

FARMS VOTERS OK PROPOSALS

HEADLINES of the WEEK As Compiled by the Grosse Pointe News

Thursday, April 1
PRESIDENT NIXON Wednesday asked the Senate and House Armed Services committees to approve the first in a series of nationwide moves to transfer billions of dollars worth of federally owned land to state and local governments for recreational and other public uses. Mr. Nixon said he has directed the secretary of defense to offer six miles of California's most valuable beach — front, now part of the Marine base at Camp Pendleton, adjoining the San Clemente White House property, to the state.

Friday, April 2
LIEUTENANT WILLIAM L. CALLEY, ordered freed from the stockade by President Nixon while awaiting review of his murder conviction, strode out of the Fort Benning stockade Wednesday night to the cheers of his admirers. Calley, convicted of killing 22 Vietnamese civilians at My Lai, left the stockade at 7:56 p.m. after being confined to a cell since the verdict was returned Monday. Calley was confined to Fort Benning. Authorities said he was free to come and go at will within the confines of the post, with a guard accompanying him at all times and sharing his apartment in Bachelor Officers' Quarters.

A SUNKEN GERMAN SUBMARINE which apparently has drifted under water nearly 30 years and 400 miles reportedly is threatening the West Florida coast near Tampa Bay with a deadly cargo of mercury and munitions, according to federal officials. The vessel is believed to contain nearly 200 tons of mercury, a potent contaminant, and explosives including TNT, torpedoes and other armaments. It was sunk near New Orleans in 1942.

Saturday, April 3
COLONEL ORAN K. HENDERSON, 50, is the third war hero formally accused of covering up the My Lai massacre, a charge that could lead to six years and three months at hard labor, forfeiture of pay and allowances and dismissal from the Army. Henderson is a veteran of three wars and holds five Silver Stars, five Bronze Stars and four Purple Hearts. He was the commanding officer on March 16, 1968, of the 11th Infantry Brigade in Vietnam. Lt. William Calley, convicted of murdering Vietnamese civilians at My Lai on that day, was assigned to the 11th Brigade.

Sunday, April 4
PRESIDENT NIXON announced Saturday he would personally review the murder conviction of Lieutenant William L. Calley, Jr. and make the final judgment on his sentence. Nixon acted after an unprecedented outpouring of public sentiment in behalf of the 27-year-old infantry officer who was sentenced to life imprisonment for the murder of 22 Vietnamese civilians at My Lai.

ROBERT F. MARASCO, one of the eight Green Berets who were charged but never tried in the slaying two years ago of a South Vietnamese suspected to have been a double agent, says that he shot and killed the man on "oblique yet very, very, clear orders" from the Central Intelligence Agency. "He was my agent and it was my responsibility to eliminate him with extreme prejudice," Marasco said. "Eliminate with extreme prejudice" is the Special Forces' euphemism for a killing.

Monday, April 5
A NEW GROUP of aging poor may be in the making among men from 55 to 59 who are being eased out of the labor force, a Senate committee warned Sunday. Many of these men, unable to find a second job, are taking Social Security benefits at age 60, signaling "acceptance of a life of poverty in old age," according to the Senate's Special Committee on Aging.

CFE Selects School Board Candidates

Members Will Support William Huetteman and Robert Warner for Election on June 14

The membership of Grosse Pointe Citizens for Education voted last week to support William F. Huetteman and Robert D. Warner in their bids for election to the Grosse Pointe Board of Education on Monday, June 14.

Following interviews by the 90-member CFE Candidate Evaluation Committee, the men were chosen by secret ballot and recommended to the general membership.

Huetteman is 38 years old and lives with his wife Laura and four children in 859 Sunningdale drive. He is a partner in Chase and Huetteman, attorneys at law, and is currently serving as Grosse Pointe Woods councilman.

Warner is 36 years old and lives with his wife Jayne and two children at 365 McKinley avenue. He is a department manager in the Ford Motor Credit Company, the finance subsidiary of Ford Motor Company.

Easter Inspires Children To Express Their Feelings Through Poetic Production

Elementary School Students Also Turn Out Manual Creations in Anticipation of Holiday and Annual Spring Vacation

Pointe elementary students have been busy writing Easter poetry, making Easter baskets, anticipating spring and of course, the vacation that goes along with it. Over at Maire Elementary School some talented poets have permitted us to share with our readers their Easter thoughts.

First grader, Maria Spada, of Mrs. Roger Southworth's class writes: *Mr. Bunny goes hop, hop, hop. While his ears go flop, flop, flop.* *That's why he's so very funny, And why we call him Mr. Bunny.*

Second grader from Helen Zissis' class, Eric Steinhauer and Nathan Morrow also address their Easter efforts to the bunny. We'll bet Eric was watching the "real live" bunny in the kindergarten classroom when he wrote about "The Botherly Rabbit": *Pop can hop— He's a bunny that likes honey. He's a rabbit with a habit. He's a very rare hare. He's a father, he's a boss. He eats eggs and he begs. He eats all the bumps. He eats all the bees. But . . . he's nice when you get to know him!*

You sound as if you're pretty nice yourself, Eric! Nathan tells us "Things Bunnies Do": *There's a bunny in the field painting colored eggs, There's a bunny in a patch dyeing colored grass, There's a bunny on a bench*

sewing a colored Easter basket, There's a bunny with a pot making chocolate Easter goodies, There are bunnies with their chief making Easter presents for me and you! Fifth grader thoughts of Easter go a bit beyond the Easter bunny. Jeff North, of Mrs. Richard Beyrle's class, writes of "Easter": *When the flowers sprout from the earth We all remember the second birth. At the church we sing and pray. Yes, we remember on this day, Margaret Brooks, also a student of Mrs. Beyrle's, writes of "Easter Eggs": *Eggs in yellows and pink . . . It all makes you think That the poor Mommy Bunny Must have had a fright All during the previous night.**

Boat Owners Denied Extra Privileges

Petition for Permission to Have More Non-Resident Guests Voted Down by Woods Council

Summertime is fast approaching and it won't be long before people will be spending more time in the "Great Outdoors." Woods residents are among those who will soon be enjoying long and blissful days under the sun at their municipal park on Jefferson.

There is one group however, that will not be enjoying itself as much as it had hoped. At a recent Woods council meeting, boat owners at the park were denied the privilege of bringing extra guests to their boats over and above the number of guests usually allotted to each card holder.

The Grosse Pointe Woods Boat Club petitioned the council for 12 additional guest privileges for every adult resident over 21 years of age who has been assigned a boat well at the lakefront park.

Would Limit Privileges The boat owners offered to make concessions and binding limitations on themselves to prevent impositions on residents who did not own a boat and would only have the usual 10 guest allowances for the summer.

The stipulations were: a) Boat owners must sign in boat guests at the front gate; b) Admittance of boat guests to the park must be with the registered boat owner only; and c) The only park facilities to be used would be the assigned boat well and the rest room facilities. No other facilities would be used including the swimming pool, tennis courts, picnic tables and shuffleboard courts.

Showdown Asked On Old School Finance Hassle

Board of Education Business Director Ray MacArthur Demands Final Answer to Accusations of Trustee Semmler

By Pepper Whitelaw
Over 600 persons attended the regular meeting of the Board of Education on Monday, April 5, at which time they witnessed a heated discussion as to the number of financial books kept by the school system. The question was initially raised some months ago by trustee Donald Semmler and has been alluded to, and openly discussed at practically every board meeting since then.

The subject was raised again Monday evening when Charles F. Woodbury, Jr., chairman of the recent millage election campaign, questioned Calvin Sandberg regarding statements he said Mr. Sandberg made to him last December, stating he believed two sets of books existed. There followed a lengthy discussion in which Mr. Sandberg, and Trustees Semmler, Arnold Fuchs and William Adams and Ray MacArthur, director of business and finance participated.

Brought to a Head The matter was brought to a head when Mr. MacArthur said he had heard the system has two and maybe three sets of books for a long time, and that to settle the matter once and for all, the Board requested some months ago that a meeting be held with the auditing firm, Arthur Young and Company, to whom Mr. MacArthur said the system pays some \$11,000 per year for a comprehensive 70-page report. Mr. MacArthur said the auditors did come out at the Board's request and spent one evening describing their work, the system's set of books, describing how accurate and inaccurate the system's records are. He went on to say "our bookkeeping procedures have been confirmed by the Intermediate School District and by the State Board of Education." He concluded by saying, "I challenge this Board of Education to ask our auditing firm specifically how many sets of books we have. Madame president, I expect an answer on this!"

Lee Allen, board treasurer, agreed to take the responsibility of getting the answer in written form from the auditors to present to the board.

Burglar Visits Home in Woods

A Woods resident returned home in the early evening Monday, March 29, to find her house burglarized and several stock certificates and bonds and miscellaneous other items.

Cecelia Ellis, 1261 Fairholme, had been absent from the home since mid-afternoon and discovered the garage door and the rear door open when she returned at 8:45 p.m.

Besides the missing stock certificates, 10 to 20 silver dollars had been taken, as well as a ring priced at \$50, a radio-record player worth \$150, and a walkie talkie valued at \$100.

Brothers Jailed 60 Days For Assaulting Policemen

Two brothers, John W. Wright, 19, and Frank J., 18, both of 5512 Lenox, Detroit, were each sentenced to 60 days in the Wayne County Jail by Park Municipal Judge William E. Speer on Wednesday, March 31. They were convicted of assaulting two Park police officers who stopped them for questioning.

Judge Speer accepted a plea of guilty from John, but refused a similar plea from Frank because of Frank's hostile and offensive attitude in court. The judge ordered the youth to stand trial and found him guilty as charged after hearing testimony in the matter.

Electors Pick Four to Serve On Council

Three Incumbents, Newcomer Elected; Proposals Approved by Substantial Margins

Farms voters retained three incumbents on the city council and elected a newcomer who defeated a fourth incumbent, at a regular election held on Monday, April 5. The electors approved four amendments to the City Charter by substantial margins.

Center Drive Gets \$29,000 In Fast Start

Donations Received from 1,800 Families in First Days of Annual Family Campaign

Grosse Pointe War Memorial Center's 22nd Annual Family Participation Campaign has gotten off to a good start. To date, \$29,000 has been received from 1,800 families. \$90,000 is the amount needed to cover estimated maintenance expenses for the ensuing fiscal year beginning August 1.

This is just one-quarter of the Center's total budget. The Memorial earns the remainder three-quarters of its expenses covering all activities including many services and events which are offered free to the Grosse Pointe public. The Center is asking no more than it received last year in spite of continuing rising costs.

The beautiful lake shore property and handsome buildings of Grosse Pointe War Memorial were outright gifts to the Grosse Pointe Communities by the Russell Alger family and William Hayes Fries.

No tax monies or United Foundation funds are received by the Center. It asks only for income tax deductible gifts in whatever amount Grosse Pointe families consider the Center merits and they can afford.

This very active civic center offers something for every citizen from tot to senior, and houses a host of community groups and activities. The Center never stops serving. It is open day and night except Sunday evening when it is frequently open for special occasions, too.

All gifts to the Center are truly greatly appreciated. At this time the Center wishes to thank the many citizens who responded to the Center's drive so promptly. Space does not permit printing all the names at this time but it is hoped future issues of the News will catch up with the donors. Among the early donors are—

Boy Finds \$100; Honesty Praised

Joseph Addison, 12, of 817 Lakepointe, was complimented by Park police for his honesty on Wednesday, March 31, when he personally took \$100 in currency, which he had found, to the station.

Joseph told police that he had found the money, five \$20 bills, laying loose on the sidewalk in the 900 block of Nottingham. He had no thought of keeping the \$100, but promptly turned it over to the authorities.

The money was claimed by Mrs. Sandra Lee Murphy of 1017 Beaconsfield, who reported that she had lost the cash. It was returned to her when she told the authorities the exact amount that was lost, how many bills and their denomination, and the approximate location where she had apparently dropped the \$100.

Woods Joins Other Pointes In Fight for Bus Service

By Greg Boyd
The City of Grosse Pointe Woods, hoping that their action will not be "the kiss that started the marriage," as one councilman put it, voted to pass the resolution presented to it by the South-eastern Michigan Transportation Authority (SEMATA) to keep the Lake Shore Bus Line going, but added a stipulation in the process, at their regular meeting Monday, April 5.

The proposal from SEMATA has now been accepted by all the Pointes and St. Clair Shores with at least three Pointe administrations voting to accept only on one or more prescribed conditions. A special hearing to air the proposal and the respective conditions by each municipality is scheduled for today, Thursday, April 8, before the Michigan Public Service Commission in Lansing.

Burglars Break Into Park Home

The burglar, or burglars, who broke into the home of Mr. and Mrs. Walter Zentgrebe, 829 Westchester, failed to enter through the front door after breaking the door glass, but made a successful entry through the rear door of the sun porch.

The Zentgrebes said they had been absent from home over the weekend of March 27-29, and on returning after midnight, discovered that two second floor bedrooms had been searched.

Two brothers, John W. Wright, 19, and Frank J., 18, both of 5512 Lenox, Detroit, were each sentenced to 60 days in the Wayne County Jail by Park Municipal Judge William E. Speer on Wednesday, March 31. They were convicted of assaulting two Park police officers who stopped them for questioning.

Bus Proposal Approved

(Continued from Page 1)

for the buses one year after the date of delivery. If the payments cannot be made during the period each municipality will finance the purchase according to a certain percentage and title to the buses will go to The Pointes.

A question raised by Councilman George Freeman as to what will happen if Lake Shore folds even before they begin payments resulted in one "escape clause." It was brought up that Detroit will legally retain title to the buses, since the municipalities cannot demand title until after the first year, and may hypothetically lease them in "Kalamazoo or River Rouge" until the end of the first year when the Pointes will begin payments.

Councilman William Huette-man, who strongly favored acceptance of the proposal, said the city can demand any number of provisions in order to protect itself. He proposed that, in the event the busline folds before the end of the first year, the 10 buses be required to be driven only in The Pointes and St. Clair Shores or responsibility of the buses will revert back to Detroit.

Two other stipulations agreed on by the council prior to acceptance of the proposal were that the city not be committed to anything else but the 27.5 percent, or \$4,675, and that it have the option to demand public sale of the buses if the scheme fails. If SEMTA does find itself unable to make payments, each municipality may find itself owning only a fractional percentage of each bus.

Huette-man also referred to the "public posture" of the Woods if the city attended the hearing in Lansing without approving the proposal. The Woods would have been the only municipality not to have approved. Huette-man recommended approval to show the city's good faith and prevent Lake Shore Coach from claiming that Grosse Pointe Woods refuses to cooperate in efforts to keep the line going.

Councilman Marvin Boutin,

acting as mayor pro tem in Mayor Kenneth McLeod's absence, agreed, "I think we would put ourselves in an untenable position by turning this down tonight," he said. He suggested that the possibility remains that the city may even be able to make a profit on the buses if they end up with the title, but even if the Woods loses \$1,000, "it will be \$1,000 well spent to show the good intent of the city."

The council voted to accept the proposal over the "no" votes of Councilmen Benjamin Pinkos and Conrad Neagel. Pinkos said he thought the city should wait until after the hearing and that a "yes" vote would make it appear as if the city endorses SEMTA. Boutin said the city must try to provide bus service for its residents and referred to SEMTA as a "necessary evil."

With each municipality passing the proposal, there remains one point that may prove to be a major roadblock to the bus service. Some municipalities, specifically the City, Shores, and Park have said that they will go along with the proposal only on the contingency that Lake Shore be required to operate at least until January 1, 1972, rather than the specified date of July 1, 1971. Under present conditions, the bus officials are almost certain to oppose an order making it imperative that they operate an extra six months if they find the operation not financially feasible.

Movie Council Sponsors Show

Man lost in space is the theme of the movie "Marooned," starring Gregory Peck, which will be the Easter matinee presented by the Grosse Pointe Motion Picture & TV Council, on Wednesday, April 14, at the Esquire Theater.

Two shows are scheduled, one at 12 o'clock and another at 2:30 o'clock. All seats are 75 cents. Tickets may be had by calling Mrs. M. Declercq at 882-4296, or at the box office on that day beginning at 11:15 a.m. This adventure of space exploration appeals to all age groups, and is rated G.

The Council makes good features available to the children of the community at this time each year.

Parents are advised by the Council to check film ratings and content, before permitting their children to attend movies.

According to the council president, Mrs. Edward F. Kliber, industry ratings are not always reliable. They are rated G for general audience; GP—general with parental consent (for mature); R—restricted to those under 18 unless accompanied by parent; X—restricted to those under 18. Contrary to popular belief, GP does not mean general public. Enforcement of the code is voluntary on the part of the theater management, and frequently, those under 18 are not challenged. Know what movies your children are seeing!

The Grosse Pointe Council publishes bulletins monthly, summarizing content of motion pictures showing in our area. They are distributed through schools and libraries. Further information may be had by contacting the council president (885-0537) or Mrs. George Gerow, movie chairman (885-8232).

the park with their non-resident friends."

He said he was happy to make the recommendation in the past because it worked out well in that the residents were given expanded privileges without increased cost or decreased efficiency. But he figured extra passes for the boaters would be too much.

Would Swell Attendance

With 230 dock renters receiving 12 additional guest privileges, park attendance could go up an additional 2,760 people, the entire population of Grosse Pointe Shores, Hallmann says.

"This would establish a precedent that could be used by purchasers of seasonal boat launching permits," he said. "Such thinking is only natural and human. We also feel that tennis players would feel that, if such an opportunity is to be given to the guests of boat owners, why should it be denied the guests of tennis players?"

Hallmann also said the supervisory personnel would have to be increased. There would be need for an extra gateman, and the staff of the park patrol would have to be increased to make sure the guests use only the boat facilities.

"Vastly increased surveillance . . ." Hallmann said, "could do much to harm our relations with non-boat owning residents." Hallmann recommended denial on the basis that the park is operating at very near capacity right now, and granting the passes would be a precedent that could be discriminatory to the majority of residents.

After a short discussion, the council voted unanimously to reject the request.

School Board Lists Drastic Cuts; 105 Fewer Teachers

By Pepper Whitelaw
 The Board of Education on Monday, April 5, approved the recommendations of Superintendent Theos I. Anderson, based on studies and consultations with school administrators to regrettably terminate, effective as of the end of the school day, Friday, June 18, the services of some 76 teachers.

Dr. Anderson said the dismissals are reductions in staff necessitated by the fact that limited operating funds are available to the district in 1971-72. He further recommended that the secretary of the board of education, William Adams, notify each of the teachers of the board's action by April 18.

He added that an additional 29 staff members who have resigned, retired or otherwise left represent yet a further reduction of the professional staff planned for 1971-72. The vote was 4-2 with president Barbara R. Thompson, William J. Adams, secretary, Lee H. Allen, treasurer, Alfred R. Glancy, Jr., voting yes, and Arnold P. Fuchs, vice-president, Donald J. Semmler voting no, and Calvin J. Sandberg abstaining.

Dr. Anderson indicated that the administration must reduce expenditures by \$1,900,000 for the 1971-72 school year. The recommended personnel reductions, (of \$987,000) include 75 classroom teachers, eight members of the Department of Pupil Personnel, five plant personnel, three administrators, 10 office workers and public library personnel.

This recommendation, according to Dr. Anderson incorporates a reduction of 24 professionals in the elementary schools, 20 professionals in the high schools, and 13 professionals in the high schools and will result in an increase in the ratio of two pupils per classroom teacher based on the best estimates of enrollment for 1971-72. He added that the staff members should bear in mind that this proposal includes the use of some 40 lay supervisors in non-instructional capacities next year at the secondary level.

He said a total of \$429,000 in suggested reduction in non-personnel items includes cuts in allowances for extra pay for extra duty, curriculum development, student cooperative programs, instructional supplies, courses and workshops, educational travel, educational consultants, publications, staff health examinations, contrac-

Suspected Drug Found on Youth

Woods police, acting on information obtained from an alert highway department employee, found a North High student carrying suspected marijuana Thursday, April 1.

The youth was arrested by Patrolman Ronald Hayden after a field search revealed that he was carrying a hand rolled cigaret in a small box. Police also found he had cigarette papers and a device usually used for smoking marijuana cigarettes in his entirety.

The student who had been walking with two friends along Vernier just before 9 a.m. was told by police before the search that he was suspected of carrying narcotics. Police also said they thought the three were truants from school.

Officer Hayden had originally been on routine patrol near Vernier when he was stopped by the highway employee who said he saw the boy receive a clear plastic bag containing a brownish substance from an adult male in a car at Wedgewood and Vernier. The employee said he thought it was narcotics and pointed out the particular boy to the patrolman.

He was taken to the station and eventually released to his step father, while the other two were taken back to the school.

Brys Residents Object to Buses

Residents of Brys drive in the Woods, disturbed over the route of the Lake Shore Coach Line down their street, petitioned the Woods City Council at their regular meeting of Monday, April 5 to prohibit the busline from operating down Brys between Mack and Marter.

In the petition, signed by over 90 resident homeowners, arguments against the busline were expressed. "The buses seldom travel at speeds at or below 25 miles-per-hour, the legal speed, are noisy, emit repulsive and intoxicating exhausts and are usually void of passengers," the statement read. "We get less for the sale of our houses, which normally take longer to sell, and yet pay the same property taxes as comparable houses on surrounding streets without a busline."

"For the health and welfare of the community and its children, the busline should not be allowed to operate on this strictly residential street, which is a side street and not a main thoroughfare." The petition suggested that as an alternative route, the buses could continue on Marter to Parkway and turn around on the city owned property and then return on Marter to Lakeshore and then turn around and take Marter back to Vernier.

If it would continue on Marter to Lakeshore, the petition claimed, the line would not only serve all of the Woods, but it would serve a great number of residents in St. Clair Shores and thereby increase its revenue but not its expenses.

Using any of these new routes, the residents claimed that any passenger would have no more than one-and-a-half blocks to walk to his home.

The residents' major objection revolved around concern for safety of their children. The petition noted that in 108 of the households on Brys there are 120 children under the age of 18.

Children will be included in the 9:15 service by the pastor, Perry A. Thomas. Learn to expect the unexpected — always drive with care.

The Detroit Area Council of the Boy Scouts of America, Lakeshore District, recently extended congratulations to Mason School Pack 290 Cub Scouts and their parents for being the first unit in the district to respond to the recent financial drive. Earth Week Set For April 18-24
Governor William G. Milliken has announced he is proclaiming April 18-24 as Earth Week in Michigan. A Governor's Conference on the environment will be held at the Lansing Civic Center on Monday, April 19.
In a letter to Representative William Bryant, Grosse Pointe, the Governor announced the conference and invited Representative Bryant and all interested persons in the community to attend.
The conference will be held on April 19, from 1:00 to 4:00 p.m. The theme will be "Earth Week 71, a Report to the People."
There will be presentations by state agencies as to program and policy, a major address by a nationally known expert and a panel discussion by top state administrators.

Curriculum Guides Given For Drug Abuse Courses

By Pepper Whitelaw
Pointer James H. Dingeman, Parke-Davis vice-president, recently presented curriculum guides for teaching drug abuse courses from kindergarten through high school, to some 550 school districts throughout the state, through Dr. E. J. McClendon, assistant superintendent for health affairs in the Michigan Department of Education. The Grosse Pointe Public School System was one of these school districts.

In making the presentation, Mr. Dingeman said, "As private citizens, we are deeply concerned with the problem of drug abuse and as manufacturers of ethical prescription drug products, we are particularly aware of the need for education in the correct use of drugs. We hope this contribution will assist young people to understand its importance."

The NEWS contacted Roger McCaig, curriculum associate in the Grosse Pointe Public School System's Department of Instruction, who said, "I consider this guide, 'Teaching About Drugs,' the most comprehensive resource presently available to schools in developing their drug abuse programs. We have recommended it highly to other school systems. Our own department of instruction has used it as a basic resource in planning our new Kindergarten through sixth grade curriculum which takes a preventive approach to the misuse of drugs."

The guide was developed jointly by the American School Health Association, of which Dr. McClendon is the president, and the Pharmaceutical Manufacturers Association, of which Parke-Davis is a member. Parke-Davis is a subsidiary of Warner-Lambert Company.

The guide lists eight basic concepts.

Drugs, in legal products are medical tools that may have many benefits when properly used.

Drugs and other substances are used for many reasons.

Drugs and other substances, if misused, may be harmful.

Drugs may be classified according to their effects.

Production, distribution, and use of drugs are controlled by law.

Behavior patterns of the individual influence present and future health.

Individual acceptance of responsibility is essential to the wise use of drugs and health is the result of the interaction of the physical with the intellectual, emotional and social areas of human development.

Also contained in the guide are 12 review papers by national authorities to serve the teacher as reference material and a list of teaching aids which include color photographs of commonly abused drugs and a glossary of slang terms related to drug usage.

Jail Brothers

(Continued from Page 1)
When ordered out of the car, John and Frank, the patrolmen said, began a continuous use of profanity and obscene language and called the officers several foul names.

The brothers started scuffling with the policemen, it was said, and the officers radioed for assistance. Other officers arrived and helped subdue the pair.

At the station, the brothers continued using profanity and bad language. Frank aimed a kick at Rice, which missed. The swinging foot caught Ganga in the groin. The Wrights were locked in the cell until their court hearing on Wednesday.

The juvenile, who had not resisted arrest, was released to his parents without being charged.

In another matter, Malcolm Barron, 17, of 2482 West Grand, Detroit, pled not guilty to a charge of possession of stolen property, and waived examination. He was bound over to Circuit Court for trial.

Barron and a juvenile were arrested on March 21, while riding in a car that had been reported stolen in Detroit earlier in March. Barron was driving the vehicle.

A car owned by David Bower, 1923 Eastbourne, became the target of thieves Saturday, March 27, while it was parked on Mack near the Woods theater. Stolen was an FM radio converter worth \$42. Bower, who works at the Woods theater, was absent from the car from 7 p.m. to 11 p.m.

PHONE BOOTH ROBBED
While on routine patrol Monday, March 29, Woods Patrolman Wayne Baum noticed the chrome coin box cover missing from a pay telephone in the parking lot between Woods Recreation and Farmer Jack Supermarket, both on Mack. Less than 24 hours previously, Baum had noticed the phone booth was undamaged.

Minors Caught by Woods Police

Three minors, none from the Pointe, were spotted by an alert Woods patrolman while they were parked behind a restaurant on Mack and were found to be in possession of over a half case of beer, Sunday, March 28.

Edward Swar, 19, of 23815 Raven, in E. Detroit; Charles Marsack, 19, of 22727 Clairwood, in St. Clair Shores; and Richard Abrams, 19, 23822 Johnson, in E. Detroit, were arrested by Patrolman William Lentz after he had walked up to their car to ask for identification.

While waiting for the ID's, Lentz saw a beer bottle on the ground next to the car and became suspicious. Looking inside the car he saw a case containing 14 full bottles of beer plus a full quart bottle laying on the rear seat.

All were arrested, taken to the station and charged with being minors in possession of alcohol.

Judge Adjudges LS Coach Lines Injunction Hearing

John M. Veale, attorney for the Lake Shore Coach Lines, Incorporated, requested and was granted an adjournment by Wayne Circuit Judge Thomas Roumell on Tuesday, March 30, on a hearing on an injunction which has kept the lines in operation since March 1.

A new hearing is scheduled for Monday, April 12, before the judge.

Lake Shore officials, with representatives from the five lines, are scheduled to meet today, April 8, with the Michigan Public Service Commission in Lansing.

Lake Shore had intended to discontinue services to the six cities on March 1, but was prevented from doing this when Michigan Attorney General Frank Kelly and the MPSC obtained a temporary injunction at the last minute on February 28, which forced the lines to continue services. The bus lines officials had petitioned the MPSC for permission to discontinue operations because of financial losses.

Walter Schwiebert, president of the lines, disclosed that the company suffered a financial loss of approximately \$25,000 during the first two months of 1971, and when the audit for March is completed, it appears that that month will be no better.

Schwiebert had asked the municipalities his company serves, to either purchase the lines or subsidize it. This has been rejected by the Pointes and St. Clair Shores.

The cities, however, suggested that Lake Shore increase its fare, and cut its unprofitable Sunday services, and services after 8 p.m. on week days. On March 8, the company announced a five-cent raise in the fare and also made known that Sunday and night services were suspended.

The Southeastern Michigan Transit Authority (SEMTA) is attempting to buy 10 used DSR buses from Detroit, which it would lease to Lake Shore. The cost of the vehicles has been set at \$20,000.

SEMTA, which has no funds to proceed with the deal at present, has asked the Pointes and St. Clair Shores to pledge their full faith and credit.

The Park and City councils agreed, provided Lake Shore would maintain service to January 1972. Schwiebert and other bus officials turned thumbs down on the service extension to that time. The agreement, without the stipulation set forth by the Park and City, was also approved.

Reckless Driver Charged, Jailed

A 21-year-old St. Clair Shores resident was arrested and temporarily jailed after he was clocked driving at speeds in excess of 90 miles-per-hour down Lakeshore Wednesday, March 17.

Mark Vandekerckhove, 436 Reveria, was spotted by Grosse Pointe Shores Patrolman Ronald Forth while on routine patrol. Forth, estimating the driver's speed at over 75 mph, sent out a radio broadcast to Patrolmen Robert Besinger and Daniel Healey saying that he would not be able to catch Vandekerckhove and asking that the two try to intercept. Besinger and Healey gave chase and saw the speeder straddle lanes and weave before turning right on Moross and left at Grosse Pointe boulevard without signaling.

The officers caught up to the driver when he stopped in front of a residence in the boulevard. Police handcuffed Vandekerckhove and took him back to the station to face a \$75 bond. He was released to his father.

Police Arrest Drinking Driver

Woods police arrested a driver early Sunday, April 4, on a charge of drunk driving after he was seen driving his car south on Mack in the northbound lane.

Vernon Berels, 25394 Pattow, in Roseville, was spotted by Patrolmen Patrick Fagan and William Desilets making a left hand turn off Hampton onto Mack in the northbound lane and driving several blocks before turning between the islands into the southbound lane and continuing on his way.

When he was stopped and asked for his license, police noticed a paper cup half filled with beer standing between his feet on the floor of the car. Berels was arrested when he staggered as he got out of the car.

He was taken to the station and placed a \$91 bond.

Mandate Sets Intern Program

MANDATE, a new state-wide organization of young Republicans and Representative William R. Bryant, Jr. announces that they are seeking applicants from Grosse Pointe and Harper Woods for a new Legislative Intern Program scheduled for April 26-29 in Lansing.

"The Intern Program will bring six state high school seniors to Lansing for three days of intensive involvement in and observation of the legislative process," explained Gordon Cornwell, MANDATE member working with Representative Bill Bryant on the Intern Program.

There will be one high school senior chosen from this area. Those chosen for the program will arrive in Lansing Monday evening and stay through Thursday afternoon. Applicants must have a "B" average or better and exhibit an interest in politics. Transportation, room and board will be furnished.

"I welcome inquiries and application by letter to me at the Capitol from any high school senior who resides within my District," stated Representative Bryant, who represents the 1st House District. The final selection will be made by a selection committee by April 15.

"The students will observe committee meetings and House and Senate sessions and have seminars with various persons working with State Government. They will meet the Governor, visit the MSU campus and attend discussions on partisan politics, the environment and drugs," added Representative Bryant.

The MANDATE group was formed at the Republican State Convention in mid-February with the promise to involve youth with worthwhile programs. The MANDATE Legislative Intern Program is MANDATE's first response to that pledge.

SHS Musicians Win Top Ratings

Twenty-five individual soloists and ensembles from South High School received first division ratings at the recent State Festival held in Flint.

"All of the credit for this outstanding showing must be given to the individual performers. Each event is prepared as an extra curricular activity with nearly all of the rehearsing done outside of the regular school hours. Many of our fine soloists study privately with professional musicians in the metropolitan area," said Russell R. Reed, director of Instrumental Music.

Soloists in grades 10 through 12 enter proficiency examinations which include the performing of memorized scales and sight reading, besides the solo performance. Each of the three proficiency levels are increasingly more difficult to pass. On a scale of 0 to 100 the soloist must achieve 85 or higher in order to pass the examination.

Those passing proficiency

III were: Ken Barker, string bass, 93; and piano, 93; Bill Zeidler, clarinet, 94; Fred Rohn, trumpet, 97 and Debbie Fisher, flute, 97.

Those passing proficiency II were: George Skaff, cello, 85; Fred Parcels, trombone, 92; Becky McCoy, violin, 85.

Nancy Houghton, French Horn, 90; Liz Gregory, flute, 86; Donna Grunewald, flute, 85 and Mary Ann Kozlowski, flute, 92.

Those in proficiency I were: Chris Klein, cello, 85; Denise Dupuis, flute, 91; Virginia Zeleznik, clarinet, 91; Don Briggs, trumpet, 88; Sue Weaver, bassoon, 89 and Fenia Weiller, violin, 87.

Ensembles receiving first division ratings were string quartet: Nancy Homfeld, Don McDaniels, Kevin Miller, Steve Eliason; clarinet quartet: Paul Woodhouse, Virginia Zeleznik, Suzi Osetak, Louise Denise; brass trio: David Kennel, Bill Cartmill, Fred Beyer;

percussion quartet: Claude Weiller, Debbie Fisher, Liz Gregory, Joanne Foresman; trombone quartet: David Kennel, Scott Feringa, Fred Parcels, Chris Kamm; French horn quartet: Nancy Houghton, Steve Kennel, Art Vander-schaaf and Fred Pettit.

CULVER INVITES COMPARISON

Culver motivates its students to make the most of their college experience and to assume leadership as responsible citizens in America. Heavy? You bet. But more than 53,000 Culver alumni can't be wrong. It all adds up — 1,500 acres, an outstanding faculty and superb physical plant, 17 varsity sports, 21 intramural sports, 125 horses in the Black Horse Troop and over 40 extra-curricular activities. Culver is large enough to accommodate individual interests and small enough to give individual attention. If this all adds up to a healthy curiosity, you are invited to learn more Sunday, April 18, anytime from 2 to 5 p.m. at the Howard Johnson New Center Motor Lodge, 2921 West Grand Boulevard (at 3rd Ave.), Detroit. Farms Tightens Dog License Law

The Farms Police Department has introduced a new policy in the issuance of dog licenses, which makes it mandatory for owners to purchase tags for their pets before May 1, the deadline set by city ordinance.

Police Chief Robert Ferber disclosed that all dog owners in the city will receive one card, and only one, which will be a FINAL notice, that it is time to buy that license, and that it must be obtained before May 1. The cards will be inserted and mailed with applications for park passes, it was added.

On the card it is stressed that this will be the ONLY dog license notice the owner will receive, and, it is pointed out, all dogs six months or older must be vaccinated and licensed. The license must be obtained PRIOR TO MAY 1.

Licenses may be obtained at the City Clerk's Office, 90 Kerby road, during regular office hours, 8:30 a.m. to 4:30 p.m. and on Wednesdays until 6 p.m. The office is closed on Saturdays.

Chief Ferber warned that his officers have been instructed to ticket all dog owners who fail to comply with the ordinance. Those who violate the law, will be subjected to a fine and a municipal court appearance, without fail, he added.

"We have to emphasize the importance of owners adhering to the ordinance," the chief pointed out. "Too many people have delayed the purchase of licenses for their pets, and a few have completely ignored getting tags."

"We must bring about a stronger enforcement for the protection of the citizens of the community, including the owners of the dogs. Persons who permit their animals to run-at-large, will also be ticketed. Dogs taken for walks must be on a leash and under control of the persons walking them, at all times."

Volunteers Help Cancer Patients

The Michigan Cancer Foundation, a United Fund Agency, is launching a new volunteer Home Assistance Program in response to the needs of the incurable cancer patient who is daily faced with the need to maintain quality of life as well as the fight for life itself. According to Frank H. Jakes, Ph.D., MCF vice-president and Director of Community Affairs, "HAP" is designed to enable the patient with incurable cancer to live at home as long as possible, with the least possible disruption of his and the family's normal routine.

Mrs. David Henes, 1162 Grayton, has become one of the first Voluntary Home Assistants (VHA). It takes a special person to buoy the spirits of an ill person. To know simply when to be a good listener to prepare a tasty meal in someone else's kitchen so that good aromas stimulate a failing appetite, these take a warm heart, and a fund of energy.

Under the direction of Mrs. Beatrice Schaberg, R.N. of the Foundation's Community Affairs Division, and John Burrows, M.D. oncologist of St. John Hospital, Detroit, the new Home Assistant Program will provide special training for the voluntary home assistant to enable him or her to assist the patient efficiently, whether that be through performing day-to-day activities which serve to keep the patient's surroundings as normal and happy as possible, or through simple nursing care. The HAP program brings together the doctor, nurse, and volunteer in the common cause of assisting the cancer patient to maintain dignity and fellowship.

The VHA program will deal with the human realities of cancer deaths. So, too, do other Michigan Cancer Foundation programs seek to focus on the human being, while dealing with the disease. Each year, the appalling loss of 6,000 Detroiters from various types of cancer is reduced. To turn the tide so that two out of three cancer patients now lost annually can be reversed to two out of three saved, is the immediate goal.

The ultimate goal is to conquer cancer. Until then, the Home Assistance Program and the VHA will be the help of those desperately in need.

For further information about the Home Assistance Program, call Mrs. Beatrice Schaberg, R.N., c/o The Michigan Cancer Foundation, 833-0710, extension 214, or call Mrs. Gertrude France, Unit Coordinator of the Michigan Cancer Foundation East Unit, 372-0780.

Theft of New Car Reported

A brand new 1971 Mercury Cougar was reported stolen from the Frank Adam Agency, 195 Kercheval. It was discovered gone when an inventory was taken, Farms police were informed on Thursday, April 1.

The report was made by George Spalding of 487 Touraine, of the agency, who told authorities that the automobile, valued at \$3,600, was taken from the company lot, across from the sales building. It was described as being a two-door hardtop, medium yellow gold in color with a saddle brown vinyl top.

Spalding said that the vehicle has been missing for about a week or 10 days. It is not known if the car was equipped with license plates or not, he added.

Pointers Attend Political Course

Two Woods residents recently attended a political campaign seminar in East Lansing presented by the National Chamber of Commerce for those interested in increasing their campaigning expertise.

William J. Cudlip II, 676 Lochmoor, and John Lauve, 622 Sunningdale, were at the three-day Political Campaign Management Seminar which covered all aspects of a modern day campaign. The conference was attended by novices as well as people from both political parties who work for the government full time.

Mr. Lauve is an engineer at the Cadillac Motor Division of General Motors and is a delegate to the Michigan Republican State Central Committee. Mr. Cudlip is the director of the Southeastern Michigan United Republican Fund.

The Michigan Chamber of Commerce, which had a hand in the Seminar, presently sponsors a program which initiates youth in high school and colleges to the business field.

The symposiums are conducted with each student paired with a businessman. The conference then discusses the problems for which the youths feel "business" is responsible.

Steiner Given Watershed Post

County Commissioner Ervin A. Steiner Jr. has been designated by the Board of Commissioners as Wayne County's representative on the Huron River Watershed Council for a two-year term.

Steiner, a Republican, is chairman of the Board's Public Works Committee. A resident of Grosse Pointe Farms, he represents District 3, which encompasses the cities of Grosse Pointe, Grosse Pointe Farms and Grosse Pointe Park, plus a portion of Detroit south of the Ford Freeway.

The Huron River Watershed Council is a voluntary association of local governments whose general aim is to combat pollution and flooding of the river, and to preserve it for recreational use.

The Watershed Council conducts studies of pollution and flooding of the river and seeks to persuade pollution sources, both public and private, to end their pollution.

Woods Issues Proclamations

At the regular meeting of Monday, April 5, the Woods City Council unanimously voted to allow the Grosse Pointe Woods Lions Club to sell miniature white canes on the city streets Friday and Saturday, April 23 and 24. April 24 will end White Cane Week.

The funds will be used exclusively for the club's main project, that of sight conservation, and other charitable needs.

In other action, the council voted to authorize Mayor Kenneth McLeod to proclaim April Family Affairs Month in the Woods.

The purpose of Family Affairs Month is to urge the heads of each family to review the total financial picture and planning of the family at least once a year. This includes a review of wills, life insurance, general insurance coverages, savings programs, and increase in net worth.

One View From The Capitol

The divorce law of Michigan has been and is based on a principle requiring the court to place fault for the breakdown of the marriage.

I have co-sponsored a bill now pending which would eliminate the fault principle. A court would have to answer only whether or not the marriage has so deteriorated as to make it clear the basic objects of marriage cannot be served by its continuance.

The necessity to place fault has led to many knock-down drag-out divorce battles and in many, perhaps most cases has been the cause of increased alienation between the husband and wife.

The one versus the other setting, the adversary situation, plus the necessity of placing fault, make reconciliations more difficult, and often lead to situations grossly detrimental to the relationships of both parents with their children.

If this new law is enacted

as proposed, then henceforth all divorces should be conducted in a more humane manner, with every attempt made to allow reconciliation and to avoid further straining the relationships between all members of the family.

I have had another idea, one which might help avoid divorces by avoiding at least some bad marriages. It would essentially require anyone seeking a marriage license to first have pre-marriage coun-

Perfect Record Scored By North JV Cage Squad

By Greg Boyd

It is a well known fact that the loss of prime athletic talent through graduation is the nemesis of high school and college coaches alike. While professional teams have the luxury of holding onto a player for as long as 10, 15 or even 20 years, as exemplified by the Red Wings' great Gordie Howe, the school coaches find themselves in a position where they must constantly rebuild. The most a varsity coach can expect out of a player is three years service, if the player is among the best.

There are, however, coaches and teams that have an even tougher job of compiling a string of wins than the varsity people.

Freshmen and junior varsity coaches are allowed only one year, two for some students, to groom their squads and develop each player's ability, while they win ball games. It's tough on the players, too. Many have not played with one another in organized ball. Coordinated teamwork is harder to achieve. The boys must work harder and produce as a team THAT season. After the season, the roster changes with the players graduating to the varsity squad next year and new boys coming in.

So, when a magnificent season comes along, it's a credit to the unsung coach and the determination and hard work

of the team that they've been able to accomplish so much in so little time.

The credit this time goes to North High's record-breaking JV basketball team and its coach, Ronald Ladd, for not just a great 70-71 season but a perfect one.

The JV squad won 18 games. They bombed each team in the Bi-County League twice and beat South High 69-54. They also smashed records in the process. Besides scoring the most wins of any other team, the JV's allowed the fewest points to their opponents. They scored the most points in any one game—81. They also allowed the fewest number of points in any game—just 17.

Individual records were also set. Six-foot-one forward, Kevin Clinton moved the mark up to 27 for points in a game. Clinton also hit on the most field goals in a game—10. Among the highlights of the season, 6'3" center, Bob Cischke, and 6' forward, Chuck DeMars, pulled down 14 rebounds in one game. Kim Mahoney, 5'11" guard, and Clinton both scored on seven free throws in one game.

The real impressiveness of the season, however, lies in the great team work and hustle of the team as a whole. The team excelled in stealing the ball and in grabbing rebounds. Heavy work on the boards and the man-to-man press all season long were the main reasons why the team could "pick up the garbage" and use it to their best advantage.

Where most teams use a zone defense, implementation of a man-to-man defense reflected in Ladd's coaching ability. Plus factors, he says, are the fact that the team members passed off consistently, according to who had the best advantage. There were no ball hoggers on this squad.

Also the hustle and enthusiasm of the team showed in their ability to get down the court fast when there was a turnover, regroup, and set up. Every opponent was covered and the team worked extremely well together.

Ladd said that although the raw material is important for any team, and the coach should have something to work with, the team itself will either win or lose on the strength of its efforts.

Chargers Enjoy Splendid Season

The Grosse Pointe Chargers finished a very successful hockey season with an impressive 4-0 victory over the Sabers in the Grosse Pointe Invitational Tournament in Port Huron Saturday, April 3. Goals were scored by Bob Barker, Karl Ketchum, Steve Levick, and Matt Costello. Doug Tito was great in his shutout.

The month of March featured many exciting events. The first of these was a father and son game. The mothers played a big part in this game also participating as coaches, scorers, linesmen, and referees. The game was won by the sons 2-1. Brian Moody scored on a pass from Bob Rahaim, then Rahaim scored on an assist from Moody, for the sons' goals. Tom Costello, representing the dads, scored their lone goal with an assist by Peter Costello.

The Chargers represented Grosse Pointe in the Squirt A Division in the Ecorse Tournament. They faced the Farmington Flyers on March 13 and posted a 2-1 victory. Steve Levick scored both goals for the Chargers with assists by Karl Ketchum and Bob Rahaim. In the second tournament game the Chargers met the Big Bills from Dearborn Heights who were too strong for the Chargers and the Bills came up with a 5-1 victory.

In the last meeting of the year with the Detroit Fifth Wheel the Chargers played one of their very best games posting a 3-1 win. Harry Blackwood scored twice on assists from Bob Barker. The other Charger goal was scored by Steve Levick unassisted.

In the Suburban Hockey playoffs the Chargers represented themselves extremely well. They posted two victories against Dee's Sport Shop. There were three very exciting encounters with the Fraser Raiders. In the first meeting the fantastic play of the Raider goalie gave the Raiders a 2-1 win.

The Chargers played extremely well in this game and the excitement mounted for the second game. The mothers and fans came laden with balloons and posters. The players in the dressing room were bolstered for the game by a telegram from the Boston Bruins and recordings of Charger songs by a fan, Mrs. A. R. M. and DeGaetano. The Chargers came through with a 2-1 victory. Every Charger gave a star performance.

The championship game was played the following night. These two teams, very evenly matched, went scoreless until the last minute and a half of the game when the Raiders scored and won the championship 1-0.

The Chargers held an awards night at the Grosse

Laker Awarded Football Honor

Mike Nally of St. Paul High School was named on the football All-American, First Team by the Magazine "Coach and Athlete." This honor was conferred by coaches, sportswriters, and college scouts from 50 states.

In Michigan, four players received this honor. Mike's position this year was linebacker on defense and fullback on offense.

Besides this achievement, Mike gained over 1,000 yards per season. He also is an outstanding catcher in baseball. In the summer he plays Federation Baseball with a Detroit team. Although he was handicapped in the beginning of basketball season, he managed to catch up toward the end and play in a few games.

NBD's four guideposts for better home financing.

Getting a mortgage to buy a home is serious business. It's only natural when you're making a down payment of several thousand dollars, and obligating yourself for years to come, to want assurance that you're acting in your own best interests. Here are four basic rules that will help.

1. Make certain that you won't incur a stiff penalty if you elect to prepay the principal. At NBD, we're known for our liberal prepayment policy. If you prepay your existing NBD mortgage through the sale of your home, then secure a new mortgage from us to finance another house, there's no penalty at all.
2. Know ahead of time what your closing costs will be. NBD gives you an estimate well in advance; and we're rarely off the mark, so you won't run into any unpleasant surprises.
3. Strike the best balance between the size of your monthly payments and the rate at which you build equity. NBD will help you weigh these factors with full consideration for your particular financial circumstances.
4. Before you assume a seller's mortgage, be sure you're aware of any restrictions on prepayments to principal, special insurance requirements and the implications of assuming another person's liabilities.

At your nearby NBD office, you can pick up a copy of our new booklet—20 pages of facts and figures every home buyer needs to know. The bank to see is NBD. National Bank of Detroit.

Schools Offer Swim Classes

Swimming classes are re-opening for all Grosse Pointe youngsters once again as the Spring Session is about to begin. Hundreds of children will be re-entering the five Grosse

Public Schools in Focus

By Dr. Theos I. Anderson
 Superintendent of Public Schools

Last week I referred to a recent statement from Dr. John W. Porter, State Superintendent of Public Instruction, to the State Board of Education regarding the regionalization of Department of Education activities. This week I wish to quote further from the document so that all residents of the school district will have a better understanding of the extent of the drift from local control to state control of education—a situation about which I have been writing and speaking for three years.

1. The Problem
 "The State Board of Education has the constitutional responsibility for superintending the services and programs provided to those enrolled in the elementary and secondary schools, the responsibility for planning and coordinating and advising on the financial requirements of the institutions of higher learning, and for providing general leadership and supervision over adult education and instructional programs in state institutions.

"This three-fold constitutional mandate necessitates that programs and services of the State Board of Education be developed in such a way that they are as close to the people to be served as possible.

"Over the past number of years it has become increasingly difficult to convey to the Executive Office and to the Legislature the needs of the State Board of Education in carrying out its constitutional mandate to provide leadership and coordination of services to almost 40 percent of the entire population of Michigan.

"In addition to the above stated problem, the Superintendent finds that there are at least six different regionalization service plans currently in operation in the Department of Education.

2. The Solution
 "One solution to the above problem which does not necessitate legislative action at this time is for the State Board of Education to adopt its own regionalization plan. Such a plan would not necessitate additional funds at this time. However, it would be desirable to seek legislative appropriation for Assistant Superintendents of Education who could be responsible for coordinating services in designated regions. Such an action would be in violation of the existing intermediate school district responsibility, nor would it create any conflict in terms of other political subdivisions. If and when there is reorganization of intermediate school districts into regional offices or centers, the State Board of Education leadership in moving forward at this time could be conducive to merging the Department's regional offices with intermediate offices or whatever is created.

3. Recommendations
 "I recommend that the State Board of Education adopt the proposed 12 regions as the initial step towards regionalization of the Department of Education services.

"I further recommend that the State Board of Education seek a legislative appropriation to hire 12 Assistant Superintendents of Education for the designated regions. Such Assistant Superintendents of Education for the designated regions shall be housed in the offices of Vocational Rehabilitation as the initial step in implementing this proposed plan."

Letters to the Editor

To the Editor: —
 "Above and beyond the call of duty" is an honorable phrase.

We witnessed an example of this statement Friday night, when students and faculty from North and South High Schools offered life and limb in a donkey basketball game. This was a benefit for the Foreign Exchange Program.

The game ended in a tie which was merciful, because "sudden death overtime" would have been literally disastrous.

All of the participants deserve an award for bravery, but the faculty members proved to us again that we have a group of very dedicated people in our school system. They will do just about anything to help the KIDS.

The bruises will be their medals, but we would like to add our gratitude for "services above and beyond."

Very sincerely,
 Mollie & Joe Beyer

Sirs:

The results of the recent millage election in Grosse Pointe are disappointing but not surprising. The public is confused and resentful of its growing tax burden and has chosen to see the consequences of a reduced educational budget. I find sympathy but not agreement with this method of arbitrating a most difficult question.

A sharply divided Board of Education presents a confused picture of the general needs of our educational system. The behavior of three members, Messrs. Sandberg, Fuchs and Semmler, is so persistently disruptive that the observer begins to question their motives. The complexities of school financing in a year of further increases in state equalized property assessments, the shock of Public Act 100, the unknown effect of reduced State Aid and the prospect of further salary in-

est investment bargain imaginable. This community can afford and will provide for a quality education for its children. It must be given enough information on which to make a sound judgment. That information is available and should be published by the School Board or an independent body before the situation deteriorates enough to adversely affect our excellent school system and the property values (appealing to another motive), which are related thereto.

What Goes On at Your Library
 By Virginia Leonard

Spring, we think, is really sprung. More snow may come, but there is a certain zing in the air, new birds are chirping, nest-building, and people have stopped thinking winter.

What does this mean to you? If you are a child, a parent, or just young in heart, it may mean kite flying. In our J796 category we can offer you some books on this subject, such as KITES by Fowler, HIGH FLIERS by Saito, FLYING KITES by Wagenvoort, WORLD ON A STRING by Yolen, and, in the realm of fiction, RAMU AND THE KITE by Gobbai. Do you prefer another favorite sport? How about ROLLER SKATING by O'Neill and, as fiction, THE SKATING RINK by Lee? These are also in our juvenile collection.

Another sport dear to the heart of the young and older is bicycling. If the snow has been in your way and you are about to dust off your bicycle which has been either sitting in the basement or the garage, we would remind you of two new memorial books in the adult collection. These are Harley Lee's BEST OF BICYCLING and Eugene Sloane's COMPLETE BOOK OF BICYCLING. Of course, there is also material in the children's room.

What else happens in the spring? Well, for one, there's Easter coming up. Have you purchased your new clothes for that joyous occasion? It's possible that our periodicals might give you some idea on the new fashions for this time of year. Or perhaps you don't need a new Easter bonnet if you're taking a nice vacation someplace near or far. If travel will be your "bag" this year, our books dealing with this subject are varied and plentiful. Also, our 200 section contains books on religion. Since Easter is a religious holiday, you may want some Lenten reading. The subject of Easter is found in the 394.5 part of our libraries, and if you hurry you might find some books for the children. (I say, hurry, since they are usually snapped up quickly.)

We're willing to bet that many of you are raking your lawns, reading seed catalogs, and mentally pulling on your gardening gloves. If so, there are some fairly new titles that might interest you. We suggest S. S. Baker's GARDENING DO'S AND DON'TS, Better Homes and Gardens' NEW GARDEN BOOK, Thelma Cruso's MAKING THINGS GROW, William Davidson's WOMAN'S OWN BOOK OF HOUSE PLANTS, D. X. Fenton's GREEN-HORN'S GUIDE TO GARDENING, Elda Haring's THE COMPLETE BOOK OF GROWING PLANTS, Gretchen Harshbarger's McCall's GARDEN BOOK. A provocative title is THE KNOW-NOTHING GARDENER'S GUIDE TO SUCCESS by G. F. Hull; another facet would be Jack Kramer's THE COMPLETE BOOK OF PATIO GARDENING; still another, GARDENS UNDER GLASS by

Burglar Loots Home in Park

Mr. and Mrs. Ernest Van Wingerden of 530 Barrington, returned home at 9:51 p.m. on Tuesday, March 30, to find the back door ajar and their house burglarized.

Park police said that entry into the house was gained through a large milk chute at the side of the house, which was just big enough for a slim person to wriggle through.

The Van Wingerdens said they had been absent from home for approximately two hours.

Missing from the house, they told the authorities, were a portable television set, a Royal electric typewriter, an AM-FM radio, and approximately \$40 in cash.

Forget the past — but use its lessons to build a good future.

Present Artists Market 'Art IV'

The 12th annual art feast featuring Detroit Artists Market contributors at the J. L. Hudson Company opened with a champagne toast Tuesday April 6. The two-week Market show presents a cross-section of top local talents expressed in oils, watercolors, graphics and ceramics.

"Art IV" provides multiple entertainment. Graphic Artist Richard Anuzkiewicz was on hand in Hudson's own gallery on the downtown store seventh floor for the opening of the exhibit. In another section the Old Print Shoppe opened its doors to the public for the first time.

Hudson's top creative talents have transformed a suite of rooms on the ninth floor into a complementary setting for the Artists Market's show. Chairman Mrs. Edward F. Dittmer and Jack Ray, director of Public Relations for Hudson's, invited artist Hughie Lee-Smith, of New York, a faithful contributor during the Market's earlier years, who has won national recognition.

A display of his works is a focal point of the show and includes several oils loaned for the occasion by local collectors.

Hostessing on opening day were Market chairman Mrs. Clark T. Wells, Mrs. John D. Bayne, Mrs. Irving Burton, Mrs. James Dresbach, Mrs. Tom Green, Mrs. John Guba, Mrs. Ervin L. DAC Will Be Busy Luncheon Meeting

Father and Daughter Luncheon Scheduled Saturday Afternoon, with Floor Show Opening That Evening; Sunday Is Family Day

Traditionally Easter weekend at the Detroit Athletic Club manages to come up with something for just about everyone in the family and Easter weekend 1971 is no exception, with a trio of happenings planned to suit the tastes of all ages.

Launching the busy two-day festivities is the annual Fathers and Daughters luncheon on Saturday, April 10—"sugar 'n spice 'n everything nice"—for daughters and granddaughters, with dad or granddad treating best girls to an aquatic show and luncheon followed by a delightful stage show.

Songstress Linda Bennett, who is opening the DAC's Easter week floor show that same evening, will entertain along with Dr. Tom Powers, a dentist by day but an entertainer by avocation. His act is full of surprises.

Then on Easter Sunday itself the Club, brimming over with colorful azaleas, gigantic in size, to say nothing of dozens of potted springtime tulips, will be as festive as in past years for this important family day which draws hundreds of diners to the Ponchartrain Room to enjoy a gourmet buffet.

Peter Rabbit himself will be there in the guise of the Easter Bunny along with chicks,

But let any of these things happen and—plinkety, plink, here comes the kinks. What's a girl like this to do? Easy. A girl like this comes to us and gets her hair straightened all neat and silky and then icky-poo weather will hardly ever bother her at all. If you have a friend with the aforesaid problem, be nice. Grosse Pointe LWV Has New President

Revised Edition of "Know Your Grosse Pointe," Last Published by League in 1963, To Be Issued Next Fall

Mrs. Donald L. McConachie was elected to a two-year term as president of the League of Women Voters of Grosse Pointe at the group's annual meeting in the Grosse Pointe War Memorial Wednesday, March 31. Mrs. McConachie succeeds Mrs. Robert Everett.

Other new League officers include Mrs. J. Howard Kay and Mrs. Robert Jessup, first and second vice-presidents respectively; Mrs. Proctor Denno, secretary; and Mrs. John A. Ross, treasurer.

Completing the LWV board for Mrs. McConachie are directors Mrs. Harold Cunningham, arrangements; Mrs. Forman Johnston, Jr., bulletin; Mrs. Jack Still, membership; Mrs. L. William Moll, voters service; Mrs. John Moran, state item; Mrs. Bruce Sanders, environmental quality; Mrs. Frank M. Clements, Jr., publications; Mrs. William A. Fisher, II, public relations; Mrs. James S. Sanford, local item; Mrs. Howard Hush, finance; and Mrs. Sterling Berry, nominating chairman.

The new board and League members voted to adopt as their Local Program Item for 1971-72 the updating, revision and publication of "Know Your Grosse Pointe," last published by the League in 1963.

Plans are under way for a 1971 edition. There have been many changes in Grosse Pointe in the past seven years—a new High School to name just one.

It is hoped that the revised edition, under the direction of Mrs. Sanford and her committee, will be available for distribution and sale by this fall.

"Know Your Grosse Pointe" is the only source of information on all five Grosse Pointe communities in convenient printed form. It includes a detailed history that spans the almost 300 years which have passed in The Pointe area since French explorers first ventured onto Lake St. Clair.

Illustrations range from a 1796 map of pioneer French strip farms to the latest map available. There will also be photographs of important local structures.

At a recent luncheon at the Detroit Athletic Club members of Christ Child Society were introduced to their new board of directors. These officers are elected for a period of two years during which the Society and its activities are their major concern.

Molloy, of Shoreham road, second vice-president, Mrs. Harold Crisman, of Southfield; third vice-president, Mrs. Eugene L. A current activity is the Presidents Ball planned for Saturday, April 24, which honors most recent president, Mrs. James T. Smith and 12 past-presidents, including Mrs. Frank T. MacDonnell, current National Christ Child Society president.

Among Mrs. Robert Reason's committee for the ball at the Detroit Golf Club are Mrs. Robert Wakely, of Grosse Pointe, hostess chairman, with Mr. and Mrs. Donald Currier, (she is a past-president of Christ Child), Mr. and Mrs. C. J. Murke and Mr. and Mrs. William Ireland.

D'you Know That?

Ever wonder why the names of some fruits are used as nicknames . . . Some to flatter - some to knock?

For example, a person might like to be called "THE Berries"; but not a "Prune". It would be nice to refer to your wife as a "Peach" or even a "Sugar Plum"; but never, never a "Tomato". You would be in good with "Apple of My Eye" and "Top Banana" - but out on a limb with "Nuts", "Sour Grapes", "Pickled", and "Lemon".

And if you ever want to get in the game of coining new words, here are more fruits for you to pick . . . No one has ever been able to do anything with oranges, limes, grapefruits, and apricots.

Boyne Country Condominiums

Right in the heart of Mid-America's skiing, golf and recreation mecca—BOYNE COUNTRY. The Boyne Condominium village is nestled at the foot of fabulous Boyne Mountain and overlooks world-renowned Boyne Mountain Lodge.

Jungfrau

Reminiscent of Switzerland's most dramatic and well-known mountain, the "Jungfrau" provides a towering accent to the Boyne Condominium village concept. The Jungfrau's five-storied reach assures a magnificent view of Boyne Condominium, Boyne Mountain, and surrounding terrain.

Arlberg

As vast as the Austrian Alpine Ski country after which it is named, the Arlberg apartment building houses 12 apartments and is the largest of all buildings in the Boyne Condominium village complex.

Mont Blanc

Recalling memories of Europe's highest mountain, the "Mont Blanc" building sets in quiet majesty in the Boyne Condominium complex. The two-storied Mont Blanc building houses 4 apartments keyed to discriminating tastes and offers broad vistas of the entire area.

4 seasons of recreation

Skiing at all the famous Boyne Country areas—Boyne Mountain, Boyne Highlands, Thunder Mountain, and Walloon Hills—from November through April.

Golf at the magnificent 18-hole championship mountain course, 9-hole par 3 course within walking distance from the village, plus a golf training camp for youngsters—and only a short drive away, the challenging 18-hole, Boyne Highlands course, (already one of the top ten in the nation), designed by Robert Trent Jones plus the 9-hole par 3 Highlands course—72 holes of golf.

Deer Lake Four-Seasons Beach Club to serve golfers, swimmers, boaters and fishermen whose beautiful white beach and private club house with dining and locker room facilities offers the ultimate in lakeside fun. The prime sandy beach, much of which shelves out at a gentle slope as far as 300 yards before youngsters can get chin-deep, is the lake's chief allure. Water is crystal-clear and, because the half-mile wide lake is nestled like a jewel in a bowl of hills, waves are never so high that a fisherman would become endangered by high winds. It also has a good ice shore, regardless of wind direction, for water skiing at any time of the day.

Deer Lake has long been noted as a bass and pike angling lake and abounds with bluegills, sunfish, and perch for the neophyte angler just learning to handle a fly rod. What's more, several small trout streams flow through the Deer Lake area just south of the lake and are readily accessible by good roads.

A fleet of rental boats and sailing craft will be available to guests—and a launching ramp will be provided for club members desiring to bring their own. A private road connects the Boyne Country Four-Seasons Beach Club with Boyne Condominium just a mile away to the eastward.

Boyne Condominium is only minutes of easy access to a resort complex which offers you 10,000 acres of pleasure—skiing, golf, salmon and trout fishing, sailing, motorboating, deer and small game hunting, swimming, waterskiing, horseback riding, retirement living, investment opportunities—all in one recreational administrative organization

STEVEN J. JAY, OF HARVARD ROAD, WITH MRS. JAY

By Janet Mueller

She didn't want to be in the picture. But how could you leave her out, for goodness sake!—She's been "in the picture," married to the man, for over 66 years.

Besides, he wanted her there. And that, as it always has as far as Mrs. Jay's concerned, settled that.

But this is, she insists, HIS story ... And we'll go along with her, although now, picture taken, she's off the spot, able to sit down, relax and listen.

As Mr. Jay tells how he made an indelible impression on the future Mrs. Jay, Harriet Buck then, driving proudly past her home in Adrian in his impressive horse and wagon—well ... it wasn't exactly HIS; it belonged to a local grocer and Steve was the grocer's delivery boy.

Proud of First Job It was his first job, and he was proud of it, and he was proud of the wagon, and the horse, and he liked Miss Buck a lot, and he wanted her to see how grand he was ...

And then one day the horse died! Right in front of her house! Just gave up the ghost and died ...

Young Miss Buck really noticed young Mr. Jay then. Steve Jay's 85 now. He still has a job. He's president of Fyfe's Shoe Store and, although he currently describes himself as "one of the 'quiet ones'"; I stay in the background," he averages three days a week downtown, at the store—he's been with Fyfe's 53 years—or at a Detroit Rotary meeting—he's a past Detroit Rotary Club president—or at the Detroit Athletic Club ...

When he retired after his second year as president of the National Shoe Retailers Association, (he's a life board of directors member), he received a brown leather easy chair, deep and comfortable, and a matching hassock as a parting gift. "I've been sitting in it ever since."

It's his favorite chair. Well-worn, but not worn out. An Impossibility Steve Jay sitting still long enough to wear out a chair? Impossible!

Once upon a time, a career in shoes, (he's a past president of the Detroit Shoe Retailers Association and of the Michigan Shoe Retailers Association as well as the national organization), was the farthest thing from Mr. Jay's mind.

Acting! THAT's how Steven J. Jay would make his mark in the world ... So he thought, around about the turn of the century, and so he left Adrian to light up the sky, joined a troupe of traveling players and toured in such epics as "Jerry, the Tramp" and "Over the Hill to the Poor House" until—there it was: The Poor House.

The stock company went broke. The manager, with no money for salaries, offered to pay off everyone in properties.

Steve came home with his share, a Siberian bloodhound named Bruno noted on the boards for his prowess in chasing Eliza across the ice in "Uncle Tom's Cabin," soon equally noted in the Jays' Adrian household as a bottomless pit, a huge, gaping mouth that ate ... and ate ... and ate ...

Got Rid of PH Pet Bruno didn't stay long. His career as a household pet, like Steve's on the stage, was brief. But Bruno left his mark. He's a part of the Jay family

1928, on the board of trustees of Michigan Miller's Mutual Insurance Company of Lansing since 1926, a past president of the Detroit Exchange Club, of the Detroit, Michigan and National Shoe Retailers Associations, one of the first directors of the Detroit Shopping News, past president of Detroit Rotary ...

And, finally, The Family Man. Harriet's husband, Virginia (Mrs. Ralph S., of Balantyne road) Pehron's father. Joseph (a past Pointer of Interest himself, when he was spending a good deal of teenage time studying the stars in his own backyard observatory; now a third-year student at the University of Michigan, majoring in music) Pehron's grandfather.

"This Is Your Life, Steven J. Jay" told that man's story, too.

All four stories are continuing.

He's Busiest Now "I think I'm busier now," says Mr. Jay, "than I was when I went into the store every day."

He's an active member of the Senior Men's Club of Grosse Pointe. (And we, having interviewed many Senior Men's Club members in the past few years, can state categorically that this is one of the most active groups around: Senior Men interviewees can be counted upon to leave us breathless! Physically breathless ...)

He just picked up a seed catalogue and is planning to "get the rose garden started again." He likes to work in his Harvard road yard. He likes living in Harvard road. He's lived there more than 40 years.

Despite Mrs. Jay's initial objection ...

Woods and Wild Life "When we first moved here, there was nothing but woods, all the way to Warren. We built a big Colonial, (they've since sold that house and moved, but only a few doors down, to a smaller home), and one warm October day when it was just about finished, Harriet decided to go out and see how things were getting on."

Harriet saw all right. Harriet saw snakes, sunning themselves, all over the place!

The snakes saw Harriet, too, and they fled, into the garage, under the car where—as far as Harriet was a concerned—they would stay forever: SHE wasn't going to disturb them. Fortunately, at this point a butter man drove by, noted a lady in distress, stopped and offered assistance: "I'll get them out for you."

While the butter man poked around in the garage with a clothspole—HE wasn't about to get too close either—Mrs. Jay put in a frantic call to Mr. Jay:

"We can't live here! I can't stand it! There are SNAKES out here!"

But she could live there. And she did live there. And she and Steve have laughed about those snakes ever since.

Harriet, we couldn't have taken the picture without you.
