## Disposal Authority Contracts to Build Incinerator Plant

### \$1,830,000 Edifice Expected To Be Completed In 18 Months; Organization Adds Four New Members

A 15-year-old dream moved a step closer to reality on Tuesday, June 6, when representatives from eight communities affixed their signatures to documents making them full partners in the Grosse Pointe-Clinton Refuse Disposal Authority. The signing ceremony took place at the Hillcrest Golf and Country Club in Mt. Clemens.

With the acceptance of the agreement, construction of a 600-ton incinerator building, to cost an estimated \$1,830,000, will begin immediately on a section of the former 75-acre Hartman property, Quinn road and Fourteen and a Half Mile road in Clinton Township. The building is expected to be completed and in operation in approximately 18 months, if everything goes according to schedule.

The Authority recently signed a contract with the General Waterworks Corporation of Philadelphia which will erect a 600-ton per day plant, with a stipulation in the contract agreeing that the firm will operate the plant for 25 years, after which the building will revert to the ownership of the Authority.

### To Have Two Furnaces

The incinerator edifice will contain two furnaces, capable of burning 14 tons of rubbish an hour, each, at a maximum cost of \$5.10 a ton charge to each of the participating cities, to as low as \$3.79 a ton, under a sliding scale, if enough outside communities can be induced to burn their rubbish at the incinerator.

It was pointed out that the more non-partner communities contract to burn their refuse in the incinerator, the less the cost to the partners. If between 550 and 600 tons of rubbish is burned each week, the cost to the Authority will be \$3.79 a ton, under the sliding scale.

Members of the Authority are: the Park, City, Farms and Clinton Township, the original partners; and the Woods, Shores, Harper Woods and Mt. Clemens, who joined within the last few months. The Woods was the last to become a participant in the organization, signing a membership agreement on Monday, June 5.

Ledyard Mitchell, chairman of the Authority, following a dinner held at the Hillcrest hotel of the hard work that was entailed before the final signing of the agreement, by the representatives of the original members of the Authority, who worked more than four years for this moment. He had words of praise for those who did the ground work, and for those who had the foresight to join the organization, which will benefit all eight partners.

### Smith Paid Tribute

He gave special tribute to Murray M. Smith, retired Farms City Engineer, and presently manager of the Authority, who has held this post since the group was formed in 1962.

Smith received a standing ovation from those present, then, a rousing "Happy Birthday" was sung for the Authority manager, whose 68th birthday it was. A large cake, bearing 69 burning candles was brought into the room and placed before

## TV Set, Stereo Taken from Car

Jerry Geml, 17, of 1785 Roslyn, reported to City Police on Monday, June 5, that sometime between 12 and 2 p.m. on this date someone entered his car through the rear convertible window and removed a 10" portable television set valued at \$81.12, and a Craig Stereo Tape pack valued at \$79.95.

## Gunman Robs Woods Drug Store; Loot Includes Drugs

A lone gunman, armed with a blue steel revolver, held up the A. J. Meyer Pharmacy, 19876 Mack avenue, at about 9:30 a.m. on Monday, June 12, escaping with narcotics, cash from the store, and expensive jewelry taken from a woman clerk.

The bandit forced the pharmacist, Bruce Diehr, 38, of 21148 Michael court, St. Clair Shores; Mrs. Amy Patrona, 41, of 23765 Teppert, East Detroit; the clerk; and the cleaning woman, Mrs. Hazel Cantwell, 54, of 11227 Jupp, Warren, into the back room.

Diehr and Mrs. Cantwell were alone in the front of the store when the robber entered with a handkerchief held over the lower part of his face, according to information given to Patrolman William Duster, who was first

at the scene. Mrs. Patrona, who was in a back room, walked to the store proper and was confronted by the bandit.

Diehr said that the gunman demanded narcotics as soon as he announced a hold up. The pharmacist said he was forced to give the thief an eighth of an ounce of cocaine, which was all that was available, six vials of morphine; and an unknown amount of codeine.

The hold-up man then went to the cash register and scooped up approximately \$150 in currency, then turning to the clerk, forced her to give him her white gold, multi-diamond wrist watch, valued at \$900, and her white gold, multi-diamond cocktail ring, worth \$400.

### Only 6,390 Of Estimated 40,000 Qualified Elec- tors Bother To Cast Ballots

Out of an estimated total of 40,000 residents eligible to cast votes in Monday's Board of Education election, 6,390 voted Arnold P. Fuchs and Calvin J. Sandberg into four-year trusteeships. Fuchs garnered 2,761 votes while Sandberg was given 2,599.

Dr. Frank H. Parcels, president, currently ending his first term on the Board, took third place in the election with 2,500 votes. Dr. Robert K. Whiteley, vice-president, was not a candidate for re-election.

Monday's balloting represented a larger-than-usual turnout of voters for a Board of Education election. In 1966 only 3,371 voters were cast. Total in 1965 was 3,943 and 3,728 voted in 1964.

### Proposition Passes

The voters gave permission to transfer to the Building and Site Fund balances totalling \$80,099.30 remaining in the 1953 and 1954 Building Bond Debt Retirement Fund.

Special Proposition No. 1 passed with 4,786 "yes" votes and 1,302 "no" votes. Voter approval is required to use the money for purposes other than for debt retirement.

Arnold P. Fuchs is a graduate of the School of Engineering of Wayne State University. He is employed by an automobile manufacturer as Missile Division Program Manager.

Mr. and Mrs. Fuchs are the parents of a son enrolled in the Grosse Pointe Public School System. They have been residents of the community for 16 years.

A former YMCA counselor, he has held memberships in the Civil Air Patrol, the Citizens Advisory Committee, and the Home School Council.

## Michael Danaher Hooks Rare Fish

Michael Danaher, of North Deepdlands road, couldn't believe his eyes when he looked down at what he had hooked on his fishing line last week.

Michael, 13, was fishing off the breakwall between Seven and Eight Mile roads, when he pulled in a fish that was 32 inches long and weighed 12 pounds.

Upon inquiry Michael, a student at Grosse Pointe University School, found that he had caught a Mirror Carp, a rare fish that constitutes less than two per cent of all wild Carp. The fish is partially scaled and is sometimes referred to as a German Carp.

Reluctantly, Michael gave the fish to a friend for a fish dinner, but he'll long remember and tell, a fish story that was for real!

The opening event is a family picnic-excursion to Bob-Lo Island on Saturday, July 1. Members of St. Ambrose Parish and their friends will board the 10 a.m. or 11 a.m. boat and return at their option.

A special field south of the dance pavilion will be reserved for refreshments, picnicking, games and prizes. Tickets for adults are \$1.75; under 12 years \$0.80; and under 6 years, free. Tickets may be ordered by enclosing check and writing to St. Ambrose Golden Jubilee Committee, 15020 Hampton, Grosse Pointe Park, 48230.

### INVITATION ACCEPTED

City Police received a call from Mrs. Mary B. Shpila, 20211 Mitchell, Detroit, reporting her car was stolen from in front of 18150 Mack on Friday, June 9. The keys had been left in the ignition. A broadcast was sent out to all stations and the car was recovered at Mack and Bournmouth on June 10. The owner was notified.

## Fire in Howard Johnson Restaurant Soon Subdued

A grease fire in Howard Johnson's, 20460 Mack avenue, caused considerable smoke damage throughout the restaurant, forcing a suspension of business until re-opening was approved by the Grosse Pointe Board of Health. It was disclosed by Woods Director of Public Safety Allen Andrews.

The alarm was called in by Ina Wilson of 9987 Quincy, Detroit, a cook for the restaurant, at 7:01 a.m. on Monday, June 12, just as the shift was changing at the Woods station. The shift going off duty and those coming on, responded to the alarm, as did public safety officers on duty at the time, the director said. A total of 12 men and all firefighting apparatus were at the scene within a very few minutes.

## Proposal to Change Dog Ordinance in Park Tabled Until Next Council Meeting

### Two Councilmen Argue Law Would Be Difficult To Enforce And Postpone Action Until Owners Can Be Notified

Approval of an amendment to Grosse Pointe Park's Dog Ordinance has been set aside for two weeks, until the next meeting of the city council on Monday, June 26. The amendment would have the effect of tightening the law by requiring all dogs be on a leash and under control of a person able of restraining the action of the pets, when they are being walked in public.

The change, recommended by Police Chief Arthur Louwers, came under fire of two of the councilmen, George Verdonck and William Luedders, and several persons in the audience in the council chambers. It was debated that the proposed change would be difficult to enforce.

### Cites Own Experience

Said Verdonck: "This amendment will be difficult to enforce because it will require all dogs be kept on a leash at all times while being walked. If a small child is walking a big dog, the animal can drag him anywhere it may wish to go. I have a dog at home that listens to no one but me, and that is only because—I outweigh it by 50 pounds."

Luedders said that he believes that the change will be hard to enforce, but stated that it would not be fair to approve the amendment, without at least notifying pet owners of the proposed change. He asked that the matter be deferred until the next council meeting to be held on June 26, which won the approval of his colleagues, and that of the audience.

The present ordinance reads that a dog must be kept on a leash, or otherwise under the

An alert for mutual aid, was kept for six minutes, before it was cancelled by Andrews, when it became apparent that the Woods firefighters were experiencing no difficulties and had the flames under control. The blaze was completely extinguished in approximately 15 minutes, the director said. The fire was attacked at three points, he added.

The cook, it was said, opened the restaurant, and had started the range burners in preparation for the day's business, when somehow a burst of flame touched the grease covered grill filters, which caught fire. The burning grease spilled into the stove duct leading into the basement and traveled through the duct to an exhaust fan, which

## Park Council Pays Tribute To Mr. Ives

### Cite's Late Councilman's Devotion To The City; John Doelle's Resig- nation Accepted

The Park Council on Monday, June 12, paid tribute to a deceased councilman, accepted the resignation of another and shuffled members of committees, to fill vacancies created by the death and resignation.

Mayor Matthew Patterson read a resolution praising the devotion to the city and its people by the late Councilman Charles F. Ives, who died on Monday, May 15, while a council meeting was in session.

Mr. Ives, the resolution stated, had served the community for more than 14 years, and had always held the interest of the people above everything else, and that his colleagues were proud to have served with him.

### To Be Presented

The council approved the resolution and authorized that it be properly set and framed and presented to Mrs. Ives, who resides at 1024 Somerset.

An air of solemnity permeated the council chambers caused by an awareness of the late councilman's empty seat, which was draped with a black ribbon, tied in a bow.

Following his reading of the resolution, the mayor expressed sadness that Mr. Ives was gone, and said that he will be greatly missed by his colleagues on the council.

With the resolution approved, the city body accepted, without comment, the resignation of John Doelle, who served as a councilman since 1960.

In resigning from his city post, Doelle automatically resigned as the council's finance councilman, and as the Park's representative on the Grosse Pointe-Clinton Refuse and Disposal Authority, of which he was secretary.

The resignation was submitted on Tuesday, May 16, and was effective as of the date it was received, but it was not official until accepted by the city body.

### Recommendations Sought

With two vacancies on the council, Mayor Patterson broached recommendation of interested citizens who might fill the gaps created by the death and resignation. He said that he had several persons in mind, and asked the members of the council to submit names of anyone who would like to serve, for

### Disposal Authority to Build Plant

(Continued from Page 1)

the speechless man. Later the cake was sliced and everyone given a piece.

**Authority Was Dream**  
An incinerator plant that would handle the rubbish and refuse of all the Pointes and Harper Woods was the dream of Smith, and the late Park City Manager Everett B. Lane, and the late Grosse Pointe City Manager Norbert P. Neff, with the dream going back further than 1952.

The Pointes and Harper Woods Rubbish and Refuse Disposal Authority was formed in October 1952, but after months of hard work and frustrations in trying to find a site and get the organization off the ground, the Authority died, but not the dream.

The following is a brief history of the events that led to the final culmination of the three Pointe public servants' hopes and dreams, with Smith the sole survivor, witnessing the stages of events:

October 1952—Meeting of five Pointe communities and Harper Woods, spearheaded by Smith, Lane and Neff. Authority formed.

November 1952—Second meeting held, in which it was disclosed that an estimated cost of constructing an incinerator building was \$900,000, to be financed by a bond issue. Operating cost of the plant was set at \$1.37 a ton. Option to purchase was taken on land at Quinn and 14 1/2 Mile roads.

February 1953—A private firm offered to finance and build an incinerator and compost plant for disposal of all rubbish and refuse of the Pointes and Harper Woods, thereby avoiding the necessity of a bond issue.

March 1953—The Authority decided on building an incinerator plant only, not with a compost plant, although the latter received the endorsement of garden groups in the Pointe. It was decided that compost was in the experimental stage and there was nothing to show that it would be beneficial.

There followed months of frustration, and the Authority was dissolved.

**Dream Revived**  
In December 1961—representatives from the communities met at the Little Club.

August 1962—The Grosse Pointes-Clinton Refuse Disposal Authority was incorporated, with the Park, City, Farms and Clinton Township as members.

September 1962—An organizational meeting of the Authority was held and officers elected.

April 1963—\$240,000 bond issue sold for the purchase of the 75-acre Hartman property in Clinton Township, from the Hartman heirs. The property is near the nine-acre dump site jointly owned by the Park and Farms, used by the two cities and also the City.

**Old Dump Closed**  
Approximately two years ago, the old dump site was closed and deeded to Clinton Township for the development of a passive recreational park, with the stipulation in the deed agreement that if the site should ever be sold, one-third of the price would be kept by the township, and one-third each will be given the Park and the Farms.

July 1964—Report on incinerator. The Authority authorized consulting engineer, Robert Stellwagon, to prepare a report on incineration.

July 1964—General Waterworks Corporation of Philadelphia requested permission to study the incineration needs of the Authority and submit a proposal to build and operate a plant on a contract basis.

September 1964—Incinerator Sales Company requested permission to submit a proposal to build and operate a plant for the Authority on a contract basis. The Authority felt at this time that they would build and operate their own plant.

November 10, 1964—Mr. Jack Dillard for U. S. Incinerator Corporation presented a written proposal to the Authority to build and operate an incinerator plant.

December 1964—A. The Authority attempts to get new member communities.  
B. Mr. Robert Ryan and the Manager Smith went to St. Petersburg, Florida, where U. S. Incinerator Corporation was starting their plant and were informed by the Mayor and City Manager that they favored the contract method of building and operating an incinerator plant.

January 12, 1965—Mr. Gordon Cook and the Manager met with representatives of the General Waterworks Corporation to discuss their proposal to build and operate a plant.

February 1965—The Authority held a meeting to discuss the contract method of incineration versus an Authority operated plant and the opinion of the Directors favored the contract method.

March 1965—A. Mr. Robert Stellwagon submitted a proposal for consulting engineering services in connection with an incinerator plant to be built by the Authority.  
B. The Authority moved to employ Harold Radcliffe as a consulting engineer to prepare specifications and take bids on a basis similar to the St. Petersburg contract under private enterprise.

May 1965—Harold Radcliffe submitted tentative specifications for Board approval and was instructed to proceed to take bids.

June 1965—Opened bids on a 600-ton plant—five bids, U. S. Incinerator Corporation low bid.

August 1965—Held the two low bids, U. S. Incinerator Corporation and Terminal Sales.

October 1965—A. We were unable to proceed on a contract for the 600-ton plant due to not being able to sell excess tonnage.  
B. Mr. Radcliffe was then authorized to prepare a feasibility report on a smaller plant to serve the four constituent communities.

December 1965—Meeting at the Country Club with representatives of Wayne County Road Commission. County plan for incineration explained.

February 1966—A. Harold Radcliffe submitted feasibility report on a 300-ton per day plant for the four communities.  
B. U. S. Incinerator Corporation and General Waterworks Corporation both submitted proposals to negotiate for the building and operating of a plant on a minimum guarantee tonnage basis with them being responsible for the sale of excess tonnage. U. S. Incinerator submitted the lower proposal of the two.

## Park Council

(Continued from Page 1) consideration at the next council meeting to be held on Monday, June 26.

The mayor then announced the shuffling of councilmen to various posts. Councilman George Verdonck was appointed as the city's representative on the Grosse Pointe-Clinton Refuse Disposal Authority and to the Management Negotiating Committee, (Labor relations), both posts vacated by Doelle.

Also, Councilman Charles Bowerman was appointed to the Plan Commission replacing Councilman Robert Hutton, who was named councilman of finance, succeeding Doelle. Hutton is also mayor-pro-tem.

The appointments taken care of, the city body proceeded with the regular business on the agenda.

## Fire Subdued

(Continued from Page 1) also caught fire.

The public safety officers fought the fire at the fan area, in the basement, and at the grill, using a chemical powder that blanketed the grease and smothered the fire, Andrews said.

Black, greasy smoke filled the building, which was aired out, but the restaurant was forced to close for the day, at least.

Since Howard Johnson's is a place of public accommodation, Board of Health approval was required before it could open its doors, again. This is a routine matter following a fire.

The total amount of damage will not be known until a report is received from insurance adjusters, it was stated.

## Student Volunteers Helping Inner City School Children

By Betty Stephens

"Last week it was kind of hairy because the kids had just come back from Lansing; in fact, we were there waiting when the busses pulled in." So said Lin Lane, of 1051 South Oxford, a volunteer at the James E. Scripps School, 2100 Huribut street, in Detroit.

Lin is one of 13 volunteers from the Grosse Pointe High School who are working with inner city school children in the Neighborhood Club volunteer program. She drives down to the Scripps School, five blocks west of St. Jean, every Wednesday to tutor for an hour a first grader "who's a little behind on his reading."

The trip to Lansing she was referring to was part of a government-financed program which promotes the integration of races along with educational side trips. Most frequent partner for predominately Negro Scripps School is predominately white Hattie M. Carstens School.

**Made Model of Capitol**

On last week's trip the fourth grade class had designed and executed a model of the state capitol. It's at least three feet high and stands on a four foot long landscaped base. As the children were carrying this gift into Governor Romney's offices that day, they happened to run into him leaving the building. He forestalled the presentation and rededicated the model to Scripps School with his signature and the inscription: "Thanks! Luck is when preparation meets opportunity."

"The programs that comprise the Great Cities School Program, similar to the Higher Horizons program in New York, which covers 178 inner city schools, are difficult to explain," said Principal George Parlato to the NEWS last Wednesday. Under this and other overlapping programs, like Project II, Cultural Enrichment, educational aids to learning are financed by government funds, mainly.

However, this spring the Great Cities budget was drastically cut, and on April 17 many extra-curricular activities for both children and adults were discontinued. Only because two teachers volunteered to go on, were a science class and a knitting class—"they love it"—for the children continued.

**Recreation Popular**

Recreation programs in the gymnasium are tremendously popular; in fact, Mr. Parlato tells of having to throw the older boys off the basketball court at 2 o'clock in the morning because the school was getting complaints from neighbors.

With the dissolution of the Great Cities program, Mrs. Jack Harrison, a kindergarten teacher at Scripps, spoke to her neighbor on Lincoln road Mrs. Perry L. TeWalt about the situation. Within a week, Louise TeWalt, acting as Volunteer Coordinator for the Neighborhood Club had volunteers taking over many of the activities.

Most of the volunteers last Wednesday were tutoring on a one pupil to one teacher basis, and they were all working with elementary school children. But Mr. Parlato told of a tutoring experience in which two junior high students were working with a tenth grade G.P.H.S. girl who is taking the same Spanish course. Her marks are tops, but theirs had fallen to the bottom. However, there is mutual aid: She can write, but they can speak!

**Plan Summer Program**

"We have a summer program laid out for children from pre-school through sixth grade, ages four to 13. We need good volunteer help of the kind that high school students can give," stated the Scripps School principal.

"Starting Tuesday, June 27, until August 4, we need reading and math helpers (one to one tutoring), volunteers for Language Arts (English grammar) and the Creative Movement Experiences. The latter is known as the Delicato method for improving mental and physical capabilities by retracing all movements in physical development since babyhood. We also need help in speech and drama, literature, creative writing, German (or any other language), Indian archaeology and a charm club which covers dress, etiquette, make-up and cooking.

"Two volunteers preferably a boy and a girl are needed for a swimming class at the Hannan Y.M.C.A. at Garland and Jefferson avenue from 8:30 to 9:30 every morning, and there's a games club, gym club, arts and crafts, archery, a primary story hour and a "Browser Books" club.

"Classes will be held from 8:30 to 12:30 every morning, but volunteers are free to choose

(is open), a friendly fuss was being made over a grinning 12-year-old celebrating his birthday that day. Tutoring finished, the first grade pupil of Linda Sejfulla, 465 Belanger road sat waiting for an older sister to take him home. In his fist he held a small wrapped bundle of raisins Linda had given him. "Suppose your sister eats your raisins before you get them home to your mother," we asked. Lifting his eyes to the ceiling, he sighed, "That's what she do every time."

the number of hours and days they can contribute, providing, of course, that they can stay the length of the hour and 15 minute classes.

"There you are—that's what an inner school enrichment program is all about. We don't bite. The kids are every responsive; of course sometimes they get a little excitable—sometimes the teachers get excitable too. I think that perhaps just the attention that these children receive from youngsters of another community is one of the chief benefits to them."

There's lots of parking space in the school lot that is entered from Bewick street, just off Kercheval avenue. There have been no reports of trouble by the teachers, some of whom live in the Pointe, who come and go daily. Call Mrs. TeWalt, TU 5-7214, or the Neighborhood office, 885-4600, if you can give some of your time now, or more particularly, to the summer program.

**Many Methods Used**

Another tutoring experience observed by the NEWS was Mary Kirby, of 91 Handy road, sitting at the teacher's desk showing flash cards to a fourth grade girl.

Another fourth grade pupil of Jackie Kin, 1530 Anita avenue, was reading stories about "Eximoes" and a dog who sat on the car keys when his family forbade him to go along for a ride.

Sue Schwab, 373 Rivard boulevard, says she does crossword puzzles all the time at home, so she had devised one that used her fifth grader's problem words as a teaching aid.

The only instance of a volunteer in charge of a group was an art class being expertly handled by Brad Eisenbrey, 1366 Bishop road. Some talkative girls were busy at one table doing water color flower scenes, but the boys were still milling around making the important decisions of where to sit and what to create.

**Safety Patrol Big**

Safety patrol work is a big thing at Scripps, and those boys attending the class who had earned their patrol belts AND the diagonal shoulder straps AND the helmet with the service stripes remained fully attired and a little apart from the others while they painted.

**Youth Sentenced  
In Accident Case**

John A. Beaupre, 17, of 278 Ridgmont, was arraigned before Woods Municipal Judge Don J. Goodrow on Saturday, June 10, on a charge of reckless driving. He was involved in an accident in which several persons received minor injuries.

The youth was found guilty as charged, and fined \$50. In addition, the court placed Beaupre on probation for six months, during which period he is forbidden to drive. To make sure that this part of the sentence is adhered to, the court ordered the teenager's operator's license be held by local authorities, and it is not to be returned until the expiration of probation, and only if public liability and property damage insurance is obtained.

Beaupre was driving a car on Kenmore when he lost control, causing the vehicle to jump the curb in front of 1874 Kenmore, and crash sideways into a tree. The car spun around skidded past number 1882, and stopped in the driveway of number 1890, Woods police said. There was extensive damage to the automobile.

There were several passengers in the car who suffered minor injuries, and were taken to area hospitals for treatment and later released.

The injured were: Lynn Collins, 16, of 10803 Nottingham, Detroit; and Peter Johnstone, 18, of 1390 Chalmers, Detroit, treated at Bon Secours; Mary Boks, 17, of 20917 Kenmore, Harper Woods; Greg Darling, 18, of 20854 Country Club, Harper Woods, and Mary Walker, 15, of 14336 Mack, all to St. John Hospital.

Two other passengers in the car, David Schulte, 16, of 30 West Wind lane, and Thomas Collins, 18, of 2737 East Jefferson, Detroit, were taken to the station to make statements. While in the station, Collins complained of head pains and was taken to St. John Hospital for treatment.

Officers dispatched to the accident scene at 12:06 a.m. said they arrived to find Beaupre sitting on the curb, near the car, shouting, "It is all my fault, I was the driver and I caused all this."

The youth was placed under arrest and taken to the station where he was issued a ticket for reckless driving. When he could not post bond of \$100, he was held in the local cell until court convened at about 10 a.m.

**Last Regular Meeting  
Held by School Board**

The last regular meeting of the Grosse Pointe Board of Education for the 1967-1968 year was held at 7:30 p.m. Monday at 389 St. Clair avenue. Dr. Frank H. Parcells chaired the meeting, and J. Harold Husband, Acting Superintendent of Schools, presented his monthly report.

Enrollment of the local public schools stands at 12,287, an increase of 311 over the same time a year ago, according to records compiled by the Department of Pupil Personnel.

Acting Superintendent Husband congratulated 137 seniors at Grosse Pointe High School who have been elected to the National Honor Society. He also presented the names of those 32 recipients of the Phi Beta Kappa Awards.

Other award winners included the names of those in the National French contest. David McLaughlin received a first place in third-year French in the Detroit area. His teacher this year has been Miss Ester Porter. In addition, David was named second place national winner in French III. He was in competition with approximately 10,000 students who took the French III test.

Mary Lerner received first place in fourth year French in the Detroit area. Her teacher this year has been Guido Regalbrugge.

The school trustees acted upon a variety of personnel recommendations, including appointments for the coming year, leaves of absence, resignations, and changes in schedule status. The Board of Education members approved the summer school staff for elementary, junior and senior high schools.

In other action the school trustees approved textbook changes for 1967-1968. The books in question have been available for examination since the May meeting.

The members of the Board of Education approved the report of the Committee on Accounts Payable and authorized the Treasurer to disburse money from the General Fund in payment of authorized bills.

In concluding his final regular session Acting Superintendent Husband presented a message to the Board. In it he said, "Innovation and change, combined with the solid ground work of the past, have produced an interesting year. We have had an exciting one, with many changes deliberately made, some surprises, and a few disappointments. Teachers, administrators, specialists, and service personnel have worked to make it a better year, wider in scope, deeper in understanding, richer in experience for the nearly 12,500 children working to educate themselves in the Grosse Pointe Schools."

**Burglar Believed Routed by Alarm**

City Police received a call on Sunday, June 11, reporting an alarm coming from the E.J. Hickey Company, 17140 Kercheval. Upon investigation officers Dwight Scott and Ronald Pryor found a long metal pipe hanging from the skylight inside the store.

With the assistance of the fire department the roofs of the buildings were checked. The officers found the skylight had been pried off and entry gained to the building. The alarm was apparently set off when one of the burglars walked through the beam inside of the store.

Mr. Hickey checked the store and found nothing missing. The burglar apparently fled when the alarm sounded.

Officers took two metal hooks, a skylight cover, five pieces of lower glass covers and one piece of long fabric found hanging from the skylight, to the station for fingerprinting. Fingerprints were also taken off the wall of the skylight. Police are investigating.

### Will Join Staff Of Christ Church

The Rev. Perry Murdick Porter will join the staff of Christ Church, Grosse Pointe on August 1.

Mr. Porter was born in 1927 in Mysore, India, the child of the Reverend Reuben B. and Lenore Emme Porter. His father was a teacher in Luskow Christian College.

He was graduated from Mt. Hermon School in 1944, from Albion College in 1949, and attended Union Theological Seminary.

Since ordination in 1953 by the Right Reverend Austin Pardue, he has been an assistant at Calvary Church, Pittsburgh, Rector of Church of the Good Shepherd, Pittsburgh, Rector of St. Stephen's Church, McKeesport, Pa., and Rector of St. James in Lake George since 1962.

Currently he is the chairman of the Lake George Summer Theatre, treasurer of the Lake George Center, chairman of the Diocesan Committee on Adult Education, and a member of the Diocesan Board of Examining Chaplains in New Testament and Theology.

In 1951 he married Miss Hazel Hufton, daughter of Mrs. Victor John Hufton of Grand Rapids. Mrs. Porter is a graduate of the 1948 class of Albion College, and the 1952 class of Columbia University. The Porters are the parents of four children, Jennella, 15, a sophomore at Northfield School for Girls, Emily, 13, Laura, 11, and John, 6.

### Police Sergeant Retires in Farms

Farms Police Sgt. Thomas F. Jarrett retired from the force after completing his last day of duty on Friday, June 2. He will remain on the city payroll until Thursday, June 22, due to accumulated vacation and leave days.

Jarrett was appointed to the Farms Police Department as a probationary patrolman on June 21, 1937, and elevated to the rank of sergeant on October 1, 1950.

He is a descendant of an old Pointe family. His mother, Frances Kerby, was born in the Pointe, and when she married Albert Jarrett, moved with him to Saskatchewan, Canada, where Thomas was born on February 14, 1911.

The family returned to the Pointe when he was six years old, the retired sergeant recalled.

Jarrett is a 1930 graduate of St. Paul High School. He attended the University of Detroit for two years, after which he discontinued his studies to go to work. In 1937 he decided on a career as a policeman.

He is married to the former Kathleen McKenna of Detroit, and lives at 403 Kerby road.

They are the parents of four girls, Mrs. George (Mary Ellen) Morrison of St. Clair Shores; Mrs. William (Margaret) Weston of Detroit; Jeanne, an employe of the Delta Airlines, who is still at home; and Kathleen, a seventh grader at St. Paul School, who will be in the eighth grade in the fall.

Police Chief Jack F. Roh expressed regret on losing Sgt. Jarrett, "the dean" of the department.

"I am very sorry to see Jarrett retire," the chief said. "He has been a capable and conscientious police officer, and his leaving will create a void in the department."

"During the short time since I assumed command as chief of the Farms Police Department, I have come to know the sergeant very well. His record shows that he has served the community faithfully and without complaint. The Farms has lost a good police officer."

"I, and the other members of our department wish the sergeant the best of luck in his retirement, and want him to know that we will miss him."

### Maynard Leigh Cited by MSU

Maynard Leigh, a Grosse Pointe High School teacher, has been cited by Michigan State University for "significant contribution to the improvement of vocational education" through his work as a research associate in an MSU pilot project in distributive education.

Leigh was awarded a "certificate of participation" by officials of MSU's College of Education and the university's Research and Development Program in Vocational - Technical Education, a large-scale effort supported by a grant from the U. S. Office of Education.

Grosse Pointe High School is one of 17 high schools participating in the program's distributive education pilot project. Its aim is to develop and test the "project" method of instruction for high school juniors and seniors.

This method gives a teacher-coordinator the role of planning and supervising laboratory work in which students gain simulated job experience. This differs from the traditional cooperative form of distributive education where youths are employed and trained under the direction of a business manager.

Under the MSU project, 11th grade classes in the schools will operate with the "project" method, and 12th grade classes will continue with the project method or move to the cooperative approach. School and university researchers are hopeful that the "project" method will prove to be an effective means of preparing high school students for careers, so that it can be used in addition to the cooperative method of education.

Edward T. Ferguson, Jr. is the project leader.

MSU's Research and Development Program in Vocational-Technical Education is administered by the Department of Secondary Education and Curriculum. Dr. Peter G. Haines is director of the program.

Its work is centered in three broad areas:

—Program development through clinical school sites in Michigan and in Florida, Arizona, New Jersey and Washington.

—Vocational teacher education through clinical school systems, in which schools prepare personnel under the direction of experienced professionals.

—Allied research and development activities, such as evaluation systems, workshops, conferences and seminars.

### Ens. Richard A. Law Now Carrier Pilot

Navy Reserve Ensign Richard A. Law, son of Dr. and Mrs. Albert D. Law of 888 Harlourt road, has qualified as a Navy carrier pilot aboard the aircraft carrier USS Lexington in the Gulf of Mexico.

Prior to making arrested landings aboard the Lexington, the fledgling aviator was required

to qualify on field carrier landing strips which simulate, on the ground, a carrier's flight deck. Here he adjusted himself to the restricted area where he must land at sea.

In becoming a member of the Navy's "Flatop Fraternity," he is now qualified to proceed to more advanced stages of training.

**You may already own half an electric central air conditioning system.**

If you have a forced air heat system, you have ductwork and a furnace blower. So you're already moving and filtering air; that's a big part of electric central air conditioning. All you have to do is cool the air and wring the steamy dampness out. To do so, just add two compact units—cooling coil and condenser—and your heating system becomes a cooling system. Electric air conditioning costs less to buy, less to install, less to operate than the flame-type. Electric cooling works efficiently like your refrigerator to cool a 1,200-sq.-ft. house for an estimated \$24.00 per season. So, you see, it's well within your reach. Get more information on how easy and economical it is to cool, clean, dehumidify and quiet your home with central electric air conditioning. In Detroit, call 962-2100. ### Earns Degrees At Notre Dame

Nine students from Grosse Pointe were among 1,250 undergraduates who received degrees in the University of Notre Dame's 122nd commencement exercises June 4.

Sen. Eugene McCarthy (D., Minn.) was the commencement speaker and received an honorary doctor of laws degree. Two prominent U. S. prelates were also among the honorary degree recipients—the Most Rev. John F. Dearden, archbishop of Detroit and head of the National Conference of Catholic Bishops and Lawrence Cardinal Shehan, archbishop of Baltimore.

The Grosse Pointe students and their major fields are: David Barrett, 84 Stanton lane, electrical engineering; John C. Carroll, 1149 Bedford road, management; Lawrence J. Duke, 1362 Yorkshire road, pre-professional; John E. Freitas, 77 Lochmoor boulevard, pre-professional; William J. Gehrke, 45 N. Doepfands, electrical engineering; Aller F. Godin, 1193 Lochmoor boulevard, finance; Ernest O. Hornung, 80 Fairfield, management; Edward J.

Shumaker, 75 Lothrop road, history; Frank D. Wilberding, 29 Fair Acres, English; and Gerald J. Young, 1440 Grayton road, history.

### Summer Chorus To Open Season

The Grosse Pointe Summer Chorus renews its claim to the adjective "unique" as it prepares to begin its sixth season at the Grosse Pointe War Memorial Center. The group remains the only one in this area that welcomes members from six to sixty.

Dick Johns returns as director, a position he moved up to from the tenor section of the chorus, and brings with him his experience as director of the Grosse Pointe Community Chorus. Jerry Hughes will return for his sixth season as summer chorus accompanist.

Rehearsals this summer will be held on Monday and Thursday evenings at the Center with the first meeting to be Monday, June 19, at 8 o'clock. Ten rehearsals prepare the singers for an informal concert on July 25.

Registrations are now being taken at the War Memorial office with the fees set at \$4 for a single, \$7 for a couple, and \$10 for a family group. Members may also register the first three rehearsal nights.

The charm of this chorus has always been the natural blending of voices of all ages and Mr. Johns continues to encourage all who enjoy music to try a singing summer. No auditions are held and the only experience required is that of having fun. Further information can be obtained by calling the War Memorial Center, TU 1-7511, or Mr. Johns at TU 6-0710.

### Father Colgan Plans to Retire

Father Philip L. Colgan, O.S.A., pastor of St. Clare of Montefalco Parish in Grosse Pointe Park for the past 29 years, has announced his intention to retire. His retirement will become effective in the near future.

Born in Irishtown, Pa., Father Colgan entered the Augustinian Novitiate in 1910 and completed his studies for the priesthood at Villanova, Pa. He was ordained on May 27, 1916. As a young priest he was engaged in educational work.

In 1920 Father Colgan received an assignment as assistant pastor at St. Mary's Church in Lawrence, Mass. Six years later he was re-appointed to a teaching position, and in 1928 he was made Procurator at Villanova College. Then in 1929 he became Prior and Headmaster at Malvern Preparatory School, a select school for boys, located near Philadelphia. Father Colgan remained at Malvern for a period of four years, after which he was transferred to Our Mother of Good Counsel Parish in Hollywood, Calif., where he served as Prior and pastor until 1938.

Father Colgan was appointed to the pastorate of St. Clare of Montefalco in June of 1938. Three years later he celebrated the Silver Jubilee of his ordination to the priesthood. In the summer of 1951 the construction of St. Clare new Church was begun under the supervision of Father Colgan. This new Church was dedicated by Cardinal Mooney on May 10, 1953. St. Clare new School was completed in September, 1964, increasing the number of classrooms to thirty-two and enrolling some 1,250 children to enroll.

On May 27, 1966, Father Colgan offered up a Solemn Mass of Thanksgiving, commemorating the Golden Jubilee of his ordination. Through the courtesy of the Provincial, Father Francis J. Gavanaugh, O.S.A., and Archbishop John F. Dearden, he will continue to reside at St. Clare as pastor emeritus after his retirement.

Father Colgan will celebrate a Mass of Thanksgiving at St. Clare next Sunday morning, June 18, beginning at 9:30. That afternoon a Parish Reception will be held in his honor from 3 to 5 o'clock in the Church Auditorium.

Babe Ruth League

PARK CITY FARMS By Betty Devine

Last week was one of the inter-league games between the American and National League teams to end the first half of the season. The Monday evening game at Neighborhood Club featured the Giants vs. the Tigers in a close 6-5 battle...

Tuesday's game was another close one. This time the National League Cardinals encountered the Tigers of the American League. The aggressive Cards piled up four runs in the first inning and never lost the lead.

The Wednesday evening game between the American Yankees and the National League Dodgers was a dramatic one. The contest turned out to be a cliff-hanger though the game was not important to either team as far as standings were concerned.

Top of the tenth and Skip found himself in trouble by one run on two walks and two wild pitches. But the Dodgers were determined, and put together a walk and three singles, the deciding one by Fred Rohm who was responsible for the winning run.

The contest Thursday evening between the first place American League White Sox and the National League Phillies turned into a capital pitchers' battle. Bill "Beetle" Bailey, Phillie pitcher, picked up the win with 15 strikeouts and gave up but two hits.

Saturday afternoon the National League Braves, winners of the first half played a rescheduled game against the American League Indians in a 3-2 well played ball game—the kind managers and coaches dread about.

So ends the first half of the season. Congratulations to the National League Braves and Manager Don MacKenzie for their winning performance.

The first half of the season for Babe Ruth players is now history. This particular week the home field was lucky for the American League as they won four out of five played at Kerby Field.

Tuesday the Red Sox were in action again, but they couldn't repeat Monday's performance. The Braves beat them 5 to 1. Getz did a good job of pitching for the Braves to get the win.

Wednesday Jim Parker pitched the Indians to a win over the Giants 6 to 5. Parker, who excelled in the pitching role, also stood out offensively as he drove in two with a triple.

Thursday the Yankees bounced back from their loss at the Neighborhood Club Field to come back for a 6 to 5 win over the Cardinals. Munchausen was the winning pitcher. Behind 4 to 0 until the sixth inning, the Yankees got across six and then held off the Cardinals to win it 16 to 5.

**What Goes On at Your Library**

By Virginia Leonard

The June issue of the NEW YORK TIMES BOOK EDITION, subtitled: "Vacation Issue", yields a host of ideas for a weary columnist. Still somewhat punchy from a wonderful European vacation, and already anticipating an ALA Convention in San Francisco in late June, I reach for new ideas in any area.

Among other approaches, BOOK REVIEW asked several distinguished novelists the following question: "If you were to set aside some reflective summer hours to reread one of your own novels, which one do you imagine would give you particular pleasure?" Here are some of their reactions. The first answer comes from Kurt Vonnegut, Jr., who can't stand rereading what he writes. (He claims he makes his wife do it!) He feels that he would much prefer to reread Edward Wallant's TENANTS OF MOONBLOOM!

Most authors seem to be reluctant to reread their own works. They are either too busy, already remember what they have written, or prefer not to revisit their earlier successes and failures. Herbert Gold briefly reconsiders his new book, FATHERS, and then concludes he would rather read someone else's book; rereading his own makes him "want to own a motorcycle, or hitchhike to Key West, or find perfect love, beauty and truth by lonely voyaging among strangers".

Isaac Bashevis Singer says he has known at least one writer who was so much in love with his creations that he read his own works exclusively. His only urge, in going back, to correct his mistakes both in construction and description. However, on second thought, he feels that once a writer has published a book, it is no longer his private property, and thus writers should not be allowed to tamper with their masterpieces. Rather, if they felt that they have matured and become wiser, they should be working on new and better works.

C. P. Snow confesses that recently he was forced to reread the first nine novels of his STRANGERS AND BROTHERS sequence to resolve the themes in his last two volumes (to be entitled: THE SLEEP OF REASON AND LAST THINGS). The volume that interested him the most was HOMECOMING, as it represented the point in the sequence where the subsidiary

themes—ambition, the pursuit of power—are being lessened, and the themes of moral choice, fathers-and-children, death, are beginning to assert themselves.

John Updike thinks that he would reread his CENTAUR, feeling that this volume would give him the most pleasure and was the most finished of his attempts at long fiction. Georges Simenon's reply was also quite brief. He claims that he has never reread any of his works, published or unpublished. When asked why, he said he feels that they would either bore him or give him a feeling of panic!

Peter DeVries answered: "Curled up with a book of my own you'll never find me." What can be more frustrating than to hold in one's hands a published work about which nothing can be done? DeVries goes on to mention that his books have been called "Commercial" and with reason. In one, he had a character invent a mentholated cigar. Later, this very product was being test-marketed in real life. Another character who worried about keeping his teeth clean, chewed on a plastic wafer manufactured for removing dirt from typewriter keys. News has recently reached this author that a patent has now been taken out on this idea also. So, he reasons, when he is "written out", he can always reread his books more carefully for more commercial possibilities. "God knows I could use the money."

This random sampling of some well-known contemporary authors makes one wonder if they are representative, (I feel strongly that they are), and wish more writers had been consulted as all the answers were interesting, provocative and amusing.

I'd strongly suggest you read this entire issue of the BOOK REVIEW. It contains a long list of suggested titles for reading on Viet Nam, a very funny article on summer vacation reading by an apparently not-too-successful current author, (he can't afford a vacation this year since his last book was such a "success"!), but he does suggest a wonderful source for reading lists—BOOKS IN PRINT! This volume (1966 edition) contains 190,000 titles in print today, ranging from ABCDEFGHIJKLMNOPQRSTUVWXYZ, with Karluskin to ZYMOGRAM IN CLINICAL MEDICINE by S. H. Lawrence. Happy vacation reading everyone!

## Ernst-Scherer Rites Are Read Saturday

### Bride's Fifth Grade Students At Our Lady Queen of Peace School Join Choir To Sing During Morning Service

Eleanore Mae Scherer chose a lace-overlaid gown of white peau de soie and a headpiece of peau de soie rosettes, both made by her grandmother, Mrs. Anna Wultsch, for the Saturday morning ceremony at which she became the bride of Thomas Francis Ernst.

Her triple-tiered veil was fashioned of illusion, and she carried a cascade of white roses, ivy and stepanotis.

A reception in Gabriel Richard Knights of Columbus Hall in East Warren avenue followed the 11 o'clock Mass, commented by the bride's brother, Kenneth E. Scherer, in Our Lady Queen of Peace Church.

The Reverend Emil Capano officiated at the rites. The bride's two fifth grade classrooms at Our Lady Queen of Peace School joined the regular School boys' and girls' choir to sing at the service.

The new Mrs. Ernst is the daughter of Mr. and Mrs. Elmer W. Scherer, of Kerby road. Her husband is the son of Mr. and Mrs. Carl Ernst, of Detroit.

Attendants, in frocks of light-weight turquoise peau de soie, similar in style to the bride's gown, were maid of honor Marcia Pfent and bridesmaids Mrs. Kenneth E. Scherer and Catherine Scherer, sister of the bride.

They carried baskets of turquoise and white snowdrift daisies and pink roses, and wore matching floral headpieces.

James Ernst served as his brother's best man. Leonard Boland and Charles Evancho ushered.

Flower girl Jane Weathers, the bridegroom's niece, wore an A line dress of turquoise peau de soie and carried a basket of turquoise and white baby mums and pink butterflies.

## Meadow Brook 'Thank-You' Held

Oakland University's fabulous Meadow Brook Music Festival will open its fourth season in less than two weeks, Thursday, June 29, with the full Detroit Symphony Orchestra, Sixten Ehrling conducting, and the fiery new piano talent Mischa Dichter in that perfect setting for the performance of great music, the Howard C. Baldwin Memorial Pavilion.

Last week, 400 of the women who make the Festival's huge audiences possible assembled for a "thank you" luncheon party in the Gold Room on the University campus.

They came from all over, from Trenton and Mt. Clemens, Rochester and Detroit.

Grosse Pointe committee members arrived in a "champagne" bus emblazoned with signs, "Grosse Pointe Goes to Meadow Brook." They aren't alone. More than 150,000 attended last summer with audiences exceeding 5,000 for each performance.

Threatening weather, (which never seems to bother Festival concerts), caused a last-minute switch for the luncheon from the beautiful Trumbull Terrace, (gift of the George T. Trumbulls), on the Festival grounds.

On hand to greet the committee members were Mr. and Mrs. James O. Wright, Festival general chairmen. Mrs. Ben D. Mills, chairman last year with her husband, presented Mrs. Wright with a tiny gold charm replica of the Baldwin Memorial Pavilion, in recognition of the herculean efforts she and her committee have made to make possible this year's eight-week, 32-concert event.

With 4,164 season tickets sold to date, general area chairmen Mesdames Richard H. Campbell, Edward H. Lerchen, Francis C. McMath and Walter F. Skinner and their 650 committee members are shooting for another 3,000 subscriptions in the remaining week of their drive.

Setting for the Saturday ceremony at which ELEANORE MAE SCHERER, daughter of the Elmer W. Scherers, of Kerby road, and Mr. Ernst, son of the Carl Ernsts, of Detroit, exchanged marriage vows was our Lady Queen of Peace Church.

## Helen S. Halden Wed In Pointe

Mr. and Mrs. Harold William Merrill, Sr., of Stanton lane, announce the marriage of her sister, Helen Signy Halden, of Minneapolis, Minn., to Edward Worthington Jones, of Philadelphia, Pa., on Saturday, June 10, in St. James Lutheran Church.

Pastor George Kurz officiated at the ceremony, and Mr. Merrill gave his sister-in-law in marriage.

Mrs. Merrill attended her sister, Henry Dowdy Harrell, of Philadelphia, acted as Mr. Jones' best man.

Flowers for the wedding party were flown from Honolulu, Hawaii, by one of the bride's friends. The bride carried the traditional wedding lei of pukaiki flowers draped over her arm, as is the custom in Hawaiian weddings.

After the service, the out-of-town guests and wedding party gathered for a reception and luncheon at the Merrill's home.

Entertaining at a dinner for the immediate families and bridal party at their Bloomfield Hills home Friday evening were Mr. and Mrs. Harold William Merrill, Jr.

### Give Dad Gift of a Lovelier You

FATHER'S DAY could go completely unnoticed here at the Angelo Morri salon d'elegance. After all, our job is helping women to look more beautiful.

We leave the men to the barber shops. But then aren't we making women lovelier for the men in their lives? So give your husband an extra Father's Day gift of a lovelier you. Come in and get your hair done. You've still got two more days.

AND WE HAVE a new Daddy at the salon d'elegance. Co-owner Peter Morri and his wife Lillian have a brand new baby boy, Kirk Marino Morri. He arrived at 1:25 a.m. Friday, May 26, at Bon Secours Hospital. And he weighed a whopping 10 pounds 12 ounces. He is the delight of his sister Michelle, age three, and also of his grandmother, Miss Mary, who is the salon's manicurist.

TWO MORE stylists have joined the staff at the salon d'elegance. MISS NANCY has been a hairdresser for just over a year. She prefers to do high styling and coloring. Horseback riding is one of her hobbies and she loves to dance, "particularly the Pearl." And she is partial to Detroit's own Motown sound.

MISS SUSAN has been in the business for two years and she specializes in combouts. For these she uses her faithful "comber-outer," a technique she picked up in beauty school. Instead of a regular comb, she uses a special four-pronged wire comb to put the final touches to her handiwork.

She loves jazz and water skiing on Lake Orion, the latter made possible because of weekends on the family boat.

NEWEST ITEM in the waist-watcher line is the belt. Not an ordinary belt, but a lead weighted one called Tone-O-Matic. Local distributors, Londa Prete and Helen Schwartzberg, say it can take inches off the waistline.

The principle, according to Helen and Londa, is that the weight of the belt around the waist "forces the wearer to hold his stomach muscles in a state of tension."

This serves the same purpose as an isometric exercise, they added. Helen and Londa are distributing the belts under the name Hel-Lo Enterprises and their office is in the Angelo Morri salon d'elegance. Their phone number is 886-7550.

The woman's model is white, is 4 1/2 inches wide and weighs 8 pounds. A man's belt is black, the same width and weighs 10 pounds. Each sells for \$19.95.

COME SEE US! We schedule appointments from 8:15 p.m. to 5 p.m., Wednesday, Friday and Saturday, and from 8:15 a.m. to 7:30 p.m., Tuesday and Thursday.

Call 886-3050. Shampoo and set is \$4, haircut, \$3, by the staff. Slightly higher when done by Mr. Angelo or Mr. Morri.

Angelo Morri salon d'elegance is located at 20902 Mack Ave. at Hollywood, Grosse Pointe Woods.

## Joyce Ann Rashid Wed In St. Clare's

Newlywed Mr. and Mrs. Peter William Ronan Are Vacationing In Florida And Bahamas; Bride's Twin Sister Serves As Honor Attendant

Joyce Ann Rashid, daughter of Mr. and Mrs. Taft J. Rashid, of Bedford road, and Peter William Ronan, son of Mrs. Betty Jane Ronan, of Detroit, and the late Paul T. Ronan, exchanged wedding vows at a double ring ceremony Saturday, in St. Clare de Montefalco Church.

The bride chose a gown of rose peau de soie trimmed with seed pearl-traced Alencon lace. Her tiered silk illusion veil fell from a pearl-trimmed lace cap, and she carried an arrangement of white roses.

Serving as her twin sister's honor attendant was Kathy Rashid. Bridesmaids were Sue Rashid, Rosemary Bushala and Diane Fikany, and junior bridesmaid was Judy Rashid.

Their mint pea dresses were styled with lace overskirts, and they carried daisy bouquets.

Peter Palombit served as the bridegroom's best man. Ushers were Ronald Hewlett, Daniel Pieri, of Grand Rapids, and Robert Rashid, brother of the bride.

A bright pink silk-linen dress and coat ensemble was Mrs. Rashid's choice for her daughter's wedding and the reception at Eddie Pawl's following the ceremony. The bridegroom's mother chose a pink silk chiffon costume.

The newlyweds will return from a vacation in Florida and the Bahamas to make their home in St. Clair Shores.

"BE BRIEF, FOR IT IS WITH  
WORDS AS WITH SUNBEAMS,  
THE MORE THEY ARE CON-  
DENSED THE DEEPER THEY  
BURN."

THERE'S ALWAYS something  
new under the sun at Purdy  
& Edgar, and this week we  
have three shining examples  
in the "first offering" cate-  
gory. We beam with pride  
in showing this wide-hall,  
center entrance colonial on  
tree-cooled Lockmoor Boul-  
evard. The sparkling new  
kitchen will dazzle you with  
its smart built-ins and gen-  
erous cupboard space. On  
the shady side of the house  
is a patio and covered ter-  
race large enough to con-  
tain a cocktail party. Up-  
stairs you'll find four com-  
fortable bedrooms with  
three full bathrooms. All  
this house is ready for your  
family by mid-July.

### IF YOU HAVE a penchant for white brick colonials with dark shutters, then we urge you zero in on this first offering

Does the idea of four  
bedrooms with two full baths  
on the second floor trigger  
your interest? You should  
really be fired up when you  
learn that there is also an  
extra bedroom and full  
bath off the kitchen. The  
two-car attached garage  
makes a hit with the kids  
'cause there's more play  
area in the backyard. Don't  
run off half-cocked and miss  
this house, because it's load-  
ed with extras.

### ANOTHER FOUR-bedroom with three bathrooms on the second floor, is this first offering in the Windmill Pointe area

Close to the lake  
where the onshore breezes  
keep the curtains full if you  
leave the windows open.  
Your house seeking venture  
should be smooth sailing  
from here on if you've been  
touching port all over town  
but haven't yet found a  
home you wanted to tie up.  
Better call today, or you  
may be left on the dock  
again.

### OPEN SUNDAY 2:30 to 5, 819 Grosse Pointe Court

For you who doesn't wish to put  
all your eggs in one basket,  
we offer this tidy ranch  
house with three honest bed-  
rooms and one-and-one-half  
baths. There is a full base-  
ment with attractive party  
room. Just enough yard to

golf course. Come make the  
rounds with us Sunday.

## From Another Pointe of View

(Continued from Page 13)

Forest, Ill., will be showing in the Junior Working Division.

A highlight of the Show will be the appearance of "Kismet," a Regular Working Hunter owned by Mr. and Mrs. Colin Hugh, of Gloucester, Ewan, England. Kismet, being shown for the first time in the United States, is a Champion Hack of all England.

There'll be morning sessions, afternoon sessions, evening sessions—and a piece de resistance formal dinner-dance Saturday evening, arranged by Show chairman Mr. and Mrs. Garland Knight and Mr. and Mrs. William Barry.

For this party, the Hunt Club will "go Mexico." Huge pink and orange paper flowers will form a false ceiling in the party tent. The flower motif will be repeated in rooms throughout the Club, bright pink or orange balloons, (helium-filled, of course), will bob from the back of each chair and table centerpieces will be straw Mexican figures.

The Club's pool is to be transformed into Mexico's famous Floating Gardens of Xochimilco, with several flower-decked boats drifting among loose flowers on the surface of the water.

Sounds fabulous, doesn't it?

## At The Antiques Show

"Fabulous" was the adjective most often heard at yesterday's Liggett Antiques Show Preview, a party "fabulously" arranged by Mrs. Henry E. Bodman, II, and her co-chairman Mrs. Arthur B. Hudson.

On hand for the ribbon-cutting ceremony were honorary chairmen Mrs. Benson Ford and Mrs. Frederick S. Ford, general chairman Mrs. Harold L. Frank and her co-chairmen Mrs. Charles W. Adams and Mrs. Frank J. Sladen, Jr.

As a matter of fact, the whole Antiques Show set-up is so visually "fabulous" it's impossible for us to describe it in words — we INSIST that you go and see for yourselves. Admission, after all, is only \$1.50, and proceeds benefit the School's Endowment Fund. If you find you're spending more time than you thought, meals are available . . . just call up your husband and tell him to meet you "at the Antiques Show." He'll like it too . . .

## On The Garden Tour

You'll see some of the prettiest gardens on this year's Detroit Garden Center Grosse Pointe Garden Tour—and some of the prettiest of The Pointe's "fair ladies" serving as hostesses in this year's gardens.

Look for the Mesdames Eugene Hawkins, William P. Hamilton, II, William Cudlip, H. E. Harmon, Paul Sutherland, Horace McKnight, Ellis Merry, Valentine Guenther, Walter Meek and Elmer Clark at the Henry C. Bogles' residence in Lakeland avenue, for Mrs. Long-year Palmer, Mrs. William P. Herbert and Mrs. Ford Ballantyne, Jr., at Mrs. Fredrick W. Campbell's home in Beverly road.

T. Johnstone, Benjamin Long, Hugh Riddleberger and Herbert Smith.

Greeting visitors at Benjamin S. Warren, Jr.'s garden in Lakecrest lane will be Mrs. Ledyard Mitchell, Jr., chairman, Mrs. McMillan Caulkins, Bliss Caulkins and Mrs. Fredrick Schrieber.

Guides at Mr. and Mrs. Joseph G. Standart, Jr.'s garden in Ridge road will be the Mesdames Henry Gwinn, Eric Dale, Norman Summers, J. C. Hurley, C. G. Browne, Richard Piper, Robert Ebersole, Clarence Fox, Donald Sobel and Alex Gill.

Culliton, while Mrs. Otis Walker, Mrs. Harry Winston, Mrs. George Eversman and Mrs. J. P. Giroux will point out beauties in the Harold K. Daniels' family garden in Chalfonte avenue.

## who, where and whatnot

By Whoozit

Perhaps no "new" . . . teaching method has received so much publicity, locally and nationally, as Montessori . . . and perhaps no teaching method, old or new, has been so greatly mis- and/or un-understood. Here in The Pointe, a Montessori program is being conducted, under the direction of Miss R. D. Carrick, at the Academy of the Sacred Heart in Lakeshore road. Miss Carrick has written a brief resume of Montessori's history, philosophy and objectives. We found it fascinating—and illuminating. We hope you do, too!

"Since its reintroduction . . . to this country by Mrs. Nancy McCormick Rambusch, much interest has awakened in the Montessori method of teaching. Many schools are being opened, articles are being written, and with them come misinformation and misunderstanding.

"One thing the Montessori System is NOT . . . is a form of "Instant Learning." Nor is it a wonder-worker automatically enabling a child to read, write and do arithmetic in the shortest possible space of time. Neither is it a system for forcing a child and overtaxing his young mind.

"On January 6, 1907, in a very poor section of Rome . . . a work was started that has spread 'round the world. It was begun by Dr. Maria Montessori, an Italian psychiatrist whose first little pupils were mentally retarded children. So successful were these children that they were able to enroll for the normal examinations in Rome—and to pass them. Dr. Montessori then turned her attention to the education of normal children, again with the greatest success. Montessori is a method of teaching which aims at developing all the potentialities of the child. One could almost call it a philosophy of life. It aims at developing the child as a complete person, not as a little computer relating facts and figures.

"First of all . . . the child does not come to school to play. He comes to work, but in an organized and very special way, so that he proceeds at his own rhythm of progress, and at his own individual capabilities. He works within a prepared environment and with very specially designed apparatus.

"He is encouraged . . . to choose his own material and activity, to move about the room, to work by himself or with others and with freedom. He is helped to be practically independent of the directress who continually watches and guides him. He learns self-discipline and self-control. He is not an imperfect adult, to be molded by teachers and parents into replicas of themselves."

"Dr. Montessori found . . . that from birth to the age of three years, a child's intelligence is being formed, and he is absorbing the world about him unconsciously.

"From three to six years . . . he consciously creates and constructs himself. These years, known as "Sensitive Periods," are periods when he is psychologically able to learn skills, ideas and even foreign languages more easily than at any other time of his life. These "Sensitive Periods" pass, never to return again—and this explains why Dr. Montessori regarded the years from birth to age six as the most important part of a child's educational life. During this time, he wants to learn; he explores, grasps and discovered the world at his fingertips.

"It is for this reason . . . that it is absolutely vital for the child to start in the Montessori School at two-and-a-half years and not later than three years. If you object to your child starting school so early, then Montessori is not for you. In most cases, it is not the child but the mother who is unready!

"Every part of the Montessori apparatus . . . has its own special use, and is never used to play with. It is designed to train the child to observe dimension, diameter and height, to distinguish the finest shades in color, to learn size and shape. It is also an indirect preparation for the more difficult work the child will have to do at a later stage.

"There is the apparatus . . . to develop the child's audio, his chromatic and his tactile senses. There are exercises designed to train his large muscles and to teach balance. Many of the sensory motor activities are a preparation for academic learning.

"There is special material . . . for teaching sounds, and for building words and small sentences, (movable alphabet), as well as for number preparation and the world of written numbers. The Decimal System is taught via materials allowing the child to grasp units, tens, hundreds and thousands—all leading up to the time when he makes up his own addition, subtraction, multiplication and division problems.

"Montessori children . . . have group lessons and discussions. They sing, dance, play indoor and outdoor games. It is quite untrue to say there is no socialization, as they all work side by side, singly or in pairs, or in small groups helping one another at all times, and this they love to do.

"The revival of interest in Montessori in America . . . has met with much prejudice, misunderstanding and misconception, because the picture given is completely distorted. Montessori makes no claim to magic, and still more certain is the fact that Montessorians are no magicians. Nor is the system claimed to be suitable for every child.

"A Montessori child . . . is encouraged to develop self-control and orderliness as well as a love of work and of learning, all the basic qualities of a creative person. He does all this at his own pace, and he thoroughly enjoys doing so. In the translation by Father Joseph Costelloe S.J. of Dr. Montessori's book, "The Secret of Childhood," the following incident is related: A visitor to Dr. Montessori's school remarked to a child that he seemed to be doing as he liked. The child's reply was: "I am not doing what I like, but I like what I am doing."

## Pointer of Interest

SGT. FRANK DANSBURY, GROSSE POINTE CITY FIREMAN

By Pepper Whitelaw

The photos on the desk are pictures of a boy of four, the outfit, a fireman's uniform . . . the smile, one of complete happiness . . . the year, 1911 . . . the boy, Frank Dansbury. Yes, that's how long ago Sgt. Frank Dansbury of the Grosse Pointe Fire Department dreamed about becoming a fireman. However, it was 32 years later that his dream became a reality.

Frank's Mother wanted above all else for Frank to learn a trade, so like a devoted son, he learned the carpentry trade and worked at it successfully for almost 25 years. He was maintenance carpenter for the Grosse Pointe Board of Education for years.

In 1944, at the age of 36 and by a stroke of luck, Frank became a fireman. In that year the city fire department was short of men because of the war so age specifications were lifted. And that is how Frank's dream was finally realized.

Promoted to Sergeant He started off as a pipeman, a man who operates the trucks and pumps). In April of '64, he was promoted to sergeant. This put him in charge of the company in the absence of the other officers.

"You know, a fireman's life is different than an ordinary man's life," Frank muses. "Many is the time I've been at home and heard the engines and off I'd go . . . kind of like a minute man, I guess. In my 23 years with the department I have attended almost as many fires on my days off as I have when I was on duty. I guess you'd call me a fireman born and bred."

Looking at Frank, a man who doesn't even look 50, you wonder a bit about this required retirement at 60 years of age. "I'd love to stick around a little longer, but rules are rules," Frank sadly adds.

**Humor in Reverse** "We sure have had some humorous experiences over the years, though. One of the funniest ones was when Former Police Chief Tom Trombly backed his scout car right through the front of the fire station doors. After he did that I was called upon to get out my carpentry tools and fix the doors," he laughs.

"Still another funny incident involving the doors was when we were training a new fireman. He was backing the fire truck up and forgot to allow for the length of the ladders . . . once again I was called on to get out my tools and fix up the doors. Now we have automatic electric doors and they don't need my carpentry, for doors, at least, anymore," he adds.

"You know, one of the most rewarding parts of this job is talking to the children who come by the station, either singly or in groups. Their enthusiasm is fantastic. Years after they have visited the station some of the children come back as grown men and ask if I remember when I told them about fire prevention or about the engines. One of these boys, John Onstwedder, Jr., is a fireman himself today," Frank recalls.

**Offers Advice** "Would it be all right if I say something to the firemen who succeed me? Be active, be alert, be loyal, be what the chief tells you, have guts, and you'll be good firemen and never get into trouble.

"The city hasn't had many major fires . . . only three that I can remember. The reason there have been so few can be attributed to the efficiency and promptness with which small fires are extinguished," Frank proudly adds.

Frank omitted from his reminiscences the story one of his fellow fireman tells of the time he probably saved a man's life. The man was tending a rubbish fire when the entire lower half of his clothing caught fire.

Frank was off duty and just happened by at the time. He leaped from his car and with the help of Joseph McEachern enveloped the man's legs in his jacket and beat out the flames. The man was taken to Saratoga Hospital, treated and released with minor burns.

**Received Commendation** If Frank hadn't acted so quickly the man could have been seriously injured. Because of this brave act Frank was lauded by all the metropolitan Detroit papers and received personal commendation from City officials. Frank's only comment . . . "It was the natural thing to do."

Frank comes from a family of firemen. One of his uncles, William Cahill was Fire Engineer in Hoboken, N.J. Another uncle, Chief Michael Callahan, was in the fire department in Harrison, N.J. His brother, George, was Fire Chief of Grosse Pointe Farms for almost 35 years.

Frank was born in Harrison, N.J., on June 20, 1907. He left there at the age of 10 and the family moved to Muir road, then Oak street. He has lived there ever since . . . some 50 years. He attended St. Paul's School, old Kerby School and Cass Tech, where math was his specialty.

**Quite a Family** He has quite a family: a wife, Martha, three daughters, Ellen (Mrs. Sylvester Hogan), Margaret (Mrs. Vince Liano), who lives in Maryland and is expecting her fourth child, Grace, who will be married July 7, in St. Paul's Church to Glen Williams, of Dearborn; and a son, Thomas, who lives at home and is in sales.

"I am very proud of my family and my eight grandchildren are the apple of my eye," Frank beams.

When queried as to his hobbies, Frank's face lights up and he says, "I'm quite a dancer. I dance anything from the Irish Jig to the Polish Polka to the Frug. Martha and I really cut a mean rug."

"I also love athletics and won many events as a boy at St. Paul's in running . . . anything from the 100-yard dash to the 440 relays."

**Won't Be Relaxing** Retirement to Frank Dansbury won't mean relaxing. He plans to stop by the fire station every chance he can, he'll do carpentry work and of course he'll spend a lot of time with his grandchildren. "You know, when I hear the firebell ring I'll still be there; after all, you can't break a 23-year habit overnight!"

Frank's story wouldn't be complete without talking to two men who really know him, City Police Chief Andrew C. Teetaert and City Fire Chief Albert Yaklin.

Chief Teetaert says of Frank, "In my opinion, he's one of the best firemen who ever came out of the City of Grosse Pointe. What he lacks in physical stature he makes up in aggressiveness and ability. His retirement will be a tremendous loss to the City of Grosse Pointe."

Fire Chief Yaklin says, "I have worked with Sgt. Dansbury for almost 23 years, and I have always found him to be a very able fireman. Whenever he heard a siren he would call to see where the fire was, or answer the call if he could locate the fire truck.

**Was One of the Best** "At a fire he was one of our best firefighters . . . he knew
