PRESIDENT NIXON, in a televised address to the nation Wednesday evening, proposed that "major portions" of United States and North Vietnam forces withdraw from South Vietnam over a 12-month period. He of-fered an eight-point "proposal for peace," which included prompt and mutual withdrawals by both United States and communist forces, to be follow-ed by elections under international supervision. He emphasized that his administration has ruled out any "one-sided with-drawal" or "disguised defeat" in the Vietnam War.

parked his car, on the south

Police said that the trio came to the area in two cars, and that the second vehicle had been parked in the rear of the bank building. Both cars were driven to the Woods station and impounded.

Ironically, the auto on Norwood, had an overtime parking ticket under the windshield, placed there by Meter Maid Judy Walker.

Miss Walker said she put the citation on the car approximately 15 to 20 minutes before the hold-up took place. She said there was no way of knowing to whom the car belonged at the time. As far as she was concerned, it was just another expired meter violation, she said. Kidded By Officers

She took considerable joshing from the officers at the Woods station, regarding the ticketing of the bandits' car, but not as much as for placing a violation ticket on an FBI agent's car two hours later. The agent was in the bank building investigating the robbery.

There were no identification marks, or license plates to in dicate that the car was owned or being used by an agent of the Federal Government She was just doing her duty, she pointed

As Lamm. Rush and Kupiec were being taken out of the station by federal agents, Rush, to add insult to injury, was handed the violation ticket

Director Coats said that he had his back to the door, when the bandits entered the bank, and was momentarily startled when Lamm, and Rush announced the hold-up. He said that he complied immediately with the order to lie face down because he did not want a shoot out that might endanger the people in the building. Didn't Look Up

He said that he did not look up to see what was going on, but heard shuffling and Rush shouting "Move, Move, Move" to the tellers, as the money was being scooped from the cash drawers.

Coats, who is extremely modest, said when the hold-up occurred, he just happened to be in the bank, and what he did in the capture of the bandits was just part of his duties as a police officer. He said he was glad that he was able to stop the robbers before they escaped.

He said that Rush, who was described by one of the wit-nesses as having gray hair, actually was not gray, but had powdered his nair in an attempt to disguise himself.

WHERE HAS THE GREAT AMERICAN TRADITION OF "FAIR PLAY" GONE?

It was suggested by Grosse Pointe Board of Education Trustee Edward Pongracz on May 12, 1969 at the regular monthly public meeting that the following letter be published as an advertisement in our community newspaper. The letter was originally delivered to the Grosse Pointe News' office at 4:50 P.M. on Monday, March 24, 1969 and was intended as a response to Mr. Alfred Glancy's freely published letter maligning Trustees Calvin Sandberg and Arnold Fuchs.

At this same board meeting, an observation was made by this parent that the school administration, particularly our curriculum director, is not sure of what is being taught in our schools. After much discussion instigated by an inquiry of a concerned parent as to why she was not notified before sex-oriented films were shown to her daughter in a mixed group, contradiction between the assistant superintendent-instruction and Pierce School Principal was apparent as to what films are shown and in which grades and classes.

A motion was made to make mandatory the the procedure of notifying all parents beforehand and informing them of all materials to be used in the area of sex education. A request made by the administration followed that the motion be tabled until their hand-picked committee of cronies, studying a proposed K-12 sex education program, could present its recommendations to the school board.

It is the feeling of this parent that the educational hierarchy does not want its hands tied and will not tolerate parental interference, but we are to accept the so-called authorities' opinions on this questionable subject of sex education in our schools. Is the educational hierarchy planning to usurp parental authority?

"Parental authority is God given,"—and it must be stressed that parents are responsible, under the law, for their minor children. The only authority the law has in regard to children is that of custody. It would now be wise for all parents to write letters at the beginning of the school year to the principal and superintendent admonishing that their children have only academic instruction and testing in just those subjects they are taking!

All concerned parents write to your own district representative to support Representative Richard Young of the 33rd District in his introduction next week of a resolution to nullify Section 789 A, B, C for Public Act 44. It will eliminate our present sex education law.

Do our children belong to the educators or the par-Do our children belong to the educators or the parents? Who bore the children, and who watched over them in infancy and stood by them in health and illness? Who feeds and clothes the children? Who pays the educators' salaries? Who pays for the educational plants? We, the taxpaying parents, who have done these things have the greatest right and certainly should have the first consideration as to what is taught in our schools. The school board members are our chosen representatives to see that we get our money's worth in the academic knowledge based on the traditional American ideals and values. based on the traditional American ideals and values.

As a mother of two Grosse Pointe High students, one a senior, I find much to be desired not only in the subject matter being taught, but in their whole educational program. The new proposed elective courses will only compound the problems that already exist in the high school's curriculum. It is apparent there is already too much, as the John Dewey advocates would call it, "relativism" in the high school curriculum and not enough "education in depth." Is all the great literature of recorded civilization suddenly going to take a second place to be radicals of their day, are dwelled upon in more than sufalists? (Will detection by deluded parents be less likely by this method of madness?)

My youngsters are not introduced to Rudyard Kipling, yet Thoreau and Emerson (transcendentalism), the radicals of their day, are dwelled upon in more than sufficient depth, while Esther Forbes' writings on Paul Revere and Colonial America, Thomas Paine's "Common Sense," Longfellow's "A Psalm of Life" and many other American heroes' manuscripts are by-passed in their toythest. The same tries of omission of the finest Amer. American heroes' manuscripts are by-passed in their textbooks. The same trick of omission of the finest American absolutes and the stressing of radical empiricism is also used in social studies, civics, and history classes to warp our children's knowledge of their wonderful American heritage. Could this be why the study of Latin is doing a fast-disappearing act from the high school's curriculum, and why the usage of more paper-backed publications is promoted rather than the custom of using well-evaluated bon fide American textbooks? Is "relativism" being accentuated to cover up the lack of progressin the student's work and the lowering of standards by the progressively permissive statist-orientated education. the progressively permissive statist-orientated educationthis method of madness?)

this method of madness?)

Thoreau's essay on "Civil Disobedience" seems to be the theme of the day. Every civilization has had certain positive standards and lasting values and ours is no exception; departure from its finest absolutes has caused the decline and fall of these great civilizations. Had the lost generations been taught to love their cultural heritage, they would have been inspired to preserve it, reaching untold dreams in place of the despotic dark ages that followed. The American school's first duty is to uphold and transmit these traditional values. As for relativism, any illiterate philistine can practice it and well does so; taking what he needs, if not through fraudulent welfare tactics, then by physical force—robbery, rape, or murder.

Far too many parents have abandoned their responsibilities for the training and guidance of their children because they have been coerced by the pressures of so-called educational groups and social agencies headed by psuedo-intellectuals with their quasi-professional line. Too many are led to believe that education is esoteric. Because of this great deception, the American parent, ever trusting, has been easily persuaded that he does not have the adequate knowledge and abilities to cope with a subject on such a supposedly high intellectual plateau, and the adequate knowledge and abilities to cope with a sub-ject on such a supposedly high intellectual plateau, and have merely taken the easier and more comfortable course provided them through default. Trustees Arnold Fuchs and Calvin Sandberg are the representative voices on our school board for the parents who rightly accept their inherent responsibilities of guiding and molding their children morally and intellectually.

eliminate our present sex education law.

I think it's time that all school board members be reminded what characterizes a good board members. In the "Michigan School Board Journal" of May, 1968 on pages 17 and 18 are found the do's and don't for a good board member and they "bear repeating" from month to month to keep all board members up on their toes as to their duties and responsibilities to the community. To he a good trustee on a school board "will require a high degree of maturity to examine the facts, keeping in focus the objectives for which you were elected—the education of the young people entrusted in your care." Mr. Fuchs realizes his "moral and ethical responsibilities" and has "courageously and impartially" discharged his functions, keeping in mind at all times, the greatest good to be gained for all our young people. He has had the courage to question and, at times, "to cast a minority vote." "Do not be a rubber stamp." "Don't play polities." TT TAKES CONSIDERABLE MATURITY AND EFFORT TO BE A GOOD MEMBER; one who cannot be "intimindated or dominated" by the whims of a John Dewey new social order-orientated administration, Finally, "do recognize that an effective board gives as much attention to the educational program embodied in the school curriculum as it does in the business operation of the district."

Trustee Arnold Fuchs is being very realistic and is conscientiously performing his duty in question and wanting to examine the books and subject material to be used in the vroposed courses. Children can be made mental crippies and moral misitis for life by foreign ideologies found in the many publications under the guise of modern literature. Books are written by provide and thus a book becomes an extension of the ideas and personality of its author. "A, book is no better than its author." There are many dangerous books that conceal subversion in high sounding principles, and attempt to enlist followers in the shool books and subject matter is in the hands of the school books and subject matter

away matches from a child's hands? Do we give our children containers filled with poison to be used in their

play rather than suitably designed toys? Would anyone hesitate to throw out a rotten apple from a box of sound apples for distribution to a group of youngsters?

In reply to criticism of his action in cancelling the scheduled appearance of three critics who would abolish the House Un-American Activities Committee, President N. G. Fawcett of Ohio State University, most realistically said: "Academic freedom is not designed to be the tool of its action of the product of the contraction." said: "Academic freedom is not designed to be the tool of its own destruction. Freedom must not destroy Freedom freedo dom in the name of Freedom. Freedom of speech does not license a trouble-maker to yell 'Fire' in a crowded theater. Neither does academic freedom create any obligation to provide a public forum for the expression of views of those who would destroy freedom."

those who would destroy freedom."

More than five thousand years of documented history has taught us that adults must be mature and selective to mold strong willed young people, who will be clean in mind and body, self-reliant, enterprising and productive with loyalties to the finest traditional ideals, therefore, preserving these principles and values for a lasting morally strong society. When the cultural and spiritual elements (the building blocks of civilization) are missing in education, society falls to the level of a sensate culture. Man's own base desires become the prime objective of his life. This obsession with the material and sensory level is apparent in his excessive desire for self-cratilevel is apparent in his excessive desire for self-grati-fication through sex, dope, liquor, gourmet foods, luxury,

OVER 30 YEARS EXPERIENCE

Any \$6,900 car makes you feel secure on a country club driveway. The Mercedes-Benz 280S makes you feel secure on a bustling turnpike.

Look underneath, and you'll begin to see why.

At Mercedes-Benz, engineers -not styling geniuses or marketing wizards have the upper hand.

And these stubborn purists insist that if a man can afford to invest \$6,900 in an automobile he is entitled to get more than a status symbol.

Result: the Mercedes_Benz 2805 at right bristles with sophisticated, ultra-performance features that simply do not exist on domestic sedans in the so-called "fine car" field. It steers, maneuvers and stops as if your life depended on it.

This is one reason why Car and Driver magazine, with a world of cars to choose from, concludes that the current Mercedes-Benz line "represents the present pinnacle in safe car engineering."

Racing car suspension

For a clue to the almost uncanny handling and evasive ability of the 2805, scrunch down and look beneath the rear bumper—at the axle. It's not the rigid "beam" axle of most domestic cars. It is articulated.

This Mercedes-Benz low-pivot swing axle permits each rear wheel to move up and down independently of the other, just as the front wheels do. The result is leech-like roadability.

If you know what you're looking for, you can also spot heavy-duty thrust arms, individual coil springs and shocks, and a horizontal hydropneumatic load-leveling device.

All in all, suspension ideas more common on 180-mph Grand Prix racing cars than 5-passenger sedans.

Engineering extravagance?

A passenger car doesn't need a suspension fit for a racer, argue some critics. True, reply Mercedes-Benz engineers. For everyday city driving, this is sheer engineering extravagance.

But some day you might have to get off the pavement, onto a stretch of potholed back road. You might have to enter a sharp curve or a turn-off faster than you intended. You might have to change course quickly while cruising at 65 mph on a busy turnpike.

And, suddenly, you realize that this engineering extravagance is no extravagance at all.

Sharp reflexes

Occasionally, it is also necessary for a 3,400-pound automobile hurtling along at high speed to stop

Of all cars in the "luxury class" field, the 280S is rated the safest, most roadworthy. Read why.

Once more, Mercedes-Benz engineers draw on their experience with World Champion racing machinery. They employ the more expensive, but clearly superior, type of brakes used almost universally on today's professional racing circuits.

Disc brakes.

The engineers don't stint, either -by putting disc brakes only at the front wheels, and settling for conventional drum brakes on the rear. They insist on attaching a massive calipertype disc brake to every wheel of every Mercedes-Benz.

Someday, doubtless, 4-wheel disc brakes will be offered on a domestic "luxury" car.

Accurate steering is vital for maximum control, too. In an emergency, you don't have time for a sweeping twirl of the wheel. The car must respond instantly.

The 280S does. Credit the ingenious Mercedes-Benz recirculatingball-type steering system. It eliminates sloppy play in the wheel-and blesses you with the "feel" of the road. Suddenly, you are a more confident driver.

Taut, sensitive steering is retained even with Mercedes-Benz power steering-characterized by Car and Driver as "unquestionably the most precise unit of its kind ever developed."

If trouble comes

The responsiveness which makes the 280S such a joy to drive is its best defense against blundering motorists. However, if the worst happens, the car is designed to shield you. Naturally, it meets all the U.S. safety regulations. But Mercedes-Benz safety goes beyond the letter of these laws.

The entire passenger compartment is built as a sturdy "safety zone." Doors are designed to stay shut on impact. The front and rear of the car are engineered to crumple in a crash at a controlled rate, absorbing shock and reducing the threat of serious injury.

"A fellow hit me when I was stopped at a toll booth," reports one Mercedes-Benz owner. "People in his car were hospitalized. But I just opened my door and stepped out."

Showroom experiments

The 280S is as habitable as it is roadworthy and safe.

Slip behind the wheel, and flex your back. This is no marshmailow seat. It supports you, hour after hour. It should: it was designed with help from orthopedic physicians. The springs inside are tuned to the car's suspension motions, cancelling out thousands of tiring vibrations every mile.

Check the rear shelf. Caroeted. Feel the underside of the dashboard. There's no spagnetti tangle of wires. It's fully finished off. Finger the wood trim-real walnut, not plastic.

Many cars are designed to win admiration for their owners. Mercedes-Benz cars are designed to win admiration from their owners. Quite a distinction.

No shortcuts

Your 280S is built with uncompromising care, to make it a lasting investment.

Every 280S begins life in a shower of sparks. It is not bolted into being, like a conventional car, but solidified by thousands of welds. After 50,000 miles or so, you may start to wonder if it will ever rattle.

When welding stops, the body is gone over by hand with a soft glove. Bumps and burrs are spotted and smoothed away. Vital seams are packed with solder and buffed to oblivion.

The body is then dunked in a 52-ton primer tank, baked, spraypainted, hand-sanded, sprayed again, then hand-sprayed. Total primer and paint rust protection: over 44 pounds. As a final flourish in its arma-

ment against road salt, rust and rot, the 2805 gets a 24-pound slathering of plasticized undercoating.

was para The overhead-cam, six-cylinder engine equals the coachwork for longevity. Bearings are delicately machined to within 4/10,000ths of an inch, and pistons and connecting rods are painstakingly matched and balanced. Yet this power plant is about as fragile as a bull. It's built to cruise flatout indefinitely—and, on Germany's wide-open autobahns, it often does.

An unconventional car? Defiantily so. Mercedes-Benz does not make conventional cars-and never will.

WINES AND CHAMPAGNES FROM ALL OVER THE WORLD We specialize in America's finest all leaf, and special imported CIGARS

I believe many different wines can be served with many different foods, but I don't believe any one wine is an all purpose wine. I believe wine drinking would be very dull if folks wouldn't spare a few minutes selecting and tasting different wines. Wine selecting is the part of the wine trade most folks only. If one wine trade most folks enjoy. If one wine is an all purpose wine, why would wines each naturally have their own fascinating colour, different bouquet, different taste, and different price. I believe there are hundreds of wines all different with hundreds of purposes, but no one wine an all purpose wine. Enjoy wine shopping at Gibb's World-Wide-Wines, our personnel are all qualified wine advisors, and will help you with your selections from our huge inventory, of the world's finest wines.

Athletic Banquet Stay Undefeated

St. Paul High School will hold an Athletic Banquet on May 28 for all the students who have participated in sports day by issuing Wyandotte a during the past school year, stunning 82-36 defeat and went The banquet will center around the Lakers' trip to Lansing to play for the State Championship in basketball and all the victories which led up to it.

There will be trophies given for the most valuable and the most improved player on each varsity team, football, basketball, swimming, softball and baseball. Also, there will be a irophy given to the Senior who is considered the "most outstanding athlete" of the school. These awards will be conferred on members of girls', as well as the boys', teams.

Devil Net Team Gets Two Wins

The Blue Devil tennis team ran their BCL record to 5-2 last week as they picked up league victories over Royal Oak Dondero, 4-3, and Highland Park, 7-0. The team also com-peted in last weekend's GPUS Invitational Tournament in a field of eight schools.

The decision in the match with the Acorns hinged on the No. 3 doubles match and Coach Donald Zysk gave credit to underclassmen John Howard and Scott Feringa, who were able to win in three sets, 4-6, 6-4, 6-3. Other Devil winners were John Williams who took a close 6-4, 6-4 match, and John Van Lockeran, who won 6-4, 6-3 in the No. 4 singles match, and John Eckenrode and Gene Turnbull, who breezed to a 6-1, 6-0 doubles victory.

Against Highland Park Thursday, the Devils had little BCL championship. they beat them 7-0 for the second time this season. Terry Crockatt (6-4, 6-1), John Wil-liams (6-3, 6-1), Kevin Drean (6-0, 6-0), and Tom Van Lockeran (6-0, 6-4), all won singles matches. In the doubles competition Eckenrode and Turnbull won 6-1, 6-1 in addition to victories by Gary Highes and John Miller (6-1, 6-4), and John How-ard and Scott Feringa (6-2,

In the rain-soaked Invitational held on Friday and Satur-day, the Devils finished in seventh place.

The tournament was won by Dearborn and although Coach Zysz said, "It would have been nice to win," he did not place too much importance on the mainly a warmup for the re-gionals," he said. Mr. Zyak also pointed out that because some of the matches were played like ping-pong games (five serves, 21 points, etc.), the finish of the teams was unrealistic:

After the Devils play their final match of the season against Monroe on Thursday, Grosse Pointe will host the Regional Tournament on Friday and Sat-

Burglars Repeat **Previous Theft**

In a repeat of a similar offense just a few weeks ago, Grosse Pointe Plymouth, 15401 E. Jefferson, was broken into sometime between 10:30 p.m. on Tuesday, May 13, and 12:30 a.m. the following morning.

A side window was broken and the burglars apparently crawled through it to make good their entry into the building.

The thieves loaded two mechanics' tool boxes and a sander into either one or all of three new cars, opened the overliad door and drove away all three of the cars.

One of the stolen cars has since been recovered.

A modest lady is Mrs. Howard Reed, of McKinley avenue, who happens to be one of our Favorite People, but THIS TIME she's accomplished something so remarkable she can't escape our public recognition.

Mrs. Reed's color slide program, "Birds of North America," has been judged the Best Patriotic Colored Slide Program of the Year by the National Society Daughters of the American Revolution, and her DAR Chapter, Elizabeth Cass, has received a DAR Continental Congress Award Certificate in recognition of her achievement.

Mrs. Reed "backed into" her project via a collection of Birds of Michigan slides she borrowed from the Audubon Society. Struck by the beauty and variety of the slides, she noted they had been taken by a gentlman named Perry J. Reynolds who distributed them in memory of his wife.

So she wrote Mr. Reynolds, asking for "extras"...

Pharmacy Topics

If you're a scuba diver, don't go near Australian shores. The blue-ringed octupus, the only octupus known to be poisonous, is there. Death's sting may take effect within an hour.

Among poisoning agents encountered by children under 5, plants rank sixth. Last year 15,000 persons were victims of poisonous plants, and in the past decade there have been over 750 deaths.

In the last five years the percentage spent on drugs as part of medical care has fallen from 18.5% to 16.2%.

If you smoke more than two packs a day, you are a heavy smoker, and your life expectancy is eight years less than nonsmoker's, according to a recent Health, Education and Welfare report.

Many drugs, whether prescribed or bought over the counter, slow one's reflexes. Check with physician or pharmacist whether any medication you are taking has, this effect. (Especially important to drivers.)

Healthorama to accurately determine height and weight. Because weight is related to many diseases, studies reveal men and women live longer if an approximately ideal weight is maintained.

A blood sugar test will be offered to detect diabetes, a disease for which there is still no known cure but one which can be controlled through proper treatment.

Should the screening test reflect an increased amount of sugar in the blood, the individual should consult his physician immediately for the condition could indicate the presence or

onset of diabetes. For the most meaningful results, the test should be administered approximately two hours following a regular meal. Those planning to undergo the Healthorama test should eat a full meal immediately before leav-

To The Grosse Pointe Public:

Whether buying or selling real property, you need the services of a Realtor.

In creating a real estate deal, Realtor supervision offers wide contacts between buyers and sellers, practical guidance on appraising and pricing of property, and the arranging of finencial details.

Most important of all, the Realtor provides the skilled, informed third party needed to bring to agreement two minds whose interests are naturally divergent.

Not all real estate brokers are "Realtors," but only active members of constituent Boards of the National Association of Real Estate Boards.

PURDY & EDGAR'S space spectacular is this new listing on Washington Road in the City. This six bedroom house with large hallways on

both the first and second floors, spreads across two lots in the block between St. Paul and Kercheval. If you believe the prices of six bedroom houses are astronomical, then we think you'll be pleased with the down to earth tag on this one. ORBIT ONCE around the block

to Lincoln Road where you'll thank your heavenly stars you checked in at this three bedroom colonial with two baths on the second floor. The master bedroom has a fireplace and the kitchen is really out of this

HOW YA EVER gonna have a dream come true if you don't reach for the moon. A price reduction this week makes the dream much easier to attain, \$62,000 will launch you into the house you probably thought didn't exist. Tucked away on a cul-de-sac in the Farms, is a masterpiece of contractor and decorator combining the best of every thing in single story living. We have even provided a swimming pool for you to splash down in.

UP UP AND AWAY are the prices of other houses in this category, but we know of no other three bedroom colonial with a first floor lavatory, library and revamped kitchen which is listed below \$35. 000. We can show you many others for more money, but here you can settle . . . for

A STORY and a half on Mt. Vernon is sure to light up your eyes if you desire first floor bedrooms and a large dormitory on the second floor. That all important family room is a feature which should not be overlooked. This one has been approved for an FHA loan, and that fact alone will take the guest work out of your financing problem.

THIS NEW offering is a single family house on Bishop Road at Mack Avenue. Zoning permits the residence may be used as a doctor's dentist's office which could mean the professional man could partially depreciate his home using it for business purposes. Better call for details.

A CENTER entrance colonial in the Farms boasting three bedrooms on the second floor and two bathrooms. The master bedroom has a fireplace and immense bath. There is a fourth bedroom on the first floor and full bath. A block from the lake and the Pier Park.

OUR SPACE scientists and real estate professionals have shown us that what goes up doesn't necessarily have to come down. Many a young man has grown old waiting for prices to come down. It is only a matter of time before interest rates and building costs will jump again, so we suggest you take a serious look at some of our many offerings today. A few of these houses currently have comparatively low interest bearing mortgages which may be assumed. In other cases the present owner could be interested in taking a land contract to make a deal in the near future. Why put off buying until a few years from now. We may have to tell you, "Yes, we had a house in your price range, but we sold it back in 1969.

CITY OF Grosse Pointe

NOTICE OF PUBLIC HEARING Notice is hereby given in accordance with the provisions of Act No. 207 of the Public Acts of the State of Michigan for the Year 1921, as amended, and in accordance with Sec. 5.187 of Grosse Pointe City Code that a Public Hearing will be held on Tuesday, June 10, 1969 at 8:00 P.M. E.S.T. at the Maire School Gymnasium, 740 Cadieux Rd., in the City of Grosse Pointe, Wayne County, Michigan, pursuant to request of Sisters of Bon Secours Hospital, concerning the following proposed amendments to the Zoning Ordinance of the City of Grosse Pointe, en-

acted February 20, 1967, as amended: 1. Amend the Zoning Map of the City of Grosse Points to show R-T, Terrace District where R-1B, Single Family, Residential District now exists for property described as land bounded by Cadieux Road, the south right-of-way line of Caroline, Notre Dame and Maumee Avenues, more commonly known as the present site of Bon Secours Hospital.

2. Amend the Zoning Map of the City of Grosse Pointe to show P-1, Vehicular Parking District where R-1B. Single

Family Residential District now exists for property described as: That part of lot 8 and part of Widow's Dower of plat of Private Claim 508 and East 1/2 of Private Claim 564, according to the plat thereof in partition of the Estate of Michael Cadieux, deceased, as recorded in Liber 118 of Deeds, page 520, Wayne County Records, more commonly known as property between a line parallel to and 163 feet north of the north right-of-way line of East Jefferson Avenue and the south right-of-way line of Caro-

line Avenue, and between the rear lot lines of property fronting upon Cadieux Road and Notre Danie Avenue. 3. Amend Section 5.158 to read as follows: "5.158. Statement of Purpose. The Vehicular Parking District is intended to permit the establishment of areas to be used for off-street vehicular parking of private cars, so as to serve land uses permitted in the R-T, RO-1, C-1 and C-2 Districts. This District is also designed to afford maximum protection to adjacent residential areas by providing landscaped setbacks, fences, and well-designed parking lot facilities. It is also introded that this District act as a transitional area between land uses permitted in the R-T, RO-1, C-1 and C-2 Districts, and Single Family Residential Areas, thereby permitting private developers as well as public agencies to provide needed

off-street parking.' 4. Amend Section 5.160 (4) to read as follows: "(4) No buildings other than a structure for the parking of passenger motor vehicles or for shelter of attendants shall be erected upon the premises, and no such structure shall exceed twenty (20) feet in height, except as provided in Section 5.32, Re-P-1 District, when adjacent to residentially-zoned property, shall not be less than the height of the structure along said lot line. (See also Section 5.165). Such structures may contain mechanical equipment such as boilers, water chillers, pumps, and meters designed to serve the principal building and accessory buildings which the parking facility services, provided the same are an integral part of the parking structure and shall be approved by the Board of

Zoning Appeals," 5. Amend Section 5.161 to read as follows. "5.161 Location. All P-1 Districts shall be contiguous to a R-T District, RO-1 District, C-1 District, or a C-2 District. In all cases, lots which are used for parking shall be the adjacent successive lots from the R-T District, RO-1 District, C-1 District, or C-2

Special congratulations . . . to a pair of truly exceptional Pointe students: John A. Kendall, selected by faculty vote after nomination by senior classmates on the basis of scholarship, leadership and character as Hillsdale College's Outstanding Senior Man; and Henry M. Campbell, IV, recently elected president of the student governing body at Northern Michigan University John, the son of Mr. and Mrs. John B. Kendall, of Ballantyne road, is a Political Science major who's done just about everything there is to do at Hillsdale, from service as a Student Guide through membership in the national honoraries Epsilon Delta Alpha and Omicron Delta Kappa—and the college hockey team . . "Harry," son of Mr. and Mrs. Henry M. Campbell, III, of Kenwood road, is a junior English major who, defeated last year for the presidency of the Associated Students of (NMU), this year turned back bids by three other contestants as he received 857 votes out of 1,824 cast in

AND special congratulations, too . . . to Clete L Boyle, of Greenbrier lane, honored at a dinner meeting last month on his 50th anniversary as a member of the American Chemical Society . . . Mr. Boyle, a very successful businessman, is also a member of the American Institute of Chemical Engineers, the American Institute of Chemists, the Society of Automotive Engineers, the American Society for Metals, the American Society for Testing Materials and the British Iron and Steel Institute and has had numerous patents granted him in the United States, Canada, England, France and Italy . . . He's also the only local gentleman we know who's made FOUR holes-in-one!-two in Michigan and one each in California and Arizona, (among his social affiliations is honorary life membership in the Gowanie Country Club of Mount Clemens, where he has served two terms as president and been golf champion four times).

"Quiet on the set . . . Roll 'em . . . ACTION" No, we haven't made a mistake; we're not about to run our April 3 "Whoozit" column over again . . . Yes, we DID start that April 3 column with exactly the same words we're starting this one, but four weeks ago we were leading into a story about a boy who grew up in Grosse Pointe, joined the Navy and suddenly found school called Grosse Pointe dames Edward J. Hickey, T.W. himself ACTING in a film being shot near his base in The Philippines . . . This week, we focus on a DIRECTOR, Kay Charles Jameson, son of Dr. Marshall C. Summer Promises . . . to be romantic as well as comfortable with forecast fashions from Walton-Pierce. An entertaining idea is a lemon twist crepe, cut in a long graceful spicy culotte, iced with white beads. For fun, Lilly's breeze-light frosted print harem culotte shows shadow shaping. Take your dip, fashionably, in the new easy-moving, freedom-loving, great-to-wear and slit-to-their swim dress... over bikini pants.

Spring-Summer Message . . . There are three important silhouettes for hair . . . the Chanel and the chignon, long, long hair and plaits, either as a simple accessory or an entire head. Crowns are smooth, the top of the head has rounded flatness, following the contour rather than an exaggerated shape.
