Farms Reservoir Passes Inspection Asked by Council

George Lang Dons Sanitized Costume to Give Personal Attention to Million and a Half Gallon Storage Facility

The Farms council was assured on Monday, February 20, that the city was deriving full benefit from its operation of the water reservoir, Moross and Lake Shore, from which filtered water is pumped into the city water system.

In a report, Councilmen George S. Lang and Edward C. Roney, Jr., disclosed that an inspection of the reservoir, suggested by the council some time ago, was made on Thursday, February 16, by City Manager Harry Furton, Acting City Engineer Sidney DeBoer and themselves.

Tapped Into Detroit

The report said that Lang was elected to enter the reservoir, after the Farms system was tapped into that of Detroit for about five hours, permitting the water in the reservoir to drain out to a certain level.

Everything worn by the inspecting councilman, his coveralls, boots, etc., and even the flashlight he carried, was sanitized before he descended into void.

Finds Everything Clean

Lang emerged to report that there was no silt found in the reservoir and that the entire floor and walls of the enclosed area were in excellent condition. The plant was then inspected and the committee of four men approved the system's operation as it now stands.

The city's filter bed reservoir water capacity is about 1.5 million gallons; and its plant can pump as much as 11 million gallons a day into the system during peak consumption.

Issue Warning To Snowballers

Snowballing is a violation of the law. Since the last snow storm the police have issued Court Violation Notices to persons who have violated the provisions of the law.

To throw a snowball or as a matter of fact, any missile at a motor vehicle is a violation of the motor vehicle code.

Juveniles under the age of seventeen are served notices to appear in the Wayne County Probate Court, accompanied by their parent.

Those persons seventeen years of age or over are required to appear before the Municipal Court and are subject to one hundred dollar (\$100.00) fines or ninety (90) days in jail.

Parents are urged to caution their children against the practice of snowballing motorists. The practice is dangerous to the operator who often loses temper, if not complete, control of his vehicle.

Legion Calling Ball Players

A meeting will be held for all ball players between the ages of 16 and 17 who are interested in American Legion Junior Baseball at 20916 Mack avenue at 2:30 p.m. on Sunday, February 26, under the sponsorship of Grosse Pointe Post No. 303.

New Gym Shows Worth In More Ways Than One

Early spectator and financial returns, from an unofficial report from assistant principal Charles S. Altzer, show that Grosse Pointe's new auditorium gymnasium is definitely proving a useful addition to the community.

Where once the Grosse Pointe Blue Devil basketball teams played to maximum crowds of 900, which included standing room only, they are now playing to crowds up to 2700 and have an average attendance of 2000. Along with the increased attendance the gate receipts have increased, despite the price

Farms Waits Advice From Its Attorney

Special Assessment Levied Against Businessmen Being Moved to 1956 Rolls

Farms City Manager Harry Furton informed the city council on Monday, February 20, that because of legal problems which had arisen in connection with the special assessment on the municipal parking lot, the payments are outstanding and will be returned delinquent on Thursday, March 1.

He said that because of a court injunction which prohibits the city from collecting the assessments, the first installment payment, which was spread over the 1955 tax rolls, will be removed and placed on the 1956 rolls.

Obtained Injunction

A majority of the Kercheval-on-the-Hill businessmen have obtained a Circuit Court injunction against the Farms, which forbids the city from collecting a special assessment for the development of the municipal parking lot on the north side of the business district. The court action has been pending for many months.

Mr. Furton said that the first installment payment will be spread over the 1956 rolls, in the event the city should win its case in court. If that occurs, he said, the assessment payment will be due, with interest.

However, if the case is won by the businessmen, the assessment will be removed from the rolls.

The Issue to Date

The city manager presented the council with a report of the status of the issue to date, and it is the following:

Number of parcels assessed is 42, and the total amount of the assessment is \$24,441.26; number of parcels paid in full (four of which were paid under protest), 10, and the amount paid, \$5,212.20.

This left 32 first installment payments on the tax rolls, of which three businessmen paid their initial payment. The amount paid was not disclosed, but the first payments due, including the three paid, totaled \$4,401.72.

The remaining 29 have yet to be paid, but cannot be collected while the injunction is in force. The council agreed to wait for further reports from City Attorney Edward Wright on the outcome of the legal fight, before deciding what could be done in the matter.

A DECISION TO SHIP 18 tanks to Saudi Arabia was cancelled by the United States, in an effort to prevent the impending delivery of the weapons from creating a new wave of excitement and possible fresh trouble in the Arab-Israeli crisis. The revocation was brought about through vigorous Democratic criticism of the proposed shipment in the Senate. The State Department issued a statement in which it was revealed export permits of arms to the Middle East have been suspended.

Saturday, February 18
PRESIDENT EISENHOWER vetoed the natural gas bill and took a slap at the "arrogance and highly questionable activities" of some of the supporters of the legislation. He said that he agreed with the basic objectives of the bill, which would remove Federal controls from natural gas, but to put his signature on it now would "risk creating doubt among the American people concerning the integrity of governmental processes."

Sunday, February 19
PRESIDENT EISENHOWER lifted the ban on the shipment of arms to the Middle East, thereby giving the nod to the sending of 18 M-41 light tanks to Saudi Arabia. A statement, drafted by Acting Secretary of State Herbert Hoover, Jr., said a review of the tank transaction had confirmed the State Department's original examination that the shipment would not endanger the peace and stability of the Near East.

THE POLICIES of the Eisenhower Administration came under heavy Congressional fire. CHRISTOPHER J. MULLE, Wayne County Drain Commissioner, and Carl Tabbert, a former internal revenue agent, were indicted by a Federal grand jury on charges of bribery. The offense allegedly consisted of a \$350 payment on a car ordered by Joseph Hamer, a special agent of the Bureau of Internal Revenue. However, Hamer never accepted the car. At the time of the payment, it was said, Hamer was investigating approximately \$30,000 worth of income tax returns prepared by Mulle, for clients, as an attorney, some of which were said to be three years in arrears. Mulle wept in the Federal Building and denied the charge. He said he has a confession from the man who actually made the payment, but refused to name the man who had confessed.

Thief Visits Milk Store Second Time

Bandit Gets \$42; Believed To Be Same One Who Robbed Depot Last December 20

For the second time in as many months, a Mack avenue dairy was held up by a lone bandit.

Miss Rose Mantz, a clerk in the Dairyland Milk Depot, 17640 Mack, called City police at about 7:56 p.m., on Monday, February 13, informing them that she had been held up in the store.

The bandit, believed to be the same man who held up the store on December 20, got away with \$42.

Had Face Covered

Miss Mantz told police that the man entered the store with a small gun in his hand, the lower part of his face covered by a handkerchief. She said she believed him to be the same man who committed the previous crime.

City Det. Lt. Andrew Teetaert and Sgt. Julius Deraedt, who are investigating the case, said the man went behind the counter, his gun trained on the girl, and ordered her to open the cash register and give him all the money in it.

After taking the cash, the thief fled across Mack on foot toward University, and down University to Warren.

Suspect Released

A suspect, who answered the description given to police by the girl, was picked up by police and questioned, after which he was released pending further investigation.

On the December 20 holdup, a bandit got \$35. Miss Mantz, who lives in Detroit, was behind the counter with another girl clerk, when the thief walked in with his hand in his pocket as though he had a gun, and demanded money from the cash register. In this case, the lower part of his face was covered with a gray cloth.

Julius Gabe, manager of the store, in checking the cash register, confirmed the \$42 loss.

New Gym

(Continued from Page 1) do not include the sale of 25 adult season tickets or the Student Association tickets. Students from other schools also gain admission to games on advance sale of student tickets which are made available to other Border Cities League schools by Grosse Pointe High. These admissions are not included in the above gate receipts. Proceeds from the sale of Student Association tickets go into a general fund which in turn is used to purchase various forms of equipment, including band equipment.

In the 1954-55 school year the high school enrollment stood at 1450 and this year it increased to 1900. All of the youngsters have the opportunity to engage in a greatly expanded intramural program made possible by the addition of the enlarged facilities. This program is not only conducted in the two old gymnasiums but also in the new gym during the lunch periods and after school hours each day. The program has been expanded approximately 400 percent and many new activities have been added which were not possible prior to the new gymnasium.

For example new activities which have been added are beginning dancing, modern dancing, beginning badminton, tennis, volley ball, basketball, archery and golf classes, to name just a few. Aside from these activities the school and varsity basketball teams use the gym each week day afternoon for practice and in the field room, which in the original plans was to be just a vacant space between the school and the new gym. Coach Wernet has his baseball players conditioning themselves with batting and throwing practice. This is especially important to the pitchers, who can hurl the regulation distance in the warm confines of this valuable room.

Coach MacAdam's trackmen also are working out on field events such as high jumping, broad jumping and shot putting. Both coaches figure this winter time practice will give their boys a head start on all other schools in the Border Cities League. Already the new gym has provided spacious facilities for two Junior and two senior proms and the Grosse Pointe band has conducted a band and vocal concert on the large stage.

In the past, high school officials were forced to hold two and sometimes three assemblies in order that all students had the opportunity to attend. This meant triple duties for those teachers conducting the assemblies and triple the time consumed which they were forced to take off from their regular teaching duties. Grosse Pointe High students are not the only ones to enjoy the new facilities. Adult members of the community such as the Grosse Pointe Mothers Club and adult education groups have held parties and classes in the new gymnasium.

The new gym will be the site of the National Junior Badminton tournament this spring, which will be sponsored by the very active Grosse Pointe Badminton Club. On top of all this St. Paul High school students are benefiting also. St. Paul's reserve and varsity basketball teams have been using the new gym for all of their home basketball games and for practice in the evenings.

Bad Check Trail Leads to Jail

Park police swore out an uttering and publishing warrant against a 25-year-old man on Tuesday, February 21, it was disclosed by Park Police Chief Arthur Louwers.

Charged with passing bad checks at two Park bars, was Robert O. Brown of 508 Smith street, Lansing.

Chief Louwers said that during the investigation and questioning of Brown, Det. Don Dean found a blank check book, with many of the checks already used.

He said that the alleged check passer had made out and cashed checks at two bars, the Rustic Cabin, 15209 Kercheval, and the Merry-Go-Round Bar, Mack and Maryland. In each case the checks were small.

Brown, it was said, rented a car from a Detroit car rental agency and paid his bill with a phony \$25 check.

The Park police chief said that Lansing police were contacted and they informed him that they also want Brown on a charge of passing bad checks. He said that they have placed a detaining warrant on the man.

Brown was arrested on Wednesday, February 15, and is in police custody.

Library Offers Family Movies

The March program of films for patrons and friends of the Grosse Pointe Public Library is scheduled for Friday, March 2. This program will be the last but one of the series of monthly Family Film nights which have been a feature of the film program of the Central Library.

The series is to close with the April presentation which, as have all the others in the series, will be shown on the first Friday of the month.

The March program, which will begin at 7:30 p. m. in the meeting room of the Central Library at Fisher and Kercheval, will be approximately one hour in length. It will include several films, combined to form a program which will appeal to the variety of ages in family groups for whom the programs are planned.

In selecting the films for use on this series, the library is able to choose from a range of a magnitude not generally known to the public. There are on the market in the United States upward of ten thousand films on 16 millimetre prints and not distributed through commercial theatres.

The majority of the films chosen are in color, and many present subject matter which is not ordinarily covered in films distributed through commercial channels. Combined with this intrinsically interesting subject matter is technical quality of a high order.

Patrons of the library are invited to reserve the date, Friday, March 2, for the film showing and to consult next week's issue of this paper for full program details.

Cambridge Road To Be Brighter

The Farms council, acting on a petition presented by residents of Cambridge road, approved a proposal on Monday, February 20, from the Detroit Edison company, for correcting the lighting on that street.

The residents had asked that the present outmoded street light be replaced with more modern lighting.

The Edison plan for the installation of two 6,000 Lumen modern lights to replace one 2,500 Lumen overhead light, on the block-long street, was okayed by the council.

City Manager Harry Furton said that the installation of the lights will not take place until the next budget year, and that the net monthly billing increase to the city will be approximately \$8.24.

Schools Have Many Uses Other Than for Students

That the public really uses its public school facilities, at least in the Grosse Pointe community, is born out by figures released by public school officials.

In the ten school months of the past calendar year, public groups used public school classrooms, auditoriums, and other facilities a total of 10,000 hours. This averages out roughly to 33 hours per day, every day including Saturday and Sundays. These figures do not include the after-school use by public school groups of students, PTA's, or by adult and evening classes.

A review of the uses made of the Parcels Junior High School by community groups in the last

school year (1954-55) will illustrate the scope and variety of the public usage.

Seven Girl Scout Troops, one Camp Fire Girls group, three Boy Scout Troops, St. Joan of Arc Boys Basketball Teams, the Grosse Pointe Community Chorus, a Men's Discussion Group, the Grosse Pointe Woods Recreation Department, and the parish of Our Lady Queen of the Sea, all make the school their headquarters.

The League of Women Voters, the Grosse Pointe Citizen's Association, Grosse Pointe Woods Election Board, Little League Baseball Meetings, Babe Ruth League Meetings, Grosse

Pointe Woods Council Meetings, all were occasional users.

Single program users included Christian Science Lecture, Optimist Club Variety Show, Community Halloween Party, Grosse Pointe Symphony Concert, Grosse Pointe Garden Club, John Jay Ski Club, North-eastern Y.M.C.A. Variety Show, Tuxis Club Variety Show, William Mobely Recital, Grosse Pointe Chorus Concert, Kriewall Music Studio, Elaine Arndt Dance Recital, LoRu Review, Eileen Marlow Dance Recital, Grosse Pointe War Memorial Dance Recital, Ravanel Dance Recital and Castiglione Dance Recital.

The majority of the groups

mentioned above used the building quite extensively for pre-planning and rehearsals, as well as for the specified program.

School officials point out that the cost of this service is assessed against the groups who use the facilities. Rent, light, heat, custodial fees, and so on, are paid by the organizations sponsoring such programs.

HEART DEATHS INCREASE

There were 6,261 deaths from heart disease in Detroit last year. This is 214 more than the 6,047 deaths reported in 1954, Dr. Joseph G. Molner, commissioner of health, relates. Late reporting may increase the 1955 final report slightly.

Republicans to Hear Bentley

Congressman Alvin M. Bentley of Owosso, a former career diplomat behind the Iron Curtain, member of the Committee on Foreign Affairs, and frequently mentioned possible candidate for governor, will address the Women's Republican Club

ALVIN M. BENTLEY

of Grosse Pointe on Monday, February 27, at the Grosse Pointe War Memorial.

Mr. Bentley was a member of the House of Representatives Study Mission which recently spent two months in Europe and Israel to study United States policies, programs and problems and which reported its findings to the House of Representatives on January 26, 1956. Mr. Bentley will cover the complete report of the study mission and particularly conditions in the United Kingdom, France, Germany, Austria, Turkey, Greece and Yugoslavia.

It is a little known fact that after his near assassination on the floor of Congress from bullets of Puerto Rican nationalist fanatics, Congressman and Mrs. Bentley made a good will trip to Puerto Rico in November of 1954 which excited tremendous enthusiasm throughout that island.

The trip successfully demonstrated to the people of Puerto Rico that no resentment or hard feelings existed on the part of the Bentleys, but, instead, it was their hope and desire to strengthen relations between the mainland and the island.

Among Congressman Bentley's achievements was his success in obtaining the release of John H. Noble of Detroit, who was freed in January of 1955 after having spent over nine years in a Soviet labor camp. "I Was a Slave Laborer," by John H. Noble, is the condensed book selection in the current February issue of Reader's Digest.

Luncheon will be served at 1:15. Please telephone Mrs. Waldron at TU, 2-5117; Mrs. Barnes at TU, 1-6412; or TU, 1-0614 for luncheon reservations which must be made by noon of Thursday, February 23. All Republican women in the area are invited.

Farms to Buy Lot for Parking

The Farms will purchase a lot in the Mack avenue business district, and will hold it for future city planning, it was brought out at a council meeting on Monday, February 20.

The lot, No. 170, owned by Abram L. Brown of 212 Kerby road, is part of the Grosse Pointe Farms Manor Subdivision No. 1, and is located on the southeast corner of Calvin at Mack avenue.

The Farms council authorized City Manager Harry Furton to negotiate purchase of the lot and stipulated that the sum to be paid should not exceed \$4,500.

The council also rescinded a November 1, 1955 resolution which would clear the way for condemnation proceedings to acquire the desired property.

Once the city owns the property, it will have to condemn the zoning restrictions for that portion of the subdivision, from single home zoning to business zoning.

Mr. Furton disclosed that the property will be retained by the Farms and left alone for future planning, possibly to help alleviate off-street parking in the Mack business area.

If the land is converted for parking, it will be metered to help pay off the investment, and it will have enough room for about 12 or 13 cars, the city manager said.

Austin High Mothers To Hear Boys Debate

The Austin Catholic Mothers' Club will meet in the school cafeteria at 8 p.m. Wednesday, February 29.

After the meeting there will be a debate with the Austin boys. Mr. William Mandigo is

coach of the debating team and they present the question "Federal Aid to Education."

The board of directors will meet Monday, February 28, at 7:30 p.m.

There Is Now a Better way to Operate Your Forced-Air Heating System . . .

OLD WAY
When the room thermostat is satisfied, it turns the burner off, but allows the blower to continue until the furnace gets cold (result—overheated home.)

NEW WAY Ballet-Balance
When the room thermostat is satisfied, it turns the burner and blower off at the same time (result—perfect temperature control in your home; overheating is impossible.)

When the room thermostat calls for heat, it turns the blower on, but the blower can't blow warm air into your home until the furnace gets hot. When the blower starts, it has to push all the cold air out of the ducts before the warm air can get thru (results—your home has become noticeably chilly and drafty.)

High Scouting Citation Presented to Ross Roy

One of Scouting's highest citations, the Silver Beaver award, was presented to Ross Roy of 166 Cloverly, Grosse Pointe Farms, at the annual meeting of the Detroit Area Council, Boy Scouts of America, February 21, at the Fort Shelby hotel.

Mr. Roy, who is a member of the executive board of the Detroit Area Council and chairman of its public relations committee, has long been active in Scouting and other youth programs. He was one of two Detroiters to receive this National Scouting honor, presented to volunteer Scout leaders for "distinguished service to youth."

Mr. Roy has participated in many civic organizations for years. He is a member of the national board of directors of Junior Achievement and of the board of Junior Achievement of Southeastern Michigan, Inc. He is a member of the following boards: Detroit Board of Commerce; National Outdoor Advertising Bureau; United Foundation of Metropolitan Detroit; Detroit Girl Scout Council; Travelers Aid Society of Detroit; Detroit Institute for Economic Education; and he was recently elected president of the Michigan Society for Mental Health.

He is a member of the Aircraft Club of Detroit, the Detroit Athletic Club, the Grosse Pointe Yacht Club, the Detroit Boat Club, and the Economic Club of Detroit. Mr. Roy is head of Ross Roy, Inc., Detroit advertising and merchandising agency, which he formed in 1926 to provide comparative sales data to Dodge dealers over the country. A total of \$66,422.10 will be given to the five Pointe communities and Harper Woods as their share of the State Motor Vehicle Highway Fund and the Weight and Gas Tax monies, the distribution of which was announced by Highway Commissioner Charles M. Ziegler.

Mr. Ziegler said that the State Highway Department has begun the distribution of \$8,476,267.66 in weight and gasoline taxes collected during the last three months of 1955; and the fourth quarter net receipts of 1955, from the Motor Vehicle Fund, which amounted to \$31,631,826.04.

As their shares in the weight and gas tax monies, the City will get \$862.64; the Farms, \$1,404.93; Park, \$1,732.73; Shores, \$177.74; Woods, \$1,634.73; and Harper Woods, \$1,305.53.

WHO'S WHO IN ENGINEERING
Only one other institution in this country and Canada has more representatives in the current edition of "Who's Who in Engineering" than does the University of Michigan. The February issue of "Michigan Alumnus" reports that 620 U-M alumni are listed in the volume, a number second only to the 930 graduates of the Massachusetts Institute of Technology who are included. Cornell is third with 582.

Honored

MARY MORGAN, CKLWS Fashion-Beauty Editor has received another honor for her services to the community. The Detroit Press Photographers' Woman of the Year Award was given to Mary Morgan at the recent Detroit Press Photographers Ball.

Miss Morgan is the first woman to be chosen in the professional field by the Association to receive this honor.

Working closely with Detroit's community interests and projects, Mary Morgan is also active in many organizations including the Advertising club; past President Windsor Zonta Club, charter member and past President Detroit Fashion Group and member Theta Sigma Phi.

Mary writes and produces her own Radio and Television Shows specializing in fashions, beauty and news on her daily Radio half hour and Television shows. Mary also teaches personality and grooming for the Michigan Board of Education Adult Classes and at Michigan High Schools.

Working with civic interests on juvenile delinquency, she is frequently requested to give talks to clubs, youth groups and organizations on family life, still finding time to work with high school graduation classes and scout sessions, whenever called upon.

In 1952 Mary was among the top winners of the McCall Gold Mike Award in recognition for her fight against dope peddling working with Federal and local law enforcement agencies. Her program asked for life sentences for the narcotic peddler.

At the same time the Detroit Free Press cited her for her work on the Mayor's Narcotic Committee. Among her other awards, she has received the Queens Coronation Badge for service to Scouting, a Silver Medal for selling War Bonds and for devotion to community service, the Soroptomist Woman of the Year Award in 1955.

In the fashion field, the Los Angeles Chamber of Commerce presented her with a Citation for Excellence in Fashion Reporting. She was also chosen one of Michigan's ten best dressed women.

Awards Given To Motor Aides

Mrs. Frank Bowden of 733 Middlesex is receiving a five year award at an annual meeting and tea of Motor Aides of United Community Services today, February 23.

Three other Grosse Pointers were given awards for serving 100 hours or more with Motor Aides. They are: Mrs. George Abbott, 328 Touraine; Mrs. Sherman Fitzsimons, 66 Stephens road; and Mrs. George Way Williams, 542 Lakeland.

Six more residents were given awards for 50 hours and over. They are: Mrs. Thomas Fitzgerald, 115 Lewiston; Miss Joan Henry, 564 Neff road; Mrs. Harry Howenstein, 251 Vendome; Mrs. Bruce Tappan, 850 Westchester; Mrs. G. Whittingham, 262 Kenwood court, and Mrs. C. M. Verbiest, 1072 Balfour.

The meeting, held at the Rehabilitation Institute of Metropolitan Detroit, highlighted a tour through the institute and a program of major interest to all Motor Aide volunteers who have devoted many hours driving ill, blind and handicapped persons to hospitals and clinics.

Organized in 1947, and operated entirely by volunteers, Motor Aides recently completed 400,000 miles of driving—comparable to 16 trips around the world.

Those who receive this very personal transportation service are patients referred by authorized social service agencies to United Community Services' Central Volunteer Bureau. Drivers are then given assignments.

In the past year, some 143 Motor Aide volunteers made nearly 2,000 trips, giving a total of 6,824 hours of service.

Always in need of Motor Aide drivers, UCS Central Volunteer Bureau is headquarters for recruitment as well as assignment. Any person with a car . . . a little spare time . . . and a genuine desire to help men, women and children in acute need of private transportation can become a proud member of Motor Aides. For full particulars, call TEmple 1-1600.

To Tell Story Of Orphanage

The Rev. and Mrs. Covell J. Hart and family have recently returned from the Holy Land where they founded and directed the Haven of Hope Orphanage in Beirut, Lebanon.

The orphanage is just two years old and has approximately 40 children ranging in age from 3 to 16. The children are of several nationalities and from various religious backgrounds.

The orphanage itself is supported by several different denominations and churches as well as individuals. Many of the orphan children are supported by families or groups in America who receive their picture and correspond with them.

Mrs. Hart was recently released from the Polio Respiratory Center of the University of Michigan Hospital in Ann Arbor where she had been since June. She contracted polio on Christmas Day of 1954 while in Lebanon. She is slightly improved but continues to be nearly totally paralyzed from the neck down.

Mr. Hart will be at the Grosse Pointe Woods Presbyterian Church on Sunday night, February 26, 5:30-7:15 p.m. He will have curios and films both of the orphanage and of various Holy Land sites as well as a challenging and inspiring message.

Pierre Thurbers Settled In Touraine Road Home

Mr. and Mrs. Pierre Thurber are now settled in the garage apartment of Mr. and Mrs. George N. Monroe III of Touraine road.

Mr. and Mrs. William S. Edwards feted the young Thurbers at a small cocktail party Saturday in the Provencal road home of Mr. Edwards' parents, Mr. and Mrs. Cyril J. Edwards.

When a man turns over a new leaf it seems he is never satisfied until he gets it blotted up worse than the old one.

From Another Pointe of View

Jane Savery's summer camp is a thing of joy hereabouts . . . youngsters vie to attend the daily arts, crafts and sports classes during vacation months . . . and trips to educational spots are a Saturday highlight of the summer camp setup.

For the past three winters, Pointe area boys and girls from ages 4 through 12 have enjoyed the same outing privileges on alternate Saturdays. The versatile Miss Savery has the able assistance of some of her fellow-teachers at Grosse Pointe University School: Carole Fenley, Mary Thorne, Clare Lockhart and Grace Eriksen.

Station wagons pick up the youngsters between 11 and 11:30 on Saturday morning and deposit them at the Savery home on Neff road . . . which must have elastic walls, since the group which originally numbered five or six now averages 35-40 children and occasionally as many as 48. Boys and girls bring their own lunches, and movies follow luncheon. Then, they set forth on the project of the day . . . which can be anything from swimming to tobogganing.

Treat Each Time

Outings this season have included a hayride, swim party at the Women's City Club, tobogganing, Christmas party, attendance at a special movie, and the circus. Next Saturday, the group will venture forth to the ice show. A special treat is planned for each outing . . . several cases of orange drink or chocolate milk are delivered by pre-arrangement, since 40 children would really stop traffic if they lined up four deep in a drug store. They are returned to their respective doorsteps around 4 o'clock in the afternoon.

Among the youngsters who enjoy the Saturday excursions are Toni Book . . . Freddie Detwiler . . . Bonnie and Gretchen Klein . . . Wendy and Terry Vaughan . . . Christy, Linda and Deedee Wilson . . . Polly Witherspoon . . . Teddy Eaton . . . Terry Hall . . . Nels and Lance Olson . . . Duncan Laurie . . . Elsie Caulkins . . . Marsha and Chuckie Whitney . . . Billy Chapin . . . Johnny Pittman . . . Ann Fisher . . . and Betsy and Jerry Webber.

Christ Church Fair Plans Being Pushed

Many Groups Already Hard at Work to Make Silver Anniversary Event Successful on November 15

Next November seems years away at the moment, but the women of Christ Church, Grosse Pointe, know that the months have a way of creeping up. So, they have laid elaborate plans for the Silver Anniversary Fair to be held on November 15 and have named committee chairmen, who are already up to their eyebrows in work.

Parley Planned By Republicans

A large delegation of Michigan Republican women will attend the fourth annual Republican Women's National Conference at Washington, D.C., March 5, 6, 7, stated Mrs. Rae C. Hooker, GOP National Committeewoman.

Mrs. Katherine Van Steenberg of Grand Rapids has been named conference chairman of the Michigan group. The conference will be based on the theme, "Progress, with Peace and Prosperity," and is expected to attract 1500 Republican women from all parts of the nation.

"The regular party organization, Federation of Republican Women and Young Republicans will be included in our delegation."

Mrs. Robert Temple and Mrs. G. E. Manser will be hostesses for the afternoon.

In making pastry, the shortening should be soft enough to measure easily, but firm enough that pieces about the size of small peas remain when the fat is cut into the flour. The flakiness of your pastry depends on these pieces of fat and on the lightness of the fat-flour mixture.

Mrs. Hans Tschurtschenthaler

The former KATHLEEN ELIZABETH FITZSIMONS, daughter of Mr. and Mrs. Frank E. Fitzsimons of Harvard road, was married in Dom zu Maria Saal in Carinthia, Austria, on February 11 to the son of Mrs. Maria Tschurtschenthaler and the late Dr. Ignaz Tschurtschenthaler of Klagenfurt and Vienna.

Whatever your pet entertainment is, it will be there for you to enjoy. Cards, dancing, singing, eating and visiting. One room of the building will be reserved for community singing and barber shop quartets, another for cards, with prizes for each table.

Dunninger to Close Celebrity Lectures

Famed Telepathist Will Demonstrate His Mind Reading Powers in Esquire Theater on Thursday Morning

Dunninger, the renowned telepathist who has been peering into the minds of thousands of men, women and children through the medium of television, will close this year's Grosse Pointe Celebrity Series on Thursday, March 1. Dunninger will appear at the Esquire Theater, 15311 East Jefferson, at 11 a.m.

A full house is expected to hear the amazing personality who has read the thoughts of kings, presidents and statesmen. However, a limited number of tickets at \$2.50 will be available at the box office after 10 a.m. March 1.

Mrs. Joseph J. Goncz, general director of the series, announces that the celebrity luncheon will follow the morning lecture program at Al Green's Restaurant.

Dunninger makes no claim to strange or supernatural powers in his ability to read your thoughts . . . just a training to read what is in the thoughts of persons who cooperate by concentrating intensely.

He promises to baffle and thrill the Celebrity Series audience with a series of amazing experiments in thought-reading, similar to those with which he has been mystifying audiences for years. He will attempt to read thoughts from the minds of the ladies in the audience, to tell Mrs. Smith what her canary's name is, what the series number of Mrs. Jones' ten dollar bill in her billfold is, and the menu that Mrs. Brown is planning for her dinner party.

Joseph Dunninger is a native New Yorker. His apparent "master mind" is not a case of heredity, for his father was a textile manufacturer and his mother perfected no other art than that of housekeeping. During a performance he will lose a pound or so, so his private life is necessarily a quiet one. He enjoys his home and owns a fabulous collection of Oriental art.

Proceeds from this year's Grosse Pointe Celebrity Series, sponsored by the Assistance League of Bon Secours Hospital, will be used toward a new convent and chapel for Bon Secours Hospital.

Clark Women's Club To Hear Book Review

The Fine Arts Division of the Clark Women's Club will entertain members of the club at a tea to be held in the home of Mrs. Joseph Riley, 1215 Buckingham road, on Wednesday, February 29, at 1 o'clock.

"The Smiling Rebel," by Harnett Kane, will be reviewed by Mrs. W. G. Stohrer.

Mrs. Don Miller, chairman and Mrs. Forest Waincott, co-chairman, have asked Mrs. H. Burleson, Mrs. A. Masters, Mrs. P. T. Thomas, and Mrs. S. Vasil and Mrs. H. Williams to assist.

Dessert will be served by Mrs. Robert W. Brandon and her social committee.

The Juniors have not held a benefit-dessert bridge and fashion show since 1941, and at that time the members who modeled with the professionals were Mrs. James W. Reid and Mrs. Harold I. Tanner, who are still very active in DAR work.

Church Association Appointments Made

Mrs. James Lafer, President of Memorial Church Organization Announces and Introduces Committee Heads

Finding the right person for the right job is one of the first, and usually one of the most difficult tasks of a newly elected president, so it was with pardonable pride that Mrs. James A. Lafer, presiding at her very first meeting of the Women's Association of Grosse Pointe Memorial Church on February 14, was able not only to announce the names of the new chairman of all twenty-seven committees, but also to introduce each one, in person.

The selection of chairman for membership and program presented no problem, as each is headed by the first and second vice-president, respectively. Consequently, membership is under Mrs. C. Q. Swenson, and working with her are the following: Courtesy Art, Mrs. James Garza; Initial Contact, Mrs. Harry N. Phillips and Mrs. Clarence Fox; Yearbook, Mrs. Edwin Ross and Mrs. Louis Gephart; and Nominating, Mrs. Paul Hykes.

The second vice-president, Mrs. Arthur Hillegas, having met with the chairman of all committees concerned with program, assured the association members of a varied and interesting series of meetings for the coming year. Mrs. Ben Tallman is program secretary, and also heads the literature committee, assisted by Mrs. John Lang, missionary correspondent. Mrs. Alexander W. Brain is chairman of devotions.

As chairman and vice-chairman of Detroit Presbyterian work, Mrs. Edwin O. Bodkin and Mrs. Albert D. Law will study the needs of various community projects, and report them along with remedial suggestions to the executive board. Under Detroit Presbyterian Work are listed: Delray Christian Neighborhood House, Dodge Community House, Sarah Grindley Camp, St. John's Community House, and Presbyterian Village, a home for the aged.

Serving with Mrs. Frank Crum and Mrs. Hardee Bethea on the committee for interdenominational work are members working with the following organizations: Mrs. Frederick W. Evans, United Church Women; Mrs. Martin B. Hutchinson, Church World Service; Mrs. B. W. Donaldson, Y.W.C.A.; Mrs. Gerrit W. Kastenbergh, U.S.O.; Mrs. G. R. Koesterberg, American Red Cross; Mrs. James H. Cooper and Mrs. Allan A. Rutter, Needlework Guild of America; Mrs. C. Bradford Hitt, Goodwill Industries; and Mrs. Fred W. Adams and Mrs. Elwood Stiegler, Grosse Pointe TV-Motion Picture Council.

Also included under this heading are representatives to:—Detroit Presbyterian Society,

Mrs. Irving W. Ketchum; and Christian Education Committee, Mrs. Fred W. Aadams.

Three new committees are music, with Mrs. George A. Diekey serving as chairman, and Mrs. Malcolm M. Johns, vice-chairman; library, Mrs. James G. Morrison, chairman; and publicity, Mrs. Eugene Klaver.

Committees concerned with service include:—house, headed by Mrs. Paul Erickson, and two vice-chairmen, Mrs. Manfred Whittingham, and Mrs. Russell Randall; dining room under the direction of Mrs. Paul E. Thompson and Mrs. Ben W. Beyer, Jr.; kitchen, with chairman, Mrs. Clarence Maguire, vice-chairman, Mrs. Harry Hinckley, and treasurer, Mrs. Elmer A. Rolley, chairman, and Mrs. John D. Jakle, vice-chairman; vestment, Mrs. Kenneth McMillin, Senior Choir, and Mrs. William Krebs, Junior Choir; nursery care, Mrs. John Odell, chairman.

Mrs. John K. Worley, Walter Hoesch, and Mrs. Donald Schuur, treasurer, head the sewing committee, which is divided into several groups to sew for missions and charity. The philanthropic knitting group is under the leadership of Mrs. George M. Hackman; Mrs. Frank Fitt, a member of the executive board, is also chairman of the Mission Quota; Mrs. George L. Schlaepfer is chairman of Ruth Alden Dresses; Mrs. James Cooper and Mrs. Allan Rutter head the Needlework Guild sewing; and Mrs. Herbert J. Macbeth is chairman of special projects.

Although Mrs. Henry B. Joy, tribute gift chairman, is at present enjoying a Mediterranean cruise, her committee will continue to function in her absence, accepting any memorial gift, either for a specific purpose, or for a general tribute to be used in the interest of some phase of mission work at home or abroad, or for the church.

The piece de resistance of the afternoon was the announcement that Mrs. Henry H. Hubbard would be the chairman for the 1957 Church Fair. In addition to that tremendous respon-

Principals Heed Pleas for Help

Elementary youngsters with problems know without asking that they are welcome to discuss these with the school principal. Most principals see to it that their doors are open to the little citizens of the school community.

Fred Kerby of Defer has been making these visits worthwhile for the children.

Each noon throughout the school year Kerby meets several of his special youngsters who want special tutoring in spelling, reading or some other subject. He also uses any other available time in the school day for this purpose.

The principal works with each of his charges, here sounding out words, twice pointing to printed cards; patiently giving attention to the individual problems.

About 50 children a year take part in these informal sessions. Some drop out and others take their place.

Children give a number of reasons for coming: "He keeps us out of trouble," said one boy. "He helps us," said another. One little fellow summarized it nicely when he simply stated, "He keeps us company."

Whatever their reason for coming, the Defer children know that something friendly and interesting and good will happen to them as long as Mr. Kerby continues to hold his little classes.

Business Leaders to Hold Village Manor Luncheon

A luncheon meeting to be held in the new Village Manor Restaurant on St. Clair avenue in "The Village," next Tuesday, February 27, is being arranged by the Grosse Pointe Business Men's Association. The luncheon will start promptly at 12:30 noon.

President A. J. Meyer, in announcing the event, says he looks for an excellent turnout and expects many members will bring guests as it is an open meeting, as well as being the first meeting held in the new

restaurant and one that should be interesting in many ways.

The group is discussing ways for permitting enlargement of its associate membership ranks. Round table sessions on given days of the week in the various fine restaurants throughout the Pointes are also being discussed according to the president's announcement. The luncheon will be a la carte and no reservation is needed.

Pointe Unitarian Church Set for Mortgage Burning

The Grosse Pointe Unitarian church will hold a symbolic "mortgage burning" at a special congregational meeting Monday, February 27, indicating that money borrowed from the American Unitarian Association to purchase its church house has been repaid in full.

The Grosse Pointe Unitarian Church was organized on March 19, 1939, when 66 members of the community signed the ori-

ginal covenant. Services for the next five years were held at Richard School, Grosse Pointe Memorial Church and the Alger House.

In 1943 the present building at 17440 E. Jefferson, the home of David Carter, was purchased and the congregation held its first religious service in its new home on November 21 of that year.

The church was dedicated January 4, 1944 with Dr. Frederick May Eliot, president of the American Unitarian Association speaking.

Originally Dr. A. P. Record of the downtown Unitarian-Universalist church was honorary minister and frequent speaker. The Grosse Pointe Unitarian Church had its first permanent minister when Rev. Merrill O. Bates undertook the religious leadership of the congregation on September 1, 1939.

Mr. Bates retired 11 years later. The present minister, Rev. William D. Hammond replaced him in September 1950.

The Grosse Pointe Unitarian Church has now an active membership of well over 200 people who come from various communities in Detroit, Grosse Pointe, Harper Woods and St. Clair Shores. A few persons on its membership list live as far as Mt. Clemens and Birmingham.

Maid Frightens Burglar Away

A maid in a City home frightened away a burglar on Saturday, February 18, when she investigated a noise in the house.

Lydia Madson, who works and lives at the home of the H. F. Finkenstaedt, 6 Woodland place, told City police that she had heard a noise on the first floor of the house at about 6 a. m. She said she had gone downstairs to investigate, and surprised a stranger.

She described the man as being six feet tall, wearing a jacket and having big feet. He fled when he saw the maid.

Police said entrance was gained through the back door. As far as could be determined, nothing was taken.

FULLY PAID CIRCULATION

It Was Not Unanimous

Last week we commented on the lack of diplomacy exhibited in action by the Farms council in voicing objections to the present use of Old Kerby School at this particular time.

The city and school officials have been negotiating for some time in an effort to solve the city's pressing parking problem in the Kercheval-on-the-Hill business district. More land is needed to expand the present facilities and the Farms has been trying to convince the Board of Education that it can part with an additional portion of the Richard School playground that adjoins the municipal parking lot.

The negotiations had progressed to the point where it seemed an amicable arrangement was about to be reached. Then the Farms council brought up the Old Kerby matter. Since the completion of New Kerby School, the Board of Education has been using the old structure next to the Farms Municipal Building as a warehouse for supplies and a place to make repairs to school equipment.

The Farms solons objected to this and said it was in violation of the zoning laws. No definite action was taken, the matter being tabled until the March 5 meeting.

Quite naturally, the Board of Education was considerably upset by the objections. To the educators, it seems quite practical to use a building in existence for these necessary functions rather than have to build a new one to fill the same purpose. The present use is also considered much less of a neighborhood nuisance than when hundreds of kids were attending the school. No residents in the area have objected, it is said.

To keep the record straight, we must report that the opinion of council in this matter of objecting, was anything but unanimous. We are informed that the lack of diplomacy in the move was easily discernible to Councilmen Richard Maxon, George Lang and William Butler. They voiced their opposition to launching the discussion.

They were outvoted by their colleagues, Mayor William Connolly and Councilmen Neil McEachin, Edward C. Roney, Jr., and William Kirby.

Letters to the Editor

February 18, 1956
Dear Mr. Edgar:

I was very pleased to read that Grosse Pointe has been awarded second place in the National Cleanest City Contest. However, I feel that we, the citizens of Grosse Pointe, have merely reached the first step in striving for perfect achievement in this field.

I have lived in Grosse Pointe all my life, and have watched the Pointe's population increase with leaps and bounds. I have watched business locations moulding our city's commerce into one of the most prosperous in the Detroit area.

We must, however, remember that when a city such as ours grows in size, it is very important that we compensate this growth by increasing our municipal sanitation. It is my opinion that this task cannot be done by paid employees alone. On the contrary, each member of the city must do his part, if we expect to continue our reputation, which at present is very commendable, indeed.

I feel that a great deal more good may also be done to further this cause. By no means do we live in an absolutely spotless community. In order to achieve perfection, the entire community must work together as one team. Every citizen can play an important part in this task.

Store owners can take a more active interest; they should try to make their business establishments more cleanly. Home owners can attempt to improve the appearance of their property by cleaning their grounds. Students should not only keep their school grounds tidy but could improve the appearance of the local parks by forming groups that might devote their time for this purpose.

If all members of the Pointe did their part to improve our city year-round, there would be little need for a clean-up campaign.

Dr. Monaghan, Director of the National Bureau, feels that "with further cleanliness and beautification Grosse Pointe could well become one of the most beautiful spots in America."

It must be noticed that Dr. Monaghan stresses further cleanliness. It would be a great thing, if every member of the community would spend a few minutes a week thinking of what good could be done to improve our city. After all it can be more enjoyable living in a city which is kept clean at all

times, than in a city which is clean only part of the time.

In order to take a more active interest in the community, the citizens should be able to express their ideas. The best way to do this is through our local newspaper, which provides a weekly review of the Pointe's happenings. Perhaps a column could be started in "The Grosse Pointe News" titled "Improving Grosse Pointe," wherein the citizens might make suggestions through the paper to other members of the community and to the various councils.

As Dr. Monaghan stated, we have a goal to work towards. The citizens of Grosse Pointe can either accept this challenge, which we actually should do, or they can ignore it, and let their fellow citizens perform a task, which in reality should be done by all members of the Pointe.

Sincerely yours,
Thomas J. Tracy.

Dear Sir:
You were so fair in giving both sides of the Fluorine question last spring that I thought you and your readers might be interested in the following, that is if you haven't already printed it.

While driving to California I heard a broadcast on the radio from a middle western city stating that the Grand Rapids Herald had printed on July 28th 1955 an article to the effect that \$5,000 had been allotted to the Director of Public Health there to try to find out why Grand Rapids vital statistics had changed so much in the past five years. It seems that deaths from the top five diseases, such as cancer, heart failure, diabetes, etc., had increased so alarmingly that Grand Rapids now had more deaths from these diseases than any other city in Michigan.

It was interesting to me especially as I have a letter from that same Director of Public Health written in July 1954, telling me the only way they were determining whether Fluorine in the water supply was detrimental to the health of the adults in Grand Rapids was by watching the vital statistics. It is also frightening to me to read because I have authenticated the broadcast, that this same Director of Public Health says (before he even starts to make a study why the death rates have increased) that he is sure he will find that fluorine has nothing to do with the increases.

Isn't it too bad the \$5,000 was not given to an unbiased person to make the study with?
Sincerely,
Virginia M. Wheelock

Signs of Pyorrhea

By FRED M. KOPP, R. PH.

Both types of pyorrhea produce loosening of the teeth. The first type is caused from lack of certain vitamins and minerals in the body.
Pyorrhea of the second type comes mainly from deposits of tartar on the teeth. When such deposits are allowed to remain and accumulate the gum tissue draws away from the bone structure and the teeth loosen. Tartar on the teeth also produces a very bad breath.
Routine dental checkups are most important to health and appearance. Keep an ample supply of good dental aids on hand. Purchase them from a trusted druggist.

Why your community hospitals sponsor Blue Cross

—says Mr. W. E. Erickson, Administrator, Three Rivers Hospital, Three Rivers, Michigan

"Yes, as a hospital administrator, it is my job to see to it that each patient gets the services prescribed by his doctor as well as the kind of modern general hospital care that will get him well in the shortest possible time.
"Day after day, I have to deal with patients whose insurance policies do not provide for this kind of modern hospital care. They have insurance policies with fixed dollar limits. Too often these dollar limits are pathetically low.

What Goes On at Your Library

By Jean Taylor

A few years ago when science fiction and other books of space travel first began to seep onto the library's shelves, we regarded them indulgently as fantastic nonsense, read largely by teenagers in search of vicarious adventure.

When, however, plans for launching an earth-circling satellite were made known a few weeks ago and news of a proposed International Geophysical Year, from July 1, 1957 through December 1958, was broadcast, we realized our thinking on the subject could bear some dusting off.

Since both young and old are becoming increasingly interested in space and these unknown worlds, it is not surprising that the past year or two have brought an avalanche of books on the subject. As might be expected, much of the material is mediocre or sensational, but there are some interesting, well conceived stories too as well as some enlightening non-fiction books to keep us abreast of scientific theories.

Science with adventure is not a new combination in the realm of books. These have always held a fascination for both reader and writer. Rabalais' Gargantua and Pantagruel (1545), Sir Thomas More's Utopia (1516), Plato's Lost Atlantis and Swift's Gulliver's Travels used this background for their satires and Jules Verne (1825-1905) no doubt has inspired many a science fiction writer. He believed "What one man can imagine, another can do."

Arthur Charles Clarke, a noted physicist and chairman of the British Interplanetary Society has written a number of books on the exploration of space, all of which lie in the realm of speculative factual writing.
"Going Into Space" tells of man's achievements in dealing with the physical laws that gov-

ern the universe, the construction of a space ship and the prospect of establishing temporary and permanent space stations above the earth's stratosphere.
"Exploration of the Moon" discusses the establishment of the first orbital rockets circling the earth just beyond the limits of the atmosphere, circling the moon by a robot vehicle and the descent of a man-made object on the moon. It continues with the establishment of a temporary base there. Explanations are clear and direct.
Willy Ley is another recognized authority in this field. Among his many books are two deservedly popular titles, The Conquest of Space and Rockets, Missiles and Space Travel. The latter gives the theory, history and modern practices of rocket research translated into the language of the layman.
Martin Gardin's Worlds In Space is also among the best general books about space travel. This is a readable and factual account of the plans being advanced for interplanetary travel and a discussion of the many technical difficulties which prevent the realization of such plans.
Young people will enjoy two books by Jack Coggins and Fletcher Pratt, By Space Ship to the Moon and Rockets, Jets, Guided Missiles and Space Ships as well as a factual book by Roy Gallant Exploring the Moon.
In the realm of science fiction, Isaac Asimov's I, Robot and Robert Heinlein's Red Planet and Between Planets are well liked. Mr. Heinlein writes a fast moving, plausible tale.
Arthur Clarke's Expedition to Earth is a readable collection of science fiction stories in which the probabilities of natural science are respected rather than space fantasy, in which imagination is given free play.

Hospital administrator Erickson sees examples daily of patients who have inadequate hospitalization coverage. "Because Blue Cross benefits are service benefits—with no dollar limits—they always keep abreast of the times," he says.

cost you. Since you are dealing with an unpredictable cost, why should you buy hospitalization coverages with prefixed dollar limits on any of the services?
"This is why your community hospitals in Michigan and throughout the country sponsor Blue Cross. Blue Cross gives you service benefits. This assures you the services you will need to get modern hospital care. And Blue Cross Comprehensive Contract benefits have no dollar limits. Moreover, these benefits always keep abreast of the times. They do the job for you. Blue Cross is your answer to the problem."

ESTIMATED FIRE LOSSES
New York (February 20)—Estimated fire losses in the United States during January amounted to \$96,972,000 the National Board of Fire Underwriters has reported.

According to Lewis A. Vincent, NBFU's general manager, this \$96,972,000 loss represents an increase of 28.8 percent over losses of \$75,265,000 reported for January, 1955, and an increase of 8.7 percent over losses of \$89,212,000 for last December (1955).

After-School Activities Keep Kids, Teachers Busy

According to Principal Charles Leavitt of Pierce Junior High School, if the school-day ends before 5 o'clock, somebody has neglected to tell him about it.

We visited him after school one day this week and can report that he's absolutely right. He said, "Look in her for example," and opened the door of the boys' gym.

We looked into a gym whose floor was occupied by four basketball teams going after each other in two separate games. Clusters of players stood about the edges of the playing floor awaiting their turn in the games to follow.

"Over 250 of our boys are playing here and can report the street in the Defer gym each week in the basketball leagues," said Leavitt. He took us around

comprised of 60 young musicians.

Leavitt explained, "It takes about half of our teaching staff to supervise and direct these after-school educational activities. The 100 junior high people in dramatics, the large numbers producing the school paper and magazine, the 60 who meet weekly as a library club, all must be guided by us. Our staff serves in this manner."

Another after-school activity is the parent-teacher or student-teacher conference. A large number of parents, says Leavitt, appreciate the chance to discuss the work and progress of their children. Make-up work is done then too.

Leavitt added a final word, "We make no complaint on this. Our children are active, interested and happy with the after-school program. That's good enough for us."

We had a chance later to talk with Vincent Peterson, who is Principal of the Parcels Junior High School. He concurred with Leavitt. "We have the same types of programs and activities going after school as Pierce has," said Peterson.

"Hundreds of our Parcels children are involved in athletics, dramatics, music, and other educational activities. Every other one of our teaching staff is giving after-school time to the program. It's very worthwhile."

We left the two principals with the feeling that, although the school day is getting longer and longer, the youngsters of these two schools are getting a lot of extras—extras which make a big difference in their education. We learned that the 3:30 bell may signal the end of classes, but that it also signals the start of after-school activity for a lot of children—and teachers.

Pointe Symphony Hits New Peak

The Grosse Pointe Symphony Orchestra showed new attainments Sunday afternoon at their third concert of the season at the Parcels School Auditorium.

The orchestra, composed exclusively of non-professional musicians and directed by Wayne Dunlap, met the challenge of a demanding program with proficiency, and at moments, even virtuosity.

The high point of the program was Bruch's G minor Violin Concerto with Emil Raab as soloist. Mr. Raab, a member of the University of Michigan's Stanley Quartet, was guest conductor of the Grosse Pointe Symphony last season during the absence of Mr. Dunlap.

A distinguished musician, Mr. Raab played with sincerity, conviction and purity of style, and his performance, provided a supple, well balanced accompaniment that did them great credit.

Under Mr. Dunlap's knowing leadership, the orchestra demonstrated more than competence in the remainder of the program.

They opened the concert with Mott's arrangement of the ballet music from Gretry's "Cephalote et Procris" with clear, bright playing in a brisk tempo that made no concession to the work's difficulties.

They found their way through the elusive rhythms of Copland's "Billy the Kid" Suite, a challenge to the most experienced orchestras, with hardly a sign of strain, and they brought the program to a vigorous finale with Ravel's "Bolero," which demonstrated their skills both in solo passages and unity of ensemble.

Their next concert will be April 15 at the Parcels School, with William Doppman, pianist, as soloist.

Farms Submits Fire Report

Farms Fire Chief M. William Mason's monthly report to the Farms council showed that his department made a total of 16 calls during the month of January.

The fire department answered three calls for residential fires; four other types of fires; eight emergency runs with the ambulance and six with the utility truck, and answered one call for aid by an outside community.

The estimated value of home contents endangered was \$40,000, of which only \$1,000 worth was damaged. None of the buildings was damaged.

The number of sick leaves taken came to only four days.

In his remarks, Chief Mason disclosed that Firemen Michael Beaupre and Ralph Snay attended the Michigan Consolidated Gas company's inspectors' school from January 9 through 11, and both are now

How to Profit Through Tax Exemption

With today's high tax levels, investors in medium and high tax brackets are turning to tax-free Municipal Bonds for income that they can keep.

If you have a taxable income of \$10,000 or more, you may be well repaid by investigating the advantages of tax-exempt State and Municipal Bonds. For instance, if you file a single return on a taxable income of \$14,000, you would have to receive a dividend return of 7.45% on a taxable income in order to equal the yield from a 3.50% tax-free Bond. It's something to think about!

Our New Booklet, "How to Profit Through Tax-Exemption" explains in plain language your need for tax exemption, tells how much these high-grade investments can be worth to you. There's no obligation. Send for copy today, or phone

Fireplace Requires No Chimney

Acclaimed as the ideal way to bring comfort with beauty to the basement recreation room, the Premier Company of 28137 Groesbeck, has developed a fireplace in which a natural fire enveloped non-consuming genuine silver birch logs. The flames are gas fed, with a patented burner so constructed that the logs themselves appear to be brightly burning. An automatic vent under the copper hood eliminates the need of a chimney when the unit is installed against an outside wall.

ior High School Teen Canteen Club, has tried to take the seriousness out of the sport, so that the average person can understand it. She said that when she talks to the average person about fencing, the reply is always "It's too hard."

She said that rules and regulations are taught early in the game, to avoid unnecessary roughness.

Mrs. Bistran has trained in fencing under the famous Bela de Tuscan, and is the holder of many medals from the championship meets held annually in Michigan.

The fencing instructions were made possible by Don Hallman, director of the Woods Department of Parks and Recreation.

The Teen Canteen Club is seeking more members for its fencing clubs.

Woods residents interested in fencing, should contact Mrs. Bistran, at Parcels on Tuesdays.

Submit Lake Level Report

The U. S. Army Corps of Engineers' monthly report of lake levels showed that the January level of Lake St. Clair was three feet below that of January 1955. Last month, the report revealed, the level for St. Clair was 573.33 feet, whereas, last January it was 576.34 feet. The average January level, since records were kept, was said to be 574.24.

The extreme low for this part of the year was recorded at 571.68 feet in January 1936; the extreme high, 576.95 feet, in January 1952.

Lakes Superior and Michigan-Huron continued the seasonal decline at greater than average rate because of the less than average precipitation.

Lakes Erie and Ontario continued their seasonal decline at much greater than average rate because of less than average rainfall and low flows in the St. Clair and Detroit Rivers.

Devil Swimmers' Victory Brings Tie for Loop Lead

Grosse Pointe's twice beaten swimming team scored its most important victory of the season when it tumbled the league-leading Monroe Trojans, 48-39, before a screaming, standing room only crowd last Friday, February 17.

Turning in sparkling performances in every event the Devils avenged an earlier defeat by the Trojans and bounced into a three-way deadlock in the Border Cities league race with Monroe and Fordson.

Was Decisive Meet

It was very apparent from the opening event that the Pointers knew this was the decisive meet if they hoped to have a chance to at least share the title.

On paper the Devils weren't as strong as in the earlier meeting, which the Trojans won, 47-40, in their own pool. But the Devil lads put out magnificently and earned the right to toss their coaches, Frank Banach and Bill Winkler, in the pool following the last event.

The Pointers jumped into an early lead when John Wachter and Carl Anderson slammed the 40 yard free style event to take an 8-1 lead. Anderson's second place came unexpectedly but sent the partisan crowd into a frenzy.

Rooters Are Noisy

From here on in the Blue Devil rooters made ear drums ring even when Dan Goodnow and Dave Gauss placed 2-3 in the 100 yard breast stroke event to increase the Devils lead to 12-6. It was in this event that Monroe scored one of its three individual wins when Dave Williams touched out Goodnow by an eyelash.

Eddie Pongraz and Neil Georgi place 1-3 in the 200 yard free style. Georgi's third came as a surprise also. Bob Owens took second for the Trojans but the Pointers still held an 18-9 lead.

Equals Two Records

Les Cutler looked as though he would take his first beating of the year in the 100 yard backstroke, but came back strong in the last 20 yards to win by a half pool length over Monroe's Gene Turner and Bob Gose. Cutler's performance equaled the school and pool record of 1:01.6 set by Don Adamski in the 1953-54 season.

The 100 yard free style saw all four boys set a blazing pace with the outcome in doubt until the last five yards as Harry Huffaker barely failed to touch out Monroe's Denny Hoffman. The Trojan captain Joe McBee splashed into third place a half yard behind Huffaker.

Pete Huestis put on one of the most beautiful displays of fancy diving this reporter has seen since the day of such great Devil divers as Don Duncan, Walt Flanders and Bill Winkler as he captured the diving event with a point total of 77.5. Huestis could very easily place in the state meet this March if he minds his P's and Q's and continues to duplicate his performance of last Friday.

Faces Biggest Test

His biggest test will come against Wyandotte next Friday, February 24. Winless Wyandotte is taking consolation in its victory season as they watch their diver who placed sixth in the state meet last year.

Monroe's Dick Jeric squeezed out the Devils' Joe Moore by nine tenths of a point for second place.

Gene Turner became the only double winner of the meet when he edged Les Cutler in the 120

yard individual medley relay. John Bennett took third to give the Devils a 36-27 lead. At this point the local lads needed only to finish in the two final relays without a disqualification to win. This set the stage for a very cautious display by the Devils in the 240 yard medley relay. As a matter of fact the Devils were so cautious they lost the event, which they could have won easily.

With the meet all but in the bag the 160 speed relay combination of Wachter, Anderson, Huffaker and Goodnow didn't play the cautious string out. Instead they went for the record but it did some tall doing on the part of Huffaker, swimming third, who picked up the two yards lost by the first two boys. This gave Goodnow an even start on the anchor leg, which he won by five yards and with it tied the old pool mark of 1:16.0 set in 1953 by Tony Pear, Robin Hess, Paul Burke and Henry Gildner.

The Christ Church Tigers won their first game of the season, beating the Methodist Mustangs, 34-29. MacDonald paced the Tigers with 14 points but was forced to share scoring honors with Huddleston of the Mustangs.

Grosse Pointe's chances of winning the title out right hinge on the outcome of the meet between Fordson and Monroe next Friday, February 24, and possibly the meet between Fordson and Royal Oak the following week, Friday, March 2.

The big "IFS" stack up like this IF Fordson can beat Monroe in the Trojans pool on the 24th and IF Royal Oak can trip Fordson on the 2nd and IF Grosse Pointe can win its two remaining meets campaign with a record of 8 wins and 2 losses and the title outright.

The Devils will entertain Wyandotte, in the local pool on February 24. The Devils won the first meeting, 66-17.

Church Cage League Tied

The race for the title in the senior division of the Inter-Church Basketball League has boiled down to a two team scrap between the Grosse Pointe Woods Presbyterian Seniors and the Memorial Diesels.

Both won their sixth games of the season last Saturday, February 18, by sizeable scores. Woods tripped up the St. Paul Longhorns, 56-23, with Lars Anderson collecting 27 points for the winners. The Diesels tumbled the Christ Church Lions, 59-19, behind the sharp shooting of Bill Nolte, who notched 28 points. Teammate Rem Purdy added 22 points to the Diesels final total for runner-up scoring honors.

In the other senior division game St. James whipped the Woods Celtics, 38-18, to move into a two-way tie for third place with the Longhorns. Rieth hit the nets for 20 points for honors as his teammate Mann collected 15 points for runner-up honors.

Undefeated Memorial Juniors continued their unbeaten streak by downing the St. Paul Panthers, 41-14. The win was the seventh in as many starts and clinched the Junior Division crown. Harper hit for 11 points to lead the winners, with Lau taking runner-up honors with 8 points.

The Christ Church Tigers won their first game of the season, beating the Methodist Mustangs, 34-29. MacDonald paced the Tigers with 14 points but was forced to share scoring honors with Huddleston of the Mustangs.

Kegling Teams In Torrid Race

After the pins stopped falling last Friday, February 17, in the Grosse Pointers Bowling League, only three points separated the first five teams in the 12-team league.

League-leading Stober's ran into trouble in Custom Pattern, who took three points. This coupled with the fact that second place Redwood took three from Harper Sports chopped Stober's lead to a half point over Redwood.

Third place Youngblood took two from Lusch to stay a half point ahead of fourth place Kennametal, who took three points from Piche. Piche dropped to fifth place three and a half points out of first place and a lone point out of fourth place.

Last place Stewart kept Kopp's from moving up into contention when it split four points. Rightenberg got hot for three points over Rosati's and moved into a two-way tie with Rosati for eleventh place.

Optimists Near Cage Title In Neighborhood Club Loop

The unbeaten Optimists moved a step closer to the 1955-56 Midget Basketball League title at the Neighborhood Club last Tuesday, February 14, when they downed a stubborn Lions quintet, 34-33, on Tom Gutow's winning basket with only seven seconds remaining.

Gutow saved the day for the Optimists as he notched 16 points while pacing the last period rally that carried them from a 7 point deficit to a one point victory. John Wachter, of the Lions, took runner-up honors with 14 points.

Have Three Game Lead

The defeat practically eliminated the Lions from title consideration as they are three games behind the leaders in the victory column and have only three games remaining on their schedule.

The other Midget League game that night saw Bill Lee score all of Metro's points as his team dropped its tenth straight game of the season, bowing to Exchange 20-12. Lee took scoring honors with Joe Ayrault of Exchange notching 6 points for runner-up honors.

Lakers Beat Falcons

In the Giant League game the Lakers surprised the league leading Falcons, 39-32, as Rem Purdy hit for 18 points to pace the upset. Lars Anderson also got 18 for the Falcons.

Neighborhood Club basketball fans saw plenty of excitement on Monday, as two of the three games wound up as overtime contests.

In the first game VFW squeaked past Exchange, 16-14, on Johnny Kolojeski's winning basket in the overtime period, after Johnny Urso had tied the score in the final seconds of the regulation time. It was a heart-breaker for Exchange to lose, as it had held the lead from the second period and appeared to have victory within its grasp. Ted Trefzer of VFW and Jay Fisher of Exchange shared scoring honors with 5 points each.

Lions Eke Out Win

In the second game the third place Lions trailed Rotary throughout the contest until the final seconds when Johnny Wachter flipped in the tying basket to throw the game into

overtime. Jerry Chouinard became the Lions' hero of the night with his game-winning shot in the overtime to give the Lions a 28-26 victory. Teddy Bonneau of Rotary and Wachter tied for honors with 12 points each.

The final game of the evening provided mild excitement as the last place Celtics attempted to spring an upset on the league-leading Falcons in the Giant League. Paced by Len Carnaghi, who took scoring honors with 15 points, the Celtics grabbed a 20-16 lead at halftime. The Falcons came back strong in the final half to win, 35-31, behind the sharp-shooting of Butch Jacoby, who earned runner-up scoring honors with 13 points.

GPUS Midgets Beat Brookside

The Midget Basketball game between GPUS and Brookside School, Bloomfield Hills, held last Thursday, February 16, resulted in the first victory for the GPUS team against this opponent for the past six seasons. The score was 28 to 18. The game was pretty much of a seesaw affair in which the GPUS boys trailed. In the last 2½ minutes of play the GPUS team whipped ahead for the winning score. Willis Torpe scored the clinching points, having 12 points in all. David Hodges made eight points.

Pointe Kids Win Small Corvettes

Some pretty small fry who've often gasped with awe as sleek Chevrolet Corvettes whisked by them, or who've gotten behind the wheel of Dad's own Corvette and played 'driver', are now toying with a miniature Corvette of their own. In the Detroit area 164 miniature versions of this great sport car are being given away by the 41 Chevrolet dealers in and around Metropolitan Detroit. The Ray Whyte Chevrolet here in Grosse Pointe has had two winners so far in its small-fry contest and each is only 4 years old. Deborah Kitchen of 1008 Devonshire was the first week's winner and last week little Leonard Singer of 250 East Grand Blvd. was winner. Styled as an exact duplicate of the real thing, these Corvettes are sturdily made of fibreglass, have a simulated in-

X-Way System Maps Offered

To help acquaint Michigan motorists with Detroit expressways, Automobile Club of Michigan has begun statewide distribution of its map showing entrances, exits and interchange details of the city's expressway system. Printed in color, the 15x18 inch map includes large scale sketches of heavily traveled portions of the expressways as well as 10 driving tips for motorists inexperienced in expressway driving. "The expressway often looks like an unsolvable maze to drivers using it for the first time," states Harry N. Rogan, Auto Club travel services director. "We hope this map will help avoid some of the confusion and traffic jams that so often result from such a situation."

The maps are available to the public without charge at the Auto Club's 43 division offices throughout the state.

LEE ANN LANGE, Dominican High School senior who had a starring role in their recent play, should have t-h-e-a-t-r-e in her blood. She's a great granddaughter of Peter Rush, whose stock company was playing in the Ford Theatre on the night that Lincoln was shot.

Lee is also a direct descendant of Dr. Benjamin Rush, one of the signers of the Declaration of Independence, She is the daughter of Mr. and Mrs. Edward R. Langel of Ridgmont road.

Two high school gals who are bustin' their buttons these days are GLORIA CASHIN of University placed and MARY JO OLP of Harvard road. They've received belated, but no less treasured, letters on impressive White House stationery, thanking them for their solicitous messages concerning the President's health.

A Pointe pair, just back from a restful Caribbean cruise, were open-mouthed when they visited the cathedral on a guided tour of Cartagena, Columbia, to see a funeral being held on one side of the church and a wedding service being performed simultaneously on the other side.

One local lady invited three of her young feminine neighbors to luncheon the other day. The girls, aged 3, 4 and 5, behaved with decorum, but Madame Hostess had apparently forgotten which delicacies delight children's palates. The young guests turned thumbs down on her tomato juice cocktail, refused to touch dainty egg salad and cheese and nut sandwiches (peanut butter and jelly had to be substituted), and wanted no part of the lovely dessert concoction. She saved the day by pulling out the jello with sliced bananas which she'd made for the family supper.

PILFERINGS

The metal strips used to band birds are inscribed, "Notify Fish and Wild Life Service, Washington, D.C." They used to read "Washington Biological Survey," abbreviated to "Wash. Biol. Surv."

This was changed after an Alberta farmer shot a crow and disgustedly wrote the U. S. Government: "Dear Sirs: I shot one of your pet crows the other day and followed instructions attached to it. I washed it and bled it and served it. It was terrible. You should stop trying to fool the people with things like this . . ."

Mrs. Brown was complaining to her doctor that his bill was unreasonably high. "Don't forget," he reminded her, "that I made 11 visits to your home while your son had the measles."

"And don't you forget," she countered, "that he infected the whole school."

The society column of the Lewistown, Ill., Evening Record reported "Mrs. Pike C. Ross left today for La Harpe and the Brookfield Zoo in Chicago to visit relatives."

Producer Charles Feldman tells this story: I lost at gin rummy with Alexander Korda one evening, and mailed him a check next day. It was written in red ink, and accompanied by this note: "Dear Alex: You will see that this check is written in blood."

A few nights later Korda lost to me. The next day I received a check written in blue ink. The note clipped to it read: "Dear Charlie: Here is my check. Please note it is also written in blood—but be sure to note the difference in color." Signed "SIR Alexander Korda."

It was nighttime and a Kentucky mountaineer and his 19-year-old son sat silently in front of the fire, smoking their pipes, crossing and uncrossing their legs. After a long period of silence, the father said, "Son, step outside and see if it's raining."

Without looking up, the son answered, "Aw. Pop, why don't you jest call in the dog and see if he's wet?"

In a southern town, there are two churches across the street from each other. "Couldn't those churches be combined?" a visitor asked.

"Not a very well," was the reply. "That church over there says, 'There ain't no hell,' and this one says, 'The hell there ain't!'"

HENRIETTA BODYCOMBE OF LINCOLN ROAD
By Kitty Marriot

Grosse Pointe now has the distinction of owning the first American woman, so far as research can ascertain, to write and have produced a Grass Roots Opera.

Henrietta Bodycombe wrote both the words and music for "Summer Cinderella," two-act musical comedy, which Tuesday Musicales Club of Detroit will present for the first time anywhere on Tuesday morning, March 6, at 10:30 in the large auditorium of the Detroit Institute of Arts.

Mrs. Bodycombe, who calls herself a "modern" song-writer, has written about 60 songs. Despite her many compositions for piano, voice, choral and strings, this is her first venture in the operatic field.

Opera for Women

She wrote the light-hearted comedy at the request of the Grass Roots Opera chairman of the Michigan Federation of Music Clubs, who wanted an opera for a cast of women only. Mrs. Bodycombe wrote the libretto in two weeks and the music in four months, then dedicated the opera "With love to my husband—for his endurance and encouragement."

She wrote her opera day and night for two straight weeks—on menus in restaurants, on scraps of paper at home or while traveling on buses. The music took a bit longer. A few of the libretto song titles are "You're Urban, Suburban," "What's a Smorgasbord?" and "The Pop-sicle Tree."

"Now I know why Beethoven wrote on his cuffs," she says with a grimace. "Once you get going, you can't stop."

Defines "Opera"

In an issue of the monthly "Keynotes," which Mrs. B. has edited for Tuesday Musicales for three years, she describes Grass Roots Opera as "American opera for American people . . . it is like Iowa corn . . . Vermont maple syrup . . . southern grits

. . . it depicts the background, the customs and the traditions of our United States . . . so therefore it is founded in the ROOTS of our country."

Born in Pittsburgh, this Pointe pianist and accompanist came here 25 years ago and so classifies herself as a Michigan composer. She's had music in her fingertips from her early years—picking out tunes on the piano at age 4, starting formal piano lessons at 6, and writing her first music at 11.

A graduate of the Pittsburgh Musical Institute, Mrs. Bodycombe studied piano with the German pedagogue Victor Heine, a pupil of Leschetizky, and free composition with T. Carl Whitmer, of New York.

Musical Family

Mr. and Mrs. Bodycombe are both musicians, although Abe Bodycombe's loyalty is divided between music and his rose garden. He has a fine bass-baritone voice and was bass soloist at Christ Episcopal Church for 15 years.

Many musicians are numbered among their friends, and their home is a mecca for Metropolitan artists. These include George London, Cesare Siepi, Leo Taubman, Set Svahnholm and Eugene Conley.

While Mr. Conley was in Detroit, Mrs. Bodycombe was his accompanist, and she made concert tours with his soprano Winifred Heidt, who is now Conley's wife. Last season, on a tour of the United States, Cesare Siepi included on his program "The Sentry," a song which Mrs. Bodycombe had written and dedicated to him.

Michigan Suite

Mrs. B. considers "Swans on the Lake" the best song she has ever written. It's the only com-

position for which she wrote both the words and music simultaneously. She has written plays which have been produced by Fine Arts and Theatre Arts, and is a member of both groups. Naturally, she belongs to the Michigan Composers Club.

Her current work is a Michigan suite of the four seasons. She has completed "Autumn in Michigan," and will begin the summer suite after "Summer Cinderella" has been presented. The Bodycombes have one son, Air Force Maj. Richard Bodycombe—he married the former Karin Lindh of Rivard boulevard—and a small grandson, Brian.

Designs Aprons

In the hobby department, Mrs. Bodycombe designs aprons. She's one of the chief contributors to the apron booth at the Christ Church Christmas fairs, always producing about 50 original models.

They're darling too—far above the ordinary run of aprons—executed with a flair. For instance, a trousseau series which she gave to a bride included heart-shaped Valentine apron, Christmas apron, cocktail and utility aprons.

Best of all, they're large enough to protect the hostess as well as to look attractive. And neatly stitched inside each one is the designer's tag, inscribed, "Handmade by Henrietta."

Evening Group Meets Feb. 28

The Women's Evening Group of the Grosse Pointe Memorial Church will meet in the Women's Parlor on Tuesday, February 28 at 8 o'clock.

The Rev. Glenn M. Johnson, Presbyterian missionary from Japan will be the guest speaker.

INTELLIGENT PARENTS SEEK PROPER SHOES

The parents who bring their children to the C. C. Shoe Co. come from all walks of life, but they are alike in one respect: they all have an intelligent interest in their children's well-being according to Louis H. Gabe, manager of the 1663 E. Warren store.

"That's why it's such a pleasure to be associated with Hack's," he continued. "We deal with people who are concerned with getting the best for their children and so they seek fit above style, comfort above price. Sincere people are nice people and believe me, we go all out to assure correct fit in the proper shoes for each child's feet."

Indian Madras is a fashion staple . . . it is well chosen in anything from swim trunks . . . walking shorts . . . to blazers. We noted that sport shirt wardrobes consist of new look patterns . . . and the varieties can be colorful with neat or giant patterns . . . but they avoid the obvious and bizarre scenes and moonlight over palm trees.
