THE WHITE HOUSE on Wednesday, with an assist from the Kremlin, won a major victory on U.S. troop levels in Europe. Senator Mike Mansfield's efforts to slash the troop level in half was soundly defeated in the Senate, by a vote of 61 to 36.

THE SENATE Wednesday rejected any revival of federal subsidies for an American supersonic transport. The vote was 58 to 37 to knock out new money for the plane. The defeat was the third in a row for the project intended to put the United States in competition with the Soviet Union, Britain and France to fly a fleet of faster-than-sound commercial passenger jets.

GOVERNOR MILLIKEN called Thursday for a temporary increase in the state income tax to 3.9 percent next January 1. The rate now is 2.6 percent. The boost would exceed by three-tenths of one percent the one percent rise he urged in his 1971-72 budget proposals in January. But effective in July, 1972, the rate should be allowed to fall back to the originally recommended 3.6 percent, Milliken said in an executive memorandum to the Legislature.

Saturday, May 22 TWO NEW YORK CITY patrolmen were shot and killed in Upper Manhattan Fri-day night in the third such attack on policemen in three dayr, police said. RUSSIAN-MADE Yugoslav Aviogenex Airways plane carrying Brilish tourists crashed while trying to land at a northern Adriatic airport, killing 75 persons, Belgrade television reported Sunday. It was described as the worst disaster in Yugoslav civilaviation history. Only one passenger and four Yugoslav crewmen survived among the 80 persons on board the TU 134 charter flight from London the report said.

Tuesday, May 25 COLONEL ORAN K. HEN-DERSON, the highest ranking officer charged in the My Lai massacre, said Monday that every large American combat unit in Vietnam has committed similar civilian atrocities. Ecology is a beautiful thing, especially when it is implemented. Grosse Pointe Woods is fully conscious of the impending danger of pollution and is doing something about

In the past, an ordinance banning high phosphate detergents was passed and a pro posed ordinance governing the sale of non-returnable bottles ended just short of the mark when it was tabled by a slim margin of four to three pending action by the state legis. ses. lature on a similar bill. But the proposal was only tabled and not entirely defeated.

Now the city has come up with something new. The Denew division called (what else?) "Ecological and Environmental Services."

The division handles most of the usual public works functions, specifically street lighting, rubbish collection, care city buldings, grounds, parkways, and city greenery. But the division is becoming progressively concerned wth ecology and any new services besides the usual functions will become strongly affected by the new environmental consciousness of the city.

Another thing in the works is a possible "noise pollution" ordinance being contemplated by the city council. The council is investigating the possibility of instituting and enforcing a law to keep the noise levels down. City Manager Chester Petersen said that the city has obtained several sample ordinances from other Started at NHS passed in the Woods, it will affect more than just those with noisy mufflers on their cars. Petersen reports that a noise limit would be set for produce noise.

has manufactured a meter which effectively measures levels of sound. The meters are economical enough so that the city can install them on all the patrol cars.

"I think this is the coming thing, especially in a munici-pality such as ours," Petersen

The Woods has also come up with the idea of having litter cadets" to better enforce the present litter ordinances now on the books. The cadets would have the authority to issue tickets along the same lines as the meter maids now patrolling up and down Mack avenue.

STOPS CARELESS DRIVER

Gerard J. Maebers, 26, of 440 Marseilles, was driving east on Mack on Thursday, May 20, at 5:20 p.m., when he struck the left curb on the island and proceeded on Mack, again veering toward the island. Officer Dale Van Dale stopped Maerbers at University and Mack and questioned him. He was given a violation for careless driving.

Approximateil 8,000 persons, including businessmen, domestic help and students will feel the effects of the shut down. It is estimated that many commuters use the buses daily.

Lake Shore had requested a temporary suspension in January, and was set to cease operations on March 1, when company officials were served with a Circuit Court injunction at almost the last minute, which forced the company to continue its service. The six cities had requested that the lines run until July 31, which would give them time to secure a substitute service, to which Lake Shore consented.

Where They Stand on the Important Issues:

STRETCHING SCHOOL DOLLARS: Taxes are high. Money is short. State aid is a question mark. It is clear that the fiscal problems confronting our children's education will be with us for the forseeable future. Every idea for increased efficiency must be explored, Irresponsible and unsupported charges of fiscal mismanagement will not provide the answer. A continuing careful analysis of every aspect of school costs is needed.

PRODUCTIVE DISCUSSION - NOT BICKERING: Honest diversity of opinion on important school isssues is healthy. Constant bickering on minor issues is not. These difficult times for our public schools demand a commitment on the part of school board trustees to place the welfare of our children above personal differences and partison politics. Trustees must utilize their management skills and leadership to achieve productive school board meetings. A genuine effort to "pull together" must replace the wrangling.

ESTABLISHING PRIORITIES: Establishing policies and priorities should be prime school board functions. Precious little time has been devoted to these basics. School administrators should be given clear policy guidelines on such fundamentals as a strong emphasis on elementary education, the early correction of learning problems, and adequately meeting the needs of all segments of our community (including the non-college bound student). Proper public discussion of priorities and policies will afford voters a chance to make their wishes and needs known and will better enable school board trustees to perform their function of representing the voters.

HOLDING SCHOOL PERSONNEL ACCOUNTABLE:

The school board should hold school system personnel accountable for the proper discharge of their duties and the attainment of established goals. Individuals who fail to perform should be replaced. Until that time, however, school personnel should be given the support and cooperation of the board. Public attacks on school system personnel must be ended. So must the efforts of some trustees to drive a wedge between teachers and administrators. Such tactics can only add to our problems, not solve them.

Munich, Germany, Paris, France, and Madrid, Spain, as study program.

The trips were carefully for the students and parents were held as early as December of last year. Edward A. Franco, head of the South High Language Department, correlated the activities.

Mrs. Clarence (Grace) Vander Schaaf, South High School German teacher, took 11 students on the trip to Munich. Eight of the students were from South High School and three from Lutheran High School. First, second and third year German students were included, plus five adults, including two other South High teachers, Leona Weier and Kathyrn Sheedy.

Munich student tourists were Chuck Smith, Ken Colden, Marc Naumoff, Tom Hallock, David Barret, Charles Krieg, Jim Campbell, Donna Hunt, Lyn Dolson, Diane Wightman and Nancy Hansen,

Mrs. Vander Schaaf prepared her students for the trip by holding several after school meetings during which they were told what to expect in Munich and given background on the areas they would visit. Students selected areas and sights of particular interest to them which were then included on the itinerary. All of them familiarized themselves with German customs by reading the book "Those Strange German Ways."

Since Mrs. Vander Schaaf had been to Munich before, she was able to acquaint the student travelers with sights

In addition to their regular subjects, the seventh and eighth graders had opportunities for foreign language, as well as enrichment and independent study options.

During the current year the sixth graders have been able to have only physical education and music with specialists, and the seventh graders have not had foreign language, enrichment or independent stuly opportunities. Although the eighth graders have been able to have foreign language, they were not scheduled for independent study or enrichment activities this year. Next year Mr. Mogk said

Regular subjects will con tinue to be offered to eighth graders next year, but the physical education will be provided on a co-ed basis and foreign language will be reduced to a part-time activity.

Principal Mogk revealed that although during the 1969-70 year, Pierce students had the opportunity to participate in athletics and clubs where they had interest, during the cur-rent year only partial oppor-

tunities were provided.

"Next year it is questionable whether there will be opportunity for participation in athletics and clubs, even if stu-dents wish to do so," Mr. Mogk said.

Mr. Mogk said that last year the school received the full amount of moncy allocated for the instructional budget, but that a 10 percent cut had to be made from the proposed allotment after the year had started. For next year the amount has been cut 20 percent.

The people who have been holding your money sit down and figure how much interest your savings have earned you, and chances are that you're probably happy to collect whatever interest you do receive, but the sad thing is this: while you were saving money, you may have been losing money.

WE PAY MORE.

If you put that money in a First Federal savings account, you might collect a lot more interest. Because First Federal Savings of Detroit pays a higher rate of interest on regular and certificate passbook accounts than many financial institutions in this area.

IT'S YOUR MONEY.

If you are happy with the interest rate you now receive, there's not much we can do.

But if you would like to earn more money for your money, there's plenty we can do.

You can start things moving by phoning or stopping at any of our offices. We'll help you select the savings plan that's best for you. Then all you have to do is hand us your present passbook and we'll transfer your money (plus whatever interest is due you) to a First Federal account. In a few days you'll have your First Federal passbook and you'll soon be collecting the kind of interest that you've been missing.

YOU'RE NOT ALONE.

There are 215,000 savers (we're Michigan's largest savings institution) who want what you want. They want to save, they want to earn the highest possible interest and they want to have their money in a safe place.

That's why they came to us.

FIGURES DON'T LIE.

Check the figures below and compare the interest rate you're getting with the interest rate we're paying. And remember, too, that our interest is paid and compounded quarterly.

And your savings account is insured up to \$20,000 by the Federal Savings

and Loan Insurance Corporation.

If you are one of the people who don't get paid enough interest, there is something you can do about it. And we would like to help.

Take a good look at these rates and compare them with your present plan...

S1,000	5%	Annual rate for one-year certificate savings. Interest paid and compounded quarterly. Effective annual rate 5.09 %
REGULAR ACCOUNT No Minimum	41/2%	Annual rate. Daily interest paid and compounded quarterly. Effective annual rate 4.58%

Here's what you need-a Gas incinerator. It takes all the bother out of garbage and trash disposal. And it does it without smoke, odor, noise or polluting the air you breathe.

A Gas incinerator gobbles up all the combustible things you wouldn't dare put in a garbage disposal and can't burn outside. It makes short work of bones, boxes and boots-in fact anything that's combustible. And it does the job conveniently and completely.

So put an end to your carry-out service. Promise yourself you'll see your appliance dealer about having a Gas incinerator installed in your home. Or, visit your Michigan Consolidated Gas Company showroom for all the particulars. And remember, there's more than enough Gas for all

One think before an accident of Superintendent of Schools in traffic is worth a million re-Spikes Circulated Rumors

Mrs. Richard Schmitz, of if some of the rumors being Madison avenue, attended the circulated in the course of the meeting of the Grosse Pointe Board of Education campaign for seats on the board were

Board of Education on Monday, May 24, to ask Super-intendent Theos I. Anderson Special Days...

She asked five questions: Is any political organization using the school computers? Are there 28 teachers being paid and sitting home doing absolutely nothing? Does 58 percent of the budget pay for salaries? Has next year's budget been already prepared and sent to Lansing without the School Board seeing it? Does the school system have three sets of books?

Dr. Anderson said that the system has no school computers. He said the system does have some consoles in the instructional programs that are tied to computers but to his knowledge nothing has been used or developed on

As to the 28 teachers, Dr. Anderson said "if 28 of them are sitting at home doing nothing I don't know of it. He added that he imagined this reference was to the "so-called" over-staffing at the opening of school when they found approximately 300 students less than anticipated. 'According to the pupil-teacher ratio that we had projected for these 300 teachers we had eight more teachers than the original ratio. Now all of these teachers were busy but what it actually meant was that a class that was projected for 26 sudents may have 25 studeats. No one is not working,

to my knowledge any way."

President Thompson the n
asked Lawrence Kennedy, superintendent of personnel, if there was even one teacher sitting at home doing nothing and Mr. Ken-nedy answered, "not one."

In answer to Mrs. Schmitz's question, "Does 58 percent of the budget pay for salaries,?" Dr. Anderson said no. He addthat if Mrs. Schmitz was referring to instructional salaries, 58 percent of the budget might be close but the total salary figures according to Dr. Anderson are slightly over 80 percent. He continued, "We have a budget of \$15,400,000 and it is easy to find \$13 million plus dollars in salaries. Instruction salaries come to \$10,600,000; administrators, \$474,000; attendance or social workers, \$174,000; health, these are nurses, \$26,000; operation, \$1,078,000; maintenance \$132,000; library, \$441,-000; food service, \$14,000.

of whether next year's budget had been already prepared and sent to Lansing without the board having an opportunity to see it, Dr. Anderson said, "The only thing that I can imagine that would be said, is we have appeared before the Wayne County Tax Allocation Board which is an annual appearance. In fact just tonight I received approval of the amount of millage within the 15 mills. We were down there some time in May and we received a bulletin, March 11, indicating that this 19th of April budget had to be filed with the County Clerk on or before this date. Then there were instructions on how we should file the budget. They gave us instructions to use 1970-71 state aid formula for computing revenue. We said we also know that this is what is going to be. Well this is how you do it. So there were some preliminary figures, as has happened every year for I don't know how many years. We appeared before the County Tax Allocation Board to apply for

"Now there has absolutely no budget been prepared and sent to Lansing but let me say at least one other thing. Some time ago the Michigan Associaion of School Administrators requested some data for the implementation of what they called the Equal Quality Plan, a proposed State Aid Bill MASA 1970 in which we sent to Harry Howard, the Superintendent at Wayne. This was information based on our 1970 budget—total 1970 SEV; the operational budget, the school district general fund operation budget 1970 approv ed or estimated by the various areas; capital outlay, community service, in which they are trying to develop a State Aid plan based on this formula. Unless somebody by a stretch of the imagination says this is a budget sent to Lansing, the answer is absolutely and categorically no."

this 8.9 mills within the 15

mill limitation.

Mrs. Thompson added, "I have a feeling it is the Allocation budget that probably has been talked about. Under the Constitution the County levies 15 mills, or may levy 15 mills without approval of the boards. Every year they make the school districts come in and justify their expenditures to decide so the County Allocation Board can decide as knowledgably as possible how much of this 15 mills they will save out for the County and how much they will return to the schools and the figures haven't changed I guess since the new Constitution was adopted in July 1960, but every year they put us through our paces to describe to them what we are doing with the money and since they do this so early in the year they are making us use last year's sta-

tistics to base it on." In answer to the question as to the number of sets of books the school system maintains, Dr. Anderson said that at the last board meeting evidence from the local bank, the auditor, the Intermediate District and from the state was provided which stated that the system is keeping one set of books in accordance with the Michigan Accounting Manual.

Here a by-play followed during which time Arnold Fuchs vice-president said, "Three sets of reports there are."
Mrs. Thompson suggested
Mrs. Schmitz read the minutes of the last meeting in which commendations from the state and county were a matter of record. Once again, Fuchs interjected, "Three dif-ferent financial reports, yes." Alfred Glancy, Jr. then added

'Those are given under law. It is the question of how you construe this as the books and reports." Fuchs countered with "There are three varying reports going out . . .

here's the help you need each week

by Donald A. Macdonald, Vice-President Dow Jones & Company, Inc.

If you're like most people here in the Detroit area, chances are you spend most of your time and energy on matters that affect yourself day-in and day-out: struggling to get ahead in the world . . . enjoying your home, your family, and your friends . . . making your community a more rewarding place in

which to live.

So when it comes to the news, doesn't it make good sense for you to know not only what is happening, but how these events and issues actually affect the way you live?

If so, then I want to tell you about an entirely different kind of newspaper: The National Observer, the national weekly newspaper for the business of living. The Observer is published by Dow Jones & Company, the same people who publish The Wall Street Journal for the business of making a living.

Each week, The Observer helps its more than 1,800,000 readers with a fresh, new kind of reporting. Its pages are packed with news that relates to them... news that's useful... all in addition to a complete round-up of the major news of

all in addition to a complete round-up of the major news of the week.

Now you and your friends in the Detroit area are invited

to see for yourselves how useful The Observer can be to you. For only \$7 you can have the next 52 weekly issues delivered

The moment you have your first copy of The National Observer in your hands, you'll be intrigued by its comprehensive, clear coverage of the news that can affect you day-in and day-out. For example, in recent issues The Observer has provided readers with the facts they need on subjects such as... -The crisis suburbia faces as a result of multi-family housing being subsidized by the Federal government.

-How aggrieved taxpayers can now take the Internal Revenue Service to court without having to hire an altorney. -The dramatic effects which the growing four-day work week is having on Americans' living and leisure patterns.

The benefits you may reap from recent Congressional legislation outlawing 14 deceptive consumer trade practices. Whatever the news, if it's newsworthy and interesting, you can trust The National Observer to keep you informed about it: world events, national issues and politics, consumer affairs, sciences, the arts, education, business, and much more.

In fact, a recent TIME-Louis Harris Poll showed The Observer to be one of the most trusted newspapers in the U.S. And The Observer has won awards for its editorial excellence for the last six years.

And The Observer has won and for the last six years.

Does this sound like the kind of newspaper you need for the business of living your life? Then I invite you to try The National Observer for a year at a cost of only \$7...less than 14¢ an issue. What's more, you have my personal guar-

Several thousand private lines in 'The the communication gap until 3:30 Thursday morning with some of the facilities at when service was restored. Jack Cheney, 23, of 1084 the municipal police stations.

The cause of the sudden breakdown of service was apparently the result of a collapse of a part of a wall at Michigan Bell's Tuxedo office, 17045 Mack. When the wall collapsed, water seeped in and flooded some of the equipment, reported James Oberliesen, community relations manager. Also, it was reported, some of the damage occurred when cables outside of the office became wet.

The most severely affected phone lines were those that began with the 88-1 and 88-4 exchanges. Most of the trouble centered around the inability of those lines to accept any incoming calls, although most of the customers dialing from those numbers could make contact. Many of the 88-1 and 88-4 numbers remained defective until late Friday, May 21, affecting several thousand customers.

Also, emergency action was taken by all the Pointe municipal police stations when the phone damage occurred. Pointe police departments reported that the police radios in the scout cars were able to receive messages but couldn't transmit. Portable radios which are carried by each patrolman were then used on full service basis.

Farms Chief Robert K. Ferber told the NEWS that the antennas on all the car radios are fed by a Tuxedo exchange phone cable and are affected by service disruptions at the Tuxedo office.

Deplorable Apathy

The Village of Grosse Pointe Shores held an election Tuesday, May 18, in which four trustees and a village president were elected. All of those elected were incumbents and all of them except one, were unopposed. The almost totally predictable results of the election probably had a great deal to do with the amazingly small turnout of voters. The tiny contingent of 164 voters represented just over nine percent of the total number of registered voters in the Shores.

Municipal affairs can be matters of great importance to the residents and, although it can be understood, though not excused, why the small turnout, it's surprising that there were so few candidates. The lack of interest in city management may be more than

just a sign of apathy.

In a speech last week in Detroit, Governor Milliken referred to a huge credibility gap, a cynicism of the people toward their governments. He said the people have been "inundated" with promises and disappointed with results. He said this is creating a paradox in that nothing will be done until people start believing in their government and people won't start believing until something is done.

This is not to say that Grosse Pointe Shores is under bad management, but as far as the village is concerned it is sad that the interest is not there to create an exciting race for office. The management of village affairs from tax assessments to expenditures should be of great concern to Shores residents. Great enough so that more than just one community-conscious citizen would try to prevent the election results from being totally automatic.

Public Schools in Focus

Staff curtailments neces | money has been used for the sitated by the failure of the March 15 operational millage continue to receive widespread works were so pleased with publicity. For the sake of accuracy, let me repeat the would seem probable that a total percentages of personnel project like this could be very cuts, category by category, successful in a community for the two-year period in question: Administration - 20 percent; Teaching - 171/2 percent; Plant - 81/2 percent;

Office-10 percent. A recent study compiled by the schools' Department of Instruction translates these percentages into specifics for 1971-72. For example:

1. The professional staff of the library at South High School will be reduced by 25 percent and by 20 percent at

North. 2. Third and fourth year Latin have been eliminated from the curriculum at North next year because the enrollment of the projected classes was too low. At South High School, the advanced Latin courses will be incorporated

into the second year Latin 3. Class sizes at the senior high school level will be sharply increased—with some en-rollments of 32 to 34.

Certain extracurricular activities will be curtailed at the secondary school level. All details are not presently

known. 5. The school system has also been forced to reduce by over 50 percent its funds for

in-service training of teachers and for exploring improved opportunities in instruction. Among the projects delayed is one designed to develop a course in basic grammar.

6. Teaching load in the senior high school English departments will be increased. Enrollment minimums in the highly successful elective program have been increased from 20 to 25. Many teachers will have more students per class and some will have an additional class. The teaching of composition and other written work may be expected to suffer as a result.

7. The administrative cutbacks will mean less supervision of teachers and students.

8. In both senior high schools there will be less supervision of students by professional staff menibers than has been the practice.

9. Library and resource center staff curtailments in the middle schools will amount to 50 percent and in the elementary schools it will be 45 percent. The shortened work year of the Elementary Resource Teachers will mean that there will be less ade-quate preparation for the opening and closing of the library facilities.

The preceding list is by no means comprehensive. However, it will give readers some insight into the problems we program development. This face in planning for 1971-72.

What Goes On at Your Library

Naughton monthly quota. They are all hot off the press, and many of them, I suspect you have been reading about.

First of all there is James A. Michener's KENT STATE: WHAT HAPPENED AND WHY, As Mr. Michener says in his preface: "This could be your university. The students and National Guardsmen could be you, or young people in your neighborhood, or, if you are old enough, your sons and daughters. The city of Kent could be your community. That is why you need to know what happened to you, so that you can prevent it from happening." The book deals with far more than Kent State. The author explores the malaise that today has attacked university students in America and throughout the world - showing how the turmoil at Kent State fits into the large pattern of violence that has overwhelmed campuses and society in general,

If you watch television or listen to the radio, I'm sure you have listened to or seen Ellen Peck, author of THE BABY TRAP - a devastating attack on the motherhood myth. The author shows how to avoid the trap, and explores the many rich alternatives for the girl who has the courage to exercise her freedom of choice. Many may agree with her premises — and others will be violently against her attack on tradition.

GOLDA, by Peggy Mann, is the biography of Golda Meir, one of the great human beings of our time. At the age of 23 she left this country for Palestine to fulfill the dream she had had since childhood helping rebuild the homeland. This is a fascinating book fast-moving, absorbing and suspenseful. Everyone called her "Golda," and when you finish the book you will be doing the same thing.

It's time again for a new Maigret! So, here we have MAIGRET AND THE WINE MERCHANT by our old friend, Georges Simenon. This book deals with a murder, but it is also a psychological story, for the author is preoccupied with the idea of guilt.

If you've followed the career of Albert Schweitzer, you will be interested to know that there is a new biography out tired man in a pith helmet,

The Junior League of Detroit held its annual general membership meeting yesterday at the Country Club, with President Mrs. Henry M. Woodhouse, of Renaud road, officiating as three new officers prepared to assume their League responsibilities.

Mrs. Julius J. Huebner, of University place, is the group's new second vice-president. Cynthia, a native Detroiter, has been a member of the Junior League since 1961, working in many different areas. Her outstanding performance earned her a Placement Award in 1965. She's been active, too, at Pierce School, and served on the 1970 Planned Parenthood Christmas Mart arrangements committee.

Assuming the job of assistant treasurer is Mrs. R. Patrick Duffy, of Bishop road. Jane has been active in the Junior League since 1962 and is presently working as a Tour Guide at Children's Hospital. She continues to be involved with Girl Scouts.

The new recording secretary is Mrs. James F. HALLEJEAN SPAULDING, of Brock, of Hampton road. Babs came to the Junior Balfour road, were members League of Detroit in 1967, a transfer from the Norfolk Va., League. This is an appointment book.

It's big and thick and has lots of lines and columns and we try to adhere to it faithfully. Mostly we do. Sometimes we err. Because somebody before you took a little longer than we anticipated. Because another somebody was unavoidably late. Sometimes just because we're human. When we do, we try to make the waiting as short as possible. The point is this: if you'd like an appointment book that takes itself seriously, see us. Ours isn't perfect. But it tries harder,

Library Offers New Programs

This summer the Children's Department of the Grosse Pointe Public Libraries is having a new and different program to replace the movies of previous years.

There will be a Magic Carpet Reading Club for all school-age children who have completed grade one and up. Children may come in to their nearest Grosse Pointe Library to choose books and fill out a Reading Record Booklet, Ten books must be read by August 31 to receive a certificate.

A special treat for the younger children (grownups invited too!), will be stories outside on the library lawn, a halfhour weekly program at all three libraries. This program proved to be popular at the Park Branch during the last two summers. Central Library will repeat the successful Club of past seasons. Creative Dramatics, an exciting group activity introduced in the Spring, will resume at Park and Woods Branches.

There is something for everyone at the library this summer, so call your nearest branch for dates and times: Park Branch, VA 2-2336, Mrs. Neff; Woods Branch, TU 1-2640, Miss Preuthun; Central Library, TU 4-2200, Miss Adams or Miss Helms.

13-REAL ESTATE FOR SALE

OPEN SUNDAY 2:30 to 5

AT 300 LINCOLN ROAD you'll ramble about in the luxury of gigantic rocms with six natural fireplaces, and full tile baths for each bedroom. The entire house has recently been "redone" by one of the Pointe's best known decorators. Outside painting of the house and carriage house is being completed this week. There is a new driveway with plenty of parking . . . So drive or walk over Sunday and see how new an older house can be.

SUMMERTIME and living near the water becomes even more attractive, so why not take a gander at what we have to offer at 21 S. Edgewood, Only two doors off Lake Shore Road this rather new ranch house boasts two large bedrooms and a third which is paneled, and so could be utilized as a family room. The owner has expressed his willingness to sell with a price reduction to \$56,500. A land contract would also be ac-

BY APPOINTMENT

AN ENGLISH MANOR house sits majestically on Lakeland Avenue in the first block off Jefferson. If five master bedrooms are not sufficient, we can show you three more on the third floor and a complete apartment over the attached three car garage.

TOWNHOUSE living offers the advantage of minimum exterior maintenance, security of close neighbors and proximity to public transportation and shopping areas. Combined with these features we will show you a terrace with spacious rooms throughout, which include four bedrooms on fne second floor and two more on the third. Off the entrance foyer is a small library and that important first floor lavatory. Both kitchen and butler's pantry have been updated and the spacious living room has a natural fireplace,

THE ALWAYS POPULAR Lincoln Road is the setting for this brick house with four bedrooms and three and one half baths. The first floor plan includes a den just off the wide center hall, a large living room, separate dining room and completely new combination family room and kitchen. At a price less than \$50,000 this one should sell pronto.
