

### Disposal Authority Sees Rosy Future

(Continued from Page 1)  
 Authority was held and officials elected, (reelected last September for another year).  
 Mitchell, chairman; Clinton Township Treasurer Robert Ryan, treasurer; Park Councilman John Doelle, secretary; City Councilman G. Gordon Cook and Clinton Trustee James Means, directors; former Clinton Township Attorney James State Representative Charles R. Towner, attorney; Smith, manager; the firm of Touche, Ross, Bailey and Smart, auditors; and E. F. McCafferty and Company, accountants.

purchased under a land contract for \$205,000, with a down payment of \$59,450 on October 23, 1962. The balance was paid on May 7, 1963, with the proceeds from a bond issue.

The bond issue for the purchase and improvement of the property was in the amount of \$240,000, and after an authorization by the Board of Directors, the sale was approved by the Michigan Municipal Finance Commission on March 12, 1963.

**Agreements Signed**  
 Refuse Disposal Service Agreements between the Park, Farms and City and the Authority, were signed on Decem-

ber 12, 1962, in which each agreed to pay their proportionate share, based on population percentage.  
 A separate agreement between the Township and the Authority was signed on July 9, 1963, in which dumping rates were set, and the revenue for such permits to be equally divided between the Township and the Authority.

The Authority and Harold Dean and Sons signed a four-year contract on November 26, 1962, under which the firm is obligated to the Authority for the mining of a minimum of 100,000 cubic yards of gravel annually, at 25 cents royalty a cubic yard. The contract also requires payment to the Authority for fill dirt at 10 cents a cubic yard.

During the first fiscal year, 86,537 cubic yards of gravel were mined, Smith disclosed. However, at the present rate of mining, the contractor will exceed his minimum requirements by the annual date of his contract.

**Woods, Shores Interested**  
 On October 16, 1962, the Woods inquired as to the possibility of becoming an Authority member; and on January 15, the Shores made an inquiry as to the possibility of using the Authority's refuse disposal facilities.

The Authority favored extending the two communities the use of dumping facilities on a contract basis, at a rate of 35 cents a cubic yard, and unofficially assured them of dumping rights in the future.

The door has been left open to the Woods and Shores, if they desire to become full members, Smith said, but if they apply for membership, they must first enact local ordinances requiring garbage disposals in each home.

**Would Cause Problems**  
 The reason, Smith said, is that until an incinerator plant is built, the presence of garbage mixed with rubbish in a land fill operation, would cause serious problems.

Contracts and agreements have been signed with outside contractors, the largest of which is the Reitzloff Company, signed on January 15, 1963, which requires a minimum of 150 cubic yards of refuse a day, and which is averaging 350 cubic yards a day, at 35 cents a cubic yard.

Although the outside contracts have greatly reduced the cost of operating the dump, Smith said, they also are using up the dumping capacity. Present dumping by the outsiders varies between 40 percent and 50 percent, he said.

**Old Dump Closed**  
 The Quinn road dump which has been in operation for 22 years, was filled and closed up on October 4, 1963, and efforts are being made to obtain cover dirt for this area as excess fill may be available in the future. The new dump on the Hart-

Church, adopted on November 13."  
 The pastor said that he pointed out to the usher that the statement calls on all Methodist churches to not deny any person, regardless of color or race, the right of membership, or the right to worship in any Methodist church.

**Wouldn't Read Statement**  
 The usher ignored the plea to read the statement, and signaled to police officers in a patrol wagon waiting across the street.

Two Negro jail trustees with the officers, the Rev. Nixon said, apparently for the sole purpose of putting him and Dr. Morton in the wagon, if they failed to move away. However, before the trustees laid hands

on them, the clergymen said, he and Dr. Morton got up and walked to the wagon.

At the police station, the two clergymen were fingerprinted and booked on charges of "Trespassing" and "Disturbing Public Worship."

"I was standing on the sidewalk," the Pointe pastor said, "and I was charged with trespassing. I am an ordained Methodist minister, and I was charged by a Methodist Church with disturbing public worship."

Words cannot describe, he said, the tension that one feels as he walks on the city streets. The entire incident was "nervewracking and harrowing."

**Treated With Courtesy**  
 He said that he felt more at ease in the police station, than when on the streets walking to the church. He and Dr. Morton were treated with courtesy by the police, and were not subjected to any indignities.

The other ministers were arrested at other churches. While waiting to be released on bond, Rev. Nixon said, the ministers were permitted to keep their Books of Common Prayer and Bibles. Everything else was taken from them, including pens, so they could not write anything of what had happened.

The prisoners sang hymns while in the jail cells, he said. He said that there was some ironic humor involved, when those locked up sang "My Country 'Tis of Thee." Prisoners smiled when singing the lines "Sweet Land of Liberty," and "From Every Mountain Side Let Freedom Ring."

Rev. Nixon displayed letters and telegrams received from a number of clergymen and re-

ligious groups of every denomination, including some from the Pointe, lauding his action, and those who participated in the "church visits."

The communications, he said, made him feel good. He said that it was wonderful to know that others are with him, and feel as he does in the matter.

Everyone had such a good time at our tree-lighting party last year that we're going to do it again. Santa will be back, also, to switch on the 70,000 colored lights on our giant Christmas tree.

Hundreds of voices from local choral groups will welcome the Christmas season and lead the singing of your favorite carols. To commemorate the anniversary of the Christ Child's birth, there will be a life-size Nativity scene.

We hope your entire family will join us in this Yuletide observance. For the children there will be souvenir booklets featuring a "punchout" replica of Ford Motor Company's Cougar II experimental dream car which they can mount in a wall-plaque frame.

The ceremony will take place in front of our Central Office Building at Michigan Avenue and Southfield Road. Free parking provided at Ford Motor Company and nearby Manufacturers National Bank and the Dearborn Civic Center.

Come join us - Sunday, December 1, at five o'clock in the afternoon.

Mrs. Jefferies immediately called police, who searched the neighborhood without success.

She described the man as being between six feet and six feet one inch; between 20 and 21 years of age. He was wearing a U.S. Marine Corps jacket, with the initials USMC over the left breast; wearing tan chino pants, brown loafers, and white wool socks.

At no time did the man display any kind of a weapon. Mrs. Jefferies told investigating officers.

**TO THE FAMILIES WHO OWN THE 1,491,395 ELECTRIC APPLIANCES REPAIRED BY EDISON**

Nearly one million three hundred thousand of your electric appliances were repaired by Edison in 1962 without extra cost to you. About 200,000 more, for which there was some moderate charge, were also repaired.

Much of the work was done by experienced Edison people. Also capable handicapped people, employed by Goodwill Industries, supported themselves by repairing 182,000 of the appliances you brought in. They, too, are competent and conscientious workers and we are happy to have their participation and assistance.

Edison offers other services that cost nothing extra. These include the exchange of a variety of light bulbs and of fuses and appliance cords. There are advisory services for the homemaker to assist her with lighting, cleaning, laundry and kitchen planning. For the homeowner there's advice on home heating, water heating, wiring, and helpful suggestions about shrub and tree planting near electric lines. Similar types of services are offered to churches, schools, business firms and other establishments.

These services are brought to your attention because many of you may not be taking fullest advantage of them. Perhaps you are new as an Edison customer or perhaps you have just overlooked some of them.

People, moving to other areas, often write back to their friends to say how they miss Edison's extra services. From their comments it seems to us that Detroit Edison is an exception in providing such services without any extra cost to you.

Our Edison service is a broad service. It includes all the items described above, and all the electric energy you need. We like to feel our services are the kind that serve you well, and at a fair and reasonable cost.

Sincerely,

*Walker L. Cisler*

### Water Softeners Not Needed Here

Recently a group of high pressure salesmen selling water softeners have been working in Detroit and the suburbs, making false statements about the hardness of Detroit water.

They have been running improper tests on the water to land their victims, and have sold water softeners to these people at costs ranging from \$600 to \$1,000. These water softener units could be bought from any reputable company for \$150 to \$300 if needed.

According to the City of Detroit Board of Water Commissioners water softeners for Detroit water are not necessary nor are they recommended by the Department of Water Supply and Pollution Control. Detroit has a moderately soft water of a hardness equal to 5.7 grains per gallon. (Not the 10 to 15 grains as stated by these salesmen.)

An average family of four would save less than \$4.00 in one year in soap and detergent costs by using a water softener. This is less than the cost of the salt necessary to regenerate the softener.

Water with a zero hardness can also corrode plumbing, so the unfortunate customer taken in by these men will lose both ways. A reminder of these facts should be made to anyone interested in purchasing one of these units.

### Parker Causes Crash in City

Damage was minor and no violation tickets were issued.

## Pointe Student Member Of Operation in Africa

**(Editor's Note: Mary Waterman, of 266 Touraine road, a senior at Smith College in Northampton, Mass., worked in Kenya this summer as a member of Operation Crossroads Africa. She was one of 12 students from the United States and Canada who built a football field and small house for a youth center. In a special article for the Smith College Press Board, Miss Waterman discusses the history of the Crossroads Program.)**

By MARY WATERMAN  
Operation Crossroads Africa is a privately sponsored organization whose purpose is to promote peace through the ties of human friendship. It was founded in 1958 by Dr. James Robinson, a far-sighted Negro Presbyterian minister who saw both the extent of Afro-American misunderstanding and the possibilities for open-minded youth to dispel it.

With funds contributed by churches and social groups, Dr. Robinson sent the first Crossroads delegation to five countries in West Africa. He hoped African and American students would gain understanding of their respective societies by joining together in physical work projects, often part of village self-help programs. The Crossroads were welcomed immediately, but acceptance

came later with the frank exchange of ideas, hopes and realizations — in short with understanding. Finally the African saw that the American was not a Cadillac-driving capitalist or a cowboy, and for the American, the African ceased to be the stereotyped barbarian.

The evidence of Crossroads' success on both sides of the ocean was indicated by its rapid growth: five years ago the organization sent 60 college students to five African countries; this year it sent some 300 students to 28 African nations.

This year, I was one of those sent to Kenya. Our group was situated near the little village of Kanamal, 14 miles north of Mombasa, the principal port of East Africa. Our co-workers came from a Mombasa youth center, which trains young boys as tinsmiths, carpenters and tailors, and we became acquainted with them through casual leisure-time activities. There were walks, volleyball games, and conversations about families, ideas, and ways of life.

The nature of our project determined our African experience. We did not work with university students as other groups did. They were much concerned with the stimulating exchange of ideas, the challenge of different outlooks, and the association with a new country's educated elite. Our

group worked with less fortunate young people. Most of them could not afford the three-dollar school fee and were forced to go to work. To young people in a country just waking to the wonders and promises of education, this fate is a hard one, but one which is shared by 95% of Kenya's children who never begin secondary school.

Understanding the significance of education for the Africans was just the beginning of our learning experience. After witnessing the simple emotional level of Kenya's political rallies and the development of personal conflicts among the country's leaders, we began to realize the importance of political maturity. At

first we did not appreciate the seriousness of the controversy over the form of Kenya's new government, a one-party system vs. a multi-party system, and a centralized government vs. a regionally oriented structure. We could only understand the problem after we observed the tribal, ethnic and economic divisions on one hand, and the need for rapid efficient development on the other.

As we came to project ourselves into the life of another country, we saw the need to alter our own American preconceptions. Africa's lands are as unique as our own, with traditions as distinct, identities as sturdy, and dreams as worthy as our own.

### Hospital Gets \$600,000 Gift

An entire floor in the new Children's Hospital will be created through two contributions totaling \$600,000 to the building fund from Mrs. Robert H. Skillman, who resides in Bloomfield Hills, and The Skillman Foundation.

Announcement of the gifts was made today by Russel A. Swaney, chairman of the Children's Hospital Building Fund. Of the total contributed, he noted, \$200,000 represents Mrs. Skillman's personal gift and \$400,000 The Skillman Foundation grant. Mrs. Skillman, who is founder and president of the foundation, is the widow of a late vice-president of the Minnesota Mining and Manufacturing Company.

The floor selected is one of three floors in the new hospital that will be given over mainly to patient care. Its facilities will include 76 accommodations for children in one- two- and three-crib rooms, four special mother and child units, two playrooms for youngsters, treatment and examining rooms, and staff offices. Also included on this floor—and on every floor of the new hospital—is a teaching classroom for the many educational programs in Children's.

The floor will be named in honor of Rose P. Skillman "in recognition of her great generosity," Swaney said.

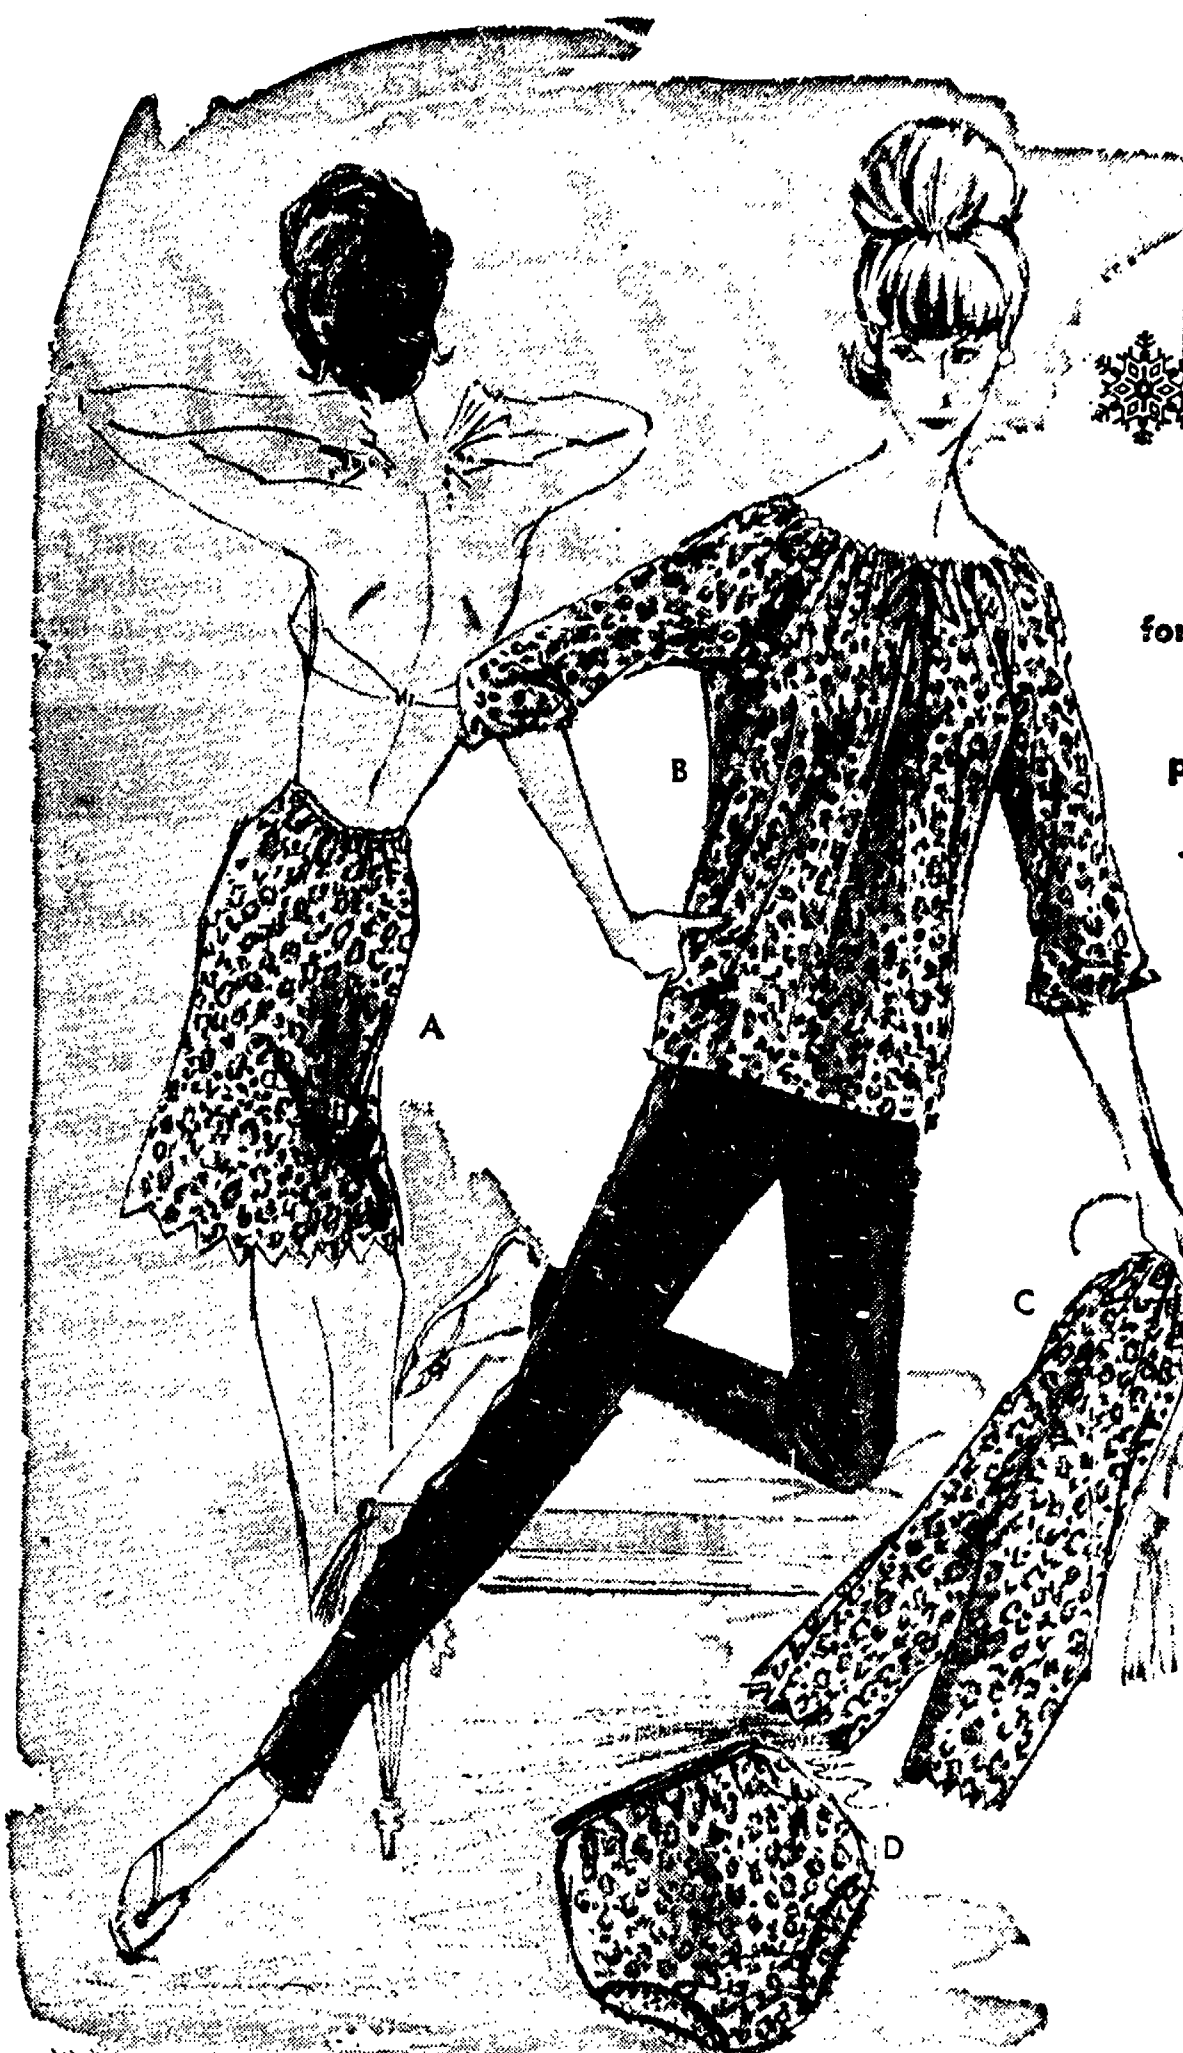

In a message accompanying the contribution, Mrs. Skillman noted that it reflects her "very special interest in and concern for the welfare of children."

In expressing thanks to Mrs. Skillman on behalf of Children's board of trustees "for such generous support," Mrs. Gerard R. Slattery of 95 Lake Shore Road, Grosse Pointe Farms, hospital president, said "your contributions are helping, in the most concrete way possible, to ensure the very best of medical and nursing care to children throughout the state."

The Skillman gifts she added, "are tremendously important strides toward our goal."

The Children's Hospital Building Fund currently is seeking \$4,000,000 by public subscription to help finance a new \$8 million hospital. Children's present facilities, apart from the outpatient building, date back to 1896 and 1926. The new six-story hospital, which will have 320 beds compared to a present capacity of 214, is to be located in the new Detroit Medical Center.

When Buick builds a LeSabre -- Buick builds a high-priced car, and puts a low price on it.

Lots of cars are in LeSabre's price class, but that's where the resemblance ends. For instance: Does anybody else in LeSabre's class treat you to that gentle Buick ride or impressive Buick performance and new gas economy? No. And who else gives you 15-inch wheels, finned aluminum front brakes, extra cushioning for middle-seat travelers, and separate heat ducts and controls for the rear seat? Right again: Nobody in LeSabre's field but LeSabre. If all this makes you think a LeSabre would look awfully nice in your garage, you should see how nicely it fits a budget. You know who to see about it, of course: your Buick dealer. Who else? Above all, it's a Buick.

**Center to Show Christmas Film**

Since Santa Claus is by all odds the busiest traveler in the world in December the Grosse Pointe War Memorial has decided to feature him on its "Meet The Travelers" program on Saturday evening, December 7, at 7:30 o'clock when it will present free of charge that wonderful Christmas classic "Miracle on 34th Street."

The early starting time is to permit families to bring their young children if they wish.

Ever since this marvelous story of Kris Kringle was produced many years ago the movie has brought a delightful Christmas message to people everywhere year after year.

This summer, Detroiters saw the wonderful musical "Here's Love," which Meredith Willson based on the movie. The musical has gone on to be a great success on Broadway but at least the movie play will be here in Grosse Pointe for all families to enjoy in the lovely and comfortable setting of Fries Auditorium.

**Admiral Jacobi Receives Honor**

An additional honor has come to Rear Admiral Leon J. Jacobi, of Fisher road USNR (RET.) in a recent national election of the United States Naval Academy Alumni Association. Admiral Jacobi was elected vice-president of the Central Area representing the 20 Central States, for a two year term.

A graduate of the Naval Academy, Jacobi served over 40 years in the Navy and Naval Reserve.

During World War II he served as Staff Engineering Officer, Service Force, Atlantic Fleet.

Released to inactive duty in 1946, Admiral Jacobi was appointed commanding officer of the reactivated Naval Reserve Program in Detroit where he served his normal three year tour of duty.

Since his selected rear admiral in 1953, he has served on many national naval selection and policy boards in Washington.

Currently Admiral Jacobi is president of the Metropolitan Detroit Council of the Navy League of the United States and vice chairman of the Council of National Defense of the Detroit Board of Commerce.

**Police Accuse Hit-Run Driver**

A hit-and-run driver, who ran into a parked car in the Farms, and who left parts of his car on the city streets while trying to escape, was arrested by Woods police Friday evening, November 22, shortly after the incident.

John T. Horton, 41, of 19934 Roselawn, Detroit, going east on Mack Avenue a. 11:49 p.m., smashed into the left side of a car parked on Mack at Allard, and owned by Joseph Minnella of 21123 Virginia, East Detroit.

Investigating Farms officers, who were dispatched to the scene, said that the windshield wiper and a chrome strip from Horton's car was found near the parked automobile.

The hood from Horton's vehicle was found in the street at Elizabeth court and Mack, the policemen said. A general broadcast was sent to all stations.

Woods Patrolmen Adrian Meerhaeghe and James Davidson, while patrolling Mack, observed Horton's car with a smashed-in headlight and fender and no hood, traveling in the southbound traffic lane and then turn west on Prestwick.

The officers followed Horton and saw him strike the right curb twice, and when they attempted to stop him, Horton went over the curb, came back on the street and then hit the curb again before coming to a halt.

Meerhaeghe and Davidson said they approached Horton and asked for his operator's licence, which he could not produce.

Horton had great difficulty in standing, the policemen said, so they offered him a seat in the police car. At this time, the broadcast alerting other departments to be on the lookout for the Farms accident car, came over the police radio.

Farms authorities were notified of the apprehension of the hit-and-run driver, who was taken to the Woods station, where he was given a ticket for driving while under the influence of alcohol. He was released to Farms police, after posting bond of \$150 at the Woods station, pending a court date in that city.

**Three Car Crash Occurs in City**

A three car collision occurred November 21 at Jefferson avenue and St. Clair.

Involved were Joseph Colo, 28100 Florence, St. Clair Shores; Dennis Jerome, 1798 Kenmore; and William Hagedorn, 1357 Franklin, Detroit.

The Colo car was slowing down in the center lane when it was struck by the Jerome car. Mr. Colo then attempted to pull over to the curb when he was struck in the right lane by the Hagedorn car.

**Burglar Robs Gas Station**

A burglary of a gas station in the Park was discovered by two Park policemen shortly before midnight on Friday, November 22.

Det. Lt. Arnold Hough and Det. James LaPratt said they were checking stores along Jefferson, at about 11:50 p.m., when they discovered the station door ajar.

The detectives said they checked the building at 15002 East Jefferson, and found the cash register missing. A further check disclosed the machine had been dumped in the alley at the rear of the station.

They said the burglar pried open the drawer and took it with him, along with nine dollars that it contained. The loss was verified by the station proprietor, James Hagen of Detroit.

Hough and LaPratt said that the burglary was committed by the same person who broke into the place on October 20, and stole a total of \$219 from the cash register and a hidden metal box.

**LS Accident Injuries Five**

Five persons were treated at Cottage Hospital on Sunday, November 24, for injuries suffered in a two-car collision in front of 70 Lake Shore road.

The driver of the car blamed for the accident, Thomas A. Karam, Jr., 22, of 22629 Colony, St. Clair Shores, was treated for lacerations and pains of the head and back.

Others injured and given medical attention, were Roland G. Arndt, 58, of 19305 Woodingham, Detroit, the other driver, who complained of pains in the chest and back; his passengers, Francis Arndt, 44, same address, who suffered a possible concussion and skull fracture; Elizabeth Dunn, 39, of One Wellington place, multiple lacerations of the forehead; and Ann White, 40, of 18750 Grey, Allen Park, who suffered chest pains.

Farms police said that Arndt was traveling west on Lake Shore, when he was hit on the left side by Karam who crossed the center line when making a turn from east on Lake Shore.

The force of the impact caused Arndt's car to turn over on its side.

Karam, who claimed he did not remember anything regarding the accident, was given a violation ticket for not having his car under control and crossing left of the center line.

Damage to Arndt's car was estimated at \$600; damage to Karam's auto was total, police said.

**Churchmen Hear Mayor Cavanagh**

A dinner meeting was held Tuesday evening, November 19, by the Men's Association of the Grosse Pointe Memorial Church in Fellowship Hall, Detroit Mayor Jerome P. Cavanagh was the guest of honor and speaker.

Invitations were issued to the mayors of the five Grosse Pointes. Three were in attendance. They were David E. Burgess, Mayor of the City of Grosse Pointe; William F. Connolly Jr., Mayor of Grosse Pointe Farms; and Kenneth R. McLeod, Mayor of Grosse Pointe Woods. Mayor Kenneth Cunningham of Grosse Pointe Park and President Jack Williams of Grosse Pointe Shores were unable to attend due to urgent municipal business. Both expressed their regrets.

Mayor Cavanagh delivered an inspiring address in relation to problems confronting Detroit and also pointed out the overall community needs by stating frankly that the problems of the City of Detroit were also the problems of the immediate suburbs.

**Dozing Driver Rams Building**

An accident was reported early in the morning of November 23 at Cadieux and Mack avenues.

Richard W. Cardtz, 315 Rivard boulevard, and his wife June were driving south on Cadieux when Mr. Cardtz fell asleep at the wheel and drove into on-coming traffic and over the curb into a building, Beauty Counselors, at 17108 Mack avenue.

A ticket was issued to Cardtz for not having his car under control.

**Canteen Conversation**  
Rick Mills  
We have lived in a nightmare which in one weekend may change the tide of history. Three men have died; one is severely injured. One is loved and remembered as a great leader of his country and of the world; the second is looked upon with contempt and loathing while the third is almost forgotten in the national tragedy. The fact that in an act of the murder of the president was possible is an appalling one to face.  
The murder of the accused killer also brings a terrifying and shocking realization to every American citizen. People of the world are, at this very moment forming opinions of the American people based on what has happened. Here are teens' reactions to the tragic death of President Kennedy and their thoughts as to the effect it may have on the American image.  
Sue Connor: "I just couldn't believe it. It didn't seem that a terrible thing like that could happen in the United States. The fact that President Kennedy was killed not only lowers our image abroad, it lowers our country to the level of any uncivilized land. A thing like that just shouldn't happen in a democracy. The murder of the assassin lowers our country even more. We are a country where everyone is supposed to receive a fair trial under the constitution, but this man wasn't given a chance. The law can't be taken into our own hands."  
Mary Coppock: "The first thing that went through my mind when I heard the tragic news was that we don't realize what we have until we lose it. President Kennedy was a symbol of tolerance and good government in America. He seemed to appeal to young people more than other presidents and I think kids looked up to him. He served as a good example for future leaders of our country and I think it's terrible that now he is dead."  
Roger Frey: "When I first heard the news I couldn't believe it. I thought it was just a rumor going around school. When I did find out that it was true I felt insecure because this thing happened in America. It presents a poor image to other countries because our

### Ford to Repeat Christmas Sing

Ford Motor Company has announced plans to repeat on December 1 the popular community Christmas sing and tree-lighting ceremony inaugurated a year ago.

The public is invited to the program, which will be held at 5 p.m. Sunday, December 1, on the front lawn of Ford's Central Office Building, on Michigan at Southfield, Dearborn, according to E. J. Hillen, Ford acting manager of special events.

An estimated 40,000 persons attended last year's Christmas program, which replaced the annual Ford Christmas Fantasy after fire destroyed the Ford Rotunda.

A massed choir of more than 2,000 voices—made up of school and church choral groups from the Dearborn and Detroit area—will lead the community singing of Christmas carols and hymns. The director will be Raymond C. Kooi, director of the 100-voice Ford Chorus which also will participate. Thomas R. Reid, Ford civic and governmental affairs director, will be master of ceremonies. Santa Claus will be on hand to light a 75-foot Christmas tree decorated with 70,000 lights. A life-size Nativity scene will be sheltered by a 30-foot alabaster blue shell.

Parking facilities include a new visitors lot east of the Central Office Building, as well as lots on the north and west sides of the building. Parking also will be available at the Dearborn Civic Center on Michigan Avenue east of Southfield, and at the American Road branch of Manufacturers National Bank on Michigan Avenue.

### Robert Merrill Sings Saturday

Metropolitan Opera star Robert Merrill will sing a wide variety of some of the best music ever written for baritone when he presents his concert program in Detroit's Masonic Auditorium on Saturday evening, November 30, at 8:20 o'clock.

Merrill has chosen composers that range from Handel and Pergolesi to Ravel and Poulenc for his Detroit concert, and will include religious music, opera and native American works.

Important operatic arias are a must for any Merrill audience and the famed Met star has selected some all-time favorites for that section of his program. Bizet's "Toreador Song" from "Carmen" heads a list that includes "Deh vieni alla finestra" from Mozart's Don Giovanni, "Di Provenza il mar" from Verdi's "La Traviata" and "Credo in un Dio crudel" from "Otello," also by Verdi.

Some tickets are still available for the Robert Merrill program and are available at the Masonic Auditorium box office or at Grinnell's downtown.

### Help Requested By Postmaster

Postmaster Edward L. Baker said: "Early mailing of all Christmas cards and gifts is the biggest single factor in getting all of the mail delivered before Christmas. Post Office facilities have been expanded, ample help will be available, and everything is being geared up to handle a record Christmas mail this year."

Then entire Christmas mailing period is a big battle against time. Even though Christmas is a month away by the calendar, it's Christmas every day at the Post Office from now on.

The Postmaster advises: "Don't take chances on mailing poorly wrapped packages. Use sturdy corrugated mailing cartons, plenty of heavy wrapping paper and strong cord. Cartons containing several gift packages should be well stuffed with tissue or old newspapers to cushion the contents."

He said further, "If you have articles of unusual size or bulk, better check with the Post Office before attempting to mail them. The limits of size and weight of packages vary, depending on where you mail your packages from."

Before you mail your Christmas cards, secure free labels from the Post Office which read, "ALL FOR LOCAL DELIVERY" and "ALL FOR OUT OF TOWN DELIVERY," so that you can sort your cards into two bundles, with the addresses all facing one way, thus expediting delivery.

Send all Christmas mail going long distances before December 10th. Follow up promptly with cards and gifts for local delivery. Mail "Early and Often" for a merrier Christmas!

### Bolshoi Ballet Here on Sunday

Thirty top soloists from Russia's famed Bolshoi Ballet will present two completely different "highlights" programs at the Masonic Auditorium on Sunday, December 1, at 2:20 and 8:20 p.m.

The afternoon program will offer two complete one-act ballets, each having been seen only once before by Detroit audiences. Opening the program will be "Chopiniana," the beautiful new ballet choreographed by Mikhail Fokine to the music of Frederic Chopin.

The finale of the afternoon program will be "Ballet School," which also received its premiere Detroit performance when the Bolshoi was in Detroit last year. This one-act ballet shows the progress of a dancer in the Bolshoi School, from the age of four or five right on through to the unbelievably talented and trained Bolshoi soloists. The ballet was conceived by Asaf Messerer, the famed balletmaster, who is also functioning as manager for this 1963 U.S.-Canada tour.

The middle portion of this performance will be made up of a half dozen highlight performances from a variety of ballet works. Included are excerpts from "The Nutcracker," "Don Quixote," and "Tarus Bulba." A generous helping of lively Russian folk dancing has also been added to the line-up.

The evening performance will be started by the Bolshoi's beautiful production of the second act of "Swan Lake." Following an intermission, the dancers will present a series of excerpts which will include the Bluebird pas de deux from "The Sleeping Beauty" and the grand pas de ballet from Act IV of "Don Quixote." The folk dancing segment will also be presented during this portion of the evening program.

Tickets for both performances are starting to be in short supply, but at this writing, some seats are still available at the Masonic Auditorium box office and at Grinnell's downtown.

Hard Job Well Done

All through the agonizing process of being bled dry in the wringer of emotion, during that incredible period from Friday noon through Monday, we were experiencing other feelings of which we weren't fully aware at the time, due to the immediacy of the horror of the assassination.

At such a time of national chaos, of universal disbelief and bereavement, so many explanations are needed, so much has to be said to soothe the shattered nerves and apply the anesthetic to tortured minds.

From the time the bullets snuffed out the life of President Kennedy in Dallas Friday noon, until Monday night, with the funeral over and the captains and the kings departing, we did not hear, nor see, nor read anything offensive in the unbelievably complete coverage of the story of a lifetime.

The special programming, in addition to keeping on top of all the current news provided a cultural and historical series of presentations that was fantastic.

Special mention should be given the creation of the British Broadcasting Company group which offers the show "That Was The Week That Was."

The nation and the whole world have been going through a dreadful experience, which is far from ended. It seems to us that the initial shock and disbelief were alleviated to a considerable extent by the way our experts in the communications profession handled the shattering assignment which came their way.

## Christmas Fair Held for GPUS

The Christmas Fair for the Boutique Shop of the Grosse Pointe University School annual Fair, which is held in June, had a sale November 19 and took orders for some of the unusual wares to be offered next summer.

The workers are making, among other things, fried marble jewelry, cast plastic desk sets with pictures or school emblems embedded in them, and silk scarves which the women dye themselves.

The dyeing process is very interesting. You start with white silk fabric and tie it with wax string, then dip it in the dye. Wherever the string is, the color is not picked up. Then the scarf can be retied and redipped any number of times to achieve a variety of effects, each one individualistic.

They also have wastebaskets covered with burlap done in a type of crewel work, decorated candles, and patchwork quilt night gowns or study gowns which are made of flannel and are especially popular with the teenagers for sleeping or studying purposes.

Proceeds from the sale go for the scholarship fund at the University School.

Mrs. Edwin Peabody, of Lincoln road, who is in charge of the project, is desperately in need of volunteer workers. Any-one interested in helping on Tuesdays and Wednesdays, may either call Mr. Peabody at TU 6-2107 or go to the Field House on those days where the ladies are at work.

## Golden Anniversary For Junior League

Year-Long Program Begins January 6 with Regional Meeting; 50th Anniversary Ball to Climax Anniversary Celebrations Next November

Nineteen hundred and sixty-four is the 50th Anniversary Year of the Junior League of Detroit, organized by Mrs. Paul Weadock with 42 members in 1914, and incorporated in 1917.

To celebrate this Golden Anniversary, the Detroit League has planned a year-long program, beginning January 6, with the three-day Regional Meeting of the Association of Junior Leagues of America, Region IV, at the Sheraton-Cadillac Hotel.

Mrs. Donald Lescohier, of Bishop road, is chairman of the Regional Meeting.

In April, the League plans a Community Luncheon, to be held at the Kresge Court in the Detroit Institute of Arts, honoring people from the various agencies in the city of Detroit who have helped the

League with its projects. Chairman of this luncheon will be Mrs. Frank Wylie.

The Junior League Membership meeting and luncheon, honoring the League's Sustaining members, will be held in June, and in November there will be a grand 50th Anniversary Ball honoring the League's past presidents, Mrs. Joseph S. Sherer, Jr., and Mrs. Alger Shelden, co-chairmen.

Mrs. Theodore R. Buttrick heads the 50th Anniversary Committee. Serving with her are Mrs. Charles A. Dean, Jr., Mrs. Robert K. Rigger, Mrs. Frank J. Sladen, Mrs. Robert Sullivan, Miss Hilary Whitaker, Mrs. Frank W. Wylie and Mrs. Stephen T. Stackpole.

## Thrift Shop Plans Toy Sale

Photo by Eddie McGrath, Jr. The Neighborhood Thrift Shop opens its annual sale of Christmas toys next Tuesday, December 3.

Private citizens and many Grosse Pointe merchants, including Fromm's, Roland Gray and Young Clothes, have donated toys to be sold during the next few weeks. Admiring some of the dolls at the shop are (seated) STARRY HAGENMEYER and MRS. W. H. HAGENMEYER; (standing, l. to r.) MRS. ALFRED R. REUTHER, JR., MRS. SAMUEL C. BROOKS, JR. The Thrift Shop will remain open through December 31, close for a week after New Year's.

## Center Dance For Collegians

The Crystal Ballroom of the Grosse Pointe Memorial's Fries Auditorium is being readied to receive all of the Grosse Pointe College set who are gathering with their families for the Thanksgiving weekend.

This Friday evening, November 29, the Center will play host at a dance from 9 to 12 o'clock featuring the excellent Danny Baker band.

Invitations have been sent to as many Grosse Pointe Collegians as the Center could find addresses for, but the list was far from complete. All are urged to come whether receiving a special card of invitation or not.

Couples will meet their friends at candlelit tables ringing the dance floor and around the punch bowls and refreshment table overlooking the lake. This will be a wonderful time to renew acquaintances, introduce new friends and make plans for the holidays.

One of the highlights of the Christmas vacation which the collegians can look forward to is the Annual New Year's Eve semi-formal Ball and Midnight Supper planned for them at the Center. It is not too early to get dates and tickets for this event now.

## To Be Wed

—Photo by Bransby Mr. and Mrs. Maurice E. Sasseman, of Newcastle road, announce the engagement of their daughter, LINDA, to Ronald F. Bauer, son of the Everett J. Bauers, of Lakepointe avenue. The bride-elect and her fiancé both attend Wayne State University, where she is a member of Mu Phi Epsilon, professional music sorority. A summer wedding is planned.

## Women's City Club Sets Busy December

Holiday Month Begins with Traditional 'Hanging of the Greens' December 8; Christmas Festival to Replace Christmas Fair of Other Years

"Hanging of the Greens" at the Women's City Club of Detroit will prepare the clubhouse for a holiday season filled with activity for 5,000 members and their friends. Only on Christmas Day and New Year's will the club be closed.

Sunday, December 8, when members of the Flower and Garden Committee decorate the entire clubhouse with arrangements they have designed and made, Mrs. Harry J. Miller, their chairman, gives them a mid-day break to enjoy a delicious brunch—the real fun in a work-packed day.

Fun is the accent for Celebrity Series, December 6. Hildegarde Halliday, comedienne, will do humorous sketches. Helen Bower, retired movie critic of the Detroit Free Press, will introduce Miss Halliday at the Celebrity Luncheon.

"Christmas Festival" replaces the Christmas Fair of other years. The card room will be transformed into a "Christmas Food Shop" for three days, December 11, 12 and 13. Here members will discover City Club treats to order for the holidays and for gifts. Some of the gifts made in

the Santa Workshop will be for sale. Mrs. William G. Blakeney and her special committee will be hostesses for coffee. Small tables will be set where members can relax as they check Christmas gift lists.

As the "home downtown" of many suburbanites, Christmas Shoppers' special dinners are planned for December 9 through December 13, so mothers can bring the whole family in after a day of shopping—without making inroads too far into the Christmas budget.

"Christmas In Many Lands" is the theme the Social Affairs Committee, (Mrs. Gaylord H. Todd, chairman), chose for a

The 1963 Detroit Lions have used rookies to man their offensive tackle positions most of the season, using No. 1 choice Daryl Sanders of Ohio State on the left side and nineteenth choice Lucien Reeberg of Hampton Institute on right side.

**LOSING TEETH**—Like any 3-year-old, John F. Kennedy Jr. is losing his baby teeth, you can see by his smile as he sits in a White House limousine in Washington.

**THAT HEADWAITER RUCKUS**—Rep. Wayne L. Hays, D-Ohio, leaves hotel in London with Ernest Petinaud, 58, the House restaurant headwaiter he took to Paris with the congressional delegation to a NATO parliamentary meeting, and thus came in for some criticism. Hays said Petinaud's expenses would run about \$200, and that he was valuable as a messenger and page. Petinaud speaks French and Spanish.

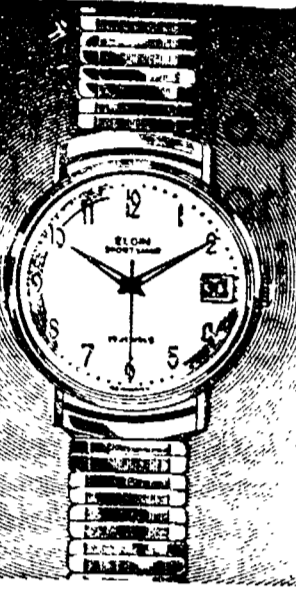

**MORE JEWELS FOUND**—Here is the leather bag containing more jewels from that million-dollar daylight jewel robbery in New York, and at right a reporter looks at the old boiler where the bag was found by a private security officer. The robbery was Nov. 8.

**BILLIE SOL ESTES**, the former Texas agricultural tycoon who was convicted of fraud and conspiracy in federal and state courts, appears a bit tight-lipped in Washington, where he was called by the Senate Investigations Subcommittee. With him is his lawyer, Jack Bryant (right). Estes, 39, is appealing his convictions. The government says he owes \$10 million in back taxes. The convictions add up to 23 years.

**GOOD MIXER**—Mrs. Jeanette Grasselli, Standard Oil research chemist in Cleveland, smiles from her laboratory after being named to receive the 1963 Award of Merit from the Chemical Profession of Cleveland. She is the first woman to win the award, given for "selfless" contributions to the profession. She averages two inspirational talks a month before youth groups at all educational levels.

**SANTA'S ZIP CODE**—Anne Marie O'Phelan, going on 4 years old, stretches high to get her big letter to Santa Claus into the mail box in White Bear, Minn., and as you can see, it carries the North Pole ZIP code number, 99701. Minneapolis Postmaster Cleve Austin has issued firm instructions about ZIP, and that goes for you, too.

**ANOTHER SCANDAL**—London officials are investigating another scandal, this one the death of 24-year-old Italian-born Julie Molley (above), dental receptionist by day and known as "High Priestess of Love" by night. Her body was found on a bed in a mansion near London, a drug bottle nearby. Photos and compromising diaries tell a lurid story of sex orgies involving social leaders, army officers, wealthy businessmen, and possibility of blackmail.

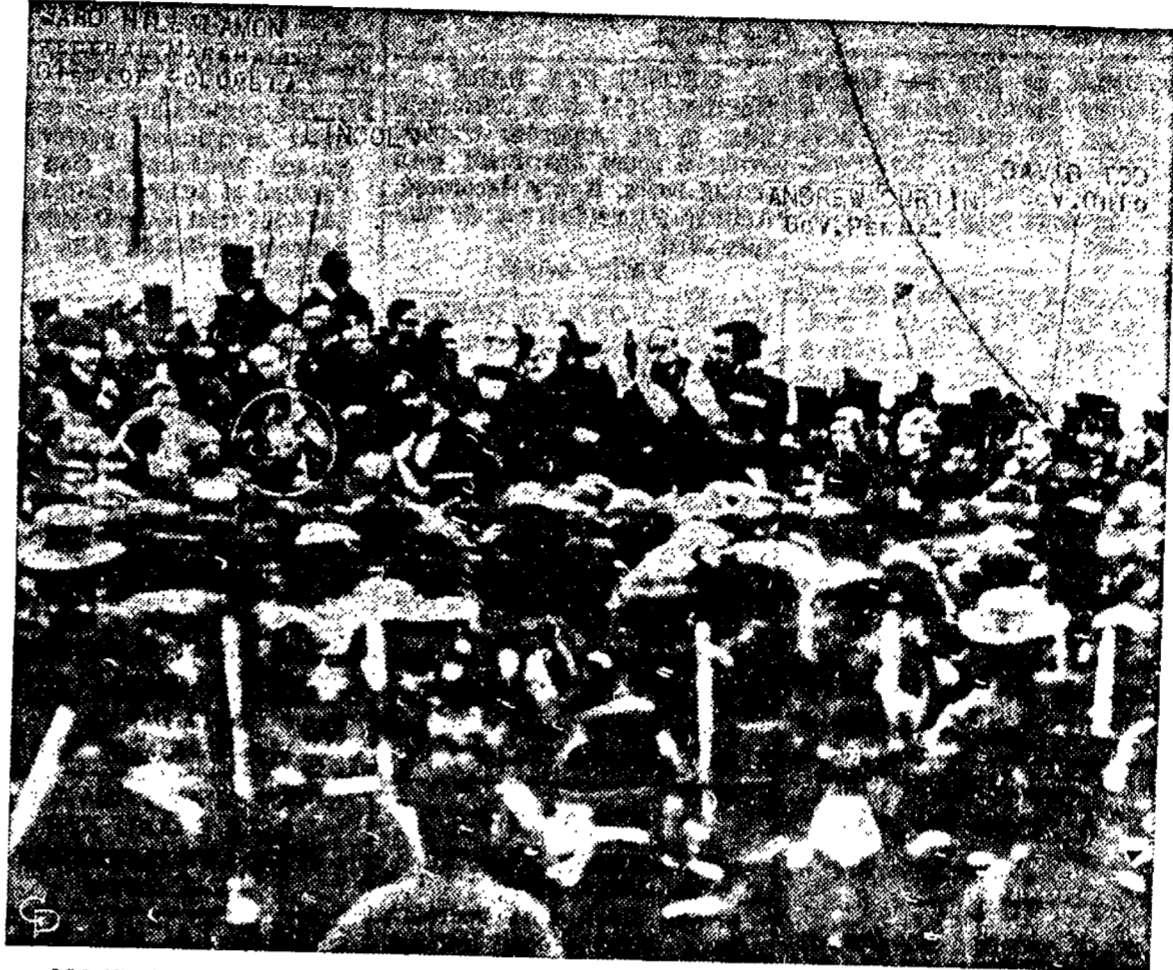

**BLAST SHATTERS WINDOW 10 MILES AWAY**—This is that big explosion (upper) at the Medina Nuclear Weapons Plant in Texas that shook up an area 60 miles in radius, including San Antonio. It was TNT, stored underground, and it left a crater 25 feet deep and 180 feet in diameter. Windows (lower) 10 miles away in San Antonio were shattered, and some people thought an atom bomb had gone off when they saw the huge black cloud.

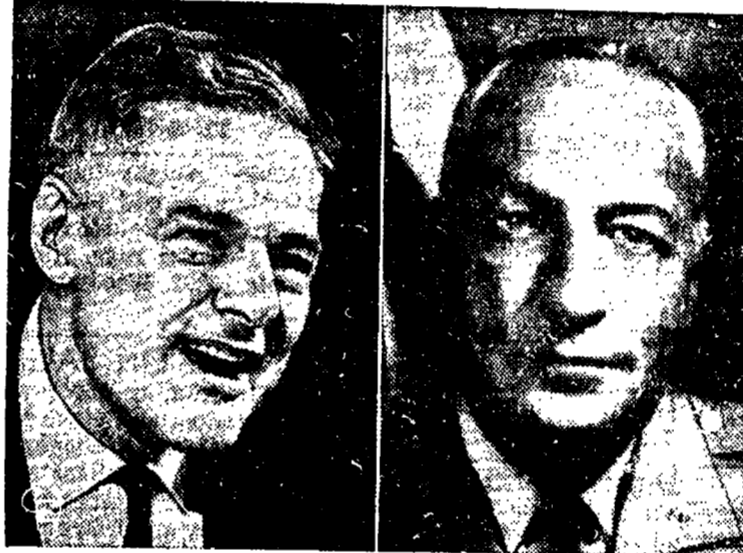

**STILL ALIVE**—Marilyn Dorsey, 20, sits in her home in Chicago, alive and well one year after receiving the first kidney transplant not involving identical twins. She received a kidney donated by her sister Noreen, 24, on Nov. 12, 1962, which saved her from death by uremic poisoning. The operation was performed at the Medical College of Virginia in Richmond.

**IN OPPOSITION**—James Francis Cardinal McIntyre (left) of Los Angeles converses with Peter Cardinal Dof of Tokyo at the Ecumenical Council in Vatican City, where McIntyre takes a stand in opposition to the vast majority of American bishops. He is against extending powers to make ecclesiastical laws to such groups as the National Catholic Welfare Conference, a U.S. organization.

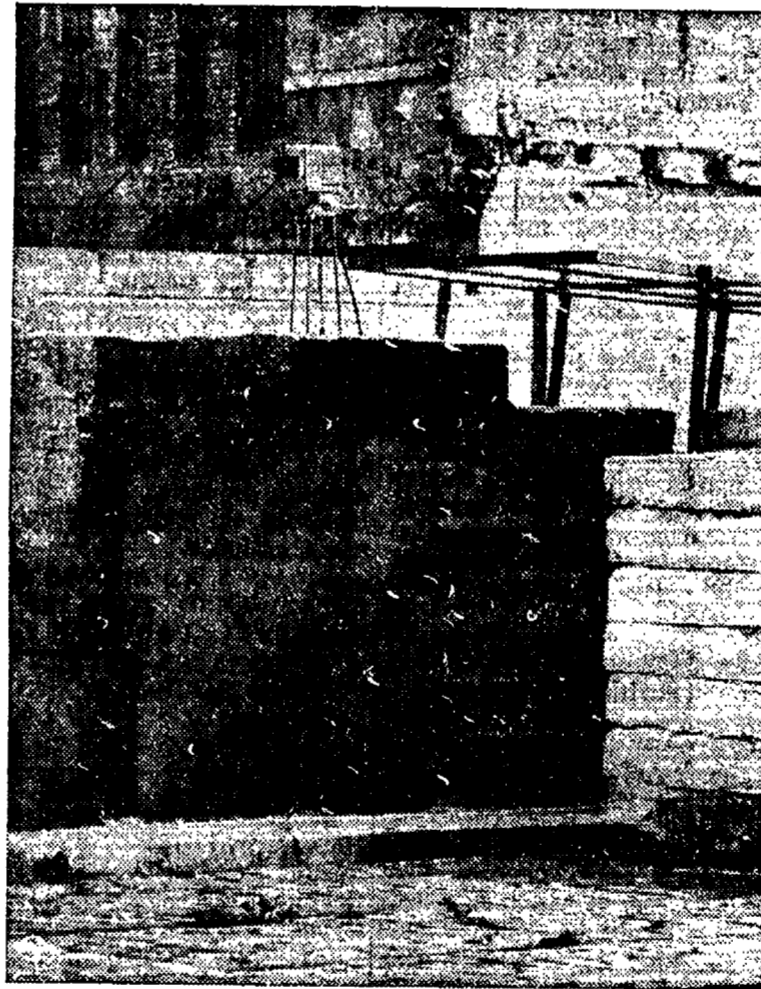

**100 YEARS AGO**, on Nov. 19, 1863, President Abraham Lincoln delivered his immortal "Gettysburg Address," and this ancient photo is believed to have been made just as he stepped from the three-foot platform. He is surrounded by stovepipe-hatted marshals.

**KNEW ABOUT VIET REVOLT?**—A report from Saigon says that Ambassador Henry Cabot Lodge (left) knew about the South Viet Nam coup d'etat two days before it happened, but that Gen. Paul D. Harkins (right) was not informed because he was considered too close to the ruling Dien regime. Harkins commands the 16,500 U.S. military men there. Both will be at a meeting Nov. 20 in Honolulu to report to a delegation from Washington.

**NO, NO, NO**—Former Vice President Richard M. Nixon has a big smile for reporters in New York as he says he foresees "no circumstances whatever" under which he would become a 1964 presidential candidate. He said he would ask officials of any state in which he was suggested as a primary candidate to remove his name from the ballot.

**"SPY"**—An East German television camera peers electronically over the Berlin wall at the French side of Chaussee Strasse, probably checking up on West Berlin border guards.

**ALDO MORO** (above) is attempting to form a new government in Italy on request of President Antonio Segni. Moro is secretary of the Christian Democratic Party.

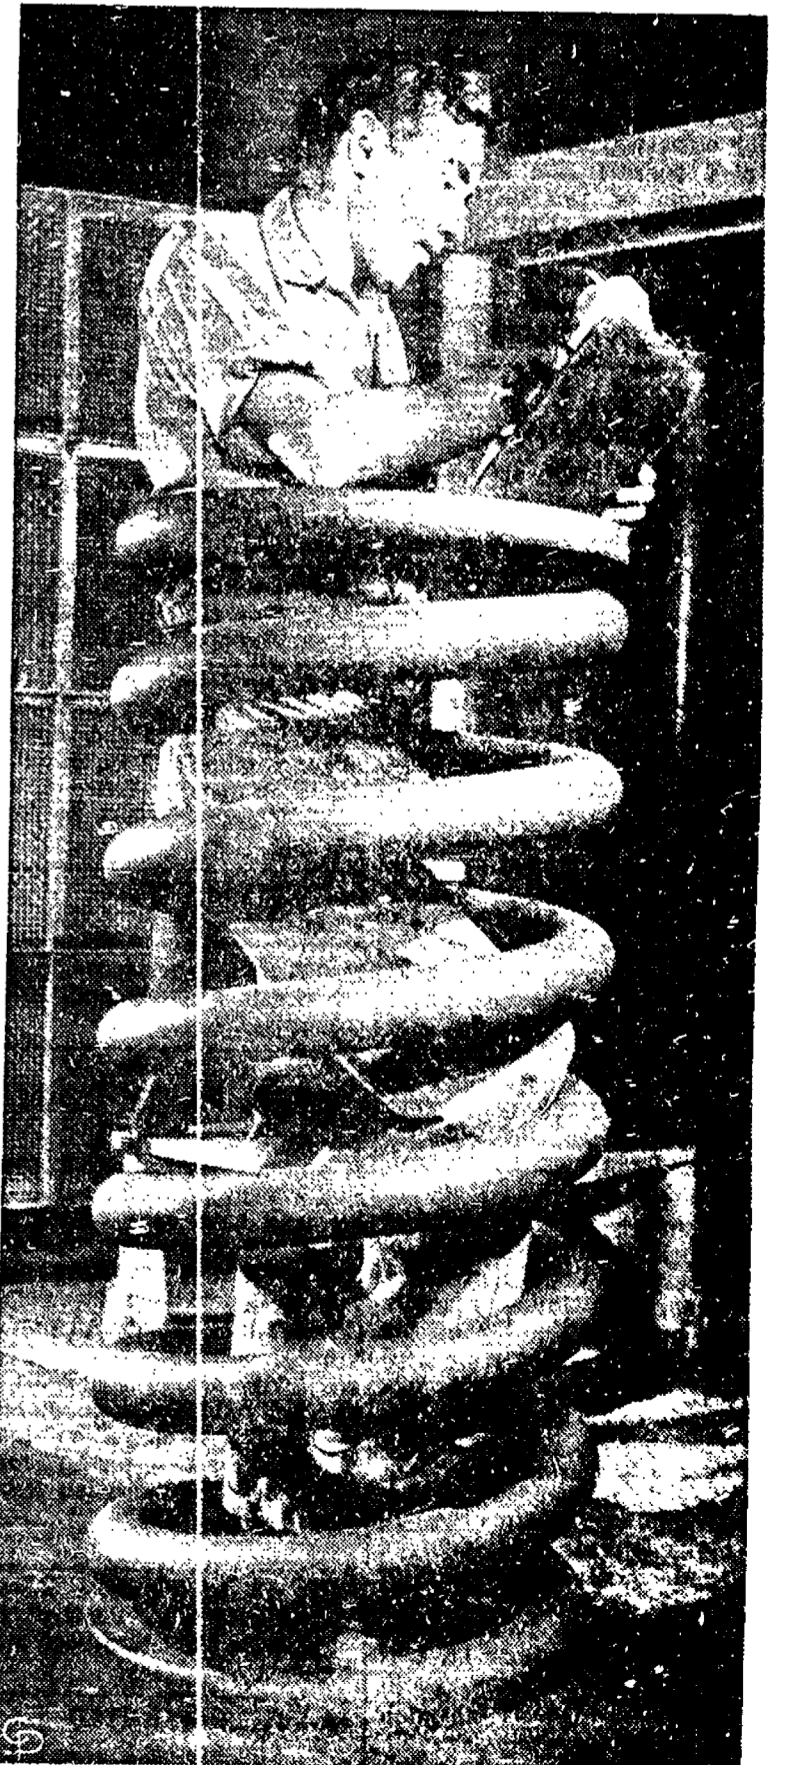

**FIRST HAIRCUT**—Mickey Newman, 4, underwent what looks like a girl-to-boy transformation when his mother gave him his first haircut in Dubuque, Ia. "I just kept putting it off," she said. "It hung down to his waist. And when I cut it, I was very nervous."

**"AHEAD" AT HOME**—Gov. William Scranton, who has been mentioned here and there as a possible Republican presidential nominee, tells reporters in Harrisburg that a sampling of public opinion showed him "a little ahead" of other potentials in Pennsylvania, the home state.

**SELF PORTRAIT BY TITAN II**—These photos come from a camera mounted on a Titan II and show a closeup of what happens when the first stage burns out and the second carries on. Upper: High above the Atlantic the powerful second stage ignites, pushing the first stage away and shattering it. Lower: The second stage accelerates to 17,000 mph as remains of the first fall Earthward over Cape Canaveral, Fla.

**WOUND UP IN HIS WORK**—A thousand-pound spring for use in an underground Atlas missile site serves as a lecturer for Robert Wilson, Inspector at Alco Products in Chicago Heights, Ill. The same plant produces Titan springs.
