Torch Drive Quota Is \$422,107

(Continued from Page 1) monies will be the UF's first "Torchlighter Family," the Melvin J. Georges, of Southfield, chosen to typify the many who contribute to and benefit from the annual "Give Once for All" campaign.

The Georges have four children: Jeffrey, an eight-month-old infant; Gregory, 3; Leslie, 4, and 5-year-old Tracey, a patient at the United Cerebral Palsy Association of Detroit since 1963.

The George family will push the button that lights the gas-fed flame which will burn continuously throughout the 23-day campaign.

Also present will be "Miss Torch," 21-year-old Jacqueline Piper, of Detroit, subscriber service representative for Michigan Blue Cross-Blue Shield.

Report Luncheons On October 24, the first of 10 report luncheons scheduled during the drive will be held in the Sheraton-Cadillac.

Residential Day, set for October 30, will honor women volunteers who conduct the door-to-

door solicitations throughout Wayne, Oakland and Macomb Counties.

The residential unit reporting the highest percentage of quota at the luncheon will be awarded the Sugar Bowl Trophy.

Presentation of the Town Crier Bell will highlight the October 31 report luncheon honoring volunteers working in the community business campaigns. The bell goes annually to the community business unit reporting the highest percentage of quota.

Victory Dinner Concluding the drive will be the Victory Dinner in the Sheraton-Cadillac on November 9, final day of the campaign.

Chairman Semple has called for an "all-out" effort on the part of all volunteers "to spread the word that generous support is imperative" if Detroit is to meet this year's goal.

It must be met, he said, in order to provide for the agencies' minimum needs.

"We must make certain," he added, "that everyone in the tri-county area is given an op-

portunity to contribute his fair share."

Through the efforts of Torch Drive volunteers in 18 successive campaigns, the UF has raised and disbursed \$310 million for health and community services.

Only four per cent of each dollar contributed goes for campaign costs, year-round administration, accounting and education. Of each dollar contributed, 96 cents goes directly to the agencies to provide services.

Tri-county chairman for community residential campaigns this year is Mrs. Milton B. Osgood.

Heading community business campaigns is Horace E. Sheldon, field manager, civic and government affairs, Ford Motor Co.

Council

(Continued from Page 1) benefits are not considered," he added.

According to the detailed comparative criteria agreed to by the Grosse Pointe Education Association and the Grosse Pointe Board of Education, the first five districts are Van Dyke, Fitzgerald, Dearborn, Ecorse and Grosse Pointe, in that order. Mr. Kennedy indicated that at least two more districts are needed to complete the study, one of which must be Bloomfield Hills, Birmingham, Taylor or Highland Park.

If the comparison is made without consideration of fringe benefits, Grosse Pointe ranks in ninth place out of the following 13: Van Dyke, Fitzgerald, Utica, Pontiac, Ecorse, Roseville, South Lake, and Grosse Pointe, Livonia, Redford Union, Lake Shore and South Redford.

Building Program The trustees also announced another forthcoming meeting of community-wide significance. A special meeting to hear the staff's recommendations on a long-range building program for the schools and libraries based upon the recently-completed study by a Birmingham architectural firm has been scheduled for 7:30 p.m. on Monday, October 23, at Maire School.

Trustee Arnold Fuchs raised the question of the propriety of classroom use of J. D. Salinger's novel, "Catcher in the Rye," approved at the September Board meeting for the Contemporary Senior English class at Grosse Pointe High School. After some discussion the trustees defeated a motion to rescind last month's action approving the title on a booklist for Seniors.

Approved Books Other books included on the senior booklist were: "Good Earth," by Pearl S. Buck; "To Kill a Mockingbird," by Harper Lee; "Member of the Wedding," by Carson McCuller; "A Bell for Adano," by John Hersey; "The Ox-Bow Incident," by Walter Van T. Clark; "Of Mice and Men," by John Steinbeck, and "Death of a Salesman," by Arthur Miller.

Edwin H. Sauer, former Professor — Harvard University Graduate School of Education, who wrote "English in the Secondary School," said of "Catcher in the Rye," "The book is a deeply religious one, the story of a boy's fumbling quest for spiritual values as he sees the shams of modern society and learns to value only innocence and self sacrifice."

This 12th grade English course also includes composition, poetry, and essay drama. The contemporary novel is particularly emphasized because the English Department at Grosse Pointe High School feels that this type of literature deals with ideas and situations to which the students can easily relate.

HEARS SENTENCE Gerald M. Wilburn of 26220 Clarita, Redford Township, charged with uttering and publishing, was found guilty as charged at a hearing held before Woods Municipal Judge Don Goodrow on Saturday, October 7. The accused made restitution in the amount of \$30 to the Lochmoor Hardware in open court, and then was sentenced to pay a fine of \$30 and serve 10 days in the Wayne County Jail.

(Continued from Page 1) Chairman Navitz would appoint an unofficial committee of representatives of Detroit and the out-County units of government to meet with representatives of the State Legislature in an effort to have the law repealed and a new apportionment committee established.

Presently the procedure in The Pointes is for the Council to appoint a representative to the Board. Under this new plan it is possible that The Pointes would have no representative on the Board.

This is the way the new plan is districted: District 1 would include the cities of Grosse Pointe Woods and Harper Woods, Township of Grosse Pointe and that part of the City of Detroit starting at the eastern city limits and Chester, west on Chester to Morang, north to East Edsel Ford Freeway, west to Chalmers, north to Hayes, north to Kelly, northeast to Houston-Whittier, west to Filbert, southwest to Park Drive, south to Wilfred, west to Gratiot, northeast to Detroit City limits, east along city limits to Harper Woods.

District 2 would include that part of the City of Detroit, starting at the East Edsel Ford Freeway and Chalmers, north on Chalmers to Hayes, north to Kelly, northeast to Houston-Whittier, west to Filbert, west to Park Drive, south to Wilfred, west to Gratiot, northeast to city limits, west along city limits to Concord, south to Milbank, west to Sherwood, south to East Outer Drive, east to Van Dyke, south to East Edsel Ford Freeway and east to Chalmers, the point of beginning.

District 3 would include cities of Grosse Pointe, Grosse Pointe Farms, Grosse Pointe Park and that part of the City of Detroit starting at the eastern city limits and Chester, west on Chester to Morang, North to East Edsel Ford Freeway, west to Conner, south to Mack, east to Drexel, south to East Vernor, east to Chalmers, south to Kercheval, west to Lakewood, south to East Jefferson, east to City Limits of Detroit, south along the city limits to Detroit River.

City of Grosse Pointe Woods attorney George Catlin has talked with the City attorneys from the neighboring communities and will present his report on those talks at the Woods Council meeting of October 16, to present their feeling on the redistricting.

State Aid

(Continued from Page 1) State School Aid is derived from two State sources: The State Sales Tax and an appropriation from the State General Fund.

In computing the estimate, membership based on the 1967-68 estimated enrollment as of the fourth Friday of the new school year in September or October is used.

Formula Application of the State Aid Formula for computing the receivable on the gross per pupil allowance is as follows: (1) Enrollment = 12,500. (2) Gross Allowance = \$294.53. (3) Allowance x Enrollment = \$3,681,625.00. (4) State Equalized Valuation = \$347,911,403.00. (5) State Equalized Valuation x 5.28 Mills Deductible = \$1,836,972.21. (6) Gross Less Deductible = \$1,844,652.79. Estimated Net Receivable per Pupil is \$1,844,652.79 divided by 12,500, or \$147.57. Estimated Valuation per Pupil is \$347,911,403.00 divided by 12,500, or \$27,833.00.

Thieves Traced By City Police

Through investigation conducted with immediate action by police officers Richard Bracken and John Drummond resulted in the apprehension of the thieves, one a juvenile, the other Robert Bracken, 17, of 537 Wood, Detroit, who broke into

Coins and Stamps, 17658 Mack, on Tuesday, October 3.

While on routine patrol the officers found the front door of the store had been broken into. They entered the store and found coins strewn all over the floor.

In checking the area, officers found that the thieves had fled in the direction of the Clark gas station across the street from Coins and Stamps.

Upon further probing the officers received information that ultimately led to the arrest of the juvenile and Bracken. Most of the coins were recovered in various areas around Detroit.

Bracken pled not guilty and waived examination and was released on \$100. The juvenile was turned over to juvenile authorities and Bracken was bound over to Circuit Court.

In 5 years you can save over \$140.00 with a new Gas dryer.

Work it out for yourself. It takes less than 2¢ to dry a load of clothes with Gas. And you can dry 5 loads in a Gas dryer for the cost of drying 1 with electricity.

Based on the number of loads an average family dries, there's a saving of \$28 or more a year—\$140 in 5 years. Your Gas dryer can actually pay for itself in 5 years with the money saved in operating costs.

There are no hidden expenses, either. Installation is free. Maintenance comes to less than 20¢ a year, on the average (or the amount you can save on a few loads).

No wonder 7 out of 10 families that now have dryers have Gas dryers. Money aside, Gas finishes loads up to 10 minutes faster, so you can get more loads through in a day. Clothes come out fresh, soft and looking like new, including all your permanent-press things.

Gas makes the big difference... costs less, too. Not just for 5 years, either; but as long as you use it. See the latest dryer models at dealer or Gas Company showrooms.

Isn't it time you bought her a new Gas dryer?

This afternoon he signed two new contracts, nine business letters...

and a "temporary," stop-gap will.

Ideally, a will should not be made in a rush. Actually, it happens all the time. Suddenly confronted by a long business trip or a vacation abroad, a man reasons that a "temporary" will is better than none at all. That's true... temporarily.

But critical dangers lurk in the stop-gap wills of yesteryear which so many men continue to depend upon today.

Even the most thoughtful will should be reviewed regularly as a man's estate develops, as his family grows up.

Make sure your will is all that it should be. In the process, you and your attorney are invited to consult with NBD's trust officers. Our practical insights on property problems—and opportunities—are at your service.

what's the second most important name on your mortgage?

your bank.

There's a lot more to a mortgage than the amount of money you borrow. Where the money comes from is just as important. And so are the things written into your mortgage.

If you apply for a home mortgage at NBD, for example, you'll find we have the people and facilities to give you personal attention. And because we're a service bank, we can keep on helping you with our entire range of financial services long after you move in.

Ninety-five offices make us the most convenient place in town to apply for a mortgage. There is no application fee.

Closings take only thirty to forty-five minutes and are often made at the same office. This saves you a special trip downtown. And closing costs are usually less than a hundred dollars, excluding insurance.

When we write your mortgage, we spell out exactly what rate you'll be paying and what you're paying for. And we'll write in pre-payment privileges that can save you hundreds of dollars if you sell your home.

If you're considering a mortgage loan right now, be sure to consider a very important thing: the name of your bank.

Nominate Williams As EOC Chairman

Former Governor G. Mennen Williams has been unanimously nominated for the office of chairman of the Wayne County Economic Opportunity Committee (EOC).

The selection of the six-term governor and former Assistant Secretary of State for African Affairs was made by the EOC's nominating committee October 5. The full 54-member EOC will act on the nomination at its annual election October 25.

Chosen as candidates for the vice-chairmanships were Clarence Sabbath, River Rouge city councilman, and Mrs. Delora Yori, of Garden City, who served as coordinator of the Operation Summertime youth employment and recreation program administered by the Wayne County Office of Economic Opportunity. Mrs. Joanela Williams of Inkster was nominated for the post of secretary.

The EOC is the governing body of the Wayne County OEO, which sponsors antipoverty programs in the country, outside Detroit.

The committee last month adopted a \$2.7 million package for the fiscal year beginning December 1. The proposals, which have been submitted to OEO regional officials for approval, provide for expansion of services at the Neighborhood Action Centers in the target communities of Hamtramck, Highland Park, River Rouge, Ecorse, Inkster and the townships of Taylor, Romulus and Sumpter.

The package also includes continued operation of the Southern Wayne Preschools and Wayne County Suburban Legal Services, as well as a pilot Foster Grandparents' project.

School Census Data Is Sought

Information to determine how many children and adults under 35 are enrolled either in school or college will be sought here the week of October 16, Director Robert A. Yerkey of the Census Bureau Regional Office in Detroit announced today.

Questions on this subject are asked each year at this time to update national figures on public, private and special school enrollment, full- and part-time college attendance, the number of high school graduates and dropouts, and the last year of regular schooling for non-high school graduates.

A similar survey taken a year ago showed that more than 55 million persons were enrolled in school or college, about 30 percent of the civilian population. The 1966 figure represented an increase of 19 percent over 1960 enrollment.

This inquiry is an addition to questions about employment that the Census Bureau asks each month to obtain data for use by the Department of Labor's Bureau of Labor Statistics in determining national employment and unemployment figures.

The survey will be taken simultaneously throughout the U.S. from a representative sample of the nation's households. All answers are confidential, and the information obtained will be used for statistical purposes only.

Dr. David Reed To Lecture Here

Dr. David M. Reed of the School of Medicine of the University of Pennsylvania will speak Tuesday night, October 17, at Fries Auditorium, 32 Lakeshore Road, on "The Modern Family and the Sexual Revolution."

His talk, which will begin at 8:30 p.m., will be the second in a free public service sponsored by Bon Secours Hospital with the assistance of the James and Lynelle Holden Fund. The general theme of the series is "To-

day's Family and Its Challenges."

Moderator of the Tuesday evening session will be Dr. Armin Grams, Professor, Human Development Program, of the Merrill-Palmer Institute. He will lead the question and answer period which will follow Dr. Reed's formal presentation.

A native of Pittsburgh, Pa., Dr. Reed first began his interest in medicine as a pre-medical student at Princeton University, from which he was graduated in 1954 with a B.A. degree. He took post-graduate training in the ministerial profession initially, however, with the goal of specializing in counseling.

After a year at New College, University of Edinburgh, Scotland, a three-year course of study at Princeton Theological Seminary led to a Bachelor of Divinity degree in 1958.

During this time active work in the counseling field had begun, as Dr. Reed was Institutional Chaplain for the Presbytery of Philadelphia. He had been ordained a minister in the United Presbyterian Church, U.S.A., in 1956.

For two years he alternated hospital work with teaching pastoral counseling for Princeton Seminary and Lincoln University.

From 1959 to 1965 Dr. Reed trained in psychiatry and joined the faculty at Tulane University. The degree of Ph.D. in Psychodynamics was awarded him in 1965. At the same time he received a degree of Master of Public Health (M.P.H.) from Tulane's School of Tropical Medicine and Public Health.

From 1965 to 1967 Dr. Reed held the position of Assistant Professor of Psychodynamics and Mental Hygiene in both the Department of Psychiatry and Neurology and the School of Tropical Medicine and Public Health at Tulane.

Remote Control Scares Burglars

Ronald Parkin was only a block away when he opened the door of his garage and apparently frightened away a burglar, or burglars, ransacking his home, 21407 River road, on Wednesday, October 4, Woods authorities believe.

Police said that burglars in the house heard the garage door open, became scared and fled, leaving several rifles and shot guns they had piled in the basement. The thieves got away with several bottles of liquor, however.

According to the policemen who were dispatched to the scene on a "burglary in progress" call, Parkin was approximately one block away from his home when he opened his garage by an electronic remote control button in his car. The intruders, possibly thinking the owner had arrived, ran from the building.

The thieves entered the house through an open sliding door at the south side of the edifice, it was said. There were no pry marks to indicate forcible entry.

Parkin entered his home to discover that all rooms had been ransacked, and that several rifles and shotguns had been piled together in the basement, which led to the belief that the burglars were making ready to carry them out. Also disturbed was a .22 caliber blank pistol, taken from from a clothes closet and found on Parkin's bed.

After checking the house, Parkin notified police that nothing appeared to be missing except several bottles of assorted whiskies.

Reveal School Census Figures

Dr. Theos I. Anderson, Superintendent of The Grosse Pointe Public School System, has released school census data gathered during the month of May.

With the total population of the school district at 70,014, the school census, (5-19 year olds), is 21,252, and the public school membership for May stood at 12,286.

Highlights from each of the 11 census tables prepared by the schools' Department of Pupil Personnel follow:

Since 1950 the total population of Grosse Pointe Woods has more than doubled, the Shores tripled, the Harper Woods fraction more than quadrupled. The school census, (the 5 to 19 year olds), and the May membership have more than doubled since then.

Since 1963 Grosse Pointe Woods alone has gained more than two thousand people (2,124) while the rest of the school

Men's Garden Club To Gather

Future opportunities for community improvements through beautification open to the Grosse Pointe Men's Garden Club will be the theme of an address by Vincent R. DePetris at the Club's annual dinner Thursday evening, October 9, at Stouffer's Eastland dining room. Attending will be members, their ladies and friends.

Mr. DePetris, who is widely known as an expert horticulturalist and developer of chrysanthemums, chose the subject: "Where Do We Go from Here," using the background of the Club's history of individual and community garden work in the past as a basis for future objectives. He was the Club's first president, serving two terms.

During the evening, presentation will be made of annual awards to Club members. They include the Harry G. Schorr Horticultural Cup, the De Petris Cup for best garden chrysanthemums, and the special Club awards in horticulture and for record of service to the Club itself.

Men's Garden club is completing its most active year with a growing membership. The season has seen expansion of community activity, almost 100 per cent participation in garden inspection program, continuation of school garden work, competition in two membership garden shows and a public instruction course.

SATISFACTORY GUARANTEE BY DETROIT ELECTRIC WATER HEATER

electric water heater

A good water heater guarantee deserves a good water heater.

Get both. Our electric water heater guarantee. And the electric water heater that comes with it.

An electric water heater doesn't have a flame. So you don't vent it. Or have to stick it next to the nearest chimney. You put it anywhere. Close to where it's used. So your hot water can have a shorter run, stay hotter longer.

Which brings us to the real economy. A 50-gallon size, big enough for most families, operates for about \$3.30 a month in normal use. That's pretty hard to beat.

And here's our guarantee: "An approved-size electric water heater will give you all the hot water you need, when needed, or we'll remove the heater and refund the original purchase price after one year from purchase date." You can't get that kind of water heater guarantee on any but an electric.

This is exclusive with electric, too: No-Charge Repair Service. No charge for electric parts or labor—for as long as you own the heater.

And we also pay for installation* cost! If you're a first-time buyer, this could save almost half the acquisition cost. From \$70 to \$90! And that's about half the old cost—before Free Installation.

Visit your plumber, appliance dealer, or any Edison office. And get both. Our electric water heater guarantee. And the electric water heater. They deserve each other.

*On Edison lines—in residences up to and including four-family flats.

Back-to-School For Pierce P-TA

Parents of Pierce Junior High School students will return to school at 7:30 Wednesday evening, October 18, when the annual Back-to-School Night begins the year's P-TA programs.

They will squeeze into their children's desks, smell the familiar odor of blackboard chalk, and once again listen to teachers' explanations. But the classes will be only 12 minutes long, and there will be no exams, just descriptions of courses.

By the final bell at 9:24, all parents should possess a better understanding of what their children will be learning between now and June.

Precautions will be taken to be sure that no one arrives tardy to class. Hostesses Jean Stewart, Jane Beebe, Janice Marshall, Gretchen Parcels, Jane Self, Carol Bock, Mary Brennan, Sue Walri, Mary Brady, Irene Sherman and Candy Angott, posted in the halls, will help every parent find the proper room on time.

Guests are especially invited to visit the re-modeled band room and the industrial arts shops and to browse in the student library on the second floor during study hall periods.

Throughout the evening refreshments will be served in the girls' gym.

Defeats For Pointe Lions

Robert N. Brower
Grosse Pointe Little Foot-

noon Saturday, October 7,
when they lost to the
J.V. teams of 28-0 and the
team came up on the
score of a 14-6 score.
Freshman gridders
started with a flying start when
they grabbed the in-
terception and scampered 65
yards to the only Grosse
Pointe touchdown of the afternoon.
The Pointe Park Chargers
trounced the Lions 7-6 in the second
half of their final T.D.
The Lions meet the Taylor
Mustangs next Sunday, October

For GP Packers**

The Little League Football
Grosse Pointe Packers over-
whelmed the Northeast Detroit

man squad won their first game
of the season 27-7. Fritz Leh-
mann scored three touchdowns
and one extra point. Joe Przes-

**St. Paul Loses
To Sacred Heart**

Sacred Heart of Roseville
blanked the St. Paul Lakers
13-0 at Grosse Pointe High
Field last Sunday.
Sacred Heart scored both
touchdowns in the first half
running 37 plays; the Lakers ran
32 plays.
Midway into the first quar-
ter, Sacred Heart scored on a
two yard plunge into the end
zone by quarterback Dennis
Macdonald. Fullback Steve
Zymich ran up the middle for
the extra point.
After a penalty nullified one
60 yard jog into the end zone,
halfback Willoughby scored on
a 40 yard end sweep early in
the second quarter. The extra
point failed giving Sacred Heart
a 13-0 margin at halftime.
Both teams remained score-
less in the second half as nei-
ther offense was able to click.

Police Foil Would-Be Thief

Action by the City
Police resulted in the apprehen-
sion of a would-be-thief on a
Saturday afternoon on Tuesday.
Chief Andrew C. Tee-
ple, 11, Robert Van Tiem
made a call from Bert
Best and Company,
Kercheval Carrier said
that a man who had just left
the store was the same indi-
vidual who had attempted to
steal from the store on
September 2.
The subject was
seen in a car headed
for Kercheval place.
Teeple attempted to
stop the driver to stop but the
driver continued on Cadieux,
the Chief's order to
later identified as
Piechata, 7621 Chase,
continued in flight,
stopping at Cadieux, very
near another car.
The car did run into a car
of Kercheval, then

The Grosse Pointe senior
teams were likewise unable to
launch a consistent offense
against their Highland Park op-
ponents. Angelo Tocco, playing
both ways for the G.P. Varsity,
gave the Chargers some anxious
moments, but the fast and hard
playing H.P. team was not in
any serious trouble all after-
noon.
The J.V. game saw some good
ball handling by Lions Joe
Briggs, John Chancey and Tom
Marantette, but they were un-
able to break into daylight.
The Lions meet the Taylor
Mustangs next Sunday, October
15, at Neighborhood Field.
Game time is 1 p.m.

The Junior Varsity blanked
the Shamrocks 20 to 0. Phil
Simon, Dick Padilla and Chris
Cotzias each scored a touch-
down and Whit Boyd and Phil
Simon added the extra points.

Driver Accused In Park Incident

A Park police officer, injured while helping to subdue a drunken motorist, is back on the job, and the motorist is scheduled to appear in both the Park Municipal Court and in Detroit's Recorders Court.

A warrant against George Lewis Stansell, 30, of 533 New York street, Lincoln Park, was approved by the Wayne County Prosecutor's Office and signed by a judge of Detroit's Recorders Court on Monday, October 9. Stansell, in this complaint, is accused of resisting arrest and obstructing a police officer in the performance of his duty. A court date in this matter is pending.

However, Stansell will appear in the Park Municipal Court on November 8, on a charge of drunk driving, and is free on \$100 bond until the hearing.

The charges stemmed from an incident on Sunday, October 1, at 3 a.m., when Stansell was seen driving in an erratic manner on Mack avenue by Park Police Sgt. Henry Counce and Patrolman Edward Janostak.

In trying to elude the officers, the motorist drove into a Detroit gas station at Courville and Mack, where the Park policemen ordered him out of his car after telling him he was under arrest. When the man became belligerent, Counce and Janostak called for assistance, and Park Patrolmen Carl Kaar- tunen and Robert Cory were sent to help.

As the four officers sought to subdue him, Stansell kneed Cory in the groin. When the motorist was finally handcuffed and taken to the Park station, Cory was conveyed to Bon Secours Hospital for treatment. He was unable to work for four days.

On returning to work, Cory was informed by officers of Detroit's Conner Station, Fifteenth Precinct, that they have applied for a warrant accusing Stansell of resisting arrest and obstructing an officer in the performance of his duty, and Cory's signature was needed on the complaint. The policeman signed the paper, and the warrant was later approved.

Chief Arthur Louwers pointed out that Stansell will have to appear in the Park court because he was initially observed driving, while allegedly under the influence of alcohol, on the Park side of Mack avenue.

The assault, as stated by the Detroit complaint, took place on the gas station property, on the Detroit side of the thoroughfare.

Pointer Writes History Of Great Chicago Fire

Fire Prevention Week is proclaimed each year in the United States and Canada as an international observance of the great Chicago fire of 1871.

Pointer Clarence C. Woodard, of Briarcliff drive, unofficial historian for the Detroit Fire Department, member of the Detroit Historical Society, the Federal Fire and Safety Council and Board of Commerce Fire Prevention Committee, has written the following article on that Great Chicago Fire which we are sure will be of interest to our readers.

The Great Chicago Fire

Fire Alarm Box 342 was sounded at 9:32 p.m. on a Sunday evening, October 8, 1871, which ushered in one of the most frightful situations ever encountered by any Fire Department.

Whether or not the cow kicked over the lantern in Mrs. O'Leary's barn on De Koven Street is a question that would fill a book. Conflicting stories, theories, and arguments about the origin, progress and details of the fire are many and varied. But the fact is that the cause of the fire, which completely destroyed the heart of Chicago, probably never will be known.

Many investigations, private and official, established that the fire started about 9 p.m. in the O'Leary barn. However, these investigations also vindicated Mrs. O'Leary as they showed she was in bed at the time of the fire and that she was not in the habit of milking her cows later than 5:30 p.m.

The legend undoubtedly was instigated by some person who made a good guess about the cause of this great tragedy. Naturally, it seemed plausible. It was one of those stories which developed quickly before its accuracy could be checked.

However, too little has been related by writers of the event as to the heroic efforts of the firemen of Chicago and of those cities, towns and villages who came to the aid of their fellow firefighters.

Together these men put up a battle against impossible odds that shall stand credited and unchallenged for all time in fire department traditions.

It will be recalled that there had been a drought, and a lack of usual rainfall for many preceding weeks, resulting in conditions in a city then largely of wood construction which lent itself exposed to the rapid spread of fire from any minor blaze that might get out of control.

However, on the Saturday night immediately preceding the fateful Sunday, a fire of huge proportions was fought which involved a number of frame residences and other structures including lumber yards and coal piles.

The blaze ravaged 16 acres not too distant from the O'Leary cottage with a property loss of \$750,000. The Fire Department, or major portion of it, was engaged in this blaze until Sunday afternoon, with minor damage to apparatus, some loss of hose and equipment; and certainly the men, for whom there was no system of relief, were fatigued.

Whatever the origin of the great fire, one suddenly did flare out from the O'Leary barn along with considerable time being wasted before it was reported. A man with a wooden leg, who could not hurry, was brought into the picture in connection with certain inquiries with regard to the rumor of delayed alarm.

The fire had raged about 30 minutes before an alarm was sounded from a tower watchman several miles from the Saturday fire.

As firemen arrived on the scene, they found a series of frame structures to be involved at and northeasterly of the O'Leary covehed. Oddly enough, the O'Leary cottage was not in-

In this age of do-it-yourself, a fellow named John Jay has really topped them all in the movie business. Almost single-handed — with an assist from his lovely wife Lois, and his associate Don Rathbun — he annually turns out a feature production on adventure in the ski world that would tax the facilities and ingenuity of two dozen Hollywood technicians.

Are his pictures good? Well, Warner Brothers bought two of them; one was nominated for the Academy Award. Both CBS and ABC have shown his Winter Olympic films on their television networks, and he has been the Official U.S. Olympic Photographer three times.

Author of the best selling ski book "Skiing the Americas," Jay has just written a new illustrated volume, with John O'Rear, entitled "Ski Down the Years" — a nostalgic yet lively and humorous account of the ski explosion in North America, which has drawn rave reviews from book critics all over the country.

Now celebrating his silver anniversary in the ski film business, Jay and his wife have made 23 feature length documentaries of the sport in every continent on earth — except Antarctica.

Jay will appear with his latest production, "Head in the Hills" on Wednesday evening, October 25, at 8:15 o'clock at Grosse Pointe War Memorial's Fries Auditorium.

fined through the use of gun powder, but not until it had ravished every inch of a three-and-a-half square mile area.

The suffering was great. More than 250 lives were lost and 98,500 persons were made homeless when 17,430 buildings and homes were wiped out. The property loss was estimated at \$195,000,000.

For days afterward, the searching for dead and the caring of the injured were impeded by thieves and vandals. The situation remained uncontrolled even though the Mayor called upon 5,000 citizens to become deputies and police every block in the city.

A dispute between the Mayor and Governor over whether State troopers or the United States Army should take charge contributed to the confusion. Federal troops finally took over. As order and quiet seemed to reign, the Army vacated.

By this time, criminals from many parts of the United States had migrated to the down-trodden city, and the Army had to be recalled as a new crime wave resulted.

Despite these early handicaps, the city was quickly rebuilt. In 1876, five years later, barely a sign of the great tragedy remained.

This great Chicago fire of 1871 is the only major conflagration whose Anniversary is marked by an international observance — "Fire Prevention

Week" — proclaimed each year in the United States and Canada. It originated in 1911 as Fire Prevention Day by the Fire Marshalls Association of North America. It was extended to a week in 1922, upon recommendation of a National Fire Protection Association Committee.

The Water Works, although a long distance away, was in practically a direct line of destruction as the fire rode the gale. With the Water Works consumed, the firemen's main line of defense — water — was gone. Here again, firemen showed a disciplined effort to sustain resistance to the last ditch by pumping from the river.

Many citizens and newspapermen who saw the fight first hand gave unstinted praise to the red-shirted, leather helmeted men with long mustaches and square whiskers who fought this great blaze. A study of early sketches, engravings and lithographs has also shown this great force of firefighters galloping against, and never with the current of panic-stricken traffic.

For two days the fire raged, but never did the firemen give up. They fought on against overwhelming odds, trying to prevent further spread even to the extent of seeing their own homes destroyed as they helped others. Finally the fire was con-

A Puritan bonnet of matching peau de soie and lace held her Cathedral length illusion veil, and she carried a cascade of white roses and stephanotis.

The bride is the daughter of Dr. and Mrs. Elmer W. O'Berski, of Chalfonte avenue. Her husband is the son of Mr. and Mrs. John E. Doherty, Jr., of Buckingham road.

For the first time in 75 years, the Detroit Review Club is meeting on Fridays, rather than Mondays (due to a new policy of the Women's City Club), and the club's first meeting will be this Friday, October 13, in the WCC auditorium.

Mrs. Robert Kales, of Cloverly road, president of DRC for the second year, will act as official hostess at a luncheon preceding the meeting, when the club will honor Mrs. George Seabold, a life member. (Mrs. Seabold, who has belonged to DRC for over 60 years, was recording secretary at the time Delphine Dodge Ashbough was DRC President in 1908, and was Mrs. Ashbough's recording secretary when she became President of the Detroit Federation of Women's Clubs.)

Mrs. Seabold, who will be celebrating her 91st birthday, has held every office except that of president—and is still an active member!

Mrs. Marion H. Crammer, social chairman, will have charge of luncheon arrangements.

At 1:30 o'clock Mrs. N. Conner Gunn, first vice-president and program chairman of DRC, will introduce Colonel Charles Upton Shreve, who will talk on the background of the Vietnam War.

He has received the Croix de Medal de Blesse, Purple Heart, Bronze Star with Oak Leaf Cluster, and is a member of the Veterans of Foreign Wars, Disabled American Veterans, Reserve Officers Association, the Military Order of World Wars and Military Order of Foreign Wars. "Business Goes Where It Is Invited and Stays Where It Is Made Welcome" . . .

Onions & Real Estate

George, the Greek, used to run a little lunch room in the Chicago Loop. George wasn't much of a business man but he had one idea that always produced results.

When business got dull, George would call to his helper, "Throw some onions on the grill."

Soon the odor of onions on that sizzling grill would drift through the window onto the sidewalk. One passer-by after another would hesitate, come in, and order a hamburger until business was soon booming again.

WELL, WHAT HAVE ONIONS GOT TO DO WITH REAL ESTATE?

Nothing, really. This little story is just our way of throwing onions on the fire — of letting you know we specialize in the sale of Grosse Pointe properties and that the above-pictured home is one of our most attractive offerings.

It is located on one of the finest streets in the Farms — is perfect for the small family — has a Florida room, Kitchen with dishwasher and breakfast bay; 2 bedrooms, paneled den (or 3rd bedroom), 2 baths, and a tiled carpet. The exterior has just been painted and the garage has electric door openers.
