PLEA ISSUED FOR BLOOD DONORS

HEADLINES of the WEEK As Compiled by the Grosse Pointe News

Thursday, January 7
OFFICIALS OF DODGE LOCAL 3 UAW (CIO) sent a telegram to President Eisenhower, telling him that there are at least 100,000 persons unemployed in the Detroit Metropolitan area. The telegram was prompted by the rising national unemployment which is expected to reach more than two million persons this month.

The wire was made public by Rep. Machrowicz (D., Mich.) who made it a part of the Congressional Record. The local officials asked that the President take definite action to prevent a possible depression.

Friday, January 8
PRESIDENT EISENHOWER, in a 7,000-word State of the Union message to Congress and the nation, unfolded a massive program aimed at building a stronger America. He declared that the nation must pursue peace through military and economic strength, but be prepared to use atomic weapons if need be to preserve our freedom.

He proposed revision of farm, labor, Social Security, housing and tax laws. He also advocated voting for 18-year-olds, and a proposal to strip Communists of American citizenship, if, hereafter, they are convicted of conspiring to overthrow the Government by force.

Saturday, January 9
A SPEEDY CONVENING of the Korean peace conference was called for by Communist China's Chou En-Lai. In a Peiping radio broadcast, Chou repeated his demand that the United States had wrecked the explanations program and was to blame for the breakdown in the preliminary talks.

Gen. Taylor, chief of the UN ground forces in Korea, warned that any Communist push into the truce zone to prevent the release of anti-Communist prisoners on January 23, may result in the resumption of the shooting war.

Sunday, January 10
THE HUNT is on for Don Ritchie, fugitive key witness in the Walter Reuther shooting case. While the hunt was in progress, Ritchie called a Detroit reporter and claimed that his entire statement to Wayne County Prosecutor Gerald O'Brien, regarding the attempted murder on the CIO leader, was a lie.

Monday, January 11
A DECISION to see conditions in Russia for himself, prompted Premier Georgi Malenkov to make several extensive tours. The information regarding the tours was relayed by foreign diplomats well acquainted in Moscow.

Reports that the premier was seen in widely separated places was at first discounted by these persons, but the report was later confirmed. The diplomats expressed surprise that the dictator had done this, as they attributed some of the errors made by Josef Stalin to the fact that the old dictator was wedded to life inside the Kremlin walls.

Tuesday, January 12
CHILDREN should always listen to their parents, Terry Ihakst, 9, of Vancouver, B. C. decided. This fact was emphasized when he helped rescue a playmate from the waters of an inlet. Everyone called him a hero, but mother was a little peeved, and proud too, of the part her son played in the rescue. When he came home, after the incident, he was given a good strapping, because mamma told him time and time again, not to go near the water.

Wednesday, January 13
MASSIVE AVALANCHES roared down the Alps, severing the heart of Central Europe's mountain land and cutting a wide swath of death and destruction. At least 23 persons were killed and 44 more were reported missing and are feared to be dead.

Everyone Happy as Work Starts on New School Building

SCHOOL BOARD PRESIDENT BERT WICKING turns first shovel full of earth on site of auditorium-gymnasium, as student body and officials look on. DAVID BELFORE, left foreground, turned the second shovel full of dirt. School Board member CHET SAMPSON, in light topcoat and without hat, and SCHOOL SUPERINTENDENT DR. JAMES BUSHONG, (behind Mr. Wicking), were among the spectators.

Total of 28 Polio Cases 1953 Record

Pointe-Harper Woods District Had Four Fewer Cases Than in Preceding Year

There were 28 cases of infantile paralysis reported in the Grosse Pointe-Harper Woods health district during the year 1953, according to a report just issued by Dr. Thomas Davies, director. This is four cases less than the 32 reported in 1952.

Harper Woods reported 11 of the 28 cases last year, with the Woods having eight, the Farms six and the Park three. No cases were reported in either the City or Shores.

Three Multiple Cases
Three multiple cases, with two patients in each of three families were reported. There was one fatality, a boy in Harper Woods, who was given gamma globulin right after his brother came down with the disease.

Dr. Davies said it takes about a week for the gamma globulin to take effect, and the boy died within three or four days after he had received it.

Sixteen of last year's 28 cases were accompanied by paralysis. Of the 32 cases in 1952, 15 were accompanied by paralysis.

The first cases each year were reported in July, with the heaviest incidence coming in August and September. Two cases were reported in December of 1953, while the last case in 1952 was reported in November.

In 1951 there were only 14 cases reported in the district.

Unruly Prisoner Attacks Officers and Floods Cell

William F. Foster, 28, of 23122 Edsel Ford court, St. Clair Shores, was arrested and charged with being drunk and disorderly on Wednesday, January 6, by Farms police, and placed under a \$100 bond pending an appearance in court on January 27.

According to Farms police, Foster was creating a disturbance in a Mack avenue bar, when he was requested by Police Sgt. Gene Boylan, who was in plain clothes, to behave.

Ground-Breaking Ceremony Gets Construction Started On Auditorium-Gymnasium

Board of Education President Bert H. Wicking and Student Association Head David Belfore Make Speeches

Construction of the new Auditorium-Gymnasium, which will be built adjacent to the Grosse Pointe High School, was officially launched with ground breaking ceremonies on Wednesday morning, January 6. Mr. Bert H. Wicking, President of the Grosse Pointe Board of Education, who presided at the ceremonies, made the following remarks:

"It is a real pleasure to represent the Board of Education in this ceremony of breaking ground for the new Auditorium-Gymnasium. We have planned for this day, and looked forward to it, for a good many years. I know that I speak for the Board and its employees, the students and all the citizens of the community when I say we are pleased and proud that the day has at last arrived when we can actually begin construction of this much needed and fine addition to our school plant.

To Serve Many Purposes
"This new building will serve several purposes: First, it will more adequately provide for the physical education needs of our high school youth. Upon completion of this building, we will immediately be able to provide a better program of physical education for all the students in the High School.

"In the second place, this new building will provide the facilities which are necessary for some of our competitive high school sports. Heretofore, very few spectators have been able to witness and enjoy the athletic programs because there has not been room in the old gymnasium for more than half of the student body alone.

Stimulates Interest
"A wisely directed athletic competition stimulates school interest and public interest, and builds loyalty on the part of students and furthers the cause of physical education in general. (Continued on Page 2)

Court Summons Ignored By Seven

Only one person out of eight scheduled to appear before Park Judge C. Joseph Belanger on Wednesday, January 6, appeared to answer traffic violation charges.

George Joudas of 525 Newport, Detroit, the only one to appear in court, pleaded guilty to making an improper left hand turn and causing an accident at Bedford and Jefferson. He was given a fine of \$20 and placed on probation for 30 days.

Cigaret Tax Evaders Get Jail Terms

Smugglers Handed Stiffest Sentences Law Allows; Leader Pointe Resident

The toughest sentences ever meted out for cigarette smuggling in the State of Michigan, were handed to six members of a ring on Thursday, January 7, by Recorder's Judge Paul E. Krause.

The ring was accused of bringing untaxed cigarettes into Michigan from early 1947 until State Police seized them last February. During that length of time the ring's activities cost the State at least \$10,000,000 in cigarette taxes.

Penalty Increase
The Michigan Legislature raised the maximum penalty for this offense to five years in prison in 1951.

Attorneys for the defendants announced they will file for a new trial.

The ringleader, Sam Fronteris, 41, of 379 Chalfonte road, Grosse Pointe, got three to five years.

The others, four from Detroit and one from St. Clair Shores, were given two years each. They are: Peter Monteleone, 35; Anthony Palazzola, 32; Clarence Huey, 55; and Dominic Asta, 39, the Detroiters, and Ernest Brown, 44, of St. Clair Shores.

Bonds Refused
Judge Krause refused to allow bond, stating the ring was the same one caught in a raid at New Buffalo in 1951, which didn't make a bit of difference, as they had kept right on working.

The six were found guilty on December 10. All but Huey and Asta were convicted on two counts—conspiracy to violate the tax law and conspiracy to cheat and defraud the State.

William B. Elmer, assistant Michigan attorney general who led the prosecution, stated that the sentences were the stiffest handed to cigarette smugglers and if the state continues to make smugglers pay such penalties it would lead to a breakdown of all cigarette tax evasion in this state.

Big Rally Planned In Parcels School To Aid Polio Drive

Motion Picture Starring Helen Hayes to Headline Program to be Presented at Gathering Next Thursday Night

A motion picture starring Miss Helen Hayes, one of America's top stage and screen actresses, will be the feature attraction at a huge rally scheduled for 8 p.m. Thursday, January 21, in the auditorium of Parcels Junior High School, Mack and Vernier.

The mass meeting, which is open to the public, is planned especially for volunteers from all the Grosse Pointe communities and Harper Woods who are working on the Mothers March on Polio, the dramatic climax of the 1954 March of Dimes, to be held the last Thursday in January.

Pictures Work
The film paints a vivid picture of the work the National Foundation for Infantile Paralysis is doing in its patient aid program and the new polio prevention programs. In it Miss Hayes thanks the thousands of women who have volunteered their services in the past and describes dramatic examples of what these services have been able to accomplish.

Speakers for the occasion will include Mrs. John Schade, of 1830 Stanhope avenue, chairman for Grosse Pointe Woods, and two members of the staff of the Wayne County Chapter of the National Foundation. They are Mrs. W. Louis Boyington, director of women's activities, clubs and organizations, and Ed Hare, community director.

Has Personal Interest
Miss Hayes, who is national chairman of women's activities for the National Foundation, has a personal interest in the March of Dimes. Her own daughter, 10-year-old Mary MacArthur, died of polio in 1949, and the Mary MacArthur Memorial Fund to lend a hand in the polio fight was set up by friends and prominent show people. Miss Hayes and her husband, Charles MacArthur, help support this work.

No special invitations are needed to attend the rally, according to Mrs. Albert DeManigold, chairman for the event. Anyone who wishes to aid in the crucial fight against the crippling polio, is urged to attend. This year the crusade is more important than ever before because of the new polio prevention vaccine to be tried in the near future when more than half a million school children are to be inoculated with the vaccine.

May Wipe Out Fears
If these trials are as successful as National Foundation scientists hope they will be, it may well be that the fear of polio will be wiped out for every parent.

For this reason, Grosse Pointe leaders are anxious to interest as many men and women as possible in attending this free rally to find out what they can do to make this long sought protection a reality.

BREAKS HIP SKATING
Royal G. Dean, 34, of 321 McMillan, slipped and injured his right leg and hip on Wednesday, January 6, while skating at the Chalfonte Ice Rink. He was rushed to Bon Secours Hospital by Farms firemen, where X-rays disclosed that the fall had broken his hip.

When icy waves from Lake St. Clair splashed over the break-wall and froze on Lake Shore road, it spelled trouble for six drivers. In the early evening of Friday, January 8, William A. Baucher of Liberty street in St. Clair Shores, was driving his 1950 Ford coupe east on Lake Shore and brought the car to a halt when he saw another car ahead go into a skid.

A moment later a 1950 Hudson driven by Robert W. Emke of Lenox in Detroit, skidded into the rear of the Baucher car. A 1951 Packard owned and driven by James Clayton of St. Clair Shores, immediately smashed into the side of Emke's Hudson. In attempting to avoid the tangle of cars, John Edwin McFarlane of West Chicago boulevard skidded into a spin and plowed into the Emke car.

McFarlane managed to back his car off the pavement when he saw a fifth vehicle approaching. This was a 1951 convertible driven by Mrs. Lois Ann Duffrient of Hawthorne road in Birmingham. When Mrs. Duffrient attempted to stop she skidded and crashed into a sixth car which had pulled to the curb when its driver noticed the conglomeration of twisted steel ahead. Mrs. Duffrient's car continued across the road and finally came to rest in the center island.

There were no traffic violations issued, but Mrs. Duffrient was taken to Cottage Hospital where she was treated for a cut and bruised knee.

Mobile Unit Coming Here Tomorrow

People Urgently Requested to Contribute Between Hours of 2:30 and 8:30

The Red Cross Mobile Unit will make its first visit of the new year to the Pointe tomorrow, Friday, January 15. The collection will be made in the War Memorial Center between the hours of 2:30 and 8:30 p.m.

As in previous collections, the one this Friday will be sponsored by all the Pointe churches, the Memorial Center, Board of Education, and the Marine League. Mrs. Wendell Goddard is general chairman of the drive and will be assisted by Mrs. Frank P. Lister, Mrs. Harther Keim, and Mrs. C. Q. Swenson.

Stocks are Low
The Red Cross reports that blood stocks are in dire need of replenishment. Military hospitals require thousands of pints to treat those recovering from wounds inflicted in Korea. There is also the blood bank which the Red Cross maintains for disaster cases and epidemics which must be re-stocked.

There is also a great necessity for additional whole blood to make gamma globulin for immunization against infantile paralysis.

It is urgently requested that all residents do their individual parts to make this collection a success. Just a few minutes of time may save the life of a fellow American.

Miss Mary Boyer is chairman of the committee which will again provide transportation to and from the Center for all desiring it. Miss Sue Mann of the Junior Red Cross will be in charge of nursery facilities which will be available to all children who accompany their parents.

Mrs. Clarence Swenson's committee will be in charge of preparing the supper which is supplied to all volunteer workers and the Red Cross professional staff which accompanies the unit.

The centrally located War Memorial is an ideal location for blood donations, with ample parking, and plenty of room for registering prospective donors and handling the donations.

The Pointe is expected to redeem itself in view of previous recent collections which have fallen short of expectations. Make your appointment today by calling TUxedo 1-6030. Your blood may save a life.

Taxi Ordinance Amended in Park

The Park recently passed an amendment to an ordinance governing the regulating of licensing and operation of taxicabs and other public vehicles for hire.

Hereafter, the license of the cab driver must bear a photo of the driver, his signature and thumbprint, and a blank space to record any arrests or convictions.

Marring or removing any official entry or book, shall, besides any punishment imposed, be reason to revoke the cab driver's license.

Licenses from now on will be issued the first day of January every year, and will be good until December 31 of the same year. A fee of \$3 will be asked for the first license. Previously it was one dollar.

Six Cars Pile Up in Tangle When Ice Coats Lake Shore

When icy waves from Lake St. Clair splashed over the break-wall and froze on Lake Shore road, it spelled trouble for six drivers. In the early evening of Friday, January 8, William A. Baucher of Liberty street in St. Clair Shores, was driving his 1950 Ford coupe east on Lake Shore and brought the car to a halt when he saw another car ahead go into a skid.

Mrs. Duffrient's car continued across the road and finally came to rest in the center island.

There were no traffic violations issued, but Mrs. Duffrient was taken to Cottage Hospital where she was treated for a cut and bruised knee.

Total damage to all cars was estimated as close to \$1,000.

Hold Ground Breaking

(Continued from Page 1)

Overall, it is desirable to have competitive athletics and this new building will provide the facilities needed for some of our major activities in this area.

"In the third place, this new building will provide for the first time in a good many years, facilities which are safe and adequate for all-school meetings, assembly programs, graduation exercises, etc. And, finally, the new building will provide auditorium facilities for community gatherings of various kinds. It will be our first community building with adequate seating for large gatherings and it is the intention of the Board of Education to make the facilities of this new building available for all community groups on the same basis as our other school facilities.

Thanks Due Many
"Yes, we are most pleased that we are now beginning construction of this fine multi-purpose building. It would not be possible to mention by name the individuals and groups whose hard work and cooperation with the Board of Education have made this day possible.

"I do want you to know, however, that the Board has recognized and does appreciate very much the work and cooperation of many individuals and groups from our own professional staff, from the High School student body, and from the citizenry in general. Of course we are grateful for the community's support in the matter of approving funds for the construction of this building.

"We believe the public's approval of this building represents a reaffirmation of faith in public education for our young people; and the Board believes this is a challenge to all of us to use the new facilities in such a way that the dividends of good education and citizenship are evident in our fine community.

Team Work Desired
"Speaking for the Board of Education, and the Superintendent, I want you to all know that it is our hope and desire that the spirit of team-work and team-victory which has made this building possible will be carried over into the activities which will be sponsored in this new building. "With these thoughts in mind, I take great pleasure in breaking ground for this new building and I do hereby officially declare the beginning of construction on our new Gymnasium-Auditorium."

Following this statement by Mr. Wicking, David Belfore,

President of the High School Student Association, was introduced. For the students of the High School and for the community as a whole David thanked the Board of Education and the voters of the community for their efforts in making the construction of this new building possible. He stated that he knew many advantages to the new High School physical education and athletic program would result with the completion of this structure. In addition he commented that he was sure the whole community would profit in many ways with the advent of this beautiful new building.

Students All Present
The ceremonies were attended by the entire High School student body, members of the faculty and administrative staff, the Superintendent of Schools, Dr. James W. Bushong, members of the Board of Education, Mrs. Alice M. Sheaffer, Franklin D. Dougherty, Chet Sampson, and James W. Lee, II, and many interested citizens. Representatives of the Kriehoff Company, the general contractor for this building, as well as Earl G. Meyer, the architect for the building, were also present.

The first shovel of dirt was turned by Mr. Wicking and the second by David Belfore. The crowd had hardly dispersed before a power shovel and bulldozer started really moving the dirt and construction work for the building was under way.

Trombly P.T.A. To Meet Jan. 18

The Trombly School Parent-Teachers Association will meet in the school auditorium at 8:15 p.m. on Monday, January 18.

Howard Poppen, program chairman, has invited Miss Helen Mandeville Martin, geologist of the Michigan Conservation Department, as the guest speaker for the evening.

Miss Martin will talk about and illustrate with slides "How Michigan Got That Way," with special reference to the geology of Grosse Pointe and the Detroit Metropolitan area.

She has conducted many research studies and land economic surveys for governmental units and oil companies in several states. One of her successes was the discovery of water at Willow Run.

Mrs. Martha Graham of the Trombly Staff, who heard Miss Martin speak at a summer conservation workshop, says, "Miss Martin is a most instructive and entertaining speaker and I look forward to seeing and hearing her again."

Prior to the general meeting, the classrooms will be open for visitation. This is an opportunity for parents to see the children's work and to talk with the teachers.

Mrs. Suzanne McCray and Mrs. Albert Frost, social co-chairman, together with room mothers, will welcome parents and teachers in the gymnasium for refreshments and fun following the general meeting.

Room mothers who will serve as hostesses are Mrs. Paul Dumke, Mrs. Heywood Knighton and Mrs. Raymond Baer.

Expert to Talk To Photographers

Elwood Armstrong, FPSA, will give a lecture on composition, at the Grosse Pointe Camera Club meeting on Tuesday evening, January 19.

Mr. Armstrong, who has been an outstandingly successful photographic exhibitor, is noted for his ability to compose a picture before releasing the camera shutter. He will show the club how this has been accomplished and will use many of his successful prints as illustrations of the various points.

Following the talk, members of the club will submit prints for judging and criticism and the best will be selected for honors. The meeting will be held at the Neighborhood Club at 17145 Waterloo avenue commencing at 8 o'clock sharp. The interested public has been invited to attend.

Incinerator

sites in Clinton and Harrison Townships are being considered. Last October, the Authority was denied permission to build on a site at Quinn road and Harper, in Clinton Township, when a premature release of plans stirred up residents in that area. Leaders of residents in that neighborhood presented the Clinton Township board with a petition bearing 434 names of persons protesting the building of the proposed project.

Storm Council Chambers
At a public hearing held on October 19, residents stormed the council chambers and threatened court action if the permit to build was granted the Authority. The people were steadfast in their protests. In spite of the fact that the Authority sought to show that the incinerator would not be a detriment to the neighborhood.

Once built, the incinerator will serve all the Pointes and Harper Woods, and will include the community granting the site.

Christ Church Reveals Plan For Educational Building

The annual Parish Meeting of Christ Church Parish was held on last Monday evening. There were two main topics that were given attention by the group.

The first of these was the election of four new vestrymen to serve for terms of three years and to replace Charles B. Crouse, John H. French, William K. Muir, and Alexander L. Wiener, who are retiring members of the Vestry.

Those elected were John C. Chapin, Harry S. Kinkenshaed, John B. Ford, Jr. and Robert H. Tannahill.

Immediately after the meeting the new Vestry met to elect its officers. The results were as follows: Senior Warden, Dr. Arthur B. McGraw; Junior Warden, Kendrick Brown; Secretary, Wilfred F. Howard; Assistant Secretary, Robert H. Tannahill; Treasurer, Wendell W. Anderson; Assistant Treasurer, Clark Swart. Newly elected chairman of the standing committees were: Wendell W. Anderson, Finance; Mervyn G. Gaskin, Buildings; Alexander L. Wiener, Ushers.

The second main item of business concerned the proposal to build a new religious education building for the use of the greatly expanded activities of the parish. Since 1933 the number of families in Christ Church parish has increased from 404 to 1,067 and the Church School enrollment from 368 to 812.

To study the needs presented by this situation a building committee headed by John B. Ford, Jr. has been meeting for a number of months. The plan which they presented to the meeting was accepted unanimously.

In the early spring a two and one-half story building containing 18 classrooms will be begun. A building contemporary in na-

Meeting this Thursday evening, January 14, at the War Memorial Center, the Grosse Pointe Men's Garden Club will choose the officers who will guide its operations during the coming season.

This club, started only last spring, now has over 80 members whose gardening ability ranges all the way from the bewilderment of the rank amateur to the skills so well personified in its president, Vincent R. De Petris.

The interchange of ideas among its members has been a real factor in the rapid growth of this new club. Such a round table discussion will be a feature of next week's meeting, to which all Grosse Pointers interested in gardening are invited.

John Cochrane, vice-president of the Men's Garden Club of America, will present the charter for the local organization's affiliation with the national garden group, at tonight's meeting.

The immediate past-president of the regional Men's Garden Club of America, Elwood Moun-teer, will speak.

Also attending will be the president of the Men's Garden Club of Detroit, Marcus Baker, and the president of the Northland Men's Garden Club, James Dinsler.

Family Relation Course Starting

"Understanding Ourselves and Our Children" is the subject of a course conducted by Mrs. Morgan Sherman. It will be held each Friday morning from 9:30 to 11 a.m. in Christ Church, 61 Grosse Pointe boulevard.

The group will discuss topics of current interest to its members such as discipline, religion in the home, goals of child training, and personality development.

A new class will begin on Friday, January 22 at 9 o'clock and will welcome all maternal parents, experienced or prospective.

BLAZING POWER

Woods firemen extinguished a fire in the motor of a car belonging to Dr. Edwin J. Neill of 1732 Severn, on Saturday, January 2. The fire, caused by a short circuit, caused \$50 in damage to the motor and hood paint.

Pierce Seniors Set For Last Toot

The seven Seniors in the 75 piece Pierce Junior High School band tune up before their last appearance as Junior High musicians when the band will be featured in a concert to be held in the Pierce auditorium, Friday, January 15, at 9 p.m. Shown left to right: NANCY DONOVAN, BONNIE AVERILL, OTTO SHERER, EDWARD PON-GRACZ, DAVID ZUEHLKE, KAY RASSMUSSEN and JEAN STEFANI.

Study with Sadler's Wells Reward for Young Dancer

A former Trombly School student is eagerly awaiting her trip to London, England in September, where she will take up ballet dancing in one of the best schools of its kind in the world.

Nancy Carneghie, 11, daughter of Mr. and Mrs. Andrew Carneghie, formerly of the Pointe and now of Birmingham, has been selected for her dancing talent and appointed to study the ballet in the Sadler's Wells Ballet School in London.

Only two children, who must show exceptional talent, are chosen from the entire United States each year.

Nancy was taken to the Civic Opera in Chicago on December 30, where she auditioned before Ailne Phillips, assistant to the director of the school in London. A number of other children displayed their talents. Auditions were carried on throughout all the major cities of the United States.

Selection as pupil of the famed London school has its drawbacks, however.

Nancy, an accomplished tap dancer and horseback rider, must give these up and was made to promise that she would not engage in anything strenuous, because of possible injuries to her legs. Besides this, she must give up that which is the nectar of life to all children — sweets.

Giving up her horseback riding is pretty hard for her, as this means she may not be able to go riding with Christie Johnston, 11, at a ranch in Arizona.

Christie is the daughter of Nunnally Johnston of Hollywood fame. Besides riding, the two girls have a birthday in common, February 25.

Nancy's first teacher was Bernice Falk, a member of the Grosse Pointe Board of Education, who taught her tumbling and acrobatic dancing for four years. She

was also taught dancing by Mrs. Edna Jose of Detroit.

Many of the Pointers will remember Nancy from her performances given at the Grosse Pointe High School, where she demonstrated her dramatic acting ability as well as her dancing form.

The Carneghies also have a son, William, 14, who formerly attended Pierce Junior High School.

He is a crack shot with fire arms, and is the holder of two silver pins, one for shooting and the other for steer riding, both awarded in Arizona. He was recently selected as all-around cowboy, while on a stay in that state.

Blood Typing Survey Planned

Harper Woods residents will soon have the benefit of a blood typing survey. It is of particular importance for each individual to know his blood type since this knowledge may be life saving to him personally or to someone else who needs his type of blood.

A report tag will be furnished to each individual which should be carried on the person at all times. The tags include the bearer's name, Rh factor, blood type, birthdate, and religion.

The very great majority of Pointe residents had their blood typed during a survey in 1952.

DANGEROUS CELEBRATING

Raymond Byrne of 1402 Lakepointe, called Park police to his home a few minutes after midnight, January 1, and complained that someone shot a bullet through his window. Police pried out the bullet, a .38 caliber, from the wall and took it to the station.

Oratory starts many a fight, but never was known to finish one.

Church Offers Bible Class

The Grosse Pointe Memorial Church is featuring an adult course of study on "The Reformation of Christ." It is being conducted on a weekly basis in the Church House each Thursday evening from 7:30 to 9:30 o'clock.

Some of the subjects included in the course are: "The Bible in the Church," "The Supremacy of Christ," "What Is Man?," "The Word and The Sacraments," "The Ministry of the Church."

The Rev. James W. Gillespie, M.A., minister of Christian Education of the Memorial Church staff is teaching the course. The first hour is lecture, while the second hour is devoted to questions and discussion by the group. This course will continue through March.

The course is open to any adult who is seeking new knowledge of the Bible and biblical history, together with inspiration and a closer fellowship in the Christian faith.

Legion Auxiliary News

From Unit 303
By HAZEL ALLOR

Our work on cancer pails has been started again. We have started a new year now, so let's get busy at home or at the War Memorial Center on Mondays, 10 to 3.

Hope everyone is rested after the holidays and turns out at the next meeting, Jan. 18. Lunch will be served by Ethel Loughlin and Mary Fauser.

Clothing for destitute children in the Philippines will be collected by the women of the American Legion Auxiliary, as one of the Child Welfare projects for 1954. Mrs. Alice Marrs, Child Welfare Chairman of Grosse Pointe Unit of the Auxiliary, has announced.

The work for the Philippine children is in addition to the knitting of sweaters for orphans in Korea which last year resulted in more than 30,000 sweaters being sent to Korean orphanages, and which is being continued this year.

"For children in the Philippines," explained Mrs. Marrs, "We have been asked to collect good used summer clothing, shoes, yard goods, pencils, scrap paper, school books, comic books and other articles for children between the ages of seven and ten. These children, born when our

service men were in the islands, are unable to attend school because their mothers, who are trying desperately to keep the children with them, cannot provide these necessary items."

Distribution of the material to the Philippine children is being

handled through Claude A. Thorpe Post No. 10, The American Legion, at Clark Air Force Base near Manila. The address of the Post is: Claude A. Thorpe Post No. 10, Clark Air Force Base, APO 74, San Francisco, California.

Whitcomb Estate Stays in Family

Only two heirs were listed in the will of Edgar B. Whitcomb, it was admitted when the will was admitted to probate on Tuesday, January 5, by Probate Judge Frank H. Sexton.

Mr. Whitcomb, a long time member of the Detroit Arts Commission and a director of the Detroit News, died on October 13, at the age of 87. He lived in Lake Shore road.

The only heirs are a daughter, Mrs. Harriet W. Wilkinson of 334 University place, and a son, James S. Whitcomb of Oakland Park boulevard, Pleasant Ridge. They, with Martin C. Callahan, were named executors.

The will lists real estate at more than \$750,000, and personal property at \$1,500,000 and upwards.

Mr. Whitcomb, and his late wife, Ann Virginia, who was the daughter of James E. Scripps, founder of the Detroit News, gave priceless paintings of the old masters as well as sculptures, textiles and engravings to the Detroit Institute of Arts.

Conduct Panel On Recreation

Recreational Directors from three neighboring communities joined in a panel discussion on Friday, January 8 at the War Memorial Center under the auspices of the League of Women Voters.

With Chet Sampson, a member of the Grosse Pointe Board of Education as moderator, consideration centered on the administration, financing, facilities and supervision of a community-wide recreation program. Mr. Sampson was welfare and recreation director of the entire Southwest Pacific for the U.S. Navy during World War II.

Henry D. Schubert of Dearborn, C. H. Worden of Royal Oak, and Frank Whitney of Birmingham are professional recreation directors from their respective communities.

Mr. Schubert returned several months ago from Germany where he made a year's study of the recreational situation in German cities for the Department of State.

Mrs. John Suter, Recreation Chairman for the League, invited all residents of Grosse Pointe who are interested in the possibility of an area recreation program to attend the meeting. A tea followed the discussion.

Mrs. William Adams, of University place, assistant on the Recreation Committee, was a member of the Robinson Committee which made an extensive report of recreational facilities and needs a few years ago.

Recreation Director Henry D. Shubert, of Dearborn, described how his budget of \$3.88 per capita is spent on a comprehensive summer camp program, playground planning and general supervised activity.

Frank Whitney of Birmingham, holds his office under the Board of Education. A particular project of summer instrumental music participation is available to every Birmingham child.

'Tots lots' supervised by trained personnel are a feature of Royal Oak's program, headed by C. H. Worden. Funds for this and the adult education program are provided jointly by the Board of Education and the City.

Chet Sampson, of Grosse Pointe was moderator for the panel.

Continued interest in the subject of recreation is shown in plans of the League for a combined unit meeting to be held at Memorial Center Wednesday, January 20, at 8 p.m.

Mrs. William Adams of University place will summarize the facilities and needs for a recreation program in Grosse Pointe and discuss suggestions for correlating existing programs. Mrs. Adams was a member of a recreation committee which in 1948 brought out a report, a study of local recreation problems made by experts from the University of Michigan.

The League of Women Voters urges all members of the community who are interested in a recreation program to attend the meeting. Refreshments will be served.

Let peace talks continue—at least it's better than war talk.

Society News Gathered From All of the Pointes

From Another Pointe of View

By Jane Schermerhorn

January Jottings: "It's sort of man bites dog," Dan Holley said about his trip to Europe coming up next month . . . because Dan is going to Austria and Switzerland to license European manufacturers to make the Holley Plasti-Glass ski (which he invented) and right up till five minutes ago . . . WE were the ones ordering skis from those snowcapped countries . . . In Kitzbuhel, Dan has a Feb. 13 skiing date with Pointers Harley Higbie, Bill Mackey and Bud Taylor . . . The Pointe quartet will move to St. Aconey for five or six days of skiing there . . . and next push on to Klosters, outside of Davos, Switzerland, for more of the same. They'll arrive in Zermatt in time to celebrate Dan's birthday on top of the Matterhorn . . . That'll be March 1. Then Dan has to get down to business . . . long way down to business from the top of the Matterhorn! . . . and will travel to Germany, after which he heads for the Pointe once again . . .

They'll Ski at Arosa

They may bump into (if you'll excuse the expression) those other avid skiers . . . The Henri Hopkes, Jr., of Lakehurst avenue . . . whose European junket, combining business with skiing begins on February 4 . . . The Hopkes are favoring Arosa, Switzerland this Winter . . . and from this vantage point will hit the trails of Weisshorn, Carmenna, Hoernli and Tschuggen. The Hopkes have been carrying on avid correspondence with their skiing instructor in Arosa who tells them that Switzerland . . . at any rate, Arosa . . . has just had its first real snowfalls . . . and that the slopes should be pluperfect by time of their arrival. Their European junket includes stops in London, Paris, Brussels, Zurich, Copenhagen, Stockholm and Germany and will keep them on the continent about six weeks.

Back from the West

The William A. Ternes, of Three Mile drive, would probably have lingered longer in California. . . They went out for the Rose Bowl Game with the Bill Sampsons of Youngstown, O. . . if it hadn't been daughter Lynn Ann and a broken wrist connected during their holiday. They hurried back to the Pointe to see their cute invalid who can wield a fountain pen again at her Sacred Heart Convent studies. When Missie T. told us there were 103,000 fans at the Rose crush. . . that's the kind of a red-blooded football fan we are. We could only remember that story about the local couple who braved such a crush for the last World Series in Bowl game we wited. We could only think of the awful (Continued on Page 10)

Pointers Make Plans For Spring in Europe

Chet Sampson Will Take First Group of Pointers to Europe On April 25; Joseph J. Gonczos To Be Joined on Trip By Fellow-Passengers of South American Cruise

Now that Chet Sampson is invading ranks of the senior travelers there's simply NO reason to stay at home anymore.

In the summertime, the high school set takes off on Sampson tours to the West. In the Springtime the ditto set station wagons down to the nation's capitol and casts wide eyes over the New York scene on a Sampson tour.

This week, a group of Pointers took to the skies with Mexico the destination and Sampson the instigator.

Just a couple of months away, Chet will cross the Atlantic with his first Grosse Pointe trip to Europe.

Pointers are hurrying over to Adria Serpos' French classes at the High School, part of the adult education program, to brush up on parlez vous-ing. Any week-end now Mr. and Mrs. Mark L. Steiner will be heading Pointeward from their home in Manhasset on Long Island to confer with Mr. and Mrs. Joseph J. Gonczos of Bishop road about that first Sampson Tour to Europe.

The Gonczos met the Steiners when they were on a South American cruise last Winter. The two couples became great friends and making it a quintet was Captain of the SS. Santa Rosa, Father Robert L. Schreifer of Erie, Pa.

All five are going on the Sampson European trip, taking off from Willow Run on April 25. The itinerary is dreamy.

There'll be a couple hours in Milan, Venice, Florence, Rome, Naples, Genoa, Nice, Cannes and finally Paris.

Mr. and Mrs. Lee R. J. Scott of Sunningdale drive; Frank Lindeman of Harcourt road; Miss Lela Norman are others already signed up for the European tour.

After thirty-one days in Europe, the group will wing back to the United States.

Even before Mrs. Gonczos leaves for Europe she has travel plans. The end of this month she is delighted to chaperon daughter Laurie, Colleen Horrigan and Jim Hill on a junket to Venice, Fla., where they'll spend mid-term holiday from University of Detroit studies.

Back to Europe—the Gonczos will leave the Sampson tour in Paris to travel back to the United States aboard the SS. America.

In New York they'll be met by their other two school girls: Patty, who will have finished her studies at Marymount Junior College in Washington, D. C., and Judy, who will be out of Troytown by June 1.

Students in Homemaking Class Hear Expert Talk on Wallpaper

By Sandra Robertson
GFHS Journalism Student

Grosse Pointe High School's homemaking IV's are wiser about the whys and wherefores of choosing wallpaper as the result of a talk given by Fred Duke of a wallpaper company. The girls will apply what they've learned when they start to build scale models of houses.

combining two papers of different patterns and similar colors. An economy step in buying wallpaper is the double roll. It is merely a double-length roll of wallpaper made for the express purpose of dispensing with waste.

The point that Mr. Duke stressed the most is that, "it is important to take enough time to choose the wallpaper pattern you want, as originality is the idea today."

Franklin Street Settlement Meet

The annual meeting and election of officers of Franklin Street Settlement is being held today (Thursday) at the Settlement House on Charlevoix.

Mrs. John W. McEachren, of Renaud road, president, will conduct the meeting which is to be followed by a luncheon.

An enlightening part of Mr. Duke's talk was his explanation of how to care for washable wallpaper. He explained that it could be washed lightly with mild soap, but that the paper would not stand up under a vigorous scrubbing.

One of the newest ideas in wallpaper today is the photographic wood grain effect. Actual photographic reproductions produce realistic illusions of wood. Another new idea is that of using companion papers. This involves

MILITANT MINORITY

Detroit... The traffic jam was so terrible, their car was inching its way to Briggs Stadium. During one of the long waits and just as they were within the shadow of the stadium, Mrs. A. sighed: "I wish we had our piano with us." "For the Great Jehosaphat's Sake, what in aitch do you want the piano for?" said her sweating and anxious husband. "Well," said Mrs. A., ever so quietly, "our tickets are on it."

The Chop Stick Set

Nothing of that sort happened to the Ternes who have joined fans of the Golden West wholeheartedly... They visited his brother-in-law and sister, the John Heitzes in Santa Barbara... They loved the Tournament of Roses... Would like to be having hors d'oeuvres at Don the Beach Combers in Hollywood right this minute... All Cantonese with emphasis on tiny spare ribs, miniature egg rolls, French fried shrimp, and a chicken liver number complete with water chestnuts and crisp ribbon of broiled bacon... They weren't even dashed when they were given chopsticks for the meal... What's more they learned to use 'em... Mrs. Ternes, and you can tell from her svelte figure she usually eschews desserts of any kind, fell madly in love with the creamy Cheese Cake at Monty's and now has her work for February all cut out for herself... She'll go through her hundreds of cook books trying to find a recipe most nearly like it so she can duplicate the confection for another cheese cake fan, Mr. T...

Off to Florida

We manage to get one couple back into the Pointe and swoosh... here go five couples off to Florida... This thing never balances... The John T. Allmands, of Touraine road, are leaving this week for the rest of the cold weather at their home in Fort Lauderdale, Fla. Mr. and Mrs. Frank David Boynton Jr., of Cloverly road, came home after spending the holidays at their Lauderdale home and now are planning to head South again in a fortnight... Mr. and Mrs. Ernest A. Wunsch are leaving any minute for the same spot while Mrs. Frederick W. Parker of Washington road, and Mr. and Mrs. Robert Hayes took off Friday for Miami Beach. A convention kept Mr. Parker in town so he left on Monday, joining the trio in Florida. They will fly to Jamaica for a holiday before their Pointe return.

Park Withdraws Fire Truck Bid

Falling in line with other Michigan and outside state communities, the Park withdrew its application to the Michigan Office of Civil Defense regarding the purchase of a fire pumper truck.

City Manager Everett B. Lane informed the members of the Park council, on Monday, January 11, the city must cancel its application for the purchase of a new 1,000-gallon pumper, because the State wanted to retain title to the vehicle.

The Federal Government recently announced that it was willing to contribute \$5,500 of \$11,000, which would go towards the purchase of the pumper, provided the Park contributed a like amount, and pledge that the fire truck be used in the event of an

enemy attack or other emergencies in this area.

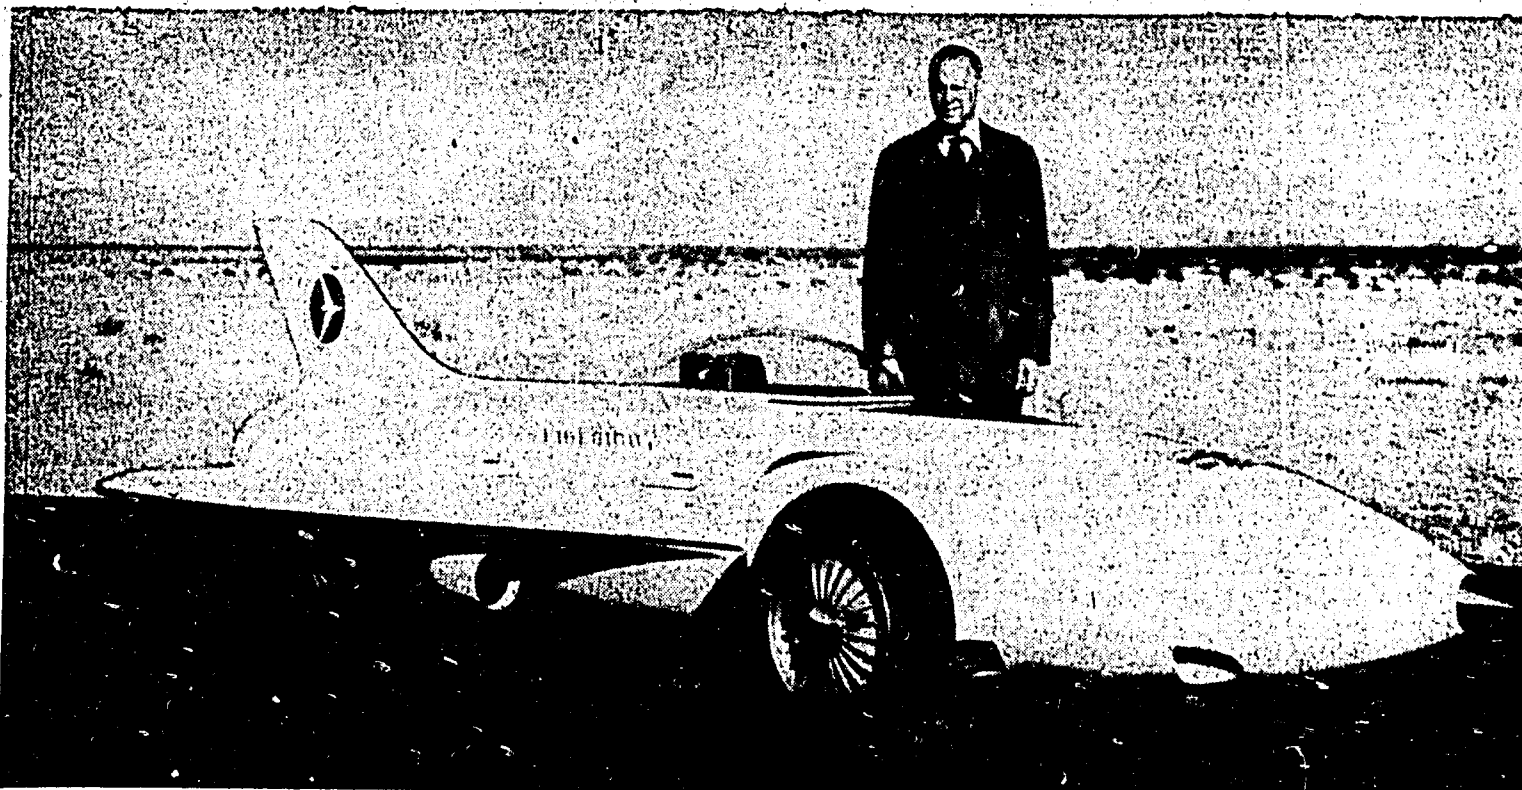

Because the vehicle would be used for Civil Defense, and the State would put up whatever sum is needed above the \$11,000, The Michigan Office of Civil Defense maintained that the truck should be titled to the State.

City Manager Lane stated that this would not work out, as the city's charter points out that all public vehicles used in the Park must be titled to the city.

He named two Michigan cities, Saginaw and Berkley, and three cities from Ohio, as having cancelled applications for emergency vehicles, because the states wanted to retain title which was contrary to their city charters.

The council applied the withdrawal of the application.

A Need That Must Be Met

The miracle of modern medicine has given us preventives and cures for so many diseases that during the memory of many of us we have seen the life expectancy of man extended by more than 20 years.

One thing which modern science has not been able to do, is produce the whole blood which has come to play such a vital part in saving the lives of those ill or injured. Medicine depends, for this all-important ingredient, upon the individual contributions of the people.

The Korean war casualties consumed a vast amount of the supply of blood shipped overseas by the Red Cross. At times, the supply was so short that battle veterans were called upon to donate to help save their buddies.

The end of the war in Korea was followed by an apathy which might have been expected. Blood collections immediately fell off and stocks became dangerously depleted.

There now exists a shortage that must be remedied. While much blood was needed in Korea, there has also always been a very great need for an adequate supply here at home. Epidemics, disasters, common illnesses and accidents create a never-ending demand for this life-giving fluid. The hospitals of the country, in their daily administering to the sick, use far more blood than was consumed by the battle wounded.

During the last few years the gamma globulin program, for immunization against infantile paralysis, has created an additional tremendous demand for more and more blood. The scientists feel they are so close to solving this problem that they have issued an extra urgent plea this year for a sufficient supply of blood to carry this program to a successful conclusion.

Pointe residents are being given another opportunity tomorrow to take part in this vitally important program. The Red Cross Mobile Unit will be at the War Memorial Center from 2:30 to 4:30 p.m. to collect blood donations. It is imperative that a successful collection (and this means at least 200 pints) be obtained.

Those of us who have given in the past know how easy and completely painless it is to make a blood donation. The Center is admirably adapted for such a campaign. Adequate parking space and the spaciousness of the beautiful building speed up the procedure.

Transportation is being provided for anyone wishing it. There will be nursery facilities to take care of small children who must accompany their parents.

Donations may be earmarked for any blood bank which the donor designates. Many churches, service organizations, etc., have established their own banks, to insure adequate supplies of blood for members, friends or families who may need it.

Make an appointment now, by calling the Center, TUxedo 1-6030, then get over to the Center tomorrow and give your pint. You will be amply rewarded by the satisfaction to be derived from taking an active part in such a program.

Calendar Sees Many Changes

By Merwyn Keys
 GPHS Journalism Student

This is the time of the year when last year's calendar is lifted off its hook and discarded to be replaced by a new calendar. How did this calendar originate?

The word "calendar" comes from the Roman word "kalends," meaning the first of the month, although calendars were used many centuries before the Roman Empire.

In ancient Egypt, a calendar year was worked out by the shadows cast by the pyramids. In ancient Germany, where nights were counted instead of days, tides determined the calendar—60 to a month.

The first Roman calendar, created by Numa Pompilius in the seventh century B. C., usually contained 304 days to the year, made up of 10 months. Each week contained eight days. This calendar was later made more accurate by Cnaeus Flavius. Julius Caesar was the first to make real reforms, giving us the basis of our calendar today. Caesar figured 365 1/4 days to a year, and from the time his calendar went into effect until 1582, no changes were made.

By 1582, Caesar's calendar was behind 10 days, so Pope Gregory corrected it by declaring a Leap Year every fourth year. This calendar was made lawful in an act dated March 1, 1582, and is the national calendar of most countries of the world today.

The Gregorian calendar is still correct except for an added 26 seconds each year.

Incidentally, have you ever wondered why there are 31 days in both July and August? This is so that the month named after Augustus Caesar wouldn't be inferior to that named for Julius.

Many languages and peoples influenced the names of the days of the week. Those which stand prominent are the languages of the Anglo-Saxons and Norsemen.

A churchman of the sixteenth century, Abbot Dionysius Eticus, conceived the custom of dating the years of the Christian era from the year of Christ's birth as A. D. and before Christ—B. C.

If your curiosity has been aroused concerning the extra 26 seconds each year, there's no need for worry. Only after 3,223 years have passed can a full day be added.

Galaracts

By FRED M. KOPP, R.Ph.

A cataract is a cloudy formation that develops on the lens of the eye causing partial or complete blindness.

Cataracts may appear at any age, they are common among elderly people. Complications before birth, heredity, and injury are all sources of such a condition, doctors tell us.

Surgery restores eyesight in about ninety per cent of all patients, and it is a necessity, for should the cataract be allowed to remain it will in all probability destroy the entire lens of the eye.

Visits to a doctor should be a regular at least once a year appointment. And always have in mind a druggist upon whom you can depend for prompt action in an emergency.

This is the 43rd of a series of editorial advertisements appearing in this paper each week.

Grosse Exaggerations

A. PRYOR

"To catch Dame Fortune's golden smile,
 Assiduous wait upon her;
 And gather gear by ev'ry wile
 That's justified by honor;
 Not for to bide it in a hedge,
 Nor for a train-attendant;
 But for the glorious privilege
 Of being independent!"

(Robert Burns)

If you're thinking of shipping any eggs out of town, airmail, better think about it twice. A local woman who owns a farm, was asked by some friends in Bermuda, if she would please ship them about 16 dozen eggs, airmail. Our farm heroine gathered together her eggs, wrapped each one with loving care and stowed them away in metal crates; then she piled the crates in her car and lugged them to the post office.

When she told the postman what they were and that she wanted them sent airmail he said, "I'm afraid you'll find that rather expensive." The little woman allowed as how that was all right and figured she'd pay the charges herself as a kinda Christmas present to her friends: The unhappy postal clerk took the crates, weighed them, then returned to tell her it would be \$45.00!

When she picked herself up off the floor, she gathered up her crates and started for the door. The clerk called to her that if she took them to the airport, she could probably send them air express MUCH cheaper. Soooooo she hied herself over to the airport clerk. Yes, they could ship them air express and it would cost about \$12.00 . . . would Madam kindly fill out these forms . . . and he handed her nine large size forms! Feeling at that moment like KICKING the eggs as far as Bermuda, she nevertheless sighed,

"Very well. Where can I find a pencil?"

"Oh," replied the clerk, "you'll have to type the answers in or fill them in in ink."

Well, WHERE can I find the ink?" asked the harried housewife.

"We don't keep that around here," sorried the man, "you'd better take them home and fill them in there, then bring them back."

The last time the woman was seen, she was prancing up and down Lake Shore Road, frantically tearing pages from "The Egg and I" and scattering them to the winds.

A woman called to tell us we might be amused (and we are) at an incident that took place at her house recently when she and her husband gave a large cocktail party. As usual, the guests (who are never expected to stay until midnight, but usually do . . . began to thin out a wee bit around 11 p.m. The host, feeling this was a good time to ease the likker out of the room and thereby, the guests out of the house, began surreptitiously removing one bottle at a time . . . into the pantry. Finally, all the bottles had been put away and it looked as if the handful of die-hards would soon depart . . . when the host noticed one of the guests "sneaking" into the pantry. He didn't worry about it because he'd locked the likker up. However, time went on and on and the guest didn't come back into the room . . . so host went to investigate. What he found was his guest weaving before the stove where he was in the process of frying some eggs and bacon (the last piece of bacon left in the house) . . . and brewing himself some coffee!

One of our local men about-town of 1966, was sent home from school the other day and told to stay home for a week because of continued disobedience. His very much disturbed mother gave him a lengthy lecture and suggested that he ask God to help him to be a better behaved little boy. After he'd said his prayers that night, his mother queried, "Did you ask God what I told you to ask him?" Junior allowed as how he did. Then added, "And I asked him something else, too . . . I asked him to make the teachers at school be nicer to me and like me better!"

ADVERTISING

It may be whimsical of us . . . but we'd like to meet whoever it is who thought up that fantastic slogan for one of the newer perfumes . . . the "Some think you should never 'wear' it unless you're alone . . . it's THAT dangerous!" We feel the same way about cooking brussels sprouts. We never do it unless we are alone in the house!

Don't let it ever be said that a child is at a loss for something to say in a pinch. A woman called to tell us she telephoned a friend of hers' and was told by the 8-year-old daughter that mother wasn't in. The woman then asked if the child's father was in. "Oh, no!" replied the youngster, "He's sick in bed down at the Woman's City Club!" When our heroine got her breath back, she realized that the man was in Woman's Hospital.

May as well get these out of our system this week. A letter informs us that a small boy went to the door when the bell rang at his house and was asked by the man on the front stoop . . . "Does a Springer live here?" The small boy said, "No, but we have a pedigreed husky." Just then a maid rushed to the door and said, "My name is Springer." The man handed her the telegram and departed.

If the above column sounds familiar to you then you are a dear and constant reader of Grosse Exaggerations and will receive the Pryor Hoopla rating. We wrote it seven years ago, but, just like all the big shots (?), we like to be "kinescoped" every now and again. Just this past week we have seen three popular t-v shows that were mere-movies of ones we'd seen a year ago. Since this is the chic thing to do we want to get on the band wagon!

What Goes On at Your Library

By Jean Taylor

There appear to be two kinds of people in the world, those who like to write letters, and those who don't. But do you know anyone who doesn't like to receive letters?

Most of us approach this business of letter-writing as we do our semi-annual visit to the dentist, something that has to be done, however painful. Many a politician, diplomat or business man-capitalizes on this apparent weakness.

When he is besieged by verbal requests or gripes, he will answer "Write me a letter about it!"—and be fairly sure that he'll hear no more about the matter. If you are the one whose bright idea is turned aside with such an answer, why not call the gentleman's bluff, write him a letter and make it a telling one? Whether we like it or not, we may as well face it, no-one can carry on life in grown-up years without writing one or another kind of letter. No one knows when he sends a letter, how it will be received, what it will accomplish or on the contrary, if it is a poor one, what purpose it will defeat.

You will not become a classic letter writer in five easy lessons, but your library has many books that will help you on your way; books to advise you in the writing of effective business letters as well as those giving pointers on personal and social correspondence.

R. L. Shurter's EFFECTIVE LETTERS IN BUSINESS, M. O. Crowther's HOW TO WRITE LETTERS; a complete guide to correct business and personal correspondence, EFFECTIVE PERSONAL LETTERS; for business and social occasions by W. H. Butterfield, John M. Clapp's PERSONAL LETTERS IN BUSINESS AND BUSINESS LETTERS by Walter Kay Smart contain much helpful material.

S. A. Taintor's HANDBOOK OF SOCIAL CORRESPONDENCE is practical and comprehensive. Lillian Eichler Watson in her STANDARD BOOK OF LETTER WRITING covers business, social, personal and even children's letters, with over 600 original samples illustrating the technique. "Even children's" brings up the question at what age should you begin to acquire letter writing skill. It can't be too young, according to an article "Help Your Child Enjoy Writing Letters" by Gladys Toler Burris in the December issue of Parents Magazine. If you would help your youngsters discover early that letter writing is not a chore but a pleasant substitute for talking to people they like, you will find this short article worth your time.

Letters of the great and near-great are always fun to read. A TREASURY OF THE WORLD'S GREAT LETTERS by Max L. Schuster contains some delightful samplings and if you'll browse through the biography section of the library you will find a wide assortment of letters from well known people.

Goodwill Industries Head Addresses GPHS Students

By RICHARD WEBER, Journalism Student

"Many of Detroit's handicapped persons are returned to a good, prosperous, and useful life through the efforts of the Detroit Goodwill Industries," asserted Mr. Robert F. Weber, president of the Goodwill Industries, Detroit.

Of Goodwill's 428 employees, "All have a form of a handicap," commented Mr. Weber, "but all of the handicaps are not necessarily incurable. Many persons recovering from polio regain the full use of their limbs by working at Goodwill."

"Goodwill forms a two-way street," Mr. Weber continued. "It helps the community because it reduces the welfare load and the Community helps Goodwill by giving the discards in the first place and then buying its reworked products."

All of the products turned out by Goodwill employees are sold at a reduced rate in the three stores run by the industry. These

stores are what actually support Goodwill. This year about a million dollars will be collected, none of which is received from a charity organization, such as the United Foundation.

Mr. Weber indicated that the industry's three Detroit stores are particularly beneficial to those in a low-income bracket. "Many can get clothes and have their households furnished at a very reduced price," he explained. "The quality of the goods is high however."

Goodwill helps workers to increase their capacity to perform their tasks from around 30 minutes per day at the start to a full eight hour day. After a worker has attained a certain standard, he graduates to a regular job with some other firm. In other words, the workers, renewed in body and spirit, leave Goodwill to become wage earners.

The board, of which Mr. Weber is the president, is comprised of 24 men. Mr. Weber explained that the board members are chosen from all types of businesses and professions.

A term of three years is filled by each of the managing group. All work is entirely on a voluntary basis with no pay connected with the job.

Goodwill is not just a local institution, but is an international organization with branches in the United States, and Canada. All told, there are 101 separate industries.

No taxes are levied on the organization because it is classified as a charity.

"All our property is tax free," The wages of the workers, Mr. Weber continued,

however, are subject to social security and all other taxes. Goodwill's employees give freely to the United Foundation. Their lives are much like any other Detroit citizen.

Mr. Weber said that Goodwill offers a real opportunity for people to contribute their time and charitable gifts to help carry on its good work.

Mr. Weber closed by making a plea for families with any kind of usable discards to call the Goodwill Industries, (TR. 3-3600) to have them picked up.

Mr. Stephenson, who has done all of his work at the University of Michigan, has almost completed the work for his Ph.D. in speech.

He has done radio and television acting, both at the University and over WWJ. For two years he taught public speaking and

dramatics at Highland Park Junior College, and he has also taught classes at the University of Michigan.

While he was in the service in Signal Intelligence, he acted with Thornton Wilder, author of "Our Town." In the summer of 1953, he and Mrs. Stephenson traveled in England, spending most of their time in London where Mr. Stephenson worked in the British Museum for material on his thesis.

Hear Address On Advertising

"Good copy is every bit as important as a good head in an ad," said Miss Margaret Williams, an account executive and copywriter for the Simmons-Michelson Advertising Company.

"You'll find that a good ad has a fusing of both a good layout and good copy," Miss Williams continued.

Miss Williams addressed Mr. Richard Amber's English VII composition classes at Grosse Pointe High School on January 8. Her words held extra weight since she is a recent graduate of Grosse Pointe High, and also of the University of Michigan.

Miss Williams was asked how a 'c' could be obtained with an advertising company.

"A college education is virtually an absolute necessity for a copywriter, and you must have the ability to use words well," she answered.

"As far as getting into an agency is concerned, you're pretty much on your own," Miss Williams stated.

"Good copywriters are always in demand as long as they've got ability and can keep getting new ideas," she told the English classes.

Bowling League Leaders Upset

Kennelly bowlers in the Business Men's League was dumped for four points for the first time this season by Barrett's on an evening that proved no team is so good that it can't be beaten.

Barrett's proved that it does not always take high scores to beat the leaders. Except for Norman Hall's fine 641-series, there was no unusual scoring on either team.

This Thursday will be position night and Barrett's will be rolling against Kennelly's again and first place will be at stake for the first half as only 2 1/2 points separate the two teams.

A match that was really full of fireworks saw Reverse and Testa set three new records. Reverse set a new, high team series of 2,925 with each man bowling well over 500. They also took second in team high single with 1033.

Testa also broke the season high three with 2834, paced by J. Bosco's 811, Paterson's 831 and A. Bosco's 612. Other four point winners were Belding over Bruce Wigle, paced by Art Louwer's swell 614 series and Norman over Kemp.

Vermeylen finally won its sec-

ond; roll of the season. Andy Carroll of Boutin's furnished another good series of 627 to make it six 600 series for the evening.

Members of this week's 200 Club are as follows: Norm Hall 205-201-235, Palumbo 202, Claramitaro 209, Cuchel 203, McElharriga 217, White 202, Gross 211, Nevitt 212, Louwers 242, Petracci 201, Petz 201, De Ridder 223, Commyn 211-204, Higgins 204, O'Toole 225, Kurk 220, Baker 246, Janson 207, J.
