The bands sight-reading performance was adjudi-cated by Maurice Riley, Eastern Michigan University. "This is an excellent band? The sight reading of 'Deliberations' (by Donald Stautien) was well done-this is an extremely difficult test with complex rhythms and many tricky entrances. Bravo!"

North's Symphony Orchestra played for the same adjudicators later in the day. Once again, they were most complimentary.

You don't win 18 Grand Prixs without learning a thing or two.

On July 15, 1934, an incredible thing happened in racing. A Mercedes-Benz didn't win the Grand Prix. For that matter, neither did an Alfa Romeo or a Maserati.

It was an Auto Union car (that was Audi's corporate name back then), designed by Dr. Ferdinand Porsche and driven by Hans Stuck that thundered past the checkered flag first.

Five weeks later, we took the Swiss Grand Prix. And then the Czech Grand Prix. In

fact, we chalked up a grand total of 18 Grand Prixs. Plus 16 Hill Climbs. And even the coveted Vanderbilt Cup, held at Roosevelt Raceway, New York, where the great Bernd Rosemeyer and his sixteen-cylinder monster charged home to victory, with Rudi Caracciola's Mercedes and Rex Mays' Alfa trailing far behind.

We raced for glory and prestige and that "gut feeling" only drivers can put into words.

We also raced for knowledge. For what better way to test the mettle of a car than in a race, with all its grueling banks and curves, with the competition breathing down your neck.

Today we no longer race. But we've learned enough from yesteryear to have a lot in common

with cars that do.

For example, our new Audi has rack-andpinion steering which is the most direct steering system a car can have.

It's got a servo-thrust synchromesh transmission that makes shifting quick and precise.

The Audi has independent front suspension so you get more control with fewer jolts.

And a rear axle with twin adjustable torsion bars for precise road holding.

Of course, the Audi also has quite a few features that racing cars don't have. Like front-wheel drive. And seats that are not only very plush, but also very comfortable. (They were designed by orthopedic surgeons.) And enough legroom and headroom for just about anybody's legs and head. We're as proud of our car today as we were on that hot July day of '34 when we won our first Grand Prix. And we're as determined now, as we were then, to reach a standard of excellence no other car manufacturer can hope to attain.

And experience is indeed a great teacher.

At NBD, it's the same low flat closing fee, no matter what size house you buy

At NBD, we have a closing fee that has nothing to do with the size of your mortgage.

Instead, it's one low flat fee. One low flat fee whether you're buying a \$20,000 house. Or a \$100,000 house. So you might say, the more your mortgage, the more you save at NBD.

Quite possibly save enough to pay for a new chair. A couple of tables. Perhaps even carpet a room.

And when you get your mortgage from NBD, we'll also give you a good estimate of how much your total cost of closing will be – including our fee, insurance, prepaid taxes, everything.

Which means, at NBD, we'll not only save you money on your closing costs. We'll also save you from any unexpected surprises when you sit down to close. And those are just two of the reasons more people come to us to finance their new home than to any other bank in town. Come see us.

Three youths went to the Shores Officer collecting for the Detroit News but, not recognizing any of the individuals as her regular newsboy, the resident declined to pay.

The resident also stated that several neighbors have indicated that the subjects are coming to their homes collecting for the Detroit Free Press, and that these individuals aren't the regular paper route boys.

The game of Tuesday, May 9, showed Hawaii that Portland was for real as Portland, won, 12-9. The contest, called after five innings because of darkness, was close all the way but the solid hit ting of Mike Miakwic, Bob Dice and Gary Gorenflo, plus the pitching of Tom Martindale, proved to be the difference.

And Spring is one of Grosse Pointe's Finest Moments. Now, the 11 square miles of Grosse Pointe are alive with the sights and sounds of the new season.

You'll see the obvious beauty of Lake St. Clair,

- ... the towering trees
- ... the plush green lowns
- ... the six private lakefront parks for residents only
- ... the busy tennis courts
- ... the active baseball parks
- ... the quality and service-minded stores
- ... the many community facilities which offer a wide variety of activities to its residents . . . each lending and sharing their skills to give us even more reason to be proud of our community.

It's the same all year round and year after year.

Grosse Pointe homes range in sizes from modest houses to estates.

They are purposely individual.

If you want to live in a beautiful established community . . . MAKE GROSSE POINTE your home.

Last 'Green Thumb' Lecture

By next Wednesday, May 24, those who survive today should have recovered sufficiently to show up in the Garden Center Room of the Grosse Pointe War Memorial, bright-eyed and eager to hear Gerald Draheim, of the Wayne State Extension Service, present "Ideas or Suggestions for the Planting and Care of Annuals and Perennials in the Garden."

Last scheduled speaker in this year's series of Grosse Pointe Garden Center-sponsored monthly Green Thumb Talks, Mr. Drahelm starts his program at 10 in the morning. He promises an inspiring hour.

Incidentally, anyone who hasn't bought a bathing suit yet and can't remember where she carefully put away the pads for the lawn furniture last fall might consider, in awe, the accomplishment of Mrs. David C. Lowe, Mrs. Stanley F. Dolega and Mrs. Paul Giffen.

Mrs. Lowe, chairman of the 1972-73 Green Thumb Lectures, assisted by the Mesdames Dolega and Giffen, has next fall's Garden Workshop Schedule all set up. The first one, promised for the end of October, is a winner! (Sorry, we can't tell you anything more than that, now . . .)
