Public Welcomed By School Board

The next regular monthly meeting of the Grosse Pointe Board of Education will be held at 7:30 P.M. on Monday, April 10, in the Board Room of the Administration Building at 389 St. Clair avenue.

The session will be chaired by Dr. Frank H. Parcels, president. J. Harold Husband, Acting Superintendent of Schools, will present his report. Interested citizens are invited to attend.

Memorial Center Campaign Has Raised Third of Quota

Grosse Pointe War Memorial's 1967 Annual Family Participation Campaign is one-third of the way toward the necessary \$75,000 goal needed to operate in the fiscal year beginning August 1.

This \$75,000 goal, which has not been increased for three years despite rising costs represents only one-fourth the amount needed to run the Center. The rest comes from invested endowment funds and charges for programs and services for individuals and groups, which are kept as low as possible so all members of the community may use the facilities and enjoy the activities.

The Center's Board of Directors who volunteer their time and abilities for three year periods are pleased with the results of the campaign so far.

PTA Council Hears Report On Development of Master Plan for Schools' Future

Former Board of Education Member C. Henry Haberkorn Tells Details Of Complicated Study Now Nearing Completion

Two presentations of major importance to the entire community were made Monday evening to the delegates of the Grosse Pointe PTA Council. The fourth meeting of the 1966-1967 year, chaired by Charles A. Parcels, Jr., president, was held in the Exhibition Room of the Grosse Pointe Central Library.

On the program to discuss the development of a master plan for the future expansion of the public schools was C. Henry Haberkorn, Educational Consultant for the architectural firm of O'Dell, Hewlett and Luckenbach, hired by the Board of Education to survey the school district.

Robert M. Orr, Director of the Grosse Pointe Public Library, presented to the PTA Council the detailed report on library needs based upon a study completed this winter by Ransom L. Richardson, Director of Libraries at Flint, financed by the Friends of the Library, and approved by the Board of Education.

Complex Problem

First on the program, Mr. Haberkorn, former Grosse Pointe resident and member of the Board of Education from 1959 to 1963, said that the problem of making accurate school needs projections has been hampered in the past by a combination of three major factors.

He cited a continuing growth in family size and change in family structure, an amazing growth of the educational program requiring more space and equipment, and the obsolescence of older facilities.

Minor factors affecting school planning include the break-up of estates into subdivisions which has created a small building boom, capacity loadings in the parochial and private schools, and age-changes in the community.

"Our project is to attempt the development of a master plan which will project the needs of the Grosse Pointe schools to saturation—the year 2000. I want to stress the word attempt because there are many areas of judgment on which we can only make 'educated' predictions and which must be reviewed regularly to determine how the facts match the 'fiction,'" Mr. Haberkorn said.

Explains Methodology

Mr. Haberkorn briefly outlined the methodology used to prepare the report. He indicated that a projection must be made of the number of students expected. Next step is to anticipate program needs. Finally, he indicated, the planners save to project building replacement.

Factors involved in projecting enrollment are these: (1) new home construction; (2) changes in numbers of public school students per residence; (3) student retention; and (4) apartment occupancy.

Mr. Haberkorn said, "It will be readily recognized that historical growth projected into the future will quickly mislead us. For example, in the last 10 years approximately 2,500 new residence units have been established in Grosse Pointe accompanied by an enrollment increase of about 2,000 students.

Pace Will Decrease

"As part of our study, we have made a community-by-community survey and an early guess would suggest only about 1,300 building sites remaining—so we say with facts in hand and tongue in cheek that the rate of enrollment growth through new construction must reduce.

"On the other hand, the new houses that are being built are built with room for four children or more, and the evidence is that these bedrooms are being used to a greater extent every day by public school students. In other words, in new homes, the rate of enrolled students is increasing. And in older homes, the same characteristic is appearing.

Center Plans Arts Forum On April 16

Critics, Star, Concert Pianist, Creator of Festival to Appear on Panel

Grosse Pointe War Memorial Association is hosting a Forum, Sunday evening, April 16, at 8 o'clock in Fries Theater, to explore "The State of the Performing Arts," not only in Detroit but on the national and international scene as well.

Moderated by Donald M. D. Thurber, vice-president and publicity and public relations director of the Detroit Grand Opera Association, the panel of guest speakers will include the most professional and knowledgeable people available.

Jay Carr, music and drama critic of the Detroit News, whose definite opinions and analysis often stir controversial comment but do so much to keep the performing arts in the foreground, will be on the panel with the equally prominent music critic from the Detroit Free Press, Collins George.

Star to Appear

From the world of the professional, through the courtesy of the Nederlander family, the star of the much talked of and highly debated play, "Marat De Sade," William Roerick will appear. Though opening at the Fisher Theater Monday, Mr. Roerick has kindly consented to bring the Broadway point of view to Grosse Pointe Sunday evening.

In the realm of music, distinguished concert pianist, Georgi Sandor, who performs in the Grosse Pointe War Memorial's summer Music Festival, this year, will represent the professional attitude.

And James D. Hicks, who created the magic of the Meadow Brook Music Festival, which is without peer in the nation, will bring the managerial problems into focus.

Questions Invited

All guests at the forum are urged to contribute their own ideas and ask questions following the panelists' interchange. To this end, cards on which to jot down questions and comments, will be given the audience as they enter. Mr. Thurber will field to the pros as many of these as he can in the time allotted.

The discussion will be continued informally over coffee in the Crystal Ballroom afterward where guests are invited to meet the panelists.

There is a token \$1 charge for this stimulating Fries Forum, but it is by reservation only just 500 can be accommodated.

State May Favor Opening of Park's Waterfront Pool

"Conditional Permit" Hinges On Filtration Drawings, Specs And Data Prior To Temporary Construction Health Official Says

An appeal to Paul D. Hodges, chief of the Public Swimming Pool Unit of the State Board of Health, to rescind his denial of a permit to open the Park's waterfront pool, at least for this summer, is under favorable consideration, according to information released by City Manager Robert Slone.

Slone, Thomas Rennolds, director of Parks and Recreation in the Park, and W. B. Edwards, civil engineer who designed the pools for the City and Farms, went to Lansing on Tuesday, March 28, to consult with Hodges and to ask him to reconsider his decision.

In refusing the Park a permit, the State Health Department referred to the lack of clarity of the water, due to the sand beach and lack of filtration equipment for the facility.

Would Erect Filters

Slone said that he, Rennolds and Edwards presented a plan to Hodges for his consideration, outlining a proposed construction of a suitable high-rate sand filter to be placed on the beach area.

The equipment would be used to filter the water at this location during the 1967 season and would be incorporated in a permanent facility to be built in the future.

The city manager said that this type of filter is being used by the Armed Services, and in general is superior to conventional-type filters. However, Hodges stated that a high-rate sand filter is being tested by the State, but adequate data has not been obtained as yet.

Would Test Results

Detailed operation procedures were discussed and it was agreed that providing a permit is granted, the State would prescribe various testing methods and other data in order to properly evaluate the efficiency of the new equipment, the Park representatives were informed.

Edwards said that this equipment, including the filters, pumps, plumbing and electrical services could be constructed at a cost of approximately \$60,000, and that all, or a major portion of this equipment and plumbing, would be used in the new facility, depending on its size.

The engineer said that filtration companies would be able to provide this equipment within the next 60 days, making it

Incumbents Returned to Their Posts

Farms Municipal Judge Connolly Lone Exception Defeated By Robert H. Pytell

All incumbents were returned to office in the Farms at the Monday, April 3, general election, except Municipal Judge William F. Connolly, Jr., who was defeated by a newcomer in city politics; and all incumbents were re-elected in the Park. Two Farms charter amendments passed by a large margin.

Connolly, who has been active in the Farms municipal government since 1949, resigned as mayor in June 1966, to take over the duties of the court, vacated by Grant E. Armstrong, who quit the post because of pressing business and personal reasons. Armstrong was re-elected on April 3, 1967.

Connolly served continuously as mayor since 1950 until the time he left the council to assume the duties of the court to which he was appointed by the members of the city body. It was understood that he would have to seek election, to fill the unexpired term, at the next regular election.

Council Picks Mayor

Under the Farms City Charter, the people elect members to serve on the council, but it is the council itself which picks the mayor from its own ranks, to serve for one year.

Connolly was defeated for the unexpired term by a newcomer, Robert H. Pytell, by a vote of 1,154 to 893. Connolly will continue to serve until July 4, 1967, at which time Pytell will be sworn in to serve the remaining two years of the tenure, which expires July 4, 1969.

In the race for council seats, James H. Dingeman, who was appointed to the post to fill the vacancy left by Connolly, led the ballot with 1,407 votes; followed by William G. Kirby, with 1,381 votes; William G. Butler, 1,266; Henry E. Bodman, II, 1,199; and Benjamin S. Warren, Jr., 1,085.

Three Serve Longer

Since they received the greater number of votes, Dingeman, Kirby and Butler, as stipulated by the Farms Charter, will serve for four years; Bodman and Warren will remain in office for two years.

Defeated in the council race were James S. Allor, who polled 857 votes; E. Rust Muirhead, 775; and Hillyard R. Pierce, with 624 votes.

Proposition 1, which would increase retirement allowances for general employes, won by a resounding 1,436 yes votes, to 370 noes.

Proposition 2, which would increase retirement pensions for policemen and firemen, also received an overwhelming vote favoring the change. The vote was 1,470 in favor; and 339 against.

Patterson Big Winner

In the race for municipal offices in the Park, Mayor Matthew Patterson was re-elected to a third two-year term. He received 1,852 votes to his opponent's, William R. Filbin's 1,032.

The three incumbent councilmen had no trouble being returned to their posts.

Charles W. Bowerman, who was appointed to the council last December, led the ticket with 1,773 votes; followed by William R. Luedders, with 1,749; and Robert J. Hutton, also an appointee, with 1,738. They will serve for four years.

Defeated in their bid to upset the incumbents were Paul C. Gracey, who polled 1,292 votes; John Frederick Potvin, with 1,046; and Donald P. O'Keefe, with 837 votes.

Fur 'N Feathers Keeps Cops Busy

The animals kept City Police hopping on Wednesday, March 29. They first were called to the Dewitt residence, at 339 Rivard boulevard, where a pet squirrel monkey had escaped out the front door.

Officers Richard Clark and Donald Ludlow reported that the monkey was running on roof tops. The owners tried to coax the monkey down, to no avail.

Their next call was to the Purvis residence, at 785 University, where a crow had flown into the attic. Clark and Ludlow removed the crow.

Farms Police Crack Down On Speeders

Chief Roh Issues Directive To Ticket Motorist Driving in Excess of Posted Limits

Farms Police Chief Jack F. Roh announced that he has issued directives to all personnel of his department to crack down on speeders throughout the city, especially in areas where residents have complained of chronic violations.

In setting an example, the chief said that he and Patrolman Earl Field personally issued a total of 49 tickets to speeders on Wednesday and Thursday, March 29 and 30, following many complaints received from citizens living in Moross road.

The chief said that he and Field set up a speed watch with the electric timer, on Moross, Kercheval, Ridge and Grosse Pointe boulevard, and ticketed motorists driving in excess of the posted speeds. All streets named are 30-mile-an-hour zones, except where lesser speeds are posted, he said.

Roh said that when the complaints came into the station, he ordered increased patrols, which did not prove too satisfactory, so he directed that the electric timer be used.

No Excessive Speed

He said that in no case did motorists speed more than 15 miles over the limit, and that 80 percent of those issued violations had driven from 10 to 15 miles an hour faster than they should.

Along with the speed watch, suspect vehicles were inspected on the spot, and 11 persons were given tickets for driving cars with defective equipment.

Three motorcyclists were cited for violation of a State law that requires that they wear protective headgear, while riding their cycles, the chief said.

"One sweet, young thing" was given a ticket for not wearing a helmet, Roh said, and another ticket for driving a motorcycle without ever acquiring a valid Michigan license.

The young lady complained that, although she was sitting in the saddle seat, she was only steering the vehicle, and that she had no control over the speed because her boyfriend, sitting behind her had the controls. Whereupon she was informed as long as she was in the driver's seat, she was the driver.

Her boyfriend was given a ticket for not wearing a protective helmet.

Woods Property Owners Heard at Council Meeting

Almost as familiar as the faces of Mayor McLeod and the Council members at the Grosse Pointe Woods Council meetings of late, are the faces of the residents of Hollywood avenue and the Shores-Woods Property Owners Association members.

They were out in force at again on the Monday, April 3. The Hollywood residents, headed by Lincoln Maire, were represented by legal counsel, Henry Earl, who was hired by the construction of a parking lot, by Angelo Morri-Salon d' elegance, at the northeast corner of Mack avenue and Hollywood. The council voted to defer action on the parking lot until they had the opportunity to further study the matter and discuss it with their legal counsel, George Catlin, who has been

out of town. Mayor McLeod gave Mr. Earl an opportunity to introduce himself and state his case.

The Shores-Woods Property Owners Association members assailed the Council members and accused them of dragging their feet. William Huettman, who has been acting as liaison with Liggitt School and the Association, explained to the association members that counsel for the school, William Gilbride, has been out of town and has not had the opportunity to study the material from the last council meeting, as well as some of Mr. Huettman's new suggestions.

Councilman Benjamin Pinkos tried to impress upon the residents that the City was in a position of asking rather than

18 paintings and two sculptures from among the best of the winners. Spanning 25 years, and ranging from traditional to avant-garde, this exhibition offers a broad sampling of the best work in the State's history.

The exhibit is made possible by the Michigan State Council for the Arts, formed only last June, 1966, when Governor Romney signed Bill No. 3222 which carried with it an appropriation of \$100,000 for the fiscal year 1966-67. The Council makes available programs in theater, dance, literature, music, and other special areas besides the visual arts.

The National Library Week Committee is proud that the Grosse Pointe Library will be the initial stop for this exhibit before it tours the state all year.

Among the art works to be shown are paintings by Zolton Sepeshy, Carlos Lopez, Sarkis Sarkisian, Guy Palazzola, Hughie Lee-Smith, and Louise Nobili. They will be on display at the Central Library at Kercheval and Fisher roads for two weeks, beginning April 10 through April 22.

PTA Council Hears Master Plan Report

(Continued from Page 1)

"In Grosse Pointe Park, for example, an increase of only about 200 residences in 10 years has been accompanied by an increase of almost 1,500 school-age children. The rate of growth of school-age children per residence unit is increasing, not only in the Park but throughout the district. Our task is to determine a rate which is both realistic and appropriate."

"Another factor that has had an impact on student body growth is a complimentary one to your educational program. Our study indicates that the percentage of students starting school here who finish here is continuing to increase, a healthy circumstance, but one which does add to enrollment figures."

Commenting upon the decreasing birth rate, Mr. Haberkorn said that the effect is telling in Grosse Pointe. He added, "An amazing fact that we have discovered is that the number of one and two year-olds that make up a kindergarten class three years later has declined in nine years by almost 30 per cent. If this were the sole factor involved in our future enrollment, we would be on easy street, building-wise."

"However, the growth in new construction and the increasing numbers of children per family has kept our kindergarten class quite level and may well continue to do so."

"In the face of the many obvious variables, we are now finalizing a projected enrollment. This will give us numbers to deal with. Then we will have to determine what facilities are needed to serve these numbers. Two factors are basic to this determination: (1) Capacity of existing buildings; and (2) Needs for new educational facilities."

"The first element is fairly simple to calculate, both from a building plan and from experience. For example, an elementary classroom will certainly house 25 children and one teacher as far into the future as we can see. However, there is a trend toward spaces adjacent to classrooms where group-work can take place."

"In order to provide such work spaces in older buildings, one direction might be to divide one existing classroom located between two classrooms so that a segment of the divided area could be designated to serve as a work area for each classroom. Obviously if this were done, the building capacity would be reduced."

"On the other hand, much emphasis is being placed on large group learning or team-teaching. Some of this can be accommodated by knocking out permanent walls between classrooms and dividing them, instead, with moveable partitions. Another device is to provide a large learning center — a theater or kiva where three or four classes can gather and hear, see or act together, and learn together. Such spaces do not exist in Grosse Pointe elementary schools today."

"In order to anticipate the physical needs to accommodate the educational program of the future, we have been working with professional staff committees, concentrating on the elementary and middle school groups up to this point. Their recommendations will be superimposed on existing buildings and then capacities can be developed and building needs projected."

"A third, and perhaps major element in a thorough building needs survey, is the need to anticipate building obsolescence. Fortunately, as we look ahead to the year 2000, it would appear that no buildings will fall

down. But, to take a very obvious example in a non-academic area, how long will the pool at South High School satisfy your needs when contrasted with what's coming at North? How long will Defer satisfy the basic needs of your educational program? How long will the Administration Building hold out? When should the High School Annex be replaced as projected when it was first acquired?"

Mr. Haberkorn indicated that the final report of his current study will make interesting reading. He added that he hoped it would also give direction to the Board's efforts to maintain the school district's high level of opportunity for our boys and girls.

Mr. Orr, who concluded the evening's program with a well-documented, effective visual presentation, said that the highlights of the comprehensive study made by Mr. Richardson indicate that the immediate needs of the libraries are these:

- (1) Expansion of the Central Library by 24,000 square feet.
- (2) Relocation of the Park Branch to a new building on Jefferson near the limits, 5,000 square feet.
- (3) Expansion of the Woods Branch by 7,000 square feet.

Park's Pool

(Continued from Page 1) possible for swimming at th. Waterfront Park on or about June 1.

After listening to the Park representatives, Hodges said that a "conditional permit" would be granted for the 1967 season. However, this will depend on the drawings, specifications and data received by the Health Department prior to construction, he added.

Will Prepare Plans
Stone said that Edwards has been directed to prepare plans and specifications as soon as possible.

The city manager said that it is not known where the \$60,000 will come from, as yet. It is possible that certain municipal improvements may be curtailed until the 1967-68 budget, so that funds set aside in the General Improvement Fund for the 1966-67 program can be used for the pool.

Mayor Matthew Patterson said that although no definite date has been set, he will call a special council meeting this week, possibly today, April 6, to discuss the situation and to clear the way so that work on the project can be done without delay.

Kiwanis to Hear Symphony Talk

In keeping with one of Kiwanis' 1967 goals, "Excellence in Literature and Entertainment," Burbank Kiwanis is presenting a talk by Edward R. Kupperstein, at their noon meeting Thursday, April 13.

The subject of Mr. Kupperstein's talk will be "Backstage at the Symphony."

Mr. Kupperstein is Assistant to the Manager of the Detroit Symphony Orchestra. He was appointed to his present post in September 1966, after being associated with the orchestra during the 1965-66 season under the terms of a Ford Foundation grant in arts administration. Kupperstein holds a Bachelor of Arts degree from Harvard College and a Master of Music degree from the New England Conservatory.

Burbank meets at Holy Cross Lutheran Church of Detroit, Hayes at Wade. All Kiwanians and interested citizens are invited.

New Schedule At St. Paul Ev.

St. Paul Ev. Lutheran Church, Chalfonte and Lothrop, has adopted a new schedule of services.

The early service is conducted at 9:30 with Sunday School for all ages (3 through adults). This is followed by a second worship service at 11 during which a nursery is conducted for children 1 and 2 years of age and Sunday School classes are available for children between the ages of 3 and 8.

Crack Down on Speeders

(Continued from Page 1) said, "throughout the city, and especially in areas where residents complain of speeders. Now, since the weather is improving, speeders will try to take advantage of the change, but I would like to issue a warning, especially to the young drivers, that gross violations of the speed laws will not be tolerated."

"We have an unusually fine record of no fatalities for the past four years, and would like to continue this record. We have had four serious injury accidents so far this year, and luckily no deaths. These accidents, and most that occur, are due to people driving too fast."

"Excessive speed is a violation, without doubt, and we do not want that in our community. We are apprehended for driving too fast, and the speed limit will be a violator, without doubt."

The Lebows are Coming . . . Hurrah, Hurrah!

Announcing Buick's new GS-340.
(The minipriced GS-400.)

If you read the papers, you know how great our new Buick GS-400 is. (It's the one in the background.) And you also know you don't get a GS-400 for pennies. It's a great car. But it's just a little rich for some people. So we set to work and designed the GS-340. It has a smaller engine (but the whole machine weighs less). Its interior is clean and simple and tasteful. And it has its own ornamentation, paint job (see the rally stripe and hood scoop?), and, of course, all the GM safety features. So now you have a car that costs less than the GS-400, but one with its own special brand of excitement. How can you beat that kind of a combination?

Fatally Stricken By Heart Attack

Lester W. Toepfer, 60, of 14603 Eastburn, Detroit, an employe of DePetris, Inc., 230 Grosse Pointe boulevard, collapsed on the sidewalk in front of the flower nursery on Friday, March 31, apparently of a heart attack. He was pronounced dead on arrival at Bon Secours Hospital.

Hazel Martin of 22540 Milner, St. Clair Shores, also an employe of the firm, called Farms police when she discovered Mr. Toepfer lying on the sidewalk, face up. He was rushed to the hospital by firemen, who administered oxygen, but their efforts to revive him were unsuccessful.

The woman told police that while she was working, she suddenly realized the Mr. Toepfer was not around, and since he had complained of being tired and not feeling well, earlier in the day, she began to look for him.

Mrs. Martin said that she searched the grounds, and as she went out the front door, saw him on the sidewalk. She said that the last time he was seen alive was at 1:30 p.m.

Will Present Purcell Opera

Lovers of the travels of Aeneas and devotees of the opera will have an opportunity to enjoy both on Sunday, April 16, at the presentation of Purcell's opera "Dido and Aeneas." The performance at Purcell's School Auditorium at Mack and Vernier road in Grosse Pointe Woods, will begin at 8:30.

Purcell's opera, though running for less than an hour in length, has received rave notices from both metropolitan dailies. Director Arthur Stephan and the Cantata Academy came in for most of the laurels.

The Free Press's Collins George commented: "Arthur Stephan and his Cantata Academy can always be counted upon to come up with a program that is fresh, interesting and well-performed."

Detroit News Drama and Music Critic Jay Carr observed: "If last night's performance of 'Dido and Aeneas' by the Cantata Academy at the Art Institute Lecture Hall wasn't the Detroit premier, it was certainly one of the rare Detroit presentations of the Purcell opera and the performance was rewarding on several counts."

Also praised for their excellent performances were Rosemarie Murch as Dido, Edward Kingius as Aeneas, Nancy Jaynes as Belinda, Suzanne La-Croix as spirit, and Deborah Raboy as first witch. Tickets, \$2.50 for adults and \$1.50 for students, may be purchased at the door, at St. Paul School, or by contacting: Miss E. Ferguson, TU 2-8714; W. Christlieb, VA 4-8896; Dr. J. Three-Alarm Fire Damages Home of G. W. Chamberlin

A three-alarm fire caused extensive damage to the 25-room Tudor home of Mr. and Mrs. Gerald W. Chamberlin, 740 Whittier, on Friday, March 31. The flames were brought under control after firemen from the Park, City and Farms battled the blaze for an hour.

Damage to the dwelling, built in 1920, was confined to the west end of the building, Park Fire Chief William Graul said. The chief was ill and in bed at home and was unable to take command of the firefighters at the time the alarm was sounded, and Capt. Henry DeClerck assumed that duty.

According to an official fire report, a gardner employed by a neighbor of the Chamberlins, noticed smoke coming from the roof of the Chamberlin house and phoned in the alarm at 7:40 a.m., and nine Park firemen responded with three fire trucks.

At 7:53 a.m., a second alarm was sounded and the City answered with two trucks and 11 men; and as the flames continued to rage through the section of the house, a third alarm was given at 7:55 a.m., and the Farms dispatched eight men and a pumper and a ladder truck.

Park Fire Sgt. Dave Taylor said that when the original call was received, the caller appeared to be in a high state of excitement, saying that smoke was billowing from the roof of a house at the foot of Whittier.

District Dems To Hear Nedzi

The war in Vietnam, the draft, crime, taxation, and fiscal policies—these are a few of the issues which Grosse Pointers and other residents of the Fourteenth U. S. Congressional District mentioned frequently in a recent opinion survey conducted by their Representative Lucien N. Nedzi.

On April 7 at 8 p.m. in the Alger VFW Post in Grosse Pointe, Congressman Nedzi will personally respond on these and other issues in a public forum which voters and other interested residents are urged to attend. The meeting hall is located at 17145 St. Paul, between Neff and St. Clair Streets in Grosse Pointe City.

One of the more articulate members of the powerful Armed Services Committee Representative Nedzi has been a leader in pressing for reforms in selective service policies. He has also been outspoken in his views on Vietnam.

His activities during his six years in Congress have earned him bipartisan respect both in Washington and at home. Especially recognized have been his continuous efforts at polling his constituents, both by mail and in person. His April 7 appearance in Grosse Pointe is part of that effort.

Here is an opportunity to voice your opinion on vital matters and to help guide your Congressman's vote in pending legislation. The event is sponsored as a public service by the Grosse Pointe Democratic Club.

Weir Takes Training At Base in Memphis

Airman Apprentice Robert R. Weir, USNR, son of Mr. and Mrs. Frank R. Weir of 225 Charlevoix, has completed 28 days of intensive training in the recruit phase of the Navy's "Four to Ten-Month" active duty program at the Naval Air Reserve Training Unit, Memphis, Tenn.

He is being ordered to one of the technical schools at the Naval Air Technical Training Center, also at Memphis, Tenn. Here, he will gain the skills of the service trade or profession for which he is best qualified. His period of active duty depends upon the length of the school program he enrolls in.

Upon completion of his active duty, he will return to civilian life and train one weekend each month with a Naval Air Reserve squadron assigned to the Naval Air Reserve facility closet to his home.

Burglar Visits Home in City

The residence of Stephanie Jozwiak, 866 Lincoln road, was broken into sometime between 7:45 a.m. and 12:30 a.m. on April 1-2. City Police found that someone had gained entry by breaking the rear kitchen door glass.

Mud was found all over the house but only the bedroom appeared to have been ransacked.

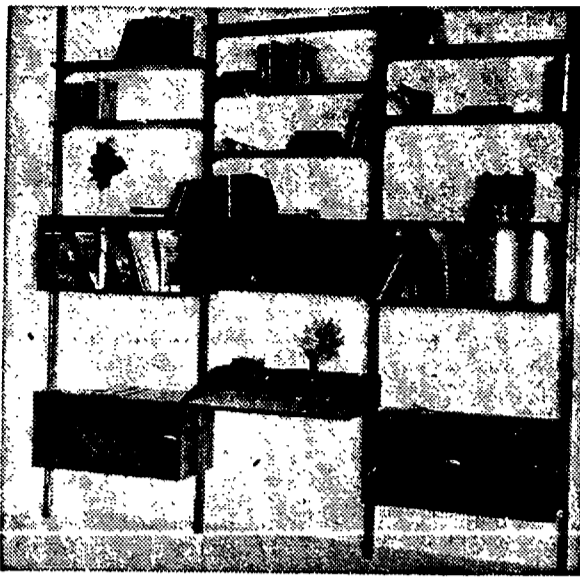

Missing were seven blank personal checks and \$10 in 1964 Kennedy half dollars.

A partial package of cigarets was found near the rear door. They were taken to the police station to check for prints as well as a plastic jewelry box and two check books.

Footprints found at the rear of the house indicated the person or persons must have come from Fisher road. It is believed that the intruders were in the house for some time. Police checked with neighbors

in the area and nothing unusual was seen or heard, although one of them stated that they heard a party in progress in the neighborhood earlier in the evening.

You can dry more than five loads in a Gas dryer for the cost of doing one in an electric. Which means you save enough over an electric dryer for your Gas dryer to pay for itself in seven years. What's more, most Gas dryers last for more than ten years.
Gas dryers save on installation, too. Michigan Consolidated Gas Company will connect new and used Gas dryers free in the areas we serve. And maintenance expense is negligible. In a survey of more than 300 families who owned their Gas dryers an average of five years, a great majority had no service calls at all.* And total maintenance costs for the total group averaged out to less than 20¢ per year per dryer.
Isn't the dryer that costs the least and does the best the dryer for you? Free installation makes it an even better buy. See the new models at your dealer's or Michigan Consolidated Gas Company showrooms.

REPORTS THEFT

Gertrude Romanchuk of 21410
 Littlestone, Harper Woods,
 bought \$19 worth of groceries
 from Wrigley's Supermarket,
 19231 Mack, and placed them in
 her car parked in the lot in
 front of the store, she told
 Woods police. She locked the
 vehicle, but left the vent window
 open. When she returned, she
 found the groceries gone.

Lovelorn Youth Facing Charges

Anthony Pecoraro, IV, 19, of
 22440 Edmunton, St. Clair
 Shores, was arraigned for exam-
 ination yesterday, April 5, be-
 fore Woods Municipal Judge
 Don Goodrow, on a warrant
 charging him with breaking and
 entering a business place.

The youth was arrested on
 Saturday, April 1, at St. John
 Hospital, when doctors called
 police after he sought treatment
 for a badly cut hand and face,
 received when he allegedly
 jumped through the front plate
 glass window of Arnold's Drug
 Store, 20853 Mack avenue.

He told arresting officers that
 he had broken into the place,
 where he had been employed
 from November 1966 to March
 1967, because he was despon-
 dent, and that he was looking
 for a revolver his former em-
 ployer had kept in the store.
 He claimed he wanted the fire-
 arm to do away with himself
 because his girl friend had
 broken up with him. He did not
 find the gun.

Pecoraro said he was taken
 to the hospital by a passing
 motorist, shortly after midnight,
 and while being treated told the
 doctors of what he had done.
 Police were called immediately.

Sgt. Thomas Kane and Patrol-
 man Thomas Podewzik said
 they were on routine patrol,
 south on Mack, when they were
 stopped by two youths in a car,
 who informed them of the
 broken window of the drug
 store.

Podewzik checked the inter-
 ior of the store and found a
 trail of blood that led to a pre-
 scription desk at the rear of the
 building. The trail was followed
 to Ridgemont and Mack, to the
 southwest corner, where it dis-
 appeared.

Kane and Podewzik called for
 assistance, and Cpl. Bernard
 Kelly and Patrolman Don Sabel
 were dispatched to aid in
 searching the area.

As the officers continued the
 search, information was re-
 ceived from their station that
 doctors at the hospital had
 called to report of a badly cut
 young man, who had told them
 of the incident at Arnold's
 Drugs.

Kelly and Podewzik arrived
 in the parking lot of the hospi-
 tal, and as they got out of their
 scout car, a hospital attendant,
 waiting at the entrance to the
 emergency drive, pointed out
 Pecoraro to the officers.

As the policemen approached
 Pecoraro, who was about to
 enter a car driven by his
 mother, who had been called
 to the hospital, waited for the
 officers, and surrendered with-
 out incident. He admitted he had
 broken the window, and explain-
 ed why. He was placed under
 arrest.

Taken to the station, Pecor-
 aro, in the presence of his
 parent, told police that he had
 taken his girl friend out on a
 date to a drive-in. He said he
 had about six beers. He also
 said she had told him that they
 were through.

Pecoraro said after his girl
 was taken home, about 12:30
 a.m.; he asked a friend to drop
 him off at the drug store. The
 friend left the area after this,
 he said.

Brownell Students Create In Connection with Study

Brownell Junior High School's ninth graders have really been experiencing new and interesting work 'n' fun projects of late.

Lynne Spilos' Ninth Grade Foods Classes decided to initiate Brownell's Father-Daughter Dinner. Thirty-three proud dads were treated to delicious chicken dinners prepared by their own daughters. Two dates were decided on, and the project begun.

Lynn Horsley, Denise Dossin, Debbie Davis and Linda Kavaya designed and made bright invitations with matching place cards in gay colors, while their classmates planned the menus, collected recipes and fashioned attractive green and yellow decorations.

The girls gaily decorated the "banquet hall" with a large banner that read, "Welcome Fathers."

The dads were greeted with warm smiles, punch and appetizers and given carnation boutonniers, snapshots and cologne.

One of the evenings, cream puffs capped the festivities, while steaming apple pies delighted the dads on the second night.

Both dads and daughters were delighted with the dinner. Many a mother will find that she has new competition in the cooking department—from all the cookery her little gal has learned from the talented Mrs. Spilos.

From food we move to fiction and Mrs. Laura Gregory's ninth grade honors English class. Here under the able direction of Mrs. Gregory, the study of great novels were enriched by developing meaningful projects.

Although many artistic talents were uncovered the class still recognized several as being outstanding. Kathy Krieger, in reviewing Thomas Costain's "The Silver Chalice," did portraits of all the main characters in pastels. Especially impressive was her own design of the stand for the chalice.

Shelley Boyd and Lynne Montgomery revealed musical talent in their projects. Shelley wrote the music and lyrics for the Sons of the Pearl-of-the-Family, and-of Evil, as she imagined them in John Steinbeck's, "The Pearl." She sang her ballads and accompanied herself on the guitar.

Lynne wrote the lyrics to her ballad, "Shane" from Jack Schaffer's, "Shane." She sang her story to the tune of "Polly Von" with her own guitar accompaniment.

From Dickens' "Great Expectations," Alex Taylor fashioned four rooms and their furnishings symbolizing the various themes from this novel.

Gay Walton produced an imaginative collage, built into a picture frame to demonstrate the theme of Steinbeck's "The Pearl."

Sarah Moran's subject for her structure was a street scene in Paris, taken from Charles Dickens' "Tale of Two Cities." Using a coach and steed as her focal points, she constructed to scale the architecture of Paris in that period.

These projects were highly successful and gave the students an opportunity to express themselves in manners best suiting their own talents, while fulfilling a class assignment. Some of the other projects were: soap carvings, plaster figures, mobiles, instrumental music, drawings and paintings, abstracts, montages and cardboard structures.

The nine grade cooking classes and honors English class expressed two new approaches to teaching familiar courses. Both teachers, Mrs. Spilos and Mrs. Gregory should be congratulated on their well planned and original projects.

Capture Honors At Science Fair

Four chemistry students at St. Paul High School are regional winners in the Detroit Science Fair exhibition. Their projects were displayed last week at Eastern High School. The winners will now present their projects for exhibition and judging at the Tenth Metropolitan Detroit Science Fair to be held at Cobo Hall during the week of April 15-18.

Winners include three juniors and one senior—Charles Wilson, junior, Polymers; James Kotz, junior, Gas Chromatography; David Fromm, junior, Determining the Threshold Values of Metals; Jean Foster, senior, Shorthand to Basic Mathematics; Trachtenberg System.

St. Paul's Science Fair projects were supervised by Sister Catherine Philip, O.P. who heads the science department.

Law Alumni Day will be served by the Wayne University Law Alumni Association on Saturday, April 9, a day-long program at the School Building and the Gregor Memorial Center. The highlight of the year's program will be a discussion on "The Probate Reform in Michigan."

We can keep you in hot water.

To Open Pool For Retarded

The Department of Community Services of the Grosse Pointe Public School System has opened the doors to swimming opportunities for children who have some type of physical or mental handicap that would otherwise restrict them from the classes that are currently available.

Beginning April 15 and running for eight consecutive Saturday afternoons, the Brownell swimming pool will be opened to school-aged handicapped children who will find a freely structured and carefully supervised program that will adjust to the swimming needs of each participant.

Children who are registered through the Department of Community Services will find that they can just paddle away in a fun-loving way, and if instruction is appropriate there will be personnel available for such instruction.

While the pool will be open from 1 to 3 p.m., the time a youngster spends in the pool depends upon how much he wants, or can take. The fee for the class is \$4.

It will be necessary to enroll children through the Department of Community Services before a child can be admitted. This may be done by calling for a reservation and enrollment forms at TUxedo 5-3808 or TUxedo 5-0271.

Hockey Chiefs Take Two Titles in Their Division

The Grosse Pointe Chiefs hockey team won the Southeast Michigan Hockey Association, Juvenile "A" Division, league and play-off championships. This is the first time in the history of the Southeast that a juvenile team had won both titles in a single season.

The scene was set on Monday when the Chiefs and Pontiac played to a zero to zero tie, thus making the Grosse Pointers and St. Clair Shores Lions tie for first place. It was decided by the Southeast board of directors that if these two teams should meet in the play-offs they would play for the league championship and the play-off championship.

On Wednesday Grosse Pointe beat Royal Oak 3 to 1 in a one game knock-out semi-final. Goals by Doug Kalvelage, Tom Buckman and George Mercer took the Chiefs into the play-off finals against St. Clair Shores Lions.

On Friday the Chiefs beat St. Clair Shores by a score of 3 to 1. A single goal by Jay Gill and two goals by George Mercer put the Chiefs one game up on their opponent.

Then on Sunday the Chiefs did it again by beating St. Clair Shores 1 to 0, on a goal by defenseman Bob Schmitt.

Goalies Bill Noecker and Bill Bockstanz played an outstanding series by only letting in two goals in the last four games. These two boys only allowed 26 goals in 26 games which made them the best goalies in the league for the third straight year.

This was a great year for the Grosse Pointe Chiefs, especially the last four games, in which they received outstanding play from Sam Orlando, Adam Perkowski, Bob Schmitt, Dan Clough, Sal LaMilla, Greg Carpenter, Jay Gill, Wally Thurnam, George Mercer, Tom Buckman, Doug Kalvelage, Randy Neil, Marv Larivee and Bill Acker.

Coaches Harold Neil, William Gill and Chris Coury did a terrific job of moulding the players

into a winning combination this year and also must be congratulated for their efforts, as they devoted countless hours at and away from home for the team and hockey.

It is hoped that the achievements of this fine team will be an inspiration to all minor hockey in the Grosse Pointes.

The Grosse Pointe Chiefs in the last three years finished twice as champions and once in second place in the Southeast Michigan Hockey Association.

City Registering Little Leaguers

Registration for the Grosse Pointe City Little League is nearing completion. All boys who desire to play baseball this season must be between the ages of eight (8) and twelve (12) and must be registered. Completed registration cards must be returned prior to the tryouts scheduled for this weekend.

Major League try-outs are set for Saturday, April 8, at 8:30 a.m. All boys not presently assigned to a major league team who are between the ages of nine (9) and twelve (12) should bring their gloves to the Neighborhood Club field.

All fathers interested in assisting in the league are not only welcome but are a necessity. For information on registration or try-outs contact league president, George Cotichio, 595 Lakeland, 885-4846.

BYC Swimmers To Defend Title

The Detroit Yacht Club swimming group, the Sea Serpents, will host the National Water Basketball Championship at the club on April 15 at 2 p.m.

BYC's Sea Serpents, the current champions, will defend their title against the Detroit Athletic Club's Beavers and Cleveland Athletic Club all-star teams. Fred Jensen, BYC past commodore, is chairman of the event and Sea Serpent president John P. Huckins, of Briarcliff drive is his aide.

There'll be a buffet luncheon at noon and a cocktail party and banquet that evening.

MADE 16,909 ARRESTS
Michigan State Police officers made 16,909 arrests in February, 15,179 for traffic offenses and 1,730 on criminal complaints, according to the department's monthly activity report. In addition, 397 juvenile traffic offenders were arrested and 435 delinquent minors and one wayward minor apprehended.

TIP TO MOTORISTS
Give yourself plenty of living space on the highways—tailgating is a dangerous practice.

Farms-City-Park League Enrolling

All boys whose age on July 31, 1967 will be 13, 14, or 15 and who live in Grosse Pointe Farms, City, or Park, are invited to register for Babe Ruth Baseball. The last chance to register will be at tryouts on Saturdays at 9 a.m., April 8 and 15, and on Sundays at 2 o'clock, April 9 and 16.

Tryouts for Grosse Pointe Farms and Grosse Pointe City boys will be at Kerby Field. Boys living in Grosse Pointe Park will report to the Neighborhood Club field.

Boys who played in this league last year must register on one of these tryout dates, if not already registered, but will not enter the tryouts since they will automatically be re-assigned to the same team as last year.

All 13-year-olds and new 14 or 15-year-olds must enter at least two of the tryouts. The purpose of the tryouts is for the various managers to analyze the abilities of the boys with the object to form teams of equal competitive strength.

Registration is a very simple procedure. Report to the field with a parent to sign the form, a birth certificate to prove your age, and \$10 to help pay the cost of operations. Families with more than one boy in the league only pay one \$10 fee.

After the tryouts are over, the managers will select their teams and notify the boys and where to report for practice. The regular playing season will open on Saturday, May 6, with five games scheduled that day.

The Babe Ruth League is financed by the registration fees of \$10 per family participating, and contributions from local businesses. A program booklet will be published with advertising for the contributing businesses.

With 10 teams in the league, 15 boys on each team, each team, playing a 21-game regular schedule, plus playoffs and championships, the cost of balls, bats, umpires, uniforms, catchers' equipment, etc. far exceeds the boys' registration fees.

Any business interested in supporting this worthwhile community sports program is urged to contact Al Wilkie, of 346 Merriweather road, TU 2-2556. Your support will be greatly appreciated by a lot of fine boys and their families.

Many Language Classes Offered

Classes in foreign languages are available to adults who want to enjoy the stimulation of acquiring or reinforcing a linguistic skill during this spring. Hundreds of adults are about to re-enter their academic pursuits in the delightful atmosphere that balmy spring nights bring to the Grosse Pointe High School campus.

Spanish, German, French, Italian, Russian and English for New Americans are offerings which provide the inducement for self improvement and growth without the incumbrance of final examination, report cards, or failure. This is an educational experience where all participants become winners.

The Spanish classes are taught by the personable Victoria Plata, who adheres closely to her Berlitz methods of the conversational approach. Spanish classes this term are being held on Mondays through Thursdays, and two sections are scheduled to meet twice a week during the seven week course.

German is being taught by Frau Brigitte Rauer, whose wise talents have been long recognized by the many adult students she has taught in past years in Grosse Pointe. The German conversation classes are scheduled for Mondays and Wednesdays from 7:30 to 9:30 p.m. for eight weeks.

French classes are to again be taught by Henriette LaCroix who is also planning to conduct a summer tour to Europe, timed to be in Paris for Bastille Day. Mme. LaCroix is scheduled to meet with her conversational French classes on Mondays and Thursdays. (This class in conjunction with the Tuesday French Cooking class might prove to be an interesting combination).

The compassionate Carl Erickson will offer his talents to New Americans who wish to learn to speak English. Candidates for this class are dependent upon understanding friends who will encourage and direct them to Mr. Erickson's care. His classes are commonly filled with students with origins from every corner of the world, and with the common goal of becoming more independent by learning our language. It is one of the most inspiring of all adult education classes.

John LaMonica is scheduled to continue the Conversational Italian classes on Wednesday evenings as he has done so successfully in the past.

Russian has regained some prominence among adult language students and the interesting Jakob Jurich has returned to the campus to once again make Russian available to Grosse Pointe adult students. He will hold forth with his class on Wednesday evenings.

Those adults wishing to make this spring a profitable delight are encouraged to call for further information for these classes and others at the Department of Community Services, TUxedo 5-3808 or TUxedo 5-0271.

St. Paul's Plans Lecture Series

Parish members of Grosse Pointe's Lakeshore St. Paul's and their friends are invited to a series of two free lectures by well known speakers who will address themselves to the growing social and human relations problems of the times.

Special emphasis will be placed on how these problems might best be met locally.

The first of two meetings will be held in the school's cafeteria at 170 Grosse Pointe boulevard on Wednesday, April 12, at 7:45 p.m.

Guest speakers for this event are Fr. William Cunningham who is a professor of English Literature at Sacred Heart Seminary in Detroit, and Dr. Abe Citron who is an associate professor in the Department of Education and Sociology at Wayne State University.

Fr. Cunningham has chosen as his topic: "The Church Today And Its Attitudes On Social Problems," and Dr. Citron will speak on "The Psychology Of Prejudice".

Interested Grosse Pointers are invited to attend this free lecture series.

The Grosse Pointe Cinema League will meet April 13 at 8 o'clock in Alger House of the Grosse Pointe War Memorial for a members' movie contest. Films will be rated by impartial judges and the winner's name inscribed on a club trophy. Three 16mm films will be shown.

John McCaughey will present "Gold in the Hills." Robert Headley has filmed "Adventures in a Vacant Lot." The final film, "Holiday in Hell's Canyon," will be presented by William Kennedy.

A product of the University of Michigan School of Engineering, Mr. Cooke began his business experience as an insurance investigator and held the position of Michigan Claims Director when the war intervened and he entered the Air Force as part of the Intelligence Service. Afterward he was employed by Ford Motor Co. where he served in the Empire Proceedings Office, the Management Relations Office and, in recent years, as Supervisor of Employee Services.

Home again! — And all we can say about our trip around the World via the Southern Cross" with the 101st Branch, English-Speaking Union, is: "It was DERRFUL!"

The people, the ones we traveled with, the ones we met along the way, were wonderful. The places, ranging from the vast plains of East Africa to the spectacular mountains of New Zealand, were wonderful. Even the weather was wonderful, (except for one rainy day in Australia — and that gave everyone a chance to get wet.)

We can't begin to describe all we saw and did and in detail, so we'll just give you a few thoughts and notes from our jam-packed, jumbled diary/notebook.

Snapshot at the Pyramids: Mrs. Clarence Maguire, of Moorhead boulevard, her daughter Lorna (Mrs. Venderbush) and son and daughter-in-law, David E. Maguire, all wending their way camel-up to the Sphinx . . .

East Africa: Vast, hot . . . Hundreds and hundreds of wildebeeste, gazelle . . . Lions in trees . . . Land-Rover driver, Benson T. Mwangi, "world's best guide," making sure we saw EVERYTHING, elephants to rabbits . . . Back in Nairobi, at a Banquet, ESU Detroit Branch president C. Putnam, of Earl court, brandishing a Masai spear and describing succinctly, amid gales of sympathetic laughter, how it felt to go out on "Suffer-y" . . .

Ceylon: The Paul Morelands, of Harvard road, had a cool drink on a terrace overlooking the Indian Ocean as a snake-charmer put a cobra through his body just a few feet from THEIR feet . . .

Singapore: Everyone go shopping! Sydney: Everyone find a kangaroo! . . .

New Zealand: South Island terrain so beautiful it's a description, people, in both South and North Islands the most "welcoming" in the world . . . We were glad to discover that our delightful young courier, Maxwell, had spent a year in Royal Oak as an Australian Field Service exchange student . . . We'll never forget our "favorite" New Zealand evening as dinner of the Rapson sisters in their Auckland home . . .

Hawaii: How can Trudy (Mrs. Earl G.) Meyer, of Tonawanda place, continue to look so GOOD all the time? — For the rest of us are beginning to be a little thin for wear . . . Another snapshot: Don Miller, of West lane, waiting patiently outside the Korolevu Shop dressing room as his wife and daughter mummus . . .

Reception At Tonawanda Place Home Of Bride's Parents, The Honorable And Mrs. G. Mennen Williams, Follows Rites

A traditional gown of satin and lace was Nancy Quirk Williams, Jr.'s choice for the Saturday, April 1, ceremony at which she became the bride of Theodore Ketterer, III.

Her illusion veil fell from a matching lace and satin headpiece, and she carried an arrangement of Eucharis lilies, stephanotis and ivy. The 4 o'clock rites, in the Cathedral Church of St. Paul, were followed by a reception in the Tonawanda place home of the bride's parents, The Honorable and Mrs. G. Mennen Williams.

Wendy Williams, who served as her sister's honor attendant, and bridesmaid Julia Ketterer, the bridegroom's sister, wore frocks of raspberry linen, with white lace accents on their sleeves, and carried bouquets of white Elegance carnations.

The bridegroom, son of the Theodore Ketterers, Jr., of

Pittsburgh, Pa., asked Louis B. Loughran to act as best man. In the usher corps were Richard S. LeFrak, David E. Morine, G. M. Williams, Jr., William Anthony Ketterer, Paul Francis Ketterer, William B. Krag, Michael T. Krag and Charles J. Murray.

Setsation

EVERY WOMAN'S DREAM COME TRUE!

It's no secret that women everywhere now want their hair to look smooth. With this in mind, Bernard is introducing "Setsation." The purpose of this is to give body to the hair, a "pattern" so to speak, that will retain body in the hair for from six to eight weeks.

It's a simple deal, Hair is shampooed in the regular way, set on rollers — not rods — with a special setting lotion. Once it is all rolled up it is wet down again and you are popped under a processing machine for six minutes. After this, rollers are doused again, this time with a "sealing" lotion which is rinsed off with plain tap water. It all takes only a dozen extra minutes or so before you go under the dryer, with rollers still intact. After that it's the usual comb-out.

Hair emerges with the color application unscathed and elasticity marvelously strengthened. Not a trace or kink, nor of that horrid, hard, fizzy feeling.

In essence — "Setsation" is a kind of a pep-pill treatment for the hair strands that can be given from time to time to make the hair set last longer.

Contest Staged By Jacobson's

By Nora Simon
It was a whirlwind of summer fashions as 17 finalists competed for the title of Miss Jay "Seventeen" of Grosse Pointe. The fashions and the contest were given by Jacobson's of Grosse Pointe.

The action place was the Grosse Pointe War Memorial Auditorium Monday evening as the youthful Pointers aged 13 to 18 modeled peppy mini skirts, low heeled shoes and zingy hats with emphasis on the total look.

Large jewelry, rope beads and "citron" colors, vibrant as the summer itself, were modeled by the contestants.

The girls were judged, as they modeled the Miss Jay Shop fashions, on the basis of poise, facial beauty, photogenic quality and the ability to express self.

The winner of the contest was Ann Mary Hayes of 633 South Higbie place. Ann Mary is a sophomore at Our Lady Star of the Sea High School. The first runner up was Dianne Seeber, 819 Grosse Pointe court, who is a 14-year-old freshman at Liggett. Second runner up was 16-year-old Helen Kulaja of 53 Stonehurst, who is a Grosse Pointe High junior.

Mary Ann will now have the opportunity to compete for the National Seventeen contest and a full expense paid week in New York.

Some prices are stable, but the cost of experience keeps right on going up in price.

Two events are planned to welcome spring at Grosse Pointe Congregational Church.

A reception at Hillcrest Country Club followed the 11 o'clock ceremony in Our Lady Queen of Heaven Church.

Alencon lace accented the bride's gown of ivory mousseline de soie over taffeta, and matching Dior bow held her illusion veil.

The headpieces were hem length blue silk illusion veils, and they carried Colonial arrangements of tinted carnations and statice.

Lawrence Helin served as best man for his brother, and ushering were Ronald Helin, another brother, and Russell Bowen.

Mrs. Lazowski, mother of the bride, chose for her daughter's wedding and the reception an ice blue silk and wool costume suit, styled with a Chantilly lace overblouse.

The bridegroom's mother, Mrs. Helin, wore an emerald green silk and wool dress and coat ensemble, trimmed with appliqued ribbon. Both mothers

HOUSEHOLD HINT

Reduce foaming of dried beans and peas by adding one tablespoon of meat drippings or other fat to cooking water. This works nicely for pressure cookers too. Never fill the cooker over one-third full. It doesn't help keep large limbs from foaming, foods specialists at MSU say.

Actor Jack Albertson tells about the time he asked for a part in a dramatic show that producers Lindsay and Crouse were casting. Crouse thought very seriously for a moment. "Yes, there is an American in it," he said. "Tell me, Jack, what kind of salary do you get these days?" "Well, my last salary was \$250 per week." "Jack," Crouse replied sadly, "you are too tall." —Playbill

MRS. LEEROY TEMROWSKI OF NEFF ROAD

By Pepper Whitelaw

With the strains of "Georgy Girl" and "Sugar Town" in the background, a lovely and composed gal, Mary Catherine Temrowski, mother of five boys and full-figure model, sat smiling and poised in her home in Neff road.

Happily joining in the boys' games and laughter and answering questions at the same time with no signs of agitation over the children's many interruptions, she was a picture of complete composure . . . a picture of a buddy as well as a mother . . . a picture of a very happy woman.

Mary Catherine explains her hobby, modeling, quite simply, "It was an accident!"

Thought It a Joke

It seems she was shopping one day in Hudson's when she was approached by a perfect stranger who asked her if she had ever done any modeling for full-figure fashions. "I was so surprised, I was sure she must be joking," Mary Catherine recalls.

The woman then gave her a card and told her to contact her if she was interested. Mary Catherine went home and told her husband, Leeroy, an attorney. Lee said, "Mary Catherine, have you ever seen models that didn't look as if they were half-starved? And you hardly fit in that category—so forget it."

But just two short months later Mary Catherine got a call to come downtown and discuss a job. After a little discussion, Mary Catherine decided that she just couldn't spend the amount of time the job involved away from home. So the woman from Hudson's suggested Mary Catherine contact Crowley's which needed a full-figure model on a part-time basis.

Her Career Begins

Mary Catherine went to Crowley's and after taking three lessons from one of the models began her modeling career. Before long, she found herself doing full-figure modeling for Lane Bryant as well as Crowley's. Now, eight years later, she is very much in demand as a model. She still adheres to her husband's caution about working too many days . . . she works about two days a week. "It's so much fun," muses Mary Catherine, "and the people I meet and model with are so pleasant . . . I just love it—as a hobby."

Mary Catherine stresses how clothing for the full-figure gal has changed in the last eight years. "Today, a lot of junior styling goes into the half-size fashions. No longer does the size 18 have

place of honor in the Temrowski home is that of Father Andrew Roberech, whose church, Our Lady of Sorrows, burned down four years ago.

Mary Catherine heard about it and wanted very much to help the priest rebuild his church. She contacted several women from the East Side and they put together a fashion show at the Roostertail.

Raised \$45,000

They sold tickets for \$4 each and got donations of prizes from various stores. They ended up collecting \$45,000.

Now, almost four years later, the new church is near completion and Mary Catherine's eyes fairly light up when she talks about her small contribution toward it.

The Temrowskis take vacations together as a family. This summer they are planning a trip to California.

"We bought a special 10-passenger, air-conditioned wagon, just for the trip," says Mary Catherine. "The boys are really saving their money for any 'extras' they might want."

Mary Catherine's Aunt Marian Berger lives with the family and she will be joining them on the California trip.

Auntie Is Big Help

"My Auntie is a real joy to have around," says Mary Catherine. "She helps me out with the cooking and with the boys. All I know about cooking she has taught me. And I must have learned pretty well, because this is a family of big eaters."

Young Lee prods his mother to tell about the European trip they took last year. Mary Catherine and the two older boys went to Europe with Mary Catherine's father and mother, Mr. and Mrs. Frances Burger.

"One of the highlights of our trip was a visit with relatives of a dear girlhood friend of mine in Rome. We went to their home by cab and fortunately had an English-speaking cab driver who spent the evening with us translating and generally making things easier for us.

Sincerity Gets Across

"They certainly were fine people and we learned that regardless of the language barrier . . . sincerity can always be translated. The whole trip was a great experience . . . and how the boys loved it."

The entire atmosphere of the Temrowski home is of complete relaxation and enjoyment and appreciation of each individual for the other. It's "easy living" with a vengeance, as Mary Catherine, unruffled by questions and comments, with the last bars of "Georgy Boy" coming to an end, corals the boys into the kitchen for their dinner.
