Polio Victim Paid Honor As Top Junior Achiever

A Woods youth, a one time victim of polio, was honored by officials of the Junior Achievement program, at ceremonies held in the Masonic Temple, Second and Temple, Detroit, on Thursday, May 10.
Anthony Malcoun, 18, son of Mr. and Mrs. Joseph Malcoun of 1771 Hollywood, twice president of a Junior Achievement group sponsored by the Dodge Division of the Chrysler corporation, was selected to represent his group, chosen as outstanding, because of his quality of leadership and ingenuity. He has been a member of the group for four years.
The presentation of certificate awards at the Masonic Temple ended the Junior Achievement program for this year.
Young Malcoun, who up to a few years ago, has been in and out of hospitals, a victim of spinal polio since he was four years old, has been elected president of his group two years successively. Under his leadership, his Junior Achievers, 17 boys and girls, were selected as the program's top organization in Southeastern Michigan, getting first place.
While still suffering from polio, he did not deter his school studies, as a matter of fact, he studied that much harder.
Even after he conquered the dreaded disease, he continued his studies and was graduated from St. Bernard High School

in Detroit, with honors, at the age of 17.
When he took part in the Junior Achievement program, his zest and popularity manifested themselves at once.
His Junior Achievers make and sell items of wrought iron the designs of which are left to their own creative abilities.
In order to obtain a finished product, members of the movement cut and grind the rough material, shape and weld them and then paint and sell them.
Each group makes five items, such as three-tier tables, book racks, all purpose tables, planters tables and telephone stands.
Their work is judged on originality of design and the quality of workmanship. The members' selling ability is also taken into consideration.

Schools Always Welcome Adults

As busy as the spring days are around the schools, teachers and classes still display the welcome mat to interested parents and friends.
Take Pierce Junior High School, for instance. The school activity calendar shows but one free Friday between mid-April and mid-June. Yet many of the activities are designed primarily for parents.
On Friday, May 4, a P-TA sponsored Open House and talent show were planned. Three weeks later, a school band concert is scheduled. A third school activity of interest to parents is the annual junior high school track and field meets. These late-spring events will take place at the high school field.
Recently Pierce has been enjoying the visits of many mothers. They were invited by their daughters to see the girls perform modern and interpretive

dances learned in physical education classes. The Pierce young people developed original presentations for their guests.
The East Suburban African Violet Club will meet at 8 p.m. May 23, in the East Detroit Teen Center, 16600 Stephens, East Detroit. Members please bring rooted plants in two inch pots for exchange.

General Motors' new Technical Center—largest of its kind in the world—employs 4,000 engineers, scientists and stylists. These vast resources combine with Pontiac's own ultramodern engineering facilities to bring you America's greatest automobile value—a General Motors Masterpiece.

The "go" of the newest in high-compression, high-torque engines—Pontiac's Strato-Streak V-8, so advanced and so efficient it delivered more actual miles per gallon than any other "eight" in the Mobilgas Economy Run!

The "go" of the newest in automatic transmissions—Pontiac's Strato-Flight Hydra-Matic*, specially engineered for Strato-Streak power and smooth as silk at any speed!

A new kind of "go" in the way this wonder car handles rides... holds the road.

Harry Loynd Top Foreign Trader

Harry J. Loynd of Neff road, president of Parke, Davis & Company, was named "Foreign Trader of the Year," it was announced by the Foreign Trade Club of Detroit.

Mayor Albert E. Cobo of Detroit will present the award to Loynd at a special dinner-meeting of the Foreign Trade Club in the Fort Shelby Hotel May 17.

Gov. G. Mennen Williams of Michigan and Mayor Cobo will head a group of 250 civic, government and industrial leaders who will attend the dinner, a preface to World Trade Week, May 21-26.

Herbert J. Cummings, director, Near Eastern and African division of the United States Bureau of Foreign Commerce, will be the featured speaker. He will report on those areas, presently the most explosive in the world. Edward R. Murrow's "See It Now" film on the Arab-Israel situation will be shown. Loynd is the third winner of the award. Last year, Joseph M. Dodge, of Washington road, chairman of the board of directors of the Detroit Bank and special assistant to President Eisenhower, was honored. John S. Coleman, president of Burroughs Corporation, Detroit, and president of the United States Chamber of Commerce, won the award in 1954.

Since Loynd became president of the world-wide pharmaceutical firm in 1951, he has made frequent business trips to foreign countries, visiting their 28 branches and 70 distributors in the Far East, Europe, Central and South America, Asia, Australia and South Africa. Last year, he completed a round-the-world trip. He has visited every Parke-Davis overseas branch office and manufacturing laboratory from London to Bombay and from Mexico City to Johannesburg.

Loynd joined Parke-Davis in 1931 as a sales representative at Kansas City. In 1937, he was transferred to the firm's general office in Detroit as assistant to the domestic sales manager. He was named assistant to the president in 1944; vice president in charge of domestic and Canadian sales and promotion in 1945; a company director in 1946; and president in 1951.

60 Policemen Converge To Break Up Gang Fight

Police of three communities, the Park, Harper Woods and Detroit, demonstrated a spirit of co-operation, when policemen and cruisers converged at Mack and Harvard on Wednesday, May 9, and averted a gang fight which might have involved possibly hundreds of high school students.

Park Police Chief Arthur Louwers said that Detroit police arrested 45 youths, out of 100, who had gone from Cupid's Drive-In, Mack and Harvard, to the Cannon Memorial Park in Detroit, in preparation for a battle.

The two high school groups left the Park location before they could be apprehended, and went to Cannon Park, where officers from Detroit Precinct 15, under the command of Inspector Fred Wright, were successful in rounding up 45 of the 100 youths spoiling for a fight. The arrests broke the backbone of the fight itself, said Chief Louwers.

Approximately 130 youths remained at the Drive-In, while the other 100 went to Cannon Park.

The battle which almost occurred was over a girl who left a boy from one of the high school groups and went with a boy from the opposing faction. Words developed between the two boys over the alleged "girl stealing" and students from the schools were called and they made ready for battle.

The 130 youths who remained at the Drive-In, were orderly and made no trouble, Park Det. Lt. Stanley Enders, said, and about 10:30 p.m., they dispersed and went home without further incident.

Chief Louwers said that at least 60 police officers were on hand to maintain order, which showed an actual demonstration of the response by local police departments in giving citizens the maximum protection in serious situations or disasters.

Michigan Grads Guests of Ford

The 1956 Conference of the University of Michigan Ninth Alumni District was held on May 5, at Dearborn Country Club. Host of the affair was the Ford Motor Company.

Honored guests included Dr. Harlan Hatcher, university president, several vice-presidents and regents, including Mrs. Vera Baits of Grosse Pointe.

The program included a short business meeting, panel discussion, hospitality hour, and luncheon. Principal speaker at the luncheon was Dr. Arthur L. Brandon, University Vice-president. Songs were led by Fred Lawton, author of the lyrics of "Varsity." After the program, interested guests toured some of the new Ford buildings.

Participating in this event were members of the fourteen local alumni groups in the Ninth District, as well as the women's alumnae group.

These clubs include Ann Arbor, Dearborn, Detroit, Ecorse, Ferndale-Pleasant Ridge, Grosse Pointe, Lincoln Park, Livonia, Mt. Clemens, Northville, Plymouth, River Rouge, Wyandotte and St. Clair Shores. Elected as treasurer of the group for the coming year was Mrs. Hubert G. Goebel, of Grosse Pointe.

Grosse Pointers attending the Conference included John M. Chase, Laurence B. Einfield, Daniel Hodgman, Louis B. Hyde, Ferd H. Kolwood, Dr. M. M. Scheaffer, Mr. and Mrs. Stuart G. aBits, Mr. and Mrs. Glenn M. Coulter, and Mr. and Mrs. Hubert G. Goebel.

Forming P-TA to Serve New John R. Barnes School

All parents of children who will attend the new John R. Barnes School next fall are cordially invited to attend the Vernier P-TA meeting to be held Tuesday night, May 22, in the Monteith School gymnasium, 1275 Cook road, at 8 p.m.

All parents are urged to attend in order to enjoy the interesting program which has been arranged and to participate in two items of important business.

The entertainment portion of the program will be handled by Inspector Melville Bullach of the Detroit Police Department Censorship Bureau. Inspector Bullach will give an enlightening talk on the functions of the Censorship Bureau and its activities in controlling the traffic in unlawful publications, films and literature.

Inspector Bullach and his Censorship Bureau have gained nationwide recognition for their success in keeping Detroit free of these harmful media.

The first of the two important business items for discussion that night will be acceptance of the proposed constitution for the John R. Barnes P-TA.

Chairman of the Constitution Committee is Charles Zentgraf. Members of his committee are Mrs. Howard Jacobson and Udell Wareham.

Election of officers for the new John R. Barnes P-TA will also take place that night. Members of the nominating committee who will present their slate that night are as follows: Gerald Schroeder, chairman; Mrs. William Belleu, Mrs. Donald Jennings and Francis Seyler.

The meeting that night will be a rather auspicious event. It will be the last time a P-TA group from Vernier School will

convene. The close of the present school term also marks the final closing of the Vernier school after years devoted to educating the children of Grosse Pointe.

However, the night will also mark the very first meeting of a brand new P-TA group. Upon acceptance of the constitution and election of officers the new John R. Barnes P-TA will be formed and will convene to guide a new and modern school on its way to many decades of educational history.

Voting Precinct Divided in City

The City of Grosse Pointe has complied with a directive from Attorney General Thomas M. Kavanagh, and has split its single voting precinct into six separate precincts which will each handle not more than 800 persons.

The City serves 4,781 voters and has processed more than 500 persons per hour. City Clerk Norbert P. Neff stated that no recount of votes has ever been sustained and results of statewide recounts have never changed the ballots in the City.

The law provides that the six precincts may be combined into one central polling place, but each precinct must operate independently from the others. This will allow the six precincts using paper ballots to continue to be housed in the neighborhood Club gymnasium.

School Planned By Republicans

In order to fully utilize the vitality and enthusiasms of Young Republicans in the campaign this year, the 14th Congressional District Young Republican Club is sponsoring an all-day leadership training school on May 19.

"We Young Republicans believe that if everyone really understands the principles and achievements of the Republican party on both a national and local level, the results of the election this fall will be a landslide victory for the Republicans, the like of which this country has never seen. The purpose of this school is to give our young men and women the information and training they need to go out and 'Ring the bells and tell the people,'" says Peggy Williams, chairman of the sponsoring club.

Included among the speakers for the school, which will be held at the Grosse Pointe War Memorial, are J. Albert Schaffer, chairman of the Labor Committee of the Young Republican National Federation; Robert E. Waldron, State Representative and the only Republican from Wayne County in an elective office; Fred L. Dixon of Washington, D. C., the Executive Director of the Young Republican National Campaign Committee; and William G. Konold, a member of the County Committee of Fairfax County, Virginia.

In attendance also, will be members of the regular party organization from the district and the state.

Council Rezones Two City Areas

The Grosse Pointe City Council approved the rezoning of two areas within the city limits at a special meeting held Tuesday, May 8. Included in the rezoning is a piece of property on the south side of Mack avenue at Notre Dame avenue. This section contains lots 1 through 19 of the Pointe Land Company Subdivision. The council rezoned this property from residential use to local business use. A vacant lot behind the O'Leary Cadillac Building was reclassified from a "C" to a "B" district. A "B" classification permits multiple dwellings other than terraces to be constructed on the property. The "C" classification permitted terraces. The zoning ordinance defines "terrace" as a dwelling which houses more than two families.

16 Car Thefts Admitted By Pair of 16-Year-Olds

Two 16-year-old Detroit boys, whose idea of financing a good time is by stealing purses and cars, were arrested by Detroit police at Connors and Outer drive on Sunday, May 13. Park police received a call from Edward C. Moore of 3934 Wallworth, Toledo, O., in which he stated that while visiting at 798 Trombley, someone had stolen his car. Patrolman Charles Slusser in answer to the complaint, went to the Trombley address to investigate. While there, he discovered that a car, stolen in Detroit, had been left in place of the vehicle belonging to Moore. A general broadcast was sent out, which resulted in the Detroit police apprehending the

Many Groups Use School Buildings

For almost 8000 hours between September 1, 1955 and May 1, 1956, public school buildings and facilities were used by 72 different community groups. According to a report released this week by Harold Husband, Director of Administrative Services for the Grosse Pointe Public Schools, the figures are running at about the same pace as last year. "Not counted in these figures," said Husband, "are the adult education classes, P-TA's, public school affairs, playing field use by community youth athletic organizations, and so on. The 7843 hours were put in by public groups." Husband named some of the 72 groups: "Scouts, Protestant and Catholic churches for recreational and religious activities; civic and social groups such as community clubs and choruses, and so on—each using our school facilities. We like to have the community come in like this." The school official estimates that by the end of the school year, the schools will have been used 10,000 hours by public groups.

Jacobson's Displaying English Silver

Jacobson's Home Decorative Shop, 17141 Kercheval, will feature a display and sale of English silver today, tomorrow and Saturday. Among the articles in the exhibit are the Victorian silver tea and coffee service with matching Victorian Sheffield tea kettle shown above. They are oval style with decorative festoon embossing and applied medallions and were made by Robert Slater of Sheffield in 1856.

The fascinating history of the art of silvercraft focuses most

repeatedly on England. Through centuries — from the Middle Ages when silver was fashioned by devoted monks, to 1750 and the discovery in Sheffield of a new process for manufacturing silver plate to the present time, when London factories produce fine silver to be exported throughout the world—British silversmiths have remained the unrivaled masters of their art. English silver, of all periods, is considered the finest in the world.

A rare exhibition of English silver, including Sheffield Victorian, Georgian and modern pieces, will be at Jacobson's Home Decorative Shop, 17141 Kercheval, today, tomorrow and Saturday. The exhibition, which began Wednesday, is from the collection of Jack Bloom of N. Bloom and Co., New York, one of today's most outstanding authorities on old English silver.

Among the many exquisite items in this display is a five-piece antique sterling silver tea and coffee service made in 1820 and presented to the court physician by his Royal Highness Duke of Clarence, who was later King William IV. Each piece in the set is engraved with the royal coat of arms of Eng-

land and is fully hallmarked. The display and sale at Jacobson's Home Decorative Shop will also include part of Bloom's collection of Victorian jewelry and a quaint group of old restored barometers.

Army Offered Park Site On Year-to-Year Basis

At a special meeting held on Thursday, May 10, the Park council approved the leasing of the camp site at Three Mile drive and Essex to the Army on a year-to-year basis.

The present lease expires on August 1 of this year, and the Army has been seeking another lease for at least 10 years.

Park City Manager Everitt B. Lane, said that he and Councilmen William Oddy and Charles Ives, with Oddy as chairman, were recently appointed by the council to study the issue and make recommendations.

Mr. Lane said that after a study was made, it was recommended at the special meeting that the lease be renewed on a year-to-year basis.

He said that a copy of the proposed lease was sent to the office of Col. Arthur Nauman, the Army's district engineer of

the 28th Antiaircraft Group. Col. Nauman said that his office had received the copy on Tuesday, May 15, but for the present he had no comment to make.

He said that the lease would have to be studied by the real estate chief of the district, before it can be decided on whether or not the proposed lease is acceptable.

The property in question involves about 11 acres, eight of which the Army has leased and located its 99th Battalion, Co. D, Antiaircraft unit. The remaining three acres, abutting Essex, are being used by the Park for

recreational purposes.

On November 23, a group of citizens living in the vicinity of Three Mile drive and Essex, appeared at a council meeting to oppose renewal of the lease to the Army. They protested that there was too much noise coming from the site, for one thing, and that if the camp site is retained, it would depreciate the value of their property.

Still other citizens have taken up a petition, which was presented to the council, to retain the Army unit at the present site.

The proposed one-year lease

appears to be a compromise solution.

At What Age Should SAVING Start?

Many, many First Federal customers have had savings accounts for their children, opened soon after the youngsters were born. They start with a small account for the new baby. Then, it's surprising how such savings grow with money gifts for Christmas and birthdays. Later, the child's own after-school earnings are added. Besides offering important training in thrift, this plan builds savings for college, or for a start in business. Savings here are insured to \$10,000.

World's most popular POWER STEERING?

Right this way!

EVERY YEAR, more and more of the new cars sold are equipped with Power Steering. Many a man has bought it "for the wife"—then wondered how he ever got along without it.

And if you have in mind a new car with this increasingly popular feature, you ought to consider this fact:

Since the beginning of last year, Buick has sold far more new cars equipped with Power Steering* than any other car—over 20,000 more in 1955 alone.

That's the record—and the reasons for it are just as impressive.

Buick brings you In-Line Safety Power Steering. In addition to the one-finger ease of turning common to all such systems in varying degree, it has several distinct advantages.

It gives you surer, steadier, safer control at

highway speeds—because it retains that good natural "feel" of the road. (That's something you really should compare.)

On the other hand, it gives you more power assist when you need it most—at crawl speeds and at full stop. For parking and other tight maneuvering, Buick's Power Steering makes wheel turning nearly twice as easy as other types of systems. (And that's by engineering computation.)

Add another plus: this Buick feature works through the new Buick front end—where a unique new geometry and steering linkage bring a sweet new response and a wonderfully easy handling and a surer "sense of direction" even to new Buicks not equipped with the power system.

So there you are—and here we are, waiting to prove it all to you.

Waiting, also, to let you try the new thrills to

be had in Buick's advanced new Variable Pitch Dynaflo!—where getaway response and gas mileage both step up even before you switch the pitch.

And waiting to show you how the highest power yet, the sweetest ride yet and the boldest styling yet—all help to make this bright new beauty the Best Buick Yet.

Today is fine with us. How about you?

*Buick's In-Line Safety Power Steering is standard on Roadmaster and Super, optional at moderate extra cost on other Series.

†New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Wear Memorial Poppies To Honor Nation's Heroes

The memory of those who gave their lives in defense of America will be honored here and throughout the nation on Poppy Day, May 24, by the wearing of America's memorial flower, the bright red poppy.

Plans for the local observance of Poppy day are being completed under the direction of Mrs. Elva Neilsen, Poppy Chairman of the Grosse Pointe Unit of the American Legion Aux-

iliary. A large corps of volunteer workers is being organized to offer poppies on the streets throughout the day. Contributions will be received for the Auxiliary's work for disabled veterans and needy children of veterans.

The poppies which will be worn here have been made by disabled veterans at the Grand Rapids Veterans Hospital. The flowers are crepe paper replicas of the wild European poppy, which bloomed in such profusion "between the crosses, row on row" in the battle cemeteries in France and Belgium. This poppy was adopted by the American Legion and Auxiliary as the memorial flower for the World War I dead soon after the close of that war, and now has become the flower of memory for all of America's war dead of all wars.

Poppy making gives gainful employment to thousands of veterans unable to do other work. In addition to enabling them to contribute to the support of their families and to provide themselves with things desired, the work is considered valuable as occupational therapy. It gives them something interesting and useful to do during the long hospital hours, encouraging a mental attitude helpful toward recovery.

Contributions made by those who wear the poppies go almost entirely into the rehabilitation and child welfare funds of the American Legion Auxiliary, the only expenses of the program being the cost of the materials and the earnings of the disabled veterans who made the flowers.

Glenn Ludlow To Speak Here

Prof. H. Glenn Ludlow of the University of Michigan will speak to Pointers on a subject which is of much concern to our citizens "The Challenge of the Superior Child" at the War Memorial Center at 8:30 p.m. on May 21. Dr. Ludlow is a recognized national authority in this field where there is crying need for advance, but he also has a very practical background from which to approach this problem. He was a mathematics department head in an Indianapolis High School for many years before turning to university work. Serving with the Air Force during World War II he is still a major in the Psychological Research Division of the Air Force Reserve. On the University level he has taught in the field of Educational Psychology. He is married, with two children. The War Memorial Association hopes as many Grosse Pointe parents as possible will take advantage of this opportunity to learn how to use the unusual resources and abilities of their outstanding young people to the best possible advantage. There is no charge for this lecture.

By Kitty Marriott

Back in the Pointe after a prolonged visit to her native Australia and an around-the-world jaunt, Mrs. Edward Tutag was roundly greeted on Tuesday at a "welcome-home" luncheon.

The Henrys, who have just returned from a vacation at St. Thomas and Puerto Rico, are building a new home on Lake Shore road and hope to be Pointe residents before the year is out.

The guest list was composed almost entirely of recent travelers . . . Mrs. Robert Sucek, newly home from Europe; Mrs. A. Ingersoll Lewis, Jr., recently returned from Farmington Country Club at Charlottesville, Va. . . Mrs. Leslie Arnold, who had spent a month in Clearwater, Fla.

Mrs. Pierre Fuger, who was leaving last weekend for White Sulphur Springs, W. Va. . . Mrs. Frederick Fuger . . . and Miss Charlotte Day.

The hostess and her husband were themselves back from a week's stay at the Terrace-Plaza in Cincinnati, O., and Mrs. Mayer was still agog over having seen the 5-million-dollar art collection of the late Mrs. Charles Phelps Taft, which is shown by appointment only!

Eye-catching centerpiece for the luncheon and baby shower was a lovely wicker parasol (done up by Mrs. Sucek) with frilled cane handle and decorated with dark pink snapdragons, trailing ivy and pink ruching, which Mrs. Mayer hung from her chandelier. Blue candles set in crystal candelabra aided the party color theme.

Mary Ann Massnick Exchanges Vows in Ceremony in St. Clare of Montefalco Church on Saturday, May 12

When Mr. and Mrs. John H. Murray, Jr., return from a motor trip to the Smokies and Virginia Beach, they will make their home in Royal Oak. The bride is the former Mary Ann Massnick, daughter of Mr. and Mrs. Alfred W. Massnick of Bishop road.

The pair pledged their vows before a 10 o'clock nuptial high mass in St. Clare of Montefalco Church on Saturday, May 12. A family wedding breakfast at the Women's City Club followed the double ring rites.

A ballerina gown of white Italian silk was worn by the bride. Lace embroidery distinguished the bodice of the wedding gown, which had a fitted waist and very full skirt.

The bride wore the cap-shaped headpiece bound in satin which her sister, Nancy, had worn four years ago when she became Mrs. Julian Guidot. She carried a white orchid and stephanotis on her prayerbook.

Mrs. Guidot, her sister's honor matron and sole attendant, wore the frock which Mary Ann had worn as the honor maid at her wedding. Cut ballet length, the nylon net over yellow taffeta buttoned up the front to a Peter Pan collar. A band of blue and white daisies made up her headpiece and she carried a bouquet of the same flowers.

The bridegroom, son of Mr. and Mrs. John H. Murray, of Royal Oak, asked his father to be his best man. A. William Massnick, Jr., brother of the bride, and Charles Saunders ushered.

A navy and white dress and cape were Mrs. Massnick's choice for her daughter's wedding. She wore a white orchid corsage. Mrs. Murray wore a navy and white jacket ensemble

with corsage of pink carnations and tea roses.

For traveling, the new Mrs. Murray donned dress and jacket of navy polished cotton with white straw chapeau and navy accessories.

Republican Women Winding Up Drive

Governor Howard Pyle of Arizona to Be Speaker at Big Luncheon in Sheraton-Cadillac Next Monday

Twice elected governor of traditionally Democratic Arizona in 1950 and 1952, Howard Pyle was invited by Mrs. Charles A. Dean Jr. while in Washington, D.C. to address the wind-up luncheon of 1956 fund raising by Republican women of Wayne and Oakland County scheduled next Monday, May 21, at 12:30 at the Sheraton-Cadillac hotel.

Mr. Pyle, a relative of the late Ernie Pyle, is now President Eisenhower's deputy assistant in charge of liaison with the states and has held this post on the White House staff since February of 1955. Before he was elected Governor of Arizona he was program director for a large southwest radio system. Mrs. Dean will introduce him next Monday.

Grosse Pointers will attend the luncheon next week cognizant of the fact that Mrs. Dean, who is one of four women on the national Finance Committee and who heads both the state and county finances for women, started the idea of having women work on fund raising in the forties, now a national plan for the first time this year.

Mrs. Dean will congratulate two top appointees Monday for their work: Mrs. Harold O. Love, of Grosse Pointe, head of the campaign for Wayne County, who has increased the areas to 12 this year; and Mrs. Brooks Marshall, of Birmingham, who has done as well for Oakland County.

Joining hands with neighbors to the north, in planning the luncheon Mrs. Jewett Dwyer, of Grosse Pointe, who is in charge of arrangements, surrenders the top chairmanship to Mrs. Howard Liverance, of Birmingham.

Grosse Pointers always do their share of work, however, and Mrs. Phelps Newberry will

enlist many from this area to help her as chairman of hostesses with greeting and seating the hundreds of guests expected at this event.

The long-faithful original Steering Committee of Grosse Pointe has worked with Mrs. Love this year again. Mrs. William P. Bonbright, secretary, assisted by Mrs. W. Dean Robinson will do months of work at home on records long after the campaign ends.

Mrs. Harold E. Tyree, vice-chairman for Wayne County; Mrs. Alger Shelden, chairman for special gifts; Mrs. Yates Smith, chairman for the Grosse Pointe area this year; Mrs. William K. Muir, Mrs. Harley Higbie, Mrs. Seabourn Livingstone, Mrs. David Wallace and Mrs. Dwyer are planning to attend and will wear blue and white ribbons as "Committee."

Mrs. Smith's four divisional heads, Mrs. John Detwiler, Mrs. George O. Johnston, Mrs. William L. McGivern and Mrs. Robert P. Scherer will reminisce with innumerable captains and workers who plan to summarize their intensive drive for money to help finance radio time and other expenses of their party.

On July 30, 1956, the WAVES will observe their 14th anniversary.

Alpha Xi Delta Meeting May 21

The first meeting of the newly formed Grosse Pointe Alumnae Chapter of Alpha Xi Delta will be held in the home of Mrs. C. J. Williams, 1342 Grayton road, on Monday, May 21 at 8 p.m.

Mrs. Richard C. Johnston of Lansing, who is the officer in charge of alumnae groups, will be on hand to officiate at the installation. Other officers who have been invited are Mrs. Carlos E. Remy, and Mrs. Frank A. West.

Officers of the new chapter are Mrs. Maurice Strong, president; Mrs. James S. Vaughan, vice-president and Panhellenic delegate; Mrs. John Klock, recording secretary; Mrs. Arthur H. Erickson, corresponding secretary; Mrs. Marden M. Kingman, treasurer; Mrs. Leslie C. Putman, philanthropy chairman; and Mrs. Stanley A. Striffler, journal correspondent. Members of other committees will also be named at this meeting.

A historical and musical program will follow installation and business, which will be directed by Mrs. Cornelius Huysken. Five important years in the history of Alpha Xi Delta will be depicted in dress styles.

In a 1893 wedding gown of her mother's, Mrs. Striffler will denote the founding year of the sorority. Other years will be styled in a 1915 gym suit; a 1920 dress; a 1934 suit, and 1954 Bermuda shorts.

Models will include Mrs. W. J. Birdsall, Mrs. H. A. Camburn, Mrs. J. M. Brewer, Mrs. Robert R. Shannon, Mrs. Arthur T. Bersey, Mrs. L. M. Leisinger, Mrs. H. L. Torbett and Joan Scherer.

Approximately 1800 mothers attended the twenty-fifth Mothers' Club Bridge Tea Friday afternoon. The purpose of the annual tea was to raise money for the Mothers' Club Scholarship Fund. It was the largest turnout the Mothers' Club has ever had.

A total of 290 prizes including gift certificates, groceries, permanent waves and lamps were given away.

Mrs. Walter Bohn and her decorating committee transformed the auditorium-gymnasium and the cafeteria into a southern colonial garden. Mrs. William Browne, table prize chairman, further added to the garden scene by using pink geraniums as table prizes. The tea tables were covered with traditional blue cloths and centered with colonial arrangements.

Mrs. Albert Law general chairman for the party, stated, "The High-Y and Y-Teens did an exceptionally fine job of serving and assisting in every way possible."

Other chairmen assisting were Mrs. Walter Pattee, Mrs. William Gibson, Mrs. Reeves Gibson, Mrs. Mitchell Andrews, Mrs. Gordon Cook and Mrs. Charles Beltz.

The entire profit from the tea will go into the Mothers' Club Scholarship Fund. The scholarships are based on the seniors' financial means, scholastic ability, and their character. In the past six scholarships have been awarded.

Any senior who has not yet applied for a scholarship should see Mrs. Ruth Flom, dean of girls, this week.

Pointe Yacht Club Stages Gay Events

Bridge Luncheon and Fashion Show and Mother-Daughter Gathering Each Attract Some 300 Members and Guests

It's been a real swirl of feminine pulchritude at Grosse Pointe Yacht Club lately, what with the big bridge luncheon and fashion show Tuesday and the annual Mothers and Daughters Luncheon last Saturday.

There were some 300 at each, and each was a beautiful event. The main difference, perhaps, was that Tuesday's party-goers were an adult crowd intent on stunning summer fashions presented by Margaret Rice, and card playing, while the mother-daughter fete was for every age and strictly for fun.

The bridge-lunch-style parade was held in a garden setting in the ballroom-lounge, with flowering plants bordering the ramp where the pretty models displayed the newest costume creations.

To name a few of those present, Mrs. Christopher Smith entertained Mrs. Anger Armstrong, Mrs. Neal Nyland and Mrs. A. V. Owens, and Mrs. Louis A. Sigismund's party included Mrs. Willard Crain, Mrs. Edward Beauman, Mrs. Alfred Munderloh, Mrs. F. R. Solmes, Mrs. John Shackelford, Mrs. Edward Freimuth and Mrs. Robert Sealby.

With Mrs. Ernest C. Putnam were Mrs. Karl Lysinger, Mrs. Walter Stewart, Mrs. William Allen, Mrs. Alphonse DePaape, Mrs. Eugene Secord, Mrs. William F. B. Henderson, Mrs. William De Beake, Mrs. Reginald McKiel, Mrs. Walter Schmitt, Mrs. Carl Reichelt, Mrs. H. S. Rounds, and Mrs. Richard McMahon of Jackson.

In another group were Mrs. Howard N. Girardin, Mrs. Daniel Carne, Mrs. Walter Mast, Mrs. Maurice Roberts, Mrs. James Garza, Mrs. William Quinlan and Mrs. Walter R. McAdow.

Now to the mother-daughter luncheon—scheduled as it was the day before Mother's Day, it was tinged with sentiment despite the funny clowns, the marionette show, Art Quatro's jolly music, and all the gently-swaying pink and white balloons high overhead.

Little girls' eyes were big as stars when Meredith Bixby's marionette playlet "The Golden Fish," unfolded its story, and grandmothers seemed equally enthralled.

Mrs. Paul I. Moreland, chairman, gave the address of welcome; Mrs. Stark Hickey and Mrs. Charles L. Jacobson, the vice commodore's wives, respectively, were honored guests; Eleanor and Carolyn Jacobson, Sharon Barker and Barbara Gauss happily distributed beach bag souvenirs.

Mrs. Charles W. Gauss II, co-chairman of the party, brought Barbara's grandmother, Mrs. Frank Edmison and Mrs. Calvin J. Gauss, and great-grandmother, Mrs. Charles Petton.

In three-generation groups were Mrs. Edward J. Schoenherr, Judy and Mrs. E. B. Schoenherr; Mrs. Joseph L. Whelan, Jennifer and Mrs. William J. Rewoldt; Mrs. Wayne E. Long, Diane, the twins Linda and Lisette and Mrs. James Clinton of Chicago (Mrs. William E. Besancon with them); Mrs. Fred A. Hood, Jr. with Susan and Martha, and their grandmothers, Mrs. George Gaesser and Mrs. Fred A. Hood, Sr.; their grand aunt, Mrs. Caroline Hurley of Derby, N.Y.,

Chalk one up for the four Yates offspring, who negotiated a surprise anniversary party for their parents, Mr. and Mrs. Frank Yates of Harvard road, entirely on their own. Bill, 18; Gordon, 14; Ann, 13, and Johnny, 9, kept all the plans secret for the recent party at which they marked their parents' 21st anniversary.

They invited about 16 of the senior Yates' close friends by telephone, capably handled the refreshment and entertainment arrangements and then had a neighbor invite Mr. and Mrs. Yates over for cocktails so that the guests could arrive unnoticed.

Ed Langs Wins Tour to Japan

A two-month tour in the Pacific has been awarded to Grosse Pointe High School student Ed Langs.

Langs first learned of the trip through the Explorers' Advisory Council, of which he is a member. The Explorers are the sea division of the Boy Scouts.

Applications for the tour included essays, letters of recommendation and personal interviews. When the results of all the applicants had been considered, Langs was awarded the berth.

From early July until late August, Ed and 41 other Explorers from the United States will tour the Pacific. The boys will spend one week visiting Japanese homes. Another will be spent attending the Japanese National Jamboree, and a third will be devoted to a tour of the Japanese islands.

The purpose of the trip is to promote international understanding. The boys will sail to Japan on the Navy ship "Breckenridge" and return on the "Gaffery."

Eliot Janeway To Give Talk

Eliot Janeway, consulting economist, defense mobilization expert and business trends consultant to Newsweek will speak to Grosse Pointers on "How the World Boom Will Boom" at the Grosse Pointe War Memorial Center at 8:30 p.m. on May 23.

He regularly lectures on defense economics at the Industrial College of the Armed Forces and at the Woodrow Wilson School of Public Affairs at Princeton University.

In addition to being an excellent speaker, Mr. Janeway is recognized as an eminent authority in economics. He is consultant to a long list of corporations and trade associations on problems of political economy, business and national trends, production and merchandising.

Mr. Janeway is a self-styled fugitive from generally accepted methods of forecasting business trends. He believes in a "defense cycle" theory of business trends as opposed to the old hat "business cycle" and predicts a continued high rate of business throughout 1956.

He has been uncannily right in predicting steel shortages a year ahead, the rise and hold of copper prices and the record breaking peaks of steel scrap prices.

There is no charge for this lecture—only 200 can be accommodated.

Crash Causes Injury to Two

An automobile accident on St. Clair avenue in front of the Board of Education building on May 9, resulted in injury to two persons and severe damage to the cars involved.

Mary Virginia Thompson of 346 Merriweather, drove her Ford off of Jefferson and proceeded down St. Clair. As she passed the Board of Education building she momentarily took her eyes from the road and plowed into the rear of a parked Chevrolet, owned by Edwin Wendt of 1145 Hampton road.

Mary Thompson and her passenger, Margie Griffith, were treated at Bon Secours Hospital for scalp lacerations. Both cars had to be towed to a service station.

The driver was ticketed for not having her car under control and causing an accident.

Close your eyes to your faults if you wish—but don't expect the neighbors to do likewise.

Vandals Work On Parked Car

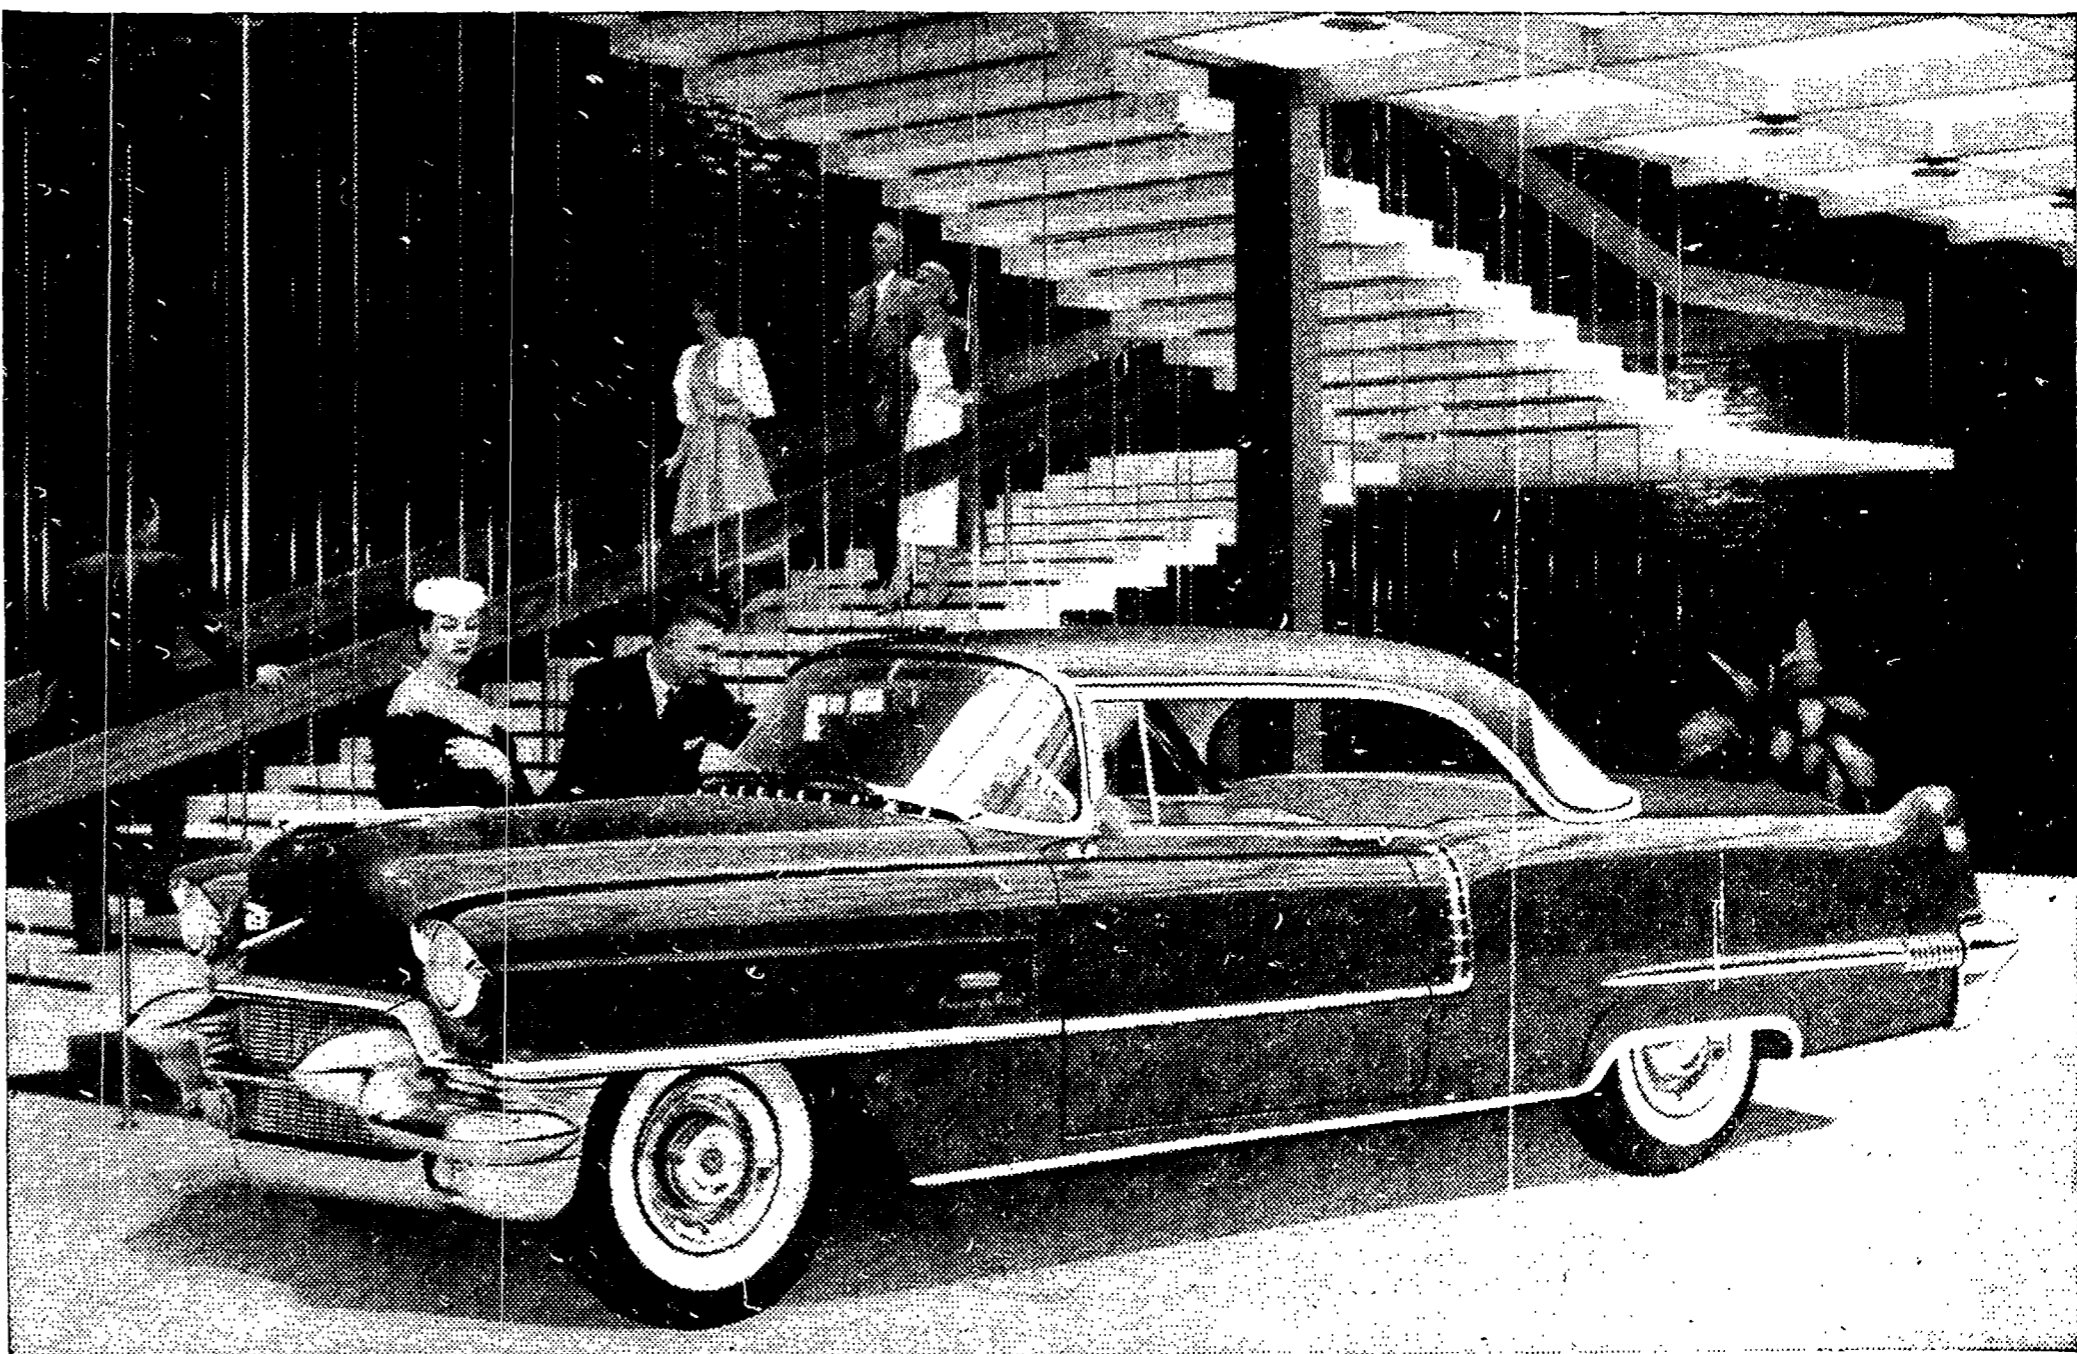

Sometime during the evening of Thursday, May 10, vandals made an unusual attack on a 1955 Buick owned by Mrs. Harold J. Wilber of 653 Lincoln road.

While the car was parked in front of the Wilber home the "pranksters" bent the radio aerial, twisted the vent windows, and filled the inside of the auto with fresh grass

Grosse Exaggerations

"To dress, to call, to dine, to break No canon of the social code, The little laws that lacqueys make, The futile decalogue of Mode... How many a soul for these things lives, With pious passion, grave intent! While nature careless-handed gives The things that are more excellent."

(Sir William Watson)

In case you missed it in the fine print of one of the dailies, a few weeks ago a movie theatre was "stuck up" by a gunman who went up to the box office late in the evening and said, at gun point: "Give me all the money you have back there. The picture was so lousy tonight, I want EVERYBODY'S money back!"

As you all must know... the perfect eyesight is labeled "twenty-twenty" by Optometrists... but the man in our life decided there ought to be a word for the eyesight of "wolves"... not the four legged kind. He decided that their vision should be called "sixty-sixty"... when it's perfect, that is!

Local doctors please take note: In California a new drug seems to have appeared on the market called (we think) "Millwright" or a reasonable facsimile thereof. This here new drug is supposed to relax nervous characters and put them at their ease during difficult situations. We understand it can be bought in drugstores without benefit of prescription. A good thing for the tired business man to latch onto before the big directors' meeting the morning after the night before!

One movie director on the coast, who was to have a story session in which the temperamental star was to be included... called the star to ask him if he was SURELY going to be present and what time? The actor replied that of course he would be there and at the designated time... and WHY was the director pinning him down? The latter replied: "It takes my pill a half hour to take affect and I wanted to be sure what time I take it before you arrive."

Before we leave California... read recently that they are in the process of tearing down that old landmark... the "Hollywood Hotel." A lot of big timers used to stay there in the olden days, including Rudolph Valentino. Before the hotel was razed (meaning torn apart!)... a lot of the furnishings were auctioned off. On the big day, several women came to bid on the three numbers that were on Valentino's door when he lived there! (How FEMALE can you GET????) The numbers... say 386... were to be sold in one lot... but the women made such a fuss about it that they finally sold one number to each of three gals who bid fifty dollars apiece for them!

We love the true story about the guy who had his driver's license taken away for a year for drunk driving. After about two weeks, he called his probation officer and asked him if it was okay if he flew his own private plane!

Someone sent us a newspaper which carries under the heading "strictly personal" (a paper whose circulation is about a half a million... how personal can you GET?) has among other items, the following: "Slender, vital, youthful divorcee, forties, would like to meet intelligent, companionable, thoughtful man, forty five-fifty five, you should like books, outdoor life, home life and, of course, me. Character is most important, but I won't object if you're reasonable, tall and attractive. Life can be wonderful when shared with the right person, but will never know unless you write. Please do. Box J55." NOW THEN... here is something for the Grosse Pointe News to look into. Anybody want a reasonable companion? Just let us know.

As our readers know... radio and t-v fluffs are a pastime with Aunty Pryor and we collect them like mad. Not until the other day, however, did we learn of a honey made by a local announcer who was promptly fired after having just been hired a few weeks before from out of town. It happened the day King Edward abdicated... and all such broke loose all over the world. The announcer in question, broke into a program to advise his listeners thusly... and in dramatic tones: "Ladies and gentlemen... the King of England has AB-DICTED."

Two business men were driving through a cemetery on their way home from a funeral, when they spied a magnificent mausoleum. One asked the other if he knew who it belonged to. The first man replied: "SURE... that was built by Figgitt McThing. He paid a hundred thousand dollars for it!"

The other one gaped at it in awe for a few moments, then breathed: "Man... that's livin'!"

Another out-of-town newspaper in the mail bag, carries an ad which should curl the hair of the conservative doctors in OUR locale. This quarter page ad says, among other things, in LARGE black type: "Dr. Soandso will give a trial treatment for three dollars... a pleasant experience you may never forget... for diabetes, gall bladder, bad liver, kidney, insomnia, nerves, heart trouble, blood pressure, stomach gas and so forth." Ho hum.

What Goes On at Your Library

By Jean Taylor

We are among the many proud Michiganders who are not native to this state, but do their share of boasting about the community they have chosen to make their home.

On every side these days, from posters, magazines, newspapers and store windows, there's a perky little robin to herald Michigan Week, May 20 through 26. You are bound to have seen him and we're sure you agree with his lusty song "It's great to live in Michigan!"

There is much beauty and historic interest in every part of Michigan, but the Gods smiled especially on the land that borders Lake St. Clair. If you would know something of Grosse Pointe's origin, traditions and legends, reserve time when you make your next visit to the Central Library to look over the books, maps and pictures now on exhibit. This was prepared as one of a series of suburban historical displays arranged for the historical museum and sponsored by Dr. Alfred H. Whitaker, Hawkins Ferry and Robert M. Orr, Director of the Grosse Pointe Public Library.

The items on display are loaned by John Lake, Norbert Neff, Mrs. Frederick C. Ford, Mrs. Charles H. Metcalf, the Burton Historical Collection, the City of Grosse Pointe Farms, the City of Grosse Pointe Park, the Grosse Pointe Public Schools, the Grosse Pointe University School, the Grosse Pointe Historical Society and the Grosse Pointe Public Library.

One particularly interesting item is a map done by Patrick McNiff of the old French farms facing on Lake St. Clair, in 1796. The frontages appear to average between 400 and 900 feet with an average depth of one and one-half miles. An assessment roll, Village of Grosse Pointe, lists all property owners and the location of their property in 1896. Many of the names which appear on the McNiff map, appear again 100 years later in this book. The total taxes collected were \$50.00. Some property was taxed as low as 2 cents for half acre. Those were the days!

A picture of Grant's castle by David Hamilton is based on contemporary descriptions. Commanded Alexander Grant commanded the British Government vessels on the lakes before the surrender of the country in 1796. He built what was known as Grant's Castle in Grosse Pointe, the present site of the Henry and Delbos estates. It was a place noted for the courtesy of

its host and his open, generous hospitality. Tecumseh and his warriors are said to have been frequent guests here. A map showing the early boundary lines of Grosse Pointe is enlightening. Did you know that until 1907, from Maryland to Water Works Park and north to beyond Charlevoix was part of Grosse Pointe Township?

In 1879 the area from Girl Lane to Fisher road, Grosse Pointe Farms, and Grosse Pointe from Fisher road to Cadieux was incorporated as the Village of Grosse Pointe. In 1893, the village was divided and Grosse Pointe Farms was organized.

There are pictures of some of the early summer residents in Grosse Pointe, and the photograph of a home at the corner of Three Mile Drive and Jefferson. This is thought to be the oldest house in Grosse Pointe today. It was built by one of the Guoin family about 1800. Progress in our public and private schools and public libraries is illustrated with early photographs and pictures of today's modern buildings.

The exhibit will bring nostalgic memories to many. We hope you enjoy it.

'Pay As You Go' For Health

By Fred Kopp, R. Ph. As medical science increases its knowledge of diseases and their effects on the body, tests and instruments to detect disease are developed. Medical care of this type must be given in a hospital usually, where these instruments are utilized every hour of the day to benefit the most people.

At one time or another one or all members of your family may require such attention. Then the cost will be easier to stand if you have enrolled in a hospital or surgical group plan where the protection is provided by monthly contributions.

Ask your doctor about medical group plans. This is the 596th of a series of Editorial Advertising appearing in this paper each week.

HEAR THINGS? Worrysome head noises can be brought on by lots of things. Drop That Fat In Home Garden

LANSING.—If you're worried about keeping your weight down, plan to plant yourself a home vegetable garden. The Michigan Department of Health today said that besides producing fresher foods and nutritious ones, "The planting and pulling may be just what you need to trim off excess fat built up over winter months."

"But it may not be wise to begin at a frantic pace," cautioned Mrs. Alice Smith, head of the department's nutrition section. If you haven't had much exercise all winter, the health department specialist recommends: "a warm-up period—perhaps just turning over a few shovels of ground a day until you get used to it again."

If you are planting a small garden, and want to get the most value per pound and production per square foot, the health department said these vegetables should be on your priority list: beans, beets, broccoli, cabbage, carrots, Swiss chard, onions, spinach, peppers, squash and tomatoes.

"A wisely planned home garden," Mrs. Smith said, "is one of the best places to get the vitamins and minerals your family needs for health, vigor and growth. The leafy green and yellow vegetables are rich in Vitamin A, and tomatoes are rich in Vitamin C. Just being out in the sunshine also gives your body a chance to create Vitamin D."

"Even if you have only a small plot of ground," she urged, "take the time to make a garden. Few things you do will give you so much for so little."

MSU GIVES 2,084 DEGREES An estimated 2,084 Michigan State University students will receive degrees at spring term commencement on Sunday, June 10. Undergraduate degrees account for 1,733 of the total, with 351 advanced degrees to be granted.

Jr. Red Cross Work Praised

The April issue of the Junior Red Cross publication, "The Shield," quotes the following proclamation written by Principal Frank Welchenbech of Trombly School:

"Citizenship, character, and human values—acceptance of others, friendliness, helpfulness, acceptance of responsibilities, willingness to volunteer services, to do one's bit, concern for others, mutual cooperation—cannot be taught by lecturing children or by focusing attention at stated periods on desirable traits. Children grow in attitudes and competencies in a setting that gives them opportunity to live by the values in which we believe—to learn through actual practice and experience behavior that is in accord with the values we want to maintain. In our day-to-day school living we consciously provide many opportunities for learning through practice and example. American Junior Red Cross Enrollment Week offers

further opportunities for pupils to extend understandings and attitudes in participating in a worthy common cause."

The first director of the WAVES was Captain Mildred McAfee Horton, former president of Wellesley College.

Mount Holyoke College Plans Drive in Fall

South Hadley, Mass., May 17 A "New Approach" to alumnae giving at Mount Holyoke College will be undertaken next fall when each of the approximately 13,500 alumnae in the United States will be visited personally by an alumna solicitor. The alumnae fund committee, which initiated the personal visit plan, hopes to achieve a goal of \$250,000.

Mount Holyoke was first among women's colleges in percentage of alumnae givers last year, with 67 percent contributing. A record total of over \$100,000 was raised.

Under the personal visit plan the country is divided into 180 "communities," each supervised by an alumna chairman appointed by Miss Gertrude V. Bruyn, director of the college development program. Each local chairman will select her own vice-chairman, who will succeed her the following year, and a committee of solicitors. A similar plan has been notably successful at Princeton University.

Local committees are now being organized for the intensive five-week campaign which will begin early in October. Mrs. Jack S. Guyton of 402 University place, Grosse Pointe, is chairman of the Detroit "community," in which there are 154 alumnae.

Mr. Truck Buyer!
Why turn your back on the facts?

Your best buy is DODGE...and we can prove it!

Buying a new truck is pretty serious business—not exactly a dime-store affair. So why risk not getting the best buy?

Doesn't it make sense to take a few minutes and check to see for yourself just how much more Dodge actually gives you per dollar?

You'll find Dodge leads other makes in the really important ways. For example, when you buy a Dodge, you get:

1. Maximum hauling power. Dodge sets the pace for the entire industry in many models!
2. Top payload capacities—up to 22% more!
3. Lowest operating costs. Exclusive V-8 Power-Dome combustion milks extra miles from every gallon, practically eliminates power-robbing carbon.
4. Sharpest turning—makes parking easier, cuts time loss in maneuvering through traffic.
5. Biggest cab—for real comfort on even the longest hauls.
6. Low cost—lower than any other make for many models.

Do right by yourself—take a few minutes to look into DODGE before you buy your new truck. After all, why pay more and get less?

Scouts to Hold Big Exposition

The 1956 Scouting Exposition, scheduled for May 17, 18 and 19, at the Michigan State Fair Grounds, described as the "Greatest Show of its kind in the World," will actively involve over 25,000 boys in the 318 indoor booths, plus additional exhibits set up in the out-doors.

The Exposition is being presented to give members of the Detroit Area Council (more than 74,000 boys and leaders) opportunity to show their families and friends and other people of this area the many skills which Scouting offers.

Cub Scouts, Boy Scouts and Explorers, representing the more than 40 municipalities which make up the local Scout Council's chartered service territory, have reserved booth space to show these varied skills. The exhibits cover many of the arts and crafts, recreational and educational activities which Scouting uses to develop better citizenship and character-building ideals.

The Detroit Area Council, Boy Scouts of America, is the largest youth serving agency in the Metropolitan Detroit area made possible by contributions to United Foundation's Torch Drive, by sustaining memberships, and other sources.

The Boy Scout Movement (starting in England in 1907) was organized in the United States in 1910. Scouting in America now includes over 4,100,000 boys and leaders. Since 1910, over 24,500,000 American boys and men have been registered in the Boy Scouts of America.

Scouting starts with Cub Scouts at 8. At 11, the boys become full-fledged Boy Scouts and at 14, automatically become Explorers—with emphasis on vocations; guidance opportunities, advanced Scouting skills and service to the Community.

The Exposition will cover the advancement program in Scout Troop and Explorer Unit including over 100 merit badge subjects. Cubs, also, have their advancement program of home-centered skills, achievements, hobbies and crafts, and all of these also will be on display.

All of the 10 districts of the local Council's area will be represented. In one district alone, the exhibits will cover such widely diverse activities as coin collecting, aviation, gardening, leathercraft, canoeing, gun safety, history of the flag, automobiling, and 30 other subjects. Animal life includes sev-

eral collections of pets, also riding horses and pack burros from the D-Bar-A Ranch. Scouting's 1,400 acre camp at Metamora, Michigan. Participation of two of Windsor's finest Scouting groups will add a genuine international flavor to the affair.

Tickets for the Exposition, at 50 cents each, are now on sale throughout the Council area. Every boy who sells ten or more tickets receives a handsomely colored "Tommy-Hawk" (Exposition Mascot) neckerchief slide. Commissions paid on tickets will enable many Scouting groups to replenish their operating treasuries. The top boy salesman in each of the 10 districts is assured of a week-end trip, all expenses paid, to Chicago.

John J. Cronin, Vice-President of General Motors Corp., as General Exposition Chairman, heads a group of prominent business and professional men and industrialists who are directing the huge affair. Other prominent citizens serving as Exposition Vice-Chairmen are: Simon D. DenUyl, President, Bohn Aluminum & Brass Co.; Harry J. Loynd, President, Parke, Davis & Co.; John P. Mansfield, President, Plymouth Division of Chrysler Corp.; Richard Kraive, General Manager, Special Products Division of Ford Motor Company; Finlay C. Allan, Executive Secretary, Detroit Building Trades Council (A. F. L.); and M. L. (Mike) Novak, President, Wayne County C.I.O. Council.

MONTEITH SCHOOL
Everyone knows that "a cat has ears," but when the message is tapped out in Morse code on a telegraph key, it is not too obvious to the receiver, especially if he is a sixth grader. Members of Mrs. Laura Gregory's sixth grade class at Montetheith have sent and received that message, and much more. It's all part of their study of a science unit on electricity.

To learn some of its common uses, the class has looked into electro-magnets, doorbells and buzzers, and of course, the telegraph key. One boy demonstrated just how an electrical apparatus works. A girl made an electric lamp from a bottle and the necessary parts. Several others are making their own lamps as a consequence.

Three school administrators from Detroit looked in on the class. They had been visiting the building and were attracted to Mrs. Gregory's class by the stimulating activity. They mentioned the high interest of the children.

"Yes, it's creative work," says Mrs. Gregory, "and from a single idea, many others are gotten. The learning which is taking place actually began long before and will continue long after the unit is completed," she concludes. "The girls? Why, they are every bit as excited about lamps and buzzers as the boys!"

Spring is here again—and a lot of blank verse will spring from the average amateur poet.

Milliners Model Own Originals At Annual Tea

The Wednesday and Thursday millinery class of the Grosse Pointe Adult Education program held its annual tea in the GPHS annex at which time the ladies proudly wore their own originals they made during class periods. MRS. JENNY CARRADETH, seated at right end of table,

was the instructor. The millinery class is just one of the many classes in the very popular adult education program sponsored by the Grosse Pointe Board of Education and headed by Forrest Geary.

Elementary School News

KERBY SCHOOL

It is no accident that Miss Betty Frounfelter's sixth graders at Kerby School know a lot about the history of pharmacy. The class has spent class time and after-school time looking through books, peering into test tubes, and performing simple scientific experiments—as other classes do. But that's not all; they have had on display in their homeroom a dramatic series of paintings portraying the history of this fascinating field.

The reproductions were obtained by Miss Frounfelter through a Kerby parent from a nationally known pharmaceutical company. The teacher was also invited to view the original paintings at a special Detroit showing.

Besides the display of paintings, the children have viewed educational film strips and movies on such themes as health and heroes of medicine. They have also been preparing written articles and oral reports on their findings.

The teacher notes unusually high student interest in the unit, and small wonder. Their comments indicate the excitement of discovery. Overheard: Richard Huvaere exclaiming, "Gee! the Indians gave our pioneers herbs to make them well." Michelle Baucher—"You mean our first bandages were skins of animals?"

Miss Frounfelter feels that the unit on pharmacy enables the students to see the relationship of pharmacy and medicine to community health. It gives them an opportunity to learn the story of man's struggle against disease and injury. Finally it shows them the scientific basis of this vital service.

MAIRE SCHOOL

On Wednesday, May 16, at 2:45 the annual kindergarten roundup will be held at Maire School. The purpose of this meeting is to provide parents, whose children will be entering kindergarten in September, with certain information which will be helpful in starting their child in school.

At this time, the parents will have an opportunity to meet Mrs. Doris Appel, visiting teacher; Mrs. Jane Rupp, speech correctionist; Mrs. Helen Pankow, school nurse; Mr. H. L. Hobart, principal, and the two kindergarten teachers, Mrs. Virginia Merrill and Mrs. Marys Craig. These members of the Maire staff will explain their duties and services.

BARNES SCHOOL

An Indian legend from British Columbia has come alive for Miss Janet Sullivan's fifth grade class of Barnes School. After learning something of the uses of masks by primitive people, they viewed a color film in which authentic, carved wooden masks were worn by the players. The picture portrayed the legend of how the loon got its white neckband.

The fifth graders became so interested in the Indian legend and the masks that they were soon creating paper mache masks of their own. Mrs. Gladys Gies, Art Counselor, was invited to share the experience. She demonstrated mask making and assisted Miss Sullivan in completing the project.

RICHARD SCHOOL

The commemoration of Arbor Day has been an annual event at the Richard School for many years. Trees, shrubs and flowers are planted to make the school grounds attractive and appealing to everyone. Besides, we want the pupils to become acquainted with the different kinds of plants we have for landscaping purposes.

On May 3 all of the children participated in the planting of several pieces. Among them were maple, birch, oak, ginkgo, sycamore, flowering crab, honeysuckle and beauty bush. The grade chairmen, Miss Bockes, Miss Koby and Miss Goodwyn were in charge. Assisting were Mrs. Birch, our music teacher and Mr. Power, our head engineer.

The children of the kindergarten, grades one and two presented a program of their own consisting of songs, readings and finally the planting of a paper birch. Mrs. Arends' kindergarten youngsters sang "Springtime is Coming," "Spring is Here" and "I Know Why." Susan Jenks, Douglas Pratt, Robert Stanny and Kathy Munro of Mrs. Darvill's and Miss Snell's second grades read the poem "Trees." The boys and girls of Mrs. Seeger's second

grade sang "It's Spring" and "Fun in Our Garden." The three first grade sections of Miss Goodwyn, Miss Edwards and Mrs. Petree sang "Food Gardening." All of the children joined in singing "America, the Beautiful."

A child from each group was asked to put one shovel full of

dirt around the attractive little birch. They were: Byron Stuck, Sandy McDonald, Ann Heglin, David Busch, John Peterson, Danny Wood and Robert Langbauer.

The third and fourth grades had as pupil chairman, Janet Burkert for their Arbor Day event. One of Mrs. Birch's in-

strumental groups accompanied them when they all sang "America, the Beautiful." The story "Trees" was recited by Nicky Kelley, Bruce Fox and Kathie Wicks of Miss Tomb's room. Miss Koby's class sang "A Slight Mistake" and "Team Work." Mrs. Wanderer's class sang "Arbor Day" and two pupils of the group, Nancy Cary and John Clarke recited poems. The boys and girls of Miss Nault's group sang "Spring Garden." A group, Judy Fink, Charmaine Stock, Ann Noecker, George Haisten, Tom Klein-schmidt, Ed. Wunsch, Chris Curran, Barton Stuck and Elaine Dooley, gave a recitation.

Claire Merteel, Jimmy Blackburn, Cecily Smith and Judy Tait from Mrs. Dombrowski's room recited "Word Pictures." Steve Gillis of Mr. Hoover's class recited "The Flowers" and the class sang "Who Do We Plant?"

The following people helped with the planting of a silver maple: Cathy Palmer, Dewey Conrad, Roger Bohm, Sue Thumm, Claire Berteel.

The fifth and sixth grade program was chaired by Dave Robinson. All of the pupils sang "America to the accompaniment of an instrumental group of whom the following were members: Sylvia Georgeades, Dor-

othy Gillis, Pat Gilliland, Peggy Stewart, Richard Thoma, Coleman Gittens, George Lewis, Bob Choje, David Hughes, Bob Allen. Dave Robinson gave an Arbor Day report.

Bill Hope recited "April Rain," Trudy Miller, "Little Brown Brother," Sherry Bock-santz, "Goodbye to Winter," Sally McCullough, "The Old Tree," and Linda Skinner. "The Proud Oak." Four pupils, Fay Wilber, Carol Belter, Merry McFarland and Pam Petri sang "Slight Mistake" and "Arbor Day." Four others, Bob Choje, Rusty Davis, John Mozena and David Hughes, sang "Smokey, the Bear." Virginia Smith, Shirley Stoetzer and Richard Allison gave reports on "Arbor Day at the Richard School."

All of the fifth and sixth graders sang "What do we Plant." This group planted a pin oak on the south grounds near Kercheval assisted by the following: Jim Merry, George Lewis, Virginia Gossen, Steve Kolhe and Arnold Thomas.

They all joined in reciting the national conservation pledge which reads as follows: "I give my pledge as an American to save and faithfully to defend from waste the natural resources of my country—its soil and minerals, its forests, waters, and wildlife."

5 GPHS Swimmers Make All-American Tank Team

A new page was added to Grosse Pointe High's history book this week when for the first time five Blue Devil swimmers were named to the All American High School swimming team. Backstroker Les Cutler and the Pointers speed relay team of Carl Anderson, Harry Huffaker, Dan Goodnow and Bill Wachter gained this elusive honor. They were selected by the National Interscholastic Coaches Association which is made up of a cross section of coaches across the nation. It is this group that scrutinizes all of the best times made by schoolboys in the country. Most of these times are taken from State meets, although times made during dual meets are also considered. The boys with the 20 best times in each of the recognized events are named to the team. Cutler placed ninth in the backstroke event and the speed relay had the tenth best time in the nation. These boys will receive an All American emblem and a certificate as an award for their efforts. During the past decade a total of eight boys have gained All American distinction. The other three were Bob Jenks, currently starring for Wayne University, Jerry Ney who went on to star for the U. S. Naval Academy, and Robin Hesse. All eight boys have been quick to sing the praise of their coach, Frank Banach, and give him most of the credit for their success. If All American honors could be given a coach, Banach's boys feel the Blue Devil mentor should be first in line. His record over the years is an enviable one. He has been the only swimming coach Grosse Pointe High has known and has directed the Blue Devils' fortunes for the past 26 years. In Border Cities League competition he has no peer. Only twice in his 26-year coaching career has he had teams that had losing seasons. Never has a Banach coached team had a losing season in BCL competition. Under Banach the Blue Devils put together an all-time BCL consecutive dual meet winning streak that spanned 32 meets. Besides doing a tremendous job in the pool Coach Banach is also athletic director at the school on Fisher road.

Boat Banter

By Fred Rummels

(Continued from Page 24) our face brought a quick explanation that "Tzigane" is Hungarian for Gypsy.

Yachtsmen, have you ever been caught on the water in a

pea soup fog? Sure you have, at one time or another. Remember that old battered fish horn with the rough, wooden mouthpiece on which you had to blow your lungs out to indicate your position to other boats?

Need Coin Toss To Pick Winner

A flip of a coin was necessary to decide the winner of the Detroit Yacht Clubs' second annual Intercollegiate Invitational sailing series held on the Detroit River last Saturday Sunday, May 12-13.

At the conclusion of the race round robin series University of Michigan sailors Bruce Goldsmith and Don Delinido and Notre Dame representatives Ron Meissner and Ray Nelson were tied with 56 points. Michigan won the toss and for the second weekend in succession carried off top honors in Intercollegiate events held on the Detroit River. The previous weekend U of M won the Michigan Intercollegiate Elimination series held at Bayview Yacht Club.

Well, throw that battered old horn overboard. A new compact horn is on the market and is available at the bigger marine stores in town. No bigger than a beer can, this new horn is operated on freon gas and will give 300 two-second blasts before the supply is exhausted. A quick twist of the wrist dislodges the horn from the can and a new supply can be attached within seconds.

We tested this gadget last week and found it to be loud enough to be heard by the freighters on the Detroit River. As a matter of fact one freighter captain answered our test blast.

It's a good gimmick for any yacht from the smallest to the largest and eliminates expensive electrical wiring or searching for that old unsanitary fish horn that usually is in the bilge when you want it.
