## HEADLINES of the WEEK

As Compiled by the Grosse Pointe News

**Thursday, October 31**  
SIX PERSONS in the Detroit area clutched winning Irish Sweepstakes tickets Wednesday and made plans for the future. Some of the plans were big. Three of the winners have \$140,000 coming to them, and total winnings for the lucky six were \$500,000.

**THE GREAT SYRIAN-TURKISH "war scare"** of the current United Nations General Assembly session began to fizzle Wednesday with the introduction of two resolutions. A seven-power resolution, favored by the West, suggested that UN Secretary General Dag Hammarskjöld be dispatched to the Middle East to discuss the "crisis" with both parties. It was also suggested that King Saud of Saudi Arabia continue his mediation efforts. Syria proposed the second resolution. This provided that a UN fact-finding commission travel to the Syrian-Turkish frontier.

**PRESIDENT EISENHOWER** said Wednesday that in the interests of bettering free world security he will attend the NATO council meeting in Paris in mid-December. He told a news conference he will first hold his annual session with Congressional leaders of both parties. Mr. Eisenhower attached one stipulation to attending the council meeting of the 15 member nations of NATO. He said that "assuming the majority of the heads of government accept, I intend to accept." It is expected that the other member nations will be on hand for the important convention.

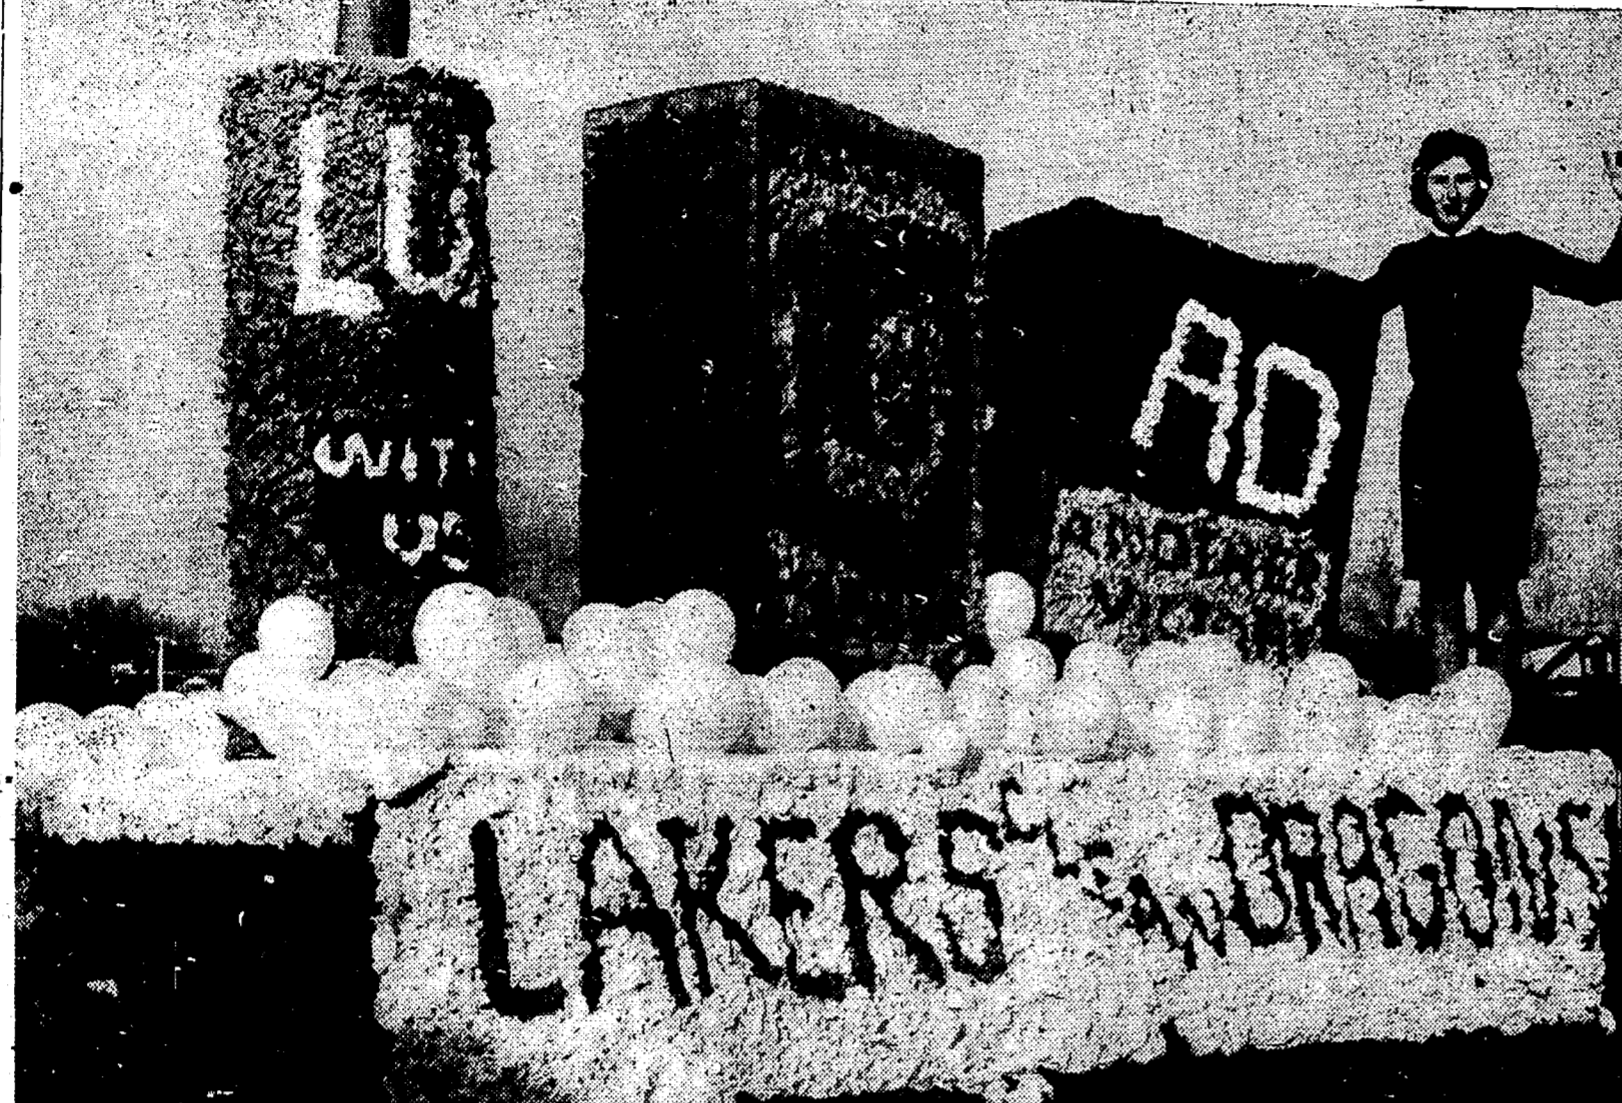

**Friday, November 1**  
THE EXECUTIVE BOARD of the Teamsters Union Thursday decided unanimously against doing anything about corruption charges against its leaders—a course practically guaranteeing AFL-CIO expulsion. Dave Beck, Teamsters president, returned himself emmeshed in the charges, said the board voted to appeal an AFL-CIO suspension order and will seek to fight expulsion at the federation's convention December 5 in Atlantic City. Beck said the Teamsters are ready to stand alone, if that's what the parent organization wants. Indeed, says he, the Teamsters might be better off outside the AFL-CIO.

**GOVERNOR WILLIAM'S** cousin George, vice-president of the Mennen Company, denied today that the firm had engaged in union-busting or was involved in a payoff to a Johnny Dio local. The Mennen Co. pursued an anti-union policy by keeping records to show the union leanings of its workers and leaders of Local 102 (UAW-AFL) tried to extort \$15,000 from the firm, it was charged in Washington Thursday. Mennen denied the charges before the Senate committee investigating labor racketeering.

**CITY-WIDE PRECAUTIONS** against Halloween vandalism were planned by police on the heels of a wave of hoodlumism that centered in Detroit's Northwest section last night. Hundreds of windows were smashed by rocks and other missiles. Tires were slashed and automobile aerials wrenched off. At Northwest and Schaefer precincts 150 to 200 calls were received reporting malicious destruction of property. In addition to police precautions, warnings were given to young children out begging on the streets to be chaperoned and take due caution.

**Saturday, November 2**  
THE WORLD'S LONGEST and most costly suspension bridge opened yesterday, its steel and concrete biding the two peninsulas of Michigan. The towering five-mile long bridge, born of a \$99,800,000 bond issue in February, 1954, began the long road to liquidation. (Continued on Page 11)

## St. Paul Juniors Clean Up with Soap Float

The Junior class at St. Paul High school cleaned up in the Homecoming float competition with this ingenious display which featured three well known soaps, Lux, Tide and Ad. The slogans read from left to right, Lux with us; Lakers turn Tide on Dragons and Ad another victory. ## Mysterious Mishap Has New Angle

**Reader Says He's the Man Who Found Boy in Woods Street with Skull Fractured**

The mystery of the eight-year-old Woods boy, said to have been left unconscious with a skull fracture in an accident on Monday, October 21, was cleared up by the driver who found the boy. The victim of the incident, as taken from the Woods police "blotter" and which was according to a report made to the authorities, was read in the NEWS by Kenneth W. Smith, 49, of 1922 Beaufait, who stated to police, after reading last week's issue, that the story was "all muddled." Smith told Det. Sgt. Walter O'Dell and Det. Leroy Tobian, who were investigating the case, that he read the story and despite the details, believed he was the man involved.

## Baby's Death Ruled Accident

The Wayne County Medical Examiner's Office ruled on Tuesday, October 29, that the death of 13-month-old Richard Caudle was accidental, due to asphyxiation by strangulation. The baby, son of Mr. and Mrs. James A. Caudle of 922 N. Brys drive, was found by his mother, Elizabeth, said she had fed the tot and left him for a brief moment in the kitchen. When she returned, she found him hanging by the neck. The accident happened on Monday, October 28.

## Two Firemen Overcome Battling Blaze in Home

Two Farms firemen were overcome by smoke and seeping gas while battling a fire at the home of the Clarence Kellys, 256 Lewiston road on Sunday, November 3, it was disclosed by Farms Fire Chief M. William Mason. Overcome were Arthur Turner and George Green, both of whom were revived at the scene and remained on duty. The firefighters fought the blaze for almost two hours before returning to the station, the chief said. He said the fire originated when a pipe from a newly installed gas furnace sprung a leak, and a spark set off a

## Expansion of Parking Lot In Farms Business Area Started After Long Delay

**Council Approves Going Ahead With Project After 15 Months Stall Engineered By Richard School District Improvement Group**

After a 15-month delay, work on the addition to the Farms Municipal Parking lot at the rear of the Muir property line was started on Tuesday, November 5. The Farms council approved a low bid of \$6,396.50, made by the Henry Huvaegre Construction Company, on Monday, November 4, for the first phase of the project. This entails excavating, grading and the laying of a stone base. City Manager Sidney LeBoer told the council that the full development of the strip, less asphalt topping, will be completed before the end of fall. No Paving Until Spring. It was decided that because of the lateness of the season, the black asphalt topping will not be laid until spring. This part of the job will cost an estimated \$4,000. To avoid delay in the completion of the project, the council authorized the city manager to ask for bids, and accept the lowest, without having to have recourse to the council, for the second phase of the construction. This includes the moving of the present existing fence, installation of a new habitant fence, planting of evergreens at the rear of the property, as promised; installing fence connections, and bumper rails, and other incidentals. Estimated at \$6,266. Mr. DeBoer said that this part of the project will cost an estimated \$6,266. If any of the bids are over the estimates, he will have to seek council approval; otherwise, he is to use his own discretion. Since there is no injunction restraining the city from going ahead with the project, said City Attorney Thomas Tilley, the construction can proceed. He referred to the legal tangles now before the Circuit Court and the State Supreme. (Continued on Page 2)

## Park Policeman Father of Twins

Motorcycle Officer Charles Cloar of the Park Police Department has been walking around headquarters with his head in the clouds. He has two good reasons for this feeling—his wife, the former Elizabeth Neugebauer of Detroit, presented him with twin girls on Monday, October 28, the first time a double blessed event has occurred in the families on either side. The twins, born in St. John Hospital, were named Jill Marie and Karol Michéelle. The former weighed in at four pounds and four ounces and the latter, at five pounds and three ounces. His brother officers have stopped calling his "Charlie," and now address him as "Father" Cloar. He ignores their attempt to brief him on his new duties as a daddy, for after all, he says, "Who can tell a new father anything, when he is passing out cigars for two instead of one?" The Cloars live at 1145 Maryland. They have no other children.

## Set Hearing on Changing Court Status

**Farms Council Will Ask Public to Express Views On Recommended Proposal**

The Farms council authorized a public hearing for Monday, December 16, to hear the pros and cons on a proposed city charter amendment that would elevate the city's justice court to a municipal court. A decision to hold the hearing was made on Monday, November 4, on recommendations made by City Attorney Thomas Tilley, who drew up the amendment to the charter. The matter must be tabled for 30 days before a hearing, he said. The city attorney said that this is one of the rare occasions in which a referendum is not needed from the electors for a charter amendment. Council Has Power. He stated that the State Legislature has provided by law that in a case of this sort, a city's governing body has the power to make such a change without consent of the voters. Mr. Tilley said Judge Grant E. Armstrong read the proposed amendment and approved it. The judge made the original request for the change. Previously, both Mr. Tilley and Judge Armstrong cited the fact that under Public Act 5 of 1956, municipal court designations are mandatory in cities with populations of 15,000 or more, where the justice of the peace is paid a salary in lieu of fees. They also cited an amendment to the legislation, Act 157, which became effective on September 27 of this year, which amends the earlier act, and which provides that any city having less than 15,000 and having a justice of the peace who is paid a salary in lieu of fees and required to be an attorney, may have a municipal court. Farms is Eligible. The Farms comes under this, since Judge Armstrong is paid a salary, and the city's population is about 12,500. The change would not effect anything except to invest the judge with more legal power in the municipal status. The salary, term of office and so on, will remain the same. Mr. Tilley said that with the rapid increase in the city's population, the change will have to be made soon or later, therefore it is better to do it now.

## Pointe Again Tops Quota Assigned for Annual UF Drive

**Mrs. Robert Duff, Regional Chairman, Reports \$335,325 Raised By Wednesday Noon; Businesses Given Much Credit**

Grosse Pointe has again exceeded its quota in the Torch Drive. Mrs. Robert Duff, regional chairman, reported Wednesday noon that a total of \$335,325 had been raised, against a quota of \$332,325 set for the Grosse Pointes before the annual fund-raising campaign started on October 15. "Grosse Pointe businessmen again responded most generously," Mrs. Duff said. "Much of the success of the drive was due to the increasing interest businessmen and their employees are taking in the 'give once for all' campaign." Mrs. Duff made her report at the final report luncheon in Hotel Statler, Detroit, Wednesday noon. The drive is due to end Thursday night with a Victory Dinner in the same hotel. Torch Drive leaders are optimistic that the overall goal of \$18,350,000 for the entire Detroit metropolitan area will be exceeded by that time. Among Top Givers. ## Two Bandits Get Cash at Supermart

**Gunmen Force Manager to Put Money in Bag; Escape with \$1,000**

Two gunmen held up the Wrigley Supermarket, 17410 Mack avenue, on Thursday, October 31, almost under the eyes of police. Although one bandit stood near the entrance of the market with a gun in his hand, and the other robber was forcing the manager, Gerald Grogus, 27, of 25356 Collingwood, Roseville, to put money from the cash registers into a bag, no other persons in the store seemed aware that a holdup was taking place. The robbers escaped with approximately \$1,000 in cash, it was reported by City Capt. Andrew Teetaert. Patrolmen in Lot. ## City Restricts Street Parking

The City installed new parking meters on Kercheval, from Cadiexu to Neff roads, on Thursday, October 31, which have cut the parking time by half. The meters, placed on both sides of the street, limits parking to 30 minutes, for five cents. The previous time was one hour for the same fee. The City council recently approved this step when store owners complained that their clerks were utilizing spaces in front of the stores for all-day parking, thereby inconveniencing prospective customers. The managers said their employees would park their cars in front of the stores, and every hour would deposit nickels in the meters to maintain the spaces. The City also placed 30 signs along Kercheval, on both sides of utility poles, which stipulate the new restrictions and that all day parking may be had in city lots behind the stores. The street meters also show that one penny will permit six minutes of parking, and a nickel, 30 minutes.

## Woods Wants Bad Check Artist Now Waiting Trial

Woods police have placed a hold on Russ Clancey of 16592 Baylis, Detroit, with Oakland County authorities, for passing several hundred dollars worth of bad checks in the Woods. Clancey, it was found by Det. Sgt. Walter O'Dell and Det. Leroy Tobian, is in the custody of the Oakland County Sheriff's Office, and is in jail for passing several thousands of dollars in checks in Oakland County. At present, the alleged check passer is being held for trial in Oakland on default of \$2,500 bond. His trial date is set for Tuesday, November 12. The Woods detective team said Clancey is accused of passing \$367.42 in checks at the Grosse Pointe Sports Shop owned by Norman Archer of 20621 Wedgewood drive. The store is at 20099 Mack avenue. O'Dell and Tobian said Archer gave three checks to Patrolman Donald Collins on Monday, November 4, signed by Clancey and drawn on the National Bank of Detroit, one for \$40, another for \$159.07, and the third for \$168.35, used in the purchase of sporting goods. Each of the checks "bounced." Archer told Collins that the checks were returned to him on October 25 by the bank and stamped "no account." The detectives will attempt to recover Clancey's purchases from his home after obtaining a search warrant.

## Set Record By Blanking Five Teams

**No Loop Opponent Has Been Able to Tally Against Blue Devils This Season By Fred Rummels**

The magnificent Grosse Pointe High School Blue Devils stormed into the Border Cities League throne room last Saturday, November 2, and on their way in used the Royal Oak Acorns as the doormat to wipe their cleats clean with an impressive 43-0 shutout victory. Royal Oak was the only remaining hurdle in the Devils' path to their second championship. An Acorn victory would have forced the Pointers to share the title with them. But after the dust had settled over the Grosse Pointe gridiron and the last cheer from the large, loyal and deliriously happy following had drifted into the chill autumn twilight, the Acorns' title-sharing hopes looked like a well used Halloween "punkin." Quite a bit shopworn around the edges, one might say. New Record Established. In shutting out the Acorns it marked the fifth consecutive BCL foe to fall by the "way-side, via the shutout route, giving the Devils a perfect league season and an all-time league record. Not since the formation of the BCL had any team gone through the title competition unscathed upon. This record, no doubt, will stand for years. Leaving nothing to chance, the "destructive Devils" hammered the Acorns into submission almost from the opening whistle. Royal Oak won the toss, which was the only thing they won that day, and kicked off to the Devils' 18 where full-back Bruce Boardman ran it back to the Pointer 35. On the second play from scrimmage halfback Bill Hooth, who, incidentally, was a shining star both on offense as well as defense, swept around left end being thrown out of bounds on the Acorn 2. Bob Wachter then smashed over for the first score of the day and Dave Cook booted the conversion to give the Devils a 7-0 lead with one minute gone in the game. Unable to Move. Quarterback John Nicholson put the Acorns deep in their own territory with a trending punt which was downed on the Acorn one yard line by Bill Hooth. Royal Oak was unable to move against the Devils' defensive unit and punted out to its own 34. Six plays later Bob Wachter cracked up the middle to score from the 2 and Cook's kick was good to give the Devils a 14-0 lead with 36 seconds left in the first quarter. Grosse Pointe threatened twice early in the second period but penalties thwarted the drives. Royal Oak, with the ball on its own 34, saw Hornbeck shaken loose from the ball by a jarring tackle administered by Al Harrants. Chuck Harris recovered. At this point the Devils drew a 15-yard, illegal use of the hands, penalty and Nicholson punted with the ball being downed on the Acorn 9 by Harris. Forced to Kick. Again the defense-minded Devils harassed the Acorns and on fourth down forced John Erickson to kick on the run with Hooth taking the ball on his own 45 and running back to the Royal Oak 42. On the first play Bruce Boardman broke loose and scampered down the sideline to score, but the beautiful run was nullified by a clipping penalty. Not to be denied, Nicholson took to the air and hit Boardman with a 16 yard pass. Bob Herrick swept left end for 16 and followed with a 10-yard smash to the Acorn 9. After Wachter picked up three yards, Bill Hooth carried the final seven yards to score. Cook's kick was good and the Devils held a comfortable 21-0 lead with two minutes and 58 seconds left to halftime. Royal Oak had the first of two chances to score when (Continued on Page 28)

(Continued from Page 1) Court. The former pertains to an appeal made by the Gabriel Richard School District Improvement Association to have the court declare as unconstitutional, a zoning ordinance amendment changing the strip from residential to parking property; the latter is a petition by the Association asking the Supreme Court to compel the Wayne Circuit Court to issue an injunction restraining the Farms from carrying out the project.

In the matter before the Circuit Court, Mr. Tilley said: "Judge Joseph A. Moynihan is out of town and is not due back until about December 7."

Will Submit Briefs

In the issue before the higher court, the city attorney said that he and the legal representatives for the Association had agreed to submit briefs rather than oral arguments in presenting their sides. This he said, should speed up a decision by the court.

Mr. Tilley said that the decision to go ahead with the development of the strip does not in any way violate the matters before the courts, pending the decisions.

He pointed out that 15 months have lapsed since the Farms and the Grosse Pointe Board of Education signed a five-year lease giving the strip to the city in return for the use of the Pier-Park for the School System's driver-training program.

Not Fair to Taxpayers

As things stand now, he said, the deal is one-sided. The System has been using the Pier-Park, but the city is not getting any use out of the strip, and this is not fair to the city taxpayers.

It appears, he added, that the Association has been using delaying tactics, even though it has sought injunctions from the Circuit Court on three occasions, and each time its petition was turned down.

His reasoning was concurred with by the council and the start of the project was approved.

Bandits Rob Market

(Continued from Page 1) market, at about 9 a.m., when the robbery call came over the police radio. However, when they jumped out of their scout car and rushed to the store, the bandits had already fled.

Capt. Teetaert said that it was a matter of about two minutes between the time the alarm was given and the radio call, just enough to allow the gunmen to flee.

Chief Thomas Trombly, Capt. Teetaert and Patrolman Virgil Beupre also rushed to the scene after the alarm was sounded.

Grogis told police that the two men, both white, entered the store, and while one waited at the door with drawn gun, the other pressed his gun into his (Grogis') stomach, and forced him to go to each of the counter cash registers and scoop the cash receipts into a cloth bag stamped with "National Bank of Detroit."

Escape in Sedan

After taking the money, the two bandits ran outside, jumped into a silver-gray, dark red top 1950 Chevrolet, and fled east on Mack.

Six customers and three clerks were in the store at the time, and none of them was aware of what was going on.

Grogis could not give the alarm until after the robbers left the store, but then it was too late.

Neither of the bandits wore masks, Capt. Teetaert said. He described one as being about 28 years old, about five feet, nine inches in height, weighing 175 pounds, dark hair, dark complexion with a pencil-mustache, no hat, and wearing a light tan trench coat.

His accomplice was a thin bald man, about 27 years old, six feet, two inches, 175 pounds, long light colored hair, light complexion and wearing a light tan trench coat.

Its Second Holdup

The supermarket was held up once before, on July 11, 1955. At that time it was one of the Big Bear chain, and Grogis was also manager then.

Grogis received a phone call at that time, believed from a bar across the street, in which a voice told him that there was a man in a telephone booth next to his, with a gun "pointed at your belly". He was ordered to do as he was told and he would not be hurt.

DAMAGE GARAGE

Mrs. Eliza Miculs of 1453 Balfour informed Park police on Saturday, November 5, that some unknown person threw an open can of paint on her newly roofed garage, spatter in paint on the roof and walls of the building and sidewalk. The complaint said the incident took place within a 72-hour period prior to the time the report was made.

The life work of some people seems to be the task of fanning a social smudge into a flame.

Mystery

(Continued from Page 1)

The boy's mother was standing on the lawn, as if looking for the boy, the man said.

Explained to Parents

Smith then said he told the parents where the boy was picked up and what he knew about the incident.

On Friday, November 1, Mrs. Rose Parsons of 266 Ridgemont, told the Woods police, that about 11:40 a.m., October 21, she saw Gary lying in the street, and was not sure whether the boy was hurt or playing. She stopped, but when she saw Smith approaching and then take care of the boy, she drove home because she had children in the car.

The report given to police last week was that the boy was found unconscious in the seat of a car, by the mother the name of the driver and the car license number was not taken.

Had Fractured Skull

Gary was taken to St. John's Hospital, where it was discovered he had a fractured skull. A report of the incident was not made to authorities until hours later.

When questioned at the hospital, Gary said he did not know what had happened.

On Monday, November 4, O'Dell and Tobian made contact with the boy's parents, and inquired why a delayed report was made. Mr. and Mrs. Lewinski said there had been an illness in the family the same day, and coupled with Gary's accident, it created an upset situation, and the de-

layed report was not intentional.

The detective team said they questioned Gary, again, but the boy, who was released from the hospital on Friday,

October 25, said he still did not know what had happened.

It may be true that money used to go farther, but never so fast.

### War Declared On Litterbugs

The litter-bugging that goes on around lunch hours at Grosse Pointe High School, cluttering up the Fisher road shops and infuriating the merchants, has got to cease, warns City Police Chief Trombly—else the offenders will be asked to appear in court.

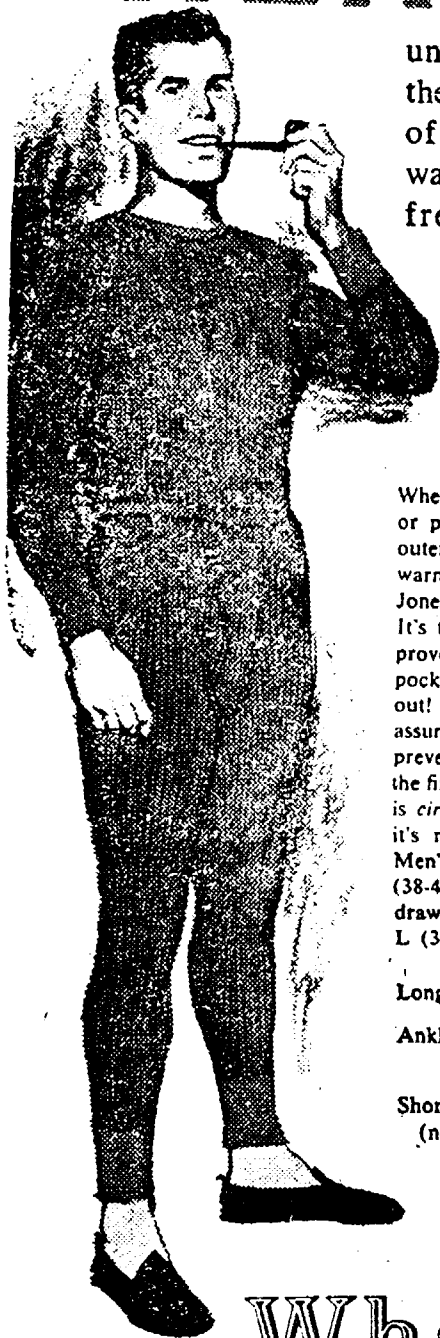

The hard-and-fast policy has come about after a series of warnings to the students—one of which was printed in the NEWS not long ago—to stop their slovenly habits.

In a lead article in their school paper, "The Tower," Chief Trombly's ultimatum has been printed in bold type stating in no uncertain terms that police have been assigned during the noon hours to watch for would-be litterbugs and anyone given a ticket for such an offense will not be able to pay a fine, but must settle the violation with a personal appearance in court.

### Pointe Engineer Becomes Korean Legend

EDWIN B. RALL, power plant advisor, conducts an on-the-job training course in the maintenance of equipment in the old Japanese-built Yongwol power plant which is being rehabilitated with U. S. aid funds. Hale and hearty Ed, a mere "youngster" of 75 became associated with the economic aid program in Korea in its

early days when it was ECA. Completing his second assignment with the Office of the Economic Coordinator, United Nations Command, indefatigable Ed will return to continue his work after spending a short leave with his wife in Grosse Pointe Park, Michigan.

SEOUL, Korea—They say truth is stranger than fiction—you are as old as you feel—all this is true when one meets Edwin B. Rall, Power Plant Advisor, in the Office of the Economic Coordinator, United Nations Command, who is returning to his home in Grosse Pointe Park, Michigan, for a short leave after completing his second assignment.

Rall, a mere youngster of 75, has become an almost legendary figure here in Korea not only to his American associates but to the Korean people as well; especially to those with whom he works up at the Yongwol thermal plant, which he is rehabilitating.

50 Years Experience

With "only" 50 years experience as a mechanical engineer to recommend him, Ed became associated with the economic aid program back in its early days when it was ECA (Economic Cooperation Administration)—after it took over the rehabilitation of power plants in Korea from the Army Engineers. His career overseas reads like an adventure story. He first came to Korea in June 1948 as a member of a group of specialists appointed by the

Under-Secretary of War to make a survey of all available electric power, due to the shortage caused by the electric power cut-off to South Korea from North Korea. Three months later he reported back to Washington. Evidently, he did his usual excellent job because he was back again in October, this time as one of the specialists hired by the U.S. Army engineers to start rehabilitation of the electric power system. With ECA when the invasion of South Korea began in June 1950, he took an "enforced" trip to Japan, where he was sent to Nagasaki as Project Engineer in the general overhaul of the power barge "Jaconsa."

Becomes Fire Fighter  
Back to Pusan in September 1950, he rehabilitated the Pusan steam power plant and then went to Seoul in October to restore pumping facilities to extinguish the fires which were raging in the city. In November, he went to Pyon-gang, North Korea to start turbine generators vitally needed by airfields, hospitals, etc., but was chased out again by the Communies.

Evacuated again on Christmas Day from Seoul to Japan, he returned to the U.S.A. A short stay there and back to Japan to the naval base at Yokosuka where he was placed in charge of the converted 15,000-ton tanker SARANAC being outfitted for service at In ch on, Korea. After power production started in November 1951, the ship was returned to Japan and Rall was transferred to KCAC (Korea

Civil Assistance Command) where he stayed until November 1955 when the reins were relinquished to OEC.

When indefatigable Ed was assigned to the Japanese-built Yongwol plant, it was producing about 8,000 KW. The power plants and electrical system had been badly damaged during the war—its switchyard had been shot up—the powerhouse had been flooded by the Communists—and the buildings were crumbling through disuse. Furthermore, he faced the lack of trained Korean personnel plus the necessary spare parts and new equipment, so sorely needed.

Wouldn't Take Defeat

The Koreans, who had never been taught anything by the Japanese concerning operation of the plant, soon learned that this tall, rangy engineer was not about to admit defeat. "Where there's a will, there's a way" was Ed's motto and he instilled it in his 535 workers. The "no can do" attitude soon changed to "can do." This was a bit difficult at first because Ed does not speak the language, but through patience, determination, gestures and demonstration, he put his point across.

The rehabilitation of the Yongwol plant has not been an easy job; it has meant that Ed has had to cut himself off from his fellow Americans and live in Yongwol, a 600-year old village of 3500, located approximately 42 miles east of Seoul. The nearest American installation is about 60 miles away at Wonju. However, Ed maintains, it has all been worthwhile—that he has never had a lonely moment. Between teaching English, working hard all day and writing reports at night, the time has passed quickly.

He lives in a Japanese-type house which he says is very comfortable and only 15 minutes jeep ride from the plant. About every 10-15 days, he returns to Seoul for rations and to renew his acquaintance with the English language.

Candy for Kids, Too

Technicians at the Tangin-Ri thermal plant will tell you that Ed always wore an overcoat with huge pockets when he visited them, at which time he would ask for any old nuts or bolts which he might implement in the rehabilitation of his plant. The 52 children who line the way from his home to the Yongwol plant will also bear witness that these pockets hold many goodies—candies, cookies, etc. which he distrib-

utes from his jeep on his way to work. In addition, letters home requesting clothing for the children have not gone unanswered.

Although his job has entailed hardships, Ed can point with pride to his accomplishments. The plant, which many said was unsalvageable, now hums with activity around the clock. Old equipment has been repaired; new equipment has been installed, and Koreans have been taught proper maintenance. Further training is being given in the United States to a turbine engineer and a chemical engineer.

As a result of this face-lifting, it now boasts of four 25,000 KW turbo generators, with a maximum output of 100,000 KW, thus making it the largest of the four thermal plants in South Korea. The other three are located at Tangan-Ri (47,500 KW), Masan (50,000 KW) and Samchaok (25,000 KW). An appropriation of \$2,500,000 has been programmed for the Yongwol rehabilitation. The three new plants were built at a cost of \$30,000,000.

Worked on Boats

Ed started out earning his living as a 17-year-old deck-hand on a Great Lakes freighter. Later on he became a

Chief Engineer for the U. S. Coast Guard. Deciding to become a landlubber, he began working for the Detroit Edison Company, Connor's Creek, a job which was to last for 32 years. It only ended then because Ed had reached retirement age.

This forced retirement (he retired as an assistant plant engineer) got Ed's dander up—he was not about to sit on his front porch at 1344 York-shire road, a-rockin' and a-whittlin'... so he did something about it. And so began the second part of the saga

about Ed Rall's life in far-off places.

When asked if he were returning to Korea, Ed smilingly replied: "Of course, I am. We're only putting out 65,000 KW and I know that we can approach its rating 100,000 KW with the new boilers."

Even homeward-bound, Ed can't get away from his job. He will spend a few days in Tokyo to expedite shipment of equipment needed for Yongwol. Meeting his wife in Seattle, they will visit their son, Edwin, Jr., and their four grand-children there before (Continued on Page 7)

Christ Church Library Moved

The enclosing of the cloister at Christ Church with stained glass windows has added a new room to the Church. The handsome windows, a gift of Mr. and Mrs. Mervyn G. Gaskin in memory of his mother, were dedicated last June. Since that time the room has been beautifully furnished to house the Library which formerly had been in the Parish House.

The Library and Book Shop was started two years ago when the Woman's Auxiliary volunteered to pay the salary of an additional member to the staff. MRS. A. R. PETER FORD, who previously had served as president of the Auxiliary, undertook the assignment and has catalogued a valuable collection of literature on Christian Faith, Belief and Behavior. The books were purchased taking into consideration the needs of church school teachers, children, the newly con-

firmed, as well as all those who seek inspired readings. The books are available not only to members of the parish, but to members of the community, and have been widely used by students at the High school, Grosse Pointe University School and college students for resource material. For those who wish to purchase books there is a display of Bibles, Prayer Books and other religious literature. Sales in the last two years have exceeded \$5,000, which evidences the need and use of this serv-

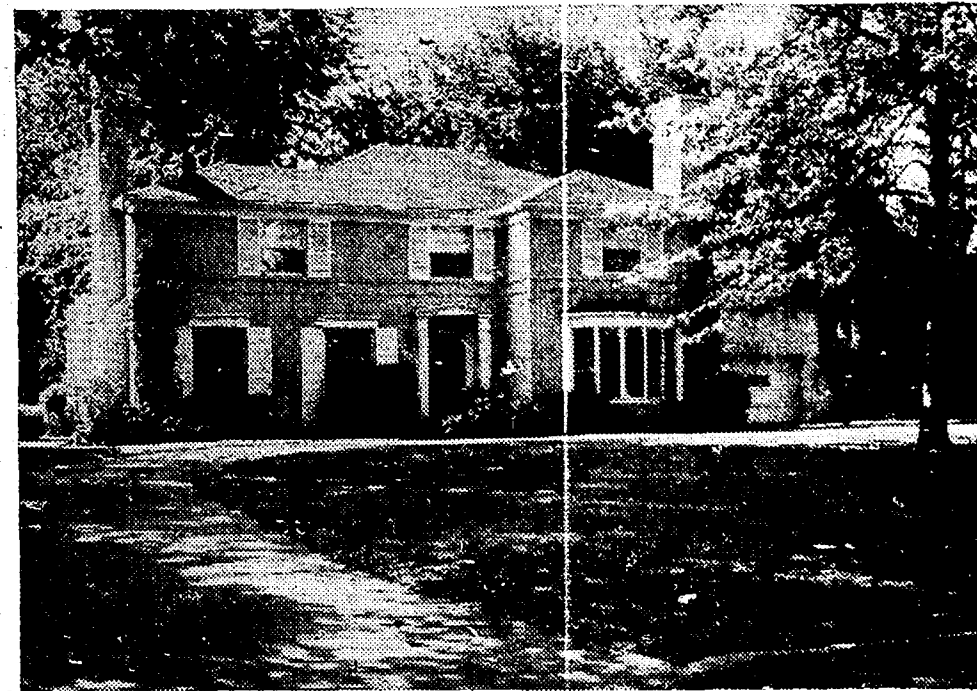

ice. Recently the purchase of classical and religious records has been made available hoping to encourage the use of such music in the homes. Mrs. Ford is available for consultation during the week and will gladly help any one make a selection from the circulating Library or to suggest a book which would make a welcome gift or addition to a family Library. The picture above shows Mrs. Ford, right, and MRS. CHARLES TRAPP of Bedford road.

The world's longest cable car, from Merida, Venezuela, to the top of 15,380-foot Mirror Peak, is under construction. There will be several stops along the route, and passengers will receive oxygen in the pressurized cars at the 8,000-foot level.

St. Clair Dogs On Biting Spree

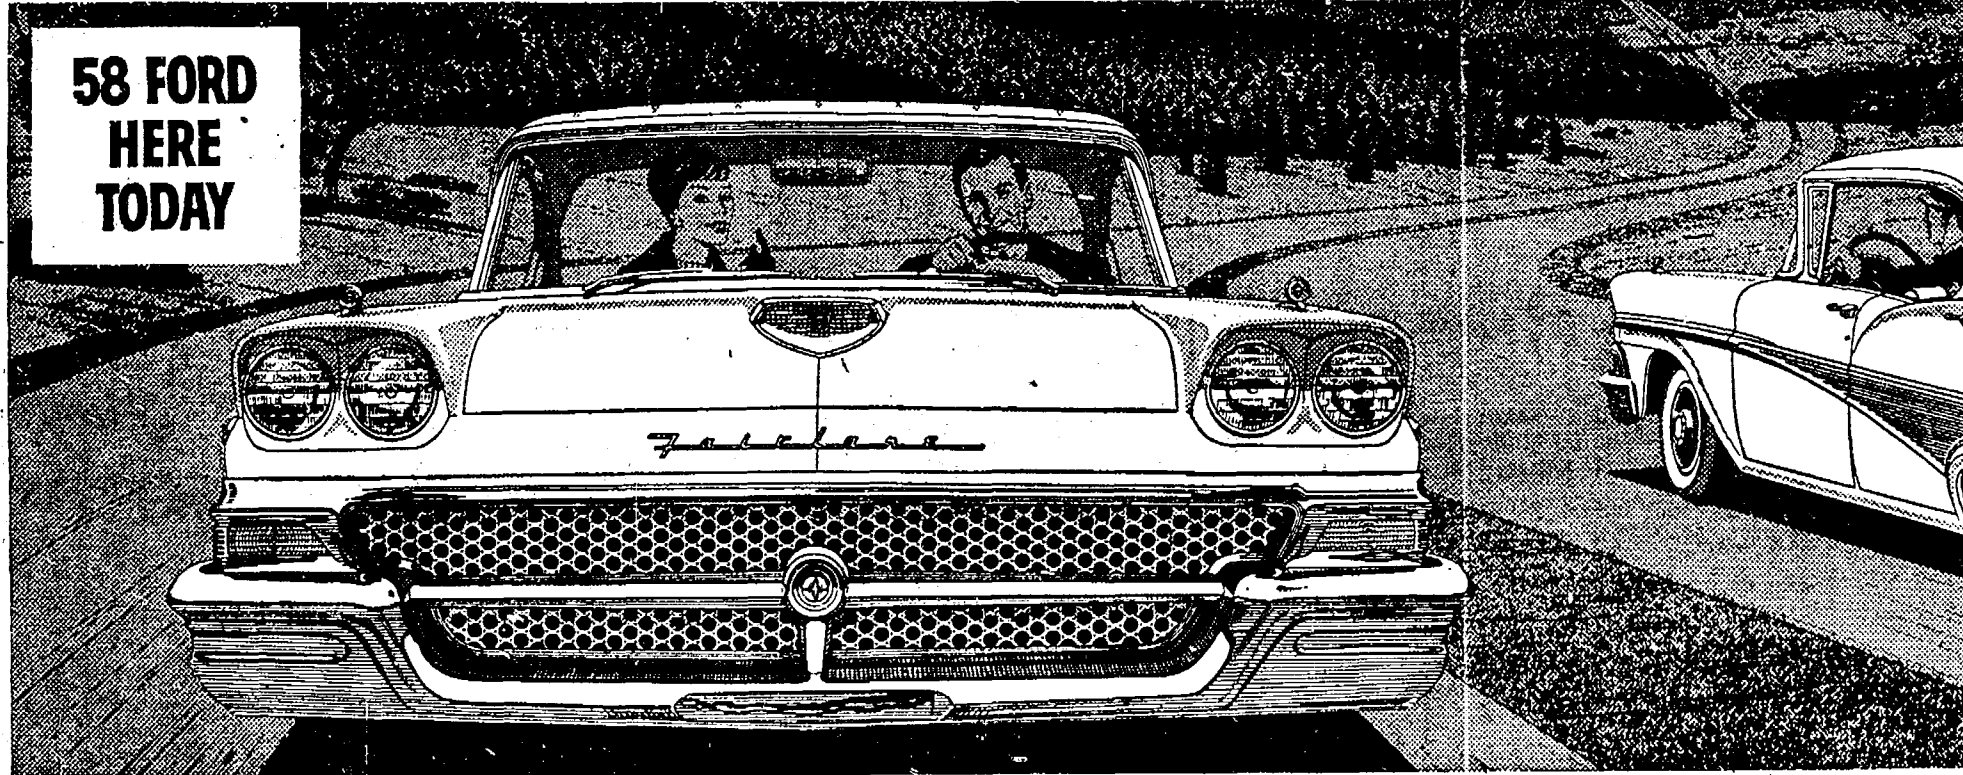

From all appearances, St. Clair avenue was definitely not the place to be last Saturday, November 2. Seems it was the hounds day to howl.

From Bon Secours Hospital came the report that Walter Anderson, of 514 St. Clair, was being treated in the emergency room for a dog bite on his hand, between the thumb and forefinger. The cantankerous canine attacked him as he was walking by 563 St. Clair. The dog an airedale, is owned by Elsie Clackson of the same address.

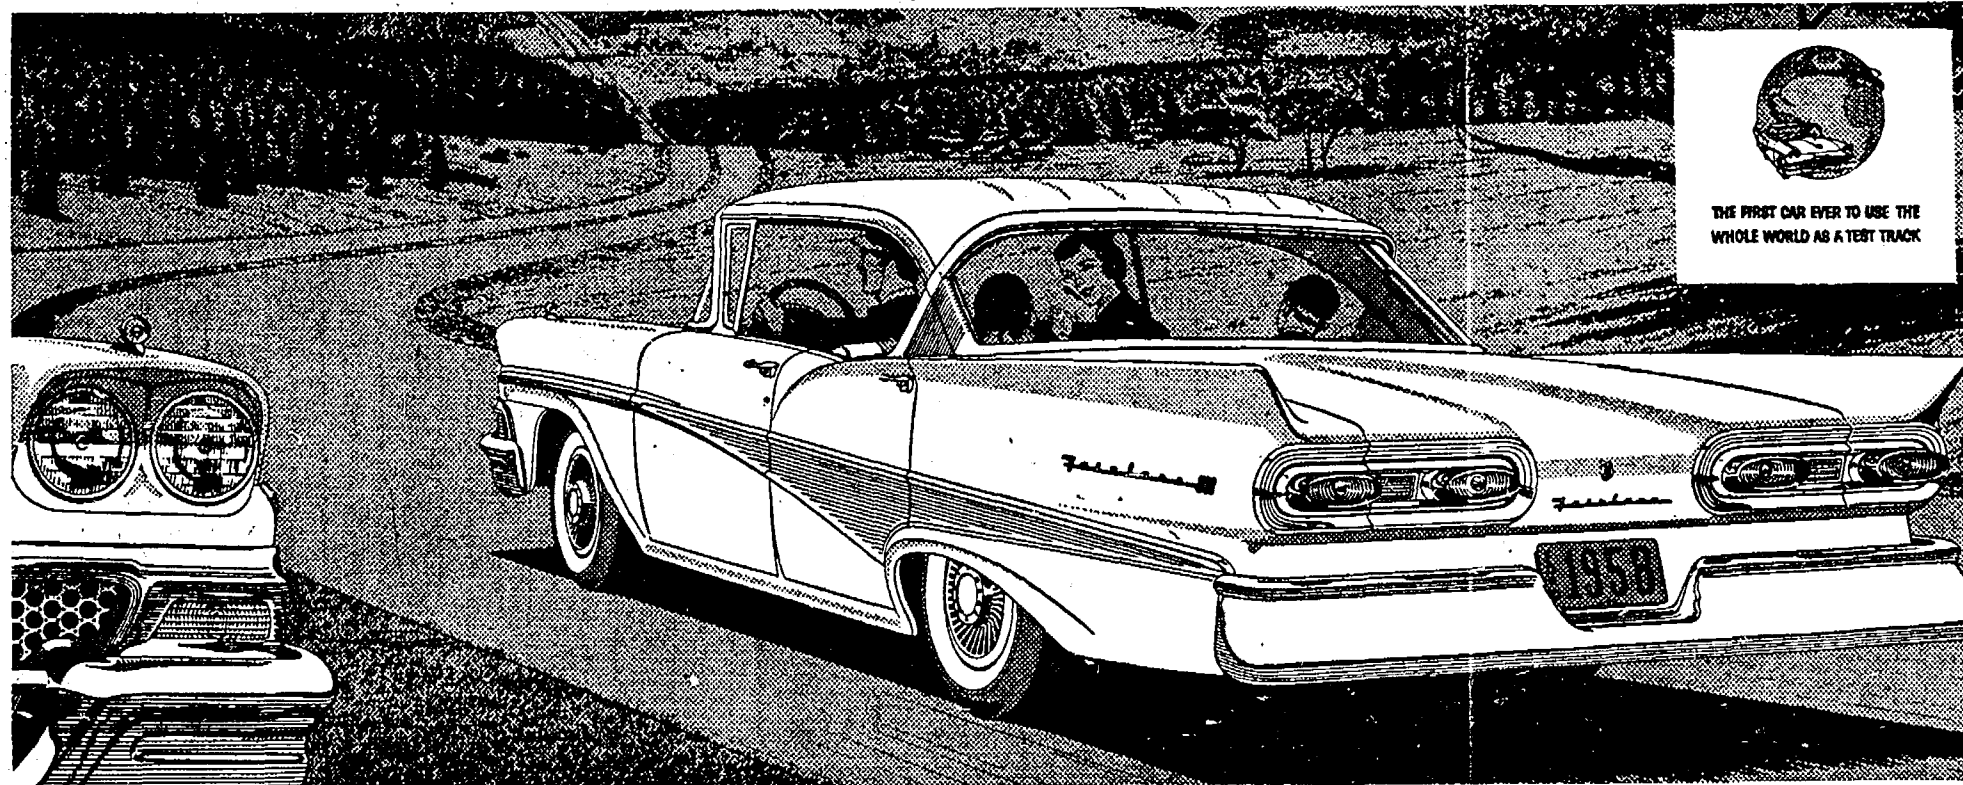

Later that same day, Mrs. Robert Bridge, of 434 St. Clair, phoned City Police to report that her dog, a beagle-cocker pup of 10 months, had nipped little Mary Van Buren, aged 3, of 402—you guessed it—St. Clair. The child was bitten on her right hand also, and treated by the family doctor.

Both bites have been reported to the Board of Health and both "beasts" are currently under observation for the required 10-day period.

#### ATOMIC ALERT (11 min.)

Shows several youngsters finding shelter upon hearing an air raid alert. Then portrays Ted and Sue, at home when the alert sounds, taking the necessary precautions against an atomic bomb. They cover windows, check the kitchen for fires, and go to the basement to wait for instructions over the battery radio. Next, the film pictures what to do in case of a bombing without warning, as demonstrated by Ted and Sue. They are commended by the warden for their good work.

#### THE HOLY LAND (11 min., color)

Presents scenes of the typical geographic features of the Holy Land, historic ruins, religious buildings of the three historic religions, and present-day peoples engaged in activities typical of life in Bible times. Uses maps to indicate the four geographic subdivisions of the area and the various cities. Explains the relationship of these scenes to events in religious history.

#### JAPANESE FAMILY (24 min.)

Follows two Japanese children home from a sidewalk show and pictures the activities of their father, uncle, grandmother, mother, and aunt. Presents the father weaving on a large loom, the grandmother repairing a screen, the mother and aunt preparing the evening meal, and the children studying. Pictures the children as they go to the park and zoo with their aunt; then shows the preparations for the New Year events.

#### MORNING STAR (35 min., color)

A beautiful film, with inspirational overtones, recording

the annual spring migration in Arizona of a herd of 1,500 sheep, pack donkeys, dogs, herder, camp cook, and cameraman experience grueling hardships as they travel over some of the roughest terrain in the United States. The trek is not entirely without humor, however, and the herder, Rosario Lucero, is portrayed as a true hero who completes his monumental task with infinite patience and skill. The film ends with a visualization of the Twenty-third Psalm.

Courtesy is merely the recognition of the rights of others.

Although they cheered themselves hoarse these cute little Ram cheerleaders couldn't bring their team home the winner in the Grosse Pointe All American Little Football League post season game at the Neighborhood Club, Sunday, November 3. The Lions beat the Rams 13-6 to become the "unofficial" champion. Both teams were

undefeated in regular league competition. Shown left to right—first row—LINDA PERKIN, SUZAN MILLER, PAT JOHNSON, JUDY MATTHEWS and JUDY GHOEWSKI. Back row—JUDY MILLER, TERRY HERZ, JANE WILSON and ANN TREES COOK.

### Scout Leaders to Hold Dinner

More than 500 east side adult volunteer scout leaders, their wives, and scouts will hear Amos R. Shields Tuesday, November 12, following dinner at the Chrysler Outer Drive Plant, 3675 E. Outer Drive. Shields will be the principal speaker at the Iroquois District Annual Recognition Meeting. Widely known Scout Executive of the Detroit Area Council, Boy Scouts of America, Shields calls his talk, "It's a Deal, Butch!" It presents the need for scouting, and how Detroit organized to meet that need with the aid of volunteer leaders. Shields, who has headed scouting activity here since 1934, has won national acclaim for his leadership and contribution to scouting's number one growth in Detroit. The Detroit Common Council presented Shields with a special citation in 1954. He was honored by the Boys' Clubs of America on their 50th Anniversary and was awarded an Honorary Doctor of Law Degree by Wayne State University, this year. Prior to Detroit, Shields served as Executive in the Pittsburgh, McKeesport, and Delaware-Maryland-Virginia Scout Councils. His scouting experience began October 1913, in Baltimore, Maryland. Mr. Shields attended the Universities of Maryland and Pittsburgh. During the First World War he served as Platoon Commander with the 79th Division in France. He is an active member of the American Legion, Detroit Rotary Club, American and Michigan Camping Associations and numerous other civic organizations. He contributes ideas as

a member of the National Advisory Committee on scouting and is a Trustee of the American Humanics Foundation. District chairman Ted L. Sedwick of 1424 Iroquois, who announced selection of Shields as annual meeting speaker added, "We know that Amos Shields' message will represent a high point in scouting history. We certainly urge all east side volunteer leaders to be with us on November 12."

### Michaelangelo Forum Subject

The Grosse Pointe Public Library and the Friends of the Grosse Pointe Public Library announce the second in the new series of Friends' Film Forums for Friday night, November 15 at 8 o'clock.

The program will feature the film, "The Titan—The Story of Michaelangelo." The Titan is an extraordinary documentary that recreates the work, life, and times of Michaelangelo without showing a glimpse of a human actor.

The picture sets the Renaissance stage for Michaelangelo's emergence, shows the influence of contemporaries and ancients, carries the unseen hero through papal and princely intrigues, the bloody uprising of Savonarola, the siege of Florence and the sack of Rome. Out of the turbulence of the age and the passionate rigors of Michaelangelo's genius flowers the beauty of his masterworks: The David, the Medici monument, the Sistine Chapel ceiling, the Last Judgment, and the soaring dome of St. Peter's.

George Tait Hali will be the moderator of the evening. The Friends' Film Forum will be held in the Meeting Room of the Central Library at Kercheval and Fisher. No reservations are necessary, no admission is charged, and no tickets are required.

While most of the Halloween witches, bell-ringers, beggars and the like had settled for the midnight curfew on October 31, there are always those who hate to "give up the ghost." May They Be Enjoyed by Many

Two new swimming pools, available for use by all members of the community, have been completed and are in use at the Parcels and Pierce Junior High Schools. A third will be added to the public school system's athletic plant next fall when Brownell Junior High School now under construction in Chalfonte road, will be finished.

The addition of these new pools is a major step toward the goal of bringing our school athletic plant up to a plane befitting the community. For years Grosse Pointe, undoubtedly the richest per capita area in the state, struggled along with facilities that weren't favored shooting distance of those enjoyed in many less-favored cities.

The Pointe had but one swimming pool, at the High School, and this wasn't even of regulation size, so records could not be recognized when made there. The boys' basketball court in the High School was woefully inadequate, both from the standpoint of the size of the playing area, and accommodations for spectators.

The approval of the voters to build a million dollar auditorium-gymnasium at the High School surmounted the first big hurdle in the program. This structure is one of the finest in the country and is filling many needs in many lines both athletic and non-athletic.

The Board of Education, in recommending these additions, has stressed that they are intended not only for the use of the students of the public schools, but for all students of all schools, parochial and independent as well, and for the adults and every resident of the community.

This paper recently published a complete schedule of swimming periods for both sexes and all age groups, who will be privileged to use the new pools. The auditorium-gymnasium with its varied facilities, is available to all and is being used by many groups and organizations.

As might be expected, when these pools were proposed and the voters were asked to approve a bond issue to finance their construction, there was some criticism. It was miraculously slight, as it should have been. Our Boards of Education have always bent over backward, insisting on classroom construction before any thought could be given to recreational facilities.

A community like the Pointe should have such swimming pools and such an auditorium-gymnasium as those which have now been converted from dreams into reality. The residents are to be congratulated for approving their construction. It is to be hoped a large proportion of them will enjoy these fine new additions, either as participating or spectator sportsmen and women.

Letters to the Editor

November 4, 1957 To the Editor:—

Had the group of merchants, police, school personnel and citizens who conceived the first Community Halloween parties eighteen years ago, stopped into the High School Gymnasium last Thursday evening, they would have been very proud of the way their birth of an idea had grown. Likewise, had they driven the streets between Pierce and Parcels schools, they would have been very satisfied with their accomplishment. Not one teen-ager was seen "on the prowl." There was even less than a normal week-night's traffic.

About 1000 youngsters were at each of the Junior High Schools, 500 at the Trembly and 2500 at the High School. From the minute they entered the doors at 7:30, they were entertained with top vaudeville acts, movies and dance bands with vocalists. Unbelievable quantities of hot dogs, sloppy joes, donuts, candy bars, ice cream, potato chips, milk and pop were consumed all evening long.

It is gratifying to witness the students and parents of all parochial, private, and public schools in the Pointe working and playing together in one community effort.

The appreciation of the entire community goes to Forrest Geary, General Chairman, George Elworthy, vice-chairman, Arthur Dannecker, treasurer, Mrs. Everett Roll, secretary and their committees: school staff members, police departments, and the commun-

ity organizations who provided hundreds of individuals for supervision, staffing check-rooms and serving food. The success of these parties is due in no small part to the generous and excellent publicity you have given the project. In no other way could all the residents of Grosse Pointe be informed of this fine solution to Halloween's "Trick or Treat." The entire committee is grateful to you!

Sincerely, JOANNE GOOD, Publicity Chairman, Grosse Pte. Halloween Committee.

Occupational Grams

By Fred Kopp, R. Ph. Miraculously does the body protect itself from harm, as in the case of so-called occupational cramps, brought on by excessive use of certain muscles.

Ball players, writers, dancers, musicians and scores of other workers have experienced the complete failure of certain muscles making it impossible for them to continue work until after a period of rest.

This temporary revolt on the part of our body is a way of preserving its strength and usefulness as any doctor will tell you. Assisting your doctor is the conscientious pharmacist ready to meet your every drug need. This is the 67th of a series of Editorial advertisements appearing in this paper each week.

What Goes On at Your Library

By Jean Taylor Next week is American Education Week, and we salute all teachers everywhere but particularly those in our own community. For many years, we have worked closely with the schools, public, parochial and private, and we have a more than enthusiastic regard for the teaching profession.

In almost everyone's youth there are one or two teachers who stand out when the names and faces of others are difficult to recall. To this day we cannot read Kipling's "Elephant's Child" or parts of the "Jungle Book" without hearing the voice of one, Kate Bell... teacher of what was termed in Canada the senior second, equivalent to our grade four... "In the High and Far-Off Times, the Elephant, O Best Beloved, had no trunk...". No child could have spent a year in that classroom and remained indifferent to the enjoyment to be had from books. No doubt Miss Bell taught us many other valuable things, but we are convinced that her enthusiasm for good stories in fine prose left its indelible mark on every youngster who passed through her capable hands.

A recent book "Why Teach?" by D. Louise Sharp should persuade many considering a profession to decide their place in the classroom. Dean Sharp asks the title question "Why Teach?" and a host of outstanding contemporaries give resonating reasons. Judge Medina, Stuart Chase, Harry Emerson Fosdick, Omar Bradley, Clifton Fadiman, Helen Keller, Adlai Stevenson, Karl Menninger and others discuss the teacher's role in our society. Many contributors have been on both sides of the teacher's desk. Mark Van Doren points up the teacher's integrity... "He does not have to invent reasons why the

whole world should buy his article: he does not have to juggle and cajole, to act a part, to shade or trim the truth as he in his own mind sees it." This is a book of essays that bears reading. Tributes to this profession are many. Anyone who thinks teaching is a drab or profitless occupation should read Mary Ellen Chase's "A Goodly Fellowship" in which she tells of her own experiences as a teacher. Bliss Perry also emphasizes the joy of teaching in his reminiscences "And Gladly Teach" Jesse Stuart in the "Thread That Runs So True" gives his twenty years experiences as a teacher beginning with his first day in a (Continued on Page 26)

Baldwin, of Lakepoint, chairman of the 14th District Republicans, announced that a series of open houses are being held at the District Headquarters, Warren at Beaconsfield, every Saturday afternoon to watch the TV "Game of the Week". Refreshments are being served after 1 p.m. each Saturday.

**Election Held at Yacht Club**

Pointer Charles S. "Tommy" Tompkins, of 1372 Balfour road, became the "big" boss of the Detroit Yacht Club last Monday, November 4, when members elevated him from his vice commodore post to that of commodore at the annual election meeting.

At the same time popular Freddie Jensen, whose hall-mark is a big black cigar when he is sailing, moved up from his rear commodore post to that of vice-commodore. Alfred Steiner was the successful candidate for rear commodore.

Elected to the board of directors were Robert Cherhan, Edward L. Baker, Past Commodore Howard Cook, Milton O. Cross, Jr., John D. Dietiker, Edward M. Gregory, Jr., and Clark Schweikart.

The newly elected official will take over their duties immediately but will not be officially installed until the Commodore's Ball early in January. At that time retiring commodore Howard Cook will turn the gavel of office over to "Tommy."

**Farms Council Awards Contracts for Projects**

The Farms council approved the payment of bills and the awarding of a contract to a low bidder on Monday, November 4, all of which total \$29,322.37.

The low bid for the installation of gas heat in two rooms of the Public Works garage was made by the Detroit Gas Burner company, and the amount offered was \$1,030.

This is about \$200 over the estimated cost, it was said by City Manager Sidney DeBoer, who recommended the firm be granted the award because it was the lowest bidder.

The City manager also recommended that the following bills be paid: \$16,052, representing the first progress estimate for the resurfacing of the Pier-Park parking lot, to the Cooke Construction company; \$1,989.15 to the Monte Construction company as the final estimate for the paving of the Mack avenue alley and Public Works driveway adjacent to the Kerby Field playground.

The amount of \$2,795, to the Roulo Plumbing and Heating, Inc., as the final payment for modernizing the heating system in the City Hall; \$6,829.13, representing the final payment for the recapping and sealing of city pavements, and \$1,228.09 to the J. C. Sachs as final payment for the paving of the Mack avenue parking area, all projects inspected and approved by City Engineer Murray M. Smith.

The council also authorized Mr. DeBoer to advertise for bids for the trimming of trees in the city, which is expected to start in about another month or so. The estimated cost is \$6,000 and is provided for in the 1957-58 budget.

Mr. DeBoer said that it is proposed that trees be trimmed in an area bounded by Charlevoix, Grosse Pointe boulevard, McMillan and Kerby, in the following streets: Meadow lane, Muir road, Mapleton road, Lewiston road, Kenwood road, Moran road, Merriweather avenue, Stephens road, Cloverly road, Touraine road and Vendome road.

This is an early winter job, the city manager said, and as many trees as possible will be trimmed, as long as the cost does not go over the sum provided in the budget.

## Sunday Gala Given By Herbert Harts

Champagne Breakfast Sunday at Grosse Pointe Yacht Club Attended by 135 Guests; Mrs. Hart Receives Guests in Black and Rust Crepe Frock

Mr. and Mrs. Herbert W. Hart, of Windmill Pointe drive, anteceded the holiday season with the large champagne breakfast they gave last Sunday, at the Grosse Pointe Yacht Club.

The delightful affair actually was their holiday fete, the hostess said, and the early date was chosen as a change of pace from the Yule season itself, when parties frequently are so multitudinous they

tend to overlap each other. The couple received their 135 friends at noon, taking their places at the head of the grand staircase leading to the ballroom-lounge, scene of the festivities. Mrs. Hart's street-length dress was of black silk crepe distinguished at the midriff with an inset of black net over rust-toned crepe.

Round breakfast tables seating six, eight or ten were charmingly decorated with crystal bud vases holding fragrant pink and white carnations. A vase was set at the table of each feminine guest, to be that guest's party favor.

Throughout, music by a trio gave accent to the happy occasion.

Among the guests were the sons, the David T. Marantettes, Stark Hickey's, the Oscar Olsons, the Ray M. Wythes, Mr. and Mrs. Julian McIntosh, the Arthur J. Rohdes, Dr. and Mrs. Donald Sheets, the Frederick K. Codys, Mayor and Mrs. Louis C. Mariani.

The partial list continues with the William E. Slaughters and Mr. and Mrs. William Breech, of Birmingham; the Ralph Wilsons, Jr., the R. Alex Wrigleys, the Richard Connells, the George A. Gardellas, the William J. Lillys, the William Greens, Jr., the Keller Nissleys.

Still others were the Leo Fitzpatricks, Mr. and Mrs. Bert Cremers, the William Packers, the Mark Beltaires, the Eugene Gargaros, the William Cants, the Harry C. Van Wormers, Jr., and Mr. and Mrs. Henry Hopkes, Jr.

### CASE DISMISSED

U. S. District Judge Edward A. Tamm on November 4 dismissed anti-trust charges against Park, Davis & Company, in Washington.

Judge Tamm said there was complete "lack of evidence of anti-trust law violations." He said further "there was no evidence of conspiracy" on the part of the company to fix prices. The trial had opened on Thursday, October 31.

## Guard Against Gas Poisoning

Now that the time is here to use furnaces and stoves and to keep the doors and windows closed again, it is important that the man of the family should make sure that the heating equipment and hot water equipment is in good condition. Dr. Joseph G. Molner, commissioner of health, reminds Detroiters.

Carbon monoxide gas cannot be detected either by taste or smell and it can be fatal even though it is not detected. It is caused by the incomplete burning of coal, heating gas, fuel oil or gasoline. It may cause death if the person who breathes it is in a tightly closed room or automobile.

If your furnace or stove smokes, it is because it is not burning properly. If you see or smell smoke in your living quarters, it is a danger signal that carbon monoxide gas is escaping into your room along with the smoke. Houses today are more nearly airtight and storm windows help to make them so, but both increase the likelihood that carbon monoxide poisoning may occur in case the furnace is not properly adjusted. These improvements in houses increase the need for intelligent understanding of the way to fire a furnace properly.

If odors are coming from the register of the hot air furnace, have the firepot and fire dome examined by a good furnace repair man. The fire should burn with a clear flame and not be smothered so that it will form gas. When you add coal, keep it on one side and leave a free-burning fire on the other side to prevent formation of smoke and gas and get the greatest amount of heat from the coal. All gas-fired hot water heaters should be properly connected to a fue opening to the outdoors.

You should make sure that your furnace is clean and that

### CANE SEATS

When cane-bottom chairs start to sag, wash them thoroughly with hot water and dry them out doors so they'll shrink up tight. To preserve the cane, give it a good coat of clear varnish when it's almost dry.

CITY BANK OPEN HOUSE BEGINS TODAY

Drive-In Service, Ample Free Parking Among Features of New Banking Office

Today and tomorrow City Bank guests have an opportunity to view the most unique neighborhood bank office in Metropolitan Detroit.

The new structure, located at the corner of Mack and Cadieux Streets, has been cited as one of the most unique bank facilities of its kind in the area.

This new banking office facility will offer a complete range of services, including safe deposit box facilities (see separate story, next page).

Exterior materials make extensive use of glass and stone, with architects Wakely-Kushner Associates putting a major emphasis on the texture of construction materials.

The strikingly contemporary building consists of three basic components. They are the circular bank building itself, a rectangular bank supply building, and a cross-walk covered with a sweeping colonnade which unites the two buildings.

Glass and Stone

Glass and earth-colored stone dominate the main building, with brick and stone materials used in the rectangular storage unit blending the two into an harmonious, functional whole.

Natural walnut wood dominates the building's interior as tastefully executed earth colors are brought in from the building's exterior to provide an harmonious, home-like quality to the interior.

The sweeping tellers area will house eight windows.

Drive-In

Drive-in windows will permit customers to make deposits and withdrawals without leaving their cars.

A three-ton Mosler vault door will guard the massive ground-floor vault.

Outdoors is also brought inside through the generous use of living plants. A major planter separates the branch manager's office from the customer area of the bank.

Among other innovations in the building area is a desk-height customer check desk, which permits customers to relax in comfort as they prepare to transact business.

One of Fastest Growing

The new office was established to serve the East Side—Grosse Pointe area, and, according to bank officials, to extend the services and facilities of one of Michigan's fastest growing banks to one of the fastest growing communities in Metropolitan Detroit.

The bank's main office is located in the Penobscot Building.

List Officers

Officers include President John H. French, Jr.; Executive Vice President, Everett W. Barber; General Vice President, Lewis Brooke.

Vice Presidents: Gaston A. Beigneul, Hugh B. Dunbar, Walter F. Finan, Pearce Follow, James M. French, Henry Graham, Chester J. Meldrum, Emmett E. Sullivan, Kenneth M. Wheeler and Walter A. Wilson.

Vice President and Cashier: Charles D. White.

Assistant Cashiers

Assistant Cashiers: Vincent J. Bronsing, Wiley E. Galbraith, James J. Green, L. Francis Harris, Walter C. Jackson, Victor L. Stock, Kamma K. Lambert, Lawrence B. O'Bryan, Thomas L. Peters, Charles F. Seyferth, James A. Spaulding, Walton B. Moore and Joseph Trombley.

Auditor: Otto D. Marquardt. Manager Credit Department: Dayton E. Apling.

Trust Department: General Vice President and Senior Trust Officer: Lewis Brooke.

Assistant Trust Officers: Claude E. Angus and F. Walter Urch.

Bank Directors are listed on next page.

Why City Bank Pays 2 1/2 Percent

"City Bank pays the high rate of 2 1/2% on every regular savings passbook account because we feel that our depositors should share in our higher bank earnings," states John H. French, Jr., president. "Everyone knows that interest rates are up, and higher interest on loans results in higher bank income. In keeping with the Nation's current economy, we therefore voluntarily raised the interest rate on all our Savings accounts to 2 1/2% effective January 1, 1957."

NOTICE

Primary purpose of the material on these four pages is to extend a welcome to all of East Side Detroit and Grosse Pointe to share in the open house celebration to be held at the newest office of City Bank today and tomorrow.

The supplement, however, serves several other purposes. It is being published to put before local residents a comprehensive story of City Bank. Special articles on directors of the bank, for instance, have been prepared to acquaint readers with the men who guide the bank's policies.

The supplement also tells of the services and facilities of the new neighborhood office.

Special Tours, Gifts, Surprises Among Features Planned for Two-Day Event

Special behind-the-scenes tours and a wide assortment of gifts will go to visitors today and tomorrow as City Bank stages one of the largest grand opening celebrations to take place in the East Side—Grosse Pointe area.

The Thursday and Friday event celebrates the official opening of City Bank's ninth office.

The event, which began at 10 a.m. this morning, will continue through 9 p.m. tonight.

Tomorrow, the bank will open at 10 a.m. and will remain open in the evening until 9 p.m. to permit evening shoppers to participate in the event.

Free Gifts

A wide assortment of free gifts will be distributed to all visitors, including numbered and registered loss-proof key chains, and quality varnished hardwood yardsticks.

There will also be special gifts for the ladies and for children.

Special new-account gifts will include a valuable array of free gifts, including such items as stadium blankets, Argus previewer sets, Colonial spice sets and kitchen implements (see story at left).

Special Tours

The special tours have been arranged, according to bank President John French, "to permit our new friends to have a complete look at our newest neighborhood office."

"Guests," French said, "will be permitted to take guided tours behind tellers' cages into the bank's vaults, see the employee lounge and office facilities, and to view and actually operate the bank's automatic drive-in window."

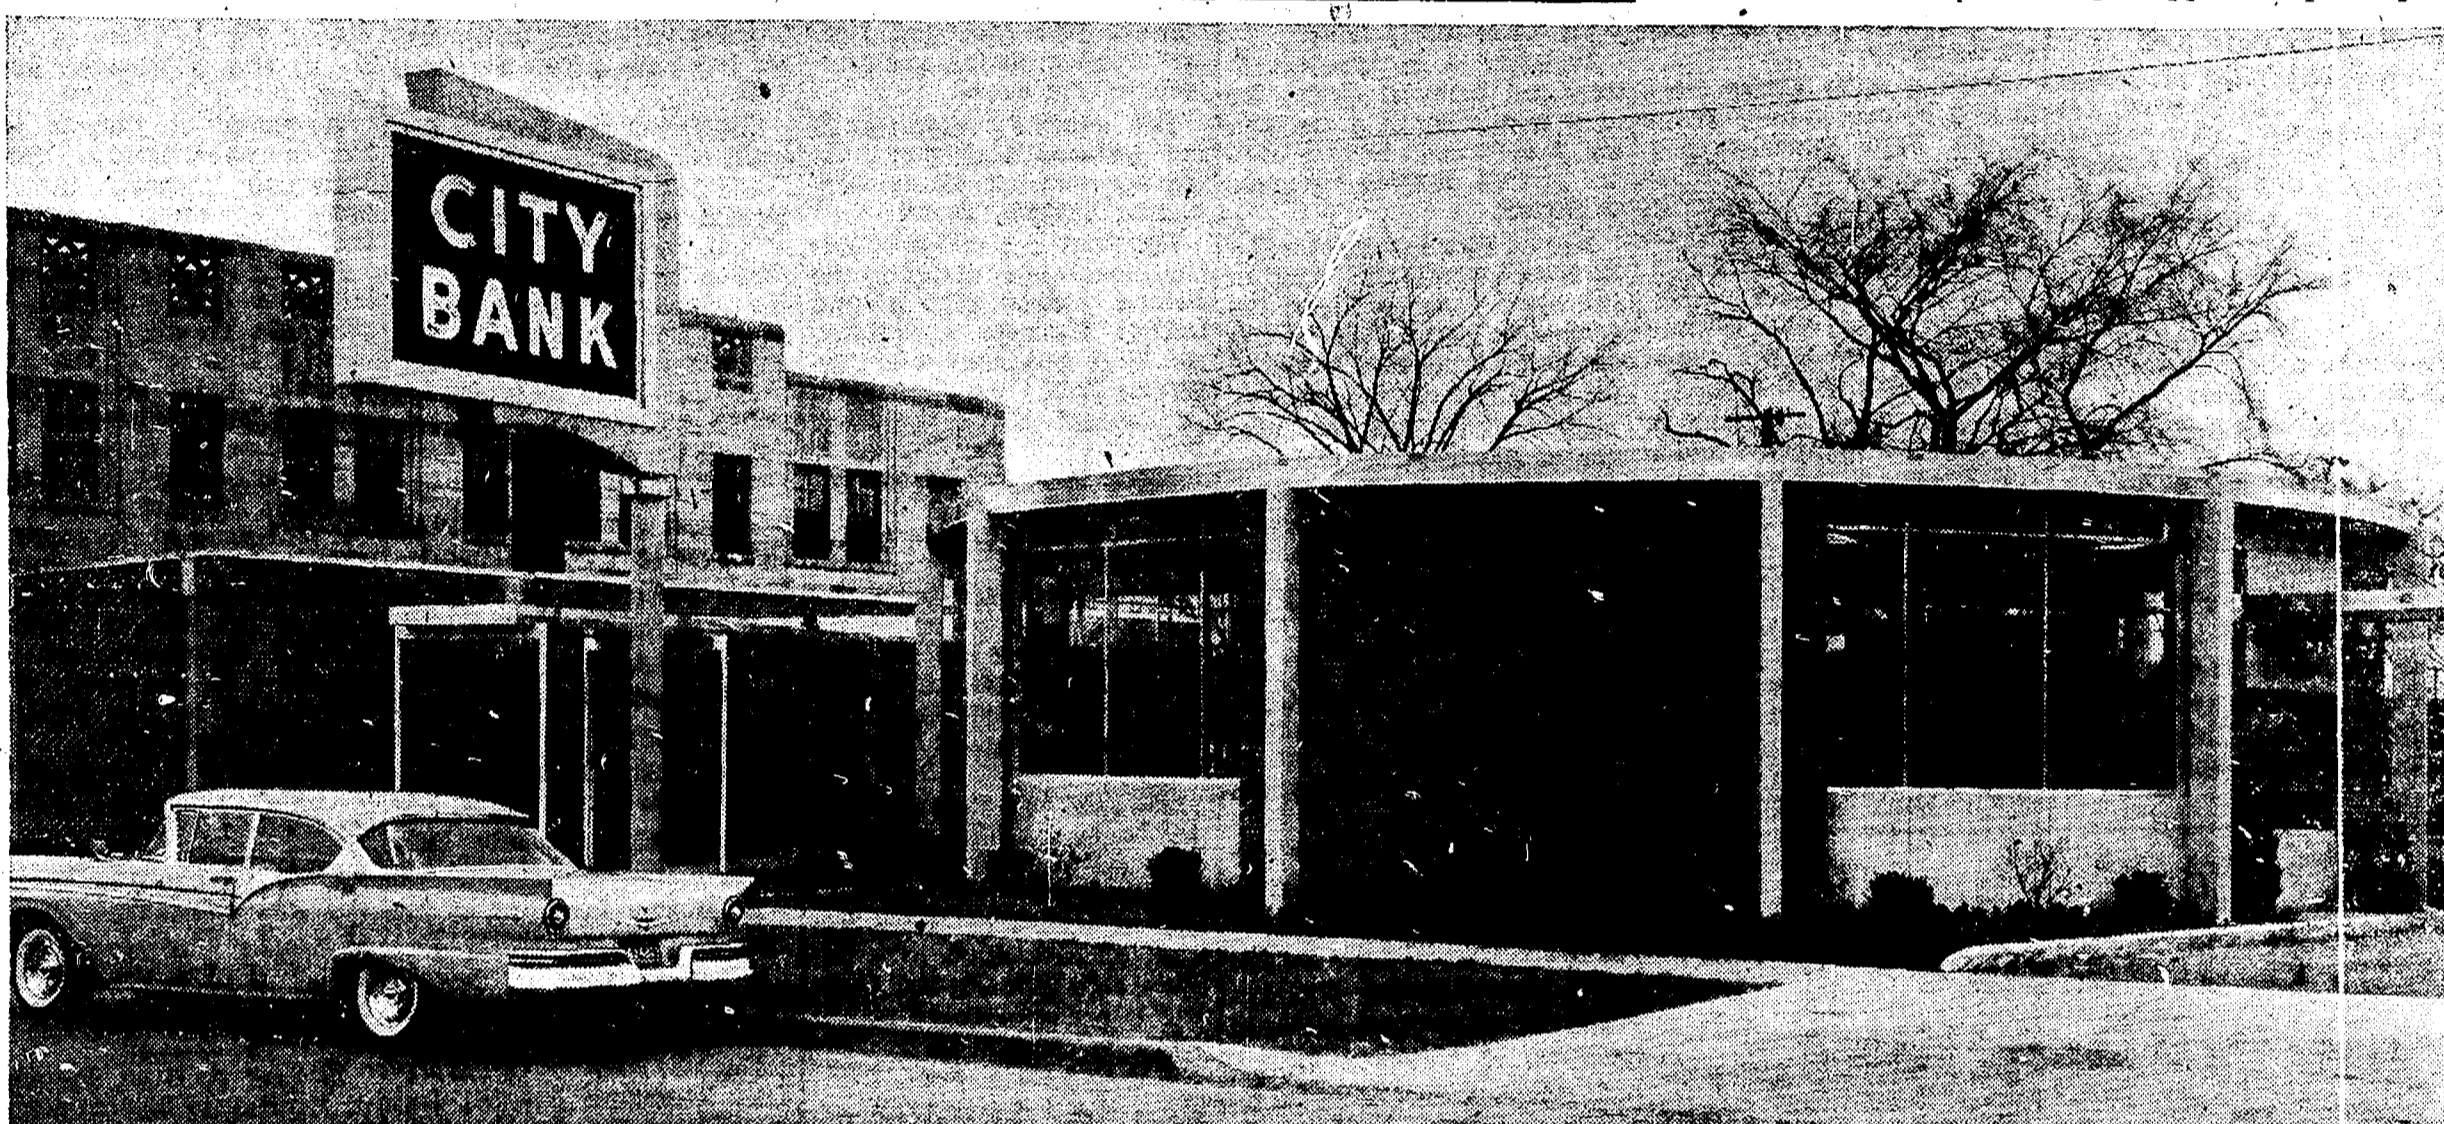

Ideal Time

"We feel this is an ideal time to give guests a comprehensive understanding of the physical operations of a bank." Banking business will be conducted on both days, and during the evening hours, for the convenience of guests, French noted.

"We hope every family in the area will make it a point to attend," he said. "We are hoping to show everyone an extremely fine time... and we are sure they will find a visit to their new neighborhood banking office a rewarding and fun-filled experience."

Special Contests

Special contests, including a guessing game for the youngsters, will be climaxed by the presentation of two special gifts: an English bicycle for the youngsters, and a Westinghouse color TV set for adults. Details of the contests can be found on page 17.

New beauty has come to the East Side Detroit-Grosse Pointe area, with the completion of one of Michigan's most unique branch bank offices. Shown above is the new home of City Bank in this community. Located at the corner of Mack and Cadieux, the branch office consists of two distinct structures united by a sweep-

ing colonnade. The circular building at right houses the bank lobby, vault, and all bank working areas. The rectangular building contains bank supplies, the employee lounge and working equipment. Scene of a two-day gala open house which began at 10 a.m. this morning, the bank is offering a wide variety of free gifts

and prizes to celebrate completion of the office. A free bicycle, a color TV set, free hardwood yardsticks and loss-proof keychains are among the prizes and gifts featured at the celebration. Families throughout the entire area have been invited to participate in the event. City Bank pays 2 1/2% on all passbook savings.

## Board Chairman R. E. Reichert Is 'Father of F. I. D. C. Insurance'

If it were possible to sum up the greatest contribution of a man's life in a single sentence, probably a newspaper headline of the past best typifies the life of City Bank's Board Chairman.

Headline of a story devoted to Rudolph E. Reichert calls him the "banker who saved depositors millions."

Today, with over a full half-century of banking behind him, Mr. Reichert is undoubtedly the best known and most widely discussed banker in the state.

### Personal Energy

It was because of his personal energy, his disregard of tradition, his personal financial concepts that thousands of families throughout the state were saved financially during the bank holiday of 1933.

One newspaper comments that "Thousands of Michigan men and women of middle-age and older have their homes paid for or are debt-free because of 'Rudy' Reichert. His determination saved more than 98 per cent of the \$229 million dollars owned by depositors in 232 state-chartered banks."

### Established FDIC

It was also Reichert who collaborated with the late Senator Arthur H. Vandenberg in the conception and drafting of an amendment to the Federal Reserve Act of 1916, setting up the Federal Deposit Insurance Corporation.

The man who made these unforgettable contributions to local, state and national bank history began his financial career as a messenger at the Farmers and Mechanics Bank in Ann Arbor fifty years ago.

### To Lansing

In 1910 Mr. Reichert went to Lansing with the American Savings Bank, only to return later that same year when he was appointed assistant cashier and director of the German-American Savings Bank in Ann Arbor.

Five years later when that bank consolidated with the State Savings Bank, Mr. Reichert continued in this capacity. In 1923 he was named cashier of that bank, a position he held until 1927 when he was appointed State Banking Commissioner by Governor Fred W. Green.

So successfully did he fill this position that three succeeding governors—with both Republican and Democratic affiliations—kept his appointment operative for nearly ten years.

### Three Governors

Along with Governor Green, he also served under Governors Wilber M. Brucker, William A. Comstock and Frank D. Fitzgerald.

According to Carl Muller,

R. E. REICHERT

Detroit News political writer, "One of Governor Comstock's campaign promises was to fire Reichert, a staunch Republican."

"That was before he became acquainted with the affable, soft-spoken but determined Reichert."

The Democratic governor, whose mind was his own, decided that the Republican Banking Commissioner was indispensable to him, and fought in political parleys in his support."

### Sound Procedures

As State Banking Commissioner, one of Mr. Reichert's innumerable responsibilities was to determine how sound banking procedures could be preserved in Ann Arbor.

Through what seemed limitless red tape and endless detail, he accomplished his job—forming through the combined assets and deposits of three Ann Arbor banks a strong, stable organization which was later to be known as Ann Arbor Bank.

### Accepts Position

The choice of a top executive for this new, strong bank was obvious to its first board of directors, and Mr. Reichert accepted the position.

In 1949 Mr. Reichert played a major role in the founding of City Bank, serving as a Board member from that time. In 1953 he was elected Chairman of the Board, a position

as medium by which the transaction takes place. According to City Bank, President John H. French, Jr., the "drive-in" window was installed "as an added means of helping bank customers conduct business as rapidly and as easily as possible."

## 'Round-the-Clock Service With Depository

Loan payments or deposits of all types can be made after hours at City Bank through the use of the bank's 24-hour depository located to the right of the bank's main entrance.

This convenient depository is designed for use by customers who cannot bank during conventional hours.

The depository utilizes miniature one-way doors, a special chute and a safe that is located inside the building.

Deposits are registered the following morning.

The 24-hour depositories are also available at all other offices of City Bank, including the main office in the Penobscot Building.

## Bank-By-Mail Service Popular With Customers

Banking by mail—for both commercial and increasing account holders—is increasingly popular among City Bank customers. The bank provides special "bank-by-mail" postage paid envelopes which are specifically designed for mailing deposits.

Customers may enclose checks, money orders, or drafts for deposit.

Upon delivery, the bank records and receipts the deposit and returns the stamped receipt—plus another "bank-by-mail" envelope—to the customer.

This streamlined service allows customers to bring in the comfort and convenience of their homes—in effect, making their bank offices as close-at-hand as the corner mailbox.

"Bank by mail" envelopes are available upon request at any teller's window.

## Trust Services Popular With Most Individuals

Trust Officers at City Bank are finding that they are devoting more and more of their time to assisting bank customers in planning their Estates.

As a result, a substantial increase in personal trust business is noted, particularly in the field of wills, living trusts and as managing agent for securities.

In the work of Estate Planning, the Trust Officers report a favorite trend by individuals in favor of selecting a corporate fiduciary (such as City Bank) to handle their Estates.

City Bank has full trust powers and is authorized by the State Banking Department and the Federal Reserve Board to act in all fiduciary capacities. For information concerning any trust service in which you may be interested, call our Trust Department at the Main Office (Woodward 5-1900).

COMPARE — We invite you to compare our generous 2 1/2% savings interest rate with your present interest earnings.

## Color TV, English Bike Are Prizes

Two special prizes will be awarded at the grand opening celebration which begins today and which lasts through tomorrow night at the new City Bank Mack-Cadieux office.

A Westinghouse color television set and console-type stand will be given to the lucky visitor who holds the winning drawing ticket, and a free English bicycle will be given to a youngster in a special kiddie contest.

FREE "COLOR TV" All visitors will be given a coupon for the color television set drawing. Guests will write their names and addresses on the tickets and deposit them in special boxes in the bank lobby.

A drawing will be held on Friday, Nov. 15, and the winner, upon presentation of his winning stub, will be awarded the free color TV set.

The bicycle will not have to be present at the drawing to win. The bicycle will be awarded to the youngster who comes closest to guessing the correct number of pennies in a special glass bank in the lobby.

The bank, a replica of City Bank's new banking office, will be filled with an undisclosed number of pennies. Special guessing coupons will be available for youngsters to fill in with their names and addresses—and with their lucky guess.

The youngster coming closest to guessing the exact number of pennies in the bank will be declared the winner. In case of ties, duplicate prizes will be awarded.

The contest is open to all youngsters 16 years of age or under.

## Color, Contemporary Fixtures Dominate Lobby

Beauty at its best shows in this dramatic interior shot of the new City Bank neighborhood office at Mack-Cadieux. The office, which opened for business this Monday, will attract thousands of area residents today and tomorrow for a gala two-day grand opening celebration. Innovations guests will find in the lobby will

include sit-down check desk and sweeping tellers area shown above. Warm earth colors dominate the lobby, which has been designed to create a homelike atmosphere for bank customers. City Bank pays 2 1/2% annually on all passbook savings accounts.

## Cite Free Gifts to Be Given to All Visitors During Gala Opening

Valuable free gifts will be provided for all guests who visit the new City Bank East Side office during its two-day gala opening here.

Among the free gifts available to each guest will be a valuable numbered and registered key chain which makes it all but impossible for the owner to lose his keys.

Here's how the unique gift works:

Each key chain has, stamped into a metal disc, a different code number. This number also appears on a special name card attached to the chain.

At the open house, each guest fills in his name and address on the card, and deposits the card in a special container in the bank lobby.

The bank keeps the cards on record.

Instructions on the key tag tell the finder to drop keys into a postal box. Lost keys, in this way, are forwarded by the post office to the bank.

Bank Notifies Owner The bank, upon receiving a set of lost keys, looks up the identifying number and calls the owner to come to the bank and pick-up his lost keys.

It's as simple as that. Visitors will also be given

—on a one-to-a-family basis—a highest-quality hardwood yardstick. The yardsticks measure 1/4 inch in thickness and are virtually unbreakable.

Something for Everyone Flowers will also be distributed to all ladies visiting the open house and, balloons on colorful sticks will be given to all youngsters.

"We want to have something for everyone who pays us a visit during this important opening event," notes Bank President John H. French.

"We think it's an important occasion for East Side—and we hope to make a lot of new friends here."

THIS DRIVE-IN OPERATION PHOTOGRAPH, taken from outside the window, shows how a customer simply drives up to the window and transacts business—in a matter of seconds.

THIS GIANT MOSLER VAULT DOOR guards 620 safe deposit boxes available to customers for low annual rental fees. The three-ton door consists of a number of intricate time-lock mechanisms. Customers who lease safe deposit boxes now will enjoy free rental for the remainder of this year.

THIS DRAMATIC VIEW OF THE CITY BANK LOBBY offers just a glimpse of the many architectural innovations built into the new branch office. Guests at the two-day open house will enjoy special gifts for customers who open new savings accounts. Special prizes and a great deal of fun and excitement have been planned by the bank to make the event a memorable one.

### From Another Pointe of View

By Patricia Talbot

Wending their leisurely way through the nation's Southland are Mr. and Mrs. Mark C. Stevens with an exciting climax to their fall's trip covering them November 15 in Galveston, Tex.

Over the past week-end they were at the University of Virginia for Saturday's football game. They were headquartering in Richmond for a few days. Mrs. S. is a Virginia gal (one of the FFVs in fact). Williamsburg is on their travelogue for this week and they will be there for a convention of the English Speaking Union.

Then they will stop off in New Orleans and Houston, Tex., for visits with old friends before boarding the freighter in Galveston that will take them to South America. They hope to be home on December 7 but this will be too late to join their son-in-law and daughter, Mr. and Mrs. John Robert Sutton III for their holiday trip.

The Suttons will leave their St. Clair Shores home the week-end before Thanksgiving to welcome home some old friends from Japan. They will stay in Indianapolis with the John K. Bosserts, who have just returned from Army duty in the Orient, and bring them up to date on god daughter, Betsy Ann Sutton's progress while they've been away. Then the Suttons will spend Thanksgiving at the Farmington Country Club in Charlottesville, Va.

Mr. and Mrs. Ralph Thomas will return to their Merriweather road home the day before the big turkey festival from several weeks at the Royal Hawaiian. They flew to California and then to the Islands with plans to come back by boat and stop for a few days in Phoenix, Ariz.

### Hunt Club Harvest Party

At the Hunt Club they are gathering cornstalks and other produce from the lush fall fields for a grand Thanksgiving Harvest Festival on November 16.

Felix Resnick, who plays with the Detroit Symphony Orchestra, will perform for the black tie crowd at the gala. Boned Cornish game hen and wild rice will be starred on the menu.

President's wife, Mrs. Alfred R. Glancy, Jr., will be home from New York to head up the decorations committee which includes Mrs. Jack Renchard, Mrs. William Champion, Jr., Mrs. Donald A. Martin and Mrs. Navarre Bennett.

Reservations for the dinner dance have been made by Mrs. S. H. Pardee, Dr. Charles McCarthy, Mr. and Mrs. Charles Bachrach, Mr. and Mrs. Julian McIntosh and Mr. and Mrs. John Mulford.

AAUW Presenting "Robin Hood" Production of Michigan State University Players at Pierce School At 10:30 a.m. and 2 p.m.

Final preparations are underway for the Michigan State University Players' presentation of "Robin Hood" at Pierce Junior High School this Saturday, November 9, at 10:30 a.m. and 2 p.m. The play is being given under the sponsorship of the Grosse Pointe AAUW as a part of its Children's Theater program.

Advance ticket sales indicate a good crowd according to the Children's Theater chairman Mrs. Stewart Kerr, who urges as many as possible to buy tickets in advance to avoid a rush at the box office. Many children will attend in groups—one of these being 40 Brownies from two troops at Mason School.

The story as it is being played includes many of the most popular Robin Hood tales and daring characters. Children attending the afternoon show will have the added thrill of meeting Robin Hood and his men following the play.

Ushers, all of whom are members of the Alpha Y-Teens from the High School, will be, for the morning show: Kay Kerr, Sharon Georgi, Joyce Rueter, Linda Zeeb, Jere Spreckell, Joyce Robbins, Dolores Mashinske, and Carol Smith. In the afternoon: Kay Wunsch, Sherry Leslie, Nancy Ruby, Sandy Stankrauff, Sue Ludwig, Dianne Lynn, Barb Bowles, Barb Morrow, Kay

Kerr and Sharon Georgi. Proceeds from the play will go into the AAUW fellowship fund which gives outstanding college women an opportunity for further study and research. The AAUW Fellowship committee headed by Mrs. Albert Conkey, is largely responsible for advance ticket sales.

## Play to Give Hospital Help

On Saturday, November 16 at 8:20 o'clock, the members of the Detroit Memorial Hospital Auxiliary will take over a section of seats at Masonic Temple for "The Rivalry," Paul Gregory's production of Corman Corwin's new play which comes to Detroit for one performance only during the course of its cross-country tour.

Heading the brilliant cast of Gregory's latest stage hit are Raymond Massey who appears as Abraham Lincoln, Agnes Moorehead as the beautiful Adele Douglas, and Martin Cabel, playing the role of the fiery Senator, Stephen A. Douglas.

Norman Corwin directs his own play which has been acclaimed by critics as not only a thrilling and thought-provoking drama, but wonderfully entertaining throughout.

As he did in his previous stage hits such as "Don Juan In Hell," "John Brown's Body," "The Caine Mutiny Court Martial" and "Three For Tonight," Gregory assembled a cast for "The Rivalry" equal in importance to Corwin's great play.

The funds raised by this benefit will be used to equip and remodel the Pediatric Clinic at Detroit Memorial Hospital.

Tickets are available by calling the Detroit Memorial Hospital and asking for "The Rivalry" or by contacting the Auxiliary of which Mrs. John Wilk is chairman, Mrs. W. Thorn Conner, co-chairman. ## Study of Water Being Made By League of Women Voters

"Living Waters," an excellent colored sound film produced by the Michigan Department of Conservation, will be one of the feature attractions at the general meeting of the League of Women Voters to be held tomorrow, Friday, November 8 at 1 p.m. in the War Memorial Center.

The film tells the story of water—how, it rises from the seas, collects in the clouds, descends to earth in the form of rain and snow, and serves man's needs on its way back to the sea. The core of the so-called "water problem" lies somewhere in between the beginning and ending of the water story, where man interrupts the cycle, uses and/or misuses the water.

The other attraction of the League's meeting will be John

P. Cushman, attorney with the Wayne County Road Commission, who will speak on the subject of flood control, drainage, and pollution in the Metropolitan area, and will explain how federal agencies will participate in the Rouge River project.

Mrs. Clarence Koebbe, of the League, will be in charge of the meeting, and has stated that it will be open to the public. Guests will be welcome. Tea will be served following the meeting.

The November unit meetings of the League will also deal with the study of water. At these meetings, members of the Resource committee will lead discussions of the organizational field set up by our federal government to deal with the problems of water pollution, soil and forest conservation, flood control, and irrigation. Anyone interested in participating in these meetings, as well as regular League members, will be welcome, as they are open to all Pointe women.

The first of the Unit meetings will be held in the home of Mrs. Harcourt Caverly, 1173 Audubon, on Monday, November 18, from 10-12 a.m. Leading the discussion will be Mrs. R. J. Metzler.

Also, Monday, November 18, will be an evening at the home of Mrs. James D. Connelly, 1179 Erys Drive, from 8-10 o'clock where the discussion will be led by Mrs. J. D. Palkowski.

On Tuesday, November 19, the meeting will be held in the home of Mrs. Patrick Frank, 1343 Harvard, from 8-10 p.m. The discussion leader will be Mrs. James Graves.

Mrs. Miles McKee will be the discussion leader at the meeting to be held in the home of Mrs. Melville Collinson, 704 Westchester, on Monday, November 25, from 1-3 p.m.

On Tuesday, November 26, the meeting will be held in the home of Mrs. Frank Komerska, 1741 Allard from 1-3 p.m. The unit leader will be Mrs. F. M. Touseley.

Company, was announced by Roland Paulin, vice-president and manager of operations of the utility.

Mr. Cramer, who joined Michigan Consolidated in 1936, has served as specifications engineer in the company's engineering department since 1952.

Announcement of the retirement of V. Y. Tallberg, of Ford Motor Company's Engineering Staff, brings to a close a long, colorful engineering career that began in Sweden, reached to Germany, and later figured prominently in the postwar growth of Ford's facilities here.

Desk work and administrative responsibilities, which took so much of the executive's time in recent years, now will yield unreservedly to Mr. Tallberg's hobbies of fishing and photography.

As chief engineer of the company's operations in Germany during the hectic days leading up to World War II, Mr. Tallberg distinguished himself for courage, leadership and his ability to organize.

As an administrative chief here in the past decade, he directed a ten-fold expansion of the company's central engineering team, from a post-war nucleus of 1,000 persons to its present employment of 10,000.

He held the key role in the planning of Ford's new Research and Engineering Center, a \$150,000,000 group of en-

gineering buildings, which when completed next year, will provide more than 3,700,000 square feet of floor area for the design and development of Ford products.

Born in Stora Tuna, Sweden, on June 12, 1901, Mr. Tallberg attended the Technical Institute at Sala and earned a degree in mechanical engineering. He started his career in the engineering department of Sweden's largest steel mill. A keen interest in automobiles brought him to Detroit in 1922.

Mr. Tallberg became a tool designer, assisting an uncle, Martin Tallberg, who produced the first die cast automobile hardware in the motor city. He was employed by several automotive firms before joining Ford Motor Company's International Division on March 14, 1928.

The next 12 years were spent abroad helping to organize Ford operations in Germany and directing engineering there. One of his early tasks was to assist in establishing a dealer organization there. During this recruiting period he traveled from town to town in a Model A Ford, sometimes even helping the new dealers build their shops and show-rooms.

During the 1930's Mr. Tall-

berg headed engineering operations at the company's prewar Cologne, Germany, plant which manufactured several Ford products, including the predecessor of today's Taunus car.

Upon his return to the United States in 1940, Mr. Tallberg served in various capacities within Ford Engineering Staff. During the war he was in charge of development here of the American version of the Bren gun carrier.

In 1946, he was appointed administrative engineer for Engineering Staff, and in 1950, executive engineer, administration. He was named executive assistant to the vice president—engineering in December, 1954, and became special assistant to the vice president—engineering and research in March, 1957.

Mr. Tallberg is well known and highly regarded in the engineering profession here and abroad. In recent years poor health has forced him to curb some of his activities. He

is a member of the Society of Automotive Engineers, Engineering Society of Detroit,

(Continued from Page 12)  
one-room rural school in Kentucky.

Among the novels portraying the teacher, "Good Morning Miss Dove" by Frances Gray Patton, published about three years ago, still enjoys a wide circulation. Miss Dove is a stern disciplinarian with old-fashioned ideas and ideals but when she is suddenly stricken in the classroom, the whole town comes to realize how much Miss Dove has meant in their lives. She is a gentle kindly character not without humor, as endearing as the lovable English schoolmaster made famous many years ago by James Hilton in "Goodbye Mr. Chips."

Harriete Simpson Arnow, whose novel "The Dollmaker" won her much deserved acclaim, wrote some time before her marriage under Harriet Simpson, a moving story "Mountain Path." This book is now out of print but your library still has a copy. Again, hats off to the teachers!

### St. Paul 78ers Still Unbeaten

St. Paul School's barreled over a tough St. Phillip team, 34-6, at Kerby Field, Friday, October 31, to extend their unbeaten streak to eight games.

Quarterback Chiclie Heiner led the attack, scoring in the first quarter on a two-yard sneak. Jack "The Ripper" Watcher, 78ers' left half, followed with a touchdown in the second quarter on a 12-yard scamper.

Following a St. Phillip score in the third period, the 78ers went into high gear with a three touchdown surge, packing the biggest scoring punches into the final eight minutes of play.

Heiner led the final assault with a 1-yard touchdown quarterback sneak and Watcher added two more tallies on runs of 15 and 35 yards.

Steve Handlos, the 78ers' chunky fullback, added two extra points on puges. Fred Wissman took a jump pass for a point after and Watcher plunged for a conversion.

It was the sixth win for Coach Al Schick's 78ers against league foes.

The 78ers were to face unbeaten St. David's in a showdown game for the divisional title at De La Salle Field, Tuesday, November 5, at 4 p.m.

### Thomas Weber Given Commission as Ensign

Ensign Weber's first active duty assignment will be aboard the U. S. Coast Guard Cutter Bonham, Coos Bay, Oregon.

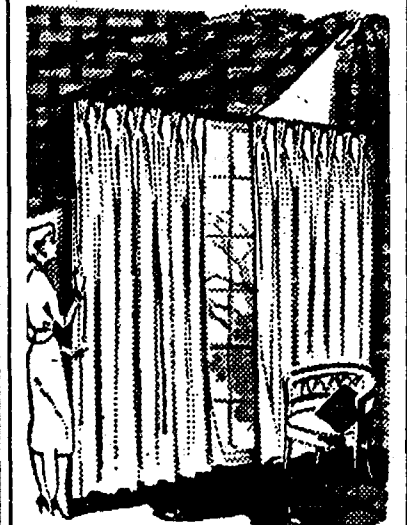

Ensign Weber was graduated from Duke University, Durham, N.C., in 1955 with a BA Degree in Psychology.

### G.P.U.S. Knights Beat H.W. 14-7

The unbeaten Grosse Pointe University School Knights rolled to a 14-7 victory over Harper Woods last Friday, November 1, and stretched their winning streak to five games. To date the Knights have held their five opponents to a meager 36 points and have high hopes of chalking up a perfect season with only two games remaining on the schedule with Lutheran East, November 8 and Detroit Country Day School on November 13.

Harper Woods opened the scoring with a 31-yard touchdown pass from Mallinaro to Case. The extra point was run from scrimmage to put Harper out in front 7-0.

GPUS Knights roared back to tie the score with Greg Dodds crashing over from the one yard line. Jack Pingel kicked the extra point and the teams left the field all tied up at 7-7.

Glynn Conley put the Knights out in front with a one yard line smash and Pingel again converted to give GPUS its winning 14-7 margin in the third quarter.

Harper Woods missed an excellent opportunity to knot the game in the final period when

## St. Paul Lakers Defeat St. Charles by 33-7 Tally

The St. Paul Lakers won their annual Homecoming game last Sunday, November 3, with a smashing 33-7 victory over St. Charles on the Grosse Pointe High gridiron. It marked the fourth consecutive victory in the East Side Second Division Parochial League race and gave the Lakers third place. The Lakers haven't lost a game since the opening one.

St. Paul left no doubt as to who would be the winner of this game when they scored the first of five touchdowns in the first two minutes of play. Quarterback Pat Wright climaxed a 48-yard sustained drive with a 23-yard bootleg which saw him circle right end and score standing up. Wright then passed to end Tom Parker for the extra point and the Lakers were off and running, 7-0.

**Fumble Proves Costly**  
A St. Charles fumble on the kickoff set up the Lakers' second touchdown. The Lakers kicked off and when the ball carrier tried to hand off on a reverse, he fumbled and left tackle John Jantz recovered for the Lakers on the Dragons' 5-yard line. On the first play halfback Russ Beaupre found a huge hole in the Dragon line and scored standing up.

Wright missed his conversion pass play and the Lakers held a 13-0 lead with only four minutes gone in the game. Halfway through the second period the Lakers put together a 55-yard sustained drive which netted them their third touchdown, which was scored by halfback Larry Sznajder from 3 yards out. Fullback Bob Hall swept left end for the extra point.

**Returns Punt 60 Yards**  
Halfway through the second period Russ Beaupre thrilled the crowd with a beautiful 60-yard punt return which gave the Lakers a comfortable 19-0 lead. The conversion was missed.

About midway in the third quarter the Lakers put together a 55-yard sustained drive which was climaxed by halfback Larry Sznajder who went over right tackle from the 3-yard line to score. Full-

back Bob Hall swept left end for the extra point to put the Lakers way out in front 26-0.

St. Charles collected its only score of the day early in the fourth period through the aid of three unnecessary roughing penalties which placed the ball on the Lakers' one-yard line. Fullback Irving Fykes went up the middle for the touchdown and then passed to his left end Joe Thibedeaux for the extra point.

The Lakers got this touchdown back almost immediately when Pat Wright climaxed a 45-yard drive with a six-yard romp over left tackle and then added the extra point with a perfect pass to end Tom Parker who took the ball at top speed as he stepped into the end zone to give the Lakers their impressive 33-7 victory.

**Impressive Ceremonies**  
Halftime ceremonies were just as impressive as the Lakers' victory as the freshmen, sophomores, juniors and seniors paraded their beautiful floats and Homecoming Queen Marge Kaye and her court before the stands. The Junior class was judged the winner of the float contest. The float contained three huge containers of well known detergents, Lux, Tide and Ad. On each container were the following slogans: "Lux" with us; Lakers Turn "Tide" and Lakers "Ad" Another Victory. Emblazoned on the side of the float was "Lakers Clean Dragons."

St. Paul's chances of remaining in third place in the league race appear to be good as they will meet winless Annunciation on the Grosse Pointe High field next Sunday, November 10.

## Blue Devils Grab Title Once Again

(Continued from Page 1)  
halfback Tom Andris fumbled with the Acorns recovering on the Devils' 25. On the first play Jack Ruddick attempted to pass but it was partially blocked and bounced high in the air.

Al Harrant, 235 pound senior tackle, was on the spot and grabbed the pigskin and there wasn't a more surprised guy on the field than this giant. Things began to happen once Harrant's found he had his only chance to run with the ball. The earth fairly trembled as he took off, shaking Acorns from his shoulders like so many flies as he rumbled 20 yards to the Devils' 45.

**Penalized Again**  
Halfback Mike Grow found daylight and rambled 11 yards but again the Devils were penalized 15 yards and the attack was stopped as the horn blew ending the first half.

Midway in the third quarter Tom Andris made up for his second quarter fumble when he broke through on a beautiful trap play and went 5 yards to score. End Larry Bruzesse threw the key block downfield to get Tommy away from the last Acorn defender. Cook booted the extra point and the Devils lead 28-0 with four minutes and two seconds left in the quarter.

Royal Oak threatened late in the third stanza as it drove from its own 38 to the Devils 35, where the Pointers suffered a 15 yard personal foul penalty which placed the ball on the Devil 19. The Pointers were plenty mad about this call and the "destructive" defenders clobbered everything the Acorns tried. Guard Allan Kier stopped the threat when he nailed Mike Omaly with driving tackle, as he attempted to get his pass away, causing him to fumble. End Russ Everett fell on the ball to end the Acorns' last threat on the Devils' 32 as the third quarter ended.

**Acorns Take to Air**  
Early in the fourth period Royal Oak took to the air in an attempt to avert a shut-out. Al Kier nailed Omaly for an eight-yard loss and on the next play end Jim Brown slammed Omaly to the ground, as he was attempting to get a pass away, and he fumbled. Kier was Johnny-on-the-spot and picked up the loose ball on the Acorn 26 and ran like a scalded dog to score standing up. Cook again converted and the Devils chalked up a 35-0 score on the scoreboard with 10 minutes and 11 seconds left in the game.

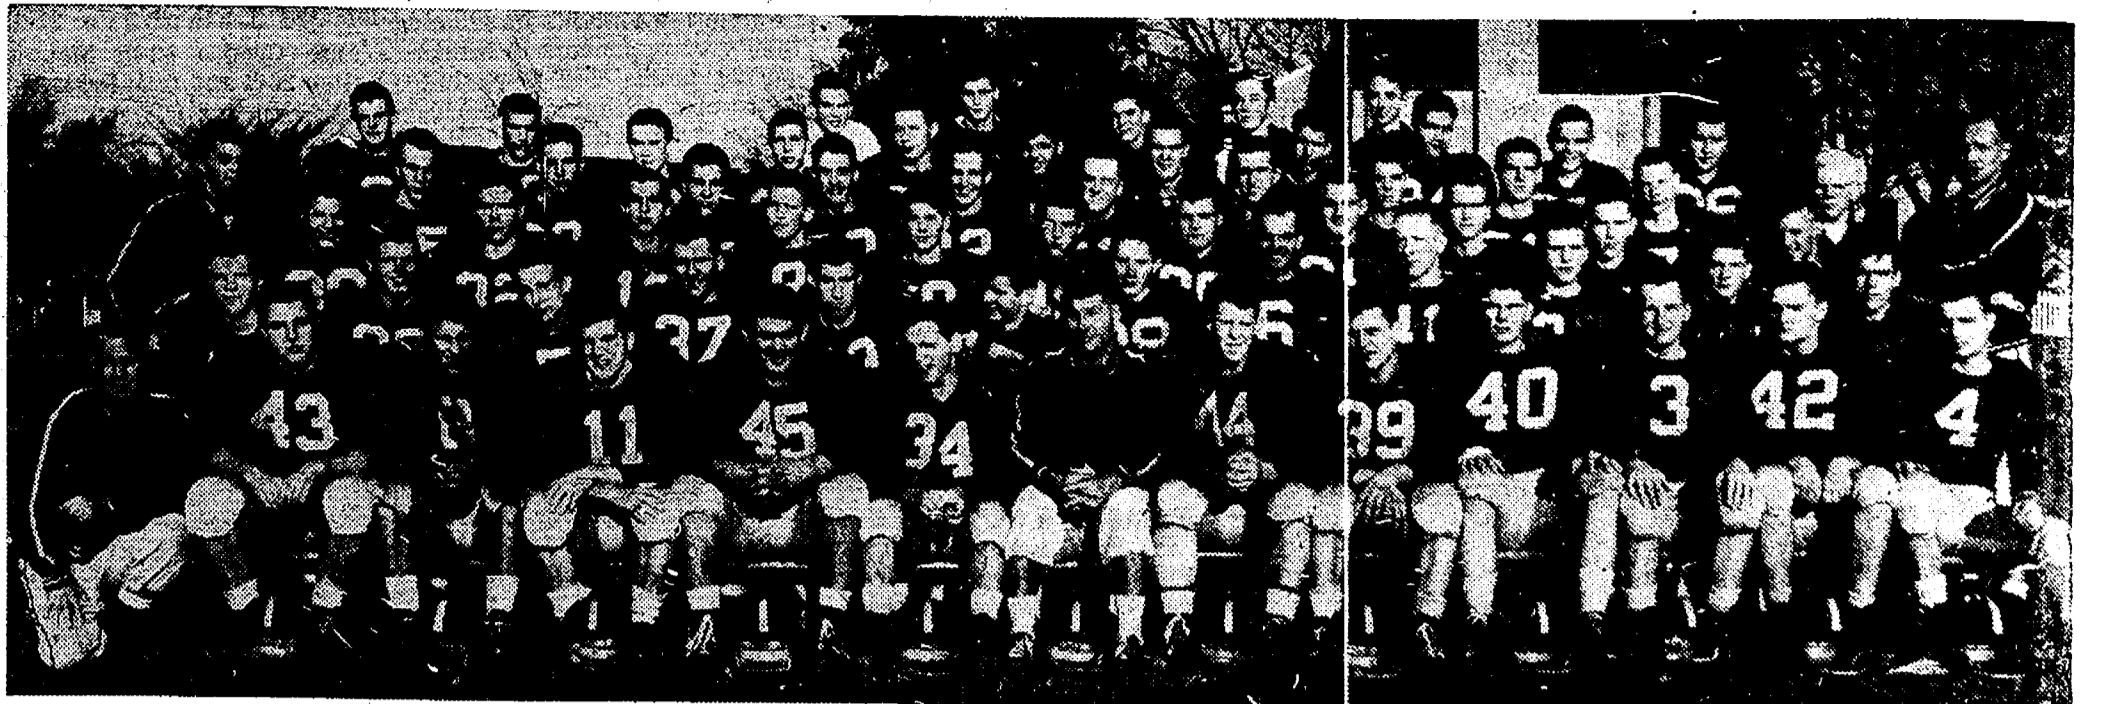

A 15-yard Royal Oak penalty plus repeated losses suffered by the Acorn ball carriers, who were the victims of the magnificent Devil defensive unit, put the ball back on the Acorn 12. Jack Ruddick tried his hand at getting off a pass at this point and Bruce Boardman crashed through from his linebacker position and chased him into the end zone, where guard Bill Crooks tackled him for a safety to give the Devils a 37-0 lead with 9 minutes and 16 seconds left.

**Punts Out of Danger**  
With their backs to the wall, Royal Oak was forced to punt out of danger and Erickson got off a beautiful punt which was taken by Bill Hooth on the Grosse Pointe 34. Hooth tried a reverse hand-off to Boardman, which had worked so beautifully early in the game, but Boardman was nailed by an alert Acorn on the 34.

Boardman opened this attack with an 18 yard run to the Acorn 41 and halfback John Hoye scampered 32 yards to the 9 with four minutes left in the game. On the very next play Hoye broke through, behind beautiful blocking in the line, and went in for the final touchdown of the game and the last to be scored on the Grosse Pointe gridiron this

## Blue Devils New Kings of Border Cities League

The Grosse Pointe Blue Devils locked up the 1957 Border Cities League football championship with an impressive 43-0 victory over Royal Oak on Saturday, November 2. It marked the fifth straight shutout in league play, which establishes a new record. No team since the formation of the league has ever completed the season without being scored upon. The Devils rolled up 150 points to their opponents' zero. Shown from left to right, first row: LINE COACH BUD KURVINK, DAVE LAW, DAVE COOK, ALLAN KIER, AL HARRANT, MIKE CARRIER, HEAD COACH ED WERNET, TONY HERRMANN, BOB MOURAD, BILL CROOKS, DAVE BORDLAND, MIKE MAY and CHUCK HARRIS. ## Goebel Keglers Stretch Lead

Not liking the hot breath of their opponents blowing on the back of their necks, the Goebel kegglers did something about it last Friday, November 1, when they swamped Revere for four points to increase their lead to three and a half points in the Grosse Pointe Businessmen's bowling league. The defeat dropped Revere out of second place and down to third.

Grosse Pointe Recreation took over second place with some record-shattering scores as they bested Larry's for 3 points while setting a new single team record of 869 and a new three game team record of 2721.

Last place Cox and Baker vaulted from the cellar position to sixth place in the 10 team league by taking four points from Woods, which dropped the latter into the basement.

The Wigle team jumped from fifth to fourth with a 3 point win over Adam Simms. The loss dropped the latter to eighth place.

Ernie Borg paced the 200-plus bowlers with games of 205 and 203 and was followed by Dick Warner, 217, Jack Baker, 218, Bob Valade and Harvey Reid 213 each, Jim DeSmedt 210 and Tom Kelley 204.

year, as this was the last home game. Dave Cook saw his string of conversions halted at 14 when his kick was blocked with two minutes and 32 seconds left in the game and the Devils out in front 43-0.

**Rest Is Anti-Climax**  
The rest of the game was anti-climax with Royal Oak attempting, in vain, to score and the Devil defenders halting every effort in convincing fashion.

All that remains now for the "destructive Devils" is the final game against Port Huron next Friday night, November 8, on the Big Reds' home field. A victory over Port Huron can assure the Devils the Detroit Times Suburban Championship. Port Huron has shown plenty of power in its running attack and can seriously threaten the Pointers' defensive game that has given up only

## Friars Nipped By Notre Dame

By Tom Lo Cicero  
For the second week in succession the Austin Friars saw victory slip away in the final minute of play when league-leading Notre Dame roared from behind to convert the tying touchdown and score the game winning-point to win 13-12 on Sunday, November 3.

Just seven days before the Friars saw De La Salle salute a victory in the final 22 seconds.

The final scoring play of the Irish completed a day of frustration for Austin. The Friars lost an 80-yard T.D. pass and an extra point on penalties. They fumbled twice inside the Notre Dame 30-yard line and on another occasion saw a sustained drive stopped just 3 yards short of pay dirt.

Playing its best defensive game of the season, Austin led in every department except the score and kept the heavily favored Irish bottled up in their own territory for most of the game. Notre Dame did not penetrate the Friars' half of the field on a sustained march until all but one minute of the third quarter had been played.

The scoring went as follows: In the second period Austin capped a 50-yard drive with a 4-yard pass from Jim Colombo to Jim Smith. Len Carnaghi booted the ball through the uprights, but a holding penalty cancelled that and put the ball on the 17. On the repeat attempt, a pass play fell incomplete and Austin had to settle for a 6 to 0 margin.

Notre Dame evened the score on the following kickoff when Vic Battani raced up the middle for 81 yards. However, the conversion attempt was no good and it was 6 to 6.

Austin came right back and drove 67 yards to take the lead. Colombo lofted a beautiful 33 yard aerial to Don Vervisch for the payoff. When Bob Miller's plunge for the extra point was foiled, the Friars led 12 to 6.

one touchdown in six games to date.

Port Huron also remembers 1953 when they were all but "in" for the State Class A title and were tripped up by the Devils in convincing fashion, which robbed them of the coveted Crown. They have never forgotten and this could be the year they could even the score. The situation is reversed this time, the Devils are riding high and the Big Reds have been tabbed the underdogs and are just waiting for a big hunk of Blue Devil.

## Kopp's Keglers Cling to Lead

Kopp's kegglers met sixth place Stapleton and notched two more points, Jim's kegglers dropped two points to eighth place Lusch but managed to hang on to second place a half point ahead of Beaupre who dropped two points to Custom One.

J. C. Music and Fox still continued their battle for last place. J. C. dropped two points to Lakepointe while Fox managed two points from Heidi Hi and pulled into a two-way tie for the cellar spot.

Nick Peplinski paced the 200-plus bowlers with games

of 237 and 201 for a 607 which was high for the night. He was followed by Jim O'Brien 210, Fore Fiche 204, Ed Fiche 213, Rick Richard 211.

The New Pool at Parcels Junior High

Two new swimming pools have been put in use for all residents of the community. This one at Parcels Junior High is 75 feet long and 36 feet wide.

The Parcels pool has locker, shower and restroom facilities separate from those in regular athletic area. At Pierce Junior High users of the pool will have to utilize locker and shower room facilities available for students in gym. Each pool is equipped with hairdryers, washing and drying machines for laundering swim suits, filters and purifiers for pool water, and facilities for heating the pool water. The Brownell unit, now under construction, will have a 75 foot pool and more spectator space as the High School varsity will use that pool for its meets.

With reference to the numbers estimated as using the pools, the following should be kept in mind. In the regular school program the boys and girls alternate in the use of the pool. Each sex uses the pool exclusively six weeks at a time with an individual having swimming in place of other physical education classes. Each will swim two or three times a week. In the evening group the classes meet once a week for 10 weeks.

The total swimming per week is an estimate based on the number of sections planned for but not necessarily established at this date. Most beginner groups are filled, however, and other groups are filling up rapidly.

Lions Win Close One With Rams

The All-American Little Football League has its "unofficial" champion as a result of the Grosse Pointe Lions' 13-6 victory over the Grosse Pointe Rams Sunday, November 3, at Neighborhood Club Field. Perhaps it would be more accurate to describe this game as one that crowned the co-champions, as these previously unbeaten and untied teams staged a close and hard fought a game as was produced in the league this season.

The Lions punched out their first touchdown on a series of short gains in the first quarter, with fullback Ed Harrison going over from five yards out. Halfback Tom Brown added the extra point on an off tackle slant.

The Lions used the same prescription of piling up the first downs to add their second touchdown in the second quarter, Tom Brown scoring from the 8-yard line. An attempt into the line failed to add the extra point. The score at half-time stood at 13-0 in favor of the Lions.

The Rams, noted as a "second half team" all season, came back with a vengeance. Halfback Jeff Garberston took Ed Harrison's kick-off to the Lion 28, only to have a clipping penalty return the ball to the Ram 30-yard line. Several plays later Garberston bustered over tackle and scampered 58 yards for the Rams' only touchdown.

The Rams continued the pressure throughout the quarter, advancing to the 26-yard line once and again to the 20 before a stout Lion defense turned them back. The fourth quarter saw the see-saw battle continue with the only serious threat finding the Lions on the Rams 15-yard line with a first down as the game ended.

We have the word of Lion Coach Murray Robertson and Ram Coach Woody Wilson that this was the hardest and best game for both clubs this season, and both were profuse in praise of their opponents. The crowd, estimated at around 1,000 fans, were kept abreast of developments by the excellent play-by-play commentary of CKLW's Toby David. Dignitaries of the Park and City were in attendance. A combination of Lion and Ram all-stars will oppose the New Jersey all-stars November 30 at the High School Field.

Raymond Massey Coming Nov. 16

Raymond Massey, one of the stars in Paul Gregory's production of "The Rivalry," arriving Saturday, November 16, at the Masonic Temple at 8:20 p. m., previously appeared for Gregory in his production of "John Brown's Body" and in a television play, "The Day Lincoln Was Shot."

Continuously busy with his stage and screen commitments, Massey also finds time to act as narrator in the exciting television series, "I Spy." Following a thrilling career as a Canadian officer in World War I, Massey spent 16 years in England, appearing on the screen and producing and directing such hit plays as "Grand Hotel," "Lean Harvest" and "The Sacred Flame."

With reference to his appearance in "The Rivalry," Massey says, "It is a privilege and pleasure to again appear in a Paul Gregory production because his modern staging methods allow an actor a definite freedom of speech and movement that is seldom found in the theater today."

Making a nuisance of yourself until you get what you want is just another form of perseverance.

Cinema League To Repeat Film

"Holiday in Hawaii," a 16 m.m. color movie giving a vacationer's view of Hawaii, will be shown for the second time, by popular request, at the War Memorial Center next Thursday evening, Nov. 14, at 8 o'clock.

The Hawaiian movie was shown a few weeks ago at a regular meeting of the Grosse Pointe Cinema League and more than 75 persons had to be turned away because of the large crowd. The Center has arranged for the second showing for the benefit, of those who were unable to get in before.

TAX EXEMPTION

**How to Profit Through Tax Exemption**  
With today's high tax levels, investors in medium and high tax brackets are turning to tax-free Municipal Bonds for income that they can keep.  
If you have a taxable income of \$10,000 or more, you may be well repaid by investigating the advantages of tax-exempt State and Municipal Bonds. For instance, if you file a single return on a taxable income of \$14,000, you would have to receive a dividend return of 7.45% on a taxable security in order to equal the yield from a 3.50% tax-free Bond. It's something to think about!  
Our New Booklet, "How To Profit Through Tax-Exemption" explains in plain language your need for tax exemption, tells how much these high-grade investments can be worth to you. There's no obligation. Send for copy today, or phone

The above report for the 1956-57 fiscal year is a brief summary of the many financial transactions authorized by your Board of Education in support of the total educational program of The Grosse Pointe Public School System.

The Board of Education wishes to report to the Community that its School System was operated within the budget adopted in June, 1956.

Our current construction program, consisting of the Samuel Brownell Junior High School, the swimming pools at Parcels and Pierce, and the renovation of the Heating Plant at the High School, will be completed during the 1957-1958 fiscal year.

The Board also wishes to report that the 1956-57 budget contained the last tax levy (.925 mills per \$1,000.00 of State Equalized Valuation) that will be required to meet Debt Retirement obligations incurred prior to the year 1932.

**ROYAL GATHERING**—Jester, two-year-old Siamese, is one cat who can't bear to look at a "queen." The "queen" in this instance is Steverino, greyhound pal of TV star Steve Allen. Recently honored as 1957 Queen of National Dog Week, Steverino turned up to crown Jester as King of 1957 National Cat Week in a New York ceremony.

**CAFE DEBUT**—Movie star Ginger Rogers will perform in a cafe for the first time in her career at the premiere of the Havana Riviera Hotel in Havana, Cuba, Dec. 10. Ginger's 30-minute act will consist of singing, dancing and comedy.

**PLAYING IT SAFE**—Trying out a theoretically "crash-proof" car designed to protect passengers from injury even in a 50-mile-an-hour, head-on collision, model Judy Jenks operates the lever-controlled hydraulic system which replaces the steering wheel. The auto, unveiled at New York's Waldorf-Astoria hotel, embodies the safety features devised through a research program by the Liberty Mutual Insurance Co. and Cornell University Aeronautical Laboratory, Inc., of Buffalo, N. Y. Designed to "package passengers like eggs in a crate," according to a spokesman, the experimental car was built to arouse the interest of the public and the auto industry in new safety concepts.

**NO WET BLANKETS**—Since it's a bit cool for bathing suits, Memphis Ski Club members Dorothy Dale Todd (left) and Jane Coll try a water-ski trip across McKellar Lake this way. "Stay dry if you can" was their big challenge to each other before takeoff — and each did pretty well.

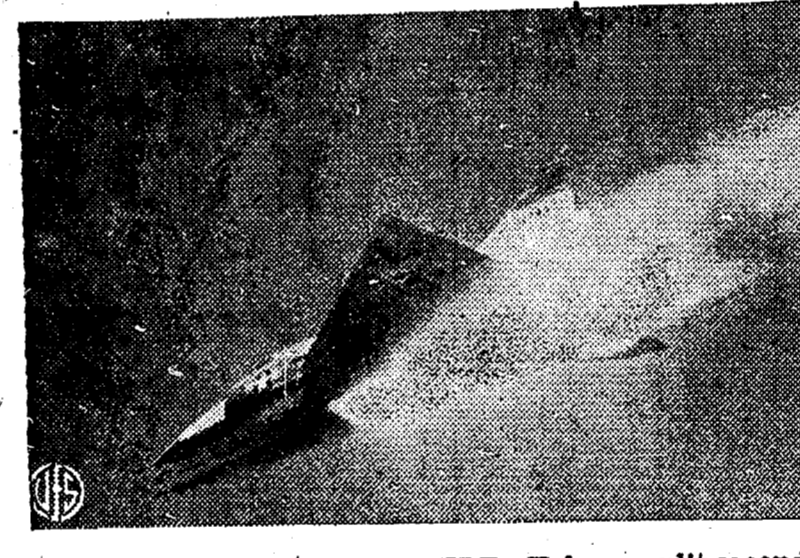

**REVERSE TWIST** — Alexander Shields creates a reversible V-necked pull-over faced with Southwest African Persian lamb and back and lining of Wyner jersey. Shirt and slacks are of matching jersey. The modified English walking cap is also in Southwest African Persian lamb.

**ALMOST HUMAN**—Taken at face value, this photo would seem to prove that machines are ready to take over the world. A machine, on view at the Atomic Trade Fair in New York, takes a photo of itself with one "arm" while stacking blocks with the other. A new electro-mechanical manipulator, it's designed for remote handling of radioactive and other dangerous materials. A master or control unit is connected by an electric cable to the "slave" unit shown here. Units may be a few feet away, city blocks apart or a country mile apart, depending on the length of the connecting cable used. The device was developed by the Borg-Warner Research Center and the Marvel-Schebler Products Division of Borg-Warner Corp., Chicago.

**1958 SWIMMING ENSEMBLE** — Seen at a recent fashion preview of swimwear for 1958, designed by Robby Len, was this two-piece ensemble called "French Swan." It consists of a one-piece strapless sheath and a separate button-down matching skirt with new "balloon" hemline.

**SPLITTING SUPERSONIC FIRE**—Taken a split second apart by a high-speed sequence camera, these unusual photos of a Convaif F-102A Delta Dagger all-weather jet interceptor stop the action of a salvo of folding-fin aircraft rockets during a test firing at Holloman Air Force Base, the U.S. Air Force's armament development center near Alamogordo, N. M. In the upper photo, the first 2.75-inch rockets have left their firing tubes in the missile bay doors on the F-102A's underside and are speeding supersonically toward an unseen target. Lower photo, perhaps two-tenths of a second later, the full blast of exhaust from the aircraft's 24-rocket salvo blends into a homogeneous mass of flame as the leading rockets begin to outdistance the supersonic interceptor.

**BIG CATCH**—Mrs. Peter Perinchief shows off a catch she's proud of after a fishing jaunt off Bermuda. Bringing a big smile to her face is the 26-pound, 12-ounce Blackfish Tuna that she landed on a 12-pound test line while trolling a garfish here. It took Mrs. Perinchief, a Bermuda resident, 30 minutes to bring the big one to gaff. She's claiming the catch as a women's world record and believes it breaks the existing mark for women by 11 pounds. Mrs. Perinchief's husband claims the current men's world Blackfin record in the 12-pound test line category with a 46-pound catch.

**MONKEYSHINES**—Back home after an all-night session of monkey business that turned the neighborhood upside down, Little Bit rests on the shoulder of Johnny Davis in Winston-Salem, N. C. The squirrel monkey had clambered into the top-most branches of a 75-foot maple tree the night before and resisted all efforts, including those of the Winston-Salem Rescue Squad, to get it down. Johnny's mother, Mrs. A. E. Davis, whose family owns the pet, finally coaxed it to earth with a special treat — a breakfast of bacon and eggs.

**COURT STAR**—William P. Rogers, named by President Eisenhower as new U. S. Attorney General, looks good during a backyard basketball game with his sons at their Bethesda, Md., home. The boys are (left to right) Jeffrey, 13; Douglas, 11; and Anthony, 17. Rogers has been named to succeed outgoing Attorney General Herbert Brownell.

**THE HOUSE THAT SLEEP BUILT** — Now that the sandman has left his calling cards, this weary youngster in Rome, Italy, is quick to drift off to dreamland. The little man who's obviously had a busy day is two-year-old Francesco Brambatti. His card castle is only half finished, but it looks as if his sleeping session has only just begun.

Elementary School News

POUPARD SCHOOL William Ferry, Poupard School music teacher, is developing a new plan with his fifth grade instrumental music classes. Formerly, between 75 and 85 percent of fifth grade students took instrumental music lessons. The classes were scattered throughout the day with certain groups, such as trumpets, having music at a given time. The remainder of the class would carry on in their homeroom with what ever lesson they would be having at that time.

With our new plan Mr. Ferry has 100 percent of fifth graders taking, for the most part, the instrument of their choice. They attend music three times a week where basic instruction in all of the instruments is given. Of the various instruments we offer lessons in, 19 are taking clarinet; 17 trumpet; 5 cornet; 4 flute; 14 drums; 11 violin; 1 cello; 1 tuba; 2 baritone; and 1 alto horn. From this list it is evident that a variety of different instruments are being studied. The instruments are made available by the Board of Education for student's use at a nominal fee.

Mr. Ferry is very emphatic

in stating that he is not creating an elementary conservatory type situation, but rather is trying to develop the following points: (1) Acquaintance with all of the different instruments in general and the one of the student's choice in particular. (2) A situation which helps to correlate vocal and instrumental music. (3) To help children to understand and appreciate all of the instruments in the class. (4) Enjoyment of the music experience rather than emphasis upon perfection as a musician.

One of the main points noted

thus far has been the keen awareness and understanding of one student for the other's problems concerning his instrument and the difficulties encountered in learning to play it.

Traffic Deaths Show Decrease

October, one of the worst traffic death months of the year, showed a saving of 28 lives on Michigan highways on the basis of provisional figures compiled by the State Police.

The death toll in October of 1956 was 144 as compared with 116 in the same month this year. The latter figure is subject to some revision upward with final reports.

Final figures for September show that 128 persons were killed and 5,049 were injured in 14,571 accidents.

It was the lowest death toll for September since 1946, when 123 lost their lives. Compared with September of last year, deaths decreased 24 per cent, injuries were down less than one-half per cent, while accidents dropped eight per cent.

For the first 10 months of the year, deaths numbered 1,123, a saving of 220 lives or 15.2 per cent under the total of 1,443 for the same period last year.

The goal for the state this year was a reduction of at least 10 per cent, or 174 under the toll of 1,747 in 1956. Unless there are sharp reverses in November and December this target should be substantially exceeded.

State police warned, however, that November and December are also among the worst, with December being especially deadly because of the combination of bad weather and the holiday season. They urged drivers to renewed effort to avoid accidents.

Students from the Major Art class at GPUS

who were excused from school to hear famed architect Frank Lloyd Wright were Jeanne Bambas, Suzanne Buttrick, Anne Collins, Pat Standart, Margaret Hakken, Melinda Bryan, Krystyn Glancy, and Susan Leach. Miss Diana Silvius is their teacher.

Susie Sisman and Lyn Hallett attended a conference of student council members from all parts of the state on Tuesday, October 29. The conference was held at Ann Arbor

Theater Offers Workshop Play

While the Russians boast of Sputnik and Muttink, the Grosse Pointe Community Theater will unveil its top-secret project of the year... Rocket XR-117... the world's first manned rocket to the moon, when they present "Minus Zero" to members and guests next Monday evening, November 11, at 8:15 at the War Memorial Center.

The first original workshop production of the 1957-58 season was written and directed by Eugene Van Buren, of 402 St. Clair.

Featuring in "Minus Zero" are GPCPT president Al Ber-teel, playing the role of an Air Force major subjected to the rigors of outer space; Bill Shearer, portraying the general supervising Project XR-117; and Don White, cast as the

psychiatrist responsible for the psychological well-being of the rocket's occupant.

Other members of the cast include Dean Erskine, Bob Potthoff and Alex Johnson, a trio whose identity, not yet cleared by Air Force security, will be revealed on the night of performance.

The GPCPT welcomes any residents of the community interested in seeing this production, for which there is no admission charge, as well as anyone interested in becoming a member of the theater group.

Toss of Coin Wins Contract

The Farms awarded a sidewalk construction job to a contractor on a toss of a coin, it was disclosed by City Engineer Murray M. Smith.

This unusual method of awarding a contract came about when two contractors submitted identical low bids.

Mr. Smith said that the John Carlos Construction company and A. L. Greer and Sons company, both submitted a low bid of \$987,50, on Friday, October 25, for the installation of a sidewalk from Meadow lane to the Kercheval alley on the Grosse Pointe High School property.

The portion for the sidewalk was leased from the Board of Education for the purpose.

The tie bids left City Manager Sidney DeBoer in a dilemma, since he is the one who authorizes the awards.

With Mr. DeBoer's approval, the city engineer called Carlos and Greer and asked them to meet with him at the municipal hall, which they did on Wednesday, October 30.

The construction firm heads, at a suggestion by Mr. Smith, agreed to toss for the job.

Carlos called for an even match — and won — the first toss, and the contract was his.

Mr. Smith said that this was the first time in his 30 years experience that two contractors submitted identical bids on a public works job.

The Farms leased the part of the land for the sidewalk, for a period of five years, after which the lease will be renewed on a yearly basis. The city will maintain the walks which will be installed as a safety measure.

Teen agers today who drive their parents mad hanging for hours on the telephone wouldn't have had a chance in the Grosse Pointe of 1903.

Only the large lakefront mansions and the road-houses had the new instruments in 1903 and the Michigan Telephone Co., was very strict with its subscribers.

An edict from the company said: "Profane or obscene language over the wires is prohibited; if persisted in the telephone will be removed. Subscribers are held responsible for the enforcement of this rule. Your contract prohibits the use of the instrument by others. Subscribers are advised not to print telephone numbers on stationery, etc., but to use the phrase "Telephone connection." Servants and children are not to use the telephone."

There were but 20 phones in the Pointe then, but visitors who couldn't use the old fashioned wall instruments with their hand ringers had other opportunities to make a call.

On red, white and blue phone poles all the way from the present city limits to Fisher road, patrons who just had to use the telephone could avail themselves of the "Wayside Service". They could leap from their carriages or Stanley Steamers and plug in their portable phones to the poles and the operator would ask for their number. Dr. J. A. Belanger, the Rev. A. H. B. Nacy and Mathew Kramer owned these devices.

These early operators, Gibson-shirted with long black skirts sweeping the floor, sat at their switchboards in a neat tiled-roof stucco residence on Fisher road just south of Maumee. Some of the sisters of the Pointe's first French families worked for the Home Telephone Co., then. There were two Allor girls, Frances Beaupre and Agnes Machleit among others.

Subscribers to the "East" exchange, which in its turn became Hickory, Lenox, Nigara and now Tuxedo, were in 1898. William K. Anderson, Ralph M. Dyar, August Goebel, C. H. Haberkorn, the Hendries, Henry B. Ledyard, the McMills, the Newberrys, Alexander Lewis, W. Howie Muir, F. T. Moran, the Sacred Heart Academy, the Grosse Pointe Water Works, Rusch House, Michie's Beach House, Charles H. Seitzand and Robert E. Plumb.

Quite a fabulous reunion went on last week-end in the Kitty Hawk bar of La Guardia Airport in the Big City. The post deb crowd flew in from all directions and joined forces after a big whee to fly back together on Flight 120 which landed here Sunday eve at 11:15 o'clock with the reunion party ending up at Al Green's for a final toast.

Bill Howenstein, Eunie Hefferan, Harry Jewett and Mark Smith went down for the Yale-Dartmouth game at New Haven. Joe Hefferan had a party for the visitors on the Eli campus and Dave Cudlip joined the group from Dartmouth.

All the local contingent met Sally Beardslee and Ann Sherer who had just landed from their European jaunt. Rusty Muirhead flew up from the University of Virginia to greet Sally and Ben Paddock went from the Pointe to fly home with Ann. The Kenneth Beardslees, Emmett and Mary Kay Tracy and Clune Walsh were also on hand to greet Sally and join the gay group at Al Green's.

Quite a parking problem Friday night on Lincoln road where bride-elect Jill Schneider and her fiancé, William E. Hosler, Jr., were being honored at a party given by the E. Llywd Ecclestons. At the same time Mr. and Mrs. Frederick M. Alger were winning and dining her brother and his wife, Mr. and Mrs. Albert Dewey of New York, there for a goodbye visit with the Algeres before they flew off to Belgium.

The hundreds of women working for the Grosse Pointe Memorial Church November 14 Christmas Fair heaved a big sigh of relief Sunday when their chairman, Mrs. Henry H. Hubbard, attended services in a trig grey suit and green velvet chapeau. Mrs. H. has moved her address to the East and is just back to superintend the final days of Fair preparation.

Also in the morning church going crowd was lovely Mrs. John Denler in a logan green wool sheath, slit at the hem, the pleats very cleverly outlined in green buttons. Her hat was a matching green feathered cap.

Halloween brought out so many Zorros and no Davy Crockett which is evidence of Walt Disney's power over the young folk, the masked ruder being his newest creation. Out at Barnes School chauffering parents glimpsed a frightening Figi Islander to whom they gave kudos for the best costume. At Richard there was a great surge of Charleston addicts. Kim MacLeod took the prize in a vintage raccoon coat, black tube dress and ropes of beads, with her curls neatly tucked under a red bathing cap.

But originality knows no bounds on Halloween as Isabelle Seymour and Dan Murphy proved Saturday night. They came to the party at the skating house at the Country Club as Asian Flu! Four bachelors, Clune and Kirk Walsh, Thomas Leithausser and Ted Gushee combined to toss this masquerade for engaged pair Julie Thurber and Mel Sutherland. The prospective newlyweds dressed as an 1890 bar maid and bartender.

TV's favorite Lawrence Welk entertained at a special concert for the FBI Academy last night in the nation's capitol and the M. C. Pattersons were on hand for the occasion where they also met FBI top man, J. Edgar Hoover.

Courtesy is the recognition that the most real thing about people is their minds, says Dr. Harry Overstreet, who will be here with his wife on November 14 at 11:30 o'clock at the Esquire Theatre under the auspices of the Celebrity Series to benefit Bon Secours Hospital. The noted psychologists will tell you all about mental health.

## Pointer of Interest

MRS. ROBERT D. MACDONALD, OF RADNOR CIRCLE

By Patricia Talbot

Career woman, clever seamstress, ardent church worker and former Girl Scout leader, Mrs. Robert D. Macdonald is one of the Pointe's legion of women with a devotion to community service.

Her chief interest, advising and inspiring young people, has earned her the respect and confidence of her own four daughters. This has been no easy task for Mrs. Macdonald, who for the past four years, has been guiding her four daughters on her own since the death of her husband.

Unlike many widows, she made a successful adjustment because other people have always been her concern. She sought a job in the Grosse Pointe Board of Education's Community Service department where she found herself at home helping others to find healthy outlets in learning crafts and skills.

**They Fill the Demand**  
This is the 19th year that adult education classes have been offered to Pointe residents. Forrest Geary, director of the department of Community Services, and Mrs. Guy Ireland with Mrs. Macdonald see to it that if enough residents want to learn about copper enameling, French or

square dancing the classes are there for them.

For the third year most of the adult education classes meet in the old Grosse Pointe Country Day School, which was bought by the Board of Education. But there are swimming lessons taught at the High School and at Pierce and Percell Junior High Schools and dancing and homecoming courses meeting at some of the elementary schools.

Mrs. Macdonald feels these courses offer hard-working Pointers a tension outlet, as in the case of the doctors who have signed up for oil painting and the housewives who take French, hoping some day to travel to Paris. She doesn't believe it matters if they become proficient in these new interests. What's important is that they take up different patterns in life, growing outward, not brooding inward.

**Takes Courses Herself**  
Her work takes her to the Adult Education building four nights a week, but she has managed to take four courses herself, figurine and oil painting, copper enameling and leather styling.

Most of her free time is spent with her four daughters although the oldest, Nancy, is now a copywriter in Chicago. Judith is a junior at the University of Michigan. Susan is a senior at the High School and Kathy a ninth grader there.

All of the girls seem to have inherited their mother's independence and determination. Judith wants to be a teacher. Susan is interested in retail merchandising and Kathy leans toward home economics. Mrs. Macdonald has no fears for her children's future. Her work with young people has taught her that they respond well to the slightest understanding and sympathy. It's the intelligent parent's job to steer them in the right direction.

**Active in Scouting**  
When her two youngest daughters were Brownies and Scouts she became a troop leader and eventually secretary of the Girl Scout Leaders' Association. For some years she was a member of the junior board of Williams House, where girls from broken homes are helped to meet their broken lives. Grosse Pointe Memorial Church has always had a first claim on her leisure hours.

An accomplished seamstress she not only sewed for her daughters, but spent every Tuesday sewing for the church fair. Now that her job demands so much of her time she lends her needle to one big church project a year. Last season it was running up 90 yards of taffeta for 19 girls in the Tuxis Variety Show. This year she will costume part of the show again.

**Helped Start Symphony**  
A few years ago she was in on the beginnings of the Grosse Pointe Symphony Orchestra. She admits she loves to organize and efficiency is definitely her trademark. Now she adds to her record collection, enjoys football games at Ann Arbor, and keeps an open door for the flocks of friends her daughters invite home.

Courage and ability have made Mrs. Macdonald's life a rewarding one, not only for herself and her daughters, but for the church, school and community she serves.

## Spartans Lose In Bowl Game

The Grosse Pointe Woods Spartans staged a magnificent display of offensive fireworks in the International Shrimp Bowl game last Sunday, November 3, but dropped a high scoring 32-25 contest to the Riverdale Bees of Windsor, Ontario, on the Parcels Junior High gridiron.

The Spartans, members of Greater Detroit's Jack Lowther League, scored the first time they got possession of the ball on a sustained drive that was climaxed by flashy Carl Rea who swept the final eight yards around right end.

The Bees knotted the count at 6-6 minutes later as their big quarterback paced the attack with his bull-like rushes that bowled over the smaller Spartans.

The Spartans moved back into a 13-6 lead when Jack Whitney hit Pat Blake with a 35 yard pass and Bob Phillips converted the extra point with a short pass to Whitney.

The Canadians rolled to two more touchdowns before the halftime intermission mainly because the Spartan defensive unit couldn't contain the Bees' quarterback.

The Bees moved to a 26-13 margin shortly after the third period started but the Spartans fought back gamely and pulled to within seven points of a tie, 26-19, when Blake rambled 35 yards to score.

In the final quarter Carl Rea hauled in one of Whitney's long passes and was pulled down from behind on the

Bees' four yard line. Three line plays failed before Whitney raced around right end to score.

The Canadians bounced right back to take a 32-25 lead which is the way the game ended. But not until the Spartans missed a golden opportunity to knot the count in the late stages of the final period.

A Canadian fumble was recovered by the Spartans. Whitney fumbled but recovered for a 10 yard loss on an attempted end around play. Then he whipped a pass to Rea for a first down on the Bees' six yard line.

Three line plays, netted two yards and Phillips tried his own right end for the game tying tally but was met by the Bees' big quarterback and thrown short of pay dirt.

Seconds later the game ended and so did the Spartans' hopes of salvaging at least a tie in this first Shrimp Bowl game which promises to be a fixture in the Spartan schedule in future years.

The self-made man will be treated with more respect when he equips himself with a silencer.

### PAELLA

Contributed by Mrs. Frank Fitt to Recipes to Remember, published by the Grosse Pointe Memorial Church Women's Association for the November 14 Christmas Fair.

- 3 Tb olive oil or butter
- 1 large onion, chopped
- 2 cloves garlic, minced
- 1 doz. raw shrimp, shelled and cleaned
- 1 cup raw rice (not long grain)
- 2 cups broth
- 1 pinch of thyme
- 1 pimento, chopped
- 1/2 cup tomato sauce
- 1 10-oz. can minced clams
- 1 tsp paprika
- 1 cup coarse chopped cooked chicken
- small pinch of saffron
- 2 Tb. sherry wine
- 1/4 cup Parmesan cheese salt to taste

Slowly heat olive oil in flameproof casserole and saute onion, garlic and raw shrimp. Do not brown. Remove shrimp and set aside. Add rice, unwashed, and stir until every grain is coated with olive oil. Add a bit more oil if necessary. Now add broth which has been heated to boiling and the thyme.

Immediately cover and boil hard for two minutes, then turn down flame as far as possible, (don't move cover) and simmer for twenty minutes. Uncover and add the minced clams, juice and all, pimento, tomato sauce, fried shrimp, paprika, chicken, saffron and sherry. Mix carefully with a wooden spoon so as not to break up rice.

Heat for four or five minutes until piping hot in oven or on top of stove, adding more broth, if needed. Correct seasoning, sprinkle on Parmesan cheese, garnish with strips of pimento and serve in the dish in which paella was cooked. Serves 4 or 5.

To clean and freshen a concrete cellar floor—and this goes too, for outdoor pavements—scrub with soap and water or turn on the hose. Then, while the concrete is still wet sprinkle with dry cement powder. After ten minutes, sweep the excess powder off with a stiff broom.
