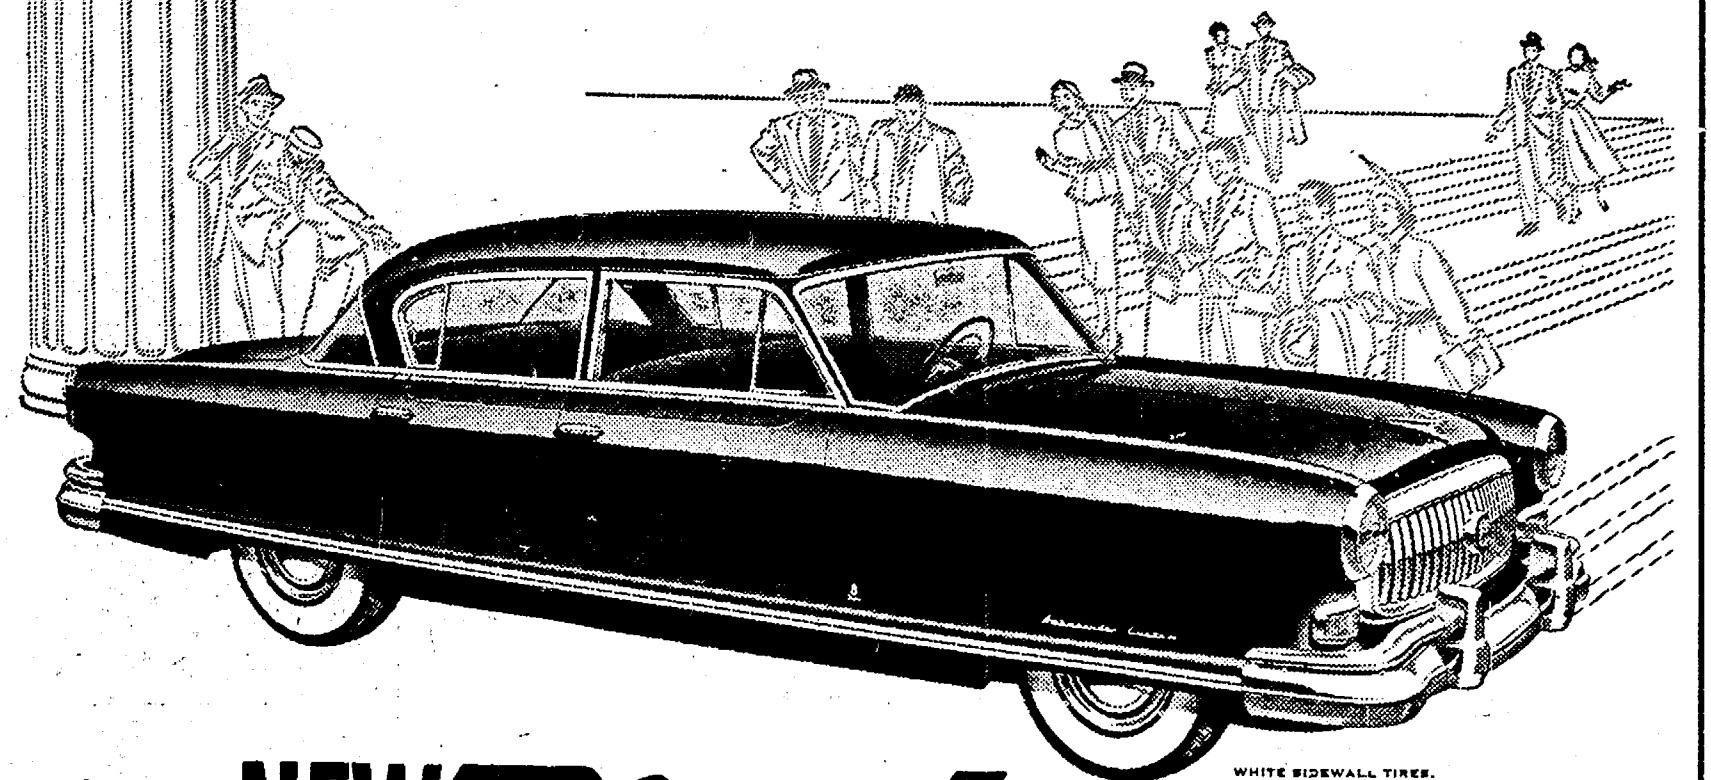

On the other hand if you had first aid training and knew what to do and what not to do you might save a life. To be able to help any injured person is payment enough for the time spent mastering a first aid course.

Accidents rise in winter months. Be prepared, and always take along a first aid kit. Buy one filled with fresh supplies from a competent, neighborhood pharmacist.

Fire Guts Attic Of Home in Park

Grosse Pointe Park firemen fought an attic fire in the home of H. A. Kuhlman, at 1238 Kensington, for over an hour on Saturday, October 11. Neighbors of the Kuhlmans, who were away at the time, called the fire department when they saw smoke billowing from under the eave-troughs of the house. Park Fire Chief Edward Recor said that the attic has been gutted badly. Cause of the fire is believed to have been defective wiring.

Damage Slight In 3-Car Crash

Park police ticketed Walter S. Bogdan, of 1332 Colonial, Inkster, for not having his car under control last Friday after he had driven into the rear of another auto waiting at the stop light on Cadieux at Charlevoix. The impact forced the car driven by Ada M. Burns, of 1107 Chalmers, into the rear of another waiting car driven by Zorrie Lux, of 1010 Chalmers.

The wards were inaugurated in 1946 commemorating the career of the late Colonel Edward Dunbar Rich, first state sanitary engineer and a pioneer in the field of public health engineering. Since 1946, awards have been given to 800 persons. Those honored this year included Earl Field and Ray LaBelle of Grosse Pointe Farms.

Important Facts About PACKARD'S PROVED POWER BRAKES

Outstanding Advancement in Car Control Sets New Standard of Motoring Safety

NOT SINCE 1924—when Packard was first to offer four-wheel brakes as standard equipment—has there been so important a contribution to driving and safety as Packard Power Brakes!

● ● Proved faster acting, far easier to apply and completely safe at all times, Packard Power Brakes give you quicker, smoother stops with 40% less foot pressure—as thousands of Packard owners have already learned through hundreds of thousands of motoring miles!

● ● You don't even have to take your foot off the floor to use them. You merely pivot your toe from the accelerator to Packard's low-level brake pedal. This alone cuts 29% from the average time it takes to apply brakes! Gentle toe-tip pressure is all that Packard Power Brakes require.

● ● First power brakes on any passenger car that you don't have to lift your foot to apply, proved Packard Power Brakes use engine vacuum to produce 40% of the braking effort and to assure a normal "feel" to pedal action. They give you smooth, straight-line stops every time.

● ● The only car with these proved power brakes, today's great Packard offers you another braking exclusive in its Safi-Set Parking Brake. This convenient hand brake is either "ON" or "OFF"—it can't be accidentally left halfway on to cause brake lining wear when the car is moving.

● ● SEE, COMPARE AND DRIVE A PACKARD before you spend \$2500 for a car. Only Packard gives big-car comfort, performance and safety at medium-car cost and economy. And remember—"Built like a Packard" means built to last!

Rabaut's Voting Record Attacked by Dick Durant

At a meeting of Republican precinct workers on Wednesday, October 15, Richard Durant, Republican candidate for Congress from the 14th District, lit into the voting record of his opponent, Democrat Louis C. Rabaut.

"I notice that my opponent has recently released a compilation (by himself) of his voting record," Durant said. "It is unfortunate that the gentleman has not seen fit to compile the whole record — and with some of those things he did list as having voted for, I most definitely disagree."

Durant then went on to detail some of the omissions.

FOREIGN POLICY. "My opponent conveniently forgot to mention that he voted against allowing Congress to know anything about any secret agreements or commitments entered into by Truman with foreign countries, and that he was in full agreement with Owen Lattimore (advisor to the State Department and identified as a Communist agent of the Soviet government by the McCarran Committee of the Senate) as to no military aid

to Korea. He has consistently refused to economize on 'blank-check' foreign spending and voted against a 'watch-dog' committee to scrutinize foreign spending. He does not appear to recognize the fact that Point Four gifts, for example, do no more than bleed us for only a temporary advantage to the recipients because they will not create an economic climate favorable to the development of their own countries by their own citizens."

NATIONAL DEFENSE. "I find no mention of the fact that my opponent voted in favor of allowing Truman to license every single business activity in the United States, of allowing Truman to create new government corporations without any authorization from Congress, of allowing Truman to get the government at will into all fields in competition with private individuals—production, transportation, marketing and storage. Nor has he made any attempt to stop the wasteful procedures of the purchasing habits, despite the fact that over 80% of our budget goes for defense and any real attempt for economy must be there. Moreover, for years he has consistently opposed balancing the budget — which is the only way to stop the inflation which has pushed the cost of living to its present high level."

SOCIAL SECURITY. "He makes much of his vote in favor of the last raise in benefits — but says nothing about the fact that the inflation he also votes for makes a mockery of those benefits. Nor does he mention that every recipient of social security will be taxed twice for it — because he votes for spending the money as fast as it comes in, so that there is nothing left in the social security fund but IOU's. I want to put it on a sound basis; apparently he is willing to use it as a political cover-up."

LABOR. "He carefully avoids all mention of the fact that he voted to draft strikers into the army — and yet he claims to be a friend of labor!"

COMMUNISM. "He voted against the establishment of the Un-American Activities Committee, and against giving it funds with which to operate; he voted against barring subversive employees from the Federal payroll; he voted against the 1950 Communist control bill; and voted against appropriation riders which would have forbidden aid to those Russian-dominated countries which were getting relief from us immediately after the end of the Second World War. But now he comes home and claims to be in favor of exposing Communists in government!"

SPENDING. "There is only one way to measure a man's desire to balance the budget, stop inflation and economize—and that is by acts, not the way he talks when he is up for election. My opponent has a perfect record — of voting in favor of spending and against economy."

"I don't wonder," Durant said, "that my opponent hasn't revealed all his votes. That he was against the Hatch Act; that — in addition to carrying his family on the payroll — he favored pensions for Congressmen; that he voted for the international monopoly of vital raw materials of the IMC; that he voted for the Brannan Plan — which would have upped the cost of food for everyone in our District; that he has consistently favored placing the citizen at the mercy of the bureaucrats by voting against allowing us an appeal to the courts."

"With a record like that down in black and white in the Congressional Record, I can see why he refuses to publicly debate the issues."

All licenses shall expire on December 31st following their issuance, unless revoked, and shall not be transferable or assignable. All applications for license renewal shall be made at least thirty (30) days before the license expires.

(e) **Application Disapproved.**—If it is found by the Health Officer after investigation that the statements contained in the application are not true or that the applicant is not operating or cannot operate a restaurant conforming to the sanitary requirements of this ordinance, he shall disapprove the application, and return it to the City Clerk with a detailed statement of the reason for his disapproval.

(f) **Review of Disapproval by City Council.**—The City Clerk shall, upon receipt of such disapproval, present it, with the application to the City Council at its first regular meeting which will allow the serving of five (5) days notice upon the applicant, and shall, on or before five (5) days before such regular meeting, serve or cause to be served upon the applicant a notice of disapproval of the application by the Health Officer, and the date of the regular meeting at which the same will be presented to the City Council. The City Council shall consider the disapproval of the Health Officer and shall hear the applicant in his behalf, and shall act upon the application. The City Council shall establish its own rules of order for such review and hearing. If the application is denied by the City Council, the City Clerk shall give written notice to the applicant within five days of such denial and such applicant shall not open the restaurant designated in the application to the public thereafter.

(g) **License Suspended or Revoked.**—The Health Officer shall have power to revoke or suspend the license of any restaurant which is not or cannot be operated in conformance with the requirements of this ordinance, with

giving written notice, stating therein the reasons for such action of suspension or revocation to the licensee; a copy of this notice shall be sent to the licensing authority.

(h) **Review of Suspension or Revocation by City Council.**—In the event of such suspension or revocation, the licensee shall be entitled to a hearing before the City Council, if the licensee presents a request for such hearing in writing to the City Clerk within ten days from date of revocation or suspension of license. Such hearing shall be started at the following regular meeting of the City Council, and the City Council, after hearing and considering both sides of the case, shall act as sole judge of whether or not the revocation or suspension shall take effect. The City Council shall establish its own rules of order for such review and hearing.

Section 5. Enforcement.—The Health Officer shall have the authority and duty to enforce this ordinance.

1. **Inspections.** At least once every six months, or as often as necessary, the Health Officer shall inspect every restaurant located within the City of Grosse Pointe Woods. The Health Officer shall have authority to enter any building or part thereof which is used, or which he has reason to believe is used for the storage, preparation, sale, serving or distribution of food or drink for human consumption to inspect the premises, furniture, equipment, dishes or utensils used therein, to determine whether or not the sanitary requirements of this ordinance are complied with.

2. **Violations.** If, on inspection, the Health Officer finds any violation of the requirements of this ordinance, he shall issue an order to the licensee or person in charge of the restaurant directing the correction of such violation within such reasonable time as he shall deem proper.

3. **Failure to Correct Violations.** If the Health Officer finds a continuation of the violation upon a second inspection after such reasonable time, he shall suspend the license of the restaurant until such violations have been corrected.

4. **Immediate Suspension.** If the Health Officer finds insanitary conditions in any restaurant such that it would be immediately dangerous to the health of the general public, he may immediately suspend the license of and close the restaurant until such insanitary conditions are corrected, following which he shall give a written notice in a reasonable time to the licensee or the responsible representative in charge stating his reasons for closing the restaurant. A continuance to operate after receipt of such written notice shall constitute a violation of this ordinance.

5. **Disease Control.** No person who is affected with any disease in a communicable form or is a carrier of such disease shall work in any restaurant, and no restaurant shall employ any such person or any person suspected of being affected with any disease in a communicable form or of being a carrier of such disease. If the restaurant manager suspects that any employee has contracted any disease in a communicable form or has become a carrier of such disease he shall notify the health officer immediately. A placard containing this section shall be posted in all toilet rooms.

(a) No person shall be employed in a restaurant without first having obtained a food handler's card of current issue as provided in this ordinance. Every employee shall give proof that he is not infected with any disease in communicable form, on forms approved by the Health Department and furnished by the City Clerk; such form to be known as "Foodhandler's Responsibility Agreement." This form will then be presented to the Health Department and if approved the City Clerk, or Health Officer, may issue the foodhandler's card.

All health cards shall be in effect for one calendar year from date of issue, after which time the employee shall secure a new card in the manner prescribed.

6. **Procedure When Infection Suspected.** When suspicion arises as to the possibility of transmission of infection from any restaurant employee the health officer is authorized to require any or all of the following measures: (1) the immediate exclusion of the employee from all restaurants; (2) the immediate closing of the restaurant concerned until no further danger of disease outbreak exists, in the opinion of the health officer; (3) adequate medical examinations of the employee and of his associates, with

such laboratory examinations as may be indicated.

7. **Regulations.** The Health Officer may formulate and promulgate such reasonable rules and regulations, not inconsistent with the provisions of this ordinance, as he may deem necessary to govern the inspection and operation of food establishments, within the City of Grosse Pointe Woods and such further rules and regulations shall be deemed a part of this ordinance.

8. **Enforcement Interpretation.** This ordinance shall be enforced by the health officer in accordance with the interpretations which may be adopted by the City Council.

9. **Penalty for Violation.** Any person violating any of the provisions of this ordinance or of the rules and regulations of the Health Officer made hereunder, shall upon conviction be punished by a fine of not more than \$500.00 Dollars or by imprisonment in the City of Grosse Pointe Woods or Wayne County Jail for not more than 90 days.

Section 6. Unconstitutionality Clause. If any section or part of this ordinance shall be found invalid by any court of record, such finding shall not invalidate any of the other sections, or parts of the ordinance.

Section 7. Repealing Ordinance. City Ordinance No. 48 and any other ordinance or any part of any other ordinance of the City of Grosse Pointe Woods now in existence, conflicting with this ordinance or the intent or purpose thereof is hereby repealed.

Section 8. Effective Date. This ordinance shall take effect twenty days after its official adoption, and shall be published as provided by law.

NAYS: None.

Monroe Edges Blue Devils To Erase Hopes for Title

By Fred Runnells

The Monroe Trojans erased any hopes Grosse Pointe High football fans ever had of the Blue Devils winning or sharing the Border Cities League this year when they turned back the Devils, 7 to 6, under the lights last Friday, October 10, on the Trojans' home field.

The Blue Devils have never won or shared a Border Cities League football title and this year it looked as if the Pointers had an outside chance.

Didn't Get Breaks
Actually last Friday's game could have gone either way, but Lady Luck once again refused to smile on the Blue Devil grid warriors.

Despite the fact the title chance has disappeared in to thin air once again the Blue Devil team to a man has vowed that any future league opponents had better watch out because this Pointe team is mad. Mad not only at themselves but at everyone else who has a spot on their remaining grid schedule.

Even though the Devils were handicapped by the loss of their best offensive end Sean Fraser, who was out with a groin injury, they managed to rack up the first touchdown of the game in the first period and force the Trojans to come from behind to take the lead in the second quarter.

Hribar Scores
Louie "Tweedie Dum" Hribar carried the pigskin into the end zone for the Devils on a 3-yard smash over his own right tackle. This happened after quarterback Don Schmidt threaded the needle with a beautiful 35-yard pass to right end Jack Smith to the Monroe 11-yard line. The Devils got a temporary setback when fullback Al Billups fumbled a lateral pass but recovered back to the Monroe 23. It was Schmidt to Smith with a pass on the next play that put the ball down on the Trojan 8-yard line, from where Hribar went over.

Kick Goes Astray
Ken Brown, the boy who does nothing but practice place kicks every day after school, had the misfortune to have his try for the extra point go astray.

Monroe collected its touchdown early in the second period by utilizing a confusing spread pass formation sprinkled with a slight portion of running plays that carried the ball from the

Trojan 35-yard line down to the Grosse Pointe 16-yard line. Quarterback Junior McBee hit right end Alex Cantrell with a 16-yard pass in the end zone for the game-tying score. Just one play before that the Trojans missed a touchdown when left halfback Bill Smith went high in the air in the Pointers' end zone to snag a McBee pass but he came down out of bounds and the pass was ruled no good.

Clawson Big Hero
The big hero of the game, as far as Monroe was concerned, was Ken Clawson who left his right guard position to boot that all important point that so many times means the difference between victory and defeat or even a tie.

Grosse Pointe will entertain the powerhouse outfit of the league next Saturday, October 18, when the Wyandotte Bears move in. They will be attempting to keep their league record unblemished and run the league streak to eight straight.

Could Be Key Game
The Wyandotte game, which will be played on the Devils' home field before the annual Dads Day crowd, could be a key game in the final league standings. If the Pointers can rise up and knock down the heavily favored Wyandotte steamroller it will throw the race into a two-way tie between the Bears and the Royal Oak Acorns, if the Acorns can get past their next league foe.

The Fordson Tractors are still very much in the running, having only played one league game to date. Monroe still has an outside chance with a one-and-one record but Grosse Pointe and Highland Park can only content themselves in the "spoiler" role.

Local Sailors Win in Ohio

By Fred Runnells

Sailing Commodore Bob Kerr's Raven class sailboat "Chumette" Carter Sales and his crew, of Maurice DeLercq, Gordon Mitchell and the writer, scored three straight first places to capture the Annual Buckeye Lake Yacht Club's Snowball Series last weekend, October 11 and 12.

In the first race on Saturday Carter had to come from behind to squeeze out the first of three winning guns over John Russell's "Plover" of Sandusky, Ohio. In the following windward-leeward race on Saturday afternoon Sales won this one by a quarter of a mile over the second place Russell who in turn had a comfortable margin over the host club representative Russ Luchten.

Both Saturday races were sailed in westerly variable zephyrs under an overcast sky. On Sunday, however, the final race was over a triangular course in a beautiful 17 to 20 mile an hour westerly wind that enabled Sales to work out almost a third of a mile lead over the rest of the five boat fleet.

Buckeye Lake is one of the very few inland lakes in Ohio and is 26 miles East of Columbus. However, Buckeye Lake is not a natural lake and has been created by man through the means of a sixteen foot dyke which surrounds the twelve mile long and two mile wide lake. The depth of the lake is regulated by the state and usually in the Fall of the year the spillway gates are opened and the lake level is lowered to a point so repairs can be made to the dykes. This was the case last week end and more than once the Raven skippers experienced jolting thuds as their centerboards bounced over submerged tree stumps on the bottom.

Locally the Thistle class skippers closed out their season with the "Icebreaker Series" held off Bayview Yacht Club on Sunday, October 12.

Clyde Gump, of Columbus, Ohio, captured his second consecutive "Icebreaker Series" by taking second in both races for a total of 26 points which beat out Linc Wheeler of Detroit who had 24 points. Howard Boston of Mount Clemens took a series third with 23 points on a first and sixth place.

Both races were sailed under trying conditions that tested gear and sailors to the limit with a 25 to 30 mile southerly wind. Hank Cogill also of Columbus, won the first race but finished seventh in the second race when the wind moderated slightly. Boston took the second race. Cogill finished fourth and was followed in the final standings by Tony Herrmann of Racine, Wis., 21; Jim Johnson of Columbus, 19; Roy Wanless, Bay City, 14; Marian Waring, Detroit 10, and Bill Fraser, Detroit, 8.

Boat Banter

By Fred Runnells

The Detroit River Star fleet members put in a busy day October 12 and finished up their 1952 sailing season by sailing five races. That completed the last two point score series on the docket.

Alex Allardyce and his "Thistle II" appears to be the big winner this season. He earlier captured the three race "A" series and the "Elimination Series" and then took the "C" series. Meryl Amo's "Mohawk" took top honors in the three race "B" series and it appears to be a two way battle for fleet championship honors between Allardyce and Amo. The fleet secretary, George Richardson, promised to have the final results for the season by the next issue of the News.

We heard a funny story about Ben Taylor, Bayview Yacht Club's likeable and popular steward, and the clams and oysters he purchased for the club's annual clam bake, October 4. It seems that in past years Ben had trouble keeping some of the members from swiping and sampling the clams and oysters before the night of the dinner. Every year it was the same old story.

This year Ben figured he would put a stop to these shenanigans

Indians Topping Pointe Bowlers

The Indians bowling team went on the war path last Wednesday, October 8, and took over the lead in the Pointers Bowling League.

The league is composed of eight teams, each being named after an American League baseball team. It is interesting to note that the Yankees are in third place, three points behind the leaders.

Bran O'Connor chalked up a dandy 246 game to take the season high individual game mark and Ken Bergmann posted a 235 which gave him second place in this department.

Keller holds the season high three game individual total with a 606 and the Senators have the team season high single game total with a 931. The team high three game total was posted by the Athletics with a 2560.

Gouin Pinmen Nab Loop Lead

Al Gouin's "pin spillers" tossed a bombshell into the St. Paul Bowling League last Thursday, October 9, when they captured four points and vaulted from third place into first place. The Gouin blitz attack displaced the league leading Sweeney outfit which went 0 for the collar and slipped into a three-way tie for third place.

Eddie Lauer's team grabbed three points to move within one point of the league leaders.

St. Ambrose Drops Blue Chip Game to St. Charles Eleven

Almost all the "blue chips" were on the line last Sunday, October 12, when the St. Ambrose Cavaliers dropped a crucial league game to the unbeaten St. Charles eleven, 21 to 7. The victory enabled St. Charles to remain at the top of the 12-team East Side Parochial league standings with 4 victories and no defeats.

On the other hand the setback dropped the St. Ambrose Cavaliers down to fifth place and practically eliminated them from the 1952 title race.

For the most part of the first half the Cavaliers and Dragons battled even-steven and it was anybody's ball game until three

and a half minutes before the halftime intermission. That's when St. Charles broke the game wide open behind the powerful off tackle smashes of its big 205-pound fullback, Pete Aluzzo, who picked up 42 yards on two plays for the Dragons' first touchdown. The extra point kick was good.

It was also Aluzzo who scampered into the Cavaliers' end zone with the pigskin he had intercepted on the Cavaliers' 10-yard line when Mary Peeters attempted to catch the Dragons' kickoff on the first play after the kickoff. The extra kick was again good and the Dragons were really fired up when they left the Mack Inter-Parish Field at the half time intermission.

Aluzzo Once Again
Each team scored once in the remaining two periods. St. Charles made it 21 to 0 early in the third period when Larry Schmelzer whipped a seven-yard pass to the same Aluzzo who took the pass on the midfield stripe and raced all the way to pay dirt. The extra kick was good.

The Cavaliers' lone touchdown came as the result of a fumble in the fourth quarter by the Dragons' Larry Schmelzer. Fred Saad recovered for the Cavaliers on the Dragons' 28-yard line and Fred MacFayden smashed over his own right guard from the one-yard line to climax the drive. Norm Soper converted.

Host of Pointe Freshmen Enrolled at U. of Michigan

Members of a record-breaking freshmen class at the University of Michigan are finding that individual attention to students is a University trade-mark.

The 2,439 freshmen who got their first taste of university life this fall already have seen ample evidence of the university's interest in their campus life.

All freshmen are housed in university-operated residence halls where the "open door" policy of the resident advisers and other time-tested programs create a real "home away from home."

A carefully-planned week-long orientation program was held before classes started to acquaint each newcomer with campus ways.

Each freshman has an academic counselor to help with career and study problems. In addition, freshmen classes are kept small to permit as much individual attention in the classroom as possible.

And parents and high school principals aren't neglected by the university. Dean of Students Erich A. Walter dispatched a letter to each parent just as soon as he was certain the freshman student had registered.

The present fall semester will continue through January of 1953 and classes start Monday, Feb. 9, in the spring semester.

From Bird Houses, to Airplanes

JOHNNY TAPERT, aged 15, held members of the Grosse Pointe Rotary Club spellbound at their meeting last Monday when he launched into a comprehensive discussion of model airplane construction and competition.

An expert at assembling model planes of all kinds necessary to meet competitive standards, Johnny's first success came in 1951 when he placed second in the Detroit Exchange Club Award. Early in 1952, he received second place in the Michigan State Tournament at Ann Arbor. He followed these early successes with a first in the Sixth Annual Model Airplane Contest at Strathtmoor. He started his career of building for exhibition by taking a first place in a contest with a model bird house feeding tray. Johnny, a sophomore at St. Paul's, and a member of the school band, has begun designing his own plane and hopes to enter one of his own models in next year's national and international contests in the East.

CHURCH SERVICES, CAMPAIGN STYLE—Rev. A. W. Syms, of St. Andrews Episcopal Church, leads Gen. Dwight D. Eisenhower (right) and his wife, Mamie, next to the general, in prayer during special church services held aboard Eisenhower's campaign train. Eisenhower, following a heavy campaign schedule, observes his regular Sunday habit of attending services aboard his train with a few of those close to him in attendance. Rose Wood (seated, 2nd from left), is Mrs. Eisenhower's maid.

EARLY BIRDS—Lugging shotguns and pheasants, AF-1 A. R. Beard (left), a Navy photographer, and Army photographer Pfc. William Lucas rush the Thanksgiving season a bit by getting the birds very, very early. On duty at the Panmunjom truce site in Korea, the boys used a day's liberty for hunting; Pfc. Lucas is the son of Mr. and Mrs. Anthony Urato of Bergenfield, N. J.

"STRATOSPHERE" DRESS—Fashion's latest, designed by Schuberth of Rome, Italy, is "Stratosphere." It is two dresses in one, especially designed to save weight in tourist air travel. Evening dress of black faille is converted to an afternoon dress by removing wraparound skirt. Removal of the jacket is optional.

Detroit Olympia will blossom into a segment of the romantic West Skating Vanities of 1955. The Vanities, with a cast of the world's outstanding skaters, will open with a Tuesday night performance and continue through Sunday, Oct. 26. Its 200 talented performers, headlined by the faststers Ole Olsen and Chic Johnson, whirl, whiz and glide through a breathtaking program which takes its tempo from a glittering opening number. Against a background of ranch houses, corals and Western scenery, Nancy Lee Parker and Peggy Wallace, both former national figure skating champions, lead the entire colorfully-garbed company through fast moving rhythm. The Dude Ranch Round-up serves to introduce the celebrated Broadway comedians Olsen and Johnson and their merrymaking horde. The Vanities, recently arisen from European successes, will make its 11th annual appearance at the Detroit Olympia. Besides the 8:30 p.m. nightly performances there will be a matinee on Sunday, Oct. 26, at 2:30 p.m. Tickets may be ordered by mail or purchased at the Olympia boxoffice.

STEVENSON HAS 'EM IN STITCHES—Governor Adlai Stevenson, Democratic Presidential candidate, has become famous for his campaign quips. The response of his followers to his witty remarks is revealed at left, during a recent address in Indianapolis. Mr. Stevenson (right) seems to be enjoying himself, too.

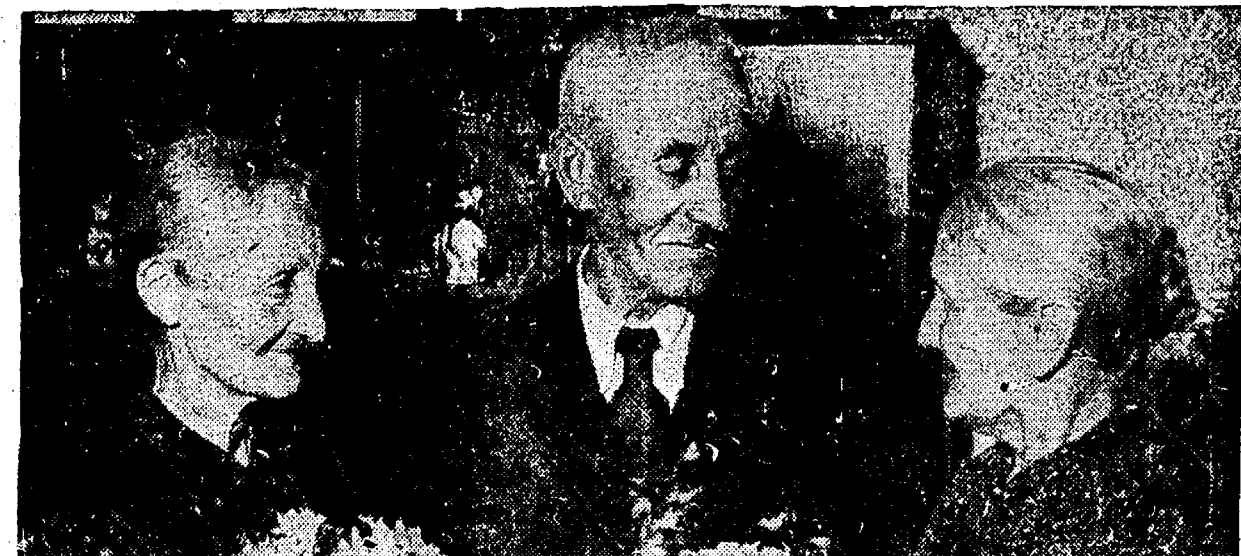

RAH, RAH, SHORTIE!—Cheered for freedom and flattery by co-ed and career girl, alike, the shortie is interpreted in practical flannelette by Helen Hunt Bencker of Laros. Bands of satin ribbon, drawn from shoulder to hemline, add a pretty frivolous touch.

HOOR OF ENCHANTMENT—The hourglass silhouette gets into the swim as Leslie Weston lends her charms to Rose Marie Reid's Gay Nineties swimsuit. Done in water-worthy taffeta, the strapless bra and draped panties accent a tiny waistline.

769-YEAR-OLD BIBLE IN FAMILY—Mrs. Baytzar DerGarabedian and her two daughters, Corrine, 18, and Julie, 20, look through a Bible that has been in their family for 769 years. The religious volume was completed by an Armenian priest named Garabed in the 12th Century. He labored for 11 years, copying the text of the Old Testament on goatskin pages. The book, which is opened on only rare occasions in order to preserve it, has passed through 38 generations of the DerGarabedian family. No attempt has ever been made to have it appraised.

THREE TIMES 77—The oldest triplets in Germany exchange lovely bouquets during the celebration of their 77th birthday anniversary, in the Amelinghausen district of Lüneburg. They are Anna, Emma, and Wilhelm Bensemann, born in 1875. Their children and grandchildren total 15, none of whom are twins or triplets.

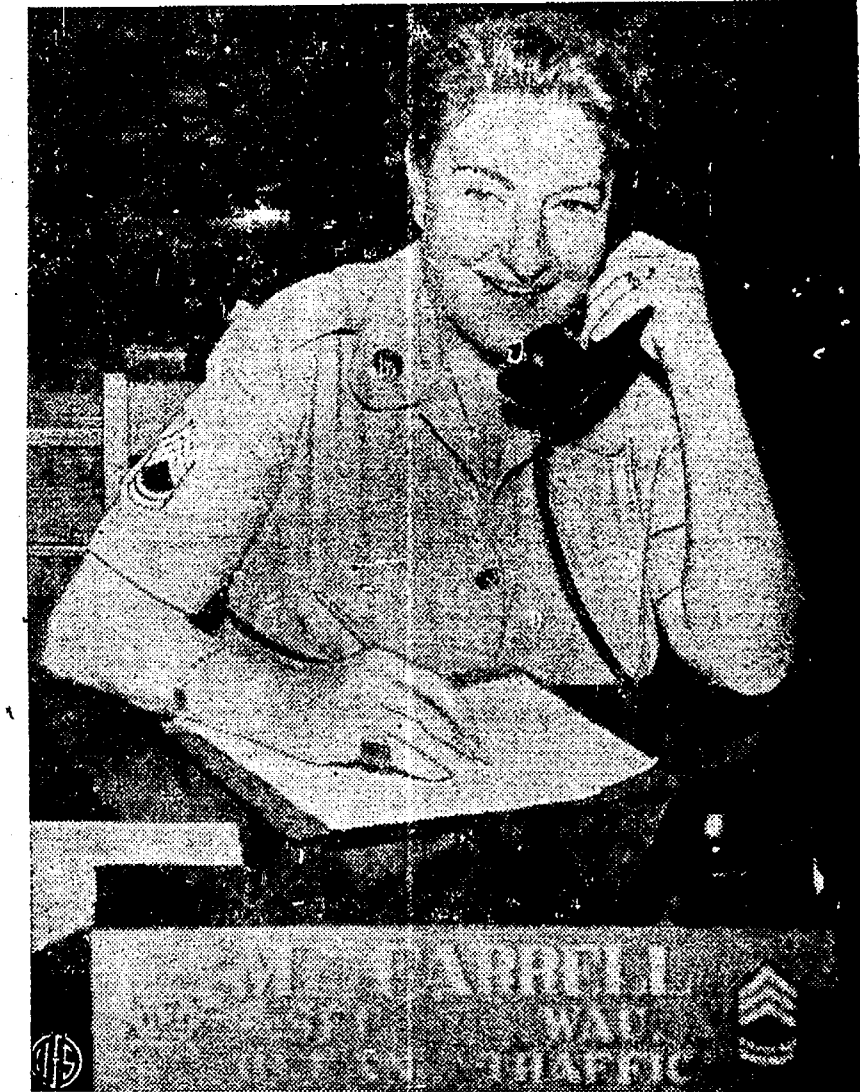

PREFERS FREEDOM—North Korean Lt. Lee Dong Yop, an intelligence officer whose job it was to command Communist security guards at Panmunjom, clears his throat before speaking into a microphone in his first interview since surrendering to U.N. forces. Fleeing from the grip of communism behind the Iron Curtain, the lieutenant slipped past his own guards and gave up to U.N. military police at a check point at the edge of the neutral zone at the truce site.

ANY HAT IN A STORM—The rising cost of sombreros in Spain has resulted in such concessions as this display of paper hats, meant to be worn to the bullfights and thrown to the favorite matador according to tradition. They sell for about eight cents apiece, and are popular with the kids as well as the enthusiastic adult who wants to cheer the bullfighting stars.

CORONATION SOUVENIR—These are three views of a prototype design of a plaster bust of Britain's Queen Elizabeth II. It stands seven inches high and is among the articles officially approved by the Coronation Souvenirs Committee for sale next year, when she will be crowned.

MAKING BERTHS MARKS—WAC Magdalena Farrell of Chicago carries on her work in her Yokohama office with a broad smile. A ship-berthing expert, she is the key to the arrival and departure of all troop ships at this vital Japanese port. Sergeant Farrell selects pier space for both troop ships and freighters. Two years ago she didn't know the difference between a gangplank and a tug. Today she's as "Salty" as a sea captain and keeps the ships moving in the sea traffic that means men and supplies for U.N. forces.

OUR LADY OF FATIMA STATUE RETURNING TO PORTUGAL—America's "Pilgrim Virgin," a white statue of Our Lady of Fatima, which has been seen by about 7,000,000 people in the U. S. and Canada, is en route to Fatima, Portugal, for the 35th anniversary of the sixth vision of the Virgin Mary to Portuguese peasant girls on October 13. Then it will go to Rome and return to the U. S. in November for further pilgrimages. Accompanying the statue are (left to right) the Revs. Desmond Stinger of the Scarborough Foreign Mission Society of Canada; Msgr. William McGrath of Newfoundland, who has traveled with the statue over 100,000 miles through 75 dioceses since it was first shown in North America in 1947; and Msgr. John J. O'Donnell, pastor of the Shrine Church of the Sea, New York, and Port Chaplain of New York.

Rabaut Pleased With Reception

Swinging into a schedule of personal appearances that are bringing him before audiences of mixed political convictions, Congressman Louis C. Rabaut said this week that his most pleasant surprises has been "the cordial and reflective reception I have received from individuals and groups I have long thought to be staunchly Republican."

Rabaut said this demonstrated that "the American people are thinking in this campaign and thinking hard about the issues of war and peace which hang over the nation."

"These groups can hardly be described as warmly embracing the New Deal and the Fair Deal," Rabaut said, "but, though I cannot predict how their membership will vote, I certainly did feel that they gave serious consideration to the issues as I presented them."

"Dedicating this campaign to a serious and deliberate discussion of the issues, without distortion or demagoguery, has I think, been the secret of Governor Stevenson's astounding rise in popularity to date. It reaffirms the American tradition that our people will make sound decisions once they have the facts," Rabaut said.

"With the Korean conflict, reaching as it does, into thousands of American homes, and the ominous threat of Communist imperialism, our is an age of anxiety. It is a time when demagogues and cynical men can rise to power by exploiting the torn emotions of anxious people."

"I hope that a positive and rational approach to the question that concern us all will be the proper answer to the GOP campaign that has thus far been based on frustration and fear. I have every reason to believe that these grave problems will be solved by the common sense decisions of the American people," Rabaut concluded.

TROMBLY SCHOOL

Each Friday morning at 8:45 a. m. finds the Trombly student body from kindergarten through sixth grade, the faculty and friends standing at attention in the square in front of the school for their weekly inspirational demonstration of patriotism, the flag-raising ceremony.

The theme for the fall series is "a greater awareness of each citizen's responsibility in a freedom loving country."

Everyone stands at attention while the flag is raised and taps are sounded. This is followed by the soul-stirring pledge to the national emblem. Pupils then present original poems or talks concerning the meaning of responsibility and its application in every day life as well as patriotic songs. The entire student body singing patriotic songs directed by the music counselor, Mrs. Winnifred Fenton, concludes each ceremony.

for local or state governments to bear.

The federal government's aid must be enjoined for another reason, Mr. Wetherbee suggested, in that a control involves not only the states that border the Great Lakes, but also Canada. The International Joint Commission is one of the prime seats of power in such consideration.

Establishing control levels entails the deepening of channels for faster flow and also compensating works to check the flow and maintain a natural flow between connecting water bodies.

A resolution passed in June authorizes the Congressional Public Works committee to study methods of control and the necessary expenditure. When completed, the findings will be aired at public hearings conducted by local sections of the Army Corps of Engineers.

Letters to The Editor

Dear Sir:

An amendment to the State Constitution of vital importance in the fight against narcotics will appear on the ballot at the November 4th election. This amendment will be known as Amendment Number 1. As you know, the police are seriously handicapped because narcotic violators are able to take advantage of the constitutional protection against searches. As a result, 77 per cent of the cases lost or dismissed are by reason of the defense of illegal search and seizure.

A similar situation existed some years ago with relation to the illegal possession of firearms when most of these cases were lost because of the defense against illegal searches. As a consequence, the voters amended the Constitution so that the illegal possession of a weapon outside the home could not be defended on the ground of a search without a search warrant. Now most of the cases for the illegal possession of concealed weapons result in convictions rather than dismissals. You can readily understand the tremendous help to law enforcement that has resulted from this change in the Constitution.

We want the same change with reference to narcotics. In other words, the narcotic peddler should not be entitled to the defense of illegal search when police find narcotics on his person. Just as the gun law has been a powerful weapon in the hands of enforcement officers, so will this narcotic amendment effectively reduce narcotic peddling.

Our commissioner, Donald S. Leonard, and the members of your Police Department ask for your support and the support of your relatives and friends in this fight against the menace of narcotics.

Very truly yours,
Jack Harvill,
Chief of Detectives
City of Detroit.

The Friday Flag Ceremony is one means used to create a love and understanding of country as the "land of the free and the home of the brave."

Kid Bits

By Nancy MacDonald

Who can resist those tangy autumn days in Michigan, complete with football games and hayrides? Certainly not the Grosse Pointe kids! They turned out in full force for some of the week-end parties.

First on the list was a hayride given for Hi-Y members and their dates. Just a few of the ones we saw there were Earle Lyons and Sally Fisher, Terry Snowday and Barb Marco, Bill Brabb and Sigrid Olsen, Ten Johnson and Gay Ingalsbee, Hal Drinkhaus and Nancy Seydler, Dave Bouse and Robin Barr, and Chuck Broneau and Nancy Thomas.

That same night Al Billups had a hayride for some of the fellows on the football team. Sue Squire and Rod Haldeman, Judy Westfall and Lou Hribar, Betty Sykes and Jim Mueller, Judy Hagerman and Jack Smith, and Judy Tossy and Ray Ratzel were some of the ones who said they had lots of fun there. Al's date was Janet Ratzel.

Daniel Brill also picked Saturday night to entertain some of her friends. Some of the kids who dropped in at Daniel's house to dance and "raid the ice-box" were Margo Knock and Tom Waterfall, Barb Stoekle and Chuck Floor, Nancy Seydler and Hal Drinkhaus, Liz Mitchell and

who, where and whatnot

by wboozit

Eligible bachelor at the Pointe is fit to be tied, as the saying goes. . . . The day rent quarters were lifted he went out to dinner, returning to his quarters at a gay old hour. He was surprised to find the little lamp lighted in his entrance hall. It was not only lighted but moved from its customary niche to the center of an occasional table. A long, piercing glance proved there was a piece of paper underneath the little lamp. He reached for it and read, "Your rent will be raised 15 dollars beginning Monday." We don't think he's half as mad about the bullish, eat-them-alive manner of the caretaker as he is about the effrontery of the guy for moving his furniture around.

WE LIKE—

Mrs. Julius C. Peters way with creamy-pink Fuji mums. . . .

The artistry with which Mrs. Longyear Palmer sets a tea table in Venetian satin cloth bordered in amethyst. . . . amethyst glassware arranged on its length. . . . and high renaissance candlestick holding slender tapers. . . .

The way one of Kitty Carey's friends describes the fun that young lady is having in Paris this autumn, dashing off to the countryside in her little foreign car. . . . ("Kitty's just having a Gee-Whiz time"). . . .

The calmness with which former Pointer, Mrs. Isabel Palms Buckley took her recent narrow escape as one of the 500 passengers aboard the Princess Kathleen which sank off the coast of Alaska. . . .

Definitely stepped up a notch or two in our list of desirable domestic pets is the parrot. Especially the parrot owned by Mrs. Thomas F. Cashin Jr. When the lady of the house seems involved in an unusually lengthy telephone conversation, Polly seizes the first pause to call out (in tones that sound amazingly like Mrs. Cashin's) "GOODBYE." Invariably the party of the second part hangs up and all is well.

PILFERINGS

Tallulah Bankhead in her autobiography, "Tallulah" credits Adlai Stevenson with, "Flattery is fine if you don't inhale."

Still quotable are the following "Quotable Quotes" from Reader's Digest, Oct. 1951:

Blanche Manor: Television has a lot of first grade comedy in it—the trouble is most of the audience has gone beyond the first grade.

Martin Block: The best way to turn a woman's head is to tell her she has a nice profile.

Bernard Baruch: "Two things are bad for the heart—running up stairs and running down people."

Dan Bennett: "An ideal husband is one who treats his wife like a new car."

Kip Taylor, Oregon State coach, suggests: "The ultimate in the football platoon system: one team for offense, one for defense and one to attend classes."

The Catholic Fireside tells one about a guest, arriving late for a holiday dinner, and finding a seat reserved for him near the head of the table, where a goose was being carved.

"Ah," he commented, "So I'm to sit by the goose."

But noticing the lady seated on his left, he hastened to make amends,

"I mean," he smiled at her apologetically, "The roasted one, of course."

Pointer of Interest

MR. and MRS. WALKER CISLER of DEVONSHIRE ROAD

There is a legend at the Pointe that the civic pursuits of Mr. and Mrs. Walker Cisler are of such whirlwind pace, they rarely see each other. True, they may be at the same civic function but usually Mr. Cisler is escorting the chief dignitary and Mrs. Cisler is riding in another car with the ladies of the party.

So, the legend continues, recently bound on separate programs, Mr. and Mrs. Cisler found their cars next to each other at a stop light. They enjoyed the longest conversation they've had in months calling to each other through the opened car windows.

Perhaps that is one of the many reasons they are so deeply attached to the United Service Organization of Metropolitan Detroit. Here they do meet frequently. Mr. Cisler is president of USO and Mrs. Cisler one of its senior hostesses. Last February, when USO moved into its new quarters in the basement of the Shubert Theater, Mr. Cisler became president of the organization. His distinguished military record made him singularly fitted to head an organization which annually is host to some 300,000 servicemen and women pausing for a while in this strange and lonely city.

Call to Washington
Back in 1941 the Cislers lived in New Jersey where he was an executive with the Public Service Electric & Gas Co.

The war was coming on and Mr. Cisler was called to Washington to work with the Office of War Utilities, then engaged in providing the country's utilities with what they needed to run and expand for defense requirements.

At the end of two years, his job completed he wanted to rejoin his family and come on to Detroit where he had a new job. . . . executive vice president of Detroit Edison.

But Secretary of War Stimson urged him—and a personal memo asking his services signed "Eisenhower" persuaded him to accept a military rank, go to North Africa, Sicily and Italy to assume the overall responsibility of a restoration program.

His task was to restore electric, gas and water supplies throughout the entire operational areas under Eisenhower's command.

First Meeting
Until July, 1945, Mr. Cisler served Eisenhower. He remembers his first meeting with the general.

It was prior to D Day and Eisenhower had brought together some of his key staff to thank them for their part in making plans in preparation for the Normandy invasion. The meeting was held outside London and Mr. Cisler was immediately struck with General Eisenhower's sincerity and personality.

As the association lengthened, he was impressed with Eisenhower's leadership not only in military matters but in affairs pertaining to civilians.

"Eisenhower had not only the responsibility of driving out the enemy," Mr. Cisler mused the other afternoon, "But of caring for the civilians. He proved brilliantly in his military career that he has the very qualities America seeks now in its next president."

Mr. Cisler, who is said by

troit in carrying out the services of USO. All USO activities and expenses are financed through Torch Drive funds. One of Detroit USO's major policies (not true of all other national USO's) is to serve only free food to servicemen and women. This is made possible, Mr. Cisler told us, by the generosity and volunteer service of a hundred or more civic, educational and church groups, as well as from the annual budget allotted by United Foundation.

The four services offered by Detroit USO include the Downtown Club, the USO Club at Fort Wayne Military Reservation, the USO Mobile Canteen Service (operated by the Salvation Army, serving refreshments and bag lunches to inductees and members of armed forces at railroad terminals in the Detroit area) and the Detroit USO shows for servicemen and women.

In addition USO provides miscellaneous entertainment such as special event parties, picnics, beach and boating parties in season, dances, bingo games, etc. Fifty junior hostesses go to Selfridge Field two nights a week to dance with the servicemen. Twenty shows a month are produced by carefully screened, talented amateurs.

Steam irons for rumpled uniforms, a free snack bar (open 12 hours a day, seven days a week) free tickets to theatre, concerts and sporting events, a television lounge, a writing and reading room are other ways USO provides a home away from home for the men and women of our armed services.

To these interests, Mr. Cisler brings the same executive ability, the same great heart he gave this country and our allies during the war. Mrs. Cisler is his eager helper.

There's something about Mr. Cisler that reminds you of a young William S. Knudsen. He has been decorated and be-medaled by his own government as well as almost all of Europe's countries. He is recognized as America's leading authority on power.

Yet he is modest, even humble, and very thoughtful. When Mrs. Cisler and this writer were discussing electric power, he quietly left the room.

The Cislers showed us a handsome white bound album of photos of Queen of the Netherlands Juliana during her recent Detroit visit. Someday they hope to carry this volume to the queen for whom they have great admiration.

Mrs. Cisler grows a little wistful about her busy life when she says she loves to swim and Mr. Cisler is a little wistful, too. Inspired by the boy next door, he's ordered a bicycle—the kind with three speeds—which he'd like to ride around the Pointe if a man could ever find time.

MACAROON CUSTARD

Contributed by Mrs. Julius F. E. Huebner

- 2 c. milk
- 12 macaroons
- 1/4 tsp. almonds extract
- 2 eggs
- 5 tbsp. sugar
- 1/4 tsp. salt

Scald the milk. Beat eggs slightly and add sugar, salt, crushed macaroons and almond extract. Add slowly to scalded milk and stir at all times.

Into lightly buttered custard cups pour the mixture. Place the cups in a pan of hot water and bake in a slow oven until firm. Test with silver knife, if custard adheres to knife it is sufficiently baked.

Serve at room temperature with a swirl of whipped cream and a cherry on top.

NOTICE!

The Paul Gach Studio will not be open until 12 noon on Tuesday, November 4th. I would be sure that all of my staff has a chance to vote.

I think election day should be a National Holiday. This is my one-man crusade to start such a movement. It is O.K. to lock up everything for Labor Day, Memorial Day, or Independence Day. Those days are all just a tribute to the past. Now, how about doing something about the future?
